NUMBER 34

Fund for Fire Fighting Equipment Gets Good Start

The fund for the purpose of purchasing fire fighting equipment has gotten off to a good start with almost \$200.00 donated voluntarily before the drive has been started.

Letters have been mailed to all

THE SADDEST STORY

(EDITORIAL)

In a newsheet which landed on our desk this week we find the following:

"The saddest story of the month was the news of the loss by fire of the lives of three tiny tots in a home near San Augustine, ages 5, 3 and 3 months. Left in a home while the mother went on an errand of mercy for them, fire destroyed the house and babies, too."

The same story may be repeated next month, and it might read "Near or in Sanderson" instead of San Augustine. We all know each little tot in Sanderson is entitled to protection by its elders. Do your part toward that today—make a donation toward securing fire-fighting equipment for Sanderson.

property owners who have improved real property in Sanderson explaining the plan of raising funds and the purpose for which the fund is to be spent. The committee urges that every property owner interested in protecting his property from fire give the letter careful consideration and make the contribution requested so that equipment may be bought.

Those who have donated to the fund so far are:

Methodist Society Entertained by Mrs. C. H. White

The Methodist Missionary Society was entertained Monday afternoon by Mrs. C. H. White in her home when it met for a regular business and social meeting.

The program entitled "Lifting our Horizons in Fields Afar" was led by Mrs. Sam Underwood who opened the meeting by reading a Call to Worship which was followed by the group singing "Jesus Calls Us." Mrs. Jeanie Freeman read the scripture lesson from Philippians 3:7-15. Interesting facts were told about the work of the Woman's Foreign Missionary Society of the Methodist Church by the following: India, Mrs. Clyde Higgins, Burma Malay, and the Philippine Islands, Mrs. H. E. Ezelle, China and Japan, Mrs. A. B. Gates, Africa, Mrs. Percy Gray. The program was closed with a prayer by Mrs. J. Bassett.

A business meeting was conducted by the president, Mrs. Bustin Canon.

The Week of Prayer will be observed in an all day session on November 6 in the home of Mrs. Canon.

During the social hour Mrs. White served delicious sandwiches, small cakes and iced tea.

McCalls to Karne S City—

The Rev. and Mrs. John V. McCall, pictured above, left Thursday for Karnes City where they will make their home after eight and a half years spent in Sanderson at the head of the Presbyterian Church. Dr. McCall will supply the Presbyterian Church there for the next six months or a year after which time he expects to retire and live in his boyhood home of Weatherford.

The McCalls came to Sanderson in June, 1931, and state that their 8 years and 5 months in our town have been very happy ones.

"With its fine climate, hospitable people, good schools and cooperating churches, Sanderson is a delightful place to live," they stated. They also expressed their appreciation of the space given by the Times to church items and asked that the paper continue its weekly visit to them at Karnes City.

Sanderson Schools To Observe Safety Week

The three Sanderson Public Schools are making plans to observe School Safety Week on October 30 to November 4, in accordance with the proclamation issued by Gov. W. Lee O'Daniel.

"The bumper is far more deadly than the bayonet in the ranks of Public Schools and College students of this state," the Texas Safety Association recently declared in calling upon students and the motoring public to observe School Safety Week. Last year a thousand youths of school and college age were the victims of traffic. Almost one-half the number were killed.

The Civics class in high school plan a study of traffic hazards as well as traffic safety in Texas. The class has been divided into groups to make surveys and reports upon safety in school, safety in the home, driver's examinations, bicycle riding hazards, etc.

At the end of the survey and reports, the class will make recommendations regarding the elimination of hazards and setting up of safety precautions. An attempt will be made to cause the individual to be safety conscious. A summary of the recommendations and of traffic rules in general will be given to the entire school by the Civics class.

Sanderson Culture Club Meets with Mrs. O. H. McAdams

The Sanderson Culture Club met in regular session Thursday afternoon of last week at 2:30 o'clock in the home of Mrs. O. H. McAdams with Mrs. Joe F. Brown as leader of the program.

Since the meeting was held on "Goodwill Day" the roll call was answered with current international relations some very interesting points of current history being given.

Mrs. W. H. Savage gave a very interesting review of the historical novel, "Kennebec" by Robert P. T. Coffin. "Northwest Passage" by Kenneth Roberts was given by Mrs. H. C. Goldwire. After interesting discussions of these two papers the hostesses, with Mrs. J. R. Goodykoontz as co-hostess, served a pretty and delicious refreshment plate. The Halloween motif was carried out in the napkins and nut cups.

