## Honolulu Oil Tests Siluro-Devonian For Discovery In Chaves

Honolulu Oil Corporation is preparing to complete its No. 1 State, discovery from the Siluro-Devonian in Central Southeast Chaves County and put it on regular production.

This new field opener, 18 miles southeast of Roswell, and 1,980 feet from south and east lines of section 15-16-77a, swabbed 130 barrels of new oil and 17 barrels of acid water in seven hours, on the latest test reported.

It was to continue the swabbing until cleaned of the acid water, and operator will then install a pump and complete.

The well shows some gas, but there is not a sufficient amount to flow the oil steadily.

The production is from the open hole between the bottom of the 7-inch casing cemented at 6,480 feet, and the plugged back bottom at 6,563 feet.

That horizon has been washed with 500 gallons of mud acid and then treated with 2,000 and with 5,000 gallons of regular acid. No formation water has been developed.

## 'Reef Topped High In NW Kent—Unofficial

A wide variety of reports are being circulated regarding the Northwest Kent County wildcat, Caroline Hunt trust estate No. 1 J. W. Young.

None of those reports have been confirmed or verified—as operator representatives are withholding all official information, and are not allowing visitors to inspect the project.

The most generally accepted report is that the venture topped a lime at 6,204 feet, on a datum of minus 4.11 feet.

Many observers say that lime is the Canyon reef. That is still a matter of surmise—as the samples have not been released for public inspection.

The prospector is supposed to have cored at 6,228-37 feet and to have recovered some oil saturated lime. Unofficial observers think that a drillstem test will probably be run shortly.

This interesting exploration is 1-640 feet from east and 487 feet from south lines of section 166, block G, W&NW survey. That makes it seven and one half miles northwest of Clairmont.

## Diamond M Project To Test Ellenburger

In the middle of Diamond M Canyon pool production, Lion Oil Company will deepen its No. 45 McLaughlin to 8,500 feet to test the Ellenburger.

The project, now drilling below 6,800 feet in lime, is 1,976.12 feet from north and 1,808.88 feet from west lines of section 197, block 97, H&TC survey.

It is the intention of the operator to test the Ellenburger, even if Canyon production is developed.

This is the first Ellenburger test in this immediate area of Central-West Scurry County. Drillites is 12 miles southwest of Snyder.

## C-W Gains To Get San Andres Wildcat

A San Andres wildcat, to 5,200 feet, has been staked in Central-West Gaines County, a mile and a half northwest of the West Seminole-San Andres pool.

The proposed venture is the Atlantic Oil Corporation No. 1 Hugh Conigan, to be 880 feet from south and west lines of section 390, block G, CC&D&RGNG survey.

This places it 1 1/2 miles northwest of the town of Seminole. Operations will begin immediately.

## Deep Test Proposed For NE Tom Green

Sohio Petroleum Company proposes to drill a 5,500-foot Ellenburger wildcat in Northeast Tom Green County.

The deep project will be the No. 1 R. C. Haviland, four miles southeast of the town of Miles and 40 feet from east and 4,100 feet from north lines of J. T. Ridgeway survey.

It will be five and one-half miles southeast of Superior Oil Company No. 1 McDowell, Rannels County wildcat abandoned at 6,307 feet in granite.

## Fusselman Zone Yields Little In C-S Upton

Republic Natural Gas Company and Seaboard Oil Company of Delaware No. 1-A University, Central-South Upton County wildcat, four and one half miles southwest of Bankin, was drilling ahead below 10,415 feet in lime, after running a drillstem test in the Fusselman at 9,200-281 feet.

The tool was open one hour and 40 minutes. Recovery was 370 feet of drilling mud, 120 feet of gas cut drilling mud, 90 feet of oil and gas cut drilling mud, and 440 feet of mud, gas cut water.

The prospector is 680 feet from north and 2,004 feet from east lines of section 17, block 15, University survey. It is contracted to 12,000 feet to explore the Ellenburger.

## Bank Bandits Get \$63,933 In 'Quiet' Job

NEW YORK—(AP)—Five bank robbers forced employees of the Sunnyside, Queens, branch of the Manufacturers Trust Company, into the basement Thursday and escaped with \$63,933.

The robbery was one of the most thoroughly planned Queens police have encountered in years.

## Horsemeat Sales Spur U. S. Probe

By The Associated Press

A Texas state meat inspector said Thursday he believes sale of horsemeat as beef is a million-dollar racket.

Ten-cent horsemeat is palmed off as fancy beef steak by a clique operating in several states, said G. F. Reed.

"This is my personal opinion, from facts gathered in the horsemeat investigation in Houston during 1948 and 1949," Reed told newsmen in Dallas.

Reed indicated the state may file charges "in the next day or two" against Dallas persons.

A federal investigation already is underway following seizure of thousands of pounds of horsemeat at Dallas, Houston and Fort Worth. All of it had been tagged as choice beef steaks.

The robbers fled with their loot. During the entire proceeding, which was carried on like clockwork, there was no shooting and no one was injured.

## Prospects Of Early Excise Tax Cuts All But Disappear

WASHINGTON—(AP)—Any prospect for an early slash in excise taxes all but vanished Thursday. It may not come until July 1 or later.

Chairman Doughton (D-NC) of the tax-framing House Ways and Means Committee voiced doubt that a bill will be ready for House action before Easter, April 9. Once the House acts, and that will take some time, the Senate probably will take a couple of months on the bill.

But when the cutting starts it probably will be deeper than what President Truman wants.

There were growing indications the Administration may be unable to keep the excise slashing from breaking out of the \$655,000,000 budget set by the President.

Some lawmakers guessed the cut will be nearer \$1,000,000,000—with movie tickets added to the list of items getting tax relief.

## Three Children Die When Fire Destroys Home At Palacios

PALACIOS, TEXAS—(AP)—Three children burned to death Thursday in a fire which destroyed their home here.

The three children of Mr. and Mrs. Joe Salinas and ranged in age from eight months to five years. Their names and ages were not available immediately.

Police said a stove exploded while the parents were away and the children were asleep in bed. The house and its contents were a total loss.

## Texas Asks Delay In Tideland Case

AUSTIN—(AP)—Texas Thursday asked for more time to file its Tideland suit brief in the U. S. Supreme Court.

Attorney General Price Daniel also announced that some of the nation's top legal talent had been retained to help in the state's fight for title to its oil-rich offshore lands.

Roscoe Pound, former dean of the Harvard Law School, Joseph Walter Bingham, Manly O. Hudson and James William Moore will be special counsel for Texas.

Daniel said a motion asking the Supreme Court to set the Texas case for some time after May 1, rather than March 27, had been filed in Washington.

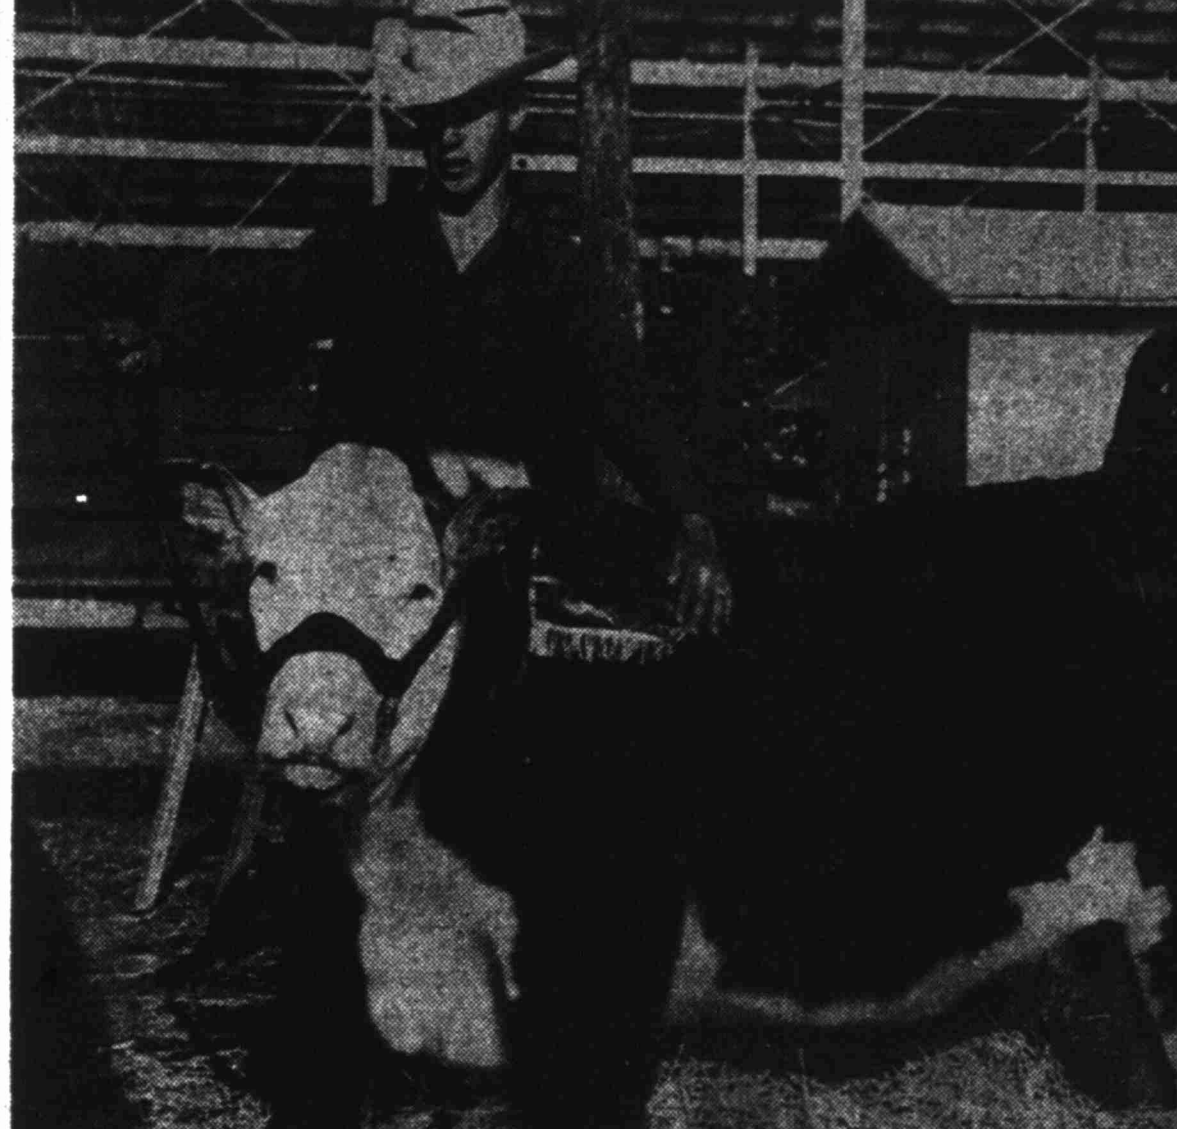

## Two Latin American Youths Draw Fines

County Judge Clifford C. Keith Thursday fined two Latin American youths \$50 and costs on their pleas of guilty to assault charges.

They also were ordered to pay court costs.

The pair was charged in the cutting of Santiago Ledema, Jr., early Sunday.

## Grand Champions At Midland Livestock Show

Jimmy Holloway of Stanton, and Bonnetta Cox of Garden City showed their prize animals to grand championships in this week's Midland Livestock Show. Holloway is pictured above with his champion milk fed calf. He also had the champion dry lot steer. Both animals were from the Martin County herd of R. B. Dickenson and J. C. Sale. Miss Cox, all smiles, is shown with her grand champion lamb, which has topped honors over a field of 120 animals. The lamb was bred by J. W. Cox, Glascock County rancher. Holloway's winner brought \$1.05 a pound from The Midland National Bank. The Midland Production Credit Association paid \$1.70 a pound for Miss Cox's grand champion.

## El Paso Labor Unit Files Suit To Force Highway Wage Hike

AUSTIN—(AP)—The El Paso Building and Construction Trades Council Thursday filed suit to force the Highway Commission to raise its wage scale in El Paso County.

The Trades Council asked that a temporary restraining order be issued preventing the commission from accepting any bids or letting any contracts for construction of the Main Street Overpass in El Paso unless what it called the true prevailing wage rates are paid. It asked the same thing with respect to any other highway work in the El Paso area.

"Actual and true prevailing wage rates in the El Paso locality" range from 85 cents to \$2.25 per hour, the suit alleged.

The suit further asked for hearing within 10 days on the council's application for a temporary injunction against the commission.

Test Case For State

The commission has set a scale of 75 cents to \$1.85 per hour in the El Paso County.

Though the suit applies, only to El Paso County, it was understood to be a test case on the commission's minimum wage scales for highway work throughout the state.

Executive Secretary Paul C. Sparks of the Texas State Federation of Labor issued a statement saying "The trouble is statewide, and the rates of pay for highway work in general are sub-standard."

"We have been forced to ask our state courts to require the State Highway Commission to live up to the state prevailing wage law," Sparks said.

Minimum wage scales set by the commission are directive in nature. Contractors may not pay less than those rates but may pay more. The commission pointed out when organized labor first protested the El Paso wage scale.

## Coal Peace Gives Boost To Business

WASHINGTON—(AP)—The 1950 business outlook, badly clouded by the coal strike, was reported clearing nicely Thursday to a forecast of "sunny and generally prosperous."

President Truman's Council of Economic Advisors, while not issuing any statements, reportedly felt that the mine shutdown brought a bad fright but no lasting damage.

