HEALTH OFFICER WNS AGAINST WATER HAZARDS

Health hazards for children are to be guarded carefully as they are in summer time in the opinion of George W. Cox, State Health Officer.

Every mother is familiar with the summer complaints that affect small children but winter diseases can be as harmful and are just as to make their appearance proper precautions are during the approaching winter," Dr. Cox said.

Cox included influenza, pneumonia, bronchi-

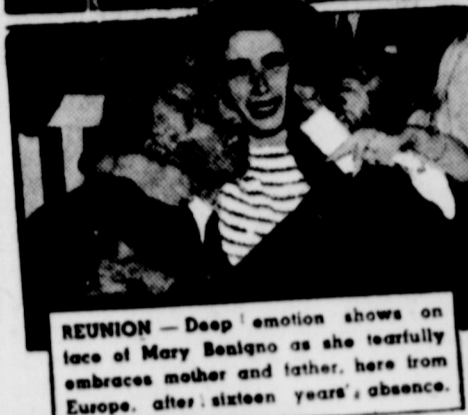

tis, asthma and even diphtheria when a child has not had diphtheria immunization. Any such disease affecting a child's respiratory or breathing system is apt to be very serious and all too often fatal. Pneumonia often develops from a neglected cold or may follow a severe case of measles or whooping cough. Bronchitis conditions may also prove to be an after-effect of such diseases and these respiratory ailments are much more difficult to combat successfully than the digestive ailments which are prevalent in the summertime, and known as summer complaints.

"These winter diseases are especially dangerous to babies and very young children," Dr. Cox stated. "Nearly all of them are

Blue Cross Hospital Plan Born in Texas At Baylor University

The American Hospital Association, in its annual conference at St. Louis, Mo., September 23, recognized Texas as the birthplace of the Blue Cross Plan and of all prepayment hospitalization plans, which now protect 35,000,000 people.

The gathering included administrators of hospitals throughout the United States, hospital trustees, executive directors of the Blue Cross Plans and honored in particular Dr. Justin F. Kimball, Dallas, the "father of the prepayment program."

Dr. Kimball was an honor guest at the banquet presentation; and John Hayes, president of the American Hospital Association, presented a bronze and three-color porcelain enamel plaque to Lawrence Payne, administrator of the Baylor University Hospital. Mr. Payne was the first paid clerical employee of the Baylor plan.

The American Hospital Association, in recognizing the Baylor University Hospital as the birthplace of Blue Cross, pays tribute to the teachers who contributed to its origin, for 300 teachers originated a plan which now protects 28,000,000 people, a plan which enrolls 83,000 new members each working day.

New Post Offices First Request of Rep. Ken Regan

WASHINGTON, Oct. 5. — Rep. Regan (D-Tex.) made his first capital visit Wednesday since his election to the House to succeed R. Ewing Thompson, of El Paso, who resigned from Congress to become a federal district judge.

One of the main objectives of his trip, Regan told a reporter is to talk with the post office officials regarding the need for enlarging post offices at Odessa and Monahans.

The one at Odessa was built when the city had a population of 10,000, he said, and is entirely inadequate now or the 35,000 residents of the oil industry center. A similar condition exists in Monahans with its present population of almost 15,000, he added.

Vandale Collection Donated To Texas University

New and valuable resource material in early Texas history—particularly of the Panhandle—and historical information on the Western Indians was added to the University of Texas Library with the recent acquisition of the Earl Vandale collection.

Vandale, Amarillo business man who has been collecting books, manuscripts, maps and other historical material for a quarter of a century, had a collection excelled only by the University and State libraries.

Among the individual collections acquired by Vandale, and included in the acquisition, were diaries from E. N. Gray, of Houston, rare books from H. P. N. Gammel, of Austin; Indian lore from John H. Moore, of La Grange; history of Germans in Texas from S. V. Pfeuffer, of New Braunfels; sketches on men who fought in the Battle of San

Jacinto from W. P. Zuber, of Austin; and books, maps, coins, and manuscripts from A. T. McKinney, of Dallas, R. C. Crane, of Sweetwater, Alex Dienst, of Temple, and John G. James, who lived in various parts of the state.

