Amerada Discovers Flowing Production From Lea Devonian

Flowing oil production has been discovered from the Devonian in Northwest Lea County, N. M., by Amerada Petroleum Corporation in what apparently is the greatest New Mexico strike of the current year. The show was at the concern's No. 1-BTA State, wildcat 15 miles west and three miles north of the town of Tukum and 1,980 feet from south and east lines of section 2-12-33E. The venture driller tested the Devonian with the tool open five hours and five minutes at 10,794-819 feet. Oil reached the surface in 40 minutes and flowed 293.72 barrels of oil in four hours. Gas volume was 61,060 cubic feet per day. Gravity of the oil was 46 degrees. There was no water reported on the test. On last report, the development was shut down for orders on 10,819 feet. It is due to run pipe for production tests and complete. At a lesser depth, this wildcat discovered good flowing production from a Pennsylvanian lime. Nearest commercial production to the strike is about 15 miles to the southwest in the Caprock field.

Arick-Wolfcamp Has Commercial Oil Well

A commercial oil well has been completed in the Arick-Wolfcamp field of Southeast Hale County at General American Oil Company No. 3-B-W E. M. Carmickle, 990 feet from south and 330 feet from west lines of the lease in section 18, block K, TTRR survey. The project pumped 24 hours to make an official Railroad Commission potential of 243.12 barrels of oil, gravity 37.8 degrees. Gas-oil ratio was 250-1, with no water. The Wolfcamp pay zone at 4,764-4,803 feet had been acidized with 4,000 gallons. The discovery well of the Wolfcamp pay in the Arick field, General American No. 2-B Carmickle, has been deepened to attempt completion from the Pennsylvanian, original pay zone of the pool. At present, No. 3-B Carmickle is the only Wolfcamp producer in the area.

Magnolia Is On DST At Midland Wildcat

A drilletest was underway in the East Midland County Permian field, Magnolia Petroleum Company No. 1 Turner, located 12 miles southwest of Midland. The venture was testing on total depth of 8,144 feet, bottom of core hole, with packer set at 8,065 feet. Core to that depth recovered sand with slight signs of oil. Location is 1,900 feet from south and east lines of section 46, block 37, T-2-S, Leonard Leech survey.

Humble Makes Flow At Bronte Project

Extension to the Bronte-Palo Pinto field of East-Central Coke County was proven as Humble No. 2 Ash flowed oil in commercial amounts on production tests. Operator acidized with 1,000 gallons through perforations at 4,230-60 feet and swabbed two and one-half hours. The well then kicked off and flowed nine hours, making 690 barrels of oil in that time. Corrected gravity of the oil was 46.4 degrees. Shakeout was one per cent basic sediment and water. Gas-oil ratio was 840-1. After 24-hour flowing gauged showed 129.6 barrels of fluid through a one-quarter-inch choke. The well is shut in to move off the rig. Testing is to be resumed prior to completion. Location is 660 feet from north and east lines of the southwest quarter of section 403, block A-1, H&TC survey.

Gaines Test Shoots Lower Perforations

C. H. Murphy & Son have perforated lower in the San Andres Permian for further testing at their No. 1 E. T. O'Daniel, Central Gaines County wildcat, two miles southeast of Seminole and 860 feet from east, 1,980 feet from south lines of section 18, block C-44, psi survey. After acidizing perforations at 5,380-90 feet with 3,000 gallons and showing mostly water, the section of pipe at 5,310-25 feet was perforated with 60 shots. With packer at 5,305 feet, operator was preparing to swab dry and recidise.

Humble Prepares To Take DST In Scary

Humble Oil & Refining Company is circulating mud preparatory to drilletest testing its No. 1 Edmondson, Northwest Scary County wildcat, eight and one-half miles northwest of Snyder and 330 feet from north and east lines of section 437, block 97, H&TC survey. The prospect was bottomed on 1,080 feet in a lime and chert horizon thought to be Mississippian.

Lone Star Tests At Scary Prospector

An unidentified lime and chert formation was drilletest tested at Lone Star Producing Company No. 10 M. Mauls, deep wildcat three miles east of Dermott in Northwest Scary County. The tool was down one hour at Continued On Page Fifteen

Two Midland Men Die In Blaze

Hail Storms Rip Through Del Rio, San Angelo Areas

By The Associated Press
Heavy hail storms caused thousands of dollars damage Monday night and early Tuesday at San Angelo and Del Rio. Del Rio's hail apparently was heaviest. Stones larger than teacups knocked out all street lights and outdoor lighting. Telephone service was knocked out or handi-capped. Extensive damage was done to Main Street show windows and to tourist courts. At San Angelo—where the hail was accompanied by 2.18 inches of rain—there was considerable damage to fruit orchards. Window panes were broken. The roof of one of San Angelo's largest grocery stores was collapsed by the hail and rain. Wind and lightning caused many power interferences in the San Angelo area. But the heavy moisture was also a boon to much of Southwest Texas. It was "perfectly timed" to relieve drought conditions, said W. I. Marschall of San Angelo, district Extension Service director. Insurance Men Swamped The rain extended as far west as Fort Stockton, where half an inch fell, and as far as Del Rio, on the Rio Grande. Meanwhile there was a twister two miles northwest of Lubbock. It destroyed a two-room frame house and tore the front from a seven-room frame structure. Mrs. Basel Agnew, wife of a tenant farmer, was bruised when her two-room residence was ripped apart. Lubbock itself had 1.36 inches of rain. The Del Rio News-Herald said "All insurance men are swamped and no estimate of the damage is available." At one time the hail completely covered the ground at Del Rio. Trees and gardens were stripped. Damage to telephone connections made it difficult to check the loss to ranchers in the surrounding country. Heavy rains fell in many other Texas areas Monday night and Tuesday. Dalhart in the upper reaches of the Panhandle had 1.01 inches in the last 24 hours, bringing the April total to 1.44 inches. This was in sharp contrast to only .12 of an inch in the similar 1948 period. And Dalhart's 1949 rainfall total reached 4.25 inches compared with the average of 1.5 inches. More Hail Reports Hall and heavy rains also fell in Uvalde and Kinney counties in Southwest Texas. J. R. Rhea, Southern Pacific Railroad station agent at Spoford, in Kinney County, said it hailed there 25 minutes Monday night. An inch and a half of rain fell. At Sabin, in Uvalde County, Kenneth Byrd said four inches of rain and considerable hail fell north of Sabin. One inch of rain and some large hailstones fell at Sabin. Uvalde received .16 of an inch of rain. Big Spring reported that North-east Howard County was punished. (Continued on page 2)

Slays Four Before Being Killed

George McIntyre's body is viewed by a crowd in Pullman, Wash., following a shooting spree which took the lives of four other persons. The former Army sharpshooter terrorized the college town of Pullman before being killed himself.

Archbishop Deprives Priest of Functions In Heresy Wrangle

BOSTON—(P)—A Jesuit educator charged Tuesday he had been "silenced" by Roman Catholic Archbishop Richard J. Cushing of Boston because "I believe there is no salvation outside the Catholic Church." The Communist radio warned a veteran Red army of 400,000 men is ready to storm across the Yangtze in the Nanking-Shanghai area unless the government gives in. The Reds demand an answer by Wednesday. They insist the government must grant them an unopposed crossing of the Yangtze as a prelude to final peace talks. The Red "peace" terms amount to surrender. The Communist radio boasted that the seasoned East China armies of General Chen Yi had finished preparations for crossing. The few government bridgeheads on the north bank of the Yangtze were under mounting pressure. Despair Grips Nanking The few government bridgeheads on the north bank of the Yangtze were under mounting pressure. Despair Grips Nanking. Government officials prepared to flee. All around the city there seemed to be an air of defeat. Clearly many believed Nanking was in its last hours as the Nationalist capital. Defiant government officials, nevertheless, met to draft some sort of replay to the Communists. They pinned faint hope on a plea for more time. The instructors are James R. Walsh, philosophy teacher, Fakhril Maluf, assistant professor of philosophy, and Charles Zwasko, assistant professor of physics. The controversy revolves around the question whether persons outside the church can attain salvation. The instructors insist the church doctrine holds non-Catholics cannot be saved; authoritative Catholic sources say they can. Salvation Outside Church Boston College was accused by the trio of teaching heresy by saying (1) there may be salvation outside the Catholic Church; (2) a man may be saved without admitting the Roman Catholic Church to be supreme among all churches; and (3) a man may be saved without submission to the Pope. The church stand is set forth in the Baltimore Catechism, a publication used in instructing all Roman Catholics. "He who knows the church to be the true church and remains out of it cannot be saved," the catechism states. "This applies to men of bad faith who sin against the truth; it does not apply to men of good faith that belong to the soul of the church." The "soul of the church" is defined as "all that possess God's grace even if they are not actual members."