The council, informed officials said, again is standing on its official January appraisal that for 1950 "The economic outlook is good."

Some federal economists feel the pent-up production which now is released may give an extra fillip to business, sales and employment, in the process of catching up on deferred orders.

Others, who had feared a slump after midyear, now believe a letdown may be postponed—possibly even until next Spring—when the usual seasonal upturn might cancel it entirely.

Emphasizing that it is too early to gauge the force of industry's rebound, one top-ranking economist noted the ambitious schedules set for restoring output in the steel, auto and metal-working industries, he commented:

"I can't see anything except a very favorable prospect in the coming months."

## Senate Probers Tell McCarthy To Produce Records Or Shut Up

WASHINGTON—(AP)—Senate investigators Thursday put Senator McCarthy (R-Wis) on notice that they will expect him to produce the files on which he based his charges of Communist infiltration in the State Department.

Chairman Tydings (D-Md) said the Senate Foreign Relations subcommittee investigating the charges will want McCarthy's files to compare with information the group intends to get from government agencies.

Tydings told McCarthy to keep his files intact. He said if they are not produced voluntarily at the proper time the subcommittee may subpoena them.

Tydings gave McCarthy his notice about the files, when the second day of hearings began.

Minutes later, the committee fell into the same sort of wrangling which characterized its opening day, Dr. Jessup Named

McCarthy, who has said Communists now are—or have been—working for the department, was ready to enlarge and document his charges that Dorothy Kenyon was (Continued on Page Nine)

## Red Cross Drive Past Halfway Mark

Leaders in the American Red Cross fund drive in Midland County Thursday reported receipts totaling \$4,079.

The 1950 quota is \$12,000, which leaves \$5,921 yet to be obtained before the campaign can be closed successfully.

Volunteer workers still are contacting persons in both the downtown and residential districts, and leaders said there will be no let-up until the quota is subscribed.

They urged persons asked in the canvass to mail contributions to the Red Cross or leave them at the Chamber of Commerce.

The cooperation of every man, woman and child is requested in the county-wide effort.

## President Predicted To Sign Oleo Measure

WASHINGTON—(AP)—Only President Truman's approval is needed now to repeal all federal taxes on oleomargarine, effective July 1.

Lawmakers generally predicted that Truman will sign the repeal bill, which Congress sent to the White House late Wednesday.

The Senate approved the measure then by a 59 to 20 vote. It passed the House Tuesday 282 to 108.

## Two Texans Included In Sandia Dead

ALBUQUERQUE, N. M.—(AP)—Oil-fed flames, leaping lightning-fast through a Sandia Base guardhouse, snuffed out the lives of 14 military prisoners Wednesday night.

Trapped with them in the tindery-dry wood structure, the prison's other two inmates were injured critically. It was the first major disaster in the history of the war-built installation—now a semi-secret assembly point for the atomic bomb.

## Judy Coplon Sentenced To 15 Years

NEW YORK—(AP)—Judy Coplon was sentenced to 15 years in prison Thursday for plotting to spy for Russia. Her ex-lover, Russian Engineer Valentin A. Gubitchev received a 15-year suspended sentence and was ordered deported to the Soviet Union within two weeks.

The deportation order for the 28-year-old, short, dark-faced Russian was recommended by the government as a result of conferences between the State Department and the attorney general's office.

Federal Judge Sylvester J. Ryan sentenced Miss Coplon to five years on a conspiracy charge and 15 years on a count of attempted espionage, the sentences to run concurrently.

To Appeal Verdict

He specified that the term imposed might not be served concurrently with a sentence of 40 months to 10 years she received in Washington, D. C., on kindred charges. The judge refused an application to release her in bail.

Samuel A. Neuberger, attorney for the 28-year-old Miss Coplon, said he would file notice of appeal immediately.

Miss Coplon could have received 25 years in prison and a \$10,000 fine. Gubitchev faced a maximum of 15 years in jail and \$20,000 fines. U. S. Attorney Irving H. Saypol, the blast of the government's recommendation for Gubitchev before sentence was imposed. He said (Continued on Page Nine)

## Oil Field Worker Dies Enroute To Midland Hospital

Billy Clyde Hale, 21, of Shawnee, Okla., died enroute to a Midland hospital Wednesday afternoon of injuries received in an accident on an oil drilling rig in the Pegasus field, about 30 miles southwest of Midland. He had been living in the Midland area about three months.

Hale was working on a project in the Pegasus field when the accident occurred. He was struck by a falling elevator. His father, I. W. Hale, was driller of the well.

The body was to be sent to Shawnee Thursday where funeral services will be held sometime Saturday.

Hale is survived by his parents, Mr. and Mrs. I. W. Hale of Shawnee; a brother, Teddy Hale of Shawnee; two sisters, Mrs. Delores Mardis of New Orleans, La., and Miss Helen Ruth Hale of Shawnee. I. W. Hale suffered a fractured hand in the same accident. He was given emergency treatment at Western Clinic-Hospital and released.

## Marion Emmons, Oil Man, Dies Suddenly In Lubbock Hospital

Marion Emmons, 62, a Midland resident since 1945, died suddenly of a heart ailment about midnight Wednesday in a Lubbock hospital. He had gone to Lubbock late Wednesday for a physical checkup.

Emmons formerly operated the Midland Turpedo Company and was well-known in oil circles throughout the Southwest. During World War I, Emmons worked for the British government in England, Canada, India, Burma and China. He resided for a time in Liverpool, England, while supervising the drilling of oil wells in that country.

He was born in Fostoria, Ohio. Active in Masonry

A 22nd degree Mason, he was a charter member of the Scottish Rite Cathedral of San Antonio, and held a membership in the Blue Lodge of Fostoria, Ohio. He was a charter member of the Midland Knights Club.

Funeral arrangements had not been announced Thursday noon.

Survivors include the widow of Midland; a daughter, Mrs. Virginia Oliver of Odessa; and two grand-children, Judith Quinn Oliver and Marion Bond Oliver of Odessa.

Palibbers at funeral services will be Jack Garber of Royalty; Barney Grafe, Dr. Henry Leigh, Van Nelson and Ebb White, all of Midland; and Gordon Oliver, Dr. Charles McCollum and James Key of Odessa.

Friends and business associates will serve as honorary palibbers.

## Temperatures Rise In Texas Thursday

By The Associated Press

Texas warmed up Thursday under partly cloudy skies. High winds and dust were gone.

Again there was no rainfall throughout the state in the 24 hours ended at 6:30 a.m.

Temperatures were expected to continue rising through Friday.

Their agent even has an office on the lot now. Lou's latest business venture, by the way, is a combination loe-cube making and dispensing machine.

The wrestling influence? Ruth Roman's toes get a great big close-up for a scene in "Lightning Strikes Twice." Her wrigling bare toes, the script says, are supposed to show wariness, anticipation and a number of things usually shown only in eyes or words. "Toes" director King Vidor said, "are just as effective." Gorgeous George, the wrestler, has known it all the time. Dolores Costello, mother of John Barrymore, Jr., will return to the screen in "Three Came Home" and George Templeton's next for Eagle Lion. The film will star Junior ... Somebody's arithmetic is bad. On the heels of the film, "Three Came Home," comes another with the title, "None Came Back." ... Endurance Note: Charles Coburn is celebrating his 60th year in show business.

## Woman With Spirit Wins The Admiration Of Men

By RUTH MILLETT  
NEA Staff Writer

I've just been reading a list of qualities that men are supposed to admire in women. It is all right so far as it goes, but it leaves out one quality I think should be near the head of the list. That quality can best be summed up in one old-fashioned word, spunk.

It's spunk that enables a woman to speak up for her rights, instead of turning into a whining nag or a sad-faced martyr.

It's spunk that lets a woman meet life's emergencies with calmness.

It's spunk that makes a woman determined to be herself and have some interests and ideas of her own instead of turning into a "Whatever you want, dear," shadow of a woman.

A man may quarrel with a wife who has spunk. He even at times may think that she is hard to live with and impossible to understand.

But he won't get bored with her. And he won't run over her. And he won't lose his respect for her.

You can call the quality I'm talking about anything you like. But I prefer to call it spunk—and I am convinced that any woman who hasn't got it can't keep a man's admiration for long.

Hansen, Troop 13; Mrs. Clyde Davidson, Troop 14; Mrs. J. K. Redden and Mrs. David Breith, Troop 15; Joy Lightfoot, Troop 20; Mrs. E. R. Andres, Troop 26; Mrs. W. I. Waters and Mrs. C. P. Tenbyck, Troop 16.

Elementary Groups  
South Elementary chairmen are Mrs. C. O. Fredregill, Intermediate Troop 18; and for the Brownie troops, Mrs. Coy Cavitt and Mrs. Bill Roush, Troop 21; Mrs. P. A. Brooks, Troop 26; Mrs. M. J. Darr, Troop 37; Mrs. F. W. Darr, Troop 38.

West Elementary chairmen for intermediate troops are Mrs. Ish McKnight, Troop 6; and Mrs. L. O. Schrock, Troop 44; for Brownie troops, Mrs. Howard McKay and Mrs. Marks, Troop 17; Mrs. Hickman and Mrs. E. H. Dunn, Troop 19; Mrs. W. A. Harrison, Troop 17; Mrs. B. B. Seawright, Troop 35; Mrs. George Peters, Troop 4; Mrs. W. W. Ascue, Troop 42; Mrs. E. W. Bodenman, Troop 43.

North Elementary chairmen for intermediate troops are Mrs. Jack Hawkins, Troop 2; and Mrs. Dean Chaddock, Troop 9; for Brownie troops, Mrs. W. E. Owen, Troop 5; Mrs. D. V. Kitley, Troop 23; Mrs. H. N. Spinning, Troop 24; Mrs. Guy Creighton, Troop 28; Mrs. C. S. Jones, Troop 29; Mrs. James Martin, Troop 33; Mrs. J. C. Williams, Troop 39; and Mrs. Earl Hardgrave, Troop 40.

Mrs. H. S. McFadden is hostess of the Parent-Teacher Association in her home Wednesday.

Mrs. Hazen Woods discussed "Citizenship—A Double Duty." The next meeting will be in the home of Mrs. J. D. Dillard, 703 North Marienfield Street.

# SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, MARCH 9, 1950-3

## Easter Seal Month Proclaimed In State

Gov. Allan Shivers has set aside March 9 to April 9, the month preceding Easter, as Easter Seal month in Texas. He declared that support of the 17th annual Easter Seal drive is of importance to every Texan since it will make possible the continuation and expansion of services given by the Texas Society for Crippled Children and its county affiliates.

Sale of the seals in Midland County will be conducted by the Children's Service League. The largest share of the funds raised will remain in the county; some will go to the Texas Society, and some to the National Society for Crippled Children and Adults to be used for research and treatment.

In proclaiming the month, the governor's message said in part, "It is the right of every child to have an opportunity for a happy, healthy childhood and an adulthood in which the rewards of effort are self-sustenance and integration into our economy. It is our duty and privilege as citizens of this state to offer a helping hand to those less fortunate than ourselves in the spirit of warm-hearted brotherliness."

He pointed out that services to the crippled are costly and becoming most costly and that support of all citizens is needed to continue the "specialized services of rehabilitation, medical and educational aid most ably given the crippled of our state by the Texas Society for Crippled Children."

The Children's Service League will start its drive in Midland Monday. Mrs. C. H. Aitchison, president, announced that letters containing the sheets of seals are ready for mailing to a lengthy list of residents who are expected to contribute.

## MOVIES OF CAMP LIFE TO BE SHOWN

Mr. and Mrs. Pete Cawthon will be in Midland Friday through Sunday in the interest of Camp Cawthon, a boys' camp in the Blue Ridge Mountains of Virginia.

They will be visiting Mr. and Mrs. Pete Cawthon, Jr., 2106 West College Street. They will give a movie party, showing camp scenes in the Scharbauer Hotel Ballroom at 7:30 p.m. Friday. Interested boys and parents are invited to attend.

## Mrs. Weston Hostess For Club Luncheon

Mrs. John Weston was hostess to the Garden Addition Home Demonstration Club at a program and luncheon in her home Wednesday.

Mrs. Truman Whitaker and Mrs. O. E. Sherman were elected nominees for delegates to the District Home Demonstration Association meeting in Pecos, April 13. Delegates will be elected from club nominations in the County Council meeting Friday.

Mrs. Whitaker instructed the group in making various kinds of lamp shades. Mrs. Sherman's mother, Mrs. Flowers of Hereford, and Mrs. Odus Gardener were guests. Other members present included Mrs. A. T. Jordan, Mrs. C. A. Newman, Mrs. C. A. Starkey and Mrs. E. O. Messersmith.

## Officers Named For P-TA Council

Mrs. Stanley Erskine was elected president of the City Parent-Teacher Council for next term, at a recent meeting in the office of Frank Monroe, school superintendent. Mrs. Raymond Leggett was named vice president; Mrs. M. O. Gibson, secretary, and Mrs. Allen Cowden, treasurer.

They will take office at a joint installation of all Parent-Teacher officers in Midland on May 9. Mrs. Beet Cole, Jr., is president of the council this year. Mrs. Erskine is president now of North Elementary Parent-Teacher Association, Mrs. Leggett of Junior High Association and Mrs. Gibson of West Elementary P-TA.

Plans were made for representation at the Sixteenth District P-TA conference in Abilene next month, when Midland members will support Mrs. J. J. Black as a candidate for the district presidency. Delegates will be elected at the April council meeting.

