

WEST-PYLE CO. RECEIVERSHIP IS CONTINUED

Receiver Is Authorized To Sell Livestock And Issue Notes

Upon application of H. I. Winfield receiver, Judge J. G. Montague Tuesday directed that an order be entered in 53rd district court authorizing him as receiver for the West-Pyle Cattle Co. to sell certain livestock belonging to the company to pay labor debts and operating expenses for the ranch and to issue and sell at not less than par 20 receiver's certificates of \$500 each, or a total of \$10,000, due in 180 days from date, proceeds of which are to be used to pay costs and expenses of the receivership and operating expenses of the ranch.

The receivership was continued pending appeal made by J. M. West of Houston. Another hearing is set for July 25 when further orders of the court may be necessary.

Winfield was appointed receiver of the two-million dollar ranch firm recently after T. M. Pyle and his sons, Buck and H. T. had filed suit for division of the property and application for receiver. The West-Pyle firm is composed of the above men and J. M. West of Houston. A meeting was held here Tuesday wherein efforts were made to reach an agreement on division of the property but no settlement was made.

The gigantic ranch of 330,000 acres running 8,000 head of cattle, 50 bulls, 6,000 calves, 400 horses and owning about 600 steers and heifers now on grass in Kansas is valued at \$2,150,000 in the plaintiffs' valuation. The suit asks that the partnership be ended legally, that an accounting be had and a partition of the properties be made. The ranch lies in Pecos, Brewster, Culberson and Hudspeth counties and is in the famous Highland Hereford country. The headquarters is near Lobo where there is a handsome stone residence. The ranch is divided into small pastures, has numerous water wells and brands its stock with a P Bar on the lower part of the left hind leg.

T. M. Pyle is joined in the suit by his sons, Forest B. Pyle and Horace T. Pyle who are associated with him in the conduct of the ranch. The suit sets forth that the partnership was dissolved January 19, 1932, says that J. M. West has abused the Pyles, says that he has threatened to dispossess Pyle from the ranches and says that as the financial agent for the ranch, West has made it impossible for the ranch to get credit for operations, even groceries. It further states that the ranch today owes about \$6,000 for current expenses for the months of January, February, March and April, and that it requires from \$1,000 to \$2,000 a month to operate it. It is further stated that West has refused to pay pasturage charge for cattle and that he would not advance money for shipment of cattle to northern grass, that the West Securities Company to which the ranch owes several hundred thousand dollars has threatened foreclosure and that Mr. West is the major stockholder in that company. Under the terms of the partnership, said the petition, Mr. West was to look after the financial part of the ranch while Mr. Pyle was to buy and sell and run the cattle on the range. He was to get \$200 a month and each of his sons \$100 a month, it is contended further.

The ranch is the second largest ranch in Texas. The largest is the King Ranch in South Texas.

T. M. Pyle is an old-timer. He was born in Blanco County, in the ranch country, in 1869. In 1885 he went up the trail with the John T. Lytle outfit and in 1890 he went to Clarendon where he established a ranch. In 1914 he sold his holdings and moved to Pecos County.—Fort Stockton Pioneer.

RIVER MURDER MYSTERY HAS BEEN SOLVED

Former Odessa Man Is Held And Charged With Murder

One of the Pecos River murder mysteries which baffled officers of this section during the early part of 1930, has apparently been solved with the arrest of Fred Moutray, formerly of McCaney and Odessa, according to news reports in the Fort Stockton paper of its July 15th issue.

Moutray was arrested in Tulsa, Okla., and returned to Fort Stockton week before last by Texas Rangers. On Tuesday of last week he was indicted by the Pecos Grand Jury charged with the murder of H. M. Poland, whose nude body was found in April 1930, in the Pecos river near the bridge on the Imperial-Grandfalls road. It was stripped of all clothing and it was only after pictures of the dead man were broadcast that he was identified.

It is charged that Fred Moutray, the man indicted here this week for Poland's murder, was seen with Poland's clothes and driving his Ford coupe about April 1. Poland's car was found in a garage at Sioux City, Iowa, several months after the murder. Moutray it is alleged, disappeared from Odessa about the time Poland's body was found. He was traced throughout the country and finally located at Tulsa, Oklahoma, the Pioneer states.

