RANCH TALK—

Sunshine Matthews—Sheep & Goat Raisers' Association

Solutions presented and adopted at the recent meeting of the directors of the Texas Sheep & Goat Raisers' Association included the following: Reaffirmation of the number convention resolution regarding truck load limits with qualifying remark, "We further express the opinion that remedial legislation can be obtained that will raise the maximum poundage to such figures that will actually afford relief that it is better that no legislation be enacted at all. We express the opinion that legislation proposed should be based upon the rights of the pack and the convenience and safety for transportation as sole without regard to any groups seeking such legislation, and with proper safeguards to the traveling public and highways of the state. Her resolutions reaffirmed that at A & M. College, the bill relating livestock commission the Schwartz-Martin in-fabric bill, and the emergency appropriation for the stock Sanitary Commission. Approval was given the Gil- bill on eradication of poisonous plants along state highways and on the adoption of the arroyo livestock theft bill. Equivocal opposition" was added to any legislation that proposed a tax by the mile on freight vehicles using highways and also to legislation that would require a proper of domestic livestock to a prescription or license for the supervision of any person in the administration of medicines or the obtainment thereof.

Empathy was extended by association to the families of the late Capt. H. W. Rieck and Mrs. O'Daniel, both of whom active in association work a number of years preceded their deaths.

Appreciation was expressed to Fredricksburg's citizens, Chamber of Commerce, and the Gillespie County directors for their hospitality during the session.

Harold Schmidt, president of the Mason County Fair Association, has announced that June 20, 21 and 22 are the dates for the annual Mason County Rodeo. The three-day celebration is sponsored by the fair association.

Approximately 140 cars of gypsum were shipped out of Fredricksburg last year—140 cars with an average weight of 110,000 pounds. The gypsum deposit is located about 14 miles from town on the Stehling place and is to be found from a depth of 12 to 20 feet. The Gillespie gypsum, which is all shipped to a San Antonio cement plant, tests 97 per cent pure. Other than its use in cement, gypsum can be used for plaster of Paris and is said to be good in pulverized form mixed with cattle feed.

B. R. (Slim) Sheffield of the Sheffield Motor Co. at Brady has the troubles of the average homebuilder multiplied many times over. His new addition to Brady, located south of South Ridge, has 14 new homes completed and sold and 12 more scheduled for immediate construction. Slim's friends facetiously term his project the "Sheffield Swamps". An average cost of the homes in the new section is \$3,500.

Sanderson Schools To Be Represented At Bi-County Meel

Scheduled To Be Held At Alpine Friday, March 24

More students have entered Interscholastic League work in the Sanderson High School than ever before, according to the records after all entries were made on March 14 for the Bi-County meet to be held in Alpine on March 24. The list of entries shows that 40 boys and 28 girls in high school have entered as representatives of the school. This amounts to approximately 73 per cent of all students now enrolled in the high school grades. Many others entered some league event but did not win a place to represent the school at the county meet.

In the seventh grade, which is a part of the high school, but which is required to enter the league as a separate school, there are 33 pupils signed to enter some league event. The total enrollment of the grade is only 38, thus making 89 per cent of the students in this grade eligible to represent the school. More boys than girls are selected to represent the school from this grade, there being 94 per cent of the boys and 82 per cent of the girls. Every student from the seventh grade took some part in the league work before the final elimination contests but no students were required to enter the tryouts, this being on a volunteer basis.

All the students in the Sanderson Ward School entered some league competition except the pupils in the one or more events.

The winners in the various events in the local try-outs who will represent the Sanderson Schools at Alpine are as follows:

Scouts Plan Big Bend Trip

The scouts took a vote at Scout Meeting Tuesday night and decided to visit the proposed Big Bend National Park. It was planned that the troop would leave here Friday April 7, and go to Marathon where they would camp for the night. The next morning they will go into the park and spend the day and come home that evening. This should prove to be a very interesting trip to all Scouts and Scouters that make the trip.

In the inter-patrol contest, the Panther Patrol pulled out in first place to lead their closest opponents by 10 points. The Panthers brought up some well-made handicraft which brought in many of the points and gave them the lead.

Plays were also presented. The Flaming Arrow Patrol won first with Zozo the wonder boy who answered any questions. The Eagle Patrol presented "What was left of the old Motel T. Ford." This brought them Second Place.

