SCARLET FEVER HYSTERIA UNJUSTIFIED

There is absolutely no reaon for undue alarm regarding the scarlet fever situation in Sanderson. So far there have been only three cases and only two of them were contracted here. All cases have been mild.

Scarlet fever in the south is usually a mild disease. ranking behind diptheria. measles and whooping cough in danger. C mplications are extremely rare and only one person in three will develop the disease if exposed. Contrary to public opinion, it is one of the least contagious of all childhood diseases.

Children with soar throats should be kept out of school and away from other children. The usual common sense precautions that apply to any contagious disease will always control scarlet fever.

SCOUTS ASK AID IN OBTAINING OLD TOYS FOR NEEDY

Members of Troop 60 of the Boy Secuts are requesting citizens of Sanderson and surrounding community to aid them in trying to supply toys and gifts to children who otherwise will have very little Christmas.

There are many who have bys that have been disearded and will be replaced with new playthings with the coming of Old Saint Nick. These toys may not look so good at present-they may be broken and have all the paint worn off-but the job bef re the Scorts is to repair these toys, repaint them, and add a little more cheer to as many homes as is possible.

Boys and girls can help by gathering up all the wirn and discarded toys they have stuck away and turning them over to the Scouts. Scoutmaster Duane Smith. r leave them at the Times office to be given to the Scouts.

Have you ever stopped long enough to figure out just how much you save when you sit down and order your needs from a mail Paso order catalog? Have you ever stopped to figure how much it costs to go to a neighboring town to buy an article a little cheaper than in your home town? Have you ever stopped to figure just how much taxes the mail order houses and out-of-town merchants pay -how much they help you build good schools. good churches, a good community?

Maybe you save a few cents when you order an article but how much does it cost you in the long run? When a dollar is spent away from home it is gone-completely. When you spend it at home you have an opportunity to get a portion of that dollar back. It might pay a grocery bill, a drug bill, a lumber bill or many another bill before you get a chance at it again, but sometime it will get back if it stays in the community.

New York State to Erect \$1,600,000 Amphitheatre at "Nation's Fair of 1939"

NEW YORK (Special) .- The State of New York, it is disclosed in architectural drawings made public, will be represented officially at the New York World's Fair of 1939 by a \$1,600,000 combined marine amphitheatre and exhibit building of many distinctive features largely designed for the presentation of master stage spectacles and compelling exhibits by state departments and 62 counties.

The accompanying photograph shows how a total of 16,500 spectators can be afforded unobstructed view of an island stage of magnificent proportions set 100 feet off-shore in an exposition lagoon and to be screened, between acts, by sheets of water blown by compressed air from the lake and made doubly effective by the projection upon them of light and color. of seats shown is a broad promenade 300 feet long which will afford a view of the whole exposition and the 280 acres of lake-shore amusement zone.

The insert shows the exhibit pavilion facade and the forward position of the grand reception hall above which will be a circular auditorium seating 1000 persons. Under the amphitheatre, on two floor levels, 70,000 square feet of space is provided for New York State exhibits.

The New York Legislature this spring appropriated \$2,200,000 for official participation in the \$125,-000,000 exposition. Enactment provides for the building, for a \$250,000 exhibit and for \$350,000 maintenance and operation. Contracts for construction of the dual purpose structure, a permanent addition to the site, will be let soon in public bidding by prequalified bidders.
