Now that things on the Political Front have gotten down to good-old-fashioned name-calling and mudslinging, things we understand, we are left in a daze as to just what has happened to politics in our country.

A man says proudly --- "I'm a Democrat!"
Another answers just as forthrightly --- "I'm a Republican!"

Do either of them know just what they are talking about? I doubt it.
Have you stopped to figure out just what either of the parties stand for in this day and time?

We sat down the other evening and compared the Democratic platform and the Republican "look."

There isn't a whole lot of difference.
And---to me neither one of them has a lot to offer.

Kennedy's Democratic Party could best be named the Socialist Party---based on his platforms.

The Republican platform of 1960 just about fills the bill of the Democratic platform of 1940, so what are you?

We need another major party, to vote independent of course means to waste a vote or butt your head against a stone wall, but if the nation could give birth to another major party, we feel that both the Democrats and Republicans would sit up, take notice, and both get on the ball to do something besides figure out some more laws to make us into a spoon-fed nation.

We heard that Prentiss Mills, down at the county ASC office in Farwell has a new employee and this new worker got her leg pulled but good the other day.

Seems that this new worker was sitting at her desk and answered the phone---

"Can you tell me the support price for wild oats this year," was the query over the phone.

Being new in the business, the young lady put down the phone and walked over to Mills' desk.

"Mr. Mills, what is the support price of wild oats," she asked the ASC manager.

Then at the same moment she finished the question the light dawned!

With a red face she raced back to the phone, only to hear a sound of loud laughter as she threw it back on the hook.

Remember the days when calling up the drug store and asking if they had Prince Al-

(Continued on page 8)

Rhea Church Golden Anniversary Sunday

By MRS. FRANKLIN BAUER

Guest speaker at a golden anniversary observance at Immanuel Lutheran Church at Rhea will be Rev. A. M. Lohmann of Perryville, Mo., who was first pastor of the church.

A number of former members are expected to attend the day-long celebration. First service will be at 10 a. m. Following a luncheon in Parish Hall will be the afternoon service at 3. A social hour will conclude the day's activities.

Present pastor of the church which was organized in 1910 is Rev. H. A. Strobel. For the church history which follows The Star is indebted to Mrs. Franklin Bauer, vice-president of the Ladies Society.

THE REMOTE PAST
Beginning of Immanuel Church in Rhea Community about 20

miles northwest of Friona can be traced back to the year 1908 when Herman F. Reinking, Henry Heckmann, Fred Heckmann, and Martin Reinking from Decatur, Adams County, Ind., came to this territory, in search of good farming country.

Wright Brothers Land Company of Kansas City, Mo., had acquired a large tract of grazing land from the Farwell Syndicate (Owners of the XII ranch and its real estate agents, among them Mr. J. J. Vorpe of Van Wert, Ohio, were active in every way here and elsewhere to attract farmers and to promote a boom for a settlement project. Special coaches, and even special trains, were run weekly from Chicago and Kansas City to Friona to accommodate farmers from the Central States. Friona at this time was only a

small village with a few stores, a lumber yard, a bank, and a small hotel. Most of the people slept in the Pullman train in which they had come for the two or three days inspection tour.

In those days the automobile was yet a novelty to the adventurous farmers who had come to these wide open spaces to see for themselves what this great country was like. The Wright Brothers had a dozen or even more automobiles at the disposal of the prospective

land buyers. They had the people shown to the best spots of land to insure sale of their land.

It was during the boom years of the Texas Panhandle that Mr. F. Reinking came to Friona in search of good farming country. In his youth Mr. Reinking had seen Iowa and Nebraska develop into rich and fruitful states. Now he was 60 years of age. And after seeing the Panhandle of Texas he felt sure that this was for him a second chance to help settle a new country.

(Continued on page 4)

RHEA LUTHERAN CHURCH YEARS AGO---This was the original Rhea Lutheran Church and colony house as it looked to the pioneers of the Rhea Community back in 1908. At first the colony house was to the left of the church near the colony well and accommodated the first settlers. Later it was moved and served the Christian Day School. Later it served as a parsonage until 1954 when the new home was built.

SECTION 1

High Winds, Hail Rip Spotty Areas

NOW YOU SEE IT---NOW YOU DON'T!---At least that is what Police Chief Ben Moorman found when he got up Monday morning following the 2-inch-plus rain we had. Not only did his house have over seven inches of water in the basement but this old cesspool had caved in and his auto leaned over into the chasm.

Dame Nature took another swipe at farmers around Friona late Sunday afternoon when high winds and hail combined to strip several areas completely clear of any cotton and left feed crops shredded in the fields.

The worst damage, according to reports, was about eight miles north and four west of Friona.

The center of this hail was about the Clayton Taylor place. Mrs. Taylor reported a total of 1.9 inches, but the hail and wind "sounded like a freight train on the house" during the storm.

Sunday afternoon was a hot one. Temperatures soared and late thunderclouds began building up in the west.

About 6:15 p. m. the temperature began dropping and the sky to the northwest turned black.

In Friona the clouds dumped a total of 2.55 inches of rain in less than an hour and sent water coursing down the streets like rivers.

In the hail area north of town farmers receiving heavy damage included Taft Lovett, Lynn Hughes, O. B. Moyer, U. S. Akens, and several more in that vicinity.

Cotton was the crop worst hit, and as late in the year as it is, in most cases this crop will be plowed up now. Around the Taylor place the cotton was only stubs, without any leaves remaining on the plants anywhere.

The late feed crops, many of which were in the boot stage, may make, but naturally the yield will be cut drastically.

Early feed was hit, but according to farmers, this may recover in time to make before fall.

South of town, only half an inch was recorded at the Hub

according to Otis Neel while west of Hub at the Homestead Lumberman place only four tenths of an inch fell.

Moving on over to the Lakeview Community more hail was received in sports.

Bill Buchanan reported hail at his place and rainfall of 1.4 inches.

Others in his vicinity who reported hail damage included George A. Jones, J. C. Lane, and M. B. Buchanan.

As in other cases, cotton suffered the most damage.

Hub Co-Op Gin Planned

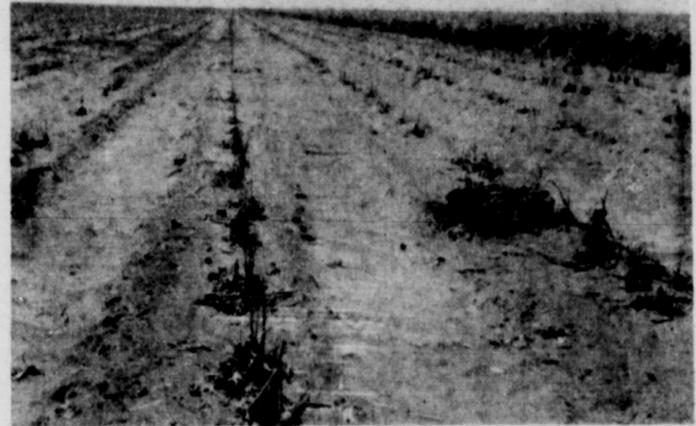

Interested farmers in the Hub community have set a meeting to discuss possibilities of a community or co-op gin in that area. It will be next Tuesday at 8 p. m. in the community center. All interested parties are urged to attend.

Four Friona Scouts To Jamboree

Four local Boy Scouts will be among some 55,000 scouts and scouters from all over the world to attend the National Jamboree of the Boy Scouts of America at Colorado Springs, Colo., beginning next week.

The four boys from Friona to attend the festivities include Wayne Cason, Tom Sanders, Ronnie Brookfield and Jerry Parker.

Three of the four left Friona Wednesday and will meet Parker in Colorado.

HAIL-LASHED COTTON---Rows and rows of cotton, or what used to be cotton greeted several farmers in this area late Sunday afternoon. This particular patch was found just south of the Clayton Taylor house northwest of town. No leaves were left on any of the plants in this particular patch, the vegetation about the stems came from water rushing out of the field following the storm.

CALVARY BAPTIST

Rev. Audye Wiley Serves New Church

With a preacher hired and a building purchased, Friona's Calvary Baptist Church is progressing.

Rev. Audye Wiley comes to

Friona from West Side Baptist Church in Portales, N. M. A graduate of Wayland Baptist College at Plainview, he pastored several churches

while he was in school and preached at Pansy Baptist Church in Crosbyton before going to Portales.

Rev. and Mrs. Wiley have three children--Mike, 10; Ronnie, 7 and Connie, 3. The family is living on the Taft Lovett farm north of town. The son of a Baptist preacher, Rev. Wiley is a brother of Mrs. Stan Benge and Raymond Wiley of Friona.

As soon as weather conditions permit, the congregation will move a building to the site given them by the First Baptist Church. They have purchased the building formerly used by First Baptist Church in Bovina.

Worship services are currently being conducted in the American Legion building.

REV. AUDYE WILEY---New pastor of Friona's newest church, the Calvary Baptist Church moves into the Taft Lovett house at the farm northwest of Friona. This picture was taken during the moving operations Monday afternoon.

Routine Business Keeps City Council Occupied

Members of the city council of Friona met in a makeup meeting Friday night in order to take care of regular items of business pertaining to the city.

The council read the second

reading of the Livestock Ordinance prohibiting the keeping of livestock within the city limits; heard a report on fire equipment from Fire Chief Ruben Taylor and okayed an ordinance rezoning lots in the city.

City council members okayed the repairing of the pump mechanism for Fire Truck No. 3 and the repairing of the truck which was damaged at the wheat fire at the McMahan farm early this month.

The rezoning ordinance pertains to Lots 10-11-12-13-14 in Block 3 of the Lakeside Addition. They will be changed from an "A" Zone to "B" Zone.

Those present at the meeting included Mayor R. L. Fleming, Aldermen Glenn Reeve Sr., Bill Nichols, Dean Awtry, Danny Bainum, City Manager Albert

Building Permit

The following permit was issued at The City Hall in Friona during the week ending July 19:

Hop Lewis Jr.--permit for the construction of a storage building at an estimated cost of \$200.

New Tornado Alarms Cited

A new system of tornado alerts has been announced according to Ruben Taylor, fire chief.

Replacing the old system the fire department hopes to give citizens of the area more time with the new warning system.

In the future when firemen are alerted to watch for clouds suspected of forming tornadoes the city fire alarm will sound a series of short blasts.

This will mean that there are possible tornadoes in this area.

If a funnel is sighted on the ground, the siren will then blow a series of long blasts.

The change is due to the fact that waiting until the tornado is sighted sometimes causes the siren not to work because of power failure and it is planned that this new system will give ample warning.

Bank Racks Up First Shut Out

Friona State Bank marked up the first shut out ball game of the season at the Friona Junior League Park last Thursday night by blanking Star-Hurst by a score of 11-0.

Nolen Morris was the winning pitcher allowing three hits, one walk and nine strikeouts while Scott Cummings, the losing pitcher, allowed five hits, four walks and got six strikeouts.

In the second game Thursday Ethridge-Spring squeezed by Rockwell's Lumbermen by a score of 10-9.

Bob Bailes was the winning

hurler while Larry Graves was the loser.

Friday night the season's highest scoring melee took place when Hub and Reeve battled it out to a 17-14 victory for the Hub.

Teddy Renner was the winning pitcher although his opposing hurler, Joe Alemon, got two doubles and a homerun off him during the game.

In the second game Friday night Associated Growers downed McCaslin 13 to 9.

(Continued on page 8)

READY FOR THE JAMBOREE---Wayne Cason, Tom Sanders and Ronnie Brookfield, above left to right, ready their equipment for the annual Boy Scouts of America jamboree to be held in Colorado Springs, Colo. They will join another local scout, Jerry Parker, in Colorado and take part in the world-wide gathering of Boy Scouts.

Three Friona Squaws Off To All-Star Tilt

Coach Baker Duggins and three members of the Friona Squaws State Class AA runner-up for the Championship left Friona Wednesday morning for Huntsville where the girls will participate Saturday in the annual North-South All-Star Girls' Basketball game.

The girls chosen to play in the game from Friona include Lawana Houlette, Jacquelyn Magness and Charlotte Bock.

The girls will travel to the game with Mrs. Mae Magness. Coach Duggins will coach the North All-Stars, assisted by F. G. Crawford of Claude.

R. C. Hyden of Buns, the team which beat out Friona for the state crown this winter, will be the head coach for the South assisted by Virginia Butler of Clear Creek.

The game will be played Saturday night at 8 in the Sam Houston State College Coliseum.

This game will highlight the annual Texas High School Girls Basketball Coaches Association which is holding their annual coaching clinic this week.

Other team members and their schools who will play on the North squad include the following:

Forwards--Ruth Parrish (Sulpher Springs); Eugenia Mach (Abbott); Carolyn Allen (Bowie); Sondra Fuller (Saltville); Charlotte Bock (Friona); Dixie Mendenhall (Cooper); Vicki Caldwell (Tulia); Jacquelyn Magness (Friona).

Guards--Janie Lawson (Sulpher Springs); Karen Stephenson (Claude); Opal Bogard (Bula); Darlene Martin (Abilene); Mary Robertson (German); Lawana Houlette (Friona); Lewellen Howard (White Deer).

The girls will return Sunday to Friona.

WILL PLAY IN ALL STAR GAME--These three members of the 1959-60 Friona Squaw basketball team will participate in the annual North-South basketball clash at the end of the annual Texas High School Girls Basketball Coaches Association meeting Saturday night in Huntsville. The three Squaws are left to right, Lawana Houlette, Jacquelyn Magness and Charlotte Bock. Houlette and Bock were chosen on the All-State Class AA team with Magness an honorable mention following the playoffs this spring when the Squaws won second place in the State Tournament at Austin.

