Gov. Neff to Speak Here

Governor Pat M. Neff will be in Sanderson on Thursday, May 17, and will deliver an address to the students of the Sanderson Public Schools, in the school auditorium at 8:30 p. m.
 The Governor will arrive in our city on No. 101, and will remain until the morning of the 18th, when he will leave on No. 109 for Alpine to address the students of Sul Ross Normal.
 A cordial invitation is extended to everybody in Sanderson and Terrell county to hear the Governor's address here on the night of the 17th.

Fresh vegetables every Monday and Thursday. Barbecued meat every day.
 Sanderson Market.

A NEW ENTERPRISE

E. A. Waldron left Monday evening for Alpine, after spending several days in Sanderson. Mr. Waldron was here in the interest of the Waldron Quicksilver and Mineral Development Co., of which he is the organizer. He is an experienced quicksilver miner and for a number of years was superintendent of a quicksilver mine in California.

The mineral claims owned by the Waldron Company are situated in the Terlingua district in the south part of Brewster county. Mr. Waldron has spent practically two and one-half years in hills of Brewster county, going over the ground on foot, searching and beating, digging, and tunneling, and the result of this quiet, systematic work is the Waldron claims No. 1, 2, 3 and 4. The Chesos Mining Company, the largest quicksilver mining company in the United States, is not far from the Waldron claims. The Chesos Company has mined and sold millions of dollars worth of quicksilver.

Quite a number of Sanderson people bought shares in the Waldron Company from Mr. Waldron while he was here, and if further research bears out present indications, those who bought the shares have probably invested in one of the greatest and best paying mining industries the country has ever known.

Big picnic this afternoon on the school grounds. Ladies races, mens races, girls races, boys races, ball game, and "big cats." Don't miss it.

A SURPRISE PARTY

A farewell party was given in honor of Mrs. Harry Bolin at the Van Ormy Sanatorium, San Antonio, Texas, April 30, 1923, by Mrs. J. T. Parma and Miss Bess M. Pyland.
 Refreshments were served, and music was played, a few little gifts were given Mrs. Bolin to remember her old friends by.
 Those present were: Mrs. Harry Bolin, guest of honor, Mrs. J. T. Parma, Mrs. Lindsley, Misses Singer, Caldwell, Helen Byrne and Bess M. Pyland.
 All joined in wishing Mrs. Bolin good luck and happiness in her new home at Sanderson, Texas. She will be missed by many old friends here.

Wear made-to-measure clothes and you will always appear well dressed. Call at the Royal Tailor Shop and let us show you some of the "smartest" samples for suits you ever seen. The cost is low and satisfaction guaranteed.

Elected to Phi Beta Kappa

Sanderson can now boast of two Phi Beta Kappa's, an honor of which few towns this size can boast.

Miss Myrl McKee has just been elected and Miss Sybil McKee had that honor bestowed upon her last year. This speaks well for Sanderson High School.

Phi Beta Kappa is the outstanding honorary fraternity in the scholastic world and election is considered one of the highest honors that can be bestowed on a student.

Your "Sweet Girl Graduate" would appreciate a box of Hammermill Bond, Social Size, Stationery. For sale at the Times office.

Who Wants a Boy?

Fort Worth, Texas, April 29. — "Boys Week," which is being sponsored all over the country by the Rotary Club of New York, will be observed this year April 29th to May 5th. The purpose of the celebration is simply to focus the attention of the nation on the boy as its chief asset.

Among the organizations in Texas that will participate in Boys Week is the Texas Children's Home and Aid Society. This Society cares for orphan and dependent children by placing them in foster homes. Children of all ages from infancy to 15 years are received, placed and watched over by the Society.

During "Boys Week" a special effort will be made to secure homes for boys. Roy Stockwell, the superintendent of the Society stated today that the organization now has for placement in foster homes, fifteen boys ranging in age from four to fourteen years. Some are full orphans, some are half-orphans. Stockwell does not insist that they are all "good boys." In fact he says, "some of these boys are real problems, which is only saying that they are genuine boys. People willing to open their homes and hearts to a real boy can do a very fine service indeed for these little fellows."

These boys, most of them, have been denied many of the things which go to produce strong men and good citizens; but they will have their chance if we can find for them the right kind of homes," said Mr. Stockwell.

Anyone interested in adopting a boy or in giving a boy a home is requested to write to the Texas Children's Home and Aid Society, Cotton Exchange Building, Fort Worth, Texas.

Phone No. 6, for cleaning and pressing in the most up-to-date and satisfactory manner, and at greatly reduced prices. Clothes called for and delivered.

A Fishing Boat

If you don't think that a first-class boat can be built in Sanderson, you ought to take a peep at the boat that Clyde Boozer, Willis Harrell, Herman Halsell, and Rufe Stirman are building for use in the Rio Grande, when on fishing trips. It sure is a jimm-dandy.

What would be more appropriate than a nice box of Hammermill Bond Stationery for your boy or girl friend graduate.

Monte Corder was in town a few days this week from his ranch and reports his range in fine condition with plenty of water and grass.

A PETITION

Sanderson, Texas, May 3, 1923.
 To the Honorable County Judge and Trustees of the Public School of Sanderson, Terrell County, Texas:

"We, the undersigned patrons of the Public School and citizens of Terrell county, Texas, respectfully petition that Miss Edna Anglin be re-elected principal of the Public School which you have set apart for the Mexican pupils for the ensuing year."

(Over one hundred Mexican citizens signed the above petition and sent it to G. J. Henshaw, County Judge and Ex-Officio County School Superintendent, asking him to get in touch with the Trustees and take action on this petition. Alejandro Marquez, Francisco Flores, Chou Cerda, and other prominent Mexicans headed the list.) Adv.

Misses Iva and Clara Hord of Sanderson were guests of their aunt, Mrs. Walter Garnett, during the Interscholastic League meet last week-end, returning home Sunday. — The Alpine Avalanche.

Accordion, box and side plating; hemstitching 8c yd., pinking, braiding, buttons and button-holes made. Mrs. H. B. Houston, Uvalde, Texas.

Lay Claim to Part of New York City

The Whitehall building, Trinity church and a number of skyscrapers are a portion of what Warren Edwards, a Cincinnati policeman, and George Spicer claim as their property. They are descendants of Robert Edwards who was rewarded by King George III with a 100-acre farm, comprising what now is a part of the financial district, for bravery in Indian wars.

Fort Sheridan Post Gets New Colors

High Compliment to General Allen

On his last day of active duty in the United States army, Maj. Gen. Henry T. Allen, who commanded the American army of occupation in Germany following the armistice, reviewed a dress parade of all troops in the District of Columbia on the Monument grounds. The troops were paraded as a special compliment to the retiring general.

MILTON LOVES TO KNIT

Thomaston, Conn., doesn't understand Milton Grimsbaw. He is "too sensitive" and has none of the coarse ways of this world. Milton has attained six feet and two inches of height and 140 pounds of weight during his twenty years of existence; but, as his mother says, "He's too gentle for the boys and there aren't any girls that he likes down in the crowshop where he works." Milton just loves to knit and says Mother Grimsbaw, "he is fond of designing women's clothes and making dolls and artistic things like that." So Milton put an ad in a New York paper, asking that some rich family adopt him. He wants to travel and educate himself.

CAMP MERRITT MEMORIAL

Robert L. Aitken, noted sculptor, putting the final touches on his great work, called "Detail," which is the base for the obelisk to be erected at Camp Merritt, Tonawanda, N. Y., as a memorial to the 1,500,000 troops who passed through there on their way to French battlefields. The work is one of the exhibits shown by the National Sculpture society in New York.

WORLD'S LARGEST ELK

W. T. Brinson of Waycross, Ga., who weighs an even 900 pounds, is the largest elk in the world. Mr. Brinson is going to attend the Elks' convention to be held this summer at Atlanta.

PROCEEDINGS OF THE TEXAS LEGISLATURE

Work Being Done By Both Senate and House Now in Special Session.

Austin, Tex.—The first record vote in the senate on the Patterson quo warranto bill which was one of Governor Neff's principal recommendations to the present special session, came Friday when the upper house ordered the measure printed by a vote of 13 to 9. The bill was reported unfavorably to the senate by the civil jurisprudence committee with a minority report signed by four members. The vote came on motion of Senator Wood to print the bill, thus placing it before the body for consideration. Senator Bailey attempted by two points of order to prevent a vote, but both were overruled. Although the motion to print carried, members opposing the bill said several who opposed it voted for printing.

Friday's Senate Proceedings.—Austin, Tex.—Passed finally, \$271,000 emergency appropriation bill, \$52,000 deficiency appropriation for adjutant general, \$15,400 general deficiency appropriation bill, three local measures.

Adopted resolution by Wirtz calling for investigation by federal officials of recent federal cotton report.

By vote of 13 to 9 ordered quo warranto bill printed.

Voted down motion by Pollard to reconsider vote by which educational appropriation bill passed.

Adopted house concurrent resolution inviting William Jennings Bryan to address joint session and senate concurrent resolution inviting Alvin Owsley to address joint session.

Declined to recommit Clark bill to repeal \$600,000 reclamation and flood control bill.

Eleemosynary and departmental appropriation bills set as special orders Monday.

Bill introduced by Ridgeway proposes to require voters to declare party affiliations on poll tax returns.

Lieutenant Governor Davidson read into journal statement disapproving demonstration by Ku Klux Klansmen in hall of representatives Thursday.

Friday's House Proceedings.—Austin, Tex.—Kerr anti-technicality bill reported favorably; Patman bill to regular testimony in criminal cases unfavorably.

Bills proposing abolishment of live stock sanitary commission, markets and warehouse department, board of control, industrial accident board and board of water engineers introduced by Melson and Pope.

Other bills introduced: By Cable, prescribing forms of ballots for primary elections; Pope, requiring payment of interest on deposit for utility service; Melson and Pope, reappportioning certain duties between agricultural department and A. and M. College; Stewart of Reeves, defining units of weights and measures.

Passed finally: Cowan bill regulating bonds of Harris County navigation district.

Harris text book bill set for special order Tuesday.

Thursday's Senate Proceedings.—Austin, Tex.—Passed finally Wood educational appropriation bill with amendments.

State affairs committee reported favorably the Coffee gross oil production tax bill at 3 per cent.

Defeated an attempt to abolish Grubbs Vocational College, Arlington, during consideration of the Wood bill.

Defeated an attempt to repeal the \$600,000 flood control and reclamation bill, when mining and irrigation committee reported unfavorably proposal for repeal.

Seven bills introduced.

Thursday's House Proceedings.—Austin, Tex.—Passed finally Bonham delinquent land tax bill; Wood senate bill appropriating \$20,000 for continuing work of the state reclamation engineer in determining the Oklahoma-Texas boundary along the Red River, and Irwin measures making driving of motor vehicles by intoxicated persons an offense.

Revenue and taxation committee reported favorably the Lackey tax equalization bill and reported unfavorably a similar measure by Patman.

Liquor traffic committee reported unfavorably the Stroder bill making intoxication of public school teachers and public officers and appearance of intoxicated persons unlawful, but the house voted to print a minority favorable report.

Referred to education committee concurrent resolution by Patman to place both branches on record as favoring sufficient appropriations to raise the per capita school apportionment to \$15.

Twenty-seven bills introduced coincident with governor's second message proposing additional legislation.

Austin, Tex.—The Bonham delinquent land tax bill was passed finally by the house Thursday with several new minor amendments. The vote was 73 to 33.

Wednesday's Senate Proceedings.

Austin, Tex.—Joint legislative committee began hearing on statements of Hull Youngblood, San Antonio, and held him in contempt when he refused to testify.

College budget after increasing Adopted Agricultural and Mechanical salaries to 1921 scale, approximately 20 per cent.

B. B. Sturgeon, Paris, former state senator, addressed the upper house on invitation.

Civil jurisprudence committee reported unfavorably Patterson quo warranto bill.

