# House Panel Okays Tidelands Bill

## Lattimore Described As Commie

WASHINGTON (AP)—Louis F. Budenz, former Communist, testified Thursday that Owen Lattimore was a member of a "Communist cell" in the Institute of Pacific Relations.

Budenz told a Senate Foreign Relations subcommittee he knows Lattimore, far Eastern expert, was associated with two men who were "Soviet agents."

Budenz named these men as Frederick Vanderbilt Field, an official of the Institute, and Philip Jaffe, former editor of the magazine Amerasia.

The witness, testifying under oath in the Senate investigation of Lattimore, said he was told by Senator McCarthy, who led the Institute of Pacific Relations, that it was not a Communist organization.

Lattimore, a Johns Hopkins University professor, has denied he ever has been a Communist or that he helped the Communist cause in any way.

Lattimore was close to Budenz, testified with him were Mrs. Lattimore and her lawyers, Abe Fortas and Thurmond Arnold.

They sat directly behind Budenz, so close they could have reached out and touched him.

Budenz said the committee evidence could be obtained to substantiate his testimony.

McCarthy had predicted in advance of Thursday's session that Budenz would swear he knew Lattimore, far Eastern affairs specialist, to be a member of the Communist Party.

Commented by Leaders

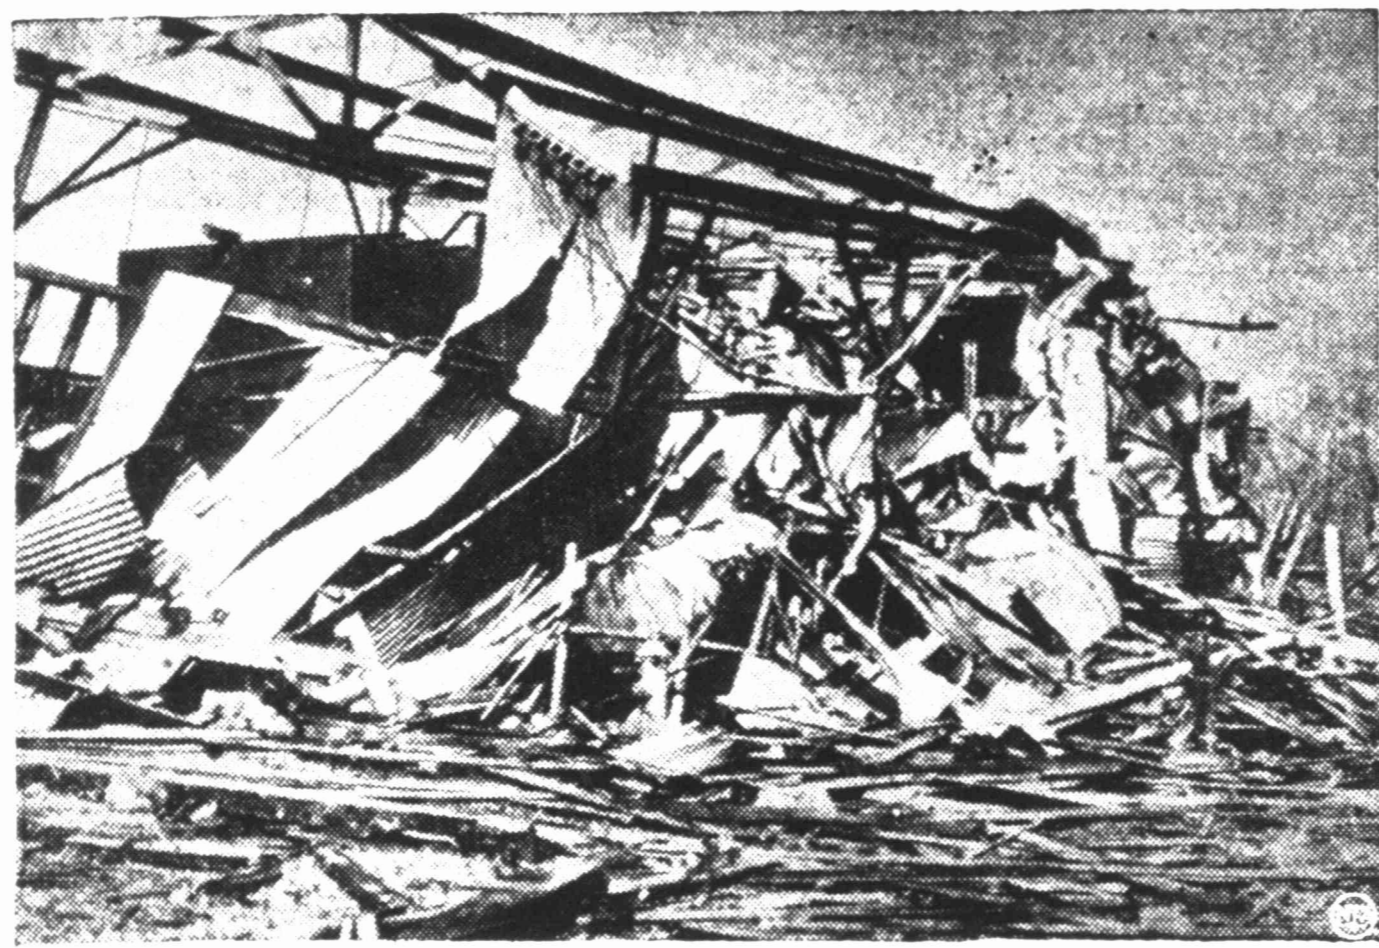

McCarthy had said he would be willing to "stand or fall" on the Lattimore case in his general condemnation that the State Department had been infiltrated by Communists and their sympathizers.

Budenz said Lattimore was "commended" by Field and Earl J. Browder, former head of the Communist Party in this country, for having been responsible for placing Lattimore on the committee of the Institute of Pacific Relations.

The 58-year-old Budenz related to the committee details of his association with the Communist Party.

## Tornadoes Strike In Alabama

Twin tornadoes stabbed at four communities in the Mobile Bay area, injuring 14 persons. The Stillworth Pine Products Company Plant at Whistler, Ala., was demolished by the first high winds but no one was injured.

## State Board Revokes Medical License Of Dr. Hermann Sander

CONCORD, N. H.—(P)—The State Board of Registration in Medicine has revoked the license of Dr. Hermann Sander for what it termed "morally reprehensible action in deliberately injecting air" into a patient.

The 41-year-old country doctor was acquitted March 9 by a superior court jury of murder in the death of Mrs. Abbie Borroto, 59, who was suffering from incurable cancer. The state had charged Dr. Sander killed the woman by four injections of air into her veins shortly before she died.

The board hinted that Dr. Sander might apply for reinstatement in two months. A line in its decision said: "No application for reinstatement by Dr. Sander will be entertained prior to June 19, 1950."

The young physician politely declined to discuss Wednesday night's decision. His counsel, Louis E. Wyman, said he would consider the ruling with members of his staff and Dr. Sander Thursday.

Called "Raw Deal"

"On all the evidence," he said, "there is nothing against Dr. Sander's moral character in any way whatsoever."

Reginald P. Borroto, husband of the woman Dr. Sander was charged with slaying, said the board gave the doctor "a raw deal."

Borroto, who has stood by the physician since he was first accused, said:

"If you want to know what I think about it, I think it stinks. The poor fellow has been through hell and now they still want to extract more blood out of him."

"Dr. Sander suffered terrifically. I think he has suffered enough. I can't understand the medical board's action."

State Rep. George A. Myhaver said he would seek a legislative investigation to determine why the board revoked the doctor's license "when he already had been acquitted by a court."

## U. S. Plans 'Campaign Of Truth'

WASHINGTON (AP)—President Truman Thursday disclosed plans for a "great campaign of truth" to convince the world the United States has "no purpose of going to war except in defense of freedom."

He told the American Society of Newspaper Editors he has directed Secretary of State Acheson to develop a strengthened national information program to overcome Soviet Russia's "deceit, distortion and lies."

He invited the continued cooperation of American newspapers in spreading the fact that this country is "wholly dedicated to the cause of peace."

Truman declared:

"We must make ourselves known as we really are—not as Communist propaganda pictures us. We must pool our efforts with those of the free peoples in a sustained, intensified program to promote the cause of freedom against the propaganda of slavery."

"We must make ourselves heard round the world in a great campaign of truth."

Striped Trousers, Baggy Pants

The President's address, prepared for delivery at a luncheon, stressed the vital role newspapers can play in this phase of the cold war.

"There is too much nonsense about striped trousers in foreign affairs," he said.

"Far more influence is exerted by the baggy pants of the managing editor."

The President said he had asked Secretary Acheson to take action to "improve and strengthen our whole range of information and educational services."

This more "effective national effort," he added, "will require the imagination and energies of private individuals and groups throughout the country." He continued:

"Another major part of our effort must be carried out through our great public information channels—newspapers and magazines, radio and motion pictures."

"We must strive constantly to break down or leap over barriers to free communication wherever they exist. x x x"

"I am confident that the American press can and will make a tremendously useful contribution toward finding new solutions."

## Mother And Three Children Die When Fire Destroys Home

RACKLAND, LA.—(P)—A mother and her three sleeping children burned to death Thursday when their five room frame farmhouse was destroyed by fire.

Leonard Falkout, chief of the Rackland Volunteer Fire Department, listed the dead as:

Mrs. Simon Thibodaux, 28. Betty Ann, nine. Rosemary, eight. Marie Ann, 18 months.

The husband-and-father Simon Thibodaux, 34, suffered burns and a cut left arm. He brought his wife's body from the flaming dwelling and vainly attempted to force his way back into the house after his children.

The Thibodaux house was two and a half miles east of Rackland on the road to New Orleans.

The fire chief said he did not know the cause of the fire, but that it apparently followed the pouring of kerosene on a fire. He said a five-gallon can of kerosene exploded.

Falkout said Thibodaux had just left the house for work a few minutes before the fire started.

## HST Inks Housing Measure

WASHINGTON (AP)—President Truman Thursday signed the multi-billion dollar housing bill.

The measure, which he approved without comment, provides incentives for home building by families of low and moderate incomes but lacks the controversial cooperative plan which he proposed.

Both the Senate and the House rejected the co-op provision. It would have set up a \$2,000,000,000 program of home building through cooperatives and other non-profit groups.

The measure provides for an expansion of almost \$4,000,000,000 in the federal housing program through loans and mortgage guarantees.

It also provides for turning over to state, county and local housing authorities almost 150 war-built housing projects now under control of the Public Housing Administration.

Longer Terms For GI's

Other major features:

1. A \$2,500,000,000 increase in the regular system of Federal Housing Administration (FHA) insurance on home mortgages.
2. A \$250,000,000 increase in the authority of the Federal National Mortgage Association to purchase mortgages, adding that amount to the existing authority which runs up to \$250,000,000.
3. A five-year extension of the repair and modernization program of the FHA under which loans are made to improve existing properties.
4. A provision for direct loans, at 2.5 per cent interest, for educational institutions to modernize or build housing facilities for students and faculty members.
5. Extension of the repayment period on veterans' home loans from 25 to 30 years.

## Action Backs Texas' Claim On Boundary

WASHINGTON (AP)—The House Judiciary Committee Thursday approved legislation giving the states clear title to the oil-rich Tidelands.

Under the terms of the bill, the states would own submerged coastal lands three miles out from their shorelines. In the case of Texas, the limit is 10 1/2 miles, because of conditions under which it entered the union.

The bill provides that the states shall receive 37 1/2 per cent of all revenues from oil and gas leases between the three-mile limit (Texas, 10 1/2 miles) and the edge of the continental shelf.

The federal government would receive the remainder.

Author of the pending measure is Representative Walter (D-Pa.).

Representative Gossett (D-Texas), a Judiciary Committee member and a strong supporter of the state ownership bill, said the group voted 16 to 10 for the measure.

Those supporting the bill, he said, were Representatives Walter, Bryson (D-SC), Chelf (D-Ky), Gossett (D-Texas), Wilson (D-Texas), Gilmer (D-Okla.), Tackett (D-Ark.), Willis (D-La.), Frazier (D-Tenn.), Michener (R-Mich.), Reed (R-Ill.), Fellows (R-Maine), Jennings (R-Tenn.), McCullough (R-Ohio), Boggs (R-De.) and Goodwin (R-Mass.).

Those voting against the measure, he said, were Chairman Celler (D-N.Y.), Hobbs (D-Ala.), Byrne (D-N.Y.), Lane (D-Mass.), Feighan (D-N.Y.), Ramsey (D-W.Va.), Denton (D-Ind.), Rodino (D-N.J.), Case (R-N.J.) and Keating (R-N.Y.).

## Rail Strike Called Next Wednesday

CHICAGO (AP)—A strike against four of the nation's biggest railroad systems, threatening to slow all rail transportation, has been called for next Wednesday morning.

The strike will Wednesday night by Brotherhood of Locomotive Firemen and Engineers ordered some 18,000 of the union's claimed 110,000 members to leave their jobs at 6 a.m. April 26. Union spokesmen said the walkout would make idle some 50,000 rail workers.

The threatened strike followed almost three years of dispute between the union and the carriers over union demands for a second man on multiple unit diesel locomotives.

Postponement Possible

The possibility of a postponement was hinted in a statement by Union President David B. Robertson, who announced the strike call. He said: "If they (the railroads) feel some progress is being made toward settlement, the strike may be postponed."

However, a railroad spokesman, Daniel B. Loomis, chairman of the Association of Western Railroads, said: "Despite the strike threat, the railroads will stick to their decision of refusing to grant the make-work demands of the union, x x x Strike or no strike, no additional firemen will be employed on diesel electric locomotives, which have no fires to tend."

The strike was called against the Pennsylvania System west of Harrisburg, Pa.; the entire Atchafalaya and Santa Fe System; the Southern Railway, and the New York Central west of Buffalo and three of its divisions, the Michigan Central west of the Detroit River, the Big Four and the Ohio Central Lines.

## Regan Heads Group Inviting Truman To Big Bend Ceremony

WASHINGTON (AP)—President Truman Thursday got an invitation to have a part in dedicating the Big Bend National Park in Texas next October 11.

Rep. Ken Regan (D-Texas) headed a delegation which visited the White House.

Members of the delegation extending the invitation include: Secretary of the Interior Chapman; Newton Drury, National Park Service director; Dr. Ross W. Maxwell, superintendent of Big Bend National Park, and the following Texans:

Representative Lucas, Publisher Amos G. Carter and Robert Wear of the Fort Worth Star-Telegram, Editor W. J. Hooten of The El Paso Times, State Representative J. T. Rutherford, State Senator Hill Hudson of Pecos, Brewster County Judge Felix P. McCaughy, Wendell Mays of the Texas State Parks Board, Former Lt. Gov. Walter Woodul of Houston, Publisher C. C. Woodson of the Brownwood Bulletin, and President R. M. Hawkins of Sul Ross College, Frank McCollum and James E. Kasner, all of Alpine.

## Connally Appeals For Real Harmony On Foreign Policy

WASHINGTON (AP)—Senator Connally (D-Texas) Thursday appealed to the Senate to join in a non-partisan foreign policy and thus lift the cause of world peace "above the mists and fogs of party politics."

The veteran chairman of the Senate Foreign Relations Committee made his call for unity in foreign affairs in a major speech in the opening debate on a \$3,372,450,000 foreign aid bill.

"There should be no partisan politics involved in our foreign affairs," Connally said. "That field should not be invaded by demagogic appeals to gain personal popularity at home."

Connally insisted that while domestic problems can be fought out in Congress and in debates among the people, "in the field of foreign relations our differences and divisions should stop at the water's edge."

## Hainan Nationalists Get Reinforcements

TAIPEI, FORMOSA (AP)—Chinese Nationalists Thursday rushed reinforcements to their embattled forces on Hainan Island.

Red troops of Gen. Lin Piao, the "Manchurian Hammer," and defense forces under Gen. Hsueh Yueh, the "Little Tiger," were locked in bitter fighting for the fourth straight day.

Both sides agreed this was the Red's big attempt to take the key South China Island 10 miles from Luchow Peninsula.

For your Office Furniture call Baker Office Equipment Co., Phone 2634, 511 West Texas.—(Adv.)

## Reinecke Discovery Rates 5,492 BOPD After Acid Shot

Use of acid to clean out the pay section has shown a heavy increase in the production of George P. Livermore, Inc. and associates, No. 1. Reinecke, discovery well of the North Vincent-Canyon (Reinecke) field in Southeast Borden County.

The pay section in this well between 6,754 feet and 6,798 feet was washed with 500 gallons of mud acid and treated with 3,000 gallons of regular acid.

On re-potential test the well flowed for six hours and produced 1,373 barrels of pipe line oil. The flow was through a one and three-quarter inch opening on two and one-half inch tubing.

On the basis of that flow the well reported a calculated 24-hour potential of 5,492 barrels of oil. There was no formation water.

Original Completion

This well was originally completed for an initial potential of 1,430.4 barrels of oil, flowing through a three-quarter inch choke.

Location is 697.35 feet from north and 660 feet from west lines of the south half of section 25, block 25, H&TC survey. It is 18 miles southeast of Gail.

The acid was primarily used to clean out drilling mud, which had been absorbed into the pay section, while that zone was being drilled through.

## WTGS Is To Hear Panhandle Story Thursday Night

Robert Roth of Wichita Falls, will address the West Texas Geological Society at 8 p.m. Thursday night at the City-Country auditorium in Midland.

He is a geologist in the North Texas division office of Humble Oil & Refining Company at Wichita Falls.

Roth's subject will be "Paleogeology Of The Panhandle Of Texas." He will discuss the sedimentary and igneous sequence from pre-Cambrian to recent times in the Panhandle, along with facies changes and the environments of sedimentary basins.

To show structure map

Orogenic and epirogenic movements which control sedimentation in the area will be shown on a structure map.

The stratigraphic section is divided into 13 divisions. The recognition of each division is based upon comparative lithologic characteristics and/or paleontology.

A paleogeographic map will show the areal distribution of each division.

Unusual conditions connected with the occurrence of oil and gas will be mentioned and possible explanations will be offered.

John M. Hills, president of the West Texas Geological Society will preside. G. R. (Nick) Carter and Jesse A. Rogers will be in charge of the program.

## NE Kent To Get Deep Prospector

Drilling is to be started at once at a well to explore to 7,200 feet, or the Ellenburger, at a lesser depth, one mile southwest of Jayton in Northeast Kent County.

The prospector is to be Drilling & Exploration Company, Inc., No. 1 Montgomery. Tentative location is 467 feet from south and east lines of the north half of the block 194 acres in section 78, block 98, H&TC survey.

It will be on acreage secured in a farmout deal between Drilling & Exploration and Hiawatha Oil & Gas Company. Hiawatha has a large block of leases in that region.

