### Dominican Conspiracy Is Declared Totally Smashed

HAVANA—(AP)—Cuban army authorities said Tuesday that a 1,500-man expeditionary force poised to overthrow President Rafael Trujillo of the Dominican Republic had been broken up.

Col. Oscar Diaz, the army's chief investigator, said some of the plotters, after their plan to invade the Dominican Republic had failed, had conspired against the Cuban government.

The Cuban Senate immediately launched an investigation of the whole affair. Colonel Diaz said he had turned over to the Supreme tribunal many documents in the case.

Diaz said 360 members of the expedition had been picked up, naked, unarmed and without food and water, on Guinichos Cay, a sandspit 50 miles off the north Cuban coast 300 miles east of Havana.

He said 11 bombing planes also were seized. The men were brought to the camp prison at Camp Columbia, army headquarters in Havana.

Gen. Genovevo Perez, the Cuban Army's chief, announced after a conference with President Ramon Grau San Martin that two of the expedition's ships had surrendered at Anitilla, an East Coast Cuban port not far from the extreme northern tip of the island.

These ships, bearing about 800 more men, were brought to Havana early Tuesday morning, Gen. Perez said.

**Newsman Get Story**  
Diaz, after informing reporters of the developments at a news conference, permitted reporters to interview the prisoners. From them, reporters pieced together this story.

An expeditionary force numbering approximately 1,500 men was organized sometime late in July with the object of upsetting Trujillo, who has run the Dominican Republic since the 1930 revolution there.

It was equipped with ammunition, automatic rifles, dynamite, hand grenades, bazookas, several 37-millimeter cannon (one pounders) and four ships.

Some of the detained men said they understood the government of Venezuela and Guatemala and some high officials of the Cuban Government were financing the expedition, and that ample planes and ships would be provided.

Some of those detained blamed the expedition's failure on what they called intervention by the United States.

### Strike Threat Seen Along Texas Coast

HOUSTON—(AP)—R. A. Massey, representative of a longshoremen's union, refused to comment directly on the possibility of a walkout at midnight Tuesday which would tie up all of Texas' ports.

Massey, secretary of the South Atlantic and Gulf Coast District of the International Longshoremen's (AFL) said late Monday night that one more meeting would be held with operators over a new contract.

The meeting was scheduled Tuesday afternoon.

The dispute has been caused by wage and union hiring hall demands of the I. L. A. The Longshoremen's contract expires Tuesday.

### ★ LATE NEWS FLASHES ★

**NEW YORK — (AP) —** Yemen and Pakistan were accepted as members of the United Nations Tuesday with Afghanistan alone voting against admission of Pakistan at this time. This increased the roll to 57 countries.

**TEHRAN — (AP) —** Four hundred persons were killed in a series of earthquakes recently which destroyed the village of Dowatabad, in eastern Khorasan Province, officials announced Tuesday.

**NEW YORK — (AP) —** Argentina and Canada were elected by the United Nations Assembly Tuesday to sit on the Security Council for two-year terms, but the contest for a third seat was indecisive on the first ballot.

**CONROE — (AP) —** The flood of new equipment and manpower into the forest fire area brought the first optimistic report in over a week as a forest service official said "we hope to make" a dent in the fires Tuesday.

**WASHINGTON — (AP) —** Gael Sullivan said Tuesday that at the request of President Truman he has agreed to stay on as executive director of the Democratic National Committee after Robert E. Hannegan resigns as chairman October 29.

### \$5,000,000 Gotham Pier Burns

Early Monday morning fire broke out on Gotham Pier, on the Hudson River. Five alarms were sounded in Manhattan and three in Brooklyn. Thick, black, oily smoke poured hundreds of feet in the air. The pier was destroyed. (NEA Telephoto)

### Czechs Appear Caught In Russia-Western Squeeze

NEW YORK—(AP)—Czechoslovakia appeared to be tightly caught Tuesday in a squeeze play between Russia and the Western Powers over election of three new members to the United Nations Security Council. It seemed that Czechoslovakia might have to take one of the seats despite her own campaign against election.

The campaign has been waged privately by the Czechoslovaks, apparently in an effort to avoid inheriting Poland's "yes-man" role to Russia in the Council.

If Czechoslovakia should not get a seat on the important 11-nation agency, then, diplomatic authorities predicted, Russia would find herself without a single friend on the Council.

Such a situation would carry the United Nations split in the big-power bloc to a length undreamed of even a few months ago. Involved in the balancing also are six seats in the Economic and Social Council.

Three Council members were slated for election by the full General Assembly in a session at Flushing Meadows Hall. This meeting was arranged to follow a morning session called to increase the total of UN membership from 55 to 57 nations through the addition of Yemen and Pakistan—both Moslem nations and a gain for the UN's Arab bloc.

**Three Nations Retiring**  
Three nations are retiring from the Security Council and are not subject to immediate reelection. They are Australia, Brazil and Poland. In order to keep the representation of various world regions more or less in line in the Security Council, pre-election speculation had it that Canada would succeed Australia for the British Dominion, Argentina would succeed Brazil for the Latin countries and Czechoslovakia would succeed Poland and be Russia's friend on the Council.

Various big-power leaders said the Czechs would be nominated, and most speculated that when it reached that stage Foreign Minister Jan Masaryk would not decline the nomination.

**Patrolman Runs Down Intoxicated Motorist**  
Midland policemen haven't become softies in the motor age. A crash of metal sent Patrolman A. B. Stickney rushing from police headquarters Monday evening. Two cars had collided and one continued eastward on Illinois Street.

Although police cars were parked at the curb, Stickney, who was on duty at the station, took off on foot and chased the car a block and a half where he arrested the motorist for driving while intoxicated.

The new automobile of Patrolman C. R. Hemmingway which was parked at the curb across the street from Police Headquarters was damaged in the collision.

**Firemen's Faces Red, Though Not From Heat**  
When an automobile on North Main Street caught fire Monday afternoon and Midland firemen answered the alarm, they found the blaze already extinguished. Guess who put it out?

Fire Chief Charlie Meadows of Odessa.

Chief Meadows had been visiting at the fire station here and was en route down town to see Midland Fire Chief Luther Tidwell when he saw the blazing automobile. He jerked an extinguisher from his own car and quickly quenched the blaze.

And enjoyed the expressions on faces of Midland firemen who had rushed to the scene.

**U. S. Traffic Deaths Increase In August**

CHICAGO—(AP)—The nation's traffic deaths totaled 3,140 in August, the National Safety Council said Tuesday, marking the fourth consecutive month an increase was shown over the corresponding months of 1946.

However, due to the decreases in the first four months of 1947, the eight-month total was five per cent under the 1946 level—20,370 as compared with 21,400.

### Reds To Pull Out All Stops Against U. S.

WASHINGTON—(AP)—An increasingly violent anti-American campaign by Russian press and radio was predicted Tuesday by U. S. officials examining Moscow's propaganda line.

They said the attack on President Truman by a Russian magazine which compared him with Hitler indicates a decision to pull out all the stops.

One official expressed belief the Russians have given up any hope of winning favor from the American public and will concentrate now on trying to discredit the United States in the Soviet Union and abroad.

The "war mongering" accusation against nine Americans by Andrei Vishinsky, deputy Russian foreign minister, in a United Nations Assembly address September 18 was viewed as part of the campaign.

The latest Soviet-American disagreement came to light Monday when the State Department announced that the American Embassy in Moscow has emphatically protested criticisms of Mr. Truman in the Russian publication "Literary Gazette No. 39."