After the meeting, a very fast game of "Capture The Flag" was played. The Horse and Panthers defeated the Eagles and the Flaming Arrow Patrols after taking the flag away from the flag guards and going two blocks out of the way to get the flag home safely.

Four new scouts are now among the ranks of Troop 60. They are Charles Rogers, Harvey Rogers, Bill Lucky and Clenton Moody.

Mr. and Mrs. L. J. Moreau and daughter, Mrs. W. W. Brinley and little son, William Jr., and B. F. Lancaster arrived in Sanderson Saturday from Boerne. Mrs. Brinley and son came to join Mr. Brinley who is connected with the Sanderson Times and has been here for several weeks. Mr. and Mrs. Moreau and Mr. Lancaster returned to their home Sunday.

WITH OUR NEIGHBORS

Fort Stockton Pioneer—Persons unknown, but apparently of professional skill, entered the Stockton Wool & Mohair Company here sometime Wednesday night, knocked the knob off the firm's safe, punched in the combination, and took all currency in the safe, estimated by W. H. Burcham, partner in the firm, at more than \$60. The safe was wrecked.

Fort Stockton Pioneer—Pecos County's recently voted \$250,000 highway bond issue made statewide financial history when they sold Wednesday at the lowest in-

terest rate and cost ever commanded by obligations of any Texas political subdivision.

Alpine Avalanche—Declaring that the Big Bend park deserves immediate attention of the Legislature, that development of a year-around park would be profitable to the state in many ways and making public a letter from President Roosevelt urging establishment of the park. Gov. W. Lee O'Daniel has come out strong for the West Texas project.

Brackett News—Mail—With this issue, the News-Mail attains the lusty age of 59 years, all of continuous publication in Brackettville and Kinney County.

Hudspeth County News—The first of the "pony express" riders, sponsored by the Nacona Chamber of Commerce, arrived in Sierra Blanca last Tuesday evening. Shannon Davidson of Matador and T. J. Sikes of Duval, Okla., were the first to arrive.

Ozona Stockman—Reminding local ranchers of the "good old days," five lambs sold at 13 1/4 cents a pound and a fat calf at 20 1/4 cents a pound here Thursday afternoon in the auction sale of these animals following the first fat stock show of Crockett County 4-H club boys, held at the fair grounds.

Uvalde Leader News—Enumeration of some 3,500 children of school age is under way by census takers in the various common and independent districts of Uvalde County and several weeks will be required to complete the task of obtaining the name of every child within the school ages, six to seventeen years.

(Editor's note—This column represents the views of an Austin newspaperman who is making a close study of the situation there and will report developments from week to week.)

(By Nugent Ezekiel Brown)

Austin—(Special)—A bloc is rapidly taking shape in the House of Representatives for the avowed purpose of effecting a change in the personnel of the Old Age Assistance Commission in Austin. Albert Derden of Marlin is outspoken in his denunciation of methods employed by the present acting director, W. A. Little, and his first lieutenant, Claudius Hodges, so-called personnel director. Three women, so-called "social experts," also are in the line of fire as these "experts" are alleged to be cold-blooded in their method of handling justifiable complaints registered from old folks all over

Texas. In this connection, Representative Derden strongly condemns lobbying methods being employed by Hodges, Little and another assistant, Fred Varner. Varner was an assistant attorney general attached to the Old Age Assistance Commission until January 1, when Attorney General Gerald C. Mann failed to reappoint him to the \$4000 salary which he drew out of pension funds. Little then made Varner an "assistant director" and he stays on the job of lobbying with legislators. In an attempt to influence legislators, a series of stag parties have been held during the last 60 days at Hodges' lakeshore home on the Colorado River. When Representative John Roach of Forney and his good wife visited this home recently along with some 15 other legislators, Rev. Roach, a retired Methodist minister, says he was shocked to find a bar installed in the home where beer and whiskies were being served freely. Rev. Roach reports he found one of the high officials of the Old Age set-up in a "visibly intoxicated condition" that evening and that he remonstrated at such conduct. Other members report poker parties have been the habit of some of these officials, rather than the exception. These same members hastened to explain they didn't know the purpose of these lakeshore home parties until they were on the scene and that they shall not accept such invitations again. In the meantime, as Representative Derden points out, nothing has been done by the legislature or the governor to "clean up" the methods employed by the officials in charge of the pensions set-up here. "The people back home elected us as well as the governor last summer on the specific promise that we would clean up that bureau," he says. "And if we fail, we had better not ask for reelection in 1940."

