**New Pay Indicated In Dollarhide Field**

A new pay for the Dollarhide field of extreme Southwest Andrews County has been indicated at the Union Oil Company of California No. 1-H Cowden, on the southwest side of the heretofore proven acreage. This project developed a considerable amount of free oil in a drill-stem test of the Clear Fork-Permian at 6,650-6,770 feet. The tool was open three hours. There was a good blow of air throughout the period. Gas showed at the surface in seven minutes. The volume was not gauged or estimated. No Water Developed. Recovery was 1,350 feet of clean oil and 180 feet of drilling water. There was no sign of formation water. The prospector is now making hole below 6,850 feet in line. It is located 660 feet from west and 330 feet from north lines of section 14, block A-55, pal survey. There is production from the Wichita-Albany zone of the Permian in other sectors of the Dollarhide field. That horizon is considerably below the Clear Fork, however. The Union exploration may develop into a discovery of commercial production from the shallower formation. In addition to the Wichita-Albany production in the Dollarhide field that region also has flowing oil from the Devonian, the Silurian and from the Ellenburger. The Simpson has also shown for possible production in that field.

**Ellenburger Wildcat Slated For Runnels**

An Ellenburger wildcat is to be started by March 1 in North-Central Runnels County by George W. Strake of Houston as his No. 1 B. A. Jacob. The drillsite is 660 feet from north and west lines of a 240-acre tract in the southwest portion of J. Hensley survey 83, about four miles northwest of the town of Winters. The deep zone is expected to come in above 5,500 feet. Rotary contract has been let to C-B Drilling Company of Abilene.

**Condr Completes Lehn-Apco Flanker**

An extension to the Lehn-Apco field of North Pecos County has been completed by Condr Petroleum Company. The concern's No. 1 G. T. Abell, 330 feet from northeast and northwest lines of the Abell lease in section 35, block 10, H&GN survey, flowed 24 hours, H&GN survey, and made production of 10 barrels oil daily. Gravity of the petroleum was 35 degrees. Gas-oil ratio was 360-1. There was no water. The pay section was at 1,900-2,000 feet in the upper Permian.

**API To Hold Odessa Meet Friday Night**

D. (Bill) Lane of Midland, president of the chapter will preside. Early N. Spilars, also of Midland, is program chairman.

**Southern Minerals Testing In Andrews**

Southern Minerals Corporation was drillstem testing the top of the Wolfcamp-Permian with its No. 1-A University, wildcat between the Sharkey Lake and Fullerton fields of North-Central Andrews County. The venture was bottomed on 8,445 feet, with packer set at 8,425 feet. After the tool was opened, a blow of gas showed at the surface five minutes after the packer was set. The tester was still open on last report and the blow was continuing. Location is 660 feet from north and 1,980 feet from east lines of section 11, block 13, University survey.

**Gas Signs Develop At Gaines Wildcat**

A lime formation tentatively identified as the Wolfcamp-Permian in West-Central Gaines County made slight gas signs for Pacific Western Oil Corporation No. 1 Oil Development, deep wildcat, 660 feet from south and east lines of section 315, block G, CCSD&RGNG survey. A one-hour drillstem test at 9,335-9,415 feet recovered 160 feet of slightly gas cut mud with no shows of oil or water. The prospector was to drill ahead. The current formation has not been identified by the operator.

**Upton Discovery Resumes Testing**

Magnolia Petroleum Company No. 1-A TXL North-Central Upton County wildcat, 30 miles south and slightly west of Midland and 960 feet from north and west lines of section 31, block 40, TP survey, T-4-S, was flowing approximately seven barrels of oil per hour from perforated section at 12,780-820 feet (Continued on Page 9)

**Silo-Dwelling Hereford Major Problem Of Oklahoma Rancher**

YUKON, OKLA.—(P)—Hi diddle diddle, the cat and the fiddle, the cow jumped into the silo. And Bill Mach ain't laughin'. He's gotta get her out. But how is he going to do it? It was a blatant day Tuesday at the Mach ranch south of here. The cow—a 1400-pound purebred Hereford worth \$1,000—was sick. The vet came and treated her. When it was all over they untied bossy and let her go. She went—for Mach. Mach is no matador but he jumps fast. The cow's horn ripped his shirt pocket as she thundered by. When Mach opened his eyes—no cow. "I looked at the hired man and I looked at the doc," said Mach. "They were standing with their mouths open." Mach's jaw drooped too when they showed him. The cow had jumped through a tiny feed door into the silo. It measured just 17 by 25 1/2 inches. That's roughly the size of a newspaper page. And you know what a cow is. There could be no doubt. There was the cow in the concrete silo. There were a few red hairs on the door sill. Yet there wasn't a bruise on bossy, said the vet. Since then Mach has been tearing his hair. He can't leave her in—she's gaining weight. He can't get her out—she's too big already. He can't push her—she'd jam

