## Dr. H. H. Lindeman Speaks At Local Church Sunday

### HOME EC GROUP ENJOYS ANNUAL SOCIAL MEETING

Members of the Parmer County Home Economics Association and their guests met at the Roadside Park near Bovina last Wednesday evening for their annual social meeting.

Miss Anna Hastings had charge of the arrangements and delighted the group with a delicious meal which was completely prepared without using scarce or rationed foods.

Those who attended were Miss Mary Elizabeth Stanford, Mrs. C. D. Holmes, Mrs. R. L. Bates, Mr. and Mrs. J. T. Gee and daughter, Mr. and Mrs. Virgil Elms, Miss Anna Hastings, Mrs. Rhodes, Miss Dorothy Shaw, Cpl. R. L. McGinnis, Mrs. Frank Truitt and Miss Elsie Cunningham.

## Graduation Ends Student Days for 12

Friday evening, May 14, at the school auditorium, graduation exercises were held for the seniors of 1943. Dr. S. H. Condron from West Texas State College spoke on planning for the future. June Maurer, gave the valedictory, "Design for Tomorrow." Both of these parts were inspirational. Elsie Messenger, salutatorian, read a poem, "God, Give Us Men," which was appropriate for these times. Eva Dean Hyde, Fern Cunningham, and Margie Marrs sang "I Love a Little Cottage" and Fern played a piano solo, "The Scarf Dance."

The awards to seniors and other high school students were made by Mr. Ginn. Mr. Magness presented the diplomas to the following members of the class: June Maurer, Elsie Messenger, Howard Loveless, Webster Johnson, Velma Scheuler, Eva Dean Hyde, Margie Marrs, Fern Cunningham, Vera Leach, Benthal Southall, Billy Baxter and May Lou Barker.

Three members of this year's class are now serving their country.

Rev. Herman H. Lindeman, D. D. superintendent of the district of the central south of the Congregational Christian Churches with headquarters in Oklahoma City, will be the special guest speaker at the Friona Congregational Church, Sunday, May 23, at the Sunday morning and evening worship services, and will also be the chief speaker at the Sunday school hour and the afternoon program when the local church will have a mortgage burning ceremony when the payment of the church debt of some 16 years standing will be celebrated. All friends of the church are invited to this and all other services.

The Sunday evening service will be in the nature of a young people's rally to which the young people of all the local churches are invited. Rev. Lindeman has directed young people's summer camps for many years, and was formerly a college pastor in South Dakota. Besides group meetings with officers and various church groups, the Rev. Mr. Lindeman will also speak on Tuesday and Wednesday nights at the local church on the role of the churches in a world at war and the problems of a post-war world. Sunday a fellowship dinner will be served in the basement of the church, at which all of the churches are invited, as well as all special services announced above. Rev. Mr. Lindeman's last visit here was Oct. 16, 1942. He is in charge of denominational work in Texas, Oklahoma and Louisiana.

### American Legion News

Since Memorial Day will be on the 30th of May, it is the regular custom of the Friona Post to meet and have a working of all the graves of those that have gone on.

This post has selected the 25th day of May for this purpose and it is the desire of all who have relatives and friends to meet as early as possible, bring your lunch and do a real days work. This is a very needed thing and begin now to plan so not to have other work on this day.

It is also the desire of this post in cleaning our cemetery that those who are unable to attend this community work to send a man or some one to help, or send in a little finance so the work can be done.

Meet your friends on this day of remembrance and do a very worthy deed in respect.

derscheid and Truitt Coffman were graduated at midterm and are now serving their country.

## Nine F. H. S. Students Receive Honor Awards

### Friona Boys Leave for Induction Wednesday

Another group of our local boys left for Lubbock Wednesday for induction into the armed service of their country.

Among those called were Roy Hart, Dave Bender, Nathaniel Taylor, and Tommie Wilborn. It is understood there were others, but the Star was not able to get the names.

### ANNUAL POPPY SALE

May 29 will be our Annual Poppy Sale. I hope everyone understands what becomes of the coins they contribute when they take a poppy from an Auxiliary worker. I wish every one could know the need for those contributions, especially this year when this war is increasing that need so greatly.

First, let me say that every penny of the money paid for poppies goes into the rehabilitation and welfare work of the American Legion Auxiliary and because this work is done by volunteers it goes a very long way. Disabled veterans and children left fatherless by war are the special concern of the Legion and Auxiliary. It is for them the poppy dimes and dollars are given—not so much for their maternal needs as for their human needs.

Only the billions of the government can bring adequate relief to the nation's disabled defenders and their families, but there are things which the government, with all the billions, cannot do. It cannot provide the understanding aid and personal attention that so often are such a big factor in a disabled man's rehabilitation, which so often holds his family together until he is able to return home.

This the Legion and Auxiliary are doing with the help of the money you give on Poppy Day. By wearing a poppy you aid the disabled as well as honor the dead. "So let's keep faith with them!"

He told me he liked poppy best I did not understand. For roses then and violets Were blooming in the land. He told me he liked poppy best Then one day while I stood Beside an old French roadway, Near the trees of Belleau Wood, I saw a field of poppies stir, All radiant, wet with dew, I thought of him, who died for France— Oh! I like poppies too."

—Author Unknown.

MRS. FOISTER RECTOR, Secretary of Auxiliary

Mrs. Minnie Waters of Calif., who has been visiting in the home of her niece, Mrs. J. V. Fulks, the past two weeks departed for her home Tuesday.