Robbery is said to have been the motive for Poland's murder. After the body was brought to Fort Stockton and identity established, a brother, Harry Poland, of Huntington W. Va., came to Fort Stockton and shipped the body there for burial.

County Highway Contract Let Last Friday

At their meeting held last Friday in Austin, the State Highway Commission let two contracts for work on the U. S. 90, "The Border Way." Two Bridges will be built in Uvalde County while grading and structure work will be done in this county.

Thompson and Simpson of San Angelo, were awarded the contract for 8.5 miles of grading and drainage structures. The work will start east of Dryden about 9.5 miles from there and go to about 18 miles southeast of Dryden. The amount of the contract bid was \$19,496. This is the same firm who did the grading and drainage structure on the Highway between this city and Fort Stockton and who have been doing the work on Highway 90 east of Langtry.

A bridge over the Sabin River in Uvalde County will be built by Kelley and Isaacs, Waco at their bid of \$33,776.

Missouri Valley Bridge and Iron Company, of Dallas, was the successful bidder for a Nueces River bridge in Uvalde to cost \$167,778. Contract for steel plans on the bridge was awarded to Petroleum Iron Works, Beaumont, on a bid of \$32,743.

The work will probably start within thirty days.

PRIMARY ELECTION TO BE HELD IN ALL VOTING PRECINCTS

In State and District Politics there is no day more important than July 23rd. On this date, through the Democratic Primaries all State and District Officials will be nominated. In so far as these officials are concerned, the November elections are, in effect, only ratifications and elections of the candidates nominated in the Democratic Primaries held on July 23.

The Terrell County Democratic Executive Committee advises that the Primary Election will be held in each Precinct of Terrell County on the 23rd, Inst., and it is to be hoped that a large vote will be polled.

MAKES HONOR ROLL

Among the sixteen pupils in the Uvalde schools who had a perfect attendance record during 1931-32 term, in that they were neither absent nor tardy during the entire school term, was Mary Mansfield, daughter of Mr. and Mrs. W. H. Mansfield former residents of this city and who are now spending the summer here. Mary also made the honor roll in the Uvalde schools the past year having made an average of "A" in her subjects.

Harry Newton and family motored to Del Rio Tuesday and returning they had the misfortune to break an axle making it necessary to return to Del Rio.

Maurice Speer came in Sunday from Tucson, Ariz., for a visit with his aunts, Mrs. Luella Lemons and Mrs. W. H. Mansfield and other relatives.

T. A. KINCAID RESIGNS AS ASSN. HEAD

"Financial Condition" Is Given As Reason For Decision

In a letter dated July 9 and addressed to Roger Gillis of Del Rio vice president of The Sheep and Goat Raisers' Association of Texas, T. A. Kincaid of Ozona, serving his eighth consecutive term as president of the association, tendered his resignation from the office and asked that a meeting of the executive committee be called immediately to accept the resignation.

His "financial condition" was given by Mr. Kincaid as the reason for his decision to resign from the post he has held for so many years. Copies of the letter were mailed to each member of the executive committee.

Acceptance or rejection of the president's resignation will rest with the executive committee. In the event the committee accepts the resignation, Mr. Gillis will succeed from the office of vice president to acting president and will direct affairs of the association until the next annual convention when officers will be elected for the following year.

Mr. Kincaid's letter to Mr. Gillis follows:

July 9th, 1932.
"Mr. Roger Gillis, Vice Pres. Sheep & Goat Raisers' Assn., Del Rio, Texas.

"Dear Sir:
"On account of my financial condition, I feel it would be an injustice to the Sheep & Goat Raisers' Association of Texas and to myself to serve as President of the Association under these circumstances.
"I therefore hand you herewith my resignation as President of the Association, said resignation to become effective immediately.

"I further suggest that you call the Executive Committee together immediately and take over the affairs.

"Yours very truly,
T. A. Kincaid.

Mrs. C. H. Arvin Suffers Injuries In Car Accident

As she was returning to her ranch home from this city Tuesday morning Mrs. C. H. Arvin suffered a sun stroke causing her to lose control of her Packard sedan which left the road and went into a steep ditch. The car was badly wrecked and Mrs. Arvin suffered severe bruises and shock. She was carried to her ranch home and a physician summoned. Reports from her bedside are that while she is suffering from shock which will confine her to her bed for several weeks, it is not thought that she is seriously injured.

