ASK PAVING OF STATE HIGHWAY 82

Committee Hopeful That Commission Give Project Every Consideration

Committee representing County which was appointed by the Commissioners' last regular meeting before the State Highway Commission for the purpose of making a definite allocation of \$2,000 which the state department had set aside for road construction in District 6, appeared before the State Highway Commission, Austin, Texas, on Monday.

Committee from here comprised of J. Henshaw, Al Creigh and Duke, was joined at the State Highway Commission by Senator H. L. Winfield and C. E. Casheier, County Commissioner. The committee granted a hearing to the Pecos and Terrell counties at 3:00 in the afternoon to discuss the advantages of the improvement, regrading and paving of ten miles of highway No. 82 from Sanderson to the Pecos County line.

The highway would carry the grading to what is known as the "draw". The highway would be considered the argument of the Pecos and Terrell counties, agreed to the paving of Highway No. 82 as a connecting link between Highway 82 and the Old Spanish road north, and conceded the connecting link of the highway west of the highway. The Commission gave consideration to the road as a continuation and connecting link of Highway 285 to the west and an important out-branch, Colorado and the state highway in its west.

PAYS DEBT OF \$4, AFTER 32 YEARS

As far as Horton Haley is concerned, Diogenes can put up his lantern and crawl back in his barrel. The quest for an honest man is ended.

In 1906 Horton rannied on the T-5 spread, another cowpoke worked for the D. Hart. In Dryden one night Horton loaned his friend \$4.00, who came to Sanderson. That was the last time Horton saw or heard of his friend until 1936, and that \$4.00 was "charged to experience." However, in 1936 the two picked up the thread of friendship through correspondence and last week the friend's letter contained a check for \$4.00, borrowed 32 years ago.

Major Companies Watch Operations In Terrell County

Considerable inquiry has come in recently regarding activity in this County from major companies, each one stating that Terrell County was in for considerable activity this summer, and the closing of the wells in Mexico has stimulated the prospecting in this territory, although very few leases have been completed, and placed of record lately. Ranchmen report the presence of scouting parties, and geologists are quite numerous in the County, and we are looking forward to considerable drilling in this County within the near future.

The following were filed for record this week: Mrs. Edith Bell to H. H. Reynolds, 2 Royalty deeds out of surveys, 68, 69, 29, 37 and 39 in block D-7. Royalty deed, Jay Lewis to D. F. Larsen, section 18, block D-9. Royalty deed, Hubert Hoffman to A. B. Davis, survey block D-7, T. C. Ry Co., grantee 10 acres.

Assignment of oil and gas lease, Mrs. Elizabeth Pickard to Alps Investment Co., 40 acres, survey 19, block D-5. Assignment of oil and gas lease, Mrs. Elizabeth Pickard to F. L. Kinney, 40 acres out of survey 19, block D-5.

THE LOST IS FOUND

Lom, the undersized mule, who draws the ice-wagon of the Community Public Service Co., who was blown away with his barn 2 weeks ago, has been found—a short distance from the ice plant. Manager Morris claims that the mule has human traits, and is willing to bet he squatted in the brush whenever those hunting him got close. Well Lom is back on the job and Democracy is saved once more.

SHOW EVERY NIGHT

Beginning next week the Princess Theatre will show every night except Sunday. Program for the week will be found on page 4.

UTILITY MAN HERE

Mr. Harris with the ice division of the Community Public Service Co., was visitor here Wednesday. He called the Times attention to the feature picture the company is showing free here Wednesday, April 27, and stated he could recommend it without reserve to housewives.

Memorial To Land Commissioner

His statue stands in the present land office where Mrs. Robison is employed by the present commissioner, W. H. (Bill) McDonald.

Ban Nicknames On Ballots For Demo Primaries

Nicknames of candidates will not be carried on Democratic primary ballots this year, says Vann M. Kennedy, secretary of the state Democratic executive committee.

Of course, if anyone wants to have a nickname legally incorporated in his moniker, that is another matter and candidate has done this.

The candidate is G. A. Jerry Sadler of Longview, who wants to unseat C. V. Terrell, veteran railroad commissioner running for re-election. Sadler had a court insert the Jerry to his name and Kennedy says that it will appear on the ballot.