### School Reports On Activity Of Victory Corps

At midterm a Victory Corps was organized in the Friona High School with Miss Stanford as director. The members of the student council, June Maurer, Nola Faye Smith, Loris Jean McFarland, Mary Lee Todd, Webster Johnson, Richard Bennett, and Billie Chiles carried on the work under direction of Miss Stanford and Mrs. Truitt. Application for membership was worked out by the council. About two-thirds of the student body made application and became members, buck privates.

Each month the members were required to make certain number of points in order to maintain membership and become eligible to wear the insignia "V". Those who gained an extra number of points were made private first class, corporal, sergeant, etc.

The purpose of all activities was to help out in the war effort. Points were granted for the purchase of Saving Stamps—each week's collection of scrap, modeling plans, beginning a Victory garden, full or part time work, participation in Victory programs, collecting rubber, aluminum, and many other war time activities.

At the end of the term the following members are in good standing and will begin their work next year with the same ratings: Cleola Hurst, Doris Ann Lange, Carolyn Lange, Rosalie Messenger, Ouida Shaffer, Nola Faye Smith, Verlin Talkington, Loris Jean McFarland, Mary Lou Allmon, Jackie Bennett, Mary Frances Bracken, Billie Chiles, Nancy Cobb, Mildred Collier, Shirley Maurer, Ethel Mae Taylor, Mary Lee Todd, Mamie Lou Wilson, Camille Elmore, Mildred Taylor, Patricia Loving, Vivian Weis, Tommy Lou Turner, Richard Bennett, Lois Norwood, J. C. Mears, Lavon Haney, Norma Schultz, Helen Taylor, Elda Hart and Johnny Roberts.

### Sixth Street Church of Christ

C. B. Glasgow, Minister. Bible Classes at 11:00 A. M. Worship at 12:00. Sunday night Services 9:00. We had fine services last Sunday. The song service was excellent. Everybody invited to attend the classes and church services each Sunday. We have a class for everyone.

Nat Jones who was called to the bedside of his brother at Abernathy, returned to Friona Wednesday. Mr. Jones' brother is much improved.

### Awards Made by Supt. Ginn

At the annual commencement exercises Friday evening, May 14, awards were made to several high school students. June Maurer, valedictorian of the senior class, who had a four-year average of 94.75, received the medal for that honor, and also the scholarship medal for the senior class. She received the Magness award for loyalty, scholarship and achievement, the book, "I Dare You," presented by the Danforth Foundation, a one-year subscription to The Reader's Digest, a scholarship to any state school, and several scholarships from business schools.

Elsie Messenger, salutatorian, with an average of 91.67 was awarded the medal for that honor and also received a scholarship to Wayland College.

Howard Loveless, who had an average of 89.33 was the highest boy in the class. He received a scholarship to Wayland College and a copy of the book, "I Dare You."

Webster Johnson is the boy of the Senior class, whose name is to be placed on the plaque which hangs in the hall of the high school for the Magness award. This honor was based of scholarship, loyalty and achievement.

Medals for the best all around girl and boy in high school went to Mary Lee Todd and Vialo Weis. The scholarship medal for the Juniors was awarded to Dale Treider with an average of 92; for the Sophomores to Shirley Maurer whose average was 94.75; for the Freshmen to Doris Ann Lange with an average of 92.14. Congratulations are due these students for such recognition.

## Rites Here Monday for Capt. Ira Benger, Air Crash Victim

### Dr. Parr Joins Navy Air Corps

Dr. Paul A. Parr, of Oklahoma City, arrived here Tuesday evening for a few days visit with his parents, Mr. and Mrs. J. W. Parr, and his many other Friona friends before being inducted into the air force of the navy.

Dr. Parr is a Friona boy, who has been an instructor in the Oklahoma College of Chiropractic for the past two or more years, and has won a distinction for himself in that profession.

He recently made application for enlistment into the Navy Air Force, and has been accepted, and is now awaiting his call for induction. Dr. Parr is one of the Star's good friends and favored the Star office with a short visit Wednesday forenoon.

### Home Ec Teacher Announces Summer Schedule Program

Miss Elizabeth Stanford, high school home economics teacher, this week announced the following schedule for the summer program of the home making department.

**Monday**  
9:30-11:30—Visiting homes.  
11:30-1:00—Conference at high school.

**Tuesday**  
9:30-11:00—Visiting.  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee meeting.

**Wednesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Thursday**  
9:30-1:00—Visiting.  
1:00-2:30—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Friday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Saturday**  
1:00-2:00—Lunch.  
2:00-5:00—Visiting!

**Sunday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Monday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Tuesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Wednesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Thursday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Friday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Saturday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Sunday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Monday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Tuesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Wednesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Thursday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Friday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Saturday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Sunday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Monday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Tuesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Wednesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Thursday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Friday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Saturday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Sunday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Monday**  
1:00-2:00—Lunch.  
2:30-5:00—F. H. T. Committee Meeting.

**Tuesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Wednesday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

**Thursday**  
9:30-11:30—Visiting.  
11:30-1:00—Conference at high school.

Funeral services for Capt. Ira Benger, 23 year old son of John Benger of Friona, who was killed in a plane crash near El Paso last Thursday May 13, were held here Monday afternoon. The funeral was given with full military honors.

Capt. Benger, moved to Friona with his family in 1928, was a graduate of Friona High School where he completed the course of study in 1928. For three years he was a student at Texas Technological College, where he made a high scholastic record. He left college in October, 1940, to enlist in the Army Air Corps, took his primary training at Santa Maria, Calif., basic training at Moffett Field, Calif., and graduated with honors at Stockton, Calif., in May, 1941. Young Benger had a splendid record of Air Corps service, having been made an instructor upon receiving his commission. He later served as flight commander and at the time he left La Moore Field, Calif., he was squadron commander. He voluntarily left this post to continue his training at Siebling Field, Fla., and when he completed his work there, he was qualified as a pilot of all types of aircraft flown by the U. S. Army Air Corps. He received his captain's commission while stationed at the Clovis Air Base in February, 1943.

