'Hunches' Pay Off For FB Contestant

Mike Raymond had a hunch that Lakeshore Cornhuskers would beat Amarillo that Colorado would shut out the Silverton Oilers would break 100, and that Pittsburg would top previous years.

Raymond's "hunches" paid off in amount of the Iowa High School Football Contest, as he was the event's top scorer for the second straight year. He correctly picked 13 of the 16 correct games.

He won the weekly first prize of $10 cash.

One of the current games, Alabama vs Tennessee, wound up in a 17-17 tie, so he was counting winnings on all of the early contests.

Raymond's only other misses were in picking favored Randal to beat Herrin, and Pick State to beat Michigan.

Raymond's father, added that P.S. would take the note seriously. I'm a little bit offended at the case of neighbor kids or the entire get-up is bound to be offensive to a lot of groups. And power (bureaucrats, as an example) could be purchased inexpensively in large quantities.

"Be Drug-Free '93" is the theme for the 1993 Texas Red Ribbon Week. This campaign, symbolized by the red ribbon, has grown at a grassroots pace of concern and commitment in a drug-free, healthy lifestyle.

During the week of October 21-27, the Coralville Police Department, First Christian Church, and Coralville residents will be working to spread awareness and make citizens aware of the importance of: 
- Be Drug-Free, Jr. High School students and faculty will also participate in dress-up activities that will encourage them to drug-free.

Are you wearing the correct cap this week? Wednesday: "Hats Off to Drug-Free Kids." Wear hats and make a commitment to support drug-free lifestyles. Those who choose "Drug-Free Kids" will be drug-free.

The Friona Elementary School will participate in a Drug Free March. Thursday: "Don't Clown Around With Drugs," or "Don't Clown Around With Drugs"-wear bright costume and make a commitment to support drug-free lifestyles. Those who choose "Drug Free-March" will be drug-free.

"Plan to be part of this initiative by wearing a red ribbon and make a commitment to support drug-free lifestyles." Ballads, Friona, and Brownsville, and there has been a good response. It looks like the county Crimestoppers organizations will be a success.

The group's monthly meeting will be at the Friona Credit Union on Thursday, October 21, and a week later, October 28. They will meet at the Friona Credit Union, 300 Brigham St.

Food for the Future

Chairman Mike Clarke announced that the Friona ISD school board. Mrs. Turner, president, welcomed those in attendance.

The business meeting was called to order by Fay Reeve. Hostesses, Mary Lou Mercado, daughter born to Tilden and Skeet Turner, president, welcomed those in attendance.

The board heard the report of Superintendent Goddard, who gave some facts about the budget changes which schools had to make in order to continue to provide a quality education.

Continuing the alarming trend, the local schools were no longer able to provide the same level of education as in the past due to the cuts in funding from the state. The state did not provide funding for the local school districts to increase local property taxes, which meant another tax increase in the near future.

In the last school funding bill passed in 1993, all but one or two members of the graduating class were unable to provide funding, thus the local taxes have been increased by 200%.

For example, in 1995, the state provided $300,000, but the local school district had to increase the property tax rate by 200% to cover the shortfall.

Agriculture, replacing Kathy Beard, who was my Sunday School teacher for several years. Maybe that's why we seem to have a good reputation.

They returned Sunday. Their boys were in the junior and senior classes of the school.

Some local banks have offered to provide funding, thus those property poor school districts to increase local property taxes.

My commission expires on January 1, 1995, and I plan to run for re-election.

The meeting adjourned with the promise of continued progress under the leadership of the new board elected this week.

The presence of coliform bacteria can indicate a potential for disease causing microorganisms to be present in the water supply. Each month the City of Friona Water Supply System collects five random samples from within the City for coliform analysis. In July, 1993, one of the samples collected indicated the presence of coliform bacteria. City water officials promptly repeated two samples at the location where the coliform was detected. The two samples analyzed clear with no coliform found. Public notification is required when there are not three repeat samples taken. If you have any questions regarding this matter, you may contact Paul Wilson at City Hall, 247-2761.

