Death came as the result of a heart condition caused last year when a siege of rheumatic fever kept the lad confined to his bed during the months of October, November and December. SECOND GAME OF SEASON BRINGS VICTORY FOR EAGLES

STOCKTON CLUB DEFEATED THERE SATURDAY NIGHT

In the second game of the their football experience for most of the players, the Sanderson Eagles overran the Fort Stockton B team to the tune of 19-0 on their own grounds when they met them Saturday night. This was the first game under lights for the boys, and gave them needed experience.

Captain Dishman won the toss and chose to receive the kickoff, which started a series of fumbles for both sides. For a time the ball went from one team to the other when the opposition would cover a fumble. The Eagles finally started clicking and began cutting holes in the Fort Stockton line, Harrell getting away on a left end run and scoring a touchdown. Yeates plunged for the extra point.

The Eagles then kicked off to Fort Stockton, and recovering a fumble soon chucked up another six points but failed to get on the try for extra point. Fort Stockton received again, stopping the ball on the twenty-yard line. Three attempts were made to buck the line which failed, and a kick was attempted, but the Eagles broke through and tackled before the kick could be delivered. Three quick plays by the Sanderson boys brought another touchdown from the nine yard line, and again the try for extra point failed.

During the third quarter Fort Stockton out-played the Eagles, but in the fourth quarter our boys rallied and started a drive which was stopped only by the whistle which brought the game to a close, with the score 19-0 in favor of the Eagles.

Mexico Highway Interest Retained Highland Men State

Chihuahua City C. of C. Head Favors Project Plans

Continued Chihuahua City enthusiasm in the probability of a highway extending from Ojinaga to that capital city of Mexico is reported by J. D. Motley, Chamber of Commerce secretary, who was in Chihuahua last week for the inauguration of Fernando Foglio Miramontes as governor of Chihuahua.

Mr. Motley and Glenn Burgess, Alpine Chamber of Commerce secretary, were invited to inaugurate ceremonies as representatives of Marfa and Alpine.

Particularly active in the work of securing authority for the building of the highway is Sr. Hector M. Molina, an engineer, who is a representative of Ojinaga in the state organization at the capital, and who is a close associate of the new governor. Mr. Motley commented that the recently appointed secretary of the Chamber of Commerce in Chihuahua is quite aggressive and is interested in seeing the highway plans developed.

Engineering work on the 156-mile route between the international border town of Ojinaga and Chihuahua City has been completed and at least one bid made for the construction of the highway.

Governor Miramontes promised the Americans that as soon as possible machinery will be set in motion to consider the matter of undertaking the highway construction job.

While in Chihuahua City Mr. Motley and Mr. Burgess met with Chamber of Commerce officials and with the Rotary Club. A dinner attended by many high officials of the government also was attended by the two Highland area men. The inaugural of the new governor began at midnight and lasted three hours.

The State Highway Department has shown interest in the building of the proposed road in Mexico and it is believed that when such an artery of traffic has been completed that an international highway bridge between Presidio and Ojinaga might be built. Such a link between the nations would greatly encourage traffic through the United States on U. S. Highway 67, the crossing of the Rio Grande at Presidio and the continuation of motorist's travel to Chihuahua City and, with additional Mexico construction south of Chihuahua City, to Mexico City, capital of the republic.—Big Bend Sentinel.

PNEUMONIA VICTIM

SON TO FRANKS

Joe Hulette, a seven and one-half pound son, was born Friday, October 13 to Mr. and Mrs. H. G. Franks in a Del Rio hospital.

AN OBJECTIVE VIEW

Jokes about absent-minded professors leave me cold. I can't help but bristle a little when people poke fun at school teaching, the craft at which I have worked hard for 20 years. Persons outside the field who say teachers, as a class, are more lazy or less practical than other people may, for all I care, go climb a tack. Such charges are not worthy of dispute.

It is quite another matter, however, when persons in places of honor inside the field of education lay hold of false standards and set them up as essential principles. The allegation, for example, that a teacher ought never to have a fixed opinion is one that I resent. Can it be true that a man's ability to make up his mind proves him unsuited to teach others.

Few higher compliments can be paid a man than to say he has an open mind. It is a joy to meet people of perfectly clear mental vision, persons not blinded by prejudices, men and women who don't get warped and lop-sided views with new ideas. The right approach in thinking about anything is an honest wish to find facts, measure them and accept them for what they are worth.