The accident happened just a few miles the other side of Big Canyon Ranch where the Sheffield Road turns off from the main County Road.

With Mrs. Arvin at the time was Edward Reed Jr., of San Antonio who was not hurt but shook up.

SHORTEST WAY BACK TO NORMALCY

It is becoming increasingly evident that before there can be a return to normal conditions in business and industry there must be a reduction in working time to balance production and consumption.

Prosperity for all classes demands that the work-day and work-week be restricted to an extent that full use of manpower within the limits established will not produce more than that which can be purchased and consumed.

Wage-cutting is no solution for the present problem. No matter how cheaply articles can be produced unemployed men and women can not buy because they have nothing with which to purchase. It is patent that so long as these unemployed millions can not buy there can be no resumption of business and industry.

Domestic demands can not be artificially increased by wage reductions based upon the theory that lower production costs will increase the volume of business. Each salary or wage cut reduces purchasing power of the nation by just as much as the aggregate of such reductions. What is needed is to increase the ability of the workers to buy and consume rather than further restriction.

It is recognized as an inescapable economic law that wages in any industry must be within the ability to pay. But to lower wages to maintain unjustified profits or meet financial burdens which result from unnecessary expansion and speculative excesses is false economy. Universal establishment of the shorter work-day and work-week appears to be the shortest route to travel back to Normalcy.—The Editorial Digest.

VOTE FOR THEM ON THEIR MERITS

According to press dispatches, 527 candidates are seeking state and district offices, subject to the will of the voters next Saturday. Added to this, of course, are the thousands who are in the races for local offices in the 254 Texas counties. The campaign is figured to be one of the most extensive ever held in Texas.

One of the amusing things incident to the elections is the manner in which some of the candidates hope to get elected. Every conceivable device is being worked to sway the voters. Attempts have been made to create issues where there are no issues. The depression has served as an excuse for a volume of oratory that is meaningless and has no bearing on the duties of the office being sought after.

For instance, a candidate for some county office may speak at length about the iniquities of Wall Street bankers, the soldiers bonus, currency inflation or whatnot; whereas, if he were so inclined and so equipped he might give a concrete

plan for reducing expenses of the office he seeks, or perhaps outline a comprehensive plan for improving the efficiency of the office.

Many candidates running for state offices are emphasizing their stand on national prohibition. Yet national prohibition has no connection with the duties of a state office. If any change is made in the Eighteenth Amendment it must originate in the Congress and pass that body by a two-thirds vote of both houses before further action can be taken. Then it must be submitted to the state legislatures or state conventions for a three-fourths majority vote before it can be ratified. Many people prefer the convention method, which is looked upon favorably by congressmen. If Congress decides to submit the question of repeal to the states, the chances are that conventions will pass on the proposition. In that event, not even the state legislatures will have a hand in settling the prohibition question.

In the elections next Saturday a way has been provided for Democrats to express their attitude on prohibition. While the result can hardly be called an accurate test, it is nevertheless desirable that all qualified voters, where possible to go to the polls and declare themselves on this most perplexing problem.

In the meantime let us hope hungry office-seekers and thirsty politicians will quit trying to befuddle the public mind with false issues that befog and make complicated the orderly processes of government.—The Editorial Digest.

Tentative plans for the establishment of a paper mill in East Texas continue to be laid. Experiments have proven that cotton linters and wood pulp from young pine trees in the proportions of 10 and 90 per cent make a very satisfactory book paper. Young pine alone produces a good newsprint and old pine and rice and wheat straw make a good kraft paper. A lot of Texans believe paper mills will be one of the major industrial developments of Texas within the next decade.

An 80,000 barrel welded tank costing \$18,000 is being erected at Corpus Christi serving the oil fields northwest of that city.

New elevator units to be erected at Amarillo for the Wodley Grain Co. will give them a total capacity of 250,000 bushels of grain. Sanger Milling Co. is building a new elevator on the site of the old roller mill at Pilot Point.

