SERIOUS POLITICAL observers are about to lose patience with Congress, which has been wrestling with the President's 1983 Federal Budget for several weeks, with virtually no progress to show for their efforts.

True to his promise, President Reagan proposed a budget that would allow the country to run its business in a responsible way (the way the nation expects individuals and businesses to run theirs), and cut senseless spending by restoring a pattern of normalcy to the American way of life.

Before President Reagan's budget ever arrived in the legislature, there were screams of protest from special interest groups, which includes the broadcast media, controlled by the liberal eastern establishment.

To hear these folks talk, Reagan's budget was some sort of deep, dark plot to send the nation back into a depression. Congress therefore rejected the president's budget and called for changes.

Trying to break the stalemate, President Reagan revised his budget proposal, practically wrecking some of the money-saving features in a series of compromises.

Still, the liberal leaders of the Democratic party, House Speaker "Tip" O'Neill and House Majority Leader Jim Wright of Fort Worth have rejected the budget.

Other congressmen, including some from the president's own party, have come up with suggestions which would further wreck Reagan's budget, and almost completely eliminate the tax breaks he has proposed for the burdened taxpayers.

All of this debate is being done, by the way, by a congress whose final act of the last session was to vote themselves deductions of up to \$75 a day in tax benefits, a new law applicable to Members of Congress only.

It's almost as if they are now saying: "We got OUR tax break, and now we're going back to business as usual, and the taxpayer (as usual) is going to really pay."

As one editorial writer said this week, American voters may be a lot more sophisticated than their representative in Washington gives them credit for. While there are millions who still believe in and profit from federal boondoggles, welfare, food stamps, etc., millions of others, although having compassion for the truly needy, have about had all they can take of freeloaders riding their backs.

The big argument advanced by the liberals opposed to President Reagan's budget is the "scare" tactic thrown in regarding a possible cut of Social Security benefits.

This just is not the cast, except for certain students, and dependents who should not have been on Social Security in the first place.

A big problem with the budget-making is the built-in cost of living allowance increases for a number of those who are already on the welfare "dole." This would be a simple matter to solve, if some of us from this section of the country were allowed to vote on the budget.

Voters—and taxpayers—need to flood their congressmen with mail, and not only protest the greedy fee they voted themselves, but urge them to pass the president's proposal—without eliminating the tax benefits he has promised the American people.

Otherwise, most congressmen still have an appointment with their constituents, come November.

New Library Completed; Move Eyed

A longtime dream came true for a number of local residents with the completion of Friona's new library building.

The library has been closed for the past several days, in order that bookshelves could be painted, and to prepare for the move to the new building.

"We are so proud of our beautiful new library building," said librarian Billie Fairchild. "Tentative plans are underway for an open house, so that we can show off our new facility. The time and date will be announced later," she said.

The 3,750-square foot building was built entirely through donations. The fund drive was headed by the Friends of the Library, and library board members. More than \$70,000 have been raised as contributions for the new library.

Friends of the Library are hoping to receive additional donations, with which to purchase fixtures for the building. Recent contributions have paid for a built-in circulation desk, a cabinet-counter with built-in sink, located in the meeting room, and two sidewalks in front of the building.

"Of immediate need, however, are furnishings for our study area and a slant-top table for the children's section," Mrs. Fairchild said.

Local builder Delton Lewellen has served as general contractor

Superintendent Sam Barnes will then give the welcome, and this will be followed by the history of the class by Gay Elliott.

Rev. Louis Crenshaw, minister of the First Methodist Church, will present the spiritual message to the class, followed by the salutatory address by Cynthia Everett.

Elementary Principal Charles Beam will present the main commencement address to the class, with the valedictory address by Terry Jesko to follow.

High School Principal Toby Booth will present the awards to the seniors, and the class will present a gift to the school.

Friona Flashbacks

....from the files of The Friona Star

50 YEARS AGO--MAY 13, 1932

There was a good deal of surprise manifested in Friona last week when the report became current that Friona had changed postmasters over Sunday, and that John A. Guyer, retiring postmaster, had given place to his successor in office, Dayton H. Hanson. Mr. Guyer has served the people of Friona and its locality for the past seven or eight years.

40 YEARS AGO--MAY 8, 1942

C.E. McLean, cashier at Friona State Bank, will leave Monday for induction into the U.S. Coast Guard, it was announced this week. Frank Truitt has also enlisted in the Coast Guard and is waiting his call to active service. Wright Williams expects to be inducted into the Coast Guard on June 1.