At the time of his death he was stationed at Biggs Field, El Paso, as an operations officer. He met his death in line of patriotic duty and qualified ably as one of freedom's defenders—one who felt that the sacrifice of his life, if need be, was not too great a gift for his country.

Captain Benger was a member of the Friona Baptist Church. Captain Benger's mother died in October, 1933, and he is survived by his father, John Benger of Friona; two sisters, Lucille Benger and Mrs. Elsie Greene; two brothers, Lt. Noel Benger of the U. S. Marines and John Benger, Jr., of the U. S. Navy, and by his grandfather, Ed Brewer of Fargo, Okla.

### Adams Meets With Serious Accident

Raymond Adams, who is working with his father at the business of drilling wells, met with a serious accident Saturday while working on a well for John Lynn, northwest of town.

Raymond was alone at the well and was using the windlass for lowering the bit into the hole, when it got away from him, and the crank came over and struck him on the forehead, inflicting quite a serious wound and bruising his nose badly.

He was not entirely knocked out but kept control of himself until he got into town where he received medical treatment. He is out and about, and while the wound is painful, no serious consequences are expected.

Mr. and Mrs. N. E. Taylor were in Farwell Tuesday. M. H. Sylvester of Clovis spent Wednesday here with relatives and friends.

### Palace Raiment Unstiffened

Buckingham Palace servants are wearing new blouse-and-trousers "battle" garb these days, ordered by the King to conserve material. A steward is shown at right in the new regalia, dark blue and displaying the Royal Cipher "G. R. VI" on the left breast, as compared to the traditional tail coat and stiff white shirt and collar of the footmen at left.

### They Call It 'Stovepipe City'

Navy construction battalion Seabees line up for chow at "Stovepipe City," their base at Camp Rouseau, Port Hueneme, Calif.

## Farmer John SEES THINGS

In all the talk of post war planning in which America, for humanity's sake, is being proselytized by administration propaganda—to curtail, to smother, to regiment freedom of the individual—there is just one bright ray that shines through the darkness. True, this is not a New Deal suggestion and is therefore, hopeless to the bureaucratic thinking. But, then, the people are all sick of all germs hatched by the promoters of the past ten years' spectacular planning. May be the people, the common people of the world, and especially the United States citizens, who have had 150 years practice in free thinking, are about ready to kick overboard the political grafters, the big-promising never-do-well, and consider a co-operative plan for a great, just and practical world power.

A global power, of course, implies an enormous power, a dangerous power, but not necessarily a government in which one bit of freedom's fair light of the individual initiative, of sense discouraged. This great human privilege must be protected by the wide and revitalized constitution. And we to the man that would ever again dare to besmear its spirit with dirty politics.

A few days ago the Chicago Tribune came out with an editorial in which a United States of unrestricted dimensions, was advocated. Using Texas as a criterion or example, this author pointed out the advantage of permitting England, Canada, Mexico, or any other state to come under the Stars and Stripes with the same fair and just stipulations as did Texas. This author argued the absurdity of wrecking the best example of democracy—the United States Government—the world has ever seen in order to save the faces of European Bureaucracy, Asiatic Anarchy and a good world weaklings, while might have developed some nationalistic ego. For Canada, Mexico or even England, to come under the protection of Uncle Sam's constitution would prove just as wise and as fair as it was for Texas to join the union.

Judging from comment from many newspapers and magazines, this editor may have found an idea, that is worth cultivating. No political party gave birth to it. No group is nurturing it. It seems to be the spontaneous development of the true American idea of self-government. Roosevelt, Churchill, Stalin, and the Chinese Chieftain, can hope to get no further with a world-dominating government, than did Alexander The Great, Caesar, Napoleon or the great German hero. Such a move must come from a world-wide Christian spirit of individual responsibility among the peoples of the world. Americans call it democracy.

### Announce Birth of Son

Word was received here this week that Mr. and Mrs. J. L. Dwight are the proud parents of a new baby boy, Richard Dale, born May 10.  
Mr. and Mrs. Dwight formerly lived at Friona, where he was in charge of the Ford agency. He is now working as ship welder in the ship building department at Lomita, Calif., where they are now living.

## Folks in Uniform

"Insured?"

## Washboard Test

An M-12 tank destroyer, Army's highly maneuverable "tread-naught" combination of 155-mm. gun mounted on a medium tank chassis, rumbles over the washboard road at the Aberdeen, Md., proving grounds. The Germans in Tunisia had to give way to this weapon. (Passed by censor.)

## Buttering a Nazi's Bread

(U. S. Navy Photo From NEA)

A wounded Nazi U-boatman gets a little chow help from a U. S. Coast Guardsman after being captured off the Carolina coast with 32 kameras by the Coast Guard cutter Icarus. From his grin, you gather he knows which side his bread is buttered on now.

## Junglease

It's Army's new jungle hammock—waterproof canopy and bottom, insect netting, slide fasteners to give quick access to weapons slung underneath—for protection of the health of our jungle fighters. Tommy gun-armed Corp. Charles B. Cooper demonstrating.

## CHANTS from the Chanticleer

While on the street a little while Saturday afternoon, we chanced to meet Sid Hall of the Hub community, and he mentioned to me something that he saw in the Star, perhaps two years ago, in the "Jodok" column, wherein he had asked anyone who could, to tell him what a "Frow" is and how the word is properly spelled.