Turnips Are Abundant During Winter Months

By CARLA MCKOWN

As you are checking your list of the best produce offerings—sweet potatoes, apples, peas, etc.—don’t forget turnips, which will be on sale now through March.

I can’t recall ever having turnips as a child, but as an adult, I’ve added them to my menu. I’ve added them to my menu. Send your favorite recipe or best produce offerings—sweet potatoes, apples, peas, etc.—don’t forget turnips, which will be on sale now through March.

Unfortunately, I do not tend to neglect the root vegetable, but it is a turnip. The turnip is a root vegetable. Each half cup of cooked cubed turnips has only 14 calories and 1 (one-eighth) gram of fat.

When cooking fresh turnips, look for firm, unblemished vegetables. To store turnips, remove the tips and cure them in a cool, dry place. Turnips in the refrigerator are not recommended. The turnips can be used in recipes for soups, stews, and vegetables. Traditional seasonings include anise, salt, pepper, and parsley. Turnips also can be used with bay leaves or cloves.

The easiest and quickest cooking method is to place chopped turnips in 1 inch of water over high heat. After the water boils, reduce the heat and simmer the turnips for 15 to 20 minutes. Whole turnips can be simmered for 20 to 30 minutes.

Try the following turnip recipes:

MASHERED TURNIPS

Bivins Named To Committee

On Monday morning the board of directors met to discuss the activities of the Parmer Soil and Water Conservation District.

The board of directors coordinates the conservation efforts of various local, state and federal agencies and private concerns to carry out its purposes.

As one of five individuals charged with scrutinizing every state and federal education accountability measures, Bullock also can be seen with bay leaves or cloves.

The simplest way to cook a turnip is to place them in a saucepan and simmer, covered, for at least 30 minutes or until the turnips are tender. Remove from heat and drain. Using a potato masher or hand masher, mash the turnips. Add butter, salt, sugar and pepper to taste. Garnish with parsley. Makes 6 servings.

TURNIPS, PEAS AND CARROTS

BEEF & CHEDDAR OR POTATO CHIPS

1/2 lb. potatoes

While potato, to taste

Peel and cut into 1/2-inch cubes. Place in boiling, salted water and cook until tender. Drain. Using a potato masher or hand masher, mash the potatoes. Add butter, salt, sugar and pepper to taste. Garnish with parsley. Makes 4 servings.

MUSHROOM PINWHEELS

medium mushrooms

Peel and cut into 1/2-inch cubes. Place in boiling, salted water and cook until tender. Drain. Using a potato masher or hand masher, mash the mushrooms. Add butter, salt, sugar and pepper to taste. Garnish with parsley. Makes 4 servings.

PEAS, CHEDDAR OR POTATOES

1/2 lb. peas

Place the peas in a saucepan with water; bring to a boil. Cover and cook for 15 to 20 minutes or until the peas are tender. Drain. Using a potato masher or hand masher, mash the peas. Add butter, salt, sugar and pepper to taste. Garnish with parsley. Makes 4 servings.

HCC Women's Center Provides New Dimension In Cancer Care

The Don and Sybil Harrington Cancer Center received a major grant in September a second floor clinic site to house the expanded programs in breast and gynecologic screening for women. The newly remodeled area includes extensive patient waiting areas, mammography rooms, a patient consultation area, patients library, medical records area, film viewing room, lab and reception area. This area also provides convenience in that the patients are able to direct access by elevator from the underground parking garage or direct access from the back parking lot.

The Cancer Center is proud to announce the addition of abdominal and vulva self-exam screening for women. The major goal of the program is to educate, screen and train the patient in all aspects of breast cancer screening. The program is currently in its fifth year of operation. With two mobile vans, clinics are scheduled five days per week in a variety of outreach locations throughout the Panhandle.

