Meal tickets may be purchased for elementary students and register.

Farr save.

All high school students are to report to room 5. Sophomores to band.

First Amateur Rodeo
To Be September 7-9

Friona’s Junior Chamber of Commerce, having recently completed a successful Junior rodeo and a quarter horse show, is making plans for another event.

The Stables will be the Friona Cowboy’s Frontier and there will be one show each day at 8 p.m.

Entry fees will be: roping, $3.50; bare back bronc riding, $4.50; saddle bronc riding, $5.00; bull riding, $5.00; bulldogging, $2.50; barrel racing, $5.00; barrel racing, each, last place winners, $5.00 each, barrel racing.

Friona Sheriff Makes Three Arrests

Four arrests were made last week by the Friona County Sheriff’s Department.

One of the arrested men was booked on a charge of forgery.

New Post Office Boxes Installed

In order to meet the needs of a waiting list, 90 new boxes were installed at the Friona Post Office last week.

First Sixty Entries For City Swim Meet

Sixty entries have been received for the first annual Summer Swim Meet at the new pool scheduled for July 27 at the Friona swimming pool.

New Sheriff Makes Three Arrests

For “Back-To-School” Needs, See Inside Pages

Walter H. Farr, superintendent of schools, this week announced the schedule for school registration.

Registration for grades 9 through 12 is slated for Friday, August 25, and classes will start the following Monday, August 28.

The schedule will be from 9 a.m. through 4 p.m. and will report to school Monday, August 28.

Each student will be responsible for registering and checking with the registrar to be sure the classes for the next year will be correct.

Since that time, lights have been installed at the arena and the arena is now a complete facility.

Installation of the new boxes total the number of boxes in the post office to 767.

Shave Permits will be the order of the day during the next several weeks as Friona residents get ready for the annual Maize Days celebration. All persons who are going to grow beards must bring a shave permit for $1.

The committee will have a list of all persons who have registered and a list of all persons who have not registered.

Serving as chairman of this event is Charles Stone.

Editorial Comment:

Tax Creates Problems

Texas finally has a sales tax, and along with it some very strange problems. Just how many problems, and what will be the widespread effects of the new tax, we do not know. But, as the state collecting agencies, com- panners, and businessmen all will quickly find out, things aren't going to be quite like the "good old days" when the sales tax goes into effect.

The tax has many rough edges which will have to be pieced over, before it can be administered smoothly throughout the state. Many of these "rough edges" are apparent even before the tax goes into effect, and unless the state comptroller will be required to define just what items are taxable and which pieces of merchandise aren't, it won't be possible for everyone to get a clear understanding as to what constitutes "necessity of life," and subsequently what articles will be taxable and which pieces of merchandise aren't. As has been graphically illustrated by various news sources during the past week, this isn't going to be an easy job. The tax law specifically states that outer wearing apparel coating less than $10 will not be taxable. Naturally, overalls and shirts, blouses and dresses will be taxable while under garments apparently are not. Beer and liquors will also be exempt from the sales tax, because a high percentage of the cost of these beverages is tax away.

However, even though beer and liquor aren't taxed when purchased by the package, they will be when purchased by the case, when consumed in restaurants, when consumed in soda fountains, when consumed in soda machines, and in any other manner when consumed with a meal, and not taxable at all, in all circumstances, apparently, because of the tax on food consumed in a restaurant. The sales tax on food consumed in a restaurant probably came about because eating somewhere other than at home isn't considered "necessary," even though one has to eat to live, just as the farm families have to eat to remain on the farm. Only food items are exempt, while soap, furniture, and machinery, will also be taxed. The logical behind this seems to be that, unless a person wants to take a bath, wash dishes, or sweep the floor, "necessities" of life aren't needed by both the rich and poor alike, and therefore taxable. The logic behind this seems to be that everyone has to eat, but it isn't necessary for everyone to eat in a restaurant. The sales tax on the food consumed at a restaurant will be the widespread effects of the new tax. The sales tax is probably one of the most proportion with the cost of equipment, any way.

Just how many problems, and what will be the widespread effects of the new tax? The sales tax has its inequities and in- fluences the shopper's choice, and help to develop a stronger base of customers. Although the cost of cheese In- creases the shopper's choice, and help to develop a stronger base of customers. Although the cost of cheese increases, that it won't be long before most of the exemptions are done away with, and Texas will have a general sales tax. In all this time he had to get leadership experience if he was going to be an effective leader. Then he played his ball without any mighty swing, he coasted the ball but he lost the one side of the bat that side. He then swung again but hit his other side of the bat. In all this time he had to get leadership experience, and the lawn mowers were left alone who had lawn in the middle under the building.

The sales tax has its inequities and influences the shopper's choice, and help to develop a stronger base of customers.
**On The Move**

Mr. and Mrs. W. M. Kueper from Stanford have moved to 809 Woodland. They have moved from 1112 Euclid St. Jan. 1st. Their home at 410 W. 6th. is for the male harvest.

Mr. and Mrs. W. R. Brunk and family have moved from 410 W. 14th. to 104 W. 16th. They have moved from Weatherford, Okla. Mr. and Mrs. Brunk have returned from five years overseas. Theiet home in Weatherford is for rent to the younger generation.

Mr. and Mrs. Harry Bingham from Weatherford, Okla. Mr. and Mrs. Bingham have moved from 226 W. 9th. to 303 E. 10th. They are living in Weatherford and working in Clovis.

Two Parties Anthony
Patsy Ruth Anthony

Two Silver Anniversary Parties were held recently, one in honor of Mr. and Mrs. Ralph Mc-"Nair, the other for Mr. and Mrs. J. M. Tootle. The first Silver Anniversary Party was held for Mr. and Mrs. Ralph Mc-Nair. Mrs. Mc-Nair was the scene of a picnic celebration with a kitchen shower in the home of Mr. and Mrs. L. L. Cottrell.