The following members were present to enjoy the meeting: Mesdames A. D. Brown, Joe F. Brown, A. E. Creigh, Jr., Ira Deaton, H. E. Ezelle, R. A. Gatlin, H. C. Goldwire, J. R. Goodykoontz, E. W. Hardgrave, J. H. Lochausen, O. H. McAdams, Tol Murrain, J. W. McKee, J. P. Morrison, Jesse Moore, John Nichols, Hugh Rose, Landon Rose, W. H. Savage, and E. E. Townsend. Mrs. Joe Nichols and Mrs. Wilkinson, mother of Mrs. Gatlin were guests for the afternoon. Mrs. Austin Nance was elected to membership at the business session of the club.

Phone your news to the Times.

Dale Of McMahon Trial Changed to November 1st

Announcement was made this week that C. A. McMahon due to face trial Wednesday at a special term of Sixty-Third District Court on charges of murder and kidnaping will face the charges November 1 before Judge Brian Montague.

Judge Montague postponed the trial so that the attorney for the defendant might complete preparation of his defense. The indictment was returned against McMahon by a special grand jury Oct. 13.

Sheriff Jim Nance announced that those summoned to appear for petit jury service had been advised to appear Nov. 1 at 10 a. m. instead of Wednesday of this week.

HIGHWAY 90 NOW OPEN FOR TRAFFIC; FOUR NEW BRIDGES

G. W. Ferguson, superintendent of construction work for L. A. Turner, states that all work will be completed on the four new bridges that have been built in and near Sanderson on Highway 90.

The contract was let to Cage Bros. and L. A. Turner and work was started in January of this year on the bridges and the pavement that had to be replaced after the bridges were built.

The bridges have eliminated several places where high water would stop traffic during heavy rainfalls. The course of Sanderson Creek was also changed in one place so that two dips could be eliminated.

SON TO O'BRYANT'S

Mr. and Mrs. W. D. O'Bryant, Jr., are the proud parents of a son born Oct. 21 in a San Antonio hospital. The little lad weighed six pounds and has been given the name of William Doyle. Mother and baby are doing nicely.

Phone your news to the Times.

NEW WATER TANK BEING INSTALLED; NEW EQUIPMENT

The Community Public Service Company is having a new 100,000-gallon water tank placed on the side of the hill at a much higher level than the other two tanks, and Sanderson residents will be offered adequate pressure from the mains.

The tank will probably not be completed until sometime next week and will not be ready for use possibly for two or three weeks. Tests will have to be made for leaks after the tank has been filled, and if found will have to be remedied.

The company has also installed a rotary pump in one of their wells which enables them to produce more water than was possible with the old equipment. Clyde Morris, local manager, states that there will also probably be more improvements made in the production next spring so that there will be no shortage during the summer months.

It has been pointed out by some of our most far-sighted citizens that it would be of great aid to tourists and air pilots if arrangements could be made with the company to have a sign painted on the high tank. The tank is to be finished in aluminum and would make an excellent background for such a sign. Tourists passing through our town would not have to stop at some service station and ask where they were, or what town they were in, if such arrangements could be made.

MRS. JOE KERR INJURED IN CAR WRECK SUNDAY

Mrs. Joe Kerr received a sprained ankle and bruises and lacerations about the face Sunday morning when the car in which she and her son, Edward, were riding and the car driven by W. J. Leatherwood collided at the northwest corner of the courthouse square.

Edward was driving the car which was traveling east toward the Kerr home and Mr. Leatherwood was going north. Reports indicate that neither driver saw the other car until it was too late to avoid an accident. The Kerr car was turned over when it was struck in the side which resulted in the injury to Mrs. Kerr and shock and bruises to Edward. The Leatherwood car did not overturn and Mr. Leatherwood received only shock and bruises from the collision. Both cars were demolished.

Latest reports from Mrs. Kerr stated that she was resting better and the pain had subsided somewhat in her ankle.

Mrs. Vaughan Entertains Auxiliary Monday

Mrs. W. C. Vaughan assisted by her mother Mrs. Joe Nichols, was at home to the Presbyterian Auxiliary Monday. Mrs. R. D. Holt presided at the business session. Mrs. R. S. Wilkinson gave a helpful Bible lesson on "I am the Door." Mrs. John Nichols had charge of the Home Mission program and a number of personal letters from home missionaries told why they had buried themselves in Mountain Coves or given their lives to Negro work, etc.

The messages were radiant with the joy they found in serving the lowly.

Mrs. Vaughan served a delicious salad plate to Mesdames John Harrison, R. D. Holt, Henry Goldwire, J. H. Lochausen, J. W. McKee, John V. McCall, Earl Pearson, D. A. Pollard, John Nichols, R. S. Wilkinson, D. M. Wells and Dr. McCall and Miss Beatrice Nichols.

