Marshall, Chief of Staff of the United States Army, and John J. Pershing, General of the Armies of the United States, together with a quotation from Theodore Roosevelt.

These booklets may be obtained at the local Selective Service office if persons desiring them will call for them.

## DEFENSE GUARDS TO RECEIVE CLOTHING SUPPLY

Capt. D. L. Duke of the Texas Defense Guards received word Wednesday from the office of the Adjutant General that effective immediately clothing would be furnished to members of the organization.

Capt. Duke stated that all clothing, including shoes, overcoats, raincoats, underwear and socks were included. He also stated that no requisition for clothing would be made until the entire company had contacted Wallace Henshaw, who is in charge of supplies, and measurements had been taken. It was urged that members of the Texas Defense Guards see Mr. Henshaw as soon as possible so the proper measurements can be taken so that the clothing will fit properly.

An urgent appeal for better attendance was made by Capt. Duke who stated that twenty-six additional rifles, two machine guns and ample ammunition was being shipped. Instructions were to fire up all ammunition on hand in target practice with the exception of five rounds for each gun.

## Scouts Want Paper For Use in Defense Program of U. S.

Local Boy Scouts, under the direction of Scoutmaster Duane E. Smith are busy these days baling paper which has been donated by residents of the town and community.

Scoutmaster Smith stated that many had the erroneous idea that any and all kinds of paper is wanted. He pointed out that small pieces of paper, which would ordinarily be classed as trash, was not wanted. They appreciate all the help they have received, he stated, and would appreciate the continuation of this cooperation. It was pointed out, however, that ordinary trash boxes were so filled with rubbish and dirt that it was very unsanitary handling it and contents of this nature were very difficult to bale properly.

Papers most desired are newspapers, magazines and cardboard. Those who can be urged to tie a string around the newspapers and magazines or place them in boxes, and drop them off at the Scout House. With the scarcity of tires it is very difficult for the Scouts to obtain the use of trucks or pickups, therefore the request that persons who can deliver the paper to the Scout House.

Mrs. Luella Lemons and Mrs. L. H. Lemons left Monday for Houston where they are visiting with relatives this week.

## We're Thankful

When the call went out from the office of Judge R. S. Wilkinson, chairman of the War Relief Fund, that the American Red Cross needed additional funds, the response was prompt and gratifying.

Within the first half day, one-third of the quota was raised and donations continued to come in. Within a few days the entire quota had been raised, and donations are still coming into the fund. These donations are going into a special fund which will be applied to the next quota set for Terrell County.

As we look back and remember the many times residents of this county have been called upon to bear their part of the burden for worthy causes, it makes us proud of the fact that the response has always been the same—prompt and ample. We are indeed grateful for the privilege we have of living among and of being of service to a community filled with that kind of people. No matter what the demand, nor the sacrifices, the citizens of Terrell County will shoulder the burden and take it in their stride.

For such a community of people, for such loyal support of worthy causes, and for the opportunity of being numbered as one of the servants of such people, we are truly thankful.

## Registrants 28 Years And Over Classified With Younger Men

Under recently amended regulations no distinction is made in classifying registrants over twenty-eight years of age and registrants under twenty-eight years of age, General J. Watt Page, State Selective Service Director, said today.

Prior to the declaration of war men over twenty-eight had been placed in class I-H by reason of age and were not subject to induction. Under new regulations, this classification no longer exists and all local boards have been instructed to reopen immediately all cases of I-H registrants and to place each registrant in the class found by the board to be proper under current regulations, without regard to age.

Likewise, registrants now in Class IV-E-H, who are conscientious objectors to combatant and noncombatant service, but were deferred by reason of age, will now be eligible for immediate orders to report for work of national importance, provided they otherwise qualify under current regulations.