On the other hand, refusing to accept a fact when you see it is worse than not seeing it. There are mental giants who are moral cowards, no doubt, but don't let anybody tell you it is necessary, Intellect and shilly-shally do not have to go hand in hand. Hostility to the truth marks a nitwit, certainly, but indifference to the truth produces the same result—nothing.

A Blushing Matter

Recently I addressed an audience well salted with men of my own calling: teachers, school executives and men of degree in formal education. I talked about things I believe in, such as constitutional government, laws made by representatives of the people, free speech, unshackled faith, and open competition. After the meeting one of the educators told me I was not objective, did not have an open mind.

He was ashamed of me for having convictions. What a spectacle I was in his eyes, a college president with my mind made up. I spoke of representative, constitutional government as better than state socialism. I defended man's right to own property, to create and operate a business with a hope of profit, as better than government management of industry. "If we lose these principles," I said, "we will drift to lower standards, surely as water seeks its level."

We Need Fixity

Those are the facts. Experts in political economy can prove them to any open-minded listener. Or a student can travel the Earth and see for himself as I did. Where does labor get the highest wages? Where does agriculture enjoy the highest living standards? It is in America, only in America. The reason is our system, not just our resources or our people. Those facts need to be taught.

Europe's outcast philosophies, wrong as they are, make progress in America. Why? Because too many of our young men leave college believing they must have an objective attitude toward everything. They get no firmness of purpose at school. In my opinion it is high time educators got some fixed principles on vital matters like government, morals and religion.

WITH OUR NEIGHBORS

Port Stockton Pioneer—Good news on the housing situation was received in Fort Stockton this week from two directions.

The Petroleum Administration for War, federal agency whose Houston office has jurisdiction in West Texas, has completed production on West Texas oil areas, and on the basis of those figures, coupled with prospective new development in the Permian Basin, has recommended to the National Housing Authority that approval be given new housing construction for Fort Stockton, Crane, Odessa and Midland.

Wednesday further encouragement was provided by a report brought from a Fort Worth conference by Don V. Purlington, Chamber of Commerce manager, that a Fort Worth engineering firm was prepared to assist in the housing project, could secure permanent type materials, many of pre-war construction, and could arrange financing.

Hudspeth County News—Out of 90 who registered to hunt antelopes in this county only three or four failed to get his buck. They came from all over the state. Game wardens stayed right out with the hunters all the time.

Ozona Stockman - Urging foresight in planning for the community's participation in post-war development of commercial and private aviation, Lee Wilson, Crockett county chapter chairman of the National Aeronautical Association and a booster of aviation gave members of the Rotary Club "some-

thing to think about" Tuesday noon when he outlined some preliminary planning already under way by local aviation enthusiasts and asked for careful study on the part of the community as a whole on steps which must be taken to make sure that the town will be in a position to keep step with aeronautical development after the war.

Alpine Avalanche—Bob Wyatt, for the past several years superintendent of the Sabinal waterworks system, has been employed by the City of Alpine as superintendent of the waterworks and sewer systems and is expected to be here in a few days to take up his duties.

The State Health Department has insisted for some time that the city employ a licensed water and sanitary engineer to meet state requirements. Mr. Wyatt has had wide experience and is licensed by the state. The employment of a licensed engineer will give the city an "approved water supply," this being the only requirement of the State Health department that has not been met.

Big Bend Sentinel, Marfa—Appointment of Fred O. Senter, Jr., Marfa attorney, as county attorney, Presidio county, for the term ending December 31 was a part of the business of the Presidio county commissioners this week.

Mr. Senter will complete the term of Bill L. Holland, who left recently for military duty.

Uvalde Leader-News—Word B. Sherrill, county agricultural agent of Uvalde county for the past six years, Monday tendered his resignation to the Uvalde County Commissioners' Court, and it was accepted. It is understood that Sherrill will devote his full time to ranching, having leased a ranch in the Frio Canyon country.

Monahans News—Last Friday it was revealed that a petition is to be circulated in Ward County calling for an election to vote bonds to finance a city-county hospital here.

The hospital according to Dr. E. J. Cook, one of the backers of the project, would be of the most modern design and would contain the latest X-ray and operating equipment, would be fireproof throughout and would offer the very ultimate in modern hospital facilities.

AT THE PRINCESS— ROBUST WESTERN STORY IN "TWIN" FILM AT PRINCESS

The gun-filled, fun-filled story of one American who was always ready to shoot the works comes to the Princess Wednesday and Thursday. It's "The Adventures of Mark Twain," starring Fredric March and Alexis Smith.

