Truman's Food Conference Opens

Aid To Europe Is Principal Item To Be Discussed

WASHINGTON (AP)—President Truman and congressional leaders talked over at the White House Monday possible ways to provide emergency aid to Europe without a special session of Congress.

As the momentous conference began, the White House promised a statement some time "this afternoon" on the outcome of the talks.

Presidential Press Secretary Charles G. Ross told newsmen that the meeting probably would last two or three hours and "that's a guess."

Attending the conference were 11 Congress members, Secretary of State Marshall, Secretary of Agriculture Anderson, Secretary of Commerce Harriman and two presidential aides, John R. Steelman and Clark Clifford.

Marshall, Anderson and Harriman compose the Cabinet Food Committee which reported to Truman last week that American grain exports must be cut and that the situation requires saving of food in the United States if needs of Europe are to be met.

Two Jailed In Jewelry Theft Case

BROWNWOOD (AP)—Texas Ranger Clarence Nordyke said here Monday that two male suspects in the September 20 Ballinger jewelry robbery case have been arrested and much of the loot recovered.

One was arrested in Fort Worth Sunday and the other was taken into custody at Mineral Wells last week, Rangers revealed.

The robbery was at the Eldridge S. Price home at Ballinger. Loot amounting to about \$17,000 in cash and jewelry was taken from Price and his wife, and Mr. and Mrs. P. P. Haller of Hollywood, Fla. The robbers were masked.

Nordyke said a submachine gun believed used in the robbery, and a pair of pliers used to cut a ring off one woman's finger, were found in brush near Mineral Wells.

Rangers arrested a man and a woman in a Fort Worth tourist camp Sunday. Two expensive diamond rings were found in the woman's possession, police said.

Nordyke and Ranger Captain Gully Cowsett of Junction are to leave here Monday for Ballinger with the two suspects, Nordyke said. He said they will be arraigned at Ballinger on charges of robbery with firearms.

One suspect is said to be from Pampa, and has a criminal record.

Grand Jury Chosen For September Term

Chosen for grand jury service Monday morning at the September term of 70th District Court opened were Russell C. Conkling, G. Frank Aldrich, L. L. Beville, Floyd O. Boles, P. F. Bridgewater, J. P. Carson, John Casselman, W. E. Chapman, W. N. Cole, John Cornwall, Frank Cowden and I. E. Daniel.

Russell C. Conkling was named foreman.

SHERMAN MAN KILLED IN GAINESVILLE CRASH

GAINESVILLE (AP)—William Lester Barnett, 29, of Sherman, was killed Sunday inside the Gainesville city limits when his car failed to make a curve and rolled out of control 550 feet.

★ LATE NEWS FLASHES ★

WASHINGTON (AP)—Senator Scott Lucas (D-Ill) reported Monday that President Truman told congressional leaders there is no way to give emergency aid to Europe without a special session of Congress this fall.

LAKE SUCCESS (AP) France called on the United States Monday to withdraw demands that the United Nations Assembly find three Soviet Balkan satellites guilty of aggression against Greece.

JERUSALEM (AP)—The Palestine Government Monday ordered all employes of railways, customs, migration and health departments and all laborers in sea and air ports to be inoculated against cholera because of the spreading epidemic in Egypt.

MARION, O.—(AP)—Sheriff Leroy Retterer said Monday the body of 16-year-old Roxie Ann Green, missing Prospect High School sophomore, had been found near Norton, O., and that a 32-year-old man had admitted killing her.

CONROE (AP)—Governor Beauford H. Jester and his party from Austin landed in his special C-47 plane shortly before noon Monday, and immediately went into a conference to map plans to fight the raging forest fires nearby.

House Is Traffic Hazard

(NEA Telephoto) En route to a new location this house was stopped by the tree at right, which the city of Emporia, Kan., would not permit to be cut down by the movers. As a result, the house has blocked Highway 99 for four days. Lawyers representing the city and the movers are striving for a solution.

Reds On Defensive In Balkan Dispute

LAKE SUCCESS (AP)—Russia was forced into a defensive role in the United Nations Monday as Constantin Tsaldaris, Greece's deputy prime minister, took the lead-off position for resumption of debate on the Balkan Situation.

A spokesman said Tsaldaris, who has listened to repeated Soviet attacks on his country and the American Aid Program, planned to speak about a half hour before the Assembly's 55-Nation Political Committee.

The deputy prime minister was expected to stress the findings of a Security Council body which held Yugoslavia, Albania and Bulgaria guilty of aiding Greek guerrillas and to stand firmly behind an American resolution for a General Assembly border watch.

Tsaldaris was the only speaker officially listed, but there were reports that Poland would jump into the debate with a renewal of the Russian attacks. The Russians were said to be ready to resist any attempt to shut off debate on the grounds that the Greek situation must be thoroughly aired. As a move in this direction, Russia has re-submitted a counter resolution which blames the Greek government and which was rejected earlier by the Council, 9 to 2.

Long Debate Foreseen

Most delegates sighted no early end to the bitter oratory in the Political Committee. Still ahead of that group are such issues as Secretary of State Marshall's plan for a "Little Assembly," Korean independence, Russia's war-mongering charges and the veto.

However, a word of optimism came from Paris El Khoury of Syria, a top spokesman for the Arab League, who said: "It is a war of nerves. The situation will improve."

In an adjoining chamber the Security Council was summoned to debate membership applications from Italy, Finland, Hungary, Romania and Bulgaria. The threat of a veto hung over Italy, Soviet Delegate Andrei A. Gromyko having told the Council that he would support Italy only on condition that all five were admitted.

Palestine Issue Looms

In the third major meeting here Monday Jamal Hussein, deputy chairman of the Arab Higher Committee for Palestine, was scheduled to appear before the special 55-nation Committee on Palestine to offer vigorous objections to partition of the Holy Land. Britain, the mandatory power, already has spoken, and the official Jewish Agency for Palestine will take the floor Wednesday. General debate on a commission recommendation for partition then will begin.

Tick-Infested Herds Found On Rio Grande

AUSTIN (AP)—The Livestock Sanitary Commission reported to Gov. Beauford H. Jester Monday that tick-infested herds of cattle were found by its inspectors in Cameron, Maverick, Val Verde and Webb Counties during August.

