

## Fair Planners Get Favorable Rides Contract

A contract with the Amarillo Amusement Co. for rides, which will appear at the fair this fall was made last week by the officers and Fair Association, secretary Sam Puckett reports.

Concessions will be sold to local organizations and the Amarillo firm will furnish rides, the directors decided. Mrs. Alma Holmes and Sam Puckett of Floydada, R. L. Knox Jr., and Mrs. Burl Holt of Lockney compose the concession committee and \$15 will be charged for each concession.

Schools of the county have responded favorably, after being contacted regarding the furnishing of educational displays for the fair. The cotton wardrobe has been requested to be modeled at the fair. It was reported that arrangements for the tent for the singing which was used last year, have been made. Prizes in the agriculture department have been raised to \$1.50, \$1.00 and \$3.00 for the first three places in each class.

The meeting was attended by President Raymond Rucker, Willis Reynolds, Mr. and Mrs. Joe Foster, R. L. Knox Jr., Sam Puckett, Mr. and Mrs. R. C. Mitchell, Chester Mitchell, Mr. and Mrs. R. H. Tinsley, Shirley Irwin, Mrs. Alma Holmes, Mrs. Burl Holt, County Agent Cecil Lewis and Assistant Agent Harold Ellison.

## 1958 'Woman of the Year' Is Acclaimed At Club Ceremony

Mrs. J. H. Barnard was declared Woman of the Year for 1958 by the 1950 Study Club Tuesday evening of last week in its guest day meeting when the ceremony of acknowledgment was held in the chapel of the First Baptist Church.

Mrs. Kinder Farris, 1957 award winner, was named by the president, Mrs. Lora Davis, to present the award, an engraved silver plate, on behalf of the club and community. In her presentation address Mrs. Farris said:

"It is a joy to be the person making this presentation tonight -- a real honor to be the 1950 study club's representative on the giving end! And as I say that, I think:

"Yes, this person, is always on the giving end." For that reason, primarily, she has been chosen by the 1950 study club as the Woman of the Year for 1958.

She counts it a privilege to give rather than to receive; a blessing to share her time, her talents, her efforts with everyone around her and in all phases of activity.

Let us, this evening, consider some of the things which we know tend to make a fine community -- the kind of town in which we desire to live, and in so doing we will see quickly of current feeling and outstanding and so deserving of this tribute.

A community without a church would be incomplete indeed. Among the many churches in our town there is one church which would miss greatly the strength and continued work of this person were it to be taken away. She is active in so many corners of the church -- chairman of the Commission on Missions, active in bringing foreign speakers to the church in order to keep abreast of current feeling and brotherhood development, active in the diocesan missionary work; is available for book reviews and talks all over the district; and brought the beautiful Indian Choir to Floydada.

A community without a school is unheard of. To make a school what

## League Baseball Call Issued

Don Barrow, president of the Little League and Pony League in Floydada, issued a call this week for all prospective ball players. Barrow has requested that all boys in the Floydada area who are interested in playing baseball, and who have never presented their birth certificates to do so when the tryouts are held.

The tryouts are scheduled for the week of April 28 through May 1. At Andrews Ward School tryouts will be held for Little League in the afternoons after school hours. The Pony League field will be the site for tryouts in this circuit.

The managers want to acquaint themselves with the boys during these practice sessions. The managers plan to meet May 4 at 2 p. m. at the Floydada P.C.A. office and select their teams. The players will be notified after that date as to what team they will be on for the playing season.

The Little League schedule is set to begin on May 12 and run through May 16. Then there will be a weeks layoff for the closing of school before play resumes on May 26 and continues through the month of July.

Pony League play will start on May 27 and run through July 21.

## City Receiving Street Cleaner

Yesterday the city of Floydada was getting demonstrations of the new street sweeper contracted for early in the month and were expected to accept delivery of the machine in the afternoon.

Councilmen said the machine apparently was doing a good job, up to their expectations. It was effectively sweeping six feet at a speed of five miles or more.

Plains Machinery Company is delivering the machine at a cost of \$9,180 to the city. It is expected to do a more efficient job of street cleaning at lower cost than hand labor and trucks, which have been operated at an almost prohibitive expense.

If the machine operates as well as expected it will eliminate considerable complaint of mud-covered gutters and will be a good morale builder, according to unofficial opinion.

## YOUR COUNTY AGENT

(By Cecil Lewis)

**COTTON SEED** -- High Quality planting seed is scarce. If you have not checked the germination of your cottonseed it will pay you to have a germination test run. There is the possibility of poor stands if you plant poor quality seed. The treatment with fungicides can prevent seed and seedling disease and will help you keep a good stand of cotton.

**WHEAT DISEASES** -- Two of the most common diseases of wheat are Leaf Rust and Stem Rust. There is no chemical control of these diseases and the only way to prevent losses is by the planting of tolerant varieties. Leaf Rust can be identified by the reddish orange spots on the leaves. The plants first appear yellow.

Stem Rust usually has powdery dark-red streaks on the stems that eventually turn black.

**COTTON MEETING** -- There will be a general cotton meeting in Plainview, Friday, May 2, at the Plainview Co-op Complex. Extension Specialists will conduct the meeting. All persons are invited.

**4-H TRACTOR OPERATORS CONTEST** -- Winners have been selected in County Tractor Program. Curtis Sanders, Floydada 1st; Warren Mitchell, Lockney, 2nd; Johnnie Wilkowiak, Floydada 3rd; Dan Smith, Lockney, 4th; Wallace Denning, Floydada, 5th; and Neil Mitchell, Lockney, 6th.

These boys worked hard and we congratulate them on the fine job. Curtis will compete in the Tractor Driving Contest in Lubbock, May 3, 1958.

## Thrice Broken Arm Calls For Surgery

Vickie Jarboe, 11-year-old daughter of Mr. and Mrs. Malvin Jarboe, is said to be resting comfortably in Methodist Hospital at Lubbock where she was taken Sunday after sustaining a broken left arm.

