

TOWER'S ELECTION-

# "Slap At Liberalism", Political Leaders Say

BY DICK HAPKE

Parmer County political leaders, both Republican and Democrat, considered John Tower's victory in Saturday's U. S. Senate race as a "slap at liberalism."

There were varied opinions among those political leaders polled on the outcome of the election, but surprisingly, from both the Conservative Democrat element and the Republicans was the belief that voters were expressing their opposition to the present administration's "free-spending," "dictatorial," "socialistic" tendencies.

Some were of the opinion that "had the Democrats not gone fishing on election day," Blakley would have won easily. While

others admitted that had the election turnout been larger, Blakley would have won, they thought the real reason for Texas electing its first Republican to the Senate went deeper than that. There just aren't that many Republicans in Texas, so it had to be "rebellious Democrats," seemed to be the consensus of opinion.

On the question of what effect Tower's election might have on future politics, and whether or not it would help to create a stronger two-party system, there was more disagreement.

Nelson Welch, Parmer County Democratic chairman, said, "More than anything else, I think the people voted Republican to strike back at the thing that happened last fall, and the thing that has been going on for a good while."

He was referring to the liberal philosophy which many Democrats have adopted, and he said, "Many Democrats have gotten as far away as they can be from a few things the Democratic party used to stand for."

"I was naturally disappointed," Welch said about the election outcome, and he added, "Democrats would have been better off had they elected a man who could strike back from within the party, rather than from outside."

Welch thought that the people wanted to get as far away from the liberal view as possible, and so voted for Tower.

The county democratic chairman didn't see Tower's victory as the beginning of a strong Republican party in Texas. "I think that most of the people in Parmer County are Democrats,

and have been all their life," he said.

"They will continue to be," Welch added, "but I think we need to try to bring our party back to where it ought to be."

His definition of what the party "ought to be" was one which believed in states rights and self government, and one which was made up of individuals "whodon't want to be told what to do and don't want things crammed down their throats."

"We want to operate our own affairs at home," Welch said. Mrs. Les Bruns, vice-chairman of the Parmer County Republicans, attributed Tower's victory, both in the county and in the state, largely to an all-out effort on the part of volunteer

(Continued on Page 8)

WIRING EIGHTEEN LAMPS to a single pole can be quite a job, but that's what workmen are doing here as they undertake the lighting of Friona's new ball park north of town. This is just one of eight light poles which were installed this week. The eight poles were donated to the park by Lloyd Prewett of Prewett Grain Co.

## New Baseball Park Nears Completion

Work is nearing completion on Friona's new baseball park north of town, and it should be ready for use by the newly-organized Babe Ruth league by June 12, reports Vernon Scott, director of the Friona summer baseball program.

Light poles were being put up Tuesday, and all that remains is hooking up the lights, and a little more work on the mound and field.

When completed, the field will be the culmination of a combined effort on the part of Friona civic clubs and various individuals who contributed to the park.

The park, which is regulation size, will be used this summer for the Babe Ruth League. The League will be made up of players from 13 through 16 years of age.

Normally, 13- and 14-year-olds are in the Pony League class, 15-year-olds are Babe Ruth players, and 16 and over are eligible for American Legion ball.

However, since there was not enough boys in Friona to form a league in either of these groups, all three age groups are being thrown together for the Babe Ruth League, Scott says.

There will only be a few 16-year-olds in the league, the director adds.

Sponsors of the four teams which will make up the Babe Ruth League are Chester and Fleming Gin, Parmer County Implement

Company, Herring Implement Company and Hub.

A schedule for the league will be worked up as soon as it is known which day play will get underway.

Drawings have been completed and members of the four teams will be as follows: Chester and Fleming--Rex Bracken, Numan Loanman, Danny Carmichael, Rex Wells, George Rushing, Bernie Deaton, Jackie Stowers, Jay Beene, Bobby Ray, Howard Lynn Rhodes, Rodney Williams, Tommy Shirley, Jesse Sanchez, and Tom Bill Shelton.

Herring Implement--Tim Herring, DeWayne Holland Darrell Patterson, Jesse Shirley, Travis Graves, Ray Gene Braxton, Michael Fallwell, Doyle Mabry, Joe Aleman, Joe Mabry, Everett Gee, Larry Johnson, Eldon Long, and Kenny Ford.

Parmer Co. Implement--Joe Pacheco, Keith Blackburn, Jerry Houston, Tex Phipps, Nolan Morris Jr., Bob Welch, Bing Bingham, Duane Charles Reed, Rickey Coon, Jackie Clark, Ronnie Brookfield, Milton Hargus, Lupe Rodriguez, and Earl Crow.

Hub--Danny Murphee, Billy Thomas, Arlen May, Larry Hough, Eugene Weatherly, Scott Cummings, Gary Lou Renner, Ted Renner, Larry Buckley, Lonnie Ellis, Darrell Schwab, Dickie Lee Renner, Joe Gutierrez, and David Carson.

## Swim Classes To Begin

Swimming classes for all ages groups are slated to begin Monday at Friona's new indoor swimming pool, it was announced this week by Truett Johnson, owner of the pool, and Baker Duggins, swimming instructor.

Also, the schedule of operation for the recently-opened pool, and rules and regulations governing operation were announced by the two men.

Four three-week classes are slated each morning from 8 to 12, Monday through Friday. Each class will be limited to 20 persons, Duggins says, and the schedule is as follows:

Ages 11 through 15, 8 to 9 a. m.; ages 16 and over, 9 to 10 a. m.; ages 7 through 10, 10 to 11 p. m., senior lifesaving, 11 a. m. to 12 noon.

Persons who want to enroll in these classes are asked to be on hand this Friday at the office of Duggins in the high school building. Friday's enrollment for each class will take place

during the same hours as those designated above for the actual classes.

"There will be no persons enrolled in the courses prior to Friday, Duggins says.

Duggins asks that anyone interested in swimming lessons whether they will be able to attend the first three-week session or not, to be on hand for the enrollment Friday.

Since enrollment will be limited, the number of persons who express an interest in the classes either now or later, will help to determine which future classes will be offered.

The first three classes, from 8 to 11, will all be for beginners, and the senior lifesaving class will be for persons over 16 who can pass the following test:

They must be able to do a front dive, be able to swim 440 yards continuously, using one or more of three designated strokes. A person must be able to do a surface dive in at least six feet of water and swim two body lengths along the bottom. A person must also be able to tread water for 60 seconds and be able to float on his back for 60 seconds.

Completion of the course will qualify a person as a certified Red Cross lifeguard.

Cost for each of the classes, both the beginning and the life-saving courses, will be \$9.50 per person.

Junior lifesaving, advanced beginners, and intermediate classes will be offered following the first three weeks, Duggins says. Also, there will probably be some more beginners course, he says, depending on how many people indicate an interest in them.

Besides the above-mentioned classes, Mrs. Deke Kendrick will conduct classes for women, and also for the small fry under 7 years of age.

Thursday nights, from 6 to 10 p. m., have been set aside for the women, and Mrs. Kendrick asks that all women interested in swimming lessons, be on hand tonight (Thursday) at the swimming pool at 6 p. m.

A schedule of weekly classes will be worked out, probably for each Thursday night from 6 to 8. The remaining two hours

## Warning System Explained

When a storm is approaching the city, the first blast of Friona's fire siren is only a warning, and the second blast indicates that a funnel cloud has been spotted.

That's the way Ralph Shirley, Friona fire chief, explains the storm warning signals, which were adopted here last year.

Apparently many Friona residents forgot the warning system a couple of weeks ago when, on the first blast, many of them scurried to their cars and shot out of town at the sound of the first whistle.

The first whistle only means that there are turbulent clouds in the area, Shirley says, and people should keep their eyes on the storm. The second blast means that a funnel has been spotted and the people should take cover.

A third sounding of the siren, which will have longer blast, is the all clear signal.

## Several Attend Dallas Market

Mr. and Mrs. Newman Jarrell Jr. returned from the fall market in Dallas Thursday. Others attending market were Mr. and Mrs. Wesley Foster and Mr. and Mrs. Andy Hurst.

After spending several days in Dallas Mrs. Nora Welch went on to Houston where she will visit in the home of her son, Mr. and Mrs. Louis Welch and family.

TAKING A HEFTY SWING at the ball in Monday's little League opener is Tim Rhodes of Associated Growers. Catcher is Eddy Barker of the Star-Hurst team, and the umpire is Judge Barker. Star-Hurst won the game 8-7 in seven innings in a second game. Reeve Chevrolet defeated McCaslin Lumber 17-15.

## Memorial Program Honors War Dead

Most businesses were closed, American flags were displayed throughout the community, and a good crowd was on hand for a Memorial Day Program Tuesday, as Friona residents paid tribute to those who gave their lives in service to their country.

The Rev. Audye Wiley, pastor of the Calvary Baptist Church, delivered the Memorial Day message at a special program at 7:30 a. m. The program was sponsored by the Friona American Legion Post 206.

Rev. Wiley made reference to the sacrifice of those who gave their lives for the cause of freedom, and said that the memorial to these individuals should be a challenge to those of us today to "pay any price" that freedom might be preserved.