The Commission said "the origin of these new infestations was no doubt Old Mexico, for the area just across the Rio Grande from the Texas side is heavily infested with ticks."

The Commission reported "the re-infestation is chargeable to either smuggled herds or herds that travel into Texas from across the river."

Jews Can Handle Palestine Affairs

JERUSALEM (AP)—Confidence in the ability of Palestine Jews to take care of themselves should the British pull out was reflected Monday in a Zionist leader's declaration that his people are "both willing and able to implement settlement" of the Holy Land problem by establishment of a sovereign Jewish state.

David Ben-Gurion, head of the Jewish Agency executive and chief political spokesman for Palestine Jewry, made the declaration Sunday in commenting upon Britain's decision to surrender her Holy Land mandate—announced Friday to the United Nations.

In affirming the Jews' readiness to work out for themselves the problem of assuming statehood, Ben-Gurion asserted they would make every effort to achieve cooperation with the Arabs, but he added firmly:

Call Special Session

"It is now clearer than ever that there can be no settlement nor can Palestine become really independent unless a Jewish state is established."

A reliable private source said a Jewish-elected assembly composed of top representatives of Palestine Jewry had called an extraordinary session to plan Jewish guarantees for an orderly regime if the British withdraw from the Holy Land. Ben-Gurion's statement came as the United Nations Special Committee on Palestine, meeting in New York, prepared to hear Arab arguments against its proposals for partitioning the Holy Land. Jamal Hussein, 55-year-old nephew of the exiled Grand Mufti of Jerusalem, was listed as the first speaker.

SEABOARD CORES AHEAD AT HOCKLEY WILDCAT

Seaboard Oil Company of Delaware No. 1 Wrenchey, Northwest Hockley County wildcat, about two miles northwest of the closest completed oil wells in the Levelland field, and 660 feet from south and west lines of labor 25, league 732, State Capital Lands, was coring below 4,829 feet.

This prospector had promising shows of possible production in cores and drilling samples from 4,774 feet to 4,817 feet. A string of 5 1/2-inch casing was cemented late last week at 4,757 feet. The plug on that pipe was drilled out before the current coring was started.

Operator is expected to run a production test on the open hole section in a short time.

PLYMOUTH TO COMPLETE WEST CROCKETT STEPUT

The Plymouth Oil Company No. 1-M-A Owens, stepout from the discovery well of the Owens-Wolfcamp field, in West Crockett County, and 660 feet from south and west lines of section 12, block GG, is bottomed at 5,800 feet in the lower Permian, and is waiting for plug to cure on 5 1/2-inch casing cemented on bottom.

The section from around 6,500 feet to total depth, had shown promising indications of production. Operator will perforate the pipe opposite the saturated formation, and test and try to complete as a producer.

ELEENBURGER BEING TESTED IN DEEP HOOVER PROJECT

Plymouth No. 1-O-A Hoover, wildcat in the shallow-Olson field of West Crockett, and 2,011 feet from north and 960 feet from west lines of section 19, block GG, had progressed to 6,732 feet in the Ellenburger, entered at about 6,334 feet, and was taking a drillstem test. The top 38 feet of that formation did not develop any signs of oil or gas in a drillstem test of that zone.

STERLING EXPLORATION IS CHECKING LOWER HORIZON

Plymouth No. 1 Frost, North-Central Sterling County wildcat, about 12 miles north and a little west of Sterling City, had progressed to 8,444 feet in Ellenburger lime, and was testing the section from the total depth, back up to the casing which is cemented at 8,378 feet.

So far as has been reported, no appreciable shows of oil or gas have been developed from the horizon now being investigated.

RUNNELL WILDCAT IS TO INSTALL PUMP

Southern Minerals Corporation No. 1 Northington, South-Central Runnels County wildcat discovery, etc. and one-half miles northwest of Ballinger, was shut in to install pump to test and try to complete as some sort of an oil well.

On latest tests reported from perforated section at 4,108-14 feet, where 800 gallons of acid had been injected, recovery was reported to have been a considerable amount of fluid, by swabbing and interference.

Harley Sadler Will Not Oppose Jester

ABILENE (AP)—State Rep. Harley Sadler of the 117th District in an interview in the Abilene Reporter-News said he will not run for governor if his "last friend" Gov. Beauford Jester, seeks another term.

Sadler says he is "deeply grateful at the flood of letters urging me to announce," but "so long as my last friend, Governor Jester, does not make an announcement for the senatorial seat, I shall issue no statement along this line. I could not and would not oppose him. If he should step out I might respond to the will of the people."

Sadler and his tent theater are in Midland for a three-night stand opening Monday night.

Truman Will Hold Press Conference

WASHINGTON (AP)—The White House announced Monday that President Truman would hold a special news conference this afternoon on his meeting with congressional leaders concerning Euro-

pean aid.

There are three departments of our city, OK! Namely Police, fire, and Mr. Cole's and his bunch of Minutemen.

Has South Side got anything but additional taxes and promises? J. P. Sadler, Adv. 5-11-47

Palestine Explosion Kills Nine

JERUSALEM (AP)—Nine persons were killed and approximately 50 wounded Monday when a district police headquarters in Haifa was wrecked by a shattering bomb explosion which Jewish underground agents boasted they had set off as reprisal for the deportation of uncertified Jewish immigrants.

The dead included three British constables, four Arab policemen, a 16-year-old Arab girl and an Arab coffee vendor. Injured were 29 British constables—of whom 13 were critically hurt, 14 Jewish civilians and 11 Arab civilians.

Most of the injured civilians were passengers on an intercity bus from Jerusalem which was passing the police headquarters when the explosion occurred.

Police said the bomb—a tar barrel loaded with high explosives—was dumped from a truck which backed up to the wire barricade surrounding the police station and dropped an improvised ramp over the barrier. Rolling down the ramp and crashing into the building, the barrel exploded moments later with a roar which shook the whole harbor area.

Irgun Zvai Leumi, Jewish underground organization, immediately issued a communique declaring that its agents had carried out the attack in retaliation for transportation to Hamburg of the exodus 1947 Jews and the deportation to Cyprus of refugees who reached Palestine Saturday aboard the Alapal.