Vickie was skating at the home of Mr. and Mrs. Joe Thurston in the Lakeview community when the accident occurred. It was the third time the same arm has been broken.

Mrs. Mal Jarboe, grandmother of the girl, said Tuesday that the arm could not be set and an operation was performed Sunday night.

Vickie will be able to return home sometime this week and will carry on school studies from her bed, until she is able to go back to school.

## State-Wide Hi-way Safety Plan Backed

Floyd County will help launch Texas' first State-wide safety campaign. It was decided at a 9:30 meeting Wednesday morning in the county court room.

At the request of the governor the meeting was called by County Judge J. D. McBrien. Nearly 40 responded to the call and took part in the round table discussion which followed a radio address by the governor. Representation included a cross section of the officers of the city and county as well as the schools, press, radio and civic organizations.

Every county in the state held similar meetings at the same hour. The governor's radio talk was a 15-minute discussion of the problem presented by the highway death and injury toll offered a plan for reducing the annual loss in the state. His immediate goal is the saving of one life per county from traffic deaths.

Blind corners, negligence and habit and inefficient drivers who have drivers' license were mentioned as contributory to local wrecks.

The need for systematic checking of drivers' license through the use of road blocks or checking lanes to eliminate law violators, and greater supervision of the road mileage in Floyd County were the most forceful suggestions made at the meeting.

At this time Floyd County's 225 miles of state highway has the supervision of about one-third of a patrolman, it was brought out at the meeting, and it was also pointed out that tickets for violations issued by local officers are not taken seriously in many instances. Often the issuing officer finds himself embarrassed.

DWI charges, however, are pushed and the drunk driver gets little sympathy in Floyd County.

The opinion was expressed in the meeting that unlicensed drivers are the cause of many of the more serious crashes.

At the close of the meeting Chairman Bob Copeland announced that a Thursday night meeting will be held in the Chamber of Commerce office here to perfect a county-wide organization to support and uphold officers of city, county and state in the enforcement of the traffic laws.

**DISCHARGED FROM HOSPITAL**

## Cotton Grower Group Journeys To Mill Towns

Spinners and mill people of the South Carolina textile mill region are being invited to visit the high plains of Texas this fall during the harvest season.

The invitation is from a group of farmers and ginners, including three from Floyd County, whose primary purpose in visiting the big mills in the east was to learn at first hand the textile mill problems with cotton.

The group left Monday morning from Lubbock in two chartered airplanes and were due back late Wednesday, after visiting four mills in South Carolina.

The American Cotton Manufacturers Institute was host to the Texas group while in South Carolina. Visits were made to the Greenwood Textile Mills which has one of the largest spinning operations in the nation; the Riegel Textile Corporation at Ware Shoals, South Carolina, where a spinning and weaving mill that produces print cloth was visited; the Southside Plant of Abney Mills at Anderson, South Carolina, one of the newer textile plants in this country, and the Owens-Corning Fiberglass Corporation, where glass yarn and other man-made fibers are produced.

Mr. and Mrs. George Webster and Jerry Cooper of Lockney, were the Floyd County representatives on the trip. Cooper is a cotton farmer and Webster a cotton raiser and ginner. Other plains towns represented on the trip were Lubbock, Levelland, New Deal, New Home, Anton, Wilson and Tahoka, as well as Petersburg, which was represented on the trip by Thomas Ingram and Ray Eason.

## Floyd County More Than Doubles Cancer Society's Fund Request

Floyd County people have given the American Cancer Society more than twice as much as asked for in the almost finished Cancer Campaign.

Figures yesterday reported by Mrs. W. R. Daniel gave the total at \$3,186.46. The goal was \$1,500.

Communities not previously reported which made reports by the first of this week included Dougherty, Mrs. Howard Drysdale reporting, \$35; Ralls Highway out of Floydada, Mrs. Ronald Evans, \$22; Sand Hill Road west, Mrs. Weldon P. Smith \$26.50, Pleasant Hill, Mrs. Venon Wright, \$15, and miscellaneous individual donations \$22.71.

These contributions brought the total here to \$1,512.64. Mrs. Daniel said, and the total at Lockney, is \$1,673.82.

"Fine response to the American Cancer Society plea for a 'check' is indicative that people of this county are backing the 'scientific open door' policy receptive to all sound ideas in the research drive to end the scourge of cancer," said Mrs. Daniel. Continuing she pointed out:

necessary loss of life, the ASC put much emphasis on a broad education program to bring people to the doctor in time for early diagnosis and treatment and to provide the busy physician with the latest information on diagnosis and treatment.

"Cancer is peculiarly a disease in which early detection may save a life. An estimated 60 per cent of cancer in women occurs in areas of the body most easily examined and the same is true of 30 per cent of cancers in men."

"The Breast Self - Examination film for women's group showing is still available from the county library and will be here through May 6.

"Due to the many requests, this film will be shown at 3:06 p. m. April 28 at the Council Room of the Court House for those who have not had the opportunity to see it."

MISS FONTAINE FOWLER

## Fontaine Fowler's Engagement Is Announced at Tea

Mr. and Mrs. Sam Fowler announced the engagement and approaching marriage of their daughter, Fontaine to Nolan Cope, son of Mr. and Mrs. Elmer Cope of Lamesa, when Mrs. Fowler entertained with a tea, April 18, between the hours of 3 and 5.

Those receiving with Mrs. Fowler and Fontaine were Mrs. Elmer Cope and Mrs. Leta Noland, mother and grandmother of the prospective groom, of Lamesa, Mrs. Bruce Drake, Mrs. Joe Friend, and Mrs. Carl North, grandmother and aunt of the bride-elect, from Ozona, Mrs. W. L. Anderson, paternal grandmother of the bride-elect, of Mansfield, Okla., Mrs. Mac Fowler, aunt of Floydada and Leta Cope of Lamesa sister of the groom to be.

