

New Hurricane Sweeps Across Florida

Cities Asked To Back Truman's Food Plan

WASHINGTON—(AP)—President Truman's Citizens Food Committee Saturday night asked the mayors of 1,000 American cities to back the Voluntary Food Saving for Europe drive by organizing local conservation committees.

Truman is expected to follow up early this week, by telegraphing a similar appeal to the 48 governors for proclamations endorsing meatless and poultryless days and creating citizens committees in each state.

The telegrams dispatched Saturday night to the mayors of all cities of 10,000 or more population bore the signature of Charles Luckman, national committee chairman. They called attention to "the grave emergency confronting the hungry people of Europe and the responsibility this places on us as a free people."

"The deluge of inquiries we have already received from individuals and corporations offering every cooperation requires the immediate establishment of a local citizens food committee in your community," the telegram read.

"The President and the Citizens Food Committee request most earnestly, therefore, your full support in organizing your community."

Public Response Spotty

The latest presidential action in the campaign to provide more food for export to Europe followed reports of spotty observance of the first week of the self-denial program.

Luckman promised the mayors that information would be sent quickly to help the local committees organize effective campaigns, and suggested that each local body include representatives of churches, the Red Cross, schools, women's groups, labor, business, civic, veterans and fraternal organizations.

The city committees would be expected to work with local restaurant, bakery, brewery, milling and food processing industries in promoting meat- and wheat-saving campaigns, and to promote through civic organizations the achievement of a nationwide saving of 100,000,000 bushels of additional grain for export to Western Europe.

Prices Still Rising

In the background of these moves were informal surveys of the first week of voluntary rationing which showed:

Millions of housewives apparently were cooperating, but self-denial days and the saving of a slice of bread daily, as Truman asked, were not yet installed as national habits.

Restaurant associations and hotels still were split on the question of compliance.

Meat, egg and butter prices had dropped only slightly while live-stock and grain prices continued up.

'Purliest' Gal
Del Bradford, University of Texas Sweetheart, has been chosen by Governor Dester as the "prettiest" gal in Texas to be the dance partner of Gov. Jim Folsom of Alabama at the Second Annual Air Day in Texas, at Harlingen, October 24-26.

Britain Digs In For Long Hard Winter

LONDON—(AP)—Britain's Labor government is digging in for a winter of anticipated hardship, determined to keep the nation's economy alive with stop-gap measures until the hoped-for fulfillment of the Marshall Plan.

"If I could see a definite possibility of a start of the Marshall Plan by next June then the (stop-gap) aids probably would see us through," said Sir Stafford Cripps, new economics minister, in a statement at a news conference.

Until June, Cripps said, Britain's economy will be based on emergency expedients, such as sales from the gold reserves that back her currency, dollar acquisitions from the International Monetary Fund in exchange for sterling, possibly a loan from the International Bank for "productive" enterprises, and the hoped-for release of the frozen \$400,000,000 balance of the \$2,750,000,000 American loan.

Expect Hard Pull

Without a Marshall Plan, government and industrial leaders say they see nothing ahead but what Cripps called a "gradual economic strangulation" which would spread to Europe, bringing industry to a stop, wide unemployment and greater privation than ever.

Leaders in every sphere of British life say the winter pull will be hard. A "must" is increased production for export to pull together the dollars necessary to keep an inflow of food and materials for industry. The obstacles acknowledged by all are worn machinery, tightening markets and occasional but grievous industrial bottlenecks.

Prime Minister Attlee's extensive new government shakeup, in the view of Conservatives as well as Laborites, was designed entirely to strengthen his team for the difficult days ahead.

Top-flight Laborites say a government collapse or an extraordinary general election in the near future, for which Conservative Winston Churchill already has calculated, is possible only if the winter brings wholesale unemployment and suffering.

Scores Of Fire Fighters Attend Midland Meeting

Visiting firemen from a wide West Texas area gathered in Midland Saturday for a convention of the Permian Basin District Firemen's Association, which was terminated Saturday night by a barbecue at the V. F. W. Hall at the Midland Air Terminal.

The meeting was called to order Saturday morning by Clyde White, Wink, president; the Rev. Vernon Yearby, pastor of the First Baptist Church, gave the invocation, and Mayor R. H. Gifford welcomed the members. It was voted to hold the 1948 meeting in Kermit. The session concluded the observance of Fire Prevention Week here.

Fire Chief Joe Boone of El Paso delivered the principal address, speaking on fire prevention and fire fighting developments.

Race Results

The feature of the afternoon's activities was the speed competition between out-of-town teams engaging in pumper races. Midland firemen, according to association rules, were not eligible for competition, as they were hosts and their equipment was used. The first pumper race was won by Fort Stockton, whose firemen completed the race in 18.1 seconds; Monahans was second, in 20 seconds, and Lamesa was third in 22.2 seconds.

In the six-man pumper races, Lamesa won first with 12.2 seconds; Kermit, second with 14.1; and Monahans third with 16.5. The two-man race was won by Kermit in 14.3 seconds; Alpine was second with a time of 14.9; and Monahans third with 15 seconds flat.

In addition to these teams, firemen were here from Wink, Odessa, McCamey and Hobbs. N. M. Ladies accompanying them were honored with free movies during the day. An estimated 200 persons attended the barbecue at Cloverdale Park.

Sooner Fans Start Riot As Coaches Laud Bobby Layne

DALLAS—(AP)—While Bobby Layne sang in the shower following Texas' 34 to 14 football victory over Oklahoma, coaches of both teams sang his praises.

Of the University of Texas team's sparkplug, bearing Blair Cherry, Longhorn mentor, said: "It was a Layne show all the way."

"That fellow Layne is every bit as great as Texas says he is," Coach Bud Wilkinson of the University of Oklahoma commented. "All our boys played fine ball." Cherry stated, "I thought Jim Canady stood out with Layne in the backfield and Joe Magliolo and Dick Harris had a swell day in the line."

"Oklahoma had an inspired defense in the first half but after our boys solved it they got to rolling. We are naturally happy to win over such a fine team."

"The Texas boys have so much speed, they're hard to handle," Wilkinson said. "We made a few mistakes that hurt us but on the whole I think our team played fine, hard football. I can't list any standout players because I think every man did a good job."

"As for Texas—Well that's a great ball team."

Wilkinson had no comment on the officiating which drew the ire of Oklahoma fans and ran his own blood pressure up during the afternoon.

For about seven minutes after the final gun, it was touch and go before the officials were herded into a police car and hurried out of the Cotton Bowl.

A dozen Oklahoma supporters attempted to get within swinging distance of the officials and even after they were in the patrol car there were shouts and screams of "Let's turn it over. Let's get 'em!" The officials looked angry and grim.

Wants Just One Swing

But the Sooner State rooters were held off from the car by a wall of Dallas policemen and state highway patrolmen. The officers were very good natured about the whole thing. They smiled as they pushed the irate Oklahoma fans away from the police car and two of them wore wide grins as they held the arms of a middle-aged, red-face Oklahoma man who kept yelling:

"Just let me have one swing at those guys!"

While all this was going on, thousands of Texas fans, who had found no fault with the officiating, boomed from the stands.

There had been a great deal of Texas boogie, too, in the fourth quarter when a hall of pop bottles and cushions from the Oklahoma section fell onto the playing field.

Texas Fans 'Surrender'

During this bottle throwing, Texas cheer leaders pulled out white handkerchiefs and began waving them. In a moment, 10,000 or so Texans whipped out their handkerchiefs and a great part of the big stadium was a waving sea of white.

As always when Texas-Oklahoma games are played, getting to State Fair Park and inside the Cotton Bowl was a slow progress. Loudspeakers belted directions to the surging humanity who pushed, shoved, and crowded through the gates. Every seat in the 50,500-seat stadium was taken and hundreds of stampees milled around the stadium top.

At downtown hotels before the game, tickets were being offered from \$35 to \$50 each. In Fair Park they could be had for as little as \$10 each. Police had issued warnings about ticket scalping but the scalpers were busy.

Communications Go Out; Roads Flooded

MIAMI—(AP)—Communication lines began going out and highways were submerged in Southern Florida Saturday night as a small hurricane whipped across the Everglades and headed for Miami.

In a 9:30 p. m. (CST) advisory the weather bureau said the center of the hurricane was about 70 miles southwest of Miami, moving east northeast about 15 miles per hour.

Intensity of the winds was not known, the bureau added, but probably was still of hurricane force near the center.

The center was expected to hit Miami early Sunday.

The Florida Highway Patrol reported three feet of water over the Tamiami Trail in some places and a bridge on that main artery of travel between the East and West Coasts, through the Everglades, was out.

A foot of water was reported in Everglades City, on the West Coast about 50 miles south of Fort Myers, and communication lines to that town were out.

Two evacuation trains of 75 cars left Fort Pierce for the Lake Okechobee region to bring out the population if flood waters threatened that area.

Chief Forecaster Grady Norton called it a "very freakish hurricane" and said it might lose some of its force while crossing the Florida Everglades, but predicted winds of 75 miles per hour for the East Coast from the Greater Miami area northward beyond Palm Beach.

125-Mile Winds

Torrential rains drenched the area, accompanied by sharp displays of lightning. In 10 minutes the weather bureau recorded a record 1.34 inches of rain in Miami.

Norton said winds of 125 to 140 miles per hour were reported by the lighthouse keeper at Dry Tortugas, 60 miles off Key West, before instruments were swept away by the wind.

The hurricane is the second major one within a month to lash the Florida and Gulf Coasts. One on September 17 caused damage estimated at \$75,000,000, and 22 lives were lost in South Florida before it struck the Mississippi Coast and New Orleans, leaving 21 dead and 654 injured in Mississippi and 14 dead and 95 injured in Louisiana. No estimate of damage on the Gulf Coast was available.

The Red Cross made plans to evacuate several thousand residents in the flood-stricken Lake Okechobee region west of Palm Beach as torrential rains threatened to bring conditions to a critical stage.

Military Planes Moved

Between 800 and 1,000 persons living in the Davis area near Fort Lauderdale were expected to be evacuated as floodwaters poured down from the Lake Region to the north.

Army and Navy planes from South Florida fields were flown to Georgia to escape the storm.

Domestic airlines halted their flights at Jacksonville instead of coming further south. Pan American Airways flying to Latin America said only flights on its Cuban subsidiary had been cancelled.

Two disabled ships in the Florida Straits, the 10,000-ton Haiti Victory hard aground and the tug Relief, with its propeller fouled by a hawser, were reported to have weathered the blow as a Coast Guard cutter went to the scene.

Key West, southernmost city in the United States, came through with winds of 40 to 60 miles an hour and a heavy rain.

U. S. Okays Partition Of Holy Land

LAKE SUCCESS—(AP)—The United States Saturday endorsed in principle the partition of Palestine but made no commitment of American military forces to guard the peace in the turbulent Holy Land.

The long-awaited policy declared before the United Nations Assembly's 57-nation Palestine Committee touched off a bitter attack from the Arabs and drew expressions of satisfaction from the Zionists.

U. S. Delegate Herschel V. Johnson told the committee the U. S. was willing to participate in a UN program to assist the parties involved in the establishment of a workable political settlement.

Would Admit Jews

Delegates listened intently as Johnson said in effect that Britain, as the mandatory power, was obligated to continue ruling Palestine until the UN undertakes "to assume responsibility." A spokesman for the American delegation said that the U. S. held the opinion that Britain was not free to carry out her announced plans of withdrawing from Palestine until the UN had set up machinery to replace the British administration.

In addition to endorsing the partition of Palestine into Jewish and Arab nations, Johnson supported another majority recommendation of the UN 11-nation Special Committee on Palestine (UNSCOP) calling for admission of 150,000 Jewish immigrants into the Holy Land during a two-year interim period.

He suggested, however, that there be certain geographic modifications in the partition lines, including turning the city of Jaffa over to the Arabs.

In Palestine, David Ben-Gurion, chairman of the Jewish Agency Executive, commented that the American declaration of policy "means an important step forward towards establishment of a Jewish state."

The Arabs expressed surprise and bitterness at the American decision.

Kermit Woman Drinks Poison

KERMIT—Mrs. Howard M. Moutrey, 47, died at her home here at 5 p. m. Saturday, and Justice of the Peace D. A. Jolly said her death was the result of self-administered poison.

Survivors include the husband and a nine year old daughter.

Jolly quoted the husband as saying he had been to town and upon returning was told by his wife she had taken the poison. She died a few moments later. The body was at Maples Funeral Home Saturday, pending funeral arrangements.

The Moutreys formerly lived in Midland, it was reported, and were engaged in ranching, but have lived in Kermit several years.

Building Permits Breaking Records Daily In Midland

Every building permit issued in Midland from now until the end of 1947 is breaking the record for construction in the city within a year. The 1947 building permit figure is \$3,261,170, far past previous existing records.

For the week ending Saturday, \$12,250 in permits were issued. Included in the week's permits were more for medium-priced homes, which are showing a steady gain in Midland.

Largest permit of the week went to Henry Lee to build a \$7,000 business structure of stucco and frame at 305 North Lee Street, size to be 24 by 48 feet.

Permits Listed

(Other permits included: C. P. Stapleton, \$2,000, tile and stucco garage and workshop at 1107 West College Street, size 20 by 30 feet; W. F. Prothro, \$6,000, dwelling at 1406 West Louisiana Street, size 28 by 33 feet, lumber; J. N. Holliday, \$6,000, residence at 1403 North Main Street, size 28 by 42 feet, stucco and lumber; H. E. Ritenour, \$3,000, brick-veneer dwelling at 801 South Dallas Street, size 22 by 36 feet; Charles Erwin, \$4,750, residence at 2307 West Brunson Street, size 30 by 34 feet, lumber; First Baptist Church, \$6,400, to move a structure to 301 North Main Street, size 20 by 100 feet, alterations will be made; J. C. Hall, \$5,000, dwelling at 702 Nobles Avenue, size 30 by 30 feet, garage attached, lumber; C. W. Hodson, \$1,500, additions to a residence at 506 South G Street, sizes 40 by 12 feet and 16 by 14 feet, lumber; Richard Webster, \$900, structure at 1000 South Weatherford Street, size 14 by 16 feet, lumber; R. E. Roch, \$500, dwelling at 1111 South McKenzie Street, size 16 by 24 feet, lumber.)

Service Stations Are Burglarized

Police Saturday were investigating two burglaries in Midland Friday night. Officers said two service stations were entered but amount of loss had not been determined.

Crowley Service Station and Arrowhead Station were burglarized. Entry was gained through windows of both.

ODANIEL SAYS REDS FAVOR MARSHALL PLAN

HOUSTON—(AP)—Senator W. Lee Odaniel asserted in an interview here Saturday, the Communists actually want the Marshall Plan in Europe because they know it will destroy our economic system and reduce us to a has-been nation.

WEATHER

Generally fair in West Texas Sunday and Monday; slightly cooler in the Panhandle and South Plains Sunday.

LATE NEWS FLASHES

- NEW YORK—(AP)—**Fred A. Healy, 58, vice president of the Curtis Publishing Company, died Saturday at Yankee Stadium after collapsing as he watched the Army-Illinois football game.
- SAN FRANCISCO—(AP)—**Globe Wireless Saturday night reported receipt of a relayed message from the Pacific Far East Lines Liberty ship Louis Sloss, crippled in the Far Western Pacific apparently in the storm-swept region west of Iwo Jima.
- BUFFALO, N. Y.—(AP)—**An explosion at a Standard Oil Company refinery rocked the South Buffalo section early Sunday and a fourth alarm was sounded summoning all available fire fighting equipment.
- LUFKIN—(AP)—**Former Governor Coke Stevenson told a reporter Saturday following a speech before the Texas Lumber Manufacturers Association here, "I don't want to announce until January" as a candidate for the U. S. Senate. "It's too early now," he was quoted as saying.
- BOGOTA, COLOMBIA—(AP)—**Fire Friday night destroyed Tumaco, Colombia's second most important Western port, leaving 5,000 homeless, a presidential communique said Saturday.

Toned-Down Balkans Resolution Approved By U. N. Committee

LAKE SUCCESS—(AP)—The United Nations Assembly's Political Committee finally approved Saturday night a toned-down United States resolution, setting for a Border Watch Commission in the Balkans but failing to find three Russian satellites guilty of helping Greek guerrillas.

The vote on the complete resolution, as amended after days of wrangling over a "responsibility" section which finally was watered down, was 36 to 6.

The entire Russian bloc, including Czechoslovakia, was against the resolution. Ten nations abstained. Five were absent.

Red Satellites Warned

Following more than four hours of heated debate, the 57-member committee approved a French-British compromise which avoided placing direct blame on Yugoslavia, Albania and Bulgaria with regard to lending assistance and support to Greek guerrilla bands operating in Northern Greece.

The committee next approved by a 34 to 7 vote that portion of the French-British amendment which called upon the three Soviet satellites "to do nothing which could furnish aid and assistance to the said guerrillas."

Midland again joined the Soviet group on that ballot.

Wheat Brings \$3.00 For 27-Year High

CHICAGO—(AP)—The Chicago Board of Trade Saturday had its first \$3 a bushel cash wheat in 27 years.

A carload of No. 1 hard wheat sold for \$3.00 3/4 on the board's cash market, the highest price since January, 1920, when cash wheat reached \$3.50 a bushel. It also hit the \$3.50 record in December 1919.

Hudson re-built engine, 6 cyl., fits 1938 to 46. Kent Auto Service. (Adv.)

Third Odessa Radio Station Steps Into Grid Broadcast Case

ODESSA—(P)—Manager Jan King of radio station KECK announced Saturday that KECK had intervened in a suit filed in district court by station KRIG against station KOSA. All three are Odessa stations.

KRIG claims it has a written contract with the Odessa school board providing for the exclusive rights to broadcast the home games of the Odessa football team for the 1947-48 season. It filed suit against KOSA after it alleged KOSA infringed its contract rights by broadcasting a game this season. KRIG has asked for an injunction to stop KOSA from broadcasting any further games this season.

King said KECK has intervened in the suit by questioning the contract, claiming it is void on various grounds, including the freedom of the press provisions of both the federal and state constitutions. He said KECK maintains that the school board cannot, by either express or implied provisions of law, grant an exclusive broadcast contract.

Arguments were set for next Thursday before District Judge Cecil C. Collings to determine whether a temporary injunction should be issued pending trial of the case on its merits.

Leftists Strike Out At Italian Regime

ROME—(P)—Italy's extreme left political parties struck back Saturday at Premier Alcide De Gasperi's regime with demonstrations in Naples, Milan and Rome in a supreme effort to sweep Sunday's municipal elections in the capital. Communists and Socialists left their jobs in Naples and Milan and summoned Romans to a mass meeting Saturday in Piazza Colonna, where a Quinquagesimo extreme right plane caused an uproar.

The plane circled the square dozens of times, and each time it appeared deafening whistles—the Italian equivalent of boos—went up from the leftist throng. The plane dropped caricatures of Prime Minister Stalin with the inscription: "This is what is hiding behind the mask of Garibaldi."

Giuseppe Garibaldi, 19th century patriot, is used as a symbol by the People's Bloc, made up of Communists, extreme left Socialists and two minor parties.

CALIFORNIA SMASHES WISCONSIN, 48 to 7

MADISON—(P)—California's first invasion of the Midwest in its 70-year football history was a smashing success Saturday as the Bears dumped Wisconsin, 48 to 7. It was California's fourth straight win.

DIES AT BIG SPRING

BIG SPRING—(P)—J. C. Holland, 55, veteran printer, died Saturday in the Rescoe Hospital here. He had been employed recently by The Colorado City Record.

Jews Deny Reported Arab Mobilization

JERUSALEM—(P)—An airplane tour low over the Northern and Eastern border areas of Palestine Saturday failed to disclose any troop concentrations within 20 miles of either side of the frontier, and Jewish spokesmen declared Arab reports of such mobilizations were a "war of nerves."

At Beirut, Lebanon, where the Arab League has been meeting to decide upon measures against Palestine partition, Abdel Rahman Azzam Pasha, league secretary, reiterated to reporters that troops of Syria, Lebanon and Transjordan already had moved up to the frontier to cordon off the Holy Land and said "others will shortly move."

A spokesman for Hagana, secret Jewish defense organization, denied his group was taking anything more than "normal security precautions" against a threat of force by the Arab League of seven nations. "These precautions," he said, consisted of sending no more than a dozen or so specialists into the Eastern Galilee area in the North where there are large Jewish settlements. These steps were taken, he said, early this month before the reports of Arab troop movements were received from Beirut.

Livestock

FORT WORTH—(USA)—(P)—Cattle: compare close last week; fed steers and yearlings steady, grassy kinds 50 or more lower, cows mostly 50 lower, bulls steady, stockers and feeders steady. Week's tops: beef steers 26.00, yearlings and heifers 25.00, cows 17.00, bulls 16.50, feeder steers 21.00, yearlings 22.50. Week's bulks: good beef steers and yearlings 23.00-25.00, medium 17.00-21.00, common 13.00-16.00, medium and good cows 14.00-16.50, cutter and common 11.50-13.50, canners 8.50-11.00. Sausage bulls 12.50-16.00. Medium and good stockers and feeders 16.00-19.00, choice 20.00-21.00, common 13.00-15.00. Medium and good stocker cow, 11.00-13.00.

Calves: compared week ago: good and choice steady, common and medium 50 lower, culls steady. Good and choice slaughter calves 17.00-20.00, few strictly choice heavyweights 21.00-22.50, early. Common and medium 12.00-16.00, culls 10.00-12.00. Good and choice feeder steers calves 14.00-21.00, common and medium 13.00-16.50.

Hogs: for week: butcher hogs and pigs steady, sows 1.00 higher. Week's tops: butcher hogs 28.50, sows 27.50, stocker pigs 26.00. Closing bulk: good and choice 190-270 pounds 29.00, good and choice 160-185 pounds 26.75-28.75, sows 25.00-27.00, stocker pigs 20.00-25.50.

Sheep: for week: fat lambs 1.00-50 lower, other killing classes and feeders steady. Week's tops: fat lambs 22.00, yearlings 17.50, fat ewes 8.25, feeder lambs 18.00. Closing bulk: medium and good fat lambs 18.50-20.00, medium and good slaughter yearlings 15.00-17.00, medium and good slaughter ewes 7.25-8.00, cull and common ewes 6.00-7.00, medium and good feeder lambs 14.00-17.00.

Eighty per cent of all activities are guided by the eyes.

Brave Lad

(NEA Telephone) Little Tommy Herbert, 2, son of Mr. and Mrs. Roland Herbert, Cleveland, Ohio, learns to be self-sufficient in the Rose Mary Home for Crippled Children in Cleveland.

Tommy, who lost both hands under a train switch engine September 19, is pictured drinking milk from a cup by using special leather wristlets.

AFL Leaders Plan Political League

SAN FRANCISCO—(P)—The AFL convention will be asked next week to set up "labor's educational and political league" with the main objective to get out the vote in 1948 to defeat unwarranted candidates and elect friendly ones. This would thrust the AFL deeper into politics than it ever has been. The proposal of the 15-man executive council to establish the league will go to the resolutions committee Monday and then to the convention floor, where it is expected to have easy sailing.

A spokesman for President William Green said the proposed league would not be patterned after the CIO's Political Action Committee—but the program made public Saturday appeared to closely parallel the CIO's. Funds will be raised to finance the work by special campaigns, so that the Taft-Hartley Act prohibition on political contributions and expenditures would not apply.

STELLA RUTH BEDIHECK DIES IN ABILENE

ABILENE—(P)—Stella Ruth Bedichek, 7-year-old daughter of Mr. and Mrs. Wendell Bedichek, publisher of the Coleman Democrat-Voice and former managing editor of the Abilene Reporter-News, died here Saturday of acute lymphatic leukemia. Funeral services will be held at 2 p. m. Sunday at the College Church of Christ here.

New Red Bloc Pursues Aims Of Marx, Lenin And Trotsky

By DEWITT MACKENZIE AP Foreign Affairs Analyst

The word has been pretty thoroughly spread by this time that the Communist Comintern, or Third International, has been overhauled and set running full speed again and that, as U. S. Attorney General Tom Clark puts it, this action serves notice of the relentless campaign being waged to spread totalitarianism throughout Europe—and later throughout the world.

The average citizen knows that much, but how many understand just what the Comintern is—beyond the fact that it is a fearsome organization which works largely under cloak of secrecy?

In order to understand the Comintern we must go back a bit. Russian communism isn't the original brain conceived centuries ago. The initial envisagement was that of a state in which all means of production were communalized for the benefit of the whole population. It was one for all and all for one in every walk of activity.

Then along came Karl Marx, among others, and added as an essential of communism that it must be inaugurated by a revolution of force. Russian communism, as laid

Three Men Aboard Minesweepers Safe

PEARL HARBOR—(P)—A navy plane Saturday found four minesweepers 440 miles northeast of Palmyra Atoll and reported the three men aboard "all seem to be in good health."

The 85-foot vessels, lashed together for towing, had been missing since September 24, when they drifted away while the tug Edward M. Grimm was refueling at Palmyra.

They were being towed, from Charleston, S. C., to Manila for use by a stevedoring company.

SOUTHERN CAL WINS COLUMBUS, OHIO

Southern California's rollicking Trojans gave a spectacular display of power and precision Saturday as they scored in every period to hand Ohio State's fading Bucks a 32-0 setback, their second of the season, before a capacity crowd of 76,559.

BOWLING

The Automotive Bowling League is beginning to settle down somewhat and the better class of bowlers are coming into their own, but still some of the lower average bowlers are giving the hot shots a run for the honors.

Robert E. Deadleg Boothe had high game last week with a 231 and Lewis had high game series with a 590 for the three games. Both players are members of Murray-Young Ford Company.

There were several high games rolled during the week, as Howard Ace Motors, Reed of Scruggs Motors, Petty of Noble Holt Motors, Crites and Thompson of Curtis Pontiac and Jones of Mackey all had games of over 200.