He said he knew what the thing was, but did not know the correct spelling of it, so he had said nothing about it. Another gentleman, (we think it was E. B. Brannon), was standing by and he said he knew what a "Frow" is, but neither did he know how to spell it, and they both described the article so well that I knew what they were talking about. It is a very simple tool used in riving or cleaving such articles as clapboards, shingles and pales, sometimes called "pailings."

We had looked in a Webster's Collegiate dictionary for the word, "Frow" and had not been able to find it even though I had looked for every conceivable way we could think of for spelling the word and had failed, so we have looked in the unabridged edition and there we found it. It is correctly spelled "F-r-o-w" or "F-r-o-e" with the first spelling preferred. If anyone does not know what a "clapboard" or a "pailing" is, we can define those also. Probably many people here on the plains do not know, but that should make little difference.

W. C. and Frank M. Osborn drove over to Tulsa Monday morning and returned about noon with a brand new John Deere tractor for the Black well Hdw. & Furn. Co.  
Frank told us that about the only wheat crops that looked like they will make anything at all, are those between Lakeview community and Dimmitt, and many of those present a very poor showing.

He said that beyond Dimmitt and on into Tulsa, the wheat prospect is extremely poor, and he does not believe much of the crop there will pay for harvesting.

## FARMING TALK

by GARLON A. HARPER  
County Agent

Rodent control is one farming operation which never receives the amount of consideration it should from a farmer until that farmer has a very serious infestation of these rodents on the farm. The main rodents which are harmful in this county are prairie dogs, rats and rabbits. The Bureau of Biological Survey has estimated that it costs a farmer a dollar to feed a rat for a year. That figure was rather surprising to me but it is reasonable to figure the cost that way when you consider the amount of grain and other feeds which are wasted by rats. That loss could run into just a lot of money if the rats on a farm were allowed to increase without hindrance.

Ranches have realized the loss they have been taking from prairie dogs for a long time but few of them have been patient enough to keep at their prairie dogs until they had completely cleaned the mout. A good kill is not effective unless they are ALL KILLED. One of the safest and most effective methods of killing prairie dogs is the use of poison grain. The proper use of this grain has a lot to do with the effectiveness of the percentage of kill you get. Clean and unpoisoned grain should be put out several days before the poison grain is put out. The grain should be placed out away from the holes and into the edge of the grass where the dogs start feed right next to the holes. If this clean grain is cleaned up by the dogs in two days then you have a good chance of getting an excellent kill with the poison

grain which is put out after the clean grain is eaten up by the dogs. About a tablespoonful of the grain should be placed out opposite the holes in the edge of the feeding grounds. This is enough to get a good kill for that particular hole and is not enough to poison cattle. A cow would have to eat about 3 lbs. of this poison grain before she would get enough to kill her. Rabbits can be killed by use of the same poison grain. For them a small mound of dirt should be placed along the trail and a small amount of the grain placed on top. About three such mounds will be fore effective than one since a rabbit is INCLINED TO JUMP around from place to place and will get more poison if it is scattered out. A good way to keep rabbits out of soybeans, which is a favorite food of the rabbit, is to plow several deep furrows around the field. A rabbit won't cross these deep furrows just anywhere but will make a trail across them at one or two places. The small mounds of dirt may be located near this trail or the poisoned grain may be scattered along the trail.

Poisoning rats is a long and steady job for those who want to completely eliminate the pests. We have a bulletin in the office which gives several types of poisons which are effective. Use of several of them is recommended in order to completely eliminate the rats. When new farm buildings are constructed an effort should be made to make them rat proof. nusowmsrtiaef

If so, I suggest that you try a tub garden. A few gardeners over the county have found that this works. It is easy to make, costs absolutely nothing except your time, and it is worth consideration.

## CHDA NOTES

HERE'S HOW TO MAKE A TUB GARDEN  
by—Elsie Cunningham Home Demonstration Agent.  
Are you Victory Gardeners in Farmer County looking for some method of getting tomatoes, peppers, squash and cucumbers to grow and produce through the

hottest and driest weather? Here's how to make a tub garden. Get an old tub, or cut a discarded oil drum in half or use several five gallon cans. We will assume that you have an old wash tub so proceed by cut-

ting long slashes about half way up from the bottom, 4 or 5 to the tub, (3 to a 5 gallon can). Sink the lower 2-3 of the tub to the ground on sacks tacked on poles, convenient to the water supply. Fill to the ground level with barnyard manure and cover with one or two inches of good top soil. Pour in water until the tub is full.

### SAVE FOOD... it's as important as bullets.

Plant a victory garden and preserve your surplus. Put up as many fruits and berries as possible. Your Gas range makes canning easy. Cook only the amount of vegetables needed. Serve left-overs creamed, in casserole dishes, or cold—in salads. Cook vegetables and fruits in their skins whenever possible—and over a low Gas flame. Roast meats at low temperature in your Gas oven to reduce shrinkage. Use left-overs in stews, hash, meat pies.

### SAVE VITAMINS... you need 'em to be strong.

Cook vegetables in as small an amount of boiling water as possible. The flexible Gas flame will give you the exact degree of heat you need. Cover vegetables and bring to boil quickly over full Gas flame, then turn flame low, cook gently. Do not use soda in cooking green vegetables. It destroys vitamins. Cook vegetables shortest possible time. Store fresh vegetables in hydrator of your Gas refrigerator to help preserve perishable vitamins.

ture is seeking increased production of some products, notably peanuts, by announcing a support price for the product. This system, the department believes, will bolster production, and at the same time prevent the uncontrolled rise of prices.