The first half of the program was conducted at the city park. Loyde Brewer delivered the chaplain's message and a musical number, "My Buddy," was sung by Frank Claborn. He was accompanied by Mrs. John Thomas on the accordion.

Mrs. Esther Haws placed a wreath at the

city park memorial monument and the invocation was given by Bro. Paul Smith, minister of the Sixth Street Church of Christ.

Benediction was by the Rev. Bill Burton, pastor of the First Baptist Church.

The program was then continued at the cemetery where Bro. Bill Phillips, pastor of the Congregational Church, delivered a Memorial Day prayer, Loyde Brewer conducted the roll call of the dead, and Friona Boys and Girls Scouts decorated the graves.

The American Legion firing squad fired a salute to the dead, and taps was played by Floyd Reeve.

Color bearers were J. P. Simms and O. J. Beene, and the color guard was David Sanders and Ralph Taylor. Members of the firing squad were Joe Mann, Sam Williams, Robert Zetsche, Lloyd Mingus, Frank Reed, Ralph Shetler, Dan Koelzer, C. L. Lillard and Calvin Floyd.

Commander of the color guard and firing squad was Bob Ginsburg.

## All But One County Box Goes Tower

Parmer County voters saw eye-to-eye with the majority of the ballot-markers throughout the state in Saturday's special U. S. Senate election, giving Republican John Tower a slight edge over his Democratic opponent, Bill Blakley.

Tower received 573 votes to Blakley's 487 in the election to fill the vacated senate seat of Lyndon Johnson. Tower's statewide margin of victory was a narrow 8,000 votes.

All but one of the eight precincts in the county favored the Republican, whose election to office made Texas history.

It was the first time that Texas voters had ever elected a Republican to serve in the senate, and in Parmer County, it was the first time, other than in presidential elections, that voters favored a Republican.

Lazbuddie was the only precinct to give Blakley an edge, and that was by a one vote margin, 75-74.

Tower got his widest margin in Farwell, traditionally the county's most conservative precinct, where he polled 130 votes to his opponent's 90.

Friona favored Tower, 195 to 183, and Lovina, normally the Democratic stronghold in the county, gave the Republican a narrow edge, 80-78.

The voting of other precincts was as follows (Tower's votes listed first):

Lakeview, 14-9; Black, 26-17; Oklahoma Lane, 31-28; and Rhea, 16-2. Absentee voting Tower a 7-5 edge.

The turnout in Saturday's election was a little better than had first been anticipated, but the voters numbered about 250 fewer than those who voted in the first election. Saturday's vote total was 1,060, compared to 1,318 in the first election.

Tower's margin in Parmer County was somewhat of a mild surprise, even though the Republican did receive more votes than any other candidate in the first election.

In the first go-around, when 70 candidates were in the race, Tower received 417 compared to 257 for Blakley. Total vote received by all the democratic candidates in the first election, however, was 899.

In the run-off, Blakley was the only one of the two candidates to receive much organized backing among county political leaders, a factor which made the outcome somewhat more surprising.

## Driver Training Starts Monday

A driver's training course, to be offered at Friona School this summer, will start Monday, announces Tom Jarboe, one of the instructors.

Classes will start at 7 a. m. Monday. To be eligible, a student must be 14 years old by July 1. Enrollment fee is \$10, and a student will receive a half credit toward his high school diploma.

Persons wanting to enter the

class are asked to contact Raymond Cook, high school principal.

Jarboe and Bill Adams will be instructors for the course, which will last 9 weeks.

The first three weeks will be devoted to classroom instruction, two hours each day, Monday through Friday, and the final six weeks will be devoted to driving instruction, three hours a day, once a week.

HONORING THE WAR DEAD at a special Memorial Day service Tuesday morning were representatives of Friona American Legion Post 206 and members of the Boys and Girls Scouts. At left, Doris Ferguson pauses before placing a

wreath and miniature flag on a grave at Friona Cemetery. At right, Floyd Reeve plays taps as the Legion firing squad and color guard pays tribute to their fallen buddies.

# Swimming Pool Hours Announced

(Continued from Page 1)

each Thursday will quite likely be devoted to open swimming for women.

All parents of children under 7, who would like for their children to take swimming lessons, are asked to be at the pool Saturday morning at 9 a. m. Enrollment for the small fry will be this Saturday and the classes will start the following Saturday from 8 to 11 a. m.

Tentative operating schedule of the pool, starting Monday, will be as follows:

- Monday--1 to 5, open swimming; 6:30 to 10, open swimming.
- Tuesday--1 to 5, open swimming; 6:30 to 10, open swimming unless a private party has been booked. Tuesday night is the time set aside for private parties.
- Wednesday--12 to 1:30, Businessmen's hour; 1:30 to 5, open swimming. Closed Wednesday night.
- Thursday--1 to 5, open swimming; 6 to 10, women's night.
- Friday--1 to 5, open swimming; 6:30 to 10, stag night.
- Saturday--1 to 5, open swimming; 6:30 to 10, open swimming.
- Sunday--1 to 5, open swimming. Closed Sunday night.

Rules and regulations which the lifeguards will enforce are as follows:

- No running.
- Only one person on diving board at a time.
- No pushing or shoving persons into pool.
- Only one spring to the dive.
- No food or drink in pool area.
- No one permitted in pool without regulation swim suit.
- One person at time on slides.
- It will be suggested that young children not go into water over heads, not even with floating device, unless accompanied by parents.
- All spectators must remain behind rail.
- Slides should be used on stomach or seat.
- Swimmers must keep off the rope.
- No floating material in diving area.
- Swimmers should not haze diver in anyway.
- Before beginners will be allowed to go into deep water, they must first be able to swim across the pool, must be able to jump in feet first and swim out, turn around and come back.
- Lifeguards and pool attendants will be asked to enforce all of these rules, according to Duggins and Johnson, for the protection of the swimmers. The two men ask that swimmers who are called down for violation of these rules not to take it as a personal offense.
- "The rules are necessary if maximum protection is to be provided for all," they point out.

THE TREBLE TEENS are shown as they performed recently at the Area I FFA talent contest at Amarillo. The Friona foursome, which represented the local FFA Chapter at the contest, was the first place winner and will be competing in the state contest later this summer. From left to right are Donald Ray Bushy, Reggie Hays, Bob Dantel and Earl Crow.

## Wheatgrowers Annual Meet To Be June 13

Annual stockholders meeting of Friona Wheatgrowers has been scheduled for June 13, at 7 p. m. in the school cafeteria, reports Arthur Drake, manager.

A barbecue dinner will be served by the Walter Jettons Catering Service of Ft. Worth, and following the feed, a business meeting is scheduled in the school auditorium.

One director will be elected to fill the expiring term of E. L. Fairchild. Also, there will be a financial report on dividend distribution.

All stockholders are urged to make plans to attend the meeting.

# THE FRIONA STAR

RICHARD HAPKE, Editor

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

In Farmer County . . . . . \$3 Per Year  
Elsewhere . . . . . \$4 Per Year

(Editor's Note: The following essay by Conrad Hilton was submitted to the Star by a reader, who thought that the message it carried would fit in well with Memorial Day):

## AMERICA ON ITS KNEES:

not beaten there by the hammer & sickle, but FREELY, INTELLIGENTLY, RESPONSIBLY, CONFIDENTLY, POWERFULLY America now knows it can destroy COMMUNISM & win the battle for peace. We need fear nothing or no one... except GOD.

OUR FATHER IN HEAVEN

WE PRAY THAT YOU save us from ourselves.  
The world that YOU have made for us, to live in peace, we have made into an armed camp.  
We live in fear of war to come.  
We are afraid of "the terror that flies by night, and the arrow that flies by day, the pestilence that walks in darkness and the destruction that wastes at noon-day."  
We have turned from YOU to go our selfish way.  
We have broken YOUR commandments and denied YOUR truth. We have left YOUR altars to serve the false gods of money and pleasure and power.  
FORGIVE US AND HELP US  
Now, darkness gathers around us and we are confused in all our counsels. Losing faith in YOU, we lose faith in ourselves.  
Inspire us with wisdom, all of us of every color, race and creed, to use our wealth, our strength to help our brother, instead of destroying him.  
Help us to do YOUR will as it is done in heaven and to be worthy of YOUR promise of peace on earth.  
Fill us with new faith, new strength and new courage, that we may win the Battle for Peace.  
Be swift to save us, O God, before the darkness falls.

## Geneva Floyd To Edit '61-'62 El Explorador

Editor for the 1961-62 El Explorador, annual of Lubbock Christian College, will be Geneva Floyd of Friona. Geneva is a 1960 graduate of Friona High School and served three consecutive years on the Chieftain staff and help positions of both assistant editor and co-editor.

She is a member of the Christliche Damen women's social club and was student senate representative for the freshman class this year. She has also been elected treasurer for Christliche Damen for the ensuing year.

Geneva, daughter of Mr. and Mrs. Glenn Floyd, will be a sophomore at Lubbock Christian this fall.

## Frank Springs To Attend Graduations

Mr. and Mrs. Frank A. Spring are in Austin to attend the graduation exercises of their son, Frank Lewis, who will graduate from St. Stephen's Episcopal School.