A new lumber mill in Comal County will handle cedar, walnut and cypress timber and make a specialty of the cedar. Aromatic Red Cedar Co. is the name and Gruene Station is the location of the plant.

Universal Mills, Fort Worth, has secured permit for the construction of eight new elevator tanks with capacity of 272,000 bushels of grain. The new units will give that city a total elevator capacity of 15,272,000 bushels, claimed to be the largest of any city in the Southwest.

THIS AND THAT By JIMMINY

Texas Opinion, edited by a paid representative of certain Texas trusts, has given Calhoun headquarters "permission" to reprint some of the things he has said about Jimmie Allred in connection with the attorney general's race. Not that permission was necessary or that it would have been denied if it were necessary, but because it sounds more important. It always sounds bigger to have something done "by special permission of the copyright owners." It gives a distinct flavor to whatever has gone on before or is about to follow. In this case the flavor is more or less garlicky. It has a bad odor.

Not that it is wrong for a man to think or to say what he thinks. Every man should be given that right. But the man we admire is the one who thinks what is in his heart, not what is or may be in his pocketbook.

In this "special permission" circular, being broadcast over the state by Calhoun forces, the attorney general is accused of everything but discovery of the instein theory and writing the state's constitution—which, by the way, is not such a bad piece of paper after all. The chief criticism made against Allred is that he is carrying out a mandate handed him by the people, through constituted authorities, by prosecuting a few monopolistic oil companies for alleged violation of Texas' anti-trust laws. They do not, however, criticize the legislature for ordering the investigation that led up to filing of the suit, for which purpose \$30,000 was appropriated. Nor do they condemn the governor for signing the bill, or for the message he sent to the legislature, which said:

"In this day of combinations of capital and mergers of industries, the anti-trust laws of Texas have become of multiplied importance. Their enforcement must be looked after more scrupulously than at any time before in the history of the state. I compliment any effort of the attorney general in reference to this question. The House of Representatives is worthy of the congratulations of the people of Texas for passing the \$30,000 appropriation for the attorney general's department. I hope that the Senate will pass the bill at their earliest convenience. And I pledge to the attorney general the full cooperation of the entire executive department in relation to all activities pertaining to the enforcement of the anti-trust laws."

That in itself would seem to preclude any argument the trusts may have about the people not wanting the laws of this state enforced. The oil companies haven't been found guilty of any wrongdoing, yet they are telling their employes that the attorney general may be right, and to get out and work for Calhoun, on penalty of losing their jobs if he is right.

It's a great game—and to the winner goes the oil.

RECIPES AND MENUS

By Department of Home Economics, Texas State College for Women (C.I.A.)

DENTON, July 21.—The egg, because of its concentrated form of protein, mineral and vitamin content, has become the hero of the diet. The egg plays just as well the leading role in desserts as in breakfast dishes.

The egg is one of the dietitian's favorite dishes when preparing the invalid's diet. The value of poached egg, soft boiled or combined with orange juice cannot be over-emphasized.

The one thing to always keep in mind about the egg is that it must never be cooked too rapidly. Even the hard boiled egg is much more tender if simply left in boiling water for 30 minutes without addition of heat.

DAN M. JACKSON For CONGRESS

Write this name on your ballot for Congressman, 16th Congressional District, and SCRATCH THE NAME OF HIS OP-
PONENT, E. E. THOMASON.

Thomason voted AGAINST the Beck-Linthicum Bill in Congress last March, which provided for a vote of the people on the 18th Amendment.

Thomason voted to disfranchise the people on the prohibition question.

Thomason refused to state his stand on repeal until long AFTER Jackson's announcement for Congress on a positive repeal plank.

After the repeal plank was endorsed by the National Democratic Convention Thomason then agreed to support it. When modification of the Volstead Act was proposed Thomason immediately left for Texas. Will he stultify a long dry record for the price of office? Can he be trusted to represent the people after stredling this important issue? How does he stand?

Make sure of true representation by scratching his name off the ballot and inserting DAN M. JACKSON FOR CONGRESS.