A report from the State USDA War Board received recently in the local AAA office explains some of the mysteries of why America faces shortages of certain food items, at the same time that production of food is reaching an all-time high mark. One factor in food shortage is the fact that supplies for American Expeditionary Forces must be ready in warehouses at all times, ready for instant call. Supplies must be large enough to meet the emergency of convoy losses, which are continuing to be heavy. The Allies are drawing upon American food production, and at the same time, civilian demand in this country is at a record high.

Though the government has a system of forecasting food requirements of all groups, the report states, the civilian food supply program is not smoothly geared and smooth running; however, the Department of Agriculture believes that civilian supply is immeasurably better than it would have been, had not the Department carried out a planned production program for the past few years. The program has been aimed at increased production of meat, milk, eggs and oil crops, with moderate increases in other lines. In 1941 and 1942, according to the USDA, food demands of our armed forces and our allies were smaller than the increased production; however, by the end of 1942, food supply fell behind the demand created by the greater purchasing power of civilians and food shortages developed.

## USDA Report Clarifies Food Prospects in '43

Farmers will plant in 1943 nearly 11,000,000 acres more than in 1942. There are record numbers of livestock on farms and it is estimated that farmers will produce eight per cent more crops than in 1942 if weather conditions are favorable and adequate labor and machinery supplies are available; however, due to increased demands by the Army and Navy, there will be six per cent less food for civilians this year. These shortages will largely be felt by the well-to-do and by war workers trying to buy more food with part of their war-time wages.

Compared with 1942 there will be less meat, canned goods of all kinds, butter, cheese, some fresh vegetables, coffee, tea and cocoa. There will be available about the same amount of fresh and frozen fish, eggs, fluid milk, cooking fats, fresh citrus fruits, dried fruits, tomatoes, potatoes and cereals. There will be an increase of 13 per cent more wheat and rye, 30 per cent more chicken, 57 per cent more margarine and nine per cent more apples than was available in 1942. Scarcity of some imported items is felt because the enemy has taken over important producing areas and also because of shipping shortage.

The first steps taken in working out price controls have dislocated food supplies and caused local shortages, since food has tended to go to the areas where prices are highest. The OPA is working to secure more equitable distribution, and supplies will tend to increase, as consumers cease to be able to hoard.

SAVE UP TO 50% ON FEED COST Yet Grow Husky Pullets the Ful-O-Pep Way!

IT REALLY PAYS IN 1942 TO RAISE LOTS OF US BIG HUSKY PULLETS

AND THE VITAMIN BOOST IN FUL-O-PEP HELPS US TURN OUT LIKE CHAMPS

SAVE FOOD... it's as important as bullets. Plant a victory garden and preserve your surplus. Put up as many fruits and berries as possible. Your Gas range makes canning easy. Cook only the amount of vegetables needed. Serve left-overs creamed, in casserole dishes, or cold—in salads. Cook vegetables and fruits in their skins whenever possible—and over a low Gas flame. Roast meats at low temperature in your Gas oven to reduce shrinkage. Use left-overs in stews, hash, meat pies.

SAVE VITAMINS... you need 'em to be strong. Cook vegetables in as small an amount of boiling water as possible. The flexible Gas flame will give you the exact degree of heat you need. Cover vegetables and bring to boil quickly over full Gas flame, then turn flame low, cook gently. Do not use soda in cooking green vegetables. It destroys vitamins. Cook vegetables shortest possible time. Store fresh vegetables in hydrator of your Gas refrigerator to help preserve perishable vitamins.

HELLO HAMLETTE, HOW ARE YOU TODAY?

HAPPY BIRTHDAY, MISS LORNA! HERE'S A LITTLE PRESENT FOR YOU

WHY THANK YOU, HUNK? THIS IS SWEET OF YOU!

THE REMEMBERED MY BIRTHDAY. I BELIEVE HE'S REALLY BEGINNING TO CARE! I'M SURPRISED THAT YOU REMEMBERED MY BIRTHDAY, HUNK!

OH, GUCKS, MISS LORNA, I COULDN'T FORGET THAT

WHY, IT'S THE SAME DATE AS HAMLETTE'S!

# Designs for Tomorrow

We, as American youth, have an interest in the world of the future, because, first of all, we will have to live in it. It will be our world, for better or for worse, and it will center around us.

Since we are to live in this world, should not we have a part in making it? If we stand idly by and do nothing to make it, we cannot complain about what kind of world it is. But we do not intend to stand idly by; we intend to do something. In fact, there are three of our class who are already doing their utmost. These three have seen fit to offer their services to their country in order that we, their classmates and their friends, might enjoy freedom and sooner know the blessed reign of peace. They are fighting for a better world and we must be prepared to build that world when the war is over. The faith these soldiers and all others of the world have in us and our ability to build for peace must be justified—it will be justified if we too, have faith and courage.

American Christian youth has the best opportunity in the world to reshape the future. We are free to think, to plan, and to hold things, than youth in any other part of the world. We are not bound by custom, by tradition, or by the iron systems of rulers. We are our own rulers through our representatives, and we plan and perform either personally or through those who represent us. If we fail, the future fails. What then can American youth do to shape that future? First, we must gird for the task. We who are graduating tonight are extremely fortunate in that we have had the marvelous opportunity of acquiring an education. We shall always be thankful to those teachers who have worked so faithfully, cheerfully and have been so helpful to us during the past years. Our parents, our churches, and our schools have aided us during the past to gird for the task. Few suspected, however, that we would have to face the future that is before us, but I feel that we are well prepared for whatever lies ahead. But we must not stop now. We must continue to study and work in preparation for the future.