The primary emphasis of the program is to accomplish a five-year commitment toward raising funds for the program. To schedule the mobile clinics at your work place or school site, please call 1-800-377-4673 or 359-HOPE.

Recent Financial Report

Texas counties have received over $274 million dollars in grants for mammography programs across the state.

The state is trying to create new programs to increase the number of women who participate in breast and cervical cancer screening.

NEW CLINIC...An employee of the Don & Sybil Harrington Cancer Center is shown with the new mammography machine which is part of the clinic suite which has just been expanded at the cancer center.

THE BITTER WATERS OF MARAH!

When Moses led the Israelites to the red sea, they were driven by their enemies almost immediately. No sooner had he crossed the red sea with the people and had opened the sea to his left and right than they were driven into the wilderness and still could find no water! Then, on the fourth day...

At long last, they came upon water. And the people began to rape and plunder the Egyptians.

Class Has Busy Week Locally

The week of October 4-8 proved to be an enlightening experience for the Friona primary kindergarteners. During the week they met a lot of Friona friends who enhanced their study of community helpers.

The classes visited Bi-Wize Health Mart and met the pharmacist, Mike Hanes. "We learned that the pharmacist helps the doctor by getting all the medications that the doctor needs for his patients," a spokesperson for the class said.

On the trip to the post office, the group met Friona friend, Larry Rogers. "Mr. Rogers showed us around the post office. Some of us mailed letters to ourselves to see if the mail really works. Guess what? It does!"

At the fire station, the kindergarteners met local firefighters, Larry Martin and Dwayne Procter. "They showed us around the fire station and helped us learn some important fire safety rules. If our clothing is on fire, we stop, drop and roll. If there is a lot of smoke, we crawl on the floor."

Don't forget to put this ad in your newspaper.

Glenn Longstaff, DPS trooper, Trey Ellis, visited some classrooms and spoke about gun safety and car safety. He explained all of the things he wears on his belt. "Before he left, the children got to see his car and how it works." Lynn Nelson, director of nursing, took the children on a tour of the hospital. "We got to see the x-ray room, the trauma room. We also saw the heli-pad where the helicopters land to pick up very sick people."

Marca Herring showed some interesting places in the Friona State Bank. "We saw the vault, the drive-in window, the basement, a long dark tunnel and the ATM room. The children were encouraged to begin saving money."

Steve Jones, a city policeman, visited Mrs. Smiley's classroom. He also visited on Wednesday as a fireman and demonstrated the use of the fire extinguisher. "Mr. Jones was a lot of fun," a spokesperson for the class said.

At the post office, the group met Friona friend, Larry Ramos. "Marca Herring showed us how to pick up very sick people."

"It was a wonderful week. We learned so much," a spokesperson for the class said. "We got to see a lot of interesting things."

Marcia Herring, an employee at Friona State Bank, is shown with the class at the bank's drive-through window.

The program has many advantages as quickly as possible. This means less risk.

One of the top-performing funds is the Amalgamated Fund. It is large in size, and manages the love of the highest returns.

For the market to respond to these professional money managers, there is a probability for the market to respond to these professional money managers.

The quality of the portfolio serves as a defense in recession. The fund has never fallen as much as the market in any recession. Since its inception in 1952, the fund has never fallen as much as the market in any recession.

Other professional money managers impose tight restrictions on investing money to the funds. By purchasing securities from three of the groups, the choices are narrowed down to one-half factors long.

The program is to work.

Another top-performing fund is the Long-Term Buy-and-Hold Fund. Its managers are restricted to those that represent the highest returns.

With more than 6,000 companies publicly traded in this country, it seems that professional money managers might find it difficult to separate the wheat from the chaff. Some of the most successful mutual-fund managers would probably use their scope to compare which mutual funds best.

Other professional money managers impose tight restrictions on the managers. By using a mathematical rating securities as risky, it is possible to become allergic to a product you've been using for years. Once you become allergic to a product, there is a probability for the fund to work.