## Humble Completes Cogdell Project

Humble Oil & Refining Company No. 1 Spires, in the Cogdell-Canyon field in Central-South Kent County, and 467 feet from south and 373 feet from east lines of section 717, block 97, H&TC survey, has been officially completed for a 24-hour potential of 351 barrels of 41.3 gravity oil. The completion test was flowing through a one-quarter inch choke on tubing. The pay is between 6,905 feet and 6,988 feet, which is a plugged back bottom.

## N-C Reeves Slated For Delaware Test

Hill & Hill of Fort Worth propose to drill a 4,000-foot Delaware test in North-Central Reeves County.

The No. 1 Brackenridge estate is to be 15 miles northwest of the town of Toyah and 992 feet from east and north lines of section 39, block 57, psi survey.

Drilling will start immediately on the combination tool venture. Drillsite is approximately six miles northeast of the abandoned Toyah field.

## Reef Venture Staked In Von Roeder Area

Amerada Petroleum Corporation No. 2 Weathers is to be a one-location south stepout from the same concern's No. 1 Weathers, which has flowed oil from the Canyon reef to assure a one-quarter of a mile south extension to the Von Roeder field in Southeast Borden County.

The new project is to be 1,368 feet from west and 2,002 feet from (Continued on Page 12)

Hear Dr. Earl Edington tonight—First Baptist Church, 8 p.m.—(Adv.)

## Odessan Charged In Oil Rig Slaying

ODESSA (AP)—Ray Elmer Smith, 37, Odessa oil field worker, was charged with murder late Wednesday in the fatal shooting of Dewey Blevins of Roby.

Smith was released on \$1,500 bond.

Blevins was shot seven times after he had gone to an Ector County drilling rig where Smith was working, about 20 miles northwest of here.

Sheriff Ernest Broughton said six men witnessed the shooting. They told the sheriff they knew of the disagreement between the two men and feared there would be trouble when they saw Blevins approach the rig where Smith was drilling shortly after midnight.

They said they sent a man for a deputy at Goldsmith two miles away in order to prevent further trouble. The shooting occurred before the deputy arrived.

## Finns Deliver 'War Criminals' To Reds

HELSINKI (AP)—Finland delivered three Soviet war criminals to Russia this week, it was reliably learned Thursday.

A well-informed source said two of the Soviet citizens delivered to the Russians were among the 56 "grave war criminals" whose surrender was demanded in a Soviet note handed to Finland on New Year's Eve.

## LATE NEWS FLASHES

WASHINGTON (AP)—The Navy said Thursday Russia's "unwarranted attack" on a U. S. Naval patrol plane has not changed its policy of dealing peacefully with any unidentified submarines reported off the coasts of this country unless they commit overt acts.

LONDON (AP)—A mushrooming wildcat strike of London dockers Thursday made more than 6,000 men idle and immobilized at least 35 ships carrying food.

WASHINGTON (AP)—Government witnesses testified Thursday at John Maragon's perjury trial that the former White House intimate was paid \$1,268 for representing a molasses company in difficulties with the Agriculture Department.

JAKARTA, U.S.I.—(AP)—Federal Indonesian troops have occupied Makassar without a fight, the Indonesian news agency Antara reported Thursday from the capital of East Indonesia.

## Drive To Reduce Spending Fails To Pick Up Headway

WASHINGTON (AP)—A drive to cut \$1,000,000,000 off a \$29,000,000,000 appropriation bill is having difficulty getting up steam in the House.

The big bill, financing more than 40 federal agencies for the fiscal year starting July 1, reached the crucial amendment stage Wednesday with this result:

Ten per cent was cut from the funds recommended by the House Appropriations Committee for the District of Columbia.

Less than one per cent was cut from the budget for the legislative establishment, which includes Congress itself, the government printing office and related Capitol activities.

The aggregate reduction was \$1,700,000,000, of which \$1,200,000,000 was in District of Columbia funds and \$500,000,000 in government printing office allotments.

On the basis of a total of \$12,000,000 considered for the district and \$56,822,450 for the legislative establishment, the cut amounted to about two and one-half per cent.

## Two New Methods Of Angina Relief Outlined To Doctors

BOSTON (AP)—Two new ways of stopping the heart pains of angina pectoris were reported to the American College of Physicians Thursday.

One is a new Egyptian drug. The other is to poke your finger into your neck.

The drug is khallin. It comes from a weed common in Arabia and the Eastern Mediterranean countries. Extracts are used for colic.

Doctors Harold L. Osher and Kermit H. Katz, of Boston City Hospital, reported using khallin on 28 persons, all with bad cases of angina pectoris. All but three were much relieved.

Khallin reduced the frequency of painful attacks as well as raising muscular activity. The drug is manufactured for doctors only. It is not for sale.

Dr. Katz told of stopping angina pain almost instantly by poking one finger against a patient's neck.

He would place on finger tip on the side of the neck, over the carotid sinus, a nerve center. Pressure at that point stopped the pain. This experiment is part of a study of the possibility of relieving angina pains by treating nerve reflexes.

## Committee Votes To Cut \$75,000,000 From Excise Levies

WASHINGTON (P)—The House Ways and Means Committee Thursday voted a \$75,000,000 reduction in manufacturers' excise taxes. It would repeal completely the excise levies on household cook stoves and water heaters, light bulbs and several other items.

The group refused to reduce the excises on automobiles, motorcycles, trucks, buses, truck tractors, parts and accessories, and tires and tubes. These taxes collect more than \$500,000,000 annually.

This was the first direct action the committee has taken in the three months it has been studying President Truman's proposal for an overall excise cut of \$655,000,000.

## Romania Launches Seizure Of 'Upper Class' Buildings

BUCHAREST, ROMANIA (AP)—Houses belonging to former wealthy owners of the "upper middle classes" were taken over Thursday by Romania's Communist-led government.

The nationalization decree passed by Parliament, was published in the Communist Party newspaper Scanteia. Early reports said some houses named on a special government list already had been taken from their owners by town councils.

The number to be nationalized was not given.

Affected by the decree are houses belonging to former industrialists and big landowners, former bankers and big merchants and "other elements of the upper middle classes."

Houses belonging to workers, white collar workers, small artisans, professional men and pensioners were exempted from the decree.

## FBI Captures Two Counterfeiters

Anthony Iraci, left, and Salvatore Salii, shed tears as they are questioned by Edwin Manning, FBI head in Buffalo, N. Y. They were picked up in Buffalo by Secret Service agents and charged with counterfeiting. They are believed to be the ringleaders of a giant United States and Canada bogus bill syndicate. Their bail has been set at \$100,000.

That Acorn Look Is Relic Of Past, Says Lady Fashion Stylist

By HAL BOYLE

NEW YORK—Do American women today really look like a row of acorns?

This question has the clothing industry in a mild tizzy. The accusation that women, by aping the body lines of movie stars, have become as much alike as so many unborn oak trees in their nut-shells was made by Raymond Marinielli, a well known designer.

Marinielli said this sameness resulted because too many women had adopted "the universal, uplift bustline" whether or not it corresponded with their own contours.

But this charge drew an immediate and heated denial from a lady clothing designer—Cynthia. "The upstanding bustline has already gone out," said Cynthia firmly. "And the acorn look is a thing of the past. It may have been popular a few years ago. But it has been replaced by the natural look."

"The trend now is for each woman to stress her own natural body line—to wear clothing with a natural shoulder, natural hip and natural bustline. And with no exaggeration anywhere."

Nothing But Scorn. Cynthia—lady designers, like male hairdressers, tend to regard last year's fashions as superfluous—also had nothing but scorn for Marinielli's contention women would be more beautiful if they threw away their bras and girdles.

"I can't imagine a girl feeling good without a bra and girdle—or looking good either," she said. "She would feel uncomfortable and ill at ease — definitely not well groomed."

But Cynthia, how about Marinielli's statement that women without these undergarments fashion aids? "Don't you believe it!" said Cynthia, a tall, slender blonde with blue eyes.

"A girl just doesn't look attractive if she doesn't wear her foundation garments. She is like a bowl full of quaking jelly. A girl should wear her girdle and bra everywhere except at the beach or in her own boudoir."

"I'd certainly hate to see a girl wear a fashionable strapless evening gown with nothing underneath."

Texas GI Weds In Telephone Ceremony. TEMPLE, TEXAS — A six-minute telephone call to Augsburg, Bavaria, and Cpl. William G. Horton of Fort Hood was married.

His new bride is the former Gadrone Marie Maiten Pogue, Justice of the Peace R. W. Watts of Temple officiated for the trans-Atlantic telephone wedding Wednesday.

Horton said his wife would join him "as soon as possible."

Midland A&M Exes To Attend Muster At Big Spring

A large group of Midland Texas A&M College exes are expected to attend annual Muster Day services Friday night in Big Spring's American Legion Clubhouse.

Each year on Texas Independence Day, Texas Aggie exes all over the world meet in groups to honor the memory of the heroes at San Jacinto and deceased Aggies. A large portion of Midland's 175 A&M Club members are expected to attend the Big Spring Muster.

Texas A&M exes from Midland, Big Spring, Odessa and other Permian Basin cities will join together in Muster Day services.

The meeting will begin at 8 p.m. A barbecue dinner will be served by the Odessa Chuck Wagon Gang. Included on the program will be the reading of the Aggie Muster poem.

Muster Day was begun 47 years ago at Texas A&M. In battle and in peacetime, wherever one or more Aggie is stationed or lives, the traditional observance is held.

The parent observance at A&M will be held in Guion Hall at 8:15 p.m. Marion S. Church, Dallas attorney and A&M graduate, will deliver the principal address.

One of the most historic Musters ever held was the one on embattled Corregidor. Despite the raging battle with the Japs slowly encircling the outnumbered troops, the Aggies held a short Muster ceremony.

Early matches were called "lucifers" or "flamers" because they sputtered so badly, according to the National Geographic Society.

Picture your home with the friendly warmth of a Whitehall house sign to greet your guests. These markers, featured by PHILLIPS ELECTRIC COMPANY are more than a charming welcome, for when attached to a tree, post or side of a house, they add a rustic distinction that sets your home apart from your neighbor's.

What's RIGHT? Just as you are about to leave your post, keep an appointment, a friend in a chatty mood calls you on the phone. WRONG WAY: Talk as long as the person wants to, explaining why you were late when you finally get to your appointment. RIGHT WAY: Explain to your telephone caller that you were just leaving to keep an appointment and say that you will call back later.

It is topped by a beautiful red rose nestling in the snowy icing. Call 8501 and Terminal Bakery will bake this cake and deliver it to your Mother.

Advice To Careful Spenders—If you're like some folks we know, you "shop around" before clicking coins on a counter. You want to be sure the cleaner you choose gives you the most prompt and careful service at the most moderate price. So you'll make a wise choice in HABIT CLEANERS. Let this modern dry cleaning establishment clean your Winter woollens before you store them. This precaution extends the life and good looks of your fine clothes.

Your Washdays Can Be Wonderful—Are greasy, grimy work clothes taking the starch out of you? Try the convenient, help-yourself laundry service offered by JENNINGS WASH-ATERIA, 204 West Front Street. Take your wash there and use the modern machines and soft hot water and have your clothes dried before you take them home. Dryers are available if you desire this service. The Washateria also offers the popular wet wash and rough dry service, your clothes washed, dried, ready to iron. Call 4387.

Now Your House Goes Up—The sturdy, handsome structure you've planned or the house you intend to remodel requires the best grade lumber materials. C. VELVIN LUMBER COMPANY will furnish all you need without any waste in time or money to you. Call 1534 now for a rapid service. The company features all building materials, hardware and paint, including the famous DuPont Paints. Whether building or remodeling, you'll be wise to visit C. Velvin Lumber Company.

Simple Method Of Extermination—If you discover roaches or silverfish in your house, the simplest method of extermination is to brush on Johnson's No-Roach wherever they appear. It's so easy to use and is perfectly safe for home use. Odorless and colorless, it leaves no muss to clean up later. Get a bottle from MIDLAND HARDWARE AND FURNITURE COMPANY and keep it in the cabinet for instant use whenever roaches, ants or silverfish appear.

Read "SHOPPING 'ROUND TOWN—with Barbara" for the latest "buy-lines" on what's new and where to find it. Barbara's column is a twice-weekly publication to help you know the best places to shop for quality merchandise important to your daily living.

## Delegates From Clubs Will Go To District TFWC Convention

Delegates from most of the federated women's clubs of Midland and numerous members who will be visitors will go to Big Spring Thursday night, Friday and Saturday morning for sessions of the annual convention of the Eighth District, Texas Federation of Women's Clubs.

Mrs. C. M. Goldsmith, president of the Midland Woman's Club, has been chosen as its delegate. Mrs. James O. Simmons, Jr., is district program chairman and has arranged the convention program with the cooperation of Big Spring committees.

Presidents-elect are delegates from three clubs: Mrs. Carl Westlund from the Modern Study Club, Mrs. W. G. Epley from the Twentieth Century Club and Mrs. Foy Proctor from the Fine Arts Club. Mrs. Epley is also a member of the district board. Mrs. R. Turpin, president of the Woman's Wednesday Club, is its delegate and is a board member.

Mrs. B. R. Schabaram has been named alternate from the Fine Arts Club and Mrs. Lamar Lunt from the Modern Study Club. Mrs. Lunt is a member of the board, which has a pre-convention meeting scheduled at 5 p. m. Thursday in the Settles Hotel, convention headquarters.

## Library Receives Memorial Books

A group of memorials and gifts to the Midland County Library have been received by Mrs. Lucile Carroll, librarian.

"A Taste of Texas," edited by Trahey, has been given in memory of P. E. Dunlop. Dunlop, a chuckwagon cook for 40 years, was known in Midland as "Duffy" and the book is inscribed with his name. It was given by Don Fritz.

The American Association of University Women has given "Musical USA" by Eaton in memory of First Lt. Joseph D. McMullen and "The Grand Alliance" by Churchill in memory of Dr. Robert C. Noble.

Gifts recently received by the library are "America and Alfred Steiglitz" edited by Waldo Frank and given by Mrs. F. R. Schenck, and a six-volume set of "Nature Lovers' Library" given by R. V. Hollingsworth. The Midland Stamp Club has given Scott's "Standard Postage Stamp Catalogue."

**DAMILLE FACHON COSMETICS**  
For best skin care and newest makeup. Our SPECIAL REPRESENTATIVE now servicing Midland ladies in their favorite Beauty Salon with COMPLIMENTARY FACIAL & SKIN ANALYSIS. Now at Moezelle's Beauty Shop, 105 South Carrizo.

## HD Club Members Attend Instruction School At Stanton

A delegation from Midland County attended the District Six Educational School of Instruction of the home demonstration clubs in Stanton Tuesday. Bonnie Cox, educational organizational specialist from Texas A&M College, directed the course which included education, expansion and year book work.

Those attending from Midland were Mrs. D. M. Bizzell, Mrs. I. J. Howard, Mrs. O. E. Sherman, Mrs. B. L. Mason and Pauline McWilliams, home demonstration agent.

Those in charge of the school were Mrs. Grace Martin, of Fort Stockton, district agent; Ralph Jones, Martin County agent; James Eiland and Mrs. Leo Turner, others from Martin County were Mrs. W. G. Lillard, Mrs. Dalton Wright, Mrs. Lewis Carline, Mrs. W. T. Wells, Mrs. Joe Stewart, Mrs. O. D. Green, Mrs. J. B. Harvart and Mrs. W. E. Berry. Martin County home demonstration members, and Mildred Chapman, Martin County home demonstration agent.

Attending from Glasscock County were Mrs. H. A. Haynes, Mrs. Belle Wilkerson, Mrs. Cecil Wilkerson, Mrs. Fred Ratliff and Mrs. Lora Mullin. Mrs. J. H. Bounds and Mrs. R. C. Marshall attended from Ector County.

Those from Upton County included Mrs. N. C. House, Mrs. J. W. C. Hayes, Mrs. L. R. Sumrall, Mrs. J. T. Gibbs, Mrs. L. B. Burnett, Mrs. Travis Thomas, Mrs. F. J. Hogg and Myrna Holman, agent.

Reagan County members attending were Mrs. Clyde F. Stewart, Mrs. L. R. Hudson, Mrs. M. Z. Morris, Mrs. W. E. Hassell, Mrs. O. I. Courtney and Mrs. Elizabeth C. Nunn. Howard County representatives were Mrs. J. M. Craig, Mrs. D. S. Phillips, Mrs. B. J. Petty and Eugenia Butler, agent.

## Women Of Christian Church Have Party

CRANE—The bi-monthly social of the Women of the First Christian Church was held Monday in the Gulf Recreational Hall.

The room was decorated with baskets of Spring flowers and a colorful May pole centered the serving table. Hostesses were Mrs. E. M. Frost, Mrs. D. L. Weiser, Mrs. M. E. Noble, Mrs. L. E. Brookover, Mrs. Gayle Young and Mrs. James Bryan.

Others attending were Mrs. K. W. Karr, Mrs. Sam Edwards, Mrs. John L. Stokes, Mrs. J. M. Johnston, Mrs. R. A. Shanor, Mrs. H. A. Williams, Mrs. Lee Turner, Mrs. W. E. Horne, Mrs. M. C. Shingleton, Mrs. Glenn Jones, Mrs. J. F. Kendrick, Mrs. O. E. Stevenson, Mrs. Wood Stevenson, Mrs. V. Haynes and Mrs. Ruth Shirley.

## Crane Girl Scout Troop 5 Has Meeting

CRANE—Girl Scout Troop 5 met Monday in the Community Hall with Mrs. L. T. Smith, leader, and Mrs. Leon Neeley, assistant, in charge.

The girls learned the tenderfoot test requirements and discussed badges. A round table discussion on Girl Scout Summer Camp was held.

Those present were Muriel Lewis, Mary Lou Fisher, Betty Jo Frailey, Carolyn Bostick, Evelyn Crawford, Leah Rhea McAfee, Patricia Clancy, Elsie Sue Neeley, Wanda Cole, Ella Smith and Jimmie Lou Baker.

## ACIDITY

Fear, anger, excitement, careless eating—these cause acidity. Drink delicious pure Ozarka Water, free from chlorine, alum, copper sulphate. Physicians recommend it. Shipped everywhere.

**Ozarka WATER CO.**  
Phone 111

## President To Be Wednesday Club Delegate

Mrs. Robert Turpin was elected the Woman's Wednesday Club delegate to the convention of the Eighth District of the Texas Federation of Women's Clubs in Big Spring Thursday, Friday and Saturday at a meeting Wednesday afternoon in the home of Mrs. Guy Cowden.

Mrs. Turpin is club president and was welcomed back to the club Wednesday after an absence of several months while she has been away from Midland.

Mrs. Paxton Howard read a paper on "Air Inflation" prepared by William Kerr. The paper was witty as well as informative, and discussed the progress in transportation and the way air travel influences our daily life.