The Vandale collection will be an important source for research in history, economics, government, and in literature to a certain extent, Dr. Eugene C. Barker, University professor and historian said. The library's collection is the largest known on Texas.

HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)

2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN (One brakeman usually rides in the locomotive in freight service)

EXTRA CAR FOR 15 MEN NOT NEEDED

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN... 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS... TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed **feather-bedding!**

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

Increased Wages, Too
On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

\$468,000,000 To Non-Operating Employees
In addition to this, an Arbitration Board has just granted a wage increase of 15½ cents an hour to the million employees represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

Where Will The Money Come From?
Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate increase. No other course is open.

Railroads Do Not Run For Employees Alone
Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employees, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

P-TA HAS SCHOOL OF INSTRUCTION HERE TUESDAY

The Sanderson Parent-Teacher School of Instruction was held in the high school auditorium Tuesday, October 14. The morning session opened with Mrs. E. J. Chastain, a district vice-president, presiding. Rev. L. Menefee gave the invocation followed by the welcome address by Mrs. C. P. Peavy. Group singing was led by W. H. McCullar. Several of the members present read the five objectives of the Parent-Teacher Association.

The meeting was then turned over to the speaker for the day, Mrs. Phillip Thompson, district president, from San Angelo. She covered much of the valuable P-TA material during the morning, stressing the theme for the year "Living and Working Together." She explained the highlights of the P-TA manual and explained all questions asked about the functions of the various committees in the organization.

The meeting was dismissed at 12 o'clock. A luncheon in the banquet room of the Kerr Hotel honored Mrs. Thompson. A delicious plate of fried chicken, creamed peas, potatoes, pineapple salad, hot rolls, but-

terscotch pudding and iced tea were served to the following members: Mesdames J. W. Pate, C. P. Peavy, Ben Causey, S. Harkins, Jack Turner, John Byrd, Malone Mitchell, S. A. Berkley, E. J. Chastain, John L. Newton and the honoree, Mrs. Thompson.

Mrs. Thompson then took charge of the program and discussed the various district officers. Mrs. Chastain explained her duties as district chairman of publications.

Mrs. Thompson closed the school by recommending that each member subscribe to the state magazine and that all members try to take the Parent-Teacher educational course and the procedure course. She stated in closing that the P-TA membership of 4,000.00 are all working hard toward the same five objectives with the theme for the year before them.

Mrs. Thompson made possible a fine day of instruction and left behind many fine thoughts.

Word has been received from Miss Ella Savage, who is in a San Antonio hospital, that her condition is very satisfactory, but that she will have to remain there for at least two more weeks.

Texas Society For Crippled Children Convenes in Waco

Dallas, Texas, October 14.—The state convention of the Texas Society for Crippled Children is to be held in Waco in 1948, it was decided at the tenth annual convention held Sept. 29-30 in Dallas. The Waco convention will be the first subsequent ones to be held in various parts of the state so that all persons interested in crippled children's work will have a better chance to partake of the information presented at the meetings. Roscoe L. Thomas, president, said.

During the coming year, four regional clinics also will be held. The first of these will be in Lubbock.

Hailing the Texas Society as an organization "in the forefront of a national movement to provide treatment centers and research work in the care of children with cerebral palsy," Lawrence J. Linck, of Chicago, executive secretary of the National Society for Crippled Children and Adults, said that the Dallas medical research staff was the first such staff in the country.

More than 500 interested medical and lay workers attending the convention heard Dr. Temple Fay, of Philadelphia, world-

famous neuro-surgeon, and Dr. Jerry Price, of New York, authority on epilepsy. The meeting was concluded with a demonstration treatment at Dallas Society for Crippled Children's Cerebral Palsy Treatment Center.

Mystery of the Missing Farms

Yep, the number of farms in America is shrinking (by a quarter-million in the last five years!). What's happened to the missing farms? The land has been taken in by other farms, increasing the average size by twenty acres!

Does this growth mean farming's no longer a family enterprise? Just the opposite! More families own farms today than ever—only with labor-saving equipment they can handle more land, more work.

That's as it should be. The family farm is a fortress of democracy—

where our free, American operates and shares the world living together in temperance tolerance—temperance tolerance a moderate beverage tolerance for a taste that be different from one's own.

From where I sit, our Farms (and they're 90% of our country can be proud of!
