A big dance at the Dryden airport will end the festivities of the day. Music for the occasion has not been announced.

## OLD LAND MARK IS TORN DOWN

The building which housed the old Cottage Bar, saloon established, has been torn down during the week.

The adobe building was built in the early eighties by the two saloon keepers and was one of the first buildings to go up in the town. It was owned and operated by several different parties after that. W. D. Hunter taking over the management of the saloon in 1904. He operated the Cottage Bar for 14 years, closing the doors when prohibition was voted into effect in 1918.

Shortly after that time the property was purchased by W. J. Ferguson, and this week Mr. Ferguson had the building torn dilapidated that it was a danger down because it had become so to children who were playing in and near it.

## Immigration Laws Should be Strict Sanderson Man Says

To the Editor:

On the front page of the June 30th Weekly Standard is a picture to which I object. It's a sad scene of the family of one John McNeil of Los Angeles, about to be separated because of illegal entry into the United States. It is an effective appeal to the public for sympathy, and virtually everyone will sympathize with these people in their distressful plight.

But what is the point in calling for sympathy? Is it a movement to prevent their deportation? If so, then there is an issue introduced, and by implication our Immigration Service is made the offender.

Whereas, the information given indicates that John McNeil and wife are the offenders. In the first place, they offend that inexorable law of life, survival of the fittest, when they fail to provide for themselves. Pauperism is an insidious disease, which puts the above law to work, eating out vitality of people with an ugly certainty, while hard work and sacrifice are the most vitalizing things in the world.

But more obvious than that is the indication that these people are old hands at hopping across the border. And this evidence is found in the fact (as stated) that they, Canadian subjects, have older children born in the United States and younger ones in Canada.

Since the picture and the information given imply an issue, it is nothing but fair to come out in the open and state the issue. And it is this: are the immigration authorities wrong or right when they perform their duty according to the law? And are the whole people right in supporting strict immigration laws?

The answer to these is "Yes," of course. If we had had strict immigration laws for the past 50 years, we would now have a much better population and a still young and vigorous country, instead of one already showing signs of decadence.

Our country, being composed of individuals, is subject to the same laws of life as are individuals. And if we heed the sentimental pleading of the sob sisters, continue to permit the naive country bumkin type of magnanimity for which our diplomats and politicians are so notorious, and shut our eyes and ears to the many deadly subversive ideologies and activities being promoted by foreigners in this country—then we, a nation, are subjecting ourselves to the lethal effects of that same inexorable law of life, survival of the fittest, that is surely eating out the vital manhood of such social waste material as the picture represents John McNeil to be.

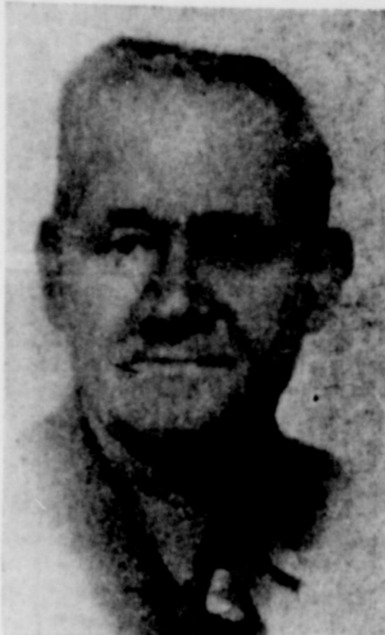

Manhood of such social waste as the picture represents John McNeil to be.

## PIONEER DIES MONDAY MORNING

Juan Acosta, Mexican resident of Sanderson since it was first established, died Monday morning.

Juan is well known in Sanderson and for the past many years has been seen almost daily on the streets. No one seems to know just how old he was, but several say that they remember him 35 years ago and at that time he was 60 or more. No definite age can be ascertained but all agree that he was nearing the century mark if he had not already reached it at the time of his death.

He had been feeble for many years and death came with no definite illness. He had just stayed out his time and passed on.

## Sanderson Defeats Del Rio Baseball Club Sunday

To Play Fort Stockton Here Next Sunday, 3 P. M.

In one of the most interesting baseball games that has been seen in this section for some time, the Sanderson Longhorns defeated the Del Rio Merchants Club Sunday afternoon by only one score after the game had gone into the tenth inning. Final score was 13-12.

During the entire game, the lead in scores went to one team and then the other, with neither team very far ahead at any time. Bogusch was pitching for the local nine and gave a good account for himself. He got four strikeouts, walked one, and allowed 16 hits. Johnson, who was pitching for the Del Rio team, got eight strikeouts, walked two, and allowed nineteen hits. Hits were turned in for Sanderson by Harris, 3 hits and 3 runs; Weigand, 3 hits and 4 runs; McDonald, 2 hits and 1 run; Nance, 2 hits and 2 runs; Bogusch, 4 hits and 1 run; Sullivan, 3 hits and 1 run; Haley 2 hits and no runs and Stavley, no hits and 1 run.

Due to a freshly dragged field and a high wind, spectators and players were annoyed by the dust, but since the rain and a promise from the club to sprinkle the field before the game Sunday with Fort Stockton, spectators are assured that they will not have to endure the dust again.

Stockton comes to Sanderson for a return, the local club defeating them 15 to 10 on their own field two weeks ago. The game is called for 3 o'clock sharp. Members of the local team wish to express their appreciation to the citizenry for the splendid support given during the game with Del Rio and promise a better game for Sunday with Fort Stockton.

## TEXAS OUT-O-DOORS

Texas, leading the nation in Pittman-Robertson game projects is eligible to receive \$71,696 of federal game funds during the 1939-40 fiscal year, according to word received by the State Game Fish and Oyster Commission from Washington. That sum will be augmented by \$17,924 by the Game Department, as required under the Pittman-Robertson Act. It is announced by Will J. Tucker, Executive Secretary of the Commission. The money will be used to continue research work by biologists into game conditions and for financing several important wildlife restoration projects in a number of sections of the state.

Texas, the first state to submit a program of game restoration last year when the Pittman-Robertson Act went into effect, is leading the nation in the work. A report by Ira N. Gabrielson, points out that only \$70,000 has been spent to date by the cooperating states, and of that sum approximately \$30,000 has been used by the Lone Star State in furthering game restoration.

Texas, on the ground floor as soon as the U. S. Congress made available funds for game work, has had thirteen specialists conducting surveys and researches into game conditions for almost a year and the outgrowth of their work will be many projects which will tend to aid in increasing several species of birds and animals in the Lone Star State.

Tentative plans of the Game Commission Tucker said, include projects for increasing antelope, turkey quail, deer, dove, and chachalaca. Various methods will be used to aid game propagation. Pittman-Robertson funds cannot be used for fish work. A bill to provide a fund