C. Of C. Directors Will Meet Monday

Directors of the Midland Chamber of Commerce will meet in regular monthly session at 8 p. m. Monday in the private dining room of the Scharbauer Hotel. President John P. Butler said Saturday.

The six planks in the West Texas Chamber of Commerce referendum for 1947-48 will be explained and discussed and action will be taken on each proposal, Butler stated. Chamber of Commerce participation in the dedication of Midland Air Terminal November 1 also will be considered.

A full attendance of directors is urged.

Glasscock Ranch Road Contract Will Be Let

AUSTIN—(P)—The State Highway Commission has called for bids October 21 and 22 on improvement projects involving 237 miles of primary and farm-to-market highways estimated to cost more than \$7,000,000.

Projects for which bids are to be opened include: Glasscock County—Ranch Highway 33, 14.73 miles, grading, drainage structures, flexible base and single asphalt surface treatment, from Garden City to Reagan County line.

TOY BALLOON KILLS FREEPORT YOUNGSTER

FREEPORT—(P)—A three-year-old boy was dead Saturday night after the toy balloon he had attempted to blow up suddenly deflated and flew backward into his windpipe.

The tot was blond, shabby Richard Lynn Rayburn, son of Mrs. Helen Rayburn, a widow. Richard Lynn received the balloon at a birthday party.

OIL LEADERS TO MEET

SAN ANTONIO—(P)—Leaders in Texas oil and gas industry will meet here October 16-17 for the 28th annual meeting of the Texas Mid-Continent Oil & Gas Association.

Yugoslavia Breaks Relations With Chile

BELGRADE—(P)—Declaring that Chile no longer regulates "its relations with other states independently," Yugoslavia announced Saturday she had decided to break diplomatic relations with the South American republic because of the deportation of two of her diplomats.

The break announced by Marshal Tito's Foreign Ministry, was an aftermath of the expulsion Wednesday night by Chile of the two Yugoslav diplomats who were alleged to be operating under direction of the new Communist International Information Bureau in Belgrade and fomenting labor strikes in Chile.

Yugoslavia charged that the reasons given for the expulsion were "without any foundation" and accompanied by a "whole lot of most fantastic libels" against the Yugoslav government.

SANTIAGO, CHILE—(P)—Foreign Minister Vergara Donoso said Saturday Yugoslavia's severance of diplomatic relations with Chile "has no importance for us."

"We have no legislation there. The only Yugoslav official in Chile has already left the country," he said. At Lake Success a high source in the Argentine United Nations delegation said the Yugoslav break with Chile may result in a three-power agreement among Argentina, Chile, and Brazil to "effect more positive measures against the Communist threat in Latin America."

MRS. MORRIS DIES

SAN ANGELO—(P)—Funeral services for Mrs. Mary E. Morris, 64, of San Angelo, who died here Friday night, will be held Monday at Colorado City, where she formerly lived.

Episcopal Men's Club Slates Tuesday Meet

The Men's Club of the Trinity Episcopal Church will stage its monthly dinner-meeting at 7 p. m. Tuesday in the Scharbauer Hotel. Dan Hudson, program chairman, said a special program of interest to all members will be presented.

SUPPORT FOOD PLAN

PHILADELPHIA—(P)—The Presbyterian Church in the U. S. A. "will give its wholehearted support" to resident Truman's program of voluntary food rationing to relieve European needs. Dr. William Barrow Pugh, stated clerk of the general assembly, announced Saturday.

DR. E. E. COCKERELL

Abilene, Texas
Rectal, Hernia, Skin and Colon Specialist

PILES CURED WITHOUT KNIFE

Blind, Bleeding, Protruding, no matter how long standing, within a few days without cutting, tying, burning, sloughing or detention from "business. Fissure, Fistula and other rectal diseases successfully treated. See me for Colonic Treatment.

Sun To Dig Deep Wildcat In N-C Coke; Upton Project Flows Oil From 'Burger'

Sun Oil Company has made location for an Ellsburger wildcat in North-Central Coke County, about six miles east of Jameson field.

The new prospect will be Sun No. 1 J. W. Arledge, and is located 1,980 feet from south and west lines of section 26, block 1-A, H&TC survey.

It is scheduled to dig to around 7,000 feet, unless it gets oil, gas or water, in the Ellsburger at a higher point. Drilling will be started immediately.

The prospect is on a large block Sun holds around the drillsite.

The production in the Jameson field is from the crinoidal lime of the Pennsylvanian, between 6,100 feet and 6,900 feet.

S-U & P 1 ALFORD DRILLS AHEAD AFTER EXTENDED FLOW

Slick-Urschel Oil Company, The Plymouth Oil Company, et al. No. 1 Alford, East-Central Upton County wildcat, about 12 miles northeast of Rankin, and near the Reagan County line, appears to be an important discovery from the Ellsburger.

This prospect, located 2,173 feet from north and 4,813 feet from west lines of section 501 2, block Y-P, B. Scott survey, ran a drillstem test at 11,091-166 feet.

Gas, of at least 1,000,000 cubic feet per day, showed at the surface in 12 minutes. The 1,000-foot water, in 15 minutes, started flowing. The drill pipe started flowing, began spraying oil in two hours and 50 minutes and the well produced for several hours at an estimated rate of from two to six barrels of 49.5 gravity oil per hour. No water was developed.

Definite length of time of the test has not been officially reported.

The project was drilling ahead at last report, and had reached 11,181 feet. There was no verification of rumors in some circles that the well had blown out Friday night, while drilling at 11,176 feet. Those rumors credited the wildcat with having made a heavy flow of oil at that point. There was no official confirmation of those reports.

Top of the Ellsburger was picked at 11,221 feet, on a corrected call. That gives it a datum of minus 8,252 feet.

A drillstem test, in the top of the Ellsburger at 11,225-95 feet, had a recovery of 150 feet of gas cut drilling mud, with no shows of oil.

This wildcat was originally started by The Plymouth Oil Company, in 1941. It was drilled to 10,384 feet and temporarily abandoned at that point.

Plymouth re-entered the project in 1946, but did not accomplish any new developments and again temporarily abandoned it.

During the early part of 1947, Fred Turner, Jr., of Midland, made a deal with Plymouth and acquired control of the wildcat. Turner then turned it to Slick-Urschel and associates and that concern has developed it to the current level of operations.

It is understood that both Turner and Plymouth have interests in the well, and in the block on which it is located.

RUNNERS EXPLORATION GETS MORE OIL IN ELLENBURGER

Pan American Production Company No. 1 Cambell, Central Runners County Ellsburger wildcat, about five miles north of Ballinger, and 47 feet from north and east lines of the L. J. Hays survey, No. 6306 B, was making more hole from 4,461 feet in the Ellsburger, entered at 4,332 feet.

A drillstem test was run at 4,391-4,401 feet, for one hour. Recovery was 500 feet of oil and gas cut drilling mud, and 540 feet of free oil. No water has been developed in the Ellsburger. After a 20-minute shut-in, following the latest drillstem test, the well built up a bottom hole pressure of 90 pounds.

PROSPECTIVE EXTENDER IN SE GAINES TO TEST

Paul F. Rutledge, of Dallas, and associates, No. 1 Bee, Northeast Gaines County wildcat, one mile southeast of the Adair field, and 650 feet from north and 1,980 feet from west lines of section 9, block C-31, psi survey, was dug to start making production tests in the Seelye-Permain, east in the weeks it is bottomed at 4,903 feet, in lime, with 5 1/2-inch casing set at 4,362 feet, with 380 sacks of cement.

Operator will perforate opposite streaks above the bottom, which have indicated production and will test them natural, and then will probably acidize.

SEABOARD DRILLS AHEAD AT DEEP DAWSON WILDCAT

Sea-board Oil Company of Delaware, No. 6-A Robinson, Southeast Dawson County deep wildcat, 15 miles southeast of Lamba, and 1,979 feet from south and 670 feet from west lines of section 27, block 34, TP survey, T-5-N, was being drilled ahead beyond 10,913 feet in a 5 1/2-inch hard, gray, crystalline dolomite, with scattered pig point fluorescence.

A core at 10,918-913 feet recovered five feet of the above described material—which informed observers say is not Ellsburger.

PROSPECTORS IN MITCHELL AND HOWARD ARE PEA

Wildcats in South-Central Mitchell County and in Northeast Howard County, have been plugged and abandoned as dry holes.

S. F. Harbut, et al. No. 1 Wulfjen, about 12 miles south of Colorado City, and 680 feet from north and west lines of section 10, block 13, H&TC survey, drilled to total depth of 5,411 feet in Ellsburger, and failed to develop any indications of production.

It has been abandoned and plugged. Unofficial sources reported that the top of the Ellsburger was at about 7,500 feet.

Hickok & Reynolds, Inc., No. 1 McGinties, 330 feet from south and east lines of section 10, block 30,

TP survey, T-1-N, and six miles northeast of Coahoma, drilled to 2,200 feet in dry lime and has been plugged. It is reported to have been low geologically. It started out to drill to about 3,950 feet to explore into the Clear Fork of the lower Permian.

ELDER STAKES 2,600-FOOT WILDCAT IN C-S UPTON

Dave Elder No. 1 Henry Nest is to be a 2,600-foot wildcat in Central-South Upton County, about five and one-half miles north of Rankin.

It is located 330 feet from north and east lines of section 6, block A, EL&RF survey. Cable tools to drill the project were being rigged at the end of the week.

MABEE TO DRILL 1 HEYDRICK DOWN TO TEST ELLENBURGER

Guy Mabey Drilling Company No. 1 Heydrick, Central-Southwest Andrews County wildcat, between the Martin field and the Block 12 field, and 1,970 feet from south and 630 feet from west lines of section 6, block A-41, psi survey, had reached 9,293 feet in lime and chert in the Montoya, upper Ordovician, and was drilling ahead. Top of the Montoya had not been officially reported.

This project was originally started to test into the Devonian. It was barren there. Then it was carried down to test through the Silurian. That horizon likewise was dry.

Unofficial sources reveal that it cut out most of the Devonian and as a result it may be on a favorably structurally position in regard to the Ellsburger.

It is now projected and financed to explore into the lower Ordovician zone. Present plans of the operator are to carry the venture to 10,500 feet—unless oil, gas or water is encountered in the Ellsburger before that point, or granite found before that level is reached.

SPOC TAKING POTENTIAL ON NEW ANDREWS DISCOVERY

Sinclair Prairie Oil Company, et al. No. 1-173 Skelly-University, discovery for heavy flowing production from the Devonian in North-Central Andrews County, about 12 miles north and a little west of Andrews, and four miles east of the Fullerton 8500 field, was taking potential test to complete Saturday.

This new field opener, located 660 feet from north and 1,980 feet from east lines of section 25, block 13, University survey, tested for 385 barrels of oil and 82 barrels of wash water in 11 hours of swabbing and flowing, natural. In a subsequent 15-hour test, the well flowed 60 barrels of oil and 26 barrels of wash water. The production is from open hole at 9,709-9,540 feet. There is about 200 feet of pay east off, for the time being, back of the pipe which is cemented at 9,700 feet.

GULF DRILLS AHEAD AT SW CRANE EXPLORATION

Gulf Oil Corporation No. 7-E Wristen, Southwest Crane County wildcat to 7,900 feet, to explore into the Ellsburger, about six miles northeast of Grandfalls, and 2,904 feet from north and 679 feet from east lines of section 17, block P-28, psi survey, had reached 7,575 feet and was drilling ahead in lower Simpson lime and shale.

STÉPOT TO CHILDRESS, DISCOVERY MAKES HOLE

Humble Oil & Refining Company No. 1 Ethel Smith estate, stepout from the discovery of Ellsburger

production in the Childress field in Northeast Crockett County, and 660 feet from south and west lines of section 1, DS&F survey, had reached 7,916 feet in lime and shale—and was continuing. It is due to tell its story during the next week.

Byrd and Frost No. 1 Mayberry-Tipton, Ellsburger wildcat in extreme Northwest Crockett County, and 690 feet from northeast and southeast lines of section 39, block 31, H&TC survey, was reported to have progressed to 7,785 feet in the Ellsburger, which was entered at 7,694 feet, on an elevation of 2,660 feet.

It was taking a drillstem test from 7,735 feet to the current total depth. Since topping the possible deep pay zone this wildcat had only shown a slight amount of gas to 7,735 feet.

AMERADA MADE MOSTLY WATER IN SEMINOLE TEST

Amerada Petroleum Corporation No. 9 Riley, Central Gaines County exploration, two and one-half miles northwest of Seminole, 660 feet from south and 725 feet from east lines of section 229, block G, WT survey, and on the northeast side of the Seminole field, where the current production is from the San Andres-Permain, at above 5,100 feet, was preparing to plug back and test higher.

This project had some slight shows of oil in the Gioletta in drilling to the present bottom of 6,888 feet. It set a string of casing through those shows and then perforated at 6,470-6,510 feet and at 6,530-70 feet.

Those intervals tested for 16 barrels of oil in eight hours and 45 minutes.

The perforated zones were then treated with 5,000 gallons of acid after the acid and residue had been recovered they swabbed at the rate of 25 barrels of fluid per hour—95 per cent water and five per cent oil.

Operator is expected to test another section in the Gioletta, following the plug-back.

WEST ECTOR PROSPECTOR STILL HUNTS ORDOVICIAN

Humble Oil & Refining Company No. 1 Vest, West Ector County wildcat, 660 feet from north and west lines of section 17, block B-8, psi survey, and five miles north and west of the same concern's discovery for Ellsburger production at its No. 1 Yarbrough & Allen, had reached 10,297 feet in a lime and shale zone, which was reported by informed observers to still be above the Ordovician.

Big Spring School Tax Rate Case Is Settled By Court

BIG SPRING—Judge Cecil C. Collings of 70th District Court decided Friday that an issue of boosting the school tax rate here from \$1 to \$1.50, previously announced as beaten by one vote, had carried.

Collings ruled after a number of ballots had been eliminated as invalid.

The tax rate election was held September 9. The judge said elimination of ballots would not change the result of a \$200,000 bond issue referendum which was defeated by 51 votes.

Man Who Lost the Will to Live

A tired, discouraged old man, India's Mohandas K. Gandhi, celebrated his recent 76th birthday by declaring he had lost all desire for a long life because the masses no longer heed his peace pleas. Here, the famed pacifist leader is pictured leaning heavily on the shoulders of his two granddaughters while strolling in New Delhi, scene of much recent violent religious rioting. Photo by NEA—some staff correspondent Bert Brandt, on round-the-world assignment via Pan-American Airways.

Convention Speaker

Sidney A. Swensrud, of Pittsburgh, Pa., executive vice president of Gulf Oil Corporation, and a member of the economics advisory committee of the Interstate Oil Compact Commission, will speak October 16 at the annual meeting of the Texas Mid-Continent Oil & Gas Association. He will discuss the production job the oil industry faces today.

Texas Weekly Oil

By The Associated Press

Postwar problems of the petroleum industry will be the theme of the two-day convention of the Mid-Continent Oil and Gas Association next Thursday and Friday in San Antonio.

Among the speakers will be Robert C. Danlop, president of Sun Oil Company, Philadelphia; Sidney A. Swensrud, executive vice president, Gulf Oil Corporation; W. P. Gage, vice president and director of Shell Chemical Corporation; and H. A. Murray of the Technical and Research Division of The Texas Company.

The controversial tidelands issue will be the subject of an address by Gov. Millard F. Caldwell of Florida. He will be introduced by Gov. Beauford Jester.

Ernest C. Thompson, chairman of the Texas Railroad Commission, will speak on "Hidden Oil."

The Railroad Commission's state-wide proration hearing will be held in San Antonio on Wednesday.

Governor Jester, in speaking before the American Society of Mechanical Engineers' annual conference on petroleum mechanical engineering in Houston Tuesday, said he "would not be surprised" if the federal government filed suit claiming Texas tidelands nor if the Department of Interior seeks to dominate Texas' submerged oil lands under the ruling of the Supreme Court in the California case.

The American Petroleum Institute reported sharp increases in both crude oil production and oil runs to refineries during the week ending October 4, the nation's daily average cross output of crude amounting to 5,207,500 barrels, an increase of 11,550 barrels daily over the previous week.

Reports from refineries owning 50 per cent of the estimated daily refining capacity indicated the industry ran to refinery stills 5,309,660 barrels daily, approximately 100,000 above the previous week and 500,000 above the same week last year.

Gasoline stocks declined to 81,607,000 barrels as against 82,472,000 a week earlier, and 86,962,000 a year ago.

Texas crude output reached a new peak of 2,358,000 daily, an increase of 24,350.

federal court case of interest to all oil line trucking companies continues in Monroe, La., where counsel for seven companies indicated they will carry to the Supreme Court a contest of an Interstate Commerce Commission regulation limiting working hours.

John H. Benskenstein, Houston attorney, representing the firms, argued an ICC 10-hour day and 60-hour week work restriction would seriously hamper gas and oil industries.

At the American Gas Association's annual convention at Cleveland, Ohio, Joseph Purslove, Jr., vice-president in charge of research for the Pittsburgh Consolidated Coal Company, stated coal, gas and oil industries should work together in viewing the nation's needs for energy in all its forms.

Purslove, who said the job of supplying America's long range energy requirements "is too vast and complicated to be solved by any one group of combinations of companies in coal, oil or gas," told of plans of his firm and the Standard Oil Development Company for construction of a huge plant near Pittsburg to "explore the possibilities of making gas and gasoline out of coal on a vast scale."

Daily production of approximately 35,000,000 cubic feet of casing-head gas, formerly flared in the Tom O'Connor oil field near Refugio, began flowing to market last week when Humble Oil and Refining Company started operating the compressor section of the \$3,000,000 natural gasoline plant being built jointly by Humble and Quintana Gas Company in that field.

A \$100,000,000 natural gas pipeline from Northeast Texas to Michigan is at state in a Securities and Exchange Commission motion recommendation of disapproval of American Light and Tractor Company's reorganization plan, a company counsel asserted in Philadelphia.

The Railroad Commission, under requirement of a new law, announced market prices being paid at the well for Pan-handle sweet and sour gas used

Three West Eddy Areas Get Wildcat Projects

HOBBS, N. M.—Locations for three wildcats in West Eddy County have been reported. One is projected to 7,500 feet; the second is a 2,500-foot exploration, and the third is slated to dig to 900 feet.

Magnolia Petroleum Company No. 1-W State, 27 miles west and slightly north of Carlsbad, is to be the 7,500-foot prospect. It is 660 feet from west and 1,980 feet from east lines of section 16-21s-22e. It is to use rotary tools and is due to start making hole at once.

Ralph A. Shugart No. 1 Superior-Federal, 1,675 feet from north and 990 feet from west lines of section 26-21s-25e, and eight and one-quarter of a mile northwest of Carlsbad, is the location for a 2,500-foot cable tool prospect.

Conoco Project To Test

Sam Sanders No. 1 Edith Riggs-Federal, 13 1/2 miles northwest of Carlsbad, and 1,990 feet from north and 3,380 feet from west line of lot 7, section 2-21s-24e, is listed as a 900-foot development. It will also use cable tools.

Continental Oil Company No.

1-A-24 State, wildcat in North-Central Eddy County, between the Russell and the Artesia fields drilled to 3,715 feet in dry lime, and bottomed at that point.

The project was plugged back to 2,725 feet and a string of 5 1/2-inch casing has been set at about 2,500 feet.

Operator is to test the open hole section to try to develop production. That zone, which is in the San Andres-Permain, logged some promising signs of oil and gas.

Conoco No. 1 Lankford, South-Central Chaves County exploration, one and one-half miles northeast of Hagerman, and 1,980 feet from east and 660 feet from south lines of section 2-14s-26e, ran a drillstem test from 6,690 feet to plugged back total depth at 6,775 feet in the Pennsylvanian.

Recovery was 80 feet of drilling mud, with no shows of oil or gas. The project has now been plugged back to 5,260 feet, and production tests will be made of the Wolfcamp-Permain above that point.

Herman Project Drilling

E. A. Hanson, et al. No. 1 Aston and Fair in extreme southeast corner of Chaves County, and 1,980 feet from south and west lines of section 15-15s-31e, had reached 2,808 feet in lime, at last report and was making more hole. It is scheduled to go to around 4,000 feet.

A. N. Elz No. 1 Shildneck, 12 miles northwest of Hope, and 2,001 feet from south and 660 feet from west line of section 24-16s-30e, had reached 852 feet in middle Permian lime, and was due to run a string of casing before drilling ahead.

It had logged slight shows of oil and gas between 835 feet and the current bottom.

Richfield Oil Corporation No. 1-A Trigg, another South Chaves County prospect, located 660 feet from south and 1,980 feet from west lines of section 35-14s-27e had penetrated under 4,187 feet in lime, and was continuing. It is contracted to go to 9,500 feet, unless it gets production, or granite before that level is reached.

Olsen Prospector Continues

R. Olsen Oil Company, et al. No. 1 Wimerly, wildcat to test the Ellsburger in extreme Southeast Lea County, about three and one-half miles east of Jal, and 1,980 feet from north and 660 feet from east lines of section 23-25s-37e, had progressed below 8,963 feet in lime in the Simpson section of the middle Ordovician. It is continuing to make hole.

In Central-East Lea County, and in the shallow Monument field, Amerada Petroleum Corporation No. 5 Phillips, slated 12,000-foot prospect to explore into the Ellsburger, had reached 9,491 feet in an unidentified lime, and was drilling ahead.

Amerada No. 2 Record, 1,980 feet from north and 668 feet from east lines of section 25-19s-35e, and also scheduled to dig to about 12,000 feet, had progressed to 7,746 in lower Permian lime and was making more hole.

Mid-Continent Petroleum Corporation No. 1-A Sawyer, 660 feet from south and 1,980 feet from east lines of section 27-9s-38e, six miles east and slightly south of the Crossroads, in extreme Northeast Lea County, is boring ahead under 5,839 feet in dry middle Permian lime.

In Crossroads Region

Operator has not revealed how much deeper this prospect will be carried. It was originally started to test through the San Andres-Permain. It is already a considerable distance into that formation—in fact, it may be out of the San Andres and might now be in the Gioletta.

Magnolia No. 1-A Santa Fe-Pacific, also in Northeast Lea County, 10 miles southeast of Crossroads, and 660 feet from north and west lines of section 33-16s-36e, was due to make production test early in the week on the open hole at 5,230-5,508 feet.

That section had logged some signs of oil and gas. A string of 5 1/2-inch casing is cemented at 5,230 feet, and operator has squeezed an extra amount of cement back of the casing to seal off a water zone at 5,090-5,110 feet.

BACK FROM TRIP

Col. J. B. Wright, 505 East Florida Street, has returned from a trip to Mississippi and other Southern states.

No Elbow Grease

Mariclare Lynch demonstrates an electric eraser at a business exhibition in New York City, designed to bring joy to the office secretary. The new gadget is spun by a small electric motor.

Supervisors of the Martin-Howard Soil Conservation District approved conservation plans on six Midland County farms at their regular meeting at Stanton last Tuesday. Those attending the meeting were Edmund Tom, Stanton; Gordon Stone, Stanton; H. Thomas, Big Spring; Frank Lovelace, Cabanua; and E. J. Hush's of the Soil Conservation Service.

The completed conservation plans included those of R. O. Brooks, L. D. Stewart, Mary F. Gatlin, Cecil C. Davis, E. D. Richardson, and J. M. Franks. Conservation measures included in the plans were contour cultivation, crop residue management, cover crops, seeding range and pasture, farm irrigation and crop rotation.

Sam Preston, cooperator from the ranch group, seeded twenty acres of range land last week to blue grama, buffalograss, dropseed, and western wheat grasses on his ranch south of Midland. Preston seeded this mixture to obtain a stand of better grasses.

J. M. Franks, cooperator from the Prairie Lea group, seeded four acres of pasture to little bluestem, yellow bluestem, and blue grama grasses.

E. D. Richardson seeded a mixture of grasses on his farm south of Midland. Assistance in planting was furnished by the Soil Conservation Service.

PERMIAN BASIN CHAPTER OF API WILL MEET OCTOBER 25

The Permian Basin Chapter of the American Petroleum Institute will hold its next meeting at the VFW Auditorium at Midland Air Terminal, ten miles west of Midland, on U. S. Highway 80, at 6 p.m., October 25.

Details of the program of speeches, entertainment, and food, for that affair will be announced early next week. Tickets are now on sale. Every man in the Permian Basin, who is interested in, or affected by, the oil industry, is eligible for membership in the organization, and to attend the October 25 meeting.

VARIED PROGRAM PLANNED FOR T.M.C. & G.A. MEETING

The program of the 28th annual meeting of the Texas-Mid-Continent Oil & Gas Association on Thursday and Friday of the upcoming week, at the Gunter Hotel in San Antonio, will feature addresses by top executives of the petroleum industry of the United States, on subjects of immediate and major concern, not only to the oil business—but to the public generally—as well.

A president to succeed Fred W. Shield, of San Antonio, who is now completing the customary two-year term in that office, will be selected at the close of the two-day meeting.

Following the close of the business sessions, members and visitors at the convention, will compete in skeet shooting and golf contests to determine the championships of the oil industry of the state in those two sports.

MGS TO ELECT OFFICERS AT TUESDAY LUNCHEON

Officers to head the Midland Geological Society for the next 12 months will be elected at the Tuesday luncheon of the organization to be held in the Crystal Ballroom of Hotel Scharbauer.

Since the election will take practically all of the time which will be available, no other program has been arranged, officers of the society said.

W. Dave Henderson, whose first year as president of the organization will end on the Tuesday meeting, urges all members to attend.

STUBINBERGER WILL HEAD NEW MIDLAND OFFICE OF USSRAMC

Clark R. Stubinberger, who has been connected with Skelly Oil Company's Permian Basin district office in Midland since 1943, and who has been district geologist for more than two years, has resigned effective November 1.

