THE SANDERSON TIMES, FRIDAY, JANUARY 20, 1939

NUMBER 46

## Regular Session of District Court Opens 23rd Night Docket to be Placed Before Judge Montague

The regular term of the 63rd District Court will open Monday when the grand jury is selected and will be in session three days if that time is required for investigations. The Brian Montague of Del Rio, district judge, will preside. The light docket will come before the court at this session and the following cases to be tried:

### NON-JURY

State of Texas et al. vs. McPhee Briggs et al. to try S. Warnock vs. the Estate of A. Cook et al. appealed decision of County Court. Clarification of claim.

### APPEAL CASES

Francisco Villegas vs. Santos and Villegas. suit for divorce.

### FINAL CASES

State of Texas vs. R. R. Swindling.

### GRAND JURY

Those summoned to appear for jury service on Monday, January 23, are Max Bogusch, Brite, Ira Deaton, W. J. Ben Gilbert, E. W. Grave, Mack E. Carruthers, D. Harrison, W. R. Holland, Arvin, G. K. Mitchell, Wilbarger, Sam Culberson, N. Ott and E. P. Sherrod.

### GRAND JURY

Those who were summoned to appear for petit jury service Friday, January 26, are Henry Field, Charlie Rogers, R. B. B. R. Farley, J. W. Down, Prince Dishman, Weldon James House, H. V. Cox, Davis, W. A. Banner, O. H. Hams, R. H. Murrain, Her-Couch,

### GRAND JURY

McKnight, E. McSparran, Watts, Milton Smith, Joe Bustin Canon, Clar- Jessup, Hugh Rose, Austin, Lee McCue, R. E. Fred, O'Bryant, Jessie Martin, Northcut, Gayle Mussey, C. feeding, B. H. Gifford, Tom and Rural Adams.

## President Makes Annual Accounting Report Shows Total Expenditures \$270,740,561.61 in Texas

President Roosevelt made his accounting to the Congress Monday for expenditures of money appropriated for relief and work-relief since 1935. In making his accounting the President submitted a 543 page report prepared by the Treasury Department in which he outlined in great detail where, how, and for what purpose the relief moneys were expended.

The report, which includes an account up to the beginning of the new year, discloses that had been appropriated for relief and work-relief since April 1935 the total sum of \$10,349,913.56; public buildings \$921.98; educational projects \$22,577,858.64; conservation \$36,646,462.12; expenditures for payrolls \$127,279,738.21; materials and supplies \$23,711,452.62; equipment \$2,034,552.62; construction, maintenance and \$6,664,259.53.

Included in the Texas expenditures is \$125,798,050.31 for the Progress Administration, \$9,957.10 for the Farm Security Administration.

(Continued to Back Page)

TAKING OATH OF OFFICE—

Pictured above you see W. Lee O'Daniel, flour merchant, taking the oath as Governor of Texas in the presence of 50,000 persons in the Texas Memorial Stadium on the University of Texas Campus Tuesday. Judge C. M. Cureton, Chief Justice of the Supreme Court, administered the oath. In the picture you see, left to right: Cureton, Gov. James V. Allred, Mike O'Daniel, son of the governor, Lieut. Gov. Walter Woodul, and O'Daniel.

## Allen Hardgrave Plays with Band at Inauguration

Allen Hardgrave, son of Mr. and Mrs. E. W. Hardgrave of Sanderson, played Baritone in the Abilene Christian College Wildcat band which appeared on W. Lee O'Daniel's inaugural program the 17th of January in Austin, Texas.

It is a 50 piece organization, ranking high among the college and university bands of the entire state. It was also the only band going from this community.

Appearing publicly with the band for the first time was the newly elected band queen, Miss Mary Louise Ladd of Sherman, Texas.

The band was given a short period on the inaugural program which was held in the University of Texas stadium.

## EAGLES SECOND IN INVITATION MEET

The Eagles journeyed to Alpine Friday afternoon where they took second place in the invitation basketball tournament held there Friday and Saturday. The team is composed of Kenneth Litton and Lito Fierro, forwards; Malcolm Davis and Campbell Kerr, alternating at center; Lynn Haynes and Robert Lochausen, guards; and Martin Bodkin, Ralph Burleson and Jesus Trevino were substitutes. They were accompanied by Coaches A. B. Caraway and Duane Smith.

The local quintet was first matched with the Van Horn team which they defeated 19-17. Following this game they were winners over Rankin, 26-16, and over Marathon 41-11. The second string played half of this game. The last game was lost to Alpine 41-11.

Coach Caraway states that the Alpine club has the strongest team that he has seen in this section of the state in several years.

Officiating at the tournament were Jesse Lochausen and Bo Graham, both of Sul Ross College. Lochausen is the son of Mr. and Mrs. J. H. Lochausen of Sanderson.

The team was the winner of the runner-up trophy in the tournament which was a statue holding a basketball and measuring 18 inches over all. They also received ten silver basketballs for runner-up and Fierro made all tournament and received a smaller trophy similar to the large one. Litton and Lochausen received honorable mention.

The Eagles plan to attend an invitation meet to be held in McCamey the 27 and 28 of this month. The District tournament will be held in Fort Stockton February 17 and 18.

All kinds of office supplies at The Times

## DEMONSTRATE LIFE SAVING TO SCOUTS

The life-saving team of the local State Highway Department demonstrated to the Boy Scouts Tuesday night the manner in which they work out their problems.

The team is composed of B. R. Farley, captain; Griffin Lattimore, Dick Sullivan, R. V. Winn, Nelson Billings and Jesse McDonald, alternate. W. C. Vaughan is coach of the team. They worked three problems for the Scouts, demonstrating methods and equipment used for different cases.

This team won first place in a life-saving contest held in Pecos in December and are to meet the winners from four other divisions February 4 in a district contest which is to be held at San Angelo. Teams which will oppose them at that time are Abilene, El Paso, San Angelo and Rocksprings. Winner of the district goes to the state meet which will be held in Austin February 20 to compete with winners of other districts of Texas. There are only four districts in the state.

## NEW TEACHER BEGINS WORK

Miss Rachel Sweeney of Bonham, Texas, began work in the Sanderson High School on Monday, January 16, as teacher of English and debate coach. She comes to Sanderson highly recommended as a teacher in these fields, having had a number of years of teaching experience. Miss Sweeney has a bachelor's degree from Centre College and a Master of Arts degree from the University of Texas.