A FOREGONE CONCLUSION

NIXON

GOP CONVENTION

Mrs. McLean Injured

Mrs. George McLean, 91, sustained a broken hip in a fall in the alley near her home Monday morning.

She was taken to Methodist Hospital at Lubbock for treatment. Relatives here report that her physicians hoped to be able to do surgery Wednesday after a series of tests run Tuesday.

Her son-in-law and daughter, Mr. and Mrs. E. E. Houlette of Plainview, are with her. She is in room 418 and visitors are allowed.

Who can have compassion on the ignorant, and on them that are out of the way; for that he himself also is compassed with infirmity-- (Hebrews 5:2)

passed with infirmity-- (Hebrews 5:2)

Which of us, being human, is without fault, or weakness, or error? When we have found the road to everlasting peace and content through goodness, should we not point the way to the wandering and the lost? There, we should say daily, but for the Grace of God, go I.

Not a single cracked egg since Chevy took over the route

That '60 Fleetside pickup you see takes whatever kind of road comes along, and makes about 250 stops a day delivering eggs house to house for Mr. Harry Hansen of Missoula, Montana. "With my previous truck," Mr. Hansen writes, "I always had some cracked eggs. Cargo damage always cut into my profits. But the new Chevy eliminated that problem completely. I haven't had one cracked egg with my new truck and I've had up to a ton of eggs in it without any difficulty. . . I didn't know a truck could ride so nice."

Chevy rides nice, all right; takes good care of fragile cargoes. But that's not even the half of it. Torsion-spring suspension also means longer life for the truck, extra thousands of working miles, because the sheet metal and body components take less of a beating. You can run off-the-road or over back trails at faster safe speeds, too; get in more trips a day, make more money. Those facts are as true of the big Chevrolet heavyweights as they are of the pickups. Any model you name. Get one on your job and you've got the world's most efficient, most economical way to haul any load over any road. Your dealer will be happy to prove that statement any day you say.

"I'm getting close to 20 miles to the gallon," Mr. Hansen states, "and that's on stop-and-go delivery."

NEW OFFICERS of Friona Rebekahs were installed in formal ceremonies Thursday night. Mrs. Mamie Birdwell of Dimmitt, center, conducted the installation for Mrs. G. E. Reed, left, vice grand, and Mrs. T. A. Sherley, noble grand. Guests from Hereford and Dimmitt were in Friona for the meeting and the salad supper which followed.

Friona Rebekahs Elect Mrs. Sherley And Mrs. Reed

Mesdames T. A. Sherley and G. E. Reed were installed noble grand and vice grand of Friona Rebekahs Thursday night. Mrs. Mamie Birdwell of Dimmitt,

district deputy, conducted the formal ceremony in the American Legion Hall.

Others installed were Mrs. Pat Fallwell, chaplain; Mrs.

Lee Renner, warden; Mrs. Neal Cearly, conductor; Mrs. E. R. Day, inside guardian; Mrs. Ernest England, outside guardian; Mrs. Floyd Brookfield, right supporter to noble grand; Mrs. Joe Moyer, left supporter to noble grand; Mrs. Ralph Durstine, right supporter to vice grand; and Mrs. Giles Cobb, left supporter to vice grand.

Mrs. Jim Rule, color bearer, will be installed later. Twenty-six guests from Dimmitt and Hereford were present for the installation and the salad supper which followed.

FORMER RESIDENTS of Friona, Mr. and Mrs. Martin Wagner of Hereford, are announcing the engagement and approaching marriage of their daughter, Bonnie Jean, to Bill Brandt, son of Mr. and Mrs. E. J. Brandt of Littlefield. The ceremony is set for August 21 at 7 p. m. in Immanuel Lutheran Church in Hereford. Rev. Harold Kaestner of Lubbock will officiate. Friends of the couple are invited. The bride-elect is a graduate of Hereford High School and attended Texas Technological College the past year. Her fiance is a graduate of Littlefield High School and a senior student at Tech.

Letters To Editor

"Yankee Go Home" It's time the United States got out of Germany. We've been here since 1945 and we've spent many, many millions of dollars. In Europe, West Germany is second only to Russia in military and economic strength. Let me list a few reasons I think we should "go home." Imagine expenditures in private business like this. One million dollars for a firepower demonstration. Twice this amount was paid to the German people because of damaged property occurring during the last Army maneuvers. Defense expenditures could be cut at least one-fourth IF we got out of Europe.

I know of nine young men who have died in car wrecks since the first of the year--four lieutenants, two sergeants and three airmen. At least five of these deaths were caused by excessive drinking.

Remember President Eisenhower's trip to Japan that didn't come off? This could happen in Germany by the Germans. Wouldn't it be better if we got out before we were told to "go home Yankee"?

Lt. James W. Dixon AO2087424 OL #2 604th ACWRON APO 225 N. Y., N. Y.

(ED NOTE: Dear Jim, Unless my memory fails me we had a big fight with folks in Europe about 11 years ago and were

told then to Go Home! So it has already happened a number of times I'm sure but you are lucky if only nine men in your outfit have died in car wrecks. If you want, I'll send a copy of a paper July 5, 1960 and it'll show how many were killed in the U. S. over the Fourth of July. And as for defense spending if we left now, it would only be a short time until everyone was shipped back to fight a war, not to occupy Germany.)

Black News

BY MRS. DELTON LEWELLEN

I am sorry the Black News has been missing for the last few weeks but we have been out of town and also the rain didn't help the phone lines any either.

We are sure everyone is thankful for the nice rains but it is also nice to be able to get back in the fields to get after the weeds.

We stayed in Amarillo for a couple of weeks last month. Delton has been building swimming pools for some people in Amarillo who are going to enjoy the privacy of swimming in their own back yard. My two girls, Donna and Pam and I will return to Amarillo to be with Delton this week. We are staying with my parents, Mr. and Mrs. Harvey Shapley.

The Lewellen family all enjoyed a trip to Colorado last week. We all got cabins at South Fork and spent a very enjoyable four days. Those who went were Mr. and Mrs. Tom Lewellen and Tommy, Mr. and Mrs. Joe Lewellen and family, Mr. and Mrs. Delton Lewellen and girls, Mr. and Mrs. T. A. Kelley and girls of Plainview, and Gary Goetz.

Dick Rocky and Fern Barnett enjoyed a fishing trip to Burlington Lake down by Silverton. They thought the fish were pretty scarce though.

Little David Whitaker, son of Mr. and Mrs. Woodrow Whitaker is reported doing fine after he had his tonsils removed in the Hereford Hospital.

Mr. and Mrs. Ralph Price attended the funeral of Mr. Paul Flemming at Ector, Texas. Mr. Flemming was a brother in law to Ralph. The sympathy of the community goes to Mr. and Mrs. Price.

We are happy to report Mr. R. E. Barnett is doing fine. He will soon be released from the Hereford Hospital and by the time this is published he will probably be home.

Betty Barnett is visiting some friends in Dallas this week.

Ann Prewett, Mrs. Travis Stone, Connie and Linda Stone attended a church camp at Floydada with the G. A.'s at the Plains Baptist Assembly. Graham Prewett attended a wedding at Gainesville, Texas, last Saturday night. It was his room mate while he was at Tech.

Joe Dillingham, Mrs. Ellis Tatum's brother from Albany has been visiting the Tatums. Tommy Tatum returned to Albany with Mr. Dillingham to stay for about three weeks. Mr. and Mrs. Ellis Tatum, Mr. and Mrs. Weldon Tatum and Pamela, Mrs. Jerry Houlette and Debbie and Mr. Joe Dillingham enjoyed a weekend trip to Ruidoso a week ago.

Mr. and Mrs. Donald Wright and family of Dimmitt visited Mr. and Mrs. Jim Buckley last weekend.

Larry Buckley is visiting in Dimmitt this week with friends and relatives.

John Bill Garnett of Clovis is spending the week with Mr. and Mrs. C. H. Hammock this week. John Bill is the Hammock's grandson.

Births

The following births were recorded by Parmer County Community Hospital with Justice of Peace Thelma Jones during the week ending July 19:

Boy--born to Mr. and Mrs. Ruben Garcia of Lazbuddie at 5:25 a. m. July 5 weighing 8 lb 1/2 oz.

TWIN GIRLS--born to Mr. and Mrs. Arthur C. Hasseloff of Rt. 1 Farwell at 5:22 and 4:50 p. m. July 9. Weighing 7 1/4 and 6 lb 11 3/4 oz.

Mrs. Dick Rocky visited her son, H. V. who is in Ft. Worth, recently.

Mr. and Mrs. Joe Lewellen left Tuesday morning going to Sterlen, Colo. to be with her mother who will under go surgery Wednesday morning.

A taxpayer is one who does not have to pass a civil service exam in order to work for the government.

One doesn't need a garage for those little foreign cars--just the box they came in.

Hospital Notes

Patients admitted July 11, 1960 to July 18, 1960: Jo Dean Beasley, Hereford; Helen Hernandez, Friona; Mrs. Robert Crozier, Friona; Glenda Shuler, Friona; Emeterio Ruiz, Friona; Claudine Clark, Lazbuddie;

Bernice Ferguson, Bovina; Julia Ann Moody, Bovina; Dianne Jennings, Friona; Walter Lavern Mabry, Friona; Mary Ola Turner, Bovina; Michael London, Friona; Ruth Terry, Friona; Mary Lopez, Friona; Guadalupe Vega, Friona; Durlley Wayne Hodgson, Friona; Billie McAlister and son, Friona; Santos Gurrola, Bovina; Timothy Rhodes, Friona.

1960 to July 18, 1960: French Crook, Jr., Pauline Caldwell, Jo Dean Beasley, Lorenzo Berumen, Amelia Schlenker, Lynn Kersey, Claudine Clark, Bernice Ferguson; Glenda Schueler, Dianne Jennings, Areletta Brooks, Mary Ola Turner, Michael London, Helen Hernandez, Walter Lavern Mabry, Durlley Wayne Hodgson, Guadalupe Vega, Ruth Terry, Mrs. Arthur Haseloff and daughters.

Patients dismissed July 11,

You don't have to be liable to be sued!

The purpose of a law suit is to determine whether you are liable.

Should you carry insurance, you don't have to hire a lawyer to plead your case. You don't have to spend a lot of time collecting evidence and hunting witnesses.

Our adjuster finds out what happened and not only collects evidence but gathers the facts and prepares them for later use.

When your case requires legal handling, the

adjuster pays for the lawyer, court costs, and legal fees. He does all this even though you are not to blame and there is no merit to the suit against you.

If you lose your case, our adjuster takes care of all expenses (up to the amount of your policy limits) including settlements or judgments, medical bills, death benefits, and repair of property.

AND Don't forget it sometimes takes several years to settle a claim.

When you ask these questions:

- \$ My tractor turns over and injures one of my farm hands. Will this insurance pay the bill?
- \$ I go hunting and accidentally injure someone. Will this insurance pay the other fellow's hospital or medical bills?
- \$ My bull breaks through the fence and causes an automobile accident on the road. Will this insurance protect me in case of a law suit?
- \$ An uncle, who is visiting my ranch, injures himself while helping to survey the property. Will this policy cover his medical expenses?
- \$ My wife visits a friend and by accident breaks a fine china plate. Will this insurance cover the replacement?
- \$ When a saw breaks and cuts through an employee's hand, will the policy pay the medical bills?
- \$ My cattle get into the neighbor's fields and destroy a portion of his crops. Will I be protected against damage charges?
- \$ If a scaffold breaks and a life is lost, will this policy pay death benefits?

Church Traces Early Parmer County History

COLONY HOUSE---1909---WITH EARLY SETTLERS---The first building put up by the settlers of the Rhea Community was this colony house. Standing above, left to right, are William Schumm, George Sachs, Herman Reinking, Mr. and Mrs. Conrad Droege, Ida Reinking and Mr. and Mrs. Schulz.

With a spade in hand he got out of the car that hauled him around in the country and examined the depth of fertile soil.

After proper inspection and serious consideration and study, Herman F. Reinking and associates negotiated a contract with the Wright Brothers for 10 sections of land to be sold exclusively to Lutherans. They put the following propositions to the Wright Brothers Land Company.

1. To set aside 10 sections of land to be sold exclusively to Lutheran people in one plot.
2. To donate and set aside 40 acres of the half section of land which Mr. Reinking had chosen for himself. These 40 acres were to be deeded to the Lutheran congregation, Missouri Synod, as soon as feasible after it had been organized.
3. To donate \$1000 for erection of a chapel on the 40-acre church grounds.

The Wright Brothers readily

agreed to these propositions and all of them were legalized on the same day.

Upon returning home Mr. Reinking and Associates gave to the Decatur newspaper a full report of the trip and of the land deal consummated with the Wright Brothers Land Company. Many in the Decatur area read this report. It stirred up interest in many friends. Some of them made excursions to this new country. The 10 sections of land were soon sold to Lutheran people of the Decatur area. This prompted the Wright Brothers to reserve additional sections of land.

However, the people who had purchased the land were little inclined to move to the Texas Panhandle. No one seemed willing to be the first settler because no water and shelter were near this new colony. Several meetings were held in Decatur to discuss this matter. Many voices were heard in favor of the colony. Funds were raised by a free will offering to have

a four-inch well drilled and a colony house built on the 40-acre church property for housing first settlers in the colony.