On that date he will become manager of a new office to be opened in this city by the United States Smelting, Refining & Mining Company.

That concern headquarters in Boston. It maintains an operating office for mining and smelting activities at Salt Lake City, Utah.

The company has been operating for a number of years. Up to now it has been a mining and mineral processing concern. The office to be opened in Midland will be headquarters for the activities in the oil business, which are to be added to its list of interests. It will do most of its petroleum operations in the Permian Basin and the Rocky Mountain areas.

Skelly executives have not announced identity of the person who will take Stubinberger's place as West Texas-New Mexico district geologist, when he moves over to start his new job.

CONTRACT LET FOR SEGMENT OF BIG, NEW OIL PIPE LINE

Contract for the construction of 253 miles of 22-inch pipe line from Midland to Wichita Falls, has been awarded to Latex Construction Company of Houston, according to R. B. McLaughlin, president of the Texas Pipe Line Company.

Actual work, under the contract, is due to start during the latter part of the current month.

This contract covers a section of the Jal, N.M.-Cushing, Okla., 20-24-24-inch pipe line project, which will be operated as the Basin Pipe Line System, and will be owned on an undivided interest basis by the Texas Pipe Line Company, Shell Pipe Line Corporation, Empire Pipe Line Company and Sinclair Refining Company.

The Texas Pipe Line Company has established construction headquarters for this project at Sweetwater. A. N. Horne will be in charge as project manager. W. E. McCarthy will be assistant project

YOUTH QUESTIONED IN POSTAL THEFTS

Police Saturday questioned a 9-year-old boy in connection with thefts of mail from the Midland Post Office.

When taken into custody, the youth was attempting to cash checks in a retail store. He had eight checks totaling \$233.00.

The checks, drawn on Midland and out of town banks and made payable to firms and individuals here and elsewhere, ranged in value up to \$167.

Police Chief Jack Ellington said the boy admitted taking the checks from the post office.

After questioning by police and postal officials, the youth was released to the custody of his parents.

VISITING HERE FROM ARKANSAS

Mr. and Mrs. Everett Jones of Hot Springs, Ark., and Mrs. Alice Garner of Amity, Ark., are in Midland visiting Mr. Jones' cousin, Col. J. B. Wright, and Mrs. Wright. Mr. Jones also is looking over property which he owns here.

Late Sweetwater Rally Defeats Midland By 19-0

SPORTS Down Lane

with TANNER LAINE

John Scrogins

Ole Will Shakespeare, studied in school by all or most of us, didn't know it, but he was writing football years and years ago.

Here are some jottings on a football scorecard by the Bard himself:

"They say, he made a good end" . . . HAMLET: Act IV, Scene 5.

"I saw him fumble" . . . KING HENRY V: Act II, Scene 3.

"(Oberon is passing) MIDSUMMER - NIGHT'S DREAM: Act II, Scene 1.

"No, no, he'll break loose" . . . ROMEO AND JULIET: Act I, Scene 4.

"I should kick" . . . THE COMEDY OF ERRORS: Act III, Scene 1.

"Well, forward, forward" . . . THE TAMING OF THE SHREW: Act IV, Scene 5.

"This ten to one, this play can never please all that are here" . . . KING HENRY VIII: Epilogue.

"If our high school and college English pros and the Saturday Evening Post are reading this column, and wonder if we remember all that may we say 'No, it was borrowed'.

"The only Shakes we remember is 'When that April,' and that isn't even football season. (Note: And it's not Shakespeare either! It's Chaucer.)

—SL—
Pretty little blond girls, Patricia and Diane Busby of Midland, are happy youngsters. Quite the baseball fans. Pat and Diane received some souvenirs of the World Series from Mr. and Mrs. C. B. (Tip) Yarbrough, who attended. The busy youngsters received New York Yankees caps and Brooklyn Dodgers bats.

—SL—
In the "Word For It" column of a literary writing the other day, there was quite a discourse on sports slang. A learned professor was telling a woman pupil that sports writing was a language all its own. And that the sport scribes had license to write: "Dimaggio fled out to left field," rather than saying: "Dimaggio flew out to left field." That implying the Mag took wings and went sailing out to right field. And it's true (thank the Lord). Those of the sports writing gentry do have some leeway in writing so as best to punch the story across.

—SL—
It's all over for John Scrogins with the Midland High School Bulldogs. Big John is out for the season. The twice-lettered, biggest man on the team (207 pounds), received injuries in the Plainview game which make

Mustangs Get 3-AA Victory

The pounding hoofs of the Sweetwater Mustangs beat a tune on the fighting but reeling Midland Bulldogs in four-quarter time here Friday night, the visitors striking like lightning three times in the fourth quarter to win, 19 to 0. It was a 3-AA conference game.

Sweetwater battered at Midland all night pushing into the 10-yard area three times in the scoreless first half. It was like a fighter pounding away and finally delivering a knockout with stunning rapidity.

However, it proved to be Midland miscues which cost at least a scoreless tie and we believe the Bulldogs will agree. A fumble and two pass interceptions set up the Sweetwater scoring, all coming in the crazy fourth quarter.

Late in the third quarter Sweetwater punted and Midland took it on its own 36-yard line, returning to the 45, but then there was a costly fumble and Sweetwater gob-

bled it up. The Mustangs traveled 55 yards to a touchdown in the early fourth quarter, aided, some say, by a referee slow on the whistle.

Tom McMillan, Mustang fullback, made the tally by skirting left end on a nine-yard gallop. Ronemus, reserve fullback, kicked the point.

Just before the scoring play, Sweetwater took all the time in the world—and it seemed too long—to get the play going. The Mustang backs shifted positions twice before the play, but the referee's whistle was coldly silent. Midland seemed to lose its defensive brace expecting a penalty and Sweetwater went over.

In Short Order
Coach Pat Gerald's Red Coats were back for another touchdown in short order. They kicked off to Midland which took it on the 10 and returned to the 31. After one incomplete pass, Sweetwater intercepted on the Midland 38-yard line and in one play, McMillan scampered to the 15. In three plays Sweetwater got to the six, then McMillan cut through center in a slicing run for the center, Ronemus never got to kick for extra point as the Bulldogs charged him.

Another intercepted pass set up the third Sweetwater score. After the Mustangs had kicked off to Midland as the last quarter waned, they intercepted a Bulldog pass on the Bulldogs own 38-yard line. Robert Dulaney, Mustang quarterback, ripped away to the one-yard line minus (really one-foot line). In two plays Dulaney was over by tunneling the line straight through the middle. Ronemus failed to kick goal. That completed the scoring.

Midland cared back with the next kickoff but there was not time. A potent passing attack, Dunny Goode to Bill Little, worked the ball down to the Sweetwater 19 as the gun sounded. That was as close as the Bulldogs got.

Moncrief Shines
It was a case Friday night of the Bulldogs fighting courageously for three quarters before being kayoed with three slaming punches—wham, wham, wham—in rapid fire. The Bulldogs drew cheers for sub-born goal-line stands in the first half. Charlie Moncrief, Midland center, played one of the best defensive games ever turned in for a Purple warrior.

Wink Wildcats Lunch In Midland
Coach Bryan Henderson and his Wink High School Wildcats lunched in Midland Saturday, enroute home after their 20-8 victory over the Brady Bulldogs there Friday night.

Coach Henderson said his boys have been playing good ball this season, but are pretty well battered and tired out from a rough early season schedule. He was bemoaning the lack of replacements on his squad.

The Wildcats will meet Monahans in a district game in Monahans next Friday night.

ARGENTINE HORSE WINS
NEW YORK—P—Argentine-bred Rico Monte, three-year-old from Arnold Hanger's stable, won the \$100,000 New York Handicap before 41,565 racing fans at Belmont Park Saturday.

From 10 to 20 tons of water must fall on corn land to produce a bushel of grain.

TCU Breaks Into Win Column, 19-6
MIAMI—P—The Texas Christian University Horned Frogs overpowered the University of Miami Hurricanes, 19-6, in the Orange Bowl stadium here Friday night before 28,686 fans.

Backed by vicious blocking, TCU's backfield aces—Pete Stout and Lindy Berry—slogged over the scrapping Hurricanes in a virtual sea of mud to punch across a tying score in the third period and two more touchdowns in the final quarter. Stout scored all three TCU touchdowns.

It marked the Texans' first victory of the season. They had tied once and lost twice. The Hurricanes still had not won a game this season and had one tie and two losses.

Lady Giant Killer

Bettye Mims White, 24-year-old Dallas golfer, 106 pounds of golfing dynamite, topped Mildred (Babe) Zaharias from the Texas Women's Golf Open in their second round match at Rivercrest Country Club in Fort Worth. This was the first defeat in 19 straight tournaments for Mrs. Zaharias.

Odessa Rips Abilene, 27-0

ABILENE—The Odessa High School grid raiders continued their winning ways here Friday night by plucking the Abilene Eagles, 27 to 0, in a district 3-AA encounter.

It was the first district game for Abilene and the second for the Odessa Bronchos in the fight for District 3-AA title chase.

At the end of the half, Odessa led Abilene 20 to 0.

In the first quarter, Byron Townsend ripped down the middle, cut to the Eagles' right, and raced 82 yards for the first tally.

Dozier Converter
Harold Dozier placekicked the conversion point to make the score 7 to 0 at the end of the first period.

In the second quarter, the Bronchos put on steam and scored twice. Gerald Campbell scattered around Abilene's left end for 25 yards for the touchdown. Dozier kicked the extra point.

The second tally of the second period came when the Odessa team drove from about midfield to a spot about 2-2 yards from the goal line. Jimmie Patterson punched through the middle for the touchdown. The conversion try slivered away.

Odessa ran the score up to 27 to 0 in the third quarter. Gerald Campbell returned a punt to the Odessa 41. Odessa then marched 51 yards to its fourth touchdown.

Townsend started the sort with a 20-yard scamper over Abilene's left end. Patterson picked up four down the middle. Campbell hit the line for seven and then Patterson picked up four more. Paul Matejovsky whirled 12 yards off tackle. Townsend and Arnold plowed 4 yards apiece and then Hall hit the middle for the touchdown. Townsend kicked the conversion point to make it 27 to 0.

Odessa threatened frequently in the fourth quarter but with second and third stringers in and out of the game failed to score.

Odessa registered 17 first downs to 10 for Abilene.

Midland To Get Golden Gloves

Midland will have Golden Gloves. Flem Hall, sports editor of the Fort Worth Star-Telegram, sponsor of Golden Gloves in Texas, met with Midland, Big Spring and Odessa representatives in Midland last week to map out plans for a Permian Basin setup.

Representing Midland was Joe Shell, representing Big Spring was Obie Bristow, and representing Odessa was Bill Wooster. All are sportsmen of note and are rabid Golden Glove enthusiasts.

Hall informed the trio that the state organization would welcome a Permian Basin district to semi-winners to the state tourney.

As planned, Midland, Big Spring and Odessa will each hold separate city tournaments. Then the winners will meet in a big tri-city Permian Basin meet at a location to be selected.

Shell is going to establish Golden Gloves in Midland, with the backing of The Reporter-Telegram and interested sportsmen of the city. He wins at a setup here whereby there will be clean and sportsmanlike boxing for boys, who wish to participate.

VFW Is Sponsor
The Veterans of Foreign Wars organization in Midland will directly back the Golden Gloves as the sponsoring unit.

The Midland director (Shell) has had experience in Golden Gloves at Abilene and is highly recommended for his handling of boys and for putting boxing among them on such a high plane.

There will be inter-city matches between Midland, Big Spring and Odessa teams. In fact, Odessa has already challenged Midland.

Boys of Midland interested in Golden Gloves are asked to watch the newspaper for announcements.

Illinois Crowds Army In Scoreless Contest

NEW YORK—A powerful Illinois eleven pushed Army all over Yankee Stadium in Saturday's biggest gridiron battle; but the Black Knights from West Point defended their goal line tenaciously and at the conclusion of the rough struggle before 65,000, the two undefeated eleven's settled for a scoreless tie.

Repeatedly the Rose Bowl champions from Champaign drove deep into Cadet territory, once missing a field goal from the 15-yard line and again nailing up on the Army seven, while the Cadets, showing no passing attack whatever, made only one puny gesture at the Illini goal.

Your Newspaper—Serving Freedom by serving you.

Notre Dame Passes Defeat Boiler-makers

LAFAYETTE, IND.—(AP)—Out rushed and out fought for four quarters, Notre Dame's football Irish defeated Purdue's battling Boiler-makers Saturday, 22-7, because Quarterback Johnny Lujack threw pass after pass straight into the arms of his receivers.

Purdue's seven points were the most scored against Notre Dame in one game since the 1945 season. Last year the unbeaten but Army-tied Irish gave up four touchdowns, but Art Haverstock's point-after-touchdown placement Saturday won the first extra point marked up against the Irish in two seasons.

Lujack, though, was a problem Purdue couldn't solve. The six-foot Pennsylvanian completed 14 of 23 passes for 176 yards. He passed for one touchdown, ran 26 yards for another, and set up the third with another forward.

Betty Jameson Wins Texas Open Crown
FORT WORTH—(AP)—Betty Jameson, San Antonio, shook off the effects of a stunning rally by Carol Diring, Thifin, O., to win the Texas Women's Open championship 1 up here Saturday on the 37th hole at River Crest Country Club.

There is no record of any giant Sequoia tree ever having died of old age.

Texas Tech Upsets Golden Hurricane

LUBBOCK—(AP)—The Texas Tech Red Raiders upset the Tulsa Golden Hurricane 14-7 here Saturday, capitalizing on a Tulsa fumble to score the winning touchdown in the final three minutes of play.

The Red Raiders, unawed by Tulsa's undefeated, untied record, went out in front in the first period on a 20-yard pass from Freddie Brown to Joe Smith in the end zone and Ralph Earhart kicked the extra point. It was the last quarter before Tulsa could muster a scoring punch. Then the Hurricane tied the count on a 70-yard drive with Jim Ford banging over from the one-yard line and Hardy Brown converted.

Big West Texas Skeet Tournament Starts Friday

Midland Gun Club To Be Event Host

The best shooters in Texas will converge on Midland this week.

The event is the First West Texas Skeet Shoot sponsored by the Midland Gun Club and it probably will be made into an annual affair.

Three big days of shooting are scheduled Friday, Saturday and Sunday at the Midland Gun Club setup on Highway 80, just West of the city.

The public is invited to witness the tournament.

Handsome trophies will be awarded winners and runners-up in the individual events and there are team awards. Also the Midland event will award \$500 added money. The West Texas shoot here compares with the state skeet shoot at Dallas in prize money.

The rifle and pistol division of the Midland Gun Club will hold a Permian Basin Invitational Small Bore Rifle Match in connection with the skeet tourney. This event will be held Sunday at the Midland Air Terminal Range. Matches are open. Shooters will not be classified.

Baylor Wallops Arkansas, 17-9

WACO — Baylor stunned Arkansas' big undefeated Razorbacks with a lightning fourth quarter rally here Saturday and came off with a 17-9 victory.

Arkansas had played for the breaks and cashed in for a touchdown and a safety in the second quarter before the Bears broke loose on the first play of the final period.

Steed White broke through and blocked Baylor Bobby Griffin's punt for a safety when it rolled into the end zone, and the Razorbacks picked up a touchdown when Kenny Holland climaxed a steady drive with a seven yard pass to Ross Pritchard.

Baylor bounced back on the first play of the final period when Lyle Blackwood, an elusive 19-year-old half back, skittered through the entire Arkansas team on a 26 yard touchdown trip.

Waco Jinx Survives

Louis Leal's conversion cut the Arkansas lead to two points. Then with the Porkers' defense in ribbons, Henry Dickerson booted a field goal from the 10-yard line to put the Bears ahead. Dudley Park-er and Ben Hall had punched the ball to this point.

A desperate flurry of Arkansas passes netted Baylor's final touchdown. Frank McKinney snagged one of Kenny Holland's long aerials and raced 47 yards down the right side line. Dickerson booted a 17 yard placement after a penalty had set the Bears back.

The victory preserved a home town jinx for Baylor. It has never been beaten by Arkansas at Waco. Coach Bob Woodruff beat his former boss, John Barnhill, with a running game that netted 271 1/2 yards on the ground and a defense that stopped Arkansas with 78 yards.

Mustangs Beat Oklahoma A&M

STILLWATER, OKLA. — (AP) — Southern Methodist's Mustangs counted three touchdowns in the first half, then desperately fought off a steadily improving Oklahoma A. & M. football team to win 21-14 Saturday before 18,000 persons.

The difference in the two teams was the offensive playing of Southern Methodist's left half, Dock Walker, and the defensive sparkle of their right end, Sid Halliday.

End Reinking's defensive play was superb as he statted off by breaking up three Aggie plays that lost the hosts 28 yards back to their 14. Bill Long kicked to the Aggie 31.

Mustang Line Helps

Jimmie McKissic, Ed Green and Walker in four plays moved the ball to the 15. Then in the most perfectly executed play of the game, McKissic lateraled to Howard Parker, who lateraled to Walker. The flashy left half passing to Sid Halliday over the goal. Walker's kick was good; the first of three perfect tries.

The Mustangs' rushing line helped give them another score early in the second period when Joe Thomas tried to pass from his 42 yards and was forced to retreat to the 24 where he lost the ball. In five plays, SMU moved to the Aggie's three. Walker crashed over left tackle to score.

An intercepted pass by Cecil Sutphin on the Aggie 27 set up the visitors' last touchdown. With the second team playing, the Mustangs moved in four plays to the one-yard marker, and Bill Moxley cut through center to score.

Jim Spavital did the work to make the Aggie's first score. In the last 30 seconds the Aggies scored again.

Rice Shows Power In Downing Tulane 33-0

HOUSTON — (AP) — Rice Institute's Owls, off to a bad start after great things had been predicted for them, hit the comeback trail here Saturday, presenting a smooth running and passing offense and a double tough defense to overwhelm the young Tulane Green Wave, 33 to 0.

It was the Owls' first victory in three starts, but the first running of George Walsley, 168-pound halfback, the kicking of Huey Keener, and a forward wall that was never in serious trouble gave indication the Houston squad is set for starting defense of its Southwest Conference co-championship next week against undefeated Southern Methodist.

Hold 12-0 Halftime Lead

Short Tulane punts and a Green Wave fumble started four of the Rice touchdowns, but the Owls moved whenever they desired and held the upper hand from the early minutes, when Virgil Eikenberg plunged over from the one-yard line for the initial score.

The Owls took a 12-0 halftime lead with a second period 63-yard drive, Tobin Rote passing to Huey Keener, who raced down the right sideline and then cutback for a run of 30 yards and the score.

Walsley and Russ going through left tackle for 16 yards, and the touchdown. Froggy Williams then converted his first of three straight extra point attempts.

Tulane, struggling against the Owl defense that held good for its second, third and fourth strings, made only two threats in the game.

ROUNDUP UP THE STRAYS...

Dewey Kirby, 1946 Midland High Bulldog trouble-shooter at end and in the backfield, and a good aggressive football player, is at Killebrew Junior College.

Feyt, John Hart and Copper Daugherty worked the two grid games last Thursday gratis and deserve thanks for the services.

Mr. and Mrs. A. C. Hefner saw the World Series.

Harold Webb is sporting his 1947 Longhorn League all-star game jacket, a pretty thing indeed.

Webb was one of the managers. See Malcolm Brenner at Ace Motors if you want a ticket to a Texas Tech ball game.

Malcolm might be persuaded to serve as a clearing house for persons wanting TT tickets from persons having them but not attending a particular game.

He knows who has Tech season tickets in Midland.

Hearst Odessa-Amalillo game, which is an accomplishment in their recent meeting.

Big Spring "held" Odessa to a net yardage of 412 yards.

Tommy Hart, Big Spring sportswriter, forecasted that Harold Webb would not be at Midland next season in baseball.

Well, Tommy, why did Webb leave the park for three years?

Hart knows about as much of what Webb will do as we do about what will upset Texas U.

Jay Floyd is working some polo ponies at his ranch.

Jay can train a string second to none.

Dick Patton, that kid who ran 'em ragged in the "B" game the other night, has two triple seasons and was an all-district boy in New Mexico before coming "home" to Frank Oklin, Mexican passer, will someday be a MHS grid great.

Jimmy O'Neal, now of the Midland "B" football team, in our prediction, will be one of the best centers in Texas school-boy circles before he graduates.

Paul Jones has been hunting again.

Hilton Kaderli gave us a lot of football sized with some good info on it.

Princeton Tiger was the first nickname bestowed upon a college football team.

Charles Trippi is reported to be the highest paid pro grinder.

1946 marked the first year there were two professional leagues—All-America and National.

Here is a "humbling" sketch of what every football fan should know: game is four periods, with each 15 minutes long (may be altered for high school); there is one minute rest between quarters, 15 minutes between halves, officials are: referee, umpire, linesman and field judge.

Their positions are: referee follows the ball, umpire stands behind defensive line, linesman stands on side, field judge covers field behind umpire.

Those plastic bubbles almost broke up a negro football game in Midland the other night.

Some girls brought out their bubble blowers and performed, and the spectators almost forgot the game in progress.

The girls were white.

And the bubble fad continues in Midland.

Midland is quite a stopping point for area football teams.

Good hotels make us a chosen spot.

Congrats to Wesley Martin on his elementary schools sports program.

Thank you, Mr. Matthews and Frank Monroe, for your concern for the press at football games.

It is appreciated.

Bob Cook, Sweetwater sportswriter, was in the press coop Friday night with us, and he, too, believed the referee's whistle was too slow and that Sweetwater although it was his team got an unfair break in time.

30 for strays; gonna get along, little dogies.

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 12, 1947-5

Longhorns Smother Sooners In Wild And Woolly Battle, 34-14

DALLAS — (AP) — Bobby Layne pitched to a 34-14 victory over Oklahoma Saturday in the wildest of the 41 games that have been staged by these deep Southwestern rivals.

At the finish several thousand of the 45,500 fans piled down from the stands and engaged in hot arguments on the field while officials escorted the game of officials away in a police car.

The game was punctuated by fights among the fans and pop-bottle throwing as spectators vented their anger on the officials.

The big, rough, bruising Oklahoma line manhandled the Longhorns physically—so much the Sooners drew costly penalties—but they could do nothing with Bound-bobby and his passes. It was this young man's throwing, in his final appearance, against an Oklahoma team, that told the story.

Texas never was behind but had plenty of anxious moments as the formation of the Sooners battered the Longhorn line. But Oklahoma had to make its scores the hard way.

Texas moved both through the air and on the ground.

Layne Connects Plenty

Layne completed eight passes out of 11 for 129 yards, and his throwing figured in all the scoring drives.

Oklahoma showed one of the most terrific ground games ever to show on the Cotton Bowl gridiron, rolling up 263 yards.

It was the eighth straight victory for Texas in this inter-sectional series played as a feature of the Texas State Fair.

Texas got its first touchdown midway of the opening period with a 39-yard pass from Layne to Jim Canady setting it up. Tom Landry and Canady cracked the line and Layne passed to Max Bumgardner to sweep to the nine-yard mark. Here little Byron Gilroy was pitched for a four-yard loss but on the next play went around left end for a touchdown. Frank Guess kicked the extra point.

Longhorn Score Protested

Oklahoma tied the score early in the second period after once being balked on the Texas 14, mostly by a roughing penalty. Landry kicked out and Oklahoma surged 42 yards for the score with Jack Mitchell plowing over from the two. Dave Wallace converted.

The Texas score was hotly disputed by Coach Bud Wilkinson and assistants of Oklahoma as the Longhorns got their touchdown with one second to go in the half. The score came on a 48-yard drive.

On the one-yard line Texas called time out and that was all that gave it sufficient time to score. Canady drove into the line and fumbled, but Randall Clay picked up the ball and rushed across. Wilkinson claimed Clay's knees had touched the ground. Guess kicked the extra point.

Texas increased its lead to 21-7 late in the third period, as Layne passed to Max Bumgardner on the 10 and in two plunges Canady swept over. Guess again converted.

Break Sooners' Hearts

Early in the final period, Mitchell, the top running back on the field—he gained 117 yards on 14 tries—dashed for 72 yards for a touchdown. George Thomas took the ball around right end after making eight yards, lateraled to the score. Wallace converted.

Texas broke Oklahoma's heart by driving 84 yards for a touchdown shortly afterward. It came in 15 plays. Clay brushed over from the three-yard line and Guess kicked his fourth extra point.

An Oklahoma fumble set up the final Texas touchdown. From the Sooner 44 the Longhorns, with Billy Pyle, H. J. Shands and Landry doing the work, snorted and smashed to the 23, from where Layne flipped a pass over the goal line to George McCall. Guess' kick for the extra point was short.

Oldest order of knighthood in the world is the Papal Order of the Holy Sepulchre, founded in 1099.

Golden Cranes Dump Fort Stockton, 47-0

CRANE — The Golden Cranes of Crane rolled up a total of 425 yards from rushing and passing here Friday night to defeat the Fort Stockton Panthers in a District 5-B game, 47 to 0.

The Cranes scored in every quarter.

Crane stalwarts converted their home gridiron into a race track in the third quarter, with Fullback Toots Mathis scoring twice, with his second tally of the period resulting from a 45-yard dash around his own left end.

Center James Ward intercepted a pass on the midfield stripe and ran through the entire Panther team to score, and Dwaif Stacey took a Fort Stockton punt on his own 30 and ghosted 70 yards to pay dirt.

Other Crane scores were racked up by Merwin McCulley, Elmo Rust and Billy Henderson.

Alvin Whaley, Toots Mathis, C. M. Coker and Eugene Harrington were outstanding on defense for the Cranes.

Crane racked up 18 first downs, Fort Stockton 8.

Monahans Smothers Seagraves, 47 To 6

MONAHANS — The Monahans Lobos ran through and around the Seagraves Eagles in a District 7-A game here Friday night to roll up a 47-6 victory.