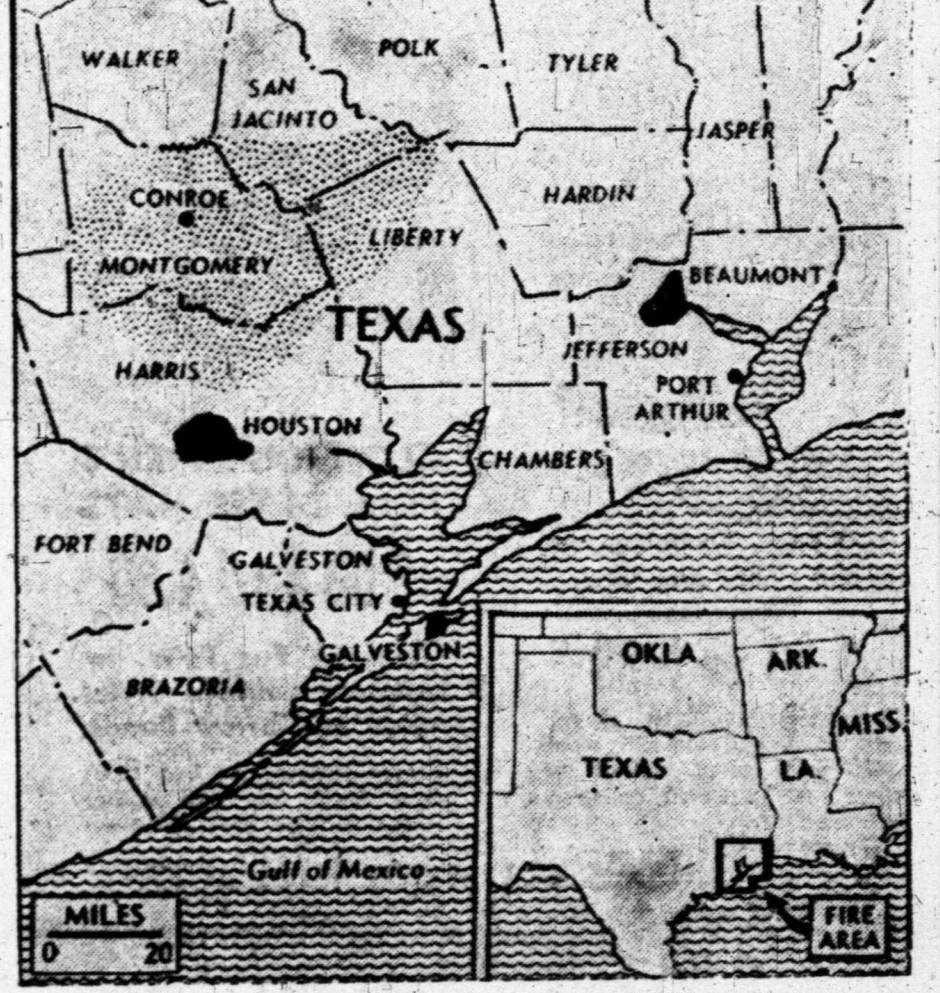

Boris Gorbатов, author of the article, called Mr. Truman "messenger boy, bank clerk and a tool of the Pendergast machine" and compared him to the "Corporal from Munich."

Ambassador Walter Bedell Smith protested to Soviet Foreign Minister Molotov that the late Dr. Paul Goebbels, Hitler's wartime propaganda minister, never was more vituperative in his diatribes against allied statesmen.

**Grand Jury Continues Deliberations Tuesday**

District court grand jurors remained in session here Tuesday, the second day of their meeting, but they informed Judge Cecil C. Collins they would be ready to report late Tuesday afternoon. District Clerk, Nettie C. Romer reported.

**Fire Destroys 30,000 Acres**

This map shows the area in which more than 400 fires have started in a week's time. The Texas Forest Service reported 64 fires in Montgomery County, 39 in Northwest Liberty County, 12 in Southwest San Jacinto County and one near Houston, in Harris County. (NEA Telephoto)

### Relief For Rising Grain Prices Seen

WASHINGTON—(AP)—The government is considering a proposal that it offer some high-priced foods to hungry areas abroad at "cut-rate" prices as a means of preventing further advances in grain and livestock quotations.

Such foods would include dried fruits, citrus juices, fats and oils, dried beans and peas, dried eggs and canned vegetables. A cabinet food committee reported to President Truman last week that this country could spare \$650,000,000 worth of these.

Under the cut-rate proposal, the government would buy the food at prevailing market prices and sell it to foreign countries at prices which they could afford to pay.

Foreign countries have followed a practice of spending what funds they have for grains, particularly wheat, because it provides the maximum amount of food energy for each dollar spent.

Likewise, the Army and the State Department have been reluctant to spend relief funds for foods other than grains and flour.

Called **Cheaper Plan**  
At the Agriculture Department, where the cut-rate proposal was advanced, an aide of Secretary of Agriculture Anderson said it would be "very much cheaper" for this country to subsidize foreign sale of substitute foods than to try to fill foreign needs with grain alone.

This official predicted \$3.50 a bushel wheat and corn at the farm if the government attempts to export 570,000,000 bushels this crop year. These grains now average about \$2.50 at the farm.

**Cripps New Foods Czar For Britain**

LONDON—(AP)—Vegetarian Sir Stafford Cripps took over Tuesday as Britain's economic czar. Informed sources said it was but the first installment of sweeping changes in the Labor Cabinet.

There was general agreement among Britons that Cripps' appointment as minister of economic affairs to lead this dollar-short country's fight for economic recovery at home and abroad was a step in the right direction.

The choice of 31-year-old James Harold Wilson, the so-called "boy wonder" of the Labor Government, as president of the Board of Trade to succeed Cripps was termed indicative of the government's decision to introduce new blood into the Labor regime.

The resignation of Arthur Greenwood, a veteran Labor politician who had been a minister without portfolio, was considered to be a further demonstration of Prime Minister Attlee's determination to bring in younger men to fight the economic battle of Britain.

Cripps, whose new appointment was announced Monday night, buckled down immediately to the tasks confronting him.

He scheduled a meeting with union leaders to discuss the British export drive—ordered in an effort to get more dollars—and means of meeting the proposed targets.

Informed government sources said the further cabinet changes expected would not affect Hugh Dalton, the chancellor of the exchequer, or Foreign Secretary Ernest Bevin, who with Cripps and Herbert Morrison, the deputy prime minister, make up the big four of the Attlee Cabinet.

Attlee's official announcement said merely that "other changes in the government are under consideration and will be announced later."

**Midland To Have Community Chest**

Midland will have a Community Chest.

It will be Chamber of Commerce sponsored, and President John P. Butler Tuesday announced the appointment of its executives.

They are: Robert T. Dickey, chairman; Winston Hull, vice-chairman; Mrs. Drue Dunn, secretary; Don Johnson, P. V. Thoresen, W. I. Farris, Mrs. Ira Noyes, Tom Sloan and Dave Henderson, members.

This group will prepare and adopt the constitution and by-laws of the Community Chest and direct its function in Midland.

**OIL SHORTAGE SLOWS GREEK RECONSTRUCTION**

ATHENS—(AP)—Greek reconstruction under the U. S. aid grant was reported temporarily stalled Tuesday because of a world oil shortage. Dwight Griswold, head of the American Aid Mission administering the U. S. funds, told a news conference the oil supply for Greece would be greatly curtailed for October and November.

**Yankees Win 5-3**

NEW YORK—(AP)—New York's Yankees, American League champions, took the first game of the 1947 World Series from the Brooklyn Dodgers of the National League 5 to 3 Tuesday.

The score: R H E  
Brooklyn 100 091 100—3 6 0  
New York 909 850 098—5 4 0

**Landlord Steals Pin From Tenant's Pajamas**

CINCINNATI — (AP) — A 28-year-old landlord was charged with burglary in the theft of a safety pin from the pajamas of a woman tenant as she slept beside her husband, Police Lt. Benjamin Hites reported.  
Hites said the burglary warrant was signed Monday night by Mrs. Edith Mounts, 25, and her husband, John, who live in the basement apartment of a residence owned by William Critz.  
Critz, who occupies a first floor apartment in the house, denied the charge when taken into custody. Hites declared.

