Texas Cattlemen Are on Schedule In Market Drives

College Station—Reports on movement of cattle to market indicate that Texas cattlemen are meeting the goals they accepted in the Food for Freedom program, the Texas USDA War Board announced this week.

The USDA War Board announcement cited the BAE range and livestock report for May 1, which declared that "total market movement of cattle and calves for the first quarter of the year 1942 was 421,000 head, which was the second largest movement on record for that period and compares with 351,000 for the same period last year."

The USDA War Board goal for 1942 called for the marketing of 3,521,287 head of cattle, an 18 percent increase over 1941.

B. F. Vance, chairman of the Texas USDA War Board, declared that the increased cattle marketings were a good indication that cattlemen, along with other branches of the agricultural industry, intend to meet their pledges and to do their share in providing Food for Freedom.

What You Buy With WAR BONDS

Aside from the sixty-mile an hour Mosquito Torpedo Boats, the Sub Chasers are the speedsters of our Navy. Light and fast, they are the eyes of the Fleet on the water. They displace approximately 1,500 tons and cost about \$2,400,000 each.

We need many of these powerful, fast little boats to cope with the treacherous submarine type of naval warfare fostered by our enemies. Everybody can help pay for more Sub Chasers by putting at least ten percent of his income into War Bonds. Buy Bonds or Stamps every pay day. Buy them from your bank, your post office, or from your office or factory through the Payroll Savings Plan.

Fort Stockton Pioneer—Rain and hail Monday covered a sizeable portion of Pecos County, with the hail doing greatest damage at the Pecos County airport 3 miles east of Fort Stockton, where nine airplanes were severely damaged by stones measuring up to 3 inches in diameter.

The storm blew up suddenly and caught seven army biplanes and 2 training ships belonging to Pacific Air School, Ltd. in the open. Wings and fuselages on several of the ships were riddled by the hail stones, and it was expected that most of them would require complete recovering before being returned to active service.

Fort Stockton Pioneer—Fort Stockton property tax paying voters gave overwhelming endorsement Tuesday to the city's participation in the construction of Miller Field and the expansion of the city-owned water and sewer systems to handle increased volume.

With only 94 votes cast, the first proposition on the \$25,000 issue received 93 affirmative votes and only 1 against. The second and third propositions got 92 to 2 and the fourth 91 to 2. It appeared that one of the adverse votes on the last three propositions was a result of misunderstanding.

Winters Enterprise—To assist in the "Food for Victory" program of our country, the Winters State Bank is announcing an essay contest for boys under fifteen years of age, prizes for the winners being two registered Jersey bull calves.

Wink Bulletin—The next quota of draftees from Winkler County will call up a number of married men, Paul Jette, Draft Board member said today.

All Class 1-A men in the first and second registrations have been exhausted, and reclassification of a number of those in Class 3-A, is being made.

The next call will be about June 7, Mr. Jette stated.

IT STARTED WITH EVE (Sunday and Monday)

Deanna Durbin casts off her girlish inhibitions in this show and swings out in high style in an effort to win the man she wants. She is aided and the deal is consummated by the actions of Charles Laughton, father of the man she wants.

Because he is apparently about to die, Laughton asks to see the fiancée of his son, Robert Cummings; and because she can't be found at once, the son gets Deanna to pose as the future wife. She poses and poses until she finally becomes the real one.

Besides being giddy and man-hunting, Deanna gives off with some more of her fine singing, among the numbers being the Spanish tango, "Clavelitos", "Viene La Conga," Albert Moll's interpretation of "The Lord's Prayer" and the "Sleeping Beauty Waltz" by Tschai-kowsky.

Margaret Tallichet is the fiancée, Guy Kibbee, Catherine

Doucet, and Walter Catlett are featured assistants

MARTIN EDEN (Tuesday)

A man embroiled in the hardships, bitterness and upssets of a seaman believes himself capable of writing publishable works; and he sets out to prove to the world and to himself that he can. Although the motion picture adaptation only touches on the real story by Jack London, there is the picturization of what a man can do even with the world apparently against him. In the story, he wrote poetry; but in the show it's fiction based on facts; and the designing women are of the same calibre as those of the book.

Glenn Ford of "Texas", Claire Trevor, "Stagecoach", Evelyn Keyes and Stuart Erwin are cast together as the outstanding persons in the outstanding life of Martin Eden.

SHIP AHOY (Wednesday and Thursday)

Eleanor Powell, top tapping Terpsichorean, is spotlighted in a musical film which involves more spying and sabotaging. New Leading opposite is Red Skeleton, radio funnyman; and music is presented by Tommy Dorsey and his orchestra.

A hypochondriac writer decides to take a cruise and ease his mind and matter. He meets the cruise ship's leading entertainer and finds out she's suspected of being a spy. He romances her to find out for himself, and finds out for himself.