Passed finally Parr bill, appropriating \$15,000 to live stock sanitary commission for inspection work during present year.

Wednesday's House Proceedings.—Austin, Tex.—Passed finally judicial appropriation bill.

Postponed consideration of Smith delinquent tax bill.

Appropriations committee reported favorably school appropriation bill.

Three new bills introduced, including \$10,000,000 school appropriation by Loftin and for collection of delinquent levee improvement district taxes by Melson and Stewart of Reeves.

Tuesday's Senate Proceedings.—Austin, Tex.—Adopted University of Texas budget in appropriations bill, with minor changes.

Adopted resolution, relieving Texas Employers' Insurance Association of requirements of investigation report adopted by regular session.

Resolution in memory of the late Thomas M. Campbell, former governor, unanimously adopted.

Officially notified by governor of resignation and acceptance of same of Senator R. M. Dudley of El Paso.

Investigation committee on statements of Hull Youngblood subpoenaed; San Antonio real estate man to appear before it Wednesday.

Tuesday's House Proceedings.—Austin, Tex.—Passed to engrossment Bonham delinquent land tax bill.

Adopted senate concurrent resolution, expressing opposition to the interstate commerce commission's proposal for consolidation of railroads.

Defeated attempt to recall acceptance of invitation to visit Eastland county oil fields.

Adopted senate concurrent resolution of respect to late T. M. Campbell, former governor.

Committees reported favorably the Stroder bill, making the carrying of arms by liquor law violators a felony; reported unfavorably two minor revenue measures.

Four new bills introduced, including Pope proposal to extend text book contracts in effect December 1, 1922. Patman measure, giving prosecution right to argue that defendant failed to testify in his own behalf, and Harris bill, to reduce free text book fund by limiting expenditures to \$1.50 per scholastic.

Monday's Senate Proceedings.—Austin, Tex.—Joint legislative committee began investigation of charges alleged to have been made by Hull Youngblood, San Antonio, before a San Antonio club.

Passed judiciary appropriation bill totaling \$3,300,000.

Set for special order Tuesday educational appropriation bill.

Adopted concurrent resolution calling upon Governor Neff to issue a proclamation designating May 1 as Bird and Wild Flower Conservation Day.

Declined to adopt concurrent resolution by Pollard rescinding action in accepting invitation to tour oil fields of Eastland and Stephens counties.

Monday's House Proceedings.—Austin, Tex.—Sent quo warranto bill to senate when it reconsidered and tabled vote by which bill was passed finally.

Passed finally: Abney bill to close by injunction hotels permitting liquor law violations, gambling or prostitution, after amending to include country clubs and garages.

Passed finally: Smith inheritance tax bill, the tax rate varying with the nature of the inheritance.

Passed finally: Emergency appropriation of \$52,377.98 for adjutant general's department.

Committee reported favorably two liquor bills.

Four bills introduced, including Teer anti-technicality bill and Moore measure reducing appropriation for flood control and reclamation survey from \$600,000 to \$200,000, eliminating reclamation engineer from provisions.

Four measures introduced, including eleemosynary and emergency appropriation bills.

RAISING COLT BY HAND HARD WORK

Sometimes Necessary on Average Farm Where Mother Fails to Supply Milk Needed.

COW'S MILK IS SUBSTITUTE

When Not Rich in Butterfat It Should Be Diluted With About One-Fourth Fresh Water—Add Table-spoonful of Sugar.

(Prepared by the United States Department of Agriculture.)

Raising a colt by hand, sometimes necessary on the average farm when the mother fails to provide enough milk for the foal, is not a job for the careless and indifferent. On the other hand, says the United States Department of Agriculture, it requires patience, painstaking care, perseverance, judgment, and cleanliness.

Cow's milk furnishes a logical substitute for mare's milk, but as the composition is somewhat different, certain changes or modifications are necessary in order that the supplied diet be not too dissimilar from the natural. The following table gives the average composition of the two kinds of milk:

	Water	Protein	Fat	Sugar	Ash
Cow's milk, 87.17	1.55	2.85	4.58		
Mare's milk, 86.75	1.99	1.21	5.67		

Mixture Favored for Colt.—Milk from as fresh a cow as possible and which is not rich in butterfat should be diluted with one-fourth with fresh water. A tablespoonful of sugar and about three teaspoonfuls of lime-water should be added for each pint. This mixture should be supplied to the colt at about body temperature.

A bottle with a rubber nipple, or even a finger of a kid glove with a fair-sized hole in it fitted over the end of a spout of a vessel, such as a teapot, will serve as a convenient utensil in getting the foal to take the milk. If the finger of a kid glove is used it should be clean.

At first about one-half a cupful of milk should be given every hour, the quantity to be increased slightly and the intervals to be lengthened gradually as the foal grows older. In about two months skimmed milk may be substituted for whole milk, and in addition, one of the following rations should be fed: One part flaxseed meal boiled to a jelly, and two or three parts bran; or two parts ground oats, one part cornmeal, and one-half part flaxseed meal; or two parts bran, two parts cornmeal, and one part oil meal.

Feed a double handful a day to start with, and increase the amount gradually.

Keep Uterus Clean.—The vessel in which the milk is supplied should be scalded thoroughly each time it is used. Unclean receptacles for the milk and irregular intervals for feeding likely will cause scours. The quarters should be very clean and the orphaned foal should have company of some kind. Another foal is desirable, but even a calf is better than no company. A grassy paddock with abundant shade, fresh water, and protection from flies increase the orphan's chance of proper development.

ECONOMICAL FEED FOR SOWS

If Abundance of Pasture is Available Animals Can Be Fed Cheaply During Summer.

A brood sow, from the time she is bred until she farrows, can be fed a very economical ration during the summer time if an abundance of alfalfa or other good pasture is available and she can be fed almost as cheaply during the winter season if part of her ration consists of a good quality of alfalfa hay. Such a sow can be wintered on one pound of corn per hundredweight daily if the grain is supplemented with all the alfalfa hay she can eat. In the corn belt this is probably the most economical ration a man can use, especially at the present price of corn.

BOWEL TROUBLES OF CHICKS

Prevention by Using Eggs From Non-infected Flock is Wiseest Course for Poultryman.

There is no cure for bacillary white diarrhea in chicks. The only remedy is prevention by setting eggs from non-infected flocks. Sanitation will help control an outbreak. Chicks will be kept from picking up infected droppings by keeping the incubator dark from the time the chicks are hatched until they are removed to the brooder. Separating the chicks into small lots will help and frequent cleaning and disinfecting of the quarters are important.

DUST BATH DESTROYS PESTS

Lice and Mites Are More Troublesome in Wet Weather—Wood Ashes Are Satisfactory.

Lice and mites are more troublesome in the flock in damp weather for the reason that no dust can be found. If wet weather prevents your chickens from getting a dust bath, place a box in a dry place. Use clean wood ashes if no dust is obtainable. Coal ashes with the clinders screened out will answer. Add a small amount of insect powder to the ashes.

After Every Meal

WRIGLEY'S

and give your stomach a lift. Provides "the bit of sweet" in beneficial form.

Helps to cleanse the teeth and keep them healthy.

Good to the last drop

Nothing but many years of coffee experience could give the housekeeper her calm confidence in the unvarying flavor of Maxwell House.

Divorce a Cancer in the Vitals of American Life Needing the Knife

By JOSEPH MORSCHAUSER, New York Supreme Court.

I BELIEVE abolition of divorce should be brought about by congressional legislation and constitutional amendment. But that is a long way ahead because there are unfortunately so many middle-aged and elderly men—and some young ones—who for one reason or other want no wives.

But one great practical step that should be taken immediately is passage of legislation making decrees obtained in Paris or elsewhere, invalid. It is all wrong to let a rich man or woman run off to Paris to get a divorce. We should not allow a condition to exist, which permits wealthy Americans to flee from the operation of American laws.

I believe in the single standard of morals, that a man guilty of immorality should receive the same condemnation from the law and from society as a woman. Divorce is a cancer in the vitals of American life sorely needing the knife. From my experience on the bench I know that half way reforms are ineffective. The only way to cure the evil of divorce is to completely abolish divorce.

The assertion that the abolition of divorce would promote immorality is all nonsense. It would have no such effect. Its tendency in every way would be to protect the home. There used to be as much immorality as there is today. Only you did not hear so much about it. The newspapers did not print so much about it. I favor this sort of thing. I would have every divorce case tried in the open. This publicity has had much to do with the disgust which is widely felt towards divorce today.

The Wisconsin Idea of Good Roads Has Always Been to "Serve Traffic"

By J. T. DONAGHEY, Wisconsin Highway Commission.

The "Wisconsin idea" from the very beginning has been to "serve traffic." The patrol maintenance plan, adopted in 1918, improved upon from year to year, and extended to include additional county highways each year, has certainly "served traffic" better and satisfied the public to a greater degree than the expenditure of the same amount of money each year in constructing a few miles of high type surfacing would have done.

After five years of patrol maintenance we find that the following conditions prevail: Every town, city or village in the state is on a well-maintained and marked highway. Traffic is distributed over a large mileage, reducing congestion on many highways.

The average speed of traffic has been increased at least ten miles per hour, resulting in time saving beyond computation.

It is difficult to estimate the total amount spent in Wisconsin by tourists. From the most accurate data available we are confident that it now exceeds \$100,000,000 annually.

"Opportunity to Dedicate Ourselves Anew to the Ideals of Peace"

By CHARLES E. HUGHES, Cable to Pan-American Conference.

At a time when we witness the economic dislocations, the waste and impoverishment, and the distrust and hatred that have resulted from the World War, we have abundant reasons to congratulate our peoples that peace reigns in this hemisphere, and the meeting of this conference affords a welcome opportunity to dedicate ourselves anew to the ideals of peace.

All problems find solution among those who desire to be friendly and just, and the present imperative demand of civilization itself is that nations shall set themselves, with all the resources of their intelligence and skill to the elimination of sources of controversy, and shall earnestly and diligently seek, for their manifold ills, the cures which can only be found in friendship and good faith.

There are happily no controversies among us that cannot be settled by the processes of reason. No interest is cherished which could prompt aggression. There is no nation among us which entertains any ambition which runs counter to the aspirations of our free peoples.

A "Parliamentary Impertinence"—Senate Proposal to Take West Indies

By LORD BURNHAM, British Empire Press Union.

A debate in the United States senate was raised by Senator Reed of Missouri, in which he and a few others advocated the purchase of the British West Indies by the government of the United States, or rather their appropriation as a part payment of the war debt.

There is no member of the British parliament who believes more entirely in the saving virtues of the Anglo-American friendship than I do; in fact I look to something less tepid than our present relations, good though they be; but all this talk of the sale and barter of the West Indian islands is a parliamentary impertinence. Happily there is no great power, no responsible society in the United States that takes it seriously.

There are certain subjects that should be tabooed in the governing bodies of the English-speaking states, and the sale and barter of organized communities of our fellow citizens, entitled to the same rights and privileges of the British commonwealth, is one of them.

Bank Failures Not Due to Violations of the Law Have Been Very Rare

By THOMAS P. KANE, in "Romance and Tragedy of Banking."

Bank failures that have not been due to violations of law are very rare, and if every officer and director of a bank should be true to his oath of office, temporary suspensions occasionally might become necessary under extraordinary conditions, but insolvency would not intervene, and the creditors and stockholders would not suffer loss.

Because, if the officers and directors of the bank restrict the loans to any one individual or interest to the limit fixed by law, and do not undertake to circumvent its restrictions by indirect methods, the loss upon any single loan would not be sufficient to affect seriously the bank or impair its solvency.

It is the excessive loan, no matter in what form it may be made, that does the damage, and no officer or director can make such a loan, directly or indirectly, without violating his oath of office and inviting the consequences that follow.

Bugles Blow! Proud the homage we show!

Our "Unknown One," His battle won, Sleeps well in stately "Place in Sun," Columbia's son, In Arlington, is shrouded with Lincoln, Washington.

