SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepain, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe howel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepain." Dept. BB, Monticello, Minois, for free trial bottle.

#### SARGON NOW SMASHING ALL WORLD'S RECORDS

If anyone told you that one single medicine had relieved tens of thousands of suffering men and women in all walks of life of their health troubles and that it had put thousands of other men and women unable to find relief back to work, it would sound impossible, wouldn't it?

But that is just exactly what is happening right here in this state. Not only has it brought them new-found health and strength, but it has given them new energy, new vitality and a new lease on life itself. In many cases, the results have been so remarkable that many people have bought it and sent it to friends in other states, while other thousands have written grateful letters of praise.

The wonderful success that Sargon and Sargon Soft Mass Pills have achieved in only one year's time simply staggers the imagination.

In the state of Calfornia alone where it was introduced on April 16 of this year, it has required the astonishing total nine solid carloads-or more than 200,000 bottles to supply the demand. Kansas City retailers and wholesalers have sold and distributed over 300,000 bottles in the states this week. of Kansas and Missouri. Minneapolis and St. Paul dealers have required nine entire carloads in practically every state and section where Sargon has been introduced has been correspondingly large. When national distribution has been completed it day for San Antonio and Crystal visit friends and relatives for a lons of bottles to supply the ever tives. increasing demand for this celebrated medicine.

Back of Sargon's triumph in the drug stores is Sargon's triumph in the homes. Everywhere it has been introduced it has become a household word and it is unquestionable the most widely talked of medicine in the world today.

When Sargon was first given to the world just one year ago, it was hailed as a triumph in the field of modern medicine. Many well known authorities who watched its development freely predicted that it would become the one great outstanding, FOR SALE health-giving remedy of the age. But the men of science who labored years to perfect it little dreamed it would become such a great boon to humanity in so short a time.

Sargon may be obtained in Sanderson from the Sanderson Drug Company.

That night Jack awakens to find three men in the library. A fight ensues, in which one man is killed. Jack is certain one of the men is "Tou-tou." Jack and his friends find the hidden room.

#### CHAPTER IV-Continued

He took the electric torch, and dropped the sack of time down the hole in the fireplace. We climbed after it, one by one. The stairs continued worn on Memorial day, which is the to descend for another tifteen or twenty feet, and then raight and out. At sale is conducted by the American Le- the foot of the last step lay the body of the gypsy. Hugh was carrying the time sack so Nikka and I picked up the dead man, following Hugh, who

lighted the way with the torch. The passage was beautifully built, with an even floor, and wide enough for one man to walk comfortably. According to a compass on Nikka's watch chain, it trended across the park towards the ruins of the priory.

We estimated that we had walked a kilometer when we noticed a gradual upward slope in the flooring. The passage turned a corner, and the light of Hugh's torch was reflected on the rusty ironwork of wh.t once had been a massive door.

Of the wood only a pile of dust remained, cluttered about the broken lock; but the great binges still stretched across the path, upholding a ghostly barrier of bolted darkness. We deposited the dead gypsy on the floor, and helped Hugh to bend back the creaking iron frame. We stood on the threshold of a mausoleum similar to the one in which we had seen Lord Chesby laid to rest. Hugh stepped across the stone sill of the doorway. and swung the light back and forth between the pillars. Suddenly it glint-

"One feels indecent in being here." agreed Nikla.

Hugh frowned down upon the two skeletons.

"They wouldn't mind," he said. "We have a reason for coming." And while the ecooes had their will with his declaration, he led us slowly

around the circu't of the chamber. Niche followed olche. On shelf after shelf ia" the bones of men and women whose bodies rotted ages ago. Half way around we came to a shelf that held two skeletons. "It's Urch James' record," .aid Hugh. "After the exultation of plumbing the mystery to be murdered like a dog! Poor old chap!"

Last Thursday evening, in studying Lady Jane's dogsered on the back of the Instructions, I suddenly perceived the cipher. It occurred to me that the verse on the over-mantel in the gunroom must have some connection with this, and after several days' examination. I fell upon the secret. In my interest in the task, I had shut myself up and refused luncheon tea and dinner, and finally, late in the evening. I sank against the mantel-shelf, weak i sank against the mantel-shelf, weak and half fainting My hands groping for support, struck the sphinx's head and the monk's stomach. I felt them for support, struck the sphinx's head and the monk's stomach. I felt them and the monk's stomach. I felt them are that hunger was forgotten. I descended the chimney stairs and found myway here, the first Chesby to traverse the Prior's vent since that singular old ancestress of mine so effectually concealed it, the clew to the treasure. I do not see how I can fall to find the treasure, but I shall leave the missing half of the instructions, together with this note, in Lady Jane's chest, so that. half of the instructions, together with this note, in Lady Jane's chest, so that, if I should fail, the information may be available for Hugh. "This was what he tried to tell-a

"The soothsayers of my people would call it a sign, a premonition," replied Nikka, with a melancholy smile. "Of what?"

"Of the removal of whatever curse or inhibition has prevented the discovery of the treasure up to this time." "Well, two men have dled already since this last search was begun," an

swered Hugh, fumbling in the chest,

"And who knows bow many others

have been killed on its account?" He drew out a bundle wrapped in ecaying velvet cloth. Within was a wrapping of silk, and under all a folded blank sheet of parchment enveloping two other documents. One was a parchment, tattered and worn, which had evidently been much handled. Its surface was crowded with the same intricate Black Letter script in medie al Latin as comprised the Instructions on the Charter Chest. The writing was badly faded, and s number of words in the lower righthand corner had been smudged by

dampness at some remote time. The second document was a penciled translation of the first in James Chesby's handwriting:

The others agreed to this, and we read over the brief transcript of the missing half of the Instructions until we had the salient directions fixed in our minds. Then we retraced our steps through the passage, climbed out of the Prior's vent and sealed it again; and while Hugh and Nikka motored down to the village post office with the letter for Betty, Watkins and I saw to the necessary packing in preparation for the journey.

On the channel boat we had the ensation of being watched, although we could not have pointed to any persons and accused them of spying; and certainly none of the members of the of the Ptolemies used to swear by it, Hilyer house party was in evidence.

At Calais we passed the customs and passport officials expeditiously because both Hugh and Nikka were personages a long history. The ancient Greeks -a doubtful asset, as we were soon to learn. #### Dallas Lady Helped Mother Get Well

"Ten years ago I started giving mother Nature's Remedy and she has kept away her spells of constipation, indigestion, sick headaches and pains in the back ever since," says Mrs. Arthur Brown of 2903 Reiger St., in Dallas.

That's because those little Nature's Remedy (NR Tablets) soothe, sweeten, and stimulate the stomach and bowels. Then the starch and sugar wastes can't remain in your system to form those acids which bind the bowels, sour the stomach and rob the blood of the red corpuscles it must have plenty biliousness, headaches, indigest and rheumatism. You can get NR tablets in the 25c box at any drug store, More than three million are

This sense limitation is found among many living creatures, such as the earthworm, oyster and coral, etc., which possess no localized visual organ, but give proof of their tuminous impressions by the contractions that they manifest when exposed to a ray of sunlight. Similarly, it is easy to gauge the influence of light on plants. Cultivate a plant in a room with a window only on one side and its stalks in growing will incline toward the source of light. Physiologists explain this by suggesting that the