She takes the position formerly held by Miss Hazel Owen, who resigned recently to accept a position in the high school at Brady, Texas.

## VOLLEYBALL

The Sanderson High School girls volleyball team is scheduled to play the Fort Stockton girls here tomorrow afternoon beginning at 2:30. The admission prices are five and fifteen cents. The girls who will probably represent Sanderson are Doris Cochran, Joyce Yeates, Mary Bell Holbeke, Bernice Harris, Pauline Bell, Erlene Stirman, Marjorie Morris, Reba Burleson, and others.

## SISTER DIES

Word was received in Sanderson Wednesday from Mrs. John F. Nichols, who has been at the bedside of her sister, Mrs. Frank Jones of Springfield, Tenn., for the past several days that she passed away on that day at 9:30 in the morning.

Chas. Callahan was in town Monday from his ranch on the Pecos River.

## EAGLES DOWN SAN FELIPE

The Sanderson Eagles chalked up another win last Thursday night when they defeated the San Felipe quintet of Del Rio 42 to 35. The boys broke the ice and started scoring when Lochausen dropped one through the loop from well out past the free throw line. This immediately put the boys to work and soon Fierro and Litton had retallied with two points each. The San Felipe boys were not asleep on the job by any means for they were close behind the Eagles and at one time in the first quarter lead the Eagles by one point. But the Eagles wouldn't let these boys stay ahead and the first quarter ended by the score of 9 to 8 in favor of the Eagles.

In the second quarter the San Felipe boys cracked down on the Eagles and were soon in the lead. Sanderson kept fighting back and overtook their opponents for a few minutes of the closing quarter but the San Felipe boys came back and held their lead of three points until the quarter ended. The first half ended San Felipe 18, Sanderson 15.

The third quarter promised even more thrills than the previous ones. Both teams played beautiful offensive and defensive ball. But the score was mounting upward regardless of the defensive. The ball was being passed around faster and faster and finally someone would break in the open for two points. Kerr and Lochausen dropped two beautiful long shots through the basket and the Eagles kept advancing the score in their benefit. San Felipe on the other hand was trying the same thing, with one handed shots, long shots and practically every shot in the book but still the Eagles lead and when the timekeeper blew the whistle for the end of the third quarter the Eagles lead 29 to 24.

The fourth and final quarter proved to be the thriller of the evening. Both teams played ball and at the same time played good clean ball, the kind the crowd likes to see and incidentally the roar of the crowd was deafening. But the rooting of the crowd put the needed spirit in the boys and they maintained their lead throughout the fourth quarter. In this quarter the second and third stringers saw service toward the closing minutes. With the score 41 to 29 in favor of the Eagles the future Eagles, M. Bodkin, Bill Davis, Curtis Litton, Earl Hurst, Malcolm Davis, Jesus Trevino and Ralph Burleson saw service. Bodkin was hacked by one of the Del Rio boys and hit one out of two free throws furnishing the remaining point for the Eagles. The San Felipe five managed to score six more points before the whistle signifying the end.

(Continued to Back Page)

## Clyde Higgins Distributor for Purina Feeds

To Serve This Area With Feed Products Fort Worth Concern

Announcement is made in this issue of the Times that Clyde Higgins is now the distributor of the Purina Mills of Fort Worth, distributors of Purina Chows.

T. J. Speer, district salesman with the concern, was in Sanderson Wednesday and made arrangements for the publication of the announcement, and attended to other business matters.

Mr. Higgins extends a special invitation to ranchmen of this community to come in and see the new line of feeds that are nationally known for poultry and livestock feeding, and to let him explain the advantage of feeding balancers and supplements with the feed you have at present or a complete prepared feed to bring out of your herds and flocks all the profits.

For the present Mr. Higgins states that his feed store will be at the warehouse at his home.

## Three Men Driving Ford Skip Without Paying for Gasoline

Three men drove up to the McKnight Motor Company and wanted their tank filled with gas and according to reports did not leave C. V. McKnight, owner holding the sack but left him holding the gasoline tank cap.

The men, who gave their names as Dan Harold Williams, Alvin McCarson, and Joe Roland, all of South Carolina, were later apprehended in Marfa and returned to Sanderson. The car, a 1938 V-8 was mortgaged and they were wanted by South Carolina officers so that the car might be taken. It was taken over by Sheriff Jim Nance and is now in the Ferguson Motor Company storage room, and according to W. J. Ferguson there are some 6 or 8 more caps in the car. Looks as the men had not planned on waiting for the cap to be replaced on their car in a lot of places. They were released.

## New Courses Offered in Sanderson High School

The second half-year of the school year of 1938-39 is now well under way in the local schools. New courses offered in high school work are commercial or business arithmetic, algebra for seniors who expect to enter college, and debate. School is scheduled to close May 23.

## \$80,000 PWA Project Is Approved for Terrell County

To Place Curbs and Sidewalks in Sanderson With Aid of Property Owners; Balance on Road Improvement

Judge G. J. Henshaw spent Monday and Tuesday in San Angelo where he went to secure a project for the construction of curbs and sidewalks for the streets of Sanderson.

Judge Henshaw had made and filed a blanket application with the WPA offices for an \$80,000 project for Terrell County for the year of 1939 during the latter part of 1938 and has been notified.

## RESIGNS JUDGSHIP 112TH DISTRICT

Judge Joe Montague of Fort Stockton, brother of Judge Brian Montague of Del Rio and judge of the 112th Judicial District, is expected to resign Tuesday, following his appointment as attorney for the Texas and Southwestern Cattle Raisers' Association, which was announced Saturday.

Judge Montague is expected to move to Fort Worth and is delaying his resignation until W. Lee O'Daniel is inaugurated as Governor. The Governor appoints judges to fill vacancies.

The 112th Judicial District includes Pecos, Upton, Crockett, Sutton and Kimble Counties. Weaver Baker and J. B. Randolph of Junction as well as W. A. Haddon of Fort Stockton have received mention as Montague's successor on the bench—Del Rio Evening News.