Then the Springs will go to Nevada, Missouri, to be at the graduation of their daughter, Mary Tom. Mary Tom will graduate from Cotter College.

## Funeral Services Held For Mrs. Holmgren

Funeral services were held at the Union Congregational Church for Mrs. C. A. Holmgren Thursday afternoon at 2:30. The Rev. Hudson B. Phillips Jr. officiated.

Mrs. Holmgren was born Francis Wentworth on July 24, 1887, at Cresco, Iowa. She was married August 23, 1905, in Minneapolis, Minn., to the late Charles Holmgren.

Survivors are a daughter, Mrs. B. E. Sanders, Friona; a son, Charles Holmgren Jr., Janesville, Wisconsin; one sister, Jennie Peckham, who is living with her daughter in LeCenter Minn.; four grandsons and three great grandsons.

Mrs. Holmgren moved to Friona from Warren, Minnesota in 1942.

Pallbearers were Bill Flippin, Carl Maurer, S. T. Thornton, O. J. Beene and Mayo Phipps.

## Letters to the Editor

Dear Sir: Enclosed please find postal money order for \$4.00 for subscription renewal.

Your weather seems to be similar to ours. Winds of tornado violence, followed by rain, hail and freezing. Not many oats was sown owing to the flood.

Farmers are working night and day trying to get their corn planted.

We are not complaining. Just working, praying, and helping others less fortunate.

Respectively,  
Mrs. Grace Livengood  
Route 3, Salem 3, Indiana

Miss Blink: "So you've given up taking tranquilizers?"

Miss Blank: "Yes, I found myself being pleasant to people I shouldn't even speak to."

## Kappa Upsilon Accepts James Gee

James Gee, Friona, is one of nine new members that has been accepted by Kappa Upsilon, the Eastern New Mexico University chapter of Alpha Psi Omega, national dramatics fraternity.

To be eligible for membership, a student must complete a required amount of work on University Theatre productions.

As a part of the initiation into the fraternity, the new members are required to recite a passage from Shakespeare, deliver an extemporaneous speech on theatre activities, and to perform a pantomime.

The word Xmas as a form of Christmas originated in the early Christian Church, reports World Book Encyclopedia. In Greek, X is the first letter of Christ's name. It was often used as a holy symbol.

WITH JUNE

One citizen of our community who teaches participation in affairs of the government by example is Mrs. Charles Schlenker. Although she is almost 95 and has been ill several months, her presence at the polls was noted by a number of voters.

Mrs. Schlenker, a busy homemaker and mother of eleven children, has always managed to find time to keep informed on political affairs from the local level to special senatorial elections.

Next time you need a synonym for "As dead as," just use "Main Street in Friona on Memorial Day." After the program early Tuesday morning, the street was almost empty throughout the day. It seems that nothing in downtown Friona is open except the newspaper plant and Bi-Wize Drug.

During the next three months a large number of Frionans will be going places. Of course, automobile accidents don't just happen during the summer season, but it seems that they do occur more often. The following feature was prepared under the supervision of the State Bar of Texas to inform readers rather than to advise them.

"Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?"

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should com-

mit to memory:  
1. Stop! Failure to stop can result in serious criminal consequences.

2. Render Aid. If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.

3. Protect the Scene from Further Damage. You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.

4. Call an officer. Police-men, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.

5. Gather Information . . . Write It Down. Don't trust your memory. Don't guess--be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver--and he must do the same.

6. Be Careful What You Say. Even if you feel you probably are to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.

7. See Your Doctor if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.

8. Consult Your Lawyer Immediately. The sooner your lawyer is brought into the matter, the better he can advise

you and protect your rights. He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interviews or statements to investigators or adjusters for the other side.

9. Inform Your Insurance Company Promptly. Failure to do so may void your policy.  
10. Report the Accident to the Department of Public Safety. This is required by law if there is any injury, death, or total damages exceed \$25.

With Little League, Pony League, swimming and Bible schools, it looks as if Friona youngsters will be kept busy for the next few weeks.

If you haven't seen Reeve Field, drive out north of town and look at it. A new chain link fence has been erected, floodlights are being installed, signs are being re-painted, new dug-outs are completed, and a lot of cleaning up has been done. This field is certainly a credit to interested citizens who have made this improvement possible.

Anyone who would like to improve his reading skill should attend a meeting at the Junior High building Monday evening of next week. Mrs. Dean Merritt of Clovis will begin a reading developmental course at 8 p.m.

There will be twelve two-hour sessions and the cost will be \$15, plus 50 cents for a workbook. Classes will be conducted from 8 to 10 p.m. each Monday evening during the course.

On the first day after the honeymoon was over, the bridegroom came home from work and queried his young bride, "What did you do today, dear-est?"

"I filled the salt shaker, darling."

"This took all day?"

"It's not easy," she protested, "to pour salt through those little holes."

JUDY BARNETT, daughter of Mr. and Mrs. Fern Barnett, is one of six Texas Tech home economics students that has been chosen for teacher apprenticeship this summer. The students will spend June observing and assisting home-making teachers as they direct high school students and families in home and family life projects. Judy will apprentice under Mrs. Ella Jane Black and Mrs. Aileen Bravenec at La Porte. Choices of Tech apprentices were based on personality, academic standing, interest in teaching and intent to teach upon graduation.

**Fields Attends Utility Course**

Clyde Fields, of Friona, was awarded a certificate following satisfactory completion of a three-day Water Utility Management Institute held in Austin, May 14-17. Fields is one of more than 30 waterworks and city officials who attended the first Water Utility Institute under the auspices of the Southwest Section, American Waterworks As-

sociation. The certificate was presented by William W. Hagerty, Dean of the college of engineering, University of Texas. Organized by Section's Advancement Committee, the institute was co-sponsored by The University of Texas, the State Department of Health, and the Texas League of Municipalities.

Two men were discussing a friend's bad luck at the races. "It's funny," commented one of them, "Frank is a demon at cards but he can't win a bet at the track."  
"That's not so funny," the other said. "He can't shuffle the horses."

**FAITH**

The vast span of human history has viewed many hours and day which have called forth stalwart and courageous faith, and our day is certainly one of these. The things we have believed and cherished are being challenged, and darkness appears from many vantage points. With so many disappointments and shattered dreams crumbling around us, some might feel, "Oh well, what's the use?" But as one has well said, "Trying times are times for trying," and another who said, "Man's extremities are God's opportunities." It isn't indication of a giant intellect or wisdom for a person or a preacher to decry present conditions. Many are swift and apt in critical fashion to point to things which are wrong, and many there be who will gather to listen as flies find the sweetened paper. But more in need, and more difficult is the task of submitting solutions.

In the New Testament found in I John 5:4 are these words: "For whatsoever is born of God overcometh the world; and this is the victory that overcometh the world, even our faith." By God's grace we will be spared in times of extremity. This grace is made operative by our FAITH. This grace has been made operative down through the annals of time by men of faith. Faith is confidence. God has to be translated from a mere concept into a vital factor. We become the Sons of God through the power of God; this power comes through receiving, and we receive Him through FAITH.

We need today an experience with God. The Devil in all of his cunning is not our greatest threat, communism in all of its ruthlessness is not our greatest threat, the unconcern of God's people isn't either . . . it is our lack of FAITH. Jesus said, "According unto your faith, so be it unto you." Victory comes according to the measure of our Faith.

## New Hangar Nears Completion

Work is nearing completion on a new airplane hangar for Bengier Air Park.

The 32x305-foot steel structure will house 10 airplanes, says Elvie Jennings, owner of the air park.

Construction is all completed except for a few finishing touches, and the installation of concrete pads where the planes will sit in the 10 separate compartments of the hangar.

The hangar, which will house any aircraft up to the light twin engine class, boosts the airplane storage capacity of the air park to 26 planes, besides the shop, Jennings says.

The new facilities were constructed to make room for the increasing number of aircraft which is based at Friona.

"Right now we'll have adequate storage for all the planes, and a few vacant stalls," Jennings says, but he adds that it probably won't be too long before they are all filled up.

## Trophies-Pins Awarded Late Owl League Teams

The Late Owl League, consisting of 12 teams, closed the winter session of bowling with the awarding of trophies and pins.

Christine Ivy, league secretary, presented each team captain with the team captain's pin. Also pins were presented to the 500 club (three game series throughout league session), 200 Club (scoring over 200 in one game) and the 195 Club.

Those receiving pins in the 500 Club were Arlene McCollum, Jeanne Kirby, Levina Brown, Mary Jane Wilson, Thelma Watkins, Joy Hall, Jewel Tabor, Dimple Hand, Mary Elliot and Virginia Jennings.

In the 200 Club were Pat Reed, Arlene McCollum, Mary Elliot, Jeanne Kirby, Thelma Watkins, Levina Brown, Esther Ferguson, and Betty Stokes. Presentations for the 195 Club were made to Latoya Howell, Jewel Tabor, Dorothy Looney, Joy Hall, Melba Burleson, Chris Ivy and Jeanne Kirby.