### Golden Cranes Win Many Cage Crowns

CRANE—Shading Iran 34-33 recently in District 87-B final play. Coach Brady Nix's Golden Cranes represented him his seventh district championship in nine seasons. Since 1940 when Coach Nix began his reign, only two teams in the district have brought down the cranes. Grandfalls did it once during the war years and Port Stockton did it one year ago. However, last year's Cranes qualified for the region tourney as district runner-up. Myron Holcomb, center, and John Hickey, forward, were named on the all-district team this season. Honorable mention was won by Jimmy Stacy, forward and Bill Teague, guard. Crane loses but one regular through graduation and fans may look for a strong team in 1950.

## Down SPORTSLANE

—With TANNER LAINE

Baseball, because of the Danny Gardella case, has developed a sudden and overpowering interest in the law. This spring, you may hear these expressions: "Hear ye, hear ye, this game is now in session." "The assault and battery for today's game . . ."

"Jackie Robinson attempted to steal second, but was apprehended." "The next witness for the offense is Stan Musial." "The game isn't finished until the case is dismissed."

—SL—  
An all-star team of bowlers from Kermit will play a feature inter-city match at 2:30 p. m. Sunday in Plamor Palace here meeting the George E. Failing Supply keggers of Midland. Incidentally two Midland bowlers are burning up the alleys at Dallas. There are Ernie Crites and Elton Lewis.

—SL—  
Track is due to get underway at Midland High March 1. Coaches Joe Akins and Jack Mashburn will tutor the thinny clads. Best returning prospect is Larry Messersmith, a better than average high-jumper. The Bulldog tracksters were pretty well shot by graduation but an eager squad is expected. The district meet will be held in Midland this year. It will be held at Memorial Stadium.

—SL—  
Several of the Brooklyn Dodgers are top-flight basketball players. Among the best basketballers are Ralph Branca, Eddie Miksis, Gil Hodges, Paul Minner, Rex Barney, Preston Ward, Jackie Robinson (who led the Pacific Coast Conference in cage scoring two straight years), and PeeWee Reese, who is a nifty playmaker, shifty floorman and dead shot.

—SL—  
ROUNDIN' UP THE STRAYS . . . A letter from Harvil Jakes, Indian outfielder last season, tells Harold Webb that he (Jakes) has gained 10 pounds after having his tonsils out and is set for a good season . . . But doggone it, Jakes is going up to higher company with the Oklahoma City Indians . . . Perry Roberts, Lamesa sportswriter, picks an all-District 3-AA team but he leaves Larry Messersmith of Midland off the first five . . . How can he do this? He can't if he knows basketball because Messersmith was the cream of the crop in the district last season . . . We wonder how many South-west Conference schools are after ANY of the Lamesa players of last season . . . We do know that one of the best in SWC is very anxious to get Messersmith . . . It is a losing cause when dealing with prejudice but any way, Messersmith made three all-tournament teams and scored 287 points in 21 games during the season . . . He was the most feared cager in the league . . . The Lamesa honor would have been small indeed compared with his others . . . The Sweetwater Swatters have signed Jesse J. Priest, Jr., a right-handed pitcher . . . He's a six-footer and weighs 175 pounds . . . Odessa's Oilers have 14 signed contracts on the line, so says the management . . . Oklahoma City has sent Carriel Nipp, ex-Midland outfielder, to the Roger Hornsby School at Hot Springs, Ark. . . Sweetwater's new \$31,000 ball park can be converted for rodeos and horse shows . . . Odessa High's nucleus for this year's baseball team is two pitchers, Oscar Roth and Jackie Thomas . . . Roth won seven of Odessa's eight wins last season and Thomas copped the other . . . We thought it a nice gesture on the part of the Lamesa newspaper that an appeal was printed for fans of that city to be good sports to the visiting Bowie (El Paso) team, which is composed in the main of Latin American boys . . . Lanky Sam Van Hoozer, the double-clutch pitcher, visited Midland and Webb the other day . . . After his more than mild success last season, Van Hoozer has a high regard of his services for pay . . . Webb is not apt to meet Van Hoozer's first demands . . . We are not criticizing Sam alone, but some Longhorn League players often forget they are working in a Class D setup . . . They have the dreams they are Fellers, DiMaggio and Williams . . . The figures they want on their contracts would stagger big league outfits . . . In view of the potential power, that is . . . 30 for strays, the cook is banging on iron at the chuck-wagon.