Assisting Mrs. Fowler with the entertainment were Mrs. Jim Potts, Mrs. Leonard Matisler, Mrs. Bill Darden, Mrs. Ernest Carter, Mrs. Russell King, Mrs. Earl Crawford, Mrs. B. P. Sandefur, Mrs. Gary Carthel and Vanda Carter all of Floydada, Glenda Friend of Ozona, and Phyllis Guerry of Sundown.

The napkins were white with "Fon and Nolan, June 7, 1958" printed on them in silver letters.

Lime punch was served from a crystal punch bowl, with Mrs. Bill Darden, Mrs. Leonard Matisler, Mrs. Earl Crawford and Mrs. B. P. Sandefur, pouring and serving white Angel squares, green mints and nuts.

## May Plentiful Foods Shorter Than Usual

COLLEGE STATION. — The smallest plentiful foods list in a decade has been announced by the U. S. Department of Agriculture for May. Only two general food categories are in heavy enough supply to make the May list — dairy products and spring vegetables.

The announcement points out that there is a special reason for featuring milk and other dairy foods during May. Current production is running ahead of last year's record levels and output is expected to increase around one billion pounds. Too, prices are at seasonal lows and favorable to heavy consumption.

The unusual cold in Florida and other southern areas in past winter delayed many vegetables, and forced others to be replanted. Therefore, crops usually harvested in March and April will be reaching markets in May, along with those from areas normally producing for May markets.

## Dougherty Club Plans Program

The Dougherty Community Club is giving a program Saturday night, April 26, starting at 8 p. m., in the school auditorium.

Songs, dances, and dramatics will highlight the evening's entertainment. Admission will be free. Everyone is cordially invited to attend for a few hours of fun.

## SAYS LAMBERT 'Longest Ticket A Man Ever Carried'

What must undoubtedly be the longest ticket ever sold in the known world, was unfolded here Monday morning for TMN&O agent Fred Lambert.

The bearer was Lewis Lane, who is adjudicator for the National Piano Teachers Guild. He lives at Cape Cod Island, Mass., but bought his ticket out of New York City.

Lambert's eyes stretched when Lane offered his ticket to get transportation to Brownfield from Floydada. With Lane's permission he measured what was left of the ticket. It was still 14 feet (correct) and 10 (correct) inches long. Lane has been riding for weeks. His ticket may have been 20 feet long or longer when he first bought it, he estimated for Lambert.

"A man with 14 feet, and 10 inches of ticket, who has already traveled all over the country from New York City and used only six feet of it still has several steps to make," Lambert estimated, adding, "But he's sure got the credentials."

Lane has been doing auditions all over the country for the Guild for the past 13 years. He was slightly critical of the small cities he visits in the southwest, was Lambert's impression.

## 'Shooting For The Moon' Says Jones

Floydada's Whirlwind Band and Junior High Band have been at hard work the past several weeks readying for the Regional concert this Friday and Saturday at Lubbock Monterey School.

Floydada won Sweepstakes last year in the contest and have hopes of doing the same again this year. Maurice Jones, band director said.

Both bands will compete in concert playing and sight reading. The Whirlwind Band will have their try-outs on Friday and the Junior High Band on Saturday.

His boys and girls are enthusiastic and have put out a lot of effort, Bandmaster Jones said.

## New Farm Maps Available Soon

New aerial maps of Floyd County, made on October 2 of last year, are in the process of being checked for accuracy, a job which has been underway for sometime and should be about completed.

The maps, made under contract with ASC, take the place of maps several years old. They show, of course, the changes which have been made in farm layouts, plots and improvements up-to-date.

Farmers who want copies of the aerial section which will include their farms may have them at \$2.50 a map. The maps are 27 inches by 28 inches. Those who want them should contact Thos. J. Hutchins, office manager of Floyd County ASC Committee.

## Center News

(By Mrs. J. E. Green)

CENTER, April 23 — Two beautiful, busy days so far this week. We held our breath and hope to get more garden planted, and a top on the new cellar before it rains again.

We had a good church service Sunday morning, but a bad cold and an already muddy parking place discouraged a night service.

Bro. and Mrs. Hodges dined Sunday with Mr. and Mrs. H. B. Mankins. In the P. M. they visited in the J. E. Green and the R. C. Ross homes.

Margaret Dun and little niece Debbie of Lubbock spent the weekend with the parents and grandparents, the Frank Duns. Sunday afternoon all went to Lubbock and visited Mr. and Mrs. Jimmy Dunn and took Debbie home. While there Mrs. Dunn visited in the West Texas hospital, where Mrs. Plumlee is resting better following surgery a week ago.

Mrs. Hodges called to see Mrs. Plumlee Saturday afternoon. The R. E. Waggoners, formerly east of Center but now of Plainview, visited the Duns while last Tuesday.

The J. D. Welborns visited the Frank Duns Saturday evening. Mr. and Mrs. Leo Frizzell visited Sunday afternoon with their daughter and family, the Garvin Beedys of South Plains.

The Greens visited Mrs. George McPeak while Sunday evening, (where there is a storm cellar). Don Clark Green of Big Spring spent part of Friday night and Saturday morning with his parents the J. E. Greens. Long time no see — to the parents anyway. Don Clark and his wife Betty Lou are very busy people too. He teaches math in Big Spring high school and also teaches night classes in Howard County Junior College.

Phil Horton was unable to attend school Tuesday, while Mr. and Mrs. Horton are attending the water convention this week. Bruce and Phil are staying with their grandparents Mr. and Mrs. Walter Sims.

The Elmer Warrens had help Monday with reconditioning the big, grand old house for their new home. Those present besides the Warrens were Mr. and Mrs. Leo Frizzell, Mrs. Jackson and Mr. and Mrs. Mankins. Women, mostly dressed in overalls, were preparing a room for paper hanging, the men were putting a new floor on the front porch. The Greens and others dropped in to applaud. It is good to see a once deserted farm house, being again a house with somebody in it.

