NUMBER 20

AL CREIGH III KILLED DEC. 22 IN BELGIUM

PREVIOUSLY LISTED MISSING ON SAME DATE

Word from the War Department was received in Alpine Sunday by Alfred E. Creigh, Jr., in which he was informed that his son, Pfc. Alfred E. Creigh III was killed in action December 22, 1944, in Belgium.

Pfc. Creigh had previously been listed missing on that date when the paratrooper and another member of his platoon, were posted as guards to warn friendly troops to keep away from the highway and railroad bridge on the Salm River at Vielsalm, Belgium, which this platoon was sent to destroy for security purposes.

The twenty-one year old paratrooper entered the service in June of 1943, receiving his basic training at Fort Leonard Wood, Missouri, and later was sent to Fort Belvoir, Virginia, for specialized engineering drafting. Pfc. Creigh entered paratrooper training at Fort Benning, Georgia, in November of the same year, receiving his paratrooper wings in January, 1944. He was shipped to England the following September, remaining there about a month before going into combat in France and Belgium.

TO HOSPITAL

G. Hensley was taken to a Del Rio hospital Wednesday for medical attention.

Mrs. Agnes Robitsch is here this week visiting her sister-in-law, Mrs. Ida Bodkin, and nephew and niece, Mr. and Mrs. H. E. Fletcher.

Sanderson Canyon Offers Possibilities As Summer Resort

This is a story we intend to print some few weeks back, but at the time we were a little skeptical of the announcement and promotion scheme of one of our leading citizens. Not that we don't have the utmost confidence in his word and integrity, but after all, the idea of a boating club on Sanderson Canyon we figured was just a little far-fetched.

We were approached by one Jimmie Caroline, manager of the local office of the Community Public Service Company, with a very convincing story of the possibilities of such a venture, in which he would guarantee 50 hours of boating each week to members of the club, at a very modest sum. He also told of great possibilities in the growing of rice and other commodities along its banks.

Truthfully, we were just a little worried about our friend. After all, it had been so hot and dry, and, to quote him, "I'm looking for something to do in my spare time. I have 30 minutes each morning between 3:30 and 4:00 o'clock that I have nothing to do." But now after all the rain we have had, we wonder if we weren't just a bit hasty in making our decision. It looks as if Jimmie might have something.

Now to make us feel ashamed for doubting his veracity and knowledge even for a moment, we are faced with the fact that some of our local boys went so far as to catch fish in Sanderson Canyon Wednesday afternoon. It's hard to believe, we'll admit, but 'tis true, folks, 'tis true. And to think, not too many nights ago we lost all our fishing gear in an unsuccessful outing, not realizing the great possibilities right here at home.

Community Public Service Company To Construct Highline of 69,000 Volts Between Sanderson and Fort Stockton

Community Public Service Company has received approval from the War Production Board for construction of a 69,000-volt highline from Fort Stockton to Sanderson, which will increase several times the power supply available here, James Caroline, community manager, announced early this week.

The new highline will be approximately 65 miles long of

Sanderson Made Mosquito Control Area for Summer

Dr. D. M. Randall, health officer of Terrell County, has announced this week that Sanderson has been designated as a mosquito control area for the duration of the summer months.

Through the cooperation of James Caroline, manager of the Community Public Service Company here, a mosquito trap was installed last Saturday for the purpose of determining the number and various types of mosquitos to be found in this area.

The contents of the trap are removed daily and at the end of each week sent to Austin where the mosquitos are examined and listed by type.

Mosquitos offer a serious menace since the heavy rains in this vicinity and Dr. Randall has asked that persons knowing of likely breeding places of mosquitos, such as open cess pools, advise him, so that a concentrated effort can be made to rid the community of these disease-carrying pests.

Meaning of Rotary Is Discussed by Club President

The regular weekly luncheon of the Sanderson Rotary Club was held Wednesday noon in the Banquet Room of the Kerr Hotel.

Rev. John W. Byrd, newly elected president, presided over the meeting, addressing the members on the meaning of Rotary, its purposes, and place in small communities.

This was the first meeting of this month, as July 4 fell on the first Wednesday of the month and it was decided to skip the regular meeting then.

Miss Clara Alice Bell left Saturday for San Antonio where she is attending classes at Draughon's Business College having enrolled Monday.

three-phase triangular construction. It will tie in with the power company's West Texas transmission line system at Fort Stockton, which is fed by two power plants and the Red Bluff hydro system. A 600 kva. substation will be built on the outskirts of Sanderson to step down the power from transmission to distribution voltages.

Work on the project is scheduled to get under way within 45 days, providing materials are received as scheduled. Power Superintendent R. H. Kundts of the company's general offices who arrived this week to begin preliminary surveys, estimated it would require 120 working days to complete the line.

When the line is completed, Sanderson will have several times as much power available as the heaviest peak demand on record, and service will be improved by better voltage. The company's power plant here will be completely overhauled and maintained in first-class condition to pick up the load in case storm damage causes an interruption to highline service.

The new transmission line is another of a series of improve-

Rains Wash Out Roads, Highways Over Week End

Heavy rains in this section over the weekend, washing out roads and damaging highways when draws throughout the country overflowed causing unusual highwater.

Rainfall here in town reached a total of 6.44 inches, with as much as 12 inches reported in the ranch area north of here.

