Teeples Open House Celebrates Their 50th Wedding Day

Mr. and Mrs. R. I. Teeples celebrated their golden wedding anniversary Sunday afternoon at their home, 509 West California street. Mr. and Mrs. Teeples were married on November 12, 1901 in Waco, Texas, and moved to Floydada in 1917.

They have six children, thirteen grandchildren and five great grandchildren. All were present for the occasion, except one granddaughter, who was away in college.

Mr. and Mrs. Teeples were seated on an antique love seat, near the door, where they greeted the guests. Mrs. Teeples was dressed in a black crepe and wore a corsage of yellow rose buds. Mr. Teeples wore a grey suit with yellow boutonniere.

The guests were received at the door by the daughters of the honored couple, Mesdames Milton Terry, Verne Nelson and Harold Hamm of Amarillo.

The serving table was laid with an Italian linen cut work cloth, centered with a floral arrangement of large yellow mums, with yellow tapers in crystal holders. A three tiered anniversary cake, decorated with gold nuggets, roses and a gold "50" placed on top, was served with gold punch by Mesdames Raymond Teeples, Gaines Teeples and Leighton Teeples. On the buffet was a companion arrangement of gold and bronze mums in container with a large gold "50" in the center of the arrangement.

Over one hundred guests registered at the guest book, during the receiving hours of two until six o'clock.

HIS '60 PLUS' BIRTHDAY
Mrs. W. B. Jones honored her husband, W. B. with a dinner on his "60 plus" birthday, Wednesday night, November 7.

All the children were present and most of the grandchildren. They were Mr. and Mrs. Jew Harkins and children of Crosbyton; Mrs. E. R. Milton and daughter, Mr. and Mrs. Roe Jones and daughters, Mr. and Mrs. R. T. Jones and family, Mr. and Mrs. Bill McNeil and family, Emile Cardinal, Miss Oleta Hinsley, Mrs. Adron Fields and Rickey, all of Floydada, and Mrs. Lloyd Otten and son, Larry of Clovis, New Mexico.

Mr. and Mrs. Monroe Boteler and two daughters, Beverly Joe and Anna Beth, of Artesia, New Mexico, visited from Saturday until Monday with her parents, Mr. and Mrs. C. M. Lyles.

Football fields are called gridirons because the white lines crossing the field resembles a gridiron.

Mr. and Mrs. R. I. Teeples . . . Honored by their children and friends on their fiftieth wedding day.

Local Talent Vies in Displaying Collections of Arts and Hobbies

The third art exhibit sponsored by the 1929 Study club last Saturday afternoon in Fellowship hall of the First Christian church was the most successful one yet. Fifty-one persons entered numerous and lovely and interesting displays.

Proudly displayed were beautiful oil paintings, large and small, by Mrs. E. J. Barker and some of her pupils. An etching by Dane Clark received many compliments. In the display of oils were entries from two Ralls artists, Mrs. Cecil Melton and Rex Kimbrough. Both artists showed talent and study in their works. Receiving much praise was a portrait of Mr. Kimbrough's son, painted by the father.

Ceramics exhibited by Mrs. H. M. Redd and Mrs. Clyde Henderson were of a beautiful assortment. China painting is again proving to be a hobby by many of the women in Floydada. Hand painted plates by Mrs. Raymond Evans and Mrs. Russell King, Mrs. Barker and Mrs. D. D. Shipley received many compliments. Mrs. L. C. McDonald showed beautiful needle point work and other pieces of her handwork. The cut work table cloth of Mrs. Roy Leslie and her other cut work pieces were praised. A crochet bed spread made by Mrs. Tom Deen got verbal applause also. The leathercraft by Joe Mack Dunn and the hand-fash-

ioned brass card tray of John Buchanan received much praise.

A collection of 88 salt and peppers by Mrs. Grady Walker; a doll collection of Mrs. Walter Newell; a mug collection of Ray Walker and a beautiful assorted and interesting collection of demi-tasses of Mrs. Jim Word, were among the hobby items seen.

One of the outstanding pieces of artwork was an assortment of wild flowers and grasses, hand painted and put on black velvet, in an antique frame under glass, entered by Mrs. Preston Watson received much praise. The coloring against the black velvet was beautiful.

The needle point pictures of Mrs. Fred Brown, a net darning table cloth by Mrs. D. D. Shipley and the beautiful quilts entered by Mrs. O. G. Glassmoyer and Mrs. L. C. McDonald received loud praise. Mrs. Glen Poole displayed ribbon corsages, and Mrs. C. W. Denison had made some beautiful aprons.

Over 100 visitors signed the guest book during the afternoon. Guests registered from Ralls, Lockney, Silvertown, Matador, and Prosper, Texas, Columbus, Ohio, and Leighton, Alabama, and other near-by communities.

At the tea table, Mrs. Carl Minor, jr., poured hot spiced tea from a silver service and cookies were served with the tea. For a center piece, a large fruit and flower arrangement was centered with a big holiday red candle. This arrangement was on a silver tray. It was made by Mrs. John Hoffman. On the registration table was an unusual fruit-in-a-wooden-cane arrangement, also arranged by Mrs. Hoffman.

At 4 o'clock the guests assembled in and near the parlor of the church to hear a fine arts program, when Mrs. L. J. Welborn introduced the artists, in a gracious manner.

Donald Smith rendered a piano arrangement by Chopin and Mrs. I. T. Graves read the beautiful and well known story, "The Last Leaf," by O'Henry. Mrs. L. H. Christensen sang "Goin' Home" accompanied by Mrs. C. B. McDonald and Mrs. J. M. Willson, sr., gave an interesting talk on famous art galleries. Some she had visited while abroad. She mentioned the art museum in Washington, D.C., as one of the most beautiful she had ever seen.

The members of the 1929 Study club wish to thank each person who helped make the art exhibit and fine arts tea a success. "If this undertaking has meant something to the people of our county and has helped to encourage talent in any form in our community, we feel that our expended effort has been rewarded," said Mrs. Kinder Farris, president of the 1929 Study club.

Herbert Sims, who had major surgery in Dallas in October has returned to his home on the Matador hiway and is improving, his father, C. B. Sims reported Wednesday morning. Herbert (Yam) have visitors. He is glad home.

The dining table was covered with a lace cloth and centered with a Cambridge Arms crystal unit holding three gilded tapers and a bowl containing one large golden mum. At one end was a silver tea service, and at the other, a three tiered wedding cake, decorated with yellow frosting and topped with a wedding bell. Individual cake squares, iced with yellow and decorated with the figures "50" were served with hot spiced tea. Mrs. J. L. Woodruff, Mrs. W. W. Clements and Mrs. Rish I. Patton alternated in pouring.

Corsages for the honored couple were yellow rosebud, for Mrs. Eubank and yellow chrysanthemum boutonniere for her husband.

Mr. and Mrs. Eubank were married on October 22, 1901 in Palo Pinto, Texas. They lived there until 1920 when they moved to Floydada and made their home until 1940. They resided in Lubbock from that year until coming to Matador. The couple have 10 grandchildren and four great grandchildren.

Attending the celebration from out-of-town were two brothers of Mrs. Eubank, C. M. Boggus of Lubbock and Mr. and Mrs. W. N. Boggus of Gordon, Texas; a niece, Mrs. Paul Williams and children also of Lubbock; Mr. and Mrs. Claude Wilson of Sweetwater; Mr. and Mrs. Harry Sweetnam of Lorenzo; Mr. and Mrs. R. H. Tanner and Mr. and Mrs. B. A. Tanner and Beth, of Plomot; P. C. Harmon, Mr. and Mrs. E. C. King, Mr. and Mrs. John Key West, and Mesdames W. M. Massie, Pierce King and Kenneth Bain all of Floydada.

