Sheep and Goat Raisers to Meet in Sanderson
MEN FROM EVERY PART OF THE STATE WILL BE HERE FEB. 12

On Monday, February 12, the Executive Committee of the Sheep and Goat Raisers Association of Texas will meet in Sanderson. Sheep and goat raisers from all over the state will be here in attendance at the meeting, and it is anticipated that this will be one of the most interesting, instructive and result-getting meetings held by the Executive Committee in some time.
 Every ranchman in Terrell county should be in Sanderson on Monday, February 12, and attend this meeting. Not one should miss it. The business men of Sanderson should also attend the meeting to get better acquainted with the sheep and goat men of the state and to form a closer union with this great industry which means so much to our state, and business men.
 The citizens of Sanderson will try and make the visit of the Sheep and Goat Raisers Executive Committee to our town a pleasant one. Among the things that are being talked of for their entertainment are an automobile ride over Big Hill, and a dance.

Notice to Car Drivers
 To comply with the State Highway Law all cars must have two lights in front and tail light. Also all drivers of automobiles should observe the markers on the street corners and always drive on the right hand side of said markers. Also all drivers must slow down at all crossings. An observance of these Laws will avoid possible accidents.
 F. N. Harrell,
 Sheriff Terrell County.

WEDDING BELLS.
 On Thursday, January 25, 1923 at 8:30 p. m., Miss Jessie Green and Mr. Carl Cochran were united in marriage at the residence of Mr. and Mrs. Ray Caldwell, Judge G. J. Henshaw officiating. The bride is the lovely daughter of Mr. and Mrs. B. Green. She is well known in Sanderson, where her sunny disposition has won her a large circle of friends. The groom is the eldest son of Mr. and Mrs. W. A. Cochran, long residents here and popular Terrell county citizens. After his studies at the A. & M. College of Texas, Carl secured employment with the G. H. & S. A. Railway Company here and has held his job ever since. He is steady and industrious, is very popular with the younger set and has a large circle of friends among all classes.
 Mr. and Mrs. Carl Cochran are at home to their friends at the Cargile Apartments.
 The Sanderson Times joins a host of friends in extending congratulations and wishing the young couple a long and happy married life.

NOTICE.
 I wish to announce to the public that I have taken personal charge of the shoe shop formerly run by A. Bankhead, and will do all work myself. I am ready for business and can take care of all your shoe troubles. Bring or send me your work, I will appreciate it.
 W. L. Harper.

Sanderson Wins In Both Games
Our Boys Play Rings Around Fort Stockton Boys

Last Saturday, January 27, the high school basket ball team from Fort Stockton came over to play two games with the Sanderson high school team. The first game was called at 10:30 a. m. The boys from Fort Stockton put up a game fight and played good ball, but they were up against a team that out-classed them in every point of the game. Both the team work and individual playing of the Sanderson boys far exceeded that of Fort Stockton boys. It would be hard to say who starred for the home team because each boy on the team starred. The second game was called at 2:15 p. m. and was very hotly contested by the Fort Stockton boys who did not relish the idea of being defeated again. The line-up for the two teams was as follows:
 Sanderson: Madison Turner, right forward and captain; Minton White, left forward; Ervin Grigsby, left forward; McDuff Kessler, center; Hays Cavender, left guard; Fred Garrison, right guard.
 Fort Stockton: Kastner, right forward and captain; Minear, left forward; Hadden, center; McAfee, left guard; Lloyd, right guard; Johnson, guard. O. A. Zimmerman, coach.
 The first game resulted in a score of 15 to 6; and the second game was 19 to 16.

NOTICE
 I wish to announce that we are now ready to take care of cars to be stored. Prices are 25c a night for storage; \$5.00 a month for dead storage; \$8.00 a month for live storage which includes car washed twice a month and greased twice a month except motors. All cars called for and delivered in the city at any time free of charge. We are open late at night and on Sundays.
 Parker Auto Co.

WEDDING ANNIVERSARY
 I. H. Elder, Terrell County ranchman and old time trail driver, residing in San Antonio, and Mrs. Elder were married a matter of 40 years ago, and just the other day they celebrated the occasion. They were married in Real River County and are Texas folks throughout. Their boys stay on the Terrell County domain while the old man lives in town so as to be close to the picture shows, pretty girls and things. But Mrs. Elder is onto his tendencies and only lets him go up town once a week. — San Antonio Express.
 Mr. Elder's gettin' old but he sure is still lively.

LADIES ATTENTION
 About the first of next week, I will have on display at my residence a nice line of women's and childrens spring millinery, and it will be to your interest to call and inspect my line.
 Respectfully,
 Mrs. Stella Sherrod.

Sanderson Wins At Alpine
 Alpine, Texas, Feb. 2. 4:05 p. m. Sanderson Times, Sanderson, Texas.
 Won both games; Sanderson 27, Ft. Davis 12; second Sanderson 19, Ft. Stockton 8.
 Ervin Grigsby.

RATTLE OF THE RAIL.

Conductor C. Fowler was off several days this week, being relieved by extra conductor E. B. Litton.
 Brakeman W. Crittenden laid off several days this week on account of sickness.
 Fireman Reininger has been assigned to a freight run between Del Rio and Sanderson.
 J. L. Kunz is now braking on passenger between El Paso and Sanderson.
 Several cars of deports passed through Sanderson on No. 110 Monday morning.
 Engine 927 of the Houston division was up on this division a trip this week account of heavy traffic on No. 101 doubleheader.
 Fireman T. B. Moseley has been laying off and Fireman R. S. Clark has been filling his run on passenger on the Del Rio division.

ATTENTION
 We will assist you in the preparation of your income tax return without charge.
 Sanderson State Bank.
 Bank of Friendly Service.
 Rob Duncan was in town from the Prosser & Brown ranch for a few days this week shaking hands with his many friends and blessing to the roots of his hair whenever he is asked a certain question.

Great Air Squadron Joins the Atlantic Fleet

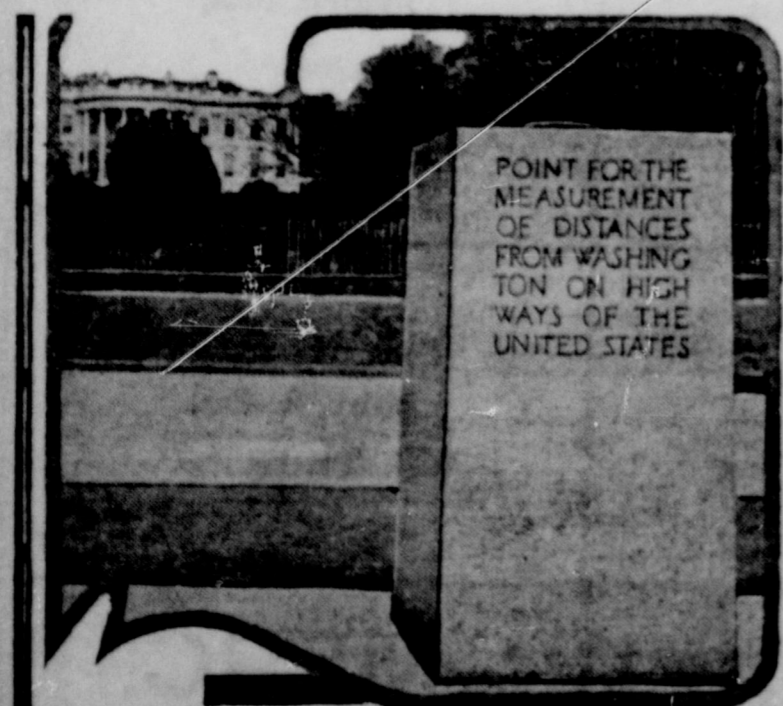

Thirty-six navy and scout planes, one of the greatest air squadrons to be gathered in peace times, started from their base at Newport News, Va., to join the Atlantic fleet on annual maneuvers in southern waters. Eighteen scout planes and eighteen of the newest type torpedo planes compose this squadron. One of the scout planes is here seen taking off for the trip, and at the right is Capt. W. P. Gerhardt, in command of the squadron.

Oregon City Has a Severe Flood

Photograph shows havoc wrought by the swollen waters of the Santain and Willamette rivers at Oregon City, Ore. Bridges are down and residents of the Willamette valley have lost many of their possessions. The high water mark flooded the lower streets and row boats were used.

New Zero Milestone for Highways

A new zero milestone, the point in Washington from which all highway distances are measured in the United States, has been set up in the ellipse only a few hundred feet south of the White House in Potomac park. The column is of white marble with a bronze compass dial.

TEXAS SENATE AND HOUSE PROCEEDINGS

Legislators Now Busy Dealing With Numerous Measures of Importance.

Friday's Senate Proceedings.
Austin, Tex.—The Whit anti-technicality court bill was passed finally by the senate Friday after a hard fight, the vote on final passage being 14 to 6, with three pairs.

Amendment offered by the author of the bill, making its meaning clearer as to what is meant by technical errors, was adopted by vote of 18 to 6 with one pair. The bill as originally written provides that "on the hearing of any appeal by the court of criminal appeals of this state, the court give judgment after an examination of the entire record before the court, without regard to technical errors, defects or exceptions which do not affect the substantial rights of the defendant."

The senate committee on education made a favorable report on Pope's house bill to invalidate the recent contracts made by the state textbook commission, and the bill will be printed and called up for consideration early next week.

This, the first of the two bills, provides that the books in use on Dec. 1 shall continue in use for the next three years at the current prices.

Senate bills introduced Friday:
By Stuart—Creating state board of waterworks examiners.
By McMillin and Darwin—Making for uniform regulations for incorporated mutual insurance companies.

By Bowers and Raugh—By request, relating to public warehouse business.
By Doyle—Increasing salaries of county officers in counties of 37,000 population or over or of \$40,000,000 taxable valuations, or over.

Friday's House Proceedings.
Austin, Tex.—The Texas Technological College bill was ordered engrossed in the house Friday by a vote of 100 to 29.

The bill passed to engrossment is a substitute for the bill to establish a "West Texas State College," and the bill to establish a "school of technology." Also, it is supposed to comply with the demand for a West Texas A. and M. College in the last state platform. Representative Chitwood, on behalf of the West Texas State College bill, announced that the Carpenter amendment, comprising the features of both bills, was acceptable to West Texas.

The bill provides for location of the institution north of the 27th parallel and west of the 43rd meridian. A locating committee is provided for, with provision that houses for location shall not be considered. Appropriation of \$150,000 for site is authorized and two annual appropriations of \$300,000 and \$250,000, respectively.

House bills introduced Friday: By Laird—Amended teachers' certificate provisions so that those who have taught fifteen years will receive a permanent certificate and those who have taught five years in the past ten may have additional time in which to secure certificates in place of ones that have lapsed.

By Baker—Authorizing removal of cattle from quarantine under instructions of county judges.

Thursday's Legislative Proceedings.
Austin, Tex.—Collapse of the movement to repeal the open port law, passage of Representative Laird's resolution calling for a joint house and senate committee investigation of the textbook commission's acts and two more messages, advising probe of the proposed expenditure of \$1,900,000 for new school books and the other offering a plan for better roads, kept the 28th legislature busy Thursday.

Governor Neff's message asking a probe of the text book contracts suggested that all acts of the commission during the last two years be gone into fully. He told of the various recommendations made by boards of higher educational institutions when members of the commission were appointed and said that he felt a general clearance of the circumstances would be advantageous to all concerned in the matter.

Failure of the repeal of the open port law came when the bill was taken up in the house on a minority committee report. The vote was 54 to 51 on a motion to table. Representative Rogers of Houston, attempted to defend the minority report just before the vote but was ruled out of order. Discussion was prevented through the failure of a motion to print the minority report in the journal. The motion was advanced by LaStourgeon and was tabled on motion of Smith of Travis county.

By a vote even larger than that by which it was engrossed, Wednesday the Pope bill retaining for three years textbooks in use prior to the recent contract awards, was finally passed by the house Thursday. The vote was 114 yeas to 14 noes.

Senate bills introduced Thursday: By Whit—To create the tenth supreme judicial district of Texas with court for that district located at Waco, composed of the following counties: McLennan, Coryell, Falls, Robertson, Bell, Hamilton, Milam, Lee, Limestone, Hill, Freestone, Navarro, Henderson, Krath, Eastland, Comanche, Bosque, Hood, Brazos, Burleson, Grimes and Leon.

By Stuart—Increasing the maximum allowance for traveling expenses of district judges from \$200 to \$500 annually.

Wednesday's Senate Proceedings.

Austin, Tex.—Bills passed finally by the senate Wednesday:
By Doyle—Creating 87th judicial district for Freestone and Limestone counties.

By Watts—Creating Boyce independent school district in Ellis County.

Lieutenant Governor Davidson today signed the bill by Bledsoe creating the ninety-second judicial district to be composed of the counties of Young, Archer and Clay, leaving Wichita County alone in the thirtieth judicial district.

Favorable senate committee reports Thursday were given the following bills:

By Cousins—Appropriating \$4,500,000 for public schools for scholastic year, beginning Sept. 1, 1922, and ending Aug. 31, 1923.

