Von Roeder Offset In SE Borden Has Flowed Canyon Oil

Amerada Petroleum Corporation No. 1 Weathers, Southeast Borden County wildcat, one location south of the discovery well—and up to now the only producer in the Von Roeder field—flowed 186.61 barrels of 40.3-gravity oil in one and three-quarter hours through a five-eighths inch bottom hole choke.

The flow came during a drill-stem test in the top of the Canyon reef at 6,820-50 feet. Drilling mud came to the surface in one hour and 19 minutes, oil flowed out the top in two hours and two minutes.

The section flowed 98.61 barrels of oil the first hour and 88 barrels of oil the next 45 minutes. That was a total of 186.61 barrels in one hour and 45 minutes. There was no formation water.

Large Gas Volume
There was a gas volume of 1,500,000 cubic feet per day, which gave a gas-oil ratio of 832-1.

Top of the Canyon reef is at 6,818 feet, which is on a datum of minus 4,455 feet. That makes No. 1 Weathers 12 feet high on the top of the reef to the same concern's No. 1 Von Roeder, the initial producer from the Canyon in the Southeast Borden County area.

Operator is to cement casing at 6,820 feet, and complete from the 30 feet of pay between that point and the total depth at 6,850 feet.

Location of the extension is 1,958 feet from west and 660 feet from north lines of section 94, block 25, H&TC survey.

Reinecke Outpost Nears Reef Zone

C. H. Sweet and Associates, No. 1 McNeil, three-quarters of a mile northeast outpost to the initial producer from the Canyon line in the North Vinceson Reinecke field in the Southeast Borden County, had reached 6,838 feet in shale, and was drilling ahead. It is to go to the Canyon reef which some geologists expect around 6,700 feet.

Location is 430 feet from south and west lines of the northeast quarter of the northeast quarter of section 53, block 25, H&TC survey.

New Pay Opener In Cogdell Completes

J. A. Chapman Producing Department No. 6 Cogdell, new pay discovery in the Cogdell field of Central-South Kent County, has potential for 1,233,222 barrels of 43.2-gravity oil and no water daily.

Production flowed naturally through a three-fourths inch choke from perforations at 4,906-930 feet in either the basal Permian or Cisco of the upper Pennsylvanian. Top of the Permian is 4,910 feet, and total depth is 4,970 feet. Seven-inch casing is set at 4,969 feet.

Tubing pressure on the potential varied between 430 and 150 pounds. Gas-oil ratio is 201-1.

The Cogdell is on the northeast side of the Cogdell Canyon pool which has production from 6,800 to 6,950 feet.

Exact location of this new pay opener is 2,082 feet from north and 2,703 feet from east lines of section 718, H&TC survey.

Heyser Abandons One, Stakes One In Kent

Estel S. Heyser, Jr., of Dallas, and associates are plugging one Kent County wildcat, and preparing to start drilling on another prospector in the same county.

Heyser and associates No. 1 Lohman, 1,012 feet from south and 2,045 feet from east lines of section 42, block G, W&NW survey, drill-stem tested the Ellenburger at 7,497-7,541 feet.

The tool was open one hour. Recovery was 2,900 feet of sulphur water. There were no signs of oil or gas. Top of the Ellenburger, according to electric log was at 7,478 feet. Elevation is 2,129 feet.

The wildcat did not encounter any possibility of production in any of the higher formations.

It was seven and one-half miles southwest of Claiborne in Central-Southwest Kent County.

Tydings Hints New Line Of Inquiry In Red Investigation

WASHINGTON — (P) — Senator Tydings (D-Md.) talked guardedly Monday of a new line of inquiry in the Senate Communist investigation.

"This has nothing to do with any information Senator McCarthy has given us," said Tydings, chairman of the Senate Foreign Relations subcommittee which is looking into McCarthy's charges of communism in the State Department.

McCarthy, Wisconsin Republican, has been outlining his accusations to the inquiry committee. The committee so far has mostly listened.

"Now we are doing some investigative work on our own hook," Tydings told a reporter. He declined to amplify that statement.

Budenz subpoenaed
Sunday, the committee's chief counsel, Edward P. Morgan, served former Communist Louis F. Budenz with a subpoena. Budenz, one-time managing editor of the Communist newspaper Daily Worker, is scheduled to testify at a public hearing Thursday.

McCarthy has said Budenz will show he knew Lattimore, Far Eastern affairs expert, to be a member of the Communist Party. Lattimore already has testified under oath that he never has been a Communist or a fellow traveler.

Pearson said on his weekly radio program Sunday night that Budenz would tell the committee that a third person, a Communist, had informed Budenz that "Lattimore had been used, perhaps unwittingly."

Search For Missing Bomber Abandoned

COPENHAGEN, DENMARK — (P) — The big aerial search for the U. S. Navy patrol bomber which disappeared mysteriously over the Baltic Sea with 10 men aboard was abandoned Monday.

The only possible clue to the fate of the plane, last heard from a week ago last Saturday at the same time the Russian, said their fighters exchanged shots with an American bomber over Latvia, was a yellow life raft found Sunday floating in the sea.

The life raft, its food containers empty, was found by the little British freighter Beechland about 45 miles east of Stockholm, Sweden. The spot is 200 miles north of the Latvian City of Lepaja (Libau), where the Soviet said their fighters chased off a U. S. bomber.

FATHER OF CREWMAN PLUNGES TO DEATH
NEW YORK — (P) — Death came Sunday to a 62-year-old plumber, who plunged five stories down a dumb waiter shaft while depressed over learning that his son was aboard a Navy plane missing over the Baltic.

The plumber, William Seeschaf, who made the plunge at his Bronx home Saturday died at Fordham Hospital of his injuries.

His widow said they were notified by the Navy last Monday that their son, Lt. Howard William Seeschaf of Fairlington, Va., was aboard the Navy Privateer missing more than a week. The father had been dependent since then, she added.

Ex-Boothlack John Maragon Goes On Trial

WASHINGTON — (P) — John Maragon, who used to run in and out of the White House as a friend of Presidential Aide Harry Vaughan, went on trial Monday on charges of lying to a Senate investigating committee.

The process of picking a jury got under way shortly after 9 a. m. in the court of U. S. District Judge Jennings Bailey.

The 55-year-old Maragon was flanked by three lawyers. He had nothing to say to reporters about what he has been doing the last few months while he has been on bail.

It took a little more than an hour to select a jury of nine men and three women. Included in the dozen were two negroes. The defense used up all challenges to which it was entitled.

Vaughan's Name Mentioned
The nature of questions the opposing lawyers asked prospective jurors indicated the case would cover a broad field and bring in prominent names if not the individuals themselves.

The prosecution wanted to know whether any jurors knew General Vaughan or if any of their close friends or relatives knew him. None had a personal acquaintance.

The defense wanted to know whether any of the panel knew Senators McCarthy (R-Wis) or Mundt (R-S.D.).

A grand jury accused Maragon last January of lying four times about business connections and financial affairs. Maragon was a witness at the Senate inquiry into activities of five percents—men who represent others in dealings with the government for a cut, usually five per cent.

Man About Town
The talkative little Greek-American, who used to shine shoes in Kansas City and then became a man about town in Washington, has pleaded guilty if convicted, he could be jailed for two to 10 years on each count of the indictment—a maximum of 40.

Assistant U. S. Attorney Charles B. Murray, in charge of the case for the Senate investigating committee, would need about a week, Irving Goldstein, Maragon's No. 1 lawyer, said the defense also would require a week.

It was last July 28 that Maragon gave the Senate investigating committee the testimony—behind closed doors—that now has him in trouble.

The grand jury indicted Maragon on charges he perjured himself in four instances.

Convicted Slayer Must Die May 23
PALO PINTO, TEXAS — (P) — Dan White smiled up at Eighth District Judge Ernest Belcher Monday as he was told he will die early May 23 in the electric chair at the state penitentiary.

"God is with me," said the 48-year-old former Vernon man. "Why should I be afraid of man?"

White was convicted by a district court jury here April 17, 1949, as an accomplice in the slaying at Stephenville, Texas, Jan. 29, 1949, of Crockett Ross, a service station operator. Formal sentencing came Monday after two unsuccessful appeals to higher courts.

White's nephew, Robert Bagwell, was sentenced in February, 1949, at Stephenville, to life imprisonment.

Winds, Sandstorm Follow Rain Here
Just to show doubters that it can happen, the weather man sent high winds and a sandstorm into Midland and vicinity Sunday afternoon right on top of three days of rain.

The wind reached 18 miles per hour at 3:25 p. m. and continued strong until about 6 p. m.

Additional rain fell Saturday night and early Sunday, running the total for the week to more than an inch.

Kansas City 'Mob' Raided

Charles V. Carroll, right, who lost control of Kansas City, Mo., North Side wards to slain Politician Charles Binaggio, has been arraigned on a charge of possessing 1,135 cases of liquor, valued at \$50,000. An old friend of President Truman, Ernest N. Ahlfeldt, left, director of the Alcohol Tax Unit in Kansas City, led Treasury agents in the raid.

Iron Ore Shortage May Curtail Steel Production In U. S.

WASHINGTON — (P) — Secretary of Interior Chapman said Monday the steel industry must look to foreign raw material sources because domestic iron ore supplies are approaching depletion.

He raised the possibility of restricted steel production within the "foreseeable future" as a result of dwindling ore sources.

That is the foremost problem facing the steel industry right now, the secretary said.

Chapman was lead-off witness in an investigation of the steel industry by a House Judiciary subcommittee inquiring into monopoly in business.