Eubanks Observe Anniversary Day With Open House

MATADOR, Nov. 5—The home of Mr. and Mrs. Freeman Thacker Sunday was the scene of a celebration observing the golden wedding anniversary of her parents, Mr. and Mrs. B. M. Eubank, residents of Matador since 1945.

Other children of the couple, Mrs. Jack Jernigan of Petersburg, J. G. Eubank of Levelland and H. E. Eubank of Midland, and their families were co-hosts with the Thackers in holding open house from 2 p.m. until 6 p.m. Sunday, when approximately eighty friends called.

Miss Betty Jo Eubank of Lubbock, a granddaughter, registered the guests.

Mums and other fall flowers decorated the receiving rooms, and an attractive mantel arrangement was made of gilded styrofoam and consisted of the figures "50" in an upright position, with a large bow of

bronze and gold satin ribbon at its base, with streamers bearing the names of the couple, "Bertha" and "Ben". Flanking the figures were three yellow tapers on each side, and greenery concealed the base of the entire arrangement.

The dining table was covered with a lace cloth and centered with a Cambridge Arms crystal unit holding three gilded tapers and a bowl containing one large golden mum. At one end was a silver tea service, and at the other, a three tiered wedding cake, decorated with yellow frosting and topped with a wedding bell. Common Causes Accidents Among Hunters

Nov.—The seasons are well established and prospects for a pretty fair hunting season in Texas. The routine will not be complicated by the distribution of "forms" according to the game wardens. The theory that stressing the advance might save the chief clerk a potent section or two in the more complex of hunting casualties: discharge of firearm. moved into line of fire warning. covered by excited shooter. mistaken for game.

stumbled or fell. caught in brush. game or cover. weapon from boat or fence.

know it was loaded. suggested sport. these main causes of accidents, become more common and help curb.

Gross-Hinton Vows Said November 11 in Home Ceremony

At 3:00 p. m. Sunday, November 11, in the home of her parents, Olive Nan Gross, became the bride of James Henry Hinton. The Reverend Tilden B. Armstrong of the First Methodist church officiated.

The bride is the daughter of Mr. and Mrs. Fred Gross of the Sand Hill community. The groom is the son of Mr. and Mrs. J. R. Hinton of Dougherty.

A large window with drawn drapes was the background for the double-ring ceremony. The vows were exchanged before a flower bedecked archway with tall tapers.

The wedding music was played by Miss Dorothy Holmes. She played "Always" as a prelude. "Indian Love Call" was played while Mrs. Lucille Miller lighted the candles. Miss Iva Mae Wright was the bride's only attendant. She was gowned in black velvet with black and white accessories. She wore a corsage of white rose buds. Marvin Lyles attended the bridegroom as best man.

The bride's mother wore an emerald green crepe dress with a gardenia corsage. The groom's mother was attired in a grey suit with corsage of white gardenias. Other members of the house party wore corsages of white carnations.

The bride entered on the arm of her father to the strains of "The Wedding March." "Till the End of Time" was played softly during the ceremony.

The brides dress was grey taffeta with black velvet trim. The dress had a fitted bodice with a very full skirt. Her accessories were of black velvet. She chose a corsage of pink rose buds. She wore a triple strand of pearls, a gift of the groom. For something old she wore a ring belonging to her mother, something new, her wedding attire, something borrowed, a handmade linen handkerchief belonging to her sister, and traditional blue garter with a penny in her shoe.

A reception was held immediately following the wedding ceremony. The table was decorated in the brides chosen colors of pink and

white. The three-tiered wedding cake was served by the bride's sister Mrs. Mary Sue Fowler. The groom's sister, Mrs. Christine Lyles, poured the punch.

Wedding Trip in South Texas
Following the reception the couple left for a wedding trip to points in South Texas. After the wedding trip they will be at home near Dougherty where the bridegroom is engaged in farming.

Both the bride and groom are graduates of Floydada High school. The bride was employed by the Floydada Dental clinic for two and one-half years prior to her marriage.

Those attending the wedding were Mr. and Mrs. H. W. Graham of Amarillo, Mr. and Mrs. Oliver Gross, Mr. and Mrs. Ervin Graham of Plainview, Mr. and Mrs. John Lyles and Linda of Hale Center, Mr. and Mrs. Gene Alexander and David of Lubbock, Mr. and Mrs. Harry Hughes and children of White Deer, Mrs. Ada Hinton, Mr. and Mrs. William Hinton of Dougherty, Rev. and Mrs. Tilden B. Armstrong, Mr. and Mrs. L. J. Fowler, E. L. Landtrock, and C. H. Bradford, all of Floydada, and Mr. and Mrs. Fred Gross and sons, Don, Allan, Jerry, Thacker, and Pat, of the parental home.

Mrs. S. H. Tackett gave a turkey birthday dinner Sunday in honor of her husband, Mr. Tackett and her son-in-law, L. F. Ellison. Those present to enjoy the dinner were Mr. and Mrs. L. F. Ellison and family and Mr. and Mrs. Duret Ellison and family, all of Crosbyton, and Mr. and Mrs. Wade Thornton and family of Falls.

Mr. and Mrs. Galen Holland and Mr. and Mrs. R. C. Clem spent Sunday in Lubbock.

Mr. and Mrs. Claude Ring had as their guests this past Sunday and Monday, his mother, Mrs. Lee Ring, and Mrs. Winnie Soltz and Donna Brandon of Quanah.

No chance of fouling up this Thanksgiving Tom for the children of the Texas Scottish Rite Hospital for Crippled Children in Dallas with Diane Canaday, Quitman, and Ray Greathouse, Mobeetie, two of the hospital's star patients, on hand for the roasting.

Genevieve Boyd And Billie E. White Wed October 28

Miss Genevieve Boyd and Billie E. White were united in marriage in a double ring ceremony Sunday afternoon, October 28, in the home of the bride's parents, Mr. and Mrs. J. D. Eaves. George E. Darling, minister of the City Park Church of Christ officiated.

Only members of the contracting couple's families and close friends were present.

The bride chose a brown suit with brown accessories, and carried a white bible on which was a white camellia. Her sister, Mrs. Hattie Kinard, was her attendant. She wore a grey suit, with red accessories and red rose corsage.

Varnell White acted as his brother's best man.

Following the ceremony the couple left on a short trip to Carlsbad, New Mexico. A reception followed the ceremony, when wedding cake and punch was served by Mrs. Hattie Kinard and Miss Anette White, sisters of the couple. White spider mums decorated the table and the cake was decorated in white with a miniature bridal couple placed on the top.

Miss White is a graduate of the Floydada High school with the class of 1950 and is employed at Leonards.

Mr. White is the son of Mr. and Mrs. John White. He has only recently been discharged from the armed forces. He spent three years in the service, with one year in Japan. He is now farming with Leiland Woodward of the Campbell community. Mr. and Mrs. White have an apartment at 429 West Kentucky street, Floydada.

Fairview Club Met With Mrs. Wilson

The Fairview Home Demonstration club met on Monday, November 12, with Mrs. W. B. Wilson as hostess. The president, Mrs. E. W. Walls called the meeting to order and roll call was answered, "Things I am thankful for."

During the business meeting it was decided to have our birthday party and Christmas party combined on December 10, the place to be announced later.

Three of our members, Mesdames S. H. Tackett, Galen Holland and T. C. Goodman are taking the first aid course being taught in Floydada by Mrs. Roy Wilkes.