**Midlander's Father Dies In Coke County**

ROBERT LEE—Funeral services were held at 3 p. m. Tuesday in the Paint Creek-Edith Cemetery for George Washington Peay, 86, Coke County ranchman for 57 years, who died Monday at the home of a son, Tom Peay, at Edith. The Rev. J. Howard Eaves, pastor of the Robert Lee Methodist Church, officiated.  
Survivors include three sons, W. B. of Midland, and Tom Felix Peay of Edith; a daughter, Mrs. Addie Augustine of Sterling City; eight grandchildren, and three great-grandchildren.

**"Runnin' Hi", Musical, Has Oil Industry Theme; Is Good Show**

"Runnin' Hi" is good entertainment for Midlanders. Touched by the oil business, as most of us are, this original minstrel-revue with its theme built around the oil business is fresh and crisp and good.  
It opened Monday night in the City-County Auditorium to a full audience. The second performance is scheduled at 8:30 p. m. Tuesday.

The Midland Community Theater in cooperation with the Midland Kiwanis Club presents "Runnin' Hi." It is directed by Art Cole with original music and lyrics by William H. Pomeroy, Jr. "Runnin' Hi" would stand up for its entertainment regardless but it is doubly wholesome because it is a benefit. The joint production was planned to raise money for the Kiwanis underprivileged children fund. Kiwanians did much for the show and many are in the cast. There was the touch of Community Theater to the production to give it a semi-professional tone and quality.  
The various acts are inter-spiced by fast, moving between the curtain entertainment by comedians and singers.  
Theme proper is oil. It starts with "Runnin' Hi," an original song

**Confusing Curls**

Don't let the golden curls confuse you, it's a boy. Little Mario De Sario, a two-year-old Chicagoan, is just like any other little boy. He gets lost. His mother asked police to find him, and they searched the store where he was last seen. "Nothing there but a couple of little girls," was the first verdict. Then one of the "girls" was seen to be wearing pants—it was Mario, under a full head of curls.

**Birthday Party Honors Two Crane Celebrants**

CRANE—Jessie Marie Scott and Billy Don Ingram were honored Friday night with a birthday party given by their mothers, Mrs. C. L. Scott and Mrs. G. B. Ingram, in the Gulf Recreation Hall.

Refreshments were served to Wanda Leclair, Ray and Rex Knox, Malcolm Garrett, Jimmie Neal Stacy, Ruth Ann Nolan, Peggy Daniels, Betty Sue Henderson, Peggy Sharp, Doyle Lakin, Clovis Lewis, Truman Flowers, Eugenia Mill, Ellen Walling, Patsy Pendleton, Kathrine Smith, Dorothy Crittenden, Peggy McCasland, Ernest Higdon, Jenn Nealey, Aubrey Taylor, Delmo Schoonover and Billy Clark.

**Crane OES Honors Mrs. Willie Briggs, Guest From Arlington**

CRANE—Mrs. Willie Lee Briggs, guest of the Crane Order of the Eastern Star from Arlington, was a birthday party honoree Friday night at the Masonic Hall.  
Following the playing of games, gifts were opened and a two-tiered birthday cake was served with coffee to Mr. and Mrs. A. B. Corley, Mr. and Mrs. E. T. Coleman, Mr. and Mrs. O. C. Faircloth, Mr. and Mrs. J. D. Buchanan, Mr. and Mrs. Floy McCorkle, Daisie Westmoreland, Stella Shaffer, Lela Wilson, Claudia Willis, Ethel Owens, Johnnie Sharp, Birdie Bosworth, Mildred Knox, Leta Padgett and Dorothy Marlow.  
Guests present were Mrs. Halcy Harrell of Monahans and Mrs. Myrtle Allen of San Angelo.

**COLLISION REPORTED**  
No injuries were reported in a collision on South Main Street Monday between machines driven by T. R. Ruppel and Mrs. J. T. Dodson.  
"Coffee Time" is one of the best numbers. This song is about drinking coffee in Midland. In the presentation are: Jimerson, lawyer; Don Moore, plumber; Mariana Mosley, salesgirl; and Pomeroy, lobby cowboy.  
"Pop Corn! Pop Corn!"  
"Ask Me Another" is one of those front of curtain acts like "Who Was That Woman I Saw You With Last Night," or ask me another. Norris Creath is Jack; Art Cole is Joey and Barbara Davidson is Ellen Burger. (There's that oil theme again.)  
Little Ardis Joy Griffin sings and taps. Billed as a tiny tapper, she is sweet and cute.  
"Under the Grandstand" presents a football team getting a halftime lecture from the coach, who won't let the boys speak up. Coach is Lee Flood. Team is composed of: Al Kelley, Larry Burnside, Jim Morris, Cliff Hogue, W. W. Williams, Sam Salt, Wes Martin, Gabe Massey, Riley Parr, L. W. Meador, H. A. Ireland.  
Janelle Ratliff sings "Feudin' and Fightin'" and sings it well. Duke Jimerson is "Joe Squash-Head" in a side number.  
"Red Silk Stockings" is one of the best numbers. Personalizing the popular song are: Moore, Meador, Valdes, Cole, Martin, Burnside, Malcolm Gibson, Flood and DeFord, the barflies; Ruth Shepherd, Barbara Davidson, Monte Cole, Pat Brewer, Mary Francis Shure, Ruth Storey, Virginia Towns, and Beverly Littlejohn, the sirens.  
In "Petroleum Minstrels," second part of the whole production, comes the blackface comedy. The Driller is Pomeroy. The Roustabouts are: Meador, Creath, Jimerson, DeFord, Flood, Cole. The Roughnecks are: Hogue, Burnside, Parr, Jess Williams, Dana Secor, Jud Holt, True, Ammon Bradshaw, Morris, Gibson, Valdes, Ralph Smith, Moore, Kelley, Massey, Ireland, Joe Kogler, Sam Salt, L. W. Leggett, D. L. Patton, and Martin.  
Lee Flood, animating the song "Nobody," stole this number of the show Monday night.  
You'll like "Runnin' Hi." — (T. L.)

**Mexico Redoubles Texas Border Guard**  
DALLAS — (AP) — The Mexican government said in Mexico City Monday night that border troops, especially at Matamoros, Nuevo Laredo, Piedras Negras and Ciudad Juarez, have been ordered to redouble their watch in order to prevent contract farm workers from slipping across the border into Texas.  
Secretary of Interior Hector Ferrer Martinez announced last week that no more braceros (farm workers) could enter Texas because of alleged discrimination against Mexican farm hands.

# Ruth Bryan Owen Will Speak Here

Ruth Bryan Owen, daughter of the famous William Jennings Bryan, and one of the outstanding women of her generation, will address members of the Midland Concert and Lecture Association in the Midland High School Auditorium Wednesday, October 8, H. Winston Hull, president, said Tuesday.

A former congresswoman, Mrs. Owen also served as minister to Denmark where she had access to the court of a foreign king and met many notables of Europe through her contacts. She is a world-wide traveler and adventurer and is well versed in world affairs.

She returned recently from Denmark and Sweden. She has renewed her acquaintance with the Court of Denmark and from her vantage point in Europe was able to see much that transpires there. She returned to the United States with a complete picture of world affairs, and will discuss European and Russian situations in her lecture here.

Hull said persons desiring to join the concert and lecture association may do so by contacting J. T. Baker, treasurer, at the First National Bank. The association will present four more program numbers this season.