The auxiliary calendar for October and November is full.

As a token of appreciation the congregation presented Dr. and Mrs. McCall a beautiful R. C. A. radio as a parting gift.

Mr. and Mrs. Van Casey spent Wednesday of last week visiting in Marfa. They drove a new 1940 Dodge home.

Automobile Wreck Fatal to Sister Of Mrs. Bodkin

Funeral services were held Wednesday of last week for Mrs. Ray Hillman at her home in Cherokee who was fatally injured when the car in which she, with her infant daughter was driving.

Mrs. Hillman a sister of Mrs. Martin Bodkin of Sanderson, had been to visit a physician and was returning home when the accident occurred. She explained that she must have fainted, allowing the car to run into a concrete bridge. She is survived by her husband and two small daughters.

Mr. and Mrs. Bodkin and Ted Bode attended the funeral services there returning to Sanderson Sunday. Mr. Bode returned to Cherokee where he resides.

New Type Terraces Show Improvement

Range furrows, a type of water holding structures such as have been put on about 100,000 acres in Midland County, are now being constructed on the Helen O. Downie ranch in Terrell County, according to Ernest Williams, County Agent.

These furrows, or small ditches are laid out along the contours of the land at regular intervals and are 12 inches wide and 6 inches deep. Williams states that they are superior to any type of terraces previously constructed in that the water holding capacity is below the top of the ground instead of above and as a result heavy rains have nothing to break. They merely fill up and run over. Small dams every nine feet along the furrow help hold the water when the furrows cross deep sheep trails and small ditches.

DALE VUELTA

By Walter "G" Downie

Your correspondent, Dale Vuelta took off a week last week and went up to the big city of New York, where the 14th annual Madison Square Garden rodeo is now in progress. It's really a show—and those "damyankees" up there enjoy a rodeo just about as much as do West Texans judging from the crowds in attendance.

On the list of contestants in this year's garden rodeo are names that are familiar to Sanderson rodeo fans and hands. James Kenney (not Kinney), Fred Barrett, and Bud Spilsbury are among those that have been in Sanderson rodeos in the past.

Dates for the show are Oct. 4-29. There are 36 performances in all; one each night, and matinees on Saturdays and Sundays and on Columbus day.

There are 16 events at every performance, each show lasting about two hours and a half. Among the events are: grand entry, trick roping, bareback bronc riding, saddle bronc riding, cowgirls bronc riding, trick riding, calf roping, wild cow milking, steer wrestling, exhibition riding by the Texas "sponsor girls" wild horse race and others.

The arena in the building is small compared to outdoor arenas in the West, and as a result the calves etc., in the roping and dogging events seldom get to running full speed. Calves are given an eight-foot start, and many times they reach the end of the short arena and turn back before they are caught.

There is a ten second fine in the calf roping for "busting" the animal. Because of this, the roper does not "quit" his horse in a big hurry as in Texas rodeos, but eases him to a stop and then steps off, as as not to "bust" the (Continued to Page 4)

Sanderson Eagles Lose to Big Lake

The Sanderson Eagles journeyed to Big Lake Saturday to take a beating at the hands of the Big Lake Owls by a score of 7-0.

The Eagles played good defensive ball during the game and gained more yardage than Big Lake but they did not have what it took to put the ball across the goal line.

They did hold Big Lake to a closer score than any other team that has played them heretofore, however.

Mr. and Mrs. O. T. Schupbach went to Rocksprings Thursday to purchase some billies.

HIGHLAND FAIR ROYALTY—

Pictured above is Mr. and Mrs. W. T. Jones, King and Queen of the Marfa Highland Fair which was held the first of the month. Marfa residents went back to pioneer dress and costumes to lend a real Western atmosphere to the affair.

Rev. J. Y. Bowman Is Returned to Local M. E. Church

The Rev. J. Y. Bowman, pastor of the local Methodist Church, returned from El Paso Tuesday where he and Mrs. Bowman had attended the annual session of the New Mexico Conference. This session was historic in that it marked the re-uniting of all Methodists in New Mexico and that part of Texas west of the Pecos River.

Mr. Bowman was appointed to the pastorate of the Sanderson Methodist Church for his third year. He announces that services will be held next Sunday as usual.

Mrs. J. C. Kern spent Sunday and Monday in El Paso shopping and visiting Mr. and Mrs. Odie Wickliffe.

Mrs. Hugh Rose Hostess to Tuesday Club

The Halloween motif was carried out in the decorations, tallies and refreshments at the Tuesday Bridge Club, given by Mrs. Hugh Rose in the home of Mrs. Tol Murrain, Tuesday afternoon.

Mrs. C. P. Peavy won high score prize for the afternoon and Mrs. D. A. Pollard was winner of second high score prize.

