Deadline For Fathers To Enter Essential Work Is Sept. 15th

Must Obtain Jobs Or Register With Employment Office

National headquarters of the Selective Service has informed all local boards that September 15 is the deadline for fathers in intention to transfer to other work if they want a cushion against induction ahead of other fathers.

It was pointed out that unless they had actually obtained jobs off the non-deferable list or registered with the U. S. Employment Service for such jobs and given proof of registration to their draft boards by the 15th, they will be the first fathers to be drafted and can be taken before October 1.

The bulletin also stated that "In view of the manpower requirements, national interest will no longer permit the deferment of registrants in class III-A where such registrants are engaged in activities or occupations which are non-deferable. Registrants who are engaged in non-deferable activities or occupations may register with the United States Employment Service for transfer to other employment. Any registrant who presents to his local board evidence of such registration shall not be subject to reclassification under the provisions of this memorandum solely because of his participation in a non-deferable activity or occupation for a period of 30 days from the date when such evidence is presented to his local board on or before September 15, 1943, and provided such 30-day period does not extend beyond October 15, 1943. In such cases, local boards are directed to classify such registrants without reference to their eligibility for Class III-A deferment after such 30-day period unless they shall have transferred to activities or occupations not included on the non-deferable list."

Parent-Teacher Association Has First Meeting Thurs.

The first regular meeting of the Parent-Teacher Association for the current school year was held Thursday afternoon at 4:00 o'clock in the high school auditorium with the president, Mrs. C. P. Peavy, presiding.

The program, which was led by Mrs. Ed Chastain, was as follows: Parent-Teacher prayer read by Mrs. W. H. Savage, and followed by the pledge of allegiance to the flag, led by the Rev. John W. Byrd. Miss Edna Mae McAdams was heard in two piano numbers.

The attendance prize went to the third grade after which the hospitality committee extended an invitation to attend a barbecue picnic, honoring the teachers, to be held Saturday night on the courthouse lawn.

Mrs. Peavy read an interesting message from the state president, Mrs. Jack M. Little, of Dallas, and the high light of the program, a discussion of "The Freedoms of Our Children" was brought by Supt. Tom Holley. It was also agreed that the association would sponsor a victory concert to be held Friday night, September 24, in the high school auditorium at 8:30 o'clock.

The treasurer reported a sum of \$323.44 in the regular fund, and \$292.26 in the tuberculosis fund. Parents are urged to attend meetings of the association, both for their own personal benefit and to contribute to the support of the association by their presence.

George Tucker was a business visitor to San Angelo Saturday.

TERRELL COUNTY'S SHARE IS \$91,500.00 OF \$15 BILLION FUND

VICTORY CONCERT SEPT. 24 TO AID IN RAISING FUNDS

The task of raising Terrell County's part of the \$15 billion quota, \$91,500.00, is a real challenge to the citizens of this county, but plans were well under way Thursday for an intense campaign among the people and for a victory concert to be held Friday, September 24. The quota set for Terrell is the heaviest that has ever been asked and means that every person will have to purchase at least one extra bond this month.

In the past victory concerts have played a large part in raising the quotas set for the county. It is felt that the concert will again bring in several thousands of dollars from sales of bonds and stamps, the purchase of which entitles persons to admission.

The concert calls for band numbers, for choral numbers, and for trios and other special music. Citizens of the county are urged to attend the concert and support the 3rd War Loan Drive.

The amount of \$91,500 in Terrell County is to be raised from sales to civilians and non-banking firms. No bonds have been offered for sale to banks in this drive, although it is understood that a limited number is to be offered following the drive.

CITED FOR BRAVERY IN FINAL BATTLE FOR PHILIPPINES

Word was received here Friday, September 3, by Mrs. John L. Newton that her brother, Jack Frank Cavender, 32, had died of pneumonia in a Japanese prison camp on Famosa Island, off the coast of China. The word came through the American Red Cross, and his death was reported as of August 16.

Cavender, chief electrician's mate in the United States Navy, was cited for bravery Tuesday, April 21, in the battle of the Philippines. He, with William Jamison of Chattanooga, Tenn., were cited for "meritorious conduct in action" when they braved heavy artillery fire from enemy shore batteries to return a small boat from Corregidor to their ship. Both men received promotions.

After the fall of Corregidor he was reported as missing and was not heard from until December 31, when word was received that he was a prisoner of the Japs and in a concentration camp on the island. Further word came that he had been transferred to the Japan mainland, although this report was evidently in error, and the next word received was of his death. He had served in the Navy for 10 years.

He was a graduate of the Sanderson High school, graduating with the class of 1928. He was a member of the football team and the basketball team during his high school years and was one of the most capable athletes of the school, excelling in football. Besides Mrs. Newton he is survived by an older brother, Hays Cavender, of Uvalde.

Monohans News — How daylight precision bomber crews learned their block-busting technique was witnessed by Peter Masefield, foremost British civilian aviation authority, at the Rattlesnake Bomber Base Monday.

"Your training program is generally excellent," Masefield said. "But of course it had to be, because the results, too, are excellent. I flew with your groups over Europe—several full groups in massed daylight attacks—and they struck their targets precisely and accurately."

The London Times aviation expert, wearing the uniform of a British war correspondent, saw how bomber crews are welded together in first phase training.

In order to carry out this plan the entire student body and faculty will have to work together constantly. Serious tadpoles searching madly for their class rooms.

A lack of fountain pens.

New pants and shirts on the boys, summer dresses on the girls.

Mrs. Bradford's new glasses and hair do.

Miss Kinkler busy training student librarians.

Students enjoying the new benches under the trees at noon.

Mr. Holley rushing from one building to another.