After these two obstacles were taken care of Mr. Reinking decided to go with his son Herman, age 19, in the spring of 1909, and to have his daughter Ida, who was in Pasadena, Calif., to come and keep house for him and his son, since Mrs. Reinking would not leave her home in Indiana.

In the month of March, 1909, Mr. Reinking engaged a boxcar and loaded three horses, one cow, one brood sow, two dozen chickens, farm implements and feed, and he and his son rode the freight train for six days to Friona. This was a long, uncomfortable, and truly unromantic trip.

They arrived in Friona on a bright sunny day. The unloading was uneventful except for smiles and curiosities of the older citizens of Friona. After a good night's rest in the hotel

they loaded their wagon with necessary household goods, food, poultry, and livestock and arrived at the colony house at sundown.

After getting settled, the two hauled loose stone from the draw north of the colony, and proceeded to build a stone house. This house, now remodeled, is the home of Mr. and Mrs. Herman Schueler.

While they were building, several more families arrived, among them the Carl Gallmeiers and the Conrad Droeges, the Carl Schroeders and the Ernest Schroeders, William Schumm and Charles Lavall, George Sachs and others. These pioneer families became charter families and members of Immanuel Church. These families moving here in 1909 and 1910 all suffered hardship and privation for it just would not rain and no one even thought of irrigation wells.

Herman Reinking knew Pastor Arthur Lohmann who was stationed at Canyon. He con-

tacted him and the pastor came to conduct a church service for the group in the colony house.

On June 18, 1910, the group met to effect an organization. Nineteen paragraphs of a proposed constitution were accepted in this meeting. In the second meeting on June 26, 1910, by-laws of the constitution were adopted and the following signed the constitution:

C. W. Gallmeier, George Sachs, Charles Schroeder, Herman Reinking, Charles Lavall, Ernst Schroeder, and Conrad Droege. Thereupon officers were elected as required by the constitution which had been adopted. Organization was effected under the leadership of Pastor Lohmann.

Next came the building of the chapel for which \$1000 was lying in wait at the Friona Bank. It was placed there by the Wright Brothers Land Company as Mr. Reinking had contracted with them.

In a subsequent meeting the Building Committee reported that \$679.63 was spent on the church and furnishings and that the Building Fund had a balance of \$325.52 left. In the same year on November 27 the church was dedicated to the service of the Triune God. Two services were held. The Rev. A. M. Lohmann delivered the dedicatory sermon in the morning service and the Rev. L. J. Werner preached the afternoon sermon.

After the dedication of the chapel the congregation assembled regularly every Sunday. Pastor Lohmann served them as often as he could, and on Sundays when Pastor Lohmann was not present, reading worship services were conducted by Herman Reinking since he had attended college for three years.

In January 1911, Herman Reinking left the colony for the seminary at Springfield, Ill., to study for the ministry.

Before Immanuel Congregation was organized and before the church was built, services were conducted in the colony house and in a few scattered homes of this region. Pastor Lohmann, the only missionary in the Panhandle at that time, also crossed the state line to bring the Word to some families of New Mexico.

Forty-two years elapsed before Immanuel Church became totally independent. For forty-two years of its existence it shared its pastors with neighboring congregations, or neighboring congregations shared their pastors with Rhea. In 1952 Rhea gained full independence.

IMMANUEL'S EDUCATIONAL AGENCIES

From 1931 to about 1945 there was an active Young People's Society with the congregation. Since the war years not enough young people have been around long enough to have an active society.

During the earlier years a Christian Day School was organized. The Sunday School and the Adult Mixed Bible Class date back to about 1924. Since 1950 Immanuel Congregation sponsors a Vacation Bible School for its children and for other children of the community. A Saturday School for children of school age was begun in 1957.

LLL Club. The Club was organized during the forties. Date of affiliation with the National LLL is not on record.

Present officers include Raymond Schueler, president; Walter Schueler, secretary;

Franklin Bauer, treasurer; Gilbert Schueler, roll call chairman and Florian Jarecki, Lutheran hour chairman.

The Ladies' Society was organized March 10, 1942, and joined the Lutheran Woman's Missionary League July 25, 1942.

Mrs. Carl Schlenker is president. Other officers are Mrs. Franklin Bauer, vice-president; Mrs. Herbert Schueler, secretary; and Mrs. Pat Martensen, treasurer. (Mrs. Martensen was recently elected

to replace Mrs. Eldon Garber who is moving.)

Officers for the congregation for 1960 are Franklin Bauer, chairman; Melvin Sachs, secretary; Carl Schlenker, treasurer; Floyd Schueler, financial secretary and Sunday School superintendent.

Board of elders members are Robert Schueler, Chris Goetz and Raymond Schueler. Trustees are Florian Jarecki, Elmer Dayke and Chris Drager. Melvin Sachs, Eldon Garber and Gilbert Schueler make up the

board of education, and Franklin Bauer, Herbert Schueler and Florian Jarecki are on the stewardship board.

The Parish Hall was built in 1948, and the new parsonage in 1954. In 1956 the church received a complete paint and sealing job, was furnished with a full set of new furniture, and a new water well was drilled. In 1957 a system was placed in the Parish Hall. The end is not yet. The members are now looking forward to a new church building.

Read Luke 15:11-20

When he (the prodigal son) was yet a great way off, his father saw him, and had compassion, and ran, and fell on his neck, and kissed him. (Luke 15:20.)

As our train pulled into the station, I offered some help to the man across the aisle from me. I carried one of his heavy bags. As we left the coach and were walking into the station, I heard him say, "I wonder if my son will know me."

Then the father told me that he had been away for a while and he was wondering if his little son, eighteen months old, would know him.

We walked on. Suddenly, the man's steps quickened. He exclaimed, "He knows me!" Sure enough, there was the little fellow. He was standing in his go-cart. His arms were eagerly outstretched, and he was shouting, "Daddy! Daddy!"

Jesus gave us word pictures of the heavenly Father. From them we know that the great heart of God must beat with quickened joy when He sees our attention fixed upon Him, and our hearts lifted in adoration, saying, "Father."

THEY AREN'T ALL FEET---Believe it or not, there are nine FFA boys and their chapter advisor, J. C. Lane, inside Larry Potts' Falcon. After this try the group decided not to

travel all the way to Houston and the state convention in this auto, but rather to split up into several other autos. They left Friona Tuesday at noon.

9 FFA Boys Off To Convention

Nine members of the Friona Chapter of the Future Farmers of America left Friona Tuesday at noon headed for Houston and the State Convention of the FFA. They were accompanied by J. C. Lane, vo-ag instructor at Friona High School. The boys traveled in two cars and expected to reach Houston early Wednesday morning. Ronnie Wood and Connie Ray will receive Lone Star Farmer degrees at the convention. Other FFA members making the trip include Tommy Massey, Butch Barker, Larry Potts, Dwain Phipps, Robert Houlette, Craig Coon and Charles Ray. The group will return to Friona Friday.

NATIONAL FARM SAFETY WEEK

JULY 24-30 1960

Machinery, drowning, firearms and falls are the leading causes of death on farmland and around farm buildings, reports the National Safety Council.

The oil industry uses some nine and one-half tons of steel for every 1,000 feet of hole drilled.

The sizzling controversy over legislation to provide hospital, nursing home and surgical care for the elderly has become the number one issue before Congress—and the repercussions can have far-reaching effects.

Just what Congress finally agrees on is certain to be the subject of lively debate through the 1960 political campaigns.

Proposals range all through the spectrum of federal aid, either direct or through the Social Security program. And this despite the fact that since 1956 the Social Security trust fund has paid out each year more than it has taken in, or that private insurance plans now cover over 40% of those over 65, with the percentage expected to increase rapidly in the next few years.

Even the most conservative federal medical care plan reported to the House would be expected to be increased by the Senate or by future Congresses.

and piles up when the beater is raised.

For best flavor and texture, stop whipping mixture when it has doubled in volume. Turn the whip into molds or serving dishes at once and chill. A pint of Jell-O whips up to make 8 to 10 servings.

The HAPPY HOMEMAKER

BY JUNE FLOYD

If you are planning a seated tea for an expectant mother, pastel colored handkerchiefs folded like three cornered diapers and pinned with tiny gold safety pins make excellent favors and can be used as holders for place cards.

During the summer months nothing is more inviting than a colorful congealed salad. There is really no end to the different combinations a home-maker can use in making salads of this type.

If you've often planned to make a layered congealed salad but never tried one, just follow these hints and have no fear.

Any two or more Jell-O mixtures may be layered in a mold--different colors of Jell-O, a clear layer with a whipped layer, or fruited layers sandwiched with a Jell-O cream or

snow. Vegetable salads can be layered with tomato juice to which unflavored gelatin has been added for a very pretty and tasteful effect.

To make most layered molds, each layer is chilled until firm before adding the next layer. (For quick chilling, molds may be set in a pan of ice and water.) Two, three or four layers may be built up in this way. Except for the first layer, the Jell-O mixtures used should always be cold, so that they will not soften the firm preceding layer.

Some fruits sink, some float in Jell-O. You can take advantage of this fact to make many layered fruit molds. Simply turn dissolved Jell-O into a mold. Add one fruit that will sink, distributing the pieces as evenly as possible.

Then add one fruit that will float. Chill until firm. Unmold. There will be two fruit layers with clear Jell-O between. Some fruits that float are apple cubes, banana slices, fresh grapefruit sections, fresh peach or pear slices, fresh raspberries and fresh strawberry halves.

Marshmallows and broken nut meats will also float. Fruits that sink are canned apricots, canned Royal Anne cherries, canned peaches or pears, canned pineapple, canned raspberries, fresh orange sections, fresh grapes and cooked prunes or plums.

The following layered recipes are simple to use and will make very attractive additions to any meal.

Layered Cherry Loaf

Layer 1
1 package lime Jell-O
1/8 teaspoon salt
1 cup hot water
1 cup cold water
2 three ounce packages cream cheese

Layer 2
1 package cherry or black cherry Jell-O
1 cup hot water
1 cup cherry juice

2 1/2 cups (no. 2 1/2 can) Drained Bing cherries, halved

Dissolve lime Jell-O and salt in 1 cup hot water. Add cold water and chill until slightly thickened. Soften cream cheese with a fork, adding a little Jell-O mixture if needed. Fold into remaining Jell-O mixture, blending with egg beater. Turn into 2 quart mold. Chill.

Meanwhile, dissolve cherry Jell-O in 1 cup hot water. Add cherry juice and chill until slightly thickened. Then fold in cherries. Turn onto firm Jell-O in mold. Chill until firm. Unmold on crisp salad greens. Serve with creamy mayonnaise. Makes 8 to 10 servings.

Spring Party Mold

1 package lemon Jell-O
1 tablespoon chopped fresh mint
1 cup hot water
1 cup syrup from canned pineapple
3/4 cup fresh strawberries, hulled
1 slice canned pineapple
1/2 cup diced canned pineapple slices
1/2 cup sliced fresh strawberries

Place Jell-O and mint in a bowl. Add hot water and stir until Jell-O is dissolved. Add pineapple syrup, cover and let stand 15 minutes. Strain. Chill until slightly thickened.

Pour 1/4 inch layer of the thickened Jell-O into 1 1/2 quart mold. Arrange pineapple slice and whole strawberries on this in attractive design. Carefully add more thickened Jell-O to cover the fruit well. Chill until firm.

Whip remaining Jell-O as directed following this recipe and fold in fruit. Turn onto firm layer in mold.

Chill until firm. Unmold. Garnish with mint. Makes 8 servings.

Points on whipping--Start with a bowl of good shape and size for the Jell-O mixture will double in whipping. In this, dissolve Jell-O with hot liquid as usual. For the cold liquid, use cold fruit juice if convenient, to give more concentrated flavor. Then chill the Jell-O mixture until thickened but still syrupy--like honey.

Set the bowl of syrupy Jell-O in a larger bowl partly filled with ice and water. Ice cubes may be used. The Jell-O bowl should rest firmly on the bottom of the larger bowl to prevent slipping. Now whip with a rotary beater until the mixture is thick and fluffy like whipped cream

Redistricting May Raise Blood Pressures

THIS MAIZE WON'T BREAK ANY RECORDS---This patch of maize was found Monday afternoon just south of the Clayton Taylor home northwest of Friona. Joe Johnson inspects the damaged plants which were in the boot stage of growth when lashed by the 60 mph winds and fine hail which left them looking like a field of confetti.

AUSTIN, TEX.--Although budget balancing is the most discussed of the problems facing the next Legislature, many lawmakers expect redistricting wrangles may raise more blood pressures.

Legislature is required by the Constitution to re-define legislative districts after each federal census. It used to put off this troublesome task, but a 1948 law provides that if it fails to act in the first session after a census, a Legislature Redistricting Board shall take over.

This insures, as it did in 1951, that the Legislature will redistrict -- somehow, some way.

Battle will be between big city delegations who will demand more representation in line with their swelling populations and rural members who will try to hold on to as much as they can.

In their election campaigns, many representatives promised their constituents they'd be in there pitching for the home area. Members from growth areas said they'd go after extra representatives, state senators and congressmen.

A rural legislator told his people, "At least twelve rural districts will disappear in the next redistricting. I certainly do not want this district included in that twelve."

Incumbents cited their experience as an asset. Personal feeling often enters into redistricting, and lawmakers are notably reluctant to "squeeze out" a popular and respected senior colleague by erasing his district.

HOME INSURANCE CUT--Beginning August 1, premium rates on certain types of home-owner's insurance policies will be cut 10 per cent.

