Sheriff Solves Mystery Theft At Local Store

Walter Hollums, Floyd County sheriff, has traveled over 1500 miles the past week and a half but got results in solving the burglary at Kirk and Son Hardware which occurred here April 20, 1958.

The first break in the case came around Christmas time when the sheriff's department got a lead on a Latin American in Floydada having one of the five pistols stolen in the break in this information led to the location of a second gun.

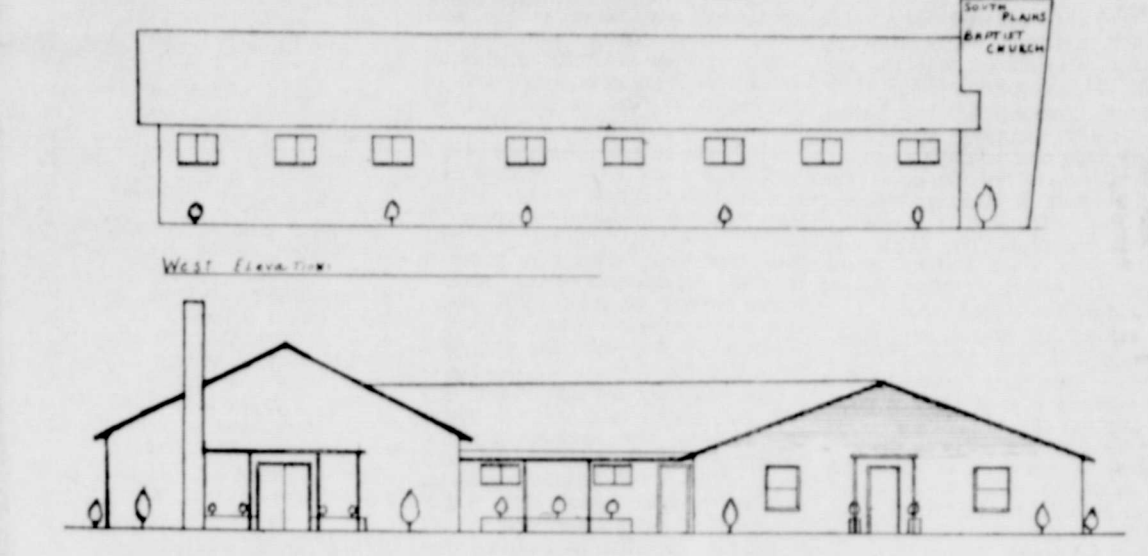

Monday, a week ago, the sheriff in company with Texas Ranger J. P. Litch of Memphis, went to Tulsa, where they found another Mexican in possession of one of the guns on his person. From him stemmed information which led the sheriff to Big Spring where on Tuesday, the following day, he recovered still another gun.

On a tip from the Big Spring men, Hollums went to Princeton on Wednesday where he apprehended a Mexican man, 37 year old Brigido Villirreal and his son, Brigido Villirreal Jr., 16. They were returned to Floyd County Wednesday night and on Friday, the past week, Hollums and Bill Tigart, went back to Big Spring after Saul Lopez, 14, nephew of Villirreal, a third party in the case.

Of the five guns stolen, four have been recovered, and the fifth one is at Littlefield, being held for the local officials.

Since the three Mexicans have been picked up six burglaries have been solved, three at Big Spring, and in Petersburg. Five suspects are in Plainview jail, apprehended in Floyd County. They are Lola Comacho, Jose Comacho, Maurice Villirreal, Davis Villirreal, and Domingo Barbosta, all have admitted taking part in the robberies.

In a statement to the sheriff here, Villirreal Sr. told authorities that his son and his nephew committed the Kirk and Son burglary and came home with the five pistols. He later sold them to individuals, all Latin-Americans. The man is being held on a charge of receiving and concealing stolen property. The two boys involved in the burglary will be taken to Gatesville School for Boys, Hollums said.

Ground Breaking For New Baptist Church Is Held

The First Baptist Church, at South Plains, had a ground breaking ceremony, January 11, in preparation for an addition consisting of an auditorium and educational space.

The building is to be of masonry construction, modern design, complete with refrigerated air-conditioning. The new auditorium will seat 228 people.

The complete structure, including a new roof for the existing building, will cost \$35,000.

Sim Reeves, chairman of the deacons, turned the first shovel of dirt. Junior Cahaban, chairman of the building committee, also turned a shovel of dirt.

This church has come a long way from its origin, and changed the name to "The First Baptist Church," located in the old Sunset school-house, two and one-half miles of South Plains.

In 1929 the members moved into a new basement church located in South Plains, and changed the name to "The First Baptist Church." Their dream and hope was for a ground floor auditorium. This will be fulfilled when the new auditorium and educational building is dedicated the latter part of April.

John Gillispie is the present pastor.

Few Qualify As Electors

Floyd County has the least number of qualified voters this February it has had in many years, the report of County Assessor-collector T. T. Hamilton revealed following the end of the poll tax paying period the night of January 31.

Only 2,187 poll tax receipts had been issued at the close of business and 21 exemption certificates, to make the total 2,208.

Tax collections have been good but otherwise qualified voters in droves have passed up the opportunity to qualify for participation in elections, Hamilton said.

Monday when the office was opened the automobile license windows began doing a land office business and were going at a high rate of speed throughout the day. New car registrations made up a major portion of the business but there were also many license renewals, Hamilton said.

LOYD Gas Tax Would Up \$49,000

(By Mrs. James H. Barnard)

The State Demonstration Bookmobile will be here in one month! Isn't this exciting and fortunate for all Floyd County residents, and likewise for the citizens of Crosby, Dickens, Garza and Kent Counties?

This is the first Multi-County Bookmobile Demonstration in West Texas. It is administered by The Texas Rural Library Service, a division of the Texas State Library, created to carry out the provisions of the Library Services Act of 1936.

The Bookmobile and 6,000 books are moving to our five-county area from the Central Texas Counties of Burnet, Blanco and Llano, where in 1958 mobile library service was provided for a one-year free demonstration.

Soon another demonstration will be moved to another area of West Texas, having served three Rio Grande Valley Counties for one year.

Tentative plans are for the Bookmobile to inaugurate Books-on-wheels service in Floyd County in the first and third weeks of March. On each of these two days the Bookmobile will make several rural stops and one deposit.

The first week the Bookmobile will visit Lakeview, Sand Hill, Harmony and Dougherty and a deposit of books will be placed in The Floyd County Library at the Court House.

The third week's stops will be Cedar Hill, South Plains, Aiken, Providence and Lone Star and a deposit of books will be made at The Floyd County Branch Library at Lockney.