The Gamma Delphian Chapter of Big Spring entertained the Delta Chapter of Midland with a tea in the home of Mrs. J. Y. Robb in Big Spring Thursday afternoon, when Mrs. Taylor Cole of the Midland chapter was the speaker.

Mrs. Cole was presented in a travelingogue, giving experiences of a recent trip to Europe.

Delphian colors, black and gold, decorated the Robb home. The tea table was centered with the golden yellow blossoms of jonquils and acacia, tied with a black satin bow and arranged in a silver tureen. Sandwiches and cookies served with the tea were in the shape of Delphian Society emblems.

The party which went from Midland included Mrs. Cole and her house guest, Mrs. Cherit Cole of Los Angeles, Mrs. P. N. Shriver, Mrs. C. H. Bessell, Mrs. Charles M. Linehan, Mrs. Woodrow Campbell, Mrs. E. W. Cowden, Mrs. Harold Kelly and Mrs. Brutus Hanks.

## Music Association Concert Scheduled For Friday Night

Civic Music Association members will hear the second concert of the season in the Midland High School Auditorium Friday night, beginning at 8 p. m. A young French violinist, Devy Erlich, will be presented.

Admission will be by membership card only; no single admissions to the association concerts are sold. However, membership cards are transferable and since the Midland association has a full membership, those who hold cards but do not expect to use them are asked to permit their use by others on the waiting list.

The artist who is to give the concert is a native of Paris, of Russian parentage, who first earned his reputation in Europe. He made his first tour of the United States two years ago, at the age of 18, and has been much in demand for concerts since.

## Jean Hutto, Former Midlander, Married In Shawnee Church

The marriage of a former Midland resident, Jean Hutto, to Robert J. Owens was solemnized Thursday night in the First Baptist Church of Shawnee, Okla. Both have been residents of Shawnee recently, but Mrs. Hutto was employed in Midland last Summer.

Anna Joyce Streeter, a former schoolmate of the bride in Oklahoma Baptist University at Shawnee, went from Midland to be one of her wedding attendants. She was joined in Oklahoma City by Ruby Hale, another former Midlander, who was also a bridesmaid.

Mrs. Owens is the daughter of the Rev. and Mrs. C. G. Hutto of Liberal, Kan. She was employed with the North Oklahoma City committee during her residence in Midland, and lived in the home of the Rev. and Mrs. Raymond G. Hall.

Miss Streeter is visiting over the weekend with her sister, Alma Ruth, who is a student in Oklahoma Baptist University, and is expected to return home Sunday.

## Final Tryouts For Community Theater Play Are Postponed

Final tryouts for roles in the next Midland Community Theater production, "Pygmalion," have been postponed from Friday night to Monday night, Art Cole, director, announced Friday morning. They will be conducted in the City-County Auditorium.

No roles have been assigned yet, Cole said, and no assignments will be made until after the final readings Monday. He said there is especially a need for additional tryouts for the older characters in the play.

Since this production will be given "in the round," that is, in the center of the auditorium rather than on the stage, it will be difficult for young persons to take the roles of older characters because too-heavy makeup could be detected by the audience.

Both men and women are needed for the character roles—the Cockney father, the suspicious housekeeper, the aristocratic mother, the bluff colonel and others. Cole emphasized, however, that additional tryouts for the younger roles still are invited.

U.S. Must Keep Europe Free

The Senate opened debate on the North Atlantic alliance by rediscovering a familiar provision of the Constitution. That provision reserves to Congress the right to declare war.

These arguments raise some questions that are left unanswered. Does our lack of responsibility for Europe's disagreements mean that we can avoid becoming involved in their consequences?

We do not mean to cast doubt on the sincerity of the men who raised these questions. The senators want to avoid war. They want to preserve both liberty and peace.

Despite its ups and downs, that policy has been shaped with certain unmistakable facts in view: Russia cannot hope to achieve world revolution without conquering the United States.

These are generally accepted realities. The Senate has faced them with arguments more appropriate to the 1920's than to the present.

The Soviets may attack us obliquely, but that should not deceive us. The preservation of our own freedom and that of non-Communist Europe is not two separate tasks.