Miss Leila Petty gave a demonstration on care of clothing. This included the correct way of pressing seams on the sleeve board and curved seams on "hams". These are pads curved to fit the contour of the seams. She also starched a plaid blouse and ironed it. In starching dark colors or plaids the sizing is made of gelatin instead of starch, she said. The gelatin will not leave white particles as the starch does. The correct way of using spot remover on fabrics was also shown.

Members present were Mesdames Joe Wilson, L. B. Cosby, T. L. Perry, E. W. Walls, Walton Wilson, Shirley Irwin and C. W. Payne and the hostess.

At the next meeting Mrs. Joe Wilson will give a book review. All members please be present.

'Rome of the North'

Germany's ancient "Rome of the North" is making a determined bid for a prominent postwar role in Europe's economic life. The vitality of Bremen in recovering from the saturation bombing of the Allies during World War II comes as no surprise, however, to students of the city's history. From the time of its founding on the Weser River in the 8th century to the present, Bremen has been racked by wars, insurrections, and revolutions. Its buildings have been plundered and burned countless times; generations of its citizens have been put to the sword. Yet the life force of the city has survived each disaster to bring it to a 20th century position among the top shipping and commercial cities of northern Europe.

Bonnie Fuqua And Lloyd Phillips Are Married in Clovis

In Clovis, New Mexico, Saturday morning at 11:15 o'clock in the First Methodist church, Miss Bonnie Fuqua and Lloyd Phillips were united in marriage in a single ring ceremony by the pastor, Reverend Thomas Raper.

The bride wore a rose and navy suit with navy accessories. Mrs. Oleta Cardinal was the bride's attendant. She wore a grey suit with navy accessories.

Emil Cardinal of Dougherty was the bride-groom's best man.

Mrs. Inez Otten, of Clovis, an aunt of Mr. and Mrs. Cardinal, attended the wedding.

Mrs. Phillips is the daughter of Mr. and Mrs. Floyd Fuqua. She was graduated with the class of Floydada High school in 1947. She is employed by the First National bank in Floydada.

Mr. Phillips is the son of Mr. and Mrs. Floyd Phillips of Dougherty and is employed by Patton Dairy. The couple are at home at 521 West Georgia Street.

Tuesday Evening Open House Has Pleasing Program

Members of the four study clubs, who sponsored the community open house on Tuesday evening at the First Baptist church, were well pleased with the success of the evening. Owing to several conflicting programs and entertainments, the audience was small.

The 1934 Study club was responsible for the table decorations and the flowers, which carried the Thanksgiving motif. Miss Ruby Lee

Bevill gave a program of four solo numbers and the Blue Notes, sponsored by Miss Bevill, favored the audience with several numbers.

Dr. E. N. Jones, vice president of Texas Tech college in Lubbock was guest speaker. His topic was "Security." Dr. Jones is a capable speaker and is no stranger to Floydada audiences, as he has been guest speaker on four different occasions here. His talk was well received.

Brownie Leaders Elect Officers

The leaders and committee mothers of the Brownie organization met Monday night, November 12, in the Floydada National Farm Loan association office, to elect officers and make plans for the remainder of the year.

Officers elected were Mrs. Jack Lackey, president, Mrs. C. H. Dempsey, vice president, Mrs. Ray Smith, secretary, and Miss Dwina Glassmeyer, reporter.

Plans were made for the Brownies to perform in the Santa Claus parade that will be here November 30. The group decided to have the investiture service for the girls Friday, December 14, at 7:00 p.m. The place where the meeting will take place has not been decided upon at this time.

Mrs. Jake Watson informed the group that the Brownie pins arrived Tuesday and the leaders decided to buy the pins for their group of girls. The next meeting will be December 11, in the FNFLA office.

HALF OF AMERICAN MALES LIVE LESS THAN 65 YEARS

Despite the great victories of medical science in combating premature death, life ends before age 65 for half of all American males and 40 percent of all females. Each year about 360,000 men and 200,000 women die before reaching their 65th birthday.

These figures include over 100,000 deaths annually among infants under one year of age, and this although the mortality rate among babies in the first year of life has been reduced by more than one third in the last 10 years.

"While there are many biological and environmental hazards which beset early life, much more can be done either to prevent or to overcome them," statisticians observe. "The measures being taken in many communities to specially provide facilities for the care of prematurely born children should prove effective in reducing further the mortality in infancy."

All of the common diseases, including the so-called "old age" diseases, cause a related high proportion of deaths before age 65. It is noted. This is especially notable in deaths attributed to heart disease and cancer.

"Although there is just cause for pride in the gains which have been made in conserving life," the statisticians comment, "much still remains to be done, especially in the earlier years when life conservation will add much to our productive capacity as well as our social well-being."

TOURIST TRADE DATES BACK TO DAYS OF EARLY ROMANS

The foreign tourist trade was a booming business, even back in the days of Cleopatra and Julius Caesar. History research experts point out that "travel-loving Romans had regular tourist routes in Egypt."

The Land of the Nile held considerable fascination for the Early Romans, and a wealthy citizen of the Roman Republic, traveling with

his family, became a familiar sight in Egypt.

Like tourists of all ages, many of them carried umbrellas on their pilgrimages to the pyramids and temples of the pharaohs.

And like tourists of all ages, they were resentful for their curiosity and strange ways, although they left a trail of good Roman money in their wake.

One ancient bas-relief discovered in Egypt portrays a Roman father, mother, and two children at the feast of the Egyptian war-god. Their expressions are wide-eyed and intent as they drink in the strange sights, and the little boy depicted in the sculpture carries the inevitable umbrella.

Countries of Western Europe including England and France long held a similar fascination for Americans who travel in lands.

About 75 per cent or 277 of the approximately 300,000 passports issued in 1950 were for Europe where Americans spent more than \$12,000,000, according to figures furnished by the U.S. Office of International Trade.

Body of Mind, Body Changes

These "breakdowns" are mental, that is without any physical changes anywhere in the body. But there are other mental changes that are reflected in the capacity of the mind to maintain the power level of thought produced.

Mental disorders result from the formation of the brain structure, and some result from the development of other functions of the brain. Deficiencies are those born with the proper "ingredients" for the development of the mind, also called feeble-mindedness, all their lives, remain "childish" and never achieving independence. There are three degrees of feeble-mindedness: idiocy, imbecility, and

moronity. The idiot, often speechless and helpless, unable to guard himself against common physical dangers, remains an infant, capable of accomplishing only such things as a three-year-old child might achieve. The imbecile may grow mentally only as far as the pre-school child, from 3 to 7 years of age, usually learning to talk and to perform very simple tasks such as the normal child of that age group can do. The moron, while still a "child" may be taught many of the things that a 7 to 12 year old child learns but fails to apply his learning in an intelligent way.

Mind Stops Developing
With mentally deficient individuals the mind just stops developing at the age levels mentioned above. Like children, they remain always in a "self-world," never replacing or adjusting that "self" in association with others or with life situations. When people and problems come in contact with them, they become confused and react in a number of different ways, nearly always extravagantly.

This can best be explained by the examples of emotions or general changes which affect the whole

mind, in both normal and abnormal people. Excitement, depression, apathy, sleep walking, loss of memory, hallucinations, delusions of grandeur or persecution, obsessions of fear and suspicion, are all "feelings" which affect all parts of the mind. In mental disorders or persons with mental deficiencies or persons with these "feelings" are greatly exaggerated with the excitement becoming a wild, abandoned excitement; with depression becoming an extreme of misery; with apathy becoming a complete blankness of feeling without any excitement or depression, etc.