## Children's Theater Groups Cancelled

Children's Theater Groups meeting Friday and Monday have been cancelled for this week. Art Cole, director, is out of town.

The Friday group will not meet because of the crippled children's clinic and Monday group because of the puppet show in the high school.

Groups II and III will meet at 9:30 a.m. Saturday to begin work on the next children's play, "Tom Sawyer."

## UNDERGOES SURGERY

Mrs. J. M. Armstrong of 1307 West Missouri Street is in a Denton hospital, where she underwent major surgery Wednesday. She was reported resting satisfactorily.

## A Proclamation

The Girl Scout organization is a way of life which those who really understand it, value for its tangible benefits, namely, its lessons in self-government where each must learn to accommodate herself to the large purpose and good of the group, to serve the group, to share in and take responsibility for the reputation of the entire membership, and to learn that one must accept both blame and praise for others who wear the same badge.

Midland is fortunate in that 50 per cent of its girls between the ages of seven and 17 are enrolled in Girl Scout training. Beginning Saturday, March 11, these girls actively will accept their responsibility of membership by conducting a Girl Scout Cookie Sale. Profits from this sale will go to support the building and furnishing of the Girl Scout Little House and Park.

I, William Neely, Mayor, therefore, declare Saturday, March 11, as Cookie Day in Midland, and urge each citizen to support these Midland girls in their effort to support their Little House and Park. (Signed) William B. Neely, Mayor of the City of Midland, Texas

## Altar Society Has Program At Meeting

Mrs. C. P. Yaden and Mrs. O. C. Arnold were hostesses to the Altar Society of St. Ann's Catholic Church in Mrs. Yaden's home Monday. A committee was formed to work in the Red Cross drive with Mrs. J. W. McMillen, Mrs. Vester Collins, Mrs. Tex Carlston, Mrs. Arnold and Mrs. Yaden as members.

Announcement was made that a book, "Certainly, I'm a Catholic," by McDermott, has been presented to the Midland County Library in memory of Mrs. Martin McGee. Members voted to send a "spiritual bouquet" to Mrs. Lillian Arledge, a former member now residing in Baltimore, who is ill.

Mrs. Gilbert Sevier presented three of her piano students in solos as part of the program. Kay Little, Tommy Miller and Mary Jane Miller were the young pianists. Twenty-one members were present and the Rev. Francis Taylor was a guest.

Lesson For GOP

A lot of our Republicans think the British election results boost their own stock for next November's balloting in this country. They see a worldwide "trend to the Right."

There may well be some substance to this notion. But there are some matters the Republicans ought to review before they start getting too confident.

In the first place, as has been pointed out many times, the welfare state wasn't at issue in Britain. Nor was the socialism that already has been put into effect. The Conservatives accept all that the Labor Party has achieved up to now under these headings.

They do promise not to do any more socializing. But on the other hand they pledge themselves to expand some welfare programs, particularly housing.

All this places the Conservatives well to the left of the most extreme leftists among President Truman's Democratic followers. And it stamps them unmistakably as a "me-too" party.

So the British trend is hardly what U. S. Republicans may like to think it is. It may be well for them to remember, too, that Labor's share of the total British vote dropped less than two per cent as compared with 1945.

Republicans have been torn for some time now over the wisdom of me-tooism. Some leaders have accepted the majority of changes wrought by the Democrats, but others insist this gives the voters no real choice.

Britain now has contributed to the GOP debate. For the Conservatives, embracing the bulk of their opponents' established programs, have bounced back within a short five years to a level almost even with Labor.

By contrast, Republicans in this country, confused about where to take their stand, have been kept out of the White House for almost 18 straight years. And except for the brief 1946-48 interlude, they've been denied control of Congress for as long.

The British result doesn't prove that "the worm finally turns" for an opposition party merely content to oppose—and wait. The Conservatives' quick recovery is rooted in a grasp of social and political realities.

If the GOP can understand this lesson and act upon it, the British balloting may indeed have helped the party's cause in the 1950 campaign. But if the Republicans insist on interpreting the outcome as assurance they've been right all along, they'll be deluding themselves with false comforts. And November will bring another rude awakening.

A scientist says there are 1,800 storms going on every minute. Has he been peeking in or out windows?

Fifty-four shoes stolen from an auto by a Boston thief were all for the right foot. We'll bet he's hopping mad.

Today's Fairy Tale: Once there was a man who, on his 100th birthday, attributed his longevity to good luck.

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

(Copyright, 1950, By The Bell Syndicate, Inc.) Drew Pearson says: U. S. has two alternatives in battle for peace; We may face 25-50 year war of nerves; American people would not favor dropping bomb now.

WASHINGTON — Some people around Washington think I've been nagging government officials by last week's letters on winning the peace. Maybe so. However, peace is something which about 15,000,000 American men thought they were fighting for, and which an entire nation still devoutly hopes for, so I'm going to keep on nagging.

However, since it's not quite fair to put others on the spot without giving your own views, here are my own gropings toward that most precious and elusive of all goals—permanent peace.

The word "groping" is used intentionally, because there can be no sure-fire plan for peace. Moreover, the ideas which follow bear no copyright nor claim to originality. In brief, I believe the United States has two general alternatives:

1. One is the gruesome alternative of dropping the bomb now, when we are way ahead in A-bomb production. 2. The other is the difficult, back-breaking job of working at peace for a period of 25 to 50 years, with sacrifices beyond those which we ever have contemplated before.

To some people, the first alternative, horrible as it is, might seem easier. In fact, war frequently seems the most convenient way out of an international impasse, which is one reason dictators declare war. Furthermore, the United States, despite the leak of atomic secrets to Russia, is far ahead in the production of atomic bombs, and will continue that lead for at least a year, probably longer.

But if we wait much beyond that, the military odds against us increase. Not only could Russia catch up to our atomic stocks, but only the get away to an even start with us in making hydrogen bombs, but her ground troops now are far superior, her air force now is about equal, her navy is better, and her submarine fleet is growing.

Time Is Running Out With the Russian population increasing much faster than ours, and with a greater proportion of her budget spent on armament, time is running rapidly against us. As of today, however, the atomic warfare odds are so preponderantly in our favor that we could take the initiative in war with every expectation of winning.

Those are the cold, calculated facts on the side of alternative No. 1. Alternative No. 2 is a 25-to-50-year war of nerves, of attrition and of diplomatic jujitsu. This is a much tougher battle than appears on the surface. For one thing, the Soviet government is pledged unilaterally to sabotaging the free world, and any conference which we or Winston Churchill may have with Joe Stalin ends in going to change that fact. Unfortunately, President Truman's statement is pledged unilaterally to sabotage the free world, and any conference which we or Winston Churchill may have with Joe Stalin ends in going to change that fact.

The Poliburo sets policy and it has been fixed in one groove for years—a groove which looks to the day when the free world will fall of its own weight, plus persistent, cunning digging around the roots of the tree of freedom by the Soviet world.

The idea that the communist and democratic systems can live together side by side, as suggested by Winston Churchill, is pure poppycock. They can't live side by side for the simple reason that the Poliburo isn't going to permit it.

These are some of the arguments against alternative No. 2, and its long-drawn-out war of nerves and diplomatic jujitsu. A third alternative, Reconstruction, nevertheless, despite these depressing odds, I still believe we should take.

THE DOCTOR SAYS Medical World Still Seeks Vaccine For Influenza The high hopes which were held for vaccination against influenza two or three years ago have not materialized. This is no fault of the scientists who studied the "flu" so long and so hard.

Even when epidemic influenza is at its peak, however, those who go to bed at once and stay there until their fever has been gone for several days almost always recover. Unfortunately, when a bad epidemic is present numerous members of the same family may be laid low at or about the same time. The one most nearly well is thus under great pressure to get up and take care of others.

Lack Of Markets Forces Huge Surplus Of Dairy Products

By PETER EDSON NEA Washington Correspondent

WASHINGTON — The government's price support program for dairy products is sometimes referred to as "the cow brasserie" program, but it really isn't quite that bad. The government doesn't support cows. It doesn't even support the price of fluid milk. There's been no need of that, because the price of fluid milk in the free market has stayed high.

There's only a limited American market for dried milk, though the dairy industry is trying to build up sales. European governments may be getting some of the reserves at cut prices or for free.

What these more remote milk producers do is ship to the processors—the creameries, the cheese factories, the milk driers. During the war there was of course a great shortage of butter, cheese and dried milk. To encourage production, the Steagall amendment to the 1943 farm bill authorized the government to support milk and its products at 80 per cent of parity.

Butterfat supports were put on in February 1948, and continued in the Hope-Alken farm bill of 1948. The Gore-Anderson farm bill of 1949 authorized continued government support of prices on milk, butterfat and the products thereof at 75 per cent of parity.

Higher Support Levels Present support price levels are about 79 per cent of parity. The dairy industry thinks this is too low. Even so, the industry has had to buy more butter, cheese and dried milk than it can dispose of.

At first the government stocks were sold to Marshall Plan countries at 75 per cent of parity. But as demands for these supplies have dropped, the Department of Agriculture has found itself accumulating larger and larger surplus stocks.

Non-fat dry milk solids—366,000,000 pounds purchased at a cost of \$41,000,000 and 300,000,000 pounds of butter purchased at a cost of \$24,700,000.

Butter—114,000,000 pounds purchased at a cost of \$69,000,000. On hand are 87,500,000 pounds, valued at \$53,000,000.

Cheese—25,500,000 pounds purchased at a cost of \$8,000,000. On hand are 22,900,000 pounds, valued at \$7,500,000.

What these add up to are total purchases of \$118,000,000 with on hand stocks on hand valued at \$44,500,000.

These supplies are scattered in commercial cold storage and dry storage warehouses all through the dairy farm belts from New York to Minnesota. The government has to pay the storage costs. For butter, this is 35 cents a 100 pounds the first month, 15 cents a 100 every month thereafter.

The dried milk and cheese are expected to keep increasing, and the butter a couple of years, if properly stored. The stocks are kept fresh by disposing of older stocks first, as new stocks are bought.

The government buys its supplies wherever carload lots are assembled. It thus does business with creameries, cheese factories, milk driers and dairy co-ops—not with the dairy farmers directly. But the

Q—What is the difference between trees and shrubs? A—There is no clear-cut distinction. However, a tree is commonly defined as a woody plant that reaches a height of at least 10 feet, has a single stem, and has a definite crown shape.

Q—Does the president have the power to grant pardons? A—The Constitution of the U. S. gives the president power to grant reprieves and pardons for all federal offenses except impeachment.

Q—What does the term laureation denote? A—This term denotes the conferring of a degree by a university. It is an outgrowth of the ancient Greek custom of crowning with laurel the heads of victorious heroes and poets.

Q—How long did it take the Mormons to cross the wilderness from Illinois to Utah? A—Brigham Young and his followers left Illinois in 1846. It was two years before the migration was completed, but by 1848 the whole band was settled in Utah, beyond the Rocky Mountains and near Great Salt Lake, where the advanced guard under Brigham Young had founded Salt Lake City on July 24, 1847.

Q—Upon what river will you find the famous Reversing Falls Rapids? A—At the mouth of the Saint John River, New Brunswick, Canada.

What's RIGHT? There is a bit of news you'd like to repeat but you aren't quite sure if your husband, who told it to you, wants you to. WRONG WAY: Turn to him and say: "Do you mind if I tell them about such-and-such?" RIGHT WAY: Skip the story, since your husband and whether you can tell it or not is likely to put him in an embarrassing position.

## Bride-Elect Is Party Honoree In Ayres Home

Mrs. Louis Ayres and her daughter, Mrs. Paul Jordan, entertained to honor Joan Steinberger, bride-elect, with a dessert-bridge party Wednesday afternoon in the Ayres home, 1610 West College Street.

The compliment is one of a series arranged for Miss Steinberger, whose marriage to David H. Donaldson of Odessa is planned for April 8.

Four tables, centered with bouquets of violets, were arranged for the guests. Other Spring garden flowers decorated the rooms and in a living room window was a miniature altar with bride-and-bridegroom figurines. The names, "Joan and David" were written on a large mirror.

Mrs. Jack Gavitt made high scores in bridge games. Mrs. A. Knickerbocker second high and Mrs. Winston Hull held the traveling prize. A hostess gift was presented to Miss Steinberger.

## First Birthday Is Occasion Of Party For Lynn Tarwater

Honoring her daughter, Lynn Adelle, on her first birthday, Mrs. T. P. Tarwater entertained with a party in her home Tuesday.

## Rotary, Jakes Win First Round Tilts

Rotary Engineers trimmed Watkins Mobil, 86-43, and the JayCees upset Ted Thompson, 44-43, Wednesday night in first round games of the City Cage League playoffs.

The same teams will battle it out in the second round of the best two-out-of-three series next Monday night in the Junior High Gymnasium.

Rotary had little trouble with Watkins after a close first half. The Engineers left at intermission with a 34-26 lead and turned the second half into a runaway. Leland Huffman, with 27 points, and Paul Haskins with 24 paced the winners.

Free Tom Margin threw in the final six seconds provided the margin of victory for the JayCees over the favored Thompson quintet. The game was a see-saw battle with neither team able to gain more than a five-point lead during the contest.

### Czech Girl Thwarts U. S. Clean Sweep In Figure Skating

LONDON.—(AP)—Europe, which always has had at least one world figure skating champion, will continue its unbroken string another year thanks to graceful Aja Vrsanova.