During the tea hour, refreshments were served to Mrs. B. F. Black, Mrs. C. M. Goldsmith, Mrs. Erle Payne, Mrs. Howard, Mrs. John Perkins, Mrs. Tom Sealy, Mrs. Ernest Sidwell, Mrs. R. Stemberger and Mrs. W. G. Whitehouse.

## Air Terminal Trip Made By Brownie Troop At Meeting

A trip through the Midland Air Terminal and a continuation of flower study were the programs for two of the Midland Girl Scout Troops which met Wednesday afternoon.

Members of Brownie Troop 17 toured the Midland Air Terminal and its facilities Wednesday afternoon while on a field trip which was a highlight of the year's activities. Chief Little of the Terminal Fire Department conducted the tour.

The Brownies visited the fire station, hangars and terminal building, and saw two airliners land and take off. Pictures were taken by several of the girls. Routine activities and assignments were explained by airport attendants. Troop 17 is a West Elementary unit.

Refreshments were served by Lorraine Collins to Sandra Kay, Bonnie Boone, Jackie Blackwood, Sally Glavin, Sue Lynn Gregory, Marilyn Johnson, Patsy Kimball, Martha Marks, Gretchen Meisenheimer, Kay McKay, Teresa McNeal, Sassy Rinker, Kay Stall and Virginia Warren.

Mrs. Howard McKay and Mrs. J. C. Blackwood, leaders, and Mrs. L. Stall and Mrs. George Johnson accompanied the girls on the trip.

A demonstration of how to make carnation corsages was given for Brownie Troop 18 members who met in the home of Mrs. C. O. Fredregill. The girls were told about raising carnations. They shelled pickles and painted and molded figurines.

Attending were Betty Bond, Zella Booth, Sylvia Bourke, Jackie Brookshire, Jeannine Connolly, Bennie Brown, Shari Gill, Pauline Gwyn, Cecil Kelly, Kay Leaton, Patsy Medark, Janice Merritt, Mary Jo Newman, Margie Oldaker, May Fern Sorge, Bobbie Towery and Patsy Wilson.

## Mrs. W. Ervin Leads Crane W.M.U. Program

CRANE—Mrs. Wayne Ervin was in charge of the program given for the Women's Missionary Union of the First Baptist Church Tuesday.

Those taking part in the program were Mrs. R. G. Taylor, Mrs. Vera Keys, Mrs. Mildred North, Mrs. J. F. Brannon and Mrs. Frank Corbell. Others attending were Mrs. Leon Neeley, Mrs. Ted Green, Mrs. J. R. Boyd and Mrs. T. Phemister.

## NEW COMMITTEEMAN NAMED

RANKIN—Mrs. Loyd Yocham has been named to fill the vacancy on the Upton County Park Building Committee created by the recent resignation of Mrs. Tom Workman. Mrs. Workman has served as chairman of the committee for the last year. A new chairman will be elected at the next meeting.

## Polio Incidence Declines In Texas

AUSTIN—Fourteen new cases of polio last week brought the year's total for Texas to 313 cases, the State Health Department reported Wednesday.

Incidence showed an eight-case reduction under figures for the week previous.

Counties reporting new cases were Anderson 1, Aransas 2, Cameron 1, Galveston 1, Harris 1, Hidalgo 5, McClellan 1, Potter 1 and Tarrant 1.

Tom Green County reported no new cases for the third straight week but still remained the state's top polio county of the year.

Tea was introduced into Europe from Japan by Dutch traders in 1610.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, APRIL 20, 1950-3

## Soprano Gives Final Concert Of CMA Season; Is Entertained

A beautiful voice and a vivacious humor that changed quickly to seriousness when the selections required, entertained Civic Music Association members Wednesday night when Dorothy Wareskjold sang. Miss Wareskjold sang in an almost-filled Midland High School Auditorium as the last artist to be presented by the association this season.

After the concert, Miss Wareskjold and her mother, Mrs. William Earl Wareskjold of San Francisco, were honored at a buffet dinner in the home of Mr. and Mrs. Richard Hughston. Hughston is president of the Civic Music Association, and guests at the dinner were a group of persons who have been interested and active in the association.

Singing in French, German, Italian and English, Miss Wareskjold showed her versatility in songs that ranged from arias from "La Traviata" to Leonard Bernstein's "I Hate Music."

The "La Traviata" arias were "Ar, fors e lui" and "Sempre Libera." As an encore to them she sang arias from "Madam Butterfly."

Beginning her concert with rather quiet numbers, she sang "Tu lo sai"—"You know, only too well, how I love you, cruel one"—and "Wien-genilied," a Mozart lullaby. The more animated "Alleluiah" by Mozart was the last of the first group of numbers.

An Appalachian Mountain ballad, "The Red Rose Bush" was one of the five songs in English included in the last section of the program. Others were two love songs, "In the Silence of Night" by Rachmaninoff and "Do You Remember?" by Leviski. Hageman's English song, "At the Well," also was included in this section.

One of the lightest songs of the concert was "Love in the Dictionary," a definition of the word love from Funk and Wagnall's College Dictionary set to music.

As an encore to this group, Miss Wareskjold sang "My Hero" and "Through the Rye," "My Hero" and "I Hate Music."

"Waldesleit," a love song by Richard Strauss was one of the quieter songs of the concert. It was one of five songs of the second part of the program. Others were two Brahms songs, "Die Mainacht" and "O lieblich Wange."

The story of Nicolette, a peasant girl who meets a wolf, a young page and a wealthy old man who carries her off, was told in "Nicolette." Other French songs were "Chanson Triste," "Le temps des lilas," and "Stornellata Marinaru," love songs. "Colombetta" was the story of Colombine, who hears Harlequin serenading her.

A French ballad, arranged in English, was an encore to this group of songs.

Miss Wareskjold was accompanied by her mother.

## Newcomers' Tea Set For May 2 In Crane By Woman's Club

CRANE—A tea planned to acquaint Crane residents with the large number of newcomers who have moved recently will be held May 2 with the recently-organized Crane Study Club as hostess. An art exhibit will be a part of the entertainment.

The tea will be open to every woman in Crane. Members of the Study Club are asked to give names of newcomers to Evelyn Riden, chairman of invitations. Mrs. Wayne Ervin is general chairman of tea arrangements.

An invitation committee are Mrs. Gay Miller, Mrs. John Hanley, Mrs. H. E. Hendricks and Mrs. E. W. Pearce. Mrs. R. V. Wilson heads the arrangements committee with Mrs. H. Currie, Mrs. E. W. Wesberry, Jr., Mrs. I. H. Hawkins and Mrs. Troy Laxton as members. On the refreshment committee are Mrs. A. B. Menzies, Mrs. Izzy Leaman, Mrs. Bob Tobin, Mrs. Tom Hogan, Sr., and Mrs. Kelly Sims.

Plans for the tea were made at meetings Monday, when identical programs were given for an afternoon and a night meeting. Mrs. Wayne Ervin, the club delegate, and a number of members plan to attend the concert of the Eighth District Federated Clubs in Big Spring this weekend.

For the program, Mrs. O. E. Stephenson sketched highlights from the humorous book, "Madam Chairman." Members and guests, by Helen Hayes Keefe, a girl's trio, Kathryn Smith, Lila Kinsey and Jackie Lou Mackey, sang four numbers, and Gloria Looney, accompanied by Mrs. B. W. Ervin, sang at the afternoon meeting. Mrs. John E. Clark presided for business.

The club will not meet on May 1 because of the May Pete which will be presented in the high school gymnasium by the Physical Education Department.

## Andrews County HD Clubs Plan Program For National Week

ANDREWS—Plans for a program and buffet supper on May 2, observing National Home Demonstration Week, were made by the Andrews County Home Demonstration Council at a meeting held Monday in the courthouse. Husbands of club members and county commissioners will be guests.

Mrs. W. W. Heidelberg and Mrs. Cecil Ray were introduced as new council members. Mrs. Carl Sealey, Mrs. G. L. Walker and Mrs. J. P. Roach were visitors. Members of the Recreation Committee will represent the council at a meeting of civic club representatives Monday to make final plans for formal opening of the agricultural building library and county hospital.

Members of Yearbook Exhibit, Education and Expansion Committees of home demonstration clubs in this county attended a school of instruction in Kermit Monday. It was conducted by Bonnie Cox, specialist in organization with the A&M Extension Service, and Grace M. Gordon, of Fort Stockton, district home demonstration agent.

Those who went from Andrews County were Hattie G. Owens, county demonstration agent, and Mrs. Percy Morrison, Mrs. D. D. Wood, Mrs. J. F. Stephenson, Mrs. J. T. Waldrop and Mrs. Ivan Patterson, from Winkler County, Sally J. Ferrell, Mrs. Bill Knowles, Mrs. W. F. Turner, Mrs. R. L. Shaver, Mrs. H. E. Odum, Mrs. Pat Ayers, Mrs. Roy Prieb, James C. Via and Mrs. L. L. Cray.

From Pecos County, Mrs. Dudley Hambright, Mrs. Bertha Smith and Mrs. Logan Callis; from Ward County, Alma Hile and Mrs. Lester B. Gentry; from Loving County, Mrs. L. D. Atcheson; from Reeves County, Leslie Wray, Mrs. Buck Miller, Mrs. Berry Smith and Mrs. L. D. Atcheson.

**Our Diamond Exhibit**  
brings you **Unconditionally Guaranteed VALUES!**

KRUGER'S is celebrating the nation-wide Diamond Exhibit with lovelier gems than we've ever displayed at lower prices than you've ever dreamed possible! Don't miss this chance to see this fabulous diamond exhibit. And if there's a gift in the offing... make it a diamond from Kruger's.

\$225.00 16 diamond pair, 18K gold, fish-tail. \$4 Down, \$4 Week	\$39.75 5 diamond fish-tail band. \$1 Down, \$1 Week	\$125.00 8 diamond pair, fish-tail setting. \$2 Down, \$2 Week

**Play Readers Add Member**

Mrs. J. S. Roden was received as a new member of the Play Readers Club in a meeting Wednesday in the home of Mrs. R. L. Gates. Mrs. J. E. Beakey was the reader.

The club has recently elected officers for the 1950-51 year. They are Mrs. John FitzGerald, president; Mrs. Gates, vice president; Mrs. Wade Heath, secretary; Mrs. R. D. Scruggs, treasurer; and Mrs. R. M. Barron, historian.

Other members present included Mrs. E. H. Barron, Mrs. Wilson Bryant, Mrs. Delo Douglas, Mrs. Harvey Herd, Mrs. Charles Klapproth, Mrs. James D. Martin, Mrs. William Y. Penn, Mrs. W. F. Pennebaker, Mrs. W. T. Schneider and Mrs. Wilmer Stowe.

The next meeting will be held at 3 p. m. May 3 in the home of Mrs. Scruggs, 606 North Pecos Street. Mrs. Gates will be the reader.

**MIDLANDERS ATTEND STATE CONVENTION**

Several persons from the Associated Plumbing Contractors of the Permian Basin attended the fifty-ninth annual convention held last weekend at the Shamrock Hotel, Houston.

Delbert Manning, manager of the Midland Chamber of Commerce, was the guest speaker for the opening session. Midlanders attending were Mr. and Mrs. E. B. Templeton, Mr. and Mrs. J. G. Whitmore and Mr. and Mrs. T. S. Heath, Mr. and Mrs. E. J. Teter of Odessa and Mr. and Mrs. John Baldwin of Kermit also attended from this area.

**WHY STARVE TO TAKE OFF FAT?**

When you buy Barcinate, you buy a preparation for taking off weight. You do not pay for a printed diet. Barcinate is not a vitamin tablet to fortify you against weakness while on a starvation diet. You need never know a hungry moment, while reducing with Barcinate. It contains no harmful drugs, but does contain ingredients to make you feel better.

Barcinate when mixed with grapefruit juice does this: First, cuts down your desire for sweets and fatty foods; but you do not have to FORCE yourself. Barcinate takes care of your DESIRE. Second, dehydrates and stimulates that water is carried away—almost like melting fat. At the same time you feel better, more peppy, more alive, but never starved or hungry.

**NO STARVATION DIET**  
"I have taken lots of medicine but none to compare with Barcinate. I have lost 18 pounds in 2 weeks and no starvation diet."  
Delbert, Mrs. J. E. Blacklock, Route 1, Box 8D, Cleburne, Texas.

**LOST 24 POUNDS**  
"I am writing you just to say I think Barcinate is a wonderful medicine. I have tried so many other things and all failed. I weighed 182 pounds when I started to take Barcinate. Now I weigh 158. Signed, Maud Marrow, Archer City, Texas."

Midland Air Terminal

Midland Air Terminal, owned and operated by the City of Midland, has taken its place as West Texas' leading commercial airport—fulfilling to a certain degree a long-range project of the city and Chamber of Commerce to make of Midland the aviation center of the Southwest.

Statistics furnished by the Civil Aeronautics Administration show the leadership Midland Air Terminal, which serves the Permian Basin Empire, has attained over other West Texas airports in respect to commercial airline business. Midland is way out in front in the number of passengers and the amount of air mail and air cargo emplaned.

It is rather remarkable, too, as this enviable position has been attained in approximately six years—or since 1944 when the first of the three commercial airlines now serving Midland started operations here. One of the airlines has been serving this city only about two years.

Midland interests, in their long fight to obtain airline services, had maintained that the potential business was here, and the CAA figures prove the authenticity of their claims. And the volume of business still is on the increase. Residents of Midland and the Permian Basin Empire not only are air-minded, but are regular users of commercial airline services, as evidenced by the recently published CAA report. They have the inclination and the wherewithal to fly. Midland has furnished the area airport and the airlines are providing the flight facilities. Everyone is happy, including the Civil Aeronautics Administration, which admittedly has its eyes on Midland Air Terminal.

The CAA, in cooperation with the City of Midland, plans numerous improvements to the airport, which further will enhance its position as the best-lighted and best-equipped landing field in West Texas. Midland, according to present plans, will have one of four CAA-operated airport towers in Texas. Permian Basin residents well may be proud of their fine Midland Air Terminal.

And as yet the surface only has been scratched in the development of the port into one of the largest and busiest air terminals in the great Southwest. Facilities of all kinds are available at Terminal in addition to the fine and well-equipped landing field. Possibilities for further expansion are unlimited and the city's Aviation Department now is engaged in a program to obtain maximum use of all facilities at the giant installation.

Midland Air Terminal, formerly Midland Army Air Field, the world's largest bombardier training school, is serving and serving well in peace as it did in war.

Out Seeing The Sights

Supposing a Russian submarine or two really was lurking off the California Coast, we don't have to assume that it necessarily was bent on evil purposes—maybe the Soviet sailors were just hoping for a periscope-eye view of some Hollywood beauties. From what we've heard, the Russians' various five-year plans make no provisions for that sort of thing.

How Not To Solve The Farm Problem

DREW PEARSON ON 'The WASHINGTON MERRY-GO-ROUND'

WASHINGTON — Louis Budenz, star witness in the Senator McCarthy charges, was born in Indianapolis 59 years ago of German Catholic parents, has been tried 21 times in labor disputes, acquitted 21 times, and helped plot the murder of Leon Trotsky in Mexico.

He was educated at St. Xavier's College and St. Mary's College. Budenz forsook his religion to become one of the most effective communists in the United States, though at first he worked with the right-wing American Federation of Labor.

His first job was as editor of 'The Carpenter', official newspaper of the United Brotherhood of Carpenters and Joiners. Later he became an executive of the German-American Central Verein in St. Louis, leaving it when World War I broke in Europe. During the period of the first war he worked for the St. Louis Civic League and the Federal Electric Railways Commission. He had no war service.

Shortly after the war Budenz went back to labor activities as editor of Labor Age for a 10-year period—1921-31, though during part of this time he also was special strike organizer for the A. F. of L. and handled such important strikes as the Paterson Silk strike of 1930, the Toledo Auto-Lite strike of 1934, and the Toledo Auto-Lite strike of 1934.

It was shortly after the Toledo Auto-Lite strike that Budenz went over to the Communist Daily Worker first as its labor editor, later as its president and managing editor. There he remained for nearly 10 years, until 1945, when Monahan Sheen persuaded him to return to his original Catholic faith.

Since then he has been teaching economics at two Catholic universities, Notre Dame and Fordham, and also has been a member in the trial of the 12 leaders of the Communist Party.

Budenz also has published numerous magazine articles and a book which have been extremely helpful in letting the outside world know the inner workings and machinations of the Communist Party. A new book, 'Men Without Faces,' to be published by Harpers in May, already is in galley proofs.

Today, Budenz is testifying that Frederick Field, a millionaire communist, and Earl Browder, former head of the Communist Party, told him about Lattimore and referred to him in such a way as to indicate he was being used by the Communist Party or was even a member.

However, it is significant that in all his previous writings, Budenz never mentioned Lattimore's name. In the original manuscript of the forthcoming book for Harpers, Budenz tells about the Institute of Pacific Relations, of which Lattimore was a member, and names Philip Jessup, now of the State Department, as a member of the institute. He also names a great many others, but not Lattimore.

However, a few days ago and after the book was in galley-proof form, Budenz suddenly inserted Lattimore's name. The reasons for Budenz's afterthought and what pressures, if any, influenced him, may be something the Senate committee will want to inquire about.

Furthermore, in all his magazine writings and in the large volume of original information he gave the FBI, Budenz also failed to mention Lattimore's name. Budenz spent days on end with the FBI earlier, telling them every detail about the operation of the Communist Party, but up until last week after he was appealed to by Senator McCarthy, he had not told the FBI anything about Lattimore.

Plot Against Trotsky Budenz is extremely frank, and in one Collier's article he states: 'It was then that I was assigned to work with a Russian police agent

So they say

Until war is eliminated from international relations, unpreparedness for it is well high as criminal as war itself.

—Gen. Dwight Eisenhower.

We in Germany feel that we are facing a critical point in history, and I think no person sensitive to the forces which play over Europe today can feel differently.

—U. S. High Commissioner in Germany John J. McCloy.

To deter, to defend, to defeat—these in brief are the objective aims we Atlantic Pact nations seek to promote.

—Secretary of Defense Louis Johnson.

Multiple sclerosis is a disease of the nervous system. A few years ago it was considered rare in this country, it seemed somewhat more common on the European continent and in Britain. Today while still an unusual condition, there are many reasons for believing that it is increasing. Even if it had remained extremely rare, however, it would have been important to those who had it and methods of preventing and treating it still would be needed urgently.

It may attack one or several parts of the nervous system and it is for this reason that the term "multiple" is attached to the name. The symptoms depend, therefore, on what part of the nervous system is involved.

Since the location varies there are no completely typical symptoms, though seeing double, a trembling or tremor when trying to pick up some object and a gait which looks somewhat like that of a drunken person are probably the most common. One or all of these may be absent and consequently the diagnosis may be difficult to make or long delayed.

The cause of this disease is not understood. Many theories have been suggested and studied but so far there is no one cause which has been accepted by all authorities.

