## SANDERSON SCHOOL IN SOUTHERN ASSOCIATION

In a letter to Superintendent Tom Holley, J. W. O'Banion, chairman of the State Executive Committee of the State Department of Education, has advised that the Sanderson high school was again accepted for membership in the Southern Association of Colleges and Secondary Schools.

The letter says in part: "The action of the Central Reviewing Committee of the Association in extending the membership of your school in that body for another year is significant in that your high school passed the review of the committee without a single adverse criticism. Your excellent showing is outstanding and emphasizes the constructive, educational program and the leadership in charge of your public schools."

## Rationing of Mileage Is Explained By OPA

The rationing of mileage has been explained in a recent broadside mailed out by the OPA and will be interesting.

Basic ration for passenger cars is the "A" book which contains 16 coupons, valid for two months. The A ration is designed to provide an average of 240 miles per month; of this, 150 miles is for occupational use and 90 miles allowed for family convenience, based on an average of 15 miles per gallon.

The "B" book provides an extra ration for those who must drive more than 150 miles per month for occupational purposes and allows a maximum of 470 miles a month for such use. Holders of the "B" books must carry three or more passengers or prove that they cannot, and that other transportation is not available. "B" drivers receive "A" and "B" rations. The "B" book contains 16 coupons and is valid for three to 12 months, depending on proven needs of the consumer.

"C" books, which are valid for three months, provide an extra ration for special classes of drivers whose work is most essential to the war effort and who must use their cars more than 470 miles a month for occupational purposes. Applicants who qualify are issued both "A" and "C" books, which provides them with enough gasoline for their occupational use.

"D" books are for holders of motorcycle registration cards and provide an average of 240 miles per month, with 150 miles allowed for occupational use and 90 miles for family convenience.

T books are for all commercial vehicles (except motorcycles) and military vehicles. They receive a "T" ration and do not receive an "A" ration. The "E" and "R" books provide a ration for non-highway equipment and purposes. The "E" book is for small users and the "R" for large users.

### UNPOPULAR FACT

The prime war objective is the preservation of individual freedom. All other objectives are incidental, including economic security. Of course, everyone wants economic security. But our form of government does not and can never guarantee both freedom and 100 percent security. It just isn't in the cards. The government that extends the promise of bread and butter to all citizens, must also extend the heavy hand of dictatorial control. This is a highly unpopular fact. But it is nonetheless true.

It is also a fact that we have been steadily working toward greater security for the average citizen by the slow, sure path of enlightened industrial operation, coupled with ever wider distribution of the products of industry. American citizens enjoy the highest standard of living in the world. Rare is the man who does not have electricity in his home, a refrigerator, radio and auto. In peacetime, he can pack up and go fishing or migrate with his family to another section of the country, with notice to no one. If he does not like an employer, he can choose another. There are millions of employees. If he has an idea, a service or a gadget that the public wants, he can soon become an employer himself. More important, he can help to choose our public servants by secret ballot. He can worship as he pleases and say what he pleases at any time and any place.

If these things do not constitute independence and security, what in the world does? At least these are the things our soldiers and marines and sailors believe they are fighting to save. They can exist only under a representative form of government supported by free enterprise.

### PAINLESS RUIN

Government borrowing, according to a recent statement of the Secretary of the Treasury will amount to between \$7,000,000,000 and \$10,000,000,000 during December. He emphasized that as much as possible of this gigantic sum must come out of the "current income and savings of the people," rather than from the banks.

The reason is plain. Borrowing heavily from the banks means more inflation, because it creates new credit. Borrowing directly from the people is an effective brake on inflation. Unfortunately, it is easier to borrow from the banks—which is only one step removed from printing greenbacks—than it is to go to the already burdened taxpayer. The politicians have so far taken the easiest way with little objection from the people. However, the cost of total war is so great that a day of reckoning is close. We can "painlessly" stuff our banks with government obligations until our money and our savings are destroyed and the war effort imperiled, or we can dig into our pockets and our standard of living with the realization that the war must be won the hard way.

The banking industry has steadily opposed unlimited government borrowing from the banks. The bankers have worked ceaselessly to sell War Bonds directly to the people. They have sold over 80 percent of all such bonds in the hands of the public. Thanks to their efforts, the inflationary trend has been definitely slowed.

### It Happened in Sanderson TEN YEARS AGO

This week—Remember?

December 16, 1932

Sanderson and vicinity continues to be held in a grip of cold, rainy weather. Late Wednesday afternoon the sun shone for the first time since last Thursday. However, soon after dark clouds appeared and thunder and lightning prevailed for sometime accompanied by hail, sleet and rain.

Born Dec. 4th in Uvalde to Mr. and Mrs. D. L. Duncan of Sanderson, a 7-pound boy, Don Douglas.

Mrs. A. D. Brown spent several days in San Antonio this week with Mr. Brown who is ill in that city.

J. Frank Doble, in a very interesting article in this week's Saturday Evening Post, tells of the work of the cowhand in rounding up outlaw steers. He mentions several cowboys, among them being Doc Turk.

V. I. Cargile, of Houston, arrived last Saturday and spent several days in the city this week visiting with his brother, W. C. Cargile and family.