Three Killed As Destroyer Hits Mine

WASHINGTON (AP)—The Navy said a mine exploded under the U. S. Destroyer Douglas H. Fox near Trieste at 5:20 a. m. Monday, killing three and injuring 12.

The blast wrecked the steering gear of the late type warship, flooding all the after compartments and leaving her dead in the water, dispatches reaching the Navy Department said.

A sister destroyer, the James C. Owens, and two tugs have gone to the aid of the Fox which has two doctors aboard.

Navy officials said the mine may have been an old one, broken loose from an area not yet swept clear of them since the war. The explosion occurred 18 miles off Trieste, dispatches from that Adriatic port said.

Trieste is the former Northeast Italian port city, now included in the Free Territory of Trieste created from an area ceded by Italy at the head of the Adriatic Sea. Yugoslavia borders the territory on the east.

The names of the victims were not made public at once. One of the men was reported critically injured and the other wounded were in serious condition.

The Fox, which was on her way from Venice, Italy, to Trieste, is one of the most heavily armed of American destroyers. Her main battery carries six five-inch guns plus 10 torpedo tubes. She joined the U. S. warships in the Mediterranean after leaving Norfolk, Va., July 21.

The Fox's skipper is Cmdr. Charles W. Travis, Annapolis, Md. The flooding of all the after compartments indicated that the mine was extremely powerful and must have gone off very close under the stern, experts believe.

WEATHER

Generally fair Monday night and Tuesday. No important temperature changes. Maximum temperature Sunday was 86 degrees, minimum 62 degrees. Minimum Monday was 63 degrees.

Methodists Blast At Halsey

WASHINGTON (AP)—The Methodist Board of Temperance felt "loose a broadside" at Adm. William F. (Bull) Halsey Monday for saying that "as a general rule, I never trust a fighting man who doesn't smoke or drink."

The board's attack filled six columns of its newspaper-size publication "The ClipSheet."

"Many of the greatest military men the world has produced have been notably abstemious," the article said, naming Robert E. Lee, Jeb Stuart, Stonewall Jackson, Sgt. Alvin York and Jimmy Doolittle.

"Alcohol," it added, "is a deadly menace to the country's safety

whether it is in the brain of admiral, general, or diplomat."

The board quoted Lt. Cmdr. J. Bryan, III, Halsey's collaborator in the magazine series, as saying of the now-retired admiral:

"Occasionally he takes a beer or a Martini, but his staple drink is Scotch whiskey and plain water. He has said, 'There are exceptions, of course, but as a general rule, I never trust a fighting man who doesn't smoke or drink.'"

In another installment, Halsey wrote that "to a man who has just had a tense, hazardous flight or a wet watch, there is no substitute for a lot of sound spirits."

3-AA Roundup

Anchor Up In District War

By TANNER LAINE

This is the week business picks up in District 3-AA. Conference play begins. The anchor comes up. Defending state champion Odessa plays Big Spring at Odessa; Midland journeys to Plainview; San Angelo goes international to play Mexico City; and Sweetwater has Wichita Falls to contend with, at Sweetwater; Lamesa is open.

The spotlight then is on the Odessa-Big Spring melee for this is the first 1947 conference encounter. The stands will be packed, you can bet on that. Odessa will win handily as it chooses. Odessa has it this year same as last. Odessa burns a bit in the score Big Spring managed to hold the Bronchos 15 last Fall 12-0. It's Odessa and you can name your score.

It's A Long Way
It's a long way to Plainview and a long way to come back if Midland loses. But don't think Midland will lose. The battle will be terrific. Both teams are Bulldogs and that's no joke. Plainview is licking its wounds from a mauling by Odessa. Midland is stinging from a close one dropped to Austin High (El Paso).
San Angelo's Bobcats, refreshed in power and sronger by the day, will go South of the border and win a ball game. This is a Saturday contest and a flock of West Texas fans are going. We pick San Angelo because a Texan can beat a Latin every time. "Remember the Alamo."
Poor Sweetwater! Wichita Falls will make mince meat of the Mustangs. Down Nolan County way it is simply a case of not enough manpower and the old, old story of all the grid greats graduated.
Lamesa needs the rest it will get this weekend.

Longhorn-Tarheel Tilt To Highlight SWC Grid Menu

By WILBUR MARTIN
Associated Press Staff

Four tough inter-sectional games overshadow the opening of play for keeps in the Southwest Conference this week.

TCU and Arkansas kick off conference activity but the national grid spotlight shifts to Austin for North Carolina and the University of Texas. Three other games are bunched in the glare.

Rice's Owls nurse comeback hopes against Southern California in Los Angeles Saturday, while high riding Southern Methodist University plays host to Missouri at Dallas and Texas A&M journeys to Norman, Okla., to take on Oklahoma.

The North Carolina-Texas tilt is expected to fill 40,000-plus Memorial Stadium for a showdown between two of the nation's most touted backs: Charlie Justice of the Tarheels and Bobby Layne of Texas.

Conference teams came out of a bruising inter-sectional schedule last week with four victories against two defeats, but two of the decisions could be classified as surprises.

Baylor's bouncing Bears kept rolling uphill with an upset 18-7 victory over Miami and TCU dropped one to Oklahoma A&M 14-7 in a definite reversal of form.

Longhorn Speed Pays Off
Bair Cherry's fast-breaking Texas T ran heavy Oregon ragged in what was supposed to have been a game of revenge for the Webfeet. The Oregon boys couldn't catch the Longhorn backs and went down, 38-13.

It will be this speed and the passing of Layne which the Longhorns hope will offset the ground power of North Carolina and the line thrusts of Justice.

SMU's 22-6 victory over Santa Clara at San Francisco jumped Doak Walker back into the limelight he left in 1945 to enter the Army. His 91-yard kickoff return stamped him as one of the better broken field runners in the conference.

A&M had no trouble in winning its seventh game from Texas Tech—29-7.

Southwest Score-Happy
Arkansas' Razorbacks, co-defending champion, will be favored over TCU Saturday, but North Texas State stopped the Porkers' offensive power on all but two occasions. The 12-0 score largely resulted from Arkansas' stone-wall defense of its goal.