Late Owl League final standings: High average - Joy Hall,

146; Cherry Mingus, 145; Thelma Watkins, 142. High Games - Esther Ferguson, 229; Jeanne Kirby, 214; Pat Reed, 212. High Series - Jewel Tabor, 541; Joy Hall, 525; Esther Ferguson, 521. Most Improved - Arvella England, 20 pins; Faye Keith, 13 pins; Ester Trimble, 12 pins. High team game - scratch - Friona Battery and Electric, 826. High team - Handicap - First National Bank, 843. High team series - Scratch - Friona Battery and Electric, 2269. High team series - Handicap - Hartwell Machinery, 2299.

Late Owl League will start their summer league on May 29. The league will meet one hour early to set league rules.

A disturbed looking man walked into the psychiatrist's office.

"Doctor," he said, "I have been having a terrible time.

Everytime I say something I completely forget what I have just said. It's embarrassing and troublesome."

"Well," the psychiatrist said, rubbing his hands, "when did you first begin to have this trouble?"

"Trouble? What trouble?"

"Well," the psychiatrist asked the man.

### DOWPON ...

**Kills Johnson Grass**

Problem grasses choke out crops, reduce yields, make extra cultivating work! Clean up your fields with Dowpon. It's more economical . . . more effective . . . kills grasses, roots and all . . . reduces regrowth problems. Will not injure grazing livestock if accidentally eaten. A class of three year olds are busy with craft activities at the Methodist Church School, which is in progress this week. Assisting the youngsters are Mrs. Billy Joe Mercer, Mrs. Claude Abston, Mrs. Shirley Smith, and Mrs. Keth Brock.

This group of teachers and children met last week to make preparations for Bible School which will begin Monday, June 5, at the Calvary Baptist Church.

# Vacation Bible School Underway

Vacation Bible School is in progress this week at one Friona church, and three other churches have scheduled the annual summer bible classes next week.

The vacation church school has been, conducted daily this week at the Friona Methodist Church and the last day of classes will be Friday.

Registration at 2 p.m. Saturday, followed by a big parade through town, will launch Bible school at the First Baptist Church, reports the Rev. Bill Burton, pastor.

The parade will conclude at the park where refreshments will be served.

The school will be conducted for children, ages 3 through 12, starting Monday, from 3 to 6 p.m. Commencement exercises will be held Wednesday, May 14, in place of regular prayer service.

Bible schools slated at two other Friona churches are as follows:

**SIXTH STREET CHURCH OF CHRIST**  
The Sixth Street Church of Christ will conduct its Vacation Bible School this year from June 5 to 9.

Classes will meet each afternoon from 5 to 7 p.m., Monday through Friday.

Qualified teachers will be in charge of each class, and an interesting course of study has been arranged. Visual aids, including film strips, slides, handwork and other forms of student participation will be used in each class to encourage the greatest possible benefit for those who attend.

### APPLIANCES

SALES—SERVICE  
**ROBERTS**  
FURNITURE CO.

523 Main Ph. 8451

The school will be open to everyone who would like to enroll, and a very cordial welcome is extended to the entire community.

**CALVARY BAPTIST**  
All children, ages 3 through 12, are invited to and encouraged to attend the Calvary Baptist Bible School each day between the hours of 3 and 6 p.m.

The commencement exercises are planned for Wednesday night, June 14, according to Mrs. W.S. Crow, Bible school principal. A full crew of workers has been recruited and the church is looking forward to a good school.

Department superintendents will be: Mrs. Rhodes, junior I; Mrs. Robert Riley, junior II; Mrs. Everette Bales, primary I; Mrs. Bill Sheehan, primary II; Mrs. Doug Connelly, beginner; and Mrs. Bill Stephens, nursery.

### News From RHEA

MRS. FRANKLIN BAUER

Rhea Farm Bureau will meet Friday night, 8 p.m. at the Parish Hall. Mr. Ralph Shirley, Fire Chief from Friona, will show some films. Mr. and Mrs. Billy Sifford and Mr. and Mrs. Shirley Smith will serve refreshments.

### VACATION BIBLE SCHOOL SCHEDULE

Vacation Bible School will be held from June 5-9 at Rhea Lutheran Church. The sessions lasting from 9 a.m. until 12 noon each day. A closing program will be given by the children on Friday night, June 9th. If anyone has failed to be contacted, they may still enroll. The schedule each day includes the opening service, Bible lessons, handicraft projects, singing and play. Refreshments will be served each day by the Ladies of the church.

The church members will furnish transportation to and from Bible school. Teachers are: Nursery, Mrs. Herbert Schueler and Mrs. Floyd Schueler with Georgina Lambert helping. Kindergarten, Mrs. Franklin Bauer. Primary, Mrs. Chris Drager and Mrs. Carl Schlenker with Wanda Huddelston and Mrs. Billy Sifford as helpers. Junior, Mrs. Ray Martensen and Mrs. Florian Jarecki, and Pastor Stroebel teaching Junior High.

Floyd Schueler, Sunday school superintendent, is in charge of arrangements.

### IT'S A GIRL

It's a girl for Mr. and Mrs. J. M. Wiley of Amarillo. Vickie Diann arrived May 17 and weighed 7 lb. 13 1/4 oz. She is the couples first child.

Grandparents are Mr. and Mrs. Paul Averett of the Rhea Community, Mrs. Irene Wiley of Friona and Mr. Melvin Wiley of Clovis. Great-grandparents

are Mrs. Walter Averett of New Castle, Texas and Mrs. R. G. Wiley of Friona.

We are proud of our students in the community. We had a valedictorian, several receiving scholarship pins and almost 100% receiving achievement awards.

Several have already taken summer vacations. Mr. and Mrs. Herman Schueler arrived home Friday evening after spending two weeks in Indiana.

Mr. and Mrs. Florian Jarecki, Pamela, Susie and Johnny and Mrs. Ray Martensen and Allen spent the past weekend in Nebraska.

Mr. and Mrs. Melvin Sachs and children are visiting in California with Melvin's sister, Evelyn and her husband.

Cynthia Patterson returned from her Senior trip early Tuesday morning and enrolled for summer classes at West Texas State in Canyon the same day.

Mrs. Malinda Schlenker returned home the past week from California.

Mr. and Mrs. Donny Spring and daughter of Weatherford, Oklahoma are visiting with Mrs. Spring's parents, Mr. and Mrs. Elmo Dean.

Twenty eight dogs were vaccinated by Dr. Russel last Friday.

Mr. and Mrs. Shirley Smith and Shirley Lynn visited Sunday in Portales with Shirley's mother.

Mr. and Mrs. Walter Schueler and children visited in Sudan Sunday with Mrs. Schueler's parents, Mr. and Mrs. E. O. Woolever.

A Sunday school convention film was shown at the regular Sunday school teachers meeting Tuesday night.

Mr. and Mrs. Franklin Bauer and children attended the high school graduation of Franklin's sister in Canyon Thursday evening.

### RHEA 4-H CLUB MEETS

The regular meeting of Rhea 4-H held at the home of Sandra Patterson May 26. The hostess served refreshments to the fol-

## Texico Man Fined For Hit-And-Run

Clyde McDonald, 27, was fined \$214 and sentenced to five days in jail this week by Parmer County Judge Loyde Brewer for a hit-and-run accident and driving while intoxicated.

The accident occurred Saturday night about 10 p. m. when McDonald, driving a 1957 Ford, pulled on to Highway 84 east of town and collided with a Plymouth driven by a Mexican boy from Clovis.

McDonald left the scene of the accident, but was later picked up by the sheriff's department.

In another county court case Monday, Ben Finch, Farwell, was fined \$38 by Judge Brewer for assaulting his wife.

The sheriff's department also

reported that three men had been returned from outside of the county to face charges here.

James Franklin Green, 34, was returned from North Carolina recently to face charges of stealing a car belonging to O. B. Short of Bovina, and for passing a worthless check. His bond was set at \$1500 and he will be tried June 7.

Roy Armstrong, 33, whose home is in Pampa, was brought to Farwell from Lubbock to stand trial for forgery. He had previously been indicted by the grand jury and will be tried June 7 for forging and passing a check at Holiday Store in Farwell.

Johnny Lewis was returned, to Farwell from Clovis to face charges of forgery. He allegedly forged checks at Hurst's Department Store in Friona and Williams Mercantile in Friona.

Lewis' bond was set at \$1,000 and he was bound over for grand jury action.

A Japanese student, who was attending an American university, wrote his father in Tokyo about his new school. "An American university," he wrote, "is a vast athletic institution where, fortunately, some studies are maintained for the benefit of the feeble-bodied."

lowing members; Shirley Schueler, Shirley Lynn Smith, Wanda Huddelston, Greta Mears, Carolyn Jonnston, Sharon Martensen, Debbie Jarecki, Vickie Vaughn, and Connie Schlenker. Mothers and guests present were Mrs. Shirley Smith, Mrs. Carl Schlenker, Mrs. Florian Jarecki, Mrs. Jack Patterson, Mrs. Norman Taylor and Shannon, Carlene Schlenker, and Debbie Mears.

Wanda Huddelston called the meeting to order. Sandra Patterson called roll and read minutes.

