Games were enjoyed after which each guest wrote a message in an autograph book which was presented the honoree by the host.

Mrs. Goode, assisted by Mrs. E. McSparran, served assorted cakes and punch to eighteen guests who regretted to see their friend depart, but who wished him bon voyage and the best of luck in his new home.

It's A People's War

We are paying more in taxes than ever before... and likely will pay more. But we cannot rely on taxes to finance the war. It would not be fair to base a tax on the average single family income when many families have more than one income. We could borrow all the money from the banks, but for both economic and social reasons this is undesirable. The government would then sacrifice its greatest dam against inflation. This is a People's War and the people should finance it. The people WANT to finance it. Sale of War Bonds has mounted consistently since Pearl Harbor. They give their lives... You lend your money.

EXTENT OF RATIONING

The majority of civilian adults today realize to what extent rationing affects our lives, but the conception of rationing in a child's mind can be astounding, and especially if the child's father happens to be a member of some panel of the rationing board and the child has occasion to hear rationing discussed often.

To better illustrate the point quoted here is a statement made to her mother by 5-year-old Sidney Louise Harkins: "Mother, I wish we had a little baby. How do we go about getting one?" And then before the mother could reply, said: "Oh well, I guess it doesn't matter. They will be rationed anyway."

Her father, Sid Harkins, is a member of the gasoline panel of the Terrell County Rationing Board.

Typhoid Fever Is Unnecessary

"If you have not been vaccinated against typhoid fever within the last two or three years, go to your doctor and secure this protection at once," Dr. Geo. W. Cox, State Health Officer, advises prospective campers, Boy and Girl Scouts, and other summer vacationists as the out-of-door season approaches.

"Typhoid fever," he continued, "is unnecessary and preventable. Every case is due either to community negligence or to the ignorance or carelessness of some individual. There would be no deaths from typhoid if every person were protected by typhoid 'shots.'"

Some of the most serious and far reaching outbreaks of the disease have been caused by drinking milk or eating foods that have been handled by carriers. A typhoid carrier is a person who has had typhoid at some time and who even after recovery carries the germs of the disease in the urine and the discharges from the intestinal tract. Carriers who are careless in their personal habits are likely to infect any food they handle with unwashed hands.

Dr. Cox explained that typhoid germs are picked up and spread from person to person by water, milk, flies, fingers, food. Every case of typhoid is contracted by the way of the mouth and the digestive system. "The only way to be absolutely sure of typhoid prevention is by immunization," he declared.

What Is Inflation?

Do you have excess cash? You will answer, "No." But the fact remains that you do. For almost every wage earner these days has an income, in checkbook or pocketbook, well above the cost of his living, taxes, insurance and debt repayments. You never actually "bid" against anybody for a porterhouse steak, but when you take the spending of all average Americans as a group, it's a different story. So it is important that excess money be saved rather than used collectively to bid up prices. If it is spent, instead of saved, prices soar... That's inflation. Ideally, it should be invested in Government securities.

SID HARKINS BUYS TEXACO AGENCY FROM B. H. GIFFORD

"SOUTH OF THE BORDER" SHOWS AUTRY AT BEST

Inspired originally by the phenomenally successful song from which it derives its title, "South of the Border," which opens Friday and Saturday, June 11 and 12 at the Princess Theatre, lives up to its promise to become as popular as the song itself.

Seldom have we viewed a more expertly rounded out western production, replete with every element that makes a good film "good." It has songs, it has laughter, it has

thrills, and it has a thoughtfully contrived story with a timely angle which creates an illusion that the audience is witnessing actual events dramatized from the daily newspaper headlines.

Mexican oil concessions, coveted by one of the European belligerents, provide a focal point on which the action revolves. Gene Autry and Smiley Burnette, as special investigators of the Federal government, are sent to Palermo, south of the Mexican border, to investigate operations which may result in a "border situation" which will threaten the peace and neutrality of the United States. They have "woman trouble" in the form of (a) a small waif who claims Gene as her Daddy, (b) an older and more gulfed waif who ensnares the unsuspecting Smiley into her net—a net fabricated by the

Big Bend Sentinel, Marfa—Directed play for boys and girls of Marfa is to be an innovation in the summer vacation life of the school age child that is privileged to be reared in the Presidio county town of Marfa. Boren Hunter, athletics coach for the Marfa Independent School District, will be in charge of the children's recreation, according to an announcement Wednesday. The program will be sponsored, according to Mr. Hunter, by the Marfa Independent School District, Rotary Club, Parent-Teacher Association and a number of other civic and governmental groups. The object, briefly, Mr. Hunter said, is "to furnish summer recreation and supervised activity for both American and Latin-American children."

Brackett News-Mail—The first train in the history of Fort Clark and Brackettville arrived at the Ft. Clark warehouse area Thursday morning of last week. It hauled over a number of freight cars from Spofford to this army post.