## MARFA HERE FOR BASKETBALL

The Marfa High School boys basketball team is scheduled to play here tonight in the High School gym at 7:30. The games promise to be a good one as Marfa is reported to have a hustling team which is a threat at any time. This is the first time that Marfa has sent a basketball team here in many years. The admission prices are to be as usual, ten and twenty-five cents.

Next week-end the Sanderson High School Eagles plan to play in the McCamey tournament. It is hoped that the project has been accepted in Washington. He also states that he has been advised by the San Angelo office that the money will probably be available within the near future, possibly two or three weeks. While

in San Angelo he was able to secure the project for the curbing and sidewalks which will be of great benefit to Sanderson and which is a forerunner to paved streets as this is necessary before the streets might be paved. No topping can be placed until curbs are placed to hold it in place.

This curbing and sidewalks will be placed wherever property owners are willing to go their part by furnishing materials which will be principally cement, as Terrell County will furnish sand and gravel and the WPA will furnish the labor. As soon as cost of materials has been figured and definitely established property owners will be called upon to supply the amount.

This is an opportunity that any landowner in Sanderson can hardly afford to miss for the sidewalks alone will add many times the dollars spent to the value of the property. In most instances landowners are asked to supply all materials but in Sanderson they will only be asked to supply the cement and possibly an amount of other materials that will be a very small matter. The amount of work done in Sanderson under this project will depend entirely upon property owners who are willing to supply their part of the materials. Judge Henshaw also stated that if successful in getting curbs and sidewalks placed it is possible that there will be some paving done before the first of the year.

Besides the curbing and sidewalks the \$80,000 project also covers street improvement, public road construction, and improvement of roads all over the county.

## Highway Association Meets in Sheffield Saturday, Jan. 14

Plan International Parks Highway from Canada to Dryden

At a meeting of the International Parks Highway Association in Sheffield Saturday which was called by president of the association, J. T. Jones of Odessa, plans were discussed for establishing a highway from Regina, Canada and connecting with Highway 90 at Dryden.

According to Mr. Long, the main purpose of the highway is to establish an almost airline route across the United States to connect with the Border Highway. It is hoped that some action might be taken this year concerning the establishing of the Big Bend National Park in which case the route will furnish an all-paved route from Canada practically to the park.

The route is already paved from McCamey to Brownfield and efforts are being put forth to pave other gaps in the route. It is proposed that it will come from McCamey to Iraan, then to Sheffield and on to Dryden. Terrell County and Oglethorpe County are the only two in the state that are holding the project back as it is necessary to have the right-of-way with drainage structures before the route can be designated as a highway and be taken over by the state.

There is only one state, Nebraska, which is not organized for the project and it is understood that this state will be organized in the spring. Next meeting will be at Vega, Oglethorpe County, January 28.

Those in attendance from Terrell County were Judge R. B. Wilkinson, Commissioners W. J. Banner, Chester Smith and Dave Cunningham and O. T. Suduth.

## IN THE SADDLE

When Jerry Sadler was campaigning for Railroad Commissioner last summer he told the folks that what he needed to run the office would be a buggy whip, a ten-cent baseball bat and a can of snuff. Sadler is shown here with these articles. The picture was made in Austin during his first week in office.

### NOTICE

It is unlawful for any person to operate or drive any motor or other vehicle upon the public highways of this State at a rate of speed in excess of 35 miles per hour. It is also unlawful for any person to operate or drive a motor or other vehicle within or through any town or village not incorporated within this State at a greater rate of speed than 20 miles per hour.

Any person who violates this law is subject to a fine of not less than the sum of \$5.00 and not to exceed the sum of \$20.00.

W. J. Banner, Sheriff

Al Creigh Jr. was a business visitor in Del Rio the first of the week.

## WITH OUR NEIGHBORS

Devil's River News—One step nearer the goal of a marketing organization sought by Sutton ranchmen was attained Saturday afternoon when nineteen representative stock raisers met at the First National Bank. C. E. Bowles, marketing specialist, extension service of A. and M. College, was principal speaker. His subject was "Co-operative Marketing."

Work progressed rapidly this week on Barstow's new \$100,000 school plant despite the heavy rain which fell here Tuesday and Wednesday. Pouring of concrete foundation was the only phase of construction slowed by the moisture and only about one more day's pouring will complete the foundation for the walls. Carpenters have started the laying of sub-floors and brick laying is scheduled to start early next week. Approximately fifteen men were on the job Thursday.

Fort Stockton Pioneer—Property owning taxpayers of Pecos county will vote tomorrow on the question of issuance of \$175,000 in general obligation bonds to be used to finance construction of an all-weather highway linking Fort Stockton and the Northern Pecos County oil fields and farming communities of the Pecos River Valley.

Fort Davis Dispatch—Work is expected to begin some time next week on a cement curbing and gutter to run past the court house on two sides—the front, and the side next to the post office. The project was approved some time ago but funds and

men are just now available.

Big Bend Sentinel—With the new gymnasium rapidly nearing completion, Fort D. A. Russell officials are planning many interesting athletic events to be held regularly throughout the remainder of the winter and early spring. Events will include basketball and boxing tournaments that have attracted many spectators from Marfa and surrounding towns in previous years.

Ozona Stockman—A delegation of Crockett and Val Verde county officials and citizens will appear before the Texas Highway Commission at its meeting in Austin Monday, January 23, for the purpose of presenting these counties' claim for state maintenance of the Ozona-Comstock road, designated a state highway two years ago.

## Advertised Goods Sold Before Buyer Goes Into Store

By Frank Dixon. When I check back over the things I have purchased because they were sold to me through advertising, I am at a loss to understand why some people attempt to conduct a business in the world today without advertising. My knowledge of merchandising is confined solely to that of a purchaser and it is from this angle that I view it. And it is from this angle that I wonder that anyone could hope to achieve any measure of success in the merchandising field today without advertising.

I have come to the point where I do most of my shopping through newspaper and magazine advertisements. Because of this I have come to look for the brands and types of merchandise I see advertised and to pay little attention to those not advertised. Whether it is oil or gasoline for my car, a necktie, a shaving soap, a shirt a suit of clothes or canned goods, it is all the same. When the merchant shows me an advertised article I am already sold on it. My sales resistance is at a minimum, and nine times out of ten I will confidently buy the advertised item in preference to the non-advertised item.

In this respect I am confident I am no different than the great mass of buyers of this nation.

