SANDERSON, TEXAS, FRIDAY, JULY 24, 1942

NUMBER 21

## V. COX, 14-YEAR RESIDENT DIED WEDNESDAY BY MASONIC LODGE

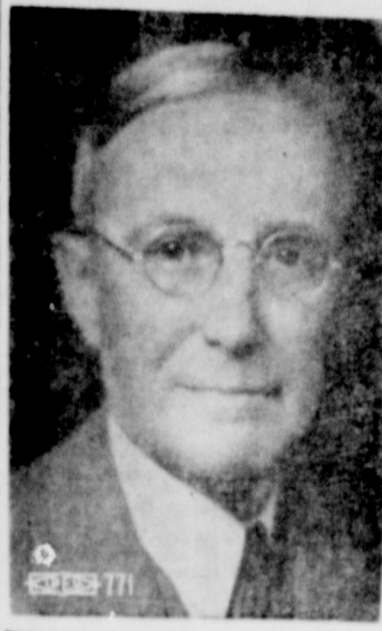

Funeral services for Hugh C. Cox, who died Monday morning, were held Wednesday afternoon at 6:00 o'clock from the chapel of Christ with R. V. ... Following the services the church members of the Masonic Lodge took ...

made by the Oberkampf funeral directors. Hugh Cox was born March 26, 1896, at Uvalde, Texas. While still a young boy he moved with his parents to Johnson City where he grew to manhood. From there he moved to Leander, where he was married to Miss Ollie Ferguson on November 15, 1923, and they moved to Luders for a time, then to Ozona, and finally to Sanderson in 1928. They have made this their home since that time. Mr. Cox was engaged in the well drilling business and reservoir concrete work. He started in this business when he was only eighteen years of age and is responsible for many of the good water wells found in this section of West Texas.

Mr. Cox was a man of unquestionable character. His friends were numbered only by the people who made his acquaintance and to be of service to his fellowman was his greatest desire. Always ready with a helping hand or a word of good cheer, the majority of Terrell County residents have been befriended by him during the time he lived in the county. Few services have been so abundantly graced with floral offerings which marked the high esteem in which he was held by his neighbors and friends.

Survivors include the widow, Mrs. Ollie Cox and two daughters, Misses Maurine and Earline; two sons, Leslie and Vernon Cox, both of San Antonio; two brothers, J. A. Cox of Alpine and Howard Cox of San Diego, Calif.; two sisters, Mrs. Bud McCoy of Dallas and Mrs. Bill Keene of Saragosa; and his parents, Mr. and Mrs. Harmon Cox of Saragosa. All were present for the funeral services.

Others who were here for the funeral services were an uncle, Milas Cox, an uncle and aunt, Mr. and Mrs. Claude Granton; Mr. and Mrs. Ed Mayfield and family of Saragosa; Mr. and Mrs. E. A. Ferguson and daughter, Christine, a brother of Mrs. Cox from Ranger; Hugh Gray of Ozona, and Mr. and Mrs. Ben Gilbert of San Angelo. Active pallbearers were Willis Harrell, Carl Cochran, J. S. (Continued to Page Four)

## Judge P. R. Price Seeks First Full Term As Appeals Justice

Judge P. R. Price of El Paso, now serving his first term as Chief Justice of the Court of Civil Appeals for the Eighth Supreme Judicial District, is seeking election to his first full term.

Judge Price was appointed to the bench following the death of the late Chief Justice Joseph M. Nealon in 1939, and in 1940 was elected to the unexpired term of Judge Nealon. His appointment originally was at the suggestion of lawyers from all parts of the district, and was based on the experience of Judge Price during 24 years of service as District Judge of the 41st District at El Paso.

The El Paso Herald-Post commented editorially on Judge Price's career as a jurist in its issue of Wednesday, June 24, as follows:

Chief Justice P. R. Price of the Court of Civil Appeals, having been appointed and later elected to serve the unexpired term of the late Judge Jo Nealon, is now a candidate for his first full term.

We doubt that he will have any difficulty winning his race, which is as it should be.

Justice Price, in 25 years on the district bench and three years on the appellate court, has made a record unsurpassed among Texas judges. He has been a learned judge but, more important, he has been a fearless and fair one. The lawyers, with whom and against whom he has been ruling, will tell you that. The great majority of them are supporting Justice Price.

Moreover, Justice Price has a record that appeals to the layman. As a bit of lagniappe, district judges in Texas' larger counties sit on a "Juvenile Board" which has certain vague duties seldom performed. For this "work" they are paid an extra \$1500 a year. But Judge Price refused it. He said he didn't earn the money so he wouldn't take it. We have never heard of another district judge in Texas doing likewise.