## Mrs. L. A. Roby Presides At Meeting Of United Council Of Church Women

The resignation of Mrs. B. R. Scharbarum as president of the United Council of Church Women was accepted at the Fifth-Monday meeting of the group in the First Methodist Church Monday. Mrs. L. A. Roby, first vice president, had charge of the meeting, which featured a discussion of "Faith In A Christian World" by Delbert Downing of the Chamber of Commerce.

Downing's discussion was in observance of the program on World Community. Special music was provided by violin soloist, Glenna Johnson, accompanied by Mrs. Van Camp at the piano.

The song, "The Church's One Foundation," which opened the meeting, was followed by a scripture reading, Hebrews IX, and a prayer by Mrs. Earl Chapman.

Mrs. Charles Klapproth reported on the clothing drive for war-torn countries which the council has been asked to sponsor in cooperation with the Church World Service Center. Another letter from the Philippine War Relief was read, the group being requested to give as much usable clothing as possible.

Mrs. Hubert Hopper dismissed the meeting with a prayer.

### Rocky Graziano Is Barred In Illinois

CHICAGO — (AP) — The Illinois Athletic Commission Monday barred Rocky Graziano from boxing in Illinois in an order which Roy D. Keehn, commission member, said referred to Rocky Graziano, middleweight champion. Keehn said the commission had accepted the War Department's record of Pvt. Rocco Barbella as that of Graziano. That record showed Barbella was convicted, sentenced and dishonorably discharged from the Army on a charge of being absent without leave in 1942.

In 1931, cotton grown in the United States totalled only 138,325 pounds, but two years after the introduction of Eli Whitney's cotton gin in 1793, production was 6,276,081 pounds; in 1800 it was 17,789,800 pounds and in 1820, 127,860,152 pounds.

### Great Individual Scraps Loom In Plainview Tilt

It's Bulldogs vs. Bulldogs up at Plainview Friday night. Midland High sends one band of Bulldogs, Plainview furnishes the other.

The tilt looms even. Both elevens were beaten last week, Plainview's amounted to a mauling by Odessa. Midland won last year here, 24 to 6. The High Plains team is much tougher this season.

Again Midland will be out-weighted. The Plainview Bulldogs average 172 pounds per man on the starting lineup. Midland averages 161 pounds per man.

Here are the individual performers of the two teams:  
At quarterback, Plainview has 175-pound Bob Bogie. He is the passer and the punter and the brains. Against him Midland pits Steve Stephens, 135 pounds, on the offense and Al German, 144 pounds, on the defense.

**Fast Halfbacks**  
At the halfbacks, Plainview features two little scamps, fast and shifty, Misty Donnie Meyers, 137 pounds, and Carl Brown, 135 pounds. Midland has more weight for its halfbacks, bounding Bill Little, 163 pounds, and hard-running Dave Hyatt, 165 pounds.

Plainview's fullback is Neil Holt, a 163-pounder. Against him is Dunny Goode, 160 pounds.

The Midland Bulldogs, coming out of the Austin High grueling without serious injuries, worked on pass defense Monday in opening drills for the Plainview game.

Also the Purple took the offensive, striving for "pay off" quarterbacking, which will produce scores.

Coaches were pleased with the defense, all except on passes last week, but not so pleased with the offense.

Down under, there will be a battle royal. Plainview's line is noted for its fight. So is Midland's.

Bill Taylor at 150 pounds is Plainview's center. Rugged Charlie Moncrief, 152 pounds, is Midland's pivot. These boys both are smart and aggressive. Their individual fight will be a lulu.

Guards of Plainview are Olen McClain and Max Smith. McClain tips the scales at 160 pounds and Smith is a husky at 195. As yet, but Midland has firepower at its guard posts. They are R. A. (Bull) Whitson, 167 pounds, and Ed (Red) Prichard, 152 pounds.

**Tough Tackles**  
The tackle battle is always rough and rugged in the front wall when Midland and Plainview collide. For Plainview this year the tackles are John Hayes, 190 pounds, and Ray Adams, 180 pounds. Midland presents John Serogins at 207 and Don Deel, 164 pounds.

Two line terminals perform for Plainview. These ends are Bill Howton, 158, and Walter Bateman, 148. Howton is the pass-catcher and stout flanker in defense. Midland also has two good flanks in Ken Goode at 144 pounds and tall Fred Dunn at 165.

### Area Girl Scout Council Elects New Officers

PECOS — Seven officers were elected Sunday at a meeting of the Permian Basin Area Council of Girl Scouts at the new Girl Scout camp in the Davis Mountains near Fort Davis.

They are: Miss Rose Briscoe, Pecos, secretary; G. D. Webb, Monahans, first vice president; Thomas J. Smith, Wink, second vice president; Oscar Maples, Kermit, finance chairman; Mrs. George Ramer, McCamey, training chairman; Mrs. Ella McBride, Alpine, camp chairman; and Bill Collins, Midland, public relations chairman.

Officers who have another year to serve are: Alton Hughes, Pecos, president; Don Johnson, Midland, treasurer; Mrs. Howard Markley, Odessa, staff and office; Dr. E. F. Berkley, Alpine, membership-nominating; and Mrs. M. C. Puckett, Fort Stockton, organization.

Following a meeting of the officers and board members, a council meeting was held, with discussions conducted concerning operation plans, council budget and area quotas. Activities reports also were heard.

Representatives from Midland, Alpine, Fort Stockton, Grandfalls, McCamey, Monahans and Pecos attended the session.

Those from Midland attending were Mr. and Mrs. C. E. Bissell and Peggy Billy, Mr. and Mrs. L. A. Scarles and daughter, and Mrs. J. J. Black and daughters.

This well has shown possibilities of good production on previous drillstem test higher in the Ellenburger. Operator is likely to drill a little deeper to determine if the formation water has been encountered, and if such is the case, then to plug back and run production tests on higher intervals of the Ellenburger.

Some of that section has indicated that it might make commercial production.

### DEEP COCHRAN WILDCAT HAS SLIGHT OIL AND GAS SIGNS

Stanford Oil & Gas Company No. 1, Hall, deep wildcat in South-Central Cochran County, and adjacent to the few small producers in the Landon field from around 5,000 feet, was coring ahead from 10,347 feet in an unidentified lime.

A drillstem test was taken for three hours at 10,295-347 feet. Recovery was the 2,280-foot water blanket and 480 feet of oil cut drilling mud. The tester was shut in 20 minutes for a pressure build up and the pressure increased from 1,050 pounds to 3,100 pounds.

When the tool was opened, after the build up test, some gas showed at the surface. Gravity of the oil in the mud was 39 degrees.

### Horace B. Fort Will Speak Here Wednesday

Horace B. Fort of Dallas, assistant to the director of the National Committee for Education on Alcoholism, will address two meetings here Wednesday—the Midland Lions Club at noon in the Crystal Ballroom of the Scharbauer Hotel, and an open forum at 8 p. m. in the auditorium of the North Elementary school.

His subject at the Lions luncheon will be "The Alcoholic Is Sick, Can Be Helped and Is Worth Helping." He will speak on "Education on Alcoholism" at the night meeting, which the public is invited and urged to attend.

Fort is a former West Texas school man and chamber of commerce worker and is well known in this section.

The committee with which he is working is affiliated with the Yale Plan for Alcohol Studies and is making a scientific coordinated attack upon alcoholism as a sickness and as the nation's number four public health problem.

### Charles L. Somerville Succumbs At Lisbon

DALLAS — (AP) — Charles Lavergne Somerville, a colorful figure in state political circles, attorney, law coach, and founder of the Roosevelt Independent Party in Texas in 1942, is dead.

The 54-year-old unsuccessful candidate for the U. S. Senate died Monday in the Veterans Hospital at Lisbon.