LSU's Tigers rolled from behind in the final period to nip Rice, 21-14. Nobody could claim surprise. Both teams are pre-season favorites to win their conference titles.

Byron Gillory—Layne's favorite target—stayed on top of the scoring parade with a pair of touchdowns. His total for two games is now four.

Score-happy conference teams have piled up 319 points in an even dozen games against 68 for the opposition.

Dodgers Can't Outsmart Home Runs

Yankees Win World Series—Remember? But Brooks Don't

By HARRY GRAYSON
NEA Sports Editor

NEW YORK — The Yankees win World Series. The Dodgers don't. This is as good a reason as any for picking the American League champions in the set opening at Yankee Stadium on Tuesday, but this observer won't be surprised to see it go down to the last out of the seventh game.

Both clubs are considerably below pre-war World Series standards.

The Brooks are baseball's most resourceful club, scored easier and quicker than any other outfit.

They steal signs and bases, hit and run, work the squeeze. On the hit and run, all the regulars manage to get a piece of the ball. They are masters of detail.

The Brooks are blessed with more speed than the Bombers; at least they utilize it to a greater extent.

Dizzy Picks Brooklyn
They are the hungrier club. They have the stronger bench. Such a keen student as Dizzy Dean and many other schooled baseball men predict that the Brooklyn will run the New Yorks out of the park.

But the Yanks have scooters, too, and no ball club can outrun or outsmart a ball belted out of the park.

While it has a well-balanced batting order, with the top and tail-end no weaker than the middle, the Flock is without a stand-out home run manufacturer.

Yanks Have Rifle Arms
Bucky Harris has six men likely to paste the pellet into the stands or over the wall at any time—Henrich, Berra, DiMaggio, McQuinn, Johnson and Lindell.

And will Burt Shotton's base-runners be able to take that extra base on the rifle arms of DiMaggio, Henrich and Lindell, as they did on Humpty Dumpty National League outfielders?

Billy Southworth of the Braves, well acquainted with both sides, says the left-handers Lombardi and Hatten might bother the Yankees, but the Bronx outfit acted like it owned such a ferocious southpaw as Newhouse of the Tigers.

How could the New Yorks be soft-shelled against portsideers with right-hand batting first-liners like Strawweiss, DiMaggio, Johnson, Lindell and Bizuto, an Al Clark and Sherman Lollar in the dugout.

Reiser's Throwing Weak
The Yanks may outsteady the Dodgers in the infield, where Jackie Robinson still has trouble with balls hit to his right and Spider Jorgensen had to be taken out after a key series with the Cardinals.

The New York outfield is vastly superior, especially with the shoulder separation having reduced Pete Reiser's throwing rang and Gene Hermanski on the uncertain and inexperienced side.

Speaking of left-hand pitchers being more effective against the Yankees' Manager Shotton on the right-handed Ralph Branca and Hal Gregg. Branca, only 21, is being counted on for two victories. Even if the soreness fails to disappear from Hugh Casey's ailing arm, the Brooks have a rising fireman in Hank Behrman.

Shea Back In Form
With Shea back in low-hit form, the Yanks boast more pitchers of World Series caliber, the other being Reynolds, Newsom, Bevins and perhaps Raschi. Allie Reynolds and Bobo Newsom have rubber arms. In Joe Page, Bucky Harris this year developed a relief worker comparable to any of the great ones of the past.

With the series starting on their home grounds, the Yanks should be favorites at 7-to-10, and their chances up when the show moves

1947 Major League Season New History

By JOE REICHLER
Associated Press Sports Writer
Major league baseball for the 1947 season is ended for everybody but the Brooklyn Dodgers and New York Yankees, but few of the more than 20,000,000 record paying customers who have watched the big league stars perform will forget the tumultuous events which have occurred during the last six months. They have seen baseball history created when Jackie Robinson made his debut with the Dodgers to become the first negro to crash the majors in modern times.

The fans also saw the peculiar picture of a New York Giant team march out a record breaking 221 homers and yet wind up fourth in the standings, 13 games off the pace.

Yanks Win 19 Straight
Johnny Mize crashed 51 to the Ralph Kiner of Pittsburgh for the major league lead. They fell five behind Hack Wilson's National League record of 56 and nine behind Babe Ruth's 1927 major league standard of 60.

The Yankees, in cruising to their fifteenth pennant, all coming since 1920, tied a 41-year-old record by stringing together 19 straight victories. The old Chicago White Sox of 1906 were the only other club to do it.

Buddy Kerr of the Giants established a fielding record for shortstops by playing through 68 games and handling 386 consecutive chances without an error.

ALL-SQUARE DIXIE SERIES TO RESUME IN MOBILE

MOBILE — (AP) — Houston and Mobile resume play in the Dixie Series here Monday night, all square at one game each.

The Texas League champion, Houston, won the first game while Mobile, Southern Association titlist, took the second game.

The teams were idle Sunday, moving from Texas here.

"MY FAVORITE GROCER" is....?

The Chiropractor and You
No. 2 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic

THE SPINAL CORD
begins at the brain and proceeds down through the center of the spinal column, supplying nerve fibers in pairs to body cells through the various openings or inter-vertebral foramina. These nerve fibers radiate to all parts of the body in such volume that the prick of a pin on any part of the flesh will strike one or more of them. If the spinal cord itself is impinged sufficiently it will cause total paralysis of the body below such paralysis of the body below such paralysis. This proves that motor power originates within the brain. If any of the nerve fibers emitting through the openings between the vertebrae are impinged, it will accordingly affect the body part which the impinged nerve supplies and the flow of nerve energy will be obstructed in much the same manner as a flow of water from the nozzle of a hose would be interfered with should one step on the hose at some point between the source of water supply and the nozzle of the hose. To restore the flow of water to full capacity of the hose, one must first find and adjust the cause preventing the flow. So it is with the Chiropractor. He locates the subluxation causing impingement on the nerve, which is the impediment to its normal flow

of nerve energy, and adjusts it away, health resulting from nature itself.
CASE HISTORY NO. 2870.
A girl of 7, both deaf and dumb. When she was 18 months old, had fallen out of a high chair receiving some injury which affected her hearing, consequently she never learned to talk. Three different specialists were consulted and the consensus of their opinion was that the child was normal except for an affectionation of the auditory nerves which could not be cured. In January her parents heard of a Chiropractor, and took the child to him. He X-rayed the spine, adjusted a misaligned vertebra over a period of time, and by May the child's hearing was fully restored. She is now attending school and progressing favorably.