The Home Demonstration Agent and the County Judge and the four Precinct Commissioners are working with the Floyd County Members on The Multi-County Board (Mrs. J. H. Barnard of the Floydada area and Mrs. E. M. Quebe of the Lockney area) to make sure that all rural communities of the County are alerted to this glorious free service for the period of one year. Be watching for the exact bookmobile schedule - to be published soon in both County newspapers.

Headquarters for this five-county project will be maintained at Crosbyton, a central location provided by the generosity of Crosbyton citizens. A trained librarian and a driver will be provided by The Texas Rural Library Service which is supported by State and Federal Funds. The Librarian will be Mary Jo Vines.

Local Chairmen for Floyd County Rural Stops are given herewith together with bookmobile stop and place to stop:

Mrs. John Powell, Care Paymaster, Gin, Aiken, Paymaster

Mrs. Eugene Gilly, Floydada Rural Route, Cedar Hill, Eugene Gilly Drive-Way, recessed from highway

Mrs. Howard Drysdale, Dougherty, Dougherty, Baptist Church; Mrs. Charles Reid, Rural Route 1, Harmony, Harmony Community Center;

TELEPHONE TALK

by J. C. Oakley, Manager

Today, you're still paying World War II "Emergency Taxes" on your telephone bill.

Next time you're checking over the charges on your monthly bill, take a real close look at the second line from the top. Not figure indented under the word TAX.

I imagine you've seen it so often you hardly even pay any attention to it any more. And yet, it deserves your very special attention because the closest thing to an unfair tax you'll ever be required to pay.

10% FEDERAL EXCISE TAX

Most of that amount represents federal (U. S.) excise taxes—every dollar of local and Long Distance phone service.

Doubtless few people even remember, but federal excise taxes on World War II emergency taxes designed to help raise money for the war and to discourage use of vital telephone lines which were then essential war time purposes. When they were put on the books, the Men of Ways and Means Committee told Congress. "The increases in excise taxes and new taxes, are temporary and will expire after the war is over. But you and I are still paying the taxes."

Continuing World War II emergency taxes as an essential part of telephone service is so unbelievable it's almost funny. Except it's hard to laugh when you're being belted in the pocket book that way.

ONLY ON TELEPHONE SERVICE

Of the four essential household utilities—gas, water, lights, and telephone—only your telephone service is subject to excise taxes.

And as if the tax itself isn't enough, there's also a hidden cost. You pay that, too. You see, we have to collect the tax and the proceeds along to Uncle Sam. This extra bookkeeping and billing expense of running the telephone business. Since we get the bill to operate the business from only one source... our customers... only pay the tax but the cost of collecting it as well.

If you feel as I do, that this unfair tax should be repealed, you write Senators Lyndon Johnson and Ralph Yarborough, and representative George Mahon and tell them so. One more reminder: surprise them. They'll already have heard about it from me.

DON'T MISS THIS TV TREAT!

The second Bell Telephone Hour on television will feature musical stars, including Duke Ellington, Ella Fitzgerald, Grant Tinker, Rose Stevens, Martha Wright and Russell Nype, with a wide range of American Music by American artists. You can see it Tuesday, Feb. 10, on KCBT-TV, Channel 11, at 7 p. m. Lubbock.

On this fatal day we lost many men, and among the rest my old friend and one of the best of men, O. Clinton Plunkett. He was killed instantly while engaged in charging a battery. Not many are more affected than the death of this man. He was an honor to human nature, an honest man, "the noblest work of God." When I got back from the hospital to my camp, Plunkett, who was encamped about two miles off, came over to see me and finding me sick, he stayed all night with me, which revived me a good deal. This was on Tuesday, June 17th. On Wednesday he returned to his camp. On Sunday, June 22nd, he paid me a visit for which I was exceedingly thankful, as my spirits were much depressed and I was glad to know that he was the same kind friend to me he had ever been. My sickness seemed to worry him, and he seemed to be anxious to do any and everything in his power to do me good. He remained with me till Monday morning, June 23rd.

When we were last together we talked of the coming conflict and of the hundreds who would be killed. We spoke of the dangers of battle with composure so far as himself was concerned, but the idea of leaving his wife and two little boys to struggle with the world seemed to trouble him. But when I told him that his wife was competent to the task of managing his children properly, being in fact one of the most industrious and business women I ever saw, he seemed very well satisfied to take the chances of war, come what would. His brothers told

They call her "Sturdy Gerlie"—the bridge over Puget Sound between Tacoma and the Olympic Peninsula area of Washington. me that they buried him on the battlefield and marked his grave so his remains can be removed if desirable at a future day. Oh! the sorrow in his family. I know it enters his father's soul, and as for his wife and little ones, 'twere mockery to attempt to describe their feelings. It is a consolation to know that he was a Christian man and that the errors of the battlefield were to him but the shining portals to an eternity of bliss. May all who deplore his loss on earth be prepared to join him in Heaven where battles disturb not the happiness and serenity of the "souls of just men made perfect," and "partings and farewells are a sound unheard."

On Saturday, June 28th, my regiment went on a picket near the Yankee lines. Nothing of interest occurred during the day, but during the night, which was somewhat rainy, we could distinctly hear the enemy deserting their camp in front of us and the rumbling of artillery and baggage-wagons over the rough roads told us plainly that they were retreating and making for safer quarters. No attack had thus far been made on the enemy's line at this point, but their retreats were a sufficient warning to them to get out of the war. Sunday morning, dawned brightly upon us, and none knew that this beautiful day of rest was to become a day of blood and death. But so it turned out. Early Sunday morning we got orders to move forward and take possession of the enemy's camp. We moved cautiously through the dense wood to the open space in which their camp was situated, and after carefully surveying the place and having found out that the camp was indeed deserted, we went forward and took possession. Here we found many things left, clothing, boots, shoes, pens, ink, paper, bread, rice, sugar, coffee, bacon, beef, some arms, ammunition, soap, tobacco, and many other things, proving clearly, as we all knew before, that the Yankee army is much better provided for than the Southern army. I am now wearing a linen coat that I got and am now writing with a Yankee pen from the same place. We could have gotten many things, but as we had long marches to make, could not carry them; in fact we lost almost everything we had before having to leave them behind. The sun was very hot and our fatigue terrible.

When the brigade came up, we started in pursuit and occasionally fired a bullet, but by our heads from the enemy before us. A mile or two farther on we came up with some casualties. As we went on, we came upon immense piles of things on fire which the enemy burnt to prevent them falling into our hands. They must have lost tremendously by this destruction of things they could not carry.