The film depicts the life of this country's most beloved humorist—a vigorous, robust personality who became America's foremost literary figure. Covering a span of years involving seventy-five wardrobe changes, believed to be an all time high, for his title characterization because of the colorful and varied nature of Twain's career, March portrays the famed humorist as Mississippi River pilot, western miner, frontier newspaper reporter, author, lecturer and world traveler. Not as numerous as the wardrobe shifts, but keeping pace with the passing years are March's makeup changes done convincingly by makeup wizard Perc Westmore. During the shooting of the scenes, the actor expressed the hope that he would not have

to have a change of mustache for every new costume.

The picture is distinctive for the record research job it entailed. Some seventeen hundred and fifty books and periodicals, the assemblage of twenty-three hundred and forty-five photographs and the interviewing either in person or through letters of four hundred and forty-eight individuals were required to assure authenticity. The photographs collected included originals or copies of every available portrait of Mark Twain along with hundreds of pictures and articles ranging all the way from Mississippi River steamboats to jumping frogs.

Like the jumping frog of Calaveras, subject of his first nationally read story, Mark Twain covered a lot of territory. Even his five and a half years in the west where, as a reporter, his budding genius developed—and where ability to handle a gun was often the difference between life and death—are recorded.

The birth pangs of Twain's best known books, the author's passion for investing in "new-fangled" inventions which contributed materially to his ultimate bankruptcy, and the round the world lecture tour by which he paid back his creditors one hundred cents on the dollar, are an integral part of the picture's drama. The colorful background of his barefoot rafting days on the Mississippi are impressive. Above all, the love story of Mark Twain and Olivia Langdon (his wife), played by lovely Alexis Smith, are highlighted.

"TAMPICO" BLAZING SALUTE TO COURAGE

Set against the background of international intrigue in the "double-cross roads" of the world, "Tampico" which opens Friday at the Princess theatre, is the stirring drama of men who stick to their guns... and of women who stick to "their men."

When the tanker "Calhoun" with Robinson as its Captain

Bart Manson and McLaglen as Fred Adamson, the first mate, rescues the survivors of a torpedoed passenger ship, Lynn Bar, playing the role of Kathie Hall, entertainer and cigarette girl who claims to have been stranded in Havana, is taken aboard. But her true identity and past is enveloped in mystery, since none of the other survivors recognize her and she has no official passport. When the tanker docks at Tampico, the immigration officials threaten to intern her, but despite Fred's protests that he's a sucker, Bart assumes full responsibility for Kathie.

Thus after a thrilling story of enemy intrigue and romance in a foreign port and on the high seas. With the treacherous sinking of Manson's ship, and with the entire weight of circumstantial evidence for the betrayal forced on Kathie, the film reaches a climax of thrills and drama that blazes a new high in screen entertainment.

In order to insure complete authenticity down to the very last detail in the shooting of the ship scenes, Merchant Mar-

ine officers served as technical advisers.

THE OLD JUDGE SAYS...

"Quite a stack of newspapers I left you yesterday, Judge. Aren't you in the newspaper business, are you?" "No, I just enjoy reading different papers so my nephew George sends them to me whenever he takes a business trip. I got a big kick out of some he sent me from several counties where they still have prohibition. Particularly from some headlines that read 'Drunk Driving Arrests Rise',

'Bootleggers must stop Ceiling Prices', 'Federal Agents seize 'Trick' Liquor Truck'. Doesn't that go to prove, Joe, that prohibition does not prohibit? "I watched conditions pretty carefully during our 13 years of prohibition in this country. The only thing I could see we got out of it was bootleg liquor instead of legal liquor... plus the worst crime and corruption this country has ever known."

Is He the UNLUCKY One?

One school child in five, on the average, has defective eyesight. And the percentage mounts to 4 out of 10 at college age. No parent can afford to neglect eyesight.

Even in these war-busy days, anyone can take these four simple precautions against eyestrain. Read them carefully and teach them to your children:

- 1. Do all reading, studying, sewing or game-playing close to a good light source, preferably a modern reading lamp.
2. Avoid glare from bare bulbs. Don't sit facing the light. Glare strains eyes.
3. Avoid sbalout. Make sure you have good light directly on your work or book. Shad-ows strain eyes.
4. Have eyes examined regularly. If eyes are defective, vision can be greatly helped with proper glasses.