But that's the sort of official Chief Justice Price is.

There are two main reasons why he should be reelected: first because he is a most able and energetic jurist, well equipped mentally and physically to do the work; and second, because his 28 years of faithful service have earned him the approbation of his constituents and that can best be expressed by retaining him in the job he does so well.

## TEXAS WAR HEROES NEWS REEL FILM TO BE AT PRINCESS

Seventeen of the many Texas heroes in the war recently returned to their native state to a welcome befitting them in all respects. Among the many notables present to usher back the men was Governor Coke Stevenson and it was he who introduced the men at a party in San Antonio.

A film on the lines of a news reel was made of the triumphant entrance into the Mission City and the films are being distributed throughout the state to the community theaters. This picture is scheduled at the Princess in Sanderson on Wednesday and Thursday of next week with the regular billing of "My Gal Sal."

## ORDERED FOR DUTY

Second Lieut. Marvin D. Kelly received orders this week to report for duty July 30 at Camp Barkley, Abilene, where he will receive his physical examination and then will continue to Fort Leonard Wood, Mo., for active duty. He will be stationed there for about four weeks before going to Camp Claiborne, La., for duty with the 719th Ry. Operating Engineers. He plans to leave here on the 29th of the month and will be accompanied by Mrs. Kelly.

Private Bernard Kerr who is stationed at Fort Sam Houston, is here this week visiting with his parents, Mr. and Mrs. James Kerr and with other relatives and friends.

## LT. F. E. O'NEILL AT NEW STATION

Fort Bliss, July 22—The arrival of 1st Lieut. F. E. O'Neill of Sanderson for service here was announced today by the Public Relations Office, Fort Bliss.

Lieut. O'Neill, who is well qualified as a Medical Officer, is expected to become a popular and efficient addition to his new organization.

## Part-Time Labor Should Be Included In SS Tax Returns

All wages paid for services rendered, regardless of the length of time involved, should be reported on the regular quarterly Social Security tax returns. George D. Clark, manager of the San Angelo office of the Social Security Board, announced this week.

The announcement was made to correct the false impression of many employers that work of a short duration need not be reported.

"Temporary, part-time, intermittent, or casual labor, which is in the course of an employer's trade or business should be reported, even though the amount of wages is small," Clark said. "Employers should record the name and Social Security account number of each such worker, and the required information should be reported the same as that for regular employees who work steadily for one employer."

Clark added that nightwatchmen, janitors, and others who may be employed by several firms at the same time are entitled to the old-age and survivors insurance benefits which are provided by the Social Security Act. The benefits are computed on the basis of the total wages received from all employers who are covered by the Social Security Act.

Mrs. R. H. Haley returned Tuesday from a fifteen-day visit in New Orleans, La., with her son, Hollis. Mr. Haley was also visiting there with her but remained over until Wednesday enroute home attending to business matters.

## Miss Jane Ord And Corp. Nelson Married at Fort Sam

Miss Jane Ord, daughter of Mr. and Mrs. S. R. Ord of Sanderson, and Corporal O. L. Nelson, formerly of Dallas, were married at the Chapel at Fort Sam Houston July 3 at 7:30 p. m. with Chaplain K. S. Tucker performing the single ring ceremony.

The altar was beautifully decorated with gladioli and green fern and was lighted by candle light. Besides the customary wedding marches "Because" and "I Love You Truly" were heard on the organ.

The bride was attended by Mrs. W. E. Hines of El Paso as matron of honor and best man for the groom was Sergeant K. Cox of Fort Sam Houston. The bride wore a dress of navy blue sheer with all white accessories and her corsage was of white carnations. She carried a small white prayer book which was given to her by her mother. The matron of honor wore aqua blue with white accessories with a corsage of pink carnations.

Mr. Nelson is in the 2nd Signal Corps and is stationed at Fort Sam Houston and Mrs. Nelson is employed at Randolph Field. They will make their home in San Antonio.

Mr. and Mrs. Ord of Sanderson, Mr. and Mrs. W. E. Hines of El Paso, and Miss Rosemary Nelson of Dallas were present for the ceremony.

## FAMILY REUNION

The new home of Mr. and Mrs. S. L. Stumberg was the scene of a family reunion held last week when members of the Stumberg family gathered. Those present other than Mr. and Mrs. Stumberg were Mrs. Bertha Stumberg, mother of the family; Mr. and Mrs. B. G. Stumberg of Tallahassee, Ala., Mr. and Mrs. Marshal Hearn of San Antonio and their daughter, Mrs. T. J. Emory of Alabama; and Mrs. Louise Hannay of San Antonio.