Chapman said an increase of at least three per cent a year in steel production is necessary to keep up with the nation's rate of economic growth.

Chapman said ore production in the upper Great Lakes region will be reduced more than half within the next 15 years at the present rate of steel production.

"The decisions of these leading firms have significant impact on output and price of steel," he said. "There is little opportunity at the present time for offsetting influence by smaller or new firms."

Chapman said the committee will continue to investigate the steel industry, and to what degree.

He said also that the committee saw "a trend toward government regulation of steel," and wants to determine if it is unavoidable or if the remedy lies in the anti-trust laws.

Man Dies Following Shooting At Pecos

PECOS — Charges were expected to be filed Monday against A. O. Carroll in connection with the fatal shooting Sunday of Alvin Biggerstaff, 22-year-old oilfield worker, who died early Monday in a hospital here.

Carroll was freed on \$5,000 bond Sunday after an examining trial in justice court. He is operator of the Veterans Club here.

Officers said the shooting occurred after a fight between Carroll and Biggerstaff at a cafe.

A bullet entered Biggerstaff's chest and ranged downward barely missing the heart.

JayCees In Need Of Christmas Pictures
The Junior Chamber of Commerce is in need of pictures of the 1949 JayCee-sponsored Santa Claus parade and of other activities staged in connection with last year's Christmas program. The pictures will be used in a JayCee Christmas program scrapbook.

Those having such photos are asked by Rocky Ford to send them to him at P. O. Box 11, Midland.

Better Than Ever, Council Tells Truman

WASHINGTON — (P) — President Truman Monday was advised that the business outlook for the next six months, is "very strong" despite the unemployment problem.

The report came from Leon Keyserling, acting chairman of the President's Council of Economic Advisers. Keyserling called at the White House with John D. Clark, a fellow member.

They submitted a confidential quarterly economic report to Truman.

Keyserling told reporters later that while the report will not be made public, the situation is "very strong."

"Whether you measure it by industrial output, profits of business, sustained levels of consumer buying, automobile or steel production the outlook is very good," Keyserling said.

He added that March showed indications of "strengthened economic activity."

He said the country faces more unemployment because of a steadily rising labor force due to the increasing population. He added: "Unemployment levels are not critical or dangerous but they are higher than they ought to be. We must strive for enough expansion and enough new investment to reduce unemployment to lower levels and absorb the constantly increasing labor force."

He said that the council, in its January report, forecast a strong period of economic activity for the first six months of the year.

"We can now go further and say that the outlook for the next six months is even stronger than the outlook in January for the first half of the year."

Kerr Says Vetoed Bill Is Not Dead

WASHINGTON — (P) — An applauding wing of his party Monday prepared a champion - of - the - people campaign role for President Truman on the strength of his veto of the Kerr Natural Gas Bill.

Truman killed the bill Saturday in an action critics labeled as "purely political" and supporters said was "bold and timely."

The measure would have prevented the Federal Power Commission from regulating the sales of natural gas by so-called independents, who produce 80 per cent of the product but don't operate pipe lines.

Congress approved the bill despite charges by opponents it would pave the way for an increase in the price of gas to consumers.

Said Senator Kerr (D-Okla.), one of the bill's authors: "The President has made a mistake. Time will prove that the consuming areas which need abundant supplies of natural gas will receive less gas said at higher prices than if the bill had been approved."

Talking to reporters later, Kerr dismissed any idea supporters might try to override the veto. However, he protested quickly when one newsman suggested that this apparently kills the bill for this session.

"I didn't say that," Kerr said. "I only say that I haven't any plans yet as to just what I should do." He added: "This is only a skirmish."

New FPC Member Favors Regulation

By JOSEPH H. HUTTLINGER
WASHINGTON — (P) — Mon. Wallygren, newest member of the Federal Power Commission, shapes up Monday as a man favoring FPC regulation of "arms length" sales of natural gas of independent producers to pipe lines.

So say well informed sources. The former senator and Washington state governor is said to have urged President Truman to veto the Kerr natural gas measure.

The bill would have forbidden the commission to regulate these sales.

Wallygren's vote is decisive, since the commission otherwise is split two to two on the matter, which has occupied attention of the last three Congresses—six years.

Optimism Prevails In Chrysler Strike

DETROIT — (P) — The door seemed open Monday for an early settlement of the costly, 83-day Chrysler strike.

Optimism prevailed although the CIO United Auto Workers Sunday rejected what Chrysler Corporation termed its "final" offer in the stubborn pension dispute.

As negotiations resumed Monday, observers pointed out that none of the six objections the UAW listed were vital issues.

TOKYO — (P) — Forty Japanese generals returned home Monday from Siberia, "happy to be back in Japan before war starts between the United States and the USSR."

Maj. Gen. Hanjiro Iketani, former chief of staff of the Kwangtung Third Army, said most felt "it is only a matter of time" before the shooting war starts.

Government controlled newspapers in Siberia and Russia depict Soviet Russia as a lover of peace, he said. They blame the United States for increased world tension.

Costello's Back In Business— On Both Sides Of The Camera

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—Lou Costello is ready to go back to work—behind as well as in front of the camera.

Another "I" comedy is just around the corner although Lou says—"I don't know anything about it." But about his independent film plans he is more definite.

They include an Abbott and Costello comedy, "Desert Assignment," and "The Girl Who Pitched for Brooklyn," which they'll produce and finance but not appear in. Lou wants Lucille for the role of the gal pitcher, Jimmy Gleason in the role of her grandfather and Bill Demarest as a baseball scout.

Before his illness which has kept him off the screen for a year Lou weighed 292. Now he's 173 and looks great.

George Burns and Gracie Allen sat out a Charleston contest at the Meagans. Gracie explained: "I never was any good at the Charleston. But when they start bringing back the Irish jig, I'll race anybody to the floor."

Niven Busch's father is seriously ailing. Hollywood pals report that Merle Oberon will be back in Hollywood in six weeks. James Mason's wife, Pamela, isn't taking her literary pen in hand these days. "I just haven't the time," she told me. George Sanders' agent has lined up a film role for Zsa Zsa Sanders. She'll use her maiden name of Gabor if George gives his okay.

I rushed over to Terry Hunt's blubber-dissolving parlor to watch Rod Cameron and Beverly Hills' police chief Clinton J. Anderson knock the stuffins out of each other in a judo match.

All I saw was Rod and Chief Anderson in a series of poses for a photographer. Somebody had forgotten to dig up a judo mat and the cold concrete looked about as springy as the rocks of Stromboli.

"The chief is a big man," Terry said. "Judo experts are usually small and some people wouldn't understand if they saw Rod crushing a pint-sizer."

Rod blinked. "Are you kidding? I studied judo with Matsuo who is just over five feet, and the guy used to throw me right through brick walls."

First Rod pretended that he was hurling Anderson over his shoulder, then the fierce pair staged a reverse headlock. A wrist lock was discarded as looking too much like Astaire and Rogers about to go into a dance.

Forty Of Every 1,000 Americans On Public Payroll

WASHINGTON—P—Of every 1,000 Americans, 40 are on a federal, state or local public payroll. And that doesn't include members of the armed forces.

The Census Bureau said in reporting that figure Sunday the total number of public employees in October was at a record 6,204,000, or more than one-tenth of all U. S. workers (59,000,000). Their pay for that month was \$1,408,000,000.

That amounts to about \$18,870-000,000 a year. The Commerce Department has estimated that when the 1,500,000 service personnel are included the total annual public payroll runs to about \$21,800,000,000.

Of the total government workers, the federal government accounted for 2,047,000, the states 1,037,000 and smaller governmental units—cities, counties, schools, and the like—3,120,000.

Armed Forces Need Lots Of Applesauce

WASHINGTON—P—The armed forces are shipping for 5,649,000 pounds of applesauce.

The Army Quartermaster Corps, which is doing the buying, estimated Monday that is the annual applesauce craving of the Army, Navy, Air Force and Marine Corps.

Other anticipated appetites for the 1950 fruit and vegetable pack include 10,447,000 pounds of peaches, 12,855,000 pounds of tomato juice, 8,495,000 pounds of tomatoes, 7,576,000 pounds of catsup, 9,597,000 pounds of corn, and 7,774,000 pounds of string beans.

Riddle, at the Texas Confederate Home for Men, said he is especially proud to have fought under Gen. Robert E. Lee at Gettysburg, and he thinks the atom bomb is "pretty terrible."

He was born in Tennessee in 1846 and came to Texas in 1879.

Young Officer Kills Negro Who Abducted Couple In Automobile

NEW YORK—P—A young policeman saved his girl friend and himself from an abductor Sunday by breaking free of his clothes-line bonds and shooting the assailant to death.

Patrolman Anton Stayduhar, 27, off-duty and dressed in plain clothes, was sitting in his car, talking to Miss Ann Sandles, 21, in front of her home.

The car door was jerked open and a negro gunman shoved a pistol in Stayduhar's face, saying it was a stickup.

He tied the policeman's wrists with clothes line and made him get in the back seat.

Then, according to Stayduhar, he took a long look at Miss Sandles, slid into the front seat beside her and said: "I want you, baby."

Starts Automobile. He started the car as the girl shook away from him.

"I'm going to give you a show," Stayduhar said, the needle sneered over his shoulder.

The car had gone hardly four blocks, however, before Stayduhar wriggled free and went for the gun in his shoulder holster.

"When I got the gun out, I put it back of him," Stayduhar told his superiors.

"He spotted it and threw his hands up. I did not know whether he had a gun in his hand or not.

