

Scouts to Tonight Where Lights Are On

In a marching porch light campaign tonight Explorer scouts of Floydada hope to finish their tennis court fund-raising drive.

They are asking a dollar a home for a concrete double tennis court, with nets and backdrops.

At many homes where the boys made daylight calls they got no answer when they rang door bell.

Their Monday night report this week showed that \$19.43 of the needed \$1,200 had been received.

On the 900 club program over KFLD late Monday afternoon the boys raised \$114 in donations by making trips in response to telephone calls.

Last week their reports showed they had contacted 60 per cent of the 1,200 homes in the town.

Added donations to their fund, which they had not counted on have been cement for the concrete slab from Higginbotham-Bartlett Company.

O. M. Watson, jr., who is sitting in on some of the conversation, says some of the boys have had interesting "talks with people" about what they are trying to do.

Floydada Traveler Makes Ninth Year Of Safety Travel

An award of a nine-year lapel button denoting a record of nine years, covering more than 600,000 miles of travel, without an accident on the highways of the southwest, was made to R. B. Rosson, Floydada resident, last week.

Rosson represents Mid-Continent Oil company in an area that covers much of west, south and central Texas. In making the rounds of his customers he puts about 70,000 miles a year on the speedometer.

But one thing for sure a man who puts that many miles on his car must drive more than one car every minute he's out on the road.

Funeral service was held in Brownfield. The crew had recently been working near Lockney installing lines for rural telephones.

WEEK OF UNFAVORABLE WEATHER IN AREA

While storms lashed and high waters threatened in several sections of Texas this week, with heavy loss of life and property at Waco, San Angelo, and other points, Floyd county and other high plains people also found the elements uncooperative and unkindly, although not punishing to man or beast.

The weather is charged on two counts with damage to Floyd county this week:

(1) Saturday night a storm of wind, hail and rain swept across the county from southwest to northeast taking heavy toll of wheat from the Hale county line west of Harmony to the Motley county line east of Cedar.

(2) Cold two to four days of every week, 65 and below, has greatly retarded the cotton crop. Scores of farms where seed were put in the ground 10 days to two weeks ago are to be re-watered or re-seeded.

Portions of Sand Hill, Muncy, Pleasant Valley, Lockney, Fairview, South Plains and Cedar Hill had crop damage and there was some lightning and slight wind damage in areas extending as far south as Floydada and northward from Lockney.

Rainfall in the two-hour period ranged from a trace at Floydada to 75-hundredths at Muncy.

wide past Cedar Hill. Reports of hail damage to wheat run from 7 per cent to 80 per cent.

Only an occasional field of cotton is up to a stand, none reported in good condition in the latest, most chill spring in a number of years.

Slight moisture fell Wednesday Gray overcast has hidden the sun for two days and planting is not due to be resumed until a day or two or sunshine has warmed up the beds where cotton is to be planted.

Fire Destroys Center Baptist Church Building

(By Mrs. J. E. Green)

The Center community was saddened last Wednesday at the noon hour when the Baptist church was discovered to be on fire.

Almost all the whole community and some from adjoining communities arrived at the scene of the fire. The men of the church had been putting a new roof on the building and had just gone to their homes for dinner, when the smoke was discovered.

Started in Old Shingles In the church and lost in the fire was a marimba, belonging to Mrs. Bob Hickling of Fairview, on which she had played at the recent revival held in the church. No one was hurt.

The fire seemed to have started in some cinder dry old shingles in a borrowed trailer which was up against the house, being used as a scaffold. (The old shingles being removed were in the trailer.)

Some surplus church furniture was stored in the Center school house near by. This furniture with what was salvaged from the fire and the school furniture afforded the congregation all the needs for the usual church services Sunday and Sunday night.

Church Organized in 1916 The Center Baptist church was organized in 1916 with the late Reverend G. W. Tubbs as pastor and W. B. Jordan, the late J. S. Carpenter and D. I. Bolding as deacons.

This building housed the congregation for more than a quarter of a century.

There was some insurance and plans are under way for replacing the building.

The first pastor of the church in 1923 was Rev. Hull. The present pastor is Reverend R. C. Hodges of Wayland college, Plainview.

Ex - Whirlwinds Take Regulars

The Whirlwind exes defeated the future wearers of the green and white 12 to 0 on Wester field Tuesday night in a game that brought to a close the spring training season.