State Insurance Board announced the new lower rates would apply to the "home-owners package" policies which account for about 80 per cent of the home coverage sold in Texas.

Reductions were made possible because insurance companies have had a relatively low loss ratio on the package policies, first introduced about three years ago.

CREDIT RATE EYED--Board of Insurance also is considering a further lowering of credit insurance rates.

Many loan companies require borrowers to take out insurance payable to the loan company in case something happens to the borrower before he repays.

Two years ago the Board cut in half the rates that could be charged for credit insurance. It was charged that loan companies were making excessive profits on loans through the insurance.

Board says that even now rates seem high, with losses running 27 per cent of premiums paid in. If losses run less than 50 per cent of the premiums, rates are considered too high.

NO ROAD PROBLEM--Stiffened federal road inspections pose no problem to Texas, says State Highway Engineer DeWitt C. Greer.

New federal standards are no tougher than those Texas has insisted on all along.

Scandals stemming from misuse of federal road building money in other states has caused the Bureau of Public Roads to tighten its inspection requirements. Greer said the

new federal approach will necessitate no change in Texas procedures.

Texans who have been motoring cross-country during their summer vacations will not find this hard to believe. So noticeably superior are Texas roads to those of surrounding states that returning Texans usually give a sigh of relief when they cross the state line.

SPEAKERS' BATTLE BOILS--Candidates for Speaker of the House continue their month-long battle of "claimsmanship."

Rep. Wade Spilman added five to his list of House members pledged to support him and said this gave him a "rather conclusive" lead. Rep. James Turman of Guber claims a definite majority of 79.

Votes of 76 of the 150 House members are needed to elect. Spilman also has invited the House General Investigating Committee to look into charges that members were being subjected to improper pressure on how to vote.

COLLEGE FUNDS SOUGHT--Texas Commission on Higher Education will ask the next Legislature for an appropriation of \$3,082,183 for the 1961-63 biennium.

Bulk of the increase asked is for meeting expected enrollment increases in the 18 state-supported colleges and universities.

In a discussion with members of the State Finance Advisory Committee, the Commission considered recommending an increase in state college tuition charges -- now \$100 for a nine-month term. Dr. Ralph Green suggested raising this by \$50. It would bring the state an extra \$5,000,000 a year in new revenue, he said.

PRISON NEEDS CITED--Texas Board of Corrections also wants more money -- a \$2,654,846 increase over their present allocation for the next two years.

"If the amount is granted, Texas prisoners will cost the state \$1.89 per day per man," said State Prison Director O. B. Ellis. "This is just a little more than half the national average."

Ellis and Corrections Board members regard prison needs as critical. Board Chairman H. H. Coffield of Rockdale reported that "the prison population trends indicate it will keep on multiplying."

WILSON HONORED--Atty. Gen. Will Wilson has been named by the National Association of Attorneys General as the recipient of that association's award for outstanding service in 1960. He was cited as being the most outstanding Attorney General in the nation when he received the Wyman Award at the Annual Meeting of the National Association of Attorneys General recently in San Francisco.

Award is given to the Attorney General who "has done the most to advance the objectives of the association to help make the United States a better place in which to live for all." Wilson won the honor on the basis of his contribution in strengthening state anti-trust programs and in the field

See Texas First

In 1874, Chief Quanah Parker, son of the famous Cynthia Ann Parker, led some 700 picked Comanche, Cheyenne, and Kiowa warriors in battle against 28 brave frontiersmen and buffalo hunters in the Texas Panhandle.

He was defeated in this attempted "Alamo" style massacre by the small band of men that included the famous Bat Masterson and Bermuda Charley.

This "Battleground of Adobe Walls" now rests peacefully just thirty miles north of Borger.

of interstate compacts, as well as through his service on the man of the association's Anti-habeas corpus committee of the trust Committee during 1960.

Oklahoma Lane Farm Home Is Burglarized

The farm home of Earl Roberts near the Oklahoma Lane community was broken into last Wednesday and several hundred dollars worth of household goods were stolen. The break-in occurred sometime between 11 a. m. and 1:30 last Wednesday. Entrance was gained by prying open the back door. Two or more persons were involved, says Chas. Lovelace, Parmer County sheriff, who investigated the break-in. The thieves carried off a record player, jewelry, a mix-master, an electric percolator, luggage, clothes and silverware. Roberts discovered the burglary when he returned to his home late in the evening. A farm hand had been working around the home all day except during the lunch hour. That is when the break-in must have occurred. The sheriff's department was still investigating the case early this week. . . .

Larry Hicks At Fort Hood

Cadet Larry E. Hicks, 21, son of Mr. and Mrs. James E. Hicks, Friona, Tex., is receiving six weeks of training at the Army Reserve Officer Training Corps summer camp at Fort Hood, Tex. The training is scheduled to be concluded July 29. During this training Cadet Hicks is receiving practical experience and instruction in tactical, technical and administrative subjects, with special emphasis being placed on the duties of a second lieutenant. Hicks is a 1957 graduate of Muleshoe High School and is a student at Hardin-Simmons University in Abilene.

Sam Houston was converted and baptized in Rocky Creek in 1854, 18 years before they built the Old Baptist Church that now stands at Independence, in Central Texas. A monument stone on the bell tower by the church reads, "She sleeps within its sound." Reference is to Mrs. Nancy Lee, mother of Houston's wife. She donated her silver service to be melted into the bell. The tower was erected with stones from the ruins of the original Baylor building. Judge Baylor's hearthstone is said to be included in the tower. I see by the papers where a woman filed suit for divorce because her husband was careless about his appearance; He hadn't shown up in nearly two years.

Three Firemen Attend Annual Fire School

Three members of the Friona Volunteer Fire Department are in College Station this week attending classes of the annual Firemen's Training School.

WILLIAM F. WALKER

Gospel Meetings Set At Lazbuddie Church Of Christ

William F. Walker, evangelist, has been invited by the Lazbuddie Church of Christ to conduct a series of gospel meetings nightly beginning Monday, July 25, through August 3, at the Church of Christ in Lazbuddie.

Bro. Walker is the former minister of the 16th and Pile Street Church of Christ in Clovis. At the present time Bro. Walker is minister of the Tenth and Broad Streets Church of Christ in Wichita Falls, Tex.

You are invited to bring your Bible, your pencil, and note pad, and take notes for further study. Services will begin promptly each evening at 8:30 and each morning at 8:30.

Further information may be obtained on the meeting by contacting the local minister of the church, Glenn H. Anear at YO 5-3132.

Bank Racks-

(Continued from page 1)

Dennis Howell was the winning pitcher and Santos Esquivel the loser.

Saturday two makeup games were played at Bengier Air Park. Downed Coop seven to two while Brookfield and the Bank battled it in a close one with the Drillers winning 9-8.

Travis Graves was the winning pitcher and allowed eight hits, five walks and struck out five men.

Monday night Brookfield again was the winner of a close game in taking Reeve Chevrolet 7-6.

Travis Graves was the winning pitcher and Joe Alemon the loser.

In the second game Monday night Associated Growers downed Star-Hurst 11-8 but the outstanding playing of the Star-Hurst catcher, Tommy Shirley, caught the hearts of the fans with his cutting off three runs at the plate to keep his team in the game.

Make up games will be played Saturday and Sunday of this weekend. This is necessary in order that the All-Star games will not run the schedule of games too late into August, says Earl Smith, director of the summer program.

Saturday Ethridge-Spring Agency will battle Bengier Air Park in the first game at 6 p. m. followed by Associated Growers vs Friona State Bank.

Sunday Friona Motors will play Coop at 2 p. m. followed by Bengier vs Rockwell Bros.

You'll enjoy staying in Glen Rose, as it is a well-known vacation and health resort... famous for its mineral water.

attending classes of the annual Firemen's Training School.

Clyde Fields, fire marshal, David Smith and J. C. Blankenship are the trio representing Friona FD at this year's school.

The city pays for two of the firemen's stay at the school while members of the local insurance agencies send the third man.

The school is a requirement of the State Fire Commission and has an important bearing on the city's key rate as far as insurance is concerned.

The men will return to Friona Saturday.

heart in the car?

We ran across this little item in a column we read each week--Grassroots Opinion--clipped from the Wapakoneta, Ohio, News:

"WAPAKONETA, OHIO, NEWS: Watch those coffee breaks! Population of the U. S. --160,000,000; People over 65, 49,000,000; Balance left to work, 111,000,000; People of school age, 54,000,000; Balance left to work, 55,000,000; People working for government, 29,000,000; Balance left to work, 26,000,000; People in armed forces, 11,000,000; Balance left to work, 15,000,000; People in local Government, 12,800,000; Balance left to work, 2,200,000; Bums, 2,000,000; Balance left to work, 200,000; People in hospitals and asylums, 126,000; Balance left to work, 74,000; People in jail, 73,998; Balance left to work, 2. Just you and me--and I sure wish you would get on the ball and do something because I'm tired of doing all the work."

Obligations Are Two-Way Street

The American businessman of today is fully aware that his responsibilities do not end with the earning of a profit (although without that profit he would not be in a position to carry out any other responsibilities.)

Business willingly accepts its legitimate obligations to the community, to employees, and the nation. It wants to pay its fair share of taxes, to provide good wages and working conditions, to take part in solving the problems of the community, and to keep its plant and its operations a credit to the community.

It is often overlooked, though, that all of the obligations cannot be on the side of business. An obligation performed by business requires something in return. For example, in exchange for good wages and benefits employees are obligated to turn in a good day's work. And business, as a taxpayer, is entitled to fair and equal treatment before all agencies of government--local, state or federal.

Since American business represents all of the people, it is good policy for any government, group, or individual to recognize that obligations are a two-way street.

We all knew Texas was big but we didn't know it was so old until the discovery of the Midland Skull in 1954.

Scientists estimated this human skull, found in a prehistoric water hole, to be over 12,000 years old. This may be the oldest skull ever discovered on earth. If so, it means that human beings lived in the Ice Age with the huge Mammoths.

THURSDAY, JULY 21, 1960

THE FRIONA STAR

SECTION II

MR. AND MRS. CORDIE POTTS announce the engagement and approaching marriage of their daughter, Marilyn, to Dwayne Ridley, son of Mr. and Mrs. Pat Ridley of Portales. The couple plans an August wedding in the Potts home.

Women Study Use Of Leisure

"The Christian's Use of Leisure" was theme of the lesson for members of Kolyvvia Circle of the Methodist Church at a recent meeting in the home of Mrs. U. S. Akens.

Ralph Durstine, Dick Rocky, Wallace Kirby, H. K. Kendrick, Clyde Fields, J. L. Shaffer, R. W. Ginsburg, J. G. McFarland and Tommy Jones.

Mrs. W. E. Ellis, chairman, led the study which was developed by a conversation with Mrs. Joe Moyer and Mrs. Robert Ginsburg. Following the discussion each member gave her idea for use of leisure time. Mrs. Ellis also conducted a business session.

Mrs. Roscoe Ivie left Tuesday for Fort Worth where she will visit her son and family, Mr. and Mrs. Calvin Ivie and children.

Mrs. Lee Spring and daughter, Sylvia Anne, left last week on a month-long trip to England to visit relatives and friends.

Present in addition to those mentioned were Mesdames

Auxiliary Formulates Sale Plans

Groundwork for an annual project was begun at a recent meeting of Parmer County Community Hospital Auxiliary. Mesdames Sloan Osborn and J. G. McFarland were appointed to begin plans for the organization's annual fall rummage sale. Citizens wishing to contribute clean, wearable clothing and house hold items to the sales may call an auxiliary member now if they wish the items picked up before the sales begin.

Members also discussed a plan of operations to be used in case of community disaster. August meeting was suspended and the next session will be September 8. New officers will be installed. They are Mrs. Paul Spring, president; Mrs. Sloan Osborn, vice-president; and Mrs. Roy Clements, secretary. Mrs. H. K. Kendrick was acting president and Mrs. Frank Spring acting secretary at the July meeting.

MR. AND MRS. BILL FERGUSON

Bill Fergusons Living In Friona

At home in Friona following their July 3 wedding are Mr. and Mrs. Bill Ferguson. The former Miss Sue Petchinsky, the bride is the daughter of Mr. and Mrs. Adolph Petchinsky, Shawnee, Okla. Ferguson's parents are Mr. and Mrs. E. F. Ferguson, also of Shawnee.

Rev. B. E. Potter of Assembly of God church read the double ring ceremony in Downtown Pentecostal church in Shawnee. An arch of greenery and palms, complemented by baskets of gladioli tied with white ribbons and a white satin prie dieu, formed the setting. Mrs. Jerry Dayton, organist,

played a prelude of traditional wedding music.

Attendants for the couple were Miss Pat Petchinsky and Allen Petchinsky, cousin and brother of the bride. The maid of honor wore a lime green street-length dress with white accessories and yellow corsage.

Given in marriage by her father, the bride wore a street-length gown of white lace over taffeta designed with bouffant skirt, round neckline bound in white satin and topped with a short sleeved white lace jacket. A pearl crown held her veil of silk illusion on which were scattered seed pearls. She wore lace mitts and carried a bouquet of white carnations tied with satin ribbons.

Home of the bride's parents was the scene of a reception. Covered with a lace cloth, the serving table was centered with a three-tiered wedding cake accented with pink rosebuds and a miniature bridal pair. Pink roses surrounded the crystal punch bowl. House party members were Mesdames Lee Hawkins, Herman Petchinsky, and Ethel Eldredge.