Sanderson Canyon overflowed its banks Saturday evening flooding some sections of the city. The highway between Sanderson and Fort Stockton was badly washed out, with traffic halted frequently due to the high water. Water in Three Mile Draw washed out much of the road just north of town.

Heavy rains on the S. L. Stumberg ranch and that vicinity Tuesday night caused a slight rise in Sanderson Canyon. Stumberg reported that lightning struck one of his windchargers during the electrical storm accompanying the rain, causing all the lights in his home to go out.

Night clubs nowadays remind us of the gay nineties. The women are gay and the men are around ninety.

ments being made by Community Public Service Company to better its service here. The company's ice plant was overhauled and its capacity increased fifty per cent. A new water well was completed in June, another well is currently being cleaned out and reclaimed, and two additional new wells will be drilled as soon as the latter work is completed.

Services Held In San Angelo For A. Miller

Funeral services for A. E. Miller, 74, were conducted in San Angelo Wednesday afternoon at 4 o'clock from Johnson's Chapel, with the Rev. George C. Baker, Jr., officiating. Burial followed in Fairmont.

Mr. Miller died in a San Angelo hospital Tuesday morning.

A San Angelo resident for two years, Mr. Miller had made his home intermittently with Mr. and Mrs. N. M. Scott of Sheffield for about 40 years.

A sister, Mrs. Jack Love, resides at Springfield, Illinois.

Mrs. C. P. Peavy Entertains Ranch Club Tuesday

Mrs. C. P. Peavy was hostess to the Ranch Home Demonstration Club Tuesday at the home when the group held its regular all day meeting.

Program leader was Mrs. Albert Appel, Jr., who gave an interesting discussion of wild birds. Mrs. Sid Harkins had as her subject wild flowers. A talk on pre-war travel was given by Mrs. John W. Byrd.

Home demonstration agent Miss Pauline McWilliams spoke on the construction of barbecue pits.

Sale of cake slices, the proceeds from which go toward filling Red Cross kits, amounted to \$1.90.

Those present at the meeting were Mesdames Gay Franks Henry Goldwire, Jr., Sid Harkins, Herman Couch, C. P. Peavy W. W. Sudduth, Jimmy Hanson, Albert Appel, Jr., John W. Byrd, Jim Kerr, James Caroline, and the agent, Miss Pauline McWilliams. Mrs. Floyd Hanley and Mrs. Tol Murrah were guests.

Miss Laura Oberling left Wednesday for New Orleans, Louisiana, where she will consult an ear specialist and receive medical treatment.

PFC. ALBERT APPEL DIES OF WOUNDS RECEIVED JUNE 6

SERVED WITH 96TH DIVISION ON OKINAWA

Mrs. Albert Appel, Jr., received word Wednesday from the War Department that her husband Pfc. Albert Appel, Jr., died June 7 of wounds received in action on Okinawa June 6. She had been notified Tuesday that he had been seriously wounded June 6 and was told that the hospital where he was being treated would furnish her with supplementary information.

The son of Mr. and Mrs. Albert Appel, Pfc. Appel was born December 6, 1918, and entered the service August 30, 1944. He shipped overseas in January of this year, for a time being stationed on the Hawaiian Islands. On Okinawa he served with the 96th Division in the campaign for possession of the island, and personally accounted for four Japs killed when knocked out an enemy machine gun crew as his squad moved forward in a flanking movement to gain control of a strategic hill.

Raul Aguilar Awarded Expert Infantryman Badge

CAMP FANNIN, TEXAS—Private Raul Aguilar of Sanderson Texas, has been awarded the Expert Infantryman Badge for proficiency in weapons, tactics, physical condition and leadership at the Infantry Replacement Training Center here.

Private Raul Aguilar is a Platoon Guide (Acting Sgt.) in Company "A", 57th Battalion 12th Training Reg. in the IRTC.

The Expert Infantryman Badge, which authorizes \$5 additional pay per month to enlisted men, is awarded Army Ground Force officers and enlisted men who qualify successfully with several Infantry weapons, complete arduous physical tests and such phases of Infantry training as scouting and patrolling and demonstrate leadership in the field.

Presbyterian Circle Meets Monday With Mrs. J. W. Byrd

Mrs. J. W. Byrd was hostess to members of the Presbyterian Women's Auxillary at their circle meeting Monday afternoon in her home.

The meeting opened with the hymn "Faith of Our Fathers", sung by the group, which was followed by prayer.

Mrs. J. W. McKee led the program, entitled "Say Go—How Do I Begin?", presenting an inspiring devotional on this subject. Mrs. E. F. Pierson reviewed the article on the same topic in the Presbyterian Survey.

During the business session it was decided to take as a circle project the purchase of a war bond, which will later apply to funds for building a new church.

Mesdames C. C. Mitchell, W. H. Savage, Lee McCue, J. W. McKee, E. F. Pierson, and J. W. Byrd answered roll call.

Sister of Former Sanderson Woman Married June 23

Miss Billie Jo Leatherwood daughter of Mr. and Mrs. C. W. Leatherwood of Ozona and sister of Mrs. W. W. Cook, resident here until recently, was married in Camp Wood Saturday, June 23, to Jessie W. Baldwin, son of Mr. and Mrs. J. H. Baldwin of that place.