The beautiful 19-year-old Czech girl won the women's title Wednesday night to thwart a clean sweep by the United States in the three-day world championships.

The American team fell one short. Masterful Dick Button of Englewood, N. J., and Harvard lived up to his reputation as the world's greatest male skater winning the men's title for the third straight year.

Kennedy, Britain's Win Seattle's Kennedy kids, Karol and Peter, won the pairs championship, the other title in competition. Button and the Seattle duo triumphed during the first two days.

Smooth-skating Mile Vrsanova repelled a four-pronged American threat with an ease not indicated by her slender winning margin.

The European beauty finished 14 points ahead of Jeannette Altwegg, the British champion, and 29 in front of Yvonne Sherman of New York.

Sonja Klopfer of Brooklyn placed fifth, Virginia Baxter of Detroit eighth and Andra McLaughlin of Colorado Springs eleventh.

The lively, dark haired Miss Sherman always was close but never in front of the poised Czech champion. Mile Vrsanova gave a graceful display of free skating.

Mile Vrsanova scored 1,359.16 points, Miss Altwegg 1,346.71 and Miss Sherman 1,330.58.

### Duquesne, Holy Cross, Syracuse Take It On Chin

NEW YORK.—(AP)—Holy Cross, Duquesne and Syracuse, all tournament-bound, took it on the chin Wednesday night in college basketball.

Holy Cross, District One's representative in the NCAA playoffs, was upset by Yale 66-62.

Duquesne and Syracuse, both in the National Invitation tournament, were beaten by Villanova 68-52, and Canisius 65-64, respectively.

It was the second straight defeat for Holy Cross after 29 straight victories, including a carryover of three from last year.

Rutgers salvaged something from a poor season by beating Colgate 67-57. In other Eastern games, Rhode Island State trimmed Brown 67-53, and Siena took Williams 46-34.

## T Variations, Pro Defense Plans, To Alter Grid Picture

By HAROLD V. RATLIFF. Associated Press Sports Editor.

Inauguration of the Winged T at Texas Christian and of the Split T with the pro defense at Arkansas are the most notable developments in Southwest Conference football for the 1950 campaign.

Spring training already has been finished at Rice while four other schools—Southern Methodist, Texas A&M, Texas and Texas Christian—wind up drills Saturday.

Baylor has entered the last three weeks of its Spring football. The Bears divide their drill period each year. Arkansas also still is in the midst of Spring training.

Coach Dutch Meyer of Texas Christian was optimistic over his squad's work and over use of the Winged T, which he says hits quicker and is more explosive than the double and triple wings he has been using. It is a combination of the double wing and T formations.

Meyer said the showing of Gilbert Bartosh at tailback highlighted his practice. Bartosh, a talented youngster, was held out of football last year because there were so many other good men.

Wide Open Offense. Otis Douglas, the former professional coach, is bringing pro methods into the Southwest Conference. He will have a wide open offense with a tight defense which will find the safety man only five or six yards back of the line. Douglas also is quite pass-minded and will have the assistance of Tommy Thompson, the Philadelphia Eagles passing star, part of the Spring session.

Southern Methodist has looked very good in Spring training with the showing of Benton Muslewit as a passer highlighting the work. Muslewit was held out last year to permit a collar bone injury suffered in high school football to mend properly. He now is in top shape and heads an imposing array of passers at Southern Methodist.

Kyle Rote, the great halfback who will be the back-one of the Methodist offense next season, isn't in Spring football. He's a baseball player.

Texas, already the people's choice for the championship next season, did not lower itself in general opinion in its Spring work. Coach Elair Cherry says he needs a quarterback of proven ability but it appears Ben Tompkins, who got into five games last Fall and looked good, will fill the bill. Cherry also has T. Jones, up from the freshmen, to do the passing along with Tompkins and Dan Page, a junior college transfer. Texas is expected to have one of the top lines of the country. Cherry has indicated he will use the Split T some but that basically, it still will be the straight T.

Texas A&M has found that its passing will be much improved over last year and the line should be greatly strengthened. The best new prospects are Chuck O'Neal, a big tackle, and Dick Frey, talented guard from Pasadena, Calif., Junior College.

Baylor hasn't progressed sufficiently for an evaluation. The new coach, George Sauer, has little more than become acquainted with his prospects. But he already says he's going to have trouble replacing the great Baylor quarterback of last Fall, Adrian Burk. Sauer will use the straight T formation.

Rice wound up training last week with indications of offensive strength to match last season's conference champions. However, the line was swept pretty bare by graduates.

### Sawyer Is Modest About Phil Chances

CLEARWATER, Fla.—(AP)—Eddie Sawyer is a down-to-earth guy with no 1950 pennant visions for his Philadelphia Phils.

"We'll be lucky to finish as high as last year," said Sawyer. "We'll benefit by a little more experience. Where we finish depends on the improvement of other clubs."

Just for the record, Eddie said last Spring, "We'd better than people think." That was the understatement of the year. The Phils, a sixth-place team in 1948, were a bang-up third last year.

Sawyer doesn't like to set the date for the Phils' pennant drive. Others have set the goal as 1951.

"How can you pick any one year?" asked Sawyer. "Sure, we're always aiming for the pennant. No doubt, we'll be even tougher in the next few years."

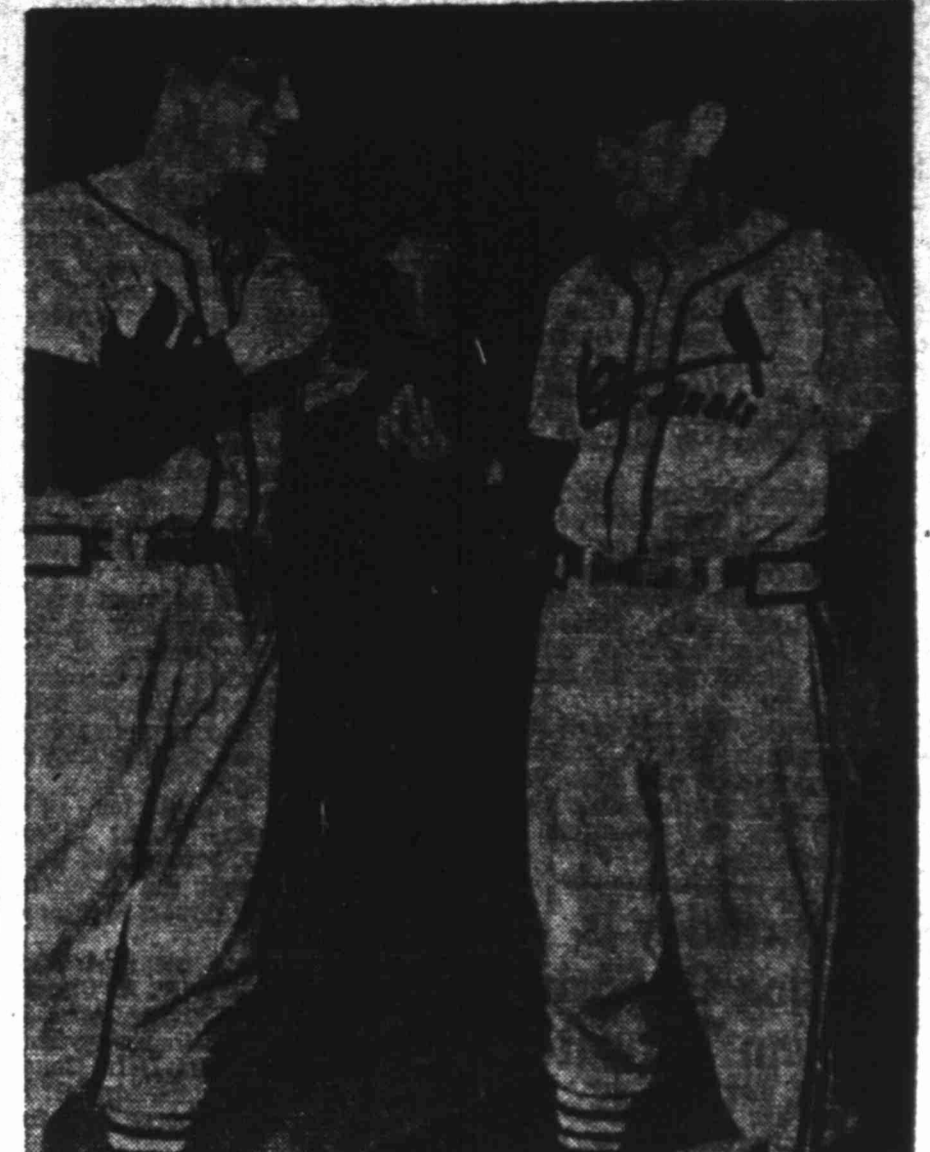

"If I had to pick the finish this season, I'd list them just the same as in 1949. Brooklyn is sure to be rough. The way I see it, the Giants-Braves trade represents the only big change in the league since last season."

### CUB ROOKIE SIDELINED

AVALON, CALIF.—(AP)—Bob Borkowski, Chicago Cubs' rookie outfielder from Nashville, has been sidelined with a sore right thumb.

Carl Furillo of the Brooklyn Dodgers batted .431 during the period from August 8 to the end of the 1949 season.

Bet You Don't Know This About Advertising by Susan. Quiz No. 12. How much does it cost to advertise a 5¢ candy bar? 1¢? 2¢ a bar? Answer: It costs less than 1/4¢ per bar to advertise America's favorite candy. That's only half the story. Advertising lowers your cost two ways: Cuts the selling costs. And by helping make mass production possible, lowers the production costs, too. So advertising saves you many times the cost of that 1/4¢ per bar.

## AP Names Five Seniors To All-America Quintet

NEW YORK—(AP)—Bob Cousy, Holy Cross; Paul Arizin, Villanova; Dick Schnittker, Ohio State; Paul Unruh, Bradley, and Kevin O'Shea, Notre Dame, were named Thursday to the 1950 Associated Press All-America collegiate basketball team.

This all-senior team from five different schools was picked by a vote of 429 sports writers and broadcasters.

Cousy, whose wizard ball-handling and shooting sparked Holy Cross, topped the voting.

On the basis of five points for each first team vote and two points for a second team vote the six-foot, one inch Cousy polled 1,424 points on 270 firsts and 37 seconds. This compares to a perfect count of 2,145. Villanova's Arizin, the top scorer in the country for major schools, received 1,004 points on 170 firsts and 77 seconds. Schnittker, who sparked Ohio State to the Big Ten championship, was third with 981 points on 171 firsts and 86 seconds.

Unruh, star of Bradley's No. 1 ranked team, got 155 firsts and 91 seconds for 957 points. Notre Dame's O'Shea, who made the 1948 All-America as a sophomore, then slipped to the third team last year, regained a top spot with 710 points on 102 firsts and 100 seconds.

**SECOND TEAM**  
Don Loggins, San Francisco; Dick Dickey, North Carolina State; Bill Sharman, Southern California; Sammy Razzino, North Carolina State; Whitely Skoog, Minnesota.

**THIRD TEAM**  
Don Rehfeldt, Wisconsin; Sherman White, Long Island; Bill Spivey, Kentucky; Clyde Lovelette, Kansas; Charley Share, Bowling Green.

## Texans Advance In Florida Women's Golf

ST. AUGUSTINE, FLA.—(AP)—Defending Champion Polly Riley of Fort Worth faced another Texan, Betsy Rawls of Austin, in the quarter-finals of the Florida East Coast Women's Golf Tournament Thursday.

Miss Riley advanced by defeating Bee McWane of Birmingham 2 and 1. Miss Rawls beat Helen Hampton of Chattanooga, Tenn., 6 and 5. In their first round matches, Betty MacKinnon of Mt. Pleasant, Texas, defeated Pat Devany of Detroit 2 and 1.

## Spec Shed On Spot In Yankee Bailiwick

ST. PETERSBURG, FLA.—(AP)—Pitcher Frank Shea, back on trial with the New York Yankees after winding up last season with Newark, will have to prove in a hurry that he belongs with the world champions.

"He'll have to be ready to pitch very soon," says Manager Casey Stengel. "Last year we let him come along slowly down here and he never was of any help at all year."

## TAAF Tourney Set At Lubbock Friday

LUBBOCK.—(AP)—The Texas Amateur Athletic Federation basketball tournament opens here Friday for a two-day run.

Play starts at 9 a.m. and the finals are set for 7 p.m. Saturday. Nine of 23 teams expected to compete for the title drew first round byes.

## Bonus Player Looks Good To Brook Pilot

VERO BEACH, FLA.—(AP)—Burt Shotton, Brooklyn Dodgers' manager, has praise for his bonus first baseman, Wayne Belardi.

After Belardi smacked a ball nearly 400 feet Wednesday, Shotton remarked:

"Belardi's a good player and he's a good hitter, too. Why, this morning he belted one clear over those orange trees in right field—not into 'em, but over 'em."

## LIPTY SAYS MORE SPEED BOOSTS GIANTS' STOCK

PHOENIX, ARIZ.—(AP)—Added speed and better defensive play will prove a big help to the New York Giants this year, says Manager Leo Durocher.

"The pitchers were good last year, but had to contend with a defense that was not too strong," Durocher said. "The club will be stronger down the middle. That will make a big difference in the pitching."

## RED SOX TO HOLD MORE BATTING PRACTICE

SARASOTA, FLA.—(AP)—After watching Lefty Maury McDermott and Chuck Stobbs limit his Boston Red Sox regulars to three hits in a six-inning intra-squad game, Manager McCarthy junked Thursday's plans for another such practice tilt.