Mrs. Fannie Duncan came in last Sunday morning from her home in San Diego, Calif., to spend several months visiting her sons, Robert and Donald Duncan and families.

Hudspeth County News, Sierra Blanca — Joel Fenley and J. T. Tripania of Nevada are opening up a mine ten miles west of Sierra Blanca that runs high in lead and silver. They are down 145 feet.

Texas Mohair Weekly, Rock-springs—Another hard jolt was given the people of this city and county Saturday when a notice was posted on the door of the First State Bank of this city, stating that the bank was in liquidation and all deposits were transferred and assumed by the Del Rio Bank & Trust Company, Del Rio, Texas. The notice was signed by L. M. Baze, vice president and cashier.

This notice also stated that all outstanding notes have been taken over by the Del Rio Bank, etc., etc.

Ozona Stockman—After nearly doubling the county's quota of war bond purchases for the month of November for one of the biggest months of the war year, Crockett County residents will have a somewhat lower quota for December.

While the monthly quota assigned this county in the treasury department's monthly budgeting of purchases has stood at \$21,600 for the past several months, the December quota for this county has been announced as \$19,500, a 2,100 reduction.

Big Bend Sentinel, Marfa — That knothole-filled offspring of a sapling, Charlie McCarthy, and his splintery, rustle companion in humor, Mortimer Snerd, had the honor Thursday of "breaking in" the stage of the Post Theatre at the Marfa AAF Advanced Flying School.

Edgar Bergen was along. He assisted but it was a McCarthy-Snerd extravaganza with the chips (beg pardon, quips) falling where they would from the lips of the sophisticated and the yokel.

The McCarthy-Snerd-Bergen triumvirate of mirth arrived by plane from Hobbs at about 1:15 and proved themselves true to tradition by insisting that "the show must go on" at once for the men of the Flying School who were waiting patiently for them.

#### "WAKE ISLAND" BRINGS HEROIC MARINES' STORY

Belching cannon, the shriek of diving planes, the roar of anti-aircraft and the staccato hammering of machine guns, the symphony of battle accompanying the deeds of our heroic American fighting Marines, will thunder out from the screen of the Princess Theatre Sunday and Monday when "Wake Island" will be shown.

Paramount has taken the epic story of the fourteen-day siege of our Pacific outpost, one of the most inspiring stands of this war, and made a screen drama of it from the viewpoint of the men who fought the battle. Among the players in this story of Marine heroism are such outstanding personalities as Brian Donley, Robert Macdonald Carey, Allie Walker, Abel, Barbo and William Bendix. John Farrow, a Commander in the Navy until he was killed out of service wounds, directed the film. Credit for the story is given to States Marine Corps scripters W. R. Burnett and Frank Butler. "Wake Island" was filmed with the cooperation of the Marine Corps, which means that the story is as true as the stirring events it depicts. (Continued to Page 3)

### What You Buy With WAR BONDS

Refrigerators are out for the duration. Manufacturers have now tooled their plants for production of war materials. Common-sense-folk, however, are saving now, not spending, and building up a fund for purchase of refrigerators and other domestic needs through investment in U. S. War Bonds.

Your Money put into War Bonds today will bring you back \$4 for \$3 at maturity. So start saving for those domestic needs when you will be permitted to buy them. Join the Payroll Savings Plan at your office or factory and let's all "Top that Ten Percent."

### THE OLD JUDGE SAYS...

"How soon do you leave for camp, Bob?" "Next Tuesday, Judge. Bill and George are leaving the same time. We're hoping to wind up in a tank outfit." "Well, the way I've seen you handle a tractor, Bob, you ought to be right at home in one of those tanks. You're going to like the service—they're a great bunch of fellows. Just last week I went down to camp to see a young nephew of mine and he introduced me to some of his buddies. Fine

fellows—real he-men just like you and Bill and George—from good American homes. Handle themselves well, too. "You know, I've been checking up on it, Bob, and I've found out that the American army today is healthier, better disciplined, better trained, better taken care of than it has ever been in its history. And you can take my word for it, Mary, he'll come back to you a fine man in great shape. Best of luck to you, Bob."

### MAKING THE MOST OF YOUR LIGHTING

(No. 6 of a Series)

### Let One Reading Lamp Do The Work of Two

By arranging furniture and lamps carefully, you can often make one lamp do the work of two. An I. E. S. Lamp at the end of the divan, for example, can be moved to the center in back of the divan. Or two chairs or a chair and a divan can be grouped with a lamp to serve two persons with good light, as illustrated above. Be sure the lamp is close enough to both pieces of furniture, though. A difference of 12 inches can reduce the light you get by as much as 50%.

Inspect lamp cords where they come out of the lamp base. They fray and crumble quickly at this spot. If too badly worn they should be replaced or repaired to prevent possibility of short circuits.

**ISN'T HE WORTH IT?**

THIS message is written to you mothers—from your government.

It concerns the most precious thing in all the world to you—your child.

It asks you to help protect that child—from fear, from starvation, from death—the fate that has befallen millions of children under the rule of Nazi and Jap tyrants.