But, Oh, Oh, If his Mother could know!

By JOHN DICKINSON SHERMAN

ELLLO, good Americans all, regardless of sex, race, class or creed! Have you remembered that the second Sunday in May is Mother's Day? Well, it is, this year, and every year, by act of the Congress of the United States of America.

"Fly your Flag!" Then put a carnation in your lapel and you have started Mother's Day right.

If your mother is where you can lay hands on her, tell her you love her—and prove it.

If she isn't, telephone her; telegraph her, write her—if you don't go and visit her.

And if your mother has gone where you may some day join her—if you deserve it—do something that you know would please her—something worthy of her and of the day.

Mother's Day originated with Miss Anna Jarvis of Philadelphia, and it was celebrated by several cities in 1910. An act of Congress in 1914 authorized the President to designate by annual proclamation the second Sunday of May as Mother's Day, and to request the display of the American flag on government buildings and private homes.

Mother's Day is set apart for special observance in honor of the home and motherhood. Its purpose is to recall the memories of mothers who have gone; to brighten the lives of those who remain; to stimulate men, women and children to honor home and parents. It is to be observed by acts of kindness to mother and father; by service in churches of all creeds, and by wearing a white carnation—emblem of the purity, beauty, fidelity and strength of mother love.

There is a Mother's Day International association, with headquarters in Philadelphia, which aims to make men and women realize their individual responsibility to right the wrongs of motherhood and childhood; in the name of mother to inspire men to carry forward work for the home which will promote the brotherhood of man, and to perpetuate and strengthen family ties by the establishment and observance of the day in all countries.

Christmas Day—he it said in all

reverence—is doubtless in a way a Mother's Day to every woman. Sings "Iris" in "From Pillar to Post."

His advent seems a thing apart, Yet Love each day is bringing Glad news. Each mother, in her heart, "Magnificat" is singing.

Your little son upon your breast Is God's dear child as truly As Jesus was, when angels blessed The baby savior newly.

The well-known human heart is a curious thing, as has been said times too numerous to mention. Now, here's "P. D. Gog" in "A Line o' Type o' Two"—from the signature it's fair to assume that he's a little, old, dried-up, highbrow professor:

Their old-fashioned sweetness, Their simple perfect beauty, Somehow reminded me of Mother, I bowed my face in their exquisite fragrance.

And tenderly caressed their soft petals With my cheeks and my lips, And then the pent up longing of my heart, Bedewed the lilacs with tear-pearls Which glistened in the morning sun. Mother! Oh, Mother!

Now, suppose the lilacs that "P. D. Gog" remembered so fondly bordered the path to a certain kitchen door. If so, it's a fair guess that the next moment he was smiling through his tears as he remembered himself, a husky, low-browed youngster, crying out: "Oh, gody! Maw, kin I have a dramstick?"

One of the things that is worrying the sociologists these days is the disappearance in the cities of the old-fashioned home. This is an age of apartments and of dwellers who get their meals anywhere except at home. In such a scheme of existence a nearby delicatessen shop is, of course, an advantage. But, incidentally and accidentally, one wishes much for a vocabulary that could do justice to the emotions aroused by a delicatessen shop in the man who has memories of an old-fashioned kitchen and of "pies like mother used to make."

The Chicago Daily News recently reprinted from Eugene Field's famous "Column" of September 14, 1888, the story called "Col. Gates, Director." It purports to be told by a passenger in 1867 in the one sleeper of a train on the "Han'bu'nd St. Jo'." The porter notified the passengers to be careful not to snore, as Col. Elijah Gates, a director, was aboard. Then a woman with a baby got on. There was no bunk for her, but the porter allowed her to sit back by the stove. Then the baby began to cry. Col. 'Lly Gates heaved himself out of his bunk and pompously informed the young woman that she must keep the child quiet. But the child kept on crying, and a second time the colonel went marching down the aisle and admonished the young woman. But the baby still cried, and then the colonel charged down upon the young woman for the third time. Here's the

rest of the story as Eugene Field told it:

"Look-a-here, my good woman," sez he to the young woman with the baby, "As I wur tellin' you afore you must do sumpin' to keep that child quiet. It'll never do to keep all these folks awake like this. They've paid for a good night's sleep 'nd it's my duty as a director of the Han'bu'nd St. Jo' to perst agin' this disturbance. I've raised a family of 'leven children, 'nd I know as well as I know anythink that that child is hungry. No child ever cries like that when it isn't hungry, so I insist on your nursin' it and givin' us peace and quiet."

Then the young woman began to snifle.

"Law me, sir," sez the young woman, "I ain't the baby's mother—I'm only jest tendin' it."

The colonel got pretty mad then; his face got red 'nd his voice kind uv trembled.

"Where is its mother?" sez the colonel. "Why isn't she here, takin' care uv this hungry 'nd cryin' child like she ought to be?"

"She's in the front car, sir," sez the young woman, chokin' up. "She's in the front car—in a box, dead; we're takin' the body 'nd the baby back home."

The colonel didn't wait for no second thought, he jest reached out his big hand 'nd he sez: "Young woman, gif me that baby," sez it so quiet 'nd so gentle like that it wuz the baby's mother that wuz speakin'."

The colonel took the baby and—now maybe you won't believe me—the colonel held that baby 'nd rocked it in his arms 'nd talked to it like it had been his own child. And the baby seemed to know that it lay agin' a lovin' heart, for when it heard the ol' man's kind voice 'nd saw his smilin' face 'nd felt the soothin' rockin' of his arms the baby stopped its grievin' and cryin' 'nd cuddled up close to the colonel's breast 'nd begun to coo and laff.

The colonel called the nigger, "Jim," sez he, "you go ahead 'nd tell the conductor to stop the train at the first farm house. We've got to have some milk for this child—some warm milk with sugar into it; I hain't raised a family of 'leven children for nothin'."

The baby didn't cry no more that night; leastwise we didn't hear it if it did cry. And what if it had heard it? Blessed if I don't think that every last one uv us would have got up to help tend that lonesome little thing.

Recovering.

"Tell me, John, have you read my new book?"

"Yes, but I feel a trifle better by now."—Copenhagen Klod-Hans.

on the occasion of the latter's defeat. The French emperor, in admiration of the courage displayed by his vanquished opponent, presented him with a handsome gold clock and wrote a letter of appreciation to go with it.

The clock passed through various hands after the death of General Mack, and had been bought in Berlin, with the authenticating letter, by an American collector. The collector lost his wallet, containing the letter, while on his way to his home in San Francisco.

—The Outlook.

Count Zeppelin, it will be remembered, was a millionaire. Frau Krupp a billionaire many times over.

Collector in Hard Luck.

Appropos of Napoleon, a curious footnote to the history of the famous conqueror appeared in a New York paper under the heading, "Asks Police to Find Napoleon's Letter." The loser of the letter described it as having been written by Napoleon on August 18, 1805, to the Austrian general, Mack,

Hughes Joins in Fight for Court

Washington.—Participation by the United States in a permanent court of international justice was advocated Friday by Secretary Hughes in an address before the American Society of International Law as indispensable to any plan for the prevention of war and the promotion of peace.

"Whatever else we should have," Mr. Hughes declared, "we need at once a permanent court of international justice. No plan to promote peace can dispense with it. We shall make no progress toward the prevention of war if we adopt a perfectionist policy."

Among the "actual needs" for a world court the secretary cited the requirement of the nation for such a tribunal as a means of disposing of "its own controversies" and judicially adjusting international disputes. Excluding means of arbitration, he said, "leave much to be desired." He declared the court "an establishment separate from the league (of nations), having a distinct legal status created by an independent organic act."

LOSSES BY FIRE IN TEXAS IN MARCH TOTAL \$346,145

Austin, Tex.—During March 196 fires, with an aggregate loss of \$346,145, were reported to the state fire marshal. The report just issued does not show the losses for any of the larger cities except Houston.

The loss under the classification "Unknown," as usual, leads all other classes, with defective wiring a close second. Thirty-four fires from unknown causes were reported, with an aggregate loss of \$116,365. Fires originating from defective wiring totaled 18, with loss of \$84,154. Six incendiary fires, with \$8,200 loss, were reported.

Cigars or cigarettes caused six fires, with a loss of \$4,646. Matches caused six fires, with loss of \$1,572. Explosions resulted in five fires, with loss of \$31,685. Classifications of other fires are as follows:

Defective flue 29, loss \$12,501; sparks on roof 20, loss \$988; overheated stove or pipe 17, loss \$9,665; oil stove or lamp 15, loss \$23,008; adjoining building six, loss \$6,208; trash, oily rags or ashes five, loss \$1,767; iron four, loss \$4,079; gas stove or heater or leaky gas connections three, loss \$1,595; machinery two, loss \$1,595; spontaneous combustion one, loss \$1,893; sparks from railroad train one, loss \$8,763.

TO FIX BOUNDARY LINE OF TEXAS-OKLAHOMA

Henrietta, Tex.—Colonel Arthur A. Stiles of Austin, state reclamation engineer, has begun work at Henrietta on a survey being made by the state and federal governments on the boundary between Texas and Oklahoma.

According to Colonel Stiles, the work consists of the establishment of various base points upon which to join all surveys along the boundary. Though a precise form of surveying is necessary, the engineer says it consists of points, not lines. Each point, of which half will be in Texas and half in Oklahoma, will be marked with a concrete base bearing a bronze tablet with the inscription of the United States coast and geodetic survey. A severe penalty is imposed for disturbing these marks.

Colonel Stiles said that a surveying crew of twelve men is in the field and that within a few weeks thirty-six men will be used to complete the survey.

Urges Government to Buy Land.

Washington.—Purchase by the government of 81,000,000 acres of waste land, unavailable for agricultural purposes to be used in growing timber, has been suggested by Representative Davey, democrat, of Ohio, to Chairman McNary of the senate reforestation committee. In a letter made public this week Mr. Davey also advocated federal supervision of the cutting of timber to prevent waste, material changes in both national and state taxation as it affects reforestation and the creation of game and bird preserves in the national forests.

Total Acreage of World's Grapes.

Berlin.—Approximately 24,816,599 acres of the world's surface are covered with vineyards, according to a grape growers' trade journal issued in Berlin. Europe contains 92.7 per cent of the total acreage. Italy has more vineyards than any other country, its plots running to 42.82 per cent of all vineyards in the world. Spain ranks second with 18.4 per cent, then France with 15.5 per cent, while Germany at the present time has only .78 per cent.

Cattle Dipping Started.

Brackettville, Tex.—Cattle dipping is now well under way and county inspectors are receiving co-operation of all stock owners. The cattle are all in fine condition, as ranges are in the best condition they have been for years.

Portugal Ratifies Treaty.

Washington.—Advice received Friday by the state department from Lisbon, Portugal, said the Portuguese government had ratified the two nine-power treaties negotiated by the Washington armaments conference. This ratification completes the approval by the respective powers of the armaments conference conventions with the single exception of France. State department officials believe, however, that France will ratify the treaties "in due course."

MRS. W. T. COOPER GAINS 25 POUNDS

Declares Tanlac Made Life Worth Living for Her.

Among the thousands of Texas people who are praising Tanlac for the return of health, strength and happiness is Mrs. W. T. Cooper, esteemed resident of 2517 Ross Ave., Fort Worth, who says:

"Tanlac made life worth living, and gratitude makes me want to let everyone know about it. I came out of the dengue fever with a loss of twenty pounds and so weak and nervous I couldn't go. My appetite left and sleep was almost impossible.

"As a matter of fact, when I began taking Tanlac, I didn't think I could ever be well again. But I am able to do all my housework, look after my chickens and work my garden. I have gained twenty-five pounds and never felt better. I couldn't do otherwise than praise Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.—Advertisement.

Sister Safe.

A clerk in an East Broad street office started his employer the other day by rushing into his private sanctum and declaring: "We had a fire at our house last night and all of my sister's hair was burned."

"Good heavens," exclaimed the boss, "was she badly hurt?"