He opened law schools in Wichita Falls, Dallas and Austin. Somerville announced for governor in 1942, but withdrew later. He opposed Sen. W. Lee O'Daniel but was defeated.

He had suffered from a heart ailment for several years. Funeral services have been tentatively set here Tuesday.

### Boles Named President Of Scottish Rite Club

Floyd O. Boles was elected president of the Midland Scottish-Rite Club at the annual Feast of the Tabernacles meeting Monday night at the Scharbauer Hotel. He succeeds John P. Butler.

William L. Kerr was named vice president, and Ish McKnight was re-elected secretary and treasurer. Forty-one members and five guests were present. Scottish-Rite Masons of five states attended.

### Tax Collections Begin Wednesday Morning; Poll Taxes Separate

"Tempus fugit," high school Latin students learn, means "time flies." And, as Senator Claghorn might say, "That's no joke, son! It's tax paying time again."

Collection of 1947 taxes will begin Wednesday morning, the Midland County Tax Collector's office announced Tuesday. And the motto for taxpayers might be "the earlier the cheaper." Discounts for prompt payment amount to three percent in October, two per cent for November, and one per cent for December. Unpaid taxes become delinquent Feb. 1, 1948.

There's something new about tax payments this year. For the first time in history, Texas poll taxes are to be paid separately from property taxes. Persons mailing in their tax payments may include separate checks for poll taxes—\$1.75 per person. In paying poll taxes by mail, citizens are instructed by the collector's office to furnish the following information: address, place of birth, occupation, race, length of residence in state and county, and, if possible, number of precinct in which they will vote.

### Barbecue At Dunagan Farm To Conclude FBI Course For Officers

Concluding a week-long course in investigative procedures conducted for law enforcement officers of this area by Fred McIntyre, F.B.I. agent of El Paso, assisted by Agents Art Potter of El Paso and Noel Cason of Midland, a barbecue for all West Texas officers will be given at Dunagan Farm Tuesday afternoon.

Sheriff Ed Darnell and Chief of Police Jack Ellington, in co-operation with Midland merchants, will be hosts to officers at the barbecue.

The officers' school ended Monday afternoon with a "moot trial" in which a hypothetical criminal was tried in the county courtroom, with the federal agents acting as judge and attorneys and with Midland officers playing roles of jurors and witnesses.

### Terrorism Continues To Plague Palestine

JERUSALEM — (AP) — The explosion of a bomb outside an Arab shop near the Jaffa gate touched off an eight-minute general alarm Tuesday in Jerusalem, still jittery from the bombing of a Haifa police station in which 10 persons died Monday.

No casualties were reported from the bombing, which police believe was intended to intimidate Arab shop owners who have broken an Arab boycott against trading with Jews.

Almost simultaneously advices from Haifa reported that the engine, tender and two coaches of the Egypt Express had been derailed by a mine explosion on the Cairo-Haifa line 20 miles south of the latter city.

Officials said there were no casualties in this incident either. Three ships loaded with more than 4,500 Jewish immigrants were reported nearing the Palestine Coast Tuesday in an attempt to run the British blockade.

### U. S. OBSERVERS ARRIVE

BATAVIA, JAVA — (AP) — Eight long-delayed U. S. military observers arrived here Tuesday by plane from Singapore to give last minute assistance to the United Nations Consular Mission which is now completing a report on the Indonesian situation for submission to the security council.

### RUPTURE SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Settles Hotel, Big Spring, Saturday only, October 4, from 9 A.M. to 4 P.M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago 45. Large incisional hernia or rupture following surgical operation especially solicited.

### SCHOOL GIRLS ENTER BASKETBALL LEAGUE

HILLSBORO — (AP) — A week after mailing out invitations to 800 schools asking that they enter teams in the Texas High School Girls Basketball League, L. C. McKemie, director general, has received 100 applications for membership.

The deadline for entering teams will be November 1.

### Continental Air Lines Installs Radar Equipment

The entire fleet of Continental Air Lines has been equipped with the Hughes terrain clearance indicator, and is the first airline in the country to have radar on all planes, it was announced by Robert F. Six, president of the company.

Installation of the radar equipment on all Continental Sky-streamers was completed September 15, Six said, and all flight personnel of the company had received instruction in the use of terrain clearance indicator by that date.

The Hughes device is a 15-pound set approximately the size of a small satchel and is perfected from war-time equipment used on fighter planes. The commercial adaptation of the unit radiates a beam forward and below the airliner through all types of weather and warns the pilot of objects and terrain ahead in sufficient time to change the course or altitude of the plane.

"The radar unit meets all the requirements of the CAB specifications," said Six, "and our operations department has stated it has, in all cases, functioned perfectly satisfactorily."

### Old Age Assistance Grants Reach New Peak For October

AUSTIN—(P)—Texas' old age assistance grants for October will hit a new high, with \$5,945,932 distributed to 197,924 eligible aged persons, the Department of Public Welfare announced Monday.

Grants averaged \$30.04 compared with last month's \$29.98, also passing the \$30 average for the first time in the history of old age assistance in this state.

Average grants of \$33.48 were made to 5,461 needy blind, up from last month's average of \$33.38.

Because of insufficient funds, a cut was necessary in aid to dependent children, the Welfare Department said. The average payment in this classification was \$40.47 compared with \$40.58 last month.

### Polled Herefords To Be Shown At Waco

WACO—(P)—The best polled Hereford cattle of Texas will be shown here Wednesday, Thursday and Friday in the first annual show and sale of The Texas Polled Hereford Association.

Co-sponsored by the Waco Chamber of Commerce, the exposition will result in the awarding of \$1,000 in premiums to champions selected from among the 170 pure-bred polled Hereford cattle entered in the show.

### In Our Schools— Exceptional Children Will Receive Special Training

By TANNER LAINE  
Heart warming! Something fairly new in Texas; something brand new in Midland in our schools—a program for exceptional children. An exceptional child is defined as one who possesses some handicap, any kind, which may be visual, hearing, speech or any which keeps the child from keeping up with his normal group.

In this new program, which began Monday, a special instructor works with the children. For the Midland schools she is Mrs. Rachel Drake. Here is how: each morning at West Elementary School, Mrs. Drake meets with the children who have handicaps preventing their attendance at their normal school. She teaches them. Then in the afternoon, Mrs. Drake visits all schools in turn and assists the exceptional children in their regular classrooms. These are the children whose handicaps do not prevent them from going to regular school. But they need assistance.

**Reds Have No Potatoes But Have Red Faces**  
ROME—(P)—Red banners plastered on building walls throughout Rome invited participants in a protest demonstration against the high cost of living to apply at Communist and Socialist party headquarters for gift parcels of 22 pounds of potatoes.

People flocked to the party headquarters for their gifts. There weren't any potatoes. Embarrassed Communist leaders wouldn't say anything about it. A secretary at Socialist headquarters laughing, said the placards "certainly didn't come from the party."

Drake meets with the children who have handicaps preventing their attendance at their normal school. She teaches them. Then in the afternoon, Mrs. Drake visits all schools in turn and assists the exceptional children in their regular classrooms. These are the children whose handicaps do not prevent them from going to regular school. But they need assistance.

### New Map To Show Improvements In Texas Highways

AUSTIN—(P)—Texas is big; it takes a big map to show all of it; but a map to end all maps is needed to trace in detail the state's expanding highway system.

R. M. Stone, State Highway Commission cartographer who puts out those beautifully-illustrated official road maps almost single handed, complains there is not enough room to show all the roads the state is taking over for maintenance.

This official map is designed to show motorists in detail the entire state system. By the end of the year, there will be 33,000 miles of paved highways. That represents almost more black lines than the present 24-inch square map will hold and it appears the only solution is to put out a larger one.