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Drew Pearson says: Gratitude Train's French railroadmen returning to France filled with enthusiasm for America and the American people; will be ambassadors for continuing, important Franco-American friendship.

WASHINGTON—(P) — The historic journey of 49 French "40 men & horses" boxcars through the U. S. A. is just about over.

The French committee of railroad men, who spent months collecting the gifts which filled these cars, did not have the pleasure of seeing President Truman.

Most of our official ambassadors give dinners and cocktail parties to which the upper crust of government are invited but it's the people of European countries, not the upper crust, who are deciding issues today.

The government of France which signs the North Atlantic Pact may be out of office the following day. But the people of France go on forever.

What most Americans don't realize is that Moscow, up until a year ago had made great inroads upon the French and Italian people.

And so on—The hospitality list of the American people is too long to mention here and the net result is that these Frenchmen are going home enthusiastic and roused for the U. S. A.

These French railroadmen, on the other hand, mingle with the workers of France—the people the Communists are trying to wean away and who to some extent have already been weaned away.

Take the case of M. Charles D'Hague, a shop foreman of the French railways, as a member of the Gratitude Train.

These Frenchmen are going home enthusiastic and roused for the U. S. A. They did not get to know Washington officialdom but they did get to know the American people.

For they saw the importance of this people-to-people government and they, together with the government and a large part of the rest of the American people, gave the French the rousing welcome they so well deserved and will always remember.

THE DOCTOR SAYS

Bursitis Is Painful, But Usually Responds To Simple Treatment

QUESTION: My daughter has a bluish under her eye which looks like a broken blood vessel. It started the size of a pin hole and is now about a quarter of an inch wide.

ANSWER: Diagnosis of exactly what is wrong should be made, as it might be dangerous to leave such a condition without treatment. Just what it is cannot be told except by personal examination.

THE STORY: John Henry and Sin Conover, vacationing in a desert, are deeply involved in a murder case. They are in the desert, and Sin is nearly kidnapped by Guyner and Vernon, two employees of the ranch.

THE BUICK seemed to be lagging behind. John Henry, keeping anxious watch in the rearview mirror, lost sight of the big black car for moments at a time as they raced up and down the rolling hills.

John Henry braked, gassed and swung the wheel simultaneously. The Mercury bounced off Highway 99 onto the dirt road.

Sin peeked out from behind her arms. "Johnny! What are you stopping for? They'll—"

John Henry waved her silent. He was half-turned in the seat, watching what he could see of the main road through the back window.

Marshall Plan's 'Counterpart Funds' Aid European Recovery

By PETER EDSON NEA Washington Correspondent

WASHINGTON—One of the more complicated and least understood phases of Marshall Plan operations which Congress is now wrestling with concerns the use of the so-called "counterpart funds."

When ECA—the Economic Cooperation Administration—gives American Marshall Plan goods to a foreign government, they are sold by that government through its regular trade channels.

Under the ECA law and the treaties between the United States and the Marshall Plan countries, the U. S. government is given control over how these funds are spent.

There is nothing particularly new about the counterpart fund idea. To a limited extent it was used by UNRRA in its postwar relief program.

He established Pecos' first telephone system in 1900, and built long distance lines to Midland and Fort Stockton. # ASK...SEEK...KNOCK!

Everyone knows that success comes not to those who merely desire it, but to those who achieve it through long, hard work. It is odd then, that in the spiritual area of life some people should expect blessings to come for the asking. Those who really understand PRAYER know that it's more than mere asking. It is seeking. It is the hungry search for truth and moral enlightenment...digging for spiritual gold in the hills of life. But PRAYER is something more even than seeking. It is knocking...meeting life's obstacles bravely...waiting with patient determination until closed doors open...entering portals that the more timid pass by. We wouldn't really need churches if spiritual growth came for the asking. But we do need churches to help us seek the treasures of God. And through our churches, with the united strength of millions of Christians, we knock on the portals of the more abundant life—and there find it.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Daddy Ringtail

### Daddy Ringtail And Duel In The Shade

By WESLEY DAVIS  
The Huffen Puffen, that friendly wolf, was wanting to have a duel, he was. He had heard a radio program about a duel in the sun. That had started the Huffen thinking, but he didn't want a duel in the sun. He wanted a duel in the shade where the dueling wouldn't get hot. As was usual with him when wanting something, the Huffen sat down on a log with Daddy Ringtail and told him all about it. But Daddy Ringtail explained that a duel is a dangerous fight