I said we had some skirmishing and casualties. A bomb, called a "spherical case," filled with bullets, burst near me; the bullets flew in every direction and one of them struck me in the side and would have killed me sure, but the handle of my sabre-bayonet received the ball. The ball was cut in two, one piece going I know not where, the other falling harmless at my side, which I picked up and have now in my haversack.

Still we pursued the enemy, who continued to retreat before us. But near night he made a stand and gave us a regular battle in tremendous numbers. I never saw balls fly thicker; it seems a miracle almost that so few were hurt, but still our loss was great. The Second Regiment lost 8 killed and 53 wounded. We did not have more than 250 men in action, the balance being sick and tired down, or else pretended to be. The Seventh Regiment lost 17 men killed. The Third lost about 20 killed. I don't know the number the Eighth lost.

The next morning the enemy were gone, leaving hundreds dead on the field. In one pile a man counted 75 dead Yankees, killed by cannon. After burying our dead and taking care of our wounded, we commenced the march not exactly in pursuit but rather in another direction to cut them off.

By the way, I forgot to say that Thomas Hill was killed in this Sunday evening fight. He had both legs cut off by a cannon ball and died very soon after.

I cannot give you any idea of the terrible uproar of a fierce battle. The cannonading is worse than the worst thunderstorm you ever heard; besides, the firing of small arms in such numbers keeps up a continual roaring, rattling, accompanied with such a hail of bullets as not only beggars description but is fearful to behold.

On Monday morning, June 30th, we commenced to march, as I have said, after burying our dead, etc. This day, a very hot one, we marched 15 miles, which was very trying after the fierce fight of the night before, which lasted till after dark. Then Tuesday came, the 1st day of July, a day of slaughter and blood! The enemy, whipped badly by Longstreet on Monday the 30th, made a strong stand on Tuesday in a strong position. We attacked him, Ker-shaw's Brigade being among the number, on Tuesday evening—with terrible loss on both sides. The Yankees on the next morning, Wednesday, were gone, leaving about 1,000 dead bodies on the field. We remained masters of the field, but our loss was very great. The battle was badly planned by our generals—and nothing but the valor of our troops has thus far carried us through. The general plans of all these battles were good, but the subordinate generals failed to carry them out as was intended at first.

As things now stand we are encamped, resting ourselves, and the enemy is close to the James, under the cover of his gunboats, from which place he dare not come out. What our loss has been I don't know. The Yankee papers say they have lost 30,000 men, killed, wounded, and prisoners. We took 51 pieces of fine artillery and wagons and other things too numerous to mention. The enemy has been signally defeated, with much loss, after all his boasting that Richmond would soon be theirs.

Thus I have given you an imperfect sketch of what we have done and suffered in the last three weeks. But to describe in detail all the idea of the suffering and anxiety and care to which we have been exposed. Nothing but actual experience will suffice. I have seen the ghastly dead upon the fields of blood and the suffering wounded till I am sick and tired of it, and trust I may never see the like again. The sight hardly moves my sympathies. God grant this terrible war may soon be brought to a close and that its survivors may soon be permitted to join their families, never more to be parted on such a dark errand.

I received the things your kindness sent me by Bob, and was much obliged, being in need of them after our terrible struggles and marches. Bob arrived after all the fighting was over, but he saw the destruction of woods by cannon balls and smelt the horrible stench of the battlefield. To give you a little idea of what destruction is done, I went to a place where we took a Yankee battery and counted between 50 and 60 fine horses killed in a space of 200 square yards. These were the horses attached to the battery. I was detailed to help bury the dead, and such a task! I fell in with some Yankee surgeons and helped one cut off a wounded man's thigh, as he was scarce of help. Surgeons are not taken prisoners now, but are allowed to tend the wounded. I saw men, Yankees-lying on the field with legs mangled, arms broken, brains shot out, and alive on the third day after the fight. Oh! what suffering! The Yankee surgeons told me they had more than they could do and were broken down all the time. Some expressed a wish that they might never see the like again. And what lover of his country and her people does not say, "Amen"? I have seen enough to make a heart of stone bleed and such sights trouble me much, but I bear them with seeming fortitude.

Ma, I must stop although I could write you a hundred pages, but time is precious, the flesh is weak, and my spirits are heavy. Do excuse me for not being more full when I write you, and all news give my love to my relatives and my respects to my friends. Jimmy is well and going well. Since the 15th of June I have been in 2 skirmishes and 2 great battles. Bob is well and I believe gets on well. Jimmy says he is better than he expected to find him in the way of waiting and cooking. He is a very handy fellow and seems very willing and devoted to Jimmy. I am now wearing a pair of his-Bob's-breeches until he washes mine, which got very dirty in our marchings and fightings.

Nothing more but remain.

Your loving son,
Wm. L. Daniel

SMALL BUSINESS

For quite some time, the nation's independent businessmen, voting through the National Federation of Independent Business, have urged unions to be made subject to nation's anti-trust laws.

So far, Congress has not seen fit to do this.

This stand by the nation's small businessmen is based on an anti-labor, or labor baiting attitude. Rather, the question goes much deeper.

It is possible that unless some curb under law is placed on labor leadership that the welfare of the Republic will be impaired.

There is something corrosive about unlimited power to an individual. In olden times there was seldom a king who did not abuse his power. But the modern labor leader is not only unfettered in his use of power, he also has the problem of pushing for more and more to put on a good show for the membership.

This abuse of so far uncontrolled power, plus the drive to seek justification by getting more and more for the membership, seemingly has no end.

Perhaps one of the best concrete examples of this fact is found out in California. In the food industry, this state is recognized as the birthplace of the super market, and thus, is also perhaps the place of origination of the grocery clerk's union.

Over the years the union has pushed wages up to a point where any grocery clerk not making \$125 per week is considered a National Federation of Independent Business member.

Marshall Urges Use of Planter For Onion Sets

For the good of the cause, I built an onion planter, on which the men may ride when setting plants. This enables the plants to be set for much less money.

I want some one to take this planter and operate it to set their own plants and to their neighbors.

I built this implement not for profit for myself, but so the farmers might see how they have set plants in California for many years.

This planter may be used to plant seed also, up to six rows at a time.

I wish to call to our farmers attention the importance of soil testing. On down the line when our commissioners realize the values, they will hire a soil testing man, with a lot at Floydada for 6 months.

From January to July, our farmers spend thousands of dollars for fertilizer. Its like going to a drug store and buying medicine without a prescription. If your case is serious, you should have consulted your doctor. It is serious to farmers when they spend their money more or less haphazard. It is important to have a soil test.