Mrs. Baldwin attended Ozona High School and has lived in Ozona for nine years. The young couple is living in Ozona now where Baldwin is employed with the Farrell Drilling Co., having headquarters there.

FROZEN HOPES

Saying what a man earns, expressing it in cents per hour or dollars per year, does not tell much about the measure of prosperity he enjoys. Good living depends on so many things that change from time to time and differ from place to place. Prosperity depends, in very large part on what people must pay for the things they need and want.

Putting the conveniences and luxuries of life in reach of a large number of people helps to build a nation's prosperity. Franklin's discovery of electricity became a great discovery when electric lights began costing less than oil lamps. The automobile became a great invention when cars were priced down where only rich people could afford to own horses.

Paying for Service

Plain people pay richly for favors; plain people are so many. Names like Edison, McCormick and Ford stand for huge estates because these men did a real service for a lot of plain people. It is because they hoisted a wholesome standard of living in a free country. Thousands of men have done the same thing on a smaller scale and profited handsomely.

Actually, the thing that inspires mechanical inventors to invent that fires scientific explorers to explore, is the chance to earn from free people the rich reward for a valuable service. Once upon a time in the United States of America men who had ideas could afford to develop them. They can't do it now. How I hope those days soon return.

Big Ideas on Sale

Edison, McCormick and Ford didn't need to hawk their ideas neither did Bissell, Denton, Parker and O'Sullivan, but Foster Gunnison had to sell his. Gunnison's inventions came later. Do you ask, "Who is this Gunnison man?" Well, he is a great inventor, not yet famous. But unless I miss my guess, he is America's post-war Henry Ford.

Gunnison invented a prefabricated house and worked out a plan to build it in mass production. His units were scientifically constructed, insulation built in, thoroughly modern in every detail. Individually, his house models are so different that a tourist might drive past a 100 of them in row and never guess that they were drawn by the same architect.

Alike and Different

I could talk for hours about Gunnison houses. They come in eight sizes with great variety in looks. They are far better than any house possible to build of old-line materials for the same money. They have everything from bathtub to garbage grinder, economy and convenience; a poor man's palace, amortized to a \$1 a day. But the inventor sold to the U. S. Steel Corporation—Why?

He lacked capital, and under today's tax laws, never could make much profit. The giant corporation can run the project in the red and deduct early losses from war profits, most of which the government will take anyway. Unless our war-time tax laws are changed, every fertile idea in this inventive nation will have to hatch under the wing of some huge corporation that exists already.

Sgt. and Mrs. Bill Moore and son, Jimmy, of San Angelo left Thursday after visiting here with Mr. and Mrs. O. T. Sudduth and Mr. and Mrs. W. W. Sudduth and daughter, Barbara. Mrs. Moore is a sister of O. T. and W. W. Sudduth.

Mrs. Berta Clark Lassiter and son, Carroll, left Thursday to return to their home in Alpine after two days visit here this week. They will leave next week for Hayden, Arizona, to spend the rest of the summer.

SUBSCRIPTION PRICES (TO BE PAID IN ADVANCE)
One Year \$2.00 Six Months \$1.25

With Our Neighbors . . .

THE UVALDE LEADER-NEWS
—Because of the steady increase in postal receipts at Uvalde during the past few years and due principally to the fact that they far exceeded the \$40,000 minimum required during the past fiscal year, the Uvalde post office automatically was advanced to a first-class office on July 1. Postmaster J. P. Molloy announced this week.

THE MONAHANS NEWS
—Success of the proposed Monahans Country Club was virtually assured it was disclosed after a meeting of the organizational group Monday night, June 25th at the Monahans Golf Course club house.

It was announced that better than one third of the necessary one hundred members had paid their entrance fee and pledges had been obtained to total more than half the minimum memberships. The drive has been underway two weeks.

THE ALPINE AVALANCHE
—Members of Highway 67 association were assured by the State Highway commission at the hearing held in Austin Monday that the gap between Alpine and Fort Stockton would be paved and other improvements made on the road just as soon as conditions would permit and that the Highway 67 program stands No. 1 on the commission's list.

THE OZONA STOCKMAN
—Despite the fact that the Seventh War Loan drive had just been completed in the county with total purchases of \$413,000, the financial condition of Crockett county showed unprecedented strength in the statement of condition of the Ozona National Bank at the close of business on June 30.

A gain of nearly a half million dollars in financial assets of the county was registered in the three months period from the last statement of the bank on March 20, deposits showing such gain in the period.

THE BIG BEND SENTINEL, MARFA — Wrangling between representatives of Texas cities as to the proposal that U. S. Highway 67 be named "Big Bend Trail" highlighted the appearance of Texans before the State Highway Commission in Austin Monday.

Fort Worth representatives protested the suggested name on the basis that all highways leading to this section might be referred to as "Big Bend trails." Dallas, it asserted, was interested in the naming of the highway "Big Bend Trail" because it is the chief city on the highway. The highway does not go through Fort Worth.

THE FORT STOCKTON PIONEER—Jim Espy of Fort Davis won the matched calf-roping contest over George Teague of Crane by three seconds in the special exhibition of events staged Sunday afternoon here at the grounds of the Fort Stockton Cowboy Club.

Misty weather made the field excellent and it was not till near the end of the show that the rain became heavy enough to handicap the contestants. In the four jack-pot calf roping contest the winners and their times were as follows: Howard Westfall, 11.8 seconds;

Ralph Scott, 13; Jim Espy 13.4; and Lanham Riley, 11.8 seconds.