W.L. Edelman this week purchased the Magnolia Petroleum Company agency for the Friona territory from Wright Williams, who has enlisted in the Coast Guard. Mr. Edelman has been superintendent of schools in Friona for the past four terms, and resigned his position recently.

G-522DR

Look to the G for leading over-all performance.

Year after year, growers come back to Funk's G-522DR.

Why? Because it performs consistently. Through good years and bad, disease pressure or drought.

And now, G-522DR is available as HERBISHIELD seed, so you can use BICEP[®] or MILOCEP[®] herbicide for tough, highly effective control of both weeds and grasses.

All across the sorghum belt, G-522DR yields are impressive, topping major competitors time and again.

G-522DR is resistant to downy mildew. Head smut, too. And has resistance to Strain A of Maize Dwarf Mosaic Virus (MDMV-A), and tolerance to northern leaf blight. It's tropically adapted for extra weatherability. Develops sturdy stalks. Stands uniform. And produces high-quality golden-bronze grain.

Its wide adaptation and medium maturity make G-522DR easy to manage, a wise addition to most sorghum programs. Plant G-522DR this year. Chances are, you'll come back.

G-522DR, HERBISHIELD or regular. Setting a new pace in sorghum.

Funk's is a brand name. Numbers identify varieties. The location of variety and variety on the bag, attached to each bag of Funk's G-Hybrid seed is a part of the terms of sale thereof.

At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Friona

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Friona this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utilities Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

	Friona		
	Texas PUC Standards	January 1981	Most Current Figure
% customer calls answered promptly business office/ repair service	90	91.2	96.0 98.7
% service order commitments met or exceeded	90	93.3	100
* % local calls completed on 1st try	98	98.7	100
* % direct dialed long distance calls completed on 1st try	95	82.0	99.5
% out-of-service trouble cleared within 8 working hours	90	95.6	98.7

*these results based on electronic testing

G-611 G-550

Look to the G for new genetic potential.

Looking for ways to increase yields? Here are two new Funk's G-Hybrids that can. Both available as HERBISHIELD seed to let you use BICEP[®] or MILOCEP[®] herbicide for better control of weeds and grasses.

G-611. Medium-maturity hybrid with excellent resistance to Strain A of Maize Dwarf Mosaic Virus (MDMV-A). Plus multiple resistance to head smut, downy mildew and anthracnose. Also greenbug resistant and tropically adapted. Strong stalks and good exertion for easy combining. Top yield potential.

G-550. This one's sure to draw second looks along your roadside, with its creamy colored grain. Nutritious, good feeding. Medium-early, but yields like later hybrids. Resistant to greenbugs, head smut, downy mildew and anthracnose. All-around performer with a visible difference.

G-611 and G-550, HERBISHIELD or regular. Setting a new pace in sorghum.

Unbeaten List Trimmed In Little League Play

SENIOR LEAGUE

Cattle Town continued undefeated in the Senior League, scoring a pair of wins during the week to run their season's record to 4-0.

The Feeders downed Benger Air Park, 11-4 in a game last Thursday, scoring seven runs, the margin of victory, in the fifth inning. Pete Castaneda had four hits, including a triple, and scoring three runs. Ricky Barnett had three hits and scored a pair of runs for Cattle Town.

Black Grain scored their first win of the season by downing Bovina, 11-7 in a game Friday evening. Black sent ten men to the plate in the first inning, scoring five runs, and were never headed. Black took advantage of errors by the Bovina team, along with pitching wildness which produced a number of walks, in taking the win.

Cattle Town sent 11 men to bat in the first inning of their game with Bovina, likewise scored five runs, and went on to a 10-6 win. Four walks and three hits produced the five first-inning runs.

Benger and Black played to a 9-9 no-decision game on Tuesday, as time ran out on the teams after only three innings.

Standings: Cattle Town 4-0; Benger Air Park 1-2; Black Grain 1-2; Bovina 1-3.

MAJOR LEAGUE

Friona State Bank scored two wins in a week's time to tie for the league lead in the Major League. The Bankers downed Friona Star, 16-4 on Thursday, and then scored an 11-2 win over Friona Feed Yard Tuesday to run their season record to 3-1.

The Feed Yard had made their record 3-0 by downing Reeve Chevrolet-Olds, 12-5 on Friday.