By Burkett—Creating Rochester independent school district.

By Woods and Dudley—With amendment, accepting for Texas provisions of the federal Sheppard-Towner act.

By Rice—Making appropriation for repairs to College of Industrial Arts administration and household arts building.

By Fairchild—To authorize formation and to regulate operation of corporations for purpose of accumulating and lending money.

Wednesday's House Proceedings.
Austin, Tex.—The house of representatives went on record Wednesday in opposition to the recent state textbook awards, passing to engrossment the Pope bill which provides that books in use under contracts in existence Dec. 1 last shall be used to the exclusion of all others for a period of three years. The disputed changes were made on Dec. 4 last.

Eighty-nine of the total house membership voted in favor of finally calling for the ban against new books for three years. Thirty of those present refused to make the action final by voting a suspension of the house rules to permit final passage without waiting a day.

The voicing of the house view was taken under the most stirring legislative session that has marked the thirty-eighth legislature.

Sixteen million dollars aid for Texas schools for the next two years is proposed in bills offered Thursday in the house by Representative Patman. One bill provides for an appropriation of \$5,000,000 for each of the two years to supplement the available school fund and another for an appropriation of \$3,000,000 for each of the two years for aid of rural schools and those in small towns. The latter bill limits the aid to schools with less than 500 scholars.

Representative Patman estimates that if the measures are passed they will provide for a state school apportionment of from \$18 to \$30 per pupil.

Tuesday's Senate Proceedings.
Austin, Tex.—State publication of textbooks for public schools was passed on favorably by the senate committee on constitutional amendments Tuesday. The proposal is in the form of a joint resolution by Senator Davis to submit the question of state publication to vote of the people.

Action on Senator Doyle's resolution providing for calling a constitutional convention this year was deferred in view of the attorney general's ruling that the legislature has no authority to call such a convention.

Committee meetings occupied the attention of the members of the upper house. The committee on criminal jurisprudence reported favorably Senator Thomas' measure providing for execution of persons convicted of crimes by electrocution instead of hanging.

Bills passed finally by the senate Tuesday include the following:
By Davis—Providing that cities of more than 1,000 population may exercise the right of eminent domain by condemnation proceedings to acquire property for waterworks system within or outside the city limits or in any county in the state.

Bill by Parr taking Hidalgo County out of the 79th Judicial District and creating the 93rd Judicial District, composed of Hidalgo County alone.

By Lewis—Validating title to Michael B. Menard one league survey of land in San Jacinto County.

By Bukett—Creating the Rankin Independent School District in Upton County.

Tuesday's House Proceedings.
Austin, Tex.—The house appropriations committee Tuesday killed the bill by Arnold to appropriate \$115,000 to pay the notes due on the Fort Bend Cotton Oil Mill at Richmond, which was bought by a former state prison commission, after which the legislature adopted the report of the legislative investigating committee which recommended that the notes be defaulted and not paid. This after the state had paid \$30,000 in cash. The committee declared in its report that the mill was not worth the contract price.

Monday's Senate Proceedings.
Austin, Tex.—The senate passed finally three measures. Senator Baugh's bill regulating the disposal of estates of minors and Senator Stewart's bill regulating for Tarrant County were O. K'd. The third was a local measure.

Senator Burnett introduced a resolution proposing a constitutional amendment providing for a graduated land tax and exempting homestead improvements valued at less than \$2500.

Luscious— Made With Raisins —and already baked for you

SAVE the trouble and the time of baking pies at home, yet give your men folks pies that are exactly to their taste.

Master bakers and neighborhood bake shops in your city are making luscious raisin pie fresh every day. Your grocer or these bake shops can supply them.

Taste them and you'll know why there's no longer need to bake at home.

Crust that's light and flaky—tender, thin-skinned, juicy fruit, the juice forming

a delicious sauce! There's nothing left to be desired in a pie.

Made with finest seeded Sun-Maid Raisins. 1560 calories of energizing nutrition per pound in practically predigested form. Rich in food-iron, also—good food for the blood.

Make cakes, puddings and other good foods with them.

You may be offered other brands that you know less well than Sun-Maid, but the kind you want is the kind you know is good. Insist, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

Mail coupon now for free book of tested Sun-Maid recipes.

A SICK, CROSS CHILD NEEDS "CALIFORNIA FIG SYRUP"

MOTHER! Move Child's Bowels with this Harmless Laxative—Children Love Its Taste

If your child is constipated, full of cold, has colic, or if the stomach is sour, breath bad, tongue coated, a teaspoonful of "California Fig Syrup" will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works the constipation, sour bile and waste right out and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today may save a sick child tomorrow. It never cramps or overacts. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mothers, you must use "California" or you may get an imitation syrup.

GALE RUSHES ROJAS, THE BANDIT

Wheeling, Gale rushed at Rojas. It was his old line-breaking plunge. Neither Rojas nor his men had time to move. The black-skinned bandit's face turned a dirty white; his jaw dropped; he would have shrieked if Gale had not hit him. The blow swept him backward against his men. Then Gale's heavy body, swiftly following with the momentum of that rush, struck the little group of rebels. They went down with the table and chairs in a sliding crash.

Gale, carried by his plunge, went with them. Like a cat he landed on top. As he rose his powerful hands fastened on Rojas. He jerked the little bandit off the tangled pile of struggling, yelling men, and, swinging him with terrific force, let go his hold. Rojas slid along the floor, knocking over tables and chairs. Gale bounded back, dragged Rojas up, handling him as if he were a limp sack.

A shot rang out above the yells, Gale heard the jingle of breaking glass. The room darkened perceptibly. He flashed a glance backward. The two cowboys were between him and the crowd of frantic rebels. With a cry Gale slung the bleeding Rojas from him. The bandit struck a table, toppled over it, fell, and lay prone.

Another figure closed in on Gale. This one was dark, swift. A blade glinted—described a circle aloft. Simultaneously with a close, red slash the knife wavered; the man wielding it stumbled backward. The din became a roar. Gale heard shots that sounded like dull spats in the distance. The big lamp behind the bar seemingly split, then sputtered and went out, leaving the room in darkness.

That's how Dick Gale, American, rushes Rojas, the Mexican bandit, in "No Man's Land," just over the border. He is doing it to give Lieut. George Thorne, American cavalryman, a chance to get his Spanish sweetheart, Mercedes Castaneda, out of the bandit's clutches. It's a pretty tale, this romance of George and Mercedes. And still more romantic is the love story of Dick and Nell Burton. For Dick, to save Mercedes for Thorne, casts his lot with the two American cowboys who shot out the lights and goes into a new world of adventure in which he finds hardship, romance, desperate endeavor, fighting, love and gold.

PROLOGUE

A face haunted Cameron—a woman's face. It was there in the white heart of the dying campfire; it hung in the shadows that hovered over the flickering light; it drifted in the darkness beyond.

This hour, when the day had closed and the lonely desert night set in with its dead silence, was one in which Cameron's mind was thronged with memories of a time long past—of a home back in Peoria, or a woman he had wronged and lost, and loved too late. He was a prospector for gold, a hunter of solitude, a lover of the dread, rock-ribbed infinitude, because he wanted to be alone to remember.

Then a sharp clink of metal on stone and soft pads of hoofs in sand prompted Cameron to reach for his gun, and to move out of the light of the waning campfire.

Figures darker than the gloom approached and took shape, and in the light turned out to be those of a white man and a heavily packed burro.

"Hello there," the man called, as he came to a halt and gazed about him. "I saw your fire. May I make camp here?"

Cameron came forth out of the shadow and greeted his visitor, whom he took for a prospector like himself. Cameron resented the breaking of his lonely campfire vigil, but he respected the law of the desert.

The stranger thanked him, and then slipped the pack from his burro. Then he rolled out his pack and began preparations for a meal. The campfire burst into a bright blaze, and by its light Cameron saw a man whose gray hair somehow did not seem to make him old, and whose stooped shoulders did not detract from an impression of rugged strength.

Another of those strange desert prospectors in whom there was some relentless driving power besides the lust for gold! Cameron felt that between this man and himself there was a subtle affinity, vague and undefined, perhaps born of the divination that here was a desert wanderer like himself, perhaps born of a deeper, an un-intelligible relation having its roots back in the past. A long-forgotten sensation stirred in Cameron's breast, one so long forgotten that he could not recognize it. But it was akin to pain.

When he awakened he found, to his surprise, that his companion had departed. A trail in the sand led off to the north. There was no water in that direction. Cameron shrugged his shoulders; it was not his affair; he had his own problems. And straightway he forgot his strange visitor.

Cameron began his day, grateful for the solitude that was now unbroken, for the canon-furrowed, cactus-spined scene that now showed no sign of life. While it was yet light, and he was digging in a moist white-bordered wash for water, he was brought sharply up by hearing the crack of hard hoofs on stone. There down the canon came a man on a burro. Cameron recognized them.

ing. "Our trails crossed again—that's good."

"Hello," replied Cameron slowly. "Any mineral sign today?"

"No."

They made camp together, ate their frugal meal, smoked a pipe, and rolled in their blankets without exchanging many words. In the morning the same reticence, the same aloofness characterized the manner of both. But Cameron's companion, when he had packed his burro and was ready to start, faced about and said: "We might stay together, if it's all right with you."

"I never take a partner," replied Cameron.

"You're alone; I'm alone," said the other mildly. "It's a big place. If we find gold there'll be enough for two."

"I don't go down into the desert for gold alone," rejoined Cameron.

His companion's deep-set, luminous eyes emitted a singular flash. It moved Cameron to say that in the years of his wandering he had met no man who could endure equally with him the blasting heat, the blinding

ing. "Our trails crossed again—that's good."

"Hello, friend," called the man, halting. "Our Trails Crossed Again—That's Good."

Just storms, the wilderness of sand and rock and lava and cactus, the terrible silence and desolation of the desert. "I may strike through the Sonora desert. I may head for Pinalcote or north for the Colorado basin. You are an old man."

"I don't know the country, but to me one place is the same as another," replied his companion. Then with gentle slaps he drove his burro in behind Cameron. "Yes, I'm old. I'm lonely, too. It's come to me just lately. But, friend, I can still travel, and for a few days my company won't hurt you."

"Have it your way," said Cameron. They began a slow march down into the desert. At sunset they camped under the lee of a low mesa. Cam-

eron was glad his comrade had the Indian habit of silence. Another day's travel found the prospectors deep in the wilderness. Then there came a breaking of reserve, noticeable in the elder man, almost imperceptibly gradual in Cameron. And so, as Cameron began to respond to the influence of a desert less lonely than habitual, he began to take keener note of his comrade, and found him different from any other he had ever encountered in the wilderness. This man never grumbled at the heat, the glare, the driving sand, the sour water, the scant fare. He was tireless, patient, brooding.

Cameron's awakened interest brought home to him the realization that for years he had shunned companionship. In those years only three men had wandered into the desert with him, and these had left their bones to bleach in the shifting sands. Cameron had not cared to know their secrets. But the more he studied this latest comrade the more he began to suspect that he might have missed something in the others. In his own driving passion to take his secret into the limitless solitude of silence and desolation, where he could be alone with it, he had forgotten that life dealt shocks to other men. Somehow this silent comrade reminded him.

One afternoon late, after they had tolled up a white, winding wash of sand and gravel, they came upon a dry waterhole. Cameron dug deep into the sand, but without avail. He was turning to retrace weary steps back to the last water when his comrade asked him to wait. Cameron watched him search in his pack and bring forth what appeared to be a small, forked branch of a peach tree. He grasped the prongs of the fork and held them before him with the end standing straight out, and then he began to walk along the stream bed. Cameron, at first amused, then amazed, then pitying, and at last curious, kept pace with the prospector. He saw a strong tension of his comrade's wrists, as if he was holding hard against a considerable force. The end of the peach branch began to quiver and turn, and at length pointed to the ground.

"Big here," said the prospector.

"What?" ejaculated Cameron. Had the man lost his mind?

Then Cameron stood by while his comrade dug in the sand. Three feet dug—four—five, and the sand grew dark, then moist. At six feet water began to seep through.

"Get the little basket in my pack," he said.

Cameron complied, and saw his comrade drop the basket into the deep hole, where it kept the sides from caving in and allowed the water to seep through. While Cameron watched, the basket filled. Of all the strange incidents of his desert career this was the strangest. Curiously he picked up the peach branch and held it as he had seen it held. The thing, however, was dead in his hands.

"I see you haven't got it," remarked his comrade. "Few men have. Back in Illinois an old German used to do that to locate wells. He showed me I had the same power. I can't explain. The old German I spoke of made money traveling round with his peach fork."

"What a gift for a man in the desert!"

Cameron's comrade smiled—the second time in all those days.

They entered a region where mineral abounded, and their march became slower. Generally they took the course of a wash, one on each side, and let the burros travel leisurely along sipping at the bleached blades of scant grass, or at sage or cactus, while they searched in the canons and under the ledges for signs of gold.