It Happened In Sanderson TEN YEARS AGO This Week — Remember

Miss Evelyn Robbins and brother, Ervin Robbins, who visited here with their sister Mrs. F. M. Weigand, returned to their home in Jacksonville Ill. last Friday.

Mrs. N. E. Charlton and son John Fisher, left last Friday for Denver, Colo. where they will visit relatives.

Mrs. Greene Cooke and children returned Sunday from Camp Wood where they went last Wednesday to visit relatives.

Mr. and Mrs. Fred Hoey of San Antonio spent the week end at the ranch with Mrs. Hoey's parents, Mr. and Mrs. J. C. Mitchell.

Mrs. J. Q. Happle and daughter, Miss Mary Alice, left Thursday for Lansing, Mich. where they will visit their daughter and sister, Mrs. Kurt H. de-Cousser, the former Miss Irma Happle.

Mr. and Mrs. John F. Nichols and niece Beatrice Nichols, returned home the latter part of last week from a visit with relatives in Floyd, Texas.

Mrs. J. F. House and daughters, Misses Bessie and Virginia of Carrizo Spring came in the latter part of last week to visit with James House and family.

W. A. Osgood of Fabens is spending this week in Sanderson visiting his uncle, J. L. Osgood.

Mr. and Mrs. E. J. Chastain and son, accompanied by Ethel Laura Nance and Lillian Harrell left last Friday for San Antonio where they will visit Mrs. R. E. Stirman. They will also visit in Pearsal before returning home.

Frank and Flora Bess Daugherty of Alpine came in Tuesday for a visit with their uncle and aunt, Mr. and Mrs. Clyde Higgins.

FOUR HOURS VERSUS FOUR DAYS
CHICAGO—Air transportation is aiding northern farmers who raise crops for the canneries. Recently 320,000 tomato plants shipped in two planes, were moved from their Georgia growing field to a northern point in four hours instead of the usual four days required by ground transportation. Thus, it was possible to transplant many of the tomato plants the same day they were lifted from the field.

Air Mail envelopes at the Times

CHIROPRACTORS SEEK LICENSES FROM STATE

San Antonio, Texas, July 13—Prediction was made today by President Hugh Warren of Texas State Chiropractic Association that the next session of the Texas legislature will pass, without any doubt, the Chiropractic licensing chiropractors have been seeking for nearly thirty years. He further declared that a law which will stand the test of courts will be passed.

Dr. Warren based his prediction on surveys made at the recent session of the Texas legislature when such a law was passed by the House by comfortable majorities but failed to get up in the Senate when it, like other measures, met the unusual requirement that a two-thirds vote be required to bring up a measure. Action in getting the law before the Senate before that rule was applied was delayed by other unavoidable complications.

"I also base my predictions on the fact that we know beyond any doubt now that the people of Texas want Chiropractors licensed", said Dr. Warren. "We have proof of this in the fact that convictions of Chiropractors under the present medical practice act are practically impossible. I believe the people of Texas are going to have what they want in the end and that our members of the legislature who so ably represent them will see that the people's wishes are carried out."

Warren, despite the fact that the Chiropractic licensing law failed to pass, had nothing but praise for members of the legislature declaring that a clear majority of both houses wanted to pass the law, the Senate being unable to so because of the enforcement of the two-thirds rule.

"We will be ready for the next session", said Warren. "In the meantime we will continue our program so that the people of Texas may know the benefits of this great healing art which now has 50 years of success behind it."

GAIL RUSSELL SEEN IN "THE UNSEEN" SUN, MON.

A trio of screen headliners, Gail Russell, Joel McCrea and Herbert Marshall is partly responsible for the success of "The Unseen," a Paramount picture which plays Sunday and Monday at the Princess Theatre. Not to slight other connected with this fine production, however, credit also goes to Lewis Allen, the director and Hagar Wilde and Raymond Chandler.

"The Unseen" is a tense dramatic story laden with the kind of suspense conducive to goose pimples and such. There are not many moments for audience relaxation in this mystery film—the rapid pace of events doesn't allow for it. For comparison's sake, "The Unseen" might be said to have many of the same elements of "The Uninvited," "Suspicion," "Gaslight" and others of that type.

OFFICIAL STATEMENT OF FINANCIAL CONDITION OF THE SANDERSON STATE BANK

at Sanderson, State of Texas, at the close of business on the 30th day of June, 1945, pursuant to call made by the Banking Commissioner of Texas in accordance with the Banking Laws of this State.

PROPOSAL MADE FOR REVISION OF SCHOOLS

Austin, Texas, July 13—Public school training for children from the time they are four years old until they are 18, with universities offering only junior senior, master, and doctorate work has been proposed by a University of Texas educator.

Dr. Frederick Eby, long-time professor of education at the University, and a proponent of the junior college, believes that the school system can be re-organized for more efficiency and more economic utilization of funds.

"Education is still half a century behind the times," Dr. Eby said. "Our institutions are in the hands of men who have little vision, and who lack sufficient training in educational philosophy and science."

Changes in the school setup which he suggests are: Kindergartens for children from 4 to 6 years old; six-year elementary schools, followed by four year intermediate school followed by a four-year college setup. The latter schooling would take the place of the last two years of high school and the present junior colleges.

