Some people he wonders what kind of "fetchin'" up they must have had. Recently I went to a nice roadside park with the family to enjoy a meal in the open. I found that the Highway Department had gone to a lot of trouble and expense to build nice concrete tables and benches, provide a pit where cooking could be done, a trash can to throw refuse in, and will, from time to time, remove the trash. This was all done so that I might enjoy a pleasant evening on the cool mountain. Well, they didn't do that just for me, they intended that anyone, from anywhere, that chose to stop there, to do so and to enjoy the comforts provided. Some rat or skunk had been there before I arrived. He, or they, had littered the place till it looked like a garbage dump. As a last gesture, to show their appreciation (?) for the hospitality that did not cost them a cent, they had deliberately broken beer bottles on the concrete table and the ground was littered with sharp jagged pieces of glass. I don't apologize for calling them rats or skunks, either. Why can't we respect the fine things that are done for us and show our appreciation by trying to leave the public places in at least as good shape as we found them?

Yankees and Dodgers

Local All-Stars To Play Benefit Game Saturday

Yes, sir, folks, the Yankees and the Dodgers are to play in Sanderson. You bet they are for that is the names of the two teams that will play in the benefit softball game that is being sponsored here Saturday night by the Rotary and Lions Club. All proceeds from the free-will donations that will be taken up will be sent to the stricken families in the Texas City disaster.

All-star players, picked from all the teams in the league, will play and a good as well as a fast game is assured the fans who attend.

On the Yankee team, sponsored by the Lions, will be Berkeley; Hamilton, p; Ethridge, 1b; Dyeche, 2b; Cochran, 3b; James McDonald, ss W. W. Sudduth, If; Joe Mussey, cf; Rainbolt, rf; substitutes, Barksdale, Garner, and G. Tmohpson; Pinch hitter, Finger, and sub pitcher, Weldon Chamberlain.

On the Dodgers team which will be under the sponsorship of the Rotarians will be Maples, c; E. Leatherwood, p; A. Weigand, 1b; Hodgkins, 2b, Al Dishman, 3b; Gilbreath, ss; Blackwelder, If; John L. Whistler, cf; M. Batson, rf, substitutes: E. Faust, O. T. Sudduth and McCullar; pinch hitter, Ray Turner; sub pitcher Harold Haynes.

Those who fail to come out to see this game will not only miss one of the best softball games but will fail in their duty to help a good worthy cause that these two civic clubs are sponsoring.

The Teen-Agers will sell ice cold pop at the game to raise funds to buy their equipment to play in the softball league.

In the first two weeks of local softball competition the fans have witnessed the fact that many an evening's good entertainment can be had at the diamond under the lights. Some very close games have been played even in spite of the fact that the scores at times have been pretty high.

In the first official game of the season the American Legion team won on a forfeit from the Railroad team due to the fact that the railroaders had too many men on the road that

night to scrape up a team. There was a ball game nevertheless, between the Legion and an out-law team enlisted from the fans.

The second game was between the Rotary Club and the Fire Department with the Rotarians bowling to the Smoke-eaters 27-26. The game between the Lions and the Teen-agers scheduled for Friday night was rained out.

On Monday night of this week the American Legion took the Fire Department 11-7 in a real thriller. This game carried the low-score qualifications of a good game until the 6th inning when the Legion took a four-run lead and held it the remainder of the game.

Tuesday night the Railroaders were back in town to the disappointment of the Lions Club and were winners in the 13-11 game. The team standing to date is American Legion on top with the Fire Department and Railroad tied for second place and the others vying for the cellar position.

Spray Will Not Be Supplied by County

Disinfectant may be obtained commercially and the county will not spray the outhouses and premises of individuals this year, according to R. E. Corder, Commissioner of Precinct 1. In the past sanitary measures were taken to ward off disease and kill flies that breed about unsanitary locations. Since the spray was not to be had on the market, it was necessary for the county to carry on this work, Mr. Corder said.

Steps are to be taken in the near future, says Mr. Corder, to force everyone in Sanderson to have modern, sanitary, sewage disposal. Trucks will pick up and dispose of trash placed out where it is accessible, and a constant vigilance will be maintained to keep sanitary conditions in Sanderson.

Mr. and Mrs. Dale Fuquay, of Valentine spent the week-end in Sanderson visiting with relatives.