Mr. and Mrs. W. W. Sudduth and baby daughter visited in Ft. Stockton over the week-end with her parents, Mr. and Mrs. E. L. Brown. Miss Effa Lou Brown returned home with them and is visited here this week.

## Texas Traffic Deaths Down 20 Percent; Lowest on Record

Austin — There were fewer traffic deaths in Texas in the first six months of 1942 than during any similar period since accurate records were started in 1938. State Police Director Homer Garrison announced this week.

For the half year, Texas recorded a flat 20 percent reduction in traffic fatalities, from 863 in the 1941 period to 689 this year.

Nationally, the reduction was 11 percent for the first five months. The six-month average has not yet been announced. As the Texas Highway Traffic Advisory Committee's conservation program began to make noteworthy progress in June, deaths fell to 104 as compared to 151 for June of 1941.

Leading the safety race were cities and small towns, with reductions of 30 and 29 percent, respectively. Highway deaths were down 17 percent; those on county roads, 14 percent.

Highway Patrol Chief Hill Foreman reported that arrests and warnings by the Highway patrol increased 22.5 percent over last June, from 18,327 to 22,460.

## Beauford H. Jester Pledges Cooperation In Railroad Job Race

Pledging efficient operations of the Texas Railroad Commission in gearing Texas oil and transportation systems to the war effort, Beauford H. Jester of Corsicana is entering the final phase of his first primary campaign for the unexpired term on the commission.

It is the first campaign for public office for the Corsicana lawyer who was an infantry captain in the first world war and who has announced he seeks the railroad commission post to render a war-time service to his state and nation.

"In these days when petroleum means so much to our fighting machine and when transportation is the real key to keeping our men at the front supplied with their necessary materials, the railroad commission's job is one of the greatest war services available," Jester declares.

Denied readmission to the armed forces with which he served overseas in 1917-1918, due to physical disqualification, Jester has pledged that Texas oil and transportation shall not prove bottlenecks for men in the armed forces.

Jester, whose father was elected Lieut.-Governor of Texas in 1894, is a member of a pioneer Navarro County family. He served as chairman of the board of regents of the University of Texas from 1933 to 1935, and is generally credited with having been the man most responsible for the University's great building program of the 30's.

A member of the Methodist church in which he has taught a men's Bible Class since 1924, he has held several offices of trust with the Bar Associations of his country and state, and with several other leading civic groups. From 1935 to 1942 he was a member of the State Advisory Board of N.Y.A.

In addition to his war program for the commission, Jester has said that he favors the return of oil production control to the railroad commission after the war. For the duration, the State's oil and transportation must be tied with the production and transportation of the other 47 members of the Union, he says, but afterward, State's rights must be revived.

Economic collapse in the post-war may be avoided by today's planning for reabsorption of men in the armed forces into their civilian duties, Jester says.

Mr. and Mrs. Jack Hayre are vacationing in Ruidoso, N. M.

## Senator H. L. Winfield Scores Hal Collins On 'About Face' Opinion in Governor Race

San Antonio—Malicious slander has been used by Hal H. Collins in his race for governor, acting Lieutenant Governor H. L. Winfield, Ft. Stockton, charged today in a speech asserting Collins' type of "gutter" campaigning discouraged men of high character from running for office.

In a radio talk, Winfield declared Collins had resorted to "vituperation and vilification unequalled in Texas politics" and in attempting unsuccessfully to besmirch Stevenson, had recklessly slandered Texan army camp towns and the soldiers who live in them.

He quoted Collins' statement that "conditions in army camp towns are disgraceful." This, Winfield said, is a slander on the towns; on the soldiers and their uniforms, on the people in those towns who have supported the USO to help make the soldiers happier.

"If he is so concerned," Winfield asked, "why didn't he take his broom in hand back in 1940 and clean out the drug store saloon operating in his own building?"

He explained that he had numerous photostats of documents showing the existence, in Hal Collins' hotel in Mineral Wells where the National Guard of Texas was partly mobilized, of a drug store which in 1940 and the first five months of 1941, filled 23,813 prescriptions for liquor, totaling more than 2,000 gallons—in a county where sale of whiskey is forbidden by law. This drug store did not renew

## Class 1-A Registrants May Apply for Navy On Induction Notice

Men who have been classified by Selective Service Boards, and who have received notice for induction into the Army, may volunteer for service in the United States Navy, it was announced today by Lieut. J. F. Beebe, officer-in-charge of the southern Texas recruiting district with headquarters in Houston.