Some three or four hundred faithful fans were on hand to witness the contest which was played in near freezing weather as a blue norther whipped the playing field. Both squads turned in fine performances and the entire first half was a defensive duel with only one scoring threat and that by the exes when they recovered a fumbled punt near the goal line.

Exes Hit Old Form Starting the second half the exes began to hit their old form and held the ball almost all of the last two stanzas. Adrain Helms and Dane Clark ground out most of the yardage for the seniors as they piled up 12 first downs.

First score came when Helms crashed over from the one-yard line on the first play of the fourth quarter. The other TD was made by Brooks Chapman when he intercepted a desperation pass in the last minute of the game and went 20 yards to score. Neither of the conversions attempts were good.

Cloyd Stephens was the big offensive threat of the future 'Winds and showed some fine running form. Stanley Vickers and Don Barber stood out in line play for the underclassmen. The Whirlwind coaches were well pleased with the showing of their charges against their more experienced rivals.

No serious injuries were evident in the contest, but Kent Covington received a minor leg injury which kept him out of the game most of the second half and weakened the younger team somewhat.

Football tags will be cleaned and stored away until next September when the big battles will be resumed. Next season will see the 'Winds in a new district with new faces in almost every starting position.

### VIEWS AND COMMENT

**Weather Department.** Several times since the first of the year the atmosphere above has been heavily laden with moisture, as winds picked up water over the gulf and whipped it up across the parched earth in West Texas. Twice already in May, they say, enough water whipped out over head to make a little ocean in Floyd county,— if only there had been a trigger tripper at hand. Our weather man still gambles there'll be a time before it is too late to plant cotton that the moisture laden gulf winds will be wrung dry over a wide area of this plains country. And there'll be grass for the cattle where there hasn't been and moisture for the cotton land—and water for the feed crops! How we could have been so unlucky during all of the weeks of March and April is a miracle of maneuvering by the wind currents. It couldn't happen, but it has thus far.

The irrigation man may think he doesn't need rain but he does. He and his neighbors are using a lot of water they'd like to have left in the reservoir. It is wonderful to have water at a touch of the button. It is more wonderful to know that for a time you can let the supply rest and gather more of it. Some of the users of domestic water and water for animals in sections where they do not attempt to irrigate also wish their irrigation neighbors had a good rain. Otherwise they are preparing to learn how to haul water economically for the kitchen sink and the milk cow. Enough of that will begin to make you think!

**Wheat Controls Due.** While the high plains of Texas thinks of the present 1953 wheat crop as a failure, with an occasional bright spot here and there, the overall picture in the United States—at the moment—is for an over supply, says the Department of Agriculture. Wheat is running out the ears of the nation figuratively. Federal agencies are said to be impressing government-owned vessels built during the war, now tied up in fleets, into service, filling their cavernous depths with wheat, so as to make room for the new crop. Plenty of hungry people in the world, who can't or won't work for the money to buy our wheat. So controls are due to be slapped on for next year. The same is said to be in the offing for cotton. All after the producers have had a vote. Only the weather man could change the picture.

Many a man creates his own lack of opportunities. —Mutual Moments

**School year ending reminder** that we have another crop of fine boys and girls getting ready to venture out and do something else. At ages five years apart they leave high school and they leave college, the main body of them. At the high school level many of the youngsters branch out into business and forego the enjoyments and the benefits of college training. Delinquency and the like may be on the increase as the FBI and other law enforcement agencies tell us, but of those under our observation we'd say the average is getting better and better every year. Smarter, better balanced, better equipped in mind, body and spirit, they go out to tackle a rather turbulent world. They can't imagine how much better is their prospect than was that of boys and girls—their southern forefathers now gathered to the dust—who emerged from the mess of the Civil war. No education, no money, no equipment, no clothes, no transportation—not even seed with which to pitch a crop.

**Fine new day** when paving stretches to the far confines of the county, when most every farm is mighty close to a hard-surfaced road—and more coming in Floyd county. The new roads give free inter-change of commerce an opportunity to make itself worthwhile to the people. A market in every direction sources of supply in like manner. Now, it's getting more and more up to the trading center which has the most to offer the prospective buyer.

**More Face lifting.** The best investment for the progress of their town that Floydada people can make is the improvement and betterment of property they already own. That ragged look is respectable and honest enough but it doesn't attract people. You've got to have more traffic to have more trade. The same goods bought in one kind of store look better than they do in another kind of store, in one kind of appearing town than in another kind of appearing town. Floydada capital has made a brave start toward spending more money where it will do the most good. Better housing, better streets, more paint, more cleanliness, more things to make people want to say they've been to your town, to call your town their town.