Each succeeding day and night Cameron felt himself more and more drawn to this strange man. He found that after hours of burning toil he had insensibly grown nearer to his comrade. He reflected that after a few weeks in the desert he had always become a different man. In civilization, in the rough mining camps, he had been a prey to unrest and gloom. But once down on the great billowing sweep of this lonely world, he could look into his unquiet soul without bitterness. So now he did not marvel at a slow stir stealing warmer along his veins, and at the premonition that perhaps he and this man, alone on the desert, driven there by life's mysterious and remorseless motive, were to see each other through God's eyes.

One night they were encamped at the head of a canon. The day had been exceedingly hot, and long after sundown the radiations of heat from the rocks persisted. Cameron watched his comrade, and yielded to interest he had not heretofore voiced.

"Pardner, what drives you into the desert? Do you come to forget?"

"Yes."

"Ah!" softly exclaimed Cameron. Always he seemed to have known that. He said no more, but grew acutely conscious of the pang in his own breast, of the fire in his heart, of the strife and torment of his passion-driven soul. He had come into the desert to remember a woman. She appeared to him then as she had

looked when first she entered his life—a golden-haired girl, blue-eyed, white-skinned, red-lipped, tall and slender and beautiful. He had never forgotten, and an old, sickening remorse knocked at his heart. He rose and climbed out of the canon and to the top of the mesa, where he paced to and fro and looked down into the weird and mystic shadows, like the darkness of his passion, and farther on down the moon track and the glittering stretches that vanished in the cold blue horizon. In that endless, silent hall of desert there was a spirit; and Cameron felt hovering near him what he imagined to be phantoms of peace.

He returned to camp and sought his comrade.

"I reckon we're two of a kind," he said. "It was a woman who drove me into the desert. But I come to remember. The desert's the only place I can do that."

"Was she your wife?" asked the elder man.

"No."

A long silence ensued. The campfire wore down to a ruddy ashen heap.

"I had a daughter," said Cameron's comrade. "She lost her mother at birth. And I—I didn't know how to bring up a girl. She was pretty and gay. It was the—the old story."

His words were peculiarly significant to Cameron. They distressed him. He had been wrapped up in his remorse. If ever in the past he had thought of anyone connected with the girl he had wronged, he had long forgotten. But the consequences of such wrong were far-reaching. They struck at the roots of a home.

"Well, tell me more," asked Cameron earnestly.

"It was the old, old story. My girl was pretty and free. The young bucks ran after her. I guess she did not run away from them. And I was away a good deal—working in another town. She was in love with a wild fellow. I knew nothing of it till too late. He was engaged to marry her. But he didn't come back. And when the disgrace became plain to all, my girl left home. She went west. After a while I heard from her. She was well—working—living for her baby. A long time passed. I had no ties. I drifted west. Her lover had also gone west. In those days everybody went west. I trailed him, intending to kill him. But I lost his trail. Neither could I find any trace of her. She moved on, driven, no doubt, by the hound of her past. Since that I have taken to the wild, hunting gold on the desert."

"Yes, it's the old, old story, only sadder, I think," said Cameron; and his voice was strained and unnatural.

"Pardner, what Illinois town was it you hailed from?"

"Peoria."

"And your—your name?" went on Cameron, huskily.

"Warren—John Warren."

That name might as well have been a bullet. Cameron stood erect, motionless, as men sometimes stand momentarily when shot straight through the heart. In an instant, when thoughts resurged like blinding flashes of lightning through his mind, he was a swaying, quivering, terror-stricken man. He mumbled something hoarse and backed into the shadow. But he need not have feared discovery, however surely his agitation might have betrayed him. Warren sat brooding over the campfire, oblivious of his comrade, absorbed in the past.

Cameron swiftly walked away in the gloom, with the blood thrumming thick in his ears, whispering over and over:

"Merciful God! Nell was his daughter!"

As thought and feeling multiplied, Cameron was overwhelmed. Beyond belief, indeed, was it that out of the millions of men in the world two who had never seen each other could have been driven into the desert by memory of the same woman. It brought the past so close. It showed Cameron how inevitably all his spiritual life was governed by what had happened long ago. That which made life significant to him was a wandering in silent places where no eye could see him with his secret. Some fateful chance had thrown him with the father of the girl he had wrecked. It was incomprehensible; it was terrible. It was the one thing of all possible happenings in the world of chance that both father and lover would have found unendurable.

Something within him cried out to him to reveal his identity. Warren would kill him; but it was not fear of death that put Cameron on the rack. He had faced death too often to be afraid. It was the thought of adding torture to this long-suffering man. All at once Cameron swore that he would not augment Warren's trouble, or let him stain his hands with blood. He would tell the truth of Nell's sad story and his own, and make what amends he could.

Then Cameron's thought shifted from father to daughter. She was somewhere beyond the dim horizon line. In those past lonely hours by the campfire his fancy had tortured him with pictures of Nell. But his remorseful and cruel fancy had led

to him. Nell had struggled upward out of menacing depths. She had reconstructed a broken life. And now she was fighting for the name and happiness of her child. Little Nell! Cameron experienced a shuddering ripple in all his being—the physical rack of an emotion born of a new and strange consciousness. He felt that it had been given him to help Warren with his burden.

He returned to camp trying to evolve a plan. All night he lay awake thinking.

In the morning, when Warren brought the burros to camp and began preparations for the usual packing, Cameron broke silence.

"Pardner, your story last night made me think. I want to tell you something about myself. In my younger days—it seems long now, yet it's not so many years—I was wild. I wronged the sweetest and loveliest girl I ever knew. I went away not dreaming that any disgrace might come to her. Along about that time I fell into terrible moods—I changed—I learned I really loved her. Then came a letter I should have gotten months before. It told of her trouble—implored me to hurry to save her. Half frantic with shame and fear, I got a marriage certificate and rushed back to her town.

"I heard from her. She was well—working—living for her baby. A long time passed. I had no ties. I drifted west. Her lover had also gone west. In those days everybody went west. I trailed him, intending to kill him. But I lost his trail. Neither could I find any trace of her. She moved on, driven, no doubt, by the hound of her past. Since that I have taken to the wild, hunting gold on the desert."

"Yes, it's the old, old story, only sadder, I think," said Cameron; and his voice was strained and unnatural.

SCHOOL AND STATE INCOME ESTIMATED

For Next Two Fiscal Years General Revenue Put at \$27,550,000.

Austin, Tex.—A financial statement of the estimated income to the state and to the school fund should pending measures be adopted was sent to the house Thursday as a communication to be printed in the journal, by Representative Smith of Travis County.

This statement takes up the deficiency in the school fund, the general revenue and the penitentiaries and totals the deficiencies at \$8,117,900. It estimates the annual income established sources and proposed bills at \$27,550,000 general revenue and \$20,625,000 for school funds or \$15.50 for each child in the scholastic age.

Amounts estimated from pending bills and existing sources are given as follows:

Revenue	School
one year	one year
Ad valorem tax 35c	\$8,000,000
Delinquent tax bill	2,100,000
Intangible bill	4,500,000
Income on gasoline	1,250,000
Inheritance tax	2,500,000
Oil production, 2 1/2% per cent	2,600,000
Other gross receipts	1,900,000
Franchise tax	1,250,000
Insurance dep.	1,200,000
Interest, bond	1,050,000
Interest, land notes	1,150,000
State board equal	2,500,000
Occupation, tax on tobacco, etc.	400,000
Miscellaneous	500,000
Totals	\$27,550,000
	\$20,625,000

Farmer Awakened to Proper Care of Land

Lufkin, Tex.—The soil improvement campaign, which has just closed in East and Central Texas, has awakened farmers to the importance of taking care of their soils as never before if they do not want to see their cotton and corn yields decline to the point where making a living will be practically impossible. The fundamentals, as set forth by the experts in charge of the two groups which visited 18 counties under direction of District Agent A. W. Buchanan of the extension service of Texas A. and M. College, are:

1. Terracing of rolling lands to safeguard them against being washed away by rain.

2. Supplying the land with humus or vegetable matter by plowing under leguminous crops, such as cow peas, velvet beans or adapted clovers. Of course, any crops plowed under, even grass or weeds, will add some humus and be of value in making the land with humus or vegetable matter by plowing under leguminous crops, such as cow peas. Of course, any crops plowed under, even grass or weeds, will add some humus and be of value in making the land more fit for farming.

3. Use of commercial fertilizers in the right proportions and in proper quantities, especially and in proper acre yields of the important cash crop, cotton.

4. Thinning spacing of cotton; two to four stalks to a hill and hills six inches apart.

That, in brief, is the gospel of soil improvement, and better farming which East Texas farmers are subscribing to under lead of their county agents, who have taken a very active part in the soil improvement campaign.

Dipping to Continue.

Lockhart, Tex.—Dipping of cattle infected with fever ticks will be continued by the county commissioners of Caldwell County. Only herds that have not been declared free will be dipped.

Aviator Makes Speed.

Mineola, N. Y.—Captain Harry C. Drayton of Mitchell field, flew from Pine Valley field, near Camden, N. J., 110 miles in 42 minutes.

Last Large Lot of Cotton Sold.

Temple, Tex.—The last large lot of cotton at Temple has been sold for a price said to have been 27 1/4c. There were 160 bales in the lot.

School Bonds Voted.

Memphis, Tex.—School bonds in the sum of \$110,000 were voted more than three to one at the election held at Memphis. The proceeds will be used for the erection of a new high school building and the completion of the court house under way.

Examinations of Texas Postoffices.

Washington.—Examinations will be held on Feb. 17 for selection of post masters at the following Texas post offices: Asherton, Center Point, Edinburg, Peacock and Silsbee.

Strawberries in Bloom.

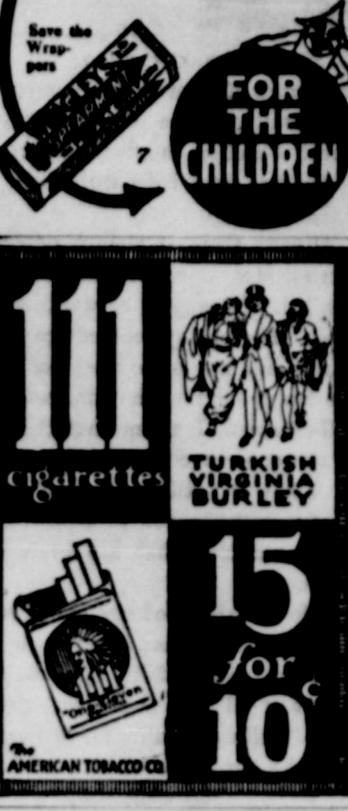

Lockhart, Tex.—Strawberries are in full bloom and buds will be on the vine at an early date, owing to the mild winter. Many fields of dewberries have been set out here this year.

Woman Postmaster Named.

Washington.—Nominations for post masters sent to the senate Wednesday by President Harding included Notie M. Cox at Wellington, Kans.

After Every Meal WRIGLEY'S

Top off each meal with a bit of sweet in the form of WRIGLEY'S. It satisfies the sweet tooth and aids digestion. Pleasure and benefit combined.

NO DYE To restore gray or faded hair to original color, don't use a dye. Use Cascarets. It's a water-soluble hair color restorer. At all good drug stores, 5c, or direct from 12334-12335, Chicago, Illinois, U.S.A.

"Cascarets" 10c For Sluggish Liver or Constipated Bowels

Clean your bowels! Feel fine! When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two Cascarets to relieve constipation. No griping—no laxative cathartic on earth for grown-ups and children. 10c a box. Taste like candy.—Advertisement.

Mrs. Gertrude Sell

AFTER THE FLU

If the Flu Left You Weak, or You're in Need of a Tonic to Build You Up, Take This Advice
Houston, Texas.—"I was in a terribly run-down condition of health after a siege of ptomaine poisoning, and then the influenza. I could not seem to regain my strength and was really not able to do my household work. I knew I needed a good tonic and builder and remembered how my folks used to regard Dr. Pierce's medicine in my girlhood days, and then I decided to take Dr. Pierce's Golden Medical Discovery. After taking the second bottle I found it was doing me a world of good, strength returned rapidly and I felt better in every way. I am glad indeed to recommend the medicine that did me so much good and do not hesitate to give this statement."—Mrs. Gertrude Sell, 1236 Rutland St.
Send 10 cents to Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for trial size.

International Relations Precedent to Widening of Agricultural Markets

By BERNARD BARUCH, Address to A. F. B. F. Convention.

Our thoughts must turn toward considering what, if anything, we can do to widen our foreign market, on which we are dependent for the sale of our surplus products.

It is true that last year large quantities of our products were exported—but how were they paid for?

In the first place, by the sale in this country during the first six months of the current year of some \$600,000,000 worth of bonds issued by foreign countries at the highest rates of interest ever known in the history of international finance.

Secondly, by the sale of family heirlooms, called by my old friends in South Carolina the "wedding rings." Families have sold their famous pictures that have been with them for centuries, in order to be clothed and fed.

Already there is almost an end of the sale of bonds of European countries, because nations cannot pay the rates of interest that are being demanded. The supply of works of art and treasures must soon come to an end. The money secured from the sale of the bonds and the family treasures has not been used for productive purposes, but to feed and clothe the population that has been paralyzed by corroding fear.