Youth Sustains Severe Injury to Arm Wednesday

Henry Pettit, of San Antonio, a passenger on No. 2 Wednesday evening, remained here until Thursday morning for treatment of a serious gash in his right arm. Getting off the train Mr. Pettit went to the lunchroom for supper. Starting to leave, he slipped and his right arm crashed through the glass in the door, opening a gash about 2 inches long, and severing an artery. He received first aid from Dr. J. C. Kern, spent the night here and left on No. 6 Thursday morning. He had just been discharged from a C. C. Camp in Hot Springs, N. M., and was enroute home. Quick emergency treatment of others in the lunchroom, who placed a tourniquet on Pettit's arm, probably saved his life, it was stated.

ON A. C. C. HONOR ROLL

Anna Lee Allen, daughter of Mr. and Mrs. R. N. Allen of Sanderson is among the honor students for the mid-term grades of second semester at Abilene Christian college, according to announcement made by Mrs. Clara Bishop, college registrar.

Balmorhea to Stage Rodeo During War Games—Plan Many Features

May 15 Deadline To sign Up For Range Program

The Texas Agricultural Conservation Committee has set May 15 as the final date for filing "Applications for Determination of Grazing Capacity" in the county offices. Applications can not be accepted by the county committee after that date.

Ernest Williams, County Agent, stated that there were about twenty Terrell County ranchers who have not made application though they have signified their intention of participation in the program.

School Will Be Well Represented At Regional Meet

Sanderson high school will have a nice representation at the regional meet to be held in Alpine today and Saturday, when they will compete with the best from many counties in literary and athletic events. The school will have representation in one literary event—girls' debate. The team, Misses Mary Beth Banner and Elizabeth Brown, so far, have won from many schools in practice tests, and romped away with the unanimous decision of judges in both the bi-county and district meets. The team that out-argues these young ladies will have to be good.

In track and field the school has a heavy representation compared with other years. Weigand will be on hand for his specialties—the running broad jump and high jump, and may enter the 120 yard high hurdles and sprints. In Haynes the school has a pole vaulter that's going places. His mark at district was 10.3. Short and Fierro will also be on hand seeking honors in the sprints and hurdles.

NEW BARBER

M. W. Wells is the new barber at the Fred Yeates barber shop. He arrived this week from Fort Hancock.

Mr. and Mrs. Greene Cooke left Sunday for Dallas, taking their daughter, Betty, to a specialist for examination. The little girl has been bed-ridden for several years with a spinal ailment.

DELIVERS BUICK COUPE

Balmorhea, April 18.—Plans are being perfected to make the coming rodeo and horse show events to be held in Balmorhea April 30 and May 1 the biggest days ever held in Balmorhea.

Lee Lane and Keezie Duncan told a Texan reporter today that the arena had been completed. Corals would be ready by Saturday, and stock will be on hand in a few days. Cowboys wishing to come early and practice can be accommodated.

Big Entry List

Duncan said that descriptive folders showing amount of purses and other information, had been mailed to every known rodeo contestant in Texas and the greatest throng of cowboys ever in the territory will be on hand.

Review Planned

Army officials advised today that their present plans were to hold a division review on Saturday, April 30, followed by an army horse show on May 1. They will also display some special horses during intervals of the rodeo program. Lt. Col. Chamberlain will exhibit his trick horse a veteran of the Olympic games.

Army bands will appear each day, playing on the rodeo grounds. Big dances will be held at a downtown Balmorhea pavilion to complete the program.

Match Roping

A special feature of the show, is a match roping between Jim Espy of Fort Davis and Jack McCutcheon of Toyahvale for a \$200 purse.

Film at Princess Wednesday Will Interest Ladies

The preparation of tempting dishes for the table is a theme of a moving picture to be shown at the Princess theatre next Wednesday under the sponsorship of the local ice company.

Buffet supper rapidly prepared before the audience's eyes has several interesting dishes which most women will hurry home to try. A delectable corn chowder, in which bacon and onions add zest to a common vegetable, is the heart of this interesting meal. Three tempting salads in clever wooden bowls are guaranteed to please any palate. Salad greens of the common but little used sort—such as curly endive—play a prominent part. One that is sure to attract attention is the Chef Salad made of garden vegetables and garnished with cold meat.

It might be giving away a secret to tell how Toasty Loaf is made. Suffice it to say that two homely ingredients—bread and butter—turn into an amazingly tasty looking concoction.

The picture is studded with new ideas about preparing, storing, and cooking foods. The housewife, who has her kitchen in the back of her mind at least, will feel amply repaid in workable information that she will garner from seeing "Husbands are Good for Something"—for that is the title of this very modern exposition of the culinary art.