The 1947 map actually is—when folded—a pocket-size encyclopedia of Texas. It includes everything but the story of the Battle of the Alamo—but a color picture of the Alamo and a couple of dozen other typical Texas pictures, all in color.

The map includes pictures of highway markers, some carefully assorted "Facts About Texas," and a scripture verse from the second chapter of Nahum.

**New Map Being Readied**  
And just to show that Texas actually is a part of the United States, Mr. Stone has tossed in a national highway map and a table of mileage distances between places in Texas and elsewhere. This is mainly to inform people on how fast they can get back home.

A map is now in preparation for exhibit at the State Fair of Texas at Dallas, showing highway construction progress in Texas since 1929. The system then consisted of 6,661 miles of paved roads.

**Contrast Is Great**  
The old map shows that such important cities as Lubbock, Borger, Denison, Corsicana and Victoria were without paved arteries leading into them. There was no continuous paved highway connection from any one Texas border to the other. Only four of 55 Panhandle and West Texas counties had any pavement at all. Traveling along the Old Spanish Trail in some spots consisted of jolting from one ledge to a harder one. You could bog down in the sand almost anywhere you wanted to, and traveling was really dirty.

The contrast with today is a sharp one. The existing 27,000 miles of paved highways connect every town in the state, and the paved fingers of farm-to-market and ranch-to-market roads are leading into the most remote spots.

### 'Skipper And Stupid' Story Wins Texas Today Award

By JACK RUTLEDGE  
Associated Press Staff

The Texas Today Award for outstanding Texas journalism, the poor man's Pulitzer Prize, goes to Art Leibson of the El Paso Times for his story of Skipper the Cat and Stupid the Turtle.

This is his story, cut to Texas Today size:  
Skipper is a tough ex-West Side Chicago tomcat found in a Chicago tavern two years ago by Mrs. Peggy Stevenson and brought to El Paso. Skipper is tough, and has lost many a chunk of fur in backyard combat.

Stupid is a quiet, slow-thinking desert tortoise that moved in the Stevenson back yard two months ago and set up housekeeping at the roots of some Texas ivy. He was named Stupid because of his blank and blinking expression. Also, no one could figure whether, well, you know, if it was John or Mary.

Skipper and Stupid immediately struck up a friendship. That was strange, the Stevensons said, because Skipper usually arched his back and spit at any living thing in the neighborhood.

But Skipper never bared a claw at Stupid, and Stupid made no snapping movements with his viselike jaw in the direction of the cat. The two sit by the hour gazing at each other calmly. In friendlier moments, Skipper will doze off with one paw draped across Stupid's shell.

Strangest of all is the manner in which they eat together. What's good enough for Skipper is good enough for Stupid, and they share alike.

### Dutch To Take Over Occupied Java Areas

THE HAGUE—(P)—The Netherlands government, announced the Dutch soon would take over both de facto and de jure authority in the occupied areas of western and eastern Java.

The announcement said a central organization would be formed in the near future and will be developed into an interim federal government pending the drafting of a new constitution.

The three-member Dutch commission-general, which last year concluded an agreement with the Indonesian Republic, will be abolished, but acting Gov.-Gen. Hubertus J. Van Mook will be given additional assistance.

### K-9 Vet Sentenced For Parole Violation

NEW YORK—(P)—Scout, thrice decorated K-9 war veteran who was unable to readjust to civilian life, is dead because he could not remember man was his best friend.

Excursions into court and a kidnapping made hectic his last months before he was put to death by the American Society for the Prevention of Cruelty to Animals for biting a child's person.

The Springer Spaniel owned by Mr. and Mrs. August Marrone of the Bronx was kidnapped by his devoted masters from an ASPCA shelter last Spring after he was placed in a canine jail for biting two persons. After a stormy court scene a lenient magistrate placed him on parole.

Another bite would mean his death, the Marrones were warned. Recently he bit a woman who was feeding him and the Marrones regretfully turned him over to the ASPCA.

The Other Fellow's Prices

In an article in Nation's Business on the price problem, Jack B. Wallach makes this sage observation: "nearly everyone seems to think a price is too high if he is buying and quite within reason if he is selling."

That universal attitude explains a good deal of the debate over prices these days. The working man kicks like a steer when he has to pay \$3.50 for a shirt that cost \$2 before the war—but he is all in favor of a wage rate which may be double or more what he earned in 1941. The farmer yells, "Robbery!" when he finds that the cost of a piece of agricultural machinery has gone way up—but he doesn't see anything wrong with record prices for meat and grain. And, finally, the real estate man regards his grocer as a lineal descendant of Jesse James when he sees how little food a \$5 bill will buy—and then goes out to sell houses for \$20,000 that would have cost \$10,000 or less seven years ago. Government officials denounce industry for high prices—but say nothing about the inflationary influence of a \$260,000,000,000 national debt and prodigious government spending.

What we would all like, in short, is to enjoy 1947 incomes along with 1941 prices. Desirable as that dream may be, it is strictly a piece of fantasy so far as the facts of life are concerned. Your retail merchant is charging you more for what you buy because the increase in wholesale costs and business overhead force him to. The manufacturer charges more because there has been a tremendous inflation in the cost of labor, taxes, materials and everything else. All intelligent businessmen would like to see lower prices. They are worried for fear that millions of consumers will be priced out of the market. But prices have simply followed the wage-cost-tax trend as they always have and always will. And all the talk about profiteering we hear these days won't change the situation one iota.

Alerting The Spade Brigade

The War Department has announced that it has lined up another group of civilian undertakers who are ready for action in the event of World War III. It isn't hard to figure out why the department might think this bit of preparedness necessary.

The country has no program of universal military training, and Congress seems in no mood to create one. The Air Force, so vital to the nation's safety, is well under its minimum peacetime level, both in men and equipment. The shipbuilding industry is all but finished, and the airplane builders are certain of little at the moment except that most of them are in the red.

So it's hard to blame the War Department for getting the undertakers ready for an emergency. The action seems an apt and bitter commentary on the state of our national defense.

India's Forgotten War

Even if one cuts in half the reported number of casualties in India's communal rioting, the sum far exceeds the total killed in the armed clashes which so far have engaged the United Nations' attention. Yet, so far as we know, this sanguine civil war has not even been mentioned in UN sessions.

We cannot believe that the tens of thousands slain are of no interest to the UN because they were not killed in an international war. It may be, however, that the organization feels that it has no right to intervene under the present provisions of the Charter. If that is the case, it may be hoped that some action will be started which will permit the UN to take action if any such civil slaughter should recur, even if it is powerless to stop the present one.

We'll Need It

As things look now, Americans are going to wind up 1947 with a record national income of around \$191,000,000,000, maybe more. That looks pretty impressive beside the \$71,000,000,000 national income in the fairly prosperous peacetime year of 1939.

But we shall pay around \$9,000,000,000 in individual income taxes on that record sum. No 1939 figures on individual income tax payments are immediately at hand, but the country's entire internal revenue collection that year was only a little more than \$5,000,000,000.

Then it might be well to cut such dollars as we spend for the necessities of life right in two before comparing them with the 1939 dollar. Having done so we might conclude that, while it's wonderful to have a great big record national income, we're certainly going to need it.

Banks Stronger Than Ever

For the last few weeks there have been almost daily reports and predictions, including one from President Truman, on how there is no business depression in the offing.

But to those millions of U. S. citizens who worried out the last depression, the information which is revealed in the annual report of the Federal Deposit Insurance Corporation, just off the press, should contain the most real comfort.

The report says that U. S. banks are now stronger and in better shape than they ever have been. Chairman Maple T. Earl reports that, at last, "the substandard assets which were held by insured banks in 1934 have been sold or charged off."