All such registrants, General Page said, will receive written notice of reclassification. "I want to take this opportunity again to caution all registrants, regardless of his classification, to keep in touch with their local boards and to notify them immediately of any change of address," General Page said. "A registrant becomes liable to severe penalties provided by the Selective Service Act for delinquents if he fails to notify his local board promptly of any change of address."

General Page also emphasized that registrants who are expecting to be called into a branch of the armed forces to which they have made application should notify their local boards and report all developments in connection therewith. This, he said, will enable the local board to cooperate with the registrant in his particular ambition to serve his country.

## Transient Takes Twenty Dollars At Gulf Station

Walt Hamburger, about 21, who gave his home address as Hackensack, New Jersey, was arrested Thursday afternoon less than an hour after he had walked into the Sanderson Gulf Station, operated by Elmer Schwalbe, and walked out with four \$5 bills.

The station attendant, Felix Valles, was in the washing and greasing room now under construction at the station and did not see the man enter. He heard the cash register bell when it was opened and supposed that Mr. Schwalbe had come in. On stepping into the station, however, he noted the cash register still open and went outside to see if he could locate the party. He was seen running toward the railway.

The sheriff's department was notified and Hamburger, as he gave his name, was apprehended about a mile west of town. The money was still in his possession and he was lodged in jail to await examining trial which will probably be held today.

Miss Virginia Berry returned Monday from Conroe where she has been visiting with her mother for the past three weeks. She is employed at the Kerr Hotel Coffee Shop.

## It Happened in Sanderson TEN YEARS AGO This Week—Remember?

January 15, 1932

S. L. Stumberg of San Antonio, and who owns a large ranch in the southwestern part of Brewster County, has just recently purchased the Will Rackley ranch and about 4300 head of sheep from Mr. Rackley.

The ranch, which is about seven sections is located about 30 miles west of this city. It is well improved and one of the best ranches in that section of the county.

Mrs. Wilson Banner and young son returned from Del Rio last Saturday where they have been the past few days.

During 1931 Sanderson had 18.24 inches of rainfall which is about three inches above the average fall. The weather records show that March 8th was the coldest day, the thermometer having reached the low level of 20 degrees. The hottest day of the year was experienced on September 25th, the temperature having reached the 100 mark.

**Leakey Leader**—Plans are being formulated for the molding of a Real County 4-H Club live stock show under the auspices of the 4-H clubs of the county. The plans are somewhat indefinite as yet, but a committee has been appointed and plans are being completed to hold the show at an early date, probably in the month of February.

**Fort Davis Dispatch**, (Under "Town Talk")—We heard a local fellow speaking of "safe investments" the other day and what he had to say was just about the way we had it summed up.

This fellow said if you want to place your money in the safest place in the world—buy defense bonds.

The rate of interest is good, he stated, and the United States will be the last institution on earth to fail. Then he said if the United States fails, there won't be any such thing as money anyway so you will be just as well off as Henry Ford.

**McCamey News**—McCamey citizens are doing their part in helping to win the war purchasing defense bonds, having bought \$4,387.50 worth of bonds during January.

R. S. Guyton, postmaster, reports that a total of \$30,318.75 worth of bonds has been bought here since May 1, 1941.

**Menard News**—An appeal has been made to every patriotic citizen of Menard and Menard County, to be present at the County Patriotic Rally in the District Court Room at 7:30 p.m., tomorrow, Friday, January 9th. You are expected to be there.

and by your presence help Menard go 100 per cent for America. Hon. Dorsey Hardeman, State Representative from San Angelo is scheduled to address the assembly. Learn the details of U. S. Citizen Registration for Defense, and also hear a report of the Menard County Tire Rationing Board.

**Uvalde Leader-News**—City officials here this week were awaiting further word from United States Army officials in Washington relative to the establishment of a proposed air school near this section, after having notified air corps officials that a bond issue of \$50,000 which would be used to purchase land for the school has been approved by the voters in an election held here last Saturday. In the same election, another issue of \$30,000 which will be used by the city to meet a deficit faced in connection with the building of Garner Field also was given approval by the voters.