"We'll concentrate on hitting practice," McCarthy said.

## FRIEND LOOKS GOOD IN BROWNE WORKOUTS

BURBANK, CALIF.—(AP)—The St. Louis Browns may have a friend—Owen Friend—on second base when the American League season opens.

Friend, 23, seems to have the edge over a rookie rival, Bill Sommers.

## Texans Ask Higher Acreage Allotments In Cotton Program

WASHINGTON.—(AP)—Several witnesses urged amendments to the cotton acreage control program at a House Agriculture subcommittee hearing here Wednesday.

A half-dozen growers from scattered parts of Texas were among those who argued the crop control program is a severe hardship on many farmers.

A. L. Hartog, speaking for farmers in the Texas Panhandle, suggested the law should be changed so no allotment would be less than 60 per cent of the 1943 figure.

"If we go back to the old years for a base," Chairman Pace (D-Ga) retorted, "you would add millions of bales of cotton to the crop from some states over what they now are getting."

"Then you'd have a problem to take care of the people out there in California, parts of your own State of Texas who in recent years have gone into production for the first time."

## Applications For Jobs Increase Here

Applications for employment at the Texas Employment Commission in February totaled 970, an increase of 95 over January. J. D. Bechtel, director of the TEC in Midland, has announced.

Job openings have shown an increase during the last few weeks with several openings for construction workers reported. Other job openings include positions for stenographers, clerk typists, inventory clerks, experienced accountants, stenographers with insurance experience, IBM machine operators, dictaphone operators, salesmen, deliverymen, word pressers, alteration workers, waitresses, maids, housekeepers, cooks, and laundry workers.

Placements through the Midland office in February totaled 319, an increase of 123 over the previous month.

The Texas Employment Commission office, located at 200 East Wall, offers free service to both the employer and the employee.

## Reserve Officers Needed For Duty

Reserve officers are urgently needed for a 60-day active duty tour with an airborne troop exercise to be held at Fort Bragg, N. C., according to a telegram received Wednesday by Col. R. L. Loudon, instructor, Organized Reserve Corps.

The telegram, from Col. Oscar Abbott, Chief, Texas Military District, read: The following Reserve Officers urgently needed for 60-day active duty training with Airborne Exercise Swarmer at Fort Bragg, N. C. They must report March 20.

One major, Corps of Engineers; seven lieutenants, Field Artillery; two lieutenant colonels, Branch immaterial, with MOS 2162 (Operations and Training Staff Officer); one lieutenant colonel, Infantry; two majors, Infantry; three captains, Infantry; and 10 lieutenants, Infantry.

# DADDY RINGTAIL

By WESLEY DAVIS

## Daddy Ringtail And Drop Of A Hat

One day Little Mugwump, Monkey went for a walk with Daddy Ringtail, your big monkey friend, along the Elephant Path and far away. They walked and walked until Daddy Ringtail said at last: "Mugwump, I'll have to be turning back. It's time for me to be going home."

Mugwump said that he wouldn't

be going home for a while yet, because he wanted to keep walking on and on, to see what he could see. "All right, then," said Daddy

you was this," Daddy Ringtail explained. "Look out for Huffy Tuffy. He's a monkey boy too, but he's bigger than you are. He's very busy, and very busy. He'll fight at the drop of a hat."

But Mugwump didn't know about the drop of a hat.

"The drop of a hat," Daddy Ringtail told him, "is like you're holding a hat in your hand, and you drop it all the way to the ground."

But Mugwump couldn't see why anyone would fight when you dropped a hat. "Is it his hat?" Mugwump wanted to know.

"It's anybody's hat," Daddy Ringtail said.

"Where did they get it?" "I don't know," Daddy Ringtail had to say, because he wasn't sure they had a hat at all.

Mugwump thought about all this business of the hat. It wasn't Huffy Tuffy's hat, Daddy Ringtail had said. It was anybody's hat. Daddy Ringtail didn't know whose it was, and he didn't know where they had got the hat in the first place.

Mugwump looked at Daddy Ringtail. He saw that Daddy Ringtail was wishing he'd never said anything about the business of the hat at all; it had caused so much trouble. And this will show you, I guess, how much trouble can come from a few little words like "drop of a hat." But I'll tell you the rest of the story tomorrow. Happy day!

Mugwump sat down.

"Now what I was trying to tell

Ringtail, "be sure to keep your eyes open."

"I always keep them open," Mugwump told him, "except when I'm asleep." You see he didn't know what Daddy Ringtail meant.

Daddy Ringtail laughed. "Sit down here," he said, "right here on the ground. I want to talk to you."

Mugwump sat down.

## Russian Samovars Are Going Modern

MOSCOW—(AP)—Samovars are now to be manufactured of aluminum. The samovar is a famous and ancient piece of Russian household ware. It is a large, bulbous vessel with a small spout which is placed in the center of the table and furnishes boiling water for tea. Samovars generally are of copper and fine samovars of silver. The new aluminum samovars will be one-half as heavy as copper ones. Another recent improvement in samovars is electric heating which is available in some models sold here.

Wheat (And Taxpayers) Will Hit Ceiling

A giant hangar that once housed war planes at Topoka, Kan. Air Force Base now is piled high with wheat. This is one of four huge hangars leased at the base by the Commodity Credit Corporation to create enough space for 400,000 bushels of corn and wheat, bought to keep prices up. The base adjutant, Maj. John E. Buffin, looks over the mountain of wheat.

Permian Basin Oil & Gas Log

(Continued From Page One)
The prospect is taking electric log surveys and will plug back to about 12,200 feet and try to complete as a producer and a discovery from the Mississippian.

It developed strong indications of commercial production from the Mississippian in a drillstem test at 12,045-156 feet. The project filled with oil at the rate of 14.48 barrels per hour, during a three hour and 53 minute test. No water was found in that zone.

There was a blow of air throughout the period. Recovery was the 2,500-foot water blanket; 90 feet of drilling mud, and 1,300 feet of gas mud cut salt water.

Operators were to take electric log survey, and then plug back to test the Mississippian. The project has a string of 7-inch casing cemented at 13,497 feet. The Mississippian will be tested through perforations in the pipe.

This wildcat is 960 feet from west and 960 feet from south lines of last 12, league 317, Farmer County School Land survey.

Texaco Schedules Six Scurry-Kent Projects
The Texas Company has scheduled six outpost explorations in North Scurry and South Kent Counties.

Texaco No. 6 Fuller will be an east offset to the Progress Petroleum Company of Texas, and others. No. 1 Buffalo, a recent Canyon discovery three miles north of North Scurry reef production.

The No. 8 Fuller is to be 467 feet from south and west lines of section 544, block 97, H&TC survey. To the Castlemann & O'Neil No. 1 Feldman & Pardo discovery. Texaco has staked three No. 1 Meyer, east offset will be the No. 7 Fuller, 467 feet from north and east lines of southeast quarter of section 562; the north offset will be the No. 8 Fuller, to be 467 feet from south and west lines of the northwest quarter of section 652; northwest offset will be the No. 9 Fuller, in the center of the southeast quarter of the northwest quarter of section 651.

To Cordell Pool
The Cordell area of Central-South Kent, the No. 10 Fuller will be in the center of the southwest quarter of the northwest quarter of section 708. This location is a south offset to the same company's No. 2 Fuller, a wildcat completed recently to extend the North Snyder pool.

The No. 11 Fuller is in the center of the southeast quarter of the southwest quarter of section 497, block 97, H&TC survey.

North Flanker To Diamond M Gets Oil
A possible one-quarter mile north extension to the Diamond M pool in Scurry County has topped the Canyon reef and recovered free oil from that zone.

Barnsdall Spots Edge Well Site In Kelley
Barnsdall Oil Company will attempt to extend the Kelley pool, in Central Scurry County, one mile to the northwest.

Littlefield Elevator Destroyed By Flames
LITTLEFIELD—(AP)—The T. W. Walker Grain and Feed Elevator here was destroyed by fire Wednesday night. Damage was estimated at \$115,000.

On the northeast side of the Kelley, R. B. and W. A. Roberts, Jr., No. 1 C. M. Payne, will be oil

France Nips Strike By Drafting Workers

PARIS—(AP)—The French government nipped a nationwide power and light strike Thursday by drafting utility workers but failed to keep gas supplies normal.

Hours after the strikes were scheduled to begin—at midnight Wednesday—electricity service was normal in the Paris region.

But gas pressure was barely perceptible Thursday morning at the hours when most Parisians fix their breakfast coffee.

Power station workers, who received their draft notices Wednesday afternoon, had reported for work on the night shift without incident.

The government drafted all employees of the nationalized light and gas systems Wednesday under the War Powers Act of 1939. For failure to obey the draft notices, the act provides a maximum penalty of dismissal from work and a five-year jail sentence.

Communist and non-Communist unions joined in the strike call to back up demands for a 3,000-franc (\$8.50) monthly minimum wage increase. They protested the draft order but in a statement gave assurance that gas and electricity necessary to community life would be provided.

Milk Plant Owner Held In Shooting

GREENVILLE, TEXAS—(AP)—Johnny Patell, 21-year-old former high school athlete here, was shot four times Thursday at the Gilmer milk plant where he was employed.

M. M. Gilmer, owner of the concern, surrendered voluntarily to Chief of Police Leonard Petty. Petty said Gilmer declined to make any statement except to say "I shot him."

Patella, father of two small children, is a son of John D. Patella, Greenville businessman who recently was shot at a Greenville hospital and then taken to Baylor Hospital in Dallas, where an operation was performed.

One shot was said to have lodged in his spine, paralyzing him from the hips down.

License Plates Issuance Slumps

A slump in the purchase of 1950 motor vehicle license plates was reported Thursday by J. M. Speed, tax assessor-collector, who warned that a penalty will be imposed April 1.

Especially urged persons from out of the state who are purchasing Texas plates for the first time to register their autos soon. He said some delay has been occasioned in the issuing of license plates to these persons when all papers were not in order.

All purchasers are requested to bring certificate of title, last year's license receipt and any other ownership papers.

Anthracite Miners To Get New Contract

WASHINGTON—(AP)—Basic agreement on terms of a new anthracite labor contract brought prospect of comparative peace in the entire coal industry for some time ahead.

John L. Lewis, head of the United Mine Workers Union, and anthracite operators announced Wednesday night they were in accord on the principles of a settlement. They left final details to lawyers, expecting to ratify the final agreement Thursday.

The contract covering the 78,000 hard coal miners of Northeast Pennsylvania was expected to be patterned closely after the soft coal pact.

Mulholland Rites Conducted Thursday

Funeral services for Charles D. Mulholland, 97, former Midland resident who died in Mineral Wells Tuesday, were held at the St. Ann's Catholic Church at 9 a.m. Thursday with the Rev. Francis Taylor officiating.

Interment was in Fairview Cemetery. Holland, a resident of Midland for 46 years, had moved to Mineral Wells in 1930. He was born in Alton, Ill., in 1853 and had moved to Midland in 1904.

Survivors include two nephews, Charles and Paul Brown of Austin, and two nieces, Mrs. Jennie L. Dorsey of Austin and Mrs. Sarah Dorsey of Midland.

Youngsters To Get Free Circus Ducats

Midland youngsters—200 of them—will be given free tickets to West Brothers Indoor Circus simply by going in to Midland Furniture and Hardware Company between 12 noon and 1 p.m. Friday.

The circus, sponsored by the Kiwanis Club, is to give two performances at the Midland High School gymnasium. A matinee is scheduled at 4:15 p.m. and an evening show at 8 p.m.

Adult tickets are \$1.20, and can be procured from any member of the Kiwanis Club or at the sale at Tallorline Clothes, at the cigar stand in the McClintic Building, at the Spot in the Midland Tower, and at Hargrove Motor Company.

Children's tickets are 50 cents. Proceeds of the show go to the Kiwanis Boys and Girls Fund.

The circus features 26 big acts, including trained bears, dogs, ponies and monkeys. Many other outstanding acts are included in the show. Horizontal bar acts, aerial ballets, clowns, acrobats, and high wire acts all are top quality acts, according to Albert S. Kelley, Kiwanis president.

High Imports Spell Independents' Doom, Guy Warren Declares

DALLAS—(AP)—Unless something is done to curtail oil imports the nation's independent oil industry is doomed, the head of Texas independent producers declared Thursday.

The warning was made by Guy I. Warren, outgoing president of the Texas Independent Producers and Royalty Owners Association. He said: "Unless we are to witness the destruction of the only segment of the United States oil industry which can assure an adequate supply of petroleum for our needs in war or peace, the import problem must be resolved at once."

Warren, a Corpus Christi oil man, delivered his report as the association began final meetings of its annual two-day membership session.

Solution to the import problem is still not in sight, he said. "Voluntary industry action has proved ineffective. The President has refused so far to take action upon it," he said. "Bills in Congress, including the inclusion of an import quota and increasing tariff on imports, are still pending."

A planned movement by the government to take over the oil industry in Congress, shortly after World War II, Warren charged.

NO PROGRESS REPORTED IN CHRYSLER STRIKE TALKS
DETROIT—(AP)—On its forty-fourth day, the Chrysler strike has no sign Thursday of arriving at an early settlement.

Only trifling progress was reported Sunday in negotiations between a stubborn person disputing which has had 140,000 auto workers.