Walks were the name of the game in the Bank vs Star game on Thursday. Bank pitching gave up 11 walks, to eight for the Star, but the Bank players got a few more hits to go with their walks in the 16-4 win.

Friona Feed Yard likewise took advantage of wildness on the part of Reeve pitching in the Friday game. Fourteen free passes by Reeve, needed only three hits mixed in to produce 12 runs, in the 12-5 win for the Feeders. Iban Hernandez had a double for the winners.

Reeve bounced back on Monday to take a 10-4 win over Friona Star. Kevin Frye had four hits and Damion Romero three to pace Reeve's attack. Cody Bracken had a pair of hits, including a triple, to pace the Star batters.

Walks again figured strongly in the outcome of the Bank vs Feed Yard game Tuesday, in which Friona State Bank took an 11-2 win to tie the Feeders for first place in league play.

Standings: Friona Feed Yard 3-1; Friona State Bank 3-1; Reeve Chevy-Olds 2-2; Friona Star 0-4.

MINOR LEAGUE

Ethridge-Spring edged past Friona

Ford in the feature game of the Minor League's week, 10-9, to remain unbeaten in loop play. E-S batted around in their half of the fourth inning, scoring the winning run with two men out.

Marty Gonzales had three hits for Ethridge. Hector Perez had three hits for Friona Ford.

Parmer County Implement lost to Hi-Pro, 13-9, and was on the way to a win over the B.J. Bees, 17-6 when time expired in this game, which will have to be completed. Andre Duran had two hits and three runs in the B-J game.

Greg Stowers walked twice and singled to lead Hi-Pro to their win over PCI.

The other game involving league teams found Friona Ford taking its first win, an 11-7 decision over the B-J Bees last Thursday. Friona Ford scored eight runs in the third inning, getting a home run from Pat Upton and a triple by Hector Perez.

Standings: Ethridge-Spring 3-0; Hi-Pro 1-1; Friona Ford 1-2; Parmer

Co. Implement 1-2; B-J Bees 1-2.

T-BALL LEAGUE

Only two games were played in the T-Ball League in the week's period, both involving Hub Grain.

Previously winless, Hub rose up to smack two previously unbeaten teams. They outlasted Credit Union on Friday, 16-15, and then scored a 32-30 win over Jack and Jill on Monday.

Hub was hitting the ball well in their win over Credit Union. They had a 16-9 lead, and Credit Union's fourth-inning rally fell one run short. Chad Hamilton had a couple of homers for Credit Union.

The Monday game sounded like a basketball score. The inning scores were 5-5, 12-11, 19-15 and 26-22. Jack and Jill scored eight times in the fifth inning, but their 30 runs, not a bad offensive showing, fell two runs short.

Standings: Credit Union 2-1; Jack and Jill 2-1; Hub Grain 2-2; Tasty Cream 0-2.

AWARD-WINNERS....Among the major award-winners at FHS were (back) Andy Fleming, science; Shawn Osborn, art and Amber Smith, English. Front: Heather Fortenberry, social studies; Frances Pena, business, and Tawnya Hand, DE.

Jackie Crabtree, Charles Fangman Exchange Vows In Hereford

Jackie Linda Crabtree of Hereford and Charles Walter Fangman of Friona exchanged wedding vows in Hereford's First Baptist Church on Saturday, May 15 at 5 p.m. The bride's parents were married 33 years ago on that date.

The bride is the daughter of Mr. and Mrs. J.E. Crabtree of Happy, Texas. Mrs. Helen Fangman of Friona is the groom's mother.

Doug Manning of First Baptist Church in Hereford and Father Ronald McGovern S.A. of St. Teresa's Catholic Church in Friona performed the wedding ceremony.

The church was decorated with two white wicker baskets arranged with white gladiolas, pink carnations, yellow daisies, blue mini carnations and orchid daisies. A pair of brass candle trees and a double brass kneeling bench completed the church decorations.

Mr. and Mrs. Michael Price of Stratford accompanied Donna Kendall of Hereford as she sang "The Rose" and "The Promise."

As the bride was presented in marriage by her father, she wore a formal length gown of white chiffon. The bodice was fashioned with a Queen Anne neckline and a sheer point d'espirit back yoke. The front bodice was embroidered with venice lace and was accented with pearls. The sheer full bishop sleeves were caught at the wrists by wide lace cuffs. The a-line skirt fell from the empire waistline. The front of the skirt was accented with venice lace appliques and a border of scalloped lace trimmed the bottom and extended to encircle the full chapel length train.