A great many kinds of treatment have been tried. These have included fever treatment, the use of drugs to delay blood coagulation, attempts to desensitize to allergies, vaccines and several different drugs. Unfortunately none of these have proved really successful.

A good long rest is the best form of treatment during the acute stage of multiple sclerosis. The patient usually goes through periods of great improvement. If these good periods can be lengthened and the bad ones shortened, it is a good sign. A warm climate and freedom from colds and other infections of the nose and throat may help to prevent the downswings of the disease.

Agency Investigates We need to know more about multiple sclerosis. Of this there is no doubt and therefore a group of citizens and physicians has been

ARKANSAS MAN HEADS AMERICAN BAPTISTS LAKELAND, FLA.—(P)—Dr. L. D. Porman, president of the Missionary Baptist Seminary at Little Rock, Ark., was elected president of the American Baptist Association here Wednesday. He succeeds Dr. Gerald Walker, president of Jacksonville, Texas, Baptist College.

more communist than Harry Truman. However, a speech on the Senate floor—and they may be reunited. Therefore it should be remembered that, despite the McCarthy witch hunt, to have been friendly to Russia from 1941-46 does not necessarily mean one was a Communist.

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service

You can tell how good a bridge player is by what he does about finesses. If he loves to finesse, he's an expert. What's more, he'll probably lose just about as many finesses as he wins.

The expert hates to finesse. He'll put off a finesse like a trip to the dentist. But he'll win twice as many finesses as he loses.

This is not just luck. The expert waits until all the evidence is in. By that time he's not just guessing; he knows something.

West opened the nine of clubs, dummy finessed the ten and East won with the queen. He returned

the jack of diamonds, and South's queen lost to West's ace. West led his remaining club, and dummy won with the ace.

Declarer drew two rounds of trumps, cashed the king of diamonds, and ruffed a diamond in dummy. He then ruffed a low club, hoping vainly that the king would drop.

When this plan failed, it was clear that the contract would depend on the correct heart finesse. However, South saw no reason to guess until he had to. He therefore proceeded to gather information about the cards he could not see.

For this purpose South led a low trump, discarding a club from dummy. East won and led his last club, forcing South to use up his last trump.

At this point South had three hearts in his own hand and also in the dummy. West had discarded two hearts and a diamond, but surely had three hearts left.

It was clear that East still had the ten of diamonds, since he had led the jack of that suit at the second trick. The jack is led from a suit headed by jack-ten, but not from jack and two small cards.) Hence East could hold only two hearts.

South counted back and reasoned that West had originally held five hearts to East's two hearts. The odds were therefore 5 to 2 that West held the queen of hearts.

On the basis of this information South quite properly finessed through. West held the queen of hearts. When the finesse succeeded, South made his contract.

THE DOCTOR SAYS

'Multiple' Attack on Nerves Should Be Followed By Rest

By EDWIN P. JORDAN, M. D. Written for NEA Service

Multiple sclerosis is a disease of the nervous system. A few years ago it was considered rare in this country, it seemed somewhat more common on the European continent and in Britain. Today while still an unusual condition, there are many reasons for believing that it is increasing. Even if it had remained extremely rare, however, it would have been important to those who had it and methods of preventing and treating it still would be needed urgently.

It may attack one or several parts of the nervous system and it is for this reason that the term "multiple" is attached to the name. The symptoms depend, therefore, on what part of the nervous system is involved.

Since the location varies there are no completely typical symptoms, though seeing double, a trembling or tremor when trying to pick up some object and a gait which looks somewhat like that of a drunken person are probably the most common. WASHINGTON COLUMN

Truman Push May Lead States To Extend Jobless Benefits

By PETER EDSON NEA Washington Correspondent

WASHINGTON—There is plenty of trouble ahead for the legislatures of the 48 states, Alaska and Hawaii if President Truman's unemployment insurance reforms should be adopted. Every one of them would have to change its laws to meet the new standards outlined in the President's recent special message to Congress.

President Truman first asked for extended unemployment insurance coverage in his 1946 state of the union message. He's been asking for it ever since, without getting any results.

This time, however, the Administration has drafted a bill to carry out the President's reforms. Rep. John McCormack of Massachusetts has introduced it in the House. Few people believe this bill stands any chance of passage this year. But if the House Ways and Means Committee can be persuaded to hold hearings on the McCormack bill, these hearings might have some influence on the states.

Almost all the state legislatures meet next year. Without waiting for Congress, the states can raise their unemployment insurance standards. In a way, therefore, the President's message is an indirect appeal to the states, over the heads of Congress.

Differing Legislation The various state unemployment insurance systems now vary so much in detail it takes an expert to understand them. For instance, the present federal law exempts all employers with fewer than eight employees in any 20-week period of the year. Nineteen states have similar provisions. The McCormack bill, however, would provide unemployment insurance for an employer of one employee.

This would take into the system an additional 3,000,000 employees of small establishments not now covered. Alaska, Arkansas, California, Delaware, District of Columbia, Hawaii, Maryland, Montana, Pennsylvania and Washington already have the one-employee provision. All the other states would have to comply.

On the matter of how much an employer must earn to be eligible for unemployment insurance, the states vary even more widely. The low rate in Rhode Island, the high \$600 in Washington. In between are many varying formulas.

The new McCormack bill would reduce them all to three optional minimums. A worker would be eligible for unemployment insurance (1) if he earned 30 times as much as his weekly insurance benefit, (2) if he earned one-and-one-half times his highest wage in any one quarter-year, or (3) if he was employed 20 weeks. Washington is probably the only state that would have to change its law to meet this.

On computation of weekly benefit, the McCormack bill would set the minimum insurance payable at one-half the weekly wage up to the maximum insurance of \$30 a week for anyone making \$60 a week or more. Almost two-thirds of the states now authorize unemployment insurance payments of from 30 to 75 per cent of the weekly wage. The other third would have to change their laws to meet McCormack bill standards.

McCormack Minimum Actually, no state has paid in maximum of as much as 80 per cent of wages. Massachusetts and Louisiana in December paid 47 per cent of the wage. Utah 46 per cent, Rhode Island 45, Arkansas 44 and 10 other states paid more than 40 per cent. No state is paying a week's maximum of wages. Massachusetts average last December was \$23.65. The low states were West Virginia, Illinois and Florida, which paid 30 per cent of the weekly wage. The payment in Florida averaged

out returning her greeting. "I come out of the desert like some damned tormenting spite," she said. "I always know, hours before it comes."

"I can't say I enjoyed it, but it seemed to me to come up very abruptly," she told him. "I—" She broke off, deciding not to say that she had been in Biskra yesterday.

"Can I look at the kid?" he asked. "I won't disturb her." She hesitated, but he had already gone through to the night nursery.

HE had opened the door noiselessly and left it wide; from where she stood she saw him go across to the cot and stand looking down at the sleeping child. He remained there for perhaps a full minute, then he turned and tipped back, closing the communicating door as quietly as he had opened it.

"She looks flushed. Not going to be ill, is she?" he asked. "No, no! She's just a little out of sorts," said Clemency quickly. "Oh, well—look after her!" He thrust his hands into his jacket pockets, but not before she saw how they were trembling. "I'm going away," he continued in the same rather strained manner, which she had noticed since his entrance. "Maybe for a day or two—maybe longer. I don't know. Tell Baba I'll be back, and—to be a good girl. And—my love and a kiss." He walked to the door through which he had just entered and paused looking back at her; there was a strange, angry unhappiness in his eyes. "She's the only thing in the world I care a damn about, and I'm not even any good to her," he said. "Look after her."

"I think you can trust me to do that," said Clemency gently. "He stared at her. "I believe so. About the only person I've met that I can trust. Goodbye." She stood looking after him.

The man who had just gone out seemed to have left a very dark shadow behind him—that same vague sinister thing she had sensed on her first night in the house. (To Be Continued)

\$13.88 a week, in Georgia and Mississippi it was \$14.37, in Tennessee \$15.34.

Only Alaska and 10 states—Arizona, Colorado, Connecticut, Maryland, Massachusetts, Michigan, Nevada, North Dakota, Ohio and Wyoming—now authorize additional insurance paid to the unemployed with dependents. The McCormack bill would set standards of 60 per cent of the wage up to a payment of \$36 a week for unemployed with one dependent, 65 per cent up to \$39 for two dependents, 70 per cent up to \$42 a week for three or more dependents.

On length of time which the unemployed could draw benefits, the McCormack bill would set a standard of 26 weeks. New York now is the only state that pays unemployment insurance for so long a time. All the other states would have to amend their laws to meet such a requirement.

Biggest change which the McCormack bill would require would be a revision of state tax laws. This would come through the provision that unemployment insurance taxes be collected on each workman's annual wages up to \$4,800. The present limit is \$3,000.

Questions and Answers

Q—What were the first steam locomotives to run in this country? A—The first steam engine to run on rails in America was built by John Stevens in 1825 and was operated on a circular experimental track on his estate at Hoboken, N. J. Stevens' engine was never put to practical use. The first American-built locomotive actually to be operated on a common carrier railroad in the United States was the "Tom Thumb," built in 1829.

Q—Must the president of the United States take the oath of office in Washington, D. C.? A—It is the custom for the president to take the oath of office in Washington, but there is no provision of law to that effect.

Q—What is the largest single United States import in dollar value? A—In 1949, coffee ranked first; the second largest import item was paper and paper materials.

Q—Which instrument of an orchestra is lowest in pitch? A—The tuba, a musical wind instrument of the saxhorn family, has the lowest pitch in the orchestra.

Q—How long have men cultivated wheat? A—Prehistoric races, such as the Swiss lake dwellers, are known to have cultivated it, while the Chinese claim the use of it as food 2700 years before the Christian era.

SHERIFF DEPUTY HURT SWEETWATER —(P)—Nolan County Sheriff Paul Montgomery and Deputy Sheriff Ted Lambert were injured seriously Wednesday when their automobile overturned 12 miles south of Roscoe. They were answering a call to the Maryline Community.

Distant Star BY HERMINA BLACK

There is never likely to be anyone else in his life. The memory of Sylvia's words floated back to her. "I think he despises women—"

ALTHOUGH by the morning the storm had died down outside, when Clemency got up she found a fine powdered sand and every where, and the aftermath of the sirocco seemed to be a tail of frayed tempers and general irritation.

Baba slept late and thoroughly objected to being taken out of bed. While she dressed, Clemency heard the patient Loullie coaxing a very cross small girl in the night nursery.

It was easy that day, for the storm had really upset Baba. She was heavy-eyed, and complained of her head aching, and for once went for her afternoon nap without any shadow of argument. Having tucked her safely up, Clemency went back to the day nursery and sat down to do some knitting.

She started and turned as the door opened and Jon Amberley came in. He looked ill and drawn, and though she had felt the disgust which an exhibition such as she had witnessed last night naturally roused in her, she could not help feeling sorry for him, even while she liked him less than she had ever done before.

Intuition so often took the place of experience with Clemency, and she realized suddenly that what she had glimpsed last night had a different significance from the one she had attached to it. There was something ravaged and defeated about the man before her, mingled with a kind of challenging defiance as he met her eyes.

She schooled her face and her voice carefully as she smiled at him. "Good afternoon, Mr. Amberley. I'm afraid Baba's asleep. I think the storm has upset her, poor mite."

You didn't suddenly discover that you loved a man who was far away from you as the stars in the heavens. Who had "finished with that kind of thing years ago."

"Piers is a one-woman man."

### Grounded Beef

This five-day-old bull calf, very wobbly on his pins, got taken for a ride by George Feldman of Everett, Mass., after he tumbled off a truck. For hauling it home in his baby carriage, Feldman was allowed to keep the calf when police failed to locate the owner.

### Further Rise Of Waters Predicted In North Dakota

BISMARCK, N. D.—P—Already battling the worst deluge in 53 years, Red River Valley residents girded Thursday against a further rise of the flood waters, predicted for this weekend.

A. P. Hulteng, Grand Forks city engineer, said the river, forming part of the North Dakota-Minnesota boundary, would hit a 44.5-foot crest Saturday or Sunday. It stood at 42.22 Wednesday night, 14.2 feet above flood stage there still was rising early Thursday. The mark is the highest since the stream hit a 60.2 crest in 1897.

The Red Cross, caring for more than 3,000 homeless in the state, moved in more emergency housing equipment and bedding as the refugee toll grew.

The rising waters were within 100 feet of the East Grand Forks, Minn., business district. Volunteer crews stacked thousands of sand bags and pumps were installed in basements.

**UNA ROBERTS DIES IN OKLAHOMA CITY**—P—Una Lee Roberts, 75, prominent in Oklahoma politics for 40 years died in a hospital here Wednesday.

Miss Roberts was assistant secretary of state from 1923 through 1933, serving under Col. R. A. Sneed and Col. Graves Leeper.

The mineral cobalt has been found essential in building the newly discovered vitamin B12.

### Attorneys Describe Dean As Sheik In Professor's Clothing

ATHENS, GA.—P—Defense attorneys Thursday pictured University Dean John E. Drewry as a sheik in professor's clothing who wooed two women at the same time.

This dual love life, they said, drove Drewry's divorced wife to shoot him and the sweetheart he later married, Miss Miriam Thurmond.

Mrs. Kathleen Merry Drewry is charged with assault with intent to murder the dean and Miss Thurmond in a pre-Christmas shooting spree.

Mrs. Drewry's counsel already has indicated one defense will be "delusional insanity" or temporary insanity, induced by the sedate-appearing dean's alleged romantic nature.

The dean is 47, short, stout and sharp-tongued. His former wife is 45, short plump and brunette. His new bride is 26, tall, attractive and brunette.

One of the first defense witnesses, Mrs. C. Wilmer Heery, an education graduate with a major in psychology and a childhood friend of the defendant, said Mrs. Drewry was "out of her mind" when the shooting occurred December 23.

The dean, head of the School of Journalism at the University of Georgia and noted for his precise choice of words, described the shooting in Miss Thurmond's home as "nightmarish." He said he was surprised to find his former wife "standing very close with a gun pointed in my direction."

"Rather Petrified"

"Possibly I should have done something by way of removing the gun, but I was rather petrified by the suddenness of it all," he testified Friday.

He added that his former wife burst into the room and began talking loudly.

"I don't remember her words but I don't think I was complimented in the preliminary statement," said Drewry.

He related Mrs. Drewry suddenly fired twice at him, then twice at Miss Thurmond, seated on an ottoman in front of him. The dean testified he rose from his easy chair, and added:

"I felt reasonably certain I had been shot. I walked across the room. Kathleen spoke again in not too complimentary a way. She fired again and hit me in the side."

All five shots took effect. After the dean and Miss Thurmond recovered, they were married and took a wedding trip to New York City.

### Operation Fails

(NEA Telephone) Charles Hinkley, 26, an habitual criminal who risked his life six months ago in a delicate brain operation to end his tendency to steal, is back in jail at Greenfield, Mass. Hinkley fled from a Topeka, Kan., hospital three weeks ago and left a trail of bad checks from Kansas to Massachusetts. He was held on a fugitive warrant from New York, where he is wanted on a check forgery charge.

### Jones Suggests RFC Should Be Abolished

WASHINGTON—P—Senators looking into the lending operations of the Reconstruction Finance Corporation got this advice from former RFC Chairman Jesse Jones. Abolish it.

Jones said the agency is being misused and prostituted in making loans. "I think it should be given decent burial, lock, stock and barrel," he said.

The Houston publisher took his stand in a letter to Senator Fulbright (D-Ark.), chairman of a Senate banking subcommittee which is now inquiring into RFC lending practices.

RFC Chairman Harley Hise declined comment on Jones' letter. Fulbright, who released the letter, took a similar position.

Jones, who headed the huge federal lending agency for 13 years, advanced these reasons why it should be closed out.

First, because none of the conditions which prompted the creation of the RFC and the various amendments to its powers exist today; second, government lending in competition with private business is not a proper function under our free enterprise system; third, because it is being prostituted when making such loans as the Kaiser-Fraser, the Lustron, the Texmass and the Waltham Watch Company; fourth, because there is ample credit for all legitimate and justifiable loans.

### 39 Hawaiians Face Contempt Citations

HONOLULU, P.—Thirty-nine persons Thursday faced contempt citations for refusing to talk in the House Un-American Activities Committee's probe of communism in Hawaii. The inquiry ended Wednesday night.

Rep. Walter (D-Pa.), acting chairman, said contempt of the House action will be taken against the 39 "just as quickly as it can be scheduled." The protesters return to the mainland by air Thursday night.

Eighteen avowed former Communists testified the 39 were Communists or had attended party meetings.

Over half of the 39 were past or present officials of Harry Bridges' CIO International Longshoremen's and Warehousemen's Union. They included Hawaiian Regional Director Jack W. Hall.

### Move To Aid Small Business Gets Boost

WASHINGTON—P—The movement to spur the flow of capital to small business has received a boost from the Commerce Department's Small Business Advisory Committee.

The 21-man committee recommended to Secretary of Commerce Sawyer Wednesday two plans by which it said credit needs of small business could be met "without government subsidy or without cost to the government."

One would provide for a government managed fund for insuring loans up to \$25,000, much as the Federal Housing Administration insures home mortgages.

The other plan, not worked out in detail, envisaged specially chartered, privately owned and managed corporations to provide equity capital or loans in excess of the \$25,000 insurance limit.

### Kermit Man Heads Officers' Group

ODESSA—P—Sheriff Bill Eddins of Kermit Wednesday was being greeted as president of the South Plains Peace Officers' Association, which closed its convention Tuesday in Odessa. Plainview was selected for the meeting in October.

Other officers elected were: Sheriff Earnest Bronington of Odessa, first vice president; Sheriff Floyd Peacock, Andrews, second vice president; Chief of Police Hoyt Curry of Plainview was reelected secretary-treasurer.

### Senate Wastes No Time On 200 Bills

WASHINGTON—P—In about 300 minutes Wednesday the Senate passed more than 200 bills.

The measures, most of them of minor importance, were approved under a procedure known as a "calendar call." The bills must have committee approval to be considered, and the objection of one senator can block passage.

Most of the bills went through with the clerk merely mumbering the number and title and the presiding officer cutting him off with "the bill is passed without objection."

John Walker, an English apothecary, invented matches.

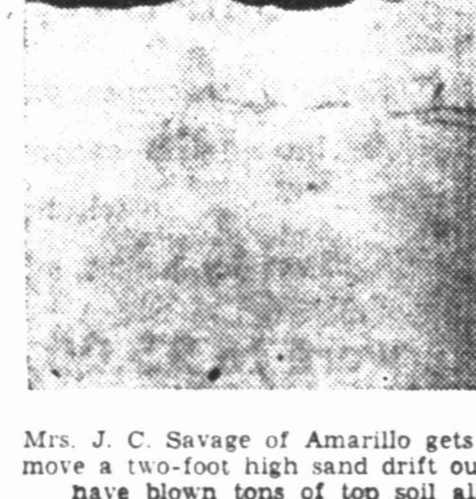

### General Devereux To Enter Politics

BALTIMORE—P—Brig. Gen. James P. S. Devereux, who commanded the Marines on Wake Island early in World War II, announced Thursday he will enter politics.