For traveling to Friona, the bride wore a two-piece black and white sharkskin costume with white accessories and flowers from her bridal bouquet.

At Texarkana, Texas, one of the major gateways into the Lone Star State, stands an impressive statue of James Bowie, one of the great men in Texas history.

Reception Planned For Joe Moyers

Friends are invited to a reception honoring Mr. and Mrs. Joe Moyer on their 25th wedding anniversary Sunday. No invitations are being mailed locally.

Hosts for the reception from 2 to 5 p. m. in Friona club house will be Mrs. Moyer's mother, Mrs. Laura Thomas, and Mr. and Mrs. R. C. White, all of Hereford.

TEL Class Meets In White Home

Mrs. Laverne White was hostess to TEL class of First Baptist Church last Tuesday night.

Business session was conducted by Mrs. J. T. Carroll and Mrs. White gave the devotion.

Assisting Mrs. White as hostess were Mesdames J. W. McMahan, Ed Duke, and John Wright. They served refreshments to Mesdames Wesley Hardesty, Spencer Hough, W. H. Sims, George Taylor, Joe Douglas, Grover Goggans, Roy Miller, Vernon Roberts, Ralph Taylor, John Thomas, and Sam Williams.

The Esso Baltimore, Humble Oil and Refining Company's new tanker, is taller than a five-story building and more than two city blocks long.

Myrtle Crow Visits Kin

Mrs. Myrtle Crow returned Friday afternoon after spending ten days visiting her children. She went from here to Fort Worth to visit in the home of Mr. and Mrs. Clyde Crow and Phyllis Jo.

Later the entire group drove to Albia, Iowa, and spent several days in the home of Mr. and Mrs. Charles C. Gray and children, formerly of Friona.

On the return trip the Texans visited Mr. and Mrs. Oran Kelley at Wichita, Kans. Mrs. Kelley is a niece of Mrs. Crow.

At Amarillo they visited Mr. and Mrs. J. B. Crow and children. James, young son of the J. B. Crows, accompanied his grandmother home for a visit.

Miss Elaine Holcomb Given Bridal Shower Thursday

Miss Elaine Holcomb, who became the bride of Jerry White of Midland Saturday, was honored at a shower Thursday morning.

Mrs. Steve Struve's home was scene of the courtesy. Assisting were Mesdames D. L. Carmichael, Lucy Welch, Glen Stevick, Truett Johnson, John Hand, Raymond Fleming, Johnny Hand, M. B. McKinney, and Rene Snead.

Guests were served from a table centered with an arrangement of red and white gladioli, carnations, and snapdragons. Attending and sending gifts

were Mesdames Larry Fairchild, John Hays, David Carson, Hattie Snead, Keith Blackburn, Marvin Mimms, John Burrow and LaVoyce, Otis Neel, James Mabry and Margaret, Bill Wooley, Glenn Taylor, Troy Stewart, Lee Ona Holcomb, Lloyd Widener, Doyle Cummings, James Procter, J. M. Watson, Harold Lillard;

Also Mesdames Nelson Welch and Mikie, Alvin Law, Eugene Boggess and Robbie, Loyd Shackelford, Okey Hinds, Ennis Cummings, Newman Jarrell Sr., Ollie Wilson, Austin White and Patsy, L. R. Hand, J. V. Houser, Orville Houser, Nora Welch, Hardy May, Frankie

Noel Bengers Parents Of Son

Mr. and Mrs. Noel E. Bengert of San Jose, Calif., are parents of a son, Noel Edward Jr., who was born July 11. He weighed 7 pounds and 11 ounces.

Paternal grandparents are Mr. and Mrs. John Bengert of Friona.

Allen, Watson Whaley, L. A. Milligan, John Blackburn, L. W. Loafman;

Also Mesdames Lewis Welch, Ray Dean Fleming, Daisy Miller, W. L. Edelman, Mary Officer, Jim Cocannouer, Ed Boggess, Walter Riethmayer, J. B. Taylor, Eugene Bandy, Ancel Renner, Lloyd Shulk, Glenn Floyd, Roscoe Ivie, Jake Patterson, Anne Wilson and Miss Jonnie Hand.

Baxters Have Get-Together

Out-of-town relatives were guests at a Baxter family get-together in the city park Sunday.

They included Mr. and Mrs. Jack Russell of Elk City, Okla.; Mr. and Mrs. Chester Dewbree of London, Ohio, and Mr. and Mrs. George Marshall and Mr. and Mrs. Bill Daniel of Amarillo. Mrs. Russell and Mrs. Marshall are sisters of Oscar and Jim Baxter while Mrs. Dewbree and Mrs. Daniel are nieces of the local men.

Others attending were Mr. and Mrs. J. W. Baxter, Mr. and Mrs. Billy Dean Baxter and children, Mr. and Mrs. Bill Baxter, Mr. and Mrs. Calvin Martin, Mr. and Mrs. Larry Martin and family, Mr. and Mrs. Clarence Martin and family, Mr. and Mrs. Eugene Nidey and family, Mr. and Mrs. Troy Young and family, and Mr. and Mrs. Sterling Graham and children.

Modern Study Club Has Special Session

Budget and membership business was transacted when Modern Study Club had a call meeting July 12 in Friona club house.

Mrs. Mack Bainum, president, conducted the meeting. Budget

for the coming year was approved. Members also accepted the resignations of three members and voted in two new members. They are Mesdames Henry Lewis and Alton Farr. Mesdames Bainum and Grady Dodd served refreshments to 17 members.

Next regular meeting of the group will be September 6.

LLL CLASS WILL ENTERTAIN HUSBANDS

Husbands will be guests at a social for members of LLL class of First Baptist Church Friday at 8:30 p. m. Home of Mr. and Mrs. Charles Allen will be scene of the get-together.

Reception Planned For Joe Moyers

Friends are invited to a reception honoring Mr. and Mrs. Joe Moyer on their 25th wedding anniversary Sunday. No invitations are being mailed locally.

Hosts for the reception from 2 to 5 p. m. in Friona club house will be Mrs. Moyer's mother, Mrs. Laura Thomas, and Mr. and Mrs. R. C. White, all of Hereford.

TEL Class Meets In White Home

Mrs. Laverne White was hostess to TEL class of First Baptist Church last Tuesday night.

Business session was conducted by Mrs. J. T. Carroll and Mrs. White gave the devotion.

Assisting Mrs. White as hostess were Mesdames J. W. McMahan, Ed Duke, and John Wright. They served refreshments to Mesdames Wesley Hardesty, Spencer Hough, W. H. Sims, George Taylor, Joe Douglas, Grover Goggans, Roy Miller, Vernon Roberts, Ralph Taylor, John Thomas, and Sam Williams.

The Esso Baltimore, Humble Oil and Refining Company's new tanker, is taller than a five-story building and more than two city blocks long.

MR. AND MRS. BILL FERGUSON

Bill Fergusons Living In Friona

At home in Friona following their July 3 wedding are Mr. and Mrs. Bill Ferguson. The former Miss Sue Petchinsky, the bride is the daughter of Mr. and Mrs. Adolph Petchinsky, Shawnee, Okla. Ferguson's parents are Mr. and Mrs. E. F. Ferguson, also of Shawnee.

Rev. B. E. Potter of Assembly of God church read the double ring ceremony in Downtown Pentecostal church in Shawnee. An arch of greenery and palms, complemented by baskets of gladioli tied with white ribbons and a white satin prie dieu, formed the setting. Mrs. Jerry Dayton, organist,

Myrtle Crow Visits Kin

Mrs. Myrtle Crow returned Friday afternoon after spending ten days visiting her children. She went from here to Fort Worth to visit in the home of Mr. and Mrs. Clyde Crow and Phyllis Jo.

Later the entire group drove to Albia, Iowa, and spent several days in the home of Mr. and Mrs. Charles C. Gray and children, formerly of Friona.

On the return trip the Texans visited Mr. and Mrs. Oran Kelley at Wichita, Kans. Mrs. Kelley is a niece of Mrs. Crow.

At Amarillo they visited Mr. and Mrs. J. B. Crow and children. James, young son of the J. B. Crows, accompanied his grandmother home for a visit.

Miss Elaine Holcomb Given Bridal Shower Thursday

Miss Elaine Holcomb, who became the bride of Jerry White of Midland Saturday, was honored at a shower Thursday morning.

Mrs. Steve Struve's home was scene of the courtesy. Assisting were Mesdames D. L. Carmichael, Lucy Welch, Glen Stevick, Truett Johnson, John Hand, Raymond Fleming, Johnny Hand, M. B. McKinney, and Rene Snead.

Guests were served from a table centered with an arrangement of red and white gladioli, carnations, and snapdragons. Attending and sending gifts

were Mesdames Larry Fairchild, John Hays, David Carson, Hattie Snead, Keith Blackburn, Marvin Mimms, John Burrow and LaVoyce, Otis Neel, James Mabry and Margaret, Bill Wooley, Glenn Taylor, Troy Stewart, Lee Ona Holcomb, Lloyd Widener, Doyle Cummings, James Procter, J. M. Watson, Harold Lillard;

Also Mesdames Nelson Welch and Mikie, Alvin Law, Eugene Boggess and Robbie, Loyd Shackelford, Okey Hinds, Ennis Cummings, Newman Jarrell Sr., Ollie Wilson, Austin White and Patsy, L. R. Hand, J. V. Houser, Orville Houser, Nora Welch, Hardy May, Frankie

Noel Bengers Parents Of Son

Mr. and Mrs. Noel E. Bengers of San Jose, Calif., are parents of a son, Noel Edward Jr., who was born July 11. He weighed 7 pounds and 11 ounces.

Paternal grandparents are Mr. and Mrs. John Bengers of Friona.

Allen, Watson Whaley, L. A. Milligan, John Blackburn, L. W. Loafman;

Also Mesdames Lewis Welch, Ray Dean Fleming, Daisy Miller, W. L. Edelman, Mary Officer, Jim Cocannouer, Ed Boggess, Walter Riethmayer, J. B. Taylor, Eugene Bandy, Ancel Renner, Lloyd Shuk, Glenn Floyd, Roscoe Ivie, Jake Patterson, Anne Wilson and Miss Jonnie Hand.

Baxters Have Get-Together

Out-of-town relatives were guests at a Baxter family get-together in the city park Sunday.

They included Mr. and Mrs. Jack Russell of Elk City, Okla.; Mr. and Mrs. Chester Dewbree of London, Ohio, and Mr. and Mrs. George Marshall and Mr. and Mrs. Bill Daniel of Amarillo. Mrs. Russell and Mrs. Marshall are sisters of Oscar and Jim Baxter while Mrs. Dewbree and Mrs. Daniel are nieces of the local men.

Others attending were Mr. and Mrs. J. W. Baxter, Mr. and Mrs. Billy Dean Baxter and children, Mr. and Mrs. Bill Baxter, Mr. and Mrs. Calvin Martin, Mr. and Mrs. Larry Martin and family, Mr. and Mrs. Clarence Martin and family, Mr. and Mrs. Eugene Nidey and family, Mr. and Mrs. Troy Young and family, and Mr. and Mrs. Sterling Graham and children.

Modern Study Club Has Special Session

Budget and membership business was transacted when Modern Study Club had a call meeting July 12 in Friona club house.

Mrs. Mack Balmum, president, conducted the meeting. Budget

for the coming year was approved. Members also accepted the resignations of three members and voted in two new members. They are Mesdames Henry Lewis and Alton Farr.

Mesdames Balmum and Grady Dodd served refreshments to 17 members.

Next regular meeting of the group will be September 6.

LLL CLASS WILL ENTERTAIN HUSBANDS

Husbands will be guests at a social for members of LLL class of First Baptist Church Friday at 8:30 p. m. Home of Mr. and Mrs. Charles Allen will be scene of the get-together.

WILLIAM F. WALKER

Gospel Meetings Set At Lazbuddie Church Of Christ

William F. Walker, evangelist, has been invited by the Lazbuddie Church of Christ to conduct a series of gospel meetings nightly beginning Monday, July 25, through August 3, at the Church of Christ in Lazbuddie.

Bro. Walker is the former minister of the 16th and Pike Street Church of Christ in Clovis. At the present time Bro. Walker is minister of the Tenth and Broad Streets Church of Christ in Wichita Falls, Tex.

You are invited to bring your Bible, your pencil, and note pad, and take notes for further study. Services will begin promptly each evening at 8:30 and each morning at 8:30.

Further information may be obtained on the meeting by contacting the local minister of the church, Glenn H. Annear at YO 5-3132.

Bank Racks-

(Continued from page 1)

Dennis Howell was the winning pitcher and Santos Esquivel the loser.

Saturday two makeup games were played and Benger Air Park downed Coop seven to two while Brookfield and the Bank battled it in a close one with the Drillers winning 9-8.

Travis Graves was the winning pitcher and allowed eight hits, five walks and struck out five men.

Monday night Brookfield again was the winner of a close game in taking Reeve Chevrolet 7-6.

Travis Graves was the winning pitcher and Joe Alemon the loser.

In the second game Monday night Associated Growers downed Star-Hurst 11-8 but the outstanding playing of the Star-Hurst catcher, Tommy Sherley, caught the hearts of the fans with his cutting off three runs at the plate to keep his team in the game.

Make up games will be played Saturday and Sunday of this weekend. This is necessary in order that the All-Star games will not run the schedule of games too late into August, says Earl Smith, director of the summer program.