Next to running no advertisement at all I believe the greatest mistake that is made today by many merchants is running poorly written, poorly gotten up advertisements. Most people nowadays are advertisement readers. They have become discriminating advertisement readers. They look for information and sales presentation in the advertisements. They expect to be sold.

I think any competent merchant can write a good advertisement if he will set himself to the task and put some thought

and sales argument into it. I don't believe he can do it between customers. Few are smart enough to do that.

We used to have in our town a merchant whose advertising ran along the lines of "Jones keeps every thing. When in need of anything see Jones." Of course these "ads" were of very little value Jones paid a high rate for the advertising he got from them.

On the other hand, Jones was a good salesman when he talked personally to a prospective purchaser. Give him a piece of good merchandise and he could explain it with enthusiasm and sell it to his customer on its merits.—Fort Davis Dispatch.

## Department of Health Seeking Financial Aid

Austin—"The Texas State Department of Health is facing one of the most critical stages in the history of its existence", states Dr. Holman Taylor, Secretary, State Medical Association of Texas.

"The rapid expansion of the public health program during the past few years in Texas has been due in part to the increased interest of the citizens in the need for a more adequate program of health protection and a more emphatic demand that these services be given through the State Department of Health, Dr. Taylor further states.

"If these demands are to be satisfactorily met and the people in all parts of the state gain the reasonable health protection to which they are entitled, the following fundamental needs of the Department should be met for the next biennium.

- 1—A substantial increase in the amount of funds for the support of the central administration.
  - 2—Adequate appropriation for the promotion of a successful anti-venereal disease program.
  - 3—The passage of a new up to date sanitary code in line with the national code.
  - 4—Sufficient monies to be used as an equalization fund for promotion of local health work in the financially weaker cities and counties.
  - 5—An increase in the number of public health districts from 6, the present number, to 12 with adequate personnel to carry forward an effective program of communicable disease control.
  - 6—A separate appropriation for both Malaria Control and Pneumonia typing.
  - 7—A Constitutional Amendment to permit counties to levy and collect a special tax to support local health work if their general revenue funds are inadequate or overdrawn.
  - 8—Establishment of a division of mental hygiene to reduce the number of mentally ill.
- "If these eight vital needs are met by the incoming 46th Legislature, I feel confident that the Texas State Department of Health will be enabled to render the type of service that will be reflected in a constantly decreasing death rate from those diseases that are preventable," concluded Dr. Taylor.

A constructive thought put in action will get you out of the rut.

The limit of some is the starting point for others.

## One Hit—No Runs—No Errors

Teammates on the baseball field and hunting companions in the field are Roy Johnson, left, veteran coach of the Chicago Cubs, and Larry French, one of the team's pitchers. They are untying a wild boar shot on Santa Catalina Island, where the Cubs hold their pre-season training.

## Navy Seeking Men For Aviation; To Build Naval Strength

The Navy Department in an effort to build up a strong Navy Reserve Aviation Force, is seeking young, unmarried men with a college education, who desire flight training at various air stations in the United States.

Presenting an opportunity for qualified men interested in aviation, the offer includes a tour of duty extending over a period of four years.

Five qualifications must be met; they are:

The applicant must be an American citizen, between 20 and 28 years of age, unmarried, of sound physical condition, including a minimum height of 5 feet 6 inches, a minimum weight of 132 pounds, and must have perfect vision in both eyes without the aid of glasses. The fifth requirement is a college education. Candidates who did not quite graduate may be considered.

A board of naval officers from the Naval Air Station, Pensacola, Florida, composed of aviators and a flight Surgeon, will meet in the principal cities of the South during March and April for the purpose of examining candidates for Naval Cadet Aviation Training. The board travels by plane.

The board does not give mental examinations, as candidates are judged by their educational record. A thorough physical examination is given by the flight surgeon. Before being examined, candidates must submit applications with certain documentary evidence which is reviewed by the board. Candidates who are still in school should qualify as soon as possible so that they may be ordered to duty later in the year. Classes assemble monthly from May to October. There is no obligation involved in making application. Blanks and information are obtainable from the Senior Member, Naval Reserve Flight Selection Board, Naval Air Station, Pensacola, Florida.

### ALL TYPES OF PLANES USED

The training embraces flight training at sea and shore stations and in all types of naval aircraft, both single and multi-motored. During the training

## Civil Service Exams Announced for Wage and Hour Division

The United States Civil Service Commission has announced open competitive examinations for the positions of Supervising Inspector, \$3,800 a year, Senior Inspector, \$2,600 a year, and Inspector, \$2,600 a year, in the Wage and Hour Division, Department of Labor.

Applicants must have had certain responsible experience in industry or business as an employer, administrative official, or as a recognized employee representative participating in improvement of working conditions; or in a State or Federal agency administering labor laws or investigating employer-employee relationships or economic conditions of wage earners. They must have reached their twenty-fifth but must not have passed their fifty-third birthday.

Applications must be on file with the U. S. Civil Service Commission at Washington, D. C., not later than February 7,

1939, if received from east of Colorado, and not later than February 10, 1939, if received from Colorado and westward.

Full information may be obtained from the Secretary, United States Civil Service Board of Examiners at the office or customhouse in the city which has a post office the first or second class of the United States Civil Service Commission, Washington, D. C.

Do you put a limit on ability to accomplish? Raise your sights.

The star of hope still shines. Walk, talk and win by reason with persuasion.

Rational enthusiasm men.

### Texas Women Seek Funds For Paralysis-Crippled Children

Leading a drive for the Celebration of the President's Birthday every community in Texas will be found public spirited, big-hearted Texas women Mrs. George H. Pittman, Dallas, vice chairman in charge of women's activities, has gathered about her an efficient staff of prominent women who have volunteered their time and talents to the making of the celebration, Jan. 30, the most successful held in the picture above will be found Mrs. Pittman, center; per left is Oveta Culp Hobby, wife of former governor W. P. Hobby, Houston, and president of the Houston Post, upper right, Mrs. Edwin T. Phillips, Fort Worth; lower left is Mrs. Volney W. Taylor, Brownsville, and lower right is Mrs. J. K. Beretta, San Antonio. All of the ladies are members of the State Committee serving W. L. Clayton, Houston, state chairman.

from a swing through the sheep sections of the state. "Lamb feeders bought their lambs cheap enough to enable them to make a profit on a fat lamb market no better than of last spring, and it ought to be better," he said.