**Big Bend Sentinel, Marfa**—When a siren alarm of one long blast and one short blast, repeated, is heard in Marfa at eight o'clock Monday night, January 12, it will signify the beginning of a 30-minute blackout period for Marfa, Fort D. A. Russell and all ranches surrounding Marfa.

The decision to set the "8 o'clock Monday night, next week" time for the practice blackout was made Tuesday afternoon at a meeting of the "Community Defense Council" which has conducted several meetings to discuss community defense. H. O. Metcalfe, district judge, was in charge. J. C. Thompson, county judge, one of the two council leaders, was absent. W. B. Devollin, acting mayor, and E. S. Powers, commissioner, represented the city.

### "TWO-FACED WOMAN"

Greta Garbo follows her comedy role of "Ninotchka" with another as a modern. Rumbaing, gladly, in the picture "Two-Faced Woman", scheduled for an appearance next Sunday and Monday.

Cast in the role of a woman who has to masquerade as her "twin sister" in order to win back her errant husband, Garbo again cast off her well-known reticence to sing, jitterbug, appear for the first time in a bathing suit and literally let down her hair in duels with her love rival, enacted by Constance Bennett.

Melvyn Douglas marries Garbo a ski instructor, but soon after the ceremony returns to New York where he promptly forgets her under the guidance of Connie Bennett. Garbo then follows the Romeo and as her own "twin sister" makes him fall back in love with her. There's still the ski instructor to get rid of, so the new romancers go back to the resort to get rid of her.

### "HONKY-TONK"

The title for the dine and dance bear taverns has only recently edged into popular speech but the screen-play has its story told some time ago.

Yellow Creek, a mining camp, is the locale for the honky-tonk, manned by mighty Gable; and Lana Turner, the justice's offspring, offers love interest, even if she has to trick Gable into accepting it. She's from Boston and insists on a Boston courtship—after the wedding.

Albert Dekker is the fly in the ointment of Mr. Gable, being he runs another dance hall in the same town, and its against him that Gable turns most of his wiles. Frank Morgan, the sotted judge gets in everybody's way, but sees to it that daughter Lana gets what she deserves.

Claire Trevor, the wine, woman, and song of the rival honky-tonk, gives forth with the usual magnificent gesture to save the man she loves his happiness and so forth.

## Income Tax Return

Forms for filing returns of income for 1941 have been sent to persons who filed returns last year. Failure to receive a form, however, does not relieve a taxpayer of his obligation to file his return and pay the tax on time—on or before March 16 if the return is made on the calendar-year basis, as is the case with most individuals.

Forms may be obtained upon request, written or personal, from the offices of collectors and from deputy collectors of internal revenue in the larger cities and towns.

A person should file his return on Form 1040, unless his gross income for 1941 does not exceed \$3,000 and consists wholly of salary, wages, or other compensation for personal services, dividends, interest, rent, annuities, or royalties, in which event he may elect to file it on Form 1040A, a simplified form on which the tax may be readily ascertained by reference to a table contained in the form.

The return must be filed with the collector of internal revenue for the district in which the taxpayer has his legal residence or principal place of business on or before midnight of March 16, 1942. The tax may be due on or before March 16, June 15, September 15, and December 15. In making out your income tax return read carefully the instructions that accompany the form. If you need more information, it may be obtained at the office of the collector of internal revenue, deputy collector, or an internal revenue agent in charge.

Remember that single persons or married persons not living with husband or wife, who earn as much as \$14.43 a week for the 52 weeks of the year, and married persons living together who have aggregate earnings of as much as \$28.85 a week for the year, are required to file returns.

### STRAIGHT FROM NEW YORK

Evening gowns this winter are dramatic. They "do things" for you—give you glamour and an air of distinction. An outstanding style is this portrait gown with striking molded top, sweeping skirt. It is a New York creation of black crepe and flesh-colored satin.