Gentlemen, I affirm that there is nothing in the world that affects your credit so much as the shrinking of foreign markets for your products. There is nothing to which you can give your attention that is of greater moment to you in a practical way than the creation of the international relations that are precedent to the re-establishment of those markets.

I do not speak of our moral responsibility in the matter, nor of the great opportunity that America has to lead a stricken world into a finer and better order of things—an opportunity toward which the noble thoughts of all men urge them, though I do think this consideration the most compelling of all. These thoughts are fundamental to all religions and to the hope of a better world for men and their children.

Experiments in Taking and Classifying Nose-Prints of Cattle

By CHARLES F. COLLISON, in Scientific American Magazine.

Experiments in taking and classifying nose-prints of cattle were begun in October, 1921. As with finger-prints, two important points must be considered. Is the cow's nose-print different from that of every other cow? And does the pattern remain the same at all ages? As with the human finger, both these questions must be answered in the affirmative before the nose-print will be of value in identification.

The prints of more than 350 animals have been taken and carefully scrutinized. So far no two have been found even sufficiently alike to cause any uncertainty as to their being from different animals. And both growing calves and older animals have been nose-printed for five consecutive months without indicating any change of design.

The system is being given a practical test in connection with various official tests in Minnesota. Already its value has been manifest, and it has straightened out several cases of disputed or mistaken identity. Perhaps its greatest value will be to the live stock insurance companies. All these concerns claim that they have paid many claims where they suspected but could not prove that the policy covered some other animal than the dead one. With a system of nose-print identification, such false claims could be detected and proved.

Whether the United States Senate Can or Can Not Do Business

By SENATOR F. B. WILLIS, of Ohio, Speech in Senate.

It is simply a cold proposition that is put up to the senate as to whether the senate of the United States can or cannot do business. Here is a majority on this side of the aisle, and they are told, and correctly told under the rules as they stand now, that a minority of 15 or 20 or 25 propose to say to the senate that no business can be transacted.

I want to state to the senate that the time is coming, and I think it is here now, when the senate will have to work out some method whereby it can transact business. If it does not reform its methods of procedure so that a majority in the senate can express its will, the people of the country will find out a way to reform the senate.

In other words, we are face to face with a condition that in my judgment demands such a readjustment and amendment of the rules of the senate as will permit the business of the people of the country to be transacted and not put it within the control of a small minority to say to the majority, "Not only shall you not pass this bill, but you shall not discuss it, you shall not consider it, you shall not take it up for examination."

"To H—I With Congress; Its Members Are Antiquated; Congress Is Out of Date"

By SENATOR N. B. DIAL, of South Carolina, Speech in Congress.

I do not know what there is in the atmosphere of Washington to produce that effect, but when legislators come here they seem to forget the trials and the hardships of life; we seem to think that money is just simply printed by the printing presses of the government, with nothing behind it, and that all senators and representatives have to do it to introduce a bill to appropriate money.

I intend to take a new start, and hereafter to oppose the creation of all unnecessary offices and all unnecessary taxation.

I do not want to warn my fellow senators; that is a matter for them; but I do say that the people back at home are more aroused than they have ever been about the extravagance of government. I am sorry to say that one can hardly get in a Pullman car or enter a hotel lobby without hearing the expression, "To h—I with congress; its members are antiquated; congress is out of date; it is not in harmony with the people."

NEW ROAD SYSTEM URGED BY GOVERNOR

Asks to Improve Highways and Not Lose Federal Support.

Austin, Tex.—Recommendation that the building of state highways should be centralized and standardized was made by Governor Neff in a message sent to the legislature Friday.

"If the building of good roads is necessary in the development of a country, then the construction of an adequate system of public highways in Texas is at the present time imperative," the governor declared.

The message stated that in many instances the counties of Texas have been fleeced of funds for road construction by incompetent or unscrupulous road contractors. "The construction of highways should be centralized and carried on under the supervision of those eminently qualified with both the training and wide experience to guarantee to the citizens of this state a dollar's worth of highways service for every dollar expended," the governor said.

Experience gained during the past year, the governor said, has brought the conclusion that the present system of highway building in Texas must be improved. County construction and maintenance of the state highway system must be supplemented by state supervision.

It was pointed out by the governor that if federal aid for highway construction in Texas is to be continued it is imperative that the state comply with the federal highway act.

"Under the requirements of the federal highway act of November, 1921, exclusive authority in the construction and maintenance of a state system of highways must be vested in the state if it is to continue to share in the apportionment of federal funds," said the governor. "Under our present plan this authority is vested in the various counties. We have until November, 1926, to comply with this particular provision of the federal act.

We do not have that length of time in which to comply with a second requirement of that act in regard to the maintenance of roads already constructed by federal aid and county funds under county supervision.

Under the present plan of federal aid will be withdrawn. Under our present plan of operation the state is not provided with funds that can be used for the upkeep of these state highways. Therefore the negligence and failure of one county to maintain its federal aid highways would penalize and unjustly punish other counties. This provision of the federal act demands immediate consideration. In order to retain federal aid for our highways it is necessary to amend our present laws. The centralization of authority in the state highway department for the construction, financing, operation and maintenance of our state designed highways is prerequisite to the continuance of federal financial assistance."

IMPROVEMENT SHOWN IN STATE BANK FINANCES

Austin, Tex.—A condensed statement of condition of state banks at close of business Dec. 29, 1922, issued Saturday by Commissioner of Insurance and Banking Chapman, shows a healthy condition, deposits having increased \$12,000,000 over the previous call of Sept. 15, 1922, and bills payable and redemptions reduced approximately \$11,000,000. An increase of \$2,500,000 in assets is reported and there was a decrease of nearly \$3,000,000 in loans. Resources showed a total increase of \$1,600,000.

Banks making reports numbered 970, a decrease of seven under the previous call.

As compared with the call of the year previous as of Dec. 31, 1921, at which time 1,094 banks were reported, the recent call shows a decrease in loans of \$20,000,000, an increase in cash and exchange of \$19,000,000, an increase in deposits of over \$25,000,000, a decrease in debts for borrowed money of \$18,000,000 and a total increase in resources of \$4,000,000.

Cuero, Tex.—A stock law election held in a subdivision of De Witt County on the Lavaca County line near Yoakum to prevent the running at large of domestic animals resulted in a victory for the stock law by a vote of 20 to 5.

New Cars Built. Railroads put into service during 1922 or ordered from manufacturers 145,533 new freight cars, the car service division of the American Railway Association reported today, as compared with 76,117 during 1921. They likewise added or arranged to add 2284 locomotives to the number already on hand, as compared with 1382 in 1921.

Cotton Ginnings Reported. Gonzales, Tex.—The report of cotton ginnings for this county for the season just ended up to Jan. 1 shows a total of 29,017 bales as compared with 13,181 bales for the previous year.

Farm Bureau Elects. Hempstead, Tex.—At the annual meeting of the Waller County Farm Bureau P. Armer Smith was elected president and Frank Warwarofsky secretary and treasurer.

NATIONAL CAPITAL AFFAIRS

Now a Wireless Communication Trust?

WASHINGTON.—Representations that wireless communication in this country and between the United States and a number of important nations is likely to become a monopoly dominated by the Radio Corporation of America were made to the house committee on merchant marine, when considering the Kellogg-White bill for radio regulation.

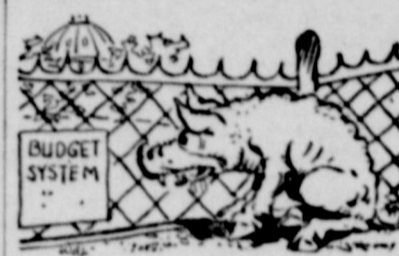

ing investigation by the federal trade commission, are alleged to be in the direction of establishing a wireless communication monopoly through control of patents, through exclusive traffic agreements, and through direct governmental grants and provisions conferring exclusive right to valuable bands of wave lengths.

The Radio corporation is reported to have closed a large number of exclusive contracts which will prevent any serious competition in domestic and foreign wireless communication. In the case of a country where radio is a government monopoly such an exclusive contract would give the Radio corporation a monopoly of wireless communication from that country to the United States.

The fundamental question before the committee is whether the right to transmit through space belongs to the public or whether the right can be acquired by private interests by a process analogous to squatting. If private Radio concerns acquire rights by prescription or by improvident government grant they will have gained rights of incalculable value, and which they can capitalize.

Has "Pork Barrel" Gone Out of Style?

HAS the legislative pork barrel been relegated to the museum of antiquities and "log rolling" ceased to be the favorite indoor sport of congress? Well, it surely does look like it. Since the budget system became firmly established in the last session of congress, the pork barrel has been almost entirely absent.

Log rolling has become so difficult as to be scarcely worth the effort.

In the palmy days of the pork barrel an appropriation bill was made up so as to allow every senator and congressman a public building, a river and harbor improvement, or other government perquisite.

Now he gets no pork, unless he gets it from the budget bureau, and up to date that has meant no pork at all.

Under the new budget system, the departments submit their estimates to the director of the budget, who scales them down. With the President approving the budget, as it is transmitted to congress, the department heads are obliged to be satisfied with the amounts recommended. They no longer appeal to the congressional committees for further increases.

Formerly the house usually increased the amount reported by the committee. Now such increases are extremely rare.

As a result of the establishment of the budget system and the elimination of pork-barrel practices and log-rolling, appropriation bills are passed with a dispatch that amazes the cynical old-timers.

The bills have gone through with such smoothness as to astonish the veterans who have become accustomed to such an amount of log rolling as to keep both houses busy to the exclusion of most other legislation from December until March in a short session and from December until July in other years.

Even the senate, which seldom hurries over anything, has shot the appropriation bill through in such a manner as to break all speed limits.

Child Labor Reform Has Many Friends

land and the exploitation of juvenile workers in the sugar beet fields of Michigan and Colorado are phases of child labor covered in two surveys made by the children's bureau, United States Department of Labor, to which considerable attention is now being directed.

In many lesser industries in New England conditions were found not unlike the ancient family sweat shops in the garment trade before it was highly industrialized.

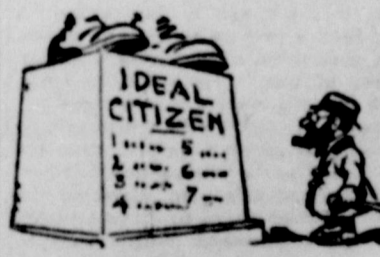

In Providence and Pawtucket the survey shows that 21 industries use home work as part of their system of production. Of these the jewelry industry was most prominent. The children, many of them five and nine years and upwards, worked at their homes in the kitchen, generally after school, at carding dress snaps, wiring beads, carding jewelry, and similar home occupations.

The study of the sugar-beet fields in Michigan and Colorado by the children's bureau included 2,600 children six to sixteen years of age, of whom three-fourths worked. More than one-half the juvenile workers included in the survey were between the ages of nine and twelve years, and the average age was eleven years.

The Seven Points in Good Citizenship

WHAT is the ideal citizen? The question was asked at the recent conference of eminent educators and welfare workers called in Washington by the secretary of war to consider the training of American youth for citizenship and the national defense. It was asked, and it was answered.

A committee of college professors, army officers, government experts, newspaper editors and directors of numerous welfare organizations, sixty persons in all, representing many shades of American thought and many diverse points of view, attempted to define ideal American citizenship. Or, if not to define it, at least to suggest a standard by which the quality of a man's citizenship may be measured.

EXPORTS OF MEATS SHOW FALLING OFF

For Most Classes of Live Animals Increase in Number Is Shown.

Washington.—Value of exports of meats from the United States in 1922 totaled \$134,919,343 as compared with \$150,878,234 in 1921. It was estimated this week by the commerce department Dairy products exported in 1922 were valued at \$24,965,495 compared with \$44,145,749 in 1921, while exports in 1922 of grains and grain products amounted to \$515,913,077 compared with \$758,397,620 in 1921.

Exports of animal oils and fats for 1922 were valued at \$118,432,375, compared with \$146,017,308 for 1921; canned vegetables \$4,368,487, compared with \$3,428,193 and canned fruits \$22,324,453, compared with \$14,381,421.

Total exports of meats for December, 1922, compared with December, 1921, were valued at \$13,245,736, against \$6,945,958; dairy products \$1,476,079, against \$2,831,213; grains and grain products \$31,771,547, against \$29,956,132; animal oils and fats \$11,436,085, against \$8,718,984; canned vegetables \$364,290, against \$369,385; canned fruits \$2,176,324, against \$1,289,411.

Horses numbered 18,553,000, a decrease of 203,000, and were valued at \$1,214,956,000, a decrease of \$29,180,000. Mules numbered 5,596,000, an increase of 39,000, and were valued at \$472,735,000, a decrease of \$8,843,000.

Milk cows numbered 24,429,000, an increase of \$13,970,000.

Other cattle numbered 41,923,000, an increase of 373,000, and were valued at \$1,076,254,000, an increase of \$87,494,000.

Sheep numbered 37,209,000, an increase of 882,000, and were valued at \$278,929,000, an increase of \$104,394,000.