T. R. Noland has almost completed their new house on west California St. City.

Mr. and Mrs. Johnny Hinds of Plainview, (Mrs. Hinds was Mary Alice Plumlee) yesterday had the misfortune to have a bad fire in their home. It started in the bathroom heater and damaged two other rooms before it was under control by the fire department. Mrs. Hinds was ill with the measles.

Mrs. Johnny Roberts, Debra and Macyle returned home recently from Rye, Colo., where they spent a few days with her parents, Mr. and Mrs. George Dudley.

Mrs. Clarence Ashton and daughter, Frances, visited over the weekend with Mrs. Hubert Scott in Amarillo. Mrs. Scott and Mrs. Ashton are sisters.

Mr. and Mrs. Elbert D. Dewberry, of Los Angeles, are the parents of a daughter they have named Grace Ann. Born April 5 at 9 a. m., she weighed six pounds. The maternal grandparents are Mr. and Mrs. Silas E. Duncan Jr. of Floydada. Mrs. Dewberry was Dorothy D. Duncan. Mrs. S. E. Duncan, who has been in Los Angeles for a month, is due to return home next week.

## Drying Heat Warms Ground

If the ground temperature keeps rising for another two or three days and the ground dries out like it should, there'll be cotton planting a-plenty in Floyd County Monday.

Floyd County has had 2.8 inches of rain (at Floydada) in the month of April, showers over the week-end bringing 24-hundredths of an inch, more up to an inch east and north.

But the dryer has been on since Sunday and the mildewed ground is beginning to take on a more natural hue.

As to temperature: Numerous farmers are using their ground thermometers this week. Howard Gregory, who lives south of town, is one of these. Temperature is taken at a level eight inches underground. Sixty is the low for planting successfully (they say).

Gregory's thermometer read 58 degrees Monday, 57 degrees Tuesday, and 59 Wednesday.

## Horton Attending Waterworks Meet

Charles E. Horton, superintendent of the City Waterworks, and Mrs. Horton, are in Dallas this week where he is attending sessions of the National American Waterworks Association.

The association is meeting for the first time in Texas. Problems of waterworks operators are the principal subjects for discussion.

The meeting opened Monday and will continue through Friday.

David Watkins, a grand nephew of Mrs. Maud Holloma, is one of five students in the Lubbock High School, with all "A's" in a nine weeks report for mid April. He was the only sophomore. He is the son of Mr. and Mrs. Arthur B. Watkins. In addition to his regular scholastic load David carries a heavy load of musical activities with band, orchestra, stringed quartettes and symphony.

Mr. and Mrs. Bill Fulton and son, Billy, accompanied by Mr. Fulton's parents, Mr. and Mrs. Cleo Fulton of Farwell, returned home last week after spending a week near Hot Springs and Little Rock, Ark., visiting with relatives. The Cleo Fultons are former residents of Floyd County.

Mr. and Mrs. Brown Kendrick of Dallas returned home Sunday after spending a few days here with her mother, Mrs. E. A. Hopkins and a sister, Mrs. Jack Henry and Mr. Henry. While here the group spent Saturday in Lubbock where they enjoyed the scrimmage and barbecue at Tech.

## Scheduling Siren Tests At High Noon

Trying to devise an ample warning system for tornado alerts authorities have been "pranking" with the city sirens for several days to see what kind of a combination of warning sounds would cover most of the city best.

Yesterday they still did not have the answer and are going to make some more tests. They may use two sirens at the same level, or one higher than the other, or close to the ground or high in the air, one turned east-west, one north-south, et cetera, et cetera.

Councilman Goen said the tests are going to be made at noon-time and suggested that residents do not be alarmed or take off hunting for a fire or tornado. "What we want to do is to get the best combination possible to get the warning signal to the most people before the tornado season hits," he said.

As soon as the tests are finished a report will be made and all information as to signals that will be used, and so forth, will be fully reported, he said. Meanwhile, please keep in mind the high noon blasts won't mean anything except that the boys are testing for best results.

## May 5 Is Last Day To File for Name On Demo Ticket

More announced candidates for office in Floyd County have not filed their applications with the county chairman, than have.

This information is from County Chairman Ben P. Ayres, of the Democratic party.

The chairman said the committee will meet on May 12 to apportion the cost of holding the primaries and candidates will have until May 17 to pay their assessments.

This is an "off year" for national elections and there will be no "presidential" conventions, Ayres pointed out.

### Kitchen and Field News

from Lighthouse Electric Cooperative, Inc. by NANCY MORCKEL, Home Economist

AGAIN—IT WAS ONE OF THE BEST! The Annual Meeting Planning Committee gave a lot of thought and spent a lot of time in making plans for the annual meeting of the Lighthouse Electric Cooperative, Inc. that was held at the Baptist Encampment, near Floydada, last Saturday, April 19.

One of the largest crowds ever to attend one of these meetings was on hand for the day's activities. Five hundred co-op members and their families and a large number of friends were there for the brief business periods interspersed with lots of local talent, door prizes, a beauty contest, and a delicious barbecue dinner.

There were seventeen pretty girls in the beauty contest. Miss Judy Jackson, daughter of Mr. and Mrs. E. M. Jackson was crowned "Miss Lighthouse Electric". Miss Juanell Wood, daughter of Mr. and Mrs. L. T. Wood, South Plains, was her alternate.

It seems there is nothing more heart-warming than a group of friends enjoying a picnic when the first spring days arrive after a long cold winter. That might well describe last Saturday's meeting. The Co-op family from seven counties and their friends from all over enjoying an old-fashioned picnic-gathering. Ever so many times this remark was heard. "Isn't this just wonderful—I have seen old friends that I haven't seen in years."

The noon-day lunch was served cafeteria style to nearly 1800 people, by the Jetton Catering Service of Fort Worth, Texas. The menu was barbecued beef, potato salad, beans, cole slaw, pickles, ranch style apples, bread, tea and coffee. If you were there and enjoyed the day you might like to tell the annual meeting planning committee that you enjoyed the special efforts and planning they put into making this event possible.