He will seek the Republican nomination to Congress from Maryland's Second District.

Devereux, who retired from the Marine Corps in 1948 after 25 years service, is likely to face either Rep. William P. Bolton or State Delegate A. Gordon Boone, Democrats, in the November general election.

### Sand Moves Into Amarillo

(NEA Telephone) Mrs. J. C. Savage of Amarillo gets out the old shovel and tries to move a two-foot high sand drift off of her back yard. High winds have blown tons of top soil all over the Texas Panhandle.

### Scurry Oil Fields Are Classed With Top Discoveries

WASHINGTON—P—The big Scurry County Canyon reef oil fields in Texas were described as "one of the biggest discoveries in the United States in years" before the Power Commission Wednesday.

El Paso Natural Gas Company, whose pipe line case the commission is hearing, plans to draw new supplies of gas there. They would supplement those obtained in the San Juan Basin of New Mexico, and would be sold in California and Arizona.

Description of the Scurry County fields came from A. Faison Dixon, consulting geologist. He also estimated the total gas reserves in the field at 2,935,000,000 cubic feet.

Contracts with Standard Oil Company of Texas and the Fullerton Oil Company made by El Paso call for it to buy a total of 296,000,000 cubic feet over a 15-year period, Dixon said.

The two companies have contracted for gas reserves estimated at more than 1,175,000,000 cubic feet to meet these demands, he said.

### Canadian Project's Outlook Is Brighter

WASHINGTON—P—The Canadian River project to supply a dozen or more West Texas cities and towns with water has brighter prospects Thursday.

Most members of a Senate interior subcommittee which conducted a two-day hearing on the \$85,000,000 program appeared to favor the proposed bill.

And late Wednesday, the Senate passed a bill authorizing the states of Texas, New Mexico and Oklahoma to enter into a compact for an equitable division of the Canadian waters.

Senator Lyndon B. Johnson of Texas said that bill, already passed by the House, "will speed up our work in getting the Canadian River project under way."

### Warwick Deeping, Author, Is Dead

WEYBRIDGE, ENG.—P—Author Warwick Deeping died Thursday at his home here. He was 73.

The English-born author wrote many novels, among which the best known are "Sorrrell and Son," "Roper's Row" and "Old Wine and New."

### Fire And Explosion Damage Refinery Unit

DUMAS, TEXAS—P—A flash fire and explosion Wednesday caused between \$50,000 and \$100,000 damage to a gasoline treater unit of the Shamrock Oil and Gas Corporation's refinery, 11 miles northeast of here.

No one was injured.

The fire will not interfere with delivery of natural gas.

### Police Probe Knife Deaths Of Man, Wife

HOUSTON—P—Police are investigating the stabbing deaths of Bennie Pruitt, 23, and his wife, Olet Pruitt, 33.

Pruitt's body was found Wednesday night in an automobile. His wife was found about 200 feet from the car. She died 15 minutes after being taken to a hospital.

### Truman, Johnson To Talk At Banquet

WASHINGTON—P—President Truman and Secretary of Defense Johnson will address a "unification banquet" celebrating the first annual Armed Forces Day, May 20.

The affair is being sponsored by the Navy League of the United States, the Military Order of the World Wars and the Air Force Association.

### Congratulations To:

Mr. and Mrs. Jim Langdon on the birth Wednesday of a son, John Oates, weighing eight pounds, three ounces.

UNDERGOES SURGERY

Mrs. T. D. Latham underwent surgery Wednesday in the Women's Hospital.

### Woman Attorney's Body Found In Well; Clues Are Scarce

NASSAU, BAHAMAS—P—The body of Betty Renner, 38-year-old Washington, D. C., attorney, was found in an open well in a quarry Wednesday and police believe she was murdered.

The body, clad only in a brassiere, was found in a well off Gladstone Road in a lonely pine forest about six miles from this resort city.

Her slacks had been stripped off and were found in the well beside the body. The well was pumped out to recover the body.

Major G. H. Ranoe, police chief in this resort colony, said "It looks like murder."

He said there were "very few" clues.

"Suicide seems out of the question," Ranoe said, but did not elaborate on that angle. He said there was "no positive proof" that she had been raped.

Police began a search for Miss Renner after her bicycle was found in the forest. She was last seen cycling in Nassau Tuesday morning.

Miss Renner arrived here April 8 with a friend, Alice MacDonald of New York City. Miss MacDonald left for the United States Saturday.

### Abundant Living

By E. STANLEY JONES

I Cor 8:1; Rom. 11:33; John 1:17; 8:32.

PAGAN PSYCHIATRY OFTEN DISRUPTIVE

We saw yesterday that many false gulls had to be discarded. The conscience can be taught to approve diametrically opposite things. I said to a Hindu one day, "Suppose you broke caste, and no one would know it?" "But I would know it, for my conscience would trouble me if I broke caste," he replied. His conscience would trouble him if he broke caste, and mine would trouble me if I kept caste. Conscience will stand guard over the values you put into your moral nature. It is important what value you put there. The conscience should be trained at the feet of Christ; only then is it a safe guide.

A word of warning must be uttered against pagan psychiatrists, who, finding persons at conflict with themselves, suffering from split personality—with ideals high and conduct low—try to unify the persons on the level of conduct, dismissing the whole world of moral ideals. This usually results in greater disruption—disunity—for a new conflict is introduced at the level of conduct. The moral world cannot be dismissed by a wave of the hand or by a sick phrase of a pagan psychiatrist. Put out at the door. It will come back at the window. One such psychiatrist, a very outstanding man, urges women who are nervous and upset to find a boy friend. Some of these women who had been given advice by this psychiatrist to practice adultery came in great distress to a ministerial friend of mine. Through him they found God, and are released and happy. The wife of this psychiatrist divorced from him, because he naturally had acted on the advice he gave to others, came to this same friend, and she too found God and is radiant. The false advice given by this psychiatrist produced disunity in the personality, and broke up homes—his own included. The only possible level on which to be unified permanently is the level of your ideals. Everything else will let you down.

If you go to a psychiatrist go to one who has a Christian background and outlook. Such psychiatrists are the salt of the earth and help many to release.

O God, my father, I see that amid all the ways of men Thou hast a way—the way that is written into the nature of reality. Help me to find that way that I may live, for I cannot fumble this.

### ACTIVE ACE

Capt. Rene-Paul Fonck, of the French Army, brought down the greatest number of planes during World War I. He was credited with 27 enemy aircraft.

### FOR ATHLETES FOOT USE T-4-L BECAUSE— IN ONE HOUR,

**'Tell Yuh What I'm Gonna Do'**

Dressed in top hat and apron, a Berlin street peddler makes his pitch from the back of a small truck at the British-Russian sector border. Most of his customers are Eastern Germans, who find it hard to buy his luxuries, like canned food, in the Communist-dominated zone.

**Historian Defends Franklin Against Modern Scoffers**

PHILADELPHIA—P—A Harvard historian Thursday defended Benjamin Franklin against the contention of some modern critics that the great patriot's work in science was "trivial."

These critics erroneously maintain, said Dr. I. Bernard Cohen, that Franklin's scientific attainments would not be remembered at all today if he had not been a political big shot.

The real facts are, said Cohen, that Franklin made major contributions to the understanding of electricity, heat transfer and chemical action.

Even in these days of scientific sophistication, declared the Harvard professor, were still using electrical terms Franklin coined—such as the word "battery," and the labels "positive" and "negative" for electrical charges.

Founded by Franklin

Cohen addressed the annual meeting of the American Philosophical Society, an organization founded by Benjamin Franklin in 1743 and known as "The First Learned Society of the British Plantations in America." He spoke in the society's headquarters, just around the corner from Independence Hall.

Cohen said some critics of Franklin contend the No. 1 Philadelphian's contribution to science was "primarily of practical rather than theoretical value"—that is, that Franklin was an inventive gadgeteer who didn't add much to the basic concepts of science.

**Warden Rounds Up The Wrong Pooches**

NEW BRUNSWICK, N. J.—P—The dog warden of Franklin Township got a special pass into Camp Kilmer Wednesday to round up some wild dogs that have been attacking deer at Johnson Park.

Mrs. Theresa Daddio, the warden, had snared seven pooches, piled them into her official truck and started for her dog pound.

But she was stopped at the Kilmer gates and ordered to relinquish the cargo.

Officers explained she had rounded up her pet dogs—incl. a boxer owned by the commanding officer of the camp.

**Teacher Chases Down Hit-And-Run Motorist**

PASADENA, CALIF.—P—Mrs. J. D. Elliott, an elementary school teacher, saw a motorist hit a child in a crosswalk Wednesday and drive on without stopping.

She jumped in her car, raced after him and crashed the man's auto into the curb a block away. The driver was booked on suspicion of hit and run felony and drunk driving felony.

The child, Barbara Still, 12, was treated for slight injuries. So was the driver, after a fall to the floor during booking at the police station.

**Census Half Finished In Midland County**

Census enumerators in Midland County have completed about 50 per cent of their work, Richard M. (Shorty) Parker, county director, announced Thursday.

Parker said the census inside Midland's city limits should be completed by May 1, while the rural census will require more time. An agricultural form, to be filled out by persons in rural areas, will slow the pace of the enumeration in Midland County's slightly ahead of other area counties, Parker said.

**HOUSTON MAN KILLED IN STREET SHOOTING**

HOUSTON—P—Henry J. Willingham, 36, was wounded fatally Wednesday in a street shooting in suburban Houston.

Police were investigating a report that three men were involved in the shooting.

**Electrician, Wife Are Shot To Death**

WILBER, NEB.—P—A Wilber electrician and his wife were shot to death in a Main Street beer tavern here late Wednesday night, Saline County Sheriff John Tesar said.

The dead are Ivan McElroy and his wife Helen.

The sheriff said he arrested Clarence Trz, an employee of the electrician, early Thursday in connection with the slayings. Trz denied any knowledge of the shootings, the sheriff said.

No charge had been lodged against Trz.

Tesar left for Lincoln, Neb., to take Trz to the State Penitentiary. The sheriff's wife said the man was being taken there for safe keeping because many persons in town apparently were aroused over the shooting.

Details of the shootings were lacking, but the sheriff said he had "five or six" witnesses who had seen the shootings.

The McElroys and Trz all were in their forties. Trz, a bachelor, had worked for McElroy for several years.

Wilber is a town of about 1,400 persons in Southeastern Nebraska.

**Attempted Suicide By Negro Thwarted**

MEMPHIS, TENN.—P—A negro charged with murder was seized by police Wednesday night as he attempted to leap from a bridge into the Mississippi River.

The negro, 28-year-old John Tunstall, had called the Memphis Commercial Appeal and said he was going to jump from the bridge. He asked the newspaper to send a priest and a reporter to the scene.

The paper notified police, who grabbed Tunstall as he mounted a guard rail. Inspector Pete Wiebenga said Tunstall was wanted in Detroit for slaying his common law wife.

"Life's too complicated," Tunstall said at city jail.

**CONFESED NEGRO RAPIST ASSESSED LIFE TERM**

FORT WORTH, P—A criminal district court jury Wednesday assessed a sentence of life imprisonment on Arthur Lee Sherrod, 20-year-old negro charged with raping a 71-year-old woman.

Sherrod had pleaded guilty. The state has asked the death penalty.

Most weasels have scent glands, but the skunk has carried their use to the extreme.

**All-Negro Municipal Court Due To Open**

MIAMI, FLA.—P—This city's all-negro Municipal Court—believed to be the first set up along purely racial lines in the south—will open about May 1.

The city commission Wednesday unanimously chose Lawson E. Thomas, 52-year-old negro attorney, as judge of the new court.

"The court will be an interesting experiment in self-government by negroes," said Thomas. "It will give the negro a chance to show his ability to participate in government."

The court may produce stiffer sentences for negroes. Several negro leaders long have urged the appointment of a negro judge in the belief he would be more capable of judging a negro lawbreaker.

About 50,000 negroes live in the greater Miami area.

**High Criminal Court Refuses To Order Desperado's Release**

AUSTIN—P—Pete Baird, a desperado who roamed from Texas to Minnesota in the early 1940's, still was in prison Thursday following refusal of the state's highest criminal court to order his release.

He is scheduled to remain behind bars at the State Penitentiary in Huntsville until Nov. 23, 1951, at the earliest, according to the state's attorney—if he stays on good behavior. Otherwise, he might not get out until June 4, 1953.

The Court of Criminal Appeals overruled his motion Wednesday for rehearing of a habeas corpus proceeding.

Baird halted originally from Julliff, Port Bend County, down near Houston, and he had a reputation as a good cowpoke. Starting with a two-year suspended sentence at Bay City for cow theft,

he gradually acquired a reputation with peace officers as a rustler, an "expert" car thief, gunman, confidence man, and escape artist.

**Sent To Leavenworth**  
But he finally wound up in federal prison at Leavenworth, Kan., where he served time from Aug. 7, 1943, until his transfer to the Texas penitentiary Sept. 20, 1949.

Credited with six years, three months and 16 days for good behavior in the federal prison and his few weeks in Texas jails, he began serving out the remainder of a 10-year state term. Then he asked credit for commutation time granted by the federal prison, saying this would make him eligible for immediate release.

Judge Davidson held that commutation time can be granted only to prisoners actually confined in

the Texas penitentiary during the time for which they seek credit. Therefore, the court turned down Baird's request. It reaffirmed that action in rejecting Baird's new plea.

Before his capture by FBI men at Uvalde in July, 1943, Baird had escaped jail or custody of officers three times.

**TEXACO WORKERS END WYOMING PLANT STRIKE**  
CASPER, WYO.—P—Workers at The Texas Company Refinery here agreed to return Thursday pending negotiations in a contract which caused a strike two weeks ago.

Texas workers at Port Arthur and Port Neches, Texas, walked off their jobs at the same time. No back-to-work agreements have been indicated at those two points.

**Pre-Easter Joke Payoff Is Colorful**

WASHINGTON—(P)—Like Spring, the House Expenditures Committee is busting out all over in color.

It's the payoff of a pre-Easter joke.

Just before the Easter recess, committee members asked Rep. Rich (R-Pa.) some wistful questions about the fancy shirts he makes in his Woolrich, Pa., woolen mills.

Rich replied he would present the members with samples if they would all agree to wear them for a photograph.

The shirts are here—blues, greens, reds, yellows, plaids, checks, and solid colors. Twenty-five of them.

Thursday afternoon the committee met to carry out its end of the bargain.

**Now She Shops "Cash and Carry"**

Without Painful Backache  
As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headache and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

# Braves Make Leo Sick Of Trading; Yanks, Sox Split

By JACK HAND  
Associated Press Sports Writer

Sid Gordon and his former Giant buddies are making life tough for their old boss, Leo Durocher. So far, the New York Giants manager looks like a bum David Harum.

Leo traded Gordon, Willard Marshall, Buddy Kerr and Sam Webb to Boston last December for Al Dark and Eddie Stanky. Durocher said he was building "my kind of a ball club." He was willing to sacrifice home run power for a double play combination.

On the evidence at hand, it looks as if a good offense still is the best defense. With Gordon, Marshall and Kerr rousing the Giant pitchers, Boston has swept to a pair of double figure victories.

Gordon's Polo Grounds hero for years, proved especially embarrassing Saturday when he made Leo's face red Wednesday with a pair of homers, one with the bases loaded. All told, the Gordon-Marshall-Kerr trio blasted home eight runs in the Braves' 10-6 romp.

To make matters worse, the Giants defense was conspicuous by its absence. Stanky was the middle man on an attempted double play that got nobody out. It was critical, too. If they had made the double, Boston would have been tied 2-2 in the sixth inning. Instead they posted nine big runs.

**Yanks Bounce Back**  
Billy Southworth, Boston manager, must have been cheered by the four-run job of Johnny Sain, a major disappointment of 1949. Sain's sweeping curve was breaking neatly through the early innings. Although nipped for 12 hits, he never was in real danger.

While the Braves were polishing off their New York rivals for the second straight, the Red Sox were having more trouble with the New York Yankees at Boston.

Joe Dobson pitched Boston's Sox to a 6-4 morning victory in the Patriot's Day doubleheader as Ted Williams hit his first homer of the year. But the Yanks unloaded another big inning—seven runs in the eighth—to cap the afternoon tilt, 16-7, called after the eighth because of darkness.

Tommy Henrich, the Yanks' old reliable, had himself a time in the second game, driving in six runs with a three-run homer, two singles and a pair of walks. Joe DiMaggio knocked home three with three hits in five trips as Ellis Kinder, winner of 23 games for the Sox last season, was knocked out in the sixth inning.

**Dodgers Win One**  
Gil Hodges boosted Brooklyn into the win column with a homer, two doubles and a single in a 7-5 decision over the Phillies. Carl Furillo's two-run homer and Rookie Bobby Moran's three singles were

Wes Echols took a right to the mouth that made his hair stand on end, but the Atwater, Calif., middleweight knocked out Wilson Perry of Marston Mills, Mass., in the third round of their bout in the National AAU Tournament at the Boston Garden.

# Regional Thinlies Get Set

Coch Tugboat Jones Thursday put his regional track and field candidates through their final hard workout in preparation for the Regional Interscholastic League Meet Saturday in Lubbock.

The quartet of Bulldog appeared to be ready to equal or better their marks in the district meet.

Harrie Smith, who set a new high hurdles district record, is the big threat. He is knocking at 15 seconds flat in the event.

John Klingler, crack miler, has trained hard since the district clash and may be able to trim 10 to 15 seconds off his five-minute mile.

W. H. Black will enter the pole vault and Ralph Brooks will represent Midland in the high jump. Both are improved.

This year's track team won more regional berths than any in several years for Midland.

**WT-NM League—Lubbock, Amarillo Lamesa, Clovis Win Opening Night Tilts**

By The Associated Press  
One fancy pitching performance and a fancy hitting show spotlighted the West Texas-New Mexico League's opening Wednesday night.

Bob Ciofelter turned in the neat four-hit pitching chore, holding Pampa to four hits while his Lubbock mates pounded out a 10-1 victory. He gave up a hit in the first frame, set the next 20 batters down in order, then was touched for three hits that produced Pampa's only run in the seventh.

Clovis and Albuquerque tangled in a wild, three-hour game with Clovis ending on top 15-9. The victors got 15 hits and Albuquerque thirteen.

In other games, Amarillo nudged Borger 4-3, and Lamesa came from behind to beat Abilene 7-4.

**Bradley Cage Ace Tells Of Proffered \$500 Tournery Bribe**

PEORIA, ILL.—P—Paul Unruh, Bradley University basketball star, says he turned down a \$100 to \$500 bribe offer to throw a National Invitational Tournament game in New York last month.