"Then I fired." The abductor slumped on his side, dead. The car bumped against a pole. Neither Miss Sandles nor Stayduhar was hurt.

Police identified the dead man as Artus Davis, 23, of Brooklyn and said he had a record as a wayward minor and policy game runner.

Heiress Is Charged With Stealing Dress

LOS ANGELES—P—Heiress Mary Catherine Reardon Gucci, 18, who once figured in a sensational case involving the slaying of her father, is in jail charged with stealing a dress from a department store.

She was arraigned Sunday on a petty theft charge.

She will not inherit the \$100,000 trust fund left her by her father until she is 21. Meantime she and her husband, Gabriele Gucci, 19, she said, are jobless and broke.

Four years ago Mrs. Gucci was acquitted by a juvenile court jury in St. Louis on a charge of delinquency by reason of murder. Her father, J. Vincent Reardon, was shot to death. The girl blamed the slaying on a boy friend, killed when the car her father was driving plunged over an embankment.

Beefmaster Bull Takes Top Honors In Feeding Test

By KENNETH BOND

PECOS—A roan-colored Beefmaster bull took top honors for the greatest number of pounds gained daily at the eighth feeding test concluded Saturday at the Agricultural Experiment sub-station in Balmorhea.

The three-way mixture of Brahman, Angus and Hereford showed a daily average gain of three pounds through the 143-day test to best his nearest opponent, an Angus, by .08 pound a day. A total of 57 heavy bulls, 55 light bulls and 44 heavy heifers were in the tests. There were 22 lots of bulls and 12 separate lots of heifers.

Approximately 300 persons visited the station during the field day to inspect the cattle. Many of the bulls were sold to individual buyers.

The progeny tests this year were designed to show a comparison of gains made by young breeding bulls and heifers from various breeds of cattle. During the five-month feeding period, the cattle have been scrambled in the feedlots so that all had an equal chance to gain.

Type And Quality However, they were penned by sire progeny groups for the field day so that the calves of each sire could be compared for type, quality and gain.

The Beefmaster bull, owned by Tom Lasater of Palfurrias, was one of a lot of six which showed the second-largest daily gain during the feeding period. A lot of Santa Gertrudis, owned by W. W. Strain of Big Lake, showed an average gain of 2.59 pounds each daily, while the Beefmaster lot had an average daily gain of 2.50.

Though the Santa Gertrudis and Beefmaster topped the list on weight for age and rate of gain, both these lots were rated only "good" on the basis of finish. A lot of bulls owned by C. K. Smith of Marfa rated highest on the basis of finish. Daily gains ranged from the high of three pounds down to a bare 1.5 pounds for individual bulls.

Jack V. Williams of Paint Rock had the lot of Hereford heifers which showed the highest average gain, 1.76 Cows behind was a lot of seven heifers owned by C. K. Smith of Marfa, which averaged 1.74.

Bad Weather Blamed For Six Of 19 Violent Deaths Recorded In Texas During Weekend

By The Associated Press

Bad weather was blamed for six of the 19 violent deaths in Texas over the weekend.

Traffic accidents accounted for 13 of the deaths.

Five persons died in auto accidents attributed to slick highways and another, a pilot, lost his life when his plane crashed during bad weather.

Three persons died in a fire, one drowned and one other was found fatally beaten.

The latest deaths reported include Jackie Potts, 14, his father, O. R. Potts, 40, and his mother, 38, all of Fort Worth, died in a collision of two cars in Greenville Sunday.

Three members of the K. N. Gibson family died when fire destroyed their farm home near Manning, Texas, Saturday night. The dead were: Mrs. Gibson, 25, and her two children, Billie Kayle, three, and Sandy Kayle, two. Manning is near Lufkin.

Bill Denham, 35, of Oxnard, Calif., died Saturday when his plane crashed eight miles southwest of Miami, Texas, on a flight from Gage, Okla.

Jesse W. Gray, 41, died in Dallas Saturday of injuries suffered last Sunday in a collision of two automobiles in West Dallas.

Edward Thomas Stroman, 50, of Dallas died Saturday of injuries received when he was struck by a motorcycle Friday night on the outskirts of Dallas.

Betty Shankley, 15, of the South Mayd Community was killed and two persons injured Saturday night in a collision on a rain-slick highway near Sherman.

Car Overturns Arthur Villareal, Jr., 22, of Kennedy was killed Sunday when the coupe in which he was riding skidded on wet pavement four miles south of Alice, Trinidad Cavazos, 27, of Corpus Christi, died later of injuries received in the same crash.

Pedro Gonzales, 47, was crushed and killed about midnight Saturday when the truck in which he was riding went out of control five miles east of Sinton and rolled over on him.

Arthur Davidge, 75, of Marshall was killed and his 80-year-old wife injured critically Sunday when their car overturned on a rain-slick highway near Paris.

Bobby Gene Raven, nine, drowned in the Colorado River late Saturday at Austin. Companions said the boy dove into the swift stream despite their warnings.

Worker Beaten Fatally Waddell L. Rhodes, 56, Hockley oil field worker, was found beaten fatally Sunday near his trailer home. Police said the trailer had been ransacked.

Presley Freeman Grimes, 49, was killed Saturday night when struck by an automobile in Houston.

Mitchell Rea, 44, Denton drug store owner, was injured fatally Sunday when his automobile crashed into a creek bed west of Watauga on the Saginaw-Smithfield road.

Edgar Willman, about 40, of San Antonio died in a New Braunfels hospital Sunday of injuries received in a head-on collision of three automobiles three miles south of New Braunfels. Highway patrolmen said the accident occurred in a driving rain.

Vatican Challenges Reported Polish Church-State Pact

VATICAN CITY—P—The Vatican press office Monday denied that the Roman Catholic Hierarchy of Poland has signed an agreement with the Polish Communist government. Warsaw announced such a pact Saturday.

A Vatican press office statement said "Nothing is known here of any such agreement. The circumstances and contents of it, accord in question (as reported in Warsaw dispatches) preclude any foundation to the news."

Vatican sources pointed out that the accord was announced after Poland's leading Catholic prelate, Adam Stefan Cardinal Sapieha, had left the country. The cardinal, now in Rome, declined comment on reports of a Polish church-state accord.

A high Vatican source said if such a pact had been promulgated, it would indicate that the Polish hierarchy had laid down a "way of death" for the church there.

Successful District Meeting Reviewed

Members of the garden clubs of Midland who were on hostess committees for the convention of District Twelve Garden Clubs, Inc., last weekend are receiving congratulations for a successful meeting and planning for regular club meetings this week.

The convention ended Saturday morning after a breakfast which was arranged by Mrs. Ralph Love, Mrs. Hal Rachal and Mrs. Sam Preston. Handkerchief corsage favors for the breakfast guests were made by Mrs. I. W. Hynd and Mrs. Winston Hall.

A number of the district awards were won by clubs of Midland. The Texas Garden Club took second place for scrapbooks in the division for books showing a one-year record of club activities and the Midland Garden Club received honorable mention.

The Midland Garden Club sponsored shows in 1941 and 1942 but stopped them during the war.

The show Thursday will be a standard show and will be judged by accredited judges from outside the Midland Garden Club.

It will have two divisions—I, horticulture, and II, arrangements. The sections of the horticulture division, which contains 69 classes, are roses, iris, tulips, poppies, annuals, perennials, and flowering shrubs and trees.

The arrangements will include one for the dining room table by Mrs. I. E. Daniel, one for the buffet in the dining room by Mrs. Butler Hurley, and one for the coffee table in the drawing room by Mrs. Clem George.

Mrs. Hal Rachal will do the master bedroom and contributing to the one for the bookshelves in the family room will be Mrs. L. H. Anderson, Mrs. R. T. German, Mrs. John Casselman, Mrs. Dick Giles, Mrs. L. I. Baker, Mrs. Arch Cleveger, Mrs. R. B. Cowden, Mrs. Lloyd C. Mills and Mrs. F. J. Nicholson.

Each Midland Garden Club member is required to make at least one entry in the arrangement division and is urged to enter at least two specimen exhibits in the horticulture division.

Flower Show Scheduled At Tea For Club

A standard flower show will be held at the Midland Garden Club's flower show tea Thursday afternoon in the home of Mrs. Charles Marsh. Entries in the show are being limited to club members. Members of the Midland Council of Garden Clubs will be the only guests in addition to Midland Garden Club members.

Texas Garden Clubs, Inc., recommends that each garden club have a flower show each year and, where there are a number of clubs in a city, that they band together to sponsor a joint flower show.

The Midland Garden Club gave several flower shows before the Garden Club Council's organization but since that time has contributed to the show the council sponsors each year.

This is the first individual show the Midland Club has given since the council's organization. The club's first flower show was in 1940 when it staged a wildflower show in the North Elementary School Auditorium with the assistance of the Texas Highway Department.

Bipartisan Inquiries

Senator Lodge thinks the Senate's current inquiry into alleged Communists in the State Department is a poor way to promote loyalty among government workers.

According to Lodge, the probe inspired by Senator McCarthy is doing more harm than good as now conducted.

This isn't the first time a private commission has been suggested to take over investigations begun by Congress.

This idea keeps cropping up because many fair-minded persons in and out of Congress deplore the fact that these inquiries seem inevitably to degenerate into bitter partisan squabbles in which truth gets lost in the shuffle.

The power of Congress to investigate is one of its most vital functions. Obviously laws can't be drawn wisely without a solid factual footing.

Yet this power perhaps is the most abused of all those enjoyed by the lawmakers. Too often the partisan members of congressional committees set out in pursuit, not of all the evidence, but of just those facts that will support the conclusions they have reached in advance.