Any one or all of these feelings may be the predominant characteristic of a mental deficient; he may swing from one to the other extreme but it will be an extreme of each feeling. The mental deficient has the instincts of the normal person but none of the restraints of mature mental attitudes.

Senile Dementia
Dementia is the name applied to those mental changes or deteriorations that occur during life. The best example, perhaps, is senile dementia, in which the structure of the brain undergoes changes that replace the world of other people and the world of situations with only that one world of self.

It is interesting to note that sometimes the aged person who actually shows the most extreme changes in the physical structure of the brain maintains the reality of the other worlds and his relation to them. On the other hand, some aged persons who show slight deterioration of the physical structure of the brain will retire completely into that "one world," the self world of "childishness."

So obviously, once the mind has achieved mature development, it takes more than physical changes of the brain to cause deterioration. Each person's adjustment to the world during his active life has a definite bearing upon his capacity to remain mentally healthy when the aging process changes the structure of the brain.

The mental changes associated with old age may be a reflection of physical changes in the body other than in the brain which in turn affects the mind. Improper function of parts of the body may, at any time of life, create changes in the mental processes, just as injuries and illnesses may cause brain changes.

Your doctor is aware of the many illnesses and injuries which have a direct bearing upon mental processes. The nervous system itself, carrying messages to and from the brain, is intricately involved in mental health and the neurologist is the medical doctor who is versed in the study of the nervous system; frequently your doctor will call in a specialist in neurology or psychiatry to help trace the origin of some mental disorder.

Check Physical First
The first search in medical treatment of mental ill health of any kind is to see if there is some physical stumbling block which may be the cause or a contributing factor to a lack of mental coordination. If a physical cause can be located, and can be diagnosed as the first source of the difficulty, then that original cause must be treated as well as retraining the other functions of the body which were diverted from their proper function by the first stumbling block. And it stands to reason that the earlier the physical defect sign of physical involvement. Here is found and retrained undertaken, the more hopeful is the outlook.

Many mental illnesses seem to be purely mental, however, without any the psychiatrist and the psychoanalyst are the specialists who have been trained to help you discover and overcome the first mental stumbling block that is keeping your mental processes from coordinating as they were meant to do.

COLLEGE STATION.—Cattle grubs are profit grabbers, when livestock producers fail to control them. The damage caused by these pests is charged back to the producer in the form of lower prices for beef animals and lower milk production from the dairy cows.

According to James A. Deer, associate Extension Entomologist of Texas A. & M. College, the annual loss to livestock producers from cattle grub damages amounts to about \$65 million. Most of it could be added to the national farm income if cattle producers would control grubs.

Deer recommends the use of a power sprayer—with a pressure of 200 to 400 pounds. Lower pressures decrease the effectiveness of the treatment, he says. Animals should be sprayed while being held in a chute and the spray nozzle should be held no further than four inches from the backs of the animals. It is best, he adds, to use a full gallon of spray on each animal and from 10 to 15 seconds are required for making a thorough application.

The spray material should consist of 7½ pounds of 5 per cent rotenone dust for each 100 gallons of water. Mix it thoroughly and this is often a rather difficult job because the fine rotenone dust is hard to wet. This mixture, says Deer, is the cheapest and most effective treatment for controlling cattle grubs.

The first application should be made about 3 weeks after the first grubs begin to show up in the backs of animals. Treatment should be re-

peated at three weeks intervals for as long as needed. Grubs normally begin making their appearance about this time of the year; however, this will vary with different sections of the state.

A good control job, points out Deer, will mean increased weight for the beef herd and a higher selling price when the animals are marketed. The dairyman with a grub free herd can expect a good increase in milk production. The specialist says local county agents can supply additional information on the when and how parts of a complete grub control program and suggests that livestock producers contact him at an early date.

This delicious, nutritious food is so versatile it can be fixed dozen of different tasty ways. It can be used for parties, snacks and after-school lunches.

If your taste runs toward sweetness, make crispy, crunchy pop corn bars with corn syrup -- and see how the kiddies go for them. They're grand with a glass of cold milk or a dish of ice cream, and so energizing. What's more, they'll keep their crisp quality and yummy flavor for hours when stored in the refrigerator in cellophane or plastic bags.

POP CORN BARS

- 1 cup sugar
 - 1-3 cup white corn syrup
 - 1-3 cup water
 - 1/2 cup butter
 - 1/2 tsp. salt
 - 1/2 tsp. vanilla
 - 3 quarts Jolly Time Popped Corn.
- Put sugar, corn syrup, butter and salt in a saucepan and cook, stirring until the sugar is dissolved. Continue cooking without stirring (270° F.) until syrup forms a brittle ball in cold water. Add vanilla and stir on low enough to mix it through the hot syrup. Place the popped corn in a bowl large enough for mixing. Pour the cooked syrup over the popped corn and mix well. Wet the hands slightly and transfer mixture to a flat cake pan. Press mixture into a sheet cake and cut into bars with wetted knife.

For a change of taste, add nuts, candied cherries, gum drops or raisins to the popped corn before combining it with syrup.

The basis of a great success, is usually an idea; and, often, a simple idea—simple, that is, when we look at it after someone has thought it up.

An Irish immigrant was making a living by selling Bibles at \$1 each. This was, of course, a much greater amount than now. A poverty-stricken woman told the young salesman, "I can't pay you \$1 but I can give you a dime and you can come back for the rest."

The salesman tried to "sell" his employer on the plan but was turned down. So he resigned and started his own business based on that idea. And that was the beginning of the installment selling of books.

The young man was P. F. Collier, later the founder of Collier's Weekly. So telling how many books his company sold on the installment plan—usually sets. Millions of homes had a set of Mark Twain's words and Charles Dickens' works. The pleasure and inspiration these volumes have can not be estimated.

I remember, as a boy, in my own home there was a green-covered set of Dickens and it was from those pages that I became acquainted with the writings of that marvelous man.

Grand Chapter OES Pageantry at San Antonio

(By Mrs. Sam Green)

At a meeting of the Order of the Eastern Star last Thursday night reports on the Grand chapter session held in San Antonio last week were given.

Those who attended this "believe and find happiness session" from Floydada were Mr. and Mrs. Sam Green, Mrs. Flora McNeil and Mrs. Roberta Russell. Mrs. Flora McNeil found words inadequate to describe the beauty of the pageantry put on by all the grand officers, of Grand Chapter and the Worthy Matrons of Texas before an estimated audience of five thousand or more. Mrs. Sam Green had the privilege of participating in these spectacular and inspiring drills as one of the worthy Matrons of Texas, OES.

Mrs. Flora Beset Boone of Littlefield, Texas, was installed as the Worthy Grand Matron of Texas, Order of the Eastern Star which is a great honor bestowed upon our own West Texas. Amarillo is designated to be hostess to the Grand Chapter session next October, 1952. We hope many of our friends and relatives can attend the opening and closing nights which are always open to the public.

For the benefit of those who were not present last meeting our Deputy Grand Matron, Mrs. Beulah Stucker of Plainview, will make her official visit with us on our regular meeting night December 13, at which time a turkey dinner will be prepared for the members and their families.

Our Eastern Star school will be held in Plainview around April 18.

An important change in the constitution and laws is that each member must pay dues on or before May 31 each year or it will take a unanimous ballot to be re-installed. If two years elapse without dues then one must secure a petition, plus a unanimous ballot to be re-installed into the chapter. So watch your dues.

A pretty Thanksgiving program will be given at the next regular meeting November 22. Would be glad to have the presence of each member.