INJURED IN FALL
Lennie Campbell suffered several broken ribs Thursday as the result of a fall in a restaurant where she is employed. She was hospitalized at Western Clinic-Hospital.

College Head Raps Socialist Trends In Midland Address

Federal aid to education ultimately would bring federal control and could change the philosophy of the American people in a slide, Don H. Morris, president of Abilene Christian College, said Thursday noon in addressing the Midland Rotary Club in Hotel Scharbauer.

Morris described farming and ranching conditions in Russia, and said the Russians are using millions of slave laborers in an effort to keep up production. He also stressed the communists' attitude toward morality and religion. The speaker was introduced by W. F. Hefl, program chairman.

"The Communist manifesto written by Karl Marx and Frederick Engels, the bible of all communistic and socialist extremists, calls for world revolution," Morris said.

"What we should do is to be careful lest efforts in our country go in the direction of socialism and communism," he declared.

He warned of trends in America toward centralization in business, in government and in education, and declared that centralization of power goes hand in hand with such trends. He made these observations:

"Centralization in economies or business always weakens any system of free enterprise.

"Centralization in government weakens the ability to produce. Our economy depends upon production. To have production with socialism means to have a dictator to get production. If you have both socialism and democracy, the people will vote not to work. There is no such thing as socialistic democracy.

One of the most dangerous trends in that toward federal control of education. Such aid means federal control eventually.

"Federal control of education might not be malicious at first, but such power could be used by those in control to change the philosophy of the American people in 10 years.

"To stop the socialistic trends increasingly apparent in America, we need to become conscious of such movements, oppose them with their right for those rights, build up belief in honesty, morality, and self-reliance, and emphasize respect for God and the principles of the Bible as our best protection," the educator said.

It was the personal recommendation of the secretary of state and the attorney general.

"You came here as an emissary of peace," Judge Ryan told Gubichev, who was suspended from his United Nations engineer position after his arrest on March 4, 1949.

"You were accepted by us in the role of a friend," he declared and added that Gubichev had violated his United Nations oath by his actions.

Gubichev did these things "with an arrogant smile on your lips and your tongue," the judge said.

"Turning to Miss Coplon he declared: "You brought disgrace on your name and disgrace on your family. The country looks upon you with sorrow. The country does not seek your presence but purges it from its substantial as a warning to others."

Then he added she had been "found guilty of betraying your country."

Man Confesses Stricken Brother

ALLENTOWN, PA.—(AP)—"He asked me to shoot him. I pondered it. He often had asked me to do the same thing. I finally decided to do it."

With those words, Harold Mohr, 36, of nearby Coplay, was quoted by District Attorney Kenneth H. Koch as saying he shot and killed his 60-year-old brother, Walter, Wednesday night because "he was incurably ill of cancer and was blind."

Harold Mohr was charged with murder after making his verbal statement to Koch and a third brother, Coplay Police Ralph Mohr. The Lehigh County district attorney said Harold told him Walter had pleaded with him frequently to kill him and insisted he never would submit to hospitalization.

Dr. George S. Boyer, county coroner, said Walter was killed instantly by a .38 caliber rifle bullet fired into his back. Walter had been receiving treatment for cancer from a Coplay physician for six years, Dr. Boyer said.

Midlander Slated To Address NTOGA

WICHITA FALLS—(AP)—J. Ed Warren of Midland, president of the Independence Petroleum Association, will address the annual convention of the North Texas Oil and Gas Association here March 25.

Plans for the annual meeting were laid Tuesday by a committee of directors, who re-elected R. Clay Underwood, Wichita Falls, as association president.

Other officers, all from Wichita Falls, are Marvin E. McCullough, president; Charles F. Prothro, second vice president, and Fred Shemann, executive vice president.

Air Reserve Flight To Meet Thursday

A meeting of Volunteer Air Reserve Training Unit 9816, Flight A, has been called at 7:30 p.m. Thursday in the Midland County Courthouse.

Flight B of the unit will convene at Odessa.

Staff officers of the Permian Basin reserve organization may attend either session.

MARRIAGE LICENSES

Marriage licenses have been issued by the county clerk to A. C. King and Mrs. Colleen King, and Wendell Wallace Wood, Jr., and Edyth Louise Lemley.

Transferred

Adm. Joel T. Boone, senior medical officer on Defense Secretary Louis Johnson's staff, hero of two wars, has been notified of his transfer from this assignment.

The admiral described as "very short-sighted" the Defense Department's plan to close some of its hospitals.

ordered a sweeping investigation of horsemeat sales in his 101-county North Texas District "to clear up this scandal."

Dr. Bass said most of the shipments were from Kansas City, but some were from Chicago. The inspectors were told the meat was shipped from Dallas to Houston, Fort Worth, Austin, San Antonio, Harlingen, and to Tampa, Fla.

Horse Meat—

### Oklahoma Town Of 5,000 Literally Is 'Undermined'

The town of Picher, Okla., (pop. 5,000), faces the unsettling fact that a large area of its downtown section may collapse at any time into a giant mine cavern tunneled 250 feet below its surface. At right is an airview of the abandoned mine and downtown Picher, showing the weakest section where big cracks have already appeared in the streets. Below is one of the huge stone mine pillars, sole supports of Picher, that mining engineers have warned are shifting dangerously. Residents in a five-square-block area have been advised to move out within a month. But many refused to be alarmed. At right below, some Picher citizens look over the cracking main street and chat about the possibilities of a cave-in.

### PECOS NEWS

**PECOS** — Fines and additional license fees amounting to \$49,677-78 have gone into the tills of 14 West Texas counties in the last year as a result of the work of two license and weight inspectors, E. C. Law of Pecos, and Dale Godbey here. Both are in the Pecos district. Inspectors are on the lookout primarily for commercial vehicles which are over-weight and under-licensed. Clean-up, paint-up week in Pecos has been officially proclaimed for the week of March 12, Mayor E. G. Stafford announced Thursday. During the week, residents of Pecos will be asked to clean up trash and rubbish from their property in the city, and are encouraged to paint or otherwise repair buildings for the beautification of the city.

The walking couple from Putnam, Conn., and their dog still are walking. Carl Matlock, highway patrolman, passed the trio February 28 as he was returning from a vacation. They were approaching Selome, Ariz., on their way west. The couple, Mr. and Mrs. William Stockdale, left Putnam September 17 for a tour of the United States. They passed through Pecos last January 17.

### Tulia Child Awaits 'Blue Baby' Surgery

**CHICAGO**—(AP)—A nine-year old Tulia, Texas, boy was in Children's Memorial Hospital Thursday undergoing tests preliminary to a blue baby operation to correct a heart condition.

The operation was to have been performed on Donnie Phillips Wednesday but a hospital spokesman said it has been postponed indefinitely pending completion of tests to determine if the operation would help in his case.

Donnie arrived Monday, accompanied by his mother, Mrs. James Phillips.

### 'G-String' Promises Television Extension

**FORT MONMOUTH, N. J.**—(AP)—The Army Signal Corps has announced development of a single-strand wire that can carry a hundred different television transmissions instead of the one image now carried by coaxial cable.

The new wire could bring about major changes in the present television setup, the Signal Corps said, criss-crossing the country and carrying television far beyond its present limit of major urban areas.

The inventor of the wire is a 42-year-old German refugee, Dr. Georg Goubau. Naturally, the Army men nicknamed the wire the "G-String," after its inventor.

### Transport Makes Safe Belly Landing

**NEWARK, N. J.**—(AP)—A twin-engine C-46 transport plane with 84 persons aboard slid 300 feet in a safe belly landing Wednesday night in rain and darkness at Newark Airport.

Airport authorities said the landing gear of the ship collapsed as the plane touched the runway.

English auto manufacturers are again experimenting with steam cars in hopes of cutting gasoline imports.

### Abundant Living

By E. STANLEY JONES

Co. 3:8, Eph. 4:31-32; I Tim. 2:8.

**HOW NOT TO DEAL WITH RESENTMENTS**  
We have seen how disruptive resentments and hate are to the total person. If we are to live abundantly, we must get rid of them at all costs. But how?

First of all, we must look at some

of the ways we are not to use in getting rid of our hates and resentments. (1) We must not suppress them into forgetfulness and try to act as though we no longer have them. This treatment drives them only into the subconscious mind where they work as unconscious resentments. There they will produce conflict and disturbance, the person scarcely knowing what is causing the upset. He will be under nervous strain and will probably "blow his top" to all sorts of causes—everything except the real cause. To suppress the resentments does not get rid of them, for then they simply work their havoc at deeper and more dangerous levels. No one can play tricks on life and escape the consequences. He must bring the resentments to the surface and face them honestly, with no subtleties, no evasions, no suppressions. He must not push his resentments down into the subconscious mind.

(2) If we avoid suppression, we must not try the contrary method—that of expressing our hatreds and resentments. Some psychiatrists prescribe this way, lest suppression set up a complex in the subconscious; and there is no doubt that we can get temporary relief by giving the other person "a piece of our mind."

A young lady who had been tense and frustrated came away from the telephone quite relieved and elated after having told someone just what she thought of him. Her outburst did relieve dammed-up resentments. A woman who had pains, first at the base of her spine, then in the middle of her back, and then between her shoulder blades, was asked by her doctor what it was that was bothering her inwardly. To which question she blurted out, "Well, I think I'd be well if I could tell my husband just once to go to the devil!" Perhaps she would have been relieved momentarily, but the resentments would fill up again and be ready for another spill-over. No; expression is not the remedy—it is merely dealing with a symptom instead of with the disease.

O God, my heavenly Father, I am dealing with something too devastating to try to heal it lightly or to temporize. Help me to go to the roots and find release there. But I will need Thy grace. Thy help—I will need Thy grace for this task. Amen.

(From the book "Abundant Living," published by Abingdon-Cokesbury Press of New York and Nashville. Copyright. Released by NEA Service.)

### Brown Man Charged In Stepphford's Death

**BROWNWOOD**—(AP)—Monroe Sims, 26, is being held for action of the Brown County grand jury on a charge of murder in the March 3 death of his stepfather, James Franklin Johnson, 54.

Johnson was found dead in his home here February 25.

Sims was charged Wednesday. Justice of the Peace T. H. Hart said Johnson died from blows on the head received in a fight.

### DREDGE WORKER DROWNS ON JOB NEAR PASADENA

**PASADENA**—(AP)—Marcell Theriot, 33, a dredge worker at the Washburn Tunnel project, drowned Wednesday when he fell from a catwalk.

Fellow workers said Theriot was wearing a life preserver but apparently came up under one of several barges moored nearby. The barges were shifted around for 20 minutes before his body appeared.

### Initial Meeting Of Park Advisory Commission Held

The recently-created Parks Advisory Commission met for the first time Wednesday afternoon in the council chamber, together with the City Council, and heard an outline of its duties and responsibilities.

H. E. Chiles, Jr., city councilman, presided at the meeting in the absence of Mayor William B. Neely, who is ill. Chiles read a statement from the mayor, outlining the functions of the commission.

Seven of the 10 commission members present elected R. I. Dickey, retiring City Council member, chairman.

Members present were Jack Wilkinson, Mrs. A. P. Shirey, M. W. Collier, Sherwood O'Neal, Harold Bahr, Mrs. Robert Payne and Art Cole. Unable to attend were Dickey, Mrs. Bob Clark and Vernon Bottoms.

City Manager W. H. Oswalt, councilman W. F. Hejl and J. C. Huddleston, city secretary, also attended the meeting. John J. Redfern, a member of the City Planning and Zoning Commission, sat in on the meeting, and promised the cooperation of his group with future actions of the parks group.

Mayor Neely, in his message, stressed the advisory capacity of the group, and named the primary park problems facing the city. A proposed park plan, submitted by Koch and Fowler, city planning engineers of Dallas, was discussed.

### They Just Couldn't Resist That Smell

**LOS ANGELES**—(AP)—Harold Martin smells too doggone good. That's why he and Carl Lancaster, a friend, were acquitted Wednesday of stealing a Great Dane and a Collie dog, each valued at \$10,000.

Martin told a Superior Court jury the dogs forced themselves into the defendants' car last December 3 and wouldn't leave.

The reason: Martin is a salesman and his clothes smell of the produce he sells—dog food.

### Texans Invited To Hearing On River Development Plans

**WASHINGTON**—(AP)—Officials of a dozen cities and towns in the Panhandle and High Plains areas of Texas have been invited to testify at a hearing on the proposed Canadian River development program April 18.

Senator Lyndon B. Johnson (D-Texas), who announced the hearing date, told a news conference Wednesday that Secretary of the Interior Oscar L. Chapman will be the first witness.

The two-day hearing on the \$85,000,000 program in West Texas will be held before a Senate Interior and Insular Affairs subcommittee.

The House-passed bill under consideration would authorize the project, which contemplates construction of a \$27,000,000 dam and a \$54,000,000 conduit to deliver water to cities in the river's watershed.

The Canadian River bill passed the House last year under the guidance of Representatives Worley and Mahon, Texas Democrats, but has been held up in the Senate by Senator Watkins (R-Utah).

### Training School In Progress At Census Office

A census crew leader's school now is in progress at Odessa. It opened Wednesday.

Participating in the school are the following crew leaders with areas listed: Richard M. Parker, Midland County; Mrs. Jessie Shelton, Ward County; Anson J. Hahn, Jr., Terrell County; Roy Spence, Brewster County; Richard Thomson, Ector County; Richard Collier, Reagan and Crockett Counties; Ralph Seale, Winkler County; Horace Miller, Pecos County; Norman Locks, Ector County; Ernest McKinney, Upton and Pecos Counties. The training school closes March 14. Classes are being held in the Ector County courthouse from 8 a.m. to 5 p.m. Odessa is site of the district office of the 17th Decennial Census.

### Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unsightly weight and helping to bring back slurring curves and graceful figures. You may slim down your figure and lose pounds of ugly fat without back-breaking exercises or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

### Korean Runs Across Teacher From Home

BLOOMINGTON, ILL.—(AP)—Miss Hyung Bok Roe came from Korea to study music at Illinois Wesleyan university. If she felt she was among strangers, it was not for long. For one of the members of the faculty is Miss Wm Young Chung, who used to be her piano teacher at Ewha college in Korea.

## Youth-Center Chatter

By Jane Maslin and Joyce Howell

Those cards are out again... but we made it so here we are! Yes, Wednesday was "Blue Wednesday" around M.H.S. when teachers issued the six-week grades! Do you realize that in only 56 more school days the seniors will be saying good-bye to "Dear old Midland High" and the freshmen will, at least, be able to say "I'm a Sophomore!" How about that? It's really getting to be that time, isn't it?

Will you be among those present at the dedication ceremonies for the new high school Saturday night? You can bet we are planning to be there and we hope to see all of you. The program will get underway about 7:10 p.m. and the M.H.S. band will be right there to get things off to a good start. Every department in the school will participate in some way. This, of course, includes the A Cappella Choir, which will make its second "open" to the public performance. Dr. A. J. Stoddard, superintendent of Los Angeles public schools, will be the principal speaker. Dr. Stoddard is one of the nation's outstanding educators. Those of us who are "old timers" at Midland High, (Juniors and Seniors, that is), remember when Dr. Stoddard spoke to us in our Freshman year. We are looking forward to hearing him again. Don't forget the time, 7:30 p.m. Saturday in the auditorium.

Congratulations. This week we'd like to offer our congratulations to the MHS Band and A Cappella Choir who presented such a fine performance in their joint concert Tuesday night. Jerry Hoffman is the band director and R. C. Michener directs the choir. Congratulations, Teeners.

As long as the cast for the contest play, "The Importance of Being Earnest," has been chosen. Out of the doublet cast, the following were selected: Tony Chapple as Cecily; Betty Wilson as Lady Bracknell; Jim Lock as Algernon; Virginia Breedlove as Miss Prism; James Johnson as Merriman; Robert Stubbeman as Lane; Dots Thompson as Jack; and Agatha Tabor as Gwendolen. The play is set in England and as a result, all members of the cast are busy developing accents. The play should be very well done and MHS students are looking forward to the day when they will get to see it. We wish these Teeners the best of luck and hope they will go to State. The play is under the direction of Miss Verna Harris.

Seniors were missing from their morning classes Tuesday. The reason was the aptitude test given by Texas Western College representatives. The tests were to see just how MHS students stack up against students from all over the country. The results were most interesting. Busy Bandsters

been quite busy this week. On Tuesday night they combined with the A Cappella Choir to present their first public concert. On Wednesday Mr. Carey conducted an all day band clinic. The band members were excused from classes all day but they were tired out by the end of the day.

Our musical feature of the week was Norman Drake. We are about to decide that Norman is a musical genius. A second Mozart. (Or something or another). He was playing some beautiful music on his harmonica the other day and there was a circle of "Teeners" gathered around him.

Do you like cookies? If you do, and we're sure you must, be sure and be home Saturday when you'll be given a chance to buy some of the best. Yes, the Girl Scouts are on the loose with order blanks for Girl Scout cookies. The money received from the sale of these cookies will go to the building fund for our Girl Scout Little House.

We noticed Dick Moore, Charles Shepard, Charles Trauber, Russell Huckaby and several others engaged in a fast game of cards the other night. The stakes were high... nothing under \$10,000 dollars. Of course oil wells and Cadillac also were allowed as stakes. Naturally, it was all in fun and the girls were on hand to heckle. It seems there was a little "underhanded" dealing.

How about the Dick? The tennis team finally has been organized. Tuesday afternoon found all the ambitious tennis fiends, who weren't already overloaded with extra-curricular activity, (and some who were but tried anyway) in the gym signing up for the team. Coach Patterson from North Elementary will be the coach. Last year, MHS boasted a fine team and this year will try for an even better one.

Year Ago In The Center... A year ago our grass was just beginning to green up... just as it is today.

The big ping-pong tournament was all over but the shouting and the winners were Calva Ann Frizel (Ex. 49), girls singles, and Doyle Roberts (Texas U.), boys singles. Moe Price (Odessa Jr. College), and Peggy Charleston were tops in mixed doubles, and Don Johnson and Moe won the boys doubles.

We thought Ronny Estel, David Weaver and Charlie Wheat (Texas U.) had short haircuts... burrs! But after seeing the new Apache cuts, we now retract that statement. (And by the way... we notice Apaches are appearing more and more every day.)

We mourned at the thought of losing Bill Franklin who was moving "for good." We mourned too soon... Bill since has moved back and now is very much in evidence. The tennis team of '49 had been selected and those Teeners were found in the Center at all hours with their rackets.

As usual no one seemed to know when Spring was scheduled and the girls wore shorts one week, heavy winter coats the next.

Saddle oxford, Mike Brunner and his "borrowing," the Finch Twins, Moe Price's sun-visor, and Ronny Estel's feat of "almost, nearly" catching a rabbit bare-handed took up Wandering Thoughts, which, as usual, wandered over just about everything.

Wandering thoughts: We wonder where Betty Pitzer got her cute little coin purse? It has... First National Bank, Artesia, New Mexico, on it. Seems we've gotten just about all there is for this week so we'll just say Goodbye 'til next week.

P.S. Our apologies go to Shirley Harrison whose name was left off of the list of those going to Austin. Sorry, Shirley.

### Municipal Problems Nil In This Town

DELLVIEW, N. C.—(AP)—Dellview is as free from municipal problems as any town you'll find. There's no parking space. There are no alums. The budget is balanced. Dellview has a population of six. There are two houses. Mr. and Mrs. J. H. Dellinger and their daughter, Gladys, live in one house. In the other live Mr. and Mrs. A. T. Dellinger and their son Robert. Mrs. J. H. Dellinger is mayor, and her sister-in-law is treasurer. A. T. Dellinger is chief of police.

The town this year will celebrate its 25th anniversary. The legislature in 1926 incorporated Dellview. The main reason for incorporation was to give police powers to residents who wanted authority to deal with stray dogs which were molesting chickens. The Dellingers say that their town is the smallest incorporated municipality in the United States.

## HALF-CENTURY HIGHLIGHTS

Best Scout of them all was Daniel Carter Beard, author, artist, outdoorsman and founder of the movement which became the Boy Scouts of America. In dress and spirit, the perfect picture of the old woodsman, "Uncle Dan" Beard brought the pioneer traditions of Daniel Boone into the twentieth century and into the lives of millions of American boys. It was in 1906 when Beard, then editor of a recreation magazine, got the idea for a boys' outdoor organization. He formed the "Sons of Daniel Boone," which grew to 150,000 members in five years. In 1910, Beard's "Sons" merged with a British organization headed by Lord Baden-Powell to form the International Boy Scout movement. Today there are two and a quarter million American Boy Scouts.

### Bridge in Tarrant County Is For Sale

FORT WORTH—(AP)—Anybody want to buy a 18-foot bridge? Tarrant County has one for sale. The span, 25 feet wide and held together by 75,000 pounds of structural steel, will be covered by 40 feet of water when the Burnbrook Lake is completed. It crosses Trinity River three miles south of Benbrook.

County Engineer Cook estimates it would cost \$5,000 to move the structure. He hopes it can be sold for scrap steel.

### Sieze Enough Guns To Equip Division

ROME—(AP)—Italian police have uncovered and confiscated enough arms in the last three years to equip a division. The startling figures were given by Giorgio Tupini, 27-year-old Christian Democrat majority party deputy in opposing a Communist move to disarm police.

From 1946 through 1948, said Tupini, police have found and confiscated 80 cannon, 407 mortars, 12,000 machine and submachine guns, 52,000 rifles, and 100,000 hand grenades.

### Purify English As She Is Spoken

CANBERRA—(AP)—The Australian Citizenship Convention has urged the government to "purify" English as she is spoken in radio serials. Speakers said that the standard of colloquial English presented as Australian speech in radio serials was an advertisement for the purveyors of Cockney, who are quite un-Australian and entirely untaught to teaching new Australians how to make themselves familiar with the English language.

This awesome Nazi V-1 buzz-bomb is mounted on the courthouse lawn at Green Castle, Ind., as a war memorial for Putnam County. It's a new twist on the age-old custom of using enemy artillery pieces as public war trophies.

### Tractor Driver At The Age Of Three

GARDEN GROVE, CALIF.—(AP)—Removing the locks from doors—no always to the benefit of these devices. Freddy Brugeman is an accomplished tractor driver at the age of three. A clear-eyed, serious young chap with remarkable mechanical aptitude, he has been solving on his father's tractor in the family orange grove for several months. Freddy began by tinkering with cars and

The boy's father decided to divert this zest for mechanics into useful channels and taught him to plow a furrow through the orange trees.

### Four Area Hearings Set, One Canceled

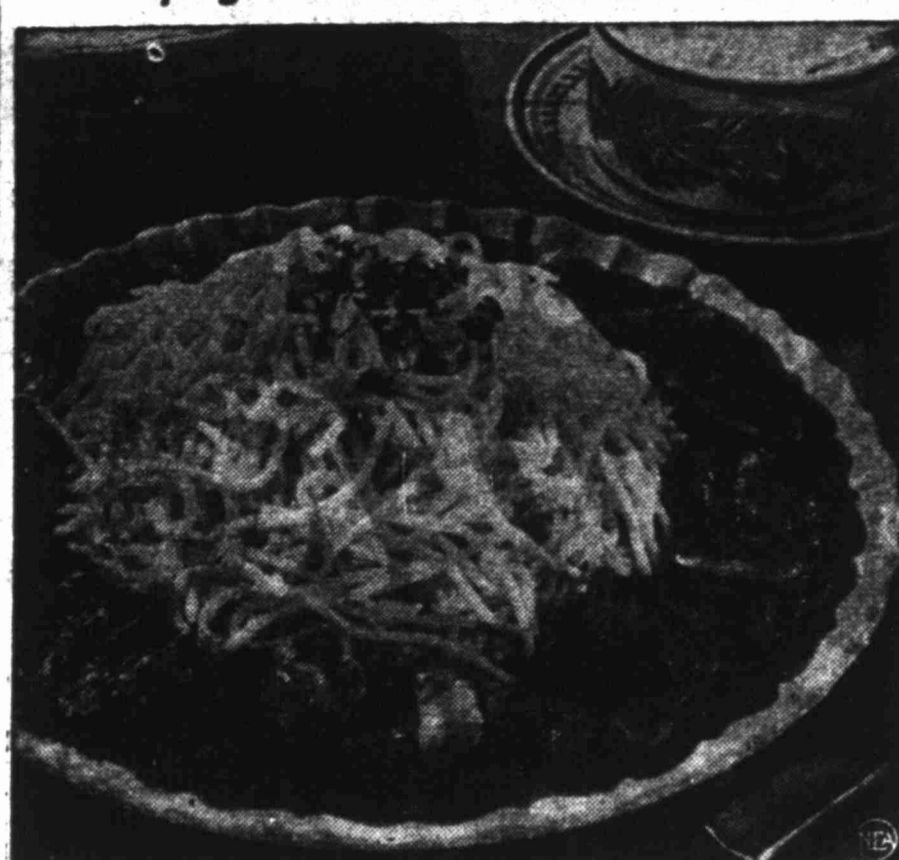

AUSTIN—(AP)—The Railroad Commission Thursday scheduled the following public hearings: March 30—Application of Atlantic Refining Company for special field rules in Block 31, Devontan field, Crane County. March 30—Application of the Atlantic Refining Company for special field rules for Block 31, Ellenburger field, Crane County. April 25—Application of the Progress Petroleum Company of Texas et al for discovery allowable rights for their Buffalo well No. 1, North Snyder field, Scurry County. May 5—Application of the DeKalb Agricultural Association for exceptions to the commission's lease prohibition order applying to wells on the D. S. Wright, Miller Wright and W. C. Elliott leases in the Levelland field, Cochran and Hockley Counties. Notice of indefinite postponement was given on the hearing originally set for March 23 on application of the Forest Oil Corporation for field rules for the TXL Upper Clear Fork field, Ector County.

### Cortes' Mexico Had Large Population

BERKELEY, CALIF.—(AP)—Two University of California professors think Mexico had a big population in the time of Cortes. Their estimate is 11 million people. That compares with 13 or 14 million today. Most historians think it was under five million. The two are Dr. Lesley Byrd Simpson and Dr. Sherburne F. Cook. They think the 1519 population of Mexico was about the same as modern Michigan, Indiana or Missouri—50 to 70 people per square mile. They worked with several historical sources to get their figures.

The expression, "showing the white feather" for cowardice, originated from the gamecock's practice of showing surrender by lifting his back, edged in white feathers, according to the Encyclopedia Britannica.

### Spaghetti Is A Meatless Treat

MEATLESS TREAT—A large platter of spaghetti with Borelaises sauce makes a welcome meatless main dish.