Politics being what it is, perhaps this is unavoidable. If it is, then severe limits obviously must be placed on the value of congressional inquiries.

In that event, then there indeed seems to be wisdom in these repeated calls for independent, private commissions to study serious issues which plainly are difficult to thresh out in the rough and tumble of the political arena.

As Lodge's colleagues already have pointed out, it's undoubtedly too late to shift the present probe from Congress to an outside group but the next time it's necessary to dig into a problem as grave and as loaded with political dynamite as State Department security, the commission idea ought to be tried.

Stretch Drive

Congress, with three months' work behind it this year, has come to what generally is viewed as its halfway mark.

Of course, the same thing could have been said last season, but the lawmakers put on a burst of speed in the later months and ran off a creditable amount of legislation.

If that comes to pass, it'll begin to look as if Congress has been influenced too sharply by the pennant-chasing tactics of the Boston Red Sox.

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Washington—With Congress facing an early, election-year adjournment, one of the worst legislative log jams in history is piling up in the Senate and threatening to stall the Truman fair deal program.

Despite this mountain of unfinished work, however, Democratic leaders have found time to take up two bills completely contrary to the fair deal program—the Kerr Natural Gas Bill and the basing point bill, driving loopholes in the anti-trust laws.

As a result, some Republicans are thinking of reversing the tables on Truman and making a whistle-stop campaign of their own. They would use Truman's own speeches against him, driving loopholes in the anti-trust laws.

Nevertheless, the Senate hasn't even called up the civil rights bills, the appropriation bills, or tackled the complicated task of liberalizing the social security law to include 12,000,000 new workers and increase the unemployment benefits.

The Truman farm plan to support farm income and get rid of unmanageable food stocks is bogged down in the Senate Agricultural Committee, while Herbert Hoover's 21 plans to streamline the federal government are getting nowhere fast.

Republicans who were in the chamber—including Langer of North Dakota, Hendrickson of New Jersey, Cordon of Oregon, Schoepfel and Darby of Kansas—remained respectfully in their seats as Lehman began his memorial speech.

So did the Democrats, even though Kenneth McKellar of Tennessee, who fought FDR furiously on most issues.

PECOS NEWS

PECOS—Two buffalo bulls have been given to the Buffalo Trail Boy Scout Ranch by Judge Paul Moss of Odessa.

East has not noticed to this day that the only way he could lose the bidding would be to bid more than \$100,000.

At the west, South might sacrifice by bidding five hearts if his side ever got into the auction.

Members of the Business and Professional Women's club have accepted responsibility for selling advertising in the souvenir program of the Twenty-First Annual West of the Pecos Rodeo.

Harry M. Dudley, 53, died Wednesday while working at the Magnolia Petroleum Company warehouse.

The Pecos City Council decided to bring the economy act Thursday when Mayor Cecil Cottrum presented figures to show that \$114,927.11 of the city's budget of \$127,200 had been spent.

Following the economy drive of the council, two members of the police department were dropped from the payroll.

W. D. Turpin, Pecos dry goods merchant, was named mayor pro tem at a council meeting Thursday night in the City Hall.

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service

When you do something wrong and the roof promptly falls in on you, it isn't hard to realize that you've made a mistake.

Maybe it isn't what you're doing, but rather what you're not doing. East should have opened the bidding with one spade, but he timidly passed, hoping that he would get a chance to bid later on.

South had exactly the same high cards as East, but not as good distribution. Nevertheless he opened the bidding because he put a high value on landing the first blow.

North's jump to four hearts was a gamble. He wanted to shut the opponents out of the bidding. This type of bid is often made by good players.

In other words, East's failure to open the bidding allowed the opponents to score a game when his own side should have made a game.

At the west, South might sacrifice by bidding five hearts if his side ever got into the auction.

'Silly' Census Queries May Be Basis For Future Legislation

By PETER EDSON NEA Washington Correspondent

WASHINGTON—A lot of the questions being asked by census takers may seem pretty silly. For instance: "If your house is rented furnished, what would it rent for unfurnished?"

"Did this person do any work at all last week, not counting work around the house?"

Last year, how much money did his relatives in this household receive from interest, dividends, veterans' allowances, pensions, rents, or other income, aside from earnings?"

For farmers, there are a couple of hundred special questions to fill out, on both sides of a big sheet of paper. They want to know everything about the farmer's life, including how many cantaloupes, cowpeas, tanned berries and turkeys over four months over the year.

By that time a lot of data may be out of date. The country is growing faster than ever before. Marriage and birth rates are up. Total population will be more than 151,000,000.

All these things create new problems for Congress. Answers to the census taker's questions may be the basis for new farm, housing, social security, education and other legislation for the next 10 years.

Take housing. All housing legislation proposed or passed since the end of the war has been based on continuing estimates of the supply and demand. Private industry home builders insist they can take care of the situation.

The 1950 census taker's first housing question is to determine how many families are living in single houses, row houses, apartments, flats, trailers, tents, rented rooms, hotels or other institutions.

The census taker also will have to determine how old housing units are, and how many are dilapidated. He will have to count houses with hot and cold running water, cold water only, outside faucets, hand pumps, wells, bathtubs, showers, and private radiators, TV's, ice boxes, kitchen sinks—or no such fixtures at all.

Housing units owner-occupied, rented and vacant will be counted. Rentals and sales prices will be asked. And finally, whether the property has a mortgage on it. There will be no snooping on the size of the mortgage—just whether or not there is one.

All this detailed information, involving some 30 questions, each with from two to five possible answers, ought to give a pretty accurate picture of America's housing situation. It also will be good market data for manufacturers and merchants of home furnishings.

All this housing data then can be coupled with answers to the most controversial question of all, which every fifth person must answer. It is, "Last year, how much money did you earn working as an employee for wages or salary?"

The questions on employment—about 20 of them—are going to give an accurate answer to unemployment conditions. There has been much criticism of present Bureau of Census sample surveys on unemployment. The present figure of more than 4,600,000 is considered low, in that it does not include workers laid off, temporarily unemployed, or working on part-time.

Particularly for not freeze-me with a bell-bred British stare." She laughed outright. "Really?" "Well, as she turned to retrace her way he fell into step beside her. "You are British, aren't you?" "I am, and you're Canadian!"

CULTIVATING FAITH

(5) In order to have that faith and confidence which I am to impart to others I must deliberately cultivate faith. But cultivation of faith does not mean that I will try to cultivate it. I will let go, relax, become a channel of a power not my own, and then God will do the rest. The pious statement of a minister? Then listen to Dr. Fritz Künkel, an outstanding psychiatrist: "As long as I am confident, have faith, good humor, as long as I allow my body—my organs, my brain—to function as they want to function, I trust my nature, and all goes well. But when I distrust, become afraid, begin to control my nature, don't trust my nature, try to replace the unconscious function of my organs by will power, then I find that will power is powerless. I try to replace my natural functions by conscious controls. That is, I try to replace God by myself. I cannot replace nature. I cannot make my muscles, nerves, knees function. When I try this replacement I find the new government is worse than the previous one. Therefore my fear increases; therefore conscious strain increases; therefore

the danger increases; therefore I strain the harder. The way out would be trust, faith, calmness, relaxation." (Notes from a lecture.)

A businessman said to me: "I am physically and mentally well, but emotionally I am sick. I have hold of a 110-volt wire, and cannot let go." He had begun by trying to add a cubit to his stature by being anxious, and having taken hold, he did not know how to let go. To let go means that you have more faith in God and His processes than you have in yourself and your processes. The essence of cultivation is relaxation. You will never be a good musician if you try too hard; you must let go and let the music get into your finger tips, so that you do not play the music—the music plays you. So with God—don't use God; let Him use you. Then you will be able to say with Walter Rauschenbusch, "My fear is gone, in the great quiet of God."

O God, I have not been fighting the good fight of faith; I have been fighting the fight of fear. I have been strained. Now help me to go limp in Thy presence, that Thou mayst impress on me Thy ways, Thy poise, Thy power. In Jesus' name, Amen.

Nails—Subject To Diseases—Should Receive Proper Care

By EDWIN P. JORDAN, M. D.
Written for NEA Service

The nails—both those of the fingers and of the toes—reflect the state of general health and also are subject to special diseases. They often are attacked by diseases which also involve the skin; they are subject to injury and may be sensitive to various chemicals.

Thickening of the nails of either hands or feet is fairly common. With thickening, the nails become dull colored and often are ridged or furrowed. In some cases horny outgrowths can appear which are

really quite remarkable in length and thickness.

There are many possible causes for such thickening. Irritation from neglect, dirt, or poorly fitting shoes or gloves may be responsible. Certain diseases of the internal glands which produce hormones sometimes cause thickened nails.

Another disease of the nails comes from inflammation around the base of the nail or the nail bed. This is the result of infection with germs and its common name is whitlow. A single nail may be involved, or all of them. This causes the nails to become ridged and sometimes to separate completely and fall off.

The treatment, of course, is to attack the infection. In extremely severe cases, the nail may have to be removed before the infection can be cleared up.

Another disorder of the nails causes splitting of one or all of the nails on the fingers or toes. Ringworm can affect the nail and may be difficult to cure. Psoriasis is another skin disease which may affect the nails and cause them to become pitted and deformed. White points, spots, streaks, or bands can appear in the nails. Such conditions are most common in young people, and on the fingers rather than on the toes.

Cure Often Difficult

All these disorders of the nails require accurate diagnosis, but unfortunately many of them are difficult to cure. In psoriasis, ringworm or eczema of the nails, treatment has to be aimed at the particular disease responsible.