Next, we must enlist others—become united in striving to build a better world. "A closely organized society can be democratic only when the individuals who make it up feel this sense of unity and are capable of voluntary action for the common good. Never was this sense of unity so necessary as it is today. Action is as personal as pain, individual as each man's fears and hopes. But the significance of one man's action is that it ignites another's action. Indifference may become corporate, but action may become corporate if men work together toward a common goal. It is important that

we become united with our fellow Americans of every color, race and creed. The negro boy in our school gives the Pledge of Allegiance to the flag and ends with these words—"With liberty and justice for all. But me!" The words "but me" are uttered under his breath, but they are true. The bad treatment of those of a different color makes for bitterness and resentment and is neither Christian nor democratic. We must change this and give every child born in our society, regardless of color, equal opportunity to climb to the top if he can and will. We of the younger generation must root out this injustice. Freedom arises only out of a society of free and happy individuals.

After we have girded for the task and enlisted others to work for a better world, we must heal the wounds of the world. This is necessary if we are to build constructively for the future. Projects of friendship giving, in helping to bridge the gap which threatens our American Democracy, are one of the great needs. We must be friends with and aid the desperate Russians, the starving Greeks, and the beaten Chinese now, in their time of need, if we hope to have their friendship following the war. Let us remember that a friend in need is a friend indeed. At the present time there is little we can do in the way of being friends with our enemies except to pray for them, but after the war we must treat the loser decently and patch up our differences as well as continue our friendships with those nations whose friendship we so desired during the war. We must replace the hate that war brings with the love that is brought by peace. We must heal the wounds of the world and we should start in our own community. In all our actions we must ever keep before us this commandment: "Thou shalt love thy neighbor as thyself." Our neighbor is just everybody, of every race, of every class, or every color, of every creed. He is a man as a man.

And in building for a better world, we must have a plan for the future—a design for tomorrow. Some steps toward a new world must be taken. We should give equality of opportunity to everyone who comes to our land. We should give equality of immigration and naturalization. We should build an economic world order in which there is equality of access to the raw materials of the world and thus to the markets of the world. All peoples should be given the free, unhampered opportunity to decide their own destiny. There should be equality of opportunity for the greatest possible development of all peoples in all areas. We must know definitely what we are working for; what we are striving to build.

"The year and years ahead are fearful and wonderful in their threat and in their promise." Hundreds of new fields lie open for us to investigate. New secrets in electronics, metallurgy, synthetics, plastics and aeronautics are yet to be discovered—by us! "The surface of invention has merely been scratched. Whatever our work, we may think of it as a vocation before God, a gift to him of our skill and devotion, an opportunity to labor with

## Pay Load

Troops in the Aleutians can't go night clubbing, but they get their pay anyhow. Maj. Fred O. Guider, right, in plane, checks an arriving shipment labeled "Federal Reserve Bank of San Francisco."

him in the great business of making the world go around—we may think of our work as a fine experience of fellowship with laborers and craftsmen in the cooperative community; arm in arm and shoulder to shoulder we tow the switch, we harvest the crop, we erect the house, we go to school, we build the community of people and dream, we become part of the color and light of industry"—we build a new and better world. And if it seems that these are just dreams, remember they are—God's Dreams, from the pen of Thomas Clarke comes these words:

Dreams are they—but they are God's Dreams!  
Shall we deery them and scorn them?  
That men shall love one another,  
That white shall call black man brother,  
That greed shall pass from the marketplace,  
That just shall yield to love for the race,  
That men shall meet with God face to face—  
Dreams are they all,  
But shall we despise them—  
God's Dreams!

Dreams are they—to become man's dreams!  
Can we say nay as they claim us?  
That men shall cease from their hating,  
That war soon shall be abating,  
That the glory of girls and lords shall pale,  
That the pride of dominion and power shall fail,  
That the love of humanity shall prevail—  
Dreams are they all,  
But shall we despise them—  
God's Dreams!

Seniors, let our designs for tomorrow be beautiful, definite and bright—let us be architects for God—designers of the Christian world of the future.

## With Grain Shortage Need More Roughage For Dairy Production

The strong demand for dairy products will last for the duration of the war and for several years after the war is over, it was predicted this week by E. R. Eudaly, extension dairyman of the Texas A and M Extension Service, who stated that when the war stops, a demand for dairy cattle from the United States to the war torn countries seems almost certain.

But though this picture is encouraging, the feed situation continues serious. Feed prices are high and are expected to stay high, which means that dairymen must put forth every effort to have an abundance of pasturage, silage and good quality hay.

The higher the roughage is in protein, the less will be needed in the grain mixture. The more immature the hay crop is, the higher it is in protein. But

## Home Canning of Pineapple Brings Demand For Tried Canning Recipe

Home demonstration club members have ordered 2,000 pineapples for home canning and other Deaf Smith County housewives have been so enthusiastic that another order for fresh pineapple has been made up, Miss Sadie Lee Oliver, home demonstration agent, said today. Since many housewives because of high point value of processed pineapple are canning the fruit for the first time this year, Miss Oliver gives the following tips for successful canning.

First, she points out, the fruit should be orange in color and the spines should pull out readily. If the fruit is green, wrap it in paper and keep it at 65 to 70 degree temperature for a few days until it is ripe enough to can.

To prepare fruit for canning, cut off the stem and twist out the top. Place the pineapple on its side on a table and slice crosswise. Peel each slice. Cut out the core and shape the slices with a sharp round cutter or cut in pieces of any desired shape.

