Last Saturday evening in the banquet room at the Sanderson High School building, the Sanderson Lions Club were hosts to the 1946 football squad, their coach, C. A. Etheridge, Supt. C. G. Bradford and Pete Sikes, Coach of the San Angelo Junior College, when they gave their annual banquet.

The long banquet table was laid with a white cloth and down the center, at intervals, were football helmets containing maroon and gold mums, and on the piano was a football shoe which contained flowers. At the speakers table the center was a miniature football field complete with gold posts which were wrapped in black and orange, the school colors. Places were marked for the squad, with miniature footballs cut out of paper in gold and black with the name of each player on the outside. Inside leaves gave the program, the menu and the names of the boys who made up the squad for 1946.

The banquet was served in four courses, with the main course being roast turkey with all the trimmings. Serving the banquet, which was prepared by various ladies, were the following high school girls: Betty Sue Yeates, Betty Jo Beckett, Betty Ann Peavy, Carolyn Courtney, Cecelia Goode, Birdie Turner, Mary Agnes Frazier and Mary Nell Gales.

Following the invocation given by Rev. Lawrence Menefee, the address of welcome was given by W. W. Sudduth, president of the Lions Club, and David Thompson, a member of the squad, gave the response. A toast was given by C. G. Bradford and Coach Etheridge then introduced the lettermen, Pete Sikes, football coach of the San Angelo Junior College, was the principal speaker of the evening. The talk was very interesting, being, naturally, all on the subject of football and the value of participation in athletics. Presentation of the trophy, a miniature football player on top of a pedestal, given by the Lions Club, was made by Bob Kerr.

Seventeen boys received letters this year and they were as follows: ends—Jim Davis, Willie Grigsby, Fitch Magill; tackles—Will J. Murrah, Buddy May, Antonio Sanchez, Joe Mussey; guards—Weldon Chamberlain, Frank Harrell, Joe Neal Brown; center—Thomas Hill; backs—Lowell Jessup, Jack Harrell, David Thompson, Robert Dishman, Billy Chamberlain; manager, Edward Chastain. Captain for the 1946 team was Jimmy Davis. To Frank Harrell went the trophy as the most valuable player on the team.

### Will Have Gifts For Every Child In Sanderson

In a radiogram from Santa Clause received by the Times just before going to press Friday, the jolly old fellow stated that he had revised his plans so that he might include Sanderson on his pre-Christmas tour and asked us to notify all the kiddos to that effect.

Several days ago the Sanderson Lions Club contacted old Santa at his headquarters in reference to getting him to visit Sanderson and at that time he informed officials of the Club that his plans were already made and due to the fact that Sanderson is so far South, he would be unable to visit us on his pre-Christmas tour.

It was a very happy surprise to receive this word and to be able to pass it on to the youngsters of Sanderson.

So don't forget old Santa will fly over Sanderson sometime around 3:30 o'clock on the afternoon of December 21st and will be brought into town on one of the fire trucks, and will stop on the street between the Kerr Mercantile building and Shepperd's at 4 p. m.

Old Santa will have a gift for every boy and girl who visits him at this time.

Remember kids, Saturday, December 21st, at 4 p. m., is the time to tell old Santa Clause what you want for Christmas.

From where I sit ... by Joe Marsh

A Grand American Tradition

The Cuppers had a grand old family reunion last week—for the first time since the war.

Big and little Cuppers came, by car and train, from as far west as Nebraska and as far east as Vermont. They crowded Dee and Jane's house, set up quarters in the barns, or stopped with neighbors—and a jollier gathering you couldn't have imagined!

I was asked to their final Saturday night supper, when they sang old songs, drank beer and cider, reminisced. Dark Cuppers and

blonde ones—Vermont accents and Alabama draws—doctors and farmers... all with their differences of taste and politics, yet as close and harmonious in spirit as a group could be.

From where I sit, it's a great American tradition—not just family reunions, but the ability to get along as one harmonious family, regardless of differences of taste—whether it's taste for politics or farming, beer or cider.

Warning Issued In Wearing Of U. S. Uniforms

NEW ORLEANS, Dec. 12.—A friendly warning was issued today to fadists who might be wearing portions of armed services uniforms without authorization.

The law provides a heavy penalty for any person not an officer or enlisted man of the United States Army, Navy, Marine Corps, or Coast Guard who wears "a uniform any part of which is similar to a distinctive part of the duly prescribed uniform" of the military services. Eighth Naval District headquarters said.

Commenting on the recent fad among high school girls in New Orleans for wearing portions of uniforms brought back from service by friends and relatives, the district legal office quoted a section on "protection of the uniform" in the federal law governing military dress. It provides that convicted offenders "be punished by a fine not exceeding \$300, or by imprisonment not exceeding six months, or by both such fine and imprisonment."