Legion Auxiliary Organization Plans Made At Lockney

In Lockney Monday at the American Legion Hall, the Legion members entertained their families and friends with a chicken barbeque, celebrating Armistice day.

Over 100 persons were present. Ernie Brock and his Four Sharps of Plainview entertained the group with several numbers, which was well received. Reverend N. S. Daniel gave the invocation.

The guest speaker for the even-

ing was Mrs. J. M. Willson, sr., who told of the American Legion and auxiliary and what they mean.

Barry Barker introduced the master of ceremonies, Mort Crapster, who proved to be a clever story teller. Mrs. C. L. Record played piano numbers while the guests were arriving.

After the dinner and the program, 26 ladies present voiced their desire to organize an auxiliary. Mrs. June Bybee was named temporary chairman for the group.

Wayne Bybee is post commander. The program committee members for the occasion were Marvin Sams and Buddy McPherson.

The group voted to make the banquet an annual affair, as everyone present thoroughly enjoyed the evening.

Mrs. Willson was accompanied to Lockney by Mrs. E. L. Angus.

Rate Raise

(Continued from First Page)

company attended the meeting of the city council and advised the city formally of their intention of making the rate raise request. J. C. Oakley and John B. Stapleton discussed the company's rate raise proposals. A special meeting Monday night was agreed upon.

Yesterday members of the council pointed up the fact that their authoritative knowledge of the matter of proper rates for telephone service in the community is wholly inadequate although the council is charged with the responsibility of passing on the matter. For this reason it was tentatively suggested that the council should call the public into a meeting or conference before the telephone company's new rates are passed upon. At such a meeting the council and the telephone company would be requested. The company's customers ought to have a chance to be heard on the

matter of whether adequate service is being given the public which pays the bills, states this point of view. After all whether the service given deserves the raise sought ought to be the controlling factor, one member of the council said.

EDITORIAL

It is a pleasure to attend a friendly school. We of F.H.S. are very fortunate to have the friendly student body we now have, how- ever, it is always more room for improvement. New students should be made to feel at home. When a new student comes to school, he should receive a big welcome. He should be friendly! Someone should take it upon himself to introduce him to the school. Never fail to be courteous toward teachers, friendly toward classmates, and spend time spreading happiness and joy to all. Keep F.H.S. a friendly school!

My life I've been the victim of a conspiracy to keep me ahead. I know, because I'm the chief plotter!

JAMBOREE SUCCESS

The members of Floydada High School, sponsored by Mrs. Johnson, and Mr. Davis, presented their annual Junior Jamboree last night in the school auditorium. The program began with a vocal solo by Beth Walker. Next on the program was a baritone solo by Myrna Wilson then a very interesting monologue by Grover Smith. Then came Jean Porter who sang "Help Loving That Man" and Roy McNeill followed with a vocal solo.

The program was composed of Carolyn Pern Patterson, Ann Day, Beth Walker, and Myrna Wilson sang two songs. The piano accompaniment was done by Franklin and Carroll Fulton. Highlighted this number was an orchestra leader, as directed by Grover Smith. A very comical scene. Bert and Grover Smith presented an unfortunate story brought forth many laughs from the audience.

The program was a comic play by Sponsor Bob Copeland. The featured attraction of the night was a style show narrated by Mr. Porter. Boys of the Junior High School and girls of the Senior High School modeled the latest in clothing and accessories. Boys modeled the latest in clothing and accessories. Field Trip

F.F.A. boys of Floydada High School took a field trip Thursday, Nov. 10, to the Riley Teague farm near the Olin Rapp farm to see some livestock. Mr. Rapp has a very fine Black Angus cattle. The boys went back to the farm to dehorn a Hereford. The boys did a very fine job.

I have five pockets, one has one or two. I'm right in his coat and vest. His pocket has a few—keys and his keys and money. He says, "Don't Worry, I'm happy!"

Tulia Hornets Trim Whirlwinds 27-6

The powerful Tulia Hornets scored in each quarter to deal the whirlwinds their first conference defeat. Tulia's victory clinched at least a share of the district 2-AA crown.

Perfect blocking and deadly tackling paved the way for Tulia's second conference win. Halfback Wandle Hutson opened the scoring for Tulia on a three yard plunge. Hutson's score climaxed a fifty yard scoring drive.

Duane Luke scored the Hornets' second touchdown. Luke slashed 2 yards over the Whirlwinds line to highlight a 90 yard march. Luke's conversion was good and the half-time score was 13-0.

Hutson behind Tulia's powerful running attack scored Tulia's third touchdown. Hutson's score ended a long 80 yard drive to Floydada's goal. A 25 yard pass from Luke to End, Bobby Jennings highlighted this long scoring drive.

The Whirlwinds' effective passing managed to tally a sixth quarter score for the Whirlwinds. Connie Bearden passed to Brooks Chapman for Floydada's only score. The pass play covered 27 yards.

The Tulia Hornets marched 90 yards to score their last touchdown. Luke went 2 yards to end the crucial drive. Luke added his third of four attempts to end the scoring at 27-6.

Although the Whirlwinds were soundly beaten, their effective passing game kept the Hornet's guessing.

F. H. A. Presents Assembly Program

An assembly program last Friday morning, sponsored by Mrs. MacMillan, was apparently enjoyed by all. The program began with the singing of the F.H.A. song by the Home Making girls. Sammie Copeland then gave a reading which was followed by the introduction of the club's officers for the coming year.

Donald Smith then gave two piano solos, "I Get Ideas" and "Sin". Next, Sammie Copeland gave a second reading, "Tapestry Weavers."

Clint Turner and Ann Welborn then sang a number. A monologue given by Bert Grimes was next. He did an excellent job of portraying a country boy. Jean Porter and Beth Walker sang a duet, "Night and Day."

Barbara McAda was tops in her impersonation of Al Jolson which was followed by a solo, "Bill," by Jean Porter. The program ended with two numbers presented by the quartet which included Mr. Barber, Mr. Hill, Mr. Kattner, and Mr. Copeland.

Grover Smith, the emcee, handled the program nicely.

One to Another

MAD FATHER: "I'll teach you to kiss my daughter!"
SENIOR BOY: "I am sorry, sir, but I've already learned!"

MR. KILLION: "It's years since a surrey with a fringe on top was seen around here."
MR. HILL: "Yep, but the pants leg with fringe on the bottom is still right in style!"

DAVID: "And when I kissed her I smelled tobacco."
ROY: "You object to a woman who smokes?"
DAVID: "No, but I happened to know that she doesn't smoke."

MR. BAKER: Better wait till after the war to get married, boys. Start with skirmishes and work up to the real battles.

PAT: "You know, when a puncher gets bucked off on the range he's a skim-milk cowboy."
NORMA: "Yes, and when he gets bucked off in front of a grandstand full of dudes, he's a rodeo star!"

MISS SWEPSON: "When you come right down to it, everybody's about as smart as everybody else. They just show their dumbness in different ways, that's all."

DELMAS: A speaker that hums and haws, and stumbles is probably just fishing around for words he's sure his audience doesn't understand.

CANDID CAMERA

Our spotlight falls this week on a Sophomore girl. She has red hair, and brown eyes. She is 15 years old. It is none other than Barbara Ann Perry. Barbara became the daughter of Mr. and Mrs. Everett Perry on January 8, 1936. Barbara was born four miles northeast of Floydada. Barbara was chosen sweetheart of her class this year.

Barbara has a great many likes. Some of them are, dancing, friendly people, pretty clothes, Ford cars (Victorias at that). All kinds of food (especially fried chicken and boys).

