

Big Primary Vote Foreseen Saturday

Hundreds of newly-politics conscious Floyd county residents will march to the polls Saturday in the first primary of the Democratic party to join in swelling the county's vote to a new high record.

Two races, one a county-wide contest to name a sheriff in a three-cornered battle, the other a four-county contest between aspirants for the post of district attorney, are boiling up the principal interest, but also a two-man race for assessor-collector, and a two-woman race for county treasurer are adding countywide interest.

Adding precinct interest are a three-cornered contest for justice of the peace in Precincts 1 and 4, and a similar battle in Precinct 4 for commissioner.

Polls open at 8 o'clock in 22 voting boxes Saturday morning and close at 7 o'clock Saturday evening.

In the sheriff's contest the candidates are Leland A. Hart, incumbent, seeking re-election, J. A. Patterson, food merchant and mayor of Floydada, and Earl Cooper, former deputy sheriff and former Lockney city officer.

Conventions 2:30 Saturday

Interest in the precinct conventions set for Saturday afternoon at 2:30 is predicated on the fact that the battle between the "Loyalists" and the anti-Turman factions of the party is not yet settled. The anti-Trumanites who controlled the precinct and county conventions in the state in rather overwhelming fashion again. Control of the state convention which assured Governor Allan Shivers substantial control of that body and named a delegation to Chicago uninstructed as to presidential and vice-presidential nominee.

The "loyalists" are expected to put on a battle to "keep that from happening again." Control of the State party machinery and the selection of the delegates to the electoral college from Texas are involved in the actions that begin on precinct level Saturday.

Seventeen of the 22 precincts in the county will have one or more votes in the county convention. This latter convention date is August 2. It will be held in the district court room.

Following are the precincts which have voting strength sufficient to be entitled to a vote in the county convention. Places designated for the precinct electors to meet, the name of the precinct chairman, and the number of votes in the county the number to which each is entitled are given:

- Southwest Floydada, district court room, A. C. Goen, 8 votes; Sand Hill, Sand Hill school house, W. M. Knight, 1 vote; East Lockney, City auditorium, C. H. Rose, 3 votes; Aiken, Aiken Methodist church, C. H. Andrews, 1 vote; Providence, Providence school house, M. C. Scheele, 1 vote; Lone Star, Lone Star school house, H. E. Prizzell, 1 vote; South Plains, South Plains school house, J. K. West, 1 vote; Cedar Hill, Cedar Hill school house, R. G. Dunlap, 1 vote; Baker, Baker school house, Herschel Green, 1 vote; Lakeview, Lakeview school house, P. J. Wilkes, 1 vote; Harmony, Harmony school house, Zant Scott, 1 vote; West Lockney, Lockney Beach office, T. B. Mitchell, 4 votes; Northwest Floydada, city hall, J. G. Wood, 3 votes; Dougherty, Dougherty school house, Orland Howard, 1 vote; Sterley, Sterley school house, Bert Bobbitt, 1 vote; Southeast Floydada, Commissioners' office court house, C. C. Huckabee, 2 votes; Northeast Floydada, anteroom county attorney's office, Ernie Wildener, 1 vote; Total votes in the county convention if all precincts send delegates will be 32.

County party officials this week point to the fact that a place is provided for votes in every precinct to select their respective precinct chairman. If the franchise holders who vote in the primary do not evidence enough interest to choose a Democrat from among their number to serve on the county committee, the county committee is charged with the duty of filling the vacancy. For an unexplainable reason, few voters take the trouble to evince an interest in the selection of their precinct chairman, the committee finds. Thus they let somebody else select the party representative in their precinct instead of making a choice of their own. In only six or seven of the 22 precincts in the county were nominees for precinct chairman petitioned on the ballot.

Two for County Chairman Two names appear on the ballot for county Democratic chairman. Ben P. Ayres, presently administering the affairs of the party at the county level, is opposed by G. C. (See Primary Vote, back page)

County Agent Estimates Cotton Yield in County To Run 112,000 Bales, Slightly Below last Year

The general rains during the past two weeks have greatly changed the crop outlook for 1952. The recent rains varied from two to ten inches during this period. The rains were generally of a slow steady fall with much run off. In the McCoy, Sand Hill, Lockney and South Plains area very hard rain of from four and five inches fell last Friday evening and night. During these rains some small areas received from slight to severe hail damage. County Agent Bob Gibson said that he had not seen any field of cotton totally destroyed, and that what damaged fields he had seen it was a better risk to leave this cotton than to try to replant something else.

Cotton prospects are very good indicating an average to better than average crop. A large acreage of cotton on dry land does not have a good stand, some of this cotton will be plowed up and planted to feed or summer fallowed for wheat this fall. County Agent Gibson does not know how many acres will be treated this way, but a considerable acreage will be put to another use beside cotton. He estimated that at one time there was 200,000 acres of cotton planted in 1952 in Floyd County. This acreage exceeded the 1951 acreage by approximately 30,000 acres.

Insect Infestation The cotton insect infestation has

been very small this year some damage has been done by early infestation of thrip but the cotton has out grown this damage. A very few flea hoppers have been found along with boll worm eggs and a few signs of bollworms damage on squares but not enough to cause damage to need poisoning. Many good insects are in the cotton and stand a good chance of preventing serious outbreaks of harmful insects in the near future, said Gibson.