To enhance her gown, the bride chose a walking length veil of bridal illusion. The headpiece was covered in venice lace and was accented with pearls. The two layer veil was edged in lace and scattered with lace appliques.

For her jewelry, she wore diamond earrings, a wedding gift from her parents, and a single strand pearl necklace, a gift from the groom.

She carried a white lace nosegay containing white silk roses and small pink tea roses. The bouquet also contained small pink daisies and white starflowers, accented with white silk baby's breath, white lace streamers and pink satin picot ribbon.

Mrs. Randy Sims of Pampa was the matron of honor. Mrs. Joann Childers of Midland was the bridesmaid.

The feminine attendants wore floor length gowns of soft blue quiana. The pleated skirts fell from the fitted waistlines accented by a string tie. The scooped necklines were encircled by a wide ruffle of blue chantilly lace covering both the front and back bodice giving a cape effect. They carried bouquets of light blue silk roses and baby's breath accented with white ribbon streamers.

Richard Stengal of Hereford served as best man. Groomsman was Lawrence Brorman of Hereford.

Serving as ushers were Steve Crabtree of Houston, brother of the bride, Scott Fangman of Friona, Russell and Brendon Fangman, both of Dumas, all nephews of the groom.

Lana Fangman of Friona, niece of the groom, served as flower girl. She is the daughter of Mr. and Mrs. Teddy Fangman of Friona.

Candlelighters were Denise and Carrie Fangman, both of Dumas, nieces of the groom.

Debbie Byers of Dallas, cousin of the bride, was the coordinator.

The reception was held in the Knights of Columbus Hall in Hereford. A dinner and dance followed the reception.

Mrs. Tom Wine of Bedford, cousin of the bride, and Donna Paetzold of Hereford, cousin of the groom, presided at the guest register.

The four tiered wedding cake was decorated in white. The bottom two layers were stacked and were decorated with blue roses, tiny rosebuds and sweet peas accented with white leaves. Large shells with string work were the bottom borders. The two top layers were separated with lace filigree pillars. They were complimented with flower garlands.

An air conditioner can improve the performance of your furnace.

An air conditioner?

A very special air conditioner called the add-on heat pump. It cools in summer and heats in winter. And it works with whatever kind of furnace you have.

The add-on heat pump will improve the performance of your furnace by keeping it off completely during a good portion of the winter. The add-on heat pump can satisfy your home's heating requirements more economically when temperatures are above 30° or so. That's about 80% of our area's normal heating season.

Then, when summer comes, the heat pump becomes a cool pump, efficiently air conditioning the home. So, when you're in the market for air conditioning, look into the add-on heat pump.

Local Student Is Selected At Fair

Andrew Lynn Fleming of Friona is one of six alternate winners of the U.S. Department of Energy (DOE) Special Awards at the 33rd International Science and Engineering Fair. The fair was held

May 10-14 in Houston, Texas.

If one of the top ten winners cannot attend, Fleming and his project advisor may spend an energy research orientation week from July 26-30 at DOE's Oak Ridge National Laboratory in Oak Ridge, Tennessee, and a day at the 1982 World's Fair in Knoxville, Tennessee. The fair's theme is Energy Turns the World. Alternates and winners will each receive a certificate of achievement from the Department of Energy.

Fleming's project, Design Characteristics Influencing Windmill Performance, involves designing and testing a windmill to determine the efficiency of blade angle of attack and number relative to revolutions per minute. Richard Tullis of Friona High School is Fleming's advisor.

Over 450 winners of regional fairs across the United States and 20 foreign countries compete in the international science fair each year. This year there were 12 different categories available for students to enter. More than ten per cent of the total were related to some form of energy.

The International Science and Engineering Fair is administered by Science Service, a non-profit organization which tries to encourage young people to develop an interest in science. The Department of Energy participates in the special awards program of the fair for the best energy-related exhibits.

Oak Ridge Associated Universities coordinates judging for the Department of Energy. Special awards sponsored by the Department of Energy's Office of Energy Research are based on scientific excellence and educational value of the projects. Participants are also interviewed personally by each judge to assure relevant understanding of the science and technology involved in the project.

ORAU is a not-for-profit association of more than 50 colleges and universities. It is a contractor of the U.S. Department of Energy, conducting research and educational programs in the areas of energy, health, and the environment for the Department, other private and governmental organizations, and ORAU's member institutions.