"Since at least two days are required to complete application papers and physical examination for entrance into the Navy, applicants should appear at their nearest Navy recruiting station for interview several days prior to the date of induction," Lieut. Beebe said.

Registrants in class 1-A who prefer the Naval service are urged, wherever possible, to apply for Naval service prior to the time of induction notice in order that draft boards may know of their enlistments in another branch of the service and can make replacement of the man for their records.

Navy recruiting stations in the southern Texas district are at Austin, Crockett, Houston, San Antonio, Harlingen, Galveston, Corpus Christi and Beaumont.

## Conservation of 'Creature Comforts' Afforded Household By Ceiling Prices

Necessary wartime conservation of those many "creature comforts" on which American households have come to depend, has become an easier task since the placing of ceiling prices on the services rendered by those whose business it is to keep such things in usable condition.

Since July 1, repairs on a squealing radio, a burned out electric iron, or a bent fender can cost no more than they did in March. Alterations to make last year's fur coat fit like this year's ... mending of a knee-toe ankle runner in a silk stocking ... dyeing that faded suit—such conservation jobs can be planned with the knowledge that the price for the work is controlled by this newest phase of the price control regulation.

Already wartime restrictions have put some commodities out of existence and have made others scarce and hard to get. More of those things which Americans have long considered indispensable are due to join the list.

Since replacements are out of the question, every day it becomes more and more essential for families to keep in good condition and in running order the things which they already own, and placing of price ceilings on services makes it possible to preserve and conserve commodities now in use at prices which cannot rise higher for the duration of the war.

With silks and woolsens fading out of the clothing picture, all those services which alter,

freshen or renovate the clothes of those fabrics now hanging in the closet are of vital importance. Dry cleaning, dyeing, pressing, laundering, re-weaving and mending. Those are the services which are going to help present clothing last, and on those services price ceilings now prevail.

Shoe repairing and shing, hat cleaning and blocking, glove cleaning and mending, jewelry repair ... The price control regulation also covers these services, making it easy to keep accessories in apple pie order and keep the budget in order, too.

Iron, steel, copper, brass, lead, chromium ... They are all vital to the production of war material. That's why preservation of toasters, vacuum cleaners, washing machines, sewing machines, lawnmowers, automobiles, bicycles, and scores of other family essentials is so important. And with price ceilings on repairs in effect, these things can be preserved at reasonable cost, and the household routine kept intact despite wartime restrictions.

Bringing commodity services under the regulation of price control is just one more step in stabilizing wartime living costs. Already a drop in these costs has been felt as a result of that phase of price control which on May 18 brought under price ceilings most of the food we eat, the clothes we wear, the commodities we use in our homes. It is now possible for the family (Continued to back page)

Some of the most thoughtful Washington observers have been much troubled lately by the power and aggressiveness displayed by certain pressure groups which are hard at work grinding their axes in the capital. Theoretically, the nation is now unified, with all the citizens determined to do their utmost to help win the war. In actuality, a good many citizens seem more concerned with how they can use the war to serve their own ends, and how they can avoid as much personal sacrifice and inconvenience as possible.

Labor in a number of basic industries is demanding substantial wage increases, despite the obvious fact that higher pay for workers must result in higher costs and higher prices all along the line—thus putting into effect an inflationary spiral that in the long run would hit labor as hard and perhaps harder than any other group.

The heads of some of the big farm organizations, despite their patriotic speeches, are fighting tooth and nail for more and bigger subsidies—and they are implacably resisting any and all attempts to place workable ceilings on farm prices. If these groups win out—and they have tremendous influence in a Congress which is largely made up of men from agricultural areas—still another inflationary spiral will be well underway.

Incidents have been unearthed where certain business interests put their own wishes ahead of the needs of the nation. However, it is generally true that the record of industry in this war is excellent. Furthermore, industry of all kinds is regulated and controlled to the hilt by the government—which is not true of either labor or agriculture.

Taxpayer groups are also extremely active in Washington, and all of them, with a few honorable exceptions, seem to be trying to figure out ways and means to make the other fellow pay for the war. They are all for sacrifice—so long as someone else does the bulk of the sacrificing.

The blackest picture of all, in the view of many writers, is found on Capitol Hill itself. Next November, all of the members of the House and a third of the members of the Senate will be up for re-election. There are, of course, congressmen who are not swayed by political considerations—who are doing their best and who refuse to play old-fashioned politics-as-usual in attempts to make certain of holding their jobs. Unfortunately for the nation, there are a good many congressmen, in both parties, who seem to be thinking al-

## WITH OUR NEIGHBORS

Alpine Avalanche—Ten naval aviation cadets arrived here this week to start their primary training, it was announced by officials of Sul Ross college, where the cadets will receive their ground school work. The cadets will receive flying instructions at the Casparis Flying school at Starns field here and will complete the primary course in eight weeks, when a second class will be started, it was stated.