Swine numbered 63,424,000, an increase of 5,590,000, and were valued at \$726,699,000, an increase of \$144,251,000.

The number of these animals not on farms, that is, in cities and villages, is not estimated, but their number in 1920 was reported by the census bureau as: horses, 1,705,611; mules 378,250; cattle, 2,111,527; sheep, 450,042; swine, 2,638,389.

The value per head on Jan. 1 this year and on that date in 1922 was: horses \$69.75 and \$79.54; mules \$85.86 and \$88.09; milk cows, \$50.83 and \$50.98; other cattle, \$25.67 and \$23.80; sheep, \$7.50 and \$4.80; swine, \$11.46 and \$10.07.

German Default Is Adjudged Absolute

Germany now is in absolute default on all her reparation obligations and will be afforded no assistance in the nature of a moratorium to gain her financial feet, according to a decision of the reparation commission. Also at the end of the present month the German government is to be called upon forthwith to pay the Allies the sum of a half billion gold marks on her delayed reparation account.

Inside the occupied area of Germany comparative tranquility prevailed so far as untoward demonstrations were concerned; but, nevertheless, the feeling of bitterness against the French was as apparent as on previous days. Numerous arrests of persons concerned in Thursday's disorders were made, and others are likely to follow because of the recalcitrancy of various German officials in carrying out orders given them by the occupation officials.

Duesseldorf bears somewhat of the aspect of a besieged city, with French troops patrolling the streets in place of the German police, who have left their posts. Cafes, hotels and places of amusement were closed Friday night by order of the French officials.

Throughout the entire Ruhr region the number of men on strike in the coal mines and other industries is slowly, but surely augmenting. The railroads are virtually idle, and traffic on the river has all but ceased, the only boats being manned by the French.

Large contingents of French troops are being brought into the Ruhr for the purpose of meeting any eventualities that may arise.

Widow Chosen to Fill Vacancy. San Francisco, Cal.—Mrs. Mac Nolan, widow of the late John I. Nolan representative in congress from the Fifth California District, was chosen in a special election Thursday to fill the vacancy created by his death, according to complete returns. Mrs. Nolan was elected to fill her late husband's unexpired term and also to the term which begins March 4.

License Fee on Insurance Agents. Austin, Tex.—The fee of \$50 which the Texas department of insurance and banking has been exacting for every insurance agent's license in Texas is not authorized by law, according to an opinion handed down by the supreme court Thursday in awarding a writ of mandamus to the Franklin Fire Insurance Company to compel the commissioner of insurance and banking to issue to that company a certificate of authority to do business in Texas without the payment of the fee.

Sure Relief FOR INDIGESTION

Large Families and Genus. Havelock Ellis, the English sociologist, took from dictionaries of biography 1,000 British genuses from the Fourth century to the present time, rejecting any about whose parentage nothing was known. He found the vast majority came from very large families, "much larger than the average family at the time they lived."

Says the Pessimist. "Married happiness is the period between buying the furniture and selling it."—From Snaps.

Being polite is a habit; not as easily acquired as the unpleasant ones.

50 GOOD CIGARETTES 10¢ GENUINE "BULL" DURHAM TOBACCO

Chronic Constipation Relieved Without the Use of Laxatives Nujol

SLOW DEATH Aches, pains, nervousness, difficulty in urinating, often mean serious disorders. The world's standard remedy for kidney, liver, bladder and uric acid troubles.

MRS. WINGLOU'S SYRUP Children grow healthy and free from colic, diarrhoea, indigestion, constipation and other troubles if given it at feeding time.

Grove's Tasteless Chill Tonic Stops Malaria, Restores Strength and Energy.

St. Joseph's LIVER REGULATOR Large Can 25

RECRUITS STAR IN OWN LEAGUE

High batting percentages were made in 1922 by three Pacific Coast Baseball league stars, William Kamm, Jimmy O'Connell and Sam Hale, who go to the majors next spring, at high sale prices. Kamm, San Francisco third baseman, led his club with an average of .342. He was seventh among the league hitters. Kamm was sold to the Chicago White Sox for \$100,000 cash and players worth \$20,000, the highest price ever paid for a minor leaguer. Hale, Portland third sacker, who goes to the Philadelphia Athletics for \$75,000 cash and players, was third among the league hitters with a percentage of .358. O'Connell, San Francisco outfielder, who was sold to the New York Giants for \$75,000, was tenth on the list with an average of .335. The photograph shows, left to right, Willie Kamm, Sammy Hale and Jimmy O'Connell.

French Boxer Coming.

Francois Deschamps has another prospective boxing champion in the person of Paul Fritsch, shown here. Fritsch has won the national French amateur championship, as well as the Olympic and Army championships, for his class. He has just turned professional, and will come to the United States under the guidance of Deschamps, manager of Carpenter.

CONTEMPLATES TRYING AGAIN

Charles Toth, Crack New England Swimmer, Plans Another Attempt to Cross Channel.

Charles Toth, one of the New England swimmers who failed to swim the English channel, contemplates trying again. Discussing conditions there Toth said: "The tide runs apparently east and west at Dover, but not until one swims out a mile and a half is the current felt. At five miles off the English shore the currents are very strong and the swimmer is carried many miles off his course, sometimes five to ten miles. This is so even in a calm sea, and in a rough, choppy sea characteristic of the channel, it makes the swimmer's task very discouraging, even in the first half. The cold is the hardest to endure."

BILLY LAVAL IS NOW SCOUT

Veteran Manager Signs With Atlanta Club With Southern Colleges to Pick From.

Billy Laval, veteran manager of major league teams in the South and of late years college football and baseball coach, has been engaged by the Atlanta club as a scout, with colleges of the South his special pickings. President Jack Corbett thinks that the major league clubs are smarting too many of the South's college diamond stars and that it is time clubs closer to them should grab some of them off.

Picking Football Stars.

Selecting the All-American teams may be largely a matter of guess and, except for those players who stand out prominently like Kaw of Cornell, Locke of Iowa and Muller of California, one man's guess is as good as another. The football season is so short and the games are so numerous that any one man can see but a small fraction of the contests. The best thing about Camp's selection is that it seems the finale of the football year.

Syracuse to Improve.

Syracuse is about to add to its athletic equipment. The new Hendricks field will include twelve acres and consists of a baseball section, quarter-mile running track, practice football field, lacrosse field, several tennis courts, women's hockey field, outdoor basket ball rectangle and several field houses. The improvements will cost \$300,000.

FALK HAS MADE FANS FORGET JOE JACKSON

Southpaw Leftfielder of White Sox Is Hard Hitter.

Famous Expose of the 1919 World's Series Gave Young Texan Opportunity to Display His Ability as a Slugger.

Just because he could hit, he lost a chance to become a great southpaw pitcher. That's the story of Bib Falk, the square-shouldered Texas lad who stepped out of college into a big league berth.

For those who don't recall at the moment and don't follow baseball regularly, it might be added Bib is the southpaw leftfielder of the Chicago White Sox. He made his first appearance as a regular at the start of the 1921 season and has never been considered other than a regular since that time.

Falk's case is a peculiar one. He faced the toughest obstacle that could confront a youngster when he reported to Gleason. This was late in 1920, when the Sox were then the world's greatest baseball combination. In reality it was the baseball scandal which subsequently wrecked the South side team that afforded Falk his opportunity to win a berth.

Before Falk came to the White Sox he was the rage of Texas university. "Falk and baseball" were synonymous terms around the college town of Austin. When Bib wasn't holding some other student team to a couple of hits and striking out fifteen or twenty, he was hitting triples and home runs and playing either first base or the outfield.

For three years the Sox had a string

Bib Falk.

on the kid and every month reports would reach the South side offices of his wonderful pitching exhibitions. In the spring of 1920 Gleason got his first real look at Falk in the role of a hitter when the Sox were playing an exhibition game with the University of Texas. Bib was on first base and he faced the shoots of Claude Williams. He had no trouble with the assortment of the then American league ace.

Late in the season, when he reported, he was used occasionally as a pinch hitter. He worked out at first base and for a time the Pale Hose manager had plans of developing him into a first-sacker. But he rarely got a chance to participate for a full contest and, as a result, his ability was uncertain.

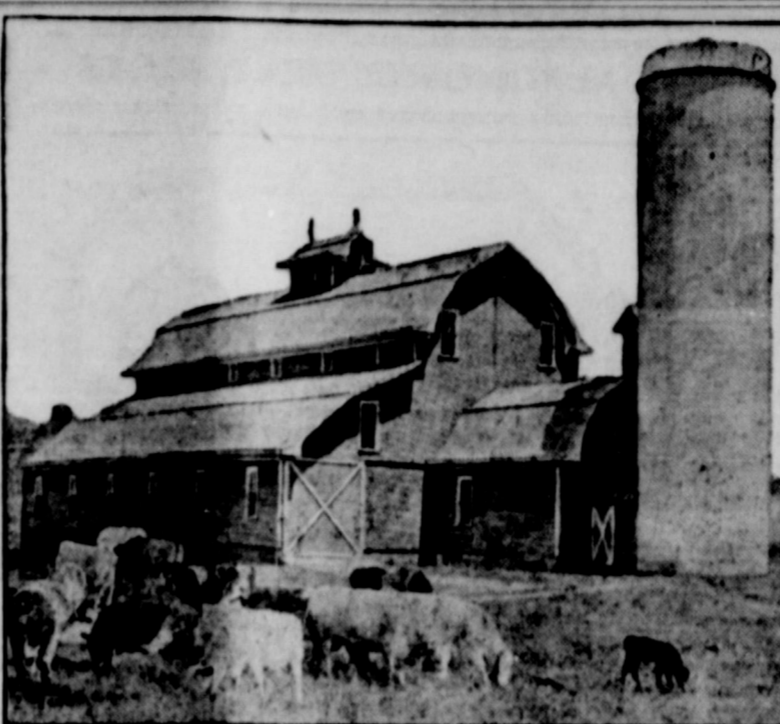

Then the famous expose of the 1919 world's series occurred. The club that was once great was wrecked. The big chance was at hand for the utility men, and those included the Texas recruit.

During the winter of 1920-21 Gleason again had plans of making a pitcher out of Falk. These calculations were quickly dispelled when the training season got under way. Falk hit at a terrific clip from the outset and displayed pleasing ability in the position held by Jackson. When the season opened he was in left field and his pitching ability had been forgotten.

BOOK GAMES FOR ROCHESTER

Easter Sunday, First Holiday of Season, Club Hooks Up With St. Louis Cardinals.

Secretary Walter Hapgood of the Rochester Internationals is out with some definite announcements of spring bookings. The first holiday of the year—Easter Sunday—will find the Rochester team playing an exhibition game at Pensacola with the St. Louis Cardinals. The Pensacola Chamber of Commerce gives a guarantee for the game.

FEEDING PLANT FOR BEEF CATTLE

Specially Designed for the Food Animal Producer.

SILO AND HAY STORAGE ROOM

To Get Most Profit Out of Business of Fattening Cattle for Market a Special Type of Feeding Plant is Essential.

By WILLIAM A. RADFORD. Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 187 Prairie Avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

With corn comparatively cheap and the price of well-finished beef cattle relatively high, farmers are again turning their attention to taking young steers from the Western ranges, fattening and fattening them for market. This was a very profitable business before the price of corn and hay rose to the heights attained previous to two years ago, and since the slump in the prices of grains it is again profitable. Marketing corn and hay "on the hoof" means a great deal better price for these farm crops.

Undoubtedly the greatest profit in this adjunct to farming is secured from purebred cattle. Purebreds gain weight rapidly and put on more flesh and fat

so that the cattle may be allowed to run in pasture or lot and have access to the feeding barn.

Profit from such a building as this comes from three sources. First, it provides a comfortable place for the cattle to take refuge in the winter time. It requires heat to combat the cold, and the heat is supplied by feed. Feed that goes to keep the animals warm rather than to put on flesh is wasted. A safe, weather-proof storage space for feed is an economy. An airtight silo is necessary if the green feed is to be preserved in a condition fit for feeding. Hay and other roughage deteriorates unless housed. With a feeding plant such as the one illustrated many animals can be cared for easily, as the work of feeding is all under one roof, or practically so.

Cattle-feeding plants cost less than dairy barns for the reason that the equipment necessary for efficiently handling milk animals is not needed for beef animals. What is really required is protection from weather and storage space for the feed.

Cattle feeders will find that such a building as this will pay for itself in a short time. And any farmer who grows corn and hay will find that he can get greater returns from his crops by feeding it than by sending it to the elevator. Those in touch with the cattle market are convinced that there is a profitable time ahead for those who have the knowledge and ability to take young steers, fatten them in a comparatively short time and send them to market in first-class condition.

FACTS ABOUT PANAMA CANAL

Erroneous Idea Prevails That Ditch Runs From East to West Across Isthmus.

Many people have an idea that the Panama canal runs from east to west straight across the isthmus; the axis of the isthmus runs from southwest to northeast. The canal was built from northwest to southeast, almost at right angles to the strip of land, and the Pacific end of it is about twenty-seven miles east of the Atlantic end.