They were Mr. and Mrs. Clyde Parish, Lockney, (Committee Chairman) Mr. and Mrs. Travis Jones, Route 5, Floydada Mr. and Mrs. Rex Smitherman, South Plains Mr. and Mrs. T. C. Hollins, Route 4, Floydada.

Mr. and Mrs. D. T. Graham, Route 1, Plainview Mr. and Mrs. C. F. Fiemins, Route 2, Crosbyton Mr. and Mrs. Hershel Nelson, Jr., Route 5, Floydada Mr. and Mrs. Ned Bradley, Route 5, Floydada (Master of Ceremonies).

Mr. and Mrs. Ned Bradley were unable to attend the meeting. His uncle, R. L. McKinney, passed away and the funeral was held in Temple on Saturday morning. Claude Westerbee, of the Lighthouse Electric Cooperative, was Master of Ceremonies in Ned's absence.

Our sincere sympathy is extended to Mr. and Mrs. Ned Bradley in the loss of their uncle, R. L. McKinney, of Temple, Texas. Bob Morris, Scotty Slaughter and Jimmie Jones, representatives from Cummins Supply Company, Amarillo, were at the annual meeting last Saturday.

Mark Davis from Nelson Electric Supply Company, Lubbock; Blair Adams and his son, Blair, Jr., of Lubbock, representing Adams-Fruit Supply Company, of Amarillo and Mr. and Mrs. Sam Rutledge and their two sons of Amarillo, from Gray Electric Company in that city, were also guests at the meeting.

Senator Andy Rogers, of Childress, was among the out-of-town visitors last Saturday; he was crowned "Miss Lighthouse Electric", presented her with a bouquet of red roses and escorted her to her throne.

Others among the out-of-town visitors last Saturday were: Franklin Stovall, who is a candidate for State Representative; O. K. Woodall, Manager of the Swisher County Electric Cooperative, Inc. and two of his directors from Tulsa; Dick Shackelford, Manager of Mid Plains Telephone Co-op, Tulsa; Leo Forrest, Manager, Deaf Smith County Electric Cooperative, Inc., Hereford, Edgar and Edwin Ramey and Mr. Boyd of Dimmitt, members of the co-op board of directors at Hereford; and Jack Christian, Assistant Manager of South Plains Electric Cooperative, Inc., Lubbock. Jack brought along his camera and made pictures throughout the day of various entertainers and beauty contestants.

# Lions Track Meet Cancelled; Will Try Next Year

Floydada Lions Club has cancelled plans for a junior high track meet this year. Continued rains kept the local track under water and made it impossible to run the event on any of the dates set.

Now with the track season over they have talked with school officials and decided to put away the trophies and awards and make use of them next season.

Interest was high for the event and every single invitation issued was accepted, promising to make the meet as big as the club and school would make it.

With more favorable weather conditions Floydada Lions and the junior high officials plan for an early start next spring for the big meet.

ernoon at the Lighthouse Electric kitchen. The girls demonstrated preparation of dairy products, vegetables, and use of electric appliances.

The meeting began at 4:30 and was over about 9 p. m. Betty Low, W. C. L. member of Mr. and Mrs. Vernon Wright, and her partner, Billy Taylor, won first place in the 11-12 year old group.

The two girls made a salad of lettuce leaves, cottage cheese and a garnish of paprika. Mrs. Tom Porter is Betty Low's adult leader.

Mr. and Mrs. T. W. Plennick and Ronnie returned home Wednesday night from the Gimco Convention in Dallas. The Plennicks stayed with them. Ronnie won two prizes of Mexican dinners for two. Mrs. Plennick guessed the correct number of belt spools in a jar and won five thousand cotton tags, worth about \$200.

Mrs. Plennick also won a basket of fruit as a door prize.

Mrs. Plennick brought Sue a dress from Neiman-Marcus. Sue was the Lakewood beauty nominee for the Miss R. E. A. contest and modeled the dress Saturday morning at the barbecue.

The dress is designed in the very latest balloon style, and made of cotton sateen printed in red letters. Mrs. Plennick also brought Freida Smith a sack dress made of a sack trimmed with rope fringe. These dresses were worn by professional models at the Gimco Convention and loaned to Mrs. Plennick.

Sue's evening dress, worn in the afternoon judging, made up of the bizarre look of the first dress. The gown was made of white embroidered tulle with strapless bodice and a floor length skirt featuring three tiered ruffles brought into poufs in the back and tied with white satin bows.

Red carnations across the top of the bodice, red rhinestone jewelry and long white opera gloves completed her costume.

There were dozens of Lakewood people at the R. E. A. Meeting. Laurie Johnson, and his family, the Warner Johnsons, went to Lubbock Friday night for the one act play contests. Floydada won first. The cast goes to Austin next Wednesday.

# Whirl Staffers Try Journalism At Region Level

Gaynelle Boothe, 1936-37 Whirl Editor, and Oles Adams, feature writer attended the Regional Journalism Contest at Texas Tech College on Saturday.

Oles Adams won second place in editorial writing and third place in feature writing. The contest consisted of five different parts: Newswriting, Editorial Writing, Feature Writing, Copyreading, and Headline Writing.

This meet is different in most respects from any other of the regional contests. Students from all class schools take the same exercises. There is no district competition in the field and two students from each school work together. Their points are added together to find the winning school. The two people in each class (A, AA, and B) with the highest number of points go to Austin to the State Meet.

All Class A schools, of which FHS is classified, have journalism classes. Oles and Gaynelle had about 10 schools to compete against in Class A competition.

The boys will serve refreshments, and are asking every family to bring sandwiches and cookies. Drinks will be furnished. Mrs. Louis Pyle is the adult leader.

The Patach Horse Show is this week-end instead of last week. There will also be a con dog field meeting at Silver Falls.

This is also the week-end the Floydada High School seniors leave on their trip to Missouri. They will return Wednesday.

Laurie Johnson does not plan to go with his fellow seniors, as the one-act play cast leaves for Austin Wednesday. Laurie will sight-see in Texas.