In most of the other conditions, the cause is likely to be associated with some general condition such as poor diet—particularly a vitamin deficiency—a wasting disease, or something else far distant from the nails themselves.

In such cases, of course, local treatment is not enough but the distant cause must be identified if possible and appropriate remedies undertaken. Complete cure is not always possible.

Plant Near Pecos Being Expanded

PECOS—Construction work for the expansion of the Pecos Petroleum Company Refinery near Oria is expected to be completed by August 15. T. C. Shaw, plant manager, said recently.

After remodeling, the plant will have facilities for producing 30,000 gallons of gasoline and liquid gas per day. Ten new buildings are to be built, including seven houses for employees. The new plant will have a crew of 15, as compared with the five man crew needed now.

Negotiations are under way, Shaw said, to sell gas now being burned in the field, to Los Angeles. A pipeline from Reeves County would join the El Paso Natural Gas Company pipeline, to connect with Los Angeles.

Brannan Denies Farmers Not Told Of Cotton Rights

WASHINGTON—P—Representative Cooley (D-NC) has charged—and Agriculture Secretary Brannan has denied—that there has been a widespread failure to tell farmers their rights under the new cotton quota law.

Both the department and county committees, who serve as its administrators, failed to give cotton growers the needed information, Cooley, chairman of the House Agriculture Committee, charged.

Brannan Sunday made public a reply. Cooley said some farmers were being told a review of their cases would be of no use. He said they also were being told they cannot appeal from their allotments, while the law specifically provides they can do so within 15 days after getting notice of it.

MHS Seniors Are Invited To Attend H-SU Campus Day

ABILENE—"Open Campus Day" is the new name given the twenty-seventh annual senior day program April 29 to be held on the Hardin-Simmons campus at which students of Midland High School are invited.

More than 4,000 students from Texas high schools are expected. Schools within a radius of 200 miles of Abilene are expected to send their seniors for the day of entertainment and education.

The formal program will include a welcome by President Rupert S. Richardson, music by the Cowboy and Cowboy Bands, an all-university talent program, a short drama by the University players club, a one-act opera by the students of the School of Music, and a barbecue.

In the afternoon, attention will be turned to the H-SU intercollegiate rodeo to be held at the newly constructed Carl Myers Memorial Arena on Grape Street.

McCamey Airport Dedication Is Slated Saturday

MCCAMEY—One of the largest crowds ever assembled here is expected Saturday when McCamey dedicates its new \$125,000 Upton County Airport. All residents of the vast Permian Basin Empire are invited, Mayor C. W. Brown said.

It will be an event of double importance for this Upton County city since Trans-Texas Airlines that day will inaugurate air service here. The first flight is scheduled at 12:30 p.m.

The event is being arranged by a special Chamber of Commerce committee, which includes I. L. Edwards, Horace Slaughter, James Rutherford, Jack Ott and Bill Moore.

The McCamey High School Band will be on hand to greet the first airliner flight, and will play for the official dedication ceremony which is scheduled at 2 p.m.

Postmaster R. A. Johnson said he has more than 3,000 first flight letters for cancellation Saturday.

Work on the new airport was completed last week and everything will be in perfect readiness for the dedication.

The field, equipped with beacon, airstrip lighting and other safety features, is one of West Texas' finest.

Sull Ross Summer School Plans Cited

ALPINE—A well-rounded 1950 Summer school program has been planned at Sull Ross State College for the two terms of six weeks each. The first term begins June 6 and closes July 14, and the second term runs from July 18 to August 24. Advance housing reservations indicate a large enrollment for both terms.

Other than the regular instructional courses, both graduate and undergraduate, offered with the latest methods and equipment being used, the college has planned special courses, several conferences, and a splendid recreational program of barbecues, picnics, bowling, shuffleboard, pool, tennis, swimming, golf, volleyball, mountain climbing and tours.

A total of 189 courses of graduate rank will be offered. In addition to regular faculty members, several specialists have been engaged for the Summer terms to meet the demands of teachers and others in many technical fields. Of special interest to graduate students will be the new master of education degree, a highly specialized professional degree, which requires thirty-six hours of class work, thus omitting the thesis and oral examination required for the master of arts degree, which will be continued.

The 1948-49 basketball season was the first in which Navy's opponents scored more than 1,000 points; the Middies made 1,054 to 1,054.

Indians Lose To San Angelo Colts In 16-12 Fracas

Harold Webb moved his Midland Indians to San Angelo Monday for a two-game series with the San Angelo Colts in Guinn Field.

LeRoy Jari or Harold Wearne will hurl for the Indians. Sam Hunter is the probable starter for San Angelo.

The Indians return home Wednesday for a three-game series with the Ballinger Cats.

By SHORTHY SHELburne
Reporter-Telegram Sports Editor

The Midland Indians and the San Angelo Colts battled for blood in a two-hour and 40-minute Longhorn League game Sunday afternoon in Indian Park and the Colts finally won by a 16 to 12 score.

The game was tied up four times including a 12-12 knot at the end of regulation play, forcing it into an extra inning. A strong wind, wild pitching on both sides and extra-base blows by the peck all entered into making the tilt a circus show.

Lekoy Jari, right-hander, started for Midland but couldn't get it across the plate. H. walked four and gave up a hit before retiring in favor of Donald Hines. The Colts collected four runs off Jari's offerings.

Hines was fashioning a nice game until the fourth when he was hit on the leg by a line drive. The pain forced him to retire.

Bob Crues had touched Hines for a homer in the second with one on base, giving the Colts a total of five runs.

Ralph Blair came on for Midland following Hines and finished the tilt. He was charged with the loss.

Manager Jimmy McClure, who went the route for the Colts, was lucky to get out with his scap. The Indians whammed him for 17 hits, including four doubles, and a home run by Lou Dawson.

Score tied 5-5 in the second. Midland had tied the score at 5-5. Two runs in the first on walks to Quentin Basco and Kenny Jones, and singles by Jim Prince and George Firnback got the Indians started.

In the second, Dawson got on by an error and Jones, Prince and Scooter Hughes clouted consecutive doubles to send in three runs.

Midland went ahead in the third with two runs on Warren Sliiter's double, Hughes' single, a sacrifice by Hines and a single by Basco. Sliiter was inserted in the lineup at centerfield and a good job both field and at the plate.

San Angelo took advantage of Hines' injury to load the bases in the fourth. Blair came on and a strong wind blew a lazy fly ball away from the outfielders for a triple by Follett, scoring three runs. The blow sent the Colts ahead, 8-7.

The Indians tied it again in the fifth on a walk to Sliiter and Hughes' second double of the game.

Good Fielding
Blair, with the aid of some unbelievable fielding on the part of George Firnback and Scooter Hughes, got the Colts down without damage in the fifth and sixth. Came the seventh and two more San Angelo runs. Joe Coscia got on by an error and Blair promptly picked him off second base with the famous Lou Boudreau play. But Don Schneegold was hit by a pitched ball, McClure walked and Hudson and Tayson singled in succession to plate two rallies. In as many trips to open Midland's seventh. Then came the crowning blow, a towering smash over the right-center field fence by Lou Dawson to tie the score again.

Both sides went down in order in the eighth.

Tied 12-12 In Ninth
Back came the Colts in the first of the ninth with two runs on singles by McClure, Cowley, Tayson and Crues. A bonehead piece of fielding by the Midland infield let in one of the runs.

The Indians weren't faked even then. They stormed back to tie the score on singles by Sliiter and Basco; walks to Hughes and Dawson and a timely bingle by Prince. Dawson clouted another "ll which would have been a homer if the

wind hadn't blown it foul by six inches.

The count was 12-12 as the tilt went into extra innings. But the Colts, aided by Blair's loss of control, led the game with four runs.

Blair walked three. Red Cowley singled, Hudson got on by error and Tayson singled.

The Indians went down in order in their half of the tenth.

Texas League— Roughnecks, Cats Win Mound Battles; Rain Cancels Pair

By The Associated Press
The Texas League, known as a pitcher's circuit, is upholding its reputation early this season.

In 19 games played to date, the hurling definitely has predominated. There have been one two-hit, four four-hit, one five-hit, three six-hit and six seven-hit performances.

Sunday, a couple of brilliant mound exhibitions were turned in as Beaumont held to second place in the standings by beating Houston 5-1 and Fort Worth moved out of the cellar with a 2-0 triumph over Oklahoma City.

Ernie Nevel of Beaumont elbowed a two-hitter that tumbled Houston into last place. The Roughnecks, with Clint Courtney and Martin Hansen pacing the attack, bounced two Buff hurlers for nine blows.

Big Chris Van Cuyk limited Oklahoma City to five hits while he struck out 13 batters. Fort Worth scored both of its runs in the fourth inning as Joe Torpey singled and Dee Fondy and F. A. Brown doubled.

Rain washed out half of the schedule. League-leading Tulsa and Dallas couldn't play at Tulsa, and Shreveport and San Antonio couldn't go at San Antonio.

Wildlife Federation Opposes Split Duck Hunting Season

PORT WORTH—P—Loy Brown of Brownwood is the new president of the Texas Wildlife Federation.

Brown, and other officers, were named at the conclusion of a two-day session here Sunday.

Other new officers are Dr. Frederick Weston of San Antonio, outgoing president, vice president; and W. G. Streckert of Brownwood, secretary-treasurer.

The group decided to hold its Texas Wildlife Rodeo at Brownwood May 26-28.

They also adopted a revised Constitution and by-laws and voted to ask the Texas Game, Fish and Oyster Commission not to end the duck season earlier than January 15, and to discontinue the split season plan used last year.