BAPTISTS ADOPT RESOLUTIONS

Resolutions adopted July 12, 1932 by messengers from the Baptist churches in ten West Texas Counties:

Whereas: All the moral issues involved the matter of intemperance and the use of intoxicating liquors are brought to a crisis by the present attitude of our major political parties toward the Eighteenth Amendment and the Volstead Act; and

WHEREAS: We confess that in considerable measure the present lax attitude of much of the public toward intemperance and law enforcement is due to a lack of vigilance and moral emphasis on this matter by the churches during the past decade; therefore be it

RESOLVED: That this Worker's Conference of the Pecos Valley Baptist Association recall our people to a total abstinence from the use of all intoxicating liquors and lend themselves mightily to the support of all officers in the enforcement of all laws in general and of the prohibition laws in particular; and be it further

RESOLVED: That since from the infancy of our Republic until the present day the liquor traffic has consistently violated every law that has ever been enacted for its regulation or restraint that we place no confidence whatever in any promise that this traffic would observe, reverence or obey any new law or changes in our present laws that might be made for its regulation or control; and be it also

RESOLVED: That we reaffirm our allegiance to the 18th Amendment and the Volstead Act as the best means yet devised for the curbing of this terrible scourge of mankind; and be it finally

RESOLVED: That since the politicians have made the repeal of the 18th Amendment a paramount issue in these times of economic stress when economic problems might have been expected to be to the fore that we answer their challenge by entering the several elections with this purpose above all sentiment or political tradition or reverence for names of political alignments or personal preference among candidates that we will look first to the maintenance of our present prohibitory laws and the support of those candidates who stand for their maintenance, being determined that this formidable Goliath coming forward cursing in the name of all his false gods shall not have dominion over us.

We recommend that a copy of these resolutions be sent by the clerk of the association to all the local newspapers in these several counties. Adopted by the Conference, Ozona, July 12, 1932.

What's New In Salads?

HAVEN'T you served the same old salads in the same old way until you were secretly glad that people's appetites are like children's tastes? They like repetition in both foods and stories. But scientists tell us to diversify our eating and to be careful to train children to like a wide number of foods. And then there's your neighbor who, every now and then, serves some novelty in foods. Haven't you wanted to go her one better, and colored your brain for a still more brilliant recipe to serve? Hawaiian pineapple is always a resource, not only because it is one of the best fruits raised, but because there is so much of it this season that the price is lower than usual. Summer is the time for salads, so let's look over that old and see what new combinations have been recently devised. Did you ever hear of combining prunes, salted peanuts, cranberry sauce, maraschino cherries in mayonnaise and Hawaiian pineapple in a salad? There's a recent recipe for this combination, and its name is "Boj Salad," inspired, presumably, by the boys in which the cranberries grow. How about apricot halves, green gage plums, cottage cheese, ripe olives, green peppers, raisins and sliced pineapple? There's a recipe for this, too, and it belongs in the gay name of "Newage Salad."

Here Are the Recipes

But it's too late going on with a list of ingredients without giving you the recipes for these new combinations, so here are those for the two

we have mentioned and for several more beside:

Boj Salad: Cut the slices from a No. 2 1/2 can of Hawaiian pineapple in halves, and place, round side touching, in eight beds of lettuce. Stone sixteen cooked prunes, and fill with stiff cranberry sauce, leaving open at top to show the red. Place two on each salad, in the cavities formed by the hole in the pineapple slice. At the opposite sides pile stiff mayonnaise filled with chopped maraschino cherries. Sprinkle one-half cup salted peanuts over the tops of the eight salads.

Newage Salad: Chill the slices from a No. 2 1/2 can of Hawaiian pineapple, and place in eight lettuce nests. Drain and chill thirty-two canned green gage plums. Chill thirty-two canned apricot halves. Place four of each alternately around the pineapple. Pile cottage cheese in center, and make a salt crust effect of alternate strips of green pepper and raisins, topping with a ripe olive. Dress with French dressing made with the syrup from the plums and pineapple, instead of vinegar, adding a few chopped raisins.

Fruits with Cheese

Pineapple and Grapefruit Salad with Cheese Dressing: Drain two 8-ounce cans of Hawaiian pineapple tidbits for use one and one-half cups of sliced canned pineapple, and toss lightly with one cup grapefruit sections, one cup orange sections and one-half cup halved seeded grapes. Pile in lettuce leaves and pour over the following:

Cheese Dressing: Shake together six tablespoons salad oil, one table-

spoon lemon juice, one tablespoon syrup from the canned pineapple, salt and paprika. Smooth closely into four tablespoons crumbled Roquefort cheese, and add two tablespoons chopped raisins. This recipe serves eight.