"Universities should shift freshman and sophomore work to the colleges, confining their teaching from the junior level

up. Such a program would be economically more effective, and would give us an educational system in keeping with the American leadership in the culture of the world," he said.

FLORIDA TAKES CENSUS BY PLANE

TALLAHASSEE — W. Dewey Hilsabeck, state census enumerator for Dade County has been using an airplane to count Seminole Indians in the Everglades and tracking down inhabitants on the Peninsula State's keys.

U. S. MARITIME SERVICE LOWERS WEIGHT MINIMUM

Lt. (jg) A. F. Thomson, Regional Enrolling Officer for the 10th Area of the United States Maritime Service was notified today by the Medical Section of National Headquarters that the physical standards for apprentice seamen enrollments has been modified to permit the enrollment of men with a minimum weight of one hundred and twenty (120) pounds. Formerly the minimum weight was one hundred and thirty (130) pounds.

Lt. Thomson pointed out that this modification was made in view of the urgent need for men at this time. He hopes that this modification of physical requirements will aid materially in the efforts to meet the recruiting quota of two hundred (200) men per week which has been assigned this area.

Eligible men, 17 to 50, who can meet the revised physical requirements should apply immediately to the United States Maritime Service Enrolling Office in Houston, Dallas, Galveston or Port Arthur, Texas.

RATIONING

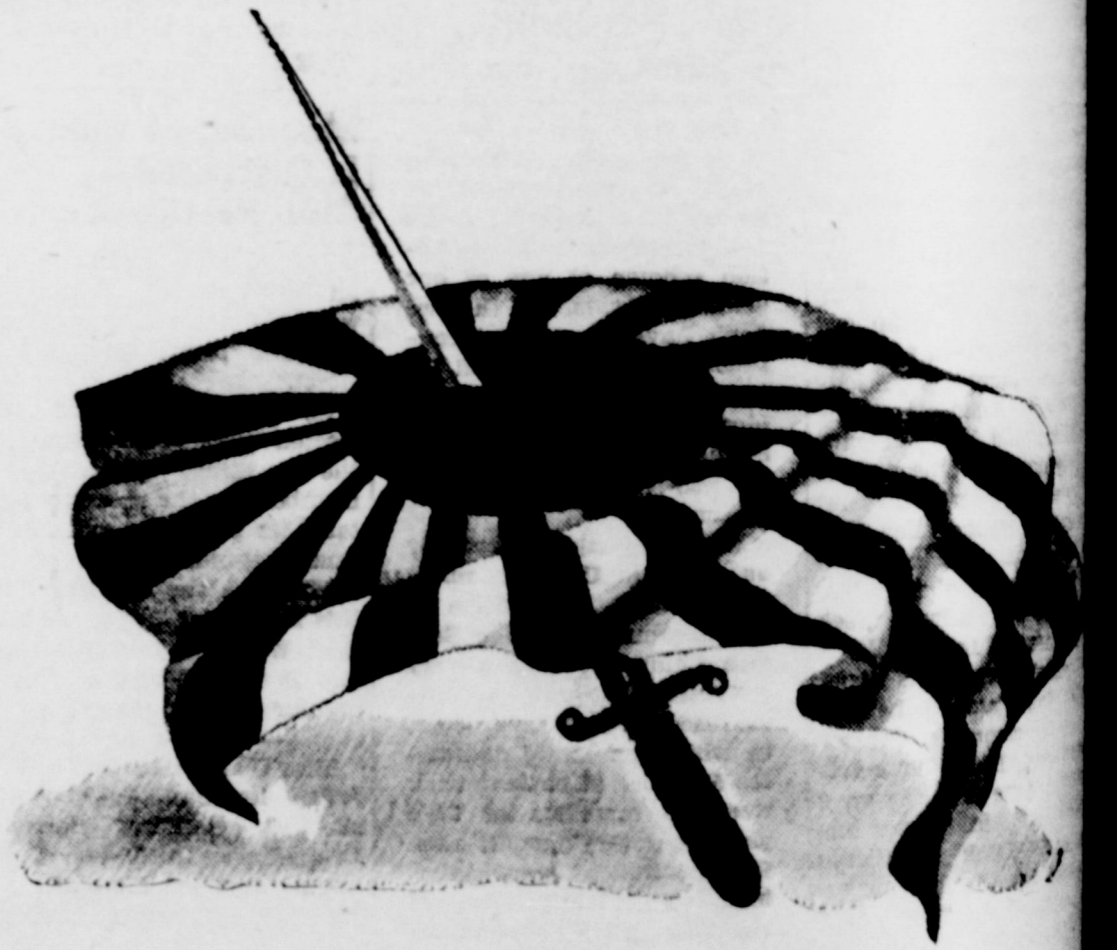

MEATS, FATS—Red K2 through P2 are good through July 31. Red Stamps Q2 through U2 are good through August 31. Red Stamps V2 through Z2 are good through September 31. HARA-KIRI ISN'T THE ANSWER!

As a method of Jap self-extermination, Hara-kiri has proved an efficient ally.

But who wants to wait for all of Japan to fall on a sword and call it quits?

No, Hara-kiri won't win this war. Wishful thinking won't win it either. This is a job for MacArthur and Nimitz. For G. I. Joe and a guy named "YOU"!

Now MacArthur and Nimitz and G. I. Joe can handle their end, as the record shows.