Bert Lahr, aged Goof, and Virginia O'Brien, dead-pan songstress, accompany them on the cruise and adventures.

As I Was Saying . . .

By Aynah Nemus

A man cannot step at once across the chasm of provincialism except he be a genius or a worldly man, and in those cases there exists to him no more a chasm. You don't follow me?

For instance, there came in the other day, a story of a soldier from West Texas who was among the army of men in Australia. Now being used mainly to chasing jackrabbits and mavericks, he misunderstood some of the customs the people of that country inherited from their forefathers.

A few of the soldiers were invited to an exclusive dance hall, and the cowboy went along. The dance was fairly exciting to the fellow and he made it more so by the consumption of a certain 90 proof potent. But with the evening over, he suddenly found himself being ignored by the natives of the continent.

For a couple of weeks listlessly around the world dodged at every opportunity one day he cornered a tight Aussie and holding a tight collar, demanded the whyfores of the matter.

"I'll tell you," gasped the fellow, "Over here we're a creet about our language we respect our official language, when the judge, wearing his wig into a place, we bow and say, 'Good evening, Your Honor' and not 'Who the hell is that?' 'Eskimo' is

Every Friday night a bunch of us fellows get together over at Bill Webster's place. We wouldn't miss those weekly get-togethers for anything.

There are seven in the group—Bill Webster, Judge Cunningham, Pete Swanson, Old Doc McGinnis the dentist, and young Doc Mitchell the M.D., the government man Bob Newcomb, and myself.

We don't play cards. We don't sing or carry on. We just sit quietly and talk—and drink a glass or two of beer. I guess we discuss just about everything under the sun—politics, business, family affairs, music, farming, hunting, fishing, and what not.

But mostly we like to chew the fat about life's experience and a man's philosophy in these times. To sort of help out the conversation, we've found mellow beer particularly relaxing. Every one of us likes the tangy taste of beer . . . and now and then Judge Cunningham insists on ale for everybody.

Rail oddities

CARS EQUIPPED WITH SAILS FOR MOTIVE POWER WERE EXPERIMENTED WITH BY SOME OF THE EARLY AMERICAN RAILROADS.

Steps to augment the defenses of the East and West coasts commenced Sunday night when the War Department placed plans in effect which have materially strengthened the forces already stationed in those areas. The railroads aided greatly in the movement of troops and material operating through trains to destinations on emergency schedules. In addition to the ground troops moved, the railroads have completed a number of projects which have...

What You Buy With WAR BONDS

The 155-millimeter gun is the modern version of the old "GPF" of World War I days. It has a range fifty percent greater than the old gun, heaving a 95-pound projectile approximately 15 miles. It is capable of high road speed and each one costs \$50,000.

Arsenals of America are working at terrific speed turning out this long range, effective weapon for our armed forces. You and your neighbor working hand-in-hand in unity can make possible the purchase of an adequate number of these guns by buying War Bonds. Put 10 percent of your income in War Bonds to help reach your county quota, every pay day.

WE'RE SORRY--
Government Regulations Prohibit Special Deliveries and Call Backs after May 31st
Your Ice Serviceman

To save rubber, Office of Defense Transportation Order ODT No. 6 limits regular deliveries to not more than one a day per customer

To conserve rubber, the Office of Defense Transportation has issued Order ODT No. 6, restricting deliveries by rubber-tired vehicles, whether motor-driven or horse-drawn. Effective June 1 and applicable to any person or firm delivering any commodity within any community, the order specifies that:

No special deliveries may be made, except to hospitals, military forces or in cases where public health, life and safety are imperiled. A special delivery is one made at the request of a particular person or firm other than as part of a regular scheduled delivery service.

No call backs may be made, a "call back" being defined as any call made subsequent to the first call on any one person or firm on any given day, regardless of the purpose of the call.

Not more than one delivery per day may be made to any one customer, except as authorized under special deliveries.

The order further stipulates that, beginning June 1, each local carrier must reduce his total monthly vehicle mileage 25% below total for same month of preceding year, exclusive of mileage eliminated as a result of other requirements of the order.

Under the foregoing provisions, we shall no longer be able to make the special deliveries and extra calls that we have gladly made in the past as a convenience to our customers. We shall continue to make regular scheduled deliveries, however, and you can help us keep you well-supplied with ice by anticipating your requirements and making arrangements to receive deliveries at scheduled times. Commercial customers, who formerly required more than one delivery per day, can cooperate by providing larger storage facilities or arranging to pick up additional ice at our dock. There are no restrictions on dock sales.

We are sorry that circumstances make it impossible for us to continue to make deliveries without limitations as in the past, but we know you understand the necessity for conserving rubber and will be glad to cooperate until victory comes and unrestricted delivery service can be resumed.