Barbara we were talking about food. She has very few dislikes but a few of them are unfriendly people, flashy clothes, and cauliflower.

Barbara's perfect day would begin about 9:30 a.m. She would get up, take a quick shower, then eat a breakfast consisting of ham and eggs, jelly, toast, and milk. After breakfast Carolyn would come by with all the girls in her Ford Victoria. They would go to the Country Club for a swim. They would swim until about 12:30 then they would all go to Barbara's and eat a big lunch of fried chicken with all the trimmings. After lunch they would go to a good movie. Then about 6:00 her ideal boy (Have you found him Barbara) would pick her up for dinner and a show then they would go dancing until about 11:30 she would go home and have a light snack and go to bed.

Barbara you're a wonderful person. May old F.H.S. wish you the best of luck always.

ROVIN' REPORTER

Sportmanship. Sportmanship is something that should be exercised by every person in America. A true sportsman accepts defeat or victory with a smile. Nothing can be gained by making excuses for defeat. One who makes all kinds of excuses after being defeated is a poor loser.

Accepting defeat when you know that the opponent won by foul play is true sportsmanship. If one gets mad, he is hurting no one but himself, and he will feel no better when he "cools off." To be a true sportsman, one must keep his anger to himself and congratulate the winner. Never fail to be courteous and give the other fellow credit for his worth.

Everyone just remember, whether you are on the winning side or the losing one accept the gain or defeat in good grace. You will be a better citizen of today and tomorrow by doing so. Who knows what the future holds for the man who has sportsmanship high on his shelf of good traits. What about your attitude?

Who is this Christine B. has been going with lately????? Perhaps Lawrence B. Could this be a new romance?????

Is it just rumor or the truth that James Freeman is going with Aurie Belle. What about this James?????

Sue and Kerwin are still hitting it off o.k. Keep it up kids, you make a cute couple.

Room Two oh One

We're off again — this week we look in upon the Civics class where the show is directed by Mrs. Cooper. We are to learn something about the civics students which may prove somewhat different from the classes visited this far.

As the students come into the room they remove their gum or whatever they happen to be chewing. The class constitution states that chewing gum is five cents offense or you furnish gum for the entire class.

One of the smarter students tried the latter, but the judge, Mrs. Cooper, ruled that the constitution did not state when the gum was to be chewed. The fine was enforced and the gum chewed after school. You just can't win for losing!

All students are prompt or at least beat the bell by fractions of a second. The penalty for being tardy is one cent per minute. We could go broke in minutes.

All money raised goes to a party at the close of school. Maybe they will have a banquet if the students don't decide to reform.

The class is now planning mock trials which they will execute themselves. If a student is lucky perhaps he will be sentenced to a term lasting until school closes (or is the school house the jail?)

We hope you have enjoyed this trip which we feel was quite different. If you did be back next week for another stop on our journey. TEACHERS BEWARE!

Gueses Who?

SOPHOMORE GIRL: short brown hair, blue eyes, short, a "real cute," goes with the boy described below. runs around with Tanya. LIKES to eat, run around, and dates. DISLIKES: catty people, Lockney, and school. Her favorite song is "Because of You" and her favorite singer is Doris Day.

JUNIOR BOY: brown hair (worn in G.I. fashion), brown eyes, is tall, plays football for the "lightin' WINDS", drives a gray Studebaker, and is friendly. LIKES: football, eating and dates. DISLIKES: Lockney, rainy weather, and smart al-ecos. His favorite song is "Sentimental Journey" and his favorite singer is Bing Crosby.

Glen Dobkins, 44, long time resident of Motley and Dickens counties, died at 10 o'clock on Saturday at his home in Lubbock, of a heart attack.

The funeral service for Mr. Dobkins was held Sunday afternoon in the First Baptist chapel in Lubbock, with Reverend James Abernathy of Ralls, a long time friend, officiating. He was assisted by Dr. J. Ralph Grant, pastor of the church. Burial was in the city of Lubbock cemetery.

When you have a tough plowing problem, then you can certainly depend on the DEARBORN DISC PLOW (Lift type) — but nearly every farm has some land that is best handled by a disc plow. Land that is sticky or waxy when moist — refusing to scour, dry, hard land — difficult to penetrate; or abrasive land that wears out moldboards and shares rapidly. All these call for the DEARBORN DISC PLOW which can handle up to 7 acres in an 8-hour day. Can be quickly attached and detached — has a high trash clearance and the ability to roll over rocks and chop through roots make it ideal for cutting fire lines or plowing cleared land.

SANTA'S FOUR REINDEER PRANCE IN PRACTICE FOR FLOYDADA TRIP

The old saying about giving your child the moon has almost been reached by a man who furnished his children real live reindeer along with Santa Claus four years ago. And he has been furnishing them for other children each year since.

Boys and girls, and adults, too, will get to see the Arctic reindeer here on Friday, November 30, at 1 o'clock when Grady Carothers, Goldthwaite, Texas, ranchman, bring them to the city for a Christmas parade.

Dancer, Prancer, Dunder and Blitzen are all primed for the trip here, their owner declared. They'll prance down the street and pop their ankles in tune with the sleigh bells and Santa Claus will be waving to all his friends as they pull the sleigh. In fact, Santa will be busy for he will be driving the reindeer as they make their way down the street that early afternoon.

Meanwhile, Comet, Cupid, Vexen, and Dasher will be in another city in another parade. Rudolph, the Red-Nose Reindeer, who bears the title of "George" will lead the parade. The name of "George" was given him by the Eskimos. In fact all

of Santa's reindeer bear a pet name their Bering sea friends have given them.

Some 6,000 miles separate the Texas reindeer from their native homeland, but they thrive at the Carothers' ranch in Central Texas. The only concession their owner makes for them is to provide a large fan in their corral. It is used only on the warmest days when no breeze is stirring.

Santa Claus has especially invited all his young friends in this section to be present for the parade. Mothers and fathers likewise have the same invitation. "I want to see everyone possible on my trip to your city," Santa says.

The Chamber of Commerce assures the people that all arrangements have been made to provide this great event. There's never been anything like it, the C-C claims.

No boy or girl, or adult for that matter, can afford to pass up this opportunity of seeing Santa Claus driving his live reindeer down our city's streets," the sponsor said.

To top it all off, Santa Claus promises to take time to listen to Christmas requests and wants to

see every boy and girl for miles around and talk to them about Christmas.

Except for practice sessions, the reindeer have been resting all summer. They are ready to get into their shiny new harness and pull Santa's sleigh down the street. At least that's what Dancer was overheard to tell Comet a few days ago.

No matter how cold the weather the parade will be held on time. In fact, the colder the weather and the more snow is flying pleases Santa and his reindeer. It reminds them more of the deep snow and raging blizzards in Alaska, their homeland.

Just how the parade will form and where Santa and his reindeer will emerge before they begin their long procession remains a dark secret. Their plans are well mapped out, but the Jolly little Elf likes secrets. In all probability a police escort will meet the group. They will be guarded from the public eye while Santa Claus catches his breath and re-organizes his entourage.

As the moments wear away patience grows thin and suspense grows on the crowd. Suddenly, Santa in his sleigh, the bells jingling out "Merry Christmas" will materialize from out of nowhere, and the reindeer will be pulling the sleigh as they prance down and shake their huge antlers.

That's Christmas spirit. You see it in this city when the November 30 rolls around.