Gilmer-Aikin Bills Face New Stalling

AUSTIN—(P)—House foes of the Gilmer-Aikin school bills won a point and lost two—none of them decisive—in the Legislature Tuesday. The Senate stormed in debate on the controversial oil unitization bill. An effort to send Senator Jim Taylor's school reorganization bill back to committee was knocked down in the House on a ruling by Speaker Durwood Mansford that the resolution calling for such action could not be taken up. A resolution seeking postponement of further action on the Taylor bill and two other Senate-passed school measures until a special session could be called, was referred to the Committee on Rules. Foes of the school bills wanted immediate action on the resolution. Another resolution, this one to permit the House to consider several anti-Communist measures on days set aside for Senate bills, was approved by the House 83 to 38. Gilmer-Aikin backers said this was just another effort to delay the school bills which top the calendar on Senate bill days. Proponents of the resolution denied this. The resolution, to become effective, must be approved by the Senate and signed by the governor. Poll Tax Amendment Rep. Deno Tufares of Wichita Falls was voted down twice by a high school baseball game between Midland and Big Spring scheduled here at 3:45 p. m. had been postponed a week. (Continued on page 2)

Scheduled Move Of Airline Headquarters May Not Materialize

HOUSTON—(P)—Maj. Gen. K. L. Berry, state adjutant general, suggests that Pioneer Airlines may not have to vacate its quarters at Houston Municipal Airport. Pioneer is scheduled to vacate its facilities at the municipal field May 31 to make room for the 63rd Fighter Wing of the Texas Air National Guard. Berry said Monday the guard may remain at Ellington field provided money can be obtained to improve facilities there. He said he had sent word to Pioneer officials suggesting they not be in too big a hurry to move. Directors of Pioneer met here Monday and took no action on the possibility of moving from the field and transferring their headquarters from Houston to some other city. Brig. Gen. Robert J. Smith, Pioneer president, said, "Circumstances beyond our control make it impossible to make a decision at this time."

MIDLAND CONSIDERED FOR NEW LOCATION

George K. Harris, an official of Pioneer Air Lines and chairman of its airport survey committee, visited Midland last week to inspect facilities at Midland Air Terminal as a possible headquarters location for Pioneer should the firm have to leave Houston. He was favorably impressed with the facilities and said Midland would receive serious consideration should the move materialize. The City Council last week authorized City Manager H. A. Thomason to negotiate a lease arrangement with Pioneer for air terminal facilities should they be desired.

Accidental Death By Suffocation Is Coroner's Verdict

Two Midland men were found dead Tuesday morning in their burning one-room apartment on East David Street by firemen, who answered an alarm turned in by a passerby. The men were David L. (Whitey) Garner, 56, and Floyd Everett, 44. Garner was a retired carpenter and Everett was a cafe cook. Firemen discovered the bodies when they were called to the address at 6:15 a. m. and entered the blazing apartment. The blaze was extinguished quickly. Firemen said the bodies bore little or no evidence of burns. They found the body of Garner in the bed and Everett slumped on the floor at the foot of the bed. Justice of the Peace Joseph A. Seymour rendered the verdict: "Accidental death by suffocation." Capt. Marvin Beauchamp of the Midland Fire Department said investigation indicated the blaze started from a lighted cigarette near the head of the bed. A window shade caught fire and the flames spread to curtains and around the room, he advanced. The bed clothing was partially burned. Funeral Services Pending A small negro boy, passing by, turned in the fire alarm. It was reported the two men had returned from a fishing trip a few hours prior to the fire. Funeral services for both men are pending. Ellis Funeral Home announced. Both men had resided in Midland several years. Garner is survived by a brother, John Garner of California; two sisters, Mrs. Rosie Hardesty of Fort Worth and the sister, whose name was not obtained, living somewhere in Texas. Everett was born Nov. 14, 1904, in Midland. He is survived by two children, Jean and Juanita of Fort Worth; a brother, Noel, Bryant of Big Lake, and two sisters, Mrs. W. Fortenberry of Huntington Park, Calif., and Mrs. E. O. King of Odessa.

Rail Board Again Cuts Oil Output

HOUSTON—(P)—The Railroad Commission Tuesday ordered that Texas crude oil production for the month of May be reduced by 54,079 barrels daily. Unofficial sources predicted the commission would cut the state's allowable a fifth consecutive time, with a new reduction possibly running as high as 100,000 barrels daily. Four cuts since January 1 have reduced the state's production by approximately 750,000 barrels daily. Purchaser nominations—predictions of company requirements—for May total 2,616,271 barrels daily, a decline of 29,119 from April. The state's allowable last Saturday totaled 2,086,571 barrels daily. Actual production for the week ended April 8 averaged 1,911,800 barrels daily, compared with approximately 2,550,000 in mid-December.

Former Diplomat Leaves Hospital

WASHINGTON—(P)—Cordell Hull, 77, former secretary of state, was released Monday from Bethesda Naval Hospital after more than two years of treatment. Announcing this Tuesday, the Navy said the elderly statesman "has made an excellent recovery and has been discharged and returned to his home permanently."

Game Postponed

Coach Garvin Beauchamp announced at noon Tuesday that a high school baseball game between Midland and Big Spring scheduled here at 3:45 p. m. had been postponed a week.

'Top Wrangler' Named As New CC Members Reported

Ted T. Thompson was named "Top Wrangler" of the month at a "chuckwagon" breakfast of the Wranglers' Club early Tuesday in the Private Dining Room of Hotel Scharbeur. Thompson, a new Wrangler, scored 6,890 points to lead the other Wranglers in obtaining new memberships for the Midland Chamber of Commerce. Al Kelley was second with 4,060 points, and Bud Bissell was third with 3,440 points. Sixty new C. of C. members were rounded up by the group since its March meeting. The Wranglers Club is the official membership and greeters division of the Chamber of Commerce. Individual and team

Mother Confesses Shotgun Slays Of Two 'Club' Members

DOVER, DEL.—(AP)—A stocky, 43-year-old mother of four confessed Tuesday she plotted the shotgun slaying of two elderly "Lonely Hearts Club" members and directed her three sons in burning the bodies and throwing the remains on a city dump.

Through five days of police grilling, Mrs. Inez Brennan had steadfastly denied any knowledge of the slayings of Wade N. Woodriddle, 70, Bedford, Va., and Hugo Schultz, 66, Epsom, N. H. Her son, Robert, 15, had admitted he shot Woodriddle and said his mother killed Schultz.

Robert's half-brother, Raymond, 23, corroborated that story. Their mother broke down in a five-hour grilling Monday night and early Tuesday as police played and replayed for her recordings of her sons' statements. Weeping and sobbing she faints six times.

Third Son Implicated
Finally she cried to Col. Herbert Barnes, State Police head: "Take me out of here!"

"The way the boys said it—that's how it was."

The woman and her sons, all handcuffed, were led back to their prison cell. Robert and Mrs. Brennan have been charged with murder in the Woodriddle slaying, and Raymond named as an accessory.

Barnes said charges will be filed later Tuesday in Schultz's death, and that a third son, George, 19, now serving with the Army, in Texas, will be charged with being an accessory in disposing of both bodies.

Raymond and Robert said George helped bury and burn them before he turned the Army.

Both bodies were buried in a pig pen on the Brennan farm on lonely Horsepond Road. Dug up later, they were burned and the remains scattered on the Dover city dump.