A national cotton crop of 12 to 12.5 million bales is the goal set by the USDA for 1953. Such a crop will meet domestic and export demands and will leave a sufficiently large amount for reserves.

## What Makes One Job Better Than Another?

What if the tables were turned . . . and college graduates stopped filling out job applications, and instead, submitted questionnaires for companies to fill out? It might be they would ask:

"Why should I work for your company? . . . Is your bank balance healthy? . . . Are you expanding fast? . . . Will I get responsibility in a hurry? . . . Can I pick the type of work I like? . . . Are you fun to work with? . . . Do you have smart men I can learn from? . . . Free schooling to train me further? . . . Research and know-how? . . . Money for the finest equipment? . . . Will you recognize and utilize my talents?"

Isn't it a sign of a pretty good job when, young men with talent can have a clear road ahead, can learn from people they respect and admire, and can work on projects of national importance?

From where we sit, we've been watching this happen. Teams of people at General Electric—in their twenties most often—are solving problems of jet plane engines, new chemicals, home appliances, guided missiles . . . everything from atomic power to air conditioning. And they're working in responsible jobs, with experts of recognized authority.

Maybe it's because we're growing fast that young men move into new and bigger jobs. Or because we've been lucky enough to hire the type of men who grab responsibility and work hard to achieve success. Whatever single factor or combination it is, young men and success do go together at General Electric.

You can put your confidence in—

## Annual Mother-Daughter Party Brings End to Study Club Year

Mrs. W. S. Poole and Mrs. C. A. Caffee were hostesses to members of the 1952 Study club at their last meeting of the club year, with a luncheon at the Hotel Coffee Shop on Thursday at 12:30 o'clock.

All members and their daughters or guests were present with the exception of one member, Mrs. O. P. Rutledge, ill in Memorial hospital at Corpus Christi.

The luncheon was in the private dining room of the shop with the table in shape of a large T where the thirty guests were seated. Plate favors were mother and daughter dolls, dressed alike, even to the hair.

A centerpiece was made on a grass mat with the mother and daughter dolls alike, even to lace umbrella, strolling near a tree on which was perched small yellow birds and butterflies. Two white sheep dogs made of white wool were also in evidence.

Mrs. Neil Wright, Jr., daughter of Mrs. R. E. Fry, was leader of the program. She told of her experiences with the members of the club and their daughters through the years. Mrs. Lon Smith gave the invocation and Mrs. Ralph Johnston, daughter of Mrs. Smith gave a short talk on "Inspiration." Her part of the program was listed as "Sunrise," being the daughter of the club mother. Mrs. J. B. Jenkins made a talk on "Sunset," in which she depicted "old age" rather beautifully.

The 1952 Study club is the pioneer club of Floydada. Its Mother-Daughter program is an annual affair.

Installation of officers for the new year was cleverly done by Mrs. Marvin Gilbert of Lockney, daughter of Mrs. E. F. Stovall. She gave her installation service in rhyme as did Mrs. Wright in her talk.

Guests present at the lovely affair were Mrs. Wright of Lubbock and Mrs. Gilbert of Lockney, Mrs. R. F. Kirshner of Dallas, Mrs. Louise Caffee of Albuquerque and the following from Floydada: Mesdames George Van Wickle, Ralph Johnston, John Kimble, Jim-

my Willson, Lewis Norman, Greer Christian, Virgie Shaw, Fred Cardinal, L. J. Weiborn, Ned Bradley, Ruth Daniels, and Cecil Richardson. Following are members: Mesdames Kenneth Bain, P. W. Bell, E. L. Angus, W. I. Cannaday, R. E. Fry, Wilson Kimble, J. B. Jenkins, Edd Johnson, E. J. Morehead, A. P. McKinnon, Glad Snodgrass, Lon V. Smith, E. F. Stovall, Noel Troutman, J. M. Willson, and Mrs. W. H. ### To Wed Sunday

PEGGY LEE WILLIAMSON

Friends in Floydada have received invitations to the wedding of Miss Peggy Lee Williamson, daughter of Mr. and Mrs. Ernest E. Carr, of Lubbock, and James Lee Freeman, son of Mr. and Mrs. Grady Freeman of Floydada, on Sunday, May 17 at 4 o'clock in the Broadway Church of Christ in Lubbock.