Waldo Young started the touchdown parade for Monahans in the first quarter, scoring two TD's on jaunts of 23 and 46 yards in just five plays. Charley Jones added three more for the Lobos in the second quarter on gallops of 46, 65, and 33 yards, and Ray Cathey scooted 41 yards for another Monahans counter in the second quarter. Hartwell Martin plunked two yards for the final Lobo tally in the third quarter.

Seagraves scored their lone six points in the first quarter when Cook took Jackson's short pass for four yards and galloped 80 yards to pay dirt.

Louisiana State Defeats Aggies

BATON ROUGE — (AP) — A versatile but bumbling Louisiana State football team pulled itself together in the final period for a 70-yard touchdown drive to win from Texas A&M, 19 to 13, here Saturday night.

LSU scored on drives of 52 and 70 yards and a 73-yard pass play from Tittle to Dan Sandifer. The Aggies marched the opening kickoff back 65 yards for a touchdown and later scored from the LSU 11 after recovering a punt which the Tiger safety had touched.

The kitchen of the average home usually contains the greatest amount of steel in furnishings and equipment.

Permian Basin Roundup—Wink, McCamey, Monahans, Kermit And Crane Win Tilts

Around the Permian Basin there are football rumblings of the power of Wink and Monahans again. Yet Kermit is threatening and Andrews has power also.

Here is how the oil towns fared Friday: Wink knocked off Brady, 20-8; Monahans smothered Seagraves, 47-6; Kermit blasted Pecos, 47-0; Crane dumped Fort Stockton, 47-0; as McCamey edged Denver City, 6-0.

The Permian Basin district battles get warmer, all the time.

Kermit Trounces Pecos Eagles, 34-0

KERMIT — Kermit's Yellow Jackets took their third District 7-A game here Friday night when they defeated the Pecos Eagles, 34-0. The Eagles were held to two first downs and were not permitted to even threaten a score.

The Jacket's first counter came on the fifth play of the game when Jimmie Brock went over from the four. Charlie Teasley kicked extra point. Brock scored again in the first after Vernon Wood recovered a Pecos fumble. A third first-quarter Jacket touchdown was voided by a backfield in motion penalty.

Glenn Ray scored late in second period for the third counter, and Brock again early in the fourth period. Tommy Spinks went over for final count in closing minutes of the game.

Wink Knocks Off Brady By 20 To 8

BRADY—Wink High School, District 7-A, defeated the Brady Bulldogs, District 9-A, 20 to 8 in a non-conference game here Friday night. Pearson and Marsh scored for Wink.

CINCINNATI TAKES OPTION ON TULSA BASEBALL CLUB

DALLAS — (AP) — Cincinnati of the National League Saturday took a 15-day option on buying the Tulsa club of the Texas League.

Texas League club owners, meeting here, approved the probable sale with the provision that Grayle Howett, vice president and general manager, remain with the club.

In 1860 about four out of every five American workers owned their own land or businesses.

Charter No. 4368 Reserve District No. 11 Report of condition of

The First National Bank

of Midland in the State of Texas, at the close of business on October 6th, 1947. Published in response to call made by Comptroller of the Currency, under Section 5211, U. S. Revised Statutes.

CHILDREN'S SERVICE LEAGUE HEARS REPORT OF DALLAS CONVENTION

Mrs. Vaughn Maley reported on the recent state convention of the Texas Society for Crippled Children, Inc., which she attended in Dallas, at the meeting Friday of the Children's Service League in the home of Mrs. Ralph Fitting, Jr., 605 West Culbert Street.
The Texas Society, as its special project for the year, is stressing research and treatment of children afflicted with cerebral palsy, which manifests itself in forms of spastic legs, rigidity, lack of balance, and tremor. Mrs. Maley reported several well-known doctors spoke on each phase of the illness, its early diagnosis and treatment, and representatives were conducted through clinics, or workshops, to see the treatment in practice.
Mrs. Maley also read two letters recently received from the league's adopted families in Norway, thanking it for gifts of clothing and food. Christmas packages are being packed for these two families and will be mailed this month.
Mrs. W. T. Schneider reported on the condition of a convulsive child recently sent to Galveston for medical attention. A new case was submitted to Mrs. Robert Fitting, and it was decided to send the little girl to a Midland doctor for examination.
Members present included Mrs. Schneider, Mrs. L. S. Page, Mrs. Maley, Mrs. Alan Leeper, Mrs. T. S. Jones, Mrs. John M. Hills, Mrs. Robert Fitting, Mrs. Ralph Fitting, Jr., and Mrs. Art Cole.
The next meeting is scheduled October 24 in the home of Mrs. Fred Cassidy, 804 North Big Spring Street.

MIDLANDER WILL ATTEND MARCH OF DIMES MEETING

Ray Gwyn, chairman of the Midland County Chapter of the National Foundation for Infantile Paralysis, will leave by plane Monday for Oklahoma City to attend a five-state regional meeting of the national organization Tuesday.
The meeting will be held in the Biltmore Hotel in Oklahoma City and will be concerned with the 1948 March of Dimes campaign.

GRAINS GAIN SLIGHTLY AFTER CROP ESTIMATES

CHICAGO—(AP)—Failure of the Agriculture Department's corn crop report to show as large an upturn in prospects as the grain trade has expected caused gains of several cents in the yellow cereal Saturday. Oats were firm and wheat steady.
Most of the grain was recorded during the first few minutes of trading. After that, the market retreated slightly but held above the preceding close. December wheat hit a new seasonal high of \$2.95, which was also a record price for any December contract on this market.

PIONEER WEST TEXAS RANCH FOREMAN DIES

SAN ANGELO—Funeral services were held Saturday afternoon in Robert Lee for Albert Baze, 76, pioneer West Texas cowboy and foreman of the Harris Ranch in Coke County for 38 years, who died at his home here early Thursday. He had retired from ranching in 1944.

MIDLAND MAN GETS REGULAR ARMY RANK

WASHINGTON—(AP)—President Truman's nominations Friday of Texans for recess appointments as commissioned officers in the Regular Army and Air Force included Lt. (Capt.) Perry G. Johnson, AC, Midland, Texas. The appointments must be confirmed by the Senate when it reconvenes.

JURORS CALLED FOR SERVICE MONDAY IN 70TH DISTRICT COURT

New Farm-To-Market Road Scheduled For Midland County

Right-of-way deeds on a new farm-to-market road south of Midland have been prepared and are ready for signing by property owners along the proposed route, County Judge Clifford C. Keith said Saturday.

The new paved highway intersects State Highway 158 about two and a half miles southeast of Midland and extends south 5.2 miles. Some of the deeds already have been signed and other property owners will be contacted as soon as possible, Judge Keith said. He would appreciate it if property owners involved would come to his office to sign the deeds.

Funds for the highway's construction have been set up, and a contract may be let by the State Highway Department at its November letting, Keith said.

\$125,000 Explosion Closes Orange Plant

ORANGE—An explosion-fire which wrecked the huge Texas Creosoting Company plant here will cause an immediate layoff of about one-third of the 150 men employed, a plant official said Saturday.

Howard Hollis, one of three men on duty at the plant when an explosion ripped the 125-foot pressure chamber Friday night, was injured seriously. The other men suffered only minor bruises. Plant Manager D. E. Roach said present construction costs would make the damage run near \$125,000. He said the firm planned to begin immediately rebuilding portions of the plant, and that it would take at least four months to rebuild.

Greenland, in spite of its climate, is the home of more than 400 species of flowering plants.

Rules Dutch

Dutch Princess Juliana has been appointed Regent of the Netherlands. Her mother, 67-year-old Queen Wilhelmina, ill with bronchitis, transferred all her royal powers to the princess.

Borger Explosion Takes Two Lives

BORGER—Two men died Saturday of injuries received in an explosion and fire which caused damage estimated at \$100,000 to the Borger refinery of the Phillips Petroleum Company.

Four other men suffered light injuries in the mishap, which a company spokesman said started from a broken shaft in a gasoline pump, and occurred Friday night. Ray Smith of Phillips died early Saturday. E. L. York of Borger died about noon. Slightly injured were J. F. May of Borger, Hugh Hanson of Phillips, J. W. Bennett of Phillips and H. P. Everhart of Borger. All were operating employees.

VISIT IN SPUR
Mr. and Mrs. Bill Laine and Mr. and Mrs. Tanner Laine of Midland are visiting in Spur Sunday. They are attending a birthday celebration of their father and father-in-law and visiting with relatives.

Button, Button, Who's Got— Mrs. S. H. Gwyn Of Midland Has Interesting Collection

By TANNER LAINE
Button, button, who's got the button—Mrs. S. H. Gwyn of Midland has—about 8,000 of them in her collection. It's a hobby of the Midland woman to collect buttons and she began it about two years ago. Now her mounted buttons make a very interesting display and recently won a prize at the Pecos County Fair.

Mrs. Gwyn's buttons were displayed at the recent Midland County Fair in the hobby department and this was one of the fair's most "looked at" displays.

At the Martin County Fair last week the buttons of the Midland woman won a blue ribbon and drew praise from the fair officials.

How did she get started collecting buttons? Well, Mrs. Gwyn went to Oklahoma to visit her son in the Navy. A woman from New Hampshire was there visiting her son. This New Hampshire woman collected buttons. Mrs. Gwyn, at the time, was collecting handkerchiefs. So the two women arranged an exchange—a Texas button for a New Hampshire handkerchief. Mrs. Gwyn liked the idea of a button collection, so she began one of her own.

gold and silver inlays, also pearl inlays.

Mrs. Gwyn has metal buttons, wood buttons, bone buttons, cloth buttons, pearl buttons, glass buttons, and so on and so forth, always buttons.

Her son, Woodrow Wilson Gwyn, being in the Navy, Mrs. Gwyn has Navy buttons but she is seeking Marine buttons. Can some Midland Marine help her out? Also she needs buttons of the Army of World War II. Let's flood her with them, boys.

She works on the hobby at odd times. It has grown and grown. It would take you hours to see all of them, the buttons. They are kept at her home.

"Can Sew On A Button"
There are buttons of all modes of transportation: horse, bicycle, plane, locomotive, covered wagon, and ships.

tons: roses most of all. She has 18 different varieties of rose button replicas.

A couple of the prize buttons are replicas of a fly and of a "Lady Bug."

Some of Mrs. Gwyn's buttons, made of cut glass, were so perfectly cut she took them to a jeweler's to see if they were crystal.

The Midland woman will exchange buttons or other items to get buttons if anyone is interested. She is constantly collecting and mounting. She also needs handkerchiefs as she continues that collection.

"Yes, I sew a button on occasionally," Mrs. Gwyn laughingly says, "you know how husbands and boys are."

Shoemakers of ancient Greece designed leather soles attached to the feet by thongs and thus gave the world sandals.

Impressive Candlelight Ceremony Joins Edith Wemple, Henry Avery

In an impressive candlelight ceremony in Midland's First Methodist Church, Miss Edith Wemple, daughter of Mr. and Mrs. Fred Wemple, became the bride of Henry Clifton Avery, Jr., son of Mrs. Rosa Avery of Houston and the late H. C. Avery, at 5:30 p. m. Saturday.

The Rev. Howard H. Hollowell, pastor, solemnized the rites before an altar arranged with baskets of white mums, fern, and smilax.

Given in marriage by her father, the bride wore a gown of white satin, fashioned with a modified sweetheart neckline, accented on each side by sprays of seed-pearls and silver beading. Long, fitted sleeves tapered to points over her wrists. Her full, hooped skirt, designed with double puffs of satin on both sides, swept into a long, graceful train. She wore a half-hat of matching white satin, ornamented with seed-pearls in the same spray motif as the gown design.

An imported French illusion veil swept into a full-length train, fashioned with circular tiers. She carried a bridal bouquet of gardenias with bouvardia.

Bride's Attendants Her attendants were her sisters, Evelyn Wemple and Lucille Wemple as maids of honor, and Louise Cox, Betty Burnett, Liza Lawrence, and Helen Armstrong, bridesmaids. They wore dresses of periwinkle blue taffeta, fashioned with circular necklines and puffed sleeves. Hoop skirts were designed with a deep ruffle, extending to the back in an apron effect with matching bows. Attendants' hats were matching periwinkle taffeta salotters, tied under the chin in a bow of pink veils.

The bridesmaids carried pink camellias, and the maids of honor carried deeper shades of pink camellias with shattered carnations, fashioned into small nosegays.

Joan Abels, flower girl, was attired in a white taffeta identical to the bridesmaids' gowns. She carried an umbrella-shaped basket of rose petals.

Pat Stanford served the bridegroom as best man. Ushers were James Mims, Ben Carpenter, and Allen Wemple and Fred W. Wemple, brothers of the bride.

Mrs. Holt Jowea, organist, presented "Always," "Because" from Jocelyn, and "My Heart at Thy Sweet Voice" as pre-nuptial music, and accompanied Mrs. Frank Thompson in a solo, "Because," and the Methodist Church choir in "The Lord's Prayer."

Immediately following the ceremony, a reception was held in the home of the bride's parents, 504

Wed In Candlelight Ceremony

Miss Edith Wemple, above, daughter of Mr. and Mrs. Fred Wemple, became the bride of Henry Clifton Avery, Jr., son of Mrs. Rosa Avery of Houston, in an impressive candlelight ceremony Saturday evening in the First Methodist Church, with the Rev. H. H. Hollowell, pastor, officiating. Following the ceremony, a reception was held in the home of the bride's parents, 504 North Loraine Street. After the popular young couple return from a wedding trip to Mexico City, they will reside in the Park Terrace Apartments, Midland.

Margaret Martin, LeRoy W. Shave Wed In Midland

Wedding rites joining Miss Margaret Martin, the daughter of Mr. and Mrs. Fred Martin of Lometa, Texas, and LeRoy Wilson Shave of Star, Texas, were performed in a double-ring ceremony at noon Saturday in the home of Mr. and Mrs. Bert P. Guyton, 1108 West Illinois Street, with the Rev. H. H. Hollowell, pastor of the First Methodist Church, officiating.

Vows were exchanged before an altar decorated with palms, baskets of gladioli and mums, and seven branched candelabra holding white tapers. The bride, given in marriage by her father, wore a steel-gray wool crepe suit with black accessories. She carried a white Bible, topped with an orchid. Her only jewelry was a necklace, belonging to her grandmother.

She was attended by Ann Rush, maid of honor, from Humble, Texas, who wore a pearl-grey suit with black accessories and carried a nosegay bouquet of pink gladioli.

Joy Guyton lighted the candles preceding the service. Best man to the bridegroom was E. W. Fannell. Reception Held

Wedding music was played by Vivienne Adamson, and R. E. Smith presented two solos, "Because" and "I Love You Truly."

Following the ceremony, a reception was held in the Guyton home. Jean Akins presided at the bride's book. Rosslyn Magee and Virginia Towns presided at the table, which held a richly embroidered tiered wedding cake at one end and a crystal punch bowl at the other end.

The bride, who is employed by Shell Oil Company, Inc., attended Texas Technological College. The bridegroom is a graduate of Texas A&M College and is employed as an engineer for Stanolind Oil and Gas Company.

Out-of-town guests were Mr. and Mrs. Fred Martin of Lometa, Mr. and Mrs. Pink Shave of Sundown, Texas, and Dr. and Mrs. J. William Davis of Lubbock.

Mrs. Fasken Wins High At La Merienda Meet

Mrs. Murray Fasken won high prize at the La Merienda Bridge Club meeting Thursday afternoon at the Ranch House. Other prizes were won by Mrs. Elwood Turrentine, second; Mrs. Robert D. Fitting, third; and Mrs. Lynn Durham, bingo.

Guests present were Mrs. Sol Bunnell, Mrs. J. L. Hathaway, Mrs. Robert L. Walker, and Mrs. Thornton Hardie, Jr.

Members attending included the hostesses, Mrs. Clinton Buffington and Mrs. George J. Byrne, and Mrs. Louis A. Bartha, Mrs. J. R. Cantrell, Mrs. Durham, Mrs. T. S. Edgington, Mrs. Fasken, Mrs. Fitting, Mrs. Jay H. Floyd, Mrs. Maurice W. Kennedy, Mrs. W. C. Mitchell, Mrs. Hugh Munn, Mrs. John V. Norman, Jr., Mrs. S. L. Parham, Mrs. W. H. Pomeroy, Jr., Mrs. Earl S. Ridge, Mrs. Robert Roark, Mrs. Burl H. Self, Mrs. James T. Smith, and Mrs. Turrentine.

Coffee Will Honor Room Mothers Of High School P-TA

Mrs. Al Cowden, chairman of the Ways and Means Committee of the High School P-TA, and Mrs. George Glass, co-chairman, will entertain more than 50 room mothers of the unit with a coffee at 9:30 a. m. Tuesday in the home of Mrs. Cowden, 1310 West Illinois Street.

Plans for the carnival to be held in the gym the Saturday night following Halloween will be completed at a business meeting. The P-TA unit announced that the carnival will be Saturday, rather than Friday, at the request of students.

GOES TO SAUDI, ARABIA

Capt. James E. Preston, who has been serving with the occupation forces in Germany, has been transferred to Saudi Arabia, where he will be in command of a squadron.

Barber-Barnett Rites Performed In Ceremony Here

Miss Marie Barber, daughter of Mr. and Mrs. Jess Barber, 311 North Baird Street, became the bride of Elmer Barnett, son of C. L. Barnett, 401 North Baird Street, in a quiet ceremony October 4 in the First Methodist Church, with the Rev. H. H. Hollowell, pastor, officiating.

The bride, given in marriage by her father, wore a British-tan suit with an aqua blouse, brown accessories and an orchid corsage. For something old and borrowed, she wore a cameo necklace.

Her attendant, Mary Frances Barber, who was maid of honor, wore a wool suit with brown accessories and a yellow mum corsage. Lighting the candles were Harold Barber and James Barber. Ushers were Mal Kidwell and Buck Harris.

The bride's mother was attired in a black wool crepe dress, fashioned with military braids, a green blouse and black accessories. Her corsage was of red carnations.

Traditional wedding music was presented by Mrs. Charles Reeder, who accompanied Ralph Smith in two solos, "I Love You Truly" and "Because."

Immediately following the ceremony, a reception was held on the lawn of the Barber home. The lace table was centered with a large mirror surrounded with fern and dotted with arrangements of pink and white lantana and a bowl of white mums.

The three-tiered wedding cake was served by Wanda Barnett, sister of the bridegroom, with Frances Barber presiding at the punch bowl. Mrs. Jo Brown had charge of the bride's register.

The bride is a graduate of Midland High School and is employed by the Texas Electric Service Company. Mr. Barnett is a graduate of Midland High School and is employed by the Standard Oil Company of Texas.

Methodist Men Will Have Buffet Supper

There will be a buffet supper for men only at the First Methodist Church at 7 p. m. Monday. Men of the church will bring the food, serve it and enjoy it. Guests are invited. On the program is "fellowship and inspiration."

B&PW Is Host To City-County Federation Meet

The Midland Business and Professional Women's Club concluded its observance of National Business Women's Week Saturday afternoon when it was host to the City-County Federation luncheon in the Crystal Ballroom of the Scharbauer Hotel.

The program, led by B&PW members, featured a panel discussion, "We Face Tomorrow," dealing with the place of women socially, economically, and politically in the world of tomorrow.

Preceding a business session during which Mrs. W. G. Epley, president of the federation, introduced the guests, the host club opened the meeting with the club collect and the invocation.

The panel discussion, led by Betty Kurtes, vice president of the B&PW, and Mrs. O. M. Luton, president, featured Fannie Bess Taylor, Rosemary Black, Vera McLeRoy, Thelma Gardner, Dick Loohey, and Anne Graham.

Barton-Kidwell Betrothal Announced

Mr. and Mrs. C. A. Barton of the Magnolia Tank Farm announce the engagement and approaching marriage of their daughter, Eva, to Mal Kidwell, son of Mr. and Mrs. O. L. Kidwell, Midland.

The wedding will be performed October 24 in the home of the bride-elect's parents.

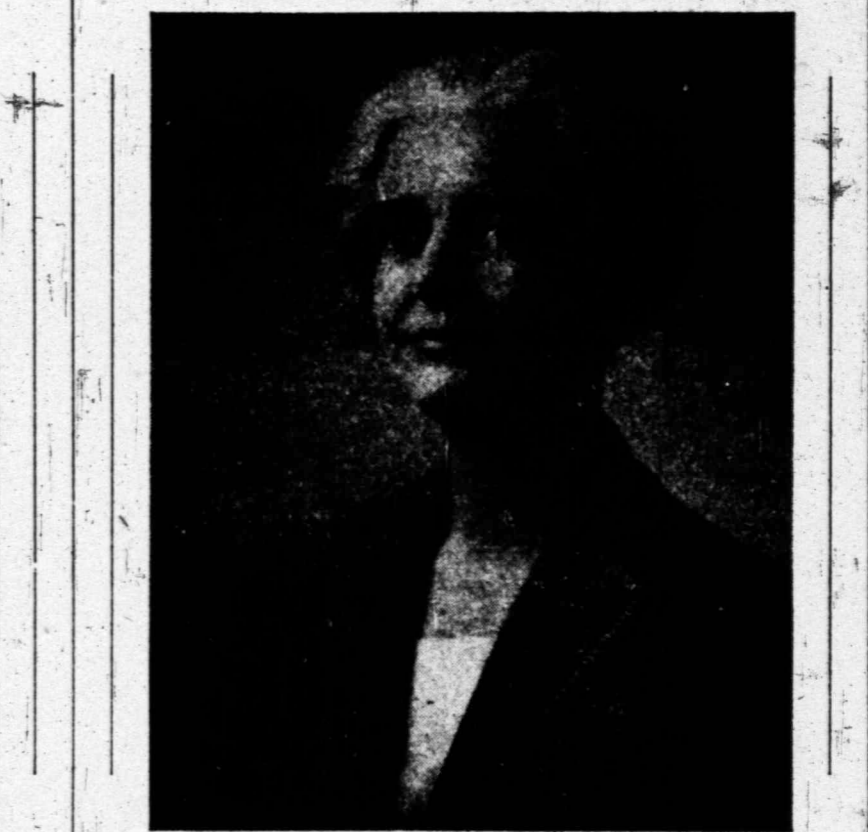

Rusy Wives' HD Club Discusses Better Fair

Ways and means of conducting a better 1948 county fair were discussed at the "Achievement Day" meeting of the Rusy Wives' Home Demonstration Club Tuesday in the home of Mrs. J. C. Bradley.

Mrs. Nettie B. Messick asked for suggestions on the 1948 yearbook, after which visits were made to the home of Mrs. F. D. Spratt and Mrs. McKenzie, the club's food and clothing demonstrators.

Members present were Mrs. O. F. Wells, Mrs. Roy A. Lands, Mrs. A. C. Matlock, Mrs. Fred Truelove, Mrs. Dorothy Head, Mrs. A. S. Norwood, Mrs. Lillie Bradley, Mrs. Spratt, Mrs. McKenzie, Mrs. Messick, and Mrs. Bradley.

President Women Voters League

National President Of League Of Women Voters Will Visit Midland

Miss Anna Lord Strauss of Washington, D. C., national president of the League of Women Voters, will visit here next Saturday as a guest of the league's Midland chapter.

A nationally known figure, not only for her service to the government in two World Wars, but for her work in the fields of economics, food conservation, and atomic energy, Miss Strauss has been president of the National League of Women Voters since 1944. At one time she was an executive in a large corporation and served several years as editor of Century Magazine.

She is a member of President Truman's Citizens Committee on Food Conservation, and is one of the 25 members of the national committee for strengthening Congress and is the only woman on its board of trustees.

Dinner Planned Miss Strauss will be the guest at a dinner given by the Midland League of Women Voters in the Crystal Ballroom of the Scharbauer Hotel at 7:30 p. m. Saturday. Congressman Ken Regan of Midland Spratt, Mrs. Lillie Bradley, Mrs. Spratt, Mrs. McKenzie, Mrs. Messick, and Mrs. Bradley.

The distinguished visitor will be interviewed by a member of the Midland League of Women Voters over KCRS at 1:30 p. m. Saturday.

J. B. SANDERS RETURN

Mr. and Mrs. J. B. Sanders have returned from a fishing and hunting trip with Mr. and Mrs. Paul Smith on their ranch near Meridian, Texas.

What's New And Where To Find It

A large advertisement section titled 'What's New And Where To Find It' by Barbara. It contains numerous small ads for various products and services, including: 'Feminine, Flattering, Fascinating' (clothing), 'The Weatherman Says So' (weather service), 'Wishing May Make It So, But' (cosmetics), 'Save Those Vitamins With Moist Air' (refrigeration), 'Little Folks Enjoy Visiting, Too' (children's products), 'Three Advantages For You' (car upholstery), 'Silver Suggestions From Kruger's' (silverware), 'From Santa's Sack For You' (holiday gifts), 'Perfume With French Accent' (perfumes), 'Gift Suggestions From Singer's' (sewing machines), and 'An Out Of School Hint' (school supplies).

Advertisement for Midland Drug Co. featuring 'Desert Pink' and 'Red Cactus' makeup products. It includes descriptions of the products, prices, and contact information for the Midland Agency.

Along The Garden Path In October

Gardeners may study sources of catalogues and make selections of trees, shrubs, roses and other materials for October.

What to plant—daffodils, Dutch Iris, and hyacinth bulbs—some annuals, such as pansy, phlox, hollyhock, larkspur, Queen Anne's lace, poppy, sweet pea, calendula, verbena, sweet alyssum, carnation, petunia, cornflower, and snapdragon; thinly mixing small seeds with dry sand at the same depth as Spring planting.

Spray liquid fertilizer on your roses and chrysanthemums.

To keep flowers fresh—for years make a clean, slanting cut and plunge into one quart of cold water, to which one tablespoon of alum has been added—slice (about 1/2 inch) with a dull knife to expose inner layers of tissue, pull off leaves, scald the stems in hot water, and put in cold water containing one-half cup of vinegar to a gallon of water.