Ozona Stockman—Crockett County lands in the area north of Ozona were being sought during the past week by the United States government for use by the Army Air Corps bombardier training program as bomb target sites, according to information available here. Several ranchmen in that area have been contacted with reference to possible sites selected by government inspectors.

Ozona Stockman—Foreseeing reduced revenues for the state's county and district highway fund, supported by a part of the gasoline taxes, and consequent lack of funds which will make it impossible for the state to pay its full portion of principal and interest on eligible road bonds maturing next year, Crockett County this week entered into an agreement with a representative of a Dallas bonding firm for refunding any portion of such bonds which the state fails to pay off, thus relieving the county of the necessity for levying additional taxes to retire such bonds.

Big Bend Sentinel, Marfa—Travel restrictions in "that summer of 1942" in all likelihood will not seriously hamper the spiritual endeavor of the Paisano Baptist Encampment which has as a background more than two decades of annual meetings in the Paisano Pass section and which is making final plans for the holding of the twenty-second annual encampment July 27 to August 5.

Ft. Stockton Pioneer—Inability to secure adequate help resulted early this week in suspension of operation of the Nevans Dairy by J. G. Nevans, owner. House-to-house delivery had been stopped by the Nevans Dairy several months ago, due to the problem of labor and tires, and sales had been entirely through dealers in recent months.

With only one commercial dairy left in operation locally, that of Jim Counts, the problem of milk for Fort Stockton has become serious, and is expected to become worse.

Wink Bulletin—Marvin Hall, state fire insurance commissioner, this week announced three-percent reduction in the Wink fire insurance key rate, the fourth such reduction this year.

Monahans News—The Monahans Chamber of Commerce re-

happen in a democratic country—in a country where anyone has a right to speak his mind, no matter how empty and misguided that mind is, and where anyone can advance himself as a candidate for almost any office he chooses. It can also be argued that these "democratic weaknesses" could conceivably lead to our defeat in war. About the only cure for this kind of politics is public opinion. Next November, the people will elect a Congress which, in all probability, will run the country until the war is over. This will be one of the most fateful elections in our history.

## ★ AT THE PRINCESS ★

BROADWAY (Sunday & Monday)

George Raft has made a famous role as the tough guy in pictures, the mob leader, and the racketeer; but his real role as a beginner showman was in the twenties when he was a hooper at the Paradise Club in New York. That was the era when police and crook ran arm in arm, each getting his cut on whatever there was to grab; and it was the time when a man found more danger in women than in guns. Now that period is on the screen with George Raft playing his own part as that hooper in the Paradise Club when every night meant another danger and possible another murder.

Teamed with Raft for the first time is Pat O'Brien, an honest cop with a big heart and a smart mind. Janet Blair, "Two Yanks in Trinidad," is Raft's dancing partner; and Anne Gwynne is the central point in a circle of mystery. Brod Crawford, Marjorie Rameau, S. Z. Sakall have leading parts. One of the longest lists of old time favorites in the popular song class is presented throughout the show and include such pieces as "Dinah," "Dark Town Strutter's Ball," "Yes Sir, That's My Baby," "When Irish Eyes Are Smiling," and a host of others.

MY GAL SAL (Wednesday & Thursday)

Few remember Paul Dresser, but few can forget his value to American entertainment. He's from Indiana, a country boy, and he went to New York to conquer it. P. S. He got the job. Yes, he's the fellow who wrote most of the songs that were sung around the turn of the century.

There's "On the Banks of the Wabash," "The Convict and the Bird," "Me and My Fella," "On the Gay White Way," and yes, "My Gal, Sal."

Paul Dresser's climb to fame has been reproduced with all the trimmings including his gal, Sal, with Victor Mature as the

celebrated a letter Wednesday which more definitely outlined plans for capacity, construction, and future developments on Las Vegas Aero Flying School which is to be built 2 miles south of here.

## What You Buy With WAR BONDS

The power of the greatest Navy in the world, our own two-ocean fleet, rests in large measure on its backbone—the Battleships of the Line. They displace approximately 35,000 tons and cost up to \$70,000,000. We have something like a score of these huge ships in the Atlantic and Pacific.