"No, not a bit. She wasn't there, so she don't know about it yet."—Columbus Dispatch.

GET RID OF THAT COLD

Cleanse your system of the poisonous germs which cause Colds, Influenza, La Grippe, Fevers, etc., with BOND'S LIVER PILLS. One Pill at bedtime always brings prompt relief. Only 25c at all druggists. Refuse substitutes.—Advertisement.

Parisian Modiste Rewards Help.

Every year one of the famous Parisian dressmakers allows each of his women employees to choose a dress and have it made up according to her own taste.

There is many a good man leading a dog's life just because he grows too much.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Grove's Tasteless Chill Tonic Is an Excellent Tonic for Women and Children. 60c

GREEN MOUNTAIN ASTHMA COMPOUND

quickly relieves the distressing paroxysms. Used for 50 years and result of long experience in treatment of throat and lung diseases by Dr. J. H. Guild. FREE TRIAL BOX. Treatise on Asthma, its cause, treatment, etc., sent upon request. 5c and \$1.00 at druggists. J. H. GUILD CO., RUPERT, VT.

Tutt's Pills FOR CONSTIPATION

ITCH! Money back without question if MENTHOL BALVE fails in the treatment of ITCH, ECZEMA, RINGWORM, TETTER or other itching skin diseases. Price 25c. At Druggists, or direct from A. S. Sargent's Salve Co., Sharon, Vt. W. N. U., HOUSTON, NO. 18-1922.

LIFE'S LITTLE JESTS

NEW KNOWLEDGE
Former Sergeant Snodgrass and Ditto Private Whipper hadn't seen each other for a couple of years until they joined the same legion post. They gathered in a corner to reminisce.
"Do you still dream your old dream about getting a government farm?" asked Snodgrass.
"Yes," replied Whipper, sadly. "But now when I dream it, I've got sense enough to know I'm asleep."

BETTER WITHOUT

"I asked her to kiss me, without avail."
"You were right to stipulate that. Kissing through a veil spoils half the fun."
Dazzled.
Jewels move a woman's mind. So the poet said. And, it might be added, They also turn her head.
Just Think About It.
"Well, it's almost time to begin thinking about going fishing."
"I didn't know you were a fisherman. I don't remember ever seeing you on a stream."
"I don't go fishing, but this is the time of year I like to think about it."
No Need of Hurry.
Georgette—Oh, look, Ludwig, we are right under the mistletoe!
Ludwig—I know it, darling, but I couldn't kiss you now because it would be taking an unfair advantage of you. There will be plenty of time for that after we are engaged.

The Effect.
Aunt Lucy—You shouldn't allow the men to kiss you. It's not only un lady-like but highly insubstantial.
Phillips—That doesn't scare me. Every time I've been kissed I think I never felt better in my life.

On Second Thought.
He—Did you ever think of getting married?
Shy Co-ed—It's never entered my mind.
"I'm sorry. Don't bother."
"Just a minute. You've started me thinking."

Aboard the Good Ship Ark.
Skipper: Nephew—What creature wrecked this stateroom?
Mr. Monk—The kangaroo, sir. The dog was teaching him to wag his tail.

Art Interference.
"Do you take music lessons?"
"No," replied the little girl; "mother says my practicing interferes with the phonograph."

Heard at the Show.
"That actress' lines are very uninteresting. Why do they applaud her?"
"For her outlines, my boy."

THAT'S NOT THE SAME
Hubby: I've told you time and again that your extravagance will drive me crazy.
Wife: And you used to be so happy when you told me my beauty drove you crazy.
Mulings of a Motor Cop.
"Hortense Magee, please marry me!" said I. But she protested.
"How could one wish your bride to be whom you have just arrested?"
An Indiscreet Remark.
"I'll never tell another man that I'd rather dance than eat."
"Why not?"
"He kept me dancing until all the cafes were closed."

Better Field.
"Where did you get that sledge of fine furs?"
"My lecture on the pole didn't go in New York."
"Well?"
"So I've been lecturing on 'New York in the Arctic.'"

Filters or Grounders.
"You're foolish to marry a woman who has money. She will always be throwing it up to you."
"I don't care in what direction she throws it, so long as I get it."

FAVORS TIGHTENING IMMIGRATION LAWS

Labor Supply and Wages Discussed at Length by State Officials.

Austin, Tex.—Commissioner of Agriculture George B. Terrell Friday, discussing immigration, labor supply and wages, said the immigration law should be "tightened rather than loosened," and that increased wages is a hopeful sign of business revival. His statement follows:

"E. H. Gary, head of the Steel Trust, and the United States Chamber of Commerce, representing 'big business,' are demanding that the immigration act of May 19, 1921, as amended by resolution No. 55 of May 11, 1922, be 'loosened up,' and that more immigrants be admitted to this country in order to furnish big business cheaper labor. The president and some of his cabinet are lending listening ears to this demand. Those who want America for Americans must be on their guard."

"The operation of the present immigration act for only a short time has been very beneficial, and is contributing cause of the increase of wages and business revival."
"For the year closing June 30, 1921, under the operation of the old immigration law, 865,228 immigrants were admitted to this country, and for the year closing June 30, 1922, under the new law, only 309,556 immigrants were admitted—about half a million less."

"By prescribing quotas to be admitted from the different countries the law has kept out many undesirable. The quotas of immigrants allowed by law were not filled from England, Ireland, France, Germany, Norway and Sweden, and undesirable immigrants from other countries should not be admitted. If this law should be modified by increasing the quotas from certain countries, it would bring in a horde of cheap, undesirable laborers and reduce the present rising scale of wages, to the detriment of all American laborers."
"Representative Johnson, chairman of the house immigration committee, and Representative Box, a member of the committee from Texas, are opposed to 'loosening' the law, but are in favor of 'tightening' it, and I agree with them. We have more foreigners in this country now than we can easily assimilate, and we should see that they are 100 per cent American before others of the same type are admitted."
"I want to see more jobs filled by Americans and fewer filled by hyphenated aliens, who bring their bolshevik ideas and bomb-throwing inclinations to this country, before we admit others of this type to discredit organized labor and weaken American ideals. There is no real scarcity of labor in this country. There is a scarcity of very cheap labor, and I hope such scarcity will always exist."

"The commissioner of agriculture and the commissioner of labor of this state have watched the labor supply and the demand for labor, and we have had some applications from persons wanting to get employment and fewer applications from those desiring to employ labor, and practically no applications from farmers wanting to employ labor; so there has been no labor shortage in this state. There has been some emigration of Mexicans from Texas, and negroes from states east of Texas to the north, but it will not prove detrimental to the South, and will teach the North a lesson that they will learn in no other way."

"The recent increase of wages by the steel trust, the packing companies, the lumber companies, textile mills and other industries is the most hopeful sign of business revival that has appeared on the horizon for some time. Good wages means good business, and laborers can be found to do the work when they are paid good wages."

"Henry Ford can always get plenty of labor, because he pays the highest wages of any industry, and he never has a strike. This ought to be an object lesson to those wanting cheap labor, as Ford makes as much money as any of them, and has no strikes or interruptions of business."

Bernhardt's Home Sale.
Paris.—Sarah Bernhardt's books, pictures and furniture, the things she loved, many of them given her by notable, are soon to be sold at public auction. She had gathered many art works in her remarkably furnished home, and her library was particularly attractive.

Resume Planting in Jackson County.
Edna, Tex.—Many of the Jackson County farmers are contemplating resuming planting. Once planting is started again, it will be rushed, as the season has been very backward and practically no cotton and very little corn is up.

Belgium Floats Loan.
Brussels.—Belgium is floating a loan of 1,000,000,000 francs, the proceeds of which will be applied to the reconstruction of damage caused by the war. The nation's net circulation is now 6,858,000,000 francs.

Hallstern in Oklahoma.
Coweta, Okla.—A negro was beaten into unconsciousness, one horse killed and thousands of dollars damage done to property and crops by hail, some of which measured six inches in circumference, which fell Friday.

CORNELL GRAPPLERS DEFEAT NAVY IN TOURNAMENT

MacWilliams (Cornell) getting behind Ray (Navy) on the mat in the 115-pound class, at the recent wrestling tournament in Troy, N. Y., when Cornell scored 13 to the Navy's 11.

Clenched Teeth Act as Shock Absorber

Johnny Coulon, former bantam-weight champion of the world, brought up the subject of teeth in connection with boxing during a recent fanning bee.
Coulon also has a fine set of choppers. "I always considered my teeth an asset to me while I was boxing," Johnny said. "Take a look at them as I clench them, and tell me if you can find any unevenness about them. I discounted the effect of many a hard wallop by gritting my teeth as it landed."
"You see, tightly clenched teeth act as a shock absorber and lessen the impact. On the contrary, when a boxer has uneven teeth his jaws are likely to be loose and the shock of a blow jabs them together. Then, also, the mouth and lips are easily cut, and this is a great drawback."

Loren Murchison.
Loren Murchison, sprinter, created a new world record for sixty yards at the indoor meet of the Millrose A. A., held at Madison Square Garden, New York. Murchison established figures of six and two-fifths seconds for sixty yards, lowering the old record, made in 1882 by Lon Meyers, by a fifth of a second.

Bobby Wallace Puts in 24 Busy Seasons

Very few professional baseball players ever will approach the record of Rhoderick J. Wallace, who starred first in the National league, then in the American, was manager and then umpire before his 24-year career closed.
"Bobby," as he is better known, is nearing his fiftieth year. He broke into baseball in 1884 as a member of the Cleveland Nationals. He wound up his active career in 1918 with the St. Louis Browns. In 1922 he managed Muskogee of the Southwestern association.

Amateur Rowing Meet to Be Held on Aug. 3

The National Association of Amateur Oarsmen will meet in their annual rowing races at Baltimore August 3 and 4. The international senior four-oared shell race will be dropped from the program this year. In its place a senior 140-pound sculls race will be held. In future regattas any member of a college varsity crew will be classified as a senior oarsman if he enters a national regatta race. The new rule will also apply to junior varsity eight-oared crews. In the past only members of winning varsity eight-oared crews were classified as seniors.

Bill Aims to Limit Price of Admission

A bill which is about to be introduced into the New York state legislature will prohibit any club charging more than \$5 for the best seat for a regular show and limit the price to \$7 for any championship battle. According to men well informed in boxing circles here, if such a bill is passed, it will mean that New Jersey will be the scene of most of the big battles. While in New Jersey boxing is limited to twelve rounds without a decision it is felt that Jersey may become the center of boxing.

Fournier With Semipro.
Jacques Fournier, former first baseman for the St. Louis Cardinals, may play with the Central White Sox, a semiprofessional team, this season.

New \$100,000 Gymnasium.
Presbyterian college of South Carolina at Clinton will construct a \$100,000 gymnasium. Work will start in the near future.

Sporting Squibs of All Kinds

Razzing the umpire is one form of a "pan" American gathering.
In other words, pneumonia is not caused by basketball but in spite of it.
Lafayette college, Easton, Pa., will occupy its new \$300,000 gym in the fall.
Chicago and Ohio State have entered a five-year football agreement.
Yale will meet Notre Dame in a track meet at New Haven, Conn., May 11.

Harry Coveleski, the former Philly southpaw, is a policeman in Shamokin, Pa.

Record for receipts for a soccer game, \$95,000, was established in 1921 at Tottenham.

Baseball is displacing bull fighting in Mexico, where the national sport is proving too tame.

After playing 1,350 games in 11 years with the White Sox, Catcher Ray Schaik is still a headliner.

Connie Mack has a team better fitted for championship play than any he has produced since 1914.

Ex-Tennis Champion Bill Johnson advises learners to play often as a means of mastering the game.

It might also be added that after leaving Detroit Hale became a convert to the large, loose-fitting mitt.

What the world needs is a few who know as much as the sophomore and baseball rookie think they do.

That the Davis cup competition has become the real world's tennis classic is shown by the record entry list.