Predicts 112,000 Bales

Gibson is predicting 112,000 bales of cotton to be produced in 1952 compared to approximately 125,000 bales produced in 1951. The predicted production for 1952 is slightly above the average yield for Floyd County and would be a very good cotton year. Most cotton and grain sorghum fields are badly infested with small grass and weeds but a few days of dry weather to permit cultivation will eliminate this problem. In those fields dry enough for plowing the producers doing an excellent job of destroying the weeds and grass.

Grain sorghum prospects are very good and making very rapid growth a better than average yield is expected from the early grain sorghums. Many fields are being planted to sudan grass, red top cane, big gari and other bundle crop. It is

3,000,000 Bushels Plus

The county agent recounts the wheat year as one of the most satisfactory to wheat growers in years, especially the harvest period. The total yield in the county turned out to be slightly above three million bushels. The agent had his guess at three million.

PROGRAM NOW HINGES ON ACTION, SAYS WATSON

Early this year when it was learned that the Floydada High school had contracted for the paving of fifth street from Highway 70 to the school, the Streets and Highway committee of the Chamber of Commerce proposed to work for more paving for Floydada through all the publicity and encouragement that could be given by that organization. The campaign has been carried on through newspapers, radio and personal contacts by the committee. The committee now reminds Floydada citizens that only a few days remain in which their street can be reported for paving. Each street is responsible for the work and financing for the paving asked for, and when all details are complete that fact should be reported to Jim Potts in the Texas Highway Department or the Chamber of Commerce office.

The construction company offers a 36-foot street with curb and gutter for \$4.00 per foot per side. Rib-bon paving is \$1.25 per square yard. Work sheets to help the block workers in their task of collecting signatures and money have been prepared by the chamber of Commerce and are available in the Chamber Office.

Bureau Folks to Hear Kline

Floyd County Farm Bureau officials this week are issuing an invitation to farm and city families of this area to hear Allan B. Kline, president of the National Farm Bureau, when he speaks in Jones stadium at Texas Tech Monday. The date is July 28, the hour 7:45 p.m.

Helmuth Quebe, president of the Floyd county Farm Bureau, says the Castro county choral club will sing and there will be free lemonade. In case of bad weather the meeting will be held in the college gym.

Mr. Kline has an interesting background, says W. R. Puckett, serviceman of the Floyd county organization. Fifty-seven years old, Kline is a graduate of Iowa State college in 1937, and has been associated with the Farm Bureau federation for the past 20 years. In 1944 he spent two months in Great Britain under the joint sponsorship of the U. S. Office of War Information and the British Ministry of information, and has been in Europe on Farm Bureau or government business on many occasions.

"Since this is principally a rural area we urge any and all interested parties to attend the meeting," said President Quebe of the Floyd county organization. Invitations are being mailed out to several hundred persons in the county.

Lie Detector May Be Used in Hunt For Missing Man

The hunt for R. I. Ardry, Floyd county octogenarian missing since June 12, this week took another turn when Sheriff Leland A. Hart and state rangers decided to delve further into the knowledge of two men as to the last known whereabouts of Mr. Ardry.

Use of the truth machine at Austin may be resorted to, said the sheriff, who said the authorities were not satisfied they had been told all.

The story the officers now have places Mr. Ardry on East Broadway (Ralls highway) on the out-skirts of Lubbock on the night of his disappearance.

The trail was a cold one for 10 days before the officers were notified. They have followed several leads, and have alerted peace officers throughout the southwest to no avail.

## LIPSTICK LOGIC

BY LOUISE ALLEN

Rain, which may be prosaic some places, is always an adventure in the great Southwest.

Although people in damper climates may find rainy weather depressing, the atmosphere in almost any southwestern home brightens at the mere promise of a cloud in the sky. Mama likes it because it "settles the dust" and "cools things off." Dad is joyful because it's "good for the crops" and good crops mean good business.

Rain is the western child's first lesson in objectivity. Few children past the age of six even complain at having a picnic rained out, because they've heard so often "it's good for the country." Add to that the novelty of wading in the streets, and sailing blocks of wood along the gutters, and they can hardly lose.

We went to a coffee the other morning in the rain. Evidently no one would believe a shower could last more than fifteen minutes, so some came late and others were completely unprepared for wet weather. Only about one-fourth of the women present even own an umbrella. One brought a small hand-painted parasol used as a plaything by her seven-year-old daughter. Five or six more had raincoats. The rest had to be shuttled to their cars in borrowed protectors.

Out here "wet years" are historic landmarks. One woman, told of moving to our town in 1925, one of our few wet years. She'd heard all sorts of tales about the dry, barren Southwest, but when she arrived, people were literally rowing up main street in boats. Another, who came west in 1941, said every time a cloud appeared she ran and put the windows down, expecting a sandstorm. Actually, she didn't see sand for several months.

Yes, there may be many more exciting things to see and hear than rain falling on dusty plants, but for our money it's one of the most comforting sights and sounds in the world.

## To The Voters of Floyd County:

• Saturday of this week we are to elect various county officials who will serve us for the next two years. I am a candidate in this primary for the office of sheriff of Floyd county with two candidates opposing me.

• Unquestionably you will want to elect the man as your sheriff whom you believe will best serve you, therefore you need to know the background and record of these three candidates.

• I have been a resident of Floyd practically all my life, for several years I lived in the Lakeview community on the farm, and later for the past twenty years or more, I have lived in Floydada where I am at this time engaged in the grocery business.