For the good of the cause I am setting some boysberry plants this spring to determine the production and quality, here on the plains. I wish several of you would also set, say, 10 plants which would supply an average family. Boysberries make the most wonderful coldlers. They may be canned or frozen. Please write or phone me if you have plants you would sell your neighbors. I have plants arranged for my own use.

Benson is proposing another cut on cotton, 40 million or about \$4.50 per bale. It's my opinion, our farmers must diversify or be peasants.

Also the merchants will find, when the farmer does not have the money, his sales will diminish accordingly.

I think it may turn out to be smart to plant onion seed and hit the late market or at least some would not go broke on that plan.

L. A. Marshall

DOUGHERTY, Feb. 2—This area received a light snowfall Sunday afternoon and night following an icy storm of Saturday night, with the temperature below 20 degrees all day Sunday and a low of 10 degrees Monday.

Mrs. Fred Cardinal, community chairman for the March of Dimes, reports \$317.20 as the total contribution. She expresses appreciation for the cooperation of all.

There were 32 present for Sunday School and church Feb. 2. While this is much less than the attendance of the past several Sundays, it is excellent considering the weather conditions.

A banquet is being planned for the youth of the church to be held later this month.

The regular meeting of the 4-H Club has been postponed to Thursday evening, Feb. 5.

The lamb exhibited by Billy Don Colston at the Tri-State Stock Show at Amarillo last week placed tenth in a group of 38. Several other Floyd County boys exhibited animals.

Those attending from our community report an excellent exhibition of lambs and Angus calves, however, the Hereford calves shown were not considered superior to those annually by seen at the Floyd County 4-H Show.

Homemaking Hints

(By Phyllis Roggenhoff Home Demonstration Agent)

The style show at Texas Tech last week gave a preview of the fashions and fabrics that will be popular this spring.

Colors are bright, with pinks, blues and greens in many different shades. One dress shown was a bright yellow with bright pink. The pinks are called such things as geranium, watermelon and strawberry. The blues and greens which have been popular for several seasons are still here—either alone or together. An ensemble of blue, blue-green, and green was shown.

In contrast to all of this color, black and white, in plain weaves and in checks, are popular.

In fabrics, texture is the story with pique effects and linen-like textures. Polished cottons are very popular, especially in floral prints. The handstooth check is a leading pattern this year.

Most any style you like is apt to be fashionable this year. Slim skirt, goered skirt, pleated skirt, gathered skirt—all are shown. Skirt lengths are about the same—a little shorter than most of us are wearing. Most styles are highlighted by and unusual collar or some sort of mid-body detail. The high-waisted or Empire waist is still shown. You may like to know there were few "extreme styles" shown. The shirtwaist dress, an old favorite, is scheduled for a revival.

The Sand Hill Community 4-H Club will meet next Tuesday, Feb. 10, at 7:30 p. m. at the schoolhouse. Officers will be elected. Any parents and prospective 4-H members, ages 9-20, are welcome to attend.

"NO COLDS"

"No chest colds or headaches," say the Millers since installing their draft-free radiant electric heating system. The Miller home has approximately 1200 square feet of living area. They find that seven properly placed 1000 watt radiant glass panels can supply more than adequate heat for the personal wintertime comfort of the family.

OPERATING COST REASONABLE

Mr. Miller says, "We wouldn't consider heating our home in any other way. Our electric heating system offers many advantages to the family and the operating cost is reasonable."

Sue Flenniken Wins 'Cowboy' Title at Rodeo

Sue Flenniken, 17 year old daughter of Mr. and Mrs. T. W. Flenniken of Lakeview Community came home last week wearing the title of "all around cowboy" awarded her in finals at the Amarillo Junior Rodeo. Miss Flenniken was presented a hand tooled saddle with the inscription of the award. This is the first time in history that a girl has won the coveted title, thus explaining the reason "cow boy" instead of "cow-girl", on the saddle.

The Floyd county miss won in ribbon roping, barrel racing and musical chairs totaling 197 points, doubling the boys points, and winning the title from hard riding bull and bronc riders.

A participant in state rodeos for some time, Miss Flenniken has taken home several honors and prizes in the way of belt buckles, trophies, and cash prizes.

In August of last year the Miss won two pair of Western hand tooled boots and a cash prize from the National Junior Rodeo in El Paso for barrel racing.

Her two brothers are also rodeo participants. Ronnie, the youngest, has started a collection of rodeo trophies, and Tommy is a member of the Rodeo team at McNeese College at Lake Charles, La., where he is in school.

Miss Flenniken is a junior at Floydada High School.

Other Floyd County youngsters took part in the Amarillo show with swine, steer and barrow entries, with most of the animals being sold at the Junior Lamb and Swine Sale at Tri-State Fair grounds Thursday morning.

Randy Laceywell of the Irick community sold his 192-lb champion

Chester White barrow to Amarillo Packing Co., for 45 cents per pound. The animal brought Laceywell \$86.40. He sold his second place heavy weight barrow for 23 cents per pound to Nunn Electric and his barrow, pen of three, for 25 cents per pound to A. E. Herman.

David Mitchell of Lockney sold his first place medium weight barrow for 32 cents per pound and his second place barrow, pen of three, to A. E. Herman for 25 cents per pound.

Warren Mitchell sold his 380 pound Hereford steer to Western Cotton Oil of Plainview for 34 cents per pound.

In the sheep auction David Mitchell sold his first place Shropshire for 31 cents per pound to Clarence Wilmon, who donated the lamb to the Amarillo Children's Home.

Billy Colston of Dorchester received 32 cents per pound for his lamb, selling it to Peppin Western near Amarillo.

Pat O'Brien, formerly of Lockney, received 30 cents per pound for his lamb, buyer, Serley Pitt Barbeque.

Cecil Lewis, county agent, and Harold Ellison, assistant county agent, attended the show and auction with the Floyd County boys. Entries that didn't sell were brought home.

Beginning Saturday, February 7, Douglas Dege, supervisor of the Noxious Weed Control District may be contacted at Consumer's Fuel Association in Lockney.

This arrangement has been made in order that the farmers in the Lockney area may conveniently secure information and make plans for the treatment of their noxious weeds.

The Floydada office will be closed on Saturday mornings.

The Noxious Weed Control Board is urging that farmers who have farms which are badly infested with bindweed to come in and discuss the different methods of control with Mr. Dege, for there are several different methods of keeping down the growth to enable a crop to be made in them and thus keep them in check.

With planting and harvest season just around the corner, the purchase of clean, certified planting seed and clean harvest equipment cannot be over-emphasized. This is especially true for the farmer whose land is free of noxious weeds, said Dege.