In the meantime, also, thousands of letters from old folks and others interested in this all-important problem, addressed to the governor, have been sent on to the desk of Acting Director Little. The old folks themselves will verify this statement. Little then sorts these same letters and forwards them back to investigators in the field, who are told to answer them. This is not right, as in many instances, these letters contain complaints against methods employed by these same investigators. So where does it get the old folks? Is it any wonder that thousands of all over Texas today are plainly disgusted with the whole thing, O'Daniel and all the others? Representative Derden and many other legislators see this angle and are determined to do something about it, and the bloc is forming. Other legislators who are working for the old folks include: W. J. Bailey of Wood County, E. J. Cleveland of Hays County, Maurice Dowell of Caldwell, R. L. Brown of Nacogdoches, Ottis Lock of Angelina, Bryan Bradbury of Taylor, Harrell of Lamar, Ross Hardin of Limestone, Westbrook of Sabine, Cockrell of Lampasas, Fielden of Titus, Faulkner of Ellis, Bundy of Wichita, Roach of Kaufman, Baker of Grayson, Bond of Preston, Pace of Cooke, Kerr of Fayette and scores of others too numerous to mention. These men are actively at work.

But the stag parties are still going strong and some members are visibly affected by the glamour of a \$20,000 home of native rock and Bastrop cedar together with fitting refreshments and chances to get friends and relatives a job in Austin. If you folks back home want action down here, write or wire your legislator about this matter of saving the lives of our pioneers.

Short shorts—With fifty individual lobbyists in Austin working for the railroads, Representative Homer Leonard's bill to raise the load limit to 20,000 pounds was killed in the House this week. Little hope is seen now for any legislation along

this line although other bills are pending. The veterans preference bill was passed by both houses after a spirited fight against it in the House where it was opposed by Bowlen Bond in a vigorous manner. It will instruct state department heads to employ 10 percent of their personnel from war veterans who can qualify. The fair-trade bill and the anti-discrimination bill both have strong support in both houses and Governor O'Daniel already is committed for them. Both bills passed their second reading but failed to get special order setting by a few votes (two thirds majority is necessary for this action). Opponents concede they will pass.

A bill to abolish the liquor board failed to get even a minority report. The State health department is seeking \$150,000 of State funds to match federal funds for fighting venereal diseases in Texas, also \$150,000 for rural co-operative health units, both very worthy causes. Better health conditions among our rural people will pay big dividends, it is pointed out by legislators who favor helping this program.

yours,
Zeke.

New Zane Grey Range Film Is He-Man Drama

Gallantry rides the range in "The Mysterious Rider," Paramount's stirring drama of war, devotion and revenge in the Old West, which shows Friday and Saturday at the Princess Theatre.

Written by Zane Grey and produced by Harry Sherman, "The Mysterious Rider" is without doubt the best thing either of those masters of range dramas has yet turned out. It packs plenty of action, thrills and love as it tells its story of an innocent outlaw who returns from his exile in the desert to save his daughter from disaster and bring to justice the murderer of his friend.

Douglas Dumbrille, in a role exactly suited to his talents, is the central figure as the fearless horseman who "returns from the dead" to take a job at his daughter's ranch when he hears she is about to be robbed by a crook guardian in secret league with a gang of rustlers. Without revealing his identity to any one, he devotes his efforts to ferreting out the guilty parties and preparing a trap for them. With the help of his daughter's sweetheart, Russell Hayden, the wanderer brings his strange quest for vengeance to a thrilling climax.

The interest in the story is increased by some of the grandest scenery to be found in the entire West. The picture was filmed, by special arrangement, in the desert preserve of the University of Agriculture, near Tucson.

Pork Chops and Apples For Dinner

Pork chops and apples are an old, old combination, but a favored one, just the same. The tart flavor of the apples seems to enhance the rich, delicious flavor of the chops and makes the whole meal just right.

In order that pork chops and apples may make a real menu standby, it is necessary that there be variety in the way these two favorite foods are prepared. According to Inez S. Wilson, home economist, there are many ways to combine them. For instance, the pork chops may be stuffed, and served with apple quarters which have been browned in the pork chop drippings. Or the pork chops may be filled with an apple stuffing. Or the pork chops may be cooked in casserole with apples and sweet potatoes. Here are suggestions for preparing and serving these two foods together.