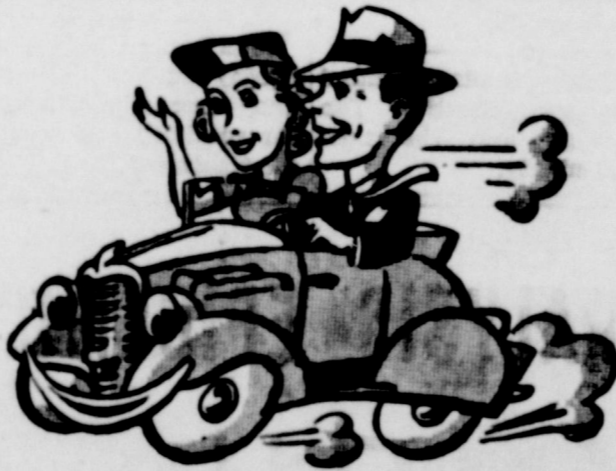

But how about YOU?

Your job at present is simply this: Keep on buying War Bonds—week-in, week-out—until final victory is ours. Buy on the Payroll Saving Plan; or buy on your own plan. Keep on digging into your wallet for every leaf of folding green you can spare and sink it into every bond it will buy! These bonds are your stake in America—today and tomorrow.

HEALTH OFFICER OUTLINES CARE OF BABIES

Austin, Texas, July 13—Milk is an infant's natural food; nevertheless, milk plus heat, dirt, and flies has killed many thousands of babies. The intestinal diseases that attack babies in summer are, according to Dr. Geo. W. Cox, State Health Officer largely caused by germs carried in milk and water. Unclean or contaminated water can be as harmful in causing infant diarrhea as contaminated milk. Thousands of babies grow and keep well in Texas every year because they are given the right kind of care and the proper attention is given to the preparation of their food. The right kind of care includes keeping in close touch with the baby's doctor at all times; a regular daily schedule for sleeping, feeding and bathing; sufficient time in the outdoor air; and carefully supervised exposure to sunshine—all the precautions can be important factors in keeping the baby well at all seasons of the year. In addition to benefiting the baby, this type of routine allows the mother more time for her household duties and much needed rest periods.

"The baby should wear a minimum of clothing and should be handled as little as possible," Dr. Cox said. "A smooth, flat comfortable bed for the baby with no pillow and with plenty of fresh air will help him to sleep and rest."
 The State Health Officer emphasized the importance of keeping the baby constantly protected from flies, mosquitoes, and other insects which may transmit diseases. Dr. Cox said that pamphlets outlining the proper care of the baby may be had free upon request to local health departments and the State Health Department.

Treasurer's Quarterly Report

REPORT OF BEN F. DAWSON, County Treasurer of Terrell County, Texas, of Receipts and Expenditures from April 1st to June 30th, 1945, inclusive:

Amount to Balance,	13.63

AVAILABLE ROAD SINKING FUND	
Balance last Report, Filed April 9, 1945	\$ 439.00
To Amount received since last Report,	164.23
By Amount paid out since last Report, Exhibit	500.00
Amount to Balance,	103.65

THE STATE OF TEXAS
 COUNTY OF TERRELL
 Before me, the undersigned authority, on this day personally appeared Ben F. Dawson, County Treasurer of Terrell County, who being by me duly sworn, upon oath, says that the within and foregoing report is true and correct.

BEN F. DAWSON, County Treasurer.
 Sworn to and subscribed before me this 9th day of July, 1945.
 M. H. GOODE, JR., Clerk County Court, Terrell County, Texas.
 By Wanda J. Bost, Deputy.

General "Ike" Eisenhower of the Nazis, brought back to America the thanks of all service men for the services they receive from the National War Fund, as a result of public gifts.
 In one of his first public appearances, the Allied commander declared:
 "But this connection of yours with the battle line is no impersonal thing. Your quotas on the battle line prevent any such idea creeping into our thinking. And you can do no more than merely your share in producing the arms and equipment to save American lives. There is a spiritual side to the soldier's life that is often starved. I mean his opportunities for recreation for feeling close to his home folks. One of the ways that that can be helped is through the entertainment sponsored by the USO. It is something that deserves your support just exactly as does the Red Cross. They have done magnificent work and sent great artists to the field that have made the soldier feel he was back on Broadway almost."
 With your energy sustained at the full, our soldiers fighting in the Pacific, and by soldiers I mean all fighting services, not merely land armies, the victory in Japan is certain."
 USO and other National War Fund agencies are supported entirely through contributions to local and community war chest organizations throughout the nation. And now, from General Eisenhower, himself, the generous donors who help make up Texas annual contribution of almost \$5,000,000 have proof that the funds they provide are definitely helping win the war.

"THE AFFAIRS OF SUSAN" AIRED AT THE PRINCESS

There's a new Joan Fontaine in Paramount's "The Affairs of Susan," playing at the Princess Wednesday and Thursday. She's gay, she's glamorous, she's romantic. She's got what every woman wants, multiplied by four—a man for every mood. The handsome four-some is George Brent, Dennis O'Keefe, Don De Fore and Walter Abel who woo and of all things, win her, in a mad dash for the altar. Of course, only one hits it off, but their romantic ups-and-downs make for entertaining film fare.
 After such dramatic successes as "Suspicion" and "Frenchman's Creek" Joan has the time of her life kicking up her heels as the unpredictable Susan.