As the title implies, a well-written story forms the background of the cooking sequences. Interest is kept alive from start to finish by the adventures of Eileen Harrison after she set out to win a \$500 prize offered by the local newspaper. As the story unfolds, interest and suspense are heightened to a dramatic climax at the end.

The picture is primarily of interest to women although men too will enjoy it. Admission is free.

Ruminating the other day, the realization struck us, that we've been in West Texas 38 dry and dusty years, and there are three things we've never seen, notwithstanding the fact that there's oodles of 'em, viz: a bluebonnet, an armadillo, and a wild turkey. It must have been downright carelessness on our part, because we've been where the "bonnets" thrive in their wild beauty, and where the animals are native. However, we've seen about everything else—even to a red headed woman with a gentle disposition.

Easter came with its parade of funny bonnets, pill boxes, turritops, flower baskets, birds' nests. We had no idea there were so many shapes.

We know one good woman who has gone back to the old sun-bonnet because her husband laughed out loud when she asked him how he liked her hat.

Chris Fox working diligently on a recent murder case asks, "How blond is a blonde? We're wouldn't know. What we'd like to know is, "How dangerous are they?"

Time and people change, regardless of the sage who opined there was nothing new under the sun. Wednesday was a school holiday, but we actually saw a girl trying to get into the building. When we had a holiday, we got as far away from the schoolhouse as we could, and wished it burned down before Monday morning.

"Lawyer beaten, robbed of \$500." Yes, sir, we can get solace out of an item like that, because it won't happen to one editor in a million. Some one might beat heck out of 'em, but when they search his pockets, it'll be the story of Old Mother Hubbard all over again.

This is the second week our hand has been in a sling with a splint, and the boss has practically enjoyed a vacation picking on the linotype—and gained about ten pounds, while we, at the desk, have lost at least 20. This brain work, we've always contended, runs the system regged.

Jackie Coogan evidently doesn't agree with the sob theory that a child owes everything to his mother.

Dr. Townsend, sentenced to jail and fined \$100, has been pardoned by the President. Which keeps him out of the martyr class—but we still think he's nuts.

Whoever invents a gadget to automatically release ice cubes from trays, will become more famous than would be the man who invents a "better mousetrap."

The contrariest columnist is Dorothy Thompson. She can write column after column pointing out the ills of our country and the remedies, advocating the very things that President Roosevelt is fostering, and never mention his name.

In the spring a girl may seek A youth in whom to trust. But in West Texas The thing that vexes Is how to rid the house of dust.

Our idea of a brave youth is one who marries the girl who won honors as a debater.

A Perfect Tarzan In First Of New Jungle Pictures

Tarzan calls! And the jungle roars with new thrills, fierce tribes charge in battle, hundreds of wild animals fight for their king and a glamorous girl answers the call of love in the exciting new "Tarzan Revenge," the Twentieth Century-Fox release which comes tonight and Saturday, April 22 and 23, to the Princess Theatre.

The story of how the mighty lord of the jungle is aroused from a simple primitive desire to protect an American hunting party from the perils of the African forests—and how the very beasts they set out to trap are rallied to the rescue of the woman Tarzan loves, makes one of the most thrilling tales ever to come from the fertile mind of Edgar Rice Burroughs.

This picture takes on particular interest because the title role is played by Glenn Morris, the perfect Tarzan, in the first of the new series filmed by Principal Productions.

At the 1936 Olympic Games in Berlin, where he won the ten-unit deathcap event, Morris was crowned the world's greatest all-around athlete, and in his first picture he uses every device of the perfection of human muscle and convining to give a convincing demonstration of his prowess swinging through the treetops among the wild beasts of the jungle or battling single-handed with bands of native warriors.

Eleanor Holm, America's glamour girl and famous swimming champion co-starred with Morris, also makes her screen debut as the mate of the jungle king. She is the central figure in many of the picture's thrill-filled moments.

The cast also includes George Barbier, C. Henry Gordon, Hedda Hopper and hundreds of other players.

As the story opens a safari of white travelers, bent on securing rare animal specimens, plunges into the depths of the jungle, and it is here that Miss Holm first becomes acquainted with Tarzan.

Their friendship ripens as Tarzan stealthily follows in the treetops to protect the safari from attacks by his wild companions of the jungle. The story reaches a climax when the girl is kidnaped by warriors of the native chieftain.

"Tarzan's Revenge," sets new standards in the field of African adventure drama, and brings to the screen the perfect Tarzan and his perfect mate.