Robert Lee Smith, Chairman of the Board and Mr. Dege will attend the Annual Weed Supervisor's Conference at McPherson, Kansas, on Feb. 23 and 24. Kansas has had a weed control program for more than 20 years which is similar to the one being set up in Texas now. Valuable information will be obtained at this conference in helping our fight to eradicate noxious weeds in Floyd County, they believe.

M. H. Martin, head of Martin & Company, veteran International Harvester dealers, has bought the interest of Claude Hammond in Hammond & Company, at Lockney, he announced last week.

Hammond, who has been manager of the company since World War II has retired from the business and will enter some other line of endeavor.

Martin, Fred Zimmerman Jr. and Hammond have been partners in the business with Hammond as manager. Fred Martin, of the Floydada dealership, will be manager of the Lockney store temporarily, with no other changes in personnel contemplated.

L. B. Brandes, president of the local Farm Bureau, Chester Carthel, and Hershel Carthel, chairman of the district policy committee, and Cecil Lewis, Floyd County Agricultural agent, were in Lubbock Wednesday of last week at a District 2 Farm Bureau policy meeting where discussions on the farm to market roads were aired.

The group went on record as opposing both a curtailment in the rural road building program and a proposed reduction in funds for the Texas Agriculture Experiment station and the Texas Agriculture Extension service.

All Graves, Waco, executive director of the Texas Farm Bureau, was speaker on major developments on this issue at the all day meeting which was held in the Caprock Hotel. Other speakers included R. J. Hildreth, coordinator for the Texas Agriculture Experiment station, Jim Pruitt, College Station, associate director of the Extension service, and H. L. (Hub) King of Brownfield, who served as moderator for the session.

The delegation, including county Farm Bureau officials and policy extension committee members, will hold later sessions in their respective counties to obtain support for the organization legislative programs.

'Winds Must Win Friday Night's Game With Spur'

The District 3AA basketball race entered the home stretch this week as second round games got underway. The big contest in the boys bracket will be reeled off tomorrow night (Friday) at Graves gym when the Spur Bulldogs come to town.

The red hot Bulldogs took a game from the locals in Spur last month which left a bad taste in the mouths of the "Winds" and they will be going all out for revenge. The two teams are leading the loop with one loss each.

On February 10 the Whirlwinds enjoyed an open date and then went out with the season with games at Post and with Slaton here.

Scores since last report include: District 3AA Boys Games: Floydada 36 - Slaton 41; Spur 40 - Tahoka 41; Post 60 - Slaton 47.

District 3AA Girls Games: Slaton 33 - Floydada 22; Spur 33 - Tahoka 30; Slaton 33 - Post 48.

The Floydada - Tahoka games scheduled for Monday night of this week were postponed because of the weather and dangerous driving conditions. The schools tried to make the game up on Tuesday night but could not get officials.

As things now stand the make-up games are set for Wednesday night, February 11, at Tahoka.

At the close of the first round of play the district standings looked like this:

Student Phone Directory New School Feature

The High School Athletic Department this week put on sale their student telephone directories. The attractive booklets are bound in a green cover bearing the Whirlwind emblem. They are being offered to students and the general public at \$1 per copy.

The directories carry the name, address and telephone number of all faculty members and students in the Floydada schools. Proceeds from the directory sales will go to the school athletic department.

HOUSE COMMITTEES — After Carr defeated Rep. Joe Burkett Jr. of Kerrville for speaker, suspense centered on how Burkett supporters would fare in Carr's committee lists.

Outcome was that Carr men, naturally, received all choice posts and approximately 55 percent of committee chairmanships. Of the 43 House committees, 27 are headed by Carr supporters, four by definite Burkett supporters and two by persons whose vote was not known.

Top committees and their leaders are: Appropriations, W. S. Healy of Paducah, chairman, John Hoeber of Bay City, vice chairman; Revenue and Taxation, V. L. Ramsey of Beckville, chairman, Frates S. Seeligson of San Antonio, vice chairman; Oil and Gas, Wesley Roberts of Lamesa, chairman, Richard Slack of Pecos, vice chairman.

Constitutional Amendments, James M. Cotten of Weatherford, chairman, Frank McGregor of Waco, vice chairman; Insurance, Carl C. Conley of Raymondville, chairman, Joe Chapman of Sulphur Springs, vice chairman; Motor Traffic, H. J. Blanchard of Lubbock, chairman, Rufus Kilpatrick of Beaumont, vice chairman; Agriculture, Truett Latimer of Abilene, chairman, Harold B. Parish of Tull, vice chairman.

SENATE COMMITTEES — Less dramatic, but fully as important to legislative processes, were Lt. Gov. Ben Ramsey's selection of Senate committees.

Top posts are concentrated among veteran Senators, experienced in government, and in accord with conservative philosophy predominant in the Upper House. Heaviest responsibility will be in the hands of Sen. Dorsey Hardeman of San Angelo, State Affairs chairman, and Sen. William S. Fly of Victoria, Finance chairman.

Other committee leaders include

State Affairs, Jop Fuller of Port Arthur, vice chairman; Finance, Preston Smith of Lubbock, vice chairman; Agriculture and Livestock, George Moffett of Chillicothe, chairman, Culp Krueger of El Campo, vice chairman; Labor and Management Relations, George Parkhouse of Dallas, chairman, Krueger, vice chairman.

Also Oil and Gas, Frank Owen III of El Paso, chairman, Moffett, vice chairman; Insurance, Floyd Bradshaw of Weatherford, chairman, Owen, vice chairman; Transportation, Abraham Katzen Jr. of Laredo, chairman, William T. Moore of Bryan, vice chairman; Constitutional Amendments, Bill Wood of Tyler, chairman, Jimmy Phillips of Angleton, vice chairman.

GAS "EXPLOSION" DUE — Battle lines are being drawn swiftly and heavy artillery rolled up for the fight over Gov. Price Daniel's tax program, particularly the gas severance tax.

Industry spokesmen criticize the governor's program as "short-sighted" and deplore the increasing of taxes on sources already being taxed. Gas men promised to fight the severance tax, if passed, all the way to the U. S. Supreme Court.

But Governor Daniel declared he'd gotten many more bouquets than brick bats for his plan. Only opposition, he said, was from those who want to tax "everything from shirts and shoes to bassinets and baby buggies."

Rep. George T. Hinson of Mineola, who introduced the gas bill in the House, said it would bring in \$1.06 from out of state for every \$1 paid by Texas.