Club-minded ladies are putting away their calendars and their causes for the summer. Happily exhausted outgoing officers are completing reports and records before turning their job over to an incoming crop. And for three whole months, women's club officers — both comers and goers — will be blissfully engrossed in family life.

So, while it's completely impersonal (since we hardly know who's president of what right now anyway), let's talk about parliamentary law!

It's not something they do only in England.

It's not reserved for national meetings, or for the courtroom.

It's simple, workable way for women — and men, too, for that matter — to conduct meetings in a fair and democratic manner. It helps secretaries take good minutes, presidents preside right, treasurers keep financial records.

Happens we've had an unusually heavy dose of club life this spring, ranging from young girls' clubs to those owned and operated by dowagers. And being on the sidelines, we could see it in a new light. Take nominations. We've heard four sets of nominations lately, each conducted in a highly original manner, and bearing only slight resemblance to each other. True, the real gimmick is to find someone to take an office, so maybe it doesn't make too much difference what procedure is followed. But just the same, we'd think a woman who agrees to a big assignment would like to have the dignity of getting properly elected. Of course, it's not as serious as getting married, but to her at least it's important.

So please, ladies, let's all resolve that come September we'll arm ourselves with a dollar manual, and do it according to Robert, Paul, or Hoyle — or someone. Just anything but free hand!

## Old Sheets For Functional Ones

The magic of "trade-in" exchanging old for new — now applies to even the sheets on your bed! It's a unique twist on a time-honored barter technique, and in this instance you'll be contributing to two worthy causes: the welfare of your linen closet and the comfort of cancer victims who will receive much-needed dressings made from the worn sheets you turn in.

Perhaps you've seen the news that for one week starting Friday,

## Cold Snap Recalls Memory of Freeze Of 50 Years Ago

On May 15, 1903, in Amity, Arkansas, a cold spell and hard freeze came and killed the knee high cotton down to a stub, says Mrs. H. B. Mankins, who remembers the date and experience well as all seven children in her parents family were in bed at one time with measles.

Mrs. Mankins remembers she was a member of the cast for the closing day play of the school. She did not get to attend the play. For a girl in her teens, that was a tragedy.

She said the farmers had their cotton hoed out and it was pretty. The next morning it was down on the ground.

Her home had two big open fire places and she said they had a time keeping all seven of the measles victims warm.

## Fairview News

**FAIRVIEW, May 12**—Our weather is still dry, however we did receive a small rain Saturday night which gave 56/100 of an inch of moisture to the north part of our community and a less amount to the south and west portions. Some hail fell over the entire community but did the most damage in the north and west parts where a number of acres of wheat was completely destroyed. It was pretty fair wheat for this season.

One of the fields of wheat destroyed was on the Walton Wilson farm. Fruit was beaten off of the trees on several places and gardens beaten in the ground. The rain and hail was accompanied by strong wind and dust.

So far we have missed the tornadoes that have struck several places near here. Some of our folks have been much concerned about the tornado that struck San Angelo as they have relatives there and have not been able to contact them as yet. When we hear of destruction like that we try not to complain over dry weather and sand storms.

Our community sympathizes with the Center community over the loss of their church by fire last Wednesday.

## Will Bigger Acreage in 1953 Help in Allotments for 1954?

Will there be cotton allotments or no cotton allotments in 1954? This is a question uppermost in the minds of many Floyd county cotton growers, who are pitching their row crops for 1953 at this time.

County Agent Bill Rodgers has received the following information which is a "statement regarding the establishment of acreage allotments for cotton under the present provisions of the Agricultural Adjustment Act of 1938, as amended."

Increased cotton plantings in 1953 will not result in larger 1954 allotment for the vast majority of farms under present provisions of the law in the event marketing quotas are in effect.

If acreage allotments and marketing quotas are proclaimed for the 1954 cotton crops, present provisions of the Agricultural Adjustment Act of 1938, as amended, provide that:

(1) "The national acreage allotment for cotton for 1953 and subsequent years shall be apportioned to the States on the basis of the acreage planted to cotton (including the acreage regarded as planted to cotton under the provisions of Public Law 12, Seventy-ninth Congress) during the five calendar years immediately preceding the calendar year in which the national marketing quota is proclaimed, with adjustments for abnormal weather conditions during such period." Public law 28, 81st Congress, prohibits the use of 1949 cotton acreage in determining State quota, and farm allotments. The base period, therefore, for establishing 1954 State acreage allotments is the five years 1947, 1948, 1950, 1951, and 1952. The 1953 base period will be the five

years 1948, 1950, 1951, 1952, and 1953 and each year thereafter the first year will be dropped and the year following the last will be added.