• Voters of Floydada elected me to serve as a city council man for four years and I am now serving my first term as mayor of Floydada.

★ When you go to the polls next Saturday it is my hope that you will elect me as your sheriff.

• I know that I am qualified in every way to fill the office, and if you will elect me to this office, I promise you that I will serve you in a manner that will meet the approval of all law abiding citizens who believe in law and order and desire to see fair treatment for all citizens. I will devote my entire time to this office and will not be swayed or influenced by any clique or clan from doing my whole duty. The offenders of law in the city of Floydada can testify to the fact that I have been impartial in my dealings with them.

• For the past six years I have been in business in Floydada where I have become acquainted with a great host of the citizens of our county, and I believe that those who know me, and have known me for the past forty years will give testimony to the fact that I am one who believes in the sanctity of the law and one who is ever and always on the right side of every moral issue.

• I will be grateful to you for your vote and influence in the coming primary election on July the 26th.

## Country Club Picnickers Rained On, Race to Their Homes Early

Clouds gathered and the rains came just about the time the Floydada country club members gathered at the club grounds in Blanco canyon for their annual picnic last Friday evening.

Despite the clouds a good crowd attended. With plenty of basket dinners families and friends gathered in groups for their picnic suppers. Lemonade, ice tea and ice cream were furnished by the club. Edd Johnson was refreshment chairman.

After the supper, the crowd gathered near a large sound truck placed near the club house, which had been provided with piano and loud speaker, where the program was to be given. Jimmy Willson, chairman of the entertainment, with Mrs. Billy Brown, Mrs. Carl Minor and Carlo Minor, had invited Jim Ed Waller of

Plainview to bring a group of entertainers from Plainview down to put on the show.

Included on the program was Horace Comstock who sang several numbers, being his own accompanist, and Ernie Brock and his quartet, which included Emmett White, Homer Garrison, Riley Armstrong and Mr. Brock. They favored the group with several songs. Jim Ed Waller acted as master of ceremonies, introducing Riley, of colored fame in the Lion's minstrels, who gave several jokes and such.

George Cavin had his picture show all ready to go, when the rains came and the group hurried to their cars and headed for home.

### Contests and Games

The swimming contest and the horse shoe pitching and of course the golf was popular in the early afternoon before the supper hour. Jeff Welborn won first in approaching and putting and George Chapman won second.

Carl Minor won first in driving, with L. D. Brittan, second and Claud Weathersbee third.

Roe Jones was chairman of the horseshoe pitching and he won first place.

In the bridge games with Mrs. George Mize as chairman, Mrs. L. J. Welborn won first, Mrs. Lon Davis, second and Mrs. A. B. Keim was third.

In the swimming events group over 12 Becky Potts won two first prizes, ribbons for diving and swimming; group under 12, Karen Goen won first place with second and third places going to Gayle and Gaye Rossen.

In the boy's division Van Stovall, Frank Potts, Robert Stovall, Dale Brown, Johnny Fred Brown, Jerry Chapman, George Farris, and Mike Matsler were among the winners. A

complete list of the contestants and their prizes was unavailable.

District Attorney John B. Stapleton and family, Mrs. Stapleton, Johnny and Sandra Jean. Both District Attorney and Mrs. Stapleton, the former Bernice Patton, daughter of Mr. and Mrs. Roy Patton, are long time residents of Floyd age 6, and Sandra Jean age 5, brother and sister adopted by the Stapletons in 1949, were born at Spur, in Dickens county.

The flip of a lever eliminates dead furrows with the Massey-Harris No. 33 Roll-Over Plow

There's no longer need for troublesome dead furrows splitting your fields. The new Massey-Harris No. 33 Roll-Over plow lets you start on one side of the field and plow on the same "land" until the entire field is plowed. Just flip the lever when you come to the end of the field. The "top" plow automatically rotates into position and locks rigidly in place. You can turn on a dime and wheel down the furrow you've just made. You don't waste fuel and time crossing wide headlands. It's ideal for contours, hillsides and level land.

Stop in and see the new, revolutionary Massey-Harris No. 33 Roll-Over plow next time you're in town. We'll show you how it'll save you time and money in your fields.

# VOTE FOR A. J. "Andy" Rogers

**HIS OPPONENT SAYS:**

(1) He rewrote the water bill introduced in the last legislature, provided for local control for water . . .

**THE FACTS:**  
There was no "water" bill introduced in the last legislature concerning underground water. Doc Holt authored the original legislation giving underground water control to the land owner. Andy Rogers was of the Doc Holt committee that gave underground water rights to the land owner. Andy Rogers was of the Doc Holt committee that killed legislation providing for state control of underground water.

**HIS OPPONENT SAYS:**

(2) His opponent says he worked for and voted for Veterans legislation.

**THE FACTS:**  
It was his speeches and his motions that killed the Veterans Affairs Commission in the House representatives. He was one of the leaders who fought the increase loan amount of the Veterans Land Program for the bill only on the last vote. By his own words he admits "the program does not cost the taxpayer

**HIS OPPONENT SAYS:**

(3) His opponent boasts of his prowess in the Hunt murder case while District Attorney.

**THE FACTS:**  
Most lawyers consider a murder case won when someone is punished. The perpetrator of this foul scot-free.

**HIS OPPONENT SAYS:**

(4) His opponent says he supported and voted for a tax on natural gas for the building of farm roads.