HANDS OFF — Governors of 28 other states have joined him, says Governor Daniel, in a fight against President Eisenhower's proposed 1 1/2 cent raise of the federal gasoline tax.

This tax field should be left to the states, the governor believes. Texas Highway Commission, he pointed out, is asking for a one cent raise in the state gasoline tax to help pay mounting road building bills.

Under the present federal aid formula, Daniel estimated that with a 1 1/2-cent federal tax increase, Texans would pay \$137,000,000 more in gasoline taxes than would be returned to the state for highway building.

CRIST FOR THE SESSION — Most of the bills which will be stirring up the air in the next few weeks already are in the mills. Among them are these measures which would:

PROVIDE FOR PARTY REGISTRATION by voters at the time they pay their poll taxes, by Rep. Jamie Clements of Crockett. Only persons registered as party members would be allowed to participate in primaries and conventions.

RAISE TEACHER PAY by approximately \$800 a year, and lengthen school year to 190 days, by Rep. L. DeWitt Hale of Corpus Christi. This follows recommendation of Hale-Aikin school study committee, of which Hale was vice chairman.

INCREASE LIQUOR TAXES from \$1.40 to \$2.50 a gallon, by Rep. Pete LaValle of Texas City. This was one of Governor Daniel's recommendations to bring in an estimated \$18,000,000.

TAX CORPORATION INCOME on a graduated scale, by Rep. Dean Johnston of Houston to raise an estimated \$20,000,000 annually.

INCREASE TRUCK WEIGHT limit from 52,420 to 72,000 pounds, by Rep. R. L. Strickland of San Antonio. Same bill was defeated after stiff fight last session.

REQUIRE OPEN MEETINGS by all governmental agencies, except where they are now required by law to be confidential, by Rep. Truett Latimer of Abilene.

CHANGE PRIMARY ELECTION dates from July and August to the first and fourth Tuesdays in May, by Rep. Marshall O. Bell of San Antonio.

GIVE ALL CITIES of more than 10,000 full authority to regulate wages and hours of firemen and policemen, by Rep. Ben D. Sudderth of Brown-

WOOD. This is a matter of sharp controversy. A counter-measure introduced by Rep. Bob Johnson of Dallas, would reduce hours and increase pay for firemen and policemen.

PROVIDE A NEW UNIVERSITY of Texas medical branch. Rival bills are being pushed — one by the Austin delegation directing that the school be built in Austin, and another by the San Antonians, specifying their home city.

PROHIBIT LABOR UNIONS from using regular dues and assessments for political purposes, by Sen. George Parkhouse of Dallas. Unions would be required to file an annual audited financial statement with the Secretary of State.

LOAN STATE FUNDS to communities to help establish local homes for old people, a constitutional amendment proposed by Rep. Murray Watson of Mart.

EDITORIAL VIEWS AND COMMENT

Wrangle Over Taxes. Governor Daniel's proposal to tax natural gas as a means of raising needed revenue is going to get strong backing from many influential sources. At the same time it is going to start a fight that is likely to consume many days of the legislator's time. Strongly claimed by one responsible source is that the tax is "fair and equitable" because it does not place an undue burden on Texans. It is termed a "severance beneficiary tax." Presumably it will give the people of Texas an additional resource now being shipped out of the state. While nobody is expected to take pride in the fact that a new tax is being proposed, it does remain true that natural gas is being taxed from two to nine times as much in such states as Illinois, New York, Michigan, probably Ohio and Indiana as well, where it is consumed, than in Texas where it is produced. At this time more than 53 per cent of the gas produced in Texas is being shipped out of the state.

Answering the argument that there is going to be a law suit over the tax, if levied, the governor says flatly that somebody is going to pay the tax if the legislature passes the bill as it is designed. Senator Parkhouse, highly influential in the senate, says he is not in favor of a bill so controversial that it invites a law suit. He says he is in favor of a general sales tax. His idea is to find out whether people want to pay for all the things they are demanding of the state.

On the other hand the proponents of the natural gas tax, as well as other sundry taxes, including an increase in the corporation tax, say that a general sales tax is inevitably followed by an income tax. It has happened this way in 25 or 30 states which have adopted the general sales tax. As soon as the sales tax is adopted a clamor arises for the wealthy to pay more because they are able to do so. Thus to avoid a fight in the legislature the people would have two distasteful taxes levied on them.

What the governor and his backers want to do is get some more tax money at the source which the state has been tapping for a good many years. Many of the taxpayers who have been goats of this free and easy style of raising more money for more things are getting set to stage a scrap. They are ready to announce support for a general sales tax — and let everybody have a share in paying. Quite a bit of support for this idea prevails in communities where there is a high percentage of people who pay no taxes of any kind, while they ride the free school system and get the advantages which go with a highly civilized state. Between the two ideas there should be an interesting regular session as well as a high tension special session before the first half of the year is gone.

Of More Immediate interest to us as regards taxes, is the question of what the local city council will have done to keep more of the tax money at home for things so seriously needed here. It seems to be a pretty well established fact that every taxing body is going to levy "all the law will allow." Remarkable exceptions to this statement are the county, school and city taxes in particular in Floyd County. The city has been the most lax. Perhaps the council should be lax but we do not go with that view. There are too many local betterments that have suffered

for lack of money. The council has to cry poverty in too many instances, where the need is imperative. They cannot carry out such commonsense things as street marking, even.

What we'd like to see, and are most likely not to see, is a carefully studied revision of the city tax valuations, to bring them more up-to-date and more in line with 1959 needs. The reason we hardly expect a studied revision of the rolls is the lack of interest on the part of the council, and no more so the council than the citizenship. A few hundred dollars spent on a realistic tax roll would be one of the most helpful expenditures the city could make. To have some money to do things with and then do them are essential to a growing community, in the long run. Neither of these is possible under the present set of valuations.

Senator Yarborough touched a soft spot in our armor last week when he called attention to the inequities practiced in the home building program of the federal government. Floydada has lost many a fine young couple who could go to a large city and get a new home built for them, ready-made to move into, and at the same time get the self-same kind of a job opening as they had in Floydada. They could have what they wanted in the big city, though they'd rather stay here. The government has been helping make Floydada take a licking with Floydada's own tax money.

Frank X. Tolbert, the Dallas News feature writing man, continues to "make" Texas history. He pulled out the Floydada canard about the man named Floyd and the woman named Ada again last week. This time he makes out the woman named Ada as the wife of the man who dedicated the Floydada townside in 1890. The blabbermouths have it.