Wanda Huddelston gave a council report. The group also discussed the dress review, bake show, and county recreation. Greta Mears gave a demonstration on a salad. Wanda Huddelston adjourned the meeting.

By Connie Schlenker 4-H reporter.

**FRIONA SENIORS -**

## Higher Education Plans Being Made By Majority

Although plans of some of the 47 graduating seniors are rather indefinite at the time, a majority of them plan to attend institutions of high learning this fall. When the senior trip is completed, a number of students who have been classmates since they were in the first grade will be going in different directions. Twenty-nine members of the class have indicated that they plan to attend college next school term. Business schools have been chosen by five; two plan to do some traveling; five are becoming full time home-makers; two will be summer brides and four are planning to work some before entering college. Darla Bingham and Virginia Patton plan to go to Denver the

next day after the group returns from the trip. They will be students at Cliff Mann's Floral School there. Then when classes assemble on the West Texas State campus at Canyon this fall, Virginia plans to enroll. Other members of the class who will be registering at Canyon are Margaret Hudson, Mary Leonard, Gayle Knight, Donna Blackburn, Nelda Douglas, Carroll Bennett, Dean Nazworth, Bob Sanders, Larry Evans, Cheryl Thompson, Charles Myers, Lynn Baxter, Boyd Jones, Joe Reeve, and Jobey Claborn. Jerry Rankin, Cynthia Gaffey and Kitty Black plan to enter Texas Tech at Lubbock. Joe Ayers will join his classmates

there after spending six months with a National Guard unit. Pay Myers plans to attend Draughn's Business College at Lubbock and Celia Weatherly and Eleanor Dodson will enroll at the Amarillo branch of the same school. Neil Floyd will attend Fort Worth Electronics School. Randy Williams, who plans to attend a college or university in Arizona but hasn't decided which one. Judy Taylor has made definite plans to enter nurse's training, but hasn't selected the school she will attend. South Plains Junior College at Levelland has been chosen by Karen Bales and Lawanna Towery. Kay Struve will attend

Ablene Christian College and Eddie Bradshaw will enroll at McMurry College. Both of these colleges are in Abilene. Tommy Barker and Tommy Massey plan to attend Panhandle A & M College at Goodwell, Okla. Suzanne Taylor will register at North Texas State College at Denton. Two of the class members who plan to see more of the world are Kay McKee, who plans to enlist in the WAVES, and Kenneth Gaines, who is planning to go to Alaska. Busy with summer wedding plans are Tommy Lewellen, who will be married to Gary Goetz June 10, and Winette Beaton, who plans a late summer wedding to Ira Bruce Parr. Class members who are postponing education plans for the present in favor of working are John Woodson, Larry Elmore, Roy O'Brian and Dale Cunningham. Transferring from the status of part time homemaker to full time homemaker will be Pat Ready Webb, Carolyn Baxter Pipes, Dora Martinez Covarrubias, Judy Pesser Taylor and Mary Jane Grubbs Clements.

### DPS Investigates Eight Accidents

The Highway Patrol investigated 8 rural accidents in Farmer County during the month of April, according to Sergeant Roger Sosebee Highway Patrol Supervisor of this area.

These wrecks accounted for three persons injured and a property damage of \$3,075. This brings the total for 1961 in this county to one killed, 8 injured, and a property damage of \$13,328.

"A driver who learns and complies with traffic laws can never prevent as many accidents as a driver who learns and complies with both traffic laws and defensive driving procedures," the sergeant stated. A traffic law describes what a driver must do or not do. Procedure describes ways in which a driver can comply with the law or do something extra that will increase his safety and prevent congestion.

"For example, the law says that no person shall park a vehicle upon the paved or main-traveled part of the highway. A driver complies with this law on a rural highway when his car barely clears the pavement. Procedure, in this instance, when possible or reasonable would require the driver to park a greater distance from the pavement," the sergeant explained.

### Announcing

The Newest Developments In HYBRIDS

#### SCOTT 500

Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 660 and outstanding in ability to stand and to yield. Adapted to dryland or irrigation. 110 days to mature.

#### SCOTT 450

An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas needing this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter than 610)

-- A GREAT PAIR OF TRUE COMBINE HEIGHT HYBRIDS.

Leading Texas and RS Hybrids -- all grown on our own farms -- tested in our own plots. Matures grain in 110 days.

GROCERY & MARKET

Big Enough To Accommodate - Small Enough To Appreciate

HOSTESSES AT THE FRIONA WOMAN'S CLUB luncheon are standing: Mrs. J. F. Miller, Mrs. Charles Russell, Mrs. V. R. Jordan and Mrs. M. B. Buchanan. Seated are Mrs. Lem Miller, a member seldom able to attend; Mrs. Pearl Kinsley, only charter member, Mrs. Wesley Hardesty, vice-president and Mrs. Joe Moyer, treasurer.

## Friona Woman's Club Activities Closed With Luncheon And Program

Mesdames M. B. Buchanan, V. R. Jordan, J. F. Miller, and Charles Russell, were the hostesses, Wednesday, May 24, at 1 p.m. when the year's work for the Friona Woman's Club was closed with a covered dish luncheon. The club rooms were lovely with seasonal bouquets and the tables were set with place cards and a rose favor for each guest. Mrs. Lem Miller and her daughter, Mrs. Charles Russell, made the lovely yellow roses that carried out the club's colors, green and yellow, also the rose is the club's flower.

"In Retrospect and Farewell" was the theme of the meeting. The invocation was given by Mrs. Wesley Hardesty, vice-president, who acted in the absence of Mrs. Roy Slagle, club president. The eighteen members present answered roll call by telling of "The Program I Enjoyed Most." Because of the variety of very fine programs during the year, almost every program was mentioned as a favorite. The two book reviews, a musical program and the "Introduction to Art" were both mentioned several times.

During the business session Mrs. Hardesty called for the yearly reports of the officers and chairmen of committees and asked for suggestions for the coming year's projects and programs.

Mrs. Maurine Dunn presented a program with five of her dance pupils. Sally Kendrick wore a lovely blue and white satin costume to do "Soft Shoes." Ann Ayers was a pretty fairy queen in a blue and white striped costume as she danced to the "Girl of My Dreams." The delightful yellow costume and hat that Andrea Hurst wore complimented her clever dance. "The Twosome" expertly done by Kathy McLean and Tinker Dunn delighted everyone. Their costumes were of white satin and Kathy's ballet skirt was a rainbow of colored ribbons.

The guest soloist, Mrs. Robert N. Ginsburg, closed the program by singing "The Lord's Prayer" accompanied by Mrs. Dorothy Hough.

As dismissal the members and guests repeated in unison; "Close your book, the year is done. We all agree, it has been fun."

Others present were one guest, Mrs. Hudson Phillips, and Mesdames Lem Miller, A. H. Boatman, L. R. Dilger, R. W. Ginsburg, H. C. Kendrick, L. F. Lillard, Carl Maurer, S. L. McLellan, Joe Moyer, Pearl Kinsley, Edgar Carney, C. W. Dixon and Fred White.

Attending and sending gifts were Ray White, Mr. and Mrs. Arthur Lee Stokes, Mr. and Mrs. Bill Baxter, Mr. and Mrs. Wilburn Carlton, Mr. and Mrs. Ralph Smith, Mr. and Mrs. W. S. Crow and Mr. and Mrs. Luther Shelton.

Also Mr. and Mrs. Leonard Haws, Mr. and Mrs. J. T. Gee, Mr. and Mrs. Roy Miller, Mr. and Mrs. Hayden Cayson and Mr. and Mrs. Joe Talley all of Friona and Mr. and Mrs. Dale Hinds and J. H. Hinds of Hereford.

Too much hot air will take the wind out of a feller's sales.

## Of Interest To THE WOMEN

### Housewarming Held For The Glenn Reeves

Honored Monday evening, May 15, with a surprise housewarming were Mr. and Mrs. Glenn Reeves Jr. They recently moved into their new home at 604 Green Street.

Hosts for the occasion were Mr. and Mrs. Walter Cunningham, Mr. and Mrs. Kenneth McLellan, Mr. and Mrs. Ben Moorman and Mr. and Mrs. Dale Williams.

Attending and sending gifts were Mr. and Mrs. Joe Mann, Mr. and Mrs. J. C. McLean, Mr. and Mrs. Smiley Fulks, Mr. and Mrs. Delmar Renner, Mr. and Mrs. Neal Fulks, Bobby, Virginia and Donna, Mr. and Mrs. Glenn Reeve Sr., Joe and Max and Mr. and Mrs. Gaylon Rhodes.

Also Mr. and Mrs. Charles Balmum, Mr. and Mrs. F. W. Reeve, Mrs. Fay Reeve and family, Mr. and Mrs. Danny Balmum, Mr. and Mrs. Marty Martinez, Mr. and Mrs. Ed Duke, Mr. and Mrs. J. A. Loflin, Mr. and Mrs. Eddie Meil and Mr. and Mrs. Ansel Renner.

### Dea Announces Late Summer Wedding Date

Mr. and Mrs. A. W. Anthony, Sr. have announced the engagement and approaching marriage of their daughter, Patsy, to Don W. Copley of Muleshoe. The announcement was made at a tea in the Anthony home, Thursday, May 25.