Eight huge battleships are under construction and more are contemplated. To finance these modern giants of the sea it is necessary for every American everywhere to buy more and more War Bonds. We can do it if everybody does his share. Invest at least ten percent of your income every pay day to help your country go over its Bond Quota.

then the mayor, because he intends to investigate, is bombed out of his garage. Gordon McKay comes into the picture and from the pieces of garage, car and mayor left, derives the name of the killer.

## CADETS ON PARADE (Tuesday)

A couple of kids who have become prominent in the theater are put together in a show with roles of opposite color. Freddie Bartholomew, "David Copperfield," is the son of a rich, self-made man; and Jimmy Lyon, "Henry Aldrich," is a poor boy, son of a self-made crook. Freddie decides that his life

## From where I sit... by Joe Marsh

You ought to meet my friend, Will Dudley. I suppose Will must be seventy-eight or nine... but you'd never know it. He's tall and lean and hard as a hickory. And although the only formal education he ever had was a few winters in the old red schoolhouse, I think that he's the wisest man I know in many ways.

For one thing, Will taught me the value of what he calls "Just a-settin'".

Come upon Will in the evening, when his hard day's work is done, and you'll find him "just a-settin'" in a rocker on his porch. In one hand he'll have his old briar pipe and in the other, a tall cool glass of beer.

"Wholesome, appetizin' beer," says Will, "is standard equipment for proper settin'! Puts a feller in an easy-goin' peaceful mood."

You see, Will holds the theory that in our present mixed-up world, a man needs a quiet hour every day. An hour in which to sit down

## WE MUST CONSERVE OUR TIRES TO...

# SAVE RUBBER

for NATIONAL DEFENSE

Like all other businesses, we are complying with the Defense Transportation's order to reduce tire mileage compared to last year. This means fewer trips for our trucks, so if we are unable to answer service calls or deliveries quite as promptly as in the past, please remember due to circumstances imposed by wartime conditions. Every drop of rubber we can save is that much more for our armed forces.

## How You Can Help Us Reduce Car Mileage and Maintain a High Standard of Service

- Learn to replace blown fuses yourself. It's as easy as changing a light bulb. Ask any of our employees to show you how. Keep extra fuses on hand.
- Please do not ask for delivery of small items such as light bulbs or appliance cords. Buy them when shopping for other things and carry them home with you.
- Give us as much advance notice as possible if you decide to move so your call may be grouped with others and taken care of on a single trip.
- Arrange to pay for service by check. Call a person at our office before expending payment period and save tire wear by special collection trips.
- Avoid requesting "rush" service. We will help us conserve rubber by making ourselves available for us to handle your service deliveries on regular trips.

Prompt and courteous service to our customers has always been a policy of this company and we look forward to the day when we can again make deliveries and service calls without restrictions. In the meantime, we know you understand the reason for this necessary restriction and will be glad to cooperate. We'll give you the best service possible under present conditions and will sincerely appreciate your help. With a little advance planning, you will be inconvenienced little or no inconvenience.

# PRODUCTION...

Is the Present Need...

"This is a war of machines... Our national need calls for the best efforts of every man in industry. My message consists of one word, PRODUCE! Produce all you can, as fast as you can. Our entire war effort depends on how well you do your job." — Lieut. Gen William S. Knudsen

Munitions are important, but so also is the production of food and other essentials. Without well-planned production all along the line, the most hopeful plan for victory must fail.

The Sanderson State Bank is ready to do its part in increasing local production. We have faith in the future of America, and we shall welcome any opportunity to be of service.

To the layman, instrument panels of modern transport and combat planes represent a bewildering display of dials, levers and gadgets, and seem to grow more complex as each new model rolls off the production line. Yet each added device represents some distinct contribution to the safety and simplicity of operation. Shown above by the Aeronautical Chamber of Commerce of America is the carefully laid-out instrument panel of one of the skyliners from the plant of the Douglas Aircraft Company, Santa Monica, Calif.

The Aeronautical Chamber of Commerce of America here presents a striking illustration of what is meant by the "machining" of airplane parts. Shown at the top is a 375-pound special alloy steel forging for the hub of a Curtiss Electric airplane propeller. Received at the factory in this rough state, the hub must undergo 50 machine operations as the result of which its weight is cut down to 56 pounds. The finished product, burnished to mirror-like smoothness, is shown below.

application to a postmaster (or his subordinate), which would be forwarded to the Bureau to be checked. After verification of the application a birth certificate would be issued so the person could work in war production plants and receive old age pension benefits.