Both entrances to the canal are protected by breakwaters. A thorough system of lights and buoys makes the canal as safe to use at night as by day.

The passage between the Atlantic ocean and Gatun lake is made by three steps of Gatun locks. On the Pacific side the passage between the summit level (Gatun lake level) and the Pacific is made by locks of Pedro Miguel lock, Mira Flores lake and Mira Flores locks. A set of three locks to make the whole step at one time would have been built on the Pacific side if it had been possible to secure a site affording a firm rock foundation large enough to accommodate them.

The flights are duplicate (or double-barreled) so that ships may be passed in opposite directions simultaneously. The canal is capable of handling the largest ships now in existence.—Adventure Magazine.

Knowledge Concerning Sun.

It is held by some scientists that, by reason of the facts known about radio activity, it is possible to increase the estimated age of the sun and the period during which it will continue to furnish light and heat to the earth from ten to twenty times. Thus, instead of being 100,000,000 years old, the sun may be 1,000,000,000 or 2,000,000,000 years old, and its future duration may be 100,000,000 or 200,000,000 years in place of 10,000,000. Knowing as we do that an atom of matter can contain an enormous store of energy in itself, we have no right to assume that the sun is incapable of liberating atomic energy to a degree at least comparable with what it would liberate if made of radium.—Washington Star.

Old Violin Maker.

What is the value of Maggini violins? How can you tell the age of one? Is the maker living? Are they still making these violins?

W. J. P.

Maggini violins are rare and much esteemed. The services of an expert are required to determine the genuineness, age and value of an old violin. Giovanni Paolo Maggini, of Brescia, Italy, was a pupil of Gaspar di Salo and lived from 1580 to 1640. His son, Pietro Santo Maggini (1630 to 1680), was also a violin maker. The genuine Maggini violins are, of course, no longer being made.

Texas News

Practically all gins throughout Fort Bend county have closed for the season, with \$44 per ton now being offered for cotton seed.

The attorney general has approved \$110,000 of bonds for Matagorda County Road District No. 8 serials, 5 1/2%.

The Harris County commissioners' court has awarded a contract for the purchase of 12,000 gallons of cattle tick "dip" medicine.

An auto bus line between Yoakum Shiner, Moulton and Flatonia has been established.

A motor bus and truck line between Temple and Austin, via Lampasas, has been in operation several days.

The number of bales of cotton ginned in Brazoria County for 1922 up to Dec. 12 was 2,752. For the same period in 1921 the number of bales was 836.

At a meeting of the Gonzales National Farm Loan Association, the report of the association showed that a total of \$299,990 had been loaned to farmers.

Local organizations are working on a proposition to purchase a thirty-acre tract near Cuero to be used for fair grounds, municipal park, golf links and country club.

Material has arrived for the new brick and tile two-story and basement school building being constructed in the Bonnie View independent school district, seven miles southeast of Woodsboro.

Contractors in charge of the building of the hard surfaced highway through Kenedy for Corpus Christi are building the curbing. The engineers in charge promise a model highway during the summer.

Regarding progress being made in executing Orange county's road building contract under the \$700,000 road bond issue, County Engineer Johnson states that materials arriving show up as being exceptionally good.

Final receipts of the three gins at Rosenberg totaled 5,152 bales, while a report issued by the federal bureau of commerce covering gin receipts prior to Jan. 1 gives a total of 22,010 bales for Fort Bend County.

Approximately every acre of land in the Brazos bottom in the territory adjacent to Hearne is under cultivation this year, and the dry weather has enabled tillers to get their lands in good shape preparatory to planting.

Minutes of the proceedings of the state textbook commission last December were returned to the office of the state superintendent of public instruction this week, approved by the governor, who is chairman of the commission.

An election has been ordered held in Road District No. 7 for Feb. 17 to vote on the question of assessing 25c on the \$100 valuation of property, the money to be used in building and maintaining roads in the northeastern section of Caldwell County.

After a call to pay warrants Friday the net deficit in the general revenue fund was \$2,442,231. To it will soon be added the January pay roll of approximately \$500,000, and thus bring the total near \$3,000,000. The call was for warrants up to and including No. 19,560, aggregating \$169,187.

The Bastrop County Farm Bureau has elected officers for the year as follows: President, Alf Greisenback; vice president, T. O. Hill; secretary, Henry Gensel, Elgin; W. S. Whitworth, Red Rock; R. A. Meyers, Bastrop; E. M. Woustenhauser, Paige. Mrs. Edgar Owens and Alf Greisenback were elected as delegates to the state convention in Dallas.

Vaccination of dogs as a preventive for hydrophobia is not practical, in the opinion of Dr. J. T. Wilhite, director of the State Pasteur Institute at Austin. The full course treatment of twenty-one days would make a dog immune from rabies, but Dr. Wilhite regards that such treatment would be too expensive. As to treating the dog with vaccine two or three times, Dr. Wilhite said this would not be effective.

The twelve-year old fight to move the railroad shops of the International-Great Northern Railway from Palestine to Houston is on in federal court before Judge W. L. Estes of Texas. Palestine bases its contention on contracts made between the railway and the city in 1872 and 1875. It claims that the life of the town of Palestine depends on keeping the shops there. The railway asks that the shops be removed to Houston, a commercial and industrial center, and claims that twice the number of men now in the shops in Palestine could be employed at Houston, and that it costs the railway approximately half a million dollars to keep the shops in Palestine.

About twenty-five farmers and business men of Alvin have organized a strawberry and vegetable association for handling this season's crop of berries and cucumbers.

A charter has been granted by Secretary of State Staples of Texas to the reorganized Missouri-Kansas-Texas Railway of Texas. The new corporation is capitalized at \$1,400,000. Headquarters are at Dallas. The charter was granted under a state law which requires a purchasing company to assume debts of the former company.

HELP FOR GIRLS WHO WORK

Mrs. Lodic Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Tyrone, Pa.—"A friend told my husband how Lydia E. Pinkham's Vegetable Compound had helped his wife, so my husband bought me a bottle because I was so run-down, had a nervous weakness, no strength in my body and pains in my left side so bad that I could hardly do my work. Before I was married I used to work in the factory, and I had pains just the same when I have had since I have done my housework. I would not be without a bottle in the house now. It has stopped the pains all right and I have found out that it is a wonderful body builder, as it has made me well and strong. It is going to be the 'old reliable' with me hereafter, and I am always willing to tell other women how it has helped me. You can use this letter as you wish as I can honestly say that my words are true." Mrs. M. LODIC, R.F.D. No. 4, Box 40, Tyrone, Pa.

Letters like this bring out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking Lydia E. Pinkham's Vegetable Compound.

Etternal Main Street. A friend of the Woman's who lives far uptown hates the country and its people.

"The last time I was in the country," she said, "there was a runaway down the village street, and everyone came out and looked at it. Poor dears, of course they haven't much excitement, but I did feel so sorry for them. I just felt a kind of pity for them. I hate everything that Main street stands for."

Just then, as they got down on the street from the elevated, a crashing noise indicated that one automobile had collided with another. In a second people were running toward it from all directions, and the Woman's friend—she, too, had vanished!

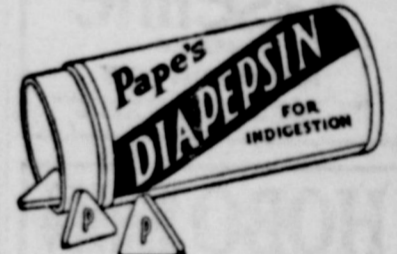

Poor dears! And all of them believed they were so unlike Main streeters.—New York Sun.

In Rural Maryland. "How did you know that was a District of Columbia automobile?" "I can distinguish any 'em in the distance," replied Farmer Cornstossel, "by the rattle of their numerous tags."

When a man is looking for trouble few of his friends are too busy to assist in the search.

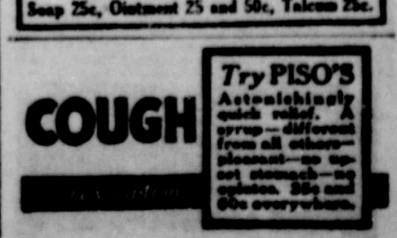

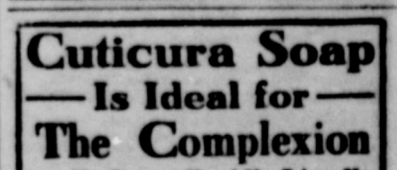

CHEW A FEW!!! END INDIGESTION EASE STOMACH

Ate Too Much! Stomach Upset! Here's Instant Relief

So pleasant and so harmless! The moment "Pape's Diapepsin" reaches the stomach all distress goes. Lumps of indigestion, gases, heartburn, sourness, bloating, flatulence, palpitation, vanish.

Ease your stomach now! Correct digestion and acidity for a few cents. Druggists sell millions of packages.

Don't Let That Cold Turn Into "Flu"

Rub on Good Old Musterole That cold may turn into "Flu," Gripe or, even worse, Pneumonia, unless you take care of it at once. Rub good old Musterole on the congested parts and see how quickly it brings relief.

Animals Did Not Starve. Elk in Yellowstone park will not suffer from hunger this winter, announces Horace M. Albright, park superintendent.

Run Down People Need Rich Blood. YOU never heard a doctor say, "He is all run down, but his blood is pure and rich."

Gude's Pepto-Mangan Tonic and Blood Enricher. At your druggists—liquid or tablets, as you prefer.

MAKE FIGHT ON ROUNDWORMS

System of Swine Sanitation Put into Practice in McLean County Attracts Attention.

(Prepared by the United States Department of Agriculture.) The system of swine sanitation worked out in the laboratories of the United States Department of Agriculture and first put into farm practice in McLean county, Illinois, is attracting the attention of many farmers elsewhere.

During the last 12 months the system was tried out in the experimental work in McLean county on nearly 10,000 pigs of both fall and spring litters. In August practically all the pigs were in remarkably thrifty condition, and the farmers are enthusiastic over the returns obtained from the little extra care and labor expended.

The Mercer County (Ill.) Farm Bureau has announced that it will put a man to work lining up the members for a worm clean-up campaign similar to that put on in McLean county. The Institute of American Meat Packers has given special attention to the round-worm work in the report of its committee on animal diseases.

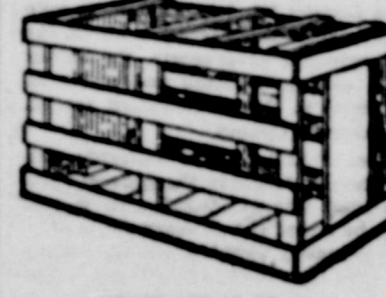

The president of the American Veterinary Medical Association says that this system of eradication is one of the most important recent developments in the hog industry.

Briefly, the system consists in thorough cleaning of the farrowing pens, scrubbing the sows before they are put into the clean pens, keeping the sows and litters strictly in the clean pens until they are hauled out to worm-free pastures, where they are kept away from contaminated hog lots until the pigs weigh 100 pounds, after which they are past the greatest danger from worm infection.

SHIPPING CRATE FOR SWINE

Department of Agriculture Has Worked Out Satisfactory Device—Made Cheaply.

The United States Department of Agriculture, Washington, D. C., has worked out a satisfactory type of shipping crate similar to that shown in the accompanying diagram, which can be made by anyone at a small expense. The size will have to be varied

according to the size of the hog to be shipped and must be several inches longer and enough wider so that the hog can lie down. Care must be taken that the hog cannot get its legs fast in the lower cracks and that no nails project to injure the hog or those that handle the crates.

TO ERADICATE CATTLE LICE

Most Satisfactory Treatment is Application of Raw Lined Oil, Says Doctor Riley.

Application of raw linsed oil is the most satisfactory treatment for cattle infested with lice and other parasites, says Dr. W. A. Riley, chief of the division of entomology at University farm at St. Paul, Minn. One pint of oil applied thoroughly with a brush or rag will do for four or five cows. The application should be especially thorough on upper parts of the neck along the back from the poll to the base of the tail, the shoulder tops, and about the folds of the udder and scutcheon, for it is in these places that the lice are the most abundant.

Doctor Riley says it is desirable in bad infestations to clip the hair for a width of three or four inches along the back from the head to the base of the tail. The treatment with oil should be repeated in about two weeks after the first application in order to kill the lice, which have hatched from the eggs. Thereafter it should be applied once a month during the winter. It is important to use raw linsed oil, and not the bottled linsed, for the latter may cause skin irritation.

Feed for Fall Pigs.

Care should be taken that pigs of fall litters are well supplied with skim milk or tankage, especially after weaning.