Juice or syrup for canning the fruit is best made from cooking the outer trimmings of the meat of the fruit as the best flavor is the part next to the skin. Add cores and enough water to cover. Simmer until the fruit is clear, then strain the juice. Make a medium syrup with one measure of sugar to one measure of fruit juice. If less sugar is available, make the syrup with one-half cup of sugar to one cup of juice.

**PRECOOKING**  
Cook slices or pieces of fruit in medium syrup eight to 10 minutes, pack in jars, and seal. If packing raw fruit in the container is preferred, pour hot syrup over the fruit and steam for five minutes. Then seal the container.

**PROCESSING**  
After sealing the jars, process in a water bath for 15 minutes for No. 2 cans, 25 minutes for No. 3 cans and pint glass jars; 30 minutes for quart glass jars. Cool quickly to prevent overheating as this affects the flavor and color.

Clean and label containers before storing them in a cool, dry place.

## Summerfield

Jean Clark

Sunday School was attended by 82 persons Sunday. A Vacation Bible School starts Monday, May 24, at the school house, at 2:30. Every child in the community is invited to attend. The W. M. U. is asking for eggs for the Buckner Orphans home. They want two cases.

If anyone has an empty case that they want to give it will be appreciated.

Mr. and Mrs. Marvel Upton who have been attending school at Ft. Worth, visited her father and sister, C. B. Thomas and Mrs. Ross Roye one day last week.

Jim Florey of Amarillo visited in this community Sunday.

Mr. and Mrs. Bob Fullwood and son of Hereford visited their daughters, Mrs. D. C. Walsler and Mrs. Charlie Noland and fam-

since dairymen want tonnage as well as quality, the best practice is to cut at the medium stage.

Johnson grass and Sudan grass should be cut just before it heads, Eudaly points out. Prairie grass should be cut at or just before bloom. Cane should be cut in bloom.

Concluding, Eudaly points out "We should make every effort to put up one ton of hay and three tons of silage for every cow. If you do not put up any silage, you should put up some legume hay such as alfalfa, clover, cowpea, peanut, etc., since these legume hays are higher in protein."

## SONS in the SERVICE

A note of extreme sorrow must be woven into this column this week, which will bring sadness to the heart of each and every man and boy, in any branch of our armed forces, for whom this column is written, which includes each one whose name is on our subscription list.

The cause of this sorrow is the untimely death of one of your honored comrades, Captain Ira Bengier, which occurred as the result of a plane crash last Thursday night, somewhere near El Paso, and whose funeral, which was held here Monday afternoon, was attended with military honors. A more complete story of the funeral will be found in another column of this issue of the Star.—Ed.

We have the pleasure of another letter from our friend, Jack O. Rasberry again this week. Jack's letter creates quite an interest among his friends here at home.

May 13, 1943.

Dear Mr. White:  
Will write you a few lines to let you know that I received the Star this morning, and sure was glad to get it. We have only one more week to stay in detention, then we move to Camp Farragut or Camp Lawrence, I do not know just which; but everything will be different there. We do quite a lot of marching, although it is easy to do now since I have got used to it. The only thing that bothers me now are those shots we get. They sure make a fellow's arm sore, but we only have one more, thank goodness. We will get our first shooting practice on the rifle range next week, and we will also start our swimming next week. I saw Neil Talkington today; also Bert Stanford, but I haven't had a chance to look up Honas Renner yet. Well, Mr. White, I will close for now and will be looking for the next issue of the Star.

Yours truly,  
Jack Rasberry.

And here we have another good letter from another of our good friends, Doug Short, Pfc., who is now somewhere away "down nuder." This letter was received the latter part of last week.

April 22, 1943.

Dear Uncle John:  
My Dad informs me that in order to continue receiving the home paper I will have to write to you requesting the same to be sent to me. Dad will come in and pay for the subscription. I sure will appreciate it if you can continue sending it. The paper is just as good if not better than letters from home and I look forward to the day when it comes in. The nicest part of it is the "Sons in the Service" column. I am thus closely informed as to the whereabouts of all the boys from home. I see that several of the boys are learning to fly. They are very fortunate in getting the opportunity. Keep up the good work, Uncle John, and keep those presses rolling.

As ever,  
Doug.

Yes, Doug's subscription is fully paid for another year. Friend "Bee" attended to that matter immediately.—Ed.

Cpl. Robert Bicknell, Jr., son of Mr. and Mrs. Robert Bicknell, now living near Black, was home last week enjoying a ten-day furlough, or such part of it as was left after deducting traveling time from and to his present location, which is Army Air Base, Maxton, N. C.

Cpl. Bicknell favored the Star office with a short but very interesting visit while in Friona Saturday afternoon.

## RAF Roofprints

Looking closely at this Stettin, Germany, war factory area you see that practically every building is a roofless shell from the RAF's bombblows. The destroyed area includes landing barge assembly works, commercial buildings and railroad sidings.

## Folks in Uniform

"Who'll ever believe it!"

The Corporal said he is enjoying army life really well so far as he has experienced it. Although the boys have to work pretty hard, during hours, when these are done, their time is their own, and there is really lots of fun to be enjoyed, and the boys realize this part of it is easy going compared to what they will have to bear later, but nevertheless, most of the boys in his group are anxious to get into the real scrap and get a trial in real combat and get the thing over with as soon as is possible.

Robert L. Bates, who is with the U. S. Coast Guards, stationed at Galveston, is here this week with Mrs. Bates and the small son. He will depart Monday for Galveston and will be accompanied by Mrs. Bates and the little boy.