**THE FACTS:**  
He could not be found for a vote in support of this rural road bill until he was appointed chairman of the Conference Committee which handled it. With his leadership the bill for which the rural road bloc had months, was reduced by more than two-thirds.

**HIS OPPONENT SAYS:**

(5) His opponent says his speech was the only one printed in the House Journal.

**THE FACTS:**  
The right to have speeches printed in the House Journal is extended to every member for every month. He was the only member who felt the need to exercise this right. The House Journal is printed at 1 per page.

## Yarborough Thinks Primary Voting Texans Will Vote They Want Change

(Continued From Page One)

AUSTIN. — "By their votes Texans will show they believe it is time to change Governors in Texas," Judge Ralph Yarborough said Tuesday, in commenting on the upcoming election.

"After shaking hands with thousands upon thousands of Texans," Judge Yarborough said, "I'm absolutely certain of Saturday's outcome."

The candidate for governor has great faith in old-fashioned stump speaking and handshaking.

Judge Yarborough's speaking tours have taken him over 12,000 miles of Texas highways. He has been accompanied on most of the trips by his 20-year old son, a 17 year old high school lad, and a young Marine Lieutenant just back from Korea. The team has set a rapid campaign pace, campaigning in six to eight towns daily.

## Mrs. Mayo's Father Passes at Nevada

W. L. Watkins, 84, of Nevada, Texas, father of Mrs. D. T. Mayo of Floydada, died Thursday night of last week of heart attack, and the Mayos, with their son Gayle, last week-end attended the last rites.

Funeral was held at LaVon Methodist church Saturday afternoon at 3 o'clock. Interment was made in Nevada cemetery. Grandsons, including Gayle Mayo, were pallbearers.

Mr. Watkins had been a resident of Nevada for 60 years.

Survivors include his widow, two other daughters, Mrs. Earl Hooge, of Dallas, and Mrs. Buri Evans of Nevada, and six sons, Guy, Wayne, and Brudette of Nevada, Grady of Lubbock, Boyd of Hart, and Paul of Dallas.

D. T. and Gayle Mayo returned home Sunday, but Mrs. Mayo is remaining with her mother temporarily.

## Mrs. W. C. Poston Guest of Brothers

Mrs. W. C. Poston, of Mineral Wells, whose last visit to Floydada was in the fall of 1955-6, is a guest this week of her brothers, Charles M. and J. M. Massie and other relatives here. She is accompanied by her nephew, Will Poston.

In the school year of 1895-6 Mrs. Poston was teacher of the Baker school and made her home here with her brothers, Will and Virgil.

Mr. and Mrs. Olin Bryant and daughter, Darlene, left Tuesday for Cheyenne, Wyoming, where they will attend the famous Cheyenne rodeo.

Protocograph ink, Hesperian.

Tabbs, former county judge. Their names were petitioned on the ballot. The office does not pay a salary, nor is enough remuneration for expenses incident to the job provided.

Among the contests for district office, perhaps the race for senator of the newly-created senatorial district, is creating the most interest. Both candidates, Harold M. LaFont, of Plainview, and A. J. (Andy) Rogers, of Childress, were members of the House of Representatives in the last legislature.

The three cornered race for state representative for the new representative district, No. 89, is between J. W. Walker, Jr., of Hale county, Leroy Saul of Swisher county and T. L. Wright of Hale county. The representative district is composed of Hale, Swisher, Briscoe and Floyd.

The ballots this year may be marked in the old-time Texas fashion by scratching out all of the names the voter is not voting for, leaving only one name for each office, or it may be voted by using a check mark in front of the name.

The "twenty-third" box in Floyd county this year, will be counted by a special election board in the county clerk's office Saturday afternoon. The 152 votes in this list were cast absentee by voters in 15 different boxes in the county. Absentee voting ended Tuesday night.

## Even 'Free' Ads In The Hesperian Don't Get Results

About time for The Hesperian to take it's sign down.

When you can't get action on a good thing that's free, it makes such advertisers as Harry Morckel begin to wonder.

Morckel's firm wanted some free spraying to do recently. In fact, they still do. And when the bugs begin to hit their telephone will go to jangling. Morckel thought of a want ad that would tell the news. When The Hesperian got through boxing the little ad around we had it "free" spraying, no "tree." It ran that way two weeks and nary a nibble.

Mr. Morckel got enough fun out of it, though, to be worth the money to him. We've got it charged up.

## Water and Sewer Men Hold Meeting

A chicken barbecue following the program was served to the members who were from Plainview, Lockney, Matador, Olton, Ralls, Floydada, Spur and Crosbyton. Thirty-three members were present.

The place of the next meeting will be announced later however the date has been set for August 26.

Mr. and Mrs. Lenon Lanham are now making their home at Rock Creek and are operating the store there. Mr. Lanham farms on nearby land. They recently sold their home on Houston street in Floydada to the W. E. Sims.

## Smedley Favored In Lawyers' Poll

AUSTIN, July 22.—I am particularly gratified by the encouragement and support given me by lawyers and business and professional men in the cities where I have lived," said Judge Graham B. Smedley today, in commenting upon his race for the Texas Supreme Court. Smedley, who has the reputation of a gentle and modest man out of court, and a "scrapper" in court, when aroused, has been accorded a vote of confidence by his fellow lawyers and laymen alike. In a recent poll taken by the State Bar, Judge Smedley received 5,177 votes as against 598 for his opponent. Smedley began his career on the Court in 1933 when appointed by the Supreme Court to the Commission of Appeals. In 1945, when the court was increased to nine members, Judge Smedley accepted a place as associate justice. He was elected to his first full term in 1946 and is now seeking his second elective term.