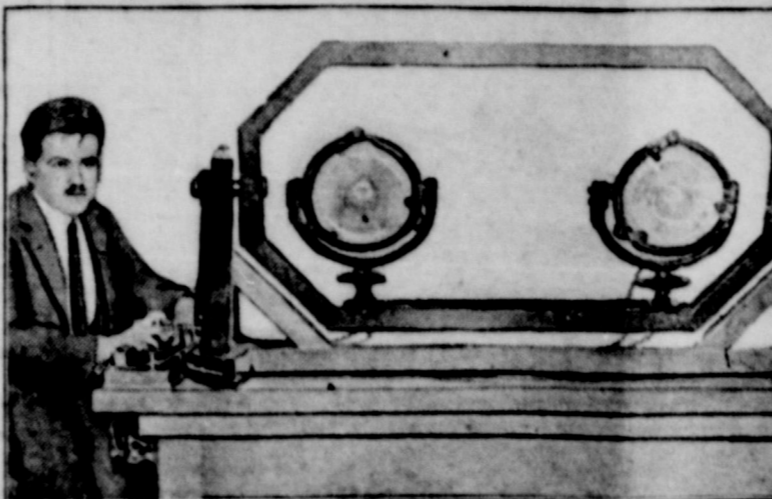

Blanket Heated Horses.

Don't fail to use a blanket when the horses become heated. It may save a veterinary bill.

Punctuality in Feeding.

Punctuality in feeding and watering stock keeps them from worrying of such by waiting for feed.

TESTING AUTOMOBILE HEADLIGHTS

The United States government bureau of standards is working on a new type of an automobile headlight for use on state highways by motorists at night. The present automobile headlight, when in use, usually blinds the driver coming from the opposite direction. In the lenses shown in this photograph the beams from the headlight are focused on a screen 50 feet distant and the intensity in all parts of the beam is measured with a photometer.

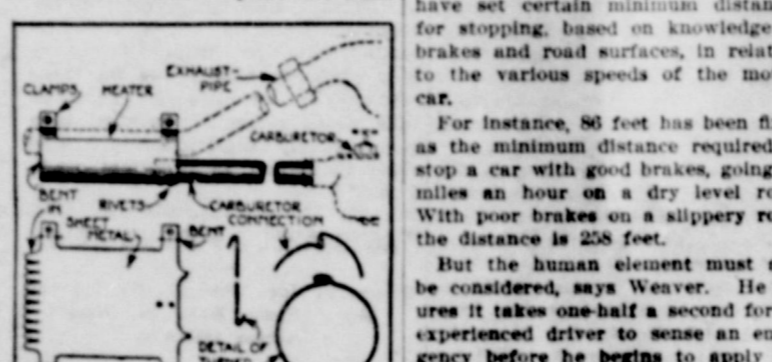

CARBURETOR AID IN SAVING FUEL

OWNER CAN SUPPLY WARMTH

Connecting Pipe Is Fitted With Adjustable Opening That Can Be Arranged in Convenient Way—Pattern Should Be Made.

The average carburetor heater is not sufficiently large to obtain maximum economy in the use of gasoline, especially on cars several years old. The carburetor and intake manifold should be too hot to place the hand

Heater is Attached to the Exhaust and Connected With the Carburetor. on comfortably, for then the gasoline and gasoline vapor in contact with the surfaces separate into the vapor most readily burned when it reaches the cylinders.

The body of the heater is sheet iron formed to a pattern as indicated, and secured with clamps to the exhaust pipe. The connection with carburetor is by means of a pipe rounded to shape over the manifold, and bent wherever necessary to bring it in line with the carburetor. This connecting pipe is fitted with an adjustable opening that can be arranged in any convenient way for use.

As a preliminary to forming these heaters, a pattern should be made of heavy paper and fitted in place. When the pattern is correctly fitted, the metal is then cut from the paper pattern. The immediate effect of the added heat will be noted in the carburetor adjustment. As such a reduction as a half turn of the needle-valve is obtainable after operating the motor several minutes.—By G. E. Leurs in Popular Science Monthly.

DEFECTIVE TUBE RUINS TIRE

Owner Has Greater Assurance of Full and Satisfactory Service From Good Casing.

A defective tube will ruin the best tire. Just as it's the heart that keeps the body going, so it's the tube that keeps the casing up. A man would certainly not select a weak heart because it was cheap, but would want the best. So the motorist should purchase the tube that will best prolong the life of the casing. The better the tube one buys, the greater assurance he has of full and satisfactory service from his casing. A good casing is terribly handicapped with a defective or worn-out tube.

AUTOMOBILE GOSSIP

A self-starter makes less noise when the car is in gear and it is propelling the entire machine.

In England, stainless iron and steel are now manufactured into fittings for automobiles.

Corroded terminals should be first scraped and then cleaned with a strong solution of washing soda.

A common fault which cuts down the gasoline mileage is the excessive use of brakes.

Seventy-five per cent of your motor troubles will be traceable to the ignition system. And 90 per cent of those will be due to your own neglect.

When following another car closely on crowded roads be ready to turn out to one side or the other when using the brakes.

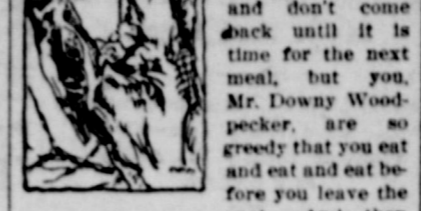

Obey the manufacturers' rules regarding lubrication. Don't figure you know so much about the car as they do.

Daddy's Evening Fairy Tale

by MARY GRAHAM BONNER

DOWNY WOODPECKER

"You are such a greedy old soul," said Master Nuthatch to Mr. Downy Woodpecker. "I come to the suet which the people have been kind enough to put out for me, and I take a little bite or two and then am satisfied."

"I go away then and don't come back until it is time for the next meal, but you, Mr. Downy Woodpecker, are so greedy that you eat and eat and eat before you leave the suet. And then you eat some more."

"I must be sure of getting enough," said Downy. "I think you are sure of that," said the Nuthatch.

"One must always do the wisest thing. Now the white pine tree has long leaves. That is wisest. The long leaves or sprigs are the right kind because of the wind and the snow. They are thin and more easily moved about. Were they different they couldn't move about without being knocked off in the wind."

"Yes, the pointed leaves are the only kind to wear if a pine tree wants to stand the snow and the wind. Five needles in a bunch is what the pine wants, and the pine is good and strong."

"Now I am wise because I eat a lot. I know that eating a lot agrees with me. I know that I am never ill from eating too much, but that I keep well and strong and fine all winter."

"Of course I do, too," said Master Nuthatch. "It is wise of you not to eat too much as long as you don't find you need too much to eat, or as long as you find that you eat enough," said Mr. Downy.

"I'm glad you don't eat too much," he chuckled. "But still, the people give us plenty. There is enough for you and enough for me and enough for all of our friends."

"And when we use up what we have here we will be given some more. Still, Master Nuthatch, I will have to admit that while I am wise to eat what agrees with me and to eat a lot as long as a lot agrees with me, and as long as I thoroughly enjoy eating a lot it is wise for you to do what you find agrees best with you."

"But I must admit that you have far less of a greedy nature than I have. Far less!"

"And Master Nuthatch took a little bite of the suet then, for it was his luncheon time, but Mr. Downy ate and ate and ate, and then came back for more, as though he thought he could manage just a little bit more."

"Ah," said Mr. Sun, as he looked down on the birds, "I am going to have some moving pictures before I go to bed. Now you come and see them!"

"I'd love to," said Mr. Downy, as he beat upon the tree to show that he was delighted.

"I'd love to, also," said dear little Master Nuthatch.

So they flew along and Mr. Sun gave his moving picture show out-of-doors, over a high hill. Mr. Sun never gave his moving picture shows inside of buildings.

First he wore a big red robe and he came out between a big gray cloud and just peeped through, so that the red sun could be seen between the lovely fluffy grayness.

Then all about came the Sun Fairies dressed in beautiful red dresses. And they began to play hide-and-goose with the Gray Cloud Fairies.

Mr. Sun seemed to grow bigger and bigger and redder and redder. People who saw him as he began to move slowly down behind his hill thought that he looked as though he would surely fall.

"I'd never fall," Mr. Sun said. "I know too much for that."

And then Mr. Sun showed other beautiful pictures in the sky and then he made a handsome bow and went slowly down behind his hill as he wished the world good-night.

Even though there was a great deal of admiration and praise for his moving-picture show he didn't come up again.

And the mining prospectus gets the coin while the hard-luck story is bumping the bumps.

SHE DYED A SWEATER, SKIRT AND CHILD'S COAT WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Advertisement.

As a matter of fact, your neighbors think just as disagreeable things about you as you think about them.

Good health depends upon good digestion. Refresh your digestion with Wright's Indian Vegetable Pills and you safeguard your health. A medicine as well as a purgative. Advertisement.

Get Rid of Spiders. If you are troubled with spiders saturate pieces of cotton wool with oil of pennyroyal and place them where you think the spiders are breeding. You will soon be rid of them.

Those Quarrels. He that blows the coals in quarrels has nothing to do with, has no right to complain if the sparks fly in his face.—Franklin.

A Lady of Distinction. Is recognized by the delicate, fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Advertisement.

Those Wags. "The dentist said all my teeth must be replaced." "He said a mouthful."

COLDS

"Pape's Cold Compound" Breaks a Cold in Few Hours

Every druggist here guarantees each feverishness, inflamed or congested package of "Pape's Cold Compound" to nose and head relieved with first dose. These safe, pleasant tablets cost only a few cents and millions now take them instead of sickening quinine.

Chest colds—broken! Inflamed membranes, congestion, oppressive pain. Apply Sloan's to chest and throat. It scatters congestion—your cold is gone!

Sloan's Liniment—kills pain!

Don't You Come? showed other beautiful pictures in the sky and then he made a handsome bow and went slowly down behind his hill as he wished the world good-night.

Even though there was a great deal of admiration and praise for his moving-picture show he didn't come up again.

Master Nuthatch and Mr. Downy flew off quite delighted with the entertainment, but Mr. Downy said, as was very like him:

"Well, it gave me an appetite for an extra meal!"

SICK HEADACHE advertisement: "Take a good dose of Carter's Little Liver Pills. They regulate the bowels and prevent constipation." Includes an image of a person holding their head in pain.

Lovely Demi-Season Hats; Reveal Trend of the Styles

JUST now is the between-season period when most women think it is too late to buy a winter hat (unless it can be bought at a very great bargain) and too early to determine on something for spring.

GROUP OF PRETTY BETWEEN-SEASONS HATS

group of hats pictured as at your service for wear. The crown is adorned with an embroidered band of soutache braid in the same color, sewed on edge and very small shaded roses are set about the upper and under brim-edges, as close together as possible.

TWO EXAMPLES OF THE FULLER SKIRT

warm brown, has a brim covered with what may be described as satin hair-cloth, and ventures on a crown of fine milan braid. Its flower and leaf trimming is made of silk in brown and pinkish melon shades.

sprited hat, completed by a pair of black pins. The early displays of cloth and crepe dresses for spring indicate that styles are traveling toward the picturesque and away from that which is severe.

Some time ago I took an old colored man to the picture show for the first time. When he came out I said: "Well, uncle, did you enjoy the picture?"

"Oh, yes," he said; "the picture was all right, but the piano made so much noise I couldn't hear a word they said."—Charlotte Observer.

"Would you call Mrs. Gadder an inquisitive woman?" "Not unduly so, for a member of her sex."

"After she has tried unsuccessfully for six months to find out the income of a neighbor, something else is sure to attract her attention."

"It is dangerous giving an actor an encore," declared Hank Ippank. "That's right," assented Herb Blurb. "Nearly always he hands you something that makes you wish you hadn't."

"There goes his nibe, my boss." "Is that a respectful way to speak of your employer?"

"Thank the Lord who rules, And all His saints above, He may make a million wars, But it never conquers Love!"

"That gentleman praises your complexion highly." "I'm surprised that a cat like you would tell me. Who is he?" "A druggist."

"Neither a Toller, Nor Spinner." "A candidate for office went down into a coal mine and shook hands with every man there."

"And I dare say," remarked Mr. Grumpson, "that was the closest he ever came to selling his person with a little honest grime."

"Sir, I am a bill collector." "Then I can furnish you with one of the most choice collections in the world, all authentic. I thought you were after money."

Editor—We want some one who can write stuff that's different—distinctive, individual.

Teacher—Johnny, can you tell me how matches are made?

Just a Little Smile

THINKING OF FATHER

"Now that is one of the most pathetic things I have ever seen," said the rich and benevolent old man, who, on a scorching hot day, stood with a friend watching a typical London street arab.

"You see the ice cart has been delivering at that shop, and the poor little chap has taken a piece from the gutter. Now, you and I, who can get a refreshing drink whenever we require it, cannot imagine what a luxury that piece of ice is to that boy."

"I wasn't going to eat it," said the grimy little chap. "Father's 'aving a sleep at 'ome, an' I was going to drop it down his back."

"Well, uncle, did you enjoy the picture?" "Oh, yes," he said; "the picture was all right, but the piano made so much noise I couldn't hear a word they said."—Charlotte Observer.

"Would you call Mrs. Gadder an inquisitive woman?" "Not unduly so, for a member of her sex."

"After she has tried unsuccessfully for six months to find out the income of a neighbor, something else is sure to attract her attention."

"It is dangerous giving an actor an encore," declared Hank Ippank. "That's right," assented Herb Blurb. "Nearly always he hands you something that makes you wish you hadn't."

 HENRY GATES, Editor.