(2) The State acreage allotment, less the State acreage reserve withheld by the state committee, shall be apportioned to counties on the basis of the same five year period that is provided in apportioning the national acreage allotments to States.

(3) The 1954 county acreage allotment, less the acreage reserve withheld by the county committee, shall be apportioned to farms on which cotton was planted during any one of the three years 1951, 1952, and 1953, primarily on the basis of a county uniform percentage of cropland on the farm excluding the acreage devoted to specified crops. If cotton was planted on the farm in either 1951 or 1952, the farm will be eligible for a 1954 allotment as a regular cotton producing farm regardless of whether cotton is planted on it in 1953. Also, if more than 5 acres were planted in either 1951 or 1952, no additional benefits can be secured under the minimum acreage allotment provisions of the law by planting a larger acreage in 1953. The law provides that the minimum 1954 allotment for a farm shall not be less than the smaller of (a) 5 acres or (b) the highest acreage planted to cotton on the farm during the three years, 1951, 1952, and 1953.

The maximum acreage which can be allotted to a farm in apportioning the county allotment on the basis of a uniform percentage of cropland will be the highest acreage planted to cotton on the farm in the three years 1951, 1952, and 1953. In 1950 only a small portion of the farm allotments of more than five acres were limited by the highest cotton acreage history in the three year period 1946, 1947, and 1948.

The above statements are all based on the present provisions of the law. If Congress amends any of these provisions relating to the base period and method for establishing allotments, the above statements may be altered.

### of Steel City Job Plant

It became apparent that the city was not going to get delivery of the new addition to the power plant in the month of June.

The city council, which has been the slowest to act, has been the slowest to act.

Al R. Fuchs, superintendent of utilities for the city, said the contractor put crews to work on the job.

The frame work of the new plant, which will be built with indefinite delay, became the bottle neck of the project.

Expecting completion in June, with installation of the switch boards and other equipment.

The plant capacity will be increased by the addition of the new units against the demand, much of which is being met by the city's power plant.

Several days ago the veterans organization announced their plan to have another big name band for the event, following the big success of the appearance here of the Maddox Brothers and Rose.

A "glabrous" man is a bald one.

use of their water-cooled air conditioners as yet, but the water has poured out of hydrants all over the city as home owners battled wind and dust to keep their lawns and gardens alive and thriving against the day that the first good spring rain arrives. The master meter indicated the use of water ran above a million gallons one day last week. Fuchs says the city couldn't stand that day in and day out on their present supply.

A limited addition can be made to the supply before the new well is hooked up but not enough to meet the situation permanently.

Tye & Sons, contractors for the new well in the northwest city park, have promised completion by May 20, pipe is on the road for the connection to the mains, and the motor is ready to install, so that if plans do not go awry there will not be any shortage of water this season.

But for the present, the city's ability to meet the demand is threatened should an extended period of heat hit the area.

### Johnny Lee Willis Band on May 28

### Camp For Girls June 15 to 17

Friday evening representatives of Floydada Lone Star Girl Scout Council met in the county court room and discussed the camp for girls to be held at Baptist encampment grounds on June 15-16 and 17.

It was voted to ask Lockney, Matador, Ralls and Petersburg girl scout groups to join them at the camp this year, each group to have their own workers and counselor.

John Reue, chairman of the council, was in charge of the meeting. A camping committee composed of Brad Biggers, Mrs. J. N. Scribner, and Mr. and Mrs. Bill Rogers was named to make arrangements with the four other groups and be in correspondence with them.

Mrs. Sam E. Spence is secretary of the council.

The Floydada group had been asked to join a six-county council which would have their camp at Camp Haynes. The Floydada group voted not to join the six-county group. The encampment ground near here is more in line with what is needed for the girls of this county, they think. The six-county council is composed of Hale, Swisher, Lamb, Castro, and Briscoe with Floyd proposed as the sixth in the district.

Officers of the Floydada Lone Star Girl Scout council are, president, John W. Reue, vice president, Mrs. Jack Kassahn, secretary, Mrs. Sam A. Spence, Treasurer, James H. Word.