John Fisher Charlton, of Sabinal, and Fred Charlton, of San Antonio, spent the week-end with their parents, Mr. and Mrs. N. E. Charlton.

Approximately four inches of rain in the past week has made a decided change in the range outlook in this section. A down-pour last Thursday evening and again Friday night, together with intermittent showers the rest of the week, has filled surface tanks to insure stock water as well as supply moisture for the threatened turf.

West Texas generally has had more than an average May precipitation. In some places the downpour caused temporary flood conditions inundating roads and houses in low sections. Draws and canyons carried off the surplus but a general slow rain in parts was completely absorbed by the thirsty land.

Cool, partly clouded skies, add to the growing condition of the turf, yet the freshly shorn sheep did not suffer from exposure.

All the trans-Pecos area has been benefited by the rains in the past week.

Showers at Del Rio.

Light showers in the early morning hours Wednesday brought .01 of an inch of rain, records in the United States Weather Bureau show.

The rain began at 2:55 a. m. Wednesday and continued to 4:30 a. m., records show.

The additional .01 of an inch raised to 1.48 inches the total moisture received since showers began to fall Friday.

Normal rainfall for the entire month of May is 2.88 inches.

RANCHMEN SMILING

West Texas ranchmen and business men have cause for rejoicing after the recent rains. Precipitation was the most for West Texas at this time of year in many years.

Weeds were held back because of the late freezes — then lack of moisture delayed the grass to the extent that some pastures were about to become void of turf. Lambs, so far, had not begun to doggie but were barely holding their own and the need of rain was becoming imperative if the sheep and goats were kept.

The past week-end rains and, at this writing, the outlook for more put feed dollars in the pockets of stockmen, besides the increase in pounds put on lambs for shipment.

Trading is apparently light at this time with most lambs concentrated from 15 to 17 cents.

Shearing is progressing and

many flocks were fleeced before the rain set in.

Things are happening to give the ranchmen something to smile over.

House Kills Tax Bill 77 to 53

AUSTIN, May 14. — Tax forces in the House received a sharp setback when Representative Woodrow Bean's request to advance his natural resources tax bill on the calendar was slapped down by a vote of 77 to 53.

His motion to set the bill on special order of business next Tuesday would require a two-thirds vote for passage.

Bean, appealing for a final showdown on the issue of spending and taxation said it is time for the Legislature either to enact a tax bill or cut down on spending.

Opponents, led by Representative Claude Gilmer, chairman of the appropriations committee, said the House should not pass another tax bill before the final need for funds is determined.

The House-passed levy on natural gas gathering systems, designed to raise \$29,000,000 annually has been static in the Senate for several weeks.

a Railroad Man leads a triple life!

Each and every Southern Pacific employee is an essential partner in the business of living . . . his "pursuits of happiness" are firmly and basically interwoven into the whole pattern of community prosperity and our nation's economy.

AS A WAGE EARNER

your Southern Pacific partner promotes your interests by providing a permanent, efficient, economical mass transportation service that can be relied upon, in all kinds of weather, to meet all the transportation needs of the people.

AS A CONSUMER

your Southern Pacific partner participates in the prosperity of the community in which he lives by trading his wage-earned dollars for goods and services. Such trade stimulation helps to create better jobs for more people.

AS A HOME OWNER

your Southern Pacific partner takes inherently American pride in the progress of his community . . . its schools and churches and social institutions . . . and constantly seeks to better the welfare of himself and his neighbor by actively assisting in civic enterprises.

Yes, every Southern Pacific employee is YOUR partner . . . offering his support and cooperation in furthering our way of living, for you . . . for himself . . . for the company he serves. Southern Pacific has more employees living in Texas than any other industrial employer.

Industry Looks at Our Town

Maybe you read how a group of industrial experts have decided that the small town is the place for industry—not big cities. Reasons they give are better housing, pleasanter living, and more opportunity for wholesome recreation.

Well, looking around our town I'd say that was about right. Most of us own our homes, and keep them looking nice; we enjoy each other's company; and our recreations are mostly simple outdoor sports, and in the evening a mellow glass of beer with pleasant company.

As Doc Walters says, that sort of life just naturally sets you up for work the next day . . . whether it's in office, mill, or field. And Doc should know. He works fourteen hours, but never misses his morning "constitutional" or his evening glass of beer with friends.

From where I sit, any industry could profit from being in a town where wholesome living, temperance, and friendship are the rule.