During the R. E. A. meeting I mentally counted twenty-five electrical appliances used in our home. Times may be hard financially, but they are much easier to endure than the back-breaking, woman-aging years we remember in the 1930's. We have nice homes, pretty furnishings, good roads, all the conveniences of the city, with the restfulness of the country. It's good to live in America, anytime.

# Offenses Keep Officers Busy

City Peace officers were kept busy during the week-end with cases resulting from theft, shoplifting and one burglary reported.

The break-in occurred at Kirk and Son Hardware, north side square sometime Sunday night. It was discovered around 7 a. m. Monday morning when the place was preparing to open for business.

Entrance was gained by breaking a plate glass panel in the back door one of the investigating officers said. Five pistols, one a 20 automatic and four 22 revolvers and some shells were reported missing.

Sheriff Walter Hollums, Ernest Huckabee and Olin Poteet are still investigating the burglary.

Monday morning, Huckabee spotted two Latin-American men carrying a large paper bag on the alert for suspects of the break-in at Kirk's. He accosted the men, inspected the bag and found it contained 19 pair of expensive men's socks, a mirror and several other small items, which were taken from King's Variety Store. The two were 18 year old Domingo Barrosa and 20 year old Ricardo Cisneros, who lives in the Labor camp. They are now in the local jail being held on charge of shoplifting.

Three teenage boys from Clovis, N. Mex., were taken into custody Saturday on the Matador highway by local officers, after they received a report from Lockney that a car had been stolen by three boys and believed to be headed this way.

The car became stuck on an off road, officers were told, and the boys abandoned it, and started out on foot when they were apprehended. The car was taken from the Lockney National Alfalfa Mill, owned by an employee there.

The boys, one 14, one 13, and one 16, said they were headed for Arkansas when they were picked up.

They are being held here on charges of breaking and entering and car theft.

Burglars hit the Lunch Box Cafe on the Matador Highway again Tuesday night, the second time in the past two months.

The break-in was noticed when Mrs. Virgie Williamson arrived for work at 5 a. m. She noted cigar boxes on the floor and a cigarette machine missing, when she was unlocking the front door. It was found that entrance was gained through a kitchen window.

Apparently the light colored cigarette machine missing, was taken out the front door and loaded on a pick-up or a vehicle capable of carrying a bulky object. It had not been located yesterday at noon.

## Woman of The Year

(Continued From Front Page)

It should be required the concern of parents and teachers. But what of the person who is active in PTA, will gladly take part on the PTA program, will draw plans for and organize a library for a school even though she hasn't chick nor child in that school? I think she deserves special applause for that.

What does a community need? Community Concerts, an attractive Country Club House? Your Woman of the Year contributed and continues to add to all of these things.

A Study Club? When she joined the 1922 Study Club she was put to work immediately (and that's the way she wanted it). She has held an office every year, has been lower representative to the district convention, and is now their president.

Does a growing community need a library? A free public library for the use of everyone in the county? This person thought so to the extent that she originated and organized a drive for the Floyd County Library; and when the dream became a reality, she instructed the workers in a basic course and served the first two years as the chairman of the library board. To this day she renders voluntary service to this library and the Andrews Ward Library, mentioned previously.

One would think that with all of this activity in the community, she wouldn't have time for outside - of town interests; but not so. She is interested in the welfare of the United Nations and all that it stands for. She has slides and flags and has talked U. N. and world brotherhood on many occasions. Last Christmas out of her own money, she bought and sold U. N. cards. The profits on the money was sent to UNICEF for feeding hungry children and the return of her money was used for the purchase of two books for the Floyd County Library and two for Andrews Ward Library.

We could go on enumerating the value of things in a good community and proving how your woman of the year fits into each one and has promoted the welfare of each one but it is time now to introduce her to you -- a woman of kindness, friendship, love and service -- Mrs. Jim Barnard.

Preceding the Woman of the Year award, Mrs. Sam Puckett, gave a book review of "White Mother" by Jessie Bennett Sams. The story is an autobiography by a twin Negro girl, Veanie of Florida, who was befriended at the age of nine by Mrs. Rosalie Lee. Mrs. Lee was a gentle and kind white lady who was the inspiration for Veanie and her sister, Minge.

The sisters now are college graduates and the author has taught school for many years in California. Veanie, Mrs. Jessie Bennett Sams, attributes all that is sweet in their lives to Mrs. Lee.

The story brings out conflicts of racial feelings, and tells of the happy and sad events in the lives of Veanie and Minge after they meet Mrs. Lee.

Refreshments were served from a beautifully decorated table with crystal appointments and a centerpiece of spring flowers. Mrs. Edward Wester poured punch and was assisted by Mrs. Cleo Whittle and Mrs. Howard Bishop, the hostesses.

Mrs. W. H. Simpson Jr., gave the opening invocation.

Members and their guests present for the evening included Mesdames: Howard G. Bishop, Holt Bishop, Johnny Collins, Lyndell Roberts; Bob Copeland, Lloyd B. Cook Jr., Charles Craig, Harold Ellison; Lon Davis Jr., Kinder Parra, Earl Edwards Jr., Earl Edwards Sr., Charles Hamilton, Dale Goen, Bill Hale, Kelly Hagood, Watson Jones, Maurine Green, Jack W. Johnson, Kyle Moore, Jack Stansell, J. D. Abbott, Dale Lewis, Gene Probasco, J. H. Barnard, Sam Puckett Jr., Orvis Phillips, W. H. Simpson Jr., Sam Hale Jr., Tom Snead, W. B. Winn, Cleo Whittle, L. B. Stewart Jr., Ted Bell, Bill Harden, Claude Westerbe, Mitchell Parrish, Edward Wester and Miss Alene Warren.

## Floydada Drivers License Day Will Be Every Friday

Drivers License Patrolman H. M. Kissinger, who has been spending every other Friday in Floydada for the past three years to conduct drivers license examinations, said last Friday he will make every Friday an examination day in Floydada henceforth.

