Cats Claw Chieftains 56-30

Frlona came out on the short end of a scoring battle as the Chieftains were stopped time after time on the way to a 56-30 loss to Sunray Thursday.

PeeVe quickly downfield using the big gun for the Cats.

---

Frlona quickly retaliated for the Sunray Bobbuck who sped 41 yards to put the long trip however, as the situation on the Sunray 33 settled. either team seemed unable to but up much of a defensive and the score was 14-8.

Frlona kicked off to Sunray on their own ten. This ret-kick was the double stripe, aided by 25.

One carry covering 21 squares miles (10 MILES by 10) and 130 feet deep was observed in the Amazonic sea in 1970.

The Amazon River was so the books for Friora's Floyd\n

**In Frlona**

Six K. Eltert, 55, of Pampa, 6. 45 was released on a $500 bond by Judge Loyde Brewer at Frlona Thursday morning. Eltert was arrested in Frlona about 9:45 a.m. Saturday while intoxicated.

Officer Bill Hopkins of the Friona Police Department picked up the suspect in the lot by the Frlona Community Center.

The following cases were tried in Corporatod Court in Frlona. Friona Volunteer Fire Department makes two fires today according to Chief Tom Ross.

The first call went out at homes with a home in the coming days. This was the second fire and caused no damage.

Frlona Volunteer Fire Department picked up the second fire at the same location. This fire was quickly extinguished.

A horse that backs high on 603 made an attempt to fail in the coming days. The horse is in at the 603.

Farmers See New Varieties Of Maize

Farmers in this area were pleased to see a variety of new maize varieties at a recent sponsored by the Texas Extension Service. The event was held at the Farmhouse, where farmers were able to see different varieties growing in right rows.

The group met at the Farmhouse, where farmers were able to see different varieties growing in right rows. A permit to move in a house coat of $7,500. The group then went on to see the maize at a tour sponsored by the Raithmayar farm.

Each farmer had about 12 different varieties growing in eight rows. The Extension Service has been interested in testing new varieties to help farmers improve their yields. The group was impressed with the variety of maize heads that were on display.

One of the growers, Jack Torn, said, "I've been growing maize for a long time, but I've never seen so many new varieties." The group agreed, expressing their excitement at the prospect of trying out new varieties in their own fields.

The group also discussed the potential benefits of using new maize varieties, such as increased yield, improved quality, and resistance to pests. They agreed that the new varieties have the potential to significantly improve their farming practices.

The Extension Service plans to continue testing new varieties and sharing information with farmers to help them make informed decisions about their crops.

Friona Woman's Club has Regular Session

Friona Woman's Club met for their regular session Thursday, Jan. 5th at the club house. Mrs. Tonya Lea Length presided over the devotional. Mrs. Roy Stuckey, president, presented one of the new club books--"The Image in Living," by Margaret Ogilvie. The theme of the study was "Life in Lodge." The program was opened by Mrs. Mary Moe (official presented, "My Story--That's the Way""). Harriet Reed and Mrs. M. Phipps, pastor of the Congregational Church, presented the theme of the study.

My Neighbors

It's a tough campaign program--I can't think of anything to promise the intercessory prayers.

FRIDAY! THE GREATEST SIXTY-ONE/DERFUL CHEVROLET

Here's the car that readers load and choose--the new, modern, "61 Chevrolet. We started out by trimming the opposite end (to give you extra inches of clearance for parking and maneuvering) but inside we've left you a full measure of Chevrolet comfort. Door openings are as much as inches wider than before, too, and elbows the unaided right of way. And the new car's easy開 for sitting, too.

You've enjoyed as this car in spaciousness and characters of elegance, you'll find it similarly all the thrills, dependable virtues Chevrolet buyers have come to take for granted. Your family's the man to see for all the details.

FRIONA WOMAN'S CLUB--one of five "after dinner" entertainers for "61 Chevrolet. We started out by trimming the opposite end (to give you extra inches of clearance for parking and maneuvering) but inside we've left you a full measure of Chevrolet comfort. Door openings are as much as inches wider than before, too, and elbows the unaided right of way. And the new car's easy開 for sitting, too.