The law allows for wearing of military uniforms by such organizations as the Boy Scouts, militia, and cadet corps, and by veterans on occasions of ceremony. Cdr. I. N. Klein, USN, acting district Le-

gal officer, said. However, he warned, it specifically prohibits the wearing of insignia of the armed forces by civilians.

Parker McKinney, who was enroute to his home in Uvalde from a visit with his brother, J. T. McKinney, in El Paso, spent last Sunday here visiting with friends.

Mrs. L. B. McDonald and children have returned home from several months visit in Victoria with relatives and friends.

Mr. and Mrs. H. E. Fletcher, Mrs. Harvey Krauss and Mrs. Sam Underwood were visitors in Ft. Stockton Monday.

"Plan your work and Work your plan"

Long winter evenings bring families together after chores are done. Then there's time for serious talks and good fun. In December there's opportunity, too, to review the results of the past year's work... to make plans that can be carried out efficiently in the year that lies ahead.

Proper planning uncovers new opportunities in any business. With experience, know-how, and plain "horse sense" to draw on, plan-making should not be difficult. You think back with pleasure on your good crops... on how well your livestock or poultry programs turned out. You remember little things that made them profitable, or caused a loss. With this in mind, you look ahead and decide on next year's crops and rotations. You think of ways to improve your livestock operations. You make provision for the purchase of breeding stock, seed, machinery, fencing and equipment. You consider your problems from all angles. That's the way a sound plan is made. Then you set your course and stick to it.

What's true of the individual farm or ranch is true of any business, small or large. We at Swift & Company well know that we, too, must plan our work and work our plan. Our business inter-

ests are many and varied. Without a plan and good business records, we would be almost certain to run into serious losses because our profit margin is small. But by planning carefully, diversifying and working efficiently, we like you—hope to increase our earnings in the future.

Merry Christmas and a Happy New Year John Holmes, President

TAKE TIME TO SAVE TIME

by L. S. Hardin, Purdue University

There is a labor-saving or labor-wasting way to do every farm job. Because we use too many old, hard ways, we waste 15 to 25 percent of our time. Greater attention to how we do our jobs can save time and work.

Ways of doing livestock work easier, faster and better are especially needed. Most farmers still use almost as much work to make 100 pounds of pork, beef or milk as they did 25 years ago. Yet, thanks mostly to machinery, we have reduced crop work one-fourth to one-half during the last 25 years.

Alert farmers are simplifying farm jobs, cutting chore time 15 to 50 percent. Five Indiana farmers, by carefully planning their work, are raising market hogs with one-quarter the average hours of labor. A Minnesota farmer rearranged his barn, adopted correct milking practices, saved 300 hours of work and 138 miles of walking a year. By rearranging his watering system, a poultry man saved 22 miles of walking a season. Some farmers are making hay in 90 man-minutes per ton. Others, using similar equipment but harder ways of working, spend twice the time.

What these farmers are doing, others can do, too. Know just what you want to accomplish. Figure out how to do a job the easiest, cheapest and best way. Cut out those unnecessary steps, combine jobs, rearrange barns and lots, work out more convenient chore routes, keep equipment busy, choose new equipment that suits your farm. Give new practices a fair trial.

You'll find the easy way is the best way. Small improvements add up to days and dollars saved. Five minutes wasted a day equals 3 days a year; 5 steps a day amounts to a mile a year. With costs rising and profit margins due to shrink, we can well afford to take time to save time.

Things are NOT always as they seem

Which is the longer—the top line of the top figure, or the bottom line of the bottom figure? Well—measure them and see!

Similarly, in the livestock-meat industry, conclusions based on a quick glance at a situation are not always so. A case in point is the "spread" between prices paid for livestock and the price received by the meat packer for the meat. The fact is that this spread is narrow. Out of every dollar Swift gets from the sale of its products, 75 cents, on the average, is returned to producers.

Can you name another business that returns such a high percentage of its sales dollar to producers of raw materials? Can you name any other business that performs so many essential services with the twenty-five cents left from that sales dollar? The twenty-five cents pays all business costs. Livestock-buying expenses, slaughtering, refrigeration and processing. The cost of selling the meat and delivering it to thousands of markets all over America. Necessary supplies, such as salt, sugar, barrels, boxes, paper, Ever-present taxes, etc. After all those expenses are paid, Swift's share averages, over a period of years, less than 2¢ on each sales dollar. This amounts to a fraction of a cent a pound of product handled.

NUTRITION IS OUR BUSINESS—AND YOURS Right Eating Adds Life to Your Years—and Years to Your Life

A DOLLAR SAVED IS A DOLLAR EARNED This true old saying has been an important guide in the business philosophy of Swift & Company right from the beginning of our history. And it always will be, because that is the only way anyone can make money in the meat packing business.