The 21-year-old all-America ace says he brushed off an unidentified man who asked him in front of a New York hotel if he would like to "make some easy money."

Unruh said he neglected to mention the incident to Bradley officials at the time because he didn't think it was important.

"I just brushed it off and forgot it," he said. "I didn't hold it against the guy—I guess guys like that have to eat and make a living."

# Indians Win As Singleton Hurls Beauty

The Midland Indians and the Ballinger Cats tangled again at 8:15 p.m. Thursday in Indian Park in the second game of their three-game series here.

Ralph Blair is the probable starting hurler for Midland. Ray Riley is the tentative choice of Manager Dutch Funderburk of the Cats.

The two teams also meet here Friday night.

By SHORTHY SHELBURNE  
Reporter-Telegram Sports Editor  
The Midland Indians rolled to their third consecutive win Wednesday night at Indian Park as Rookie John Singleton handcuffed the Ballinger Cats on four hits and won 6 to 1.

Singleton, the third hurler in as many nights to give a brilliant performance, was master of the situation all the way. He struck out 10 Ballinger batters, walked only two and hurled no-hit, no-run ball in six of the nine innings.

The Cats put together a lucky hit by Winslett and a double by the old master, Stu Williams, to score their only run in the first inning. Singleton closed the barn door after that, leaving the Cats out in the cold with the 450 fans who turned out in the wintry weather to witness the contest.

time in two seasons a runner for Midland scored from second on an infield out.

**Defensive Change**  
The Indians underwent a change in the defensive lineup Wednesday night. George Firnbach was due to a tooth ache and Lou Dawson moved to third. Charles Stevenson and Warren Sitter shared left field duty.

Dawson started a double play which was turned beautifully by Basco, and Kenny Jones fired to first to hit a runner immediately after strike out.

**Elementary Meet Friday**  
The annual Elementary Relays, offering a program of more than 100 events, will be staged Friday afternoon at Memorial Stadium. The meet will get underway at 12:30 p.m.

More than 100 boys and girls, ranging from the first through the fifth grades, will participate. The public is invited to attend.

**Lighter Clubs Mean Longer Shots, Says Walker Cup Player**

PONTIAC, MICH.—P—Chuck Kocis, Michigan Walker cupper, has been applying himself diligently in an unusual bit of home work during the winter months.

Chuck has re-made the heads of his irons. "These powerful pros who play and practice daily can swing a shillalah, but I can't and I don't believe the average player can, either," he says. "I hit the ball farther with a lighter club for I have more control which produces better timing and greater accuracy."

The average driver weighs from 131 4 to 131 2 ounces. Many of the ranking professionals use drivers well past 14 ounces. Just before the Walker Cup matches, Chuck borrowed a driver with a shaft an inch and a half longer than normal and which wasn't as heavy a club as many women use. The total weight was barely 12 ounces.

"I hit the ball 20 yards farther than I had been and I didn't hit a tee shot into the rough," says Charles. "A golf ball's distance is determined by mass times velocity squared. Don't forget the squared. It's the velocity that's squared. As you increase the speed of the club head your distance increases by the square of the velocity. The increase in distance from mass merely moves upward in arithmetical progression."

Bill Hawkins, football star of Navy's 1948 game with Army, is both a pitcher and first baseman on the Annapolis baseball team.

**Pecos Track Team Preps For Regional**

PECOS—The Pecos High School track and field team, winner of the District 5-A title last weekend, is making final preparations for the Regional Interscholastic League Meet Saturday in Lubbock.

Eleven members of the team are the right to enter the Regional by taking high places in the district meet. The 440-yard and mile relay teams are included.

**THURSDAY'S SCHEDULE**  
Longhorn League  
BALLINGER at MIDLAND.  
Odessa at San Angelo.  
Sweetwater at Big Spring.  
Vernon at Roswell.

Seventy-one per cent of league basketball games played in the Border Conference during the 1949-50 season were won by the home team.

# SPORTSLANTS

BY SHORTHY SHELBURNE  
The first series between the Midland Indians and the Odessa Oilers is coming up Saturday and Sunday in Oiler Park.

We wouldn't be surprised if it isn't something of a repeat on last season's opener between the two teams.

Ernie Nelson, just about back in shape to hurl, is the probable starter in one of the games. He elbowed a 2-0 two-hitter at the Oilers last year and could do it again.

Nelson will be backed by a better infield and more hitting this year and could do the job up better.

By the time the Oilers and Indians meet, either Odessa or San Angelo will be further down in the standings. The two teams now are in a three-game series in San Angelo.

Odessa probably will take the big end of it on its hitting and apparently better pitching. But you never can tell.

San Angelo still has Durwood Cox and Sam Hunter to toss at the Oilers.

The first fastball tournament in history will be held April 25-29 in Kiwanis Park in San Angelo. San Angelo, with Hugh and Marcus Welch leading the way, is quite a softball or "fastball," as you wish, town. It should be a good tourney.

Teams interested in making the tournament should contact Gerald Barnard, 122 South Oakes Street, San Angelo. The deadline is April 21.

We share the opinion of many baseball fans who think Lou Dawson probably is the best young power hitter in the Longhorn League.

Lou collected two home runs and two doubles in the first five games. Indians played and chipped in with some timely singles to boot.

He has plenty of snap in his wrists and his eye gets better all the time. Look for Dawson up among the home run leaders.

Harold Webb reports President Bill Gunn of the San Angelo Colts was impressed by the pitching performance of LeRoy Jarl Montoya night.

"Just put a price on that pitcher and I'll take him off your hands," Gunn told Webb.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, APRIL 20, 1950-9

## Texas League— Oilers, Padres Win; Rain Rubs Out Two

By The Associated Press  
Speaking of the weather is what some Texas League clubs are doing these days.  
Shreveport, Beaumont, Dallas and Fort Worth players had time to ponder the elements Wednesday night since rain and wet grounds prevented their carrying out the usual chores.  
The idle moments allowed Tulsa to climb into a virtual tie with Shreveport for the leadership, due to the Oilers' 7-5 victory over Oklahoma City.  
In the only other game, San Antonio blanked Houston 2-0.  
Three runs in the second inning gave Tulsa a lead it never let go.  
A walk, a stolen base and a wild pitch by Tom Keating gave San Antonio one run in the first inning, and two ninth-inning doubles by Fletcher Procopio Herrera and Centerfielder Bill Martin—accounted for another in the ninth.

## Korean Nationals Rank 1-2-3 As Top Long-Distance Men

BOSTON—P—Two tiny Korean school boys and a chunkier and more experienced countryman's upsurge ranked among the world's top long distance runners after finishing one-two-three in the famed Boston A.M. Marathon.  
Winner Kee Yong Ham, Runner-up Kil Yoon Song and Yun Chil Chol, who made an exceptional showing in the 1948 Olympic marathon, completely outdistanced 131 rivals Wednesday during the punishing, 26-mile, 38-year-old hill course.  
Ham, a 19-year-old who attends Yung Chung High School in Seoul, was the first to cross the finish line in two hours, 32 minutes, 39 seconds.  
He crossed the finish line only three minutes, 19 seconds ahead of the 20-year-old Song.  
Chol, who started as co-favorite with last year's winner, Karl Gusta Leanderon of Sweden, finished in 2:39:47, beating fourth-place John P. Lafferty of Boston by five seconds.  
Walter Johnson and Robert (Lefty) Grove four times led the American League in both won and lost percentage and earned runs.

## Minor Leagues Czar Fines El Paso Club, Suspends President

EL PASO—P— President Jack Corbett of the El Paso club in the Arizona-Texas League Thursday is confident his indefinite suspension from baseball will be a short one.  
Wednesday, George M. Trautman, president of the minor leagues, fined the Class C club \$1,000 and suspended Corbett for defying rules of the national association.  
Center of all the fuss is Ventura Morales, an outfielder, who played against Phoenix in El Paso's opener. Trautman said Morales was not qualified to play because he still was under contract to the Mexican League.  
But Corbett came back with the statement that he "completed purchase of Morales from the Azula club at Vera Cruz, Mexico" 10 hours before the game.  
In Columbus, Trautman's office said it had received no notification of the deal.  
Corbett said:  
"As soon as he (Trautman) finds out that I have purchased Morales and when this sale is confirmed to him, his suspension will be lifted and the fine voided."

## Practice Swing Nets Hole-In-One

CLINTON, N. Y.—P—Byrne Kinney of Syracuse has a "pretty good" chance of making the Hamilton College golf team, Coach Don Jones says.  
When the freshman turned out for practice Wednesday, Jones said:  
"Let's see your swing."  
Kinney drove off the first tee and scored a hole-in-one. Par for the 150-yard hole is three.

## Weather Slows Down SWC Diamond Race

By The Associated Press  
The Southwest Conference baseball race picks up again Friday after slowing down considerably because of the weather.  
Not grounds forced postponement of the Texas A&M-Southern Methodist game at Dallas. The game originally was postponed because of rain and Wednesday was to have been make-up day.  
Friday, Baylor takes on Texas Christian University and Rice meets Texas.

**NORTH TEXAS GOLFERS  
TOUR MIDWEST COLLEGES**

## There's An Excuse For Not Remembering John Roosevelt; He's Quiet One In Family

NEW YORK—(NEA)—You could be pardoned for not remembering that the late President Roosevelt had a son named John. For he's the quiet one.  
FDR, Jr., is in Congress. Jimmy is a possible Democratic choice for governor of California. Elliott goes about regularly capturing attention for one reason or another. But 33-year-old John Roosevelt, youngest of the lot, manages to remain an ordinary citizen out of the public eye.  
As much out of it, that is, as anyone can be who is the son of a famous father and bears a definite physical resemblance to him.  
John is well over six feet tall, has a large head set on big shoulders, the Roosevelt eyes and smile, a polished manner of speaking, and a generally boyish air. Moccasin loafers put a casual touch into his neat attire.  
Is Businessman  
John Roosevelt is a businessman. He's always been that and expects the always will be. When he tells you "no politics," the words have a solid ring. He likes what he's doing and is plainly content to let the others have the spotlight.  
He is president of an outfit that turns out a wave-set preparation for women's hair. It's a merchandising concern with headquarters in Beverly Hills, Calif.  
This isn't John's first venture into merchandising. After he finished at Harvard he went to work for a time in a department store in

## 'Annuder Niggle' Hits Jackpot, Once Was Tossed Out Of Hall

NEW YORK—(NEA)—Everything was perfectly normal at Steinway Hall one morning last November. The grand pianos on display were grander than ever, shimmering in highly-polished beauty. The dignified salesmen walked quietly on plushy carpets, gently steering minik-coated ladies from one model to another.  
Nobody paid any attention to two men who walked in. One was tall and good-looking. The other wasn't. They headed straight for a piano, and the smaller man sat down and began to play and sing:  
"Put annuder niggle in, to der niggleedown."  
That's as far as Stephen Weiss got with the first public performance of "Musical Music! Musical!" the song that's now number one on almost any listing of popular tunes. The dignified salesman hurried over, muttered something about such behavior being disgraceful, and bounced the two.  
The other man was Howard Richmond, an embryo music publisher. Richmond, for more than 13 years a successful publisher for bands and

John Roosevelt

Boston, the city where he also met and married blonde Ann Clark. A full-sized stint in the Navy interrupted his business career but he returned to it when peace came.  
For a while he worked for a store chain on the Pacific Coast, and then helped put together the Roosevelt-Good Company, a women's clothing business, in which he moved into his present field.  
Pushing Product  
These days he's busy trying to push his company's product and develop new ones. Several are now undergoing test marketing. John makes it to New York every five or six weeks, from Beverly Hills, where he lives.

But he is stirred up, too, about an idea that's at work in the Chicago plant of his supplier, the George Barr Manufacturing Company. The Barr company employs just 100 people, yet 90 per cent of them are physically handicapped in some fashion—either blind, deaf and dumb or crippled.

Many toy manufacturers like Ford and Caterpillar Tractor are doing a scientific, energetic job of placing handicapped individuals in their plants. But probably few if any companies show so high a concentration of them as does Barr.  
John Roosevelt gives full credit for the idea to Barr himself, who began putting it to work 15 years ago. Barr, incidentally, is one of the handicapped, having lost a leg in an automobile accident.  
"In this plant," says Roosevelt, "we believe we are setting an example in employment that may help many of the 2,500,000 unemployed handicapped to find jobs of value to themselves, their employers, their families and their society."  
No Difficulty  
As the company sees it, there is no great difficulty in using such people. It simply figures out what the specific requirements are in particular jobs and then decides what type of handicapped person can perform the work. Blind people do delicate handwork, men who have lost a leg operate foot-pedal machinery with their good limb, deaf persons do things that call for high concentration.

Roosevelt says handicapped workers frequently show a higher rate of productivity than normal workers, they are less given to absenteeism and job-changing and they cause no loss in accident insurance rates. In fact, there's a tendency for them to become involved in fewer plant mishaps.  
He believes the gaining of a job completely makes life for a handicapped man. Not only does the work, feel useful as never before, he is inclined to minimize his own troubles when he works with so many other handicapped people and observes their difficulties.

But though this idea is of keen interest to John Roosevelt, he isn't planning any widely heralded campaign to spread it about. He just hopes the example at Barr will convince other employers that handicapped individuals are worth taking on.

Stanley M. Erskine, chairman of the Aeronautics Committee of the Midland Chamber of Commerce, was busy Thursday lining up Midland fliers interested in attending the dedication of the new Upton County Airport at McCamey Saturday.

The McCamey Chamber of Commerce has invited fliers from West Texas and New Mexico to visit the new port on its opening day.  
Erskine said a number of Midland planes will fly to McCamey for the celebration.  
Other Chamber of Commerce representatives and city officials plan to be in McCamey for the event.

**Pruter Services  
Held In Midland**  
Funeral services for George Henry Pruter, 62, accountant, were held at 10 a.m. in the Newline W. Ellis Chapel, with Dr. R. Matthew Lynn, pastor of the First Presbyterian Church, officiating.  
Following the services here, the body was forwarded to Dallas for cremation. Interment will be in Orange, Texas.  
Pruter, a former business manager of the City of Houston, died of a heart ailment at his home here Monday afternoon.  
He was born Sept. 17, 1887, at Carroll, Iowa, and moved here from Macon in 1941.  
He was associated with The Texas Company in Houston prior to 1919. He was a past potentate of the Arabia Shrine Temple at Houston.

**Tallest lighthouse in the U. S. is Cape Hatteras, N. C. It is 194 feet tall.**

**LEGAL NOTICES**  
Sealed proposals addressed to Board of Trustees, Klondike Independent School District, Dawson County, Texas, Charles Kohler, for the construction of addition and alterations to existing Elementary and High School Building will be received until Friday, May 5, 1950, at which time they will be opened and read at the office of Superintendent of Schools, Klondike, Texas.  
Plans and specifications may be obtained at the office of Harvey C. Allen and Howard C. Allen, Architects, Lamesa, Texas. A deposit of \$10.00 is required to secure the plans and specifications. Deposit is to be refunded upon return of plans and specifications in good condition within 10 days of taking of bids.  
Bid Bond, Cashier's Check or Certified Check for 25% of bid, but not to exceed \$1,000.00, must accompany bid. No bid may be withdrawn for at least 20 days. A surety bond for 25% of bid, but not to exceed \$1,000.00, must accompany successful bidder. Bidder will be required to enter promptly into Contract with Board of Trustees, Klondike Independent School District, which Contract will contain provisions regarding the contract of work and all State laws, including wage scale and hours as required by House Bill 1977, Chapter 10, Acts of the 53rd Legislature, 1950. The work contemplated in this Contract shall be completed within 90 calendar days after the signing of the Contract.  
Owner reserves the right to accept or reject any and all bids.  
Thomas C. Martin,  
Supt. of Schools  
Klondike, Dawson County, Texas  
(April 20, May 4)

**NOTICE TO BIDDERS**  
Sealed Proposals, addressed to the City Manager, Midland, Texas, for the construction of water works and sanitary sewer extensions to serve blocks 9 and 10, Loma Linda Addition, and Block 11, Progress Park Addition, in the City of Midland, Texas, will be received at the office of the City Secretary, Charles Kohler, 123 S. Big Spring, Southwestern Bell Telephone 3004, until 2:00 P. M. Tuesday, April 25, 1950, at which time they will be publicly opened and read.  
The principal items of work are:  
SECTION I  
LOMA LINDA ADDITION  
Furnish and install 300 ft. of eight inch cast iron pipe.  
Furnish and install 1200 ft. of four inch cast iron pipe.  
Furnish and install one four inch gate valve.  
Furnish and install one fire hydrant.  
Furnish and install 500 pounds cast iron pipe.  
Furnish and install 1300 ft. of six inch vitrified clay pipe.  
Furnish and build 3 manholes (4 ft. depth).  
Furnish and build 12 ft. additional depth to manhole No. 1.  
SECTION II  
PROGRESS PARK ADDITION  
Furnish and install 640 ft. of four inch cast iron pipe.  
Furnish and install 105 pounds of cast iron pipe.  
Furnish and install 600 ft. of six inch vitrified clay pipe.  
Furnish and install one manhole.  
Payment will be made in cash one month upon monthly estimates by the City of Midland, Texas, and Sewer Department of the City of Midland, Texas.  
A certified check or Bidder's Bond executed by a reliable surety company authorized to do business in the State of Texas, in the amount of \$10,000.00 (10% of the amount of the total bid) must accompany the bid as a guarantee of the Bidder's ability to execute the required performance bond and guaranty on the part of the Bidder.  
The right is reserved by the City of Midland to reject any or all bids and to accept the bid deemed to be in the best interests of the City of Midland.  
Plans and Specifications may be submitted on the forms provided and must be filled out in ink in words and figures, without any additions, alterations or interlineations.  
The City of Midland  
City Manager

**Dr. Lindstrom Gets Custody Of Daughter**

**HOLLYWOOD**—P—Actress Ingrid Bergman has agreed, with some reservations, to relinquish the physical custody, control and education of her 12-year-old daughter, Pia, to the girl's father, Dr. Peter Lindstrom, Beverly Hills surgeon.

The custody of Pia has been a major point of dispute between the two since the Swedish actress left Dr. Lindstrom, bore a son 11 weeks ago in Rome to her Italian lover, film director Roberto Rossellini, and obtained a Mexican divorce.

But though the settlement of Pia's custody was announced Wednesday by lawyers for both sides there already are signs of some disagreement over the agreement.

Attorney Isaac Pacht, representing Dr. Lindstrom, told reporters the actress cannot take the child out of the country during vacation periods when Miss Bergman will be allowed to have the child part of the time.

But Miss Bergman's Hollywood lawyer, Gregson Bantzler, told reporters, with some heat, that the agreement contains "no restriction whatever as to where Miss Bergman might take the child during the time she has physical custody."

Pacht, in his interpretation to newsmen, quoted a section of the settlement saying the "child shall reside in the state of California and be educated in the state of California."