About 2,000 cats are employed in government offices in England. They are on the payroll and receive a shilling a week.

Old Letter Has Idea Regarding President Term

How long the President of the United States should hold office has been a bone of contention a long time.

A Midlander, Al Kelley, is in possession of an old letter written in French in 1787, from a Philadelphia merchant.

Kelley sent the letter to the Federal Language department of Texas Tech for translation.

The contents revealed among many things, the contention about the President's term of office: "we now have before us the work of the convention about which people here are not very enthusiastic. It is true that where you are there is a more aristocratic spirit. As for me I approve of it with the exception of the term of the president of the Congress, which in view of the extent of his powers, seems overly long. I should have wished it to be two years, with the privilege of reelecting him for two more years, after which he could no longer be elected."

McCamey Clubs Give Luncheon And Party

MCCAMEY — The Garden Club joined with the McCamey Home Demonstration Club in staging a covered dish luncheon and "42" party Tuesday night at the Humble Recreation Hall, with members inviting their husbands and children as special guests.

The dinner was served buffet style. The food was furnished by the members, including dishes of roast, fried chicken, chicken and dressing, chicken and dumplings, salad and pies, and cakes, with coffee and punch added.

The guest list included: Mr. and Mrs. Tom Trimble, Mr. and Mrs. Jack Andrews and Jackie, Mr. and Mrs. C. O. Holt, John and C. O. Jr., Mr. and Mrs. Fritz Reimers, Mr. and Mrs. Dee Locklin, and Philie, Mr. and Mrs. C. C. Roberts, Mr. and Mrs. L. E. Marquis and Jimmie Lynn Berg, Mr. and Mrs. J. R. O'Callahan, Mr. and Mrs. C. K. West, Mr. and Mrs. C. N. Anderson, and Zetta Faye, Mr. and Mrs. W. M. Haines, Mr. and Mrs. Tom Fuller, Mr. and Mrs. Lovie Burnett, Mr. and Mrs. W. T. Thomas, Mr. and Mrs. J. T. Gibbs, and Mmes. Callie Fisher, J. Lee West, C. A. Taylor, John Reed, N. C. House, H. E. Cox, Earlene Cannon, John Sumrall and Miss Donna Rae and Miss Myra Holman.

Midland Career Women—Miss Lydie Watson: 47 Years To Culture And Civic Interests

Many Midlanders who once studied music under Miss Lydie Watson now are sending their children to her, for she has spent 47 years of her life in Midland in the service of culture and civic interests.

Few Midland career women can compare to "Miss Lydie," as she is so affectionately called by her small students, in either seniority or capability. She became well known in

Miss Lydie Watson, who came from Little Rock, Ark., to be with her brother, C. C. Watson, who at that

TO DALLAS MEETING

Charles F. Mathews, principal of Midland High School, will leave Sunday for Dallas where he will attend the annual meeting of the Texas Association of Secondary School Principals Monday and Tuesday.

LOST 42 POUNDS WITHOUT DIETING

The following remarkable story shows conclusively that Barcenterate DOES take off fat.

It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet—no weakness—no hunger. Barcenterate, the original grapefruit juice recipe takes off fat quickly, safely and you can eat plenty.

Here Is Proof

"When I started taking Barcenterate, I weighed 212 pounds and wore size 46 dresses. Now I wear size 18 and weigh 165 pounds. I started taking Barcenterate in March and by June I had lost 47 pounds. I would have lost more weight had I left off fattening foods, but I was anemic at that time and afraid to diet. People who knew me before I started taking Barcenterate are amazed at the weight I have lost. My flesh is firm; I have never become flabby or wrinkled and I am 40 years old.

"Before taking Barcenterate I couldn't do my house work without becoming exhausted; had dizzy spells and my head and back hurt constantly. I was so short winded, I was miserable. But now all

those things have gone and it is really a pleasure to do the chores I once dreaded.

"Three years ago I nearly died with Typhus fever and it left me anemic and I could never get my blood count up again or get back my energy. After taking Barcenterate my blood count started up and is now normal. So you see why I praise Barcenterate so highly and recommend it. Any praise I can give Barcenterate is small compared to the relief and happiness it has brought me."—Mrs. Eula Whitehead, 509 Harmon, Corpus Christi, Texas.

At All Druggists

The above is one of hundreds of amazing endorsements we have received.

If you are overweight and want to take off ugly fat, just go to your druggist and ask for four ounces of liquid Barcenterate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoonsful twice a day. If the very first bottle doesn't show you the simple, safe, easy way to take off weight, return the empty bottle for your money back.

Area School Men Attend State Meet

KERMIT—A trio of Kermit school officials, accompanied by two school administrators of Monahans, are to attend the Texas State Convention of National Association of Secondary School Administrators in Dallas Monday and Tuesday.

Representing Kermit will be Tommy Thompson, assistant superintendent; Gerald McGuire, high school principal; and W. T. Varied, junior high school principal. Roger Cundiff, senior high school principal, and Milton McClesky, junior high school principal, are to attend from Monahans.

Your Newspaper—Serving Free—by serving you.

Three Appointed To Plan Safety Group

A committee composed of Highway Patrolman Royce Blackmon, Dave Hoover of Humble Oil and Refining Company and R. L. McCormick of Magnolia Petroleum Company was appointed at a meeting in the high school auditorium Thursday night to investigate possibilities and requirements for organization of a Permian Basin Safety organization.

Hugh V. Keepers, assistant manager of the Fire Prevention and Engineering Bureau of Texas, showed a film of the Texas City disaster during the meeting, which was held as part of the program observing National Fire Prevention Week.

These thistles are one and the same plant: common, burr, bell, bull, blue, roadside, horse, spear, plume, button, and bank.

Here, With a Fanfare of Fashion Importance... a Look That's As New As '48!

ELLA RAINES WEARS THIS

Jaunty Junior

IN PHOTOPLAY

The fashion editors of Photoplay picked this Jaunty Junior coat for the November issue of their magazine! And Ella Raines, Universal-International star who will soon be seen in "The Senator Was Indiscreet" wears it with all the dash and distinction you or anyone else could want. Jaunty Junior tailors it of a pure wool plaid that flares fore and aft, looks terrific from every angle. Sizes 7 to 15.

49.95

They're here . . . and so fashion right . . . they're the most distinctive styles we've seen this Autumn! New in look, new in feeling . . . each beautiful fashion carries a famous name—a mark of leadership in style and value!

MEET WINTER IN OUR VERSATILE

Jaunty Junior

You've seen it advertised in Mademoiselle—now see it on yourself. It's Jaunty Junior's newest Winter coat that takes daytime, date time and any place you go in stride. Detailed for compliments with its scrolled shoulders, arched pocket and sleeve designs. In a sturdy pure wool covert. Sizes 7 to 15.

55.00

Confidence

Yes, confidence in your rakish appearance—confidence in snug protection against the winter's coldest blasts. A Klingrite classic of Forstmann's L'hassana with commodious diagonal-flap pockets and deeply notched peaked lapels. Choose from Toast, Wine, Green, Brown, Kelly, Black, in sizes 10 to 18.

69.95

finest fabric in a decade! Julliard's yarn dye worsted

coat fashion highlight . . . muskrat trimmed tuxedo coat in the

TWO MIDLAND GIRLS NAMED TO TSCW HIGH AVERAGE LIST

Doris Denton, daughter of Mr. and Mrs. R. L. Denton, Magnolia Camp, and Betty Lou Harper, daughter of Mr. and Mrs. J. G. Harper, 707 Carrizo Street, have been named on the "B" average list at the Texas State College for Women in Denton, it was announced recently.

Miss Denton is a sophomore merchandising major. She appeared in last year's Nativity Pageant and the Sing-Song contest. Miss Harper, a sophomore English major, is a member of Alpha Lambda Delta, scholastic fraternity, Daughter of TSCW Ex-Students Club, and the Scholarship Club.

Advertise or be forgotten.

Midland Girl Is OBU Journalism Officer

SHAWNEE, OKLA.—Officers of Tri-Lambda, new journalism fraternity at Oklahoma Baptist University, were installed at a banquet here recently.

Officers are Homer FinCannon, Pawhuska, editor; Faye Shelburne, Midland, Texas, advertising manager; Jeanette White, Altus, feature editor; Paul Stanfield, Guyton, business manager; and James Matthews, Canadian, Texas, librarian.

The banquet was the first formal meeting of the organization since it was formed by 12 charter members at the close of school last Spring. Tri-Lambda is different from other journalism fraternities in that it caters both to religious and secular journalism.

DAR Meeting To Feature CAR Guest Speakers

The Lt. William Brewer Chapter of the DAR will feature guest speakers, Mrs. E. V. Powell of Waco, state president of the Children of the American Revolution, and Mrs. John B. Daniel of Temple, CAR state promoter, at a meeting at 3 p. m. Tuesday in the home of Mrs. Eugene Russell, 1311 West Illinois Street.

Mrs. Powell, who is the sister of Mrs. Harvey Herd, and Mrs. Daniel, who is Mrs. Herd's mother, will speak in the interest of the work of the CAR, which was organized through a resolution adopted by the Fourth Continental Congress, Feb. 22, 1895.

The two societies, while having similar objectives, are separate organizations, the CAR having a membership of children and young people not over 18 years of age. At the age of 18, all members are transferred to either the DAR or the CAR memberships.

The Texas Society, CAR, is composed of 19 societies with a membership numbering 300. During the last year, the state project was the study of the UN Charter, which has equipped the members of the society with a better understanding of the undertakings to maintain peace.

McCamey News

MCCAMEY—Proceeds from the Girl Scout barbecue staged Tuesday night in the City Park totaled \$389.13, sponsors said. Approximately 600 plates were sold. Proceeds will go to the Girl Scout Mite Peak Camp fund.

The Girl Scouts and Brownies gave an interesting program of Scout songs, with Norma Jean Hudson leading.

Sunday will mark the final day of the revival at the First Baptist Church here. The Rev. A. Edwin Wilson, pastor of the Buchanan Baptist Church of Amarillo is conducting the revival.

Miss Ruby Nelle Braly returned home Thursday morning from New York City where she has spent the last several months. She traveled by plane as far as Big Spring where she was met by her mother, Mrs. S. R. Braly, and Mrs. Hal Holmes.

Mrs. John Sheehan complimented Mrs. Ida Guion of Ballinger with a morning coffee while she was here last week visiting in the home of her daughter, Mrs. Newton Keyes.

McCamey News

Mrs. Alma Thomas to Address Rotarians

Mrs. Alma Thomas of Austin, formerly of Midland, will address members of the Midland Rotary Club at their meeting Thursday noon in the Crystal Ballroom of the Scharbauer Hotel.

Mrs. Thomas will relate events and incidents encountered on her recent European tour. She formerly was principal of North Elementary School here.

Added Length To The New Look

Jorja Powers of Chicago is a "Petti-Girl," according to fashion experts who predict the return of "Gay 90's" petticoats here. She is modeling the "Ma Cherie," a dress which displays an inch of petticoat below the new long hemlines. An American innovation, the creation will be flown to Paris to astound originators of the "New Look" in skirts. (NEA Telephoto)

State Library Names Books Available For Borrowing

The following books are now available at the Texas State Library in Austin, from which Texas residents may borrow without charge or may ask the Midland County Library to borrow: Explaining the Atom (Seig Hecht), Uneasy Money (Edward H. Faulkner), Sewing for the Home (Mary Brooks Picken), Russia: Menace or Promise (Vera M. Dean), Stalin Must Have Peace (Edgar Snow), Through Russia's Back Door (Richard E. Lauterbach), The Shore Dimly Seen (E. L. Gibbs Arnall), Starling of White House (Thomas Sugrue), Dealing With People (Wendell White), A Book About the Bible (George Simpson), The Screwtape Letters (C. S. Lewis), and The Bible and the Common Reader (Mary Ellen Chase).

Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overswork, undue worry, and lack of certain foods often reduce the red-blood strength—and starved, weak, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm, fresh, full out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

The back wings of a beetle found in Java are used as ornaments. The "oil beetle" reaches maturity with its only food wild bees' eggs and honey.

Coming Events

Lovely and lovely is the vocalist with Russ Morgan's "Morgan Menner" Orchestra which will furnish music for the Veterans of Foreign Wars dance Monday night in the VFW Hall at Midland Air Terminal. The dance will open the new hall which has the largest hardwood dance floor in the Southwest. Tables have been placed and arrangements made to handle a crowd of 2,000 persons. The popular and nationally known Russ Morgan orchestra is expected to attract residents from over West Texas and Southeastern New Mexico.

Miss Ruth Perrine To Be Supervisor Of Welfare Unit Here

Dorothy Sumner Curlee served last day as Midland County Child Welfare Department supervisor Saturday; she is transferring to Odessa to become supervisor in that county.

Succeeding Mrs. Curlee here will be Miss Ruth Perrine, who was supervisor of the Midland department in 1942 and 1943 and who since then has been with the Corpus Christi Child Welfare unit. She is expected to assume supervision of the Midland County unit October 20. Meanwhile, this unit will be without a regular supervisor.

Retta Hazlip Named Scout Troop President

Girl Scout Troop 14 elected Retta Hazlip president at a meeting Wednesday in the home of Mrs. Duncan Aldridge, 810 West Tennessee Street.

Other officers are: Darlene Aldridge, vice president; Peggy O'Neal, secretary; Peggy Jones, treasurer; Helen Zant, program chairman, and Janice Stalcup, historian.

The 20 members present made Kaper Charts for their October 22 hike.

A gap reaching well over a thousand miles separates the two western segments which make up the new state of Pakistan.

The Tejas Garden Club will meet at 9 a. m. in the home of Mrs. Fred Wycoff, 721 West Kansas Street, with Mrs. G. G. Hazel co-hostess.

SATURDAY
The League of Women Voters will honor the national president, Miss Anna Lord Strauss, with a banquet at 7:30 p. m. in the Crystal Ballroom of the Scharbauer Hotel.

The Children's Theater will meet at 10:30 a. m., 1:30 p. m., and 3:15 p. m. in the City-County Auditorium.

P-TA Membership Week, Oct. 13-19

Gov. Beauford Jester has proclaimed October 13-19 as "parent-teacher membership week" during which time Midland P-TA units will enroll persons interested in child welfare.

The Texas Congress of Parents and Teachers, which was founded by the late Mrs. Ella Caruthers Porter of Dallas, ranks fourth in membership in the states.

Brownie Troop 24 Discusses GS Exhibit

Brownie Troop 24 discussed its museum of science exhibit for Girl Scout Week at a meeting Thursday in the home of the leader, Mrs. S. C. Giesey.

The group worked on "sit-upons" at the meeting. Those present included co-leader, Mrs. Neal Marks, and Vicki Anderson, Barbara June Barber, Carolyn Boles, Beverly Bradbury, Ginger Culp, Joy Lynn Davis, Mary Giesey, Naomi Green, Glenda Gay Henderson, Martha Ann Marks, Georgia Ray Melton, Ronda Gay Murchison, Gerry Fay Parr, Helen Sue Thompson, Earlene Watson, Sally Walston, and Dorothy Jane Yeckel.

Recent Bride

Mrs. Bernice Hamanford, above, daughter of Mr. and Mrs. H. C. Hamanford of Midland, was united in marriage to Don E. Hoover, son of Mr. and Mrs. G. H. Hoover of Sweetwater, October 3, in the parsonage of the First Baptist Church, with the Rev. Vernon Yeslow, pastor, officiating. The bride wore an aqua suit with brooch accessories and a white carnation corsage. Mrs. L. J. Clark, Jr., matron of honor, wore a blue suit with black accessories and a yellow gladioli corsage. L. J. Clark, Jr., was best man to the bridegroom. Others attending the wedding were Mr. and Mrs. H. C. Hamanford and Mrs. Mae Ward.

Thanks, Good Mrs., Again Thousands, Says Finn Letter

Recent Mrs. J. Hollis Roberts of Midland received a letter in Finnish, which she could not read. She finally got the letter translated. It read: "Thank you, thank you, good Mrs. A thousand thanks for the suit that I received just when I needed it most. The suit fits me nice. I am a 14-year-old Karelian refugee boy. Also an orphan. My mother died a year ago. In a letter I am not able to thank as much as I would like. Suits are difficult to get in Finland. Those available are expensive and inferior. Thousands and again thousands of thanks are sent with a happy heart by: Kallervo Inkänen, Ruma Himmerjoki, Finland, Europe."

Midland Director, Invited To Parley

Three directors of the West Texas Chamber of Commerce from Midland have been invited to a WICC district meeting in Lamesa Wednesday. The directors are: M. C. Ulmer, Paul McHargue and James N. Allison. The meeting will be held at 3 p. m. at the Lamesa Country Club. It will be an open-forum meeting.

Briton Wins Design Award In Dallas

Dream dress of white net and silver lame designed by England's Norman Hartnell was a scene stealer at a recent style show in Dallas, Tex. Hartnell, who is the creator of Princess Elizabeth's bridal gown, was given an award for distinguished design.

DALLAS, Tex. — (NEA) — The designer of the bridal gown for England's Princess Elizabeth will be Norman Hartnell of London, upon whose fashions the eyes of Texas—and the nation—are looking with romantic interest.

As winner of a Neiman-Marcus Award, conferred annually for distinguished design, Hartnell exhibited gowns fit for a princess in a presentation fashion show held here.

Cited for his versatility in creating fashions for both the young and the sophisticated, this designer presented gowns reflecting these extremes of styling.

Scene-stealer of the show, however, were the youthful gowns of the bouffant-type, one of which was a "dream dress" of white net, sprinkled with sequins and posed over a sheath of silver lame. Worn with this spectacular gown was a saucy derby-type hat of silver lame veiled with white net.

Norman Hartnell was one of four designers upon whom awards were conferred for outstanding fashion contributions. Other award winners were Christian Dior,

Kermit Prepares To Entertain IOOF Convention

KERMIT—The Kermit IOOF and Rebecca organizations are preparing to entertain approximately 500 guests when the West Texas IOOF and Rebecca Association No. 2, comprising 24 counties meets here next Saturday. J. A. Slaughter, Kermit, is president of the association.

Slaughter has announced registrations will begin at 9 a. m. Saturday at the American Legion Hut, which will be headquarters. Rebecas will be in charge of the morning program, and the association business meeting will be held from 1 p. m. until 5:30 p. m. Election and installation of new officers will be part of the business meeting.

A barbecue supper will be served at the Legion Hut, and the night's program will begin at 7 p. m. when Rebecas hold a memorial service. This will be followed by competition between degree teams.

Members of the Kermit Rebecca degree team are practicing in preparation for the contests, and the subordinate degree team is working in preparation for competition with other teams.

The closing night contests between the Rebecca teams will be held in the Legion Hut, and the subordinate teams will meet in the IOOF Hall.

Mrs. Hodge To Speak To WSCS Study Group

Mrs. J. Howard Hodge, speaking on "My Impressions of the United Nations Conference," will be featured at 3:15 p. m. Monday in the Scharbauer Educational Building, where the First Methodist Church WSCS will have its opening session of the Fall study on the UN.

Mrs. Hodge attended the opening of the UN Conference at Lake Success, N. Y., this Summer. All circles will attend the meeting.

KC Council To Stage Columbus Day Event Sunday

F. J. Kinane of Austin, an official of the Knights of Columbus of Texas, will be the featured speaker at a Columbus Day program sponsored by the Midland KC Council in observance of the discovery of America, at 4:30 p. m. Sunday at Cloverdale Park. Maurice Kennedy, grand knight of the Midland unit, said Saturday.

F. J. Kinane

The committee in charge has arranged for a barbecue as a part of the festivities. Games also will be played. All Catholic men of the community are invited to attend regardless of affiliation with the Knights of Columbus. Kennedy announced that Supreme Knight John E. Swift of New Haven will make a coast-to-coast radio address over the Mutual Network at 10:15 a. m. (CST) Sunday.

WOMAN DETECTIVE RAPS WOMEN ON RESPONSIBILITIES

AP Newsfeatures
HACKENSACK, N. J.—Ann Terhune, detective and grandmother, believes women could be a greater factor for law enforcement. "It's time women became more aware of their responsibilities," says this 66-year-old detective, who has handled criminal cases involving women for 26 years. The only woman in New Jersey who wears a detective's badge also makes the following pointed observations: "Women should stay at home more."

"Women should not drink so much."

"They should think more about their families and less about themselves."

"Young girls of today attach too much importance to self-expression and not enough to service."

Detective Terhune, tall, gray-haired and blue-eyed, became interested in police work through an interest in social problems involving women, particularly the problem of unmarried mothers. That was more than a quarter a century ago, when her husband, the late Henry Terhune, a mechanic, was living. She used to hurry home from a day of investigating crime to prepare supper for Henry and their two sons, George and Thornwald. Now that both sons are married, Mrs. Terhune has her own home near the Bergen County Courthouse.

After 26 years on the job, she says: "Retire? I'm going right on working, as long as I have the breath to do it."

The United States uses about 500 million fence posts a year, enough to build 1,500,000 miles of fence.

Midlanders To Attend Scottish Rite Reunion In El Paso This Week

A large number of Midlanders, including several applicants for Scottish Rite degrees, plan to attend the Scottish Rite Reunion in El Paso this week, it was announced by Sheriff Ed Darrell, representative of the El Paso district.

Midland applicants who have been elected to take the Scottish Rite and Shrine degrees include J. A. Matthews, Reese Cleveland, H. N. Hensley, James P. McHargue, Emmett D. Shaw, W. B. Hunter, H. A. Tuma, Gerald D. Simon, George R. McDonald, and Edgar Dill. Elected to take the Shrine are J. M. McDonald, Kyle Taylor and Edwin Autrey.

Out-of-town applicants who have been elected to take Scottish Rite and Shrine degrees include Charles B. Moore of Del Rio and Gene Best of Odessa, Darnell said.

A famous British astronomer, Sir James Jeans, estimated the sun's age at about 8,000,000,000 years.

A fence 500 feet high encircling the globe could be covered with the paint used annually in the United States.

Nebraska Team Sets Price Of Ice Cream

HASTINGS, NEB.—(AP)—The performance of the Hastings High School football team has a lot to do with the cost of living for Hastings teen-agers. If the team wins on Friday night, the price of ice cream sundaes in one Hastings drug store on Saturday drops five cents. For each touchdown made by the home team another penny comes off the price.

French Picture Two Views Of Americans

PARIS—(AP)—A cartoon in the independent L'Intransigeant depicted a French family at dinner. One of the children asks: "What are we having for dessert?" "I am going to read you the Marshall Plan," the father replies. "The independently leftist Combat pictured two American businessmen in an office. "Have some gum," the first man says, offering a package. "No, thank you," replies the other, "Europe first."

About 35 percent of the areas of the 24 U. S. national parks are timbered, representing about 19 million acres of forest land.

Special Award To Kermit Legionnaire

KERMIT—F. J. Boldreux, immediate past commander of the American Legion Post, was presented a past-commander's pin at the business meeting of the organization in the Legion Hut Tuesday night. Presentation was made by S. C. Calloway, also a past commander. Alton M. East, post commander, was in charge of Tuesday's meeting, when legionnaires discussed plans for some type of permanent memorial to Winkler County service men who were killed in World War II. Time of the Legion meetings was changed from 8 to 7:30 p. m., and announcement was made that the next meeting will be an entertainment program.

Your Newspaper—Serving Freedom by serving you.

Cub Scouts Will Meet Tuesday Night

Cub Scouts and all boys 9, 10 and 11 years of age who attend North Elementary School, along with their parents, are invited to attend a Cub rally and showing of a color-sound movie about Cub Scouting in the North Elementary School at 7 p. m. Tuesday.

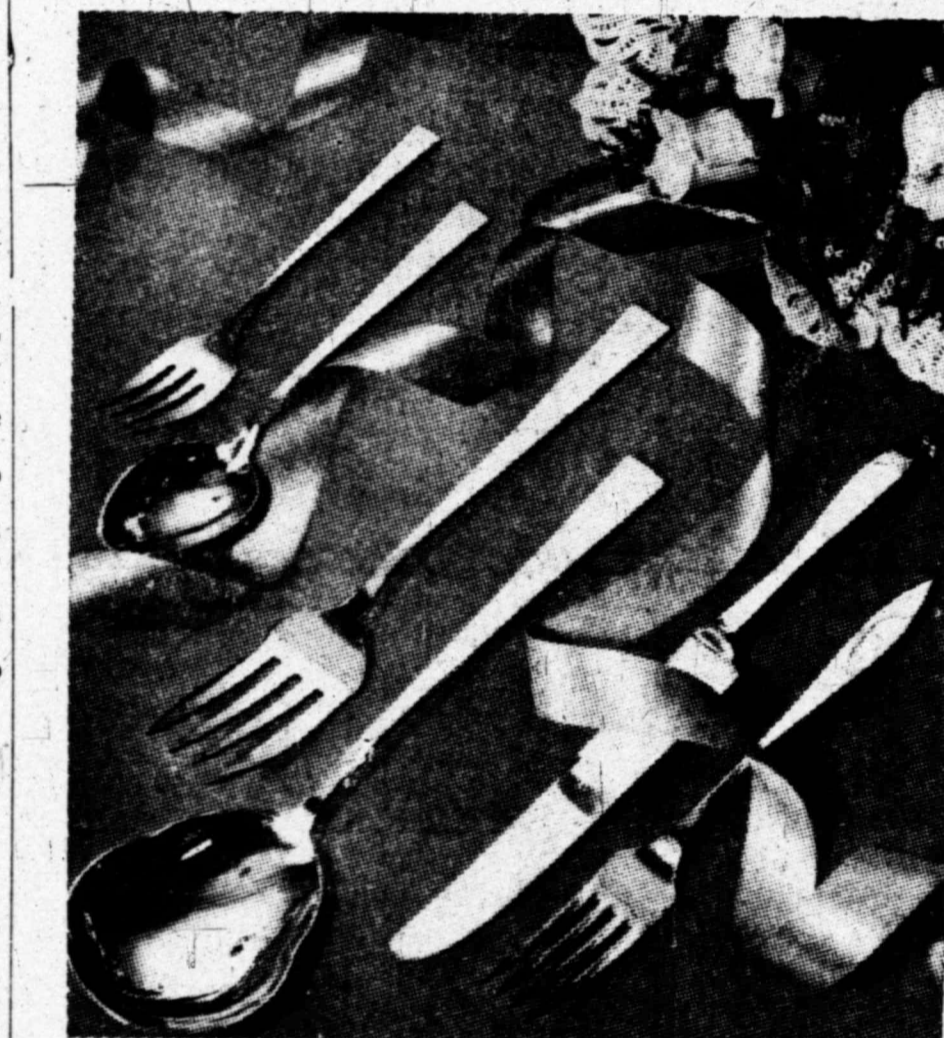

Dens will be formed and officers for the Pack selected, including Den mothers. All Den mothers and prospective Den mothers of Midland are especially invited.