Mikoyan's American Visit. Perhaps it was that official United States wanted to see how a top Russian would tick while on American soil that brought the shocking appearance of the butcher of the Ukraine and Hungary for two weeks in our country. Certainly will be difficult to explain that one in the annals of American lore. The visitor got the red carpet treatment.

The public prints record this week that the Supreme Court Chief Justice got the public schools of Virginia integrated Monday. The Associated Press correspondent described the scene at Arlington as a well-guarded southern-style Alcatraz.

We Need Moisture. Most all of Texas, most certainly that part of it on the high plains, needs more moisture. All this weather and not enough water on the ground to sprout wheat in Floyd County. Somewhat worrisome but it is not discouragement to land hungry people. Abstracters and land dealers say a regular boom is on in the land business. Land at an all-time high is still the most popular investment for surplus money, moisture or no moisture.

A simple melody can put one to thinking. In these days of high-sounding scientific jargon one calls to mind the sentence "who wrote the song for the robin to sing?"

If you want life to be a bed of roses you have to put in a lot of spade work.

News of Harmony

(By Mrs. Mather Carr)
HARMONY, Feb. 2 — Mrs. Mather Carr visited with Mrs. Steve Trowbridge and baby daughter Monday. She is a very sweet and pretty little baby.

Mrs. Marvin Smith, Mrs. M. D. Ramsey and Mrs. Mather Carr attended the Women's Society of Christian Service, Sub-District meeting in Petersburg Tuesday. Mrs. Smith was on the program having the part in the children's division. This was a good meeting and it seemed that everyone enjoyed it.

There was a luncheon at the Colonial Room in Floydada Thursday given in honor of the winning group of the club in a contest that they were in some weeks ago. The club was divided and each group was to raise money for the club.

They had auction sales, rummage sales, cake bake sales and different ways of raising money. The chairmen were Mrs. Roy Hale and Mrs. Glenn Pool. It was Mrs. Hale's group that won. The losing group entertained us in the following manner. As each lady arrived a corsage was pinned on her, which was made from a white mum representing a face. The winning group's face was smiling and the losing group's was frowning. The plate favors for the winning group were sprays of pretty flowers. The losing group's a dead flower that had lost its petals, this was a very cute idea. Everyone enjoyed it and had lots of fun. All members were present with the exception of five. There were two guests also, Mrs. Allen Gross and Mrs. Ralph Johnston, who gave a book review. This was very good and everyone enjoyed it very much.

J. L. McKinney was a caller Saturday in the home of Mrs. and Mrs. Mather Carr. Mr. McKinney is a teacher in the Floydada High School. He had planned on going to Sunray, Tex., Saturday, where his home is, but on hearing of the condition of the weather up north decided not to go. Mr. and Mrs. Wesley Carr and Mr. and Mrs. Chloma Williams were visitors in the home of Mr. and Mrs. Everett Miller Saturday night. Horace visited in the Miller home Sunday night.

Mr. and Mrs. Chloma Williams, Sue and Leon Williams, were in Amarillo Sunday visiting with Mr. and Mrs. L. A. Williams. L. A. Williams is in Northwest Texas Hospital, suffering from phlebitis. He was improved but was having to stay in the hospital for a few days longer. We hope Mr. Williams is soon well and back home.

Rev. Read came down Sunday and preached at the chapel Sunday morning. The evening service was called off owing to the bad weather. Brother Read said it was much worse at Sterley than it was down here. The pavement was very slick for a about 4 miles south of Sterley and it was still misting and freezing up there. He and his wife went back home for dinner.

Mr. and Mrs. F. H. Bolen and

Mr. and Mrs. Hermon Patterson of Lubbock were visitors Sunday in the home of Mr. and Mrs. Glenn Pool. Mrs. Bolen is a sister of Mr. Pool and the Pattersons are cousins of Mr. Pool.

CHAT with PAT

Everyone was sure wishin' this Monday morning that school wouldn't open, but it did.
Don't forget the basketball game here tomorrow night against Spur. Various pictures were made Tuesday for the annual.
Pay your insurance, you kids.
Marisue Barleson and Sonja Guffee are going to run for annual editor.
Sue Ring is running for Whirl editor.
Freida Smith and Genatta Price lost more of their belongings than anyone else in FHS. Children, grow up!
Nedra Jarrett and Eddie Childs are going steady AGAIN! Forever, and forever, and forever (we hope!)
Hal-why don't you bring that cute cushion to school that you got at the Amarillo Fat Stock Show. See, it is a real great cushion that only cost 25 cents! What Hal didn't know was that the cushion cost 25 cents just to sit on-and you were supposed to return it! Oh, well-that's life!
"Down, down, down"-went Addie in the snow.
"N. B. C." is not the radio network. It is a freshman gal-think it over!
Linda sure does like Vaughn's '1957' Chevrolet! Can't blame her. Mr. Rainer and Jane are sick. They are both in the hospital at Luckney. Sure hope you both recover soon.
Yesterday, upon the stair,
I met a man who wasn't there,
He wasn't there again today -
Oh dear, I wish he'd stay away.
The phone lines between Mexico and Douglas are "red hot"!! Well, everyone is still laughing about "The Womanless Wedding". Jerry Crawford looked funny dressed up like a girl.
Carolyn Cates left her suspenders in typing room Monday. Band suspenders, that is.
Saturday night was a cold night, but not too cold for Elwyn. He was running around without a shirt on!
Some people will do anything for a dare. Johnny Fred ran around in the snow for 30 minutes. Sunday afternoon in the bathroom suit. Well, he did get one thing out of the deal -5 bucks.
Look what Sharon is wearing a round her neck. It's Bobby Seago's senior ring. A big bunch of congratulations to a swell couple.

Down Future Lane

By Grace Ann Potts
As our sightseeing tour begins, we board our new 1969 Ford Flying Saucer. First stop - New York City. There's Mae Bell Johnson and Shirley Gregory, professional models you know. And here is the great design, Helen Foster. Now let's go to Carnegie Hall. Why Larry Colp and Sharon Edmiston, famous pianist and composer.
Second stop - Cape Canaveral. Well, if it isn't Danny Shipley and Jerry Crawford! We came to congratulate you on getting Bill Gilliland and Richard Graves off to Mars. What's that you say? Oh, George Farris was the brain behind it. Get the full report of the trip from Addie Adkins.
Off we go for the third stop - Texas! Leora King and Mary Cogdell married farmers. Too bad, Arnie Powell and Bill Patterson are in the oil business, filling station attendants. Glea Adams and her party, Kay Robertson, Judy Jackson, Jane Tally, Sally Redd, Sandra Roe have gone on an expedition to civilize the moon. LaJuana Womack is now playing for the Flying Queens. Now a moment of relaxation. Let's listen to Louis Armstrong II - Bob Ed Dempsey!
Who are those couples sitting over there? Why it's Pat Arbel and Jerry Batteny and Fleeta Carthel and Wayne Adams. That's enough for Texas; let's go abroad. The USAF is flying us across. What do you know? Darlene Johnson and Sue Kendrick are our airline hostesses. What? Elwyn Pierce is our pilot? And the heavy-weight champion of the world is a board? Who? Johnny Fred Brown -who else?
Now we're flying across England. Yes, there's Scotland. Yards. You say Ray Walker, Kern Cooper, and Larry Orman work there? I just received word that a young foreign correspondent wants to interview us in Germany. Well, bless my soul, it's Marisue Barleson.
Now we're coming in on the home stretch. The President of the United States, Larry Irby the lady of the land, Pat Hickerson, and Secretary of State, Bobby Christian are here to greet us!