Committee chairmen are as follows: finance, Polk Goen; troop organization, Mrs. K. E. Edmiston; Camping arrangement, Brac Biggers, public relations, Mrs. Woodrow Goen.

At the camp last year there were 102 girls with a trained advisor from Albuquerque, New Mexico. An advisor will be secured or it was noted that the different mothers and workers might act this year as official advisors.

The council has been organized in Floydada for over a year. The officers and members of the council are enthusiastic about the future of the organization.

## Civic, Cultural Leaders Hear Dr. Stensland

Almost a score of civic and cultural organizations, representing a cross section of Floyd county's many communities, heard Dr. Per Stensland, of the Adult Education department, Texas Technological college, in his presentation of the problems of and the outlook for community education-action projects.

Speaking in the district court room, when the audience exceeded the capacity of the county court room, the proponent of adult education through community efforts, called on his hearers to carry to their communities the message of what the American heritage is, what it stands for, how far we have gone forward to achieve the dreams of our forefathers, where we have failed and what we might do about the failure.

The speaker presented six basic questions in community education-action, namely:

- (1) What are the important problems of our community?
- (2) Who is actively interested in them?
- (3) What are the important facts?
- (4) What do they mean? Where find them?
- (5) What are the alternatives?
- (6) How do we get started?

The speaker said that many organizations and groups are interested and making some effort at the solution of problems in every community. The fact that many of these efforts overlap to the point where most communities are much over-organized, does not leave the members of the community opportunity to think and act cooperatively.

These problems, on which such organizations as the public library would attempt to coordinate effort, often include at the community level: Education, housing and planting, religion, equality of opportunity, economic development, cultural opportunities, recreation, health and welfare, government and community organization.

Dr. Stensland was accompanied to Floydada from Texas Technological college by his wife and their little daughter, Lucy. They were honor guests at a dinner served in the Baptist church basement to more than 30 persons from over the county. He spoke briefly at the dinner before adjournment for the meeting in the court house.

Mrs. Hollis R. Bond presided at the meeting. The American Heritage project is conducted by the American Library association with the assistance of a grant from the fund for adult education, an independent organization established by the Ford Foundation.

## School Election Called for May 29

LOCKNEY — Among the first official acts performed by newly-named County Judge Ralph Johnston was the calling of an election to determine whether or not the Lockney school district would be converted from a rural high school district to an independent district. Judge Johnston called the election Wednesday in response to a petition signed by several voters of this district.

The election is set for Friday, May 29, and will be held at Lockney high school. Frank Dodson has been named election judge and clerks will be Mrs. Lula Woodburn and Mrs. Frank Jameson.

William Henry Harrison, died at the end of his first month as president, serving the shortest term on record.

(from Floyd County Rural Electric Cooperative, Inc.)

by Nancy Morckel and Claude Weathersbee Electrification Advisers

Last week was spent in Clayton, New Mexico, attending an in-service-training school.

The school was held for electrification advisors, managers, line superintendents, and directors, by the New Mexico Electrical Cooperative association, with the Southwestern Electric Cooperative, Inc., of Clayton, as host cooperative.

The meeting was held at the Clayton Air park, a beautiful well-kept municipal building, built by the different service clubs and organizations of the town, which meets the needs of the entire community and area surrounding Clayton.

The theme of the school, fundamentals of electricity and how they are applied to various uses, were demonstrated and explained.

A welcome address by John Wheatley, president of the Chamber of Commerce, opened the school. An interesting program was given.

On Wednesday evening the Clayton chamber of commerce gave a banquet for the group. Musical numbers were furnished by the music department of the Clayton high school and D. D. Monroe, nationally famous philosopher and speaker of Clayton gave the after-dinner address.

Another interesting phase of the meeting was a field trip to a grade A dairy, showing the milking parlor and the latest dairy equipment in operation.

Buck Marrick and D. M. Moore were home from work most of last week with the "flu."

The Henry County Rural Electric Membership of New Castle, Indiana, has become the first Rural Electrification Administration borrower to pay back its debt in full from farm electric service, the U. S. Department of Agriculture announced on May 4. Final payment was made 13 1/2 years ahead of schedule. This cooperative placed its first lines in service on January 8, 1938. It now operates more than 700 miles of power lines and serves some 3250 members, all farms plus a few other establishments in a completely rural area. In December 1952, the farmer-members of the cooperative used an average of 306 kilowatt hours. The average farm consumption on all REA-financed systems during that month was 200 kilowatt hours.