Entered as second class matter July
 22nd, 1905, at the post office, San-
 derson, Texas, under the Act
 of March 3, 1879.

NOTICE

THE STATE OF TEXAS,
 County of Terrell.

Notice is hereby given that the
 Commissioner's Court of Terrell
 County, will, at its February
 Term, A. D. 1923, to be com-
 menced and holden on the 12th
 day of February, A. D. 1923, re-
 ceive proposals from any Bank-
 ing Corporation, Association or
 Individual Banker, in Terrell
 County, Texas, who may desire
 to be made depository of the
 Funds of Terrell County, Texas.

Any Banking Corporation, As-
 sociation or Individual Banker,
 desiring to bid, shall deliver to
 the County Judge of Terrell
 County, Texas, on or before the
 1st day of said Term of said
 Court, a sealed proposal stating
 the rate of interest that said
 Banking Corporation, Associa-
 tion or Individual Banker and
 deposit offers to pay on the
 Funds of said County for the
 term between the date of such
 Bid and the next regular term
 for the selection of a Depository.

Said Bid shall be accompanied
 by a certified check for not less
 than one-half of one per cent of
 the County Revenue for the year
 1922. (Said Revenue, including
 School, being \$62,959.06), as a
 guarantee of good faith on the
 part of the bidder, and that if his
 bid shall be accepted, that he
 will enter into bond as required
 by law.

Given under my hand, at Sand-
 erson, Texas, this 2nd day of
 January, A. D. 1923.

G. J. Henshaw,
 County Judge, Terrell County,
 Texas.

Attest:
 Luella Lemons,
 Clerk County Court, Terrell
 County, Texas.

Mrs. Will Harral Entertains

The Thursday Evening Bridge
 Club met on the 18, with Mr. and
 Mrs. Will Harral at their town
 home. Four tables enjoyed the
 chosen club game, bridge. Club
 guests were Misses Frances Ma-
 lone and Leon Hanson, and Mrs.
 L. E. Adams of San Francisco,
 and W. W. Standifer.

Delicious cream and cake were
 served by the hostess, assisted
 by Mrs. Dutton Williamson. Just
 before the guests departed, H.
 L. Winfield, president of the
 club, presented to Mrs. H. R.
 Laurence a beautiful cut glass
 bowl, the gift of the club to the
 Laurence's who the club are very
 reluctant to lose. But with them
 to their new home in Sanderson
 go the sincere good wishes of the
 entire club. Mrs. Laurence ex-
 tended to the club an invitation
 to meet with them in their Sand-
 erson home at any time. — Fort
 Stockton Pioneer.

Your clothes will always look
 neat and clean if you have them
 pressed and cleaned at the Royal
 Tailor Shop. Phone No. 6, and
 we will call for your package and
 deliver when finished.

Move to Sanderson

Mrs. H. R. Laurence left the
 first of the week for Sanderson
 to join her husband, who several
 months ago accepted the position
 as cashier of the Sanderson bank.
 Fort Stockton is indeed loathe
 to part with this estimable family,
 but our loss is Sanderson's gain.

Miss Sidney Laurence will not
 join her parents until the close
 of this school session as she is a
 member of the graduating class
 of '23. Miss Laurence has the
 distinction of being one of the
 three original members of the
 class who entered upon their
 school work in the first grade of
 our public school and have done
 continuous work through every
 department. — Fort Stockton Pioneer.

Drew/Shell, local Western Union
 operator, returned the latter
 part of last week from a visit
 with relatives in Arkansas. — Ft.
 Stockton Pioneer.

**To Sheep and Goat Raisers
 of Terrell County:**

This is to notify you that the
 second quarterly meeting of the
 Sheep and Goat Raisers Associa-
 tion of Texas is hereby called to
 meet at Sanderson, Texas, on
 Monday, February 12, 1923.

Matters of the utmost import-
 ance to every member of our as-
 sociation will be brought before
 this session of the Committee.

For this reason it is earnestly
 urged that you permit nothing to
 prevent your attendance at this
 very important session of the
 Committee. By all means come.
 We need your presence and
 counsel.

Yours very truly,
 Claude A. Broome, Pres.
 James T. Elliott, Sec-Treas.

Phone No. 6, for cleaning and
 pressing in the most up-to-date
 and satisfactory manner, and at
 greatly reduced prices. Clothes
 called for and delivered.

DRYDEN NEWS

(By our regular correspondent)

Miss Helen Latimar of Alpine
 visited her mother and father
 last week-end.

Mr. Gip Brooks left Tuesday
 morning for San Antonio to have
 his eyes treated.

Mrs. Johnnie Gregg and chil-
 dren are visiting Mrs. A. Free-
 man this week.

Max Luckie made a business
 trip to Del Rio Tuesday.

Mrs. John Taylor and Mrs. A.
 Birdwell went to Del Rio Mon-
 day on business.

Mr. and Mrs. Willie Banner
 visited Chas. Thomas and family
 Sunday.

Mrs. Jack Conway of San An-
 tonio, is visiting her mother,
 Mrs. E. Miller, this week.

Misses Elsie and Geneva Chan-
 dler spent the week-end in Sand-
 erson.

Mrs. Joe Nichols made a busi-
 ness trip to Sanderson Wednes-
 day.

Mr. Martin of California visit-
 ed Mr. Freeman and family for
 a few days enroute to Del Rio.

Hemstitching and picoting silk
 10c and cotton 8c per yard, also
 braiding. Mrs. Walter DuBose,
 Box 442, Uvalde, Texas.

Joe Kerr will make extensive
 improvements on his ranch near
 Dryden, in the near future.
 Among the improvements will be
 a ranch house and coral at the
 well north of the G. H. & S. A.
 track. An engine house will
 also be erected, as water is now
 being pumped from the well by
 engine power.

FOR SALE CHEAP.

Two sections of school land,
 4 miles from Dryden; section 4,
 block A 2, abstract 2455; section
 20, block A 2, abstract 2456.
 \$1200 due state in 40 years, 5 per
 cent. For sale or lease by the
 owner, E. B. Dobbins, San Mar-
 cos, Texas.

Rev. Joe W. Bickley, pastor of
 the Methodist Church announces
 that a cordial invitation is extend-
 ed to the people of Sanderson to
 attend the regular Wednesday
 night prayer meetings held at
 the Methodist Church.

Ray Parker, John Bolin, Ben
 Dawson, Noah Allen, Fai Elder,
 Gus Collins, F. S. Garrison, and
 O. E. Schupbach left Sunday for
 Del Rio to attend Federal Court
 that opened Monday. The petit
 jury were all excused until the
 March term of court. Gus Col-
 lins and F. S. Garrison were
 held over to serve on the grand
 jury.

"Every day, in every way, the
 Sanderson Times is getting bet-
 ter and better", says Mickie.

School Notes

(This department is edited by stu-
 dents of the Sanderson High School)

There were two basket ball
 games played Saturday between
 Fort Stockton and Sanderson,
 Sanderson being winner of both
 games. The score of the first
 game was 15 to 6, and of the
 second was 19 to 16. Both teams
 showed good team work.

The Honor Roll for the past
 month was as follows: 90 or
 above in five subjects—Johnnie
 McKinney, Louise Cavender,
 90 or above in four subjects—
 Madison Turner, 90 or above in
 three subjects—Mary Alice Hap-
 ple, 90 or above in 2 subjects—
 Ervin Grigsby, Clyde Newberry,
 Iva Hord, Hays Cavender, Chas.
 Harrell, Garnet Worcester. 90
 or above in one subject—John
 Perner, Wallace Henshaw, Joe
 Janza, McDuffy Kessler, Anne
 Farley, Hazel Winn, Roy Bo-
 grusch, Walter Grigsby, Malene
 Mitchell.

The basket ball boys left for
 Alpine Thursday where they will
 play four games in the tourna-
 ment.

There is being some plumbing
 work done in the cooking de-
 partment.

On Friday afternoon, January
 20th, the judges in the recent
 sewing contest made their deci-
 sions. Each member of the sec-
 ond year sewing class submitted
 her last problem, a child's gar-
 ment, for inspection by the
 judges. Mrs. S. C. Bodkin had
 offered a prize to the girl whose
 garment was considered the best
 by the judges as to choice of
 material, cost, taste, and work-
 manship, the garments to be
 judged solely by their finished
 appearance, the judges not know-
 ing even who the members of the
 class were. The garment sub-
 mitted by Johnnie McKinney
 won the prize, which was both
 beautiful and useful, a silver
 Eversharp pencil was given to
 her. The judges chosen by Mrs.
 Bodkin were Mesdames W. J.
 Ferguson, E. P. Halley, and Flora
 Reeve. The sewing department
 feels indebted to Mrs. Bodkin
 for the interest and enthusiasm
 she helped to create by showing
 her interest in the work by offer-
 ing the prize.

Wear made-to-measure clothes
 and you will always appear well
 dressed. Call at the Royal Tailor
 Shop and let us show you some
 of the "smartest" samples for
 suits you ever seen. The cost is
 low and satisfaction guaranteed.

Mrs. Alf Harral and little son,
 Alf Jr., have returned from a
 visit with friends and relatives
 in Abilene and Dallas. — Fort
 Stockton Pioneer.

Frank Robertson came in from
 Sierra Blanca Sunday where he
 has been holding 3rd trick ton-
 nage clerk. He is assigned to
 regular third trick here succeed-
 ing tonnage clerk Aldridge who
 has been transferred to Sierra
 Blanca.

Send the TIMES to your rela-
 tives and friends.

Will Richworth was in town
 the first of the week from the
 Block Y ranch shaking hands
 with his many friends.

Mrs. V. E. Gilden returned to
 Del Rio Sunday after several
 weeks visiting with her daugh-
 ter, Mrs. W. E. Lea.

Born to Mr. and Mrs. Mad-
 erson Turner, Friday night, Janu-
 ary 26th, 1923, a nine pound boy.

Born to Mr. and Mrs. Harry
 Ketcham, Tuesday, January 23,
 1923, a nine pound boy.

**The Fairbanks-Morse "Z" is the
 Logical Engine for You to Buy**

Every ranch should have an
 engine, large enough to drive not
 only all the lighter machines
 about the ranch but also the
 other machines taking more
 power.

You cannot take a chance with
 an engine that MAY pull the
 load, you MUST be sure it WILL
 pull the load right through to
 the end and be ready for the
 next job. That's where the
 wonderful "Z" engine shines.

No effort is spared in making
 these "Z" engines of the very
 highest quality in every detail.
 All parts are precisely made and
 fitted and standardized for in-
 terchangeability. The "throttling
 governor" ensures uniform speed
 maintaining any speed for which
 the controller may be set. It is

easily started, will run on kero-
 sene as well as gasoline, is ef-
 fectively lubricated, equipped
 with Bosch magneto, and every
 part is built to be readily ac-
 cessible.

Let us demonstrate the "Z"
 engine to you, compare the
 amount of engine quality per
 dollar with any you have ever
 heard of. Add to this all the
 years of satisfaction that go
 with the Fairbanks-Morse name
 plate. Then you'll buy a "Z"
 engine knowing that you have
 bought the utmost in enduring
 engine value.

ROACH McLYMONT CO.

 Del Rio, Texas.

Miss Ray Woodley of Dryden
 visited friends in Sanderson last
 Saturday.

Dr. L. C. Pope of Alpine was
 in the city this week filling his
 regular monthly trip treating
 his Dental patients.

J. Calvin Stansell was in town
 from his ranch for a few days
 this week on business.

E. W. Hall returned from San
 Antonio Monday where he spent
 several days visiting his daugh-
 ter, Mrs. Gladys Corder.

The San Antonio Express
 states, Dudley Jennings of the
 Block "Y" ranch in Terrell
 County, writes to R. R. Redus
 that he is still alive and kicking
 along, with nothing exciting hap-
 pening on his beat.

"THE OMAHA LOVE CALL"

Mr. and Mrs. Albert Gale of the
 Gale Company on our Lyceum course
 are shown here in "The Omaha
 Love Call" in the costumes of the
 Omaha Indians. Mr. Gale has made
 a study of over thirty of the now
 remaining tribes, recording their
 songs and legends and collecting
 specimens of their handicraft. He
 has gone to some of the most remote
 of these tribes and secured melodies
 never before heard by the white
 men.

The purpose of the program songs
 and stories of the Red Men to be
 presented is to familiarize white people
 with the natural characteristics of
 the Red people, to show the better
 side of the Indian life, to visualize
 the costumes of different tribes, to
 help America to realize that the In-
 dians are thinking, feeling loving
 human beings, reaching out to grasp
 opportunities given to every alien
 coming to our shores and denied
 only to the Indian. To let the peo-
 ple see the Indian as he really is,
 a child of the great auto-doors, re-
 sponding to every varying emotion,
 expressed mostly through his music
 and so through his music he may
 be most truly interpreted.

This company consists of Mr. and
 Mrs. Albert Gale and an assistant
 entertainer in a miscellaneous pro-
 gram of Indian songs and legends,
 with a variety of other entertaining
 features. The costumes and exhibits
 alone for this production weigh 500
 pounds.

School Auditorium, Thursday, Feb. 8.