Demo Workhorses Hope To Lighten Load In Approaching Waco Meeting

By DAVE CHEAVENS
Associated Press Staff
AUSTIN—(AP)—The local workhorses of the Democratic Party in Texas meet at Waco in November to figure out some ways of lightening their load of troubles.

For one thing, they are a little weary of trying to reconcile some of the many inconsistencies in Texas' tangled election laws that make running a local election something closely akin to solving a jigsaw puzzle.

They are the county chairmen—men you seldom hear about until some state or national intra-party fight boils over into a local squabble over who is chairman and who isn't. That happened a number of times during the unpleasantnesses of 1944.

For the first time in Texas' political history, these party wheel-horses have organized. Some of the leaders in the movement that resulted in formation of the Texas Association of County Democratic Chairmen believe it is the only organization of its kind in the nation.

Mist Arrange Primaries
While there isn't much ballyhoo and glory in connection with the job, the county democratic chairmen are a key figure in party affairs. His chief task is making all the arrangements for local primaries.

This involves a tremendous amount of detail work such as the selection of voting places and workers to carry on the election. He has to see to it that they are paid, and in some instances, fed.

One of his big headaches is assessing the cost of primaries against the various candidates, from public weigher on up to the head of the list. Then, if there is any money left over, he has to prorate it back to the candidates in such manner as to minimize squawks.

His job also is to act as the temporary presiding officer at those county conventions where so much of the party hatchet work is done. Under the often-trying circumstances of local and state struggles for control, he must be both a pious and firm operator.

The recent meeting here of directors of the infant association produced from several such county chairmen or vice chairmen a partial statement of the organization's objectives.

It developed that the county organization, for one thing, would like a cut of the state executive committee's expense assessment levied against candidates for statewide offices.

Several chairmen commented that the county organization bears the local election expenses, including the printing of names of all candidates on the ballot, but it does not now receive any aid from the state committee for candidates in that category.

Another thing the county chairmen want is more assurance they will automatically be designated as delegates to all state conventions. In many counties, it is customary to so name them, but there have been many instances in which this was not done. The county chairmen argue they can hardly be a useful working unit in the statewide machinery if they do not officially sit in on the party's state meetings.

Would Divorce Politics
These and other matters will be brought before the Waco convention, the association's first major statewide meeting following preliminary sessions.

Arthur Stevenson of Dallas is president; Dr. Thomas H. Taylor of Brownwood is vice president; W. E. Biggs of Greenville is secretary-treasurer.

The organization now has a membership of 45. Biggs said its objective is to enlist every one of the state's 254 county chairmen in an organization divorced entirely from internal partisan politics, but devoted to making the party machinery function more smoothly both in election years and off years.

The Midland Reporter-Telegram

FIRST WITH THE NEWS MIDLAND, TEXAS, SUNDAY, OCTOBER 12, 1947 SECTION THREE

WTCC Will Open Area Referendum Meets This Week

ABILENE—The 1947—sixth annual—referendum convention season of the West Texas Chamber of Commerce will get underway this week at Stamford, former headquarters city of the organization. The first of eight district meetings will be held there Tuesday.

At the Stamford and following meetings affiliates throughout the West Texas territory will hold informal afternoon clinics on the six policy planks making up this year's referendum ballot as recommended by committees and submitted by the executive board following a recent convention session at Fort Worth.

Final determination on all issues, the binding yes or no vote, will be registered at the directors' assembly that will close out this year's referendum season early next month.

Meeting Schedule
The district meetings will be held at Lamesa, Wednesday; Plainview, Thursday; Amarillo, Friday; Balinger, October 21; Brady, October 22; Mineral Wells, October 23; and Graham, October 24.

The six policy planks if adopted will be the nucleus of WTCC's program of work in 1948. As submitted to the 176-member directorate for final decision, they are:

1. On improving rural economy and life.
2. On freight rates parity.
3. Authorizing (a) continuance of the West Texas industrialization campaign being carried on cooperatively by WTCC and the railroads, and (b) giving financial assistance to the joint committees now at work "provided the results of such aid be made available to all affiliates."
4. Directing the chamber, to continue its efforts to obtain hospitalization and surgical benefits for all full-time chamber of commerce workers in West Texas through a group insurance policy paid for by participating chambers.
5. Proposing creation of a Latin-American Relations Commission composed of West Texans, to work for improved relations with Mexico.
6. Inviting member towns to come forward with suggestions of additional regional activities to be pursued—not to duplicate, however, any part of WTCC's long-standing and current work program.

One other, a non-policy plank, provides the method for nominating local directors from the 140 affiliated towns.

Midland's 'Supreme Grand Champion'

Little George, Frank Williamson's four-year-old gelding, was reserve "supreme grand champion" of the recent Texas-Oklahoma Fair and Oil Exposition at Iowa Park, Texas. It was a show for registered Quarter Horses only, and judging was based on performance as well as appearance. Little George won first place in the halter class for geldings of all ages, first in the cutting horse contest, reining contest, and second in the calf roping competition. George Garrett, trainer of the horse, rode Little George in all events except the calf roping. Buster Cole roped on him, taking second money.

A. M. East Named Winkler County Hiway Engineer

KERMIT—Alton M. East, who has been serving as Winkler County service officer, has been appointed county highway engineer, according to County Judge J. B. Salmon. East resigned his service officer position to accept the engineer appointment, but will continue to assist the office secretary with veterans' affairs.

Employment of East as county engineer is the first step in a long-range highway planning and development program for Winkler County. The road building program was discussed recently when the Commissioners Court met with tax representatives of the many oil companies operating in the county.

The county engineer duties will be, Judge Salmon stated, to survey present roads in the county, work out a tentative plan of future needs and estimates of construction costs of these proposed roads. Since October 1, he has been going over county precincts with their respective commissioners, and plans to have the survey completed within a few weeks.

East is a registered professional engineer in the State of Texas, and among his other engineering experiences, was city engineer for the City of Midland from 1937 to 1941.

Methodist Church Revival To Open Here Wednesday

The Rev. P. Raymond Powers of Akron, Ohio, general evangelist for the Methodist Church, will conduct a 12-day revival and spiritual clinic beginning Wednesday, at the First Methodist Church here, the Rev. Howard Hollowell, pastor, announced Saturday.

P. Raymond Powers
The initial service will be held at 7:15 p. m. Wednesday, with morning and evening services scheduled daily through October 26. Spiritual clinics will be held at 10 a. m. each day. The night meetings will feature evangelistic preaching on the great themes of the Bible.

Mr. Powers has conducted revivals in many of the larger cities of the East, Midwest and Texas. He is a popular and forceful speaker and is well known in the nation's church circles.

The public is invited to attend both the morning and night services.

Waste Wood May Be Source Of Molasses

MISSOULA, MONT.—(AP)—Hopes for commercial production of molasses from waste wood have been expressed by Charles L. Tebbe, director of the Northern Rocky Mountain Forest and Range Experiment station.

Molasses already has been produced from this source at the forest products laboratory in Madison, Wis., and is being tested as a cattle feed at the University of Wyoming, Montana State University, Washington State College and the University of Idaho.

Tebbe said that if these tests prove the value of the feed, sawdust and other waste wood may take on great new value.

Supervisor Flies To 'Little Red Schools'

TRINIDAD, COLO.—(AP)—Visits to the little red school houses in remote sections are made by R. D. (Dick) Murray, Las Animas County school superintendent, in his own plane.

Supervisor of schools, in the state's largest county, Murray makes a round trip to Kun—more than 100 miles from the county seat—in his plane in less time than it takes for a one-way automobile journey.

Kermit-Andrews Road Is Reclassified As Class A Highway

KERMIT—The Kermit-Andrews highway, construction of which long has been delayed, has been changed from the farm-to-market class and is classified as a Class A State Highway. Ira Titus, first assistant district engineer, Pecos, announced.

Titus was in Kermit recently and informed County Judge J. B. Salmon that awarding of the contract on the route, which was supposed to have been let this month, could not be included in this month's contract lettings by the State Highway Department. Titus assured Judge Salmon the contract will be awarded in November.

Reclassifying of the road, the engineer reported, has made it necessary to revise all plans for its construction.

"I've got a job!"

● A brand new telephone operator... that's me. Just started today.

Like it? Yes, indeed... especially one thing... everybody is so friendly, I felt at home right away. It's a nice clean place to work, too; pleasant surroundings, and the switchboard is really fascinating. I'm going to enjoy working for the telephone company.

And here's a tip, if you're looking for a job. More operators are needed right now. Experience isn't necessary because you learn as you go along.

The chief operator at the telephone office will be glad to tell you all about it. Why not see her?

Southwestern Bell Telephone Co.

Dirt, Squirt And Quirt

— FARM, DAIRY AND RANCH NEWS —
By STANLEY FRANK

Approximately 200 head of cattle sold Thursday at the Midland Livestock Auction, operators reported, with some 450-pound mixed calves bringing \$19.70, fat cows up to \$16.60, and butcher cows \$10 to \$13 per hundredweight. Jersey cows scaling 800 to 900 pounds ranged mainly from \$8 to \$10.70, and heavy bulls to \$15.10.

Roy Barton of Brady, buyer for the Texas Livestock Marketing Association of Fort Worth, shipped several loads of cattle from here last week, and would have shipped more if he could have procured cars, he said. The calves had been bought on earlier contract. Those he has shipped thus far have averaged around 500 pounds, Roy reported. He left Thursday to go to Amarillo to receive cattle he has bought in that section.

M. L. Couey reported 1/4 to 1/2 inch of rain Wednesday on his ranch in Glasscock County, 38 miles southeast of Midland. He delivered his lambs the previous week, and plans to deliver his calves Monday; his lambs averaged 70 pounds. He recently received 1,024 solid mouth ewes which he purchased from Steve Stumberg of Sanderson to put on his Glasscock County country; and Friday he received two loads of solid mouth ewes from Clayton Webster of San Angelo to put on his ranch in Tom Green County.

Guy Sowell, Las Vegas, N. M., was a Midland visitor last week. While range conditions in that section are "spotty," he reported, his own country happens to be in good shape as a result of rains during the Summer and Fall, and his cattle are going into the Winter in good condition.

Walton and Charles Harral flew to Midland last week in their individual airplanes, after having delivered 4,000 lambs from their Cul-

Cattleman Completes 20,000-Mile Round-Up For Rare Dwarf Herd

CLINTON, ILL.—(AP)—Cecil Meyers has just completed one of the world's longest roundups and has come up with what he believes is the world's only herd of dwarf cattle.

Meyers, who resides in Chicago, spent 18 months and traveled 20,000 miles to find the five little cows and bulls which altogether weigh 1,015 pounds, less than the weight of one average steer. He has been exhibiting them at a Fall festival here.

The herd of bovine Lilliputians included Champ, Aberdeen Angus, 32 inches tall, 290 pounds, born in Illinois; Lady, Aberdeen Angus, 29 inches tall, 285 pounds, from Montana; Shorty, 28 inches tall, 170 pounds, from Iowa; Chief, Brown Swiss Angus, 21 inches tall, 80 pounds, from Indiana, and Babe, Hereford, 28 inches tall, 190 pounds, from Texas.

A spokesman for the National Livestock Producers Association in Chicago said dwarf cattle were quite rare. Meyers said agricultural authorities told him midget births of cattle occur once in every 1,500,000 births, and that the number was reduced further by a high mortality rate.

George Glass of Midland planned to deliver his calves Saturday of last week, if he could get cars in which to ship them. He contracted them earlier to Sam Baze of Stamford.

Jim and Bluford Thornton, Pyote ranchmen, were visitors in Midland Thursday.

About 226 pounds of paper are used annually for every person in the United States.

Kermit Plans Big Clean-Up Campaign

KERMIT—An all-out, city-wide clean-up drive is scheduled to begin in Kermit Monday, and continue through October 19. The campaign is sponsored by the Lions Club, and will be carried out with the cooperation of county, city, and fire department officials.

Lions President Strauss Atkinson announced Thursday that final plans for the drive were completed at this week's regular luncheon meeting. Schedules are being announced for various downtown areas on Monday, Tuesday and Wednesday nights. Lions Club members have signed up to "turn out" each of the three nights, from 6 to 8 p. m., and help with the sweeping and shoveling.

New Kermit Tourist Court To Open Soon

KERMIT—Keystone Courts, Kermit's first and, so far, only tourist court, will be practically ready for occupancy this week. I. D. Carrille and J. F. Simpson, owners, said. All of the 20 units which comprise the courts soon will be completed, they stated.

New and completely modern in all details, each cabin is furnished with metal furniture, each has a private bath, is air conditioned, and offers all accommodations of the latest in tourist courts.

Mr. and Mrs. Bill Read, formerly of Brownwood, are managing the courts.

U. S. mining operations use about 260 million cubic feet of timber annually.

Cold Rains Fall On Midland As State Gets Snow

A cold drizzling rain was falling in Midland Monday as snow was reported in some parts of Texas. The rain began here early Monday and drizzled enough for a runoff in the city by 8 a. m. Moisture amounted to .11 of an inch by the gauge of the Midland Municipal Airport at 8:30 a. m.

Ranchers coming in from the range area reported drizzling rain on their cattlelands. A farm district, 10 miles southeast had a drizzle or light rain, a farmer reported.

The temperature dropped sharply in Midland Sunday night and the low was 41 degrees Monday. Temperatures fell to 34 degrees in Lubbock and 32 degrees in Amarillo were reported. It was snowing in Amarillo Monday morning and drizzling cold rain in Lubbock and along West Texas Gas lines to Midland.

A four inch snow was reported at Dumas, which is near Amarillo on the North Plains. Some light snowing was reported Monday near El Paso.

Texas Weather Report Varies

By The Associated Press
Texas weather, which was a hedge-podge of snow, heat, gusty winds, dropping temperatures, rains, sand storms and floods Sunday fell into a standardized pattern Monday—cold and cloudy.

Temperatures dropped from border to border, and even lower mercury readings are predicted for Monday night and Tuesday.

Coldest spot this morning was Guadalupe Pass, with 24 degrees. Amarillo reported 31, El Paso 34, Pampa 38.

Snows in Panhandle
Heavy snow halted train and highway traffic Sunday night in several Panhandle sections. High winds piled snow six feet deep to stop northbound trains and buses at Texline, while other bus schedules west from Amarillo were cancelled in the Adrian-Dalhart area.

The winter's first real cold blast reached as far as El Paso where a trace of snow fell and temperatures dropped to the low 30's.

Mrs. Wyatt Fills Teacher Vacancy

Mrs. W. A. Wyatt is teaching physics, chemistry and commercial arithmetic since Mrs. J. D. McKirney resigned. Mrs. Wyatt is substituting until a permanent teacher for those subjects can be found.

SENIORS COMPLETE STAFF OF OFFICERS

The following students were elected to complete officer staff of the Senior Class: David Hyatt, treasurer; Genora Brown, sergeant-at-arms; and Shirley Cooper, senior editor.

Americans borrow some 500 million books a year from libraries.

Junior Class Names Cast For 'A Date With Judy'

The Junior Class, under the direction of Miss Verma Harris, will present "A Date With Judy" in the high school auditorium November 7. The last was announced by Miss

Harris Tuesday. Judy, the leading role, will be played by Royce Rae McKee.

Food Class Revamps Lab And Dining Room

"Shall we have a blue or a white tablecloth?" was the question in the third year Foods Class Tuesday. The girls are re-decorating the Foods Lab and the dining room.

There will be curtains for all the dining room windows. New window shades have been put up in the dining room. The window curtains were taken down and given a thorough shaking by some of the more energetic girls. The pantry shelves were cleaned and the food arranged in their correct places. An inventory was taken of all dishes, and the linen was examined.

Sonya Little is painting some pictures for the department as a home project. Other girls who are in the class are: Joan Lee, Anne Upham, Wanda Beauchamp, Lady Kidwell, May Sheen, Helen Harrison, Joyce Brown, Blanche Wells, Betty Ramsey, and Betty Mason.

FORMER STUDENTS

Bill Richards, a graduate of 1945 is attending Southern Methodist University in Dallas. He is assisting the coaching staff.

Mary Frances Sevier, formerly Mary Frances Carter, a graduate of 1943, and Ben Selvier, a graduate of 1942, are living in Long Beach, Calif. Ben is in the Navy.

Mickey Walters is enrolled in San Angelo High School. She was a sophomore at Midland High last year.

Betty Brannan who attended Midland High part of last year is now going to school in Andrews.

Sue Krupa, formerly Sue King, and a graduate of 1943, is living in Chicago, Ill.

Jane McMillan, a former Midland student, is attending her fourth year at Our Lady of Victory in Fort Worth.

Jessica Turpin, who attended her freshman year in Midland High School, is enrolled at Hockaday in Dallas for her third year there.

Jack Kirby is in the Marine Corp. He is a graduate of the class of 1947.

Griffin Westbrook, formerly Griffin Driver and a graduate of 1943, is living in Decatur, Ill.

Junior Bird, a graduate of 1943, is attending Texas Tech in Lubbock.

Sue Fowler, formerly Sue Shephard and a graduate of 1942, is living in Chicago, Ill. She was Caticoco Queen of 1942.

Sharon Cornelius is attending the State College for Women in Denton. She is a graduate of 1946.

MHS Students Take Written Driving Test

The students of the driving class of Midland High School have taken the written part of their driving test in anticipation of receiving their beginner's license.

The students, after receiving their beginner's license, will be able to practice their driving during the school period, and also at home.

During the first six weeks, the students have been studying the rules and regulations of the Texas driving laws.

Mrs. Parr is the instructor of the class.

Prepare For The Future

(An Editorial)

You have heard that in the world you are growing up in, the competition will be stiffer than it is now.

However, if you ever hope to attain anything in life the sooner you start preparing the better.

If school is dull for you—do you know what makes it dull? If you stop and consider, isn't it lack of interest? People dislike things of which they are ignorant.

It's there. Honestly, isn't the class or classes which is your pet peeve, the one which you never get around to studying?

You will find if you look over that geometry proof you could solve it—or if you can't you will be interested in the method in which it is solved. Try it.

Because something doesn't conform to your ideas isn't any proof that the thing itself isn't worth while.

Every subject taught in MHS has something to give, something that is valuable to you—if not now, later on in your life.

You must take the opportunities offered to you day by day—unless you're planning a street sweeping career. Even that position might not be open to you if a more intelligent street sweeper came along.

Education offers challenging opportunities. What are you doing with them?

Student Council Elects Richard Clarke President

1947 Band Sweetheart Is Presented Friday

La Verne Estes, band sweetheart, was presented Friday as the band and drill squad performed at the hall of the Midland Sweetwater game.

The band formed an "S" fringed by the drill squad, for the drill squad, for the Sweetwater, and played the Sweetwater school song.

The band then formed two parallel lines, on either side of which the Gold Jackets formed a bow and arrow.

The band drum major, Jerry McDonald, escorted the band sweetheart down the fifty yard line and as they proceeded across the field the arrows inarced north and south producing the effect of having been shot from the bow.

J. B. Wilkerson presented Miss Estes with a huge bouquet of mums. Miss Estes and her escort were then surrounded by the band and drill squad as they formed a heart and played "Let Me Call You Sweetheart."

Club News

Howard Bennett, new president of the F. F. A., presided at the meeting Thursday morning. The following reports were given: district meeting; James Lands; F. F. A. jackets; Howard Bennett; concession of the football game in Brownfield; James Lands; judging at the State Fair; Norman Drake.

J. R. Cuffman, advisor, reported on the progress of lamb feeding.

Talking in English while in the Spanish Club may be rather costly to some students. Anyone who talks in English during that period will be fined one cent.

To help this situation, it was decided that some Spanish games would be ordered with the money left from last year's treasury—to broaden the member's Spanish vocabulary.

Another way they plan help is to write letters to students in Spanish speaking countries. Those who wish to may do so by giving Miss Jackson their name and ten cents.

Las Habilidados elected new officers to fill in those offices left vacant by the members who were elected to the student council. Ann Upham was elected president. Aurora Mejilla, vice president, and Mary Lynn Manning, reporter.

The Stamp Club was called to order by Camden Chancellor. Bill Gilmore read an article on the Roosevelt stamp issue. Peggy Mincar brought some valuable first day covers.

The D. E. Club met Thursday for a business meeting. Don Smith presided. Committees appointed by the executives met to make their plans for the rest of the year. The social committee reported that they have planned a hayride and weiner roast for next Thursday night.

The Latin Club decided that each member must answer roll call with a famous Roman name or motto next time. John Steinburger, chairman of the play committee, reported that the committee had selected some plays for Miss Moore to read to the club. Two chosen were "The School Boy's Dream," and "The Slave Girl."

The D. E. Club met Thursday for a business meeting. Don Smith presided. Committees appointed by the executives met to make their plans for the rest of the year. The social committee reported that they have planned a hayride and weiner roast for next Thursday night.

Coming Events

Monday-Spelling in home rooms. Bulldog staff meets in 309 at 8 a. m. Band staff meets after school.

Tuesday-Assembly. Wednesday-Home rooms. Band staff meets after school.

Thursday-Clubs. Meeting of Band Aides in Band Hall. Junior High plays Lamesa here. The C squad plays in Odessa at 3:30.

Friday-Home rooms. Saturday-The B Squad team plays Odessa here at 8 p. m.

Home Ec Class Sees Film On Preserving

"As You Like Them," a sound film in technicolor, was shown Monday to the foods classes. The film demonstrated how a friendly young housewife might go about teaching a housewife-to-be to preserve fruits and vegetables in glass jars.

The movie was made in Hollywood by actresses who were not home economics graduates. Although they knew very little about preserving, by the end of the picture they had learned a great deal.

The picture was called "As You Like Them" because, although every home canner follows certain rules, she follows her own preference in deciding how to season and flavor food.

Dr. Wiggins Addresses Assembly Wednesday

Dr. Wiggins, President of the School of Mines in El Paso, spoke to the assembly Wednesday.

The theme of Dr. Wiggins' speech was "Champions of Education." Dr. Wiggins said, "The business of education is to take it on the chin; go down and come up ready to go again."

Midland High FFA's Attend District Meet

James Lands, Howard Bennett, Don Bizzell, and J. R. Cuffman, advisor of the district chapter, attended a district chapter meeting in Big Spring, Wednesday.

Representatives from Midland, Loop, Seminole, Seagraves, Coahoma, and Odessa met to work on plans for the program of work for this year. They also changed the name of the chapter from the Midland F. F. A. District Chapter to the Kanchos District Chapter.

Rules and regulations were worked out and tentative dates were set for the following contests: dairy judging, poultry judging, livestock judging, judging of crops, chapter conducting contest, public speaking, news writing, and farm demonstration.

J. Greene, manager of the Big Spring Chamber of Commerce, concluded the program with a speech on "The Advantages of Agricultural Training."

The M. H. S. band is planning to have well-trained musicians to step in ranks as present members graduate. Junior High pupils march, play and practice with the high school band.

Junior High Students Add To MHS Band

Ten students from Junior High have band uniforms, meet every requirement and are under the same regulations as the high school band members.

The clarinet section leads with four members from Junior High: Barton Grant, Ruth Wanelle Greene, and Keith and Lynn Miller.

Next is the coronet section with: Doyle Patton, Larry Mayfield, and Robert Stubbeman.

Larry Watts plays baritone; Basil Weaver, trombone; and Ann Bess Doyle, drum.

Larry Mayfield is one of the five sergeants of the M. H. S. band.

Club News

Howard Bennett, new president of the F. F. A., presided at the meeting Thursday morning. The following reports were given: district meeting; James Lands; F. F. A. jackets; Howard Bennett; concession of the football game in Brownfield; James Lands; judging at the State Fair; Norman Drake.

James Lands Is Leader In Area 2 Of FFA

James Lands, junior, is vice-president of Area II of the F. F. A. He holds the green-hand and the chapter-farmer degrees. Last year he was treasurer of the local chapter.

His projects for the past years have included: two hogs in 1945-46 and two sheep in 1946-47 which he entered in the spring stock show. This year he is feeding out four lambs to be entered in the stock show.

Other officers elected are Corrine Cowan, vice president; George Glass, secretary and treasurer; and Jean Ferguson, reporter.

Students Take Off While Teachers Study

"Turn about is fair play!" All the students of Midland High were dismissed at 2:30 p. m. Wednesday.

The Midland High School teachers were attending courses in education. They will meet twice a month.

ADVISORY ROOM 205 ELECTS OFFICERS

Swan Hagler was elected president of advisory room 205 Friday. Other officers elected are Corrine Cowan, vice president; George Glass, secretary and treasurer; and Jean Ferguson, reporter.

Italy's Navy Has Little But Pride

By ALBERT BLASETEU
ROME—(NEA)—Italy's navy has little left but its pride; that's still up to pre-war strength.

Of the 80 major vessels left—battleships, cruisers, destroyers, corvettes and torpedo boats—she will keep only 46. The rest, including three new battleships, Vittorio Veneto, Littorio and Cesare, each 35,000 tons are going to the Allies if and when they agree on how to dispose of the ships.

