Automobile owners who have not yet purchased automobile license plates have only until Saturday to secure them and place them on their cars as they must be on by April 1, according to local officers.

Few automobile owners can get along without their car and will be doing them selves a favor if license plates are bought and placed on the cars according to law. It might be more less expensive in the long run too.

INTER-PATROL CONTEST ENDS WITH THIS WEEK

Only one more week left in which to finish the hottest interpatrol contest in the last several years. The Horse Patrol was pulling out of the fire with 247 points. Dan Murrah and Bill Davis have been doing exceptionally good work to put the patrol where it is. The Flaming Arrow Patrol now holds second place with 325 points while their rivals went ahead with 362 points. The Eagle is in the cellar with 217 points.

The Flaming Arrow Patrol presented a well-matched boxing bout. Dan Murrah and W. T. Frazier were blindfolded and turned loose in the middle of the Scout house. It was amusing to see the fighters make such hard straight swings and cool the air, but when they did connect there was some real fighting.

Due to a conflict of events the troop found it necessary to make their trip to the Big Bend Park on April 1. The over-night hike was not approved by the local council so the plans are to leave about 5 o'clock Saturday morning and return that evening. A man will accompany each car that makes the trip.

WHAT MAKES A MAN

The chemist fellows sure do take the conceit out of a man when they tell him what he is made of. Most men consider themselves more precious than jewels or refined gold, but the facts are that everything that enters into the composition of the human body can be had at the corner store. These chemist fellows tell us that the ordinary man has in his body enough fat to make seven bars of soap; enough iron for a sixpenny nail.