Thomas Bryan arrived Wednesday from Fort Worth to join his wife and daughter, Doris, in visiting Mrs. Ida Bodkin and Mr. and Mrs. H. E. Fletcher.

We have an ample supply of pre-war Shampoos and Tonics for proper care of your hair.

War Brings Blending Of Old and New to Pacific Islands

SOMEWHERE IN THE PACIFIC (Delayed) - War has wrought countless changes in the islands of the Pacific, producing a curious blend of the old and the new, according to Sgt. Bill Ross, Marine Corps combat correspondent.

Everywhere Americans have gone, they have taken modern implements of destruction and construction. From Guadalcanal to Okinawa, changes—far-reaching changes—have been made.

But, somehow, the natives retain much the same customs, the same outlooks and ways of life they had when Marines, Seabees and doughboys first arrived to drive the Japs away.

Learn to Drive Jeeps
On this island, some natives have mastered the art of driving a jeep. And some use modern American tractors, built in Peoria, Ill., to till the soil of their productive farms. Most of the islanders, however, still rely on oxen as the locomotive power for their plowshares and as automotive power for their ancient two-wheeled vehicles of transportation.

Until a short time ago, the sight of airplanes in the sky occasioned wondering audiences from wide-eyed natives. Now the islanders scarcely bother to look up when mighty formations of American bombers wing across the heavens. Many of the native youths pride themselves on

being able to identify the silhouettes of our craft.

Use American School Books

Native children attend American schools, study American textbooks, sing American songs play our games. But when "school's out," they swim, hunt and fish in much the same ancient manner as did their ancestors 100 years ago.

On work-a-day occasions, the islanders dress in a combination of clothing, utilizing salvaged garments from the armed services—both ours and the enemy—combined with strictly native haberdashery. It's not unusual to see a native with Marine dungaree trousers, and old Jap navy blouse, a hand-woven straw hat and probably, slippers made of worn-out rubber tires. But on festive days, they dress in their traditional finery—just as they did in years gone by.

Jitterbugs and Native Dances
Jitterbugging also has been "accepted" by the residents and teenagers can and do "cut a mean rug," to put it mildly. However, when all is said and done, they prefer the traditional native dances which are definitely slower and more romantic. And an old-fashioned fiesta always holds substantially more appeal than a even a Betty Grable technicolor super-duper straight from Hollywood.

You'll see many native families partaking of American canned food—but somehow, their basic diet is always home-grown—produce of the island's fields and trees.

The islanders are deeply grateful to the Americans for having driven the Japanese away. They are appreciative of the improvements brought by the Americans.

But more than anything, they are thankful for freedom—being allowed by the Americans to live their own lives, just as they always have.

ODD PLACE CARGO

MIAMI—Insect eggs and toads from the Argentine to combat the insect pests in the Florida sugar cane region, fertilized fish eggs from the United States to Peru to improve the fish in Lake Titicaca, are among the strange cargoes moved by air transportation. One of the oddest shipments was a package of facial tissues sent by a Porto Rican to a girl in New York.

Mrs. Shelby Blaydes and son, Skipper, returned to Fort Stockton Wednesday after visiting here with her brother-in-law and sister, Mr. and Mrs. W. W. Sudduth and daughter, Barbara.

TERRELL COUNTY HAS VOICE IN WAR CHEST

Terrell County, which contributes generously to the National War Fund, is represented in the official family of the United War Chest of Texas, which directs the annual campaign "for our own and for our allies."

The local civic leader who serves on the board of directors of the state war chest and helps set policies governing the war fund program in Texas is Mrs. Mary Mitchell.

Board members, who meet annually in Austin, are the guiding directors of all phases of the Texas drive. The board, composed of members representing every county and every strata of Texas citizenship, establishes general policies, acts on acceptance of the state's war fund quota and goal, sets the sum to be budgeted for expenses of the campaign, employs the general manager of the state war chest passes upon all financial matters and, through the executive committee and several specialized committees, assigns local quotas and directs all other phases of the vast program.

Thus this county, as all other Texas counties, has a definite and emphatic voice in the operation of the war chest program, through its local leaders who are members of the board or of the various important committees.

TEXAS SOCIETY FOR CRIPPLED CHILDREN MEETS

COMMERCE, TEXAS, July 12—Directors of the Texas Society for Crippled Children will meet in Dallas July 21 to lay plans for a greatly expanded program including the establishment in Dallas of a convalescent home according to Dr. Sam Whitley of Commerce, president of the Society. The proposed home is to be in the vicinity of the new Southwestern Medical Foundation.

New Texas legislation providing special educational services for Texas' thousands of exceptional children has released the full facilities and resources of the Texas Society for Crippled Children to the locating, procuring of medical treatment and rehabilitation of the handicapped child. Dr. Whitley pointed out the recently passed bill, drafted and sponsored by the Society, is the result of long range planning by which the Society has enlarged the educational services of Texas to provide for less fortunate children who previously have had little or no opportunity for education.

Use of masks at costume balls originated in Italy.

Fort Lawton Praises T-5 Tony Esqueda's Pastry Masterpieces

J. P. Olivares received a letter Monday from Technician Fifth Grade Tony Esqueda, who is stationed at Fort Lawton, Washington, in which he enclosed a clipping from the camp newspaper.

