#### Anti - Communist Dilemma

Ben Gold, president of the Fur and Leather Workers Union (CIO), is usually referred to in the newspapers as "an avowed Communist." This may be because he has not denied the allegation and because he is a member of the national committee of the Communist Party.

Gold is also a vice president of the CIO. But, forfunately for that organization, he is not one of the 11 officials who must sign an anti-Communist affidavit, under the Taft-Hartley Law, before any one of the CIO unions can initiate any action before the National Labor Relations Board.

However, he is required by the new law to hand, in

such a statement if he intends that his union should ever bring charges before the NERB. With that background it will be interesting to see which of three courses he takes. He can boycott the NLRB in advance, or he can refuse to sign the affidavit. The results would be about the same. Or he can swear he is not a member of the Communist Party. In that case the NLRB, by its own statement, will accept his affidavit and ask no questions. If H&TC survey.

Gold could say that he resigned from the party and fied formation, and was cut to a renounced its objectives the day before he signed his affi-core davit. He could destroy his Communist Party card. Since the party has never exhibited any regard for truth when DISCOVERY AT DOLLAR HIDE truth didn't suit its purposes, it might back up Gold's story for reasons of expediency. In such an event the Humble Cit & Refining Company prosecution would have a difficult time proving its case.

All of which makes this provision of the Taft-Harts ley Law seem rather silly. Yet there is a sound basis for 10,033 feet, had drilled out plug its inclusion. The Communists are an obvious menage to on 51 2-inch casing set at 9,980 the labor movement.

The legislation may be inept and full of loopholes. It can probably be gotten around. That possibility in itself makes it all the more imperative that the unions forget the smooth talk of these foreign agents and oust them, for their own good as well as the country's.

As quick as a wink or the flash of the camera bulb that reproduced these

scenes your life may be taken away. Only one brief second before either

of these two wrecks occured the parties involved would have declared

... "that could never happen to me!" Five minutes later the debt had

been paid. The account was settled. They now have an appointment

with God. Inconceivable, almost, is the position in which the cam-

era found this big transport truck but more incredible was the

condition of the bodies involved therein. Its cargo consisted of

most everything from "soup to nuts" proverbialy speaking.

ETERNITY, an infinite duration; an unending existence. It

belongs to you and every member of your family. Indifferent

church member, it is yours too. Mr. wreckless driver you also

must face it. How is it with you before the wreck? After your

mangled body has been removed from the wreckage you'll have no

chance. The day of opportunity will have been passed for you. Trag-

ic? Of course it is but a fact, so, play safe! be sure! Don't forget that

your church is a very, very good place for you on Sunday. As the head