Everybody is asking..

"Why can't I get more Budweiser?"

The fact is that Anheuser-Busch is making more BUDWEISER than ever before—but more people are asking for it than ever before.

Time and again we have built the world's largest brewery bigger. Now we are in the midst of the biggest expansion of all. It will make many more millions of bottles of BUDWEISER available.

Meanwhile we are distributing our tremendous output on a fair-share basis to all.

It seems that people no longer ask for beer—they ask for **Budweiser**

Hair-Do's Team With Women's Hats To Revive 1900's Styles For 1947's Fall Fashions

BY ALICIA HART
NEA Staff Writer

Milliners who pull hat fashions out of the past are getting wholehearted assistance from the hairdressers. Results of this teamwork are hats and hair-do's which conspire together to put early 20th century styles on 1947 heads.

Any day now 1902, 1912 and 1920 hat styles will be peeping out from under hat-fashions revived from the same periods of the past. Coiffures created for revival hats are authentic. The hair stylists who build them, however, promise that they'll look better on your head than they did on your mama's or grandma's. Today's styles owe their improved lines and better-controlled curves to modern hair-dressing techniques.

Examples are shown in the two styles modeled above. Both were created by New York hair stylist Eye Wygod as mates for the two John-Frederies hats; one of which revives 1902 fashions, the other 1912.

The hair-do of 1902, brought up to date, as shown upper left, owes its modern good looks to 1947 techniques. Designed to pair off with the big pink beaver felt hat (upper right) of 1902 inspiration—this coiffure features a make-believe bang, sectioned off from the crown of the head and softly waved,

and deep-furrow waves that dip down on the cheeks. A 1902 neck bun is interpreted with soft rolls. Styled for the 1912-type quill-trimmed turban of striped taffeta, shown lower right, is the ear-muff coil (lower left) of the same period. For this coil, hair is divided in two sections from a center part and coiled into ear buns, which, thanks to modern permanent-waving techniques, are cluster of softly ringleted curls.

IF STOMACH BALKS DUE TO GAS AND BLOAT

Help Get Food Digested to Relieve Yourself of This Nervous Distress

Do you feel all puffed-up and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief in helping your stomach do the job—it should be doing—in the digestion of its food.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with overdoes of food and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

International News Freedom

A glance at the proposed international free-news treaty, which the State Department has made public, will show that it was written with no hope of Russia or any of her satellites signing it. Yet, as it stands, it is a significant document which, hopefully, will assist the unhampered dissemination of news throughout the world.

The treaty was prepared under the direction of Richard J. Finnegan, editor of the Chicago Times, and it treats news for what it really is—an international commodity vital to the existence of democratic governments and to the preservation of peace.

Correspondents of each signatory government—including photographers, news artists, radio, television and documentary film employes, as well as writers—would move freely throughout the other's territory. There would be no government censorship, deletion or editing of copy except for reasons relating directly to the maintenance of military security.

Furthermore, the treaty would set up an International Information Commission which, for all practical purposes, would be autonomous. Complaints which the commission could not settle by diplomatic means could be brought before the International Court of Justice.

The authors of the proposed treaty have recognized the fact that some signatory governments might not give to their own correspondents the same rights as are guaranteed to American correspondents within the country. The document makes no attempt to rule out censorship or even suppression of publication which a party to the treaty might impose on its own nationals.

Perhaps the authors concluded that any attempt to interfere with the domestic policies of a government which regularly or occasionally imposes censorship would limit the treaty's usefulness even more than it is limited by the absence of Communist-dominated countries.

The treaty would, however, give the correspondents of signatory governments the same rights within the United States that American newsgatherers enjoy. And it might be that the good example would have its effect on, let us say, some South American governments.

At any rate, the free-news treaty would have the desirable effect of standardizing one element of American foreign policy and putting it down in black and white. It would be an important first step in extending one of America's cherished freedoms by international agreement.

The concept of press freedom as set forth in this document is, of course, the antithesis of the entire Soviet concept of the function of news. "Every means of communication, including speech, writing, press, radio, motion picture and art," whose freedom this treaty seeks to promote, is regarded by Soviet officialdom as an agency of government propaganda. Yet it would not be sensible to stop striving toward that freedom because a sizable segment of the world's population is denied it.

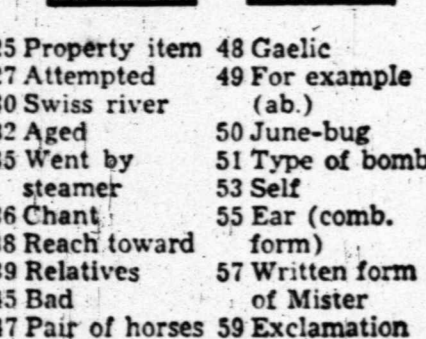

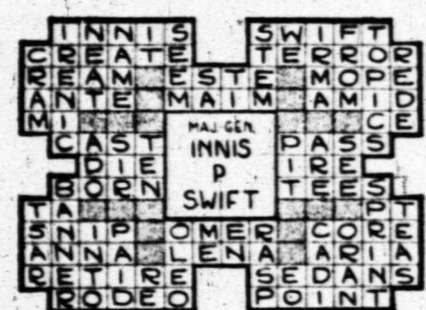

A widespread agreement to this treaty would surely add to the enlightenment of mankind. As for the governments behind the iron curtain, the force of concerted world opinion, though its action may seem slow and its strength limited, might eventually force a relaxation of the iron grip which, through fear of the truth, holds millions in ignorance.

Henry's Challenger In The Big Fight

Post-War Decade Brings Revival Of Bridge-Building

By MAX HALL

WASHINGTON—(AP)—The nineteen-thirties were a glorious era in bridge-building. Record-breaking suspension bridges lifted their towers high and added strength and majesty to the American scene.

