GOP Solons Ask Ouster Of Lie As Top UN Official

WASHINGTON -(P)- Two Republican senators said Sunday Trygve Lie should be ousted as secretary general of the United Nations unless he withdraws his proposal for recognition of Communist China.

In a joint statement, Senators Bridges of New Hampshire and Knowland of California accused Lie of being a tool, if not an actual ally, of the Reds, and called on the Administration to seek his discharge if he doesn't stop urging that a Chinese Communist be seated on the UN Security Council. "Lie says, in effect, if Russia will

not accept the rules of the UN, the rules must be changed," their statement said. "What Lie proposes is more than

mere craven appeasement. It is surrender, abject capitulation." The two senators said the United States should use its veto, if neces-

sary, to prevent a Chinese Communist from taking a seat on the Security Council. "There is grave danger," they added, "that the Soviet Union may

destroy the United Nations by holding a gun at the head of each free nation with a dictate 'Do it our way-or else'."

Coal-Steel Alliance

Soon six European countries will begin negotiating to form a pool of their coal and steel industries. If they succeed they may wipe out a major source of the international Frictions which have taken Europe periodically into war.

A coal-steel alliance would be historic in another sense: it would mean that several proud nations had in the Interests of peace and economic well-being given up a pormion of their precious sovereignty.

Sovereignty is to world affairs what states' rights are No the national scene. It means the right of a government to control its own destiny without outside interference. Nations jealously have guarded this right.

But now they are beginning to see that its exercise does not actually assure them of control over their respective destinies. The world today is too closely interwoven. Attempts of nations to exist in isolated pockets are largely failures.

Great credit must go to France as the bold author of the coal-steel plan. Perennially fearful of neighboring Germany, the French nevertheless have mustered their scourage for a step which might prove the first big stride Howard unity in Europe. Italy, West Germany, Belgium, Holland and Luxembourg also merit commendation for joining the plan.

Britain has chosen not to take part at this stage. Its refusal doesn't bar possible participation when the pool is worked out in detail; it merely means the British were reluctant to do anything suggesting they were wholly *committed to the idea.

The British attitude is understandable. The Labor Navy, and that big business was stairs of New York hotels trying to government is worried over the effect a pool arrangement getting the juicy plums, some of avoid newsmen during his talks twould have on its controlled economy, especially on wages in its own coal and steel industries. finals, held in April. More than 1200 college students had a chance in the early rounds to show their skill with this hand. A very large number bid and played it correctly.

At most tables, the opening lead was the queen of diamonds, If South took this first trick he received a nice round zero.

The correct play is to allow West to hold the first trick with the queen of diamonds. South wins the diamond continuation (no shift would do any good) and enters

U.S. Informants State Vogeler May **Be Freed This Week**

VIENNA, AUSTRIA. - (P)- Reliable American informants said Monday that Robert A. Vogeler, American businessman jailed in Hungary on spy charges may be released this week.

The informants said Hungarian officials have made no definite promises, but indications are they may turn Vogeler over to U.S. officials Tuesday or Wednesday.

Vogeler, 39, an executive and roving European representative of the International Telephone and Telegraph Company, was sentenced by a Hungarian People's court last February on charges of espionage and sabotage. He pleaded guilty and was sentenced to 15 years.

There are few stronger urges in the human breast than that which grows out of the desire to stand well among our fellow beings.

And around this great basic emotion lies much of the appeal of a Cadillac car.

Alight from your Cadillac anywhere you will, in the presence of people, and certain splendid deductions are immediately made about you.

It could not be otherwise—for the wonderful people who own this car have made it so. In every community in America, a preponderant proportion of the leading citizens have long since turned to Cadillac.

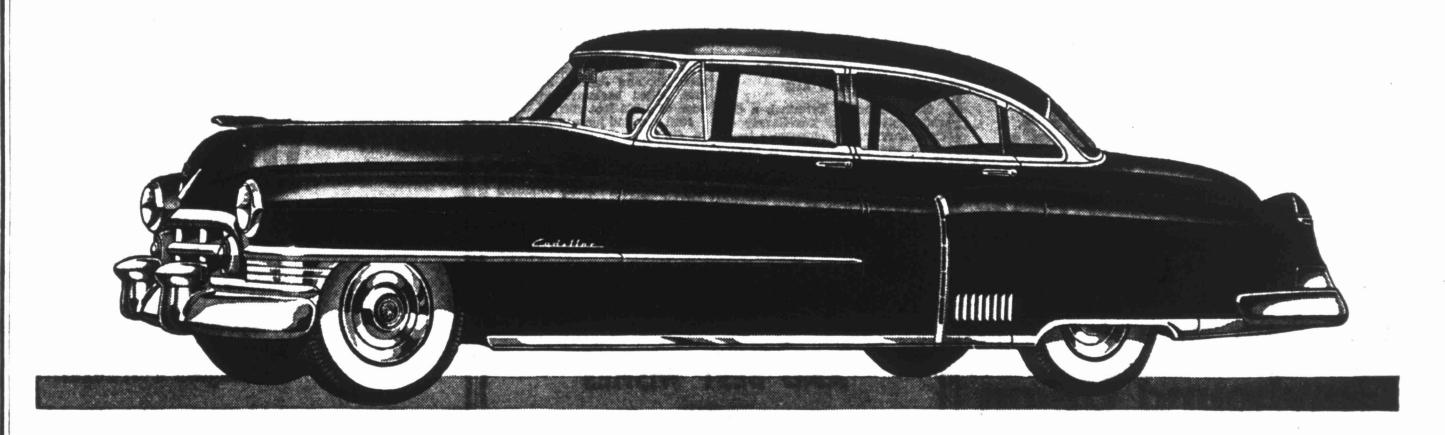

Out of this close association, the car has partaken of the character of its owners until it has now become their symbol. It is recognized throughout the world as the all but automatic companion to outstanding personal success.