Contract For Street Lighting Is Unsigned

R. L. Miller, district manager of the Texas Electric Service Company, said late Monday the materials for Midland's city-wide street lighting program will be ordered just as soon as the company receives a signed contract from the city.

Authorization for the signing of the 10-year contract was voted at last week's meeting of the City Council, but the instrument had not been delivered to Miller Monday.

The council previously had approved the plan of street lighting submitted by the electric company. It calls for the installation of a mercury vapor white light system on the through highways and in the downtown sector and conventional type lights at each intersection in the residential districts.

POLICE DEPARTMENT TO GET NEW MOTORCYCLES

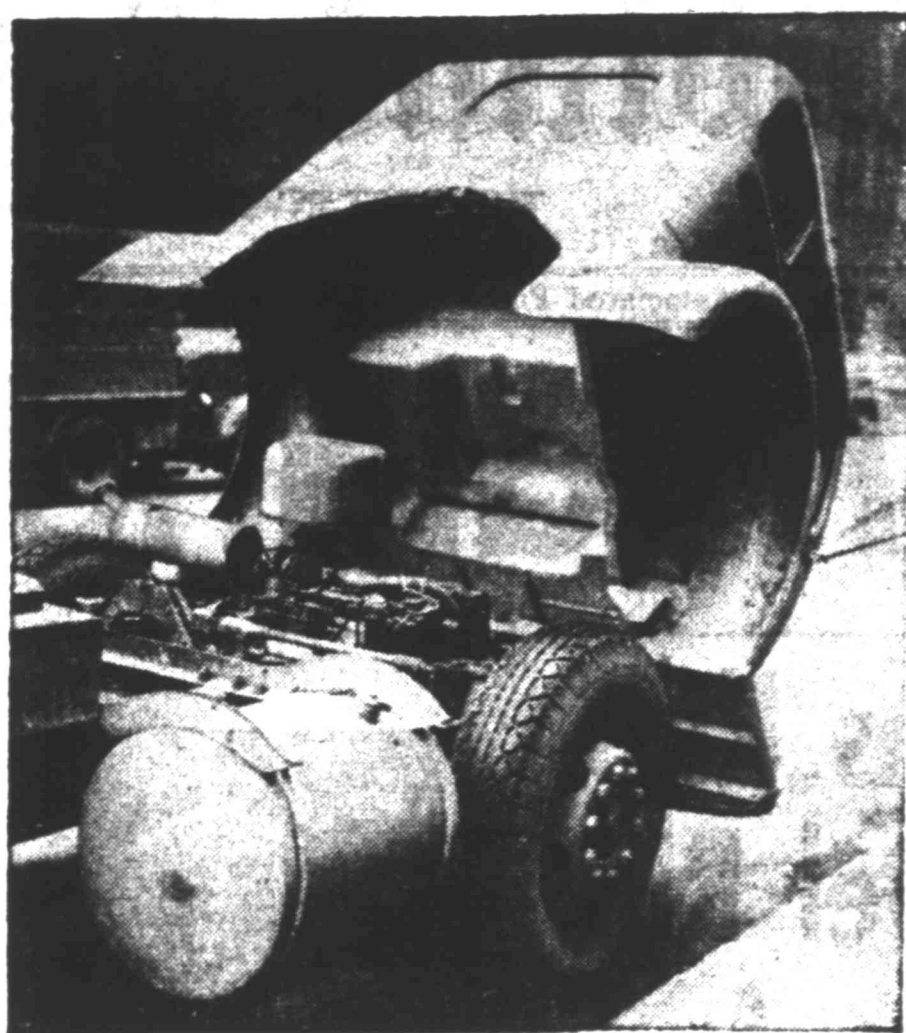

Police Chief Jack Ellington said Tuesday he is receiving bids for the purchase of two new motorcycles for patrol work in the city. The motorcycles now in use are being offered for sale.

ATTENDS CONVENTION

R. J. Graham is attending the 40th annual convention of agents of Southwestern Life Insurance Company at Houston.

Graham, Midland representative of the company, qualified for the trip by reason of his outstanding record of work last year. He qualified for the company's Top Club.

New 'Dream Truck' Features Tilt-Forward Cab

The three-man cab tilts forward automatically, right, enabling mechanics to reach the engine conveniently for maintenance. Tilting cab idea is actually an adaptation of aircraft landing gear developed during the war. Because 70 per cent of truck weight is on the front axle, the back can take on better than average load.

Club Told Of Plans For Softball League

Jerry Monroe, boys work chairman of the Midland Optimist club, told of plans for a softball league at the club's noon luncheon held Tuesday in the Crystal Ballroom of Hotel Scharbauer.

Monroe said the league would be open for all boys under 15 years of age.

Jack Chase, program committee chairman, reported that 200 are expected to hear Gen. Robert Smith, president of Pioneer Airlines, when he addresses the club next Tuesday.

The meeting will be held in the American Legion Hall at noon. Besides Optimists, many other members of civic clubs are expected.

Approximately 40 members were present at Tuesday's luncheon.

Hail Storms—

Continued From Page One
by heavy hail. Showers ranging from one-half to one and one-half inches fell over the Big Spring area Monday night, a boon to farmers and ranchers.

Del Rio received a half-inch of rain Monday night and the rain still was falling at mid-morning. Del Rio Schools Closed.

The big hailstorm at Del Rio forced closing of schools there because of damage to windows. The hail was accompanied by a heavy rain which totaled 1.10 inches in 24 hours.

The News-Herald, which said some of the hail stones were even larger than teacups though flat-shaped, said the hail apparently was not heavy in the surrounding ranch country. The storm extended at least five miles north of Del Rio. But faulty telephone connections made a comprehensive survey impracticable.

A flower show scheduled for Saturday at Del Rio was cancelled. The hail destroyed all the flowers.

Other Rainfall
Lubbock received a 1.04-inch rain, along with some high winds. Del Rio measured 1.10 inches. Amarillo 1.27, Big Spring .62, Abilene .97 and Victoria 1.38.

Plainview had a total of 1.82 inches. One inch fell in 30 minutes, along with some hail.

Other rainfall included Laredo .68, Waco .02, San Antonio .29, Clarendon .19, Childress .25, Wichita Falls .01, Wink .03 and Dalhart .39.

Conditions over the state were generally cloudy Tuesday. Drizzling rain was falling at Amarillo. Light rain fell at Wichita Falls and there were thunderstorms in the vicinity.

There was a light drizzle at Corpus Christi and fog at Alice. Temperatures continued mild.

Parish Workers To Meet For Coffee

A "get-acquainted" coffee hour in the home of Mrs. Fred M. Haase, 1408 West Kentucky Street, is to be held for the Parish Workers of the Grace Lutheran Church at 2 p. m. Thursday. Plans for the entertainment were made when members had their monthly meeting in the church recently.

The program for that meeting had the subject, "How Can We Live Our Faith?" with a discussion led by the Rev. G. C. Becker, pastor. Mrs. R. W. Miller was welcomed as a new member. Twelve other members were present.

West Branch, Ia., was the birthplace of President Herbert Hoover.

TEXAS LADY LOSES 47 POUNDS

The following remarkable story shows conclusively that Barcontrate DOES take off fat. It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet—no weakness—no hunger. Barcontrate, the original grapefruit juice recipe, takes off fat quickly, safely and you can eat plenty.

Here is proof
Here is what Mrs. H. P. Bishop, Route 2, Blumfield, Texas, wrote us:
"I am very glad to endorse Barcontrate, so please accept my sincere thanks and appreciation for the great benefit I derived from its use. I not only lost weight, but also looked and felt better in every way."
"I had to have a very serious operation and was told that I must lose a lot of weight before the operation could be performed. I went on a diet and tried very hard to lose, but wasn't losing much weight until I heard of Barcontrate. I began taking it and could soon tell the difference in the way I felt and the weight I was losing. I weighed 200 pounds when I started and I lost a total of 47 pounds and was able to undergo my operation. I can truly recommend it to others, since it did so much for me."

At all drugists
If you are overweight and want to take off ugly fat, just go to your druggist and ask for four ounces of liquid Barcontrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two spoonfuls twice a day. If the very first bottle doesn't show you the simple, safe way to take off weight, return the empty bottle for your money back.