A bridal shower was a big success for the new couple, Mrs. and Mrs. J. M. Tootle. The shower was held at the Friona Club House. Mrs. Tootle was the hostess and assisted by her sister, Mrs. Patsy Buske. Mrs. Tootle and Mrs. Buske met at the Lake Frio Club House Friday evening. Gifts were given to the happy couple, and the atmosphere of the party was one of joy and happiness.

The party line golden rule
People on telephone party lines have a daily opportunity to practice the principle of the golden rule. Sometimes, when you pick up the receivers you expect the party line to be free. But your-call is delayed only when the party line is in use for the convenience of the party line user. So the best rule for party line users is the golden rule. To put it simply "Do unto your party line neighbor as you would have your party line neighbor do unto you."

Something to Think About

6th Street Church of Christ
( inか the discussion of Christ's
talk about His church. Jesus
despised the idea of a church
that was not a place of service
and devotion, but a place where
people could be socialized and
enjoyed. This is a common
tendency today, where
churches are being used as
social centers rather than as
places for worship and service.
Jesus said, "Ye are the
church of God, which is in
Christ Jesus," and He went on
to say that the purpose of the
church is to serve and glorify
Him. Therefore, we should be
vigilant in making sure that
our churches remain true to
this purpose and not allow
them to become mere social
centers.

First Annual Meet For
Bowling Association

The Friona Women's Bowling Association will hold its first official annual meeting tonight at 7:30 p.m. Each member will receive 25 cents toward the operating expenses of the Association. Those interested are urged to attend.

THE HIGH PLAINS FARM AND HOME

Vote On Wheat Quotas
Set For August 24

Farmer County wheat fa-
mers will get an oppor-
tunity to vote on whether
they will receive payment
for using their wheat for
making feed in the sur-
émbol periods, or whether
they will receive payment
for growing the crop for
making feed for livestock
in Georgia. The vote will be
held at the county seat on
Monday, August 24, along
with other items on the
county's agenda.

If the marketing quotas are
approved by at least two-thirds
of the voters, a new wheat
marketing program, recently
approved by congress, will be
in effect for the 1963 crop.

The proposal was made at
a meeting of the Farm Bureau
Federal Relations Commitee.

In announcing the referen-
dum on the marketing pro-
gram, Administrator of Agri-
culture Oliver Fowlen held
that Farmers make is extremely im-
portant to them and to the rest
of the nation, to vote on whether
the program should be in effect
for another year.

for another year.

Thursday, August 24, along
with other items on the
county's agenda.

If the marketing quotas are
approved by at least two-thirds
of the voters, a new wheat
marketing program, recently
approved by congress, will be
in effect for the 1963 crop.

The proposal was made at
a meeting of the Farm Bureau
Federal Relations Commitee.

In announcing the referen-
dum on the marketing pro-
gram, Administrator of Agri-
iculture Oliver Fowlen held
that Farmers make is extremely im-
portant to them and to the rest
of the nation, to vote on whether
the program should be in effect
for another year.

Check Grain Storage
Before Harvest
Three major stores are the first symptoms. These, one or two little may die. In a few days or weeks the entire tree or fruit die. Cultivars are frequently not controlled in the host tree. Watch for these telltale signs of infected trees or shrubs; usually the damage is quite obvious. The disease is very common in Texas and elsewhere.

Mushroom Root Rot
Kills Trees And Shrubs
Mushroom root rot is one of the most common root rots of shade trees and shrubs. Peach and plum diseases are frequently not controlled in the host tree. Watch for these telltale signs of infected trees or shrubs; usually the damage is quite obvious. The disease is very common in Texas and elsewhere.

Sheep Industry Important To Texas
Sheep and lamb slaughter is a significant component of the overall livestock industry in Texas. In 1961, over 50 percent of the nation's sheep and lamb were slaughtered in Texas. This figure has remained relatively constant since then. Although the number of sheep and lambs slaughtered has fluctuated over time, the percentage of the national total has remained relatively stable. Sheep and lamb production is important to the state's economy, providing jobs and income for many Texans.

Cattle Theft Is Still A Problem
Cattle theft is a serious problem in Texas and throughout the United States. According to the National Council on Crime and Delinquency, cattle theft is one of the most common crimes committed by juveniles. In Texas, cattle theft is often committed by groups of juveniles who work together to steal cattle.

Noisy Cows
Horns are an important part of the cow's anatomy. They are used for protection, communication, and sexual signaling. When cows are noisy, it may indicate that they are under stress or excitement. It is important to monitor the behavior of noisy cows and take appropriate action to ensure their well-being.

Extension Releases Publication On Insects
Insects are a major threat to agricultural productivity. The extension services of the Texas Agricultural Extension Service have released a new publication focused on insect pests. The publication covers the identification, biology, and control of various insect pests that affect crops in Texas. It is available to Texas farmers and gardeners.

Effects Of St. Lawrence Seaway On Grain Exports Reviewed
The opening of the St. Lawrence Seaway is seen as a potential boon for grain exporters. The seaway will provide a new route for the export of grain from the United States to Europe, reducing transportation costs and increasing the competitiveness of U.S. grain in European markets.

Cattle Marketing during the First Five Months of 1961
Cattle marketing during the first five months of 1961 was strong. The number of animals marketed was up significantly compared to the same period in 1960. However, the average price per head was down, and the net income for cattle producers was lower than in 1960.

Potatoes Moving, But Price Is Low
Potatoes are moving, but the price is low. The season's early potatoes are selling at about $1.50 per bushel, while the late potatoes are fetching about $1.25 per bushel. The low prices are due to a large crop and increased competition from other crops.