News of Harmony

(By Mrs. Roy Hollums)
(Too late last week)

HARMONY, Nov. 8th.—The first snow of the season was a surprise to most of us last Thursday morning. It was about the earliest snow for this part of the country that many of us can remember, and since the killing freeze the cotton fields are really looking white and farmers and cotton pickers are both anxious for some harvest weather now and as the sun is shining this morning it looks like some more pretty weather is in store for this part of the state.

Even tho the weather was very unsettled part of last week our revival at Carr's Chapel was well attended most every night. Brother Jack Berry of the Bryan district preached for the services each night and brought some good messages. During the six day meeting the attendance was something over two hundred and we feel like this was good considering our small membership and the weather we had.

Some of the members attended the Mass meeting at Lubbock Sunday evening which was held in the Jones Stadium. Among those attending were Misses Marlene Hollums and Joyce Stewart, Sherry and Meida Joe Ramsey, Mr. and Mrs. Everett Miller and Mr. and Mrs. Riley Holmes, and Mr. and Mrs. Donald Finkner. Mrs. Everett Miller and Misses Sherry and Meida Joe Ramsey sang in the choir.

The Womans Society of Christian Service will have their final study session on Latin America this afternoon at the church. The prayer meeting service will be held Thursday evening at seven o'clock. Mrs. Roy Hollums will have the devotion and Mrs. Everett Miller will direct

the choir practice. You are welcome. Brother Krebs will fill his regular appointment at Carr's Chapel next Sunday morning.

Mr. and Mrs. D. J. Parkey and Gladys and Tony visited their daughter and sister, Patsy, and husband Saturday night and Sunday in Midland.

Kenneth Hollums spent Saturday with Glenn Parkey. Miss Marlene Hollums and Miss Joyce Stewart visited friends in Lubbock Sunday.

Sgt. and Mrs. Ross Ilseley of Moriarty, New Mexico, were Saturday night guests of Mr. and Mrs. Roy Hollums. The Ilseleys were returning to their home in Moriarty from a visit to Mr. Ilseley's relatives and they had the privilege of going on a pheasant hunt while in Minnesota and were lucky enough to bring down twelve of the birds; they brought four of them by and the Hollums families enjoyed a pheasant dinner with all the trimmings in the home of Mr. and Mrs. T. C. Hollums in the Sand Hill community. There were thirty three people present for dinner and all agreed that pheasant meat was one of the most delicious yet.

Mr. and Mrs. Fred Battey of Floydada visited his brother and wife, Mr. and Mrs. D. S. Battey, last Thursday evening. Mr. and Mrs. David Battey, Jr., visited David's parents Monday night.

Mr. and Mrs. J. R. Turner and Mrs. Buckie Jeffress and family Sunday.

Mr. and Mrs. Chas. Watson visited in Floydada Sunday afternoon with Mr. and Mrs. Will Rhoads. Miss Doris Elaine Snodgrass visited home folks over the week-end. Elaine is a student at McMurray college. Mr. and Mrs. Carrick Snodgrass and Mr. and Mrs. Gule Snodgrass took her back to Abilene Sunday.

Mr. and Mrs. R. E. Rainer are the parents of a daughter, born on Friday, October 9, in Pitts hospital. The baby weighed eight pounds and eleven ounces. Her name is Linda Sue. Mr. Rainer is employed at Floyd County Rural Electric Cooperative.

Low-Down on a high-powered Performer

Let us tell you this:

The Buick pictured here packs more power than you find in any other car of its size and room and price.

That's the power of Buick's newest high-compression valve-in-head eight—the F-263 Fireball Engine, that really gets miles from a gallon of gas.

Add to this the fact that it tips the scales at 3817 pounds curbside—and you begin to see why this big-powered beauty is such a nimble-footed number out on the road.

But that's only Chapter I of the performance story.

There's a big-car feel to the way this trim traveler covers the ground—hugs the curves—holds its course on the straightaway—smothers the bumps with its big soft coil springs on all four wheels.

There's a big-car room inside—six-passenger room—headroom, hiproom, shoulderroom, kneeroom, front and back.

Come in, look it over, and we think you'll agree—it's big in everything but price.

And that's where it really shines. If you've shopped around you'll know what we mean when you read the price tags, and what they include in the way of standard equipment that shows up as "extras" on so many others. Such things as an oil filter, air cleaner, vacuum booster, built-in summer ventilation are all yours at no extra charge.

It's hard to believe but it's true. If you can afford a new car, you can afford this Buick at the prices we're quoting today.

Better come in and look this smart buy over.

Equipment, accessories, trim and model are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

FLOYDADA WOMAN IN CANADA HAS CLOSE UP OF PRINCESS AND DUKE OF EDINBURG

Melfort, Sask. Canada, November 5, 1951

The Hesperian:

I would like to relate a most interesting experience, I had a week ago. It was my good fortune to have a close-up view of Princess Elizabeth, and her husband, Philip, the Duke of Edinburgh, while they were on their royal tour of Canada.

The royal couple were on their way to church. They attended church in whatever city they happened to be in on Sunday.

I found the heir to the throne of England a most attractive woman and the duke a very handsome man. The princess wore a full length mink coat (which was made from Canadian pelts, presented by the Canadian people), a small brown hat, which brought out her flawless complexion and sensible shoes. I could not see her dress under the coat. The duke looked very tall, blonde and handsome in a double breasted suit.

The couple arrived in the princess' private train and departed by the Royal Air Force plane.

My family and I will long remember this occasion.

Very truly,
Mrs. A. G. Mock

Tops Floydada Whirlwinds Climb Tie for Championship

Tulla high flying Hornets, in every quarter last Friday night, to whom the Whirlwinds 27-6, to share them a tie in District 1.

Hornets used the fine run-ning of all four of her backs to drive down the Whirlwinds the second time in the game. To take a lead that never relinquished.

Hornets won the toss and elected to kick off. The Whirlwinds got off a short kick down to the 27. From here Tulla gained 27 in three plays and were forced to punt. The Whirlwinds then drove the ball sailing out to the 41. The Floydada 29 yard drive was blocked. The Whirlwinds then drove the ball sailing out to the 41. The Floydada 29 yard drive was blocked. The Whirlwinds then drove the ball sailing out to the 41. The Floydada 29 yard drive was blocked.

en pass to Adrian Helms who raced down to the Tulla 35 before being knocked out of bounds.

Just as it was beginning to look like a Floydada drive was getting under way Floydada fumbled with Tulla recovering on their own 29. From here they picked up a first on the 41, but then after short gain Luke was trapped twice and the ball was moved back to the Tulla 32. Tulla punted to Jackie Hutchinson on the 25 and he returned the ball to the 35 as the first quarter ended. The Whirlwinds picked up two first downs and moved the ball to the Tulla 38 before they were forced to punt.

In this series the Whirlwinds showed they were pulling all the stops by opening up their passing attack and once they ran a statue of Liberty with McGuire picking up five, but Tulla held on downs and forced the Whirlwinds to punt. The kick sailed over the goal and was brought out to the twenty. From here Tulla again started a sustained drive that moved the eighty yards to a score.

They used only ten plays that saw them back up three first downs. The score came on a two yard plunge by Luke. He missed the extra point, after two tries and the score read Tulla 13, Floydada 0.

Again Tulla kicked off with Franklin Stovall taking it to the Whirlwinds 26. Then Tulla drove a fifteen yard penalty and the ball was moved to the 41. Here the Whirlwinds made like S.M.U. as they threw seven consecutive passes and completed three of them. The first from Connie Bearden to Huert King Gained 15 yards, to the Tulla 44, Carmack threw to King good for 13 yards, and Hutchinson passed again to King who was playing a good game, catching passes all over the field, on the Tulla 15 just as the first half ended, the Whirlwinds only 13 yards from pay dirt.