The nineteen-forties have told a different story. As though symbolically, this decade opened with a dismal event. The third longest span in the world fell down. The Narrows Bridge at Tacoma, Wash., began swinging violently on November 7, 1940, and crashed into Puget Sound.

War Stopped Building
Then came the war, and most bridge-building was put aside. Since the war, construction of big bridges has been slow coming back. One reason is the steel shortage. Another reason is the high price of everything needed in construction.

E. L. Erickson, assistant chief of the Bridge Division of the Public Roads Administration, says it cost about 70 per cent more to build a bridge nowadays than it did in 1939.

Narrows Bridge Planned
The task of rebuilding the 2,800 foot Narrows Bridge will begin soon.

The Army Engineers have recently given permission for a whopping suspension bridge crossing the Delaware south of Wilmington.

Work has begun on twin highway drawbridges over the Potomac here in Washington.

Folks in New Orleans are still planning a bridge across the Mississippi to suburban Algiers. A Mississippi bridge is already under construction at Memphis. Others are planned upriver.

Army Says No
Galveston has long nursed an astonishing plan—half bridge, half tunnel under the bay.

There is talk of a bridge across Chesapeake Bay near Annapolis. There is also talk of thrusting another mighty structure over San Francisco Bay, paralleling the one that links San Francisco and Oakland.

New York harbor would have gained a thriller, rainbowing across from Battery Park to Brooklyn—but the army engineers said no, and a tunnel is being dug instead.

The army feared that a bridge might some day be destroyed by accident or design, and block the mouth of the East River.

13 Texans Die During Weekend

By The Associated Press

At least 13 persons died violent deaths in Texas during the weekend. Traffic accidents resulted in eight dead, two died in a plane crash and three from gunshot wounds.

Alden M. Hardin, 20, who lived near Grapevine, and L. M. Everling, 29, Fort Worth, were killed Sunday when their plane crashed into a vacant lot in Grapevine.

Cecil Kavanaugh, 43, a veteran of 21 years' service with the Dallas Police Department, was found shot to death in a Dallas alley Saturday. A verdict of suicide was returned by Judge W. E. Richburg.

An eight-month-old girl, Sharyn Lee Binder, daughter of Mr. and Mrs. Abe Binder, suffered fatal injuries Sunday at Houston when a car driven by a 15-year-old girl lurched and pinned the baby against a house.

James Franklin Hudspeth, 35, Haskell radiator repairman, died Sunday of gunshot wounds at Haskell. Justice of the Peace C. K. Jones of Haskell said he returned an inquest verdict of suicide.

Bobby Wayne Meador, 18, of Waco, was killed near Waco Sunday when four motorcycles collided. Three other persons were injured in the accident.

Two persons were killed and two others injured late Sunday afternoon near Marshall when two automobiles and a truck collided. Roosevelt Johnson and Cecil Fuller, both of Hillsville, Harrison County, were killed and Willie Columbus, also of Hillsville, was critically injured.

Maurice Leslie Cunningham, 29, of Houston, was shot to death in his car near Houston Sunday while sitting with a woman companion. Justice of the Peace W. C. Ragan returned an inquest verdict of suicide.

Mrs. Hattie S. Cleckler was fatally injured in an automobile collision Saturday in Abilene. Funeral will be held Monday.

Elvin C. Brock, 36, Waco fireman, was killed Saturday in an automobile collision at Waco. A man identified by personal papers as Ollie Woods, Dallas, was killed when struck by an automobile in Dallas Saturday.

Retired Grocer Gets Going Again—And Look At The Prices

DUBOIS, PA. — (AP) — The grocery business of 78-year-old Charles Mike—sold out a year ago when Mike retired—is open under the old name again because "I want to divide my profits with my old customers."

Mike, whose bristling mustache grew during his 60 years behind the counter, retired because he felt he was too old. He built himself a new house but when the house was finished time began to hang heavy on his hands.

Saturday night Mike re-entered the grocery business in a small room next door to the old store. And the price tags placed on the shelves brought a growing line of customers to his door:

Eggs At Fifty Cents
Fresh eggs—50 cents a dozen, butter—75 cents a pound, bread—12 cents, cold meats—45 cents a pound. Local stores, meanwhile, were selling eggs for 85 cents a dozen, butter at 90 cents, bread at 15 cents and cold meats at 75 cents.

"I feel like a free man again," Mike said. "All that time I was retired I felt like I was in jail. I want to divide my profits with my old customers. A penny for me and a penny for them. I want to help everybody."

Mike said he plans to add fresh meat to his shelves this week and the same price reductions will prevail.

SAVINGS DEPARTMENTS!

SAVE TIRES:

HAVE STEERING and WHEEL ALIGNMENT CORRECTED

If your front wheels are but 1/4th out of line you will reduce tire mileage 25% to 35%. It's a proven fact that 99 cars out of every hundred need wheel alignment every 5000 miles.

BALANCE ALL WHEELS

Tires out of balance cause cupped out places to appear on the tread. A tire 1 ounce out of balance will build up to 12 pounds at 60 miles per hour.

Some Dogs Still Lead A Dog's Life

By WILLIAM J. CONWAY
CHICAGO—(AP)—Dogs, too, are enjoying good times.
"People have the economic ability to buy and take proper care of pets," explains Clarence Olson, president of National Dog Week, Inc.

The happy result, he adds, is that canines can celebrate "National Dog Week" (September 21 to 27) with the view that living standards in the U. S. are higher than ever before.
Dogs receive inoculations to protect them from disease, he says. They get medical, dental and surgical treatment. They eat one billion pounds of prepared foods a year—foods calculated carefully to give them adequate nutrition.

Dog Population: 20,000,000
"A researcher has said," Olson recalls, "that if we were restricted to a balanced diet like many dogs are, we would add years to our lives and life to our years."

Under favorable conditions, the American dog population now is up to an estimated 18 to 20 million, the highest in history.
One family in each four in cities and towns now has a dog, and hardly a farm is without one.

Many of the "four-legged favorites" have improved their stations in life. Among them are "Cover Dogs," "War Dogs," "Seeing Eye Dogs," and "Movie Dogs."