California Salad: Place the slices from a No. 2 1/2 can of Hawaiian pineapple in crisp lettuce leaves. Cream together one package of cream cheese and one triangle Roquefort cheese, and add one-fourth cup raisins and one-fourth cup chopped dates. Pile lightly in center of pineapple and serve with mayonnaise lightly thinned with pineapple syrup. This serves eight.

Salads with Cider and Lime

Cider and Pineapple Jelly Salad: Dissolve one package lemon gelatin in one cup boiling water and add two tablespoons sugar. Add to contents of a No. 2 can of sliced Hawaiian pineapple and two-third cup diced apple, and when the mixture starts to set, fold in one-third cup mayonnaise. Mold in a loaf. Chill. Serve in slices on lettuce, and garnish with mayonnaise. This serves ten.

Jellied Pineapple-Lime Salad: Dissolve one package lime gelatin in three-fourths cup boiling water, and add the contents of a No. 2 can of crushed Hawaiian pineapple. When partly set, add one-half cup shredded blanched almonds, and mold in a flat tin. Cut in squares and serve on lettuce with cream mayonnaise garnished with a red and green cherry. Lay a cheese ball rolled in chopped mint or parsley at the side of each. This recipe serves eight to ten.

ON TEXAS FARMS

By W. H. DARROW Extension Service Editor

A total of 17,132 different farm families have been coached in better ways of home making, chiefly making the living at home, in 11 North Texas counties since last December. Home demonstration club women have extended the work of the county home demonstration agent in an attempt to help 85 per cent of the farm population this year. The same plan is working in all parts of Texas.

The Selkirk grace offered by Robert Burns at the request of the Earl of Selkirk nearly 200 years ago might well be adopted by many Texas farm families this year, particularly those having 4-H pantries. Said Burns: "Some haae meat, and canna eat. And some wad eat that want it; But we haae meat and we can eat, And sae the Lord be thankit."

A Bosque county farmer treated his seed oats for smut last year for six cents per acre and had no smut. A neighbor didn't and lost 18 per cent of his crop. In days of 10-cent oats this is small talk, but we note it in passing for the days ahead. After all, though, oats look just as good as ever to livestock. A few more bushels in the bin is not amiss, even in our crazy economic world.

The spread in price between improved pecans and natives last year was so great—often 5 to 1 in favor

of soft shells—that many farmers say they made more from a few improved pecan trees than from sizeable cotton crops. Extension workers report the greatest demand in years for help in budding natives this season. Much of it is to be done this summer on the sprouts of trees top-worked last winter.

The depression is promoting home orchards. One example is found in Rusk county where 130 small orchards including grapes have been started by 4-H club girls. They earned the money to pay for the trees which were set out in early spring.

Mr. and Mrs. Leo Bishop of Del Rio were in attendance at the Rodeo held here Wednesday and Thursday of this week.

Miss Lois Bee Osgood has returned from a visit with her grandparents, Mr. and Mrs. Ike Billings in Langtry.

Judge J. C. Fuller Of Marfa Points Way To Tax Reductions

As Candidate for Texas Senate, has made extensive study of tax situation, and offers practical solution as follows:

- 1: Abolish unnecessary boards, bureaus and commissions and consolidate others to extent that number be reduced from approximately 100 to 12 or 15 as has been done in Virginia and other states.
2: Reimburse counties out of gasoline tax for bonded indebtedness for highway purposes.
3: Reduce membership of House of Representatives, and provide for shorter sessions of Legislature. There is no good reason why one county should have half dozen or more representatives.
4: Simplify court procedure.
5: Consumption of products convict labor in state institutions.
6: Reduction excessive fees and salaries of public officials and employees in keeping with earnings of persons similarly employed in commercial and industrial life.
7: More stringent regulations relative to issuance and sale of county and city Securities.
8: Standard wage law on government contracts.

Judge Fuller is a native of Texas, has lived in West Texas for fifteen years, is a substantial tax payer himself, and is a steady, conservative business man as well as a successful lawyer.