P. E. O. Chapter To Entertain State Officer

Mrs. John Casselman, president, announces that there will be a P. E. O. called meeting Thursday, honoring Mrs. W. W. Lake of El Paso, P. E. O. state organizer.

The meeting, which will be preceded by a luncheon in the Country Club at noon, will be held in the home of Mrs. J. M. Devereux, 1709 West Ohio Street.

Luncheon reservations for members may be made by calling Mrs. W. Dave Henderson.

Mrs. Casselman and Mrs. F. C. Cummings, chapter treasurer, returned Sunday from the P. E. O. State Convention, which was held in McAllen April 12-14.

Receives Charter
While there Mrs. Casselman accepted national charters for the Texas chapters which were organized during 1948. Charters were granted to chapters in Midland, Odessa, Brownsville, McAllen, Weslaco and San Antonio.

Mrs. Ted Buttery, of Austin, state president, presided over the convention, which had its headquarters in the Casa de Palmas Hotel.

Chapters in McAllen, Mission, San Edicto, Harlingen, Raymondville, Edinburg, Brownsville and Weslaco were hostesses to the 72 delegates and 328 guests who attended the convention. Mrs. Lela Shirley of Los Angeles, who is the supreme corresponding secretary, represented the national organization.

Special features of the convention included a patio banquet honoring B. I. L. members, husbands of P. E. O.'s, and side trips to Brownsville, Corpus Christi, San Antonio and Mexico.

The next state convention will be held in Houston in April 1950.

Wallace Raps Atlantic Treaty

Henry Wallace, as expected, has attacked the North Atlantic Treaty—first in a radio speech and then in an abridged version of the broadcast run as a full page advertisement.

This is Wallace's privilege. No one can challenge his right to his own opinions. But his speech contains numerous half-truths and untruths and opinions stated as facts.

"The pact sets up an Atlantic council and a military staff committee in Europe with more power than the UN's Security Council," says Wallace.

There is no lack of nominal power in the Security Council. It can call on UN members for "armed forces, assistance and facilities . . . for the purpose of maintaining international peace and security."

The council's lack of actual power is due—as everyone but Wallace seems to know—to the consistent and adamant refusal of the Soviet Union to agree with other nations.

"Supposing the Soviets had military bases on the Mexican border? The Canadian border? On Cuba?" Wallace asks. "Could the treaty which put guns in our faces be called a pact of peace?"

The treaty grants the United States no bases in Europe, let alone on the Soviet borders. It does pledge the members to maintain and develop their capacity to resist armed attack.

Wallace quotes John Foster Dulles as follows: "I do not know any responsible high official, military or civilian, in this government or any government, who believes that the Soviet state now plans conquest by open military aggression."

Later Wallace twists Dulles' words when he speaks of the treaty "surrounding with standing armies a nation which no responsible statesman claims either can or will launch a military attack beyond its borders."

Dulles said that he knew of no responsible official who thinks that Russia plans open aggression now. "Now" is the key word. Wallace omits it.

Says Wallace, "Our military men have already decided to place arms in the hands of the Germans. . . . Under the Atlantic Pact the Nazis will have uniforms again."

Nonsense. The North Atlantic Treaty does not repudiate the Potsdam Agreement. In that document, the American, British and Russian governments pledged that "All German land, naval and air forces . . . shall be completely and finally abolished in such manner as permanently to prevent the revival or reorganization of German militarism and nazism. . . . All arms, ammunition and implements of war and all specialized facilities for their production shall be . . . destroyed."

The United States has lived up to the Potsdam Agreement. Russia, in the section pledging "free, unfettered elections" for Poland, has not.

Says Wallace, "The first victim of the pact is the United Nations. . . . For the clear intention of the pact is to replace the United Nations with a military alliance."

The clear intention of the pact is stated in Article 7 of the treaty: "This treaty does not affect, and shall not be interpreted as affecting, in any way the rights and obligations under the charter of the parties which are members of the United Nations, or the primary responsibility of the Security Council for the maintenance of international peace and security."

Modesty Three-leaf wing Europeans will accompany Henry Wallace on his forthcoming "peace tour."

Dividend On Departure A Czech delegate to the scientific and cultural "peace conference" in New York remarked, as he boarded a plane for home, "I wouldn't live in this country even if I were invited."

New Champion The people of Lakhtar State in India are still paying taxes for the upkeep of a State Elephant that died 60 years ago.

Stopping to tie your shoe in the middle of the street is considered unhealthy.

How About Weekly 'Father's Day?' Children Would Benefit

By KUTE MILLETT
NEA Staff Writer

For men who work a five-day week, Saturday morning ought to be a kind of National Father's Day—a day when father and children work and play together—says Dr. Margaret Mead, anthropologist and authority on family life.

How about it, Fathers? Do you think you can spare your kids one half-day a week?

If you haven't tried it you might find out that it's very rewarding. You're sure to build a closer association with your children if they know they can count on your companionship each Saturday morning. Many a man who secretly feels that he isn't very important in his children's scheme of things, never has made an effort to give them any time or attention they can count on—but just plays or works with them when the whim moves him to be companionable, which may not be any too often.

There's no question but that a weekly "father's day" would benefit the children. Fathers can do so many things mothers generally

aren't much good at—mending toys, pitching for the neighborhood ball-team, teaching the small fry to be good sports instead of cry babies.

All that's in the line of play. But the children can also learn a lot about work if a father will let them help him when he works around the house and yard. They may slow him down a little with their help—but they are learning all the while, and getting a new respect for the man of the house from seeing how expert he is at doing jobs that are too difficult for their mothers. After all, few city children ever get to see their fathers at their main jobs.

They don't know how smart their dads are, unless they get a chance to work with them around home.

Lifts Burden From Mother

And think what it would mean to the mother who has the children on her hands all week to have one morning to look forward to when Dad takes them over.

We hear a lot of criticism of mothers who don't give their children all the time and attention they should. But family for family there are undoubtedly fewer mothers who put outside interests ahead of their children than fathers who shirk all responsibility for being companions and teachers to their young sons and daughters.

Art Festival Plans Are Made By Committee

Further plans for the Art Festival of May 7-11, which will be sponsored by the American Association of University Women and the Palette Club, were made at a committee meeting called by the two organizations Monday morning in the home of Mrs. N. A. Lancaster.

Outlining rules for entries, the committee stressed that the festival will be open to all residents of the county for work in oil painting, pastels, watercolors, charcoal, ink drawing, pencil sketching, sculpture and ceramics. Individual entries are invited, and anyone wishing further information or discussion of the merits of any work is invited to talk with Mrs. W. M. Thompson, 1008 West Indiana Street, whose telephone number is 798.

Prizes have already been given by some Midland clubs, and other organizations, individuals and companies are being asked to support the art festival by adding to the list of prizes. Mrs. Lancaster is in charge of this phase of festival arrangements.

Exhibits in the festival will be divided into adult and student sections. All adult work must be framed, and brought to the City-County Auditorium on the morning of May 7. Work by children must be unframed, and must be in the hands of the teacher appointed at each school to accept entries by May 1, to permit mounting in time for the show.

Any person may submit two entries in each of the show classes. Drawings or paintings in the various mediums are subdivided into the classifications of portraits, landscapes, seascapes, still life, sculpture, art wood, stone and bronze, and ceramics are classed as modeling and pottery.

Present for the committee meeting were Mrs. Robert L. Clarke, Mrs. F. H. Lanham, Mrs. Fred Douglas, Mrs. Eugene Powell, Mrs. Floyd Coleman, Mrs. Thompson and Mrs. Lancaster.

Behind The Scenes At The Capital— Timely Little Stories About Big People

WASHINGTON —(NRA)— Navy nervousness over the switch from Defense Secretary James V. Forrestal, who was a Navy man, to Louis Johnson, who was an Army man, is beginning to show in touchy tempers at the top. At a recent cabinet meeting, Navy Secretary John L. Sullivan announced he would like to discuss plans on a few naval activities. He was politely but firmly told he was out of order.