Egad! Here we come, millions of gentle readers, bursting out of our cocoon again with a big surprise for the baseball season.

Some of you may indeed be shocked—hak-kaff—to note that I am announcing the Philadelphia club will win the old gonfalon in the National League.

Boiling by reasons down for such cape me at the moment—but what's in a name?

A home run called a circuit clout sounds just as sweet!

Watch Cleveland and Luscious Easter. This big fellow is a real fence-buster, as McGraw used to say. The few long base hits the Indians lacked last year will be stroked by Big Luke.

And did you know, Lou Boudreau, "Peerless Lou," as I have called him, is firing the boys now for hitting into double plays, failing to advance runners, failure to lay down good bunts and other little lapses?

It's going to be loads of fun, they tell me, and how can such a system fail to win a pennant?

A&M, Baylor Push Longhorns For Top Slot In SWC Race

By The Associated Press
The Texas Longhorns, apparently rambolling along to another Southwest Conference baseball title unchallenged, were interrupted rudely by the Baylor Bears in a 2-1 upset win last week.

It was the first loss for the Longhorns, and their conference race into a scramble where any one of four teams has an opportunity at the crown.

Texas still is on top, its loss to Baylor being the only setback in conference play. Texas A&M, defeated last week 12-2 by the Longhorns, moved into second place with two wins against the single loss.

Baylor, after losing to Rice 11-9, bounced back into third place with its win over the Longhorns, giving it a four-win, two-loss conference record. Texas Christian, defeating Rice twice, 3-1 and 3-0, moved up into contention with a three-win, two-loss conference mark.

Rice and Southern Methodist appear to be out of it. The Owls have lost five of six starts, and the Methodists have dropped all three of their conference games.

The scheduled game between Rice and Southern Methodist at Dallas Monday was postponed because of wet grounds.

Personal Independence— one of America's most prized possessions

PERSONAL INDEPENDENCE, founded on individual freedom, has always been one of the proudest possessions of the people of this country.

It is exemplified by the self-reliance and initiative which has made America so great. And the high value people place upon it may be measured by the ever-increasing amount of life insurance Americans own.

Through life insurance a man attains security, not through compulsion of the state, but through personal choice. Thus he achieves security without sacrificing his freedom.

Life insurance is a man's private, personal means of fulfilling his hopes and desires for his family's future... of seeing to it that his sons and daughters will be properly educated... of making sure that his wife and children

need never suffer hardship if he should die. And, at the same time, it offers him a means of providing for his own later years.

Today more people in America are safeguarding the financial independence of their families with life insurance than at any other time in history—or in all the other countries on the face of the earth.

The New York Life Insurance Company is proud to report that it has shared in this growth—as the 105th Annual Report to Policyholders, just published as a 36-page illustrated booklet, shows.

The essential facts and figures of this Report will, of course, be sent to policyholders as usual with their premium notices. The complete booklet will be sent gladly to anyone requesting it.

HIGHLIGHTS
FROM OUR
105th ANNUAL REPORT
December 31, 1949

At the close of 1949 the Company had 3,864,338 policies in force for \$9,970,371,347, an increase of 84,797 policies and \$430,787,118 of insurance protection as compared with the end of 1948.

Sales in 1949 amounted to \$852,385,500, the third consecutive year that new sales have ranged between \$850,000,000 and \$860,000,000.

The Company in 1949 paid \$131,802,411 to living policyholders (an increase of \$13,755,982 over 1948) and \$88,447,839 to beneficiaries (an increase of \$118,268). The total was \$220,250,250 (an increase of \$13,874,250).

For 1950 the Company is continuing the same scale of dividends to policyholders as was in effect in 1949. New York Life has always been a mutual company and pays dividends to policyholders only.

World Record Set In Two-Man Team Skeet Event Here

The Midland Gun Club's annual Open Skeet Shoot Sunday came to an end with a proper setting. A new world record was established in the two-man team event and high scores were posted in several events even though a strong wind blew the clay pigeons into all sorts of crazy movements.

Hugh Bradford and Herman Ehler of Dallas, a pair of the world's top shooters, combined their efforts to set the world mark. Bradford broke 150 straight birds and Ehler knocked down 149 to give them a total score of 299. The new mark will be recognized as an official record since the Midland shoot was a registered event.

The 299 score bested by three birds the old record of 296. D. W. Conway of Clint and Bill Fields, Sr. of Fabens, came close to cracking it. Conway listed 150 straight and Fields shot a 144. They won runner-up honors.

Adams Wins Over-All
 J. C. Adams of Dallas copped the high over-all honors with a 431 score. Adams broke 149 out of 150. Pauline Amburyer of Odessa, W. J. of Midland was runnerup with 429.

Mrs. Ann Martin of San Antonio won the Ladies Division title going away. She broke 149 out of 150. Pauline Amburyer of Odessa, W. J. of Midland was runnerup with 134.

D. W. Conway's perfect score of 150 was good for the all-bore title, except for the fact Hugh Bradford also had 150 straight. Conway won a shootout, breaking 48 out of 50 while Bradford broke 47.

Stanton Bell of Corpus Christi annexed the Junior Division with 148. Billy Fields, Jr. of Fabens had a 142 for runnerup.

Sub-junior honors went to John Jacoby of Dallas on 91 out of 100. Charles Prentiss, Jr. of Fabens fired an 86 for runnerup.

Jim Mascho, veteran Midland shooter, won the Senior Division with 141.

Glasses Win
 The Midland Father and Son team of George Glass, Sr., and George Glass, Jr., came through with flying colors to top that event. George, Sr., had a 145 and George, Jr., had a 147 for a combined score of 292.

Bill Fields, Sr., and Bill Fields, Jr., grabbed runnerup honors with 286.

The Midland five-man team, composed of the Glasses, Mascho, Ted Lowe and Paul Davis, Jr., had a score of 716 out of 750 for first place.

The team also won a floating trophy offered by the West Texas Skeet Shooting Association. It was the second time the team has won the trophy.

Garrett Top Pro
 Jack Garrett, a professional shooter who registers out of Dallas, won the Industrial Division. He is an employe of Remington Arms.

Winners in the all-bore classes were Herman Ehler, Class AA; George Glass, Jr., Class A; G. E. Shows of Odessa, Class B; Ted Lowe, Class C; and John Casselman, Jr., of Midland, Class D.

The shoot was a two-day event with matches bore shooting held Saturday. Winners and runnersup were awarded trophies following Sunday's shooting.

Black Indians Stop Odessa Oilers 10-5

The Midland Black Indians won their second straight baseball game Sunday afternoon, whipping the Odessa Black Oilers 10 to 5 in Oiler Park at Odessa.

John Hall, ace hurler, notched the win. He also won the other game.

The Black Indians open their home season Sunday against the Pecos Eagles at Indian Park.

Scotch Foursomes Draw 60 Entries

Scotch Foursomes Sunday at Midland Country Club drew 60 entries. Mrs. Gloria Ezell and Sonny Brinkerhoff carded low gross of 45.

Jay Floyd and Ann Hardwick and Jimmy Dunn and Mrs. W. H. Pomeroey tied for second low with 46.

Low net ended in a three-way tie for first. Shooting 41's for top honors were Frank Flournoy and Mrs. R. S. Anderson, Delo Douglas and Mrs. Bill Pettis and Holt Malone and Mrs. Marion Culbertson.

On May 27, Navy and Army squads will compete in baseball, golf, lacrosse, tennis and track and field.

Bulldogs Tackle Bronchos Here Tuesday Afternoon

The Midland Bulldogs, rained out in a game scheduled here last Friday, will contest the Odessa Bronchos at 3:30 p.m. Tuesday in Indian Park.

Coach Red Rutledge has taken over the diamond corps and will be shooting for his first conference victory. Coach Garvin Beauchamp has moved to Abilene to become head football coach at Abilene Christian College.

Coach Rutledge is expected to send his ace, Bill Medart, to the mound against the Bronchos. Don Smith will be second in line.

Demaret Wins Fulton To Close Gap On Sam Snead

ATLANTA—(AP)—After marching through Georgia, Jimmy Demaret Monday headed for Virginia and another skirmish in his battle to overtake Sam Snead as the top golf money winner of the year.

Jimmy finished a minor size grand slam in Georgia Sunday with a victory in the North Fulton Open.

He shot four rounds at the North Fulton Park course in 270 strokes—14 under par. His winning final round in 66 strokes followed by just eight quick days a far greater victory at the Masters Tournament at Augusta.

Late this week he will play in the Cavalier Tournament at Virginia Beach.

In the last nine days, Jimmy has closed the gap considerably on Snead. Prize winnings for the Winter circuit now stand at \$15,128 for Snead and \$12,216 for Demaret.

Second place at the 6,762-yard North Fulton Park course was divided between Snead and "Australia" Jim Ferrier with 274 strokes apiece.

Their cash collections were \$1,200 each. Jimmy got \$2,000.

Clayton Heffner came fourth with 278 strokes, good for \$800. Tied for fifth was Herchel Spears and Norman Von Nida, another Australian, who used 280 strokes to win \$600 each.

Henry Ransom, St. Andrews, Ill.; Fred Hawkins, El Paso, Texas, and Bob Toski, Northampton, Mass., were tied for seventh with 281 strokes, which profited them \$450 each.

The par 71 course played easy for stars on the final round and eight out of the top nine golfers used fewer than 70 strokes.

Holleyman Defeats Fort In Roping

LEVELLAND—J. D. Holleyman of Ozona defeated Troy Fort, world's champion roper last year, in a \$5,000 matched roping contest before 2,000 persons at the rodeo arena here Sunday afternoon.