Man's Best Friend
But Olson points out that fortunes of dogs rise or fall with the fortunes of their owners. They gladly share the wealth of the wealthy, and loyally share the poverty of the poor.

Many of them receive little or no care, and scrounge their sustenance from neighborhood garbage cans.

So, he submits, there is a lot of room for improvement for a lot of dogs.

Among the points being stressed in National Dog Week is that man's best friend should be treated as such.

Questioned By Subcommittee

(NEA Telephoto)
Paul Dillon, right, an attorney and former campaign manager for President Truman, appeared at a House subcommittee hearing in Chicago to testify that he had sought the transfer from prison of two of four former Al Capone gangsters whose paroles are now being investigated.

Adopts 'Children' After Half-Century
DALLAS—(AP)—After half a century, Mrs. Mary Elizabeth Coils, 75, legally adopted a foster son and daughter.
They are W. C. Coils, 54, now a grandfather, and Mrs. Mayme Coils Miller, Coils has been the foster son of Mrs. Coils since the age of 13 months and Mrs. Miller was adopted in 1899, but no adoption papers were recorded.

Russians Draining German Resources For Soviet Export

BERLIN—(AP)—The Neue Zeitung, official German newspaper of the American Military Government, has reported that the Russians shipped out of Germany to the Soviet Union in one fortnight 222 carloads of grain and 14 carloads of livestock.
The newspaper claimed that this represented "only a fraction" of what the Russians were actually taking out of Germany, "despite the fact that drought damage will force a cut in food rations for Germans."

American experts have estimated that the grain crop in the United States Occupation Zone had been damaged 20 to 40 per cent by drought. Since the drought has been Germany-wide, losses nearly comparable were believed applicable to crops in the other three occupation zones.

The Neue Zeitung also reported that in the last two weeks there had arrived at Brest-Litovsk in the Soviet Union from Germany 28 railroad carloads of lumber; 40 carloads of railroad equipment; 35 carloads of machinery, and 51 carloads of army goods.
Shipments out of the port of Rostock bound for Russia were reported to have included 28 carloads of automobiles and 40 carloads of railroad implements.

Rivers every year carry two and three-fourths billion tons of dissolved materials into the oceans, and even larger quantities of suspended materials.

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority

Although a national tournament is generally just ten or twelve days of hard work for me, it is always interesting to sit around with the players after the games and listen to their discussions of what happened on various hands. Today's hand was given to me by Mrs. Albert Rockwell of Warren, Pa., who took quite a "fixing" on it.

She opened the bidding with a two-bid because she and her partner were using an ace-showing response: that is, if you have the ace of your partner's suit, you show it first, and if not, you show your lower ranking ace. The three heart response told Mrs. Rockwell that North held the ace of hearts, so she decided to waste no time

Farm Bureau Meetings To Be Held In Area

A series of 23 Farm Bureau district meetings to determine the opinion of farmers with reference to continuation of the national farm program, which is in jeopardy, will be held in Texas September 29 through October 14. J. Walter Hammond, president of the state organization, has announced. Two meetings have been scheduled for the District 6 area. One will be held in the Hotel Settles, Big Spring, October 6; the other will be held in the Cactus Hotel, San Angelo, October 7. Meetings will begin at 10 a. m. with C. H. DeVaney of Coahoma, state director, in charge.

'Runnin' Hi' To Open Four-Night Stand Monday

The Kiwanis Club-Midland Community Theater minstrel-revue, "Runnin' Hi," billed as one of the top entertainment features ever presented here, will open a four-night engagement Monday in the City-County Auditorium. Curtain time is 8:30 p. m. The two-hour musical revue and blackface minstrel, which will run through Thursday night, is the year's fourth major production of the Community Theater, and is being presented as a benefit for the Kiwanis Club's underprivileged children fund.

Original music and lyrics for the show were written by William Pomroy, Jr., Midland oil man, and the cast includes all Midland talent—Kiwanians, theater members, career girls, and high school singers and dancers. Rehearsals have been underway several weeks and sponsors say everything is in perfect readiness for the show's opening. Record crowds are expected. Tickets will be available at the door, and reservations for the four performances may be made at Wemple's until 6 p. m. daily.

Oil & Gas Log—

DEVONIAN DISCOVERY IN N-C

ANDREWS STILL IN PAY Sinclair Prairie Oil Company, et al., No. 1-173 Skelly-University, discovery for heavy flowing production from the Devonian, four miles east of the Fullerton field, and about 12 miles north and west of Andrews, in North-Central Andrews County, was at total depth of 9,750 feet in the Devonian, and was taking another drillstem test. A test was run at 9,680-9,720 feet. Recovery was the 2,500-foot water blanket and 1,800 feet of free oil. The section did not flow oil during the test. Top of the Devonian is at 9,428 feet. The zone from there to 9,680 feet flowed oil in prolific amounts when drillstem tested. The new field open is 660 feet from north and 1,980 feet from east lines of section 25, block 13, University survey.

TEXACO GETS MORE GAS SHOWS IN NE CROCKETT

The Texas Company No. 1-U State, Northpact Crockett County Ellenburger exploration, three miles south of Barnhart, and 660 feet from north and 662 feet from west lines of section 22, block 40, University survey, was bottomed at 9,075 feet in the Ellenburger lime, and was running a drillstem test. A test was run at 8,950-9,025 feet. The tool was open for one and one-half hours. Recovery was 180 feet of slightly gas cut drilling mud. Flowing pressure was 130 pounds; build up pressure was 232 pounds and hydrostatic pressure was 4,930 pounds.

Kiwanians Hear Bond Election Discussion

The proposed \$1,385,000 bond issue for civic improvements here was discussed by Mayor R. H. Gifford and members of the City Council at the Midland Kiwanis Club meeting Monday noon in the Scharbauer Hotel. The six proposals included in the election were explained by Mayor Gifford and Councilmen Robert I. Dickey, Stanley M. Erskine, Robert S. Dewey, and W. F. Hejl. The mayor also discussed the urgent need of the issue and the city's plan for financing the bonds. Ernie Critch was installed as a new member of the club. Announcements were made concerning the Kiwanis Club-Community Theater minstrel-revue to be presented four nights this week.