The following took part in the program: Mary Nell Higgins, Doris Duke, Peggy Louise Robertson, Margaret Newton, Jo Ann Lemons, Josephine Rider, Earline Cox, Lois Be Osgood, Wilma Northcut, Margaret Pierson, Jim Davis, Maurice Cox, David Duke, Mary Alice Allen, Allister Dishman, John Lewis Whistler, John Hardgrave, Mary Ann Kelso, Lillian Harrell, Ethel Laura Nance, Margaret Jane Higgins, Katherine Nell Nance and Mary Bess Hardgrave.

Realistic Scenes of the Sino-Jap War Shown in "International Settlement"

Telling the timely story of daring Americans swept overnight into perilous adventure behind the barricades of the Orient's amazing city within a city, "International Settlement," 20th Century-Fox's picture of the hour, comes Monday and Tuesday, April 25th and 26th to the Princess Theatre for two nights.

More thrilling than the story the headlines unfold is the one the headlines have never told, this amazing drama within a drama.

Taking places right in the midst of today's danger zone, the thrill-teeming story of "International Settlement" features Dolores Del Rio, George Sanders, June Lang and Dick Baldwin, defying every nation's warning to "Get out of danger!"

Each had a reason for ignoring the warning and remaining behind the barricades where refugees from the stricken metropolis desperately seek safety.

The most beautiful white woman in all China, Dolores Del Rio, is a glamorous figure of mystery whose motive is to live dangerously. An American soldier of fortune, George Sanders, in the Far East as a flying instructor, remains to tempt death.

Dick Baldwin is a daring newsreel cameraman, during the flying destruction of the bombardment to get his pictures and to find romance with June Lang, beautiful American tourist who proves a champion fire fighter.

Their tangled lives and loves in the battle area, against a background of all the color and drama that pervades the East today, gives the picture of the hour a hundred big moments. Eugene Forde, directed with Sol M. Wurtzel executive producer, the screen play by Lou Breslow and John Patrick.

The cast includes intensely powerful roles by Ruth Terry, John Carradine, Keye Luke, Harold Huber, Leon Ames and Pedro de Cordoba. Songs by Sidney Clare and Harry Askt are featured in early scenes of the film, which was adapted from an original story by Lynn Root and Frank Fenton.

Mr. and Mrs. W. D. Lovelace were visitors in Fort Stockton Sunday afternoon.

WEEKLY Health Letter

Austin.—Diabetes, the price moderns pay for soft, luxurious living, took a toll of 600 lives in Texas last year, according to Dr. Geo. W. Cox, State Health Officer.

While the controllable diseases such as typhoid fever, malaria, diphtheria and smallpox, are causing a smaller number of deaths each year in this country, diabetes, which was notably absent in the early pioneer days, is now taking a staggering number of lives," Doctor Cox said.

"Up until the highly mechanized age diabetes was not a health problem, but the disease became noticeable in direct ratio to the development of luxury living, soft eating, soft habits, and general disregard for basic hygienic law evinced itself among the population. Diabetes is nature's back-slap at coddling and pampering the body," he said.

"Diabetes is a class disease, it appears. Certainly it seems to attack the indoor desk man more often than the outdoor person whose work is more vigorous or who takes more exercise. Whatever the actual cause of the development of the disease may be, vocation or economic conditions are factors, for those who can not indulge in luxurious living and whose occupation calls for physical effort are not frequently affected."

"There would be fewer victims of ravishing diabetes," Dr. Cox added, "if those who are indulging in soft, antinatural living would realize the folly of their ways. Especially middle aged persons and those beyond it should exercise care. Simple living, an annual physical examination, and, if already showing the results of indulgences, obtaining and abiding by the advice of the family physician, could drastically cut down the power of this disease and its threat to a alarming proportion of adult America."

Mrs. W. A. Nunn spent the week in El Paso visiting with relatives and friends.

WHAT THEY THINK ABOUT TWELVE GRADES IN SCHOOL

By Vauceil Henderson As a result of a recent questionnaire, the following comments were given by our faculty:

"At the present, students are finishing high school and colleges too young to actually face the problems of the world on their own. A twelve year system might help to care for this situation."

"Today we are faced with the problem of what to do with our young boys and girls when they finish high school. Many cannot go to college, and there is absolutely no place or position in life for them to fill. I sincerely believe another year in high school would work for their advantage."