Saturday Ethridge-Spring Agency will battle Benger Air Park in the first game at 6 p. m. followed by Associated Growers vs Priona State Bank. Sunday Priona Motors will play Coop at 2 p. m. followed by Benger vs Rockwell Bros.

You'll enjoy staying in Glen Rose, as it is a well-known vacation and health resort... famous for its mineral water.

attending classes of the annual Firemen's Training School.

Clyde Flaids, fire marshal, David Smith and J. C. Blankenship are the trio representing Priona FD at this year's school.

The city pays for two of the firemen's stay at the school while members of the local insurance agencies send the third man.

The school is a requirement of the State Fire Commission and has an important bearing on the city's key rate as far as insurance is concerned.

The men will return to Priona Saturday.

"WAPAKONETA, OHIO, NEWS: Watch those coffee breaks! Population of the U. S. --160,000,000; People over 65, 49,000,000; Balance left to work, 111,000,000; People of school age, 56,000,000; Balance left to work, 55,000,000; People working for government, 29,000,000; Balance left to work, 26,000,000; People in armed forces, 11,000,000; Balance left to work, 15,000,000; People in local Government, 12,800,000; Balance left to work, 2,200,000; Bums, 2,000,000; Balance left to work, 200,000; People in hospitals and asylums, 126,000; Balance left to work, 74,000; People in jail, 73,998; Balance left to work, 2. Just you and me--and I sure wish you would get on the ball and do something because I'm tired of doing all the work."

Obligations Are Two-Way Street

The American businessman of today is fully aware that his responsibilities do not end with the earning of a profit (although without that profit he would not be in a position to carry out any other responsibilities.)

Business willingly accepts its legitimate obligations to the community, to employees, and the nation. It wants to pay its fair share of taxes, to provide good wages and working conditions, to take part in solving the problems of the community, and to keep its plant and its operations a credit to the community.

It is often overlooked, though, that all of the obligations cannot be on the side of business. An obligation performed by business requires something in return. For example, in exchange for good wages and benefits employees are obligated to turn in a good day's work. And business, as a taxpayer, is entitled to fair and equal treatment before all agencies of government—local, state or federal.

Since American business represents all of the people, it is good policy for any government, group, or individual to recognize that obligations are a two-way street.

We all knew Texas was big but we didn't know it was so old until the discovery of the Midland Skull in 1954.

Scientists estimated this human skull, found in a prehistoric water hole, to be over 12,000 years old. This may be the oldest skull ever discovered on earth. If so, it means that human beings lived in the Ice Age with the huge Mammoths.

MR. AND MRS. CORDIE POTTS announce the engagement and approaching marriage of their daughter, Marilyn, to Dwayne Ridley, son of Mr. and Mrs. Pat Ridley of Portales. The couple plans an August wedding in the Potts home.

Women Study Use Of Leisure

"The Christian's Use of Leisure" was theme of the lesson for members of the Kolwyla Circle of the Methodist Church at a recent meeting in the home of Mrs. U. S. Akens.

Ralph Durstine, Dick Rocky, Wallace Kirby, H. K. Kendrick, Clyde Fields, J. L. Shaffer, R. W. Ginsburg, J. G. McFarland and Tommy Jones.

Mrs. W. E. Ellis, chairman, led the study which was developed by a conversation with Mrs. Joe Moyer and Mrs. Robert Ginsburg. Following the discussion each member gave her idea for use of leisure time. Mrs. Ellis also conducted a business session.

Mrs. Roscoe Ivie left Tuesday for Fort Worth where she will visit her son and family, Mr. and Mrs. Calvin Ivie and children.

Mrs. Lee Spring and daughter, Sylvia Anne, left last week on a month-long trip to England to visit relatives and friends.

Auxiliary Formulates Sale Plans

Groundwork for an annual project was begun at a recent meeting of Parmer County Community Hospital Auxiliary. Mesdames Sloan Osborn and J. G. McFarland were appointed to begin plans for the organization's annual fall rummage sale. Citizens wishing to contribute clean, wearable clothing and house hold items to the sales may call an auxiliary member now if they wish the items picked up before the sales begin.

Members also discussed a plan of operations to be used in case of community disaster. August meeting was suspended and the next session will be September 8. New officers will be installed. They are Mrs. Paul Spring, president; Mrs. Sloan Osborn, vice-president; and Mrs. Roy Clements, secretary. Mrs. H. K. Kendrick was acting president and Mrs. Frank Spring acting secretary at the July meeting.

Reception Planned For Joe Moyers

Friends are invited to a reception honoring Mr. and Mrs. Joe Moyer on their 25th wedding anniversary Sunday. No invitations are being mailed locally.

Hosts for the reception from 2 to 5 p. m. in Friona club house will be Mrs. Moyer's mother, Mrs. Laura Thomas, and Mr. and Mrs. R. C. White, all of Hereford.

MR. AND MRS. BILL FERGUSON

Bill Fergusons Living In Friona

At home in Friona following their July 3 wedding are Mr. and Mrs. Bill Ferguson. The former Miss Sue Petchinsky, the bride is the daughter of Mr. and Mrs. Adolph Petchinsky, Shawnee, Okla.

Ferguson's parents are Mr. and Mrs. E. F. Ferguson, also of Shawnee.

Rev. B. E. Potter of Assembly of God church read the double ring ceremony in Downtown Pentecostal church in Shawnee. An arch of greenery and palms, complemented by baskets of gladioli tied with white ribbons and a white satin prie dieu, formed the setting. Mrs. Jerry Dayton, organist,

played a prelude of traditional wedding music.

Attendants for the couple were Miss Pat Petchinsky and Allen Petchinsky, cousin and brother of the bride. The maid of honor wore a lime green street-length dress with white accessories and yellow corsage.

Given in marriage by her father, the bride wore a street-length gown of white lace over taffeta designed with bouffant skirt, round neckline bound in white satin and topped with a short sleeved white lace jacket. A pearl crown held her veil of silk illusion on which were scattered seed pearls. She wore lace mitts and carried a bouquet of white carnations tied with satin ribbons.

Home of the bride's parents was the scene of a reception. Covered with a lace cloth, the serving table was centered with a three-tiered wedding cake accented with pink rosebuds and a miniature bridal pair. Pink roses surrounded the crystal punch bowl. House party members were Mesdames Lee Hawkins, Herman Petchinsky, and Ethel Eldredge.

For traveling to Friona, the bride wore a two-piece black and white sharkskin costume with white accessories and flowers from her bridal bouquet.

At Texarkana, Texas, one of the major gateways into the Lone Star State, stands an impressive statue of James Bowie, one of the great men in Texas history.

Myrtle Crow Visits Kin

FRIONA

THE HIGH PLAINS FARM AND HOME

Potatoes Are Rolling But Market Is Erratic

SACKS OF POTATOES line this field as the 1960 vegetable harvest gets under way in Farmer County. The potatoes are first plowed up by a machine, then picked up and put into sacks by hand. They are then hauled off to potato sheds for processing and shipped off to market.

Potatoes began to roll in the Farmer County area early last week, but by the latter part of the week and the first of this one, a sliding market and the weather brought things to a slow pace.

The yields this year are about average, according to Kenneth Neill of Friona Growers and Shippers and Buck Gregory of Gregory Produce at Lariat. Yields are running about 175 sacks per acre in the Friona area and 150 sacks at Lariat.

The market started off at \$6 per sack last Monday, but had dropped to \$4.25 on Friday. "When the market starts sliding, no one is buying," Gregory points out. "No one wants to buy potatoes today when they might be cheaper tomorrow," he says.

Gregory has 210 acres of potatoes at Lariat and on Friday of last week he had 90 acres dug. His potato shed was operating at a slow pace, as he was waiting to see what this week would bring in the way of a market.

There are 375 acres of potatoes in the Friona area and Neill said late last week that, "We're just getting under way."

No one could say for sure just what this harvest would bring. The yield was fair but the market was uncertain.

Not since 1956 have potato producers had a good year in this area. That year both the yield and market were high. The market price was low in 1957 and 1958 and last year hail destroyed much of the crop.

Best 4-H Swine May Win \$400 Scholarship

The 4-H girl or boy who has the best swine project in the state this year will visit one of the major livestock marketing centers in the nation as a delegate to the 1960 National 4-H Club Congress.

The all-expense trip to Chicago is the top state award in the 4-H swine program given by the Moorman Mfg. Co., of Quincy, Illinois. The state winner will be eligible to enter his 4-H record book in national competition for one of six \$400 college scholarships also provided by Moorman.

The swine program brings to 4-H members latest methods in breeding, raising and marketing hogs. Better ways to feed, house and care for the animals are explained by the local volunteer club leaders and the county extension agents. The value of sanitation, selection of breed, and keeping cost records are emphasized in this specialized program. Information regarding current research in pork production is made available to the 4-H'ers through the state land-grant college and the U. S. Department of Agriculture.

Nearly 178,000 club members had a swine project last year, an increase of 13,000 over 1958 according to the National 4-H Service Committee which arranged the program and awards in cooperation with the Extension Service.

To be eligible for a state or national award, the 4-H'er must be between 14 and 21 years of age, and have satisfactorily completed a minimum of three years in club work.

SHOWING OFF SOME OF THE BIG POTATOES produced in the Lariat area are these two young boys, who were in the field last week following their parents along the potato rows. While not being too concerned about the uncertain market for the spuds, they do know that these are good ones and they will make fine eating.

WITH THE COUNTY AGENT

JOE JONES

Boys 4-H Camp will be August 1, 2, 3, and 4 in Holy Ghost Canyon near Pecos, N. M. Camp fees are to be in my office July 27. We need more leaders to go along; so if anyone can make it, step up and volunteer. All leaders and boys pay a \$7.00 camp fee.

Those of you who are interested in seeing results of various chemicals on field bindweed can check the demonstration plots 3/4 miles east of Farwell on Highway 84. Six different chemicals were used and each plot is marked showing the chemical used. The plots are two square rods each, and the chemicals were applied July 14. Several of the chemicals require rain to dissolve them so they can go into the soil and do the job. Check these plots between now and winter to see results of various chemicals.

Cotton as a whole looks sick, but a few observations can be made from this year's experience that may be helpful in years ahead. Conclusions that can be drawn after looking at cotton over the county are that some varieties are much more susceptible to disease than others, and as a whole, cotton on land that was not in cotton in 1959 does not have disease as severe as cotton following cotton. The effect of cotton following cotton shows up more where the variety is one very susceptible to disease. Plans for preparing a place for your 1961 crop should be made early so you can use land that was in wheat this past year or get ready to apply nitrogen fertilizer and turn grain sorghum stubble under this fall while it is still green and will decompose. The way diseases are showing up this year it looks as if we will have to follow all known practices that will help prevent such diseases in future cotton crops. Rotation of cotton ground, planting disease-resistant varieties, and planted seed in a warmer soil will go a long way toward lowering our disease troubles. Soil testing furnishes a guide

County 4-H Camp To Be August 1-4

Boys from Farmer County's 4-H clubs will leave August 1 for Holy Ghost Canyon near Pecos, N. M., to attend the annual county 4-H camp.

The four-day outing will be open to all boys who have had a project during the last year or have an active project now, have completed tractor maintenance course, or have been a member of a demonstration team that competed in county, district or state contests.

Camp fee, which is \$7.00 for all boys and adult leaders attending, should be in by Wednesday, July 27, says Joe Jones, Farmer County Agent.

From 40 to 60 boys will probably attend the camp. So far there haven't been enough adult leaders say they will attend, and Jones has issued a plea to dads of some of the boys to go on the trip.

"We also need tents, tarps, at least one truck and four or five pickups," Jones says.

The camp will be four days of fun and work for the boys. Recreational activities will include swimming, horseback riding, fishing, hiking and camping out.

The boys need to take their

"Checker" System Used For Leveling

The grand old game of checkers isn't just something for irrigation farmers to play when the weather's bad, a Texas Tech economist reports.

Those same farmers can "play" it scientifically with maps of their fields and make it pay off in dollars and cents, Dr. Ray Billingsley says.

The Tech economist has adapted a mathematical technique resembling a "checkerboard" pattern for land leveling, a practice that assures an even stand of crop, improved yield, and water savings when a field is irrigated. His study was conducted in cooperation with the Texas Agricultural Experiment Station.

No field is exactly level. All have low spots and high spots. When such a field is irrigated, the low spots are watered too much and the high spots not enough, reducing the yield and wasting water.

With Dr. Billingsley's system, a farmer can tell exactly how cuts and fills can be made most efficiently and exactly how much they will cost.

Billingsley's plan begins with a land grading survey by engineers, showing the bumps and dips on a topographic map. The map is laid out into a "checker board" of 100-foot squares.

Utilizing this technique, the "least-cost" procedure of moving dirt from the "cut" blocks can be systematically selected.

Some squares will have a plus amount of dirt, others a minus amount. Once the plus values and minus values are marked on the checkerboard, the farmer can move the nearest plus-squares into the nearest equivalent minus squares.

This figuring, done in advance provides for the systematic moving of dirt the shortest possible distance. By knowing exactly how much dirt must be moved and exactly how far it must be moved, the exact cost can be determined.

Details of Dr. Billingsley's plan can be obtained in Bulletin MP-408, published by the Texas Agricultural Experiment Station.

own bed rolls, eating utensils, toilet articles, rain coat, at least one change of clothes, three pairs of clean socks, and a swimming suit, Jones says. He also says that tents and tarps will help out as well as cots to keep the boys from having to sleep on the wet ground.