The morning services will be held at 11 o'clock, and the night services at 8 o'clock.

A general invitation to attend all the services has been extended by the church at Fairview and the pastor.

## NEWS SERVICE

Fruits and vegetables provide a large portion of the income of many farm families and information was also lacking in this field. Only the Rio Grande Valley are currently covered in the state, but quotations are also available from Florida, California, and other producing areas. Market reporting in these two fields of agriculture is now well advanced and, pending availability of funds during 1953, plans are underway to increase the service to grain sorghums, wheat, rice, and other products important in Texas farm economy. The information is sent out by mail, radio, telephone, and through the state newspapers.

Briefly, the market news contributes to a free, informed, competitive, and hence efficient, marketing of products. The farmer benefits from expanded marketing outlets and increased returns because of lower marketing margins. The consumer also benefits from better buys, steadier supplies and a greater selection and finally the efficient marketing man benefits from a larger and steadier volume of business.

Daily fruits and vegetables and poultry quotations can be obtained by any person in Texas through a request to Agriculture Commissioner John C. White, State Land Office Building, Austin, Texas.

Rampant insects have made it a miserable spring and early summer for the most of the gardeners of Floyd county. Reports say that biting and sucking bugs have been making it a hard deal for whatever kind of vegetable grower one might be. Cabbages and vine-grown vegetables such as cucumbers seem to have had the hardest battles with insects. Early potatoes mostly escaped and most gardeners had fair luck. In a good many gardens, where the owners did not have too many other things to look after, the gardeners have beat the insects to the draw but in others the tale has been one of sad gardens. This despite all the new ways of fighting insects that were going to make man's battle against his natural enemy an easy one. Who knows but that in the plan of nature it is man who is the "enemy", the insect the guardian of nature's ways. So far as we know at the moment nowhere has the insect been charged with laying bare the face of the earth. There are many portions of the globe where evidences of the deadly wantonness of mankind is only too plain.

Squeeze on Places to build houses is reported from amongst those who are considering building homes for themselves or for rental or re-sale. With lots of room hereabouts there oughtn't to be too much trouble, and, of course, when the need becomes real, if it is not already, somebody will find a way out.

How Much Paving will be done in the community during August and September seems to be a question that cannot be answered. We say this because we find some people who seem to be in the natural path of the paving who have not been particularly interested and have not been contacted by anybody that is. Maybe we just want to talk about paving in Floydada.

No flowing well at Minnie Adams No. 1, Standard Oil Company of Texas, because there is not enough gas pressure. It will be, maybe already is, a pumper, a good one. One pretty fair student of such matters in Floyd-

ada surmises the company has done so many unorthodox things to this particular discovery they are afraid to do anything else. You'd think they had done almost everything that could be done to get water mixed into the oil bearing strata. What the local talent wants done is for the operators to go back there and acidize that other 110 feet of oil bearing formation and see what would happen then. What might happen is what the owners of the well may be afraid to risk. The fact is they'll do fairly well with the well just as it is, on the pump.

The Democrats this week will have a difficult time putting on as good a dog fight as did the republicans in Chicago two weeks ago. We wonder how well the wounds of those Republican battles will heal over by the time of the November general election. Similarly, it is difficult to see how the schism in the Democratic ranks is going to close up. The wide divergence of conviction on so many vital issues appear to make it impossible for all of the Democrats to stand on one platform. The same might be said of the republicans, we assume.

Northern Democrats, meaning the big city organizations, had their machine well oiled when the Democratic convention opened in Chicago and will show increasing ability to handle the convention in the manner that suits them best. After everybody has had a chance to sound off the machine will get in high and they'll make short shift of carrying on according to the ideas that suit them best. Democrats living in an area like Floyd county will learn to like it or else.

Every week must be safety week on the farm if accidents are to be prevented. Carelessness and short cuts are usually contributing causes to most farm accidents. Be careful, warns the State Farm and Ranch Safety Committee, for it's a pretty tough job to operate a farm from a hospital bed or a wheel chair.

## Shivers Points To Record On Country Roads

Governor Allan Shivers this week accused his opposition of making "fantastic" charges in a last-minute effort to minimize the greatest farm-to-market road building program in Texas' history.

The record shows that during my administration, there have been more miles of paved rural roads completed in Texas than anytime in history," Governor Shivers said. "And this is just the beginning - the program is just getting started."

Yet in a desperate effort to confuse the people, this Washington picked candidate for governor has plucked a lot of figures out of thin air, pieced them with some utterly ridiculous conclusions and passed them out as true facts.

Governor Shivers said that a tabulation of the distribution of state highway use tax money to counties revealed that a great deal of money had been channeled to Floyd county for road building purposes in the county during the Shivers administration.

The figures show that since Shivers became the state's chief executive, other thousands had been spent or is being spent in Floyd county for the construction of 35 miles of farm-to-market roads. In addition, the expenditure of \$156,000 for 17 1/2 more miles of paved rural roads has been authorized for this county and construction will begin in the immediate future.

that the State already has plans to build 17 1/2 more miles of farm-to-market roads in this county alone is proof enough that there is going to be no let-up in the road building program in this county, it was said.