**Lattimore—**

(Continued From Page One)

ty during the period of 1935-45. As managing editor of the New York Daily Worker, official Communist newspaper in this country, Budenz said he attended meetings of the U. E. "Politburo" and was kept constantly informed by it.

He identified the "Politburo" as the heart of the Communist movement in this country.

"The Communist Party is set up, not on a democratic but a conspiratorial basis," he said, adding that it dealt in espionage as well as conspiracy.

Part of his job, Budenz said, was to memorize a list of some 1,000 names of persons identified with the party.

This list, he said, was not put down in writing for fear it might be disclosed.

**Engineer Unit Will Meet Thursday Night**

The April meeting of the Permian Basin Chapter of the Texas Society of Professional Engineers will be held at 8 p.m. Thursday in the Conference Room of the Humble Oil & Refining Company in the Midland Tower, Secretary S. P. Kroecker announced.

Capt. Max A. Schuman of Midland, commanding officer of Company E, 112th Armored Cavalry, Texas National Guard, will be the speaker.

A film, "Operations Crossroads," produced by the Joint Army-Navy Task Force One, will be shown.

**McCamey News**

**MCCAMEY**—The Ladies Auxiliary of the McCamey Country Club will serve a turkey dinner at 8 p.m. Saturday in the club. Members and guests are invited to attend.

Mr. and Mrs. William Nelson are parents of a daughter, Janis Gaye, born April 5 in the McCamey Hospital. She weighed six pounds, 12 ounces.

Mr. and Mrs. Sam Fowler, former residents of McCamey, visited friends in McCamey recently. The Fowlers now reside in California.

Mr. and Mrs. Luther R. House and son, Johnny, of Houston were guests last week in the home of Mr. and Mrs. N. C. House.

Mr. and Mrs. J. T. Gibbs visited Sunday in the home of their son, V. D. Gibbs, in Iran.

Eileen House, student at Howard Payne College in Brownwood, spent recent holidays at home.

Mr. and Mrs. N. C. House visited recently in the home of Mr. and Mrs. M. R. House in Colorado City.

Cub Scouts of McCamey recently held a jamboree, featured by a pet show, a kite-flying contest and an auction. Participating in the activities were 46 Cubs of McCamey, with R. F. Coston, Cubmaster, in charge.

Winners in the pet show were: Bobby McKinney, largest pet; Jim Brady, smallest pet; W. I. Thomas, oddest pet; Jimmie Fleming, longest pet; and Charles Craig, shortest pet. Jimmie Boyd, Joe Conger and W. B. Brown, judged the contest.

Jim Brady, Bruce Stark, Willie Roberts, and W. I. Thomas were winners in the kite flying contest, which was judged by E. R. Sharpe.

**Vancouver Cyclist Pedals Into Pecos**

**PECOS**—Don Pearson, 19-year-old grandson of Mrs. E. J. Weyer of Pecos, rode into Pecos Tuesday after a bicycle trip which began in Vancouver, B. C.

Don and a friend, Ronnie Round, left their home in Vancouver three weeks ago and entered Los Angeles 15 days later. Ronnie stayed in Los Angeles, while Don headed east by train.

Don and his bicycle left the train station at El Paso, and the cyclist started toward Pecos. The trip, about 200 miles, was covered in nine hours.

During the entire trip the travelers had to buy only one bicycle tire. On warm nights he and Ronnie slept out, but on the cloudy, cold nights, they stayed in hotels and tourist courts.

Don is the son of Mr. and Mrs. E. Pearson of Vancouver. Mrs. Pearson was born and reared in the Pecos area.

**Personnel Cut At Pyote Base Slated**

**MONAHANS**—A cut in personnel at Pyote Air Force Base is expected between May 1-15 with about 100 persons to be released, Lt. Col. Clarence U. Inabnet, Jr., base commander, has announced.

The present base civilian force is 861 persons. Of the 100 workers to be released, 78 are now working in aircraft maintenance, Col. Inabnet said.

The employees will be turned off when it has been determined how many workers are actually needed.

**'Condemned To Red Paradise'**

"During those endless minutes, Anna had to think: 'And over this, too, shine the stars.'"

By NEA Service

From behind the Iron Curtain has come a shocking document, a bitter letter that somehow slipped through the censors, which details the brutality of Soviet masters over a subjugated people.

The letter was received in the U. S. by a woman who lived in Germany from 1939 until 1947. While there she became a close friend of a talented young woman painter. This young artist now lives in Leipzig, in the Soviet Zone.

It was signed with a pseudonym which the American woman recognized as a code to identify her good friend.

To protect the writer, neither her name nor the name or home city of the recipient are being divulged and any names in the letter are disguised.

Excerpts Given

Some excerpts from the letter follow:

"We received your dear letter yesterday and thank you for it. As I'm just now in the possession of a typewriter I want to answer it immediately—though anonymously, so I may write more openly. Please acknowledge this letter at your earliest opportunity, provided you receive it. Just mention the date without reference to its content.

"You write, with complete lack of knowledge of existing conditions, that you read such terrible things about the Russian Zone and how do we stand them.

"I must beg of you never to say anything like that in your letters—it could not only cost us our livelihood, but it could also condemn us to lifelong slavery. Free utterance of opinion is a thing only on the paper of the status of our new highest democratic republic—which has at last brought 'freedom' to a death blow Wednesday night in a surprise about-face by Russia.

"The Russians, originally staunch supporters of the UN plan, said in a surprise statement that 'It has now become clear that the general assembly resolution to establish international rule does not satisfy the Arab or Jewish population of either Jerusalem or Palestine as a whole.

"In these circumstances, the government of the USSR does not consider it possible to continue its support of X X X."

Opponents of the plan have insisted from the start that it never had a chance anyway.

**Age Certificates Offered By TEC**

Persons desiring federal age certificates in order to secure employment may obtain them at the Texas Employment Commission office, if they can produce satisfactory evidence as to date of birth. J. D. Bechtol, TEC director, said Thursday.

All applicants for the certificates must produce either a birth certificate, a baptismal record or an insurance policy more than one year old, Bechtol said.

Many employers, subject to the new minimum wage-hour law, require job applicants to produce a certificate of age before they will give them employment.

Positions for stenographers, a combination stenographer and lease agent, a typist, a clerk, male stenographers, warehouse clerk and experienced platen press operators, currently are listed with the TEC.

Bechtol also announced several applicants for farm jobs have been received in his office. Many of the applicants have had considerable farming experience, he said.

**Plan For Rule Of Jerusalem Killed**

**LAKE SUCCESS**—P—The United Nations plan for international rule of Jerusalem apparently got its death blow Wednesday night in a surprise about-face by Russia.

The Arab or Jewish population of either Jerusalem or Palestine as a whole.

In these circumstances, the government of the USSR does not consider it possible to continue its support of X X X."

Opponents of the plan have insisted from the start that it never had a chance anyway.

**+Crane News+**

**CRANE**—Representatives of the Crane Sheriff's posse will take part in the Pecos Rodeo, slated April 30, Leonard Halenbeck, secretary-treasurer, said Thursday. Participants will be selected by a committee at a later meeting.

Mr. and Mrs. Leroy Brookover had as their guests recently Mr. and Mrs. Chris Brookover and son, Christy. The two families spent several days in Artesia, N. M., with C. E. Brookover, father of the two men.

Jesse G. Miller has been named manager for Texas Electric Service Company in Crane. He is to move from Odessa as soon as a house is available. Grady Kidd, former manager of the company here, has been transferred to Andrews.

Mrs. Addie Bell, county and district clerk, is ill at her home.

Mr. and Mrs. M. J. Laxton and Mrs. Morris Robinson of Ballinger were recent guests of the Troy Laxtons.

**BTC Wins Flag For Attendance**

For the second successive year, the Buffalo Trail Council, Boy Scouts of America, won the "manly" attendance flag at the annual Region Nine meeting, held this year at Oklahoma City.

Attending from the 17-county Council area were 22 Scouts and their wives, to give the Midland-based council the lead over Houston and Austin, which placed second and third.

The flag annually is awarded to the council group with the largest number of delegates traveling the longest distance to attend.

The meeting this year was held Monday and Tuesday in the Skirvin Tower Hotel in Oklahoma City. Last year's meeting was held in Dallas, which placed second and third.

Dr. W. B. Hardy of Big Spring, president of the Council, headed the delegation. J. M. McDonald and Herman Williams were Midland delegates.

**Texas Bankers Name Braden President**

**SAN ANTONIO**—P—Roy Braden, of Dallas was elected president of the Texas Bankers Association at the close of the Golden Anniversary convention here Wednesday.

He succeeds Beverly A. Peel of Corpus Christi.

Other officers elected included J. W. Baird, Abilene, secretary-treasurer.

Directors elected included John Bingham, Wichita Falls, and Johnny Rao, Beaumont.

Textile industries employ about 50 per cent of Japan's factory workers.

Approximately 570,000,000 pounds of canned foods are exported by the United States annually.

any more. We get enough to eat, if you are satisfied with potatoes, barley and bread. The Russians are bursting out of their uniforms but we still don't get any milk. The smell of the margarine is so rank even the government doctors warned the population not to use it.

"But that is of no importance. Man has become a number. He not only has to work—he has to slave. If he breaks down under strain from lack of nutrition, then he gets four weeks of vacation. If he hasn't recuperated sufficiently in that period to take up slavery again, then he gets a rationing so small that his suffering will soon be over.

"The individual is of no importance any more. You don't wish for anything unless it is for release from this earth. Even success in your profession changes nothing in this attitude. Nothing at all.

**Convinced Marxist**

"My boss used to be a convinced Marxist. But some of the happenings made him shake his head. So they put him behind bars for a time. It's dangerous business to shake your head.

"You've probably read how all the Germans in the East Zone contributed heavily to Stalin's birthday. It's hard to understand those Germans. Fact is, that contribution was taken from their pay envelope before they got to see it. Also, all the teachers with their classes had to write personal congratulations to Stalin.

"I'm trying, through all my connections, to get into the West Zone. But I'm too old and tired to venture such a move without the security of a job.

"You'll be glad to have finished this letter—if you ever get it. For you in America, I can only hope that your position is such that you never get communism into your country. Once you get it, it is too late. Nobody can free himself from those claws. Then you, too, would have to rejoice—as we have to here: 'Any peasant in Russia has more culture than an American professor.'"

**Cotton**

**NEW YORK**—P—Thursday noon cotton prices were 70 to 95 cents a bale higher than the previous close. May 32.79, July 32.95 and October 31.48.

**M. C. ULMER TO ATTEND AMERICAN BANKERS MEET**

M. C. Ulmer, president of The First National Bank will leave Thursday for French Lick, Ind., where he will attend a meeting of the Executive Council of the American Bankers Association, of which he is a member.

He is a former president of the Texas Bankers Association.

**CLASS TOURS PLANNED**

Thirteen students of the Martin County Vocational School, a veterans' school in Stanton, Wednesday toured the plant of The Reporter-Telegram. Director Webb of the school said the class is inspecting business organizations in the area as a part of its regular training.

**Teen Talk**

By VIVIAN BROWN  
AP newscasters

**AP Newscasters**

Tap teen-agers for ingenuity and they'll always come through. And what letter writers they are! Or do they just love to unburden themselves by burdening the mail man? The Honolulu Star-Bulletin found out recently, when it conducted a letter contest, that young people have more on their minds than fashion and jive. These junior phonies had much to say that counted in their prize-winning letters.

**Pros And Cons Of Shoes**

Even though school regulations now require Hawaiian young people to wear slippers, how can they get used to them over night, asks 17-year-old Grayce Arano? Their compromise is to "wear something that will protect the soles of the feet but leave the rest uncovered." "After all," says Grayce, "usually a child born in Hawaii grows up without having any use for a pair of shoes until a special occasion arises, and even then... I will still prefer to wear my natural boots."

"Can you imagine a barefooted student as a leader of tomorrow?" asks Mary Tsuha, who thinks that shoes are good, too, because they are so comfortable "and soft socks and strong leather protect tender skin."

Estella Suifasha, 15 years old, would give up going barefooted because she's practical. Says she, "I prefer to wear shoes and slippers over shoes, it would prevent the spreading of athlete's foot. Goids could be stepped on when on school grounds." The boys would look more handsome wearing shoes.

Our parents were not so fortunate as we are about owning shoes. Now some of them can't find their sizes.

**On The Smoking Topic**

Many times it is the parents who are responsible for a teenager smoking, says 18-year-old Charles Kong. Why? Charles' idea is that teen-agers smoke because of two-fifths curiosity and three-fifths copy cat. He asks:

"How many parents were astonished at the audacity of the teenager when he asked for permission to smoke... and replied with a decisive 'No' with no advice offered... except that smoking is injurious to health. The teen-ager wonders when he sees teachers, doctors, statesmen, ministers and others smoking. Why don't parents give their teen-agers sensible advice about it? It will greatly improve their chances of influencing them."

Alice Nakamoto, 14 years old, says "Investigations at some colleges show that non-smokers gained more in height, weight, chest development and lung capacity... high school boys and girls... look like small children limiting their parents when they smoke."

**On Late Hoots**

"If a boy takes the girl home early, he will have an easier time taking her out again," says 16-year-old Lillian Murakami. Lillian believes some teen-agers "stay late" to "spite parents who insist they be home at unreasonably early hours." She thinks parents should know all factors involved in daughter's dating, and then decide what the curfew should be.

"They regard teen-agers as a bit of botheration," says Beatrice Moniz. She thinks teen-agers should bring home their friends, "thus giving parents an opportunity to learn a little about their acquaintances."

And if parents only would take more of a part in social activities with their young adolescents, perhaps daughter would find housework a pleasant routine instead of a chore. And please, parents, pleads Beatrice, it's no crime for a young girl to be fashionable—"it's just part of growing up!"

The best location for a poultry farm is declared by experts to be within the area of a large community, where prices are maintained at top levels.

**Rotarians Hear Talk On Hoover Commission Report**

Recommendations of the Hoover Commission for the reorganization of the executive branch of the United States government were discussed by Lee J. Woods at the regular meeting of the Midland Rotary Club Thursday noon in Hotel Scharbauer. Woods is a Rotarian and also belongs to the Junior Chamber of Commerce, which is supporting the report's adoption.

The speaker was introduced by Pat Patterson, program chairman. President Hilton Kaderli presided.

The various findings of the commission were outlined by Woods, who pointed out how government costs could be reduced and efficiency increased by adoption of the proposals. He mentioned the increases in personnel and expenditures in government during the last 20 years, and estimated that approximately \$5,000,000,000 could be saved annually by adoption of the commission report.

He urged his listeners to support the adoption of the recommendations.

C. C. Smith was elected to membership in the club.

**Age Certificates Offered By TEC**

Persons desiring federal age certificates in order to secure employment may obtain them at the Texas Employment Commission office, if they can produce satisfactory evidence as to date of birth. J. D. Bechtol, TEC director, said Thursday.

All applicants for the certificates must produce either a birth certificate, a baptismal record or an insurance policy more than one year old, Bechtol said.

Many employers, subject to the new minimum wage-hour law, require job applicants to produce a certificate of age before they will give them employment.

Positions for stenographers, a combination stenographer and lease agent, a typist, a clerk, male stenographers, warehouse clerk and experienced platen press operators, currently are listed with the TEC.

Bechtol also announced several applicants for farm jobs have been received in his office. Many of the applicants have had considerable farming experience, he said.

**Kermit Students Visiting Midland**

The occupational class of Kermit High School is visiting Midland Thursday.

Business institutions to be visited include The Reporter-Telegram, Borden Creamery, CJM Packing Company, radio station KCRS, Air Terminal and Petroleum Building.

Mr. Bobbie Baker is teacher of the class. Bus driver is Weldon Park. Class members are: Larry Smith, John Jensen, Jerry James, C. L. Holt, K. D. Ives, Wayne Cuihava, Jim Barrett, Jim Horry, Keith Clark, C. E. Eidel, Lomena Ivey, Don Lay, Dean Bablow and Elworth French.

**Jury Favors Plaintiff In McCutchin Suit**

A 70th District Court jury late Wednesday returned a verdict in favor of the plaintiff on special issues in the J. A. McCutchin vs. McCutchin Drilling Company civil suit, court officials said Thursday.

The case had been heard for more than a week in court here.

Final judgment in the case will await another hearing set May 11 on several issues, court officials said.

**Scouters Training Meeting Slated**

The fourth in a series of training meetings for Boy Scout leaders has been scheduled at 7:30 p.m. Monday at the Rotary Club in the West Midland Lane Street. Ed Pierce, chairman of the District Leadership Training Committee, said Thursday.

"We invite all Scoutmasters, assistant Scoutmasters and commissioners to attend the meeting," Pierce said. "We will have a training film and an instruction period on patrol and troop program planning, and a demonstration of knot tying."

**Livestock**

**PORT WORTH**—(P)—Cattle 600; calves 200; steady; good feed steers; and yearlings, 24.00-27.00; comm. to medium 18.00-25.00; beef cows 16.50-20.00; common to medium calves 18.00-25.00; stocker yearlings 20.00-25.50; stocker calves 20.00-28.00.

Hogs 900; butcher hogs 25c lower; sows unchanged; pigs strong; good and choice 185-270 lb. butchers 16.75-17.00; good and choice 160-180 lb. and 275-375 lb. 15.25-16.50; sows 13.50-15.00; feeder pigs 10.00-12.00.

Sheep 3,000; short fat lambs strong to 50c higher; other sheep and lambs steady; medium to choice short lambs 23.00-24.50; stocker and feeder lambs 21.50 down; common to choice Spring lambs 20.00-27.00; slaughter ewes 9.00-12.00.

The average person walks the equivalent of twice-around-the-globe in the course of a lifetime.

Since the Civil War, only five presidents of the United States have been Democrats.

**Permian Basin Oil & Gas Log**

(Continued From Page One)

North lines of section 94, block 25, H&TC survey.

Drilling to around 6,850 feet is to start at once.

Amerada No. 1 Weathers is slated to take potential test and complete before the end of the week.

**Two Scurry Reef Flankers Complete**

Two outside wells on the Scurry County reef have potential. Both are in the Sharon Ridge-Canyon and Diamond M areas in the southwest part of the county.

On the southwest edge of the Sharon Ridge pool, Humble Oil & Refining Company has completed its No. 1 R. P. Ainsworth for 532.95 barrels of 45.1-gravity. Because of a 500-gallon acid injection before the test, production was cut with two-tenths of one per cent basic sediment.

Tubing pressure was 925 pounds, and gas-oil ratio was 780-1. Pay was topped at 6,659 feet, and total depth is 6,882 feet. Five and one-half-inch casing set at 6,670 feet. A 16 64-inch choke was used on the potential test.

The 1 Ainsworth is 660 feet from north and east lines of section 99, block 25, H&TC survey.