Trucks will pick up boys making the trip in front of the Friona School and at Clay's Corner at 7:30 a. m. August 1. The trucks will then go to the court house in Farwell to pick up the remainder of the campers.

The boys will be returned to the same locations about 5 o'clock August 4.

Rains Help Fill Recharge Lake

Recent rains, which totaled 12 inches, filled the recharge lake at the High Plains Research Foundation with an estimated 110 acre-feet of water. Recharge of the well was started the night of July 4 and has been recharging at the approximate rate of 850 gallons per minute since that time.

During the eleven day period ending the night of Friday, July 15, a total of 43.5 acre-feet of water has been recharged. The well is pumped for one hour every 24 hours and is surged 3 times at 15 minute intervals during this hour to clean as much as possible any silt which may be caught in the underground formation.

A filter system installed before the rains to study methods of removing sediment from the water has been of little value. The water level in the lake raised to more than 3 feet over the top of the filter.

After the water had been in the lake 8 days, a form of marine life commonly called "desert shrimp" increased to such numbers that they interfered with recharging by clogging the screens. This requires the screens every 4 to 6 hours since the screens will become completely clogged within this time.

Advise Safeguards For Out-Of-State Selling Of Spuds

Safeguards in selling potatoes and other produce across state lines were listed today by Joe Jones, county agent, as harvesting in the area gets into full swing.

1. Get the PACA license and truck license numbers of your buyer.
2. Confirm every sale in writing.
3. List details of agreement such as price, quality, quantity and such.
4. Make sure labels on containers are accurate.
5. Deliver the produce in accordance with the terms of your sale.

"When you use these safeguards, you take much of the risk out of losses from non-payment and rejections without cause and permit the Department of Agriculture to handle any disputes more effectively," Jones said.

Complaints about unfair marketing practices are handled without cost by the Regulatory Branch, Fruit and Vegetable Division, AMS, 300 West Vickery St., Fort Worth 4, Texas.

July 24-30 Named Farm Safety Week

Farm accidents claim about 3,500 lives each year, more than any other industry. Some 11,000 farm residents die each year in all types of accidents, and another million suffer accidental injuries.

To direct attention to this appalling problem, President Eisenhower has designated the week of July 24-30 as "National Farm Safety Week." In Texas, Governor Daniel has proclaimed the period "Farm Safety Week in Texas." The Texas Farm and Ranch Safety Council, together with the Texas Safety Association, Texas Agricultural Extension Service and the Texas Farm Bureau, is pushing a farm safety education program during the week.

Theme of the observance is "Enjoy Farm Life—Practice Safety." Objective of the educational effort is to curb the soaring farm accident problem which hits one farm family in four each year.

Texas is among the top ten states in the nation in accident rates associated with drownings, firearms, burns and electricity. The major cause of accidents across the nation is machinery, which accounts for about 35 per cent of all accidents, followed by drownings, firearms, falls, blows, animals, burns, electricity and lightning. In his proclamation designating National Farm Safety Week, the President noted that accidents "substantially reduce the productive capacity of our farming industry." Governor

Farmers Union Camp Slated For Weekend

Representatives from counties all over the state of Texas will convene this Friday, July 22nd, at Methodist Camp, Butman Canyon, Southwest of Merkel, Texas, for the annual Texas Farmers Union 1960 two day Summer Camp.

The annual Summer Camp is one of the highlights of Texas Farmers Union activities each year.

"Not only the youthful members, but their seniors, are eagerly anticipating this event since it gives them an opportunity to not only learn more about their organization's educational program but also affords them an opportunity to relax and enjoy good fellowship in the midst of a fine recreational atmosphere," says Alex Dickie, Jr., president, Texas Farmers Union.

Wheat Production Tops Four Million Bushels

When the wheat harvest is finally completed this year, Farmer County farmers will have produced nearly four and one-quarter million bushels. A check with nearly all of the elevators in the county this week revealed that the four-million figure had already been surpassed and there was still some wheat yet to be cut.

With continued rains over the area, farmers who hadn't gotten into their fields before the first of July, still haven't been able to cut their wheat. However, only a few patches remain to be cut.

Farmer County had 96,000 acres planted in wheat this year, 83,900 of which was irrigated. The irrigated wheat averaged out at about 45 bushels per acre and the dryland crop on the whole was much better than it has been in several years. The wheat appeared to be

a little better in the northeast part of the county than it was elsewhere, but it was considered a good year every where. This year's county total will top last year's by almost a million bushels. Last year was considered a good year, but wide-spread hail kept the total down.

Elevator men generally hailed this year's crop as one of the best in a long while. Here's a rundown of comments from the men who handled the wheat in the elevators:

TRI-COUNTY ELEVATOR at Black--J. R. "Pete" Braxton says, "In the 16 years I've been in the grain business here, I've never seen a crop to equal this one. A lot of fields in our community averaged better than 50 bushels per acre."

BLACK GRAIN COMPANY--D. C. McWhirter says the Black area didn't have any hail this

year and a lot of the irrigated wheat yielded more than 60 bushels per acre. There wasn't much dry land wheat in the area but what there was made more than it has in a long time.

HUB GRAIN COMPANY--Weldon Stringer says that he received about one-third more wheat this year than last. Irrigated yields were good and there wasn't much dryland wheat. J. V. Boulding, who farms four miles east of Hub, had one field that averaged 71 bushels per acre.

FRIONA WHEAT GROWERS--The elevator handled about 300,000 more bushels this year than last. All dryland wheat was better than it has been in several years and most of the irrigated wheat in the area was better.

LONE STAR ELEVATOR, Farwell--"Irrigated wheat averaged about 45 bushels per acre," says Bill Dollar, manager. "The quality was good. Most of it weighed better than 60 pounds."

WORLEY GRAIN, Farwell--Herb Potts says the average yield was about 45 bushels per acre, better than last year's. "It was high in protein and better quality," he says. There was very little dryland.

SHERLEY-ANDERSON-PITMAN, INC., Farwell--"The quality was good and most of it tested 60 pounds or better,"

says Johnie Williams. "It was a nice harvest, better than last year," he adds.

SHERLEY-ANDERSON GRAIN CO., Lariat--"The wheat averaged better than last year," says Asa Smith, manager. "Much of it made better than 50 bushels per acre."

LARIAT ELEVATOR CO.--Boone Allison, manager, says, "We had some good wheat this year. Most of it averaged in the 40's." The harvest as a whole was about average, he says.

GOLDEN WEST SEED CO., Texico--Pat Patrick says that average yields this year were about the same as last year. "Some of it wasn't as good as last year," he says, and the overall average was from 35 to 40 bushels per acre.

BOVINA WHEAT GROWERS--T. J. Parkey says, "Can't tell just how the yields will compare because rain has halted the harvest." Combines are cranking up again in the area and the elevator expects to handle "quite a bit more."

SHERLEY GRAIN COMPANY, Bovina--Joe Moore, office manager, says it was a good year. "Yields were high and quality was good." He estimated that there was still about five per cent of the crop out.

MACON ELEVATOR--"The yield was a little above average and the grade was also better," says J. P. Macon, owner.

H. D. AGENT'S CORNER

WASHING BLANKETS -- ELECTRIC AND OTHERWISE

What about electric blankets. Can they be washed or should they be dry cleaned? That's a question many homemakers are asking now. Here's the latest information on the subject from extension home management specialists of Texas A & M College System.

Wash -- do not dry clean electric blankets. Dry cleaning fluids may injure the wiring system. Try this non-agitated or soak method which has been developed to minimize shrinkage of washable woolsens:

- Plan to wash only one full-sized blanket at one time. Use your usual detergent. (When soap is used in hard water, be sure wash and rinse water are softened.)
- Pre-treat soiled blanket bindings by dampening and rubbing in a thick mixture made from water and the detergent to be used in washing the blanket. A cellulose sponge or soft brush is convenient for this.

- Fill the washer with warm water at proper temperature--between 90 degrees and 100 degrees (lukewarm). Add one cup of soap or detergent. Run washer for a minute or two to make suds. STOP WASHER AND REMOVE AGITATOR.
- Place blanket in the tub. Allow to soak for 10 minutes and spin out water for 2 minutes. Fill for rinse. Rinse water should be the same temperature as the wash water. Agitate for one minute. Spin out water for 2 minutes.

Blankets may be dried in either of the following ways:

- In the dryer. Preheat dryer for 5 minutes with 5 or 6 large bath towels. Mix hot towels into blanket, place in the dryer, and dry for 15 to 18 minutes at high heat. Remove blanket while still damp--never allow to dry completely. Stretch and pull blanket vigorously while still damp. Brush well with a nylon hair brush or a pet brush (steel bristles set in rubber). If the blanket does not feel completely dry after brushing, hang over a rack or across a line to complete drying. Press bindings with a warm iron.
- On the line. Cover lines with a folded sheet to reduce line mark on blanket. Hang the blanket over two parallel clotheslines. When partially dry, treat same as blanket just taken from the dryer, above.

Store blankets in airtight boxes or plastic bags. Do not place moth-proofing chemicals in the electric blanket storage box or bag, as the chemicals may damage the insulated wiring.

MAKE THE MOST OF FABRIC SALES

Sales at fabric counters everywhere offer a tempting array of fabrics for late summer. To make the most of lovely fabrics, and to assure a dress

that suits you and fits well, take time to choose your pattern carefully. . . . Nena Robertson, extension clothing specialist of Texas A & M College, says taking time to determine pattern type and size best suited to you, will save time later by cutting down on alteration needs. And less handling and fewer fitting problems will help you turn out more professional looking garments.

"CHOOSE YOUR PATTERNS WISELY," a leaflet written by the clothing specialists, gives a standard measurement chart for patterns. Also included are suggestions for selecting pattern styles for different figure types.

You can get a copy of the leaflet from your County Home Demonstration Agent's office. BRIEFS FOR FOOD SHOPPERS

(Mrs. Gwendolyn Clyatt, Specialist Consumer Marketing Information, Agricultural Extension Service, Texas A & M College)

Fryers are popular warm weather menu items. The number of birds available this month is expected to be larger than a year ago. Egg prices remain at very attractive levels. Currently, the large size is the better buy for economy.

Prices remain about the same for red meats. The longer cooking cuts offer the better value now while hot weather demand is for steaks and other quick cooking meats. Look for attractive prices on chuck roast, ribs, stew meats and ground beef. Variety meats - liver, tongue, heart - are also good values.

Watermelons and peaches will take first place among the fruits this month as both are in big supply. Quality is excellent, in fact, the flavor of both is superb, making them a true bargain at present prices.

Most vegetable counters display a variety of peas - namely Blackeye, crowder, purple hull and cream peas. Sweet corn, both white and yellow varieties are in plentiful supply. Tomatoes are increasing in supply and carry moderate to low price tags.

We think the fact that 55.7 per cent of the 1959 farm cash receipts came from sale of livestock and products therefrom which have no government supports (except sheep, sales of which were 1% of the total) should help us understand why all farm people don't have the same attitude toward farm programs as we do here in this area.

"If you criticize the wealthy these days, you may be accused of being anti-labor." --Harold Coffin.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Your directors in the meeting a week ago, discussed the organization of a women's committee for the local Farm Bureau. They felt that the ladies could do some things real well that the men can hardly get themselves to do at all. One of the projects, which we think would be very much worthwhile and of great interest is a Young People's Talk Meet for young folks from 17 to 30.

The State Farm Bureau is providing \$250 for the winner who will attend the National Convention in Denver this December. If any of you ladies are interested in organizing such a ladies auxiliary and working on some of these things, let any director or this office know. You will be given every assistance and cooperation you may need. The men want you.

Norman Thomas, Socialist presidential aspirant for the past several years, wrote this in The Socialist Call, dated Spring, 1960: "It is quite true that numerically most of the immediate demands in Socialist Platforms going back to Gene Deb's first platform in 1960 have been carried out somehow. (I like to say that the differences between the Republicans and Democrats is that the Democrats carried them out rather cheerfully and the Republicans reluctantly, to which I ought to add that, in effect, even the Democrats carried out some of our proposals on a stretcher)"

We think the above is food for serious thought by every American.

And Carroll P. Streeter, editor of Farm Journal wrote the following: "It may surprise you to know that less than one-fourth of agricultural produce gets so much as one red cent of Government subsidy. In the 27 years that the Government has been in the farm-program business, it has supported prices for only 45 of the 256 farm commodities produced in this country. Right now, only 21 are being supported."

TALLER THAN WINDMILLS?--In this picture the weed in the foreground looks much taller than the windmill in the rear. They aren't really that tall, but throughout the area the weeds have reached gigantic heights and have become a real menace to the farmer.

Weeds Grow High

"Why, oh why did the Good Lord ever make the weed anyway?" lamented a woman one day as she toiled under the bright, hot sun in her garden. "I don't know," chimed in a little neighbor boy, "unless it would be to make lazy women work."

This conversation actually did take place on the Plains a few years ago.

There may not always be a witty young man around to add humor to such a situation, but the weeds on the Plains this year are as troublesome as ever.

Controlling the weeds was one of the big tasks facing area farmers this week, and the quantity and size of this unwanted vegetation was something to lament about. Stimulated by recent rains, the weeds have reached gigantic heights throughout the cotton and grain sorghum fields.

This year's Maize crop is

the best it has been in many years, but it is having to take a back seat to the weeds. In many fields the weeds tower high over the two-foot stands of feed.

Since the rains, farmers all over the country have been making good use of the hoe to rid the cotton fields of weeds. Also, it has been a race to get over the fields of maize with a cultivator before the crop gets too high.