Defense stamps will go on sale in the library again this year. Students, let's buy more stamps than we did last year, and help end this war as soon as possible.

SENIOR NEWS

The year is too young for us to have much to report, but we do want you to know that we are here, all 18 of us. We have some great plans for the year and can assure you that you will hear lots from us later.

Students in dear old Sanderson High feel that school has really begun. However the classes have not organized nor has the newspaper staff been chosen. For that reason the news for this week will be definitely on the sketchy side.

A library club of student assistants will be formed this year. The purpose of the club is to learn more about books and how to run a library. Those students who will work in the library and who will automatically become members of the club are: Marjorie Jessup, Mary Nell Higgins, Maurine Cox, Harriet Pierson, Hazel Bergman, Mary Jean Ogle, Betty Ann Peavy, and Doris Duke.

THE OLD JUDGE SAYS... Glad we ran into you, Judge. I was just tryin' to set Helen straight on this business about sugar. I wish you'd tell her what you told me last night down at lodge. Glad to, Jim. I told him, Helen, that there's not a single bit of truth to the rumor that the distillers use sugar in making whiskey. They make it exclusively from grain. Only bootleggers use sugar to make whiskey. I read an article in the paper just last week that goes to prove it. It told how a confessed bootlegger in a Federal court testified to the fact that another bootlegger, also on trial, had bought a million pounds of sugar a few years ago. As a matter of fact, Helen, no distiller is making whiskey today and hasn't for many months. All distillers are working night and day producing war alcohol for the government. And they make every drop of it exclusively from grain, too.

Back the Attack with WAR BONDS Invasion comes high—in blood and money. But our fighting men don't stop to count the cost when they come to grips with the enemy. And we at home can't afford to count the cost either. To raise 15 billion urgently-needed dollars during this Third War Loan, everyone who possibly can is urged to buy at least one extra \$100 war bond—over and above regular bond buying. Those who can afford to purchase more should do so. Sure—it's going to be tough to dig up this extra money—but we've got to do it and we will. Our fighting men are depending on us and we'll never let them down. So dig deep, Mr. and Mrs. America. Put your dollars in the fight. Buy extra War Bonds now! To meet the national quota, every individual in the country who earns a wage or draws an income or has accumulated funds must invest, if he possibly can, in at least one **EXTRA \$100 War Bond**. Those who can must invest more . . . **ALL THEY POSSIBLY CAN SPARE**. . . from money that has been "lucked away just in case," from loose cash you carry with you, from money saved by doing without luxuries, pleasures, and even necessities during the month of September.

THE CORRAL

By Bill Gray

Cattle feeders in El Paso County are "out of the picture" this year says County Agent W. S. Foster . . . the large farm operators there who annually feed out several thousand head will not feed because they can't market their alfalfa profitably going the feeder route, due to ceilings . . . Foster says the county will average 1 1/2 bales of cotton to the acre, needs 3,000 pickers for 4 months, paying

We were sittin' on Bill Webster's back porch Saturday complaining of the heat.

"Reckon this is the hottest day on record," Homer Bentley observes. "And the thirstiest," says Bill, taking a long draught of buttermilk.

That got us on the subject of thirst-quenchers - and Bill allowed as how nothing was as cooling as a tall, cold glass of buttermilk. Thad Phibbs and I both voted for a glass o' cool refreshing beer. Dan Miles said

\$1.50 per 100 on Acala, \$3.00 on long staple . . . maize has been bringing a fancy price in McCulloch County this season (\$2 to \$2.50 per 100) and close to 180 cars have been shipped from two points in the county in the last two weeks . . . lambs with weight sold all right last week at Ft. Worth, N. M. Lacy of Millersview (Concho County) reported . . . he got 12 1/2¢ for a load of 70 pounders . . . still on the "waiting list" for rain at the outset of this week was Ralph Pembroke of Big Lake, Texas' largest Suffolk breeder . . . he has a big string of 2 year old heifers to calve in October . . . the Angus cattle are still spreading in Texas . . . H. E. McCulloch of San Angelo last week delivered 6 cows, 5 heifers and a bull to Hiram Phillips of Knickerbocker as foundation for a herd . . . W. E. Bennett of Amarillo has bought 10 Hereford bulls from H. B. McGowan of Claude . . . Ralph Bennett of Plains has sold 24 Hereford cows to J. D. Sims of Skiatook, Okla. . . Odessa, Rankin and Barnhart are the delivery points for the several thousand lambs bought by Jess Elrod and Sons in recent months over West Texas from a dozen or more ranchmen for Colorado feeders, delivery to begin Sept. 25 . . . they still come to Texas for good horses . . . one man from Georgia and two from Florida

he'd take iced tea, "with a sprig o' mint in it."

"Anyway," says Bill, "we all got a right to our own tastes . . . and that ought to leave everybody happy."

And from where I sit, Bill's right. It's a small point of course - but tolerance of what the other fellow likes - and his right to enjoy it - whether it's buttermilk or beer - is the important thing in any argument.

Joe Quanta of Weatherford last week bought 300 head of mutton goats from Hoggy Rudd of San Angelo, one of the major dealers in goats in Texas . . . Rudd says shearing is well under way and that kids, bringing \$4.75 in the hair a few weeks ago, are bringing \$4 out of the hair . . . also muttons have dropped from \$6 to \$4.50 out of the hair . . . San Antonio old mutton market has dropped from around 6¢ to 4 1/2¢ in two weeks . . . Ward & Dabney of Nolan County (Sweetwater) have sold out their ranch with Z. D. Mike Barron, Alpine, has sold 100 head of calves, 12-13c, to Sol Weatherby, San Angelo . . . Ford Oglesby, Eldorado, sold him 150 at same prices . . .