Sullivan slammed his papers down on the big table, made a few remarks about nobody paying any attention to naval affairs, and said he guessed he wasn't needed any more. The President had to soothe Sullivan by assuring him that he was wanted, and then patiently explain this wasn't the time to take up his subject.

Spain's Economy May Crumble

Possibility of Spanish economic collapse within six months is being given serious consideration. The question is what will happen to Franco government in event of business and financial crisis.

Informed opinion is that Franco government is no worse than other governments. Spanish people have had before, and some have been terrible. If a free election were held now between continuation of the Franco government and return to the Spanish Republic, Franco probably would win. People of Spain still remember that the republic which Franco overthrew didn't work very well, either.

But when Americans talk to representatives of Franco government about the need for economic and democratic reforms to save the present situation from becoming worse, nothing happens. The Spanish people and Franco's Falangista party leaders just don't know the meaning of democracy in the American sense.

It's An Expensive Hobby

Howard Hughes still is having his troubles with the 100-ton flying boat he first flew on Nov. 2, 1947. It hasn't flown since, though Hughes says it will make another test flight "very soon." He has ripped out the whole complicated control system and installed a new one. He has had trouble getting adequate propellers, causing month delay. Hughes has built a giant hangar for the ship, over the wa-

ter. It is the biggest all-aluminum structure ever built.

When Owen Brewster's Senate committee investigation of the aircraft contract was front page news two years ago, cost of the thing was put at \$7,000,000. Since then Hughes has poured in several more millions. He admits the plane will never have much practical use, but that it will furnish "a lot of valuable aerodynamic information."

New Englanders Get Riled

New England senators are sore because there is no representative of their area on the 11-man Interstate Commerce Commission. At the recent Senate Commerce Committee hearing when Lt.-Gov. Hugh W. Cross of Illinois was approved for appointment to the I.C.C., the three New England senators on the committee sounded off in no uncertain terms.

"Have you any New England concerns?" Sen. Charles W. Tobey of New Hampshire asked Governor Cross. He replied that his mother's people came from Massachusetts. "That ought to be helpful," said Tobey sarcastically.

Sen. Owen Brewster of Maine said he thought the President should have appointed a New England Republican, but he went along with the other committee members in approving the naming of Cross as commissioner. Afterward, Sen. Brian McMahon of Connecticut said: "When will we get the next chance to put a New Englander on the commission?"

Senator Tobey remarked dryly: "When will the next commissioner die?" But this last question was considered so disrespectful of the aged and decrepit I.C.C. that it was stricken from the record.

Agriculture Department 'Tip

Farm Note: Department of Agriculture says weeds in lawns can be kept down by use of one pound of 2-4-D with every 100 pounds of 10-6-4 fertilizer. Only bug in this weed-killed treatment is that it will suppress clover. Apply in April and September when ground is dry and both weeds and grass are growing actively.

One out of every three U. S. school children now is receiving

aid from the school lunch program. It now covers 6,900,000 children in 48,000 schools. More than a billion school lunches will be served free to children who can't pay.

Only two out of every nine big game hunters in U. S. national forests ever shoot a bear, a deer or an elk.

Embarrass "Jeffersonians"

April issue of "Democratic Digest" prints on its cover a broad hint to the Southern "Jeffersonian" Democrats who go all-out for filibusters whenever the civil rights issue comes up. Beneath a photograph of the heroic Thomas Jefferson memorial statue are quoted the two inscriptions which are carved into the walls of the memorial building. One is Jefferson's statement:

"I am not an advocate for frequent changes in laws or constitutions. But laws and institutions must go hand in hand with the progress of the human mind. As that becomes more developed, more enlightened, as new discoveries are made, new truths discovered and manners and opinions change, with the change of circumstances, institutions must advance also to keep pace with the times.

"We might as well require a man to wear still the coat which fitted him as a boy as civilized society to remain ever under the regimen of their barbarous ancestors."

The other is a quotation from Jefferson's famous preamble to the Declaration of Independence: "We hold these truths to be self-evident: That all men are created equal, that they are endowed by their Creator with certain unalienable rights. Among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men.

"We . . . solemnly publish and declare, that these colonies are and of right ought to be free and independent states . . . and for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge our lives, our fortunes and our sacred honor."

Scientist Isolates Vital Sex Hormone

DETROIT—(AP)—A sex hormone vital for human fertility has been isolated in pure form, Dr. C. H. Li of the University of California announced Tuesday.

The hormone was obtained from sheep. It is one of the potent hormones or chemical regulators from the pituitary gland.

The hormone may be suitable for use on human beings, Dr. Li told the American Society of Biological Chemists. It will prevent new research on reproductivity. It might also aid in some cases of infertility—the inability of couples to have children.

The chemical is the follicle stimulating hormone, called FSH for brevity. In the female it makes possible ovulation, the formation and release of the human egg from the ovary. In the male it may stimulate the tubules which produce sperm cells.

Connally Takes Dim View of Chinese Aid

WASHINGTON —(AP)— Senator Connally (D-Texas) said Tuesday there is little the United States can do at this time to halt the Communist march in China.

The chairman of the Senate Foreign Relations Committee agreed with Secretary of State Acheson that the best thing to do now is "wait and see."

The committee is giving right-of-way to the North Atlantic Security Treaty, Connally told a reporter, with hearings expected to start early in May. As for China, he said, the Senate group has no plans to consider further aid to the Nationalist government.

Congress already has authorized President Truman to spend about \$54,000,000 in the next 10 months for aid to non-Communist areas of China.

Connally said so far as he knows this will be the final China-aid program this year.

For protection against rival head-hunters, when on an expedition, fierce savages of Formosa wear baskets over their heads.

MRS BAIRD'S BREAD

STAYS FRESH LONGER

... About This Loaf's

FINER QUALITY, FLAVOR AND FRESHNESS

In homes all over the community, tongues have been praising MRS. BAIRD'S BREAD ever since it came to town last week. And rightly so, for what the tongue has found so delightfully appetizing, it can honestly and enthusiastically relate.

Have YOU tried MRS. BAIRD'S BREAD yet? Do. You'll discover a rich, wheaty flavor that most folks didn't realize bread could achieve. You'll discover a tender, velvety-smooth texture. You'll discover a new kind of bread-freshness. And you'll discover continuous quality conscientiously maintained. Give yourself a new treat. Tell your grocer: "I'll take MRS. BAIRD'S BREAD, please."

Self-Service Meal Department in New Piggly-Wiggly Two

Self-service is the theme of the Piggly Wiggly No. 2 meat department and this method has been introduced only recently at the nation's largest and most modern stores.

All the customer has to do is spot the cut of meat with just the right amount of fat or lean, and present it to the cashier for payment when leaving the store. That sounds awfully simple and no doubt some folks will miss that friendly argument with the butcher. But research has found this to be the most popular form of meat merchandising. That is why it was adopted for Midland patrons of the new Piggly Wiggly store.

R. D. Nicholson

The meat cuts are cellophane-wrapped by girls who work in the air-conditioned meat room and prices are marked on labels to be found on each cut.

Experienced Butcher
R. D. Nicholson, who has several years experience as a butcher, is head of the meat department, and comes to Midland from Kermit.

Nationally advertised cuts of meat, including Wilson, Swift and others will be stocked.

All refrigeration units are located in a separate building behind the store.

Nicholson invites the public to inspect his meat department at the formal opening Tuesday night and view the modern arrangement and sales methods, which, he says, are certain to meet with widespread approval.

Open For Business Wednesday—Piggly-Wiggly Store Two To Be Previewed Tuesday

Hundreds of Midland residents are expected to be on hand for the formal opening of Midland's Piggly Wiggly No. 2 Tuesday from 6:30 to 9 p.m., and preview what the management proudly terms as the very latest in grocery merchandising.

The store is located in a new building erected expressly for the company by Bert Cole, Jr., at the corner of Marienfield and Ohio Streets.

The store will handle meats, staple and fancy groceries, dairy products, frozen foods, drugs, produce and magazines.

Two entrances provide access to the spacious 50 by 120 foot building and one entrance is for the convenience of motorists who utilize the concrete parking lot at the north of the store.