THE WAR FRONT

A communique from Cairo, Egypt, reported Maj. Gen. Lewis H. Brereton, formerly Commander of the U. S. Army Air Forces in India, is now Commander of U. S. Air Forces in the Middle East. Gen. Brereton said American heavy bombers carried out 21 tactical missions in 36 days with the loss of only three U. S. planes. The Navy announced 13 Japanese ships have been sunk or damaged since June 3 in Aleutian waters, and at least seven enemy aircraft have been destroyed. The Navy said U. S. casualties in that theater to date are approximately 44 military and naval personnel killed.

Rattle of the Rail

Engineer F. E. Brown has been assigned to a freight run out of this point.

Fireman W. L. Kington who has been on the yard engine at Valentine has taken the extra board here.

Engineer W. E. Cotermarsh was down from El Paso a trip on passenger recently.

Fireman L. C. Trigg has been assigned to a passenger run between Del Rio and Sanderson.

Fireman L. R. Reid has returned to El Paso for a freight run out of that place.

er than in 1930 and 10 percent lower than the average rate for the 10 years between 1930 and 1940. War Secretary Stimson said. Mr. Stimson said every U. S. soldier going into the theater of operations will receive a package of five grams of crystalline sulfanilamide for wounds in addition to 12 sulfanilamide tablets for internal use. Army Air Forces Commander Arnold announced formation of the Troop Carrier Command charged with transporting by air the fighting men and their weapons and supplies in theaters of operations.

ARMY & SELECTIVE SERVICE

The Army Air Forces' present accident rate is 68 percent low-... Blank books, receipt books, coupon books at the Times... SS headquarters authorized local boards to defer married men until all available single men including those in war jobs, have been called and to call men with children last. President Roosevelt said it is unlikely a decision will be made any time soon on the drafting of 18 and 19 year old youths for military service. SS Director Hershey said local boards may fill up to 10 percent of their quotas from men deferred because of illiteracy but who are otherwise fit for military service.

The Army Air Forces' present accident rate is 68 percent low-

As I Was Saying . . . .

By Aynah Nemus

I overheard a couple of the boys talking over a bottle of beer one day last week. Seems they both were worried about one of 'ems predicament of some sort. I'll call them Joe and Pete to ward off embarrassment.

"You mean my idea didn't work then," Pete told Joe.

"That's what I mean. The gal told me all about some other guy she's in love with. I started off telling her what a grand guy Hugh is, and trying to make her believe that I was interested in her seeing more of him so's maybe she'd pay some attention to me. Just like you said John Alden did to Priscilla for Miles Standish. She was all right at first and I found it easy to talk to her about some other guy. I just don't get her."

"You did just what I told you then, huh? You know a guy that has delirious hallucinations when talking with a girl has got to try all sorts of ways to get himself on the beam with her. I suggested John Alden's line with Priscilla because I thought maybe that'd help you. What'd she say about this other guy?" "Oh, it was all good. How handsome he is; how he talked, all about poetic characters. She said he works hard and someday maybe he'd ask her to marry him, she hoped. She told me

that, right there as if I was her big brother instead of someone trying to break in on her. Shucks! I'm through with women."

"Did she tell you his name?" Pete asked this kinda under his breath.

"Naw. And I've been trying all this time to place him. The way she talked about him, I kept thinking maybe I knew him. I guess I would if I met up with him."

"And she wants him to ask her to marry him?"

"Yeah, she told me that right in the middle of one of my big sentences. She sighed and half asleep, it seemed, said, 'Someday maybe he'll ask me to marry

him.' Can you beat that?"

"I don't know, but I think I can match it. So long Joe, I'll see you later." He grabbed his hat and started for the door. "By the way, Joe, could you lend me a couple of bucks? I've got to buy a license."

Lost and found columns of Tokio newspapers are crowded these days. Every time an American buys a War Bond, the Japs lose face. Buy your 10% every pay day.

JUDGE P. R. PRICE

OF EL PASO COUNTY

Seeks Re-Election As

Chief Justice

of the Court of Civil Appeals

He has served three years in the capacity of the office which he seeks, and previous to that had a long experience as District Judge. He is supported by all of the Judges of the 22 counties composing the 8th Judicial District, and likewise is endorsed, almost unanimously, by the lawyers of the District. Elected to fill the unexpired term of the late Chief Justice Joseph M. Nealon, he is now seeking a full term.