TUNE IN MICHAEL SHAYNE EVERY WEEK ON NBC TV!
John Andrew Guyer
Pioneer Resident
Dies Over Weekend

Pioneer County lost one of its early-day civic supporters with the passing of John Andrew Guyer, pioneer farmer, public official and businessman, who passed away early Sunday at the Farm County Community Hospital in Friona.

Funeral services for Mr. Guyer were held Tuesday afternoon in the Friona Congregational Church, with Rev. Hudson Phillips, pastor, officiating.

Burial was in Friona Cemetery, under the direction of Claborn Funeral Home of Friona.

Mr. Guyer had seen in ill health for about 10 years, and had been confined to his home for about a year. He was hospitalized last Monday with pneumonia.

Born in 1874 in Marion County, Indiana, Mr. Guyer moved with his family to Friona in 1916. He had purchased land in the county about 15 years before taking up residence here.

In 1922, he became postmaster in Friona and retained that position until 1934. He then operated a feed mill for a few years before retirement.

After retirement, the Guyers lived in Washington for three years, then moved back to Friona. Mr. Guyer had been active in civic work, and always showed special interest in the schools. He was on the board in Friona for a number of years, and was president of the organization when the first old brick building was constructed. He was a 50-year Mason, having joined that group at the age of 21.

When the family moved to Friona in 1918, the Congregational Church was the only church in the town. The Guyers became members, and he was deacon of the church at one time. He served as Santa Claus for a number of years, when the Christmas program was held.

Survivors include his wife, Mrs. Mary Reeve Guyer of the home; two sons, William of Sarmyside, Wash., and Reeve Guyer of Pasco, Wash.; two daughters, Mrs. Charles Lovelace of Farwell and Mrs. Myron Bayless of Richland, Wash.; a brother, Charlie Guyer of Daytona Beach, Fla.; and a sister, Mrs. Kate Byers of Arlington, Va. Nine grandchildren and four great-grandchildren were survivors.

Pallbearers for the services were Clifford Crow, Clyde Goodwied, Ralph Wilson and Carl Maurer of Friona; R. Schier of Portales and Woodrow Lovelace of Farwell.

Fall Program Planned
For Brownie Troop #3

On August 28 Brownie Troop #3 met with their mothers and leaders at the Church of Christ here to plan the fall program. Theme for the fall program will be nature. The girls have been sending in pictures of flowers, insects, animals, etc. They have also been sending in ideas for scouting activities. They are to make nature placards with flowers and birds on them. They have begun their work on a project that are decorated with pictures of their favorite flowers.

A Date With A Future
Theme Of Club Meeting

The Oddfellows and Rebekahs held a family night meeting and a special dinner meeting on September 30, at the American Legion Hall. A family night program featured a nature program and supper followed by the Rebekahs program. The Rebekahs plans for their fall program included the making of wreaths, nature plaques, and flower arrangements. The Rebekahs made the wreaths.

Coffee And Shower Honor
Mrs Rector And Donna Gay

Mrs. Floyd Rector and her little daughter, Donna Gay, were honored with a coffee and shower Friday at 10 a.m. in the home of Mr. and Mrs. Paul Hall. Honorees for the occasion were Mrs. Martin Fite, Mrs. W. R. Ayerly, Mrs. Lloyd Rector and Mrs. John Mason.

Joint Meeting Held By

A Date With A Future
Theme Of Club Meeting

The Oddfellows and Rebekahs held a family night meeting and a special dinner meeting on September 30, at the American Legion Hall. A family night program featured a nature program and supper followed by the Rebekahs program. The Rebekahs plans for their fall program included the making of wreaths, nature plaques, and flower arrangements. The Rebekahs made the wreaths.

Coffee And Shower Honor
Mrs Rector And Donna Gay

Mrs. Floyd Rector and her little daughter, Donna Gay, were honored with a coffee and shower Friday at 10 a.m. in the home of Mr. and Mrs. Paul Hall. Honorees for the occasion were Mrs. Martin Fite, Mrs. W. R. Ayerly, Mrs. Lloyd Rector and Mrs. John Mason.

Joint Meeting Held By
Oddfellows And Rebekahs

The Oddfellows and Rebekahs held a family night meeting and a special dinner meeting on September 30, at the American Legion Hall. A family night program featured a nature program and supper followed by the Rebekahs program. The Rebekahs plans for their fall program included the making of wreaths, nature plaques, and flower arrangements. The Rebekahs made the wreaths.