By GAYNOR MADDOX  
NEA Staff Writer  
For a special dish on a meatless day, here's a sumptuous answer: Spaghetti With Borelaises Sauce (Makes 4-8 Servings)  
One-third cup olive oil, 1 medium onion, chopped, one 4-ounce can sliced or chopped mushrooms, 1 peeled whole clove garlic, 2 No. 2 cans tomato puree, 2 tablespoons chopped parsley, 1 teaspoon chopped or dried basil, salt and pepper, 1 cup chopped cooked spinach, 1 tablespoon salt, 3 quarts boiling water, 8 ounces spaghetti.  
Place olive oil in skillet. Add onion, mushrooms and garlic and saute until onions are tender. Remove garlic. Add tomato puree, parsley, basil and salt and pepper to taste. Cook 35 minutes or until sauce thickens, stirring occasionally.

9-inch frying or omelet pan. Cook over low heat until omelet puffs up and is golden brown on the bottom (about 3 to 5 minutes). Peek underneath by lifting edge of omelet with a spatula.  
Sprinkle cheese, crumbled bacon and caraway seed on omelet and quickly place in moderate oven (350 degrees F.) for 10 to 15 minutes longer or until top springs back when pressed with finger.  
Make 1-inch cuts at opposite sides and crease with back of knife. Fold on crease by slipping spatula or pancake turner under half the omelet. Slide onto platter and garnish with parsley. Serve immediately.

Here's another novel main dish: Caraway Cheese Omelet (Serves 4 to 5)  
Four eggs, separated, 1/2 teaspoon salt, dash of pepper, 1/4 cup milk, 1 tablespoon butter, 1/2 cup shredded cheddar cheese, 1 slice bacon, cooked, 1/2 teaspoon caraway seed, parsley, if desired.  
Beat egg yolks until thick and light. Add salt and pepper and milk. Fold into stiffly beaten egg whites. Turn into buttered hot

### Father Describes Head-To-Head Twins As 'Frightful Shock'

SYDNEY, AUSTRALIA.—(AP)—Erskine Smith, father of girl "Siamese twins" born Saturday with the tops of their heads joined, said Wednesday he "would rather have seen them die at birth than grow up like they are."  
Erskine, a timberman and father of five other children, told reporters he had seen the twins in the hospital at Wynyard Town, Tasmania, where they were born. "It was a frightful shock," he said.  
Dr. John Starr, who delivered the twins, said they were perfectly healthy and the rest of their bodies were normal. He added, however, that it would be "practically impossible to separate them."  
"I cannot see that they can be severed and remain alive," he declared.  
The babies are joined head-to-head at the top of the skull "as if you stood one headfirst on the other," the doctor explained.  
The father said he hoped to take the twins to Melbourne or Sydney for possible treatment.  
"If just one of them could be saved without anything happening I would like it," the father declared.

### This Machine Pumps Sardines

SAN PEDRO, CALIF.—(AP)—H. J. Kimmerte invented a machine that pumps sardines from the sea. The fish are normally caught in nets. The Los Angeles inventor says he tested the device aboard a purse seiner and that he picked up sardines at the rate of from 50 to 200 tons an hour.  
Kimmerte's unit consists of a vacuum pump hooked to an eight-inch hose with a 16-inch funnel entrance. The funnel is dropped into a closely packed school. The fish are sucked up and discharged on a conveyor belt which carries them to the hold. The inventor hopes his system will be adopted by the local sardine fleet.

### Is There To Be A Superweed Race?

NORTH PLATTE, NEB.—(AP)—Are the new chemical weed killers, such as 2-4-D, in danger of producing a race of "super weeds"? It's a good bet under certain conditions in the opinion of Glenn Viehmyer, assistant in horticulture at the University of Nebraska's station here.  
Assuming that a dose of 2-4-D doesn't kill all weeds, then those that survive must be presumed to be possessed of some degree of resistance. Offspring of the weeds with resistance should inherit some of this resistant quality. Repeat the process regularly enough and the weeds eventually will "reach the highest degree of tolerance inherent in the race under treatment," says Viehmyer.

### Defrosting Job Must Be Repeated By Crew

BUFFALO, N. Y.—(AP)—Workers in a coal yard built a fire under a gondola to thaw out a frozen shipment so they could unload it. The fire ignited the coal. Water put out the fire—and re-froze the coal.

When it rains it pours. More people use Morton's.

# McKENNEY Answers Your CANASTA Questions

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written For NEA Service

As I point out in my answer to a reader's question, you can never lose by drawing from the stock pile. There's no sense in trying to dodge your fair turn to draw.

Q—I have only one card in my hand. My partner has made a meld on which I can play my card. May I play it and go out, or do I have to draw a card from the stock pile?

A—Yes, you must draw a card from the stock pile, but why object to that? If you cannot use it, discard it. It might be a red trey, which would give you an extra 100 points; or it might be a wild card that would complete another canasta for you.

Q—Are the individual cards in a canasta counted in addition to the bonus for a canasta?

A—Yes. The scoring procedure is, first, to score the basic, which is made up of the canasta bonuses, red trey bonuses, and the bonus for going out. After scoring the basic, put the red treys in the discard pile. If your side does not go out, you pay off for cards held in your hand and your partner's hand, then score for all of the cards you and your partner have left, including those in canastas.

Q—We play five-handed Canasta with only two decks. Should we use more than two decks?

A—No. Five-handed Canasta is actually four-handed with one player sitting out.

Q—The pack is frozen. I have taken the last card of the stock pile but do not go out. When I discard, can the next player take the whole pack if he has a natural pair matching the card I put on the discard pile? Or can he refuse to take the pack, and if so, what happens?

A—Each player has a perfect right to take the discard pile if he has two natural cards matching the up-card of the discard pile. However, he is not forced to do so and if he does not take the pack the hand is over.

Q—When you pick up a card from the discard pile, can you keep it in your hand and not play it?

A—In the first place, you cannot "pick up a card from the discard pile" and put it in your hand. If you are going to use the card on a meld, you must first put down on the table the two cards from your hand that allows you to take the up-card of the discard pile. Then take the up-card and play it with the two you have put down on the table. There is actually a penalty for taking the up-card of the discard pile and putting it in your hand.

Q—I had a red trey dealt to me which I failed to put on the table. I drew a card from the stock pile which would give me enough to make an initial meld provided I could take the up-card of the discard pile. Could I take the up-card to replace the red trey which I still had in my hand?

A—No. You did this backwards. If you had put the red trey on the table and drawn from the stock pile to replace it, as you should have done, you still would have had the option of taking the discard pile or drawing another card from the stock pile.

# Wildcat Activity Shows Increase In WT Region

Wildcat activity in the Midland areas increased last week, as shown by records of the oil and gas division of the Railroad Commission of Texas. Ten wildcat locations were staked.

A total of 58 new projects were listed the last week as compared to 79 the preceding week.

Borden County received three new wildcats. Pecos County reported two new ventures. The remaining prospectors were distributed one each to Ector, Kent, Midland, Scurry and Sterling Counties.

Scurry County led with field projects, listing 20. Garza followed with seven explorations.

Cochran County reported five new locations. Drilites were established for four new projects in Pecos County, Ector, Hockley, Howard and Kent Counties each listed two new explorations.

The remaining new locations were divided one each among Crane, Garza, Loving and Winkler Counties.

Applications to amend previously staked locations totaled five. They were distributed one each to Cochran, Crane, Pecos, Scurry and Winkler Counties.

## Hal Boyle Conducts Research Into Sin

By HAL BOYLE  
NEW YORK—(AP)—Some time ago, having attacked poison snakes, I promised to go on and deal with the problem of sin.

But after exploring the subject a bit further, I found myself in great difficulty.

Poison snakes and sin are quite different. Poison snakes have a beginning, a middle and an end. Sin has a beginning and a middle too—but it doesn't seem to have an end. It goes on and on and on—like the rim of a cup.

Sin generally is highly unpopular. But many people who denounce it in public must practice it in private, or it wouldn't go on getting the attention it does.

Anyway, the more I investigated the field of sin the more I realized it was too complex for a simple poor man's philosopher to understand.

Like Coolidge's Preacher  
Like Calvin Coolidge's preacher, I'm "agin" it. But here are what some of the great minds of the past have thought about sin:

"That which we call sin in others is experiment for us."—Emerson.

"Naught that delights is sin."—Ben Johnson.

"Boyle's note: This definition has to be taken with a box of table salt."

"There is often a sin of omission as well as commission."—Marcus Aurelius.

"Sin is a state of mind, not an outward act."—William Sewall.

"It makes a great difference whether a person is unwilling to sin, or doesn't know how."—Seneca.

"He does not sin who sins without intent."—Seneca.

"Sin brought death, and death will disappear with the disappearance of sin."—Mary Baker Eddy.

"Little sins make room for great, and one brings in all."—Thomas Edwards.

"Sin is not hateful because it is forbidden, but it is forbidden because it is hateful."—Benjamin Franklin.

"H that is without sin among you, let him cast the first stone."—New Testament.

"The sin is not in the sinning, but in being found out."—W. G. Benham.

"One leak will sink a ship and one sin will destroy a sinner."—John Bunyan.

## Australian Rabbits Are Invading Towns

MELBOURNE—(AP)—Fleeting dry pastures scorched by the heat wave, thousands of rabbits are invading the towns in central New South Wales in search of water.

Stupefied by thirst, the rabbits sit in the footpaths. Pedestrians are getting used to stepping off the footpaths to avoid the rabbits.

**Proteins Will Fill In Lenten Menus**

LENTEN BOON—Casserole cheese sandwiches are a soufflé-like high protein main dish for Lenten menus.

By GAYNOR MADDOX  
NEA Staff Writer

Look to cheese and other dairy foods for high-quality protein to replace that of meat in your Lenten menus. Cheese sandwich variations not only taste good but provide main dish nutrition for all the family.

Here's a brand new idea. Comes out puffy and brown like a soufflé:

**Casserole Sandwiches**  
(Serves 6)

One 7-ounce can tuna fish, 3 tablespoons mayonnaise, 2 tablespoons minced onion, 12 slices bread, 1½ cups grated cheddar cheese, 3 eggs, 3 cups milk, 1 teaspoon Worcestershire sauce, 1 teaspoon celery salt.

Mix together tuna fish, mayonnaise and minced onion. Spread on six slices of bread, cover with remaining slices and fit into six individual casseroles. Top with grated cheese. Beat eggs until frothy, stir in milk, Worcestershire sauce and celery salt.

Pour over sandwiches. Let stand for 30 minutes. Bake in moderate oven (350 degrees F.) for about 25 to 30 minutes or until puffy and golden brown. Garnish with green peas and mushrooms. Serve very hot.

**Broiled Cheese Sandwiches**  
(Serves 6)

Two tablespoons softened butter, ¼ teaspoon dry mustard, 1 teaspoon celery salt, 6 slices bread, 2 medium sized tomatoes, 6 thin slices large onion, 6 thin slices cheddar cheese, paprika.

Mix together butter, mustard and celery salt. Spread on bread slices. Cut tomatoes in 3 slices each. Place on bread, top with onion slices and cheese. Sprinkle with paprika. Place under broiler and broil for 5 to 6 minutes or until cheese has melted and is golden brown. Serve immediately with crisp salad greens.

**But The Catch Is Changing Habits**

PHILADELPHIA—(AP)—Individual preventive medicine can prolong life, Dr. William Harvey Perkins says. Dr. Perkins is directing a "positive health maintenance clinic" which has been operated by Jefferson Medical College since September, 1946.

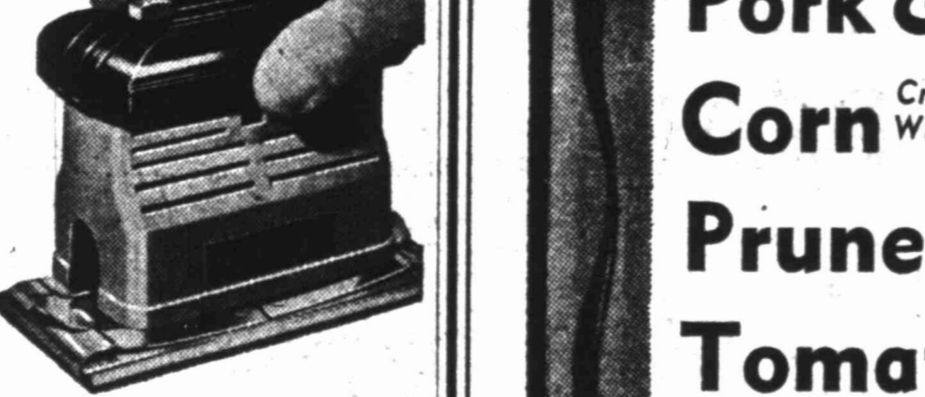

The new philosophy of health examinations, developed by Dr. Perkins, stresses detailed information on a patient's habits, occupation, family history, heredity, environment, emotional stresses and disturbances and similar factors prior to a complete physical examination.

The examination is designed to enable the doctor to know those who come to see him as human beings and not merely as patients, and to keep them in good health as well as cure them if necessary.

One of the difficulties, the doctor says, "is to get people to change their habits even after the probable consequences of failure to do so has been brought to their attention."

**NEWS FROM CAR RADIO**

TOKYO—(AP)—"Yomuri" is the first newspaper in Japan to use two-way radio communication between newsroom and motorized reporters. Reporters will use automobiles with 25-watt mobile equipment. Walkie-talkie sets will be used for on-the-scene coverage in remote spots.