WeatherCutsCrowd For Dimes Program

Glen Amburn, chairman of the March of Dimes, said 18 persons attended the program held Saturday night featuring the well-known Chuck Wagon Gang.
Not as many people were in attendance as expected but Amburn said they were pleased that as many braved the wet and cold night.

For those who were unable to see and hear the performance of the great gospel singers, a second chance on April 24 will be given when another concert will be presented.

BIBLE BAPTIST CHURCH

LORD BLESSED DURING OUR REVIVAL
We heard some of the most inspiring and enlightening messages from God's Word, we have ever heard. Bro. Thomas brought a wonderful closing message Saturday night and left for Amarillo to start a Revival at the Fellowship Baptist Church Sunday morning.
We are planning to start a series of messages in this space next week on what the pastor and the Bible Baptist Church believe, backed by the authority of God's Word.
Many visitors each Sunday and during our revival have been very interested in joining the Fellowship of our Church, because they say they have never attended a Church where the Power of God is felt so strong as they felt in our services. Therefore, many have asked me just what we believed before they would join.
I want to commend them very much for this, because today most people do not care what a Church teaches and believes.
Many of the Churches are afraid to tell what they really believe because they cannot back their belief by the scriptures. But we of the Bible Baptist Church have nothing unscriptural to hide from anyone or God, so we are more than happy and proud to let you know, "What We Believe", starting next week.

TAX-MAN SEZ

During the past few days the sick
pay exclusion on line 6, on page 1,
of the Form 1040, has provided an
important tax benefit for many tax-
payers each year. There are specific
rules to be followed in claiming the
sick pay exclusion, but generally if
you work for wages, become ill for
a long period of time and your em-
ployer continued to pay you all or
part of your wages and salary, you
may be entitled to some benefit.

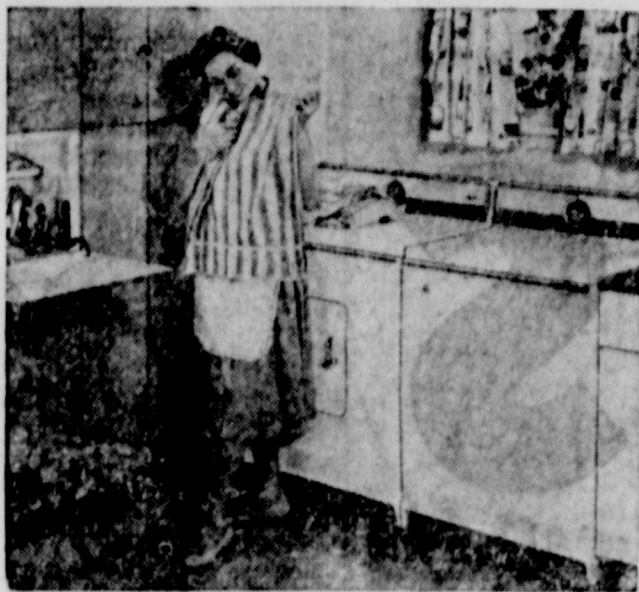

It is a good rule of thumb to read
the sick pay exclusion tax instruc-
tions carefully if you lost any time
off the job due to sickness or injury
during the year and received pay
for the lost time.

CARD OF THANKS

We would like to express our
thanks to one and all of our friends
through this means for every thought-
ful act and deed while Tom has
been confined to home and rest for
some four weeks or more under the
doctor's care. He is much better now.
Thanks again for the many flowers,
good food and expressions of kind-
ness and many visits.

Mr. and Mrs. Tom W. Deen

The Great Chicago Fire occurred
in 1871, leaving homeless all but
about 7,000 of a population of 77,000.

A LAUNDRY CORNER, step-saving and eco-
nomical, can be installed in the family room with-
out detracting one whit from its appearance. This
picture shows how with installation of washer,
dryer, storage cabinets and ironing space.

Plan Carefully For Practical Laundry Center

Planning a "home laundry cor-
ner" to concentrate all your activities
in one area can increase the effec-
tiveness of your modern automatic
washer and dryer.

Possible locations for a laundry
corner in modern or older home in-
clude the popular "family room,"
kitchen, utility room, sewing room,
basement recreation area, bathroom,
large closet or garage.

When choosing and planning such
a laundry corner, be certain to al-
low for other household duties that
can be teamed with washday tasks
for added time saving.

Near-bath and bedroom: Wash-
ing and drying of clothes can be
handled while beds are being strip-
ped and remade; clothes and linens
can be hung or stored as ready.

Kitchen: Checking supplies, cook-
ing, serving meals in the area select-
ed for inexpensive installation. Check
your gas and electric companies
for required utility extensions.

Garage or breezeway: A short
distance from the kitchen, this lo-
cation offers new convenience for
the crowded home.

Family room: This location offers
the housewife and opportunity to use
her washing and drying periods as a
relaxing time to catch up on read-
ing or sewing or keep an eye on
small children.

Make sure plumbing connections
are next to or below the area select-
ed for inexpensive installation. Check
your gas and electric companies
for required utility extensions.

The ideal "laundry corner" pro-
vides adequate space for the washer,
dryer and ironing board. Here, if
space necessary for equipment re-
quires at least five feet clear work-
ing area in front of the appliances.
It can also be used for sorting be-
fore washing and for the ironing to
follow.

Accommodate your packaged
laundry aids with a convenient shelf
or cabinet. An adjacent bank of cab-
inets for holding laundry items and
to serve as additional space is ideal
for homes with large families and
equally large linen storage
problems.

A metal lining in one cabinet with
pull-down door will serve to safely
store bottled laundry aids and your
iron during "cooling off" periods.