Following the bridge games a delicious salad plate was served to the guests and members.

Those present were Mesdames R. D. Holt, Denny Sullivan, D. M. Wells, Fred Turner, John Harrison, Bustin Canon, Lee McCue, J. C. Kern, B. Carson, C. M. Breeding, Jim Nance, Austin Nance, D. A. Pollard, C. P. Peavy, Walter Grigsby, and Tol Murrain.

CLYMER-CHAMBERS

Mr. Charles E. Clymer, Jr. and Miss Martha H. Chambers surprised their friends in this city when they motored to Las Cruces, New Mexico, Friday, October 4th, and were united in marriage by Rev. Fisher of the Methodist Church of that place.

Mr. and Mrs. C. V. McKnight were week-end visitors in Sonora with friends.

The Sanderson Eagles showed their old fighting spirit Saturday evening by handing a 13-12 whipping to the much heavier Iran team.

But can you imagine a four-

teen year old boy about 5½ feet tall plowing through that heavy line for 5 to 12 yards almost at will? That is just what Jack Hayre did. And John Green could have the name "Galloping Ghost" if his hair was red.

Mr. and Mrs. Frank Cochrane spent this week in San Antonio in attendance at the State Convention of the Eastern Star.

Mr. and Mrs. R. S. Wilkinson, Mesdames S. C. Bodkin Tom Parsons and H. D. Williams attended the Eastern Star convention which was held in San Antonio this week.

WITH OUR NEIGHBORS

Alpine Avalanche—Authorization of a Civilian Pilot Training

school for Sul Ross State College was received this week by President H. W. Morelock, providing for the flight training of ten or more students under supervision of the Civil Aeronautics Authority of the U. S. Government. Robert H. Hineckley, chairman of the Authority issued the official advice.

Texas Mohair Weekly—The secretary's office of the City of Rocksprings has been moved from the water plant to the building occupied in the rear by the Rocksprings Abstract Company, on Sweeten street, the offices being in the front of said building.

Ozona Stockman—In a series of raids on parked cars in widely scattered sections of the city Monday night, thieves pilfered several hundred dollars worth of tires, guns, groceries and other articles from Ozona residents.

Fort Stockton Pioneer—Three new residences are under construction in Fort Stockton this week a check of city permits issued by C. W. Lannom, building inspector, reveals. All new construction is financed through the Federal Housing Administration plans and specifications.

Devil's River News—With H. P. Largent as instructor the men employed here by the State Highway Department have completed their fifth and final lesson in advanced first aid. They have been studying the first aid work for several years.

Balmorhea Texan—WPA activities at Lake Balmorhea came to a temporary end last Friday, October 13, when work was completed at the Renz cut-off dam. A further project known as Spillway No. 3 project is scheduled to begin within 30 days. The new project calls for raising the height of the main dam from 47 to 50 feet, widening the dam and topping the entire structure with selected material.

Father says he doesn't mind daughter's sitting up late with her young man, but he does object to his carrying off the morning paper when he leaves.

Bing Crosby Comes to Princess Wed. and Thurs.

The personality that is Bing Crosby always shines through whatever role he portrays. That holds true in this film although

it is, within memory, the first time Crosby has undertaken a biographical role portraying a living subject. For Paramount's "The Star Maker" is concerned with a portion of the career of one, Gus Edwards, entrepreneur of rising young stars and a rather famous vaudevillian to boot. The Edwards angle recedes under the pressure of Crosby's presence

There is to be sure an added flavor in this Crosby film for audiences who remember when—a sort of nostalgia for the days when vaudeville was in its heyday and when the name of Proctor, portrayed here by Thurston Hall, awed the boys and girls of the footlights. The players include Louise Campbell as "Mary," wife of "Lary Earl," Ned Sparks, the unsmiling publicity man; Linda Ware, Laura Hope Crews, Janet Waldo and Walter Damrosch playing himself and directing the Philharmonic Orchestra of Los Angeles.

It was produced by Charles R. Rogers and directed by Roy Del Ruth from a story by Arthur Caesar and William A. Pierce. Karl Struss was the photographer. It is essentially a musical film combining both the old and the new in songs. "School Days," "Sunbonnet Sue," "If I Was a Millionaire," "In My Merry Oldsmobile," "I Can't Tell Why I Love You But I Do," and "I Wonder Who's Kissing Her Now" vie with "Go Fly a Kite," "A Man and his Dream," "An Apple for the Teacher" and "Still the Bluebird Sings" in the newer order of things.

Edward's speciality was training children. There are quiet numbers appearing in the film, outstanding of whom is Linda Ware, of pleasing personality and rare voice.