The train used the recently completed railway branch line constructed by the government for the purpose of making easier the task of supplying this huge army post.

Go back to boiled coffee and burned toast? Not if you keep your automatic toaster and electric percolator in tip-top shape! Just give them the proper care—use them but don't abuse them—and they'll last you for years!

POINTERS ON TOASTER CARE

- Keep toaster clean by wiping outside with damp cloth, using a mild abrasive powder if necessary. Heating element cleans itself when current is on. Use small soft brush for removing crumbs from base if toaster has no crumb tray. Never use a knife or fork in contact with heating elements as they are easily damaged. Never immerse toaster in water. Keep dripping rags away from heating elements and electrical connections. Do not put buttered bread or bread with cheese spread in toaster. Spread these on hot toast after it is made. Be careful not to drop your toaster. You may damage thermostat or heating elements.

TIPS ON PERCOLATOR CARE

- A clean percolator is the secret of good coffee. Wash inside with warm soapy water, rinse and dry. Wash out-

side with damp cloth and mild scouring powder. Never immerse percolator in water.

- About once a week substitute a tablespoon of baking soda for coffee and percolate as though making coffee. This will get rid of rancid coffee oils that cling to metal. Always make sure you have put in water before connecting percolator. Otherwise you will blow out fuse in base of percolator. If you have a glass coffee maker with cloth filter, rinse filter cloth thoroughly after each using. Between usings keep cloth in glass of cold water. Guard against dropping glass coffee maker bowls. Do not let cold water come in contact with hot bowls.

"That's right, Judge, and I'm glad I'm still able to do it. Had a long letter from Harry... that bright young fellow I was breakin' in to take over my practice. He said the boys in the service are getting the best medical care of any armed force in our history. They really should with all those brilliant doctors and plenty of supplies to work with."

"Speaking of supplies, Doc, not many

people realize that a large part of the war-alcohol required to make the medical supplies that are being used right this minute to alleviate pain, combat infection and save human lives, is produced by the beverage distilling industry. This entire industry stopped making whiskey months ago and has been working night and day producing nothing but war-alcohol. "I'M THE KIND OF A GUY THAT NEEDS A KICK IN THE PANTS"

I never could save money. The more I made, the more I spent. Always some good excuse for not saving.

Then, along came that Jap sneak play at Pearl Harbor. That made me mad . . . and plenty willing to sock back at them the best way I could. Which, it so happened, was by working in a war plant and buying War Bonds.

Next thing, our Shop announced they were putting in the Pay-Roll Savings Plan for War Bonds, and I started buying Bonds on a regular month-to-month plan instead of on a hit-or-miss basis.

And now, doggone if it hasn't turned out that between the Japs and the Pay-Roll Plan, I've had just the kick in the pants I needed to start me saving real dough for the first time in my life.

It's a wonderful feeling (aside and apart from knowing I'm helping pay for a war we've got to win, or else). You see, I'm putting in \$37.50 every month. And that means, 10 years from now, I'm going to have me a nifty little income of \$50 a month coming in. Four dollars back for every three I'm putting in today!

And, believe me, brother, nothing's going to keep me from getting that full four bucks back for every three.

All I have to do is just keep tucking those bonds away, month in, month out . . . letting them earn interest on what I'm lending Uncle Sam today.

I said it's a wonderful feeling to know that at last I'm saving up money . . . adding to it regularly every month. But it's going to be even more wonderful when those bonds come due 10 years from now. 'Cause then a certain dream of mine is coming true.

My particular dream happens to be a little cabin on a lake upstate. Good fishing up there, and a swell place for week ends and vacations. Well, I'm going to own that cabin, and have the time to use it!

Maybe, your idea of what you'll do with your War Bond money is different. Maybe you'll use it to help send the kids through college . . . or just to take a long, carefree trip somewhere with the Missus.

But whatever it is, remember this: The War Bonds you're buying today can make it come true. Just do what I'm doing. Buy your Bonds on a regular month-to-month basis and then . . .

Keep tucking 'em away . . . tucking 'em away . . . tucking 'em away . . .

SAVE WITH U.S. WAR BONDS EVERYBODY...EVERY PAYDAY... AT LEAST 10%

The above is one of a series of messages to be brought to you by patriotic firms who desire to give you full particulars as to why you should LEND your DOLLARS to back our sons, husbands, fathers and friends, who are willing to GIVE their LIVES so that the world might be a free place in which you and your children, and they and their children, might live in freedom rather than as slaves to ruthless dictators. Every dollar put in bonds helps them.

MORE CANNED GOOD FOR CIVILIANS

Civilians will gain 30 million cases of canned fruits and vegetables as a result of reduced government requirements. The reductions are mainly for corn, peas, spinach, tomatoes, snap beans, fruit cocktail, sweet cherries, peaches, pineapple and pineapple juice. Since the 1943 production is not known, current point values for these items will not be immediately affected.