Stuffed Pork Chops with Apples

6 double pork chops
 1 cup bread crumbs
 1 cup corn pulp
 1 teaspoon powdered celery leaves
 Salt and pepper

Have pork chops cut thick, and a pocket cut into the center from the side next to the bone. Make a stuffing from the bread crumbs, corn, and seasonings. Fill the pocket. No skewer is necessary when the pocket is cut from the rib side of the chops. Season the chops with salt and pepper and brown on both sides in a hot skillet. Add a little hot water, cover the chops tightly, and cook slowly until done, about one hour. Pork chops always should be cooked slowly until thoroughly done in order to bring out the rich, delicious flavor.

When the chops are done, remove them to a hot platter and keep warm. With part of the

drippings, brown and cook apple sections, and with the rest, make a rich brown gravy.

Instead of using apples as a garnish and accompaniment for pork chops, you may want to use an apple stuffing. Here is the way it is prepared:

Apple Stuffing
 2 slices salt pork, diced
 1/2 cup chopped celery
 1/2 cup chopped onion
 1 cup bread or cracker crumbs
 1/4 cup chopped parsley
 5 tart apples, diced
 1/2 cup sugar
 Salt and pepper

Fry salt pork until crisp. Cook onions and celery in fat until they are tender. Then add chopped apples, sprinkle with sugar and cover. Cook until apples are tender. Add bread crumbs and season with salt and pepper. Fill pocket in pork with apple stuffing and cook as described above.

Wales Spenser of Idaho is reported to have contracted his 1939 wool to George Hertle of Nampa, Idaho at 22 3/4 cents at the ranch with no discount for blacks. The price was higher than any 1938 wool sold in that territory.

The first half of March was expected to clean up all the lambs on Kansas wheat fields and, since few lambs are left in the Panhandle and in New Mexico's feeding districts, the Kansas City market will look to Arkansas Valley feed lots for supplies for the next 30 to 60 days.

When bids were opened at the recent wool sale at Clarksburg, West Virginia, it was found that Draper & Co. were high bidders. Their offered prices were: medium wool, 28.68 cents, fine staple 25, fine clothing 12, rejects 23, tags 10, and mohair 28 cents. The pool usually runs around 600,000 to 750,000 pounds and prices paid are considered indicative of what can be secured by other sections of the country after fleece time.

The Australian Wool Board has set aside \$37,750 to publicize Australian wool in the United States and will conduct a continuous campaign to make Australians at home wool-minded, according to recent Melbourne advices.

Among the many national and regional groups and organizations that have recorded their active support of Schwartz Senate Bill No. 162 and Martin House Bill No. 944, relating to honest wool labeling, are the following: American Farm Bureau Federation, American Federation of Labor, Chicago and Cook County Federation of Women's Organizations, General Federation of

Women's Clubs, National Grange, National Cooperative Council, National Farmers' Union, National Wool Growers Association, New York City Federation of Women's Clubs, Texas Sheep & Goat Raisers' Ass'n, Union Label Trades Department, United Textile Workers of America.

In answer to requests made by the Ladies' Auxiliary to the Sheep & Goat Raisers' Association and G. W. Cunningham, secretary of the Texas Sheep & Goat Raisers' Association, lists containing several hundred names of consumers have reached the Del Rio office of the association the past few days favoring and asking prompt passage of the truth-in-fabric bill. These names have been forwarded to Byron Wilson and F. R. Marshall, representative of the National Wool Growers and the Texas association, at Washington to be added to the membership roll of the Consumers League for Honest Wool Labeling.

F. R. Marshall, secretary of the National Wool Growers Association, and Byron Wilson, secretary of the Wyoming Wool Growers Association, in Washington working on legislation of interest to wool men, indicate that they expect a break on the wool and mohair loan situation within the next week or so. Officials in the Department of Agriculture intimated that they felt the loan value should be decreased about 5 per cent on the theory that the index value on parity was about 5 per cent lower than one year ago. The Association men, however, are hopeful of announcing a loan on the same basis as last year but with some changes in the 5 per cent deduction so far as it relates to Texas wools and the all-rail freight.