Tulla kicked off to Floydada to begin the second half and Floydada again begin the aerial circus it was to use rather effectively the rest of the night. Carmack passed to Stovall for 19 yards and Bearden passed to Stovall again for five more. Here the drive halted and the Whirlwinds were forced to punt, Tulla taking over on their own 13. Here again they started their single wing onslaught which moved the ball the 87 yards to the T.D. in sixteen plays, Hutson moving across from the two. Luke's kick was good and Tulla led 20-0.

On the kickoff two of the Whirlwinds went out of bound so the Hornets took over on the 50. From here Tulla moved all the way to the score, aided by a 15-yard penalty against the Whirlwinds for unnecessary roughness. Luke carried over from the two and then converted and Tulla had a 27-6 lead. The Whirlwinds had time for one play after the kickoff and McGuire raced to the Tulla 47, just as the game ended.

Tulla had a fine team and they had the power to drive the ball down the field, usually not on long runs but the were consistent enough to make the needed yardage. The Whirlwinds being unable to stop their short gains.

Floydada never could get rolling on the ground, but they were able to pass the ball for good gains. However the story of the game was in the Hornets fine single wing power attack. The Whirlwinds never gave up and Tulla's first team ended the game even after building up a three touchdown lead.

For the record Saturday bank debits broke all records again in Floydada as did the movement of money and goods through retail channels.

As is usually the case when many transients hit a community there is an occasional person who has to have the attention of the peace officers, but to date the heavy influx of workers has had little of this mixture in it, so far as Floyd county is concerned. We hope we are not bragging too soon when we say that the per centage of good behavior has been high indeed. One thing that people who have had contact in retail establishments would like to see bettered, is the aroma. Since most of the transients take out Friday afternoon to get their week-end shopping done, it seems they ought to have time for a sponge bath before they crowd into close spaces during Saturday. There have been no cases of "discrimination" we have heard of locally to date. Retail people have leaned backward in their determination not to find fault with the public they have found with ready cash to spend.

Net of the big cotton crop will be relatively small this season. We mean this when and as the new year rolls around and the cotton growers get ready to settle with Uncle Sam. One contributing factor in this respect will be the failure to keep track of outlay in a proper manner. Whatever else may be said in the usual complaining tone against the federalists who lay it on thick these days, it is a fact that internal revenue people are going to recognize any legitimate expense a taxpayer incurs in the conduct of his business. But the taxpayer will complain in January about his high tax bill, some of which may be occasioned by his own carelessness in keeping track of expenses he has incurred in the conduct of his affairs during the taxable period. Right now, for instance, with astronomical expense accounts, there may be some who are forgetting to think along this line. No revenue collector is capable of telling a man what went with all the money he had in November. The collector is entitled to see a record of these expenses. If the taxpayer has made no such record he will be cheating himself and giving the revenue department the blame.

With cotton gin yards in the area congested with loads of cotton, the danger of fire and the thought of all the consequences of such a calamity has the ginner treading softly. A spark and even a mild breeze could create havoc at dozens of points where big accumulations of the fleecy staple are assembled. Also the danger of fire is ever present in cotton fields and in cotton piled on the ground, cotton fields and in cotton piled on the ground sure are stubborn and they sure are costly.

How much Floyd county cotton will be ginned at points out of the county this year will never be known, we assume. Not to put the idea into anybody's head but merely to record the fact, five or 10 bales loaded up and hauled 30 to 60 miles instead of five or 10, is just a small chore, if it saves 24 hours. The loading is the most expensive and time-consuming. If a man can keep his equipment moving and keep some of his cotton off the ground he is going to some neighboring gin a few miles away instead of one where he habitually takes his staple.

If you are a consumer and not a producer of hogs you may not understand it when you are informed that hogs are going to town in unprecedented numbers, not only finished swine but also feeder shoats and sows that normally would stay in the pens on the farm where they were farrowed. The answer is that the price of hogs and the price of feed they consume are pretty badly out of line. For right now this means cheaper pork, and presumably cheaper beef products as well. For later on it may portend another shortage of swine population, the resultant excess of demand over production and another peak in prices. What the hog market actually will be in the next 120 days, or whatever the time is through Thanksgiving, Christmas, the new year and then Lent, one cannot say. However one can reasonably assume the outlook is not too good for prices that will please the producer.

Is the supply of cattle in the nation beginning to equal the big demand? All the cattle are not being raised in the middle west any more as was once the case. Kansas City still dominates the market to a large extent but there are millions of acres of cattle pasture in the deep south and the farwest where the acres formerly were used for other purposes. Note that many of the stocker and feeder cattle sold at plains central points have moved to points west and to points across the Mississippi. While Texas wrestles with a gigantic drought the grass grows green in these other areas. We see the cattle supply dwindling on Texas prairies and forget that the "competitors" both east and west are growing in importance to the markets every year.

What the fate of the proposed amendments to the state constitution may be there is no foretelling as these lines are written. Plain to be seen, however, are the signs that the interest is very low and that when the final count is made a week hence the per centage of qualified voters who said yea or nay at the ballot box will be small indeed. People thus thwart the intended processes of our form of government. Perhaps it is that they are "run at" by too many proposals thought up and fostered by well-intentioned minorities. These "demands" for change often are not the result of ground swell of public opinion, but rather are forced on the public for immature consideration. Nobody likes to have to make up his mind about something concerning which he feels inadequately informed. That is one of the reasons the vote is often light on a constitutional amendment proposal.

Armistice day, which for a quarter of a century was a day of great rejoicing, now passes practically unnoticed by the general public. It came on Sunday last, November 11.

For the information of a new generation of warriors Armistice day is November 11. It marked the end of World War I, amid wild scenes of joy throughout the world, in Floydada no less. Nothing like it has transpired since. It is poignantly remembered by many disillusioned mothers and fathers, who have since sent sons to wars.

A Message of Importance

In The State of Texas

HERE'S WHAT YOU SHOULD KNOW ABOUT THE NEW TEXAS "SAFETY RESPONSIBILITY LAW"

- 1 Enforcement Begins January 1, 1952.** On this date, the new Safety Responsibility Law, as passed by the Legislature, goes into effect. This law was designed to protect you against financially irresponsible drivers and owners of motor vehicles involved in accidents. It affects all drivers and motor vehicle owners (except Federal, State, County and City-owned).
- 2 What Must You Do After An Accident?** Under existing laws, you must file a written report to the Department of Public Safety if your car is involved in an accident where there is a death, an injury or property damage in excess of \$25. Under the new law, a written report must be filed *within ten days* if your car is in an accident resulting in death, injury or property damage in excess of \$100.
- 3 You Don't Have to Carry Liability Insurance, But . . .** If you are not insured against bodily injury and property damage liability, you must be able to deposit with the Department of Public Safety security equal to the estimated damage, not exceeding \$15,000.00, to cover all claims growing out of an accident anywhere in Texas in which you or your motor vehicle were involved. If you cannot establish financial responsibility for the future, your driver's license and your motor vehicle license plates are automatically suspended.
- 4 It's Easy to Establish Financial Responsibility** with a motor vehicle liability insurance policy. If you do not now have such a policy, call your local insurance agent today. He is a qualified insurance counselor who will be happy to advise you concerning your needs.
- 5 What is the Minimum of Your Liability?** The law permits each driver to establish the following minimum limits of liability: up to \$5,000.00 for injuries sustained by one person; up to \$10,000.00 for all personal injuries resulting from one accident, and up to \$5,000.00 for property damage. You do not have to establish such liability but it is the easiest way.