"Generally, there are more lambs fattened on wheat pastures than in the feed lots of Texas, but very few lambs are on wheat because of the fall drought," Nisbet declared. "There are less lambs in the feed lots, too, so that Texas will have a greatly reduced volume of fed lambs."

The 1938 lamb crop was the largest in the history of the country and that fact, together with the unprofitable operations of lamb feeders last season, was responsible for the low feeder prices. Many of the lambs that might have gone to feeders went to the packers, and Nisbet said the large lamb crop has been cut into more than was generally realized.

Most lambs are in the hands of experienced feeders, and the "in and outers" are largely out this season. The sheep and goat specialist thinks that Texas should feed more lambs as part of a long time program.

"One reason why Texas has not fed a larger volume of lambs is that the forage produced has been of poor quality," he said. "The trench silo should correct that trouble and make lamb feeding possible throughout the state rather than in spots. Texas should feed more lambs for market and do so year in and year out."

### World's Greatest Beef Cattle Show to Be Held At San Francisco Fair

San Francisco—Simultaneous with the Western World's Fair Premiere on February 18 and 19 the world's greatest beef cattle show will open on Treasure Island.

This was assured today as entries to the beef exhibition nearing the 1,200 mark, the livestock bluebloods lining up from every section of continental United States and Canada, their owners eyes glancing at the \$74,000 in prize cash, premiums and trophies.