When the war is over we are all going to have Better Light for Better Sight. In the meantime, take care of your eyes, but don't waste light.

THE EAGLE NEWS

EDITED BY STUDENTS OF THE SANDERSON HIGH SCHOOL

SANDERSON HIGH SCHOOL SPONSORS YEARBOOK

This year the students of Sanderson High School plan to put out a year book. This annual has no name as yet. The students are to choose the name this week. All are asked to file in the name box their idea of an appropriate name. The class presidents will act as a committee and choose the five best names which will be presented to the student body, and from which the winning name will be chosen.

The annual which will be as much a picture of Sanderson school life as possible will cost not more than \$2.50. It will contain pictures of all school children, of the various teams and clubs, as well as snapshots of life on the campus.

In order to get an annual each person must make a one dollar deposit before the first of November at which time the covers must be paid for. After that time no orders may be taken. Get your order in as quickly as possible.

The annual staff officers will be elected this week.

HAVE YOU NOTICED?

How Willie is all puffed up? That Maurine F. Paid us a visit?

That the Sophs are busy with their assembly plans? That Al and Bob have black eyes?

That there is a rush at the library table each period? That the volley ball girls have started practice?

How Noel's hand is becoming autographed? How good it is to know that we will have a yearbook?

That report cards will soon be out? That Marshall Cooke and Edward Kerr are home?

That Clara, Joan, and Dorislee are cheer leaders?

Grable, Carmen Miranda and George Jessel who acts as master of ceremonies.

"For years," explained Mitzi during the filming of the picture, "I've been dancing on Broadway and in Europe. All those years, I've worn dancing shoes. But when I arrived in Hollywood, they insisted upon my wearing high heels while I danced for this picture. Makes my legs look better, I guess."

"After dancing so long without heels, I found myself kicking the back of my head or my shoulders with three-inch spike heels. I'm already black and

blue all over and scared to death I'll kick my head hard enough to knock me out permanently."

EAST SIDE KIDS SCORE HIT IN LATEST COMEDY

A picture that rings the bell as a hit comedy-drama is the film, "Block Busters," which plays at the Princess theatre Tuesday. Starred are the inimitable screen rowdies, the East Side Kids, who never fail to provide plenty of action and comedy in their films.

Leo Gorcey, Huntz Hall, Gabriel Dell and Billy Benedict head the East Side Kids group, and the feminine leads are played by pretty Kay Marvis and Roberta Smith. Other outstanding persons in supporting roles are Harry Langdon, Noah Beery, Sr., Minerva Urecal, Charlie Murray, Jr., Jimmy Strand, Billy Chaney and Fred Pressel. A snappy jitterbug musical interlude is supplied by Jimmie Noone and his orchestra, with the Ashburns.

H. J. Y. MILLS RUNNING FOR LEGISLATURE

HAS BEEN DRAFTED TO MAKE RACE BY DEL RIO CITIZENS

Drafted by a group of prominent Del Rio citizens to make the race for representative of the 87th Legislative District of Texas, H. J. Y. (Henry) Mills has consented to run on the independent ticket subject to the action of the voters at the general election Nov. 7.

Mills, who has been prominent as a ranchman in the Pandale country, has had previous experience in political offices which the friends drafting him for the Legislative race feel qualifies him for the post he seeks.

He served for three terms, beginning in 1901, as sheriff of Schleicher County, resigning the office before the end of the third term.

In addition, he served for four years as county commissioner in Val Verde County, serving from precinct three.

A resident of Val Verde County for 41 years, he reared six sons in the county. He has turned his ranching business over to his sons and so is ready to devote his full time to the state office for which he has been drafted.

Due to tire and gasoline rationing it will be impossible to get over the district and see as many voters as he would like to contact. The vote and support of the voters of the district will be greatly appreciated by those anxious to see Mills win the race. Pol. adv.

Maybe you won't be glad to see him home after all!

ONE DAY, your man will come home. Home—after having done his duty and played his part in the bitterest, cruellest fight of all time. And you? Will you be able to welcome him back with nothing but sheer joy and thankfulness in your heart? Or will the sight of him remind you, for the rest of your life, that even

though your job was unutterably easier than his, you still didn't do it—you didn't quite measure up? That would be a miserable thing to have happen to you. It would be a miserable feeling to carry through the years. So don't take any chances. Don't just buy your share of War Bonds. Do that—and then do more. And do it today.