The story clipped is a tribute to the bakers on the post and follows in part:

"Let's take a vial walk over to the bakery at No. 1 Mess Hall. It's not a large bakery, pretty cramped quarters in which to prepare the immense amount of pastry that feeds most of Lawton. How many of you that have gone back for seconds on that sweet cherry pie or thought that the chocolate cake was worth another trip to the serving line? True, we often think of the cake or the pie . . . or the doughnuts but how often do we think of the man who made them? So . . . I'd like to introduce you to the seldom seen, seldom heard of man behind the pastry putout, T-5 Tony Esqueda.

"Tony hails from the wide-open plains of Texas—Sanderson, to be exact—and started his cream-puff career at the ripe old age of 11. That's NOT a missprint. At 11 Tony started to work in his dad's bakery and has continued in that line until the present time. He baked bread and cakes in Del Rio, Denver, San Francisco and Los Angeles. For a good number of years he conjured cookies for the National Biscuit Company. So you see when you sink your molars into the juicy delectable hunk of fresh apple pie, you're not exactly being practised upon by an amateur, you're eating the everyday masterpiece of a chef who in the past drew down 75 smackers a week for putting out the same dessert that you take for granted seven days a week.

"Perhaps three years from today you'll slap down four-bits for a similar piece of pie made by the same man . . . the only difference being that the pie will be garnished with a plop of ice cream and on a white plate. We might add also (to the interest of the gals that think man's place is in the home) that Tony is already married with three little Esquedas valiantly trying to "bake as well as papa does."

"Remember, you won't see Tony; you won't hear Tony; but the next time you find cinnamon rolls on the menu just pause a moment and give a thought to the men that made 'em. The bakers deserve far more credit than they ever get. Not only Tony but the others that this column will eventually get around to introducing. Don't forget, some of the ablest cooks in the country have a personal interest in your tummy."

Esqueda has a brother also in the service, Genaro Esqueda.

Mrs. J. W. McKee returned Friday from Excelsior Springs, Missouri, where she has been for the past month. During her stay there she went through the clinic.

C. G. Bradford, superintendent of schools, arrived here Thursday to establish his home. His wife and family joined him here Friday.

Lt. and Mrs. D. F. Sudduth of Marfa visited here Thursday with his brothers and families, Mr. and Mrs. W. W. Sudduth and Mr. and Mrs. O. T. Sudduth.

★ TERRELL COUNTY HEROES ★ ★ ★ IN SERVICE ★ ★

LOUIS FERRELL WOODWARD

was born October 15, 1922, in Fort Stockton, Texas, the son of Mr. and Mrs. Fannie Woodward, Sheffield, Texas, who moved to Terrell County in 1925, making their home in the northeast part of the county. Louis attended school for three years in Sanderson, finishing his grade and high school years in McCamey, where he graduated in 1940. Afterwards he attended Sul Ross College at Alpine for two years, volunteering for service in November, 1942. Louis got Infantry training at Fort Benning, Georgia, and Columbus, South Carolina, until August 6, 1943, when he shipped overseas from Boston, landing in Iceland August 12. After eight months in Iceland, during which time he was given Ranger training and did security patrolling, he went to England in April of 1944 and saw action in France, Belgium and Germany. Seriously wounded January 18, 1945, Pfc. Woodward returned to the States May 7 of this year and is at present at McCloskey Hospital, Temple, Texas. He served with the Second Infantry Division and wears the Purple Heart.

USED 1942 CARS RELEASED FROM RATIONING

Used 1942 automobiles were removed from rationing on July 2, Leo H. White, consumer durables officer of the San Antonio district Office of Price Administration, today told Carl B. Cochran, chairman of the local War Price and Rationing Board.

These cars have been rationed since March 6, 1943. Cochran said, but on a far less restrictive basis than the new 1942 models which will remain under rationing.

Principal reasoning for the rationing of used 1942 cars was that they were generally the best automobiles in the country aside from the new 1942 cars in stock, and they were therefore restricted to the most essential uses. But this no longer holds true, Cochran explained, continued rationing is unnecessary.

"Many of the used 1942 cars have been driven by public officials, doctors, and war workers who travel long distances. The cars have had more mileage and more hard usage than some earlier models that have driven

fewer miles. Even in cases where 1942 cars were carefully conserved, sufficient time has passed since they were placed in service to make it doubtful whether they are better vehicles than some older cars."

MICE OVER THE HUMP

CALCUTTA—Mice, too, need oxygen when over 18,000 feet in the air. This was a discovery made by the Chinese-British Scientific Cooperation Institute recently when they had 100 white mice flown over the hump for scientific experiments.

Fat-Salvage Bee To Aid in Licking National Fat Shortage

It's been ages since we had old-fashioned "bee" in the parts, but just as we're about pitched in to help a neighbor must we pitch in for our country. To help make hundreds of battlefields and home-front essentials, more used fats are needed than are on hand. Citizens are trying to make up a deficit of over 1,200,000 pounds. But their fats are enough. Women in small cities and rural districts must also conserve every drop of fat. Not just amounts. But scraps of plate meat trimmings. Melt down once a week. Your butter will give you up to 4¢ and 2¢ points a pound. If you have difficulty, call Home Demonstration or County Agent. Approved by WPA and OPA. Paid for by Industry.