At the pre-school clinic recently held at Andrews Ward school sponsored by the Parent Teacher Association of Andrews Ward, Mrs. J. N. Scrivner, president, reported 89 children registered considering the bad day the clinic was held, the percentage was very good. There were 100 children in the age group. Mrs. Scrivner said the cooperation was wonderful.

## CARRIES ON ALONE NOW

AUSTIN — Texas has only two surviving Confederate veterans. One, 110 year old Walter Williams, of Franklin, receives a \$150 per month pension from the state.

The other is Thomas Riddle. Mrs. Carrie Hardin, of Childress, discovered him in poor circumstances at Wichita Falls a few years ago and arranged for him to be carried to the Confederate home in Austin. There, he carries on alone today in a place once crowded with the south's heroes.

Mr. and Mrs. Ben Whitaker of Snyder, Mrs. Clyde Rogers, Miss Peggy McKinney and Mr. and Mrs. B. W. Snell and son, Stevie, of Lubbock visited Sunday with their parents, Mr. and Mrs. J. J. McKinney. Mr. and Mrs. B. W. Snell also visited his parents, Mr. and Mrs. Will Snell.

# Chevrolet trucks must be the best buy!

This year—for the 12th straight production year—truck users are buying more Chevrolet trucks than any other make. That couldn't be true unless Chevrolet trucks offered more of what you want.

Already, 1953's official sales figures tell a remarkable story of clear-cut and decisive preference for Chevrolet trucks. But, this is not surprising, for truck users everywhere are discovering how far ahead of all others Chevrolet trucks really are.

They are discovering things like the tremendous new power in advanced Load-master engines in heavy-duty models... the remarkable gasoline economy... the extra ruggedness and strength of heavier, more rigid frame construction. And, in addition to all these advantages, the Chevrolet line lists for less than any other trucks of comparable size and capacity. So, before you buy any truck, stop in and see us.

**Center News**

(By Mrs. J. E. Green)

**CENTER, May 12.** — Our news opens on a dark note this morning. We are in anxious sympathy with our Texas towns where cyclones hit yesterday. Some of us have relatives in both cities — Waco and San Angelo. We have not heard if any of them are killed or hurt.

Our local disaster struck us last Wednesday noon when the community and friends stood by tearfully and helplessly and watched our beloved Center church building go up in flames. It had housed the church family for thirty years. We are thankful no one was hurt.

With characteristic courage the congregation met for Wednesday night prayer services in the home of Mr. and Mrs. R. C. Ross. Thursday morning adults met to clean up the school house for church services Sunday. The beautiful Mothers Day service was well attended and the hospital offering was \$24. A meeting is called for Sunday afternoon. Everyone is invited.

The Home Demonstration club enjoyed a good meeting Friday with Mrs. Hartline as hostess.

Bro. and Mrs. Hodges and Jerry were Sunday dinner guests of Mr. and Mrs. H. B. Mankins.

Barbara McAda was a week-end guest of Patsy Robertson and attended both church services here Sunday.

Margaret Dunn spent Saturday night with Carleta Reeves. Carleta came home with Margaret Sunday and attended night services here.

Mr. and Mrs. Garvin Beedy and son, Larry, were Sunday dinner guests of her parents, Mr. and Mrs. Leo Prizzell. Mrs. Claude Price visited in the home Sunday afternoon.

Mr. and Mrs. Norville and Geneva visited in Spur Sunday.

Mrs. Goolsby is sick with a cold. Clyde Green of Boulder, Colorado, was home for Mothers day and attended Sunday services here.

Sunday dinner guests in the Green home were Mr. and Mrs. An-

thony Latta and baby, David, W. A. Latta of Mt. Blanco, Mrs. K. J. Matthews of Phillips and Mr. and Mrs. Victor Green of Plainview.

Be sure to come to church Sunday.

On Sunday they were at Mount Carmel cemetery, near Wolfe City, where a memorial service is held every year, this year being the one hundred and first service. Relatives of Mr. Collins and Mrs. Smalley are buried in the cemetery.

The party returned home Monday and Mrs. Smalley returned to her home in Clovis on Wednesday.

Len Fawver of Fort Worth, and Mrs. E. P. Johnson, of Vernon, were here last week, guests in the homes of Mrs. R. H. Willis, Mr. and Mrs. Geo. L. Fawver and other relatives. They helped their sister, Mrs. Willis, celebrate her eightieth birthday. They returned to their homes Saturday.