THREE FINED ON CHARGES OF DRIVING WHILE DRUNK

In Midland County Court Monday, three men were assessed fines of \$50 each, plus costs, and their drivers licenses were suspended for six months when they pleaded guilty to charges of driving while intoxicated.

SEEK NEGRO SHOOTER

Midland police were asked by Odessa police Sunday to watch for a negro man, who reportedly shot three other negroes at Odessa. Details were not given.

Muckers Look Good In Border Circuit

The team that Head Coach Jack Curtice of Texas College of Mines will throw at opposing Border Conference football squads this year appears certain to exceed the accomplishments of last year's squad, despite predictions of another mediocre year by the mentor and other conference experts. With two victories already under their belts, the Muckers this week take on the wireless Lumberjacks from Arizona State College at Flagstaff in one of two conference games on tap. The first start for both clubs in conference play, Saturday's clash at El Paso can hardly fail to produce a minor victory. This Week's Schedule

Reach—Reach

He's trying mighty hard, but not quite hard enough. No. 33, Bloxom, of TCU, reaches out as far as he can, for a pass from Berry, which was just a bit too far out of reach. The Texas Christian Frogs went down under the power of the Oklahoma A&M team to the count of 14-7. Number 52, Aldridge of Oklahoma A&M is converging on Bloxom.

Odessa Broncs Still Look Like Class Of Schoolboy Parade

By HAROLD V. RATLIFF Associated Press Sports Editor

The Texas Schoolboy football race slips into October with only 24 undefeated, untied teams of the original field of 103 and with some sharp changes in the assessment of sectional strength. Odessa's mighty Broncs remain the Number One team of the state with Wichita Falls next in line and with the Arstin Maroons showing their way into the Big Four alongside Corpus Christi.

Highland Park's Scotties, perennial power, tumbled out of the class of top title contenders last week as they fell 7-6 before a Paschal (Fort Worth) team that couldn't beat Beckenridge. You seldom hear about Lufkin these days either. Waxahachie took care of that, however, by licking Lufkin 12-0.

Longview is definitely among the better teams. The Lobos last week beat Paris 13-0 to show they are good bets to win the District 11 title despite the presence of Marshall and Tyler and the unexpected strength of Texarkana. Feature game of this week matches Austin (El Paso) with Ysleta. It is the only game in which undefeated, untied teams clash.

These Are Unbeaten

Other stand-out tilts have Sherman playing Hiehland Park, Galveston tackling North Side at Fort Worth, Sunset (Dallas) meeting Waco, Marshall taking on Midway (Houston), Forest (Dallas) playing Tyler and Arlington Heights (Fort Worth) engaging John Reagan (Houston).

Undefeated, untied teams left are: Amarillo, Pampa, Wichita Falls, Odessa, Austin (El Paso), Bowie (El Paso), Ysleta, Sherman, Arlington Heights (Fort Worth), Polly (Fort Worth), North Dallas, Corsicana, Waxahachie, Kilgore, Loneview, Marshall, Texarkana, Austin, Brackenridge (San Antonio), Corpus Christi, Brownsville, Weatherford, Galveston and McAllen.

Undefeated but tied are Forest, Gladewater, Goose Creek and Thomas Jefferson.

Yanks Pick Shea To Hurl Opener

NEW YORK.—(P)—Freshman Frank (Spec) Shea, named by Manager Bucky Harris to pitch Tuesday's World Series opener for the New York Yankees, probably will be opposed by 21-year-old Ralph Branca, Brooklyn's ace 21-game winner, with Lefty Vic Lombardi a strong second choice.

Harris tabbed Shea, the first American League Rookie ever to hurl the first game of a series, for opening duty after Sunday's season finale with the Athletics, but Manager Burt Shotton still refused to name his starting Dodger.

It could be that Shotton, who piloted the Brooks to the flag by a five-length margin will wait until the morning of the first game before making known his decision. He doesn't want to take a chance on having one of his young men null over the possibilities for 24 hours.

Branca, the top man of the staff on the won and lost records, 21-12, is the best bet. If Branca works Tuesday he'll be ready to come back fully rested for the fifth game.

If Shotton operates on the theory that lefthanded pitching is his best bet against the Yankees, he may call on Lombardi, a half-pint southpaw who makes up for lack of a zooming fast ball with a cute curling curve and good control.

Kermitt Drops To Hobbs, N. M. 19-7

KERMIT—Hobbs, N. M. Eagles outlasted the Kermit Yellow Jacks here Saturday night, winning 19 to 7.

Before some 4,500 fans, Vernon Wood passed to Ken Kennedy from the 10-yard-line for Kermit's score. This was in the second quarter. Charles Teasley placekicked extra point.

Pete Wilson, Kermit halfback, turned in a good performance.

WICHITA FALLS LEADS

WICHITA FALLS.—(P)—Wichita Falls Spudgers jumped ahead of Texarkana in the Big State League's championship playoff, leading two games to one Monday after a 10-8 victory Sunday. The fourth game of the seven-game series will be played at Wichita Falls Monday night.

LUBBOCK NEEDS ONE

LUBBOCK.—(P)—Lubbock's Hubbers square off against Kilgore Monday night at Kilgore, needing just one game to win the class C Texas baseball championship. The West Texas-New Mexico League champion handed the Lone Star League titlist its third straight licking Sunday, 10-1.

Car Overturns After Crash; No Injuries

Police Saturday reported a collision at the intersection of New York and Lorraine Streets in which a car overturned. No injuries were reported.

A car driven by Willie D. Quinn of Big Lake and a truck driven by William Brown of Midland collided, officers said.

Lions Circus Ends Two-Day Stand Here

The Polack Brothers-Midland Lions Club Circus closed a two-day stand here Sunday night, with the featured entertainers giving stellar performances even though the crowd was the smallest of the four shows. Afternoon and night performances were staged both Saturday and Sunday.

The numerous acts were among the best ever presented by a circus here. The circus was staged outdoors in the Midland Softball Park.

James L. Daugherty, Lions Club president, estimated the club's share of the profits at slightly more than \$100, which will be used in the Lions Club charity and welfare activities.