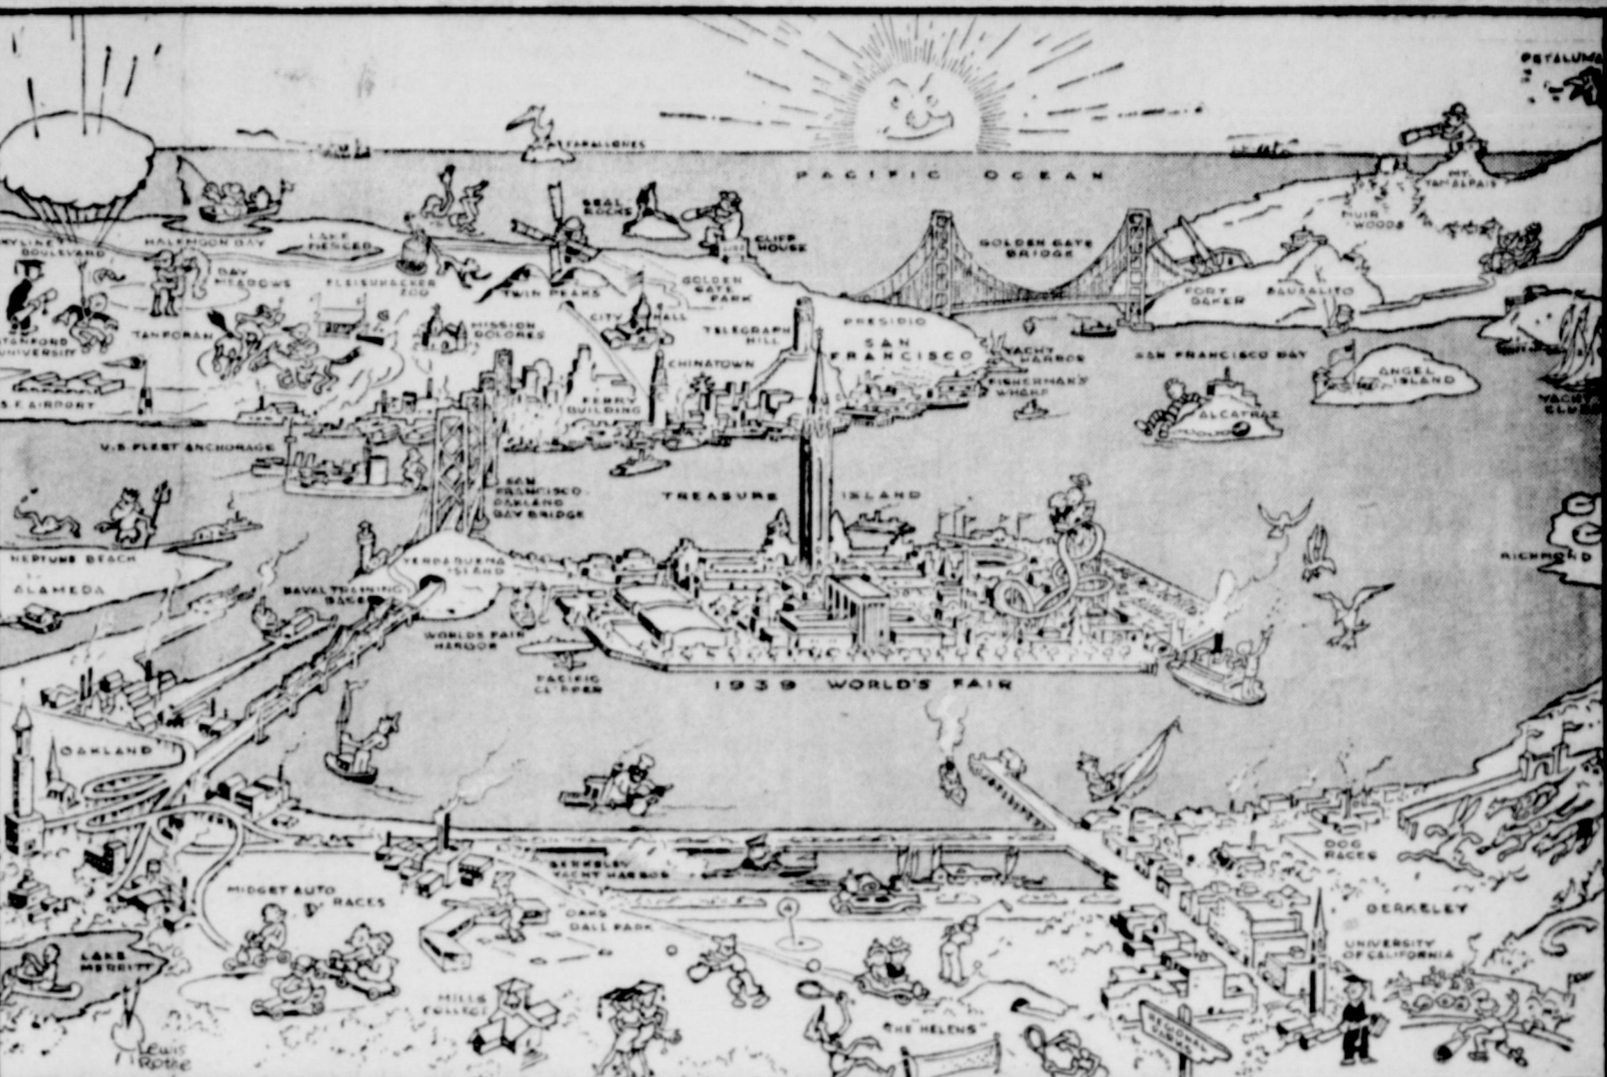

As the entry date deadline—January 15—approaches, more than 500 Herefords, already entered, are being groomed and fitted for the showing; like numbers of Shorthorns and Aberdeen-Angus stock are in prospect, the entries indicate, according to Ezra J. Fjeldsted, Chief of the Division of Livestock.

The beef cattle showing will run from February 18 to 28 in the mammoth Livestock Pavilion and California Cattle Barns nearing completion on Treasure Island. It is the first major livestock event of the Exposition with twelve other worldwide shows and events drawing interest on subsequent dates during the 288-day run of the fair.

"It is remarkable," said Fjeldsted, "that a majority of our Hereford entries to date are from the East and South with only a few from California so far. British Columbia, too, is pointing prize herds toward Treasure Island, indicating the show has a worldwide scope."

E. S. Pillsbury of Buelton, Cal., is chairman of the beef

### As Seagulls See California World's Fair in San Francisco Bay

This humorous sketch by Artist Lewis Rothe colorfully portrays the man-made island setting of the 1939 Golden Gate International Exposition in the middle of San Francisco Bay. The site, which has been named Treasure Island, lies between the two famous new bridges. In the foreground is Oakland and other East Bay communities; in the background, San Francisco and the Pacific Ocean. Note at right, Alcatraz Island, the Federal Government's "home" for bad men.

cattle section of the Livestock Committee. His was the first Hereford entry. Fjeldsted's records show.

Judges will be Alex MacDonal of Davis, Herefords; W. L. Blizard, dean of the College of Agriculture at Stillwater, Oklahoma, Shorthorns; and H. H. Kldee of Ames, Ia., who is dean of the Iowa State Agricultural College, Aberdeen-Angus. John Burns of Fort Worth, Texas, will judge all steers.

### Picture Machine Finds Weak Spots in Beams and Bars

Austin—The naked eye can't see it, but a bridge actually "bends" and a University of Texas student has concocted a photographic device that can record such deviations from the normal.

The instrument which does this is called a "polariscope" by its originator, Ed H. Moss, University student from Giddings, who has been testing its possibilities since May. A penetrating eight-foot instrument, it will benefit mainly the designers of buildings and bridges and companies engaged in the making of machinery, Moss says.

Somewhat as an X-ray machine shows defects inside the human body, the device shows structural defects in beams and bars. A bakelite model of the object to be tested by the machine is made and as nearly as possible is given a load corresponding to that of the life-size structure. It is then that the polariscope makes a picture of the model.

When developed the picture reveals the spots receiving the most stress. Around each weak portion is a series of wavy lines, invisible to the human eye but plainly shown by the polariscope.

These lines surround the nucleus of the stress, and their frequency determines the exact amount of strain.

The most important application of the polariscope, Moss says is in finding stresses in intricate shapes such as turbines and other mechanisms in which mathematical calculations prove useless.

### "Rich Man, Poor Girl" Gay Comedy of Errors

Romance and sure-fire comedy are combined with uproarious results in "Rich Man, Poor Girl," featuring Robert Young, Lew Ayres and Ruth Hussey at the Princess Theatre, Monday and Tuesday.

Young, a socialite millionaire in love with his secretary, played by Miss Hussey, is presented in another of those breezy, personable roles which earned him acclaim in "Married Before Breakfast" and "I Met Him in Paris." Lew Ayres in the part of Miss Hussey's impetuous cousin, champion of the middle classes, unquestionably huris himself into Hollywood's front rank of comedians with this delightful characterization. Miss Hussey, undertaking her leading role, is an engaging and charming heroine.

Young and Miss Hussey are in love and wish to get married, but she fears the wide social gulf which separates them and insists that he meet her family. The folks at home, "Ma" Thayer, played by Sarah Padden, "Pa" Thayer, played by Guy Kibbee,

Frank, Don Castle, and the hot-headed Cousin Henry, as portrayed by Ayres, are suspicious of the millionaire Miss Hussey's sister, Lana Turner, however, considers the proposed marriage a windfall, and one which shouldn't be blown away.

In order to impress the family with the seriousness of his intentions, Young moves into their tiny flat with them—and then the hilarity begins to bubble. At last Young unable to aid the Thayers financially, or win their favor, is reduced to the extremity of threatening to give away his fortune. With lightning-like rapidity and in a series of rip-roaring scenes the Thayers prevent him from carrying out his threats and with their objections to his helping them overruled, he marries Miss Hussey.

The picture is expertly directed by Reinhold Schunzel, who in this, his first American picture, gives ample indication of excellent things to come.

Ability plus accomplishment go places.

Only as you adjust yourself to conditions as you find them will you be able to advance.

They're the feeds that do the best feeding job on the range—makes ewes give more milk at lambing time—stronger and healthier lambs—better fleece of wool.

masterful living builds character. There is still a chance for those who think there is.

### Plans to Replace Present Carburetor With Injector

Austin—Dollars and mileage leaking out of faulty carburetors may soon wiped off the slate by Ralph E. Powers of Austin, 25-year-old graduate at The University of Texas, who for eight months has been working on a device to replace the carburetor. In the engineering building's noisy machine shop here, his device, a "mechanical injector," is housed. A small apparatus made of stainless steel, the mechanical injector will surpass the carburetor in both economy and efficiency and will be almost fool-proof as far as wearing out is concerned, Powers believes.

It furnishes gas to the cylinder of a car by means of a plunger type pump that sprays gasoline on the intake valve when the valve opens for air. Present carburetors feed a prepared mixture of air and gasoline to the cylinder but not always in the correct proportions, Powers explained.