**Link Well Completes**

The Superior Oil Company has potentiated its No. 13-180 C. T. McLaughlin in an unproductive section between the Sharon Ridge and Diamond M-Canyon pools.

It rated a 24-hour producing capacity of 323 barrels of 45.2-gravity oil with a trace of water. Flow was through a 10 64-inch choke.

Gas-oil ratio was 1,062-1. Pay was topped at 6,534 feet, and total depth is 6,694 feet. Seven-inch oil string is set at 6,537 feet.

This producer is 660 feet from south and west lines of section 180, block 97, H&TC survey.

**Strawn Venture In Tom Green Plugged**

Miles Production Company No. 1 S. L. Shaw, South Tom Green County wildcat, has been abandoned at a total depth of 5,512 feet in sulphur-watered Strawn.

This failure is four miles north of Christoval, and 467 feet from south and west lines of southeast quarter of section 890, F. Schmidt survey.

It is on the west bank of the Concho River.

Read The Classifieds.

**SE Borden Stepout Tops Canyon Reef**

C. H. Sweet and associates, No. 1 McNeil, Southeast Borden County wildcat, three-quarters of a mile northeast of the discovery well of the North Vincent (Reinecke) Canyon field, had reached 6,810 feet in shale and was drilling deeper.

At that point it had a datum of minus 4,472 feet, and was correlated by some geologists to be 66 feet low to the George F. Livermore Inc., and associates No. 1 Reinecke, the North Vincent opener.

Location of the Sweet venture is 337 feet from south and west lines of the northeast quarter of section 53, block 25, H&TC survey.

**Deep Test Scheduled For Central Rannels**

Spartan Drilling Company has scheduled a 5,800-foot Ellenburger wildcat in Central Rannels County. Spartan No. 1 Levy Lee will be 330 feet out of the northwest corner of a 140-acre lease in the south part of B. Sandoval survey No. 312.

Drillsite is 11 miles northwest of Ballinger and approximately two miles north of W. H. Snowden No. 1.

# Total Of 76 Locations Are Shared By 16 WT Counties

Sixteen West Texas counties shared locations last week for 76 tests for oil, including 14 new wildcat locations.

Borden County reported six of the new prospects. Three new ventures were staked in each of Garza and Kent Counties. Crane and Scurry Counties each received a wildcat location.

Scurry was first in field starters with 28. Pecos County reported 14 new explorations and Cochran and Ector each reported 11.

Garza County listed 10 new locations. Four drillsites were established in Winkler County.

Dawson County received three new projects. Gaines and Kent Counties each reported two new drillsites.

The remaining locations were divided one each among Andrews, Borden, Crane, Howard, Sterling, Upton and Yoakum Counties.

Five amended applications were filed. They were distributed two to Andrews and one each to Crane, Garza and Scurry Counties. One application to change a previously staked wildcat was reported in Yoakum County.

This report is based on information received from the oil and gas division of the Railroad Commission of Texas.

Cowden, 660 feet from east and 1,983 feet from south lines of section 17, block A-52, psi survey, rotary, 10,106 feet depth, Dellarhde-Silurian field, starting immediately to plug back.

### Sunshine Meat Pie For Spring

As fresh as Springtime is this novel sunshine meat pie which consists of a tempting meat crust to hold a bright colored vegetable filling. Here's how it's made. For the crust, soak 1 cup soft bread crumbs in 1/2 cup milk and 1 beaten egg for 5 minutes. Add 3/4 pound ground beef which has been mixed with 1 teaspoon salt, 1/2 teaspoon Worcestershire sauce and 2 tablespoons minced onion. Line bottom and sides of a 9-inch pie plate with this mixture. Then mix together 1 1/2 cups drained whole kernel corn, 1 cup well drained canned tomatoes, 1/2 teaspoon salt and 1/4 teaspoon basil. Fill meat shell, dot with butter or margarine, and bake 40 minutes. Garnish with green pepper rings, cut in pie shaped wedges, and serve with a pie server.

### Donut Gets The Teen-Age Vote

THE HUMBLE DONUT becomes a teen-ager's treat—"Donut Charlotte Russe"—with the addition of whipped cream and jelly.

By GAYNOR MADDOX  
NEA Staff Writer

Americans seem to be eating the hole right out of the donut. During 1941 we ate only 40 million donuts. But in 1949 we gobbled more than 100 million, 85 per cent of them sugared, glazed or frosted.

How come this increase? Teen-agers seem to be the answer. Biggest upswing in donut sales during postwar years is reported by lunch-ettes, soda fountains and restaurants located near high schools.

Owners of these campus eateries report mid-morning, afternoon and late evening as the "donut hours." Here are some teen-age favorites—slightly dizzy, but the campus choice.

#### Chiquita Donut

Teen-agers are notorious for their capacity for gobbling up cream. Here's a suggestion for combining it with donuts and bananas.

Mash ripe bananas, add milk and whip thoroughly. Line bottom of dish with banana whip, add whole donut; fill donut center and cover top with more banana whip. Then, for that young touch, sprinkle chocolate shavings over the top.

#### Donut Charlotte Russe

Four donuts, 2 pint of heavy cream, whipped, 1 1/4 cup currant jelly.

Top each donut with whipped cream. With back of spoon make a hollow in whipped cream; fill with currant jelly.

#### Donut Ice Cream Man

Sure, it is "kid stuff," but the 13-year-old appreciates its laugh value.

Place a big ball of vanilla ice cream on top of a plain or sugared donut. Then add a jaunty hat by scalloping a plain donut and pushing a delicious candy stick through the whole thing. Use chocolate bits for lifelike eyes and nose.

#### Donut Highland Fling

Here's a somewhat simpler teen set favorite.

One cup butterscotch sauce, 4 fresh donuts, 1 small can pecan meats. Pour butterscotch sauce over donuts. Sprinkle with pecan meats and serve with glasses of milk.

#### Bits Donuts Sandwich

A two-in-one idea, elaborate enough for the most imaginative teen-ager, but quick and easy to prepare.

Reserving 2 dozen whole choco-

late bits, melt remaining contents of package over hot water. Add 1/3 cup evaporated milk and stir until glossy. Stir in 8 marshmallows which have been cut in eighths. Split 8 sugared donuts. Spread bits and marshmallow mixture on one-half of each donut and place halves together to form a sandwich. Place donuts on waxed paper until chocolate has set. Serve with milk.

### Wives' Pet Peeves Go Up In Smoke

By CYNTHIA LOWRY  
AP Newsfeatures Writer

Somebody made one of those surveys the other day and came up with a list of the 10 things women disliked most frequently in men and vice versa. The results were pretty much what you'd expect, with nagging, jealousy, poor house-keeping, staying out with the boys and the like prominently mentioned.

What piqued my interest was that high up on the women's dislikes list was smoking. Men didn't seem to object to women's smoking in quantity at all because it wasn't on a pretty inclusive list of female faults.

Personally, I am inclined to think that women have some feeling about smoking because women are the ones who have to empty ashtrays in most houses. They are also the characters who have to vacuum clean every day in every room when there's a pipe-smoker in the house.

They are the ones who have to decide what to do with old cigar butts—and only razor blades present a more difficult problem. They are the unfortunate who find the dishwasher swirling with strong-smelling ashes and soggy cigarette butts because somebody used a saucer for an ashtray.

**Lucky Man**  
Any man who has a wife who smokes cigarettes is pretty lucky. In fairness he can't complain bitterly that emptying ashtrays is a never-ending and boring chore—no when she helps fill them up.

I would like to bet a nickel that many of the men who voted nagging a woman's worst fault were cigar and pipe smokers—and the aura of nagging surrounding their homes was primarily concerned with male smoking habits.

The cigarette smoker is probably the least objectionable smoker of the three from the standpoint of neatness and lightness of fumes. The pipe smoker is far and away the most difficult smoker to have around the house. At the same time, the cigar and pipe boys seem to enjoy themselves much more.

Sherlock Holmes did a marvelous job of detecting a criminal by identifying his cigar ash—he wrote monographs on the subject if memory serves. I have thought that a smart private or public eye could track a pipe smoker to earth merely by following the thin line of dottle or whatever they call the stuff they spill constantly.

It would be a crying shame, however, to deprive a pipe-smoker his pipe. This type of smoker, messy though he is, seems to derive as much enjoyment from his preparations to smoke as he does actually smoking.

A devotee usually has as much equipment as a cabinetmaker. And it takes him longer to prepare for a smoke than to smoke it. He fiddles with the bowl, reams the stem, cleans it out. Then he fusses with the tobacco—spilling some quantity on the floor in the process, where it joins the gop he just has cleaned from the pipe, and pushes and fuses. Finally he uses a room box of matches to get it started, only to forget about the pipe and let it go out. I'm sure pipe-smoking never hurt a smoker—only the cleaner-upper.

### Kermit News

KERMIT — Archie Holland of Goldsmith is in the Winkler County Hospital receiving treatment for injuries from a recent automobile accident.

Mr. and Mrs. Horace Harris of Wickett recently visited in Kermit.

The Rev. Ronald E. Hubbard, pastor of the Community Church, was elected president of the Lions Club in a recent meeting.

Mr. and Mrs. Eddie Evans of Kermit and J. W. Evans of Wickett attended the funeral of a relative in Rotan.

County Judge and Mrs. J. B. Salmon are in Temple where Salmon is under medical treatment.

Mr. and Mrs. Jim Puckett and son, Jim Bob, have recently moved from Duncan, Okla., to Kermit.

Women's Club in her home Tuesday.

The occupational class of Kermit High School will spend Thursday in Midland studying business methods. Mrs. Bobbie Lake is the instructor.

The Kermit Post Office will close its window service at 1 p.m. on Saturdays, Mrs. Tom Marion, postmaster, has announced.

Alcohol is the best agent for removing dirt and grease from the composition tops of metal furniture. To clean metal furniture, just go over it with a damp rag, then a dry one. Beware of harsh, gritty compounds which may scratch the chrome surface.

WICHITA FALLS — Jack Beatty, employe of a Wichita Falls roofing concern, fell to his death Wednesday from the roof of the nearly-completed Fain Memorial Presbyterian Church here.

### Doleful Doretta

A picture of dejection, because she failed to cop a prize at a San Francisco dog show, is Doretta, a pedigreed English bulldog.

### Garden City Has Horse Show Entries

GARDEN CITY — Among the Glasscock entries in the Sterling City Horse Show, scheduled Saturday, are L. B. Hallmark and Clyde Reynolds, who have filed entries in the Quarterhorse Division, and Sam F. Cox, who has listed an entry in the Thoroughbred Division.

The Sterling City Show, which begins at 9:30 a.m., will accept entries until time for the horses to enter the ring. More than 75 entries already have been accepted by the show committee.

### DAYS' LENGTH CHANGE

Sudden minute changes in the length of a day have been observed. For instance, it increased .004 of a second in 1897 and decreased by a like amount in 1918.

Approximately 145,000 members of 3,152 farm youth clubs in new Japan are now actively engaged in pursuits similar to those of American 4-H Club members.

### Midlanders Are State Fair Vice Presidents

DALLAS—Elliott F. Cowden and Fred Wemple of Midland have been appointed honorary vice presidents of the State Fair of Texas, R. L. Thornton, president, has announced. Gov. Allan Shivers heads the list of 85 as first honorary vice president. Others include Gov. Roy J. Turner of Oklahoma, Attorney General Price Daniel, Commissioner of Education J. W. Edgar, Railroad Commissioner Ernest O. Thompson, U. S. Supreme Justice Tom C. Clark and Senators Tom Connally and Lyndon B. Johnson.

President Umphrey Lee of Southern Methodist University, T. S. Painter of the University of Texas, G. L. Cross of the University of Oklahoma and Chancellor Gibb Gilchrist of the Texas A&M College System also are listed.

The State Fair of Texas is the nation's largest annual exposition. Dates for the 1950 Mid-Century Exposition of the state fair are October 7-22.

# SURE way to savings...

You're sure of savings when you shop Safeway. Our prices are low—not only on "specials" but on every item every day. In our way of doing business all expensive "frills" are eliminated. Savings thus made are passed on to you.

But that's not all! Our efficient way of buying... our trimmed-before-weighing meats... our priced-by-the-pound produce—all along the line we've developed ways to save you money. Shop at the sign of SURE savings—Safeway.

# DADDY RINGTAIL

By WESLEY DAVIS

## Daddy Ringtail and Hickety Pickety

Daddy Ringtail lives in the Great Forest, up in the top of a very tall tree, right there in his monkey house. But on the day I am going to tell you about, Daddy Ringtail was down on the ground by the chicken house. He was talking with Hickety Pickety, his black hen. She lays eggs for gentlemen. Suddenly through the forest came a noise of weeping and wailing. It was a sad, sad noise, the kind that the Sad, Sad Somebody makes when he is walking through the forest. He does it so everyone can run away, and not have to listen to his sad, sad talk. But Daddy Ringtail didn't run. He stood there and waited.

"Oh, Daddy Ringtail," said the Sad, Sad Somebody whose real name is much too sad to say. "Oh, Daddy Ringtail, I am so sad and unhappy," he said.

"I know," said Daddy Ringtail. "Don't look at my face!" cried the Sad, Sad Somebody. "It's a sad, sad face! It makes everyone sad who sees it."

"Don't say my name!" said the Sad, Sad Somebody. "It's a sad, sad name. It makes everyone sad who says it."

And so Daddy Ringtail promised that he wouldn't say the name of

a gentleman. It was a something he had never been sad about before, and he was going to use the whole day-long to be sad about it.

Daddy Ringtail smiled to hear these words, and then he said: "Hickety Pickety, my black hen, will you lay an egg for the gentleman?"

Hickety Pickety, clucked like the chicken she was, and then she reached in her pocket and pulled out an egg. She smiled a chicken-smile. Then she laid the egg on the ground at the feet of the Sad, Sad Somebody.

Said Daddy Ringtail: "Hickety Pickety is my black hen. She lays eggs for gentlemen. And so the Sad, Sad Somebody knew that he was really a gentleman after all, which is always a happy thing to be. Happy day!

## BACKYARD FIREPLACE ADDS ENJOYMENT DURING SUMMER

A backyard fireplace to add enjoyment to summer living is easy and inexpensive to build.

Fire brick laid in fire clay mortar is best. Other materials needed include: (6) to build 36-inch cubical fireplace; 18 pieces of 1 1/2-inch pipe 36 inches long; one length of eight-inch by eight-inch flue lining tile; a metal grill two feet square; 32-inch length of heavy angle iron.

"The society editor wants to know did she leave her lorgnette in here!"

# JACOBY ON CANASTA

By OSWALD JACOBY  
Written For NEA Service

"Please settle an argument for us," pleads a Cleveland reader. "A friend of ours tried a new one the other night, and she got very angry when we stopped her."

"She needed 50 points for her point maid. The card at the top of the discard pile was a nine. This player did not draw, but she put down three aces and then tried to take the discard pile with a nine and a joker."

"We stopped her from taking the pile, but it took three of us to hold her down. She was a lovely quiet girl before Canasta entered her life, so it's up to you to straighten her out."

Fine thing! Anybody has a right to get violent when she needs 120 points, but this business of raising Cain when you need only 50 points is carrying matters too far. Tut, tut, young lady.

My Cleveland correspondent was, of course, quite correct. The girl did not have the right to take the discard pile.

The rule is that you are allowed to take the discard pile with one matching card and a wild card only if your side has made the initial meld at a previous turn of play.

For example, with a wild card makes an initial meld, you may take the discard pile with a matching card and a wild card. If you make the initial meld yourself, you must wait until your next turn before you can use a wild card to take the discard pile.

Q—Is it permissible to meld two aces with three deuces as a single meld?  
A—Yes, this is a perfectly legal meld. You may combine a natural pair with three wild cards.

Q—How long does the discard pile stay frozen?  
A—Until it is picked up legally by one of the players. It then becomes a normal or unfrozen pile.

Q—Can you make a canasta of black threes?  
A—No. You may meld four black threes, or three black threes, or two black threes with a wild card. Those are the only melds possible with black threes.

Q—In the middle of a hand we discovered that the pack contained nine deuces. What should we do?  
A—Examine the deck carefully to make sure that it is otherwise all right. Take out the ninth deuce and begin the hand over. Any previous hands played with that deck are not affected. The previous scores stand.

**Beef Is America's Favorite Meat**

By GAYNOR MADDOX NEA Staff Writer  
 Beef steak and rib roasts are the pin-up cuts of meat to most Americans. Runners-up in this

popularity contest are hamburger, Swiss steaks, steaks and pot roasts. Cookery of beef varies according to the cut and the grade. For special meals you want the top-quality steaks for boiling or the rib roasts for oven roasting. However, the everyday budget calls for the tuffier cuts, the lower grades of beef which lend themselves to braising. These are the basis for Swiss steak, stew, or pot roasts and the many delicious dishes prepared from ground beef. Whether the cut is one large piece such as a chuck or rump roast, or a 2-inch-thick blade or round bone pot roast, round or flank steak, or cut into cubes for stewing, the same method of cookery is used. Cover meat with seasoned flour, brown in a small amount of fat and, with a little liquid added, cook slowly in a covered container until tender. The terms "roasting" and "pot roasting" are often confusing. Roasting, or oven roasting, where the meat is cooked in an open pan in the oven, is the method used for only the highest quality tender cuts. No water is added during the cooking. This is sometimes referred to as a "dry heat method of cookery."

**Pot Roasting**  
 Pot roasting is the method described above in which the meat is first browned and cooked in a covered pan either in the oven or on top of the range in a small amount of water or other liquid, because the liquid added is needed to help tenderize the less tender cuts of meats cooked in this manner. It is sometimes referred to as "moist heat cookery."

Typical of the pot roasting or braising method of cookery are the many ways of preparing and serving the ever-popular round steak. This cut, even though called "steak," should be cooked in a liquid to make it tender.

In purchasing round steak, plan on 1 1/2 to 1 3/4 pound per serving. Have the steak cut 1 to 2 inches thick for Swiss steak. Season and place on a well-floured cutting board. Cover with flour and pound with a meat hammer or edge of heavy saucer. Continue to turn flour and pound meat until all flour is taken up by the steak. Brown and braise in a small amount of liquid.

Cook with tomatoes or tomato juice in a small amount of water with browned onion and green pepper rings. Whatever your favorite, for ease and variation of service, cut the round steak into individual pieces before cooking.

**FOOD PRICE INDEX EQUALS YEAR'S LOW**

NEW YORK—P—The Dun & Bradstreet wholesale food price index this week declined two cents from a week ago to \$5.73—matching the year's low of January 3. The index was nine-tenths of one per cent above the year-ago level of \$5.68.

**U. S. LEADS IN POWER SOURCES**

The United States ranks far ahead of any other nation in the production of the four major sources of power—coal, natural gas, oil and hydro-electric power.

You can make a drainboard mat to protect dishes by cutting up an old Turkish towel and binding it with tape.