A breakdown of benefits received during Governor Shivers administration by this county from highway use tax money shows that the county has received \$205,802 in license fees, and \$92,279 has been paid this county in road bond funds.

The figures above do not include money spent by the state to build primary or main highways in this county.

State-wide since Governor Shivers took office, the state has spent \$102,797,972 for the construction of 7,632 miles of farm-to-market roads. Still to be built for which \$45,385,900 has been authorized are 3,654 miles of additional rural highways.

The figures released and quoted here confirm the fact that Governor Shivers has fought for and will continue to fight for more paved rural roads for every county in the state, it was stated.

The figures were compiled and statement issued before Governor Shivers left for Chicago to attend the National Democratic convention.

Your many thoughtful acts of kindness will ever be remembered gratefully.

Mr. and Mrs. Loy Lee Trice have returned from a visit in Shelby, North Carolina, with relatives.

These figures prove conclusively that the Shivers administration has consistently supported local governments in their efforts to give rural areas paved roads, it was stated.

# Floyd County 14 Years Ago

(Taken from the files of The Hesperian, issue dated July 28, 1924)

The thirteenth annual re-union of West Texas old settlers will be held on August 11, 12 and 13 at the Hank Smith Memorial park, south of Floydada.

Henry Hinton, son of Mr. and Mrs. J. R. Hinton of Dougherty was awarded the Lone Star farmer degree at the Future Farmers of America convention in El Paso last week.

The County convention of the Democrats of Floyd County was called this week to meet at 3 o'clock Saturday afternoon in the county court room, to name delegates to the state convention.

While D. W. Burke plowed in the back field and the rest of the family were in town, their home burned with all their personal effects, as well as the household goods. The Burke family live on the R. G. Lewis farm, 9 miles west of Floydada.

Many hundreds of persons gathered Saturday night to attend the Hesperian election party. Possibly 2,000, got the returns of the county and state election and remained until a late hour. The late hour returns gave O'Daniel a lead indicating he might be a majority nominee.

Floyd County is asked for \$165.00 by the American Red Cross to relieve the suffering and distress in the hill country of Texas. Disaster has hit San Saba, McCulloch, Menard and other counties along the Colorado river. George L. Liden is county chairman and Charlie Bedford is treasurer, with Walter Travis as vice-chairman of the Floyd County American Red Cross.

Alva Sparks, Frank Cline and Guy Cantwell of Cline Bros. are among the Floydada automotive repair workers who are attending a short course in Lubbock this week.

Miss Hazel Wright of Lamar, Missouri, is here on an extended visit with her sister, Mrs. J. W. Buchanan.

Mr. and Mrs. Emmett Johnson and Lena Scott have returned from a visit to Mineral Wells and Seymour.

Mr. and Mrs. Dorris Jones and Misses Mildred Olson and Bernice Patton have returned home from a vacation in Colorado Springs and Denver.

Farm bought east of town through tenant purchase division and loan to Mr. and Mrs. Bill McNeill was closed Wednesday of this week through the local office of the Farm Security Administration. Mr. McNeill is buying a 220-acre tract of land 10 miles east of town on the Matador highway.

W. H. Henry left Wednesday morning for Fayetteville, Arkansas, where he will enter a veterans hospital this week-end for treatment.

Miss Margaret Smith has accepted a position as teacher in the Lorenzo schools.

Floydada schools will open on September 5 this year, as announced by Superintendent A. D. Cummings.

One inch of rain fell at Sterley on Monday afternoon.

## Shepperd Winding Up Campaign For Attorney General

TYLER — John Ben Shepperd, 36 year-old Gregg county attorney seeking a promotion to Texas Attorney General, is winding up his campaign this week in his native East Texas.

Shepperd has visited all sections of the state, but has limited his campaign to hand-shaking, making new friends and talking with old friends and supporters.

He resigned as secretary of state to become a candidate for attorney general. He was appointed secretary of state in 1930 by Governor Allan Shivers. This is the first time he has sought an elective office.

Shepperd is basing his candidacy for attorney general on his record as secretary of state his administrative experience, his legal ability and his knowledge of Texas and the problems and needs of every section of the state.

Although he does not have a formal platform, Shepperd has repeatedly urged and personally practiced economy in government, integrity in public office and law enforcement equality.

## Veterans' Land Program Exceeds Giles' Expectations

Bascom Giles, Commissioner of the General Land Office of Texas, stated that the \$100,000,000 Texas Veterans' Land Program which he sponsored has far exceeded his expectations both in number of applications and accomplishments to date.

As originator and administrator of the Texas Veterans' Land program, Commissioner Giles has supervised the purchase of thousands of farm and ranch tracts for Texas veterans. Giles proposed the veterans' program in an unprecedented address by a state official before a joint session of the legislature.

The personable Giles, a native of Travis County, points out that during his administration the two Texas school funds have been increased by more than \$260,000,000. Commissioner Giles' experience in the General Land office dates back to his graduation from Austin High school; he was employed by the state department almost of a two year span, when he was seeking promotion from the ranks by the Texas electorate, he has given continuous service. His election in 1938 was regarded as the biggest political upset of the election.

Mr. and Mrs. Clinton Fyffe in company with Mr. and Mrs. Lee Cavin, of Lubbock, left Tuesday for Lake City, Colorado, where they will spend a vacation in the noted vacation country.

**GOVERNOR**

### The Truth About Old Age Assistance

Governor Allan Shivers wrote and helped pass the first Old-Age Assistance Law in Texas.