### Sliced Pineapple IS A SALAD STAND-BY

**S**LICED Pineapple, a favorite pantry shelf item and valuable for a variety of uses, is a particularly helpful stand-by when salads must be devised in a hurry. The rich sun-yellow slices are so attractive in appearance that they assure the good looks of any salad, and the slices furthermore may be combined with all sorts of foods to make any number of eye-appealing, mouth-watering salad combinations.

A new way to serve the popular cottage cheese and Pineapple salad is pictured here. The crown of Pineapple over the mound of cheese is formed by cutting one slice of Pineapple into two pieces and fitting one half over the cheese. Then the remaining half is again cut in two sections, each one of which is placed against the first half (on opposite sides) to form a regal coronet. Orange sections are arranged around the base of the salad for added color, and the whole salad is served on lettuce or other salad greens.

**PINEAPPLE IMPERIAL SALAD**  
(Serves 4)

Lettuce  
4 slices Canned Pineapple, drained (15-ounce can)  
1 orange

For each serving, arrange a mound of cottage cheese on a lettuce leaf. Cut a Pineapple slice in half and cut the remaining half into two pieces. Arrange these cut sections so that they form a crown over the mound of cottage cheese. Peel orange and cut sections away from membrane. Ar-

### KNOW TEXAS?

A reader of this newspaper can get the answer to any question of fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin.

**Memorable Passage:** A patriot finds more difficulty in protecting his country in times of peace while the people are slumbering in the cradles of harmony than in defending it in time of war when they are shocked by battle's carnage into life and action.—James Stephen Hogg.

Q. What is the principal difference between the sources of money for the Available School Fund and the Permanent School Fund?

A. Bascom Giles, Commissioner of the General Land Office, answers this question: At the present time about 15,000,000 acres of school land are held by purchasers under contract of sale. The interest received under these contracts is placed in the Available School Fund; and the principal, when paid, is placed in the Permanent School Fund, Commissioner Giles explains.

**Worth Defending:** Colonel Paul Wakefield sounds this thoughtful word in these days when Americans are so interested in home defense: "The foundation has not been hewn from a single stone. It is composed of many blocks, painfully laid up and put together, and cemented by the tears and blood of the nation. The dictates of one's breast is more permanent and steady rule of conduct than the influence of tyrants."

Q. Please list for me the six flags under which Texas has served, giving the dates of each.

A. France, 1685-1690; Spain, 1690-1821; Mexico, 1821-1836; Republic of Texas, 1836-1845; United States, 1845-1861; Southern Confederacy, 1861-1865; and the United States, 1865 to the present.

Top of Texas: The highest point in Texas is the top of Guadalupe Peak, 8,751 feet, in

Culberson County. This peak rises nearly a mile above its base.

Q. Was General U. S. Grant ever in service in Texas?

A. Yes. In 1846, General Grant then a lieutenant at Corpus Christi, was greatly impressed with Texas. In his "Memoirs" he tells of a very interesting overland trip which he made from Corpus Christi to San Antonio. "San Antonio then was about equally divided between Mexicans and Americans," Grant observed. The statement continues: "From there to Austin

there was not a single residence except at New Braunfels. From Austin to Corpus Christi there was only a small settlement at Bastrop \* \* \* but after leaving that, there were no settlements except the home of one man with a female servant at the town of Gollad \* \* \*"

**HOW MUCH**  
Is a Bank Worth to its Community?

You may know how much a week you should pay a good cook, bookkeeper or ranchhand, but how much are the services of a good bank worth to you?

A good bank's services should be worth what it costs the bank to handle your account, including a fair return on invested capital. By maintaining a compensating balance in proportion to your account's activity, or by paying a service fee on small, or highly active accounts, which otherwise would cause the bank a loss, you "do your part."

Sound banking requires support from the public as well as from bankers.

## Nears for 1941 Taxes