So tomorrow the examination room, adjacent to the judge's office, will be open ready for applicants.

Shortage of help has been the reason for the paucity of visits to Floydada by the patrol man in the past. This is being remedied by the increased number of days -- Fridays -- the office here will be open.

## Lockney Super Market Burned

Loss that is likely to reach a figure between \$35,000 and \$40,000 was sustained by the Rhodes Super Market, popular food establishment at Lockney Sunday night.

The fire was discovered at 11:15. It apparently caught in the office and spread to other parts of the house. Loss is practically complete for both stock and fixtures, smoke and water damage adding to the loss by fire.

The building was in an isolated location so there was no damage to other buildings.

Raymond Rhodes is owner of the building and owner manager of the business. He told newsmen the

first of the week he hoped to have the clean-up completed and the store re-opened soon, possibly not over 30 days.

The loss is believed to be covered by insurance.

Albert Smith of Big Spring, was in Floydada and Lockney last week-end briefly. Smith is a son of the late B. F. Smith, one-time publisher of The Lockney Beacon. He was renewing boyhood ties. He was here in company with Wayne Gound, also a former Floyd County resident.

Of course, you wouldn't pay for a job only 4/5ths completed. No one likes to pay for more than he gets. Yet, today many tractor owners are being short-changed by sluggish tractors operating far below original standards—as much as 20 per cent less power.

The University of Nebraska experts found this fact and proved that losses reduced or even eliminated by tractor. This work can be done efficiently, nomenclally . . . in our shop. ## Must Inoculate And Irrigate A Soybean Crop

Inoculation and September irrigation are essential to successful soybean production on the High Plains. This was shown in the tests conducted at the High Plains Station of the Texas Research Foundation in 1957.

Plots of the Lee variety which received September irrigation produced an average of 36 bushels per acre compared to 15 bushels per acre on plots receiving no water after August 25. Beans which were not inoculated produced only 18.5 bushels per acre compared to 36 on inoculated plots.

The application of nitrogen and phosphorus did not increase the yield in 1957. The plots receiving no fertilizer produced as much as did plots where 40 pounds of nitrogen and 40, 80 or 120 pounds of P2O5 were applied per acre.

A row spacing test was conducted with one and two rows per bed at seeding rate of 40, 50, 60 and 70 pounds per acre. The results of this test indicate no significant difference in yield between one and two rows per bed or between the seeding rates.

These tests will be repeated in 1958 with the addition of potash in the fertilization test.

Advertise for it in Hesperian.

### Showing for-Sound Film Soon

Public showing locally and racing film entitled "Header 500" is to be shown at the Floyd County Hesperian on Friday, April 25, at 8 p. m. The two "500" races are the 1957 Indianapolis, Monza Invitational and Italy. Also to be added feature, is a 1,000 mile race which took the participants and spectators a record average of 138.8 miles per hour. Several spectacular without serious injuries, and some odd finish this 41st Indianapolis classic as well. The race will place June 29, 1957. Ten top American drivers are invited to compete in the "Dream" materialize because

most of the European drivers, like Calvin Coolidge, did not choose to run." In spite of the shortage of European competition, the first Monza Invitational 500 did not lack for excitement. Tony Bettenhausen's fast qualifying time in excess of 177 miles per hour, and Jimmy Bryan's winning average speed of 160.1 miles per hour, provided excitement enough for any race fan. These films were produced by K&W Products, Inc., automotive chemical manufacturer of Whittier, California, and Bloomington, Indiana, well known for their thrilling films of the Pan American Road Races several years ago. Admission will be free, but due to the limited seating capacity, it will be necessary to have an invitation. These may be obtained from one of the co-sponsoring garages, service stations, or new car dealers who are making the local showing possible. A list of these sponsors will appear in next week's Hesperian.

### Missiles Face Fight; 'Alleys' Invade So-West

Missiles are already being fired across thinly populated sections of the Southwest, as shown on the map, and the Army and Navy now propose to fire them over more heavily settled areas. To date, the armed forces have only fired aerodynamic missiles (pilotless aircraft) such as the USAF Matador and Mace, and the Navy's Regulus, through these alleys. The Navy now proposes to fire its Polaris from offshore into the Mohave Desert and the Utah impact area, and the Army plans to fire its new Pershing from Ft. Bliss, Texas, to Ft. Sill, Okla. Polaris and Pershing are ballistic rockets, and strong opposition has developed to both proposals. California aviation interests claim the Polaris firings would endanger all passenger flights between the Los Angeles and San Francisco areas, and cities and farm ranch groups in Oklahoma and Texas say flatly they don't want meandering missiles overhead. At least one USAF missile strayed from its course enroute to Wendover, Utah, and was found eventually where it had crashed in Colorado. Guidance

problems have plagued Army and Navy ballistic missile systems, and distant airport towers, taxi dispatchers, and ham radio operators are reported to have interfered with test operations at Cape Canaveral, Florida.

### Dollars Lost As Farms Consolidate

A North Dakota economist figures that for every farm which consolidates with a neighbor, industry and labor will lose some 2 million dollars over a 100-year period.

E. N. Dornacker of Mayville, N. D., has this theory: The present trend of combining two or more farms into one large one means more land farmed with less equipment, fewer materials and fewer farm hands. "Each time a farmer is forced to leave the farm, industry loses a customer and labor gains a competitor for a job," says Dornacker "and the neighbor who buys the land will destroy the buildings and operate it from their own farm," he adds.

Here is a partial list of the business which industry will lose in the next 100 years from each farm, he says: The sale of 19 tractors, 10 drills, 15 harrows, 10 combines, 10 discs, 4 plows, 10 cultivators, corn planters, 12 fertilizer attachments, 10 trucks or pick-ups, 3 weed sprayers, 300 batteries, 49 tractor and 60 truck tires, 5 manure spreaders, 15 hog feeders, 20 water tanks, \$50,000 in parts, \$5,000 in tools, 1,000 gallons of paint, 1,000 pounds nails, \$15,000 in lumber, 600,000 gallons fuel oil, etc.