He stands for equitable distribution of funds for the needy.

Two years ago he was one of the leaders who tried to get more money for the aged, a cause that failed because the voters disapproved a constitutional amendment.

Governor Shivers has, in the past and will in the future, advocate making available to our deserving aged citizens not merely enough for a meager existence, but sufficient funds to carry them through the evening years of life as proud, dignified citizens.

An increase of \$5 in each pension check is due next October.

### The Truth About County Road Funds

Farm-to-market road building has been the greatest in history during the Shivers administration.

During Governor Shivers' administration, Floyd county has received \$882,312 rural road benefits from state highway user taxes as follows:

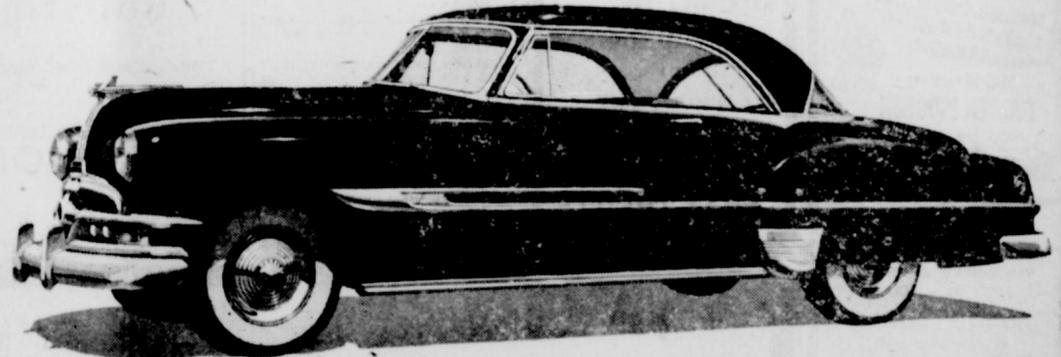

License fees \$205,802, road bond surplus \$92,279, construction of farm-to-market roads \$428,230, authorized but not under construction \$156,000.

In this county, 34 miles of farm-to-market roads have been built, and an additional 17 miles have been authorized for construction, for a total of 51 miles.

Governor Shivers' administration has consistently supported the Floyd county road building program and will continue to do so in the future.

Together we will continue to build a greater Texas *Allan Shivers*

# WHOOPS, WHAT FUN! Four Floydada Misses Journey by Train to Nation's Capital

(Ed. Note: The following was written by Ann Welborn, Dot Holmes, Betty Martin, and Donice Reeves, who made a recent trip to Washington D. C. The girls had a wonderful time as is indicated.)  
We left Friday, July 4th, from Amarillo on the Grand Canyon train. The first meal on the train was very exciting. We liked the diner. Donice and Betty shared an upper berth while Dot and Ann shared a lower. The first night we tried to get ready for bed in our berth and Dot got face cream in her hair and we had to wash her hair before going to bed. After that we dressed in the

ladies lounge. We were too excited to sleep.  
Saturday we arrived in Chicago at 4:00 p.m. We changed stations from Dearborn to Grand Central. We checked our bags and set out to find a place to eat. We ate at Hallways. Then we went to Chicago theatre where we saw Billy Eckstine. That was a thrill.  
**Hamburger in Disguise**  
We caught the train at 10:10 arrived in Washington, D. C. the next afternoon. We went to the Statler and registered. We moved into our room and freshened up. Then went to the Ambassador Coffee shop and ordered a fresh ground round sirloin steak sandwich which cost seventy cents and it turned out to be a cheap hamburger.  
Monday we slept late and played our pieces for the judge. Then we went to the music store and bought some music. That night was the big formal dance and we danced to the music of Lee Maxfield and his Society orchestra. Dot and Donice were chosen Queen's attendants. We went out for a hamburger afterwards.  
That was a big night. We stayed up late and read and talked.

**Congressman Escorts Them**  
Tuesday we met George Mahon and went on a tour of the capitol buildings. We sat on the senate floor, and sat in vice-president's chair and rode the senate subway which is only for senators and important people, but Mahon was with us. We saw the Library of Congress and Supreme court building and that night we went to the trophy winner's concert where Janis Smith played.  
Wednesday we went to the Washington monument and walked down all 890 steps. It took us 30 minutes.

While at the hotel we saw the convention on television.  
When we got to Chicago again we went shopping. We had train time and the rest of our party had city time. We missed them and they thought we were lost so they gave the police men the description of us and our clothes. Meanwhile we went in and bought a new pair of peddle pushers and changed clothes. That didn't help them out any. It all worked out and was very exciting. We got on the train again at noon.  
On the way home we crossed the Mississippi. We also met a group of Air Force boys, who were coming to Amarillo to be stationed. We visited with them on the way home.  
We arrived in Plainview at 11:30 a.m. Our parents met us and helped us carry all our luggage and gifts. We enjoyed the whole trip very much and would like to go back next year.

## Pastor Is Moving To Floydada Home

REV. VERNON CLINE

The Rev. Vernon Cline, pastor of the Bible Baptist church, is moving with his family to Floydada.

The family consists of the churchman, his wife, a daughter, Cecelia Ann, 13, and a son, Jimmy, 9. They will live on West Crockett street.  
The church is now completing a place of worship at 812 South Third street and will entertain a bible conference crowd on Thursday of next week.