Why We MUST Have Peace

Foreign Assets In U.S. Above Pre-War Level

WASHINGTON —(AP)— Despite the world's shortage of dollars to pay for United States exports, foreign-owned assets in this country were estimated recently to be greater than before Pearl Harbor. They were placed by the government at \$14,900,000,000 as of the end of June, against \$12,738,700,000 shown by a Treasury survey as of June, 1941.

The new estimate, made by the Department of Commerce, breaks down the total as \$5,300,000,000 in bank balances, \$1,400,000,000 in short-term assets such as credit balances, and \$8,200,000,000 in long-term assets, including \$3,700,000,000 in stocks and bonds.

Foreign gold reserves were estimated at \$11,400,000,000 as of the end of June.

Only about 815,000 acres of the total land area of Arizona is under cultivation. Of these, 750,000 acres are irrigated.

Some flying fox "camps" in Queensland, Australia, contain up to a quarter of a million foxes; one acre of tropical jungle will shelter up to 20,000.

A-Bomb Patent Might Let Secret Leak Out

WASHINGTON —(AP)— The Atomic Energy Commission's patent advisory panel doesn't want this country to apply for a patent on the A-bomb or any other type of atomic weapon.

To do so, the panel said in a report, would "enlarge" the chance of secrets leaking out.

Saying that the Atomic Energy Act of 1946 gives the government exclusive control over inventions in the nuclear fission field, the panel said that when applications for patents are made, they are placed in patent office files to remain there for as long as 20 years.

Patent Records Studied

"In spite of all precautions that may be taken," the report continued, "keeping the file in the Patent Office would enlarge the opportunities for breach of security to some extent."

The panel urged that all atomic patents, even though they aren't related to military uses, be subjected to scrutiny by security officers.

The report disclosed that some 5,500 invention records submitted by natural scientists and others who worked on the A-bomb project have been studied and that 2,300 have been recommended for filing with the Patent Office.

Social Situations

THE SITUATION: You meet a person at a party who persists in calling you by a wrong name.

WRONG WAY: Say, "The name is Johnson, not Jones."

RIGHT WAY: Say, "I'm afraid you misunderstood my name when we were introduced. It's Johnson."

THE SITUATION: You are writing a letter of condolence.

WRONG WAY: Decide that there is really nothing you can say that will help the person who has lost a loved one. So you don't send the letter.

RIGHT WAY: Write briefly and simply just what you would say if you met the person on the street.

Painting the handles of garden tools a bright color to make them easily seen on the ground will help reduce accidents.

The Chiropractor and You

No. 2 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic.

DR. C. L. BRADY  
Palmer Graduate

THE SPINAL CORD

begins at the brain and proceeds down through the center of the spinal column, supplying nerve fibers in pairs to body cells through the various openings or inter-vertebral foramina. These nerve fibers radiate to all parts of the body in such volume that the prick of a pin on any part of the flesh will strike one or more of them. If the spinal cord itself is impinged sufficiently it will cause total paralysis of the body below such pressure. This proves that motor power originates within the brain. If any of the nerve fibers emitting through the openings between the vertebrae are impinged, it will accordingly affect the body part which the impinged nerve supplies and the flow of nerve energy will be obstructed in much the same manner as a flow of water from the nozzle of a hose would be interfered with, should one step on the hose at some point between the source of water supply and the nozzle of the hose. To restore the flow of water to full capacity of the hose, one must first find and adjust the cause preventing the flow. So it is with the Chiropractor. He locates the subluxation causing impingement on the nerve, which is the impediment to its normal flow

of nerve energy, and adjusts it away, health resulting from nature itself.

CASE HISTORY NO. 2570. A girl of 7, both deaf and dumb. When she was 18 months old, had fallen out of a high chair receiving some injury which affected her hearing, consequently she never learned to talk. Three different specialists were consulted and the consensus of their opinion was that the child was normal except for an affection of the auditory nerves which could not be cured. In January her parents heard of a Chiropractor, and took the child to him. He X-rayed the spine, adjusted a misaligned vertebra over a period of time, and by May the child's hearing was fully restored. She is now attending school and progressing favorably.

THE COFFEE SO DIFFERENT!

It's the PRIZED Flavor—So Economical You'll be Amazed!

Try using 1/4 less!

A good way to prove the Extra Flavor and Extra Economy of Folger's is to try making coffee with 1/4 less of Folger's than you used with lesser-flavored brands. The extra flavor is provided— for both enjoyment and economy.

Prized—by professional coffee buyers who pay more for these types of coffees than for any other types of coffees in the world.  
 Prized—by true coffee lovers who prove their preference by making Folger's the largest selling coffee throughout the great over-all area where Folger's Coffee is sold.  
 Prized—because Folger's is a blend of better kinds of coffees... special Mountain Grown coffees... from the Tropical Americas where Nature gives coffee the most sought-after flavor qualities. These rare coffees are carefully selected and artfully blended to create the Folger Flavor. No other coffee flavor is quite like Folger's—Vigorous—with a rare winey tang that really sets it apart as different and delightful.

Won't You Try This Special Mountain Grown Coffee!

Surely, you would rather serve and enjoy this coffee that is the established favorite! And while you enjoy the extra goodness of Folger's—discover the economy of its extra richness—economy you can prove in your own home. So ask your grocer for Folger's Coffee and look for more coffee enjoyment at no extra cost.

There's a mountain of flavor in every spoonful

### Aussie Coal Find To Ease Shortage

SYDNEY (P)—Australia's coal famine may be eased in the near future by open-cut development of an enormously rich coal field at Blair Athol, in the northern state of Queensland.

Government officials estimate that at least 200,000,000 tons of high quality steam coal is deposited there in massive seams just below the surface.

Men who know Blair Athol say it will yield the cheapest coal in the world at a cost of 80 to 95 cents a ton. Transport costs, however, would have to be added.

At present the Queensland government is negotiating with an English engineering concern, Electric Supply Corporation of England, which is seeking rights to develop the field, build a railroad to the coast, develop its own port, and provide its own colliers for export.

The corporation is reported prepared to spend \$78,300,000 on the project and would aim at a yearly production of 3,500,000 tons—500,000 tons for Queensland, 1,000,000 tons for other Australian states, and 2,000,000 for overseas export.

Blair Athol is 190 miles northwest of Rockhampton, and 130 miles from the coast. Its coal, first found in 1864, has been taken for several years by the open-cut method by two small companies, at present producing around 250,000 tons a year.

The coal, however, today has to be hauled 230 rail miles to the coast at Rockhampton on a narrow gauge rail line.

The Electric Supply Corporation is seeking to build a railroad for 70-mile-an-hour 1,000-ton capacity coal trains and to take over the interests of the two small companies.

Surveys have disclosed a vast basin of coal. Beneath a light overburden is a top seam five feet thick, and a few feet lower is the main seam with a maximum thickness of 90 feet. Below that is another seam, four to seven feet thick.

Australia's need for more coal is urgent. Best estimate of this year's production is 10,500,000 tons, compared with 12,000,000 tons in 1942. Coal deliveries to most users throughout Australia are restricted.

### McKenney on Bridge

By WILLIAM E. MCKENNEY America's Card Authority

Today's hand, taken from the masters team-of-four match in the national tournament, is an interesting one to analyze. The opponents of Waldemar von Zedtwitz and Lee Hazen stopped at four hearts and made only five because they did not take the heart finesse. Von Zedtwitz and Hazen arrived at a contract of six hearts, which von Zedtwitz made.

There is no real problem in the hand except to locate the jack of hearts. I did not have a chance to discuss this hand with von Zedtwitz, as he took a plane to Hot Springs immediately after the tournament. Therefore, while his theory about the finesse may differ from mine, here is my reasoning.

With four trumps out, the expert player does not look for them to be divided two-two. He thinks

### Says Radio Could Use Fourth Estate Ethics

SYRACUSE, N. Y. (P)—Charles E. Wilson, president of General Electric Company, says individual radio stations "can well develop the same sense of editorial integrity and social responsibility which distinguishes the fourth estate."