Joy Arnold has been visiting her aunt, Mrs. C. D. Wright of Rankin.

Woody Ascue

Woody Ascue, who comes to Midland from the Kermit Piggly Wiggly store, is the manager and there will be 14 other employees.

The store is to be 100 per cent self-service, including fresh meats.

It is air conditioned throughout and fluorescent lighting, combined with the pleasant color scheme followed in painting the interior provide a pleasant atmosphere for the shopper.

The flooring is of asphalt tile and lighted cornices extend all around the interior.

The spacious aisles prevent congestion for the shopper and all goods are in easy view, due to the scientific shelf arrangement.

Out of Traffic
The store is located away from the heavier traffic with a view to easy accessibility.

The merchandise handled will be identical to that found at Piggly Wiggly No. 1 and the same prices will prevail, Ascue said.

The preview will last three hours and there will be favors for the children. All of the store personnel will be on hand to get acquainted with patrons.

The Nescarts, which are a new departure in shopping carriages, fold into each other and require a minimum of store space. Other shopping carts have a special compartment for the baby, with straps to prevent any possibility of tumbling out.

The dairy products and frozen food cases extend the entire length of the north wall. All produce is hauled direct from the West Coast.

Ascue said it is the store's aim to provide the ultimate in shopping convenience to Midland residents with no extra cost to the customer.

Series Of Church Services For Men Slated May 2 - 6

A series of noon services for Midland men will be conducted in the First Methodist Church May 2 to 6, under the sponsorship of service clubs of the city, it was announced Tuesday.

The Midland Ministerial Association is cooperating in the program and will furnish speakers each day. The services, designed to interest more men in church work, will be held from 12:25 to 12:55 p. m. daily, Monday through Friday.

Sponsors said the sessions will be informal and the talks will be of non-denominational nature. All men are invited to attend.

The service clubs cooperating in the project are the Kiwanis, Lions, Rotary and Optimist.

Homer Meek, Methodist organist, will present a chimes concert preceding each meeting.

Jeff Williams, one of the leaders in the movement, urged the cooperation of Midland men in the program.

Doolittle Raiders Dig Up Funds For Missionary Buddy

GALVESTON—(P)—One of the daring Tokyo raiders, now a missionary in Japan, soon will receive a spontaneous contribution from his buddies to help him open the hearts of the Japanese.

Doolittle's daredevils from Shanghai loosed their purse strings Monday to help the Rev. Jacob DeShazer, who was a bombardier on one of the B-25's. He rode the ship of Maj. Bob Hite. The raiders ended their fourth annual convention here with the adoption of three projects.

DeShazer, now at Osaka, Japan, wrote to the assembled flyers: "We can influence more Japanese by opening the doors of Christian churches than by opening bomb bay doors."

An undisclosed amount of cash was collected for DeShazer.

The missionary was one of the unlucky ones following the raid. He was captured in China and spent 34 months in solitary confinement in a Japanese prison camp.

Given Bible By Guard
He was given a Bible by a Japanese guard.

DeShazer said, "I read it and the Lord showed me the way to become a Christian. I did not know before. I decided to love my fellow man and to return good for evil. All hatred was taken from me."

After liberation he returned to Oregon, his home state. He began studying for the ministry.

DeShazer returned to Tokyo last December 28 as a missionary of the Free Methodist Church in Japan. He preached his first sermon January 1.

BY SHORTHY SHELburnE

The only thing that saved the cash customers from being completely and entirely cheated out of their money at the Midland Indian-House of David baseball game Monday night was the Midland baseball club. The Indians played a good brand of baseball both afield and at the plate. The House of David played heck.

Where George Anderson gathered up the array of men he now calls the House of David baseball team is beyond us. We could pick at random here in Midland and put together a club which would far outclass the Davids we saw Monday night.

The House of David of a few years back played baseball becoming to an A or AA Class club. There was much clowning along with the commendable play needed to hold the game to a reasonable score. The Davids usually made a monkey out of their opponent.

It was just the other way around here. The Indians, who have trained only a comparatively short time and are not supposed to be in top shape, not only made a monkey out of the House of David team. They made a monkey out of each individual player.

The only conclusion we can draw is the House of David this year is living on the good name of the teams in former years. That's all they possibly can do and still draw 25 fans.

If the bearded boys played here again next week, we doubt if as many as 200 fans would venture out. That's just the class of baseball they are playing.

In looking up the immediate record of the Davids we can't find where they have won a single game. San Angelo defeated them 11 to 5, Ozona topped them 6 to 4 and then Midland—29 to 8.

When teams like Ozona—a semi-pro outfit—beat the "famous" House of David, something is bound to be off.

So poor was Monday night's performance, half the fans were gone from the park before the seventh inning was completed. There wasn't

any doubt about the outcome of the contest.

Even the worthwhile "pepper game" was cut to a bare three minutes in length. It was good but amounted to only a spark in the dark performance unrelieved on the field.

A couple of Midland youngsters, recruited to act as bat boys for the whiskered men, draw more applause from the spectators than the entire House of David.

The lads put on quite a comical show while fielding balls fouled back into the screen.

George Anderson, the veteran manager of the Davids, undoubtedly is ashamed and red-faced over the poor possibilities of his team this year. He has managed some top-flight nines under the House of David banner.

If we were you, George, we would stop right where you are or else get some ball players who can make some sort of showing against Class D and semi-pro competition.

The way your outfit is going now, the patrons can't help but remember to stay away next time your team comes to town.

HALF SLANTS . . . Hoss Alvis, a member of the Midland Indians in 1947, has reported. He received a nice welcome from the fans when he took a bow Monday night. He is expected to nail down a starting assignment without too much trouble.

Al Vincent, manager of the Tulsa Oilers, has the distinction of being the first pilot to be thumbed in the Texas League this young season. He also has the distinction of paying a \$50 fine and sitting out a three-day suspension. . . Another Vincent—Vincent Castino—Tulsa's catcher, got the same treatment as his manager from President J. Alvin Gardner. . . Jess N. Woody, Stanton barber and sportsman, had a nice write-up in the April issue of Texas Parade. The Stanton man has held national championships for 22, 32, and 45 caliber pistol shooting. He now has more than 300 permanent medals and trophies won with his pistols. . . Mill Yater, former Martin County sheriff, is said to have started Woody on the road to the national crowns. . . Cincinnati Pitcher Ewell Blackwell once listed his occupation as riveter. He worked in a California aircraft factory in 1941. . . The best of the Spring training stories comes from Houston. The Brooklyn Dodgers flew from Florida to Houston and encountered rough weather. Several of the players were sick from the ride. When the Dodgers checked in at a Houston hotel, a new type of salesman showed up. He had a pill to prevent motion sickness. . . P. S. The Dodgers declined with thanks.

Indians To Battle Swatters Tuesday

The Midland Indians will engage the Sweetwater Swatters in the first exhibition tilt against a Longhorn League team this season, at 8 p.m. Tuesday in Indian Park.

The Swatters this year are under Manager Dick Gyselman, former Pacific Coast League star. They lost to Ballinger last Sunday.

Harold Webb said the Midland lineup will be Sliter at first, Rose at second, Boatman or Alvis at third and Hughes at short. Jones will do the catching.

Nipp, Pressley, Coss, Ogden and Adams will work in the outfield.

Weldon Stewart, Forrest Martin, Clyde May, Levi Clay, Sam Van Hoozer and possibly Ernie Nelson may see service on the hill.

Tribe Slaughters House Of David In 29-8 Runaway

Murder was committed at Indian Park here Monday night and not a finger was lifted by the estimated 1,400 fans to prevent it. The Midland Indians literally slaughtered the supposedly "famous" House of David baseball team by a 29 to 8 score.

The only worthwhile part of the night's show was the hitting of the Indians and the pitching of Ralph Blair and Rudy Kellee. (Doc) Tally and George Anderson presented their "pepper game," but too much poor play by the Davids had preceded for it to have any effect on the sneering spectators.