The rapid rise of "The Star Maker" is halted temporarily by a children's aid group but the scene shifts to radio where he starts to pioneer all over again.

Senior Class of '39 Installs Fountain

The class of 1939 of the Sanderson High School has recently had installed in the high school gymnasium the drinking fountain which was voted as the class gift to the school last spring. It is identical with the fountains already in the high school building and is of the bubbler type. Miss Rachael Sweeney, sponsor of the class of 1939, has had charge of the purchase and arrangement of installing this gift. This fountain was badly needed in the gym.

Mrs. Dave Morgan and daughter Mrs. Jack Cowin of Yuma, Arizona, were visitors in the home of Mr. and Mrs. Lee Grigsby over the week-end before last.

Mr. and Mrs. John Neal returned Tuesday night from a vacation trip to San Antonio, Cuero and Yoakum.

Mrs. J. W. Downum returned home the first of this week from Quitman where she has been visiting her mother, Mrs. A. J. Horton and other relatives.

T. R. Keykendall returned Sunday from San Antonio and Austin where he spent a week attending business matters. He also visited for a time with his sister Mrs. O. H. Nance and Mr. Nance at their ranch home near Big Wells. He returned from Uvalde with Robert Kerr who has been visiting in San Antonio.

Mrs. Paula Smith and daughter, Miss Hejen, returned last week from San Angelo where they have been for the past four months.

Navy Day to be Observed October 27

Navy Day was first celebrated in 1922 and was sponsored by the Navy League of the United States, a volunteer organization of individuals who seek to place information concerning the United States Navy before citizens of our nation.

The Sponsors of Navy Day sought to establish at least one day in the year when people will turn their thoughts in a special way to what their navy means to them; when special articles will be timely in the press; and when tribute can be paid to the past and present services of the navy to the American people.

The day selected to hold this annual observance of Navy Day was October 27th. This day was chosen for two reasons, the first is that October 27, 1775 (October 14 on the Roman Calendar), members of the Continental Congress introduced the first Navy Bill, which called for some 12 sloops, frigates, etc. The second reason was because it was on the anniversary of the birth of Theodore Roosevelt, who was born on October 27th, 1858, in New York City. It is fitting and proper that Theodore Roosevelt should be so honored, for it was he, more than any one man in the history of our country, adopted, pursued and preached an aggressive policy with respect to the building and maintaining of a Navy of a strength adequate to our needs and continually strove to bring the Navy into closer contact with the people from whom it sprung by whom it was supported, and for whom it existed.

Therefore, the twenty-seventh day of October is observed each year as Navy day with the hope that the people of this great nation will become better acquainted with the noble traditions, high ideals and important purposes of their Navy. As interested parties in this upon whom its proper maintenance very largely depends it is confidentially believed that the more the people of the United States know about this nation's first line of defense, its traditions, ideals and purposes, the more likely will it be maintained in a condition to meet any national emergency that may arise.

Hence, on this special day it

DISCOUNT YOUR TAX BILL

Under an act passed by the last legislature, discounts from 1 to 3 per cent on property taxes for the current year were authorized. These discounts are to be earned by prompt payment of taxes.

The Terrell County Commissioners Court has joined the state in offering this saving for prompt payment of taxes and has authorized the tax collector to grant discounts on county taxes in the same amount as that given by the state. School districts allow the same privilege.

Greatest saving on 1939 tax bill can be effected by payment during the month of October. Thereafter the discount rate scales down through December, payments on and after January 1, 1940, earning no discount. The discounts offered on total taxes, except poll taxes, are as follows:

3 PER CENT DISCOUNT . . .

On Taxes Paid in Full Before Nov. 2

2 PER CENT DISCOUNT . . .

On Taxes Paid in Full Before Dec. 2

1 PER CENT DISCOUNT . . .

On Taxes Paid in Full Before Jan. 1

Where taxes are paid in two installments NO DISCOUNT is allowed on first half payments, but 15 given on second half payments in the same order, 3 per cent if paid 90 days before due date, 2 per cent 60 days before due and 1 per cent 30 days before due.

This provision of the new tax law is called to your attention in order that you might take advantage of the saving offered.

J. S. NANCE

Assessor and Collector of Taxes of Terrell County

TEXAS OUT-O'-DOORS

Texas continues to be one of the leading duck hunting states in the Union, a report received by the Game Fish and Oyster Commission discloses. The Lone Star State was fifth in the sale of Federal duck stamps for the fiscal year ending June 30, with 58,704. Minnesota showed the way with a total of 116,461; Michigan was second, having a total of 80,458, and its neighbor, Wisconsin, was third with 79,688. California ranked fourth with a total of 63,394.