UNITED STATES SAVINGS BONDS

**THE STATE OF TEXAS**  
TO: Leonard Isaacs, and the unknown heirs of Leonard Isaacs, and Sarah M. Ellison, and the unknown heirs of Sarah M. Ellison, defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Terrell County at the Court House thereof, in Sanderson, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of July, A. D. 1942, then and there to answer Plaintiff's Petition filed in said Court, on the 16th day of July, A. D. 1942, in this cause, numbered 1991 on the docket of said court and styled Pansy Yount, individually and as independent executrix of the estate of M. F. Yount, deceased, Mildred Yount Manion, joined by her husband, E. D. Manion, Plaintiffs, Vs. Mrs. Katherine M. Gibson, individually and as Independent Executrix of the estate of Dr. J. A. Gibson, deceased; Joe A. Gibson; Leonard Isaacs, and the unknown heirs of Leonard Isaacs; Sarah M. Ellison, and the unknown heirs of Sarah M. Ellison, Defendants.

A brief statement of the nature of this suit is as follows, to-wit:

Plaintiffs allege that they are the owners in fee simple of an undivided 308 acres of land out of a tract of land located in Terrell County, Texas, and being survey 7, Abstract 23, Certificate 327, Block 162, and patented to Lem Barton, original grantee, by Patent 207, Volume 34, containing in all 1231.9 acres of land; that the defendants are the owners, jointly, of the remaining portion of said tract of land, amounting to 923.9 acres, and that plaintiffs and defendants together are the sole owners of said land and premises, so far as is known to plaintiffs, and the estimated value of the whole is Six Thousand Dollars, and plaintiffs pray that they have judgment for the partition and division of the land and premises above described, and that commissioners be appointed and a writ of partition issue and for possession of that portion of the lands described in the suit which may be ascertained and declared to be the property of the plaintiffs, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Sanderson, Texas, this the 16th day of July, A. D. 1942.

(Seal) Attest:  
D. L. DUKE, Clerk  
District Court, Terrell County, Texas

Ross Underwood returned Tuesday from Ballinger where he has been visiting for several weeks. He was accompanied home by Juanita Lee, niece of Mrs. Underwood.

### IN APPRECIATION

To the many friends who extended every kindness during the illness and death of our husband and father, we wish to extend our heart-felt thanks. Mere words of appreciation are not adequate to express how deeply we feel nor the thanks we would give for so many thoughtful friends. For the beautiful floral offerings, for each kind word, and for each act of kindness, we are truly thankful.

Mrs. Hugh Cox and children  
J. A. Cox

W. R. Wease returned Friday from Douglas, Ariz., where he was called Tuesday because of the death of his brother-in-law, John R. Hall. He was accompanied by his brothers, J. D. Wease of Del Rio and D. C. Wease of Marfa.

### CEILING PRICES—

(Continued from Page One)

treasurer to budget the family income with a far greater accuracy than formerly and with assurance that this budget will not have to be re-made periodically because of radically rising prices.

Although prices on commodity services cannot rise above the ceilings established on July 1, it is possible for some of the new ceiling prices to be higher than the prices charged for the same work before July 1st. Ceiling prices are determined by the highest price charged by each repair shop for the same or similar work in March, 1942. If prices dropped after March, it is perfectly legal for a service establishment to quote a ceiling price higher than the price charged just prior to the placing of the ceilings.

Mrs. E. D. Pipes and sons, Billy and Ernest, and Robert Nelson of Houston are here visiting with Mrs. Luella Lemons. Mrs. Pipes is a daughter of Mrs. Lemons.

Cornelia and Sylvia Bennett of Marathon are here visiting with their uncle and aunt, Mr. and Mrs. Earl Pierson.

Miss Joyce Yeates of El Paso visited here from Friday until Sunday with her mother, Mrs. Mabel Yeates.

Bobby Lee McCue of Uvalde is here this week visiting with his parents, Mr. and Mrs. Lee McCue.

Blank books, receipt books, coupon books at the Times

### IN HOSPITAL

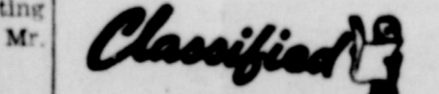

Chester Surratt is in a Del Rio hospital where he was taken Saturday night for medical attention. His condition is reported as improved at this time.

Mrs. D. O. Bosworth and Mrs. W. F. Frazier and daughter, Miss Betty, visited from Thursday of last week until Tuesday in San Antonio with Misses Adeline McCaughy and Marybelle Hollebeck. They are student nurses at a hospital there.

Mrs. H. R. Laurence of Austin was a visitor here Sunday with Mrs. Kate Frazier.

Mr. and Mrs. Stirling Bell and little son, Charles Allan, moved here this week from Santa Fe, N. M. Mr. Bell has accepted employment with the T&NO railway as brakeman. The Rev. J. A. Bell, father of Mr. Bell, went to Santa Fe and brought them to Sanderson.

Mrs. J. E. Dewess of Floresville is here visiting with Mr. and Mrs. James Kerr and Mrs. Joe Kerr.