Sner they did, because they knew from the start the game would be a wild-scoring affair. The Davids opened the first inning like they were the New York Yankees, collecting five runs on three hits and three walks before Ralph Blair found his control. That was just about the story of the bearded men except for the balls they kicked and the walks and hits their huriers gave up. Blair chucked a shutout ball from the first through the sixth, allowing only two singles after the first inning uprising. The Indians opened their first inning with eight runs on five walks, an error and three extra-base hits. Julian Pressley lined a homer over the leftfield wall with Rose and Sliter on base and Boatman tripled with Nipp on via a walk. Adams and Blair walked and Rose, hitting for his second time in the inning, doubled across three runs then scored on passed balls and an infield out.

The Indians added one in the second on a double by Pressley and a single by Adams. They got two in the third on a walk by Hughes and a single by Sliter.

In the fifth, Hughes singled, Sliter got life on an error and Pressley singled both home. Then Carriell Nipp blasted a homer over the centerfield wall to make it four runs tallied.

In the sixth, Ogden, hitting for Adams, walked. Jones walked and Ray Coss, hitting for Blair, clouted an inside the park home run to drive in three more. A triple by Nipp and singles by Ogden, Hughes, Pressley and Boatman and a walk to Kellee produced five more runs. The eighth inning was more of the same only more so. Rose walked, Hughes singled, Sliter singled, Nipp got on by an error, Boatman singled, Ogden doubled and Jones doubled. Net results: six runs on five hits.

Outside of knocking the cover off the ball, the Indians stole bases like mad. They committed only two errors afield. By the time the last man was out, everyone was glad it was over. The line score follows:

R H E
Davids 500 000 300—8 6 7
Midland 812 043 565—29 20 2
The batters: Sebring, Yedner and Spauldin; Blair, Kellee and Jones.

Scout Parley Opens; Midlanders Attend
WACO—(AP)—The streets of Waco were crowded Tuesday with Boy Scout leaders from Texas, Oklahoma and New Mexico.

More than 360 were here for the opening of the Region 9 Scout meeting. The principal speaker at Monday night's pre-convention dinner was Arthur A. Schuck, chief Scout executive of the Boy Scouts of America. Tuesday's principal speaker is Harold F. Pote, national director of the division of personnel.

P. V. Thorson, Buffalo Trail Council executive, and J. M. McDonald, and G. W. Brennenman, Scout leaders, of Midland are attending the regional parley.

Ends Leon Hart and Jim Martin of the Notre Dame squad are the first co-captains for the Irish since 1928.

Rod Fenton Loses To Pierre LaBelle In Hot And Blustery Main Event Of Wrestling Show

Everybody, including Promoter Pat O'Dowdy, got in on the act at the weekly wrestling show in the VFW Arena Monday night. The hostile relationship of Bowdy Rod Fenton and Pierre LaBelle prompted the appearance of Professor Pat in the ring.

Fenton, using his usual assortment of legal and illegal holds and blows, took the Frenchman in six minutes in the first fall. He ended the fall with an armlock.

LaBelle's anger smoldered through the intermission period and he unleashed it against Fenton in the second fall, plenty rough and nailed him in four and one-half minutes with a body press.

O'Dowdy Appears
In the last fall, things began to pick up, but good. Fenton was out to win. He used everything he knew and grew madder by the minute because the dapper LaBelle wouldn't stay put. While Rod muscled over a means of pinning the Frenchman, he found himself slapped to the mat and counted out. That's where O'Dowdy came in.

Fenton bounced the referee and tore into LaBelle again after the fall officially was over. Pat hoisted himself into the ring and told 'em to break it up—in no uncertain terms.

The 30-minute opener went the limit with Steve Menoff and El Sharmon moving at a fast clip all the way. It was declared a draw. In the semi-final bout, Vic Weber won the first fall in 24 minutes. Jack Pappenheim took the second in six and one-half minutes and the third fall was undecided as time ran out. It was declared a draw, also.

Weber and Pappenheim put on one of the best and cleanest bouts ever staged here.

Phils, Sens Grab Season Openers; All Play Tuesday

The major league baseball season opens with a full schedule Tuesday following surprising early victories by the Philadelphia Phils and Washington Senators.

Thanks to Ken Heintzelman, a 33-year-old greybeard, and newcomer Clyde Vollmer, the Phils and Senators stole a lap on the field Monday in the only two games played.

Heintzelman shut out the favored Boston Braves 4-0, spoiling the 1948 National League champions' pennant-raising ceremonies. Vollmer came through with a ninth-inning single that beat the Philadelphia Athletics, 3-2.

Both games on the first of the double opening programs were played under poor weather conditions. As a result the crowds suffered. Only 9,195 paid to watch Billy Southworth's Braves hoist their '48 flag. Some 26,000 joined President Truman at Griffith Stadium.

Chill damp weather threatened to slice Tuesday's crowds. Cincinnati, sold out since Christmas as usual for its date with the St. Louis Cardinals.

Lefty Harry T. Helps Pitch Nats To Opening Win

WASHINGTON — (AP) — President Truman finally helped pitch the Washington Senators to an opening-day American League baseball victory.

Truman, tossing left-handed, threw out the traditional first ball Monday. But until the last half of the ninth inning it had begun to look as if he might go down in history as the first White House hurler never to see an opening-day win by Washington.

The Senators were behind the Philadelphia Athletics 2 to 1 when they suddenly came through with the two runs which meant victory.

The President had predicted in advance the score would be Washington 5, the Athletics 4. He thus called the shot on the first Washington win in an opening game since he entered the White House. Every President before him, since the first-pitch custom started, had seen at least one such victory.

Texas League—

Dallas Eagles Sack Cats 6-4 For Sixth Straight Loop Win

By The Associated Press

There is little doubt left the Dallas Eagles are the team to watch in the Texas League baseball race this year.

The Eagles proved their power Monday night against the second-place Fort Worth Cats. Dallas took Fort Worth into camp with a 6-4 victory. Its sixth straight league win. The Eagles have yet to lose a league game.

In other Monday night games Tulsa downed the downtrodden Oklahoma City Indians 3-2. Tulsa, Shreveport nosed out San Antonio 2-1 at San Antonio and Houston edged past Beaumont 10-9 in a 10-inning game.

Beaumont was trailing almost hopelessly until the ninth inning when they skipped six runs across the plate. Houston, the home team, came back in its half of the ninth and tied the score with two runs, sending the game into the extra inning.

Pitchers' Parade

Beaumont failed to score in the added frame. Houston pushed one across on a wild pitch and that was all.

Shreveport's winning margin was an inside-the-park homer by Moe Santamauro.

Bud Byerly, winning Tulsa Oiler pitcher, was the first to go the route for his team. Al Cleary of Shreveport pitched three-hit ball to San Antonio. Vern Kennedy, 40, right-hander for Dallas, had to have help from Floyd Speer in the ninth.

Eight pitchers were involved in the Beaumont-Houston game. Five hurled for losing Beaumont and Houston found it necessary to use three moundmen.

Potential Power

Duke Snider is potentially the long ball hitter required in the Brooklyn outfield.

Locke Wins Playoff At Virginia Beach

VIRGINIA BEACH, VA. (AP)—Bobby Locke of Johannesburg, South Africa, kept a promise Monday.

The mutton-faced professional had vowed a week ago that "my golf game will come around again soon."

"Soon" turned out to be Monday. Locke took advantage of Amateur Frank Stranahan's wildness and his poor putting to beat the strong man

from Toledo, Ohio, by two strokes in their 18-hole playoff for the Cavalier Specialists Golf Tournament.

Locke toured the par-66 course in 68 and Stranahan was one over in 70.

Daddy Ringtail And The Dancing Kite

It's fun to fly a kite, fun to see it up high in the air, dancing around on the end of a string.

This is the place to fly it! said Sammy. But Bobby said: "I'm lost!"

easy for a kite to get caught in a tree. The monkey boys kept on walking and kept on walking—until they came to a place where there weren't many trees.

That's what they did, and it was a good thing that they did fly the kite. Daddy Ringtail, way back at the monkey house, looked up in the air and saw the kite, dancing at the end of the string.

But I would say this: even grown-up people can get lost, and you might be thinking of what you will do if it ever happens to you.