The genesis of all this, of course, is quality. For almost fifty years, Cadillac cars have been built to the highest standards it is practical to enforce in the production of a motor car. And people of achievement and discernment have sought them out as water seeks its level.

Today, Cadillac stands uniquely alone in the things it reflects upon its owner. It all but writes his biography!

Have you thought of a Cadillac car for yourself? If so, why not come in some day, quite soon, and talk it over?

We think you'd be surprised and delighted at how easy and practical it has now become to join the wonderful people who own and drive this wonderful car.

Colts Edge Tribe In 14-13 Episode

The Midland Indians and the San Angelo Colts collide at 8:15 p.m. Monday in the final game of their two-game series. Ralph Blair or Glen Patton probably will hurl for Midland. Indio Beltran is the probable starter for San Angelo.

The Midland Indians, after handing the San Angelo Colts a nine-run lead in the first two innings, dropped a 14-13 decision Sunday in Indian Park. The game could have been the other way around easily enough, but some Midland players apparently like sixth place too well to

SHORTY SHELBURNE

We have come to the conclusion after watching Sunday's game that there isn't anything wrong with the Midland Indians that a few ultimatums wouldn't cure.

If about four or five players would be called to taw and made to understand that they either play ball or get out, things might brighten up.

The Indians didn't lose Sunday's 14-13 episode. Three or four loafers gave it away to the San Angelo

make up their minds they want to play ball instead of drawing their money under false pretenses. Until those loafers make up their mind to play, Midland will continue

Most ball players tell us Midland is a good place to play ball. Most of them like it to the extent they want to come back year after year. We know the salaries paid by the Midland ball club compare favorably with those paid by other clubs in the league. In fact, most of them run a little higher.

Maybe if it was driven home to the loafers that they would be shucked from the roster if they don't produce, things would change. -SS-

We still say the individual players, when placed in the proper positions, are as good as any in the league . . . potentially speaking. No man is worth a hoot if he loafs like some did Sunday.

Those individuals who loafed know who they are. They know when they didn't run and hustle in the Get them to play ball like they can if they want to and Midland

Allies Mine Roads, **Bridges In Europe** To Stall Red Threat

FRANKFURT, GERMANY. -(AP) -The Western Allies are reported mining key roads and bridges throughout West Germany and other parts of Europe to stall any possible Soviet attack.

These preparations came to light Sunday when a German magazine published pictures of a winding highway around famed Lorelei Mountain on the Rhine River in the French zone. The pictures showed a row of holes being drilled in the road and then covered with concrete caps. Explosive charges dropped into the holes would tumble the highway into the Rhine at one of its nar rowest points. American headquarters declined

to comment. But a French source in the Koblenz area said: "It is not only on this route on which such measures are taken and not only the French who are making such preparations. It is the Allied high command which ordered

Year-Old Plans Plans have been in the books for nore than a year for Allied occupation forces in Western Germany to fight a delaying action, if trouble

The plans call for evacuation of ivilians as rapidly as possible. Emergency signals have been given all dependents of U.S. Army and Air Force officials to be prepared to pull out if and when an alarm is flashed.

Indications are that the Western defense chiefs have drawn up a master plan for similar defense preparations in other European countries.

The pictures touched off a furore in the Russian-controlled East German press. The Communist newspapers did

not mention any possibility of a Russian attack, but declared the planned destructions were "part of an American aggressor's plan to march against the Soviet Union."

To The Citizens of Midland County:

Being ever mindful of the fact that a public office belongs to the people, and that the public official is a servant, I have announced my candidacy for the office of District Attorney for the 70th Judicial District composed of Midland and Ector Counties.

I am 32 years of age, married, have lived in Odessa for the past 12 years, and am a native of West Texas. I was licensed to practice law in Texas in 1939, and have been actively engaged in the practice for more than ten years. During this time I have served the people of Ector County for four years as their Justice of the Peace and am now serving my third term as their County Attorney.

Before seeking election to any office I have tried to become qualified to serve in such office. I was licensed to practice law before asking election as Justice of Peace. served as Justice of the Peace for four years prior to asking the voters of Ector County to elect me as their County Attorney. I am serving my third term as Ector County Attorney, and during my tenure of office have attended all sessions of the Ector County Grand Jury and assisted in the prosecution of all felony cases in the District Court. now feel that my experience has qualified me properly to serve as your District Attorney in the 70th District.

If elected, it will be my earnest desire to discharge the duties of the office fairly and impartially, without fear or favor, with a view not only of convicting the guilty, but protecting the innocent.

I hope that my record as a public servant to which your inspection is invited will merit your consideration of my candidacy, and that you will see fit to grant me this promotion.

Your active support and influence will be greatly appreciated.