Wilson, speaking at the silver jubilee dinner of radio station WSYR, said newspapers were much more aware of their power than radio and had "much more respect for it."

"The Code of Ethics of the American Society of Newspaper Editors, for example, derives whatever blood and bone it has from the day-by-day habits and standards and

attitudes of the men who actually write and edit the news. In the last analysis, broadcasting must walk the same earnest, honest path, forever weighing its motives, gauging its power, checking its excesses, and improving its standing with the neighbors it serves in its own community."

### Sub-Fired Star Shells Stop Island Revolt

DARWIN, AUSTRALIA (P)—Brilliant star shells fired in the air from a British submarine terrorized rebellious Solomon Islanders and helped to nip a revolution planned to engulf the entire island group, British naval officers said.

Officers of the submarine Amphion, which arrived here from the Solomons, said the uprising had been planned carefully by island nationalists. The Solomons group is a British protectorate.

This was the officers' story: Aware of the existence of the planned revolt, authorities ordered the Amphion to show the flag. The submarine sailed into the harbor of small Santa Ana Island in the Southern Solomons.

When a party landed from the submarine, the Amphion fired star shells from its six-inch guns.

When the brilliant lights from the shells flared in the sky the natives fled in terror to the other side of the island, and then moved back among their own tribes.

that the probability of a three-one break is greater. On the first heart play the queen was played from dummy and North won. A diamond was returned, von Zedtwitz won and led another heart, on which South played the nine. Now declarer knew that South had held at least two hearts. Where was the still-missing jack? Those who play "the queen over the jack" would take the finesse of the ten-spot. Others say that the honors should be divided, and as North had shown up with the ace, South should have the jack. Also, as I said before, many experts believe that in such a situation, a three-one break would be found most of the time. While I do not know which theory von Zedtwitz used, any one of them favors taking the heart finesse. He did take it, and make six hearts.

### Metal Blinds Turn A Porch Into A Room.

Suppose you had a porch at home which you'd like to make a year-round part of the house, both because it was usually more comfortable than any other part of the house, and also because you could use the extra room.

Suppose you wanted to make this porch particularly livable, a favorite breakfast or dining room, bedroom or living room.

Then, if you had any such plans, a visit to the J. Ed Black Company, 621 West Texas Street, surely would be in order.

J. Ed Black is the authorized dealer in Midland and in West Texas for Clear-View outside venetian-type blinds, which are one of the most versatile items offered the American home, or office builder.

If you are interested in adapting your porch to year round livability, the firm can furnish glass panels which will convert it into a snug extra room during the winter months and which are easily re-

movable in the summer to provide a breezy cool spot during the hot months.

Clear-View blinds are aluminum. They serve not only as blinds, but as awnings which protect against burglars and storm damage. They are instantly adjustable for perfect ventilation without any sacrifice of privacy. They are smartly attractive and sturdy and yet easily operated from within the room. They simplify interior decoration of windows. Since they are made of aluminum, they are as permanent as the building itself, and can be enameled any color, so they add to the attractiveness of the building.

These are reasons why Clear-View blinds are especially suited to conversion of porches to living quarters. A porch surrounded by such durable blinds immediately would become a delightful part of the home, where fresh air and sunlight could still be enjoyed and yet where complete privacy and comfort in all types of weather would be assured.

Aside from being ideal for homes, these metal outside blinds also are recommended for hotels, tourist courts, hospitals, factories, office buildings and public buildings of all kinds. They are a boon to efficiency in such buildings because they permit ample light to enter a room and yet deflect heat and glare.

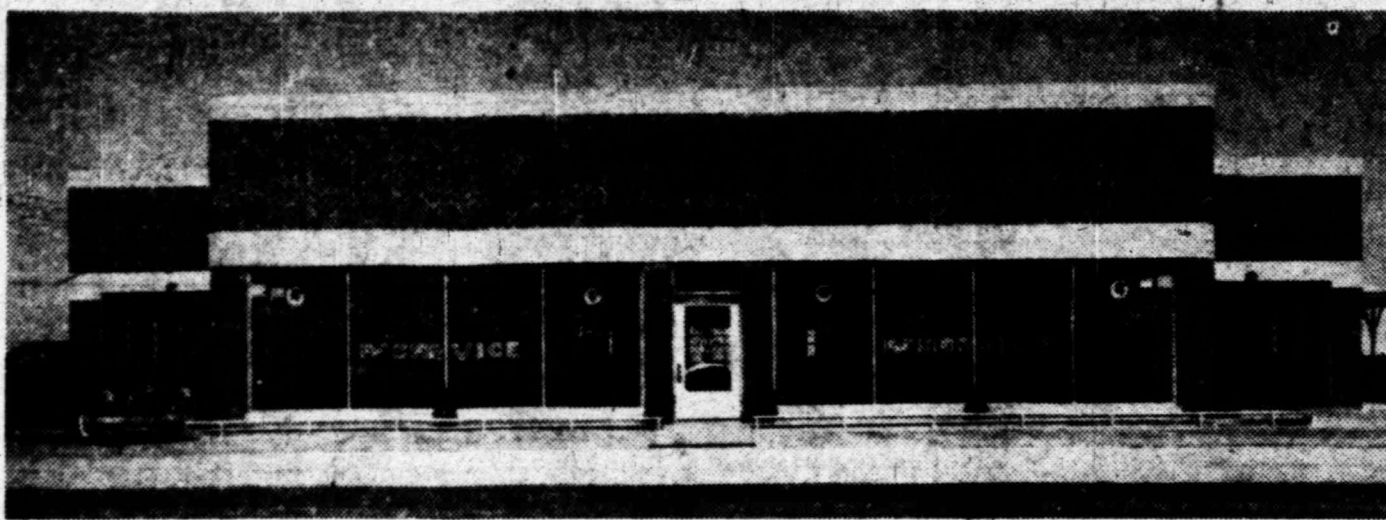

### Lawmaker Says Army Must Stay In Reich

MUNICH—(AP)—Rep. Everett M. Dirksen (R-Ill) declared the U.S. Army must continue its occupation duties in Germany because the State Department is not equipped to take over the job.

The chairman of the Joint House Armed Forces and Appropriations Committee touring Europe to study future needs is stopping here en route from Austria to the Ruhr, where he will study mining conditions.

The Army, Dirksen told reporters, "has done a pretty good job," and besides, he added, the State Department is short of talent for such a task.

### Curtis Pontiac Company Has Attractive New Building

One of Midland's most up-to-date new buildings is this one, home of Curtis Pontiac Company on West Highway 80. Covering 11,000 feet of floor space, including an unusually attractive showroom, it is designed for utmost efficiency in displaying and servicing automobiles. All types of cars are repaired in the well-equipped service shop, where precise machines enable mechanics to show the car owner exactly what repairs or adjustments a car needs for top performance.

### Fine Service A Specialty At This Firm

Of all the advantages Midland motorists may find at Curtis Pontiac Company, located on West Highway 80, perhaps the most important is the type of service featured there.

It is expert, efficient, and, above all, backed by a firm which prizes a reputation for giving customers honest values.

### High Cost Hearings Play To Empty House

NEW YORK—(AP)—The joint congressional subcommittee investigating the high cost of living, opened its hearings in the nation's biggest city, but played at first to an empty house.

None of the representatives of consumers' organizations scheduled to speak their minds against mounting food bills were on hand when the senators and representatives met.

Senator Ralph E. Flanders (R) of Vermont, chairman of the committee, said:

"There doesn't seem to be much interest in the high cost of living in New York, judging from the attendance of those supposed to be testifying.

"There is no excuse for representatives of those who wish to be heard not being here."