Louisville park will have seating capacity of 14,000 with accommodations for 2,000 in the bleachers.

George Walsh will be among swimming experts from this country to try the English channel swim this summer.

The Boston Red Sox have released Harold (Pink) Wilson, recruit southpaw, to the Beaumont club of the Texas League.

British experts explain that American golf supremacy has been established through incessant practice and superior putting.

Eugene Mayl of Dayton, O., was elected captain of Notre Dame's 1924 basketball team. Mayl was a guard on this year's squad.

Prominent families of Danville are donating sections to the new stadium which Centre college has planned to construct for use in the fall.

MORE GOLF COURSES IS GENERAL DEMAND

Over Million Tickets Were Issued in 1922 to Enthusiasts of Game in Chicago.
The pressing need of more golf courses to supply the demands of the increasing army of golfers was shown by the compilation of the numbers of golfers who played over Chicago's links during 1922. While more than 1,000,000 tickets were issued, starters said three or four times as many would have been in demand if there had been room for play.

The courses were crowded from dawn to dusk from earliest spring to latest fall, and players were sent out in fours, so close to each other that two or three foursomes were on each hole. The largest number were accommodated at the 18-hole links in Jackson park, where 124,584 players teed off, or 5,000 a day from March to December. This required the starting of four players every five minutes from 6 a. m. until 5 p. m. on the average.

The dearth of links in proportion to players has started the building of nearly a dozen pro-rata courses in Chicago, where the golfer may pay as he plays, without the formality of joining a club. These courses cost the golfer somewhat more in cartfare and fees; but do not require much more time, for he is able to play on arrival, and cover the course in half the time he takes on congested links.

Plans are already under way in Chicago to build a score more pro-rata links, and the forest preserve commission, with room for 50 additional links, is planning a half-dozen for the near future.

The largest play on any private links in the world was that at the Olympia Fields club, Chicago, which, with three 18-hole courses, took care of 60,000 golfers in 1922. It was estimated that the other 65 private golf clubs in Chicago provided for some 100,000 golfers last year, these courses lying idle most of the day except week-ends and holidays.

Vincent Richards

Vincent Richards, the youthful American tennis star, played an exhibition game on the courts of the Princess hotel, Bermuda, with Hon. F. M. B. Fisher of New Zealand. Richards won the first two and only two sets played by a score of 6-0 and 12-0.

Cleveland to Experiment With Full-Blooded Indian

Cleveland this year is going to experiment with a full-blooded redskin from the Huron tribe. The latest Indian to break into the big leagues is a left-hander, and the combination of wrong-handedness and Indian blood should produce some colorful moments in the life of Manager "Spoke" Speaker, player-manager of the Cleveland Indians. Moses Yellowhorse, the Indian twirler with Pittsburgh last season, will play out on the coast this year, as he went West in the deal for Kunk.

One Club Not Enough.
Ira Thomas and the millionaire oil men associated with him in ownership of the Shreveport Texas league club have more money than they can spend. They also have bought a controlling interest in the Meridia club of the Cotton States league.

Spekes Release Galley.
Tom Galley, recruit outfielder, has been released by the Cleveland baseball club to the Lakeland club of the Florida State league.

Cornell Not Captain.
C. H. Capron will captain Cornell's varsity basketball team next year.

Texas News

The contract for surfacing state highway No. 3 between Borden and Weimar has been awarded. The project is eight miles in length.

Work on the construction of the new home of the First State Bank of Columbus is well under way.

The \$150,000 bond issue for the Eagle Lake Independent School District was carried by a vote of 264 to 111.

Special school tax elections have been ordered by the Orange County commissioners court for Duncan's Woods and McLeister school districts for June 2, when the property owners will vote on a 75-cent special school tax.

Thirty-six cars of onions have been shipped from Willacy County to date and the full crop is not yet harvested. Of this amount five cars were shipped from Lyford, 27 cars from Raymondville and four cars from Sebastia.

Farmers near Tenaha have been taking advantage of the recent good weather and are rushing planting. The cold killed the first crop of strawberries and the berry crop will be three weeks late, but prospects for a late crop are good.

The onion growers of the Pearsall section began harvesting their crops this week. It is estimated that the yield will be the lightest in the history of onion growing in the section, due to the cold and heavy rains which retarded their growth.

The Washington County Memorial association has been organized for the purpose of raising funds to erect a handsome monument at Prairie Lea cemetery, near Brenham, to the memory of Washington County soldiers who died in the World War.

In an election held at Nixon, 170 votes were cast against the issuance of the \$75,000 bond issue for school building purposes, while 172 votes were in favor of such issuance. The school building will be erected before the beginning of the next term.

The El Paso and Southwestern railroad has received from the Interstate commerce commission permission to issue \$5,955,000 in refunding mortgage bonds. The securities will be exchanged for a like amount of outstanding bonds, which fell due in January.

A report issued to date for April by the Texas City Terminal Railway Co. shows the following shipment at the Port of Texas City: Vessels due to arrive during the next seven days, 16; vessels arrived in port last seven days, nine; vessels sailed during last seven days, nine.

The Texas Ginners' Association, in session at Dallas, Friday elected W. M. Sellison of Goliad by acclamation president for the coming year and later, by a rising vote, B. F. Wilkerson of Ferris was elected vice president. Secretary C. B. Hunt also succeeded himself in office.

Repairs on the Brazos River bridge on the Hempstead-Bellville road have been resumed and it is expected that the bridge will be open for traffic in thirty days. The bridge was damaged during the overflows last spring by the caving in of the banks on the Austin County side of the river.

Tomatoes and cucumbers should be moving from the Aransas Pass vicinity in carload quantities between the 5th and 10th of May. The cucumber crop is about ten days late on account of the late freeze. Squash and beans are now on the market. There are about 1,000 acres planted to truck in and around Ingleside and Aransas Pass. Prospects are bright for a good movement, with better than average prices.

Dates for the convention of the Texas department, American Legion, to be held in Galveston, have been fixed by the state executive committee for Aug. 28, 29 and 30.

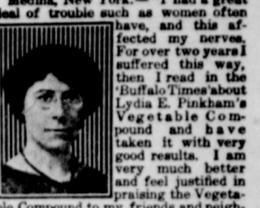

The Texas Chamber of Commerce will promote a \$100,000 advertising campaign to place before the country at large the industrial activities and possibilities of Texas, its officials declared this week. The committee in charge, headed by F. C. Clemens of Houston, is represented by every established industry of the state.

An invitation extended to the Thirty-sixth Division Association by State Adjutant General Thomas D. Barton to hold the annual convention of the organization this year at Austin has been accepted by members of the San Antonio department at a meeting held recently in San Antonio. Unless objections are made by other departments of the association, it was stated that the convention would be held at the Capital City on July 21 and 22. The invitation of General Barton included the use of tents at Camp Mabury for delegates of the convention.

Nineteen Spaniards and one Cuban will be deported on the Spanish steamship Cadiz by Galveston immigration authorities, according to an announcement made Friday by officials of E. Sevilla & Son, local agents for the vessel. The Spaniards, brought to Galveston for deportation recently by El Paso immigration officers, will be sent to Barcelona. The Cuban will be landed at Havana. Four Portuguese will also be deported on the steamship Dio when the vessel sails for Oporto. A number of Italians were deported last week to Italy.

WOMAN SICK TWO YEARS

Caused by Troubles Women Often Have—Relieved by Lydia E. Pinkham's Vegetable Compound

Medina, New York.—"I had a great deal of trouble such as women often have, and this affected my nerves. For over two years I suffered this way, then I read in the 'Buffalo Times' about Lydia E. Pinkham's Vegetable Compound and have taken it with very good results. I am very much better and feel justified in praising the Vegetable Compound to my friends and neighbors who suffer from anything of the kind."—Mrs. Wm. H. Adams, 311 Erie Road, Medina, N. Y.

Feels Like Girl Sixteen
Rochester, N. Y.—"After my twin girls were born I was all run-down. My neighbors thought I was going to die. I saw your advertisement in the paper and bought Lydia E. Pinkham's Vegetable Compound. The first bottle helped me and I kept on taking it. I only weighed ninety pounds when I began taking it, and I have gained in weight and feel like a girl of sixteen. I never can say enough for Lydia E. Pinkham's Vegetable Compound."—Mrs. NELLIE DORNEY, 16 Skuse Paris, Rochester, N. Y.

Safe instant relief from CORNS

One minute—and the pain of that corn is gone! That's what Dr. Scholl's Zino-pads do—relieve. They remove the cause—pressure, and heal the irritation. They put a mild salicylic acid on the corn, so that it will come out. They are made of a soft, absorbent material. They are safe, and they are sure. Get a box today at your druggist's or shoe dealer's.

DE Scholl's Zino-pads

Made in the laboratory of Dr. Scholl's Zino-pads, Inc., makers of Dr. Scholl's Foot Care and Foot Pain Relief. Put one on—the pain is gone!

16799 DIED

in New York City alone from kidney trouble last year. Don't allow yourself to become a victim by neglecting pains and aches. Guard against trouble by taking LATHROP'S GOLD MEDAL HAARLEM OIL CAPSULES.

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Holland's national remedy since 1696. All druggists, three sizes. Guaranteed. Look for the name Gold Medal on every box and accept no imitation.

Funny Story Not His Forte.
President J. J. Hernet of the Nickel Plate road makes a reply which is humorous in itself:

"I have yours suggesting a funny story. Frankly, I am so serious that I wouldn't recognize one if I met it on the street. If I should perchance hear one I probably would forget it before I left the room."
"Would like to meet your wishes, but don't seem to have the material!"
—New York Herald.

Better Than Pills For Liver Ills
The reason *Natur's Remedy* is better than pills is because it is a natural product of nature. It is a vegetable compound and is safe for all ages. It is a natural product of nature and is safe for all ages. It is a vegetable compound and is safe for all ages.

Your Hair
Need not be thin or streaked with gray. Use *Natur's Remedy* for hair. It is a natural product of nature and is safe for all ages. It is a vegetable compound and is safe for all ages.

IF SICK TODAY! TAKE NO CALOMEL

"Dodson's Liver Tone" Straightens You Up Better Than Salivating, Dangerous Calomel and Doesn't Upset You—Don't Lose a Day's Work—Read Guarantee

I discovered a vegetable compound that does the work of dangerous, sickening calomel and I want every reader of this paper to buy a bottle for a few cents and if it doesn't straighten you up better and quicker than salivating calomel just go back to the store and get your money back.

Along the north shore of Cuba, near the sea at its eastern end, in three areas which formerly appeared to be simply expanses of barren ferruginous soil, recent exploration and test have shown that there exist deposits of a very pure iron ore, amounting to 2,000,000,000 or 3,000,000,000 tons. When deprived of the large percentage of water which it contains, this ore will yield from 40 to 45 per cent of iron. Ore from this source has already been exported to the United States.

Iron From Cuba.

Some Squad.
First Coach—Why, I thought you said if your football team became vegetarians they would win all their games. How do you account for those they lost?

Second Coach—Why, the opposing team threw garden bugs on my team and they became afraid.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which quickly Relieves by local application, and the Internal Medicine, a Tonic, which assists in improving the General Health. Sold by Druggists for over 40 Years. F. J. Cheney & Co., Toledo, Ohio.

Baby's Stomach Was Puffed Up Tight With Gas

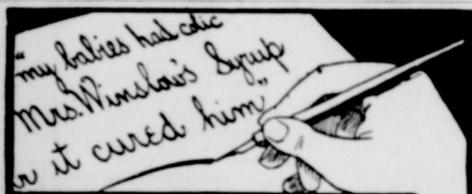

"I was fearful we were going to lose our little boy. He couldn't eat anything and his little stomach was all puffed up with gas and felt tight and hard. A neighbor told me about Teethina and I stopped everything else and gave him that and now he has 16 teeth and is the jolliest little fellow in the world," writes Mrs. C. E. Grimes, Colquitt, Ga.