During the last five seasons hunters purchased almost three and a half million duck stamps. Over that lengthy period, Texas ranked sixth with a total of 208,100. Duck stamp sales show that each year since 1935 there has been an increase in the number of sportsmen who attempted to bag migratory waterfowl in the United States. Last year a total of 1,002,715 stamps were issued.

Just because the season is open is not a sign that all, even ardent sportsmen take the field. It is generally recognized that in many sections of Texas the doves are still nesting when the season opens in September. Therefore, a group of men who are known as the "Knights of the Sixteen-Gauge Guns" who live in Weimar, Texas are opposed to hunting birds when the feathered tribe has not finished its job of family raising. So, numerous Weimar hunters are awaiting another date on the calendar—December 1, when the quail season gets under way.

While it is still some time before duck season gets under way, November 15, a good many sportsmen are purchasing their Federal duck stamps early, according to reports received by the Game Department. Many

post-offices report double their sales at the same time last year.

Cooperation plus—The telephone company in San Angelo, Texas now includes in its telephone directory a full page of State game and fish laws.

Now is the time for landowners to start thinking about feeding quail during the rugged days of winter. With a marked increase in bobwhites being reported from most sections of Texas, it is more necessary than ever to leave food standing for these birds. It is pointed out by the executive secretary of the game department. A best insurance possible for carrying over the game and insectivorous birds.

Emergency feeding is not nearly as effective as proper preparation against food shortages, the executive secretary pointed out. One of the best plans is that of leaving small grains near the edges of the fields. Hundreds of farmers are building shelters for quail under the supervision of the Game Department and all indications are that quail are in for a healthy cycle in Texas.

Boys in Austin, Texas, are giving a vivid demonstration of how birds can assist small and large landowners alike. This group of hustling boys rent ducks to housewives who turn the birds into their gardens. The ducks make a clean sweep of all insects without destroying the plants and, incidentally, bring the owners 50c per day in rental fees. Texas has a large number of insectivorous birds and it is estimated by biologists that the birdlife of the state is worth 16c per acre for every acre in the Lone Star State due to their insect devouring habits.

It is rather unusual how sportsmen from communities band up in picking their sites for hunting. As an example, of 258 Dallas sportsmen checked on their file card in the office of the Game Department, only seven hunted deer in the trans-Pecos last year, the remainder going to the Hill country. Of 208 Fort Worth sportsmen checked, 54 hunted in the Hill country and the remainder in the trans-Pecos.

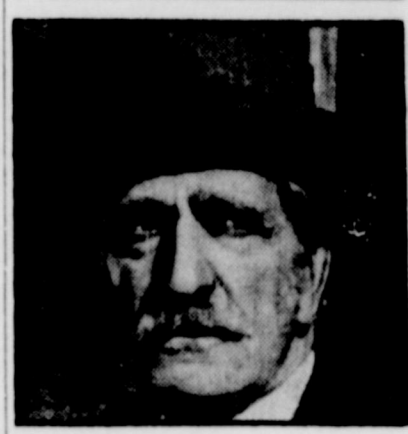

Nineteen restoration areas have been set up by the State Game Department in the last three months for the purpose of increasing the quail and ducks, muskrat population in Texas. It is reported by the director of wildlife restoration. Funds obtained under the Pittman-Robertson Act are being used. Projects which will be introduced later include deer, turkey, geese, and antelope restoration.

Persons bothered with bats inhabiting attics, barns, or sheds can get rid of them by lighting these places the erie little animals inhabit. It has just been found out by Game Managers of the State Game Department.

More and more Texas fishermen are making a real sport of gar fishing on light tackle. They are employing the use of a wire

"Under-Pup" Brings 11-Year-Old Star to Screen in Gay Debut

A new personality aimed for a debut similar to that of her predecessor, Deanna Durbin, in "Three Smart Girls," will reach

the screen when Gloria Jean appears in the title role of Universal's "The Under Pup" Monday and Tuesday at the Princess Theatre.

The eleven year old singing actress starring honors with Robert Cummings and Nan Grey in the new film, a Joe Pasternak production boasting a long cast in a strong story.

No less than 15 featured names are in the line-up of "The Under Pup" talent, including Beulah Bondi, Virginia Weldler, Margaret Lindsay, C. Aubrey Smith, Billy Gilbert, Ann Gillis, Raymond Walburn, Paul Cavanaugh, Frank Jenks, Ernest Truex, Samuel S. Hinds, Dickie Moore, Shirley Mills, Doris Lloyd, a new musical team, Billy Lenhart and Kenneth Brown and others.