"Since boys and girls are very young now when they finish high school and college and there are so few positions they can fill, I think most of the graduates would find another year in high school profitable."

The following comments were given by the seniors:

"If a child is not started too young, eleven is enough, but when starting as young as they now are, twelve should be used."

"I think they're getting along fine with eleven."

"With children starting so young, it would be a good idea."

"It's O. K. if they add the extra grade at the first but if they try to add it after the eleventh, I think something should be done."

"That is too long to suit me."

EX STUDENTS VISIT SCHOOL

During the latter part of last week and the first part of this week several old ex-students visited the school. These students were home for Easter holidays. These exes were Jack Bogusch, who is attending the Schreiner Institute at Kerrville; Robert and Bernie Kerr of St. Mary's; Bob Lea, who is attending high school in Cotulla, Texas; Mary and Bill Ferguson, students at the University of San Antonio; Bill Lemoons, a Red Raider from Texas Tech.

The school is always very glad to have these students come to visit them.

Popular Volumes In School Library

Bertha Mae O'Bryant Smoky, the Cowhorse, by Will James is the most overworked book in the library. We have three copies and they are always out. The boys in school also like Martin Johnson, the Lion Hunter, by Green; Boots and Saddles, by Custer; The Derelict, by Nordoff; Call of the Wild, by London; and Kit Carson by Vestal. The books that are most popular with the girls are Emmy Lou, by Martin and Little Women, by Alcott.

The other books which are not popular, but are checked out for reading reports in English are: Midsummer Night's Dream and Julius Caesar, by Shakespeare; Lady of the Lake, by Scott; Contemporary One-Act Plays; Courtship of Miles Standish, by Longfellow; Life of Helen Keller; Life of Pasteur; and The Life of Abraham Lincoln.

The magazines which are checked out more than the others are: Boys' Life, Time, Vogue, Rotarian, Life, Mademoiselle, McCall's, and Good Housekeeping. At the beginning of the term the National Geographic became so popular that they had to be taken out of the library, because the pupils neglected their studies to read them. Some pupils are always asking for the funny papers or Young America Paper. All of this proves how much the students study during their study periods.

Dr. Smith, Sul Ross Address Seniors

Dr. G. P. Smith member of the faculty of Sul Ross College, Alpine, and director of the demonstration school there, has recently accepted the invitation of the senior class to deliver the commencement address on the night of May 23. Dr. Smith has been in Alpine several years and has been active in school work, taking a leading part in revising the course of study for the public schools. Dr. Smith is a good speaker and will interest any audience in this section of Texas, is the opinion of those who know him.

LOCHINVAR, THE GREAT LOVER, RIDES AGAIN

The following letter was received by Lochinvar, the Great Lover, who will attempt to put this young man out of his misery:

Dear Lochinvar: My heart aches within me. For the past six months I have been madly in love with a beautiful girl. I love her, oh! so much, but she refuses to pay any attention to me. Please advise me what to do. P. S.

Dear P. S.— Take that seven day Build-up treatment of Charles Atlas. When you are big and strong, I'm sure she will notice you. If this does not succeed, I would advise you to go jump off the least cliff. Lochinvar.

JUNIOR-SENIOR BANQUET SET FOR APRIL 30

The annual junior-senior banquet has been set for the night of April 30 in the Home Economics banquet room. There are fifteen members of the senior class who will be the guests of the juniors and the faculty.

ATTEND CONFERENCE

The three schools in Sanderson were dismissed on last Wednesday, April 20, in order that the elementary school teachers could attend a curriculum conference in Alpine conducted by Miss Sus B. Mann, deputy state superintendent in this district. The teachers in high school visited other schools in this section, some going to Alpine and others to Grand Falls.

H. E. Girls Will Attend State Rally

By Pauline Bell The Home Economics girls are busy sewing on garments which they will enter in the annual clothing contest to be held in San Antonio, May 4, 5, 6. The headquarters of the contest will be at the Gunter Hotel. Because of the great number of contestants the rally will be divided into three groups, A, B, and C.

The first year Home Economics class is constructing school dresses. The second year class is making tailored garments. Both classes are under the supervision of Miss Lindley.

The first "Clothing Contest" was held in the basement of the University of the Baptist Church in Austin in 1919. The present director is Ruth Huey.

The garments will be judged here sometime before the contest.

Results of Test Given 7th Grade

Last week 25 students of the seventh grade took the Metropolitan tests. This test consisted of six parts. They were: reading, vocabulary, arithmetic fundamentals, arithmetic problems, English and spelling.