Bouquets of white gladioli, accented with pink, pom-pom, chrysanthemums were used. In the living room the bouquets

at either end of the mantel were connected with a white satin ribbon bearing the date, August 26. A miniature bridal party placed in front of 7 tall pink candles was arranged between these two bouquets.

The serving table was laid with a white linen hand embroidered cloth and the appointments were silver. The bouquet carried streamers with the names Patsy and Don.

Mrs. Anthony, Miss Anthony, and Mrs. A. W. Copley of Muleshoe, mother of the groom-to-be, received the guests. The guestbook and serving table were presided over, at different times, by members of the house-party. These were Mesdames Estis Bass, Ernest Anthony, Jean Anthony, A. W. Anthony, Jr., H. C. Kendrick, and Ralph McBroom and Miss Doris Copley of Lubbock.

A graduate of the Friona High School in 1957, Miss Anthony received her Associate of Arts Degree from Stephens College at Columbia, Mo. in 1959. At Stephens she was on the Dean's honor list and a member of the Phi Theta Kappa scholastic honorary society. She belonged also to Pi Phi Rho an honorary

MISS PATSY ANTHONY

sorority in textiles; and to the Beta Pi Gamma, social sorority. She will be graduated in May from Texas Tech where she is a member of the Phi Mu sorority. As a major in dietetics she has received the only paid internship offered this year to the graduates of Tech majoring in dietetics. She has been accepted by the Veterans Administration Hospital in Houston and will begin her internship there early in Sept. Mr. Copley is a graduate of Muleshoe High School and will be graduated from Texas A and M in August, with a degree in mechanical engineering. At the same time he will be commissioned as a pilot in the United States Air Force. However, he will be deferred from active duty to do graduate work in one of the universities in Houston. During his four years at A and M, he has been trombonist in the 254 piece Marching Aggie Band. He now holds the rank of Cadet Major and is the executive officer of the Consolidated Band Staff.

### Hart Home Scene Of Class Meeting

Thursday evening, May 18, the Fidelis Class of the First Baptist Church held their monthly meeting in the home of Mrs. Dale Hart. Mrs. Clyde Tims assisted with hostess duties.

The devotional was presented by Mrs. Leon Massey. Following the serving of pie and iced tea, Mrs. Hart was surprised with a shower of gifts for her new home.

Others present were Mrs. Richard Adkins, Mrs. Phillip Weatherly and Mrs. Velden Carroll.

### Housewarming For The Clyde Sherriebs

Mr. and Mrs. Clyde Sherriebs who recently moved into their new home in Hereford were honored with a housewarming shower Monday evening, May 29.

Attending and sending gifts were Ray White, Mr. and Mrs. Arthur Lee Stokes, Mr. and Mrs. Bill Baxter, Mr. and Mrs. Wilburn Carlton, Mr. and Mrs. Ralph Smith, Mr. and Mrs. W. S. Crow and Mr. and Mrs. Luther Shelton.

Also Mr. and Mrs. Leonard Haws, Mr. and Mrs. J. T. Gee, Mr. and Mrs. Roy Miller, Mr. and Mrs. Hayden Cayson and Mr. and Mrs. Joe Talley all of Friona and Mr. and Mrs. Dale Hinds and J. H. Hinds of Hereford.

### Going Away Party Fetes Jayne Beall

Miss Jayne Beall was feted with a "Going Away" party Thursday morning, May 25, in the home of Sandra Nunn. Assisting Miss Nunn with hostess duties were Mary and Martha Knight.

Following the opening of surprise gift packages cookies and cold drinks were served to the guests.

Attending and sending gifts were Gayle White, Kay Burleson, Keta Elder, Cynthia Gunn, Joy Ingram, Sharon Reeve, Wanda Ready, Janet Buckley, Kay Johnson, Carol Ray, Iva Parr and La Voyce Burrow.

### Circle Meeting At Ginsburg Home

Wednesday, May 24, the last meeting of the year for the Kolwvvia Circle was held in the Ginsburg home.

"The World Federation of Methodist Women" was presented by Mrs. U. S. Akens. Others participating in the program were Mesdames C. L. Vestal, W. M. Stewart, Floyd Rector, Clyde Fields, Eugene Ellis and J. L. Shaffer.

During the business session Mrs. Ellis, chairman, expressed her appreciation to the group. A few members of this group will remain in the Kolwvvia Circle the coming year but the majority will find new places in other circles.

June 14, a salad supper will be held in the Fellowship Hall at 7:30 and WSCS members will form new circles.

# Some Say Demos "Went Fishing"

(Continued from Page 1)

workers, and to the fact that the country is "getting too social-istic."

"I was very excited and very glad that Tower won," Mrs. Bruns said, and she gave credit to all of the volunteer workers in each community of the county who "conducted a telephone campaign in support of Tower."

The telephone campaign was started prior to the April 4 election, and expanded on in the runoff, she said.

It was unlike the campaign in 1956, "when Thad Hucheson ran for senator," she said. At that time, no one was interested, but in this campaign there was widespread support, Mrs. Bruns explains.

"Many people we called were really happy that we were conducting the campaign, and they thought it was something that needed to be done," she said. "They were behind Tower and wanted to help."

Mrs. Bruns didn't think many people stayed home because there wasn't any choice between the two conservative candidates, "but a lot of them didn't like Blakley and voted for Tower," she said.

Another reason for the success of Tower, according to Mrs. Bruns, was because "many people didn't like the way the election was carried on before." She was referring to the general election, the narrow victory of the Kennedy-Johnson team, and what she termed, "the turning away of some people from the polls."

"Many people thought that Nixon would have carried Texas, had the election been carried on right," she said.

Bob Anderson of Farwell, who is a director of the Panhandle Citizens for Constitutional Government, attributed Tower's victory to the failure of liberal Democrats to vote.

"I think the liberals stayed home," Anderson said, and he cited voting statistics to back up his belief. Statewide, the number of voters who went to the polls in the general election numbered two million, while in the senate runoff there were only 900,000 voters.

In the county, only 1,000 persons voted Saturday, compared to about 2,500 in the general election.

Dean McCallum, a Bovina Democrat, took the same view, saying, "The Democrats didn't vote." He didn't believe that Tower's success would be much of a boost to the Republican party in Texas, and was of the opinion that "a good democrat" could beat Tower in the next election.

McCallum thought that, had Blakley won, he would have been hard to beat next time, even by a "good Democrat."

Eddie Ross, a Bovina farmer, thought that "squabbling among Democrats allowed a Republican to get in." Had the Democratic party been more united, Ross thought that Blakley would have won.

Leo McLellan, Friona Republican, said he thought the big reason for Tower's success was that the people got fed up with what he called "Johnson's sell-out" earlier. He was referring to the democratic convention and Johnson's acceptance of the vice-presidential nomination.

"A lot of folks say that many voters stayed home because they only had a choice between two Republicans," McLellan said, "but I think they say that, only because Tower won."

"Blakley had the endorsement of all the democratic leaders from Austin to Washington," McLellan pointed out.

"I'd like to think," McLellan further stated, "that the people are getting wise to the fact that the government is going to spend us into hard times, and that this was their way of expressing their opposition to it."

Floyd Reeve, another Friona Republican, said, "I've thought for a long time that Farmer County, at heart, belonged to the conservative line of thinking, and this was their opportunity of expressing it."

"A lot of oldtimers have always leaned to the Republicans, but in recent years there's been no opportunity to vote anything but democratic," Reeve said, adding that, "This gives us a good chance for a two-party system."

"I personally am rather optimistic (about a two-party system), since the ice has been broken," Reeve said.

Dolph Moten, democratic precinct chairman of Bovina, thought there were several reasons for the success of the Republican. He thought that Tower was a "good personal campaigner," whereas Blakley didn't have much voter appeal.

Also, Moten thought the publicity Tower received last fall in his campaign against Lyndon Johnson was a big factor. "These things, coupled with the fact that the Democrats didn't vote," Moten said, were the reasons for Tower's success. "Too, the Democrats were overconfident," he added.

As to whether or not Tower's success would help to create a strong Republican party, Moten doubted whether it would, but said, "I hope it will."

"Then maybe some of the people who vote Republican all the time will get out of the Democratic party," Moten said.

Jack Patterson, Republican from the Rhea community, shared the views of most of his party colleagues, and added that the integration trouble in the south, and "Fidel Castro's scheme of blackmail, which the Kennedy administration is going along with," had a great deal to do with Tower's win.

Patterson also cited the "General Walker incident" in Europe, and pointed out that "it's getting to where a person can't speak up for Americanism anymore."

"The people are waking up to these things," Patterson said, and "They want to get back to constitutional government, and get away from socialism."

Patterson feels that Tower's win will strengthen the Republican party and also "wake up the Democratic party in Texas and the south," which he said, "was taken for granted at the Los Angeles Democratic convention."

The Rhea farmer added that it may mark and end to belief by the liberal Democrats "that they could cram anything down their (the Southern Democrats) throats."