A cultivator can help to get the weeds between the rows, but in the rows themselves the only way to get some of the big ones is by hand and with a hoe. The weeds are a problem everywhere.

"They're as bad as I've ever seen them," said one farmer early this week.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

A new product that will probably be on the market within the next few years will speed up garden and flower growing a great deal. One of the pioneers in the plastic field, we understand, are experimenting with a spray that can be used in gardens, flower beds and even fields.

This spray serves as protection against cold until seeds germinate and plants come through the ground. All that will be needed to dissolve this spray is one half inch of water. From where we sit the arrangement looks like it will be wonderful, but, then there is the problem in West Texas of getting unexpected moisture. Maybe the spray will be inexpensive then we can spray after each rain until we are ready for dissolution.

For a one dish meal that requires no pre-cooking, try this

Seven Layer Casserole
1 cup uncooked rice
1 cup canned whole kernel corn, drained
sprinkle of salt and pepper
1 8 oz. can tomato sauce plus 1/2 can water
1 8 oz. can tomato sauce plus 1/4 can water
1/2 cup each finely chopped onion and green pepper
3/4 lb. uncooked ground beef
4 strips bacon

Place rice in bottom of baking dish. Add corn and 1 can tomato sauce and 1/2 can water. Next add onion and green pepper. Cover with layer of ground beef and top with second can of tomato sauce and 1/4 can water. Cover meat with 4 strips bacon.

Bake in 350 degree in dish with tight fitting lid about 1 hour. Then uncover and bake 30 minutes longer, until bacon is crisped.

Accidents to farm residents cost the nation 1-1/4 billion dollars each year, the National Safety Council reports. Counting the 20 million farm residents, the 10 million people in related industries and the six million farm suppliers, a sizable chunk of the population suffer from farm accidents.

Rural Accidents Total 4 In June

The Highway Patrol investigated four rural traffic accidents in Parmer County during June, according to Sgt. Roger W. Sosebee, patrol supervisor of this area.

There were no personal injuries or fatalities in the accidents, but property damage totaled \$2,475 from the four accidents.

Sgt. Sosebee points out that this brings the property damage total for the year in this county to \$54,430. There have been three persons killed and 12 injured in the accidents. This compares with one killed, 15 injured, and property damage of \$16,460 during the first six months of 1959.

"Prior to July 1 there had been a total of 784 fatal accidents in Texas," Sgt. Sosebee says. "From these accidents, 962 persons have died needlessly," he adds.

During the summer months thousands of motorists are on the highways, and too many of them are intent on cramming as much activity as they can into one brief vacation, and the result is often tragedy.

In appealing for increased vigilance to cut down accidents,

the sergeant cautions vacationers to be on their guard against speeders, drinking drivers, and drivers who disregard traffic laws. Above all, he warned them to make sure they are not guilty of such offenses themselves.

Many vacationers get into trouble by not allowing enough time to cover the trip comfortably, the sergeant points out. Then they try to make up time by driving too fast for conditions, by driving too far, or by disregarding traffic laws.

The Agricultural Extension Service has released a Cotton Defoliation Guide, L-145. Author Fred C. Elliott, cotton work specialist, lists the materials which may be used currently under latest FDA rulings. Ask the local county agent for a copy.

Theme of the 17th annual National Farm Safety Week is "Enjoy Farm Life--Practice Safety."

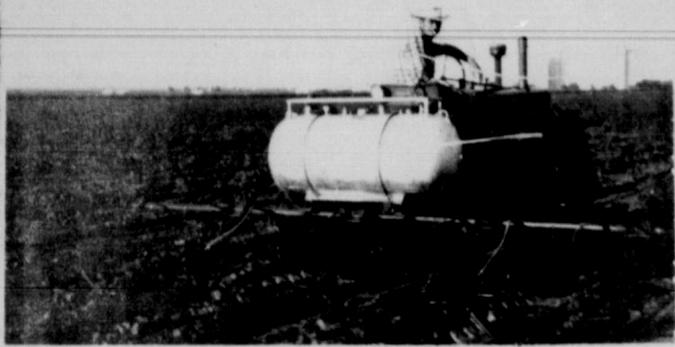

WEEDS OR MAIZE?--That's a good question in this field, where in some places the weeds are thicker and higher than the feed. The large amounts of moisture in recent weeks have helped the feed but they have also been a stimulus to the weeds. Throughout the High Plains this week, the fight was on as farmers tried to control this unwanted vegetation.

Rains from now through August will almost certainly see cotton losses from root rot on the increase, says Dr. Harlan E. Smith, extension plant pathologist. He says moisture plus the carryover from last year of the soil borne disease and late planted cotton will be contributing causes to the increase. He advises cotton growers to begin their plans now for next year's control program.

DEEP-PLOW AS SOON AS POSSIBLE root rot infested land on which cotton will be planted in 1961. That advice comes from Dr. Harlan Smith, extension plant pathologist. He says deepplowing is the most effective practice for reducing root rot losses and the plowing is most effective when hot, dry weather for two weeks follows the plowing job. Break the land 10 to 14 inches or deeper if possible, he says.

FLAME CULTIVATION--A new way to cultivate in this area, with flame instead of plows, is being demonstrated by Jerry Strawn on a farm near Bovina. Object of the Gotcher flame cultivator is to create, temporarily, a temperature high enough to dehydrate or rupture plant cells which will result in the death of obnoxious vegetation without injury to older and harder cultivated crops. Strawn is operating the new cultivator commercially. They are sold by Charles Oil Co. in Bovina.

have buds at their joints which produce new plants. They make the plant a perennial and make it very difficult to eradicate. Tillage depletes Johnson grass stands to the extent that seedling and sprouts are uprooted regularly and rootstocks are destroyed. Sharp tools set at the proper depth and operated to overlap are needed to uproot all Johnson grass. Repeated summer tillage to kill this grass before it is 10 inches tall reduces stands and sometimes eradicates it.

Spot-spraying is an effective and convenient method for killing Johnson grass sprouts and seedlings that are otherwise neglected in row crops. Herbicidal oils and water solutions of sodium dalapon and sodium TCA are some of the sprays used for this purpose. These and other sprays available for spot-treating Johnson grass must be applied selectively. Crop plants in the treated spots are severely stunted or killed if they are sprayed.

Seed of Tascosa, a new hard red winter wheat variety, should be available in quantity from growers now. The seed were turned to certified growers for multiplication last fall. The new variety ranked first in Rolling Plains tests. Information on the new variety may be obtained from the Agricultural Information Office, College Station, Texas. Ask for L-483.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Fifty years ago this country was grass and cattle. Today it is irrigation and farming. The prosperity of our communities has improved along with these changes.

The question we need to face now is will the next fifty years find us in better shape than 1960 or worse? Farmers in this area will answer this question with the type of farming we practice now and in the future.

It seems that some of us are living just for today. We do not think of the future in terms of what we will leave our children to farm on. Will we conserve water so that they too can irrigate, improve the land to take care of the ever-increasing population and in general make life worth living for them?

On the other hand are we running tall water, watering rows that are too long, or otherwise wasting water, mining the soil today for ourselves, making no effort to keep the land productive, in general, thinking only of ourselves? How can we

as stewards of the land answer this question. The conservation of our natural resources cannot be over-emphasized. There will be at least twice as many people in the United States fifty years from now as there are now.

We live in a country of freedom and none of us would change this. The initiative for conservation must come from within each of us and not by law or force.

The only agricultural interest in Johnson grass in West Texas should be eradicating it. There are better plants for grazing, for soil conservation, and for hay; therefore there is no reason for letting the pest remain around our farms.

Johnson grass is a perennial plant belonging to the sorghum family; it is similar to sudan grass in some ways, but differs in that it has a reserve supply of food in the underground stems called rhizomes or rootstocks. These rootstocks

ELECTRIC CO-OPS PROVIDE PARTNERSHIP POWER FOR PROGRESS

It is a simple truth that rural electrification has been the most important program inaugurated during the past quarter century for the rural areas of Texas--and America. And as the nation celebrates the joining of the fiftieth state to our Union, the Electric Cooperatives of Texas pay homage to the democratic principles which fostered the birth and growth of rural electrification.

Our rural areas, once deaf to the hum of electric energy and blind to the marvels it produced, are now ablaze with the efficient dependable electric service provided by the electric cooperative.

With pride in the past and confidence in the future, the Electric Cooperatives of Texas truly provide Partnership Power for Progress!

Deaf Smith County Rural Electric Cooperative

in and around

FRIONA

WITH JUNE

Several farm families living northeast of Friona are going contrary to the trend of constructing new homes in town. This trend has become very popular with farm families all over the country during the past few years.

At least three families, the H. R. Cocanoughers, Meryle Massies and Bob Wyllys, have chosen to be "on the farm" farmers. Think the Wyllys have been living in their new four bedroom brick several months. Construction on the Massie home hasn't been started very long and the Cocanougher home is almost finished.

Some of the best looking crops we've seen this spring are also in this neighborhood.

Are king snakes rare in Parmer County? So far we haven't been able to get in touch with anyone who claims to be a "snake expert" and we'd really like to know a little bit more about this particular type of snake.

Mrs. Lester Dean, who lives in the Black community, found a beautiful red, black and yellow snake in her yard Saturday morning. Since the colors were in rings or bands, she immediately wondered about the possibility of a coral snake finding his way to this section of the country.

She called the Star office and asked for someone who knew something about snakes. This writer really knows very little about these creatures except that they all look just about alike when crawling around.

However, with the help of a very informative article in a recent issue of Texas Fish and Game magazine, the two of us were able to arrive at the conclusion that the snake was a king snake and not a deadly poisonous coral snake.

Mrs. Dean brought the snake to the office and those of us who were here thoroughly enjoyed looking at him and comparing his coloring to that of the coral snake pictured on the front of the magazine.

Later Mrs. Dean and her daughters, Rose Ann, Carlene and Paula, visited Mr. Sam Green, science teacher in junior high and left the snake with him.

Several other persons saw the snake and searched through encyclopedias to learn something of his habits. After learning that he was an enemy of the rattlesnake, he was turned loose on the Frion draw.

Read in some magazine recently that June was still the most popular month for weddings. This may be true in some sections of the country, but where we live it is evident that August outranks June by far.

It would probably prove interesting to count the number of marriages in each of these two months and then compare the totals.

Unless there are some broken engagements or wedding postponements, our neighborhood is going to have at least twice as many August weddings as June weddings this year. Then, too, several young Frionans will be married in early September.

Dr. William Beene, who has been dividing his time between Friona and Paducah for about five years, will soon be adding another first to his accomplishments. Upon moving into his new quarters, when they are completed, he will not only be the first optometrist in Friona, but will occupy the first modern up-

to-date combination dwelling-office building in town. Construction is well underway on the Beene home-office building. It is being built near Parmer County Community Hospital. Also under construction in the northwest part of town is the first unit of a multiple family dwelling project by Mayor Raymond Fleming.

.....
If you haven't noticed an endless number of beautiful flowers blooming all over town, you probably have just failed to look. Just about any direction you go you are sure to find flowers blooming in spite of the turbulent weather we've been having recently.

During the downpour of rain Sunday evening there was enough hail that all flower lovers began to get worried about blooms, but sure enough Monday morning very little damage was to be observed.

.....
It looks as if the school custodians may be winning the battle against the bare ground this summer. For the past several years these energetic workers have put in a lot of hours during the summer months trying to get grass to grow on the bare spots on the school ground.

Maybe the unusual amount of rain during June and July has helped them out some. At any rate, barring calamities surely the entire campus will be grass covered by the time school opens.

News From RHEA

MRS. FRANKLIN BAUER

CONVENTION REPORT GIVEN AT LADIES AID
Mrs. Walter Schueler gave a report on the LWML Convention she recently attended in Dallas at the Lutheran Ladies Aid meeting Monday afternoon at the Parish Hall.

A business meeting preceded the report. Floor coverings for the Parish Hall were chosen at the meeting, and various matters concerning the golden anniversary observance were discussed.

Mrs. Eldon Garber resigned as treasurer since they are moving. Mrs. Nat Martensen was elected new treasurer.

Mrs. Franklin Bauer served cookies, ice tea and coffee to the group. Present were Cecelia Schueler, Velma Schlenker, Elenor Garber, Esther Sachs, Alma Goetz, Martha Schueler, Mildred Deyke, Dorothy Bauer, Wilma Schueler, Emma Schueler, Nat Martensen, and Lorna Schueler.

Mr. and Mrs. Nate Olson and two children of Granada Hills, Calif., visited in the Ray Martensen home Saturday evening and Sunday.

Mr. and Mrs. Reuben Meissner and children of Minnesota are visiting in the Robert Schueler home. Mrs. Meissner is the former Eleanor Schueler, daughter of the Robert Schuelers.

Helen and Marie Borchers of Chicago, Ill., were recent visitors in the Florian Jarecki home. While here the Jareckis took them to Red River for the week-end. Helen and Marie Borchers are Mrs. Jarecki's aunts. They also visited their sister, Mrs. Oliver Rieken of Friona.

A Tribute To Our Laborers

Sometimes we forget that the unsung man who mixes your cement or repairs your motor car is worthy of the highest commendation. Could YOU, the average citizen of this town, handle a trowel or cure the costly ailments of a temperamental car? This requires specialized knowledge and this is the day of highly-trained specialists. The Laboring Man, whatever his calling, is a factor in our community life that cannot be discounted. Look largely to our modern way of life. Pay him the respect that is due his trade or specialty--remember that he, too, is one of our good citizens.