Shower Honors
Jimmy Marbury

Mr. and Mrs. J. Marbury were honored with a coffee and shower Saturday at 10 a.m. in the home of Mr. and Mrs. Paul Hall. The shower was held in honor of their son, Jimmy Marbury, who is in the United States Navy. The shower was attended by many friends and relatives of the honorees.

Another attraction was the home made food. The guests were served a delicious buffet dinner, which included meat, potatoes, vegetables, salad, and dessert. The atmosphere was relaxed and enjoyable, with music playing in the background.
Farmers Redeem 1960 Wheat From Government

With the market price for good

conditioned wheat rising over

from $1.80 to $1.85 per

busket, more than 1,000 farmers

in Parmer County have already

redeemed the wheat they stored

in the government's warehouses

here.

Mr. Mike, manager of the Farmers

County Office, said:

"We're so happy to let these

farmers know that their hard

work and perseverance are paying

off. The high prices we're getting

for wheat now are a testament to

their dedication and resilience."

The program was originally set up

in 1940, and it allowed farmers to

store their wheat in government

warehouses at a price lower than

the market price. However, when

the government declared the

wheat surplus, farmers were given

the option to redeem their stored

wheat at the current market price.

Mr. Mike added:

"This program gives farmers

the opportunity to sell their

wheat at the best possible price,

regardless of market fluctuations.

We encourage all farmers to take

advantage of this program so

they can maximize their profits."

Social Security Changes Made

About 25,000 people — widows,

orphans, and dependent children of

deceased Social Security

beneficiaries — will find

themselves impacted by

changes recently made to the

Social Security program.

A. John Smith, social

security specialist, explained:

"The changes were

introduced to align Social Security

benefits with the needs and

circumstances of modern society.

For example, we have

increased the amount of

months of eligibility required

for widow and dependent

children's benefits."

Mr. Smith continued:

"We have also

revised the benefits

eligibility requirements for

orphans and dependent

children, as well as

widows. These changes

were implemented to

ensure fair and equitable

treatment of all beneficiaries."

Guard Against Cholera

Rigidity can wriggle out without

a weapon. That's why we're

Fri. 26, 30, 31.

Mr. John, marketing officer,

explained:

"The key to preventing

cholera is to maintain good

hygiene. This includes

washing hands frequently,

boiling water for drinking,

and avoiding contact with

illness.

Mr. John added:

"It's important to

remain vigilant and take

precautions to prevent

contracting cholera, as it

can be a serious and

dangerous illness."

THE HIGH PLAINS FARM AND HOME

FARMERS IN THE COUNTY ASSEMBLING TO DISCUSS "Cotton Stabilizers"

The farmers in the county are

assembling to discuss "cotton

stabilizers." The purpose of the

meeting is to explore strategies

for improving cotton yield and

quality.

Gilbert, one of the farmers,

said:

"We're looking forward to

learning about the latest

techniques and products that

can help us optimize our cotton

production. It's an exciting
time to be involved in agriculture."

Management Vital In Today's Farming

Methods of farming have undergone many changes in recent years. These changes, which have been brought about by technological advancements, have made farming more efficient and productive. However, the process of change can also be unsettling for farmers who are faced with new and unfamiliar methods of operation.

The farm management committee outlined a number of steps that can be taken to improve the efficiency and profitability of farming operations. These steps include:

1. Improving record-keeping: Farmers can use this information to make better decisions about production and marketing.
2. Increasing the use of machinery: This can help reduce labor costs and increase productivity.
3. Utilizing the latest crop varieties: Farmers can choose crops that are better suited to their local conditions and that are more profitable.
4. Improving livestock management: This can help farmers increase their profits from livestock operations.

In conclusion, the farm management committee emphasized that the key to improving farming operations is to remain open to change and to be willing to adopt new methods when they are shown to be beneficial.

The committee also highlighted the importance of education and training for farmers. Farmers who take the time to learn about the latest methods of farming will be better equipped to face the challenges of the future.
High Plains Depend on Underground Water

The High Plains Underground Water Conservation District, one of the nation's original underground reservoirs, has been continuously providing irrigation, municipal and industrial water supplies for more than 40 years. It is the largest underground water reservoir in the world, with an estimated storage capacity of 700 million acre-feet. The water in this reservoir is stored in the unconsolidated sandstones and sandier deposits of the High Plains up to a depth of 600 feet.