Here is another striking instance where much suffering and anxiety could have been avoided had Mrs. Grimes known of Teethina and had given it at the first sign of trouble. Teethina is sold by leading druggists or send 30c to the Moffett Laboratories, Columbus, Ga. and receive a full size package and a free copy of Moffett's Illustrated Baby Book.—(Advertisement.)

Uncommon Sense . . .

By JOHN BLAKE

SALESMANSHIP

WHETHER you are taking orders for threshing machines or life insurance, or drawing a salary of ten dollars a week, you are a salesman. In the first instance you are selling somebody else's product. In the last you are selling your own.

You will sell threshing machines or life insurance faster if you know something about them, and believe in them.

You will sell your own services for a higher price if you believe in yourself.

If the merchandise you offer is not worth the price you ask for it, you can't be sincere in your efforts to dispose of it.

And if you do not absolutely know that your services are worth more than you are getting for them, you will never be able to get more.

All salesmanship that is worth anything is based on confidence. You will find it hard work to convince people of anything you do not believe yourself.

Before you make any effort to raise your own salary be sure that it ought to be raised.

Compare yourself with other people doing the same work for the same wages.

If they are better than you are at the job, don't ask for a raise until you have made yourself better than they are.

Your hands or your brains are the commodity you have to dispose of. Make them just as efficient, just as productive as you can.

Discover and eliminate the faults that keep them from doing their best.

Work, study, practice—bring yourself up to a higher point of usefulness. Then when you begin to talk about getting more money you will have an argument.

Believe in yourself thoroughly and other people will believe in you. But remember that you cannot sincerely believe in yourself unless you are convinced that you can really produce more than the other men who are doing the same kind of work.

France lost 10 per cent of its population in the war.

SCHOOL DAYS

From idle slumbers they call youth and point the way to honor and fame; from the valley of gloom they bid the despondent to look up to the glorious heavens; from the mire of sin they lift up the fallen, seeking no reward but the joy that is theirs from doing good.

They are neither silent nor neglectful when the ill and the discouraged need succor or sympathy.

Meek or lowly, they are the ministering angels from heaven, carrying to the sorrowing "good tidings of great joy."

Something to Think About

By F. A. WALKER

THE GREAT HEARTED

ONLY the great-hearted can be true friends.

All along the shadowed ways of life the great-hearted are constantly sending out sunlight and cheer, which humans of inferior natures can never know or bestow.

To do good, without having their motives suspected, is their grand intention. They seek no praise.

They move about with the quiet of summer breezes, leaving in their trail the delicious scent of gardens and the peace of tranquil skies.

In the happiness they give to others, they find a gratification rich beyond price. If but once in your life you should be fortunate enough to meet a great-hearted man or woman, the remembrance of it will linger in your mind until the end of your days.

Great hearts often dwell in lowly places. Sometimes they are found in frail bodies, poorly clad, but there is about them a radiance of spirit brighter than a thousand stars and clear as the humming of the noonday sun.

Great hearts blow to flame the spark that blazes with love; they espouse Truth and Mercy; they sing from morn till night of kindness and good will, when their days are lonely and their tables are bare.

They are neither silent nor neglectful when the ill and the discouraged need succor or sympathy.

Meek or lowly, they are the ministering angels from heaven, carrying to the sorrowing "good tidings of great joy."

RECIPES FOR RAREBITS

RAREBITS are not especially easy of digestion, should not be served to the children, and like souffles must be served at once when prepared.

Put Rarebit. Take one and one-half cupsful of milk, heat in a double boiler, then add one cupful of cheese and stir over low heat.

PHREW! Melt one tablespoonful of butter, add one cupful of cheese and one cupful of milk; when the cheese is melted add one cupful of mashed baked beans, one beaten egg, mustard, salt and cayenne to taste. Pour over hot toast.

Baked Bean Rarebit. Melt one tablespoonful of butter, add one cupful of cheese and one cupful of milk; when the cheese is melted add one cupful of mashed baked beans, one beaten egg, mustard, salt and cayenne to taste. Pour over hot toast.

First Tomato—What do the farmers do with the tomatoes they raise? Second Tomato—They eat all they can, and can all they can't.

WHAT DIES?

By DOUGLAS MALLOCH

WHAT dies? Most certainly the pine Will never die—descendants brave Maintain the old majestic line— The very oak above the grave Speaks Nature's continuity. What dies? Not, certainly, the tree.

What dies? The bud, the rose, the seed, Each has its time and has its turn. One needs his garden but to read Of life's eternity to learn. That every springtime will disclose. What dies? Not, certainly, the rose.

What dies? The sun will fade, the stars Come out, and then the stars will fade— But still the midnight has its Mars. The day will have its light and shade. The sun again when night is done. What dies? Not, certainly, the sun.

What dies? The river finds the sea, The sea the sky, the sky the hill— The hill shall give us presently The river from the mountain fill. With star and sun again to gleam. What dies? Not, certainly, the stream.

What dies? Shall only one thing die?— God's mind in human minds expressed? Shall tree and rose live on, and I Expire, this spark within my breast? Is death the end of all the plan? What dies? Not, certainly, the man!

Falsehoods Blacken House. In Turkey, when any man is the author of notorious falsehoods, they blacken the whole front of his house.

Drivers in Haate. Railroad crossing watchmen of 16 roads in and about Chicago last year reported 367 cases of careless driving at their crossings to the safety council. Of these reports 107, or 27 per cent, indicate that the drivers were in such haste to get over the tracks—to "beat the train to it," that they damaged the equipment provided to keep the crossings safe. Disregarding warning bells and the whistles of the watchmen, many of them kept going even after the crossing gates had started to descend. It is this type of driver that causes the safety engineer to tear his hair and have a moment of terrible doubt as to whether trying to save life is worth while.

Fifty Per Cent in Some Cases. In some cases the number of instances in which the gates were damaged amounts to more than 50 per cent. The Chicago and Western Indiana reported 30 cases, of which 17 resulted in damaged equipment, indicating that a driver tried to beat the gates. Of 93 cases reported by the Illinois Central, 35 showed damaged gates. Eight out of the 12 reported by the North Shore Electric line were "damaged gates."

The work of the safety council has done much to spread the "careful crossing" idea effectively. Railroad gatekeepers have been instructed by their officials to note the license number of any car driven carelessly at their crossings. These reports go to the safety council, which sends a letter to the car owner calling attention to his carelessness and asking for co-operation in reducing the number of railway crossing accidents and in promoting motor safety in general. The careless crossing evil is thus attacked at its source.

THE ROMANCE OF WORDS

"DUNCE" DURING the middle ages certain theologians were called "schoolmen" because they were taught in the cathedral schools and cloisters founded by Charlemagne and his successors. At first these men were revered and looked up to. Their writings were the court of last resort, their opinions, authoritative. Later, however, their works fell out of favor because the form of their speculations was unattractive and their works were not written in classical Latin.

There were some, though, who still clung to the teachings of the schoolmen in general and to the doctrines of one Duns Scotus, a great teacher of the Franciscan order, in particular. Whenever an adherent of the old learning would seek to bolster up his contentions by referring to the works of Scotus, his opponent would seek to silence him with the rejoinder: "Oh, you are a Dunsman" or, more briefly, "You are a Duns" an epithet of scorn which gradually found its way into the language with the slightly altered spelling "dunce". Thus it is that the name of one of the best known doctors of the church, admitted a keen and sharp-witted teacher, has been turned into a by-word for stupidity and obstinate dullness.

Stray Bits of Wisdom. Childhood is like a mirror which reflects in after-life the images first presented to it.—Samuel Butler.

COMBINE BOB SLED AND FLIVVER

The photograph shows a cross between a bob sled and a flivver. The blizzards and storms the past winter throughout the Middle West furnished the incentive for Dr. H. M. Blegen, at the left, and Andrew M. Anderson, right, of Warren, Minn., to seek some means of traveling over the snow-covered roads. The front wheels were removed and steel runners put in their place.

DRIVERS INJURE RAILROAD CATES

Motorists Begin to Realize There Is More Room Behind a Train Than in Front.

The great volume of propaganda directed at the evils of carelessness when a "Railroad Crossing—Stop, Look, Listen" sign looms up has brought most motorists to a realization that there is more room behind a train than before it. It is with something of a shock then that one reads a report of the Chicago safety council showing that 27 per cent of the motorists who approach railway crossings carelessly are so blindly impatient and foolhardy that they damage the crossing protection equipment provided in an effort to make the dangerous spots foolproof.

BE PREPARED FOR REPAIRING

One of Chief Factors in Doing Good Work of Any Kind—Equipment of Importance.

One of the principal factors in doing good work of any sort lies in being prepared for the job you are going to tackle. This is something the new car owner often fails to realize. You cannot properly wash a car, grind the valves, clean a spark plug or do any of the other jobs necessary for keeping the car in good order without being perfectly equipped for the work.

By degrees the car owner collects the equipment to enable him to finish each job he tackles in a workmanlike and satisfactory manner.

BEATING TRAIN TO CROSSING

Approximately 3,000 Autos Struck at Grade Crossings and 2,000 Persons Killed in 1922.

Approximately 3,000 automobiles were struck by trains at grade crossings during 1922, killing some 2,000 persons and disabling about 3,000 others. The driver of each of these cars figured he could beat the engine to the crossing.

REMEDY SLIPPING FAN BELT

Ingenious Motorist Overcomes Trouble by Applying Little Compound to the Surface.

One ingenious motorist who was troubled by a slipping belt cured the trouble by applying a little belt compound to the pulley surfaces. Belt compound, by the way, is a somewhat sticky substance that is used in machine shops, power plants and factories to insure the gripping of the pulley by the belt with sufficient force to transmit the power without slipping. Just a trifling amount of compound is enough for a fan belt. Often it may be obtained from a garage machine shop, but if not there it will be found almost anywhere that belts are used. Such a small amount is required that it is not worth while to buy a can of it.—Scientific American.

FACT AND FANCY

There was a man who fancied that By driving good and fast, He'd get his car across the track Before the train came past. He'd miss the engine by an inch And make the train crew sore. There was a man who fancied this, But—there isn't any more!

Door rattles can be eliminated by wedging small pieces of tin underneath the door bumpers. This is equivalent to inserting new rubber bumpers, only it requires far less trouble.

RUT-PROOF TIRE IS NOT ON ANY MARKET

Not Wise Plan for Automobile Driver to Follow Straight and Narrow Path With Car.

The old axiom about the advisability of following the straight and narrow path holds as good today as ever, but the autoist who interprets it as meaning that he should drive in ruts and car tracks will find it pretty expensive advice. A rut can be classed with flies, mosquitoes and other pests. It was made for no reason at all. Some men pick out ruts to drive in because it saves a certain amount of steering, but the law of compensation is an inexorable one, as the rut need soon discover when he finds his tires chewed to bits. It would be quite impossible to build a tire that could with any degree of truth be termed a rut-proof casing, because of the fact that the side wall cannot be made as heavy and inflexible as the tread. No great amount of re-enforcing material can be built upon the side wall of a tire. In rut running both the side walls become the tread as much as does that portion of the casing which was intended to come in contact with the road. In fact, in rut running the side walls, under such circumstances, are subjected to even more abuse than the tread, for the reason that the tread rolls over the surface of the ground, while the side walls are scrubbed and subjected to a side-swiping motion that very soon wears away a rubber tire. Of course, it is quite true that there are times when bad roads cannot be avoided or when conditions make it absolutely necessary to drop into a rut.—H. W. Slauson in Leslie's.

Door rattles can be eliminated by wedging small pieces of tin underneath the door bumpers. This is equivalent to inserting new rubber bumpers, only it requires far less trouble.