Then we went to the White house. We stood in line and only saw five rooms. We ate at the Pentagon and that afternoon we went on a chartered bus tour. We saw lots of sentry boxes and also the Art building, Jefferson and Lincoln memorials and the theatre where Lincoln was assassinated.  
Wednesday night we went to see a fine stage production of "The Hasty Heart." It rained Thursday so we slept late and went on a cruise down the Potomac river to Mt. Vernon. The grounds were beautiful but we were disappointed in the home.  
We went to the big banquet Thursday night. Ann got first, Betty got second, Donice got superior in junior division and Dot got superior in the senior division. That night we celebrated, and told the bellboy to bring up cokes and ginger ale. We stayed up all night.  
Friday we started packing and went shopping. We ate nearly every meal at the Hot Shoppes while we were gone. We finished shopping and packed and checked out Friday morning.

When we got to Chicago again we went shopping. We had train time and the rest of our party had city time. We missed them and they thought we were lost so they gave the police men the description of us and our clothes. Meanwhile we went in and bought a new pair of peddle pushers and changed clothes. That didn't help them out any. It all worked out and was very exciting. We got on the train again at noon.

## The huntman kills the good red deer. And the soldier wars without a fear; But fall to each whate'er befall. The farmer, he must feed them all

Education is the training of all the faculties of body, mind, and soul. Character belongs to a person; it depends on himself.  
Reputation depends upon others; it is what they think of him.  
Had not exercise been absolutely necessary for our well-being, nature would not have made the body so proper for it, by giving such an activity to the limbs, and such a pliancy to every part, as necessary produce those compressions, extensions, contortions, and all other kinds of motions that are necessary for the preservation of such a system of tubes and glands as has been before mentioned.

Dear reader, the above quotations are taken from Grave's New Graded Spelling Book, Complete, Published by Ginn and Co., 1894.  
Many have often wondered how our forefathers got such a good education when schools were short and books few. I find in this speller Ray's Arithmetic, Blue Back Speller and McGuffey's Readers many reasons why this was so. Much was compiled in little space, but before every spelling lesson were poems, sentences, and short readings, using the words and teaching how the mind, soul and body were trained in that day.  
This old speller was given to me and I find on the front page these lines:

Roses is red  
violets is blue  
sugar is sweet  
and so is Ruthy.  
And way over in the book is a slip of time-yellowed paper with these words:  
My're sweet as jam.  
Many a day Ruthy has been gone on to her reward as is the writer of the words but these words enchant me — sweet as jam.

I was looking over my old English Grammar and I find some quotations I marked in pencil as I read them so many years ago.  
Wisely and well said the Eastern bard:  
Fear is easy, but love is hard.  
Small service is true service while it lasts;  
Of friends, however humble, scorn not one;  
Beautiful hands are those that do work that is earnest brave and true, Moment by moment the whole day through.  
And listen to this:  
In fact there's nothing that keeps its youth. So far as I know, but a tree and truth.  
I wonder why I was so impressed

I lost the car keys last week and Mr. Spikes was very much put out and so was I but being the guilty one, I tried to defend myself. I told him lots of people just lose their car keys and that something could be done about it. He informed me that when one bought a car, he was provided with two sets and was supposed to keep up with them. I searched frantically in every place over the house. But when I calmed down and began to search my mind, I began to get results. I traced them from the porch where I sat down to read a few minutes, then into the house where I put down the daily paper and some books. I recalled I had put the paper in the trash and burned the trash. So I trailed the keys like a dog a rabbit. I picked up the trash barrel, turned it over. Out rolled the keys smoked but not hurt. I had lost the key to the car trunk and this left us without any way to get inside but finding the one key and having another made, I have two sets and cross my fingers that I will not get careless again.

## Seismograph Holes Problem To Water Men

LUBBOCK. — Prospects are good for a solution to one of the irrigation farmer's most pressing problems — that of seismograph holes being drilled too close to irrigation and domestic water wells.

This word comes from Tom McFarland, president and manager of Hi-Plains Underground Water Conservation District.  
McFarland recently received the assurances of Ernest O. Thompson, commissioner of the Texas Railroad Commission, that the matter may be regulated by law.

Thompson wrote: "A statute is being with this statement. I was so young, old age so far, far away. I had years and years before me, long ones as they were then. I thought. But they were not long, but thank my kind heavenly Father they have been many and happy.  
If wrinkles must be written upon our brows, let them not be written upon the heart.  
Thus says the poet, so I go forward not minding the wrinkles on my brow for I have tried to keep out the wrinkles in my heart.

I lost the car keys last week and Mr. Spikes was very much put out and so was I but being the guilty one, I tried to defend myself. I told him lots of people just lose their car keys and that something could be done about it. He informed me that when one bought a car, he was provided with two sets and was supposed to keep up with them. I searched frantically in every place over the house. ## As A Farm Woman Thinks

(By Nellie Witt Spikes)  
Man builds his castles fair and high  
Wherever river runneth by;  
Great cities rise in every land  
Great churches show the builder's hand,  
Great arches, monuments and towers,  
Fair places and pleasant bowers;  
Great work is done, be it here or there,  
And well man worketh everywhere  
But work or rest, whatever befall,  
The farmer, he must feed them all.  
My lord rides through his palace gate,  
My lady sweeps along in state,  
The sage thinks on many a thing,  
And the maiden muses on marrying;  
The minstrel harpeth merrily,  
The sailor plows the foaming sea.