Billy Jo Corder made the highest grade in the reading test. The grade equivalent was above that of a seventh grader in reading, and English. Some of the pupils grade equivalents were as high as that of an eight or ninth grade pupil. Eleven ranked as seventh grade pupils; 12 ranked above the seventh grade, and two ranked below the seventh grade. There were three who ranked as high as ninth grade pupils.

This test is given all over the United States and furnishes competition to students.

Announce Senior Honor Students

It was announced Monday that the winners of the high point honors in the senior class are Bertha Mae O'Bryant and Jimmy Goodykoontz. Bertha Mae, with an average of 92 plus for the past four years, will be valedictorian, and Jimmy, with an average of 90, will be salutatorian. There are 15 members in the senior class.

The two grades were shown after a careful check-up and average of the senior class grades for the past four years. Bertha Mae is planning to attend Sul Ross while Jimmy is planning on going to Texas A. & M.

All state colleges and universities in Texas now offer only one scholarship to any school. This goes to the pupil, boy or girl, who makes the highest average in the senior class. Some of the other colleges in Texas still offer two scholarships, one to the highest ranking student and one to the second, or else one to the highest ranking girl and to the highest ranking boy.

Tennis is Popular With All Students

One of the most interesting and enjoyable games is tennis. This game is played all over the country and is a popular sport any place you go.

Every one can learn to play tennis, because after you once catch on to the game it is easy to become a good tennis player. The most difficult task in learning to play tennis is hitting the ball over the net within the boundaries of the court. Some students "eat too much spinach," as they say, and hit the ball too hard, so that it is out of boundaries.

One of the games played in all schools is tennis. It is a game in which you learn to be a good sport whether you lose or win. Tennis is a game in which you can be with others and can make friends easily.

The courts on the eschool grounds are in use all the time. They are not only used on school days, but on Saturday and Sunday. Students, if you don't have a tennis racket, borrow one and join in the fun!

Brain Teasers

Spring is here and (quote) every young man's fancy lightly turns to thoughts of love(unquote). So when you are not writing poetry you can write the answers to these.

The circumference of the front wheel of a wagon is 10 feet and that of the rear wheel is 12 feet. The former makes 100 revolutions more than the latter in going a certain distance. What is the distance the wagon travels?

Two cars, A and B, start at a point on a circular mile track and travel in opposite directions at forty and twenty-five miles per hour respectively for two and one half hours. How many times will they meet, and how many of these meetings will be at the starting point?

Last Week's Answers I may have \$101.80 (100 dollars and 180 pennies). This number may vary however so long as the number of pennies is 80 more than the number of dollars.

The passenger train went forty-five miles per hour. The freight went thirty miles per hour.

The larger universities over the country now desire their new students to be from the highest one-fourth of the senior classes of the better high schools. Experience has shown that the best students in high school are generally the best students in college.

Volleyball Girls Lose at District

On Saturday April 16, the volleyball girls attended the district meet held at Fort Stockton when they played a very close and exciting game with the Alpine high school team. Sanderson was scheduled to play Ozona but owing to the fact that Ozona does not have a team they played Alpine instead. This was one of the most exciting games of the day even though Alpine did come out with the heavy end of the final score. Sanderson started with a seven point lead in the first game, but couldn't hold Alpine down when they started scoring. The score of the first game being 14 and 15 favor Alpine. In the second game the score was 13 and 15 in favor of Alpine. The starting lineup for Sanderson was: Helen Turner, C. F.; Mary Cook, C. B.; Reba Burleson, L. F.; Pauline Bell, R. F.; Marzee Haynes, R. B.; and Mary Belle Hollebeck, L. B. The following were subs: Marjorie Cannon, Marjorie Morris, Bennie Mussey.

We appreciate the kindness of the following for the use of their cars: Mrs. J. W. Haynes, Mrs. Sam Bell, and Perry Dawson.

The volleyball girls also wish to thank Miss Mixson for going as Miss Johnson, the coach, could not make the trip. The girls should feel very proud of their new suits for some thought we were the Pecos team until someone asked where we were from.

REGIONAL MEET

The Interscholastic League Regional meet will be held Friday and Saturday, April 22 and 23 in Alpine. There are several districts to be represented at this meet. Sanderson will be represented this year in girls' debate and in senior track. The S. H. S. representatives are: Mary Beth Banner, Elizabeth Brown, Albert Weigand, Wilburn Short and Rafael Fierro.