**Pretty Afternoon Frocks;
Depicts Ornate Handbags**

AFTERNOON frocks express a most exquisite mood in pastel-colored crepes. Quality, color and classic lines are the three graces which go to make up the charm of these ravishing gowns. Beauty undormed is the master touch, attained through manipulation of fabric. Cunning trickeries, such as pleating the edge rather than hemming, tucking, hemstitching, using milliner folds of the fabric in basket weave, making rosettes of self-material, find inter-

its mourning aspect with a strand of colorful beads, or fanciful pendent earrings, as are now the extreme of mode, or possibly a bit of a gay little kerchief caught in a ribbon wrist-band or tucked in the girdle just so. A real sensation in the way of accessories is making progress toward developing into a widespread fad, namely, bright colored, fanciful, low shoes, either to match the costume or to contrast. Imagine, if you please, the charming effects which the com-

CITRON-COLORED CREPE FROCK

pretation throughout the lovely monotone crepe frocks now so fashionable. Illustrating this mode, is the citron-colored crepe frock in the picture herewith. The draped skirt is typical of the mode, and the rosettes at the girdle are a trimming feature noticeable throughout this season's costumes.

Apricot, almond green, orchid, cyclamen pink, citron, twine color and rainbow combinations, also various

ing months hold in promise. A dainty handkerchief to match the colorful shoes, sets off a dark frock wonderfully. Pastel colored slippers with lingerie frocks or matched to light tinted crepe gowns, are also a forecast for this summer.

Chief among ornamental accessories are handbags and there are legions of either imported or domestic origin at disposal, not to mention the many beautiful ones "home made," and let

UNIQUE AND ORNATE HANDBAGS

subtle shades of hydrangea blue are featured in afternoon crepe or georgette frocks.

When in doubt, "plait the fabric" seems to be an accepted law in the styling of soft silken gowns, be they plain colored or figured. Apron front draperies find many admirers and the idea is carried out in interesting ways. A round apron is bordered about with a six-inch knife plaiting with a sash tie at the back. The home dressmaker could make this detachable, thus varying the style of the gown according to the occasion, that is, assuming it be worn over a straightline one-piece frock.

Intricate drawn work lends distinction to crepe costumes; in fact is really important among self-trims. With this rows of fancy feather-stitching are interspersed and many interesting designs are worked out in this way.

The introduction of lace yokes and sleeves matched in color to the silk crepe of the dress finds further elaboration in the addition of several flourishes of lace on the skirt portion.

It's the little things which count. A somber black dress is relieved of

not that word detract from their merit and charm. There is the advantage of individuality when the personal creative touch is imparted to one's costume. A very handsome bag can be fashioned by deft fingers from wide moire ribbon, corded and shirred as shown in the picture to the left. If one has the genius of the milliner, a hat of the same ribbon can be evolved, and this two-piece set will enhance the costume's appearance.

Two handsome bags are shown in this illustration centering interest in leather versus rich fabric. The mode to the left is black patent leather with cutouts revealing a white kid foundation.

Persian coloring and design are the charm of the heavy tapestry bag to the right.

Many of the newer beaded bags take to Egyptian motifs and colors. The design is usually set in a relief of color on a ground of steel or copper colored beads.

**BUNGALOW MAKES
HOSPITABLE HOME**

Simple Structural Design Gives It an Appeal All Its Own.

SUITABLE FOR FARM OR TOWN

Possibilities for Individual Treatment Are Afforded in Both Exterior and Interior—Good for Hot Climate.

By WILLIAM A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building. For the readers of this paper, in account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 152 Prairie Avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

This is a type of bungalow which is the outgrowth of typical American requirements, and suggests itself particularly for those localities where the sun is strong and hot over long intervals in summer. For this reason it should commend itself to the intending home owner in the warmer sections of the country. It would make an ideal small farm residence, and not because of looks alone, but because it is of fairly simple structural design which could be developed satisfactorily even where there was a lack of skilled building labor.

The front porch has necessities and

dent to ward off rain or heavy winds. A word as to the outer finish of this house may be timely. It will be observed that shingles have been used. Drop siding or ship lap could be used to good purpose, and staining would give a pleasing exterior, in combination with the white-painted trim.

Inside, a plain papered, painted or calicoed wall would be preferable for the living room. The small windows shown in the illustration merely represented the personal likes of the owner of this house. It would be more satisfactory were the windows to come to the usual length. With a fireplace of the colonial type, and which can be reasonably purchased in a stock design from most lumber dealers; casement windows bookcases at either side, cream-tinted walls, white moldings, baseboard, window and door trim, and mahogany-finished doors, and blue velours drapes at the windows, one could have a room which would be a really comfortable place to rest in. The same decorative treatment carried through the house, with a variation in the wall tinting of each room, would make it a never-ending source of pleasure to the occupants and an inviting, agreeable place for the visiting friend or guest.

STUCCO MAKES NEW HOUSES

Skillful Application Creates New Style—Hides Old Features of Design.

Standards of architecture have changed greatly in the last two or three decades. The overornamentation of past years is now replaced by simplicity of design. In most cases it is the exterior appearance of a house that no longer pleases.

In most cases the framework of

could be screened in to make an outdoor living room. From it we walk into the living room, a well-proportioned room, 13 feet by 23 feet, which has a fireplace flanked by built-in bookcases. More and more people are coming to realize the pleasure and advantage that comes from books, and it is encouraging to note the many recent plans which come to attention in which provision has been made for them. A book and a fireplace surely offer an appealing combination.

A colonnaded doorway leads off the living room to the dining room. Here the wall is set out a bit, gaining a few extra feet for the double windows, and making the room seem larger than the 13 feet by 12 feet it really is. Opening from the dining room is the kitchen. Observe the built-in conveniences

skeleton of the house is perfectly sound and capable of offering a habitation for many years, and, as a matter of fact, in many old structures we find materials and workmanship not duplicated in later-built houses. By judicious and intelligent remodeling, the old house can be brought to conform with the most modern ideals in appearance and style.

The means for retaining the old house, while changing and modernizing its outward appearance, lie in the use of portland cement stucco. In its essentials, remodeling with portland cement stucco merely means the overcoating of the old house with a layer of durable, fire-resistant and attractive portland cement stucco. At the same time, all extraneous and unnecessary ornamentation can be eliminated.

In the case of a wooden house, the walls, if in good condition, are not changed in any way; that is, the clapboards or shingles are left in place, a layer of metal lath stapled over them, and the stucco applied directly on the lath. Thus we are not changing the structure, but rather only adding an additional thickness, an "overcoat," that keeps the interior warm and lessens heating cost.

In some cases the trim around windows and doors must be added to bring them out to the new finish line of the stucco. When clapboard or shingles are in poor condition they are removed and the metal lath and stucco applied over the sheathing boards.

It must not be thought that stucco can be employed only for remodeling frame houses, since one of its most important uses is the overcoating and remodeling of old brick and stone houses. In houses built of these materials the walls, if in proper condition, may receive the stucco directly without the use of metal lath, that is, the stucco is plastered directly on the surface, and because of the nature of the stucco, it binds to the old wall surface and becomes practically a part of it.

Many of the old brownstone or sandstone houses are remodeled in this way. Not only does the stucco protect the soft natural stone, which may show signs of disintegration, but the whole appearance of the house is modernized.

The building, when remodeled with stucco, gains a distinctiveness and individuality which sets it apart from its neighbors, and these new qualities are bound to increase its renting or selling value.

In the remodeled house exactly the same texture finishes and wide variety of colors may be obtained as in new stucco work—in fact, to all outward appearance, if the remodeling is skillfully done, the house becomes a new one to such an extent that even the most expert eye cannot detect that an old house exists under the new surface.

Shocked the Old Dear.
He—But, my dear young woman, don't you ever wash?
She—No, only scrape and rub.
And there was no one to tell the dear old thing they were merely two artists discussing technical methods.—Boston Transcript.

**GARLIC NOT POPULAR
FLAVORING FOR MILK**

Dairymen With Infested Fields Familiar With Complaints.

Dairy Specialist of New Jersey College Has Helpful Recommendations to Offer—Cleanliness Is Great Factor.

Garlic is not a popular flavoring for milk, and the dairymen with his garlic-infested pastures is all too familiar with complaints that arise at this time of year about off-flavored milk.

Natural grassy flavors are palatable to most people, but even people who can eat the strong-smelling garlic straight down, object to swallowing it in their milk. Since so many pastures are infested with garlic and it is not so practicable to attempt to eradicate garlic in many of our permanent pastures, the dairymen is often confronted with the problem of how to pasture cows on garlic-infested pastures and still keep this flavor out of the milk.

This is often very difficult, but M. H. Keeney, dairy specialist of the New Jersey State Agricultural college, has the following helpful recommendations to offer. Bring the cows from the pasture from two to four hours before milking. Aerate the milk thoroughly and cool it to 50 degrees Fahrenheit as soon as milked. The milking should take place in a milk house separate from the stable. If these precautions are followed religiously the garlicy flavor can usually be controlled.

Another serious trouble, causing that "off" taste in milk is the high bacterial count which results in sour milk. Warm weather, of course, is conducive to the rapid souring of milk. This must be overcome by cooling the milk to 50 degrees Fahrenheit as soon as milked and holding it at a low temperature, 50 degrees or below, until it is delivered. Get a thermometer and check up on your temperatures.

Cleanliness is a paramount factor in the production of good milk. Clean stables, clean cows, clean utensils and clean men are all essential. Unless milk is clean when it leaves the stables, no amount of care thereafter can make it good milk.

FEED FOR DUCKS AND GEESE

Heavy Supply of Grain Not Necessary if Fowls Are Growing Rapidly on Good Pasture.

So long as the geese and ducks are growing rapidly it is not necessary to feed grain heavily, provided they have good pasture. Just enough grain to keep them strong and vigorous is all that they require. As they near maturity, and are to be fed for market the grain ration should be gradually increased until they are getting all that they will eat up twice per day. Old corn is the best feed for fattening geese.

MINERAL MIXTURE FOR HOGS

Essay Made by Mixing Charcoal or Wood Ashes, Lime, Common Salt and Copperas.

A good mineral mixture can be made on your own farm by mixing together two bushels of charcoal or wood ashes, one peck of air-slaked lime one peck of common salt, two pounds of copperas, and two pounds of sulphur. All of this mixture should be finely pulverized and thoroughly mixed together. This mixture can be put in a self-feeder or fed to hogs in a trough in the pen. Hogs will not eat enough to harm them any.

DUCKS FAVOR GRASSY SPOTS

Digestive Apparatus Not Fitted to Take Care of Grain—Fowls Also Require Grit.

Ducks graze like cattle, and should be kept in grassy lots. Their digestive apparatus is not suited for digesting grain, though they enjoy some once in a while. They should be fed twice a day on a mash feed the same as hens eat. Ducks will also require grit, oyster shell and charcoal, consuming nearly twice as much as the same number of chickens would eat.

CURE ALFALFA CROP SLOWLY

If Dried Too Fast Leaves Dry Faster Than Stems and Become Brittle, Closing Pores.

Alfalfa should be cured slowly and as much in the shade as possible. It should be air cured, as this method allows the water in the plant to pass out through the natural course, if dried too fast, the leaves dry faster than the stems and become brittle, thus closing the pores and retarding the evaporation of moisture in the stem.

FEED BROOD SOW LIBERALLY

Supply Plenty of Protein for Her Own Good and for Development of Her Pigs.

Feed the brood sow liberally. Give her plenty of protein for her own good and for the development of the embryo. Don't neglect the supply of mineral matter. Dry sows can be carried along on alfalfa hay, ear corn, and perhaps a little tankage.

Ask Your Dealer

ASK your local dealer to recommend a practical recolorator. If you are unable to secure one you can do the work yourself, tinting and stenciling your walls to give beautiful results.

Alabastine
Instead of Kalsomine or Wall Paper

Alabastine is a dry powder, mixes with cold water, directions on each package. Used on plaster, wall board and all wall surfaces. White and artistic, durable tints. Cross and circle printed in red on each package.

SPECIAL STENCIL OFFER
We will supply cut stencils to any user of Alabastine—one stencil for each room requiring not less than two packages, if you will send the large words ALABASTINE cut from the face of the packages over the cross and circle, accompanied by 15c in stamps or silver for each stencil desired, covering postage and packing. Write for free booklet, "Nature's Beautiful Tints."