"It is my aim to use a mechanical injector to provide the correct mixture of gasoline and air to the cylinder at any speed and no matter what the load of the car," he said. "If successful, I believe the mechanical injector will cost about as much as an ordinary carburetor."

### Fewer Lambs on Feed This Year; Outlook Better

College Station—There are not as many lambs on feed in Texas as in the past feeding season, but those who are feeding may look forward to a profitable operation, W. R. Nisbet, animal husbandman of the Texas A. and M. College Extension Service, said on his return

### NOTICE

STATE OF TEXAS COUNTY OF TERRELL Notice is hereby given that the Commissioner's Court of Terrell County, will, at its February Term, A. D. 1939, be convened and holden on the 13th day of February, A. D. 1939, receive proposals from any Bank-Corporation, Association or Individual Banker, in Terrell County, Texas, who may desire to make depository of the Funds said Terrell County, Texas. Any Banking Corporation, Association or Individual Banker, desiring to bid, shall deliver to the County Judge of Terrell County, Texas, on or before the day of said Term of said Court, a sealed proposal, stating the rate of interest that said Banking Corporation, Association or Individual Banker and its offers to pay on the deposits of said County for the term between the date of such selection of a Depository. Said Bid shall be accompanied by a certified check for not less than one-half of one per cent of County Revenue for the year 1939. (Said Revenue including interest, being approximately \$36.00) as a guarantee of faith on the part of the bidder, and that if his bid shall be accepted, that he will enter into a bond as required by law. Given under my hand and seal of the County Court, this 15th day of January, A. D. 1939. R. S. Wilkinson, County Judge, Terrell County, Texas. Attest: D. L. Duke, Clerk, County Court, Terrell County, Texas 46-48

The Young Woman's Culture Club met Thursday night, January 12, in the home of Miss Myrtle Harrell.

Mrs. J. C. Green Hostess to Wednesday Club

Mrs. J. C. Green was hostess to the Wednesday Bridge Club in her home Wednesday afternoon.

Old-Age Claim Forms May Now Be Obtained From Post Offices

A supply of claims inquiry forms for the use of individuals interested in filing applications for old-age insurance lump-sum benefits have recently been sent to all post offices in the El Paso area.

Miss Twylah Capps, who has been receiving medical attention at a Del Rio hospital for the past two weeks, is reported to be much improved.

Mr. James stated that lump-sum payments now being made amount to 3 1/2 per cent of the employee's total taxable wages received prior to attainment of age 65 or death.

Mr. and Mrs. H. V. Cox took her parents, Mr. and Mrs. R. A. Ferguson, to Florence Saturday returning home Sunday.

A new poster, showing the location of the El Paso office of the Social Security Board at 234 United States Court House, has been distributed for display in post offices.

Mr. and Mrs. Ernest Williams and little daughter, Dawn, left Tuesday for San Antonio where they will spend several days.

For the convenience of the public, Mr. James explained, all post offices have received supplies of Form SS-5, employee's application for accounts number, the claims inquiry form, and Form SS-4, which is used by the employer in applying for an identification number.

Travis Horton of Quitman arrived here Friday to return his mother, Mrs. A. J. Horton, home after visiting here with her daughter, Mrs. J. W. Domnum and Mr. Downum.

Under this arrangement, employers and employees may secure the forms they need from their local post offices and save the trip to El Paso, Mr. James said.

J. Gordon James, connected with the Social Security Board in El Paso, was a visitor in Sanderson Tuesday.

Cattle Industry Due to Expand Says G. W. Barnes

The cattle industry has started upon a period of moderate expansion that may continue for years, G. W. Barnes, animal husbandman of the Texas A and M. College Extension Service, pointed out in discussing the long-time outlook for beef cattle recently released by the U. S. Department of Agriculture Bureau of Agricultural Economics.

"Cattle production operates in cycles," Barnes said. "The high point in cattle numbers was reached in 1934, and declined to the low point by January 1, 1938. This year will see cattle numbers increase about 1 per cent, and apparently the increase in the new cycle has started."

"Barring the recurrence of a series of drought years such as prevailed from 1934 to 1937 it seems fairly certain that cattle numbers will tend to expand for some years. The rate and extent of this increase cannot be predicted now, but it appears unlikely that cattle numbers will

Evening Beauty

Striking night photograph of the statue, "The Evening Star," silhouetted against the 400-foot Tower of the Sun at the 1939 Golden Gate International Exposition, on Treasure Island in San Francisco Bay.

reach as high a peak in the present cycle as was reached early in 1934."

Barnes pointed out that increasing numbers of cattle in the next few years will come largely from withholding cattle, mostly cows and calves, from slaughter. Supplies of hogs and hog slaughter are expected to expand rather sharply, and total meat supplies will be larger than the average of the past 4 years.

During 1939 it is expected that fewer cattle and calves will be slaughtered than in the past year, with the reduction chiefly in calves, cows, and heifers. With plentiful supplies of feed the finish and weights of cattle slaughtered will still be relatively high.

San Angelo Eighth Annual Stock Show Set for March 3-6

San Angelo—With a total premium list in excess of \$8,000, catalogues for the Eighth Annual San Angelo Fat Stock Show and Rodeo, have been mailed over the Southwest, publicizing the event sponsored by the San Angelo Board of City Development that has become one of the most outstanding regional livestock shows in the nation.

Dates for the 1939 show are March 3, 4, 5 and 6. Premiums and trophies in the stock show division aggregate more than \$3,600, while rodeo prizes plus entrance fees will be in excess of \$4,500.

As last year, premier rodeo events are scheduled, the stock having been contracted from the World's Champion Rodeo Corp., which plays each fall in Madison Square Garden, New York City, Boston and other major eastern cities.

Everett Colburn, manager of the corporation, has promised Culberson Deal, San Angelo show manager, the best of the firms' rodeo stock and champions and top performers in the various events are to be contestants here.

In the stock show division, where the pride of West Texas sheep and cattle ranges are to be paraded, Mr. Deal said arrangements have been completed to have men with national reputations serve as judges.

Work has been completed on a new barn at the Fairgrounds to provide additional facilities for those exhibiting here. This need developed in 1938 when accommodations were crowded beyond capacity.