It asks you to urge your husband to join the Payroll Savings Plan—the easy way to buy War Bonds that will furnish the ships and guns and tanks and planes so desperately needed to guard you and yours from the horrors of defeat.

Or, if your husband is already buying War Bonds through the Payroll Savings Plan—it asks you to urge him to buy more, to increase his savings to at least ten per cent of his salary or wages.

Critically involved in the production of the film was John Fulton, the camer wizard entrusted with the task of erasing husky Mr. Hall from the screen. Fulton is acknowledged a foremost technician in his unique calling. He has devoted 20 years of close study and experiment to the production of his "effects are". The "invisible series" is his stepchild, since it is he who made it possible and practical. Fulton is often referred to as motion pictures' Houdini because of his mastery of deception in film-making.

allied realism that took place on tiny Wake Island in the face of the Japanese stab-in-the-back attack.

Aiming for entertainment, "Wake Island" tells the story of the men on the sandy atoll and how they reacted when the Japanese began their murderous attack. Their personal stories, their emotions in the days of crisis and their personal heroism highlight the narrative. It should prove to be a powerful tale, enacted by the highly competent team of actors.

Brian Donlevy plays the part of Major Caton, in command of the Wake Island forces; Robert Preston, a lusty, devil-may-care Leatherneck; Macdonald Carey, a flying Marine Lieutenant who single-handedly sinks a Jap cruiser; Albert Dekker, a civilian construction boss in charge of building the island defenses, and Walter Abel, a Naval officer.

The evidence at hand indicates that "Wake Island" will prove one of the most inspiring films Hollywood has yet produced during the war.

**"MY SISTER EILEEN" FILM BASED ON STAGE SUCCESS**

Columbia's "My Sister Eileen", based upon the uproarious stage success which has panicked the Broadway of the nation for two solid years, is said to set a standard for laughter the like of which filmdom has never known before.

Rosalind Russell, Brian Aherne and Janet Blair are starred in the comedy, which plays Wednesday and Thursday at the Princess.

Miss Russell and Miss Blair are the two sisters, Ruth and Eileen, who come to New York to win fame and fortune as author and actress respectively. Ruth is a reasonably level-headed individual; her kid sister is a blonde and devastating young woman, who manages to get into one difficulty after another. Both sisters complicate their life in New York by choosing, as residence, a Greenwich Village basement apartment which becomes the happy hunting ground of every wolf in New York!

The sensational success of the screen version of the film is attributed by Hollywood not alone to its superb cast and madly merry story of the two curious maidens from Columbus, Ohio, and the things they saw and the things they did in Manhattan's Greenwich Village.

☆☆  
**"ROOKIES ON PARADE" GAY COMEDY OF ARMY LIFE**

Wittier, brighter and more colorful than any comedy of the season, and with a theme as modern as 1941, "Rookies On Parade" presents tunes and laughs and a cast which includes Bob Crosby, Eddie Foy Jr., Ruth Terry, Marie Wilson, Gertrude Nelsen, Cliff Nazarro, Sidney Blackmer, and William Wright Tuesday at the Princess.

The film presents bandleader Bob Crosby as a happy-go-lucky songwriter, who is always having trouble with his showgirl girlfriend, enacted by Ruth Terry. Crosby's inability to save his money for a marriage finally causes a complete break. He then writes a musical comedy with Eddie Foy Jr., but William Wright, the wealthy playboy whom he gets as becker, turns

**out to be Ruth's new boyfriend.**

Then Crosby, Foy and Wright are drafted, and the scene changes to a training camp. Ruth goes along as an official hostess. Wright and Ruth agree to help Crosby stage his show at the camp, but balk when they find that his intentions seem purely mercenary. With Crosby fighting to clear himself in Ruth's eyes, and attempting to put Wright in disfavor, the film comes to such a hilarious close that it nearly puts spectators rolling in the aisles.

**ILONA MASSEY, JON HALL STARRED IN NOVEL FILM**

The ghost is walking again on the screen in "Invisible Agent" which comes to the local screen Friday and Saturday, December 25 and 26.

Ilona Massey and Jon Hall are co-starred in the film while Peter Lorre, Sir Cedric Hardwicke, J. Edward Bromberg and John Littel have featured roles. Albert Basserman and Keye Luke will be seen in prominent supporting parts.

"Invisible Agent" is the latest of a series of unique melodramas beginning with the picturization of H. G. Wells' best seller, "Invisible Man," which was produced several years ago.

The newcomer is described as an inspired and highly imaginative dramatization of the adventures of a daring United Nations' secret operative. Because of his ability to strip off his clothes and achieve invisibility, he is able to penetrate enemy headquarters in Europe and ferret out guarded military secrets.

Spotted in the key and tantalizing role is Jon Hall, recently exploited as an American flyer in the R.A.F. in Walter Wagner's "Eagle Squadron".

Ilona Massey is glamorously cast as an important key in international espionage, a mystery woman who seemingly plays Axis interests against the United Nations in the critical game of war.

Adept in scoring in weird roles while flouting uncanny make-up devices, Peter Lorre portrays a ruthless Jap diplomat in Berlin. The character of the Jap, it will be recalled, is not new to