From Washington comes reports that Charlie South is proving a surprisingly able defender of the interests of the wool men at the hearings on the truth-in-fabric bill. Wool men at the hearings say that South "has a very complete knowledge of the situation, asks his questions adroitly, and is putting some of the opposition on the spot."

W. M. Simpson of Robert Lee has bought 15,840 acres of ranch land in Presidio County from the C. T. Mitchell Co. at \$7 an acre. He will get possession on April 1. The ranch is 20 miles southeast of Marfa and does not include the homestead of the Mitchell family. The C. T. Mitchell Co. is retaining 50 sections.

O. G. Babcock, entomologist of the United States Department of Agriculture, at the Ranch Experiment Station at Sonora, has recently published a bulletin, "The Control of Cattle Lice," outlining a new use for sulphur in control of red and blue lice on cattle. He recommends a sulphur dip where large numbers of cattle are to be treated and hand application may be used, he says, where only a few cattle are involved. Babcock has conducted extensive experiments the past few years on the use of sulphur in eradicating goat lice.

"Young in Heart" Grand Film Fare; Great Cast Scores

The most fascinating family that ever strolled across a silver screen is holding court at the Princess Theatre Monday and Tuesday. So run down and welcome the Charming Carletons in David O. Selznick's comedy romance, "The Young in Heart," starring Janet Gaynor, Douglas Fairbanks, Jr., and Paulette Goddard, with Roland "Topper" and Billie Burke heading one of the grandest supporting casts ever assembled for a motion picture.

It's our guess you'll take every last one of these lovable frauds to your heart—and thank this reveler for tipping you off to the finest evening's entertainment this season has produced.

Based on I. A. R. Wylie's Saturday Evening Post story, "The Gay Banditti," "The Young in Heart" tells the lovable, laughable story of the Carleton family, who live by their wits and charm and can boast of having been kicked out of only the best places from the Riviera to London.

There's Father "Sahib" Carleton, an ex-actor, whose family loyally supports him in the preposterous myth that he is Colonel Carleton, late of the Bengal Lancers, and the role is made to order for Roland Young. There's charming, twittering "Marmy," played to the life by Billie Burke. And there are the two children: George-Anne (Janet Gaynor), who has become engaged to a sober, wealthy young Scot, who sees through her family and says so; and Richard (Fairbanks, Jr.) who has hooked a girl rich enough to take care of the entire family for the rest of their lives.

When the story opens the "Sahibs" insistence upon mixing brandy, sleight of hand and poker results in their being unceremoniously evicted from their rich Riviera hunting ground. They head toward an unpromising England, leaving the aforementioned lush possibilities be-

But something will turn up, they are certain. And something does, in the person of little Miss Fortune, whom George-Anne discovers on the train. This tiny, timid and fabulously wealthy old lady, who has emerged from a life of obscurity to spend her last days getting a glimpse of the big world, takes this charming family to her bosom. And what more fitting return could she make for their charmingly effortless efforts to gladden her last days than to make them her heirs?
The setup looks perfect and is perfect. But things begin to happen that surprise even the Carletons. For one thing they discover that they have hearts, and that hearts have a habit of getting in the way of schemes like theirs.
After a series of surprising developments the story ends on a tender note, with the daughter

Bronze Memorial to Texas Mustang For Texas Museum
Austin—A huge bronze memorial to the early Texas mustang on the grounds of Texas Memorial Museum will be executed by A. P. Proctor, outstanding American sculptor of Seattle and New York, University of Texas officials have announced.
The \$60,000 memorial, to tower ten feet high and measure about the same distance in length and width, was given the University by Ralph R. Ogden, Austin oil operator and former cattleman.
"I want to show the children of this country what the horse was like that carried the men who redeemed Texas from the wilderness," he told J. Frank Doble, University professor and author who represented him in arranging for the memorial.
The several ton statuary will show seven bronze mustangs—stallion, five mares and a colt—galloping "hell bent for leather" in Doble's words down the face of a bronze mountain.
Mr. Proctor said he would mould his working model during a three months' camp on the Tom East Ranch near Hebronville, where the pure strain of the fading breed of Texas horses is still preserved.
The contract calls for completion of the statuary within two years. It was let to Mr. Proctor after a five months' conference with the outstanding animal sculptors of America, Mr. Doble said.