John P. Lee, pioneer ranchman of this section, is chairman of the executive committee, and Abe Mayer, banker and ranchman, is vice-chairman. Other members of the committee include H. E. McCulloch, immediate past president of the B. C.

The boys' fat stock auction will be held Monday, March 6, final day of the show, and the registered Hereford auction will be on Saturday, March 4. Both are annual features of the local exposition. In the latter sale there will be 50 outstanding bulls and 10 top females.

DR. BAKER COMING The eyesight specialist, who has fitted several hundred citizens in this county satisfactorily, will be at the Sanderson Drug Co. Wednesday, Jan. 25th only. If you want the finest glasses made, and your eyes tested with Scientific equipment. See, San Angelo's well known optometrist, Dr. Fred Baker Adv

Mr. and Mrs. Jeff Sessoms returned the latter part of last week from North Carolina where they had been visiting with relatives.

Mrs. J. H. Loehausen and son Wesley, and daughter, Miss Roberta, and Mrs. Joe Kerr, and son Edward were Alpine visitors Saturday where they attended the basketball tournament.

Al Kinsey of Alpine, former ranchman of this section, was in Sanderson Wednesday on business.

John Tom, customs officer, has been transferred to Sanderson from Terlingua, and will be associated with Capt. W. L. Barber.

Mrs. Mattie Youngblood of Del Rio visited Mr. and Mrs. Fred Turner and Mr. and Mrs. Jesse Martin Friday and Saturday.

H. D. Johnson of Dallas and his mother, Mrs. F. F. Harrison of Pumpville were Sanderson visitors Saturday.

Bob Youngblood of Del Rio, nephew of Mrs. Fred Turner and Jesse Martin has accepted a position as night clerk at the Kerr Hotel.

Mr. and Mrs. O. H. McAdams, Mrs. A. D. Brown and Mrs. Marvin Kelly attended the Baptist's Worker's Conference of the Pecos Valley Association at Pecos Tuesday.

Seth Davenport, nephew of Mr. and Mrs. Joe F. Brown, returned to Uvalde Tuesday after visiting on the Brown ranch for several weeks.

Mrs. Carlton White and daughter, Janice and Mr. and Mrs. O. T. Sudduth were Fort Stockton visitors Sunday.

BUCK JONES HERE Tuesday morning Buck Jones, of movie fame, and Mrs. Jones and their daughter stopped in Sanderson for breakfast. They were enroute to Mexico City and other points of interest in Old Mexico. They had breakfast at the Loma Alta.

UNDERGOES OPERATION Mr. and Mrs. Sam Harrell and daughter, Lillian, and Mrs. J. Neal left Monday for Houston where they went to be at the bedside of Mr. Neal who underwent an operation Wednesday. Latest reports were to the effect that he was doing nicely.

Dryden News

Mrs. A. Billings and daughter Eva, returned Wednesday night from San Antonio.

Mrs. W. D. Chandler was a business visitor in Del Rio Tuesday.

Mr. and Mrs. A. A. Burdwell returned to their home in Del Rio after spending a few days here.

Don McDonnell returned returned home Friday night from Austin.

Mr. and Mrs. Wyatt and baby have moved here from the ranch close to Pumpville.

RATTLE OF THE RAIL

M. L. Tuberville, division car foreman, was here from Del Rio Tuesday.

Leo J. Chollett of Giddens is working here temporarily as Car Inspector.

Fireman H. Arfman returned Monday from a visit to Del Rio.

Engineer R. Kusun, passenger on the run between El Paso and Sanderson has been laying off on account of sickness.

Boiler Inspector Chris List was here from San Antonio Tuesday, going on to Valentine.

Engineer H. G. Newton was down from El Paso with a trip on passenger this week.

General Road Foreman of engines, R. de Waal was here from Houston Tuesday, accompanied by Asst. Supt. of Motive Power Netherwood also of Houston.

OPENS BARBER SHOP

John Whistler is now operating the Royal Barber Shop and invites his friends to call on him there.

Roy Sims returned Monday from Fort Worth where he attended the Purina Mills convention.

AUDITOR HERE

Whitfield Oglesby of Austin, who is county auditor for Terrell County, arrived Tuesday and will spend several days here on business.

PRESIDENT—

(Continued from page 1)

curity Administration, and \$16,168,256.40 for the Public Works Administration.

The report shows the amounts expended for various types of work. For the entire United States, major items are highways and roads \$2,503,719,922; public buildings \$746,146,668; educational projects \$959,084,013; conservation work \$1,045,653,278. The President also reported the amounts expended for payrolls, purchase of materials and equipment, and other objects of expenditure in the several states. The principal item under this classification was for payrolls.

which amounted to \$6,037,629.916. Expenditures for materials and supplies amounted to \$6,317,130; for equipment \$89,501.52, and for construction, maintenance and repairs \$249,330.30.

During the same period the had been collected and paid back into the Treasury approximately \$84,000,000 in receipts, the major part of which represents repayments of loans made to clients of the Farm Security Administration and the Federal Credit Administration. The number of payments made exceeded 250,000,000.

Included in the expenditure is the sum of \$5,863,771,068 the Works Progress Administration; \$574,714,440 for the Federal Security Administration, \$375,911,326 for the Public Works Administration. Other expenditures are distributed among approximately 75 Federal agencies. The Government has approximately \$6,000,000 in accounts by prompt payment of its bills.

The report also discloses that the Treasury now has on books approximately 683,000 five accounts of Farm Security Administration borrowers.

Several pages of the President's report are devoted to explanation of the accounting procedures followed by the Government in connection with the work relief funds. What not to be generally understood by the public is that the relief funds really receive a very meticulous double audit. The first audit is conducted by the Treasury to payment. This is done through branch accounting offices located in the several States where payments are made. The second audit is made after payment in Washington by the General Accounting Office.

Disbursements are made by bonded disbursing officers of the Treasury Department.

EAGLES DOWN—

(Continued from page 1)

end of the game. The final showed Sanderson 42 to Felipe's 35.

Considering the weather conditions the spectators that lined out for the game were over the number that would be expected to turn out. But up the good work and show boys that you are behind the one hundred per cent in game that they undertake, bigger the crowd the better.

They have a fast and crafty team so come on out and cheer them that you appreciate their efforts. The gate receipts for game were \$14.35.