Dear Mr. White:  
Just a line to let you know where I am located. I'm still in the same camp only a different address. I like the Medicos fine and never felt better in my life. This is a nice camp to train soldiers. We're seeing lots of water now. The Arkansas river is on a rampage and keeping some of the boys busy.

Your Friend,  
Vernon.

## PERSONALS

Rev. Paxton Smith and family, and Mrs. Smith's mother, Mrs. G. D. Aldridge, visited in Plainview and Lubbock last Saturday. At Plainview Mrs. Aldridge saw another sister, Mrs. Jim Chilton, whom she has not seen in over 30 years.

Mr. and Mrs. Clark and children of Richmond, Calif., visited friends here Thursday. Mrs. Clark was a teacher in the Friona High School several years ago.

Mrs. Juanita Johnson departed Monday for Shamrock and Pampa, where she will visit friends and relatives this week.

Mrs. J. B. Buske and son of Amarillo are visiting relatives and friends here this week. Miss Juanita Crow of Clovis N. M. spent Monday here with home folks.

Mr. and Mrs. G. H. Blewitt and small daughter are visiting relatives at McGeorge this week.

Mr. and Mrs. E. V. Rushing of Portales, were in Friona Monday.

C. C. Maurer was in Clovis, N. M. Thursday.

Mrs. Lillian Pope left Monday for Harlingen, where she will spend her vacation in the home of her parents.

G. B. Buske was in Clovis, N. M. Monday.

Roscoe Parr of Clovis is looking after business interests here this week.

Howard Ford of Ft. Sumner, N. M. is visiting friends here this week.

Messrs. N. E. Taylor and Glenn Taylor were Farwell visitors Sunday.

W. H. Garrett, formerly of the Lakeview community, but now of Muleshoe, was a business visitor in Friona Wednesday morning and favored the Star office with a short visit.

Nat Jones, a former resident of Friona, but now of Springfield, Colo., where he has a large pasture to which he has transferred his herd of cattle, spent the week end here with his daughter and grandson, Mrs. Neva Raybon and Billy Ray Raybon.

Rev. John W. Price, pastor of the local M. E. Church, who has been in the Veteran's Hospital at Amarillo, for the past eight or ten weeks, was permitted to come home last week. It is reported that Rev. Price was again confined to his bed, Wednesday.

Mrs. C. Irwin of Oklahoma City, a former resident of the Friona community, arrived here the first of the week to be in attendance at the funeral of her cousin, Captain Ira Bengier. Mrs. Irwin was formerly Miss Nadine Bengier, who grew up in the Homeland or Hub community south of Friona, and is well known here. She plans to remain here until some time next week. She is stopping with her sister, Mrs. Arlie Green of the Rhea community.

Roy Hart returned to Friona early last week from Floydada, where he had spent a few days visiting with his uncle and aunt, Mr. and Mrs. Lem Fawyer.

G. C. (Chet) Taylor, arrived in Friona Saturday from

his home near Fort Worth, and is spending a few days here this week looking after his farming interests northwest of Friona.

**Card of Thanks**  
We wish to take this means of thanking our friends and neighbors for their kindness and many acts of sympathy in the loss of our dear son and brother. We want you to know that everything done to help us in any way was deeply appreciated and may you be richly rewarded for your consideration.

We also extend thanks for the beautiful floral offering. Such acts of kindness do help so much at such a time.

Mr. and Mrs. John Bengier.  
Mr. and Mrs. Harry Greene and family.

Mr. and Mrs. Johnnie Bengier  
Ludelle Bengier  
Lt. Noel E. Bengier.

C. R. Reed with truck from Boles Orphan Home, Quinland, visited Sixth Street Church of Christ here Wednesday.

On Friday of last week the following went to Clovis: Walter Loveless and son, Howard, Otey Hinds, Charles Rury, C. B. Glasgow, Mr. and Mrs. E. Ledbetter, Mrs. Anna Lemon, and Mrs. Olive Hinds and son Dale.

Mr. and Mrs. J. J. Williams, and son James and daughters Ozelle and Rose, were in Hereford, Tuesday afternoon.

Miss Genella Rury visited at Bovina Friday afternoon and night.

Mrs. Everett Silvertooth, who has been in the hospital at Clovis for an appendectomy returned home Sunday.

Miss Ruth Reeve of Clovis, spent the week end here with her parents, Mr. and Mrs. Floyd Reeve.

### Back from California

W. J. Talbot, a former farmer resident of the community north of Friona, who moved to San Diego, Calif., some time last winter, returned to this locality last Saturday.

Mr. Talbot says he likes California very well, and that he had ripe tomatoes on the vines in his garden when he left there. He expects to remain here for the greater part of the summer and may make a visit to his former home at Blue Rapids, Kan., before returning to California.

### Hub Demonstration Club Meets With Mrs. Jones

The Hub Demonstration Club met May 14, in the home of Mrs. Jess Jones. Mrs. Thomas read the president's message, Mrs. W. G. Kennedy, of the T. I. D. A. Program topic was "Let's Brush up on First Aid." "Stopping Bleeding by Digital Pressure," Mrs. Will Jones; "Proper Application of a Tourniquet," Mrs. A. H. Boatman; "How to Care for Fainting," Mrs. G. A. Collier; "How to Improve a Stretcher," Mrs. Clifford Boatman; "Artificial Respiration," Mrs. S. L. McLellan.

Those present were Meses. Will W. Jones, Clifford Boatman, E. B. Rannon, C. R. Owens, S. L. McLellan, John Thomas, A. H. Boatman, G. A. Collier and the hostess, Mrs. Jess Jones.

Our next meeting will be in the home of Mrs. E. B. Bran-non on May 28.