Gloria plays the title role, that of "Pip-Emma," a poor girl from the East Side of New York who wins a trip to an exclusive girls' camp. There her troubles begin. Faced with the animosity of the wealthy girls, "Pip-Emma" nevertheless wins not only their friendship but their envy through her loveable personality.

"Pip-Emma" also plays a part in arranging the love match of Miss Grey and Cummings upsetting the iron-handed rule of the "Penguin Club's" youthful president. Richard Wallace who made "The Young in Heart" and many other hits, directed "The Under Pup" from I. A. R. Wylie's Good Housekeeping magazine story and Grover Jones' screenplay.

noose, which baited with a minnow, attracts gars and literally lassoes them. Three Nacogdoches sportsmen recently took 75 gar from the Angellina River one afternoon and while exhausted at the end of day, declared they had more sport than if they had been fishing for bass.

If you are one of the few people in Texas who are able to keep wild geese on your place, do not attempt to set out scare crows in an effort to chase away crows. Mr. J. Gambill, owner of a famous goose refuge in Lamar County, found recently that scarecrows would ward off those pesky black birds, but they also frightened away the geese.

Someone has said, "The fellows who drive with one hand are generally headed for the aisle of a church. Some of them will walk down it and some will be carried

SLY SI SAYS

By Paul Patterson

Duff Cooper another learned and highly cultured English lecturer has arrived in this country to spread a little more polish and refinement—and war propaganda—among Uncle Sam's somewhat savage and uncouth nephews.

In other words he's just got here in time to save our country from illiteracy—and his country from Hitler.

Sometimes we feel like the Englishmen get mad at us for being pretty good fighters and then get madder at us for not wantin' to fight for them every time a face is made.

The San Francisco paper says Sally Rand went broke at the Fair. We don't see how—she didn't have to buy nothin' but food.

Mrs. Velery King and sons of Alpine were visitors over the week-end with Mr. and Mrs. Roy Haley.

Carl Cochran, Judge R. S. Wilkinson, C. M. Breeding and James Kerr were among those who attended Federal Court in Del Rio the first of the week.

Mr. and Mrs. Roy Haley were visitors to Del Rio the first of the week where Mr. Haley went to attend Federal Court. They returned Wednesday.

Mrs. Nell Cook returned home Sunday from Del Rio where she has been with her son, B. F., who underwent an appendectomy Friday morning.

Only one man in a million has sense enough to drop a subject when the other fellow has admitted he was wrong.

Mr. and Mrs. Jim Kerr are having their home equipped with an air-conditioning unit both hot and cold air. Hal Tyler is also completely rewiring his home for electrical conveniences.

DALE VUELTA—

(Continued from Page one)

calf on the end of the rope. This rule was brought about by some New York humane society.

The calves used in the event weigh over 300 pounds and are Brahma stock. It's really a job to throw and tie them.

Wild Brahma cows are used in the cow milking contests, which is a "daily" event. They can really kick.

When I got to New York I tried to get down into the Garden basement to see the stock, but the doorkeeper said no. So I went up to the room and changed into an old pair of work pants and a brush jacket; and with the aid of these and my boots and Stetson hat, I had no trouble whatsoever the next time I tried to get in. The doorkeeper thought I was a contestant.

Walking down the streets of New York you find out what it's like to be a celebrity. Everywhere I went, little New York kids would poke pencil and paper at me and ask for my autograph. And I, not wishing to disappoint them, gladly obliged, writing my name down with those of such rodeo greats as Everett Bowman, Burel Mukey Bud Spilsbury, Bob Crosby and others.

Pat McGinley, well known in Sanderson, is living up in New York now and the autograph hounds grab him too, when he appears near Madison Square Garden in those "steamboat" bots of his.

Outstanding in the show is 17-year old cowgirl Sydna Yokley of Canadian, Texas. She ropes and ties a calf at each performance in an exhibition of her skill. Most publicized person in the whole show, she looks more like a movie actress than a rodeo hand; but she can really throw a mean loop. New York papers refer to her as a "popular Texas debutante." On the first night, ture shaking hands with Spencer Tracy, movie actor who was in press photographers took her picture.

Seven other Texas girls, the West Texas "Sponsor girls" are at the show, and give a horsemanship exhibition at each performance. Amon G. Carter Fort Worth publisher, was instrumental in getting the girls a part in the rodeo. One night he took the whole bunch of them out to dinner and gave each one a hundred dollar bill and a 3X beaver Stetson hat, according to reports.

All livestock in the rodeo is kept in a large basement of the building. There are around 300 horses and over 200 head of cattle in the spacious underground corrals and stables.