But the remnant of Italy's war fleet recently completed its first post-war training cruising. At its

ports of call, thousands of visitors lined the shores and scrambled aboard small boats for tours of the ships. Many of these visitors had been denied a look at their fleet for nearly 20 years.

Food Is Limited
With reduced operating funds, the navy has been hard-put to maintain traditional naval etiquette. When the Italian Fleet met the U. S. Mediterranean Fleet, the U. S. staff was invited aboard the cruiser Giuseppe Garibaldi for luncheon. But meager mess funds wouldn't provide an adequate meal and each officer was asked to contribute toward the luncheon with a vague promise of eventual repayment. Each knew he never would be repaid; all preferred loss of money to loss of face.

No such front has to be maintained for the Italian people who are eager for invitations to eat aboard the ships. In turn civilians invite officers and men to dinner in their homes.

Life in the Italian navy today is much like it was before the war. Food is plentiful but lacks variety. Spaghetti, the main food, is made of black flour as is the bread and there is no fat or cheese, but the sailors make few complaints.

Pay Is Still Low
Pay hasn't gone up despite rising living costs and an ordinary seaman gets 1200 lire a month, a little over \$2 or enough to buy two weeks' ration of cigarettes at current prices. He gets a special allowance if he has a family.

Senior officers get about 30,000 lire, around \$60 a month, and junior officers half that.

Officers, who before the war were monarchists, still are; peace hasn't changed that part of their political convictions. They admire American naval power but are reluctant to admit American naval superiority. They credit radar—they call it "the magic eye"—for the defeat of the Italian navy. One officer summed up the view of most when he said:

"If we had radar, there is no telling what would have happened."

Water in nature is virtually indestructible, continually changing from vapor in the air to liquid and back again but always remaining water.

Annual plants are about three-fourths water.

On Your Wedding Day
Your bouquet, those of your attendants, the church decorations must be truly magnificent, unusual, distinctive. We specialize in planning the floral decorations for weddings and receptions.

Polish Tommy Gunners Act As Policemen

WARSAW —(AP)—The tommy gunner, Poland's exponent of law and order, may some day disappear from the villages, towns and cities, but the day is not yet in sight.

Khaki-clad tommy gunners are everywhere. They are Poland's police. They guard government buildings, they flock to every sports event, they direct traffic and patrol streets.

Before the war, Poland had blue-uniformed, regular police armed only with a pistol.

A foreign ministry spokesman said today's law enforcers carry tommy guns because in this country they still deal with "people who carry tommy guns."

Children's Toy Balloon Travels 400 Miles

BASEL, SWITZERLAND—(AP)—According to a postcard received here from Vienna, a toy balloon released in Basel landed in Vienna, about 400 miles away. The balloon was released at a children's contest here.

IT'S NOT THE COLOR

Bulls become just as enraged before a white object as a red one. It is the sight of a strange figure, and not the color, which excites them.

Swiss Plan \$4,700,000 Foreign Charity Fund

BERN, SWITZERLAND—(AP)—The Swiss Federal Council's request for a \$4,700,000 appropriation for international charity activities has been submitted to the Swiss Parliament.

The council has tentatively fixed June, 1948, as the termination of this activity. An Autumn campaign for the collection of farm commodities for the benefit of war-devastated peoples was abandoned when a Summer-long drought reduced agricultural production.

Homesick Exiles Plan For 'Hogmanay Flip'

EDINBURG —(AP)—Honeymoon and hogmanay (New Year's) trips from America to Scotland are being planned.

W. A. Nicholson, manager of the Scottish Tourist Board now touring the United States and Canada with Thomas Johnston, board chairman, reported that a Washington airline operator is planning to advertise honeymoon tours, and that hogmanay "flips" may be inaugurated this year.

Two companies have already planned such trips for home-sick exiles who want to take part in the New Year's revels.

The United States uses about 130 million railroad ties a year, enough to build 43,000 miles of track.

The name of Pakistan given the new colored country, carved out of India, is taken from the names of the territories within the area.

Notice To Truck Owners!

We now have an Exclusive Truck Repair Department and are prepared to take care of all kinds of Truck Repair Work. Mr. Hastings and Jim Moore, specialists in this line, will see that all work conforms to our high standards.

Texas' One-Family Circus Prepares For 20th Season

By JACK RUTLEDGE
Associated Press Staff

The internationally known Gainesville Circus is a community affair, but another Texas circus is even more closely knit—the Garcia Bros. Circus, whose entire troupe belongs to one family.

The Garcia Circus is as widely known to Latin-Americans of Texas as the Gainesville Circus is to Anglo-Americans.

Three quarters of a century ago

there were four such shows traveling in Texas. They were much like the troupes that once entertained the peasantry of Europe.

Last One Remaining

Just one remains—the Garcia Bros. Circus, with headquarters in San Antonio. It is preparing for its winter season, which will open in Floresville in October.

Trucks are being painted, properties repaired, and the comedy and acrobatic acts rehearsed. Everyone connected with the circus is expected to lend a hand at any task.

Manuel Garcia, patriarch of the circus, says his is the only Latin-American circus of its kind in Texas—at least outside the El Paso area. We take his word for it.

Whole Family Acts

The show was organized 20 years ago, when Manuel was a clown. The show has continued and grown, but it still is composed of nothing but Garcias, all related either by blood or marriage.

Manola, 31, is clown and pianist. His son, Clyde, 8, is a trapeze artist and is billed as a star. Manola, Jr., 9, is a comedian who mimics his father's act. Robert, 6, is a dance specialist.

Rudolph is master of ceremonies. Esther and Consuelo are acrobats. Virginia works on the trapeze; Della, on the ladder, and May, on the elastic web. Flo is a dancer; Pilar, a wire walker, and Raymond a drummer and canvasman. The children go to school while on the road. Esther, 23, went to 10 schools before she received her high school diploma in Corpus Christi.

It's an exciting though rough life, and they love it.

POPULAR FALLACY

Galileo, contrary to popular opinion, did not invent the telescope. He was the first to use the instrument for astronomical purposes, however, and made many improvements. But the first telescope actually was made in the shop of a Dutch lens maker, Hans Lippershey, and, curiously, was inspired by a toy made by an unknown boy apprentice.

The name of Pakistan, given the new Moslem country carved out of India, is taken from the names of the territories within the area.

Swiss May Resume Gambling In Italy

LUGANO—(AP)—Lifting of restrictions against the casino at Campione, Italy, near here, is reported to be imminent.

The Swiss and Italian governments have compromised differences which arose over Swiss contentions that Swiss citizens were spending too many Swiss francs at the gaming tables.

It Can't Be Done

No matter how you try, you can't throw money away at Blowing Rock, N. C. A peculiar wind, blowing up the face of the precipice, returns to your hands any light object tossed over the cliff.

PALATE TEMPTERS

Several hotels in London keep trout in an underground building, where a stream of fresh water constantly flows through the tanks. The trout are in regular demand by customers, who choose their fish before they are cooked.

Box-Toppers Say Theirs Is No. 1 American Hobby

By RICHARD KLEINER
NEA Staff Correspondent
CLEVELAND, OHIO—(NEA)—

America's most popular hobby is entering contests. So says Albert C. Couture, founder and head of Cleveland's contest club. If you're inclined to doubt that statement, Couture has some pretty convincing arguments to advance.

He tells about one of the club's members, who has collected two cars, 10 radios, 23 wrist watches, three diamond rings and enough mixing machine, toasters, iron's and assorted junk to stock a hardware store, all by winning contests.

He tells about the six or seven contest publications, the correspondence schools which teach "contesting," the contest clubs scattered from coast-to-coast. He tells about 1946's biggest contest, which attracted over two-and-a-half million entrants.

Contesters, it seems, have a solid claim to their "America's Number One Hobby" assertion.

Writ's Contest Column

Couture, who has been sending in box-tops for more than 10 years, writes a column for a national contest publication.

In many cities, Couture found that contesters profited from being organized into clubs. A few months ago, he started one in Cleveland. There were only 20 persons present at the first meeting in July, and but 36 in August. The September meeting, however, drew over 60.

The members hear specialists on various phases of contesting at their monthly meetings. There's one man who is a whiz at quizzes; another an expert jingler—and height of specialization—a woman who is a recognized master at scrap statements.

A "statement," the most prevalent form of contest today, usually runs something like, "State, in 25 words or less, why you prefer Dr. Feline's Cat Food."

Four-Point Program

Mrs. X, the 23-wrist-watch-woman, who would rather not have her name used because judges are funny about the same people winning too often, has a four-point program for writing winning statements:

1. Know the product—and know its competitors. Don't say, "I like Fuzzy-Foamy Soap because it smells too, too exotic," but, instead, give a specific, concrete answer, based on a real advantage the product has over its competitors, which you've discovered by actual use.

2. Know the advertising. But don't merely quote an advertising slogan. You must have a thorough knowledge of the product's selling points.

3. Put yourself in your answer. In other words, be original. When a judge has to look at a couple of million answers, he'll flip through them until one, that is not exactly like all the rest, hits him in the eye.

4. Be suitable and apt. If it's a soap contest, don't say you like Fuzzy-Foamy because it fits your soap dish. They'll never sell any soap that way. Tell them you like its rich, sudsy lather, or how gentle it is on grimy, red paws, or how it makes your filthy baby clean in a half-jiffy.

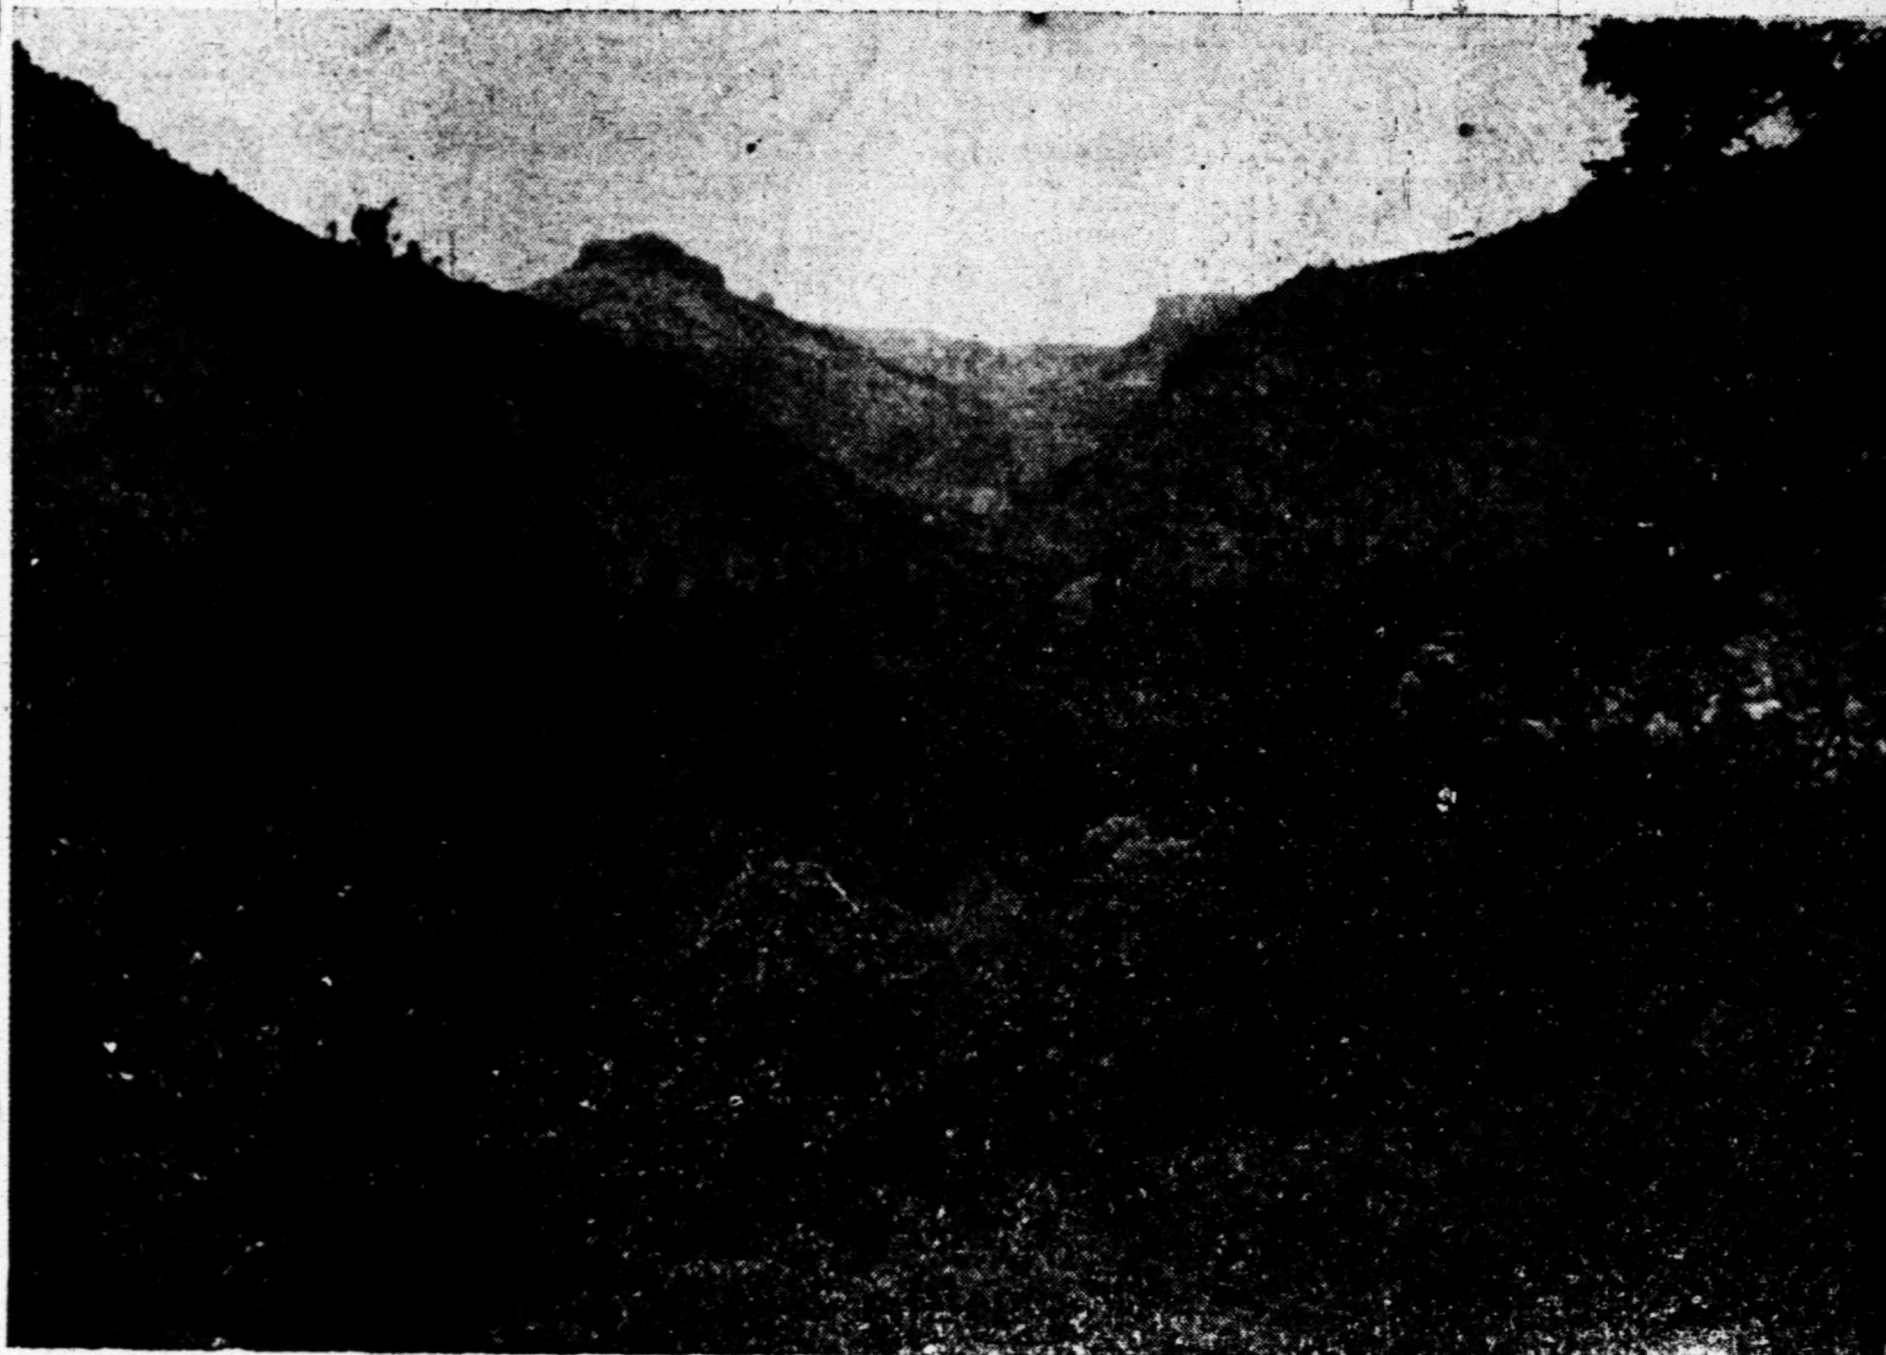

Many Don't Follow Rules

"Most beginners," says Mrs. X, "make their mistake by not obeying the rules. If it says print your name and address, it means print. Or they leave out the box-top, or put in a box-top from the wrong product, or send their entries too late, or forget their names and addresses."

Although sponsors, naturally, don't like to have the "reasonably accurate facsimiles" used in place of the genuine box-tops, Mrs. X won a \$200 diamond ring with a soap label facsimile.

Another point contesters have to watch closely is income taxes. In a good year, the top contestee will knock down about \$100,000. The Internal Revenue Department keeps an eagle eye on winning lists, and woe to the winner who neglects to report his prizes.

Typical Scene At New Boy Scout Camp In Davis Mountains

Here is a typical scene on the C. Hunter Strain ranch in the rugged but beautiful Davis Mountains which has been acquired by the Buffalo Trail Council, Boy Scouts of America, as a permanent council camp site. A camp development committee has been named, and plans are to have the 6,000-acre tract ready for Boy Scout camping

by next Summer. Purchase of the camp site culminates a project instituted several years ago by West Texas Scout leaders. O. W. Brennehan of Midland is president of the Buffalo Trail Council and P. V. Thorsen of Midland is the council executive.

Chicago Man Needs More Gift Horses For Pet-Loving Children

CHICAGO—(P)—Maynard Dowell, Chicago executive whose theme song always has been, "Horses, Horses, Horses, Crazy Over Horses," found out that 16,142 other persons are, too.

Dowell, who has kept a stable since he was a boy, recently decided that the press of business was too great to permit him to give adequate attention to some 20 of his "pets." So he ran an advertisement in a Chicago newspaper offering the horses free "to horse lovers who can provide good homes and proper care."

Shortly thereafter, Mr. Dowell was called out of town on business. When he returned September 8, he found 16,142 replies, most of them from children—and most of the children, girls.

Draw Names From Hat

"I think I'd better go away again," he said.

"My interest is in getting homes for my horses," Mr. Dowell declared, "not in worrying particularly whether people's personal desires are satisfied. Lots of people want pets who have no business with them, and then the horses suffer. But you get a little emotional about things after you read a lot of these kids' letters."

"So I've decided the only way we can be fair about this is to put all the names in a hat and maybe draw 50, and then investigate. This thing has gotten all out of proportion."

Dowell, President of the American Standardized Building Corporation, a steel fabricating concern, said that when he inserted the ad, a newspaper had written a story containing his home address and that as a result "nobody gets any sleep."

"People are there day and night," he said distractedly. "The place is crawling with Western Union boys and special delivery mail carriers. I wish I had several thousand horses to give away."

Even the stable where his pets are quartered has been overrun with people anxious to look a gift horse in the mouth, he said.

"New Freedom Gas Kitchen"... Clean, cool and "shipshape"—with its space-saving fold-up seats and sliding panels in the breakfast nook. But even more important are the many ways it saves you work! Saves shopping because a new Serval Gas refrigerator stores enough food for a week. Saves dishpan drudgery because a new automatic Gas water-heater supplies enough really hot water for a do-everything dishwasher. Saves cleaning—thanks to a special ventilating system that removes greasy cooking vapors at their source. As for the greatest work-saver of all... just look at this new automatic Gas range! Make it the start of your "New Freedom Gas Kitchen"—today.

10 reasons why it's America's easiest kitchen to cook in!

Here are just a few of the reasons why a new Gas range is the first thing to look for in this or any modern kitchen:

1. It's Automatic—Gas turns on and off by clock control. Cooks a complete oven meal even while you're out of the house!
2. It's Fast—high-boil heat available instantly!
3. It's Flexible—hundreds of top-burner heats!
4. It's Cool
5. It's Clean
6. It Bakes Splendidly
7. It Flame Broils
8. It's Exact
9. It's Economical
10. It's "CP"—Look for this seal. It's your buying guide to the best modern features in any Gas range!

Dollars And Policies

Looking forward to the day when the Marshall Plan shall become the "Marshall operation," Senator Byrd has called for an accounting. He wants to know how an estimated \$20,000,000,000 was spent on foreign aid in the last two years, and the results. He also wants to know what specific results are expected from forthcoming expenditures under the Marshall Plan.

The request for a bill of particulars on future aid seems a good idea. The general objectives of such aid are already known—the alleviation of current critical hardships, the restoration of Europe's economy, the stabilization of currencies, the support of free governments against communism.

Other information that Byrd seeks, may be implicit in the report of the 16-nation European Economic Conference. But a desirable addition would be a list of what particular sums are expected to achieve, as well as a lump-sum total of the money to be requested.

The economy-minded senator from Virginia is not necessarily displaying opposition to the Marshall Plan when he asks for an accounting. Surely no American wants to see his government write a blank check for Europe. A requisition for several billion dollars should be justified as well as itemized, even though results cannot be guaranteed. Such a requisition might speed final action when Congress meets to debate the aid-to-Europe program.

There is less promise, and perhaps less point, in Byrd's demand for an accounting of the last two years' spending in Europe, even though there are good reasons why the accounting should be made. It can be said in advance that it would disclose some dismaying information. There has undoubtedly been some appalling wastage of American funds, but the fault does not lie entirely with the American government.

It was certain when the war ended that the United States, untouched by battle and possessing great wealth in money and productive capacity, would have to help Europe. The victorious and occupied countries there found themselves exhausted and confused. The conquered nations were a responsibility, as well as a liability. A new start had to be made from near ruin.

America's first efforts to help may also have been confused, but there scarcely was time for detailed planning. Political differences were secondary; here were hungry, ill-clad, homeless people.

But for the Soviet government, their politics would still be of minor importance. The American government was reluctant to accept the political challenge. It hesitated to admit that aggression and threats to free government did not end with the Nazis' defeat. It was Moscow's decision, not Washington's, that the Communist governments would not participate in a united effort toward Europe's reconstruction.

American foreign policy in the last two years may seem awkward and fumbling. Mistakes, arising from motives of decency and from a desire to trust and cooperate until trust and cooperation were shown to be impossible, may have been made. But now, American policy is positive. The "Marshall operation," if and when, will probably cost considerably less than the largely non-political aid of the last two years. America is now hard-headed because she has to be. But her earlier warm-heartedness, while expensive, is nothing to be ashamed of.

Wheat Or Meat

Herbert Hoover suggests that we restrict use of wheat for animals and save it for humans as a step toward feeding a starving world. This is good enough advice from the cost viewpoint, because bread is the cheapest human food. But from a nutritional standpoint, Hoover is on thin ice.

Proteins are absolutely essential to health, strength, growth. Wheat is not a complete protein itself. But feed it to cows, hogs, sheep, hens, and it comes out as the complete protein, in the forms of meat, fowl, milk, cheese and eggs.

The only complete protein that can be produced without grain is fish. Unless we propose to live on fish, in view of the drought-caused corn shortage we must feed grain to animals to get the proteins which make the difference between lowest-level subsistence and healthful, zestful, productive living.

Discouraging Reaction

Judging from current reports, the reaction of some Chinese politicians to the findings of General Wedemeyer's mission is both silly and discouraging. The reports say that if American aid to Generalissimo Chiang is cut, or made subject to supervision, a rightwing group is set to launch an anti-American propaganda campaign.

The United States poured hundreds of millions of dollars into China to aid the fight against a common enemy. These funds seem to have been misused, largely to fatten the Kuomintang government. America does not intend that further funds be so misused. Yet, instead of instituting any reforms, these politicians would embark on a program almost certain to estrange this country and complete the collapse of the Nanking government. It may be hoped that wiser heads among the Chinese leaders will prevail in the end.

Executives in Hawaii take from one to three hours for lunch. And we thought our waiters were slow.

'He Isn't Chasing Me, Mister'

Dean's Counsel Guides College Freshmen

By ALICIA HART
NEA Staff Writer

All set for your freshmen year in college? You'll adjust more rapidly to college life if you'll map your campus campaign before you walk through the ivied gates.

Ready to master-mind your strategy is Dean Florence Beaman, of New York University, whose advice is sought by hundreds of freshmen each semester. When you arrive on campus, says Dean Beaman, plunge right into campus activities in which you are interested. Whether it's dramatics or hiking, through such activity you'll quickly meet kindred souls, says the Dean.

But don't, cautions our strategist, be too hasty about singling out one or two girls as bosom

chums. "If you limit your circle of friends, you miss the fun offered by broader participation in college life," she says.

And don't, warns the Dean, let your new-found freedom from home restrictions tempt you to stay up until all hours. Or nibble between meals on rich tid-bits. Or shun physical exercise. These indulgences drain vitality, dull your alertness and are apt to have a bad effect on your complexion and your figure.