Boy Found Strangled Here

(NEA Telephone) Member of a New York police rescue squad inspects the spot where the body of eight-year-old Jackie Goldsmith was found wedged between a wall and a chloride tank in a building of an abandoned Bronx amusement park. The boy had been strangled with a leather belt, police said.

Alphabetical Names Hinder ERP More Than Soviet Blasts

By DANIEL DE LUCE
PARIS—(P)—Soviet Russia is unintentionally helping to popularize the European Recovery Program in Western countries.
Red accusations that ERP's multi-billion dollar aid is an American trap to enslave Europe ring hollowly as evidence piles up to the contrary.
Moscow propaganda works on the recent Goebbels theory that if you repeat something often enough, people will believe it. It disregards a principle stated a century ago by an American: You can't fool all of the people all of the time.
ERP's own publicity—or to use the official term, information—is directed in 19 participating areas by a staff headed by Alfred H. Friendly, veteran reporter on leave of absence from the Washington Post.
As ECA sees it, the primary purpose of ERP information is not to stimulate European flattery of the United States. It is to encourage enthusiastic support by 270,000,000 Europeans for ERP projects and policies in the common welfare.

Second guessing, it appears Soviet strategists made the mistake of overplaying their hand in opposing the goal of an economically healthy Western Europe.
Communist propaganda still screams that ERP means war. But after a year of watching it in operation, thoughtful Europeans add: ERP means that if there is a war, the West will win it.

Illinois Bill Could Make Cat Nuisance

CHICAGO—(P)—Is a cat a public nuisance when not on its owner's property?
If Governor Adlai Stevenson signs a bill approved by the Illinois Legislature, the tabbies will be just that.
The Cat Control Bill, which was described by its sponsors as a measure to protect birds, has wounded many a pet owner.

The bill was shepherded through the general assembly by Miss Gertrude Charny of Chicago, a little white-haired woman who heads an organization called Birds, Inc.
The bill's provisions make a cat which pusses-foot around the block subject to capture by any person, who may turn the animal over to law authorities. The owner must pay one dollar to reclaim the pet.
The money paid by owners to ransom their animals will go toward "conservation, propagation and preservation of insectivorous birds."
(That means bug-eating birds).
"The bill is a little one-sided," said Norman Ross, president of the suburban Evanston Humane Society. "It does nothing to keep birds from annoying cats."
Mrs. Maude A. Merriam, for 30 years a friend of Evanston stray cats, was more emphatic. "Cats are decent, useful animals," she said. "They've done a major job fighting rats for many generations."

Crude Production Shows Light Gain

TULSA, OKLA.—(P)—United States' crude oil production during week ended April 16 averaged 4,917,850 barrels daily—5,825 barrels more than previous week—The Oil & Gas Journal reported Tuesday.
Biggest factor in increase was Kansas, 2,199 to 2,472,200 barrels. Oklahoma also was up 280 to 21,780.
Major declines were recorded in Indiana, down 4,900 barrels to 21,400; Illinois, off 5,000 to 178,300; California, 2,199 to 2,472,200 barrels. Louisiana fell 45,000 to 485,000. Production was unchanged in Texas, 1,911,300 barrels.

Boy Learns Speech, Parents America

WICHITA, KAN.—(P)—"Hi!"
Not a lengthy conversation—but a real achievement for the seven-year-old Australian boy who six months ago couldn't speak—couldn't even comprehend that the sounds people made around him had meaning.
And the cheery greeting young John Reid gives his clinic teacher in the morning is an assurance to his parents—Mr. and Mrs. Ralph W. (Jock) Reid of Brisbane—that their trip to America is paying dividends.
Almost six years ago John was stricken by Encephalitis Lethargica. Brain damage resulted. An arm and a leg were affected by paralysis. When the Reids brought their family of three youngsters to Wichita and the Institute of Logopedics last September, John was a beehive of activity without direction or understanding. As the father puts it:
"Dr. Martin F. Palmer, director of the institute, told me the illness had so affected John's brain that it could not discriminate in the constant rain of stimuli that reached it—sounds, light, heat and all the things that reach us, too—but which we can ignore if we choose. John reacted to all of them. He darted here and there—had no comprehension of space. One room was the same as any other. His reflexes drove him to constant movement, with no chance to comprehend the things about him."
"Today—six months later—we have a rested, relaxed child. He sleeps restfully. He tries to speak simple words. He shows 'speech' recognition—obeys simple commands to sit still, close the window, and so on. He plays catch, plays with toys—each one chosen carefully to help in his development. The institute had to reorganize John's brain—to teach other parts to take over the work of the parts damaged. When John came to the institute, he had about the same ability to focus attention as a two-months-old baby. His attention focus now is about that of a year-old child."

It's The People
Their flying trip to the United States also opened a new world to the 36-year-old parents and to their other children. Mrs. Reid says:
"We like it very much. It really isn't the country—it's the people."
"There's a point that appeals to both the wife and me—and that's the wonderful kindness of people here," her husband put in. "I'm still trying to answer the letters we've received—and the gifts and cards and cards sent to John from all over."
The father—former sportswriter and reporter for the Brisbane Daily Telegraph "down under"—puts in his daily stint at the Wichita Eagle. That's the job he backed up the Reid's application for a visa.
"Jock" Reid was hired by Marsh Murdock, associate publisher of the Eagle—morning and evening dailies— which thus is cooperating fully in obtaining for the son speech training at the Institute of Logopedics. Wichitans read with interest "Jock's" bylined feature in the Eagle—usually giving the Australian slant on things observed here.

Oval Wheels May Revive Old Gag

NORTH TONAWANDA, N. Y.—(P)—Remember the old bumpy ride "gag" about square wheels? Well, stop laughing—a man here has invented oval ones. They work, too.
John F. Kopyzynski demonstrated his invention with a model.
Kopyzynski, president of the Pivot Punch and Die Corporation, said he had been working on the idea for 10 years. The object, he explained, is to give more "digging" power for heavy going through mud or snow.
The problem of a smooth ride has been solved, too. The wheels come in pairs, one ahead of the other. They are mounted on a roller arm and are synchronized so that when the flat side of one is on the ground, the other one is on its peak. When the wheels go around, they look like they are "walking," but the forward motion of the axle is steady.

Wounded Mother Makes Good Recovery

DALLAS—(P)—The physician attending a 19-year-year-old mother who gave birth to a child after she was shot through the head said Monday she is making a good recovery.
"Under the circumstance," said the doctor, "the condition of Mrs. Addie Hudson can be considered excellent. It is not critical and I believe she will recover. She is able to eat, drink, sit up and talk."
Mrs. Hudson gave birth to a daughter, a month prematurely, Sunday. She had been shot Friday. Hospital attendants Tuesday reported the condition of the child as "fair."

Sunbeam Members Hear Chinese Story

Mrs. Charles Wallis told members of the Sunbeam Band of the First Baptist Church Monday afternoon a story about helpers in China. Mrs. J. D. McCain instructed them in building a church.
Assisting Mrs. Wallis, counselor, was Mrs. Russell Cotton.
Those present were Lou Caldwell, Sue Caldwell, Danny McCain, Hattie Currie, Billy Wayne Godwin, Cecil Kraft, Ann Hinkle, Judy O'Neill, Ardis Joy Griffin, Jimmie Cotton, Linda Cotton, Linda Gunter, Charles Conner and Billy Donzell.

Butler and Downing Attend Board Meeting

John P. Butler and Delbert Downing left by plane Tuesday morning for Houston where they will attend a dinner given by Gov. Beauford Jester for county chairmen and workers in the U. S. Savings Bond program. They will return Wednesday.
Egyptian pictures dating back as far as 3000 B. C. depict wrestling scenes, showing almost all of the "holds" known and used today in the sport.

Return to College

George Mayes, son of Mr. and Mrs. J. C. Mayes, 1013 North Loraine Street, returned Monday to College Station, where he is a student in Texas A&M College. Also a guest from Texas A&M in the Mayes home was Bob Taylor of Long Beach, Calif. The students were here for the Easter holidays.
In ancient days, wrestlers rubbed oil and fine sand on their bodies to prevent their opponents from getting a hold.