The total of these and other items would amount to \$2 million over the 100-year period, Dornacker claims.

Of course, his argument has a few holes in it. Actually, two small farms combined into one large one would eventually call for additional machinery over what the buyer owned at the time of consolidation. And the more hours a machine is run to handle a larger acreage, the quicker it will wear out. In addition, larger farms call for farm buildings --- but not as many as two separate farms.

Even so, underneath all the smoke of Dornacker's theory smolders some fire of truth. It can be more economical to maintain one large farm as opposed to two smaller ones from the farmer's standpoint --- resulting in a corresponding loss to industry.

Guests in the Mrs. Cora Pace home Sunday were Mr. and Mrs. P. S. McCune, of Tulsa, Mr. and Mrs. R. C. Hollingsworth, of Roaring Springs, Mr. and Mrs. James Martin and sons of Pefersburg, Mr. and Mrs. W. M. Knight and Mrs. Orlene Henderson of Floydada.

Unemployment or to demand. But the federal officials suggested recruiting in other states before bringing in Mexicans.

Farm groups and weather conditions are such, they say, that when they need laborers, they need them then and there. Neither, they point out, do they have time or money to run all over the country looking for workers.

Though federal officials catch the brunt of their criticism, farmers put part of the blame for their labor problems on the increasingly fastidious nature of Mrs. Housewife. She won't have dirty old carrot tops any more, say farmers. She wants clean, topped carrots — packaged in plastic. It means more work.

All-Out For Safety — Gov. Price Daniel has started "the greatest highway safety campaign in the history of the state."

County judges, mayors, police chiefs, sheriffs, prosecuting attorneys and school superintendents are being asked to hold meetings and organize local campaigns. Awards will be given to the local officials and news reporting agencies which do the best job of promoting traffic safety.

Governor's goal is to save "a life per county." This would total 254 lives or approximately 10 per cent of last year's traffic death toll.

Anti-Ad Ban Upheld — A new law

prohibiting price advertising of eyeglasses is constitutional, says the Texas Supreme Court.

Passed by the last legislature, the law says "ophthalmic dispensers" (which the court says means optometrists, too) may not mention "bait, discounts, premiums, prices, gifts" in their ads.

It landed in the courts when one group of optometrists (Texas State Optical) brought suit to prevent another group (Lee Optical) from advertising prices. Defendants said the law was invalid because its caption did not specifically mention the things the law covered.

But the high court ruled the caption was clear enough.

The bill as originally introduced made no reference to price advertising. The portion pertaining thereto was inserted in committee without there being any change in the caption.

Opponents of bill charged "trickery." They argued that this was just another attempt to raise the price of glasses by prohibiting the publicizing of prices.

Up The Ladder — One plan to up-grade higher education in Texas has official approval of the Commission on Higher Education. Others are under study.

Commission approved a request from the University of Texas to divert \$1,000,000 from its Available Fund, ordinarily used for buildings, to a research program. Noting that the University needs "brains as well as bricks," President Logan Wilson said the money would be used to attract and hold outstanding research personnel and provide them with equipment and books.

Still under consideration by the Commission are:

- (1) Texas Technological College's request for graduate engineer study. Tech's engineering department is a sort of "strong back and weak mind" program, said President E. N. Jones, with 2,700 students and no upper-level study to attract top-notch teachers.
- (2) Texas A&M's touchy problem of whether to admit women.
- (3) A proposal to concentrate graduate study in home economics at the two state colleges at Denton, curtailing home ec study at the University of Texas. Commission voted to re-study after hearing UT exes' protests.

Come To The Fair — Texas Fine Arts Association is inviting all Texans with any sort of artistic bent to bring their handwork to the Fiesta of Arts and Crafts May 9-11 in Austin.

Artists and craftsmen from over the Southwest will be showing and selling their works from booths scattered

over the grounds of Laguna Gloria, TFAA's picturesque headquarters overlooking Lake Austin.

TFAA spokesmen said they particularly wanted to encourage exhibits from small town groups, such as hooked rug clubs and church needlework groups. Booths may be rented for nominal fees. Applications should be made at once by writing Mrs. Willie Burk, P. O. Box 5023, Austin.

Designed to create the atmosphere of an Old World fair, the fiesta will have strolling musicians, singing gondoliers, boat rides, a Mexican Market, Siamese gardens, puppet show, fish pond, and of course, a serious art exhibit.

Judge Greenhill Files — Judge Joe Greenhill of Travis County, who was named to the Supreme Court last fall by Gov. Price Daniel, to succeed the late Judge Few Brewster, has filed for election to the office. Judge Greenhill, who has had 20 years of law and appellate court experience, says he will campaign actively in every county in the state between now and the July 26 primary.

From a period of 1934 to 1937 he held the pastorage of the Fairview, Campbell and Dougherty Methodist churches. Afterwards he pastored at Aiken and Carr's Chapel, then at St. John, Plainview and from there to Matador. He was pastor of the First Methodist Church at Albany at the time of his death.

Survivors include the wife, one son, Wendell, student at Duke University, one daughter, Mrs. Irwin McGaughey, near Dallas and his mother, Mrs. Willie O'Kelley, who made her home with the pastor and his wife.

Friends of the family in Floydada and surrounding communities learned of Rev. O'Kelley's death too late to attend last rites. Mr. and Mrs. E. B. Chestnut of this city, close friends of the family, called Mrs. O'Kelley after hearing the

## Hereford, Tex., Man Reports— More Maize On Fewer Acres Using Phillips 66 Ammonia

Earl Holt, Hereford, Tex., says: "I harvested more grain from 250 acres of irrigated maize fertilized with Phillips 66 Ammonia than I got from my previous larger acreage which received no ammonia. And I got this increase using only one irrigation well for the entire 250 acres."

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through higher yields of grain and extended grazing periods.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.