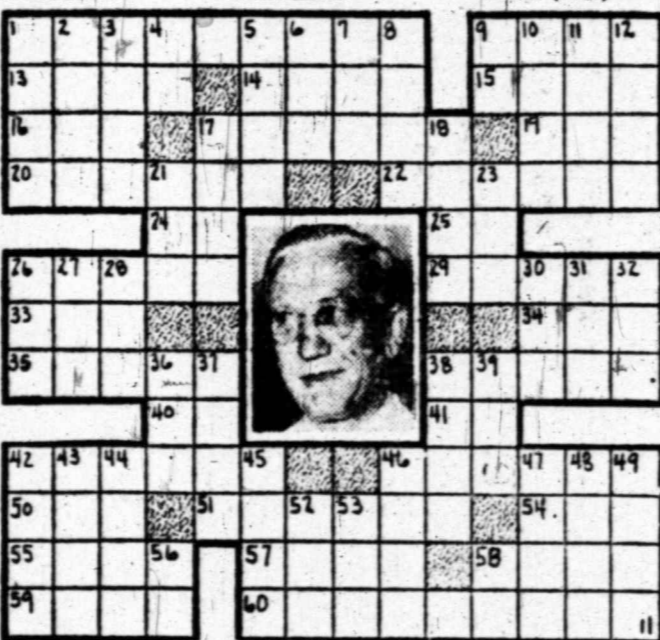

DEvised SYSTEM

Dr. A. E. Douglas, who devised the system of dating ancient ruins by the growth rings in the trees used by the ancient builders, is an astronomer. By studying these annual rings it is possible to tell almost to the year when the timber was felled.

Legion Women Asked Universal Military Training

By ADELAIDE KERR
AP Newsfeature Writer

The new head of the American Legion Auxiliary's 820,000 members expects to spend her main force in office in an effort to convince American women of the need for universal military training.

The auxiliary's new president is handsome Mrs. Lee Hutton, wife of a postoffice employe of Excelsior, Minn.

"If it is necessary to establish a speakers' bureau of American Legion Auxiliary women to inform American women on the question, it will be done," Mrs. Hutton said at the close of the Legion's annual convention in New York, where the Auxiliary endorsed universal military training.

"American women hold the whip hand on this question of universal military training. I understand they have snowed under their congressmen's desks with an avalanche of mail protesting this measure. We mean to keep at it until we get a still bigger pile of mail from women in supporting universal military training—and that's going to be our main job."

Many American women object to universal military training because they think it means sending their husbands and sons to war. Actually it means building up the country's military strength to such an extent that this can keep us out of war. Moreover, such training makes healthier, better specimens of our country's young men. American women need to be told these things.

In working on that task Mrs. Hutton will make the customary Auxiliary presidential tour visiting all the states, the District of Columbia, Panama, Hawaii and Alaska. Her blue eyes sparkled with eagerness as she outlined her

plans. Although she is in the middle-register years, Mrs. Hutton, with her snow-white hair, fresh rosy skin and flashing smile, could still make the stag line quiver. She was born in Excelsior, went to school there, worked as a business woman for several years and then married a school friend veteran of World War I and settled down in her home town. The Huttons have no children.

Mrs. Hutton came to the Auxiliary's head via the ranks and the road of hard work. She served as president of the Excelsior unit four different times between 1922 and 1938, moved up to the district presidency and on to the chairmanship of national committees on child welfare, finance and rehabilitation.

She said that another important part of the Auxiliary's program for 1947-48 will be continuance of its rehabilitation program.

"In the last two years we trained 10,000 women to visit the veteran who has to be hospitalized and help him or his family in the way that is most needed," she declared. "Next year we hope to double that number. There is important work to be done in rehabilitating the veteran after he leaves the hospital, in helping him to find a job, and keeping his spirits, and in assisting his family in various ways. We need thousands of American women for this work."

"Child welfare and Americanism are two other important points. Through our youth program we shall work hard to teach our children what this country's way of life has and gives that other countries do not have and give."

The Roman Colosseum was inaugurated by Titus in 80 A. D., and probably seated between 40,000 and 50,000 people.

THE BACKGROUND COMES FIRST

When you are not feeling well, and are tempted to buy some highly advertised remedy for which great claims are made, ask yourself a few simple questions. What is the background of the manufacturer of the remedy? Has he been educated in medicine, pharmacy, or chemistry? Are the claims made for his remedy based on scientific fact? Is it not possible that you have been influenced by exaggerated statements? Don't risk your health by experimenting with medicines of unknown value. Consult your physician. He alone is qualified to advise you in matters pertaining to health. If he prescribes, bring his prescription to us. It will be filled exactly as ordered.

Interest In Royal Wedding Bespeaks Loyalty To Throne

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The eagerness and affection with which England is preparing for the forthcoming royal wedding, despite the worries of a depression which is rocking the very foundations of the country's economy, speaks in no uncertain terms of the country's loyalty to the throne.

It also seems to give an answer in the negative to the much debated question of whether Britain is swinging toward communism.

Princess Elizabeth will have a wedding such as befits the girl who is expected one day to sit upon the throne. She and Lt. Philip Mountbatten, handsome prince of the Greek royal house, will be married in ancient Westminster Abbey, surrounded by the heirlooms of England's greatness. There will be a magnificent procession through London; a great reception; eight wedding cakes weighing 300 pounds or more each; many and wonderful wedding presents, and the whole country will be in fête.

However, in these hard times the wedding will lack the pomp and splendor of bygone days. Costs will be kept as low as possible. The princess will forego a tulle-trimmed gown and even find the august Lord Chamberlain announcing that gentlemen attending the wedding may wear ordinary lounge suits instead of the

customary morning dress of long tails and striped trousers.

Thus due reference will be paid to slim pocketbooks. Still, the people on the whole didn't want an out and out "austerity" wedding for their beloved princess. And the reason for this attitude is that the king and queen and their children are looked upon as a part of the English family as a whole, comprising all classes. In war and in peace, loyalty in modern times has marched with the "rank and file." It belongs among cherished traditions.

Furthermore no political line can be drawn about present day British royalty. It exercises no influence on the political thoughts of the people. It is head of the social structure but knows no class.

HAD DIFFERENT NAMES

The Dead Sea was not known by that name in Biblical times. The Bible calls it "The Salt Sea," "The Eastern Sea," and "The Sea of the Plain." Arabs called it "Bahr Lut," which meant "Lake of Lot." Because of its salt content, which is four times that of normal sea water, the lake is almost devoid of life, hence is very deserving of its name "Dead Sea."

Carillon Industry Finds New Home In South Carolina

GREENWOOD, S. C.—(AP)—This western Carolina industrial city may soon become the new home of an old Dutch bell foundry famous for its carillons.

Harry T. Van Bergen of the 152-year-old Van Bergen Bell, Chimes and Carillon Company of Heiligerlee in the Netherlands expects to start producing the firm's product here as soon as he can obtain sufficient tin. He hopes to sell his tuneful chimes to American churches, universities and memorial organizations.

A number of years ago James C. Self, Greenwood industrialist, became interested in carillons while on a European trip. At Cologne, Germany, he was impressed with the music from the carillon in an old church and conceived the idea of having one for his cotton mill village.

Met At World's Fair

Later, at the New York World's Fair he met Van Bergen, who was exhibiting his carillons. They talked business tentatively and when the war came along Van Bergen, not wanting to return home, accepted Self's offer to buy the 32-bell carillon for installation in a memorial tower at the Cattle Self Memorial Baptist Church in South Greenwood.

Van Bergen came to supervise the work, liked the place, brought his wife and young son from Heiligerlee just in time to escape the German invasion. He knew his carillon business would have to wait out the war, but Self set up a foundry to make mill castings and put Van Bergen in charge.

Seven Generations

Now the 48-year-old Van Bergen, scion of seven generations of bellfounders, is impatient to get on again with his carillon-making. He has been held up, however, by difficulties in obtaining block tin used in bell metal, 20 per cent of which is tin and 80 per cent copper.

Van Bergen expects to be joined soon by his brother, Andries. Tuning the bells, which is done by thinning down the interior surface to produce the desired tone, is the real art. The way the Van Bergens do this is somewhat of a family secret, he says.

The largest European carillons, he says, never exceed 64 bells. At least two in the United States, those in the Bok Tower at Lake Wales, Fla., and in Riverside Memorial Church, New York, have 72 bells.

Experts Say Cities Of Tomorrow Will Sprawl As Populations Dwindle

NEW YORK — (AP) — U. S. cities had better make up their minds they will continue to lose population and may eventually have about half as many residents as they have today, says the Tax Institute in its quarterly publication Tax Policy.

The institute, a national organization for the study of tax problems, pictures the city of the future not only as having less people, but as being somewhat larger in area. Transport facilities are likely to take up far more space than at present and the institute believes there should be spacious public buildings; plazas; shopping, art, education, and religious centers; parks and parkways.

Land in cities of the future is likely to be a drug on the market unless appropriated for such purposes and in any case there is likely to be considerable reduction in land values, the institute suggests. Detached dwellings with grass plots may well return to currently congested areas.

Confusion May Prevail

Suggesting that traffic congestion is one of the major problems, the institute denounces current reasoning which insists that "if we improve traffic conditions, it will encourage more people to start commuting and that will intensify urban blight and also result in further traffic congestion."

So, the institute says, we have people advocating or at least implying that we mustn't make it easier for city dwellers to have cars and use them, that we should discourage suburban development, and that we should try to halt the outgoing population back into the city.

A period of confusion is likely to prevail while the present cities are converted to their future status, but the institute predicts a greater stability for urban land values once process is complete.

Surveying present trends, it deduces a picture of the typical future city. As a political and physical entity it would be much less clearly defined than the present city. It would merge gradually into the countryside.

Three Classes Of Population

Although resident populations might be only half as numerous as at present, there would be three other classes of population which would be increasingly important. There would be the semi-residents who would often leave the city for week-ends and at other times. There would be a sharp increase in the number of commuters and there would be a heavy increase in "contact populations" who would work and live outside the city but who would make frequent trips to the metropolitan area.

The city of the future will be a "fluid city." "It will be the hub of a great regional community, or

community of communities." "Suggestions for a new type of metropolitan government embracing the central city, satellite cities, suburban fringes, and even contiguous rural areas have already been put forth by thoughtful persons," the study observes. "A new pattern of local government must of necessity be evolved to fit the new type of urban-city economy."

Used Car Owner Finds Bomb-Filled Trunk

CLEVELAND — (AP) — Six bombs confronted Steve Loska, 19, when he opened the trunk of the used car he had just purchased.

Hurrying to a phone he had a squad car, several detectives, a ballistics expert and a few assorted policemen on the scene in a jiffy. Investigation disclosed the car's former owner was a fireworks manufacturer, who had forgotten to remove all of his samples.

Relatively few insect mothers ever see their grown-up children.

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority

Today's interesting hand was sent to me by Jerome Scheuer of Boston, who played it in a rubber bridge game at the Boston Chess Club. This is one of the oldest clubs in the United States. It actually was a chess club, but today its members probably are not outstanding chess players. However, some of New England's finest bridge players are enrolled. In commenting on this hand, Scheuer said he thought that North should have bid two diamonds instead of one spade. Also, he pointed out that East's double was very bad. Remember that at rubber bridge very little is gained by setting the contract one trick, doubled or not doubled. Unless you are positive of setting a hand.

Weather Gadgets Can Measure A Butterfly Sneeze

By ARTHUR EDSON
WASHINGTON—The greatest collection of weather-testing gadgets in history, including some never seen before, is on display here. There's everything from an automatic weather-radio station which can be dropped from an airplane to a wind machine so sensitive it could measure a butterfly's sneeze. "Yet it's strange about this exhibit," said weatherman C. O. Schick moodily. "In spite of this stuff, most people still think all a weatherman needs is a thermometer—and a window to look at the sky out of." In case you, too, belong to the thermometer—window school of thought on weather prophets, this is a fine time to change your thoughts. One glance at the collection is convincing. The exhibit is a part of the International Meteorological Organization's first conference since its 1935 meeting in Warsaw. The world's weathermen, from 43 nations, spend two weeks swapping information and gazing at gadgets. For instance, there's the spectroscope. The only one ever built is attending the exhibit. It can peek at a cloud, and estimate how much rain is there, down to the final drop. It will be on the first team when further data is gathered on how to make rain by dropping dry ice into a cloud. You can bet your last spectroscope on that. Not For Home Use. Passing by the variometer and the sling psychrometer with carrying case, for obvious reasons, let's look in on the wind-measuring machines. The butterfly sneeze job is too refined for the average household. But there's a wind measurer out which, at \$225, is cheap enough for a yacht or gun club. An it's pre-war model. When we strolled by, it was on point at an electric fan, north by northwest, at 31.2 miles an hour.

two tricks, you should not double. If you do, you may give the dealer information that will help him to make the contract. That is exactly what happened in this case. Scheuer won the opening spade lead in dummy with the king, cashed the spade ace and ruffed the third spade with the five of clubs. He realized that, in order to make the contract, the heart suit had to break. He cashed his four heart tricks, discarding four diamonds from dummy. Then he cashed the ace of diamonds in dummy with the deuce of clubs. Dummy's fourth spade was led. East was forced to ruff with the seven of clubs, and Scheuer over-ruffed with the eight. He then led the ten of clubs, and all East could do was to cash the ace and king. The last trick was won in dummy with the club jack.

FUNNY BUSINESS

"All I said to the income tax department was 'so what!'"

COOLED BY HEATING

Electric fans increase a room's temperature instead of lowering it. Body temperature being higher than the air, relief is felt when a breeze strikes it and carries away heat from the body.

UN Child Fund Heads Say—Country-By-Country, Europe Faces Hardest Winter In Eight Years

By MAURICE PATE, Executive Director, UN International Children's Emergency Fund.

WASHINGTON—(NEA)—This coming winter will be the hardest that the people of Europe have known in eight years of war and peace. This is a measured prophecy. I have just returned from a survey of European countries. The severe drought which has reduced crops in Europe has had a three-fold disastrous effect on the exhausted people:

1. The city populations will have less than two-thirds of the native food they need until the next harvest.

2. Cereals which might have recovered the great loss of livestock (particularly milk cows) and poultry, as well as to provide a surplus for export in trade for invaluable protective foods, will now in large measure have to be imported.

3. This great demand for food imports will have to outweigh the import of fertilizer, seed, and machinery needed for economic recovery.

ICEF needs money. The International Children's Emergency Fund under the United Nations was conceived as an emergency measure to help restore the long suffering children and adolescents of Europe to normal health. The resolution creating the Fund stipulated that the financial assets are to be made up of contributions from governments, organizations and individuals, plus any assets available from UNRRA. At the present time, the Fund's resources amount to approximately \$26,000,000, of which \$15,000,000 was the initial United States contribution.

This amount is insufficient to help to maintain even the present level of child care in Europe and the Far East. The Program Committee of ICEF, meeting in Paris last month, considered reports submitted by a dozen countries detailing the urgent needs of their children. Here are a few of the items included in those reports:

Rumania: In some districts in the famine area of Moldavia the infant mortality rate this past year was as high as 50 per cent.

Hungary: The amount of milk necessary to maintain even minimum health standards for the child population is nearly 2.9 billion pounds for one year. There are only 1.2 billion pounds available, according to Dr. Nicolas Kun, Chief of the Bureau of Protection for Infants. That the present supply of milk, plus the proposed allocation of milk from the Children's Fund, will still be inadequate. Supplementary aid by the ICEF will be made on the basis of medical need.

More than half of the children are inadequately clothed and, in view of the present economic situation, the possibility of an immediate change is negligible.

France: The ration entitles children from birth to adolescence, and nursing and pregnant mothers, to milk, but actually milk supplies are insufficient. Such milk as is available in France is issued to children only on the basis of medical certificates.

Evidence of malnutrition in France is shown by the mortality rate by a lack of growth among children examined, and by examinations of children at Marseilles which revealed a high rate of anemia. France has not up to this time received any international governmental relief.

Finland: The number of war orphans under 16 years of age is 43,635. Before the war, Finland exported milk. Now the production is 60 per cent short. Vitamin D and cod-liver oil are so short that Finland has requested that cod-liver oil should be given high priority in any supplementary aid for children. Ten per cent of the children in rural areas cannot go to school for lack of shoes.

Austria: In every area, from 60 to 75 per cent of school children examined were found to be underweight and 40 per cent of

all children are seriously undernourished. Many children are unable to go to school in bad weather because they have inadequate clothes and shoes.

Greece: Forty to 45 per cent of all children suffer from malnutrition. There is a severe stunting of growth in all children, particularly between the ages of 10 to 14 years, as an aftermath of the hungry war years. There are 320,000 orphans. The Government estimates the number of calories available from native supplies on a per capita basis as 1070.

Czechoslovakia: Although Czechoslovakia has shown marked recovery since the war, the children are still suffering from six years of deprivation; 33,000 have active glandular tuberculosis. At the present time, the distribution of whole dried milk in urban areas is based on a doctor's prescription for infants up to one year of age. For these infants particularly in Slovakia, the most urgent need is dried skim and whole dried milk.

Bulgaria: In the year 1945-46, 31.8 per cent of high school boys examined did not gain in height and 37 per cent lost weight. Bulgaria, ordinarily an agricultural country, has suffered severely from three successive years of drought.

Italy: The Government's present relief program provides supplementary food for 1,750,000 children and nursing mothers out of a much larger total need. This food consists of from 600-700 calories daily. The present ration programs provide only about 1000 calories. The rest of the food has to be purchased on the free market and poor people have extreme difficulty to buy at the prevailing high prices. The problem of selecting the persons to be assisted has been difficult to solve because of the large numbers of mothers and children who, as a result of war, need urgent assistance.

Poland: The infant mortality rate for 1946 was 13 to 20 per cent of live births as compared with four per cent in the United States and Switzerland. An abnormally large number of children have tuberculosis; rickets are widely prevalent in children under seven. Thirty per cent of the child population are suffering from malnutrition. There are over 1,100,000 orphans or half-orphans, largely as a result of the war. The milk supply in Poland, as in other countries, is very inadequate. Only 58 per cent of pre-war cows remain, and there are inadequate fodder supplies for even this number.

AVERAGE IS EQUAL

The average intelligence of boys and girls is about the same, but there are more extra bright boys, and more extra stupid ones.

Poland Finds War Loot In Czechoslovakia

WARSAW—(AP)—The Polish government, having recovered a major share of industrial machinery and equipment which was carted off by the Nazis during the war, now is concentrating on getting back other former properties found in Czechoslovakia and Austria.

Equipment recently returned from Czechoslovakia included much electro-technical material. Long-distance telecommunication equipment, valued at 1,500,000 Czech crowns, and considerable factory machinery were retrieved by the Revindication and War Reparations bureaus.

In Austria, in the American Army occupation zone, the Poles found 111 carloads of equipment for the Moscovite nitrous compounds production plant.

Crime Pays Off

In an agreement approved by a Chicago court, Roger (The Terrible) Touhy, above, and two other gangsters will split part of the money they obtained in a Currency Exchange robbery in 1942. When the gang was caught, they had \$13,605, most of the loot. To avoid more legal expense, the Currency Exchange settled its claim for \$9532. The remaining \$4073 will be divided among Touhy, two accomplices, all now in penitentiaries, and the estates of two others, who were killed in the gang roundup.

A goldfish has teeth in its throat and chews its food thoroughly before swallowing it.

It Pays 'To Know Your Best Friends'

CORPUS CHRISTI—(AP)—It's a wise woman who knows her best friend. Police Dispatcher O. B. Wilson of Corpus Christi decided. This was the case:

A woman went shopping with a friend. While she tried on a new dress, she gave her friend a purse containing \$20 in cash and a wrist watch to hold.

When she got out of the dressing room, friend and purse were gone. Scientists are continually searching for means of diluting radium and making it work by proxy, due to its excessive rarity.

This Woman Needs An Extension Cord

LEWISTON, ME.—(AP)—A woman returned her new electric iron to a store with a complaint that "it doesn't hold heat properly."

The service department tested it, found it in good order, and suggested that she have her home's wiring checked.

"Oh," she replied. "I don't have electricity. I take the iron across the street to my sister's home, plug it in until it gets hot, then take it home. But it doesn't seem to hold the heat long enough for me to do much ironing."

Maid Keeps House And Hunts New Husband

DALLAS—(AP)—A lot of women will tell you that there are more important things in this world than husbands.

A negro pastor in Texarkana was moved to West Texas. His wife worked as a maid. Naturally, her employer was worried until the maid said:

"No mam, I ain't with the Reverend no more. He wanted me to sell my house and move out there with him, but I told him, no siree. I figured it would be a heap easier to get a new husband here than a new house in West Texas."

Psychiatrist Says Santa Story Harms Child's Thinking

TOPEKA, KAN.—(AP)—A psychiatrist, suggesting that parents stress honesty, condemned the practice of teaching children there is a Santa Claus.

You can get just as much fun out of Santa by telling the truth, said Dr. Brock Chisholm.

Besides, telling your children the St. Nicholas legend and other myths are truths might handicap his thinking abilities.

Dr. Chisholm explained it this way:

"If the children think about it, they know there is no Santa Claus and that their parents are liars—so they don't think. It's too unpleasant."

Walnut Growers Say Nuts To High Prices

LOS ANGELES—(AP)—The California Walnut Growers Association says nuts to high food prices.

It announced prices on the 1947 crop 23 per cent lower than in 1946, or 39 to 47 cents a pound retail compared with 49 to 55 cents last year.

General Manager Carlisle Thorpe advised housewives that walnuts, rich in protein, can be used as a substitute or "extender" for high-priced meats.

Every language in the civilized world is spoken, and newspapers in nearly all of them are published within the city limits of New York.

U. N. Studies Ways To Open Channels Of World News

By ADELAIDE KERR
AP Newsfeatures Writer

After months of work and discussion the United Nations has hammered out plans for the first International Conference on Freedom of Information and the Press to start in Geneva, March 23, 1948—a parley which could play a vital role in furthering world peace.

Before that, however, more lies ahead in 1947. The Yugoslav government has asked the General Assembly to place on the supplementary list of items for its agenda a recommendation to prevent "the dissemination with regard to foreign states of slanderous reports which are harmful to good relations between states." Customarily such items are placed on the provisional agenda of the assembly and must be accepted by that body's votes.

After the assembly and before the conference U.N.'s sub-committee on freedom of information and of the press must define "freedom of information," on which there is a wide divergence of opinion among U.N. members.

Deals With Fundamental Right

The 1948 conference is regarded as one of the most important the U.N. has scheduled, since it deals with a fundamental human right, whose violation was among the charges Hitler used to rise to dictatorship. In addition to U.N. members, the following states will be invited: Albania, Austria, Bulgaria, Czecho-Slovakia, Hungary, Italy, Pakistan, Portugal, Romania, Switzerland, Transjordan, Yemen.

The conference will be charged with three tasks among others:

1. To tell the truth without prejudice and to spread knowledge without malicious intent.

2. To facilitate the solution of the economic, social and humanitarian problems of the world as a whole through the free interchange of information.

3. To help promote respect for human rights and fundamental freedoms for all, without distinction as to race, sex, language or religion; to combat any ideologies whose nature could endanger these rights and freedoms.

4. To help maintain international

peace and security through understanding and cooperation between peoples; to combat forces which incite war by removing bellicose influences from media of information.

Finally the conference will consider measures to aid accredited news personnel in gathering information such as facilitating their entry and movement in foreign countries and their protection against arbitrary expulsion, as well as measures to facilitate the progressive elimination of peace-time censorship.

Before U.N.'s Economic and Social Council adopted the four basic principles of freedom of information as a working basis for the conference, months of hard work and days of hot discussion revealed sharp cleavage between the points of view (1) of the United States and the United Kingdom, where newspapers are privately owned and (2) of the Soviet Union where newspapers are the organs of the Communist Party, the Soviet Government, trade unions or cooperative societies.

The U.S.S.R. sought to incorporate in conference proceedings a different agenda which included these two points among duties of the press:

Organization of a struggle for democratic principles, for unmasking the vestiges of fascism and for eradicating all forms of Fascist ideology.

The unmasking of war mongers and the organization of an effective campaign against organs of the press and information which incite to war and aggression.

da the Soviet delegation levelled the following broadside at the press of the United States and Great Britain:

"Merely to proclaim the principle of freedom of the press does not in itself give this freedom to the people, unless large sections of the population and their organizations have at their disposal the material resources without which freedom of the press cannot be made a practical reality."

"Everybody knows that, since a newspaper, if it is to survive, requires the investment of vast funds which are not possessed by the bulk of the population, the freedom of the press proclaimed in constitutions becomes in actual fact the privilege of a few newspaper owners, publishing houses and telegraph agencies."

In opposing the terms of the Soviet-proposed agenda, Leroy D. Stinebower, U.S. delegate to the Economic and Social Council, declared:

"The Soviet proposal approaches the problem in reverse order. It is against something and not for something. Calling of a World Conference on freedom of the press is for something—for freedom."

The opposition of the Canadian delegation was summed up in these words:

"The basic function of the press in the opinion of the Canadian people . . . is to tell the truth. We . . . believe that to say that the object of the press is not to tell the truth, but to promote democracy or to promote any other set of values, however good, is mistaken in philosophy and profoundly dangerous in practice."

Fort Worth Infant Is Sound Sleeper

FORT WORTH—(AP)—A traffic accident in Fort Worth scared a young mother badly, but in later years she'll laugh at it.

Mrs. R. G. Watkins was driving to a baby shower. In one arm she held her two-month-old daughter, Sandra Leigh. The car struck a rough spot in a lane, went out of control, and overturned.

Dazed, Mrs. Watkins climbed

from the wreckage, still holding the baby. She thought the child was dead, it was so silent.

She walked a quarter of a mile for help, was taken to a doctor and then to the hospital.

At the hospital they found that the baby was just asleep.

Mrs. Watkins suffered a broken arm, but refused help until she was certain the child was all right.