PAY OFF FARM DEBT

Increased revenue from crops and livestock should be used to pay off farm debt, said Secretary of Agriculture Claude R. Wickard recently. He emphasized that the payment of outstanding obligations, along with as large an investment as possible in war bonds, is a sound protection for the future.

Food for 3-day furlough. A serviceman on a leave or furlough of at least 3 days hereafter will be provided with a complete form for obtaining rationed food before he leaves camp. He will give the application to the person who provides his meals, who will submit it to the local board for food certificates within fifteen days after the furlough ends.

FURTHER CHEESE RATIONING

To conserve supplies of milk rationing will be extended to include all cheeses and cheese products, except cottage, bakers, and pot cheese, the War Food Administration and OPA have announced. All hard cheese and most cheese foods have been rationed since March 29. Early in June soft perishable cheeses such as cream cheese, neufchatel, camembert, liederkrantz, brie, and blue cheese are to be added to the ration list.

WOMEN MUST WORK

By December, 1943, one-third of the female population of working age—17.4 million women—will be required for the civilian labor force and the armed forces, said WAAC Chairman Paul V. McNutt. At least two million women must be added to the labor force in 1943.

LOWER POTATO PRICES SEVEN PERCENT

Consumers ceiling prices on potatoes have been decreased about 7 percent according to a recent OPA announcement. At the same time, the price paid growers was increased 30 cents per hundredweight on the 1943 early crop.

SUGAR SUPPLY FOR 1943

On the basis of prospective 1943 supplies of sugar, the current level of consumption in this country probably can be maintained, the War Food Administration has announced. The allocation of the prospective supply will be as follows: 1,153,000 tons for the armed forces, Lend-Lease and other exports, and 4-

600,000 tons for civilian uses. The civilian uses include an estimated 2,258,000 tons for household use and home canning, and 2,342,000 tons for industrial and institutional sugar users.

STOCKING REGULATIONS

OPA's new regulation setting definite maximum prices on rayon stockings is based upon construction, which in turn governs quality. All fashioned rayon hosiery sold at retail must be marked with the ceiling price and the gauge or needle count. Gauge and needle count govern wearability, not sheerness. First quality, full-fashioned rayon hosiery prices now range from 71 cents to \$1.31. Hosiery with special features such as "non-run", or mesh, reinforced heel, sole and welt, etc., are now priced from 98 cents to \$1.67. Irregulars, seconds and thirds are cheaper.

First quality, circular knit rayon hosiery prices range from 28 cents to 64 cents. Hosiery with special features is priced from 36 cents to 66 cents and irregulars, seconds and thirds for less.

TEACHERS CAN TAKE SUMMER JOBS

School teachers will not be prevented from taking jobs at higher pay under WMC Regulation No. 4, the "held the line" order, nor will they endanger their regular positions by working during the summer vacation in war plants, agriculture or necessary civilian services, said Paul V. McNutt, chairman of the War Manpower Commission recently.

PRICE SUPPORT FOR BUTTER

Dairy farmers have been assured that wholesale prices of butter will continue to be supported at a level equivalent to 46 cents a pound, Chicago basis, until June 30, 1944, by the War Food Administration. The support was pledged last December at the time farmers were called upon to meet 1943 production goals.

MILEAGE FROM SCRAP TIRES

To obtain additional mileage from tires that can be made serviceable with the addition of liners, the Office of Rubber Director has excluded reusable tire carcasses from rubber scrap going to reclaiming plants. Because of this order some half-million otherwise unusable tires can be placed in service through the Defense Supplies Corp.

LUMBER FOR FARMS

To relieve lumber shortages on farms for all repairs except those to farm dwellings, WPB has set aside a total of 500 million board feet of lumber for delivery on an AA-2 preference rating during June, July, August and September. Farmers who cannot obtain lumber with present ratings, should apply to the

county farm rationing committee for certificates to purchase lumber for maintenance, repair and new construction necessary to the production program.

SAUSAGE REGULATIONS

The price of some of the beef ingredients used in sausage manufacture has been rolled back from 3/8 cents to 1 1/2 cents a pound, effective June 1.

Mr. and Mrs. H. B. P. daughter, Suzie, spent the end in San Antonio with her parents. Suzie remained for a visit.

Mrs. Jimmie Hanson, Eddie, and Miss Earline in Baton Rouge, La., are visiting with Mrs. parents.

From where I sit...

by Joe Marsh

Bill Burry was reflecting back on the last war and what the boys used to do when they got a furlough.

"We weren't a hard-drinking bunch particularly, but that was in Prohibition," said Bill, "and forbidden fruit always seems worth goin' after. We'd hunt up a bootlegger, which was easy, and buy a bottle.

"So, instead of a beer or two, well—I guess we generally drank too much!... wonder what the boys are doing this time?"

I got out the official Office of War Information and read him this: "There is vasty less beer in part from the beer in camps."

From where I sit, it doesn't look as if we worry about our boys learned our lesson in war, and I'm glad to see on the right track now.