The two clowns, Jasbo Fulkerson and Sam Stuart, both of Fort Worth, are worth the price of the show. During the Brahma bull riding event, they put on a show of their own. When a bull has thrown his rider, he makes straight for one of the clowns or charges the life-sized dummy dressed in top hat and tails that is suspended from the ceiling. Fulkerson ducks down inside a large barrel, and the bull doesn't

know what to make of it. Sometimes, he knocks the barrel rolling with the daredevil clown inside of it. Stuart teases the infuriated animals "bullfighter style" and they seeking revenge, charge the 200 pound dummy, knocking him for a loop every time.

While in New York I went up to West Point to visit Jack Bogusch who is a yearling this year. Saw the Army-Centre game. Army won 9-6. Jack's getting along fine in the Army.

Among the "greats" that I met at the Garden were Mr. and Mrs. Chester Byers, Mr. and Mrs. Hub Whiteman Mr. and Mrs. Bob Crosby and Mark Twain Clemens.

Byers is the world champion trick and fancy roper; Whiteman and Crosby are widely-known rodeo contestants; and Clemens is a part owner of the World's Champion Rodeo Corporation. He, along with Everett Colburn, bought the outfit from Col. Tom Johnson a couple of years back.

Mrs. Byers is a full-fledged countess, the daughter of an Italian count.

Oglesby's Ogles—

(Continued from page 1)

month sufficient organizational equipment for 150,000 men in units.

Policies, procedures and instructions applicable to all of the augmentations plans, as well as to the PMP are now included in mobilization regulations. Tables showing for planning purposes, the units and individuals to be mobilized, time when mobilization is to begin and time when units and individuals are to be made available for use are now being prepared. Consequently, when and if it is decided to augment the PMP it will be possible to complete the necessary details. By Mobilization Day or soon thereafter the extent of the particular emergency will indicate whether augmentation of the PMP will be necessary and as any such augmentation cannot be initiated before 61M, there will be sufficient time to amplify the existing instructions to meet the particular situation.

This field force to be raised will be a balanced force, consisting of all types of arms and services now considered necessary. According to staff plans an army has a headquarters and army troops and two or more corps, temporarily assigned, the number depending upon the nature of the service required. A typical number is three corps. Army troops include Field Artillery of the larger calibers, Anti-aircraft, medical and service units, aviation, Ordinance, and Engineers.

A corps is composed of a headquarters and corps troops and two or more Infantry divisions, with here also the typical number, though it may vary with the nature of the situation. Corps troops comprise Field Artillery, quartermaster and ammunition trains, engineer troops, anti-aircraft, aviation and medical and service units.

In addition there is the GHQ Reserve, composed of those troops which are not habitually required by an army. Units of the GHQ reserve are allotted attached to armies or corps where needed in the field by the commander of the field forces.

The dates given for completion of mobilization include a training course of four months for newly recruited troops with their units, and an additional two months in divisions. It is also anticipated that units in the PMP can be raised to full war strength including replacements for average losses by 150M.

REVIVAL MEETING TO CONTINUE THROUGH WEEK

The revival meeting at the Church of Christ will continue through this week, with growing interest shown during the past services.

A. G. Hobbs is doing the preaching and has had five responses to date, four placing membership with the congregation and one has been baptized. The services are being conducted each day at 10 a. m. and at 7:30 p. m. A special service for the young people will be held Saturday morning at 10 o'clock. The public is extended a cordial invitation to attend the services.

Mr. and Mrs. Owen Akin were San Antonio visitors over the week-end.

Newspaper By Radio Coming

Austin—Newspaper transmission by radio, a phenomenon at the New York World's Fair and the Texas State Fair, is credited in part to the skill of a University of Texas engineering graduate.

Maurice Artzt, native of Tyler received his bachelor of Science degree in electrical engineering from the University of Texas in 1925 and was given a research post in the laboratories of General Electric Company at Schenectady, N. Y.

I the company's electrical laboratories, Artzt collaborated in inventing the radio facsimile newspaper equipment with Charles J. Young, son of Owen D. Young, General Electric's Board of Directors chairman.

In a recent report on the project, Young praised Artzt's work saying: "Credit is due especially to Maurice Artzt, who has been with the project from beginning and whose persevering and ingenious attack has solved many of the problems."

Considered still in scientific infancy, the facsimile transmitter converts printed matter or pictures into radio impulses for transmission by means of a "scanner." Receiving units take the impulses from the air and reconvert them into print and pictures on pages 8½ by 12 inches at the rate of about three pages an hour.

Dryden News

Mrs. E. G. Carlisle of Boston, Mass., arrived Wednesday for a visit with her daughter, Mrs. Dave Cummings.

Mr. and Mrs. Jene Condra were Del Rio visitors Tuesday and Wednesday.

Mr. and Mrs. W. D. Chandler were Del Rio visitors Wednesday.