# How To Install And Operate A Recharge Well

There are 37,000 playa lakes on the High Plains but only 170 recharge wells are reported to be in operation. Many of these recharge wells have been reported as failures.

Cave-ins, air locking of the pump and reduced pumping of the well due to clogging of the underground sands are the most common reasons for recharge failure. All three can be prevented by the proper installation and operation of a recharge well.

**INSTALLATION**

Four things are very necessary in the installation of a recharge well. These are: (1) a concrete packer around the top 30 feet of casing, (2) perforate the casing beginning at the static water level, (3) install a vent pipe through the concrete packer and (4) the installation of an intake control valve.

Some recharge wells are ruined by surface cave-ins. These are caused by water seeping in around the base of the pump and recharging outside the casing.

If this recharging outside the casing continues, the seepage channel enlarges and finally causes the well to cave-in. Recharging faster than the sands can absorb water results in water rising too close to the surface and this can contribute to cave-ins.

A concrete packer 30 to 35 feet deep and approximately six to eight inches thick around the top of the casing will prevent surface seepage and washing from beneath and reduce the danger of cave-ins. The well should be drilled with the top 30 to 35 feet approximately 12 inches greater in diameter than the casing.

This spacing is to allow for six inches of concrete outside the casing.

Many recharge wells will not pump and recharge at the same time. This is caused by an "air-lock" in the pump. Air is

carried down with the recharge water and cannot escape.

The falling water prevents this air from escaping back up the casing. Since the casing perforations are usually at the same level or below the pump, the air is held inside the casing.

When the pump is started this trapped air enters the pump bowls and causes an "air-lock" which prevents or reduces pumping of water. Excessive wear results, if the pump is operated under such conditions.

To prevent this "air-lock" the casing should be perforated beginning at the static water level so the air which is carried down can escape outside the casing above the pump pipe. A vent pipe must then be provided to permit the air to come to the ground surface and out into the atmosphere.

This vent pipe should be two to three inches in diameter and placed in the concrete packer when it is poured. It should extend at least one foot below the packer and a few inches above the top.

The vent pipe should be placed so it will not interfere with the pump base and be provided with a cover to keep out dirt and trash.

**OPERATION**

The greatest hazard in recharging is clogging of the underground formation so that the well will neither pump nor recharge water.

Pumping the well one to two hours during each 24 hours recharge period has prevented clogging. This pumping removes a large percent of the sediment which is carried into the well.

Surging (stopping the pump to permit the column of water in the pump to drop back into the well) every 15 minutes stirs the sediment and keeps it in suspension. This results in more sediment being removed during pumping. Where this pumping and surging procedure has been followed, there has been no reduction in pumping or recharging rates over a three-year period.

Controlling the recharge rate will also help to prevent clogging of the underground formation. If the recharge rate is lower than the pumping rate, the sediment will remain closer to the casing. As a result, more sediment will be recovered during the daily pumping procedure.

A valve should be installed

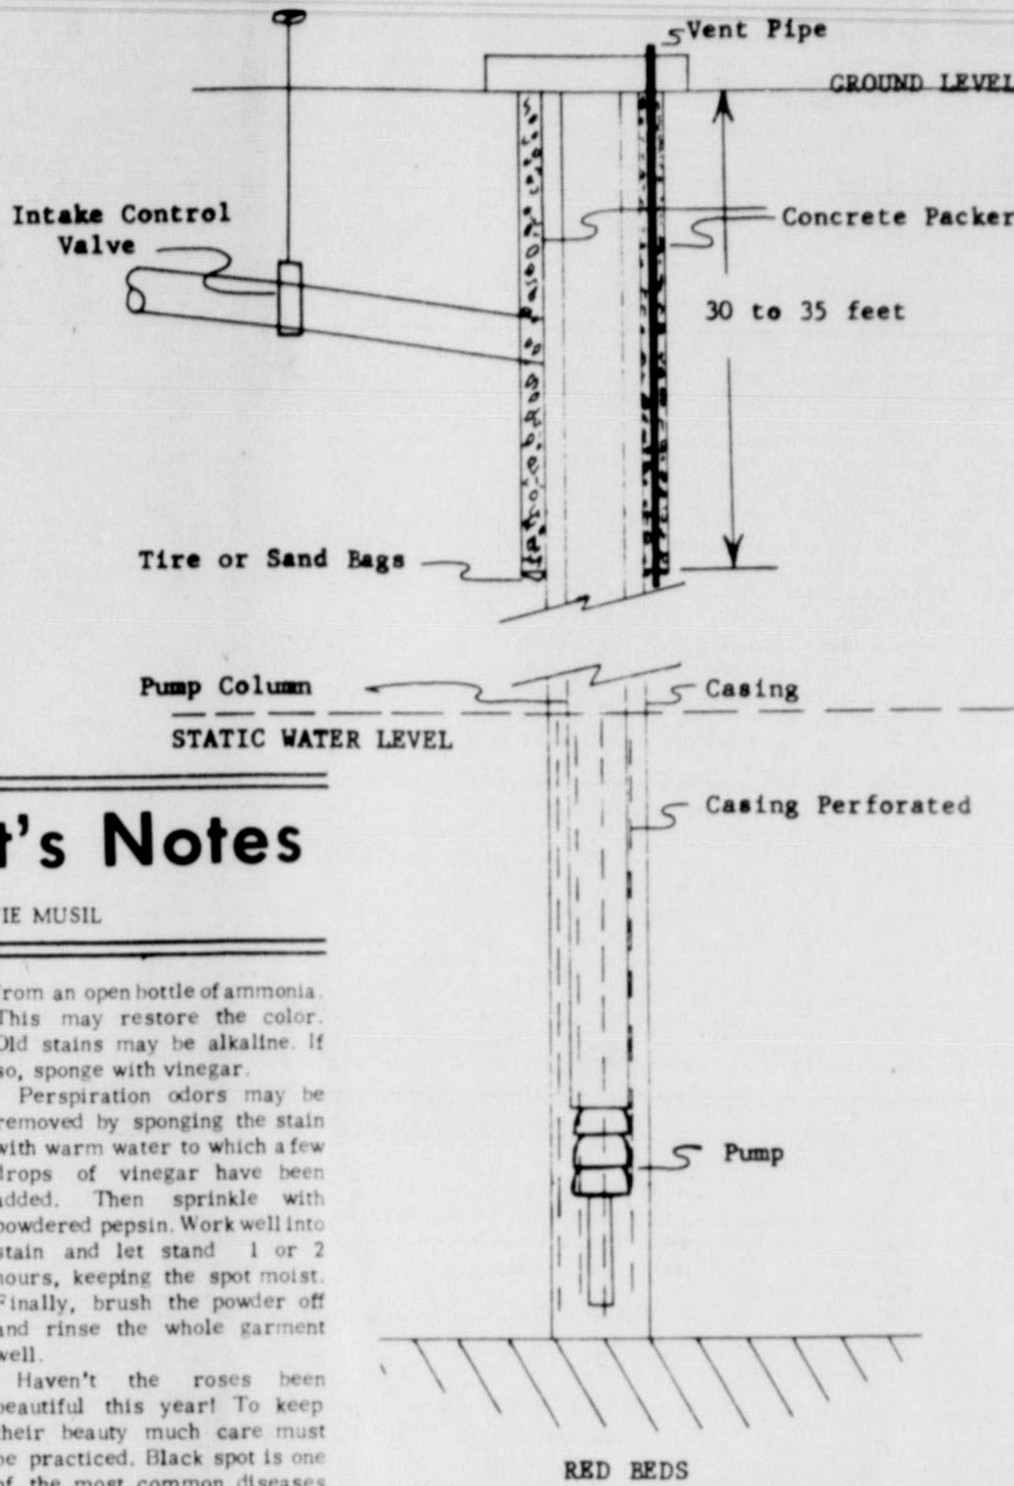

in the intake line between the well and the lake so that the rate of recharge can be controlled at all times.

Developing the well to remove mud and drillings will insure the formation is free of this material and prevent the sediment in the recharge water from stacking up against any such material in the immediate vicinity of the casing. This will also speed up water movement in the formation and make the sediment in the recharge water easier to reclaim.

Chlorinating or sanitizing the well is recommended. This will prevent bacterial growths and control contamination. Pure chlorine or chlorine producing substances can be used for this purpose.

Figure 1 shows a diagram of a properly installed recharge well. If the above instruction for installation and operation of a recharge well are followed, recharging of surplus surface water can be carried on successfully and can add greatly to our supply of underground water.

DIAGRAM OF A PROPERLY INSTALLED RECHARGE WELL

## HD Agent's Notes

BY MISS ETTIE MUSIL

With school out and summer activities in store you may have problems in trying to remove stain from clothing. Such stains as perspiration, grass, machine oil, grease, and fruits or berries are the most common during the summer months.

We have a very good bulletin available in the office on "Removing Stains From Clothing." If you would like to have a free copy of this bulletin do call or write me. Better get a copy now before you get the stains on your clothing.

One secret in removing stain is to take care of it immediately. First make certain you know what the stain is. Then classify your fabric whether it can be laundered. Then finally choose the proper stain remover. Wrong treatment of application can add to the damage of ruining valuable clothing.