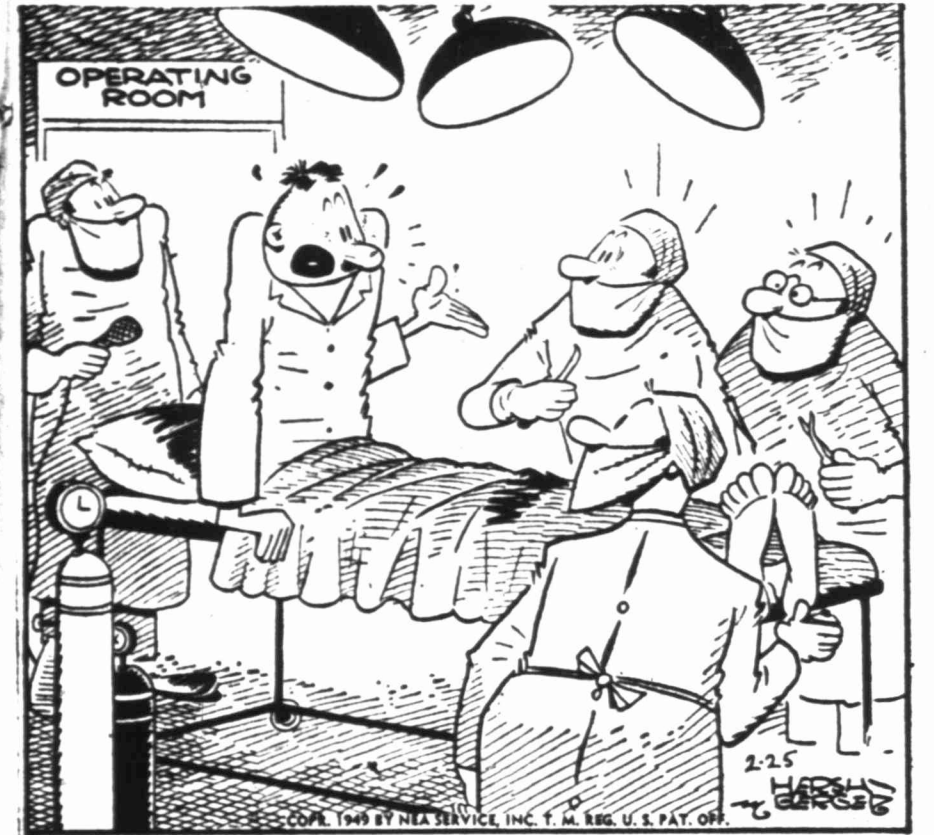

with pistols or swords, and people often get hurt with the dueling. "Ooooh!" said the Huffen at the thought of the danger. But he did so want to have a duel. A duel sounded important, it did—important like the Huffen Puffen. And along about then little Mugwump Monkey came walking along to see what this was all about. "The Huffen is wanting to have a duel," Daddy Ringtail explained. "Do tell," said Mugwump.

And then the Huffen began to beg and pleee would Mugwump help him have the duel? It sounded so important, you know, and the Huffen just had to have a duel, because he was a very important fellow. Well, Mugwump agreed to fight the duel with the Huffen Puffen, being very careful of course that no one was hurt with the swords or pistols. But now the problem was what should be used to do the fighting of the duel with. "Sword?" asked Mugwump. The Huffen chuckled but shook his head. "No sir and no indeed," said he. "I'm not about to fight with swords, because swords are dangerous, they are." "What about pistols?" asked Mugwump. Again the Huffen shook his head. Pistols wouldn't do at all, and yet he was wanting to fight the duel in the shade because it sounded so very important. Well, I don't know what would have happened, except Daddy Ring-

tall knew what to do. He got a pair of pistols from the monkey house. They were pistols especially made for dueling, because all they shot was water, and they couldn't ever hurt anyone at all. But they did. They got the Huffen Puffen wet, and he took a cold from his duel in the shade. I am sorry to say, but don't worry about him. That rascal will be all right. Happy day!

**Reds Move Troops To Norway Border**  
HELSINKI, FINLAND — (AP) — Russia has moved additional troops to Norway's Arctic border, according to an authoritative Finnish source.  
The informant said the troop movement was observed last week and apparently was in connection with Norway's stand on the proposed North Atlantic Pact with the United States.  
The source, who refused to permit use of his name, had no estimate of the number of troops, but said they had been moved close to Norway's 122-mile border from the Murmansk area.