Why She Became Man-Hater.
He was twelve and I was eleven. He invited me to a party and was going to take me home. He had on a new "palm beach" suit and I my Sunday organdie. Just as we were about to start for home it started to rain. Our hostess gave us an umbrella. We had not gone far when he ran away from me, with the umbrella. He was afraid he would get his new suit wet. Now I am a man-hater. Blame me?—Chicago Journal.

Patience No Word for It.
"It takes patience," says a boy safely through the smart age.
And longevity. The smart age usually begins at about five, and lasts until the boy finally leaves home to earn his own living. With a large number of boys it lasts much longer than that, but this fact is concealed from the parents by the absence of the sufferer. Marriage cures a respectable percentage; but many are immune even to this drastic treatment, and bear their chronic ailment until death.

The Specialist.
"But, man, he's insulted you?"
Prize Fighter—He can't insult me. When I fight I gets paid for it—good.—Life.

Often, also, a man is not as young as he looks.
A sitting hen may be a loafer, but she gets results.

Come One! Come All!
Clean Up!
and keep it up—
Make Your Town Spotless Town
Use **SAPOLIO**

"Miss Lily White will please stand up!"
But Phoebe upward wriggled:
"I'm Lily White—with Faultless Starch."
And all the Pupils giggled.

THE HUMAN CANCER

A CANCER IS ANYTHING THAT CORRUPTS OR DESTROYS—The human cancer of the worst type is the person who, although he was born in America, derides his government for this or that, makes slurring remarks about her institutions, and in a round way seeks to blacken the character of innocent citizens by repeating every little remark that they hear that is to their disadvantage. Men and women who should be above those things, by reason of their professed belief in God and man or by reason of their own indiscretions are the first to carry such tales of hearsay.

We have room in our hearts and community for those who want to live honestly and happily and help build up the community. We have room for the citizen who takes pride in his country, and its schools and churches and other institutions. But there isn't room here, and we hope before heaven there never will be, for the human cancer who seeks to distort or destroy the good institutions, character or good movements sheltered under the professed "Peace On Earth, Good Will Toward Man."

As a receipt for the benefit of all who would make our town not the "TOWN THAT GOD FORGOT" we offer the following poem:

HUSTLE AND GRIN

Smile and a world smiles with you;
 "Knock", and you go it alone;
 For the cheerful grin
 Will let you in
 Where the kicker is never known.
 Growl, and the way's look dreary;
 Laugh, and the path is bright;
 For a welcome smile
 Brings sunshine, while
 A frown shuts out the light.
 Sigh, and you "rake in" nothing;
 Work, and the prize is won,
 For the nerry man
 With backbone can
 By nothing be outdone.
 Hustle, and fortune awaits you;

A Hint to the Wise, Etc.

Why annoy your neighbor for the use of his Telephone when you can have one in your house for

\$2 Per Month?

Sanderson Telephone Company

Small Cars and the World's Most Popular Tire

The largest factory of its kind in the world is devoted solely to the production of Goodyear Tires, sizes 20x3, 30x3½, and 30x4. Isn't this immense production, day after day, a positive indication to you of Goodyear's high ability and honesty of purpose in building the best Clincher tire on the market. THINK IT OVER. These tires, as well as other sizes, are here for your inspection. They cost no more than ordinary tires. Our helpful tire service will increase your mileage. It costs you nothing and saves you money.

MUSSEY BROS.

Shirk, and defeat is sure;
 For there's no chance
 Of deliverance
 For the chap who can't endure.
 Sing and the world's harmonious,
 Grumble, and things go wrong;
 And all the time
 You are out of rhyme
 With the busy, bustling throng.
 Kick and there's trouble brewing,
 Whistle, and life is gay,
 And the world's in tune
 Like a day in June,
 And the clouds all melt away.

MEDICS ELECT COCHRAN PRESIDENT OF STUDENTS

Galveston, Texas, April 23.—Layton Cochran was elected president of the Students Association of the University School of Medicine the recent spring election held here.
 Other officers elected by the Medics include the following: Bain Leake, vice-president; Allen Shields, secretary-treasurer; C. A. Birdsong, editor of the Medical; Bill Williams, manager of the Medical; F. H. Lancaster, editor of the Medical section of the Cactus; James Terrell, manager of the Cactus section; Walter Karback, Nan L. Gilkerson and R. A. Keeseman, bookstore officials.
 Layton Cochran has a large number of friends in Sanderson that congratulate him on his recent election as president of the Students Association of the University of Medicine at Galveston and wish him success in his new office.

Mrs. Harry Bolin arrived home Thursday morning from Van Ormy. Her many friends are glad to welcome her back, and are more than pleased to hear that she has regained her health.

Ed Turner left Thursday morning for Del Rio where he will visit friends and relatives.

Your clothes will always look neat and clean if you have them pressed and cleaned at the Royal Tailor Shop. Phone No. 6, and we will call for your package and deliver when finished.

County court meets on next Monday, the 7th.

Steve Bodkin left Monday for El Paso to attend the Shriners convention there this week.

THE BORDER

By George Wilber Hawkins

Oh, Anglo-land is Anglo-land,
 And ever will be the same;
 And Aztec-land is Aztec-land,
 And ever will be the same;
 And Anglo-land and Aztec-land
 Will never understand,
 That Aztec-land and Anglo-land
 Can never be One Land;
 For Center-Line of Rio Grande
 Cuts the Two in twain;
 And North is One, and South is One,
 And that is ever so plain;
 But North and South of Line are Two,
 And ever will remain.

The Border, that's my name, far-flung and wide;
 I'm husband of a dusky Aztec Bride.
 We keep house from the mouth of Rio Grande,
 Zig-Zag West to Pacific's Golden Strand.

I am the Sunset Streak flung over-land
 The ribbon of the River and the Sand.

I am nick-named by some, "Belt of Sunshine;"
 And, then, by others, "Anglo-Aztec-Line."

I am a threshold, and on bedeful nights
 Departed Aztec souls troop in for flights,

Down the deep-carved gorge of the Rio Grande,
 Chased by ghosts of the Toltec Gods—the damned.

I am a hell across Columbia hurled;
 I am a haven, and a Heaven world.

My rivers roll down the rock and the sand;
 They grind the Rockies to make Delta Land.

My Conchos tears North through Old Mexico;
 My Rio Grande spays out New Mexico;

My Pecos slashes down through Tejas Land;
 My Devil roars on to the Rio Grande.

My San Pedro mops up the mucky sand;
 My Gila rollicks West through Desert Land;

My Colorado, minus ifs and buts,
 Snow-mad, rips out the Rocky Mountain's guts.

My rivers wont heed, and don't give a damn;
 They got a Big Contract from the Great I Am,

Some say about two million years ago,
 To fill the Gulfs of California and Mexico.

I am a land of work, no time to play;
 I hit the ball, sun or rain, night and day.

I am that place, beneath the shining sun,
 Where startling and colossal things are done.

I am, indeed, the Land that God forgot;
 I am a reckless, fearless, tempting spot;

My mountains gash the Everlasting Blue;
 And I'm a hell-of-a-place, Old or New.

I am the damndest Land you ever saw;
 And so myself, and by myself, I'm Law;

I am a mixture of the worst, the best;
 I'm damned by some, and then, by others blessed.

I'm made of mountains, mesas, cactus, brush,
 Of canyons, caves, and valleys filled with hush;

When you think you know me, then's when you don't;
 When you think you'll win me, then's when you won't.

Oh, Anglo-land is Anglo-land,
 And ever will be the same;
 And Aztec-land is Aztec-land,
 And ever will be the same;

And Anglo-land and Aztec-land Will never understand,
 That Aztec-land and Anglo-land Can never be One Land;
 For Center-Line of Rio Grande Cuts the Two in Twain;
 And North is One, and South is One,
 And that is ever so plain;
 But North and South of Line are Two,
 And ever will remain.

Church News of Sanderson

(This column is devoted to the interest of our churches and will be run each Saturday)

The Methodist Sunday School opened April 29th with a good attendance. It being Sunday school day, a program had been prepared and was well rendered by the pupils.

On Tuesday of this week, the Presiding Elder of the W. E. C. S. together with Bro. Bickley and Bro. H. Barton of Marfa were here. An excellent sermon by Rev. Barton was enjoyed by all present. The Presiding Elder followed with a short address. After benediction the business of the 3rd quarterly conference was attended to.

Rev. J. Bickley and family arrived on No. 110 Friday morning to take up their residence with our people. The ladies prepared dinner for them at the "parsonage," the home recently occupied by Mrs. Rachel.

Citizens of our town put in a supply of things needful in the parsonage, by a "pounding" last Thursday night. There was a large crowd present and a number of helpful articles brought.

Junior League met at usual time with pretty good attendance. Mrs. Schupbach being away, Mrs. Strange had charge of the League.

Senior League met at 7:30 and had a very good song service, April 29th.

The Junior League was entertained by a "Tackey" party at the home of Mrs. Strange, May 3rd, more about it in next week's issue.

Presbyterian Sunday School met at usual time April 29th, with 73 in attendance. It being the 5th Sunday no preaching in the morning. Bro. McMillan filled his pulpit at the evening service with an excellent sermon. There was a good attendance.

The Ladies Auxillary of the Presbyterian church met last Monday at the home of Mrs. Laurence. It was a social and business day. After business delightful refreshments were served, consisting of angel food cake, sandwiches, iced tea, olives and fruit salad. Hostesses were Mesdames Laurence, H. D. Williams, Stovell, and Robertson. All had a lovely time. A Bible contest was the feature of the evening. Mrs. MacCalmont giving the greater number of answer will be the honored guest at next circle gathering four weeks hence.

Next study meeting at church on the 7th of May.

Ladies of the Missionary Society of the Methodist church met as usual at the church with Mrs. N. Taylor as leader. Topic "The Living Christ in Korea." After the lesson the business of

"pounding" the preacher was discussed. This event took place Thursday night.

The ladies of the W. M. U. met at the home of Mrs. Strange on last Wednesday, (Bible study) Only 8 present. Let us do better next meeting. A good helpful lesson was enjoyed by those present.

NOTICE

We will start the Ice Wagon about May 10th. We are now making one delivery a day and all orders will be delivered if order is received at plant before 8 a.m.

You can buy Ice Company books at the office and save 10 per cent on your ice bill.
 Sanderson Ice, Water and Light Company.

Mrs. J. E. Landers is on the sick list this week.

Callie Stansell returned Wednesday from El Paso, where he took the Scottish Rites degree.

Mrs. Tarver returned home Monday, after a few days visit with her son Paul Tarver.

C. H. Mulkey and Steve Bodkin went to El Paso this week to assist in putting on the Scottish-Rites degree.

Theo. Corder made a business trip west this week.

DRYDEN NEWS
 (By our regular correspondent)

Mrs. J. M. Bassett and children returned Tuesday morning from El Paso where she has been visiting for several weeks.

Mrs. Latimer spent a few days in San Antonio this week.

Miss Elsie Chandler visited relatives and friends in Sanderson last week-end.

Misses Edna Anglin and Martha Thomas and Cap Mussey spent the week-end on the Banner ranch.

Willie Banner passed through Sunday on his way to Sanderson.

Mr. and Mrs. Lock were in from the ranch Tuesday.

Rev. McMillan of Alpine preached at the school house Monday night.

Julian M. Bassett and daughter left Tuesday for San Antonio.

Max Bogusch spent several days in El Paso this week where he took the Scottish-Rites degree.

Fireman Butler went to El Paso this week to take the Scottish-Rites degree.

The little son of Mr. and Mrs. C. E. Coyle is sick with pneumonia.

John Green is in El Paso this week taking the Scottish-Rites degree.

Dave Pollard is sporting around town this week in the first Star car in Sanderson.

OIL NEWS
 (The following is the latest oil news of this immediate territory.)