Phillip Williams of Tokyo led a field of five in the cutting horse contest for entrance fee money.

'General' Coxe Puts Okay On President

MASSILLON OHIO—(AP)—Back in 1894 a man with a plan for non-interest bonds led an army of unemployed marchers to Washington.

That was a long time ago, but the leader of the group still is living. He is "General" Jacob S. Coxe, who became 96 years old Sunday.

Dignified in his characteristic stiff collar, he makes daily trips downtown when the weather is good. He discusses current events with a keen mind.

He told reporters Sunday he approved of President Truman, particularly his policies that have put more money in circulation. Coxe said he felt the President has kept the country out of a depression.

Coxe had hoped his group of ragged and hungry men would total 150,000 by the time he reached Washington. Instead, the force dwindled to a mere 336.

He also was unsuccessful in his efforts to appear before Congress and campaign for non-interest bonds for financing road building.

Washington police arrested him when he tried to speak from the Capitol steps and he was fined \$5.

SPORTS SLANTS

by SHORTY SHELburnE

The major leagues swing into action Tuesday. Everywhere the scribes are picking 'em to finish here, there and yonder.

One of the most drastic, yet somewhat logical, picks comes from Harry Grayson, NEA sports editor. Grayson has gone off the deep end in picking the Philadelphia Phillies to cop the National League bunting and Detroit to win the American League.

Here's how he sees 'em all the way down:

AMERICAN	NATIONAL
Detroit	Philadelphia
Boston	Brooklyn
New York	St. Louis
Philadelphia	Boston
Cleveland	New York
Chicago	Pittsburgh
St. Louis	Cincinnati
Washington	Chicago

Pat Garner, a fine young lady golfer from Midland, made a big to win a berth on the Texas Christian University golf team last week but was stymied in her effort.

Pat hoped to match chips with the boys on the team but ran into trouble with the Southwest Conference rules.

After approaching Coach Tom Prusse who promptly referred her to Athletic Director Howard Grubbs, Pat got this answer: "Nobody plays on the golf team unless he wears britches."

She still wouldn't give up. But James H. Stewart, commissioner of the conference, has sided her to down. He quoted a phrase from the rules which says: "The object of the conference shall be to regulate and control all of the activities of intercollegiate athletics for men in the member institutions."

That "for men" is what has Pat worried now.

Ernie Nelson, the dean of Longhorn League pitchers, is rounding into shape again and will be ready to hurl for the Midland Indians, probably this week.

Ernie wanted to pitch Sunday's game against San Angelo but Manager Harold Webb decided against it.

Webb wants his ace left-hander to be in good shape before he throws again.

At the same time Nelson is just about ready to return to the mound. The Indians may have lost another hurler.

Donald Hines, who was well on his way to winning Sunday's tilt here, was hit on the leg by a line drive and had to retire.

The leg will be sore for several days and may keep him out of action.

Majors To Open Diamond Jubilee Baseball Season

NEW YORK — (AP)—The diamond Jubilee season for the diamond game opens Tuesday and countless millions will see or hear baseball compared to the few thousands who followed the first big league teams in 1876.

This year the spread of television and the use for the first time of two radio networks assures the major leagues of their greatest audience—incalculably more even than 1948.

Total direct attendance may fall off slightly, but even that depends both on economic conditions and the closeness of the pennant races.

The Mutual System for the American League and the Liberty Network in the West for the National League baseball for three quarters of a century. It was organized Feb. 2, 1876. The American League came into being in 1900.

President Truman will preside at the usual ceremonies in Washington. The full list of opening games:

American League — Philadelphia at Washington; St. Louis at Chicago; Detroit at Cleveland; New York at Boston; National League — Boston at New York; Brooklyn at Philadelphia; Chicago at Cincinnati; Pittsburgh at St. Louis (night).

This will be the first time any major league team has ever played a night game to open the season. In all 409 night games have been scheduled in both leagues, a new high. Last year there were 380, and in 1940 only 81.

The New York Yankees are defending their American League World Championship, and the Brooklyn Dodgers are defending their National League pennant.

DADDY RINGTAIL

Daddy Ringtail And Birthday For Sammy

Sammy Ringtail is a monkey boy, and today is his birthday. This morning he awoke very early so that he could go to the zoo with Daddy Ringtail, and Mother Ringtail, and Bobby, and Patsy, and Mugwump could say "Happy Birthday!" to him.

Everyone said it, and right after breakfast, Sammy slid all the way down to the ground from the monkey house. Daddy Ringtail came with him. They walked away and

down the Elephant Path, on their way to see Uncle Bunkum at the zoo, because a trip to the zoo was going to be one of Sammy's birthday presents.

The birds were singing in the trees above the Elephant Path, and the flowers were red and yellow along the way. The wind was soft and cool. It rustled the leaves in the trees. There seemed to be a whispering of "Happy Birthday, Sammy! Happy Birthday Sammy, and many more happy, happy birthdays!" It was only the wind in the trees, of course, but a "happy birthday" is what it seemed to say. And Sammy Ringtail, and Daddy Ringtail with him, walked on and down the Elephant Path, on their way to see Uncle Bunkum at the zoo.

They went down a hill and across a creek and up again to the place where the trees stopped at the edge

of the forest. Right in front of them was the zoo with the animals in all their cages. A lion came to the bars of his cage and looked at Sammy. Sammy looked at the lion. Sammy smiled, and the lion winked one of his eyes. The lion would have said "Happy Birthday," if he knew, if only he had been a talking lion.

Sammy laughed. He was very happy with his birthday present of going to see all the things at the zoo. Why, he was happy for all the animals in their cages to wink their eyes at him if they wanted to.

Yes, and the very next time you go to the zoo, maybe some will wink at you. Maybe they will wink a "Happy Birthday" all for you, for

the very next time you have your birthday. And you can watch them, and smile, and wink yourself if you want to do it. Nobody will understand but you and the fellow in the cage, and nobody will know that you and he are maybe playing a game of saying a happy birthday. Happy day! Happy Birthday, too, the very next time you have one. (Copyright 1950, General Features Corp.)

By MICHAEL O'MALLEY and RALPH LANE

ARE YOU SURE, OLLIE, THAT ALL IS TRANQUIL BETWEEN YOU AND MRS. FELCH? HAK-KAFF! I'D HATE TO FEEL THAT YOUR HOSPITALITY IN OFFERING ME LODGING FOR THE NIGHT WOULD ROUSE HER!

YOU'RE AS WELCOME AS AN INCOME TAX REFUND MAJOR! OLGA ALWAYS DID LIKE COMPANY ANYWAY-- SHE'S SOUND ASLEEP NOW, THOUGH-- LET'S MAKE IT QUIET!

OLGA LIKES COMPANY WHEN SHE DOES THE INVITING

FRECKLES AND HIS FRIENDS

MY BOYS ARE COMING APART LIKE A HENCOOP IN A HURRICANE!

I'D HAVE SWORN IT WOULD BE VICE VERSA-- BUT THAT'S BASEBALL FOR YOU!

LOOK AT MY BOYS; THEY PLAYED BY THE BOOK AND GOT NOTHING BUT LEMONS!

I'M LOOKING-- AND THINKING!

SIGRID! DID YOU HEAR THAT? I SOUNDED LIKE SCROBE'S VOICE-- CRYING FOR HELP!

Moving told Scrobe he intended to kill him, Mangle pushed him into the snow-drifted ravine.

GOOD RIDDANCE! NOW TO GET BACK TO THE CASH! I HAVE PLANS FOR MY OTHER GUESTS BEFORE PULLING STAKES!

SCROBE'S GREAT WEIGHT ONLY PLUNGED HIM DEEPER INTO THE SOFT SNOW. NOW HE WAS STILL BURIED IN A GRAVE OF WHITE!

The City of Midland is receiving applications for the position of Police Officer. Applicants must be between 21 and 32 years of age, must have had a High School education, and be in good physical condition. Selected applicants will undergo 2 months of intensive police training, during which time the salary will be \$210.00 monthly. Upon successful completion of the training course, the applicant will be actively assigned to the Midland Police Department at \$225.00 monthly for a probationary period of 2 months; upon successful completion of active assignment, he will become a full-fledged member of the Midland Police Force, eligible for all employee benefits including retirement.

For intelligent, alert, and capable young men, here is an opportunity to serve with a Police Force which will be developed into one of the finest and most efficient anywhere. If you meet the qualifications and are interested in a CAREER and not just a job, contact the Chief of Police, City Hall, Midland, Texas.

Grant, Lee Meet Again In Dedication Of Surrender House

APPOMATTOX, VA. (AP)—Virginia caught at a fragment of her dream Sunday... the dream that ended here forever on April 9, 1865.

More than 10,000 Southerners stood in quiet ranks at Appomattox Court House to hear once again how their grandfathers tasted the bitterness of a lost war.

The scene was the red brick McLean House, now restored to what it was that foggy Palm Sunday morning when the Civil War—still America's bloodiest—came to its sudden end.

They heard again how Robert E. Lee put on his gold-laced uniform, his sword and his gloves, and told his staff:

"I am going to see General Grant."

The occasion Sunday was the dedication of the surrender house as a national shrine.

Yankees Present

Although there were Northerners present, the day belonged less to them than to the memory of the Army of Northern Virginia, which laid down its arms amid the bare oaks and locusts of this little county seat.

After the last of the oratory had faded among the same trees Sunday, the crowd milled about quietly, loath to leave, moved, and maybe a bit puzzled at the continuing tug of a cause that has been lost these 85 years.