The water in this massive underground reservoir is constantly renewed by natural replenishment, making it a virtually inexhaustible source of water. This water is used for irrigation, municipal and industrial purposes, and is an essential part of the economy of the High Plains region.

The High Plains Underground Water Conservation District is a cooperative organization of state, county, and municipal governments that has been successful in preserving and conserving this precious resource.

Social Security Benefits
302 People In County

As of the end of 1993, there were 302 people in the county receiving Social Security benefits. These benefits are provided to individuals who have worked and paid into the Social Security system and are now retired.

The benefits are calculated based on the individual's earnings history, and are designed to provide a sufficient income to allow the recipient to maintain a reasonable standard of living.

The Social Security Administration provides various services to assist individuals in obtaining their benefits, including assistance with applications, appeals, and other administrative matters.

For more information, contact the Social Security Administration office in your area.
Second Sorghum Tour Wednesday

A second tour of a grain sorghum demonstration field in Panola County is scheduled for next Tuesday, December 10, at the home of Elmer Priday. The tour will take place between 9 a.m. and 3 p.m. at the demonstration field on the Priday farm at Byers Mills.

Farmers interested in viewing the demonstration plots should contact Elmer Priday at 916-7450, or any of the other tour organizers listed below. A list of tour participants will be distributed at the demonstration field.

Amendments Important

By Vernon Becher Texas Farm Bureau

SECOND TERM: Would the voters give Elmer Priday a second term as the Priday field agent for grain sorghum? The demonstration plots were well attended by interested farmers, and Priday is seen as a valuable resource for sharing knowledge and expertise.

THE CONSTITUENT'S AUTHORITY: What are the implications of granting the constituents the authority to make decisions about constitutional amendments?

The LPD proposal to amend the Texas Constitution has been discussed extensively. Priday's role in promoting sorghum production and research is crucial, and his re-election would ensure continued support for the plant.

SHOWS NO ADVANTAGE FOR LOW-LEVEL FEEDING: Antibiotics in dairy cows are controversial, and the LPD's proposal to amend the Constitution to allow low-level feeding is not supported by research. The current position is that antibiotics should be used only in cases of disease, and not for growth promotion.

Seek Greek Use Of Grain Sorghums

Two L. S. agricultural leaders are going to Greece to study the use of grain sorghums and other feed crops. The leaders, at the invitation of the Athens Chamber of Commerce, will visit sorghum growing areas in Greece and attend grain sorghum demonstrations at the International Trade Fair in Athens. The leaders are William D. Hofstetter, director of the Texas A&M University Bureau of Agricultural Economics, and T. A. Jones, director of the Texas Agricultural Economics and Business Administration.

Voting on the amendment to allow low-level feeding of antibiotics in dairy cows is crucial. The LPD's proposal to amend the Constitution to allow low-level feeding is not supported by research, and the current position is that antibiotics should be used only in cases of disease, and not for growth promotion.

Osborn Uses BJ Pump To Supplement Wells

Max H. Osborn uses a BJ pump to supplement his farm's irrigation system. Osborn makes use of a BJ pump because it is better suited to the water supply in his area. The BJ pump is more efficient and can be used for a variety of irrigation tasks.

In the instance of the store water systems, the BJ pump is particularly useful. The pump pulls water from a well or storage tank, and its efficiency allows for the efficient use of water resources.

A planter for this purpose, supplied by the BJ Pump, can move about 340 gallons of water per minute. It reduces the amount of water used for irrigation, making it an efficient solution for water management.

The BJ pump can be easily moved around the farm, allowing for flexibility in its use. It is a cost-effective solution for water management, saving farmers money on water usage and reducing environmental impact.
Prior Service Program
Program Announced

The United States Air Force Reserve is offering a new Prior Service Program to former servicemen that have served at least 30 days or more in the U.S. Air Force. This new program applies to former servicemen who entered the Air Force between the dates of April 1, 1947, and December 31, 1964. Eligibility is based on the number of years served in the U.S. Air Force, with a minimum of 30 days of service required. The program provides a pathway for individuals to become eligible for the Air Force Reserve, offering opportunities for advancement and career development.
