Defining "Impeach" To impeach a person holding pub-lic office, from President down, is to bring accusations of misconduct against him and call him to ac count before a competent tribunal In this country, the house of rep resentatives has the power to impeach federal officers, while the senate has sole power to try all impeachments.

Bible Does Not Mention Whale The Hebrew Bible does not mention a whale in connection with Jonah. It only speaks of "a great fish." Some English versions the Bible have translated this st "a whale" (Matt. 12:40). In the French Bible, and in many others the original meaning is preserved A whale is not a fish; it is an en mal, and though it lives in the water it breathes with lungs.-Pearson's London Weekly.