The symbolism of the day was national unity, and another Grant and another Lee were at hand to cut the silken ribbons at the doorway of the old home.

Sunday's Grant was Major Gen. U. S. Grant, III, Ret., grandson of the victor of Appomattox. The Lee was Robert E. Lee, IV, of San Francisco, 25-year-old great-grandson of the Virginian.

Aldrich Is Named Swim Pool Manager

The appointment of Frank Aldrich as manager of the Pagoda Swimming Pool for the 1950 season was announced Monday by City Manager W. H. Oswalt. The pool will open for business the day after school is dismissed for the summer.

Oswalt said the pool now is being cleaned and repainted. A chlorinator will be installed soon and the popular pool will be operated in a sanitary manner as facilities will permit. The water will be changed frequently to meet health standards. Everything possible will be done to operate the pool in a manner designed to attract a record number of users, the city manager stated.

Aldrich and a representative of the City Health Department will attend a conference of swimming pool operators in Lubbock soon.

PRINCESS ELIZABETH CANCELS ENGAGEMENTS

LONDON—Princess Elizabeth is canceling all further public engagements—an indication she is expecting her second child this summer.

A similar announcement came from Buckingham Palace prior to the birth of Prince Charles in November, 1948.

Oil And Gas Log—

(Continued From Page One) M. and M. D. Bryant of San Antonio.

No Bonus Reported

Included in the block are lands owned by Bryant, Brooks and the Tweedy estates. The acreage was taken on a ten-year commercial lease basis with a \$1.00 per acre annual rental specified. Amount of bonus paid for the leases has not been reported.

Balboa took the spread from Marshall and Bryant and then made a deal with Wilshire on a half and half interest basis.

It is to be one and three-quarter miles west of the Tom Green County line and five miles west of Knickerbocker.

Tom Green Stepout Coring Upper Strawn

Flowing production has been developed in the upper Strawn at the Stanolind Oil & Gas Company No. 1-B Johnson, one-quarter mile west stepout to the discovery well of the South Susan Peak field in Southeast Tom Green County.

After an acid treatment with 500 gallons, the well kicked off and flowed 120 barrels of oil in six hours through a one-fourth inch choke. Production flowed perforations at 4,875-4,885 feet.

Tubing pressure was 75 pounds, and casing pressure was 250 pounds. Operators were flowing to clean out and complete.

Before the acid injection, operator swabbed 103 barrels of wash water and 84 barrels of oil in 48 hours.

Drilled To Lower Strawn

Five and one-half inch casing is set at 4,984 feet. The project is bottomed at 4,985 feet in the lower Strawn, which yielded salt water.

Exact location of the 1-B Johnson is 1,980 feet from south and 660 feet from east lines of section 20, block 25, H&TC survey, and 18 miles south of San Angelo.

The discovery well of the South Susan Peak-Strawn pool is Hia-watha Oil & Gas Company No. 1 W. G. Currie.

C-S Nolan Slated For Deep Venture

Sun Oil Company No. 1 J. P. Maddox is to be a 7,500-foot wildcat in Central-South Nolan County to explore for the Ellenburger.

Location is 660 feet from south and west lines of section 43, block 1-A, H&TC survey. It is approximately 21 miles southeast of Roscoe.

Spraberry Yields No Shrops In NW Upton

Sinclair Oil & Gas Company and Magnolia Petroleum Company No. 1 G. R. Davis, Northwest Upton County wildcat to 13,000 feet test the Ellenburger, cored at 7,749-66 feet in the Spraberry section of the lower Permian.

The 2 feet of sand, shale and lime which was recovered did not show any appreciable signs of oil or gas. No drillstem test was run on the section.

The well is making hole below 8,044 feet in lime and shale. It is 660 feet from north and east lines of section 20, block 41, TP survey, T-5-S, and six and one-half miles southwest of the south side of the Pegasus field.

Tom Green Pumper Flows After Acid

Sun Oil Company and associates, No. 2 Pulliam, Central Tom Green County wildcat discovery, which was completed naturally about three months ago for a daily pumping potential of about 20 barrels of oil per day, plus a little water, was treated with 3,000 gallons of acid in the open hole at 5,520-52 feet in the Strawn lime.

The well kicked off after the acid and in 19 hours flowed 199.63 barrels of fluid, which was 82 per cent oil and 18 per cent water. The flow was through a five-sixteenths inch choke.

In 16 hours of flowing, ending at 7 a. m. Monday, the well produced 67 barrels of fluid. It was 98 per cent oil and two per cent water. Flowing tubing pressure was 200 pounds. Casing pressure was 650 pounds.

Will Re-Complete

Operators are to take potential test and re-complete.

This well is 660 feet from south and east lines of section 14, block 4, H&TC survey, and four miles northwest of San Angelo.

Before the acid treatment the well had been pumping about 14 barrels of oil and about two gallons of water per day.

Mid-Continent Plugs C-S Kent Prospector

Mid-Continent Petroleum Corporation No. 1 Benton, well produced South Kent County wildcat, five miles northeast of the Cogdell-Canyon field, and 11 miles south of Claiborne, is preparing to plug and abandon on a total depth of 7,415 feet in Ellenburger.

That zone, topped at 7,336 feet on a datum point of minus 5,304 feet, made muddy salt water in a drillstem test at 7,363-7,415 feet.

The Ellenburger did not log any shows of oil or gas. There were no possibilities of production in any of the higher horizons.

Location is 330 feet from south and west lines of section 776, block 97, H&TC survey.

Kiwanis Club Sees Color Movie Film

A color sound movie, detailing the raising and packing of Hawaiian pineapples, was shown to members of the Midland Kiwanis Club at their regular Monday noon meeting, held in the Crystal Ballroom of Hotel Scharbauer. The film was shown by the Rev. Edward Murray, pastor of St. George's Catholic Church.

Albert Kelley, club president, presided at the meeting, which was attended by 52 members and four guests.

Plans for sending a delegation of Kiwanians to Coleman Tuesday were discussed. Four cars and one plane will transport members to the Coleman meeting, in an attempt to win for the Midland Club the "mammoth" prize among clubs of the district. The Rev. Matthew R. Lynn and Robert Stripling, of the Midland club, will conduct the program at the Coleman meeting.

Congratulations To:

Mr. and Mrs. Ray E. Howard on the birth Sunday of a son, not yet named, weighing eight pounds, one ounce.

INVESTIGATE STABBING

Midland police Monday were investigating the stabbing of Leroy Johnson, 31-year-old negro who was found in critical condition early Sunday in the negro section. Police Chief Jack Ellington said clues are scarce.

ARCHITECTS ADVISE TO BUY COMPLETED HOME

Many architects now are advising home buyers to purchase a house that already is completed. Many times it will save money, while in other cases it will not, they say.

"But you'll get a chance to see the home you are going to live in before you sink your money in it," they argue.

Morning Fire Razes Kaufman High School

KAUFMAN, TEXAS.—(AP)—Kaufman's six high school buses were to run as usual Monday despite the fact the school building was destroyed by fire.

Ben B. Hines, superintendent, said students would be collected by the buses and a general meeting would be held in the gymnasium. Then classes would be assigned to all available buildings — band and vocational agriculture, houses and local churches.

The building was destroyed by fire early Sunday.

Hines said he believed a bolt of lightning started the fire.

Kitchen Equipment Is Installed At Hospital

New Blood Test For Cancer Is 98.6 Per Cent Accurate

ATLANTIC CITY, N. J.—(AP)—A new blood test is 98.6 per cent accurate in detecting the presence of cancer, four researchers have reported.

The test is one of a half dozen new ones, all based on finding that cancer does something to human blood.

The hope is that this test, or one of the others, will help solve one of the most serious problems in human cancer. This problem is finding the people with cancer early enough to cure them by surgery or X-rays, the two standard cures now.

The new test was described Sunday to the American Association for Cancer Research by a team of four scientists from the University of California at Los Angeles and the Veterans Administration Hospital in Los Angeles. They are Drs. H. S. Penn, George C. Hall, A. H. Dowdy and A. W. Bellamy.

The test mixes human blood serum with an extract from the livers of people who had cancer. The test indicates cancer if solid particles form and the cloudy solution becomes clear.

Tried On 4,500 Persons

It was tested on 4,500 persons. It was known that 830 of them had proved cancer. The test said "yes" on 98.6 per cent of them.

In this group, almost 1,000 persons apparently were healthy. The test indicated cancer, maybe wrongly, in only five of them. It still is not known whether any of these five may have cancers not detectable by other tests.

The test gave "yes" answers in 13 per cent of 2,435 people in hospitals suffering from other diseases than cancer. These included tuberculosis, arthritis and cirrhosis of the liver. "These diseases can be detected by other tests."

The next step is to learn whether the test will be helpful in cancer examinations of apparently healthy people, about whom nothing is known so far as cancer is concerned. Will it detect most of the people who have unsuspected cancer? Will it miss many of those who really do have cancer?

A blood test which does these things will be a tremendous aid in the fight against cancer. It will spot the people who may have cancer, segregating them from those who don't.

Have A Laugh

By BOYCE HOUSE

A Swede was the chief witness for the prosecution of a man accused of having bitten another man's ear off in a fight. On cross-examination, the defense attorney scowled as he asked, "Did you see the defendant bite the complaining witness' ear off?"

"No, I didn't bane see him bite it off," was the reply.

"Then why," belted the lawyer, "are you willing to sit there and tell this jury that the defendant bit the man's ear off?"

"Because," the Swede replied, "I bane saw him spit it out."