Perspiration stains can be hard to remove. Normally this stain is acid and usually will wash out of washable fabric. But sometimes the color of the fabric is changed. If this happens dampen the stain with water and hold it over the fumes

from an open bottle of ammonia. This may restore the color. Old stains may be alkaline. If so, sponge with vinegar.

Perspiration odors may be removed by sponging the stain with warm water to which a few drops of vinegar have been added. Then sprinkle with powdered pepsin. Work well into stain and let stand 1 or 2 hours, keeping the spot moist. Finally, brush the powder off and rinse the whole garment well.

Haven't the roses been beautiful this year! To keep their beauty much care must be practiced. Black spot is one of the most common diseases of roses. In checking several rose bushes I have noticed that this disease is beginning to take over the roses.

The spots may occur on either side of the leaves. Usually the spots occur on the top surface of the leaves as large, roundish black spots with irregular or frayed margins of the design. Do not sprinkle water on leaves of roses when watering the bushes. Roses can be watered too often and cause root rot. Water the bushes well once each week.

Frequently the disease develops unnoticed on the soft twigs and branches of the bush. When severely infected, the leaves may turn yellow and drop off. This weakens the plants and makes them more susceptible to the dieback or canker disease, drought, or winter injury. Too, it also results in smaller flowers which are weak in color and fragrance.

Black spot can be controlled by spraying once a week with Dithane M-22, Manzate, or Phaltan. Time between sprays may be longer during periods of little rainfall. The addition of a spreader-sticker to the spray will insure better coverage. Both lower and upper sides of the leaves should be sprayed.

Captan, maneh, or zineb fungicides have been used effectively in the past, but the above mentioned fungicides are the latest research findings. You may combine insecticides and fungicides for one spraying in control of diseases and insects.

Sprays are recommended over dusting. Dusts generally give very poor control of black spot. Hose on sprayers or compressed air sprayers are generally good for applying the fungicides if only a few rose plants are involved.

For additional information on rose care, do ask us for a free copy of a publication "Roses for Texas."

Don't forget to vote for the man of your choice in the May 27 election.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It appears that the bill extending time for claiming refunds on non-highway-used gasoline will become law. The extension will be from six months to one year and will simplify the forms necessary for claims. This way, you will be able to take care of this chore in the privacy of your home if you wish.

The bill providing penalties up to \$200 per day per animal running at large on public or private property was killed last week with the aid of Farm Bureau.

Farm Bureau leaders, including your president, Herman Gerjes and others, sent telegrams to Austin opposing rumored possibility of taxation including farm machinery, feed, seed, etc., under HB 334 (2% general sales tax) last week. As a result, this possibility has apparently been nipped in the bud.

The Farm Bureau Weed Committee held a meeting in the community room of the Friona State Bank in Friona Monday night. This is written before a report could be had on the meeting, but representatives of the highway department, railroads, along with city mayors and county commissioners and others were expected to be in attendance for the purpose of expanding the bindweed eradication program. J.T. Jones is chairman of the committee.

The regular meeting of Farm Bureau Directors will be held in the Friona Office Monday night at eight thirty. You, as usual, are cordially invited to attend.

## Plainview Production Credit Association Nation's Largest

The Plainview Production Credit Association held its position as the nation's largest agricultural credit organization in 1960, among more than 500 PCAs serving all areas of the United States.

Olan Alexander, general manager of the Plainview PCA, announced that figures recently released by the Farm Credit Administration in Washington show that the Plainview association ranked first in total loan volume, first in member-owned capital stock, first in total net worth and third in loan outstanding on Dec 31, 1960.

The Plainview association had capital stock totalling \$2,400,055, a net worth of \$2,994,358 and \$11,927,000 in loans outstanding at the close of business for 1960.

"We are extremely pleased at the high national ranking held by our association," Alexander commented. "However, size is only a reflection of the solid growth and progress our association has experienced in its 27-year history. We will always strive to provide complete agricultural credit services for our area's farmers and ranchers."

The Plainview Production Credit Association serves Farmer, Castro, Swisher, western Briscoe, Bailey, Lamb, Hale and Floyd counties. The central office is in Plainview with field offices in Dimmitt, Muleshoe, Littlefield, Floydada and Silverton, Friona and Tulla.

# THE HIGH PLAINS FARM AND HOME

## Bindweed Is Topic At Monday Meeting

Bindweed, long a menace to most every High Plains farmer, was the main topic of discussion Monday night when about 35 farmers attended a meeting on weed control at Friona State Bank.

Reports on what had been done in the past to control the weed in Farmer and Hale Counties, and discussions were heard on what is currently being done, and what can be done in the future, to control the twining herb.

Archie G. Martin, supervisor of the Hale County Weed Control District, Plainview, was the featured speaker for the program. He discussed how the weed control district was formed and what had been accomplished by its program in Hale County.

The weed control district has two main functions, Martin said. One is to educate the farmer on the need for weed control and the other is to conduct field work on the actual control of noxious weeds.

Hale County farmers voted on, and approved, the formation of the weed control district in 1957, following the passage of a House Bill in 1955 which permitted 36 counties in Texas to vote on the measure which would "put teeth" in a weed control program.

When the farmers okayed formation of the weed district, a three-cent per acre tax was levied for the purpose of carrying on the program.

The weed control district hired personnel and purchased equipment for the purpose of carrying on the program to eliminate noxious weeds, which in Hale County is mostly bindweed, Martin explained.

The Hale County supervisor showed movies on some of the work of the weed control district and pointed out what could be accomplished by such a program.

He said that the actual field-work being done by the district

on weed control was of importance, but of even more importance was the educational program which made farmers aware of the need to control the weed and what steps they could take to rid their farms of it.

The district assists farmers with carrying out their own individual weed control programs, and also conducts weed eradication measures in badly-infested areas. All of the work of the district is financed by the three-tax per acre tax levy.

In Farmer County, no attempt has ever been made to call an election for a weed control district, but a volunteer weed program has been carried on for the past seven years.

J. T. Jones, chairman of the Farmer County Weed Control Committee, was moderator for Monday's meeting, and Joe Jones, Farmer County agent, gave a report on the history and accomplishments of the program.

During the seven years the weed control committee has functioned, Jones explained, "we have tried to incorporate the same things that Hale County has done in our program."

He pointed out that farmers, local governmental agencies, the Santa Fe Railroad, the Highway department, and other groups have in the past assisted with the program, and are presently doing so.

"Much has been done, but there is still a lot left," Jones said. The weed committee has tried to carry on an educational program to inform the people on what should be done, the county agent added.

Several farmers gave testimonials on the accomplishments in Farmer County, pointing out how much better shape this county was in than adjacent counties.

It was pointed out, however that there was still a lot of bindweed infestation and more measures needed to be taken. Ronald E. Mock, Santa Fe

representative from Amarillo, explained how the railroad was helping to control the weed. Whenever bindweed is located on Santa Fe right-of-way, the railroad undertakes the eradication of the weed.

The railroad buys the herbicides and also applies it to the infested areas. Mock is the railroad representative who has been treating the bindweed in Farmer County as well as other counties in this area.

Farmer County Judge Loyde Brewer explained how the commissioners court would pay for the herbicides on county road right-of-ways, providing the farmer would put it on.

Prentice Mills, Farmer County ASC office manager, explained the ASC cost-sharing program. Under the program, the government pays half of the cost of treating bindweed on farms, provided it isn't over \$75 per acre, Mills said.

A report was also heard on work which had been carried on by the city commissions of Farwell and Friona where bindweed was found in town, and Roy Crawford, vocational ag teacher at Bovina, explained a weed control program which was carried on in his vocational ag department.

Through the vocational ag program, the students are informed as to what bindweed is, what it will do to farmland, and what can be done to control it, Crawford said.

A. L. Black, chairman of the Farmer Soil Conservation District, explained the function of the SCS in regard to weed control, and pointed out that there were five machines available in the county for weed control machines.

Jack Patterson told of a community program which is planned in the near future for bindweed eradication in the Rhea community.

The purpose of the meeting was to bring farmers and other county residents up to date on what had been done on weed control and to stimulate more interest in control measures.

There was no discussion at the meeting on whether the calling of an election for forming a weed control district would be desirable in Farmer County, and as one weed committeeman member said after the meeting, "A three-cent tax levy isn't much, but we'd like to avoid it if possible."

The main function of the county weed committee has been to enlist voluntary efforts on the part of farmers, as well as city residents, and local government.

It was evident from the reports of the various individuals at the meeting that the weed control program had been successful to a great extent, but that more effort was needed from all concerned.

The paper has shown interest in running a series of informational stories on civil defense. You will be interested in these I know, so get ready, for Richard will shoot the works when he gets in full swing.

PARMER COUNTY'S REPRESENTATIVES to the Texas 4-H Roundup, scheduled next week at Texas A&M College, are Miss Judy Billingsley, Bruce Billingsley, and Gary Foster. The three 4-H Club members won the right to attend the roundup by winning county and district 4-H contests. Their expenses to the roundup are being paid by the Farmer County Farm Bureau.

## WITH THE COUNTY AGENT

JOE JONES

The 1961 cotton crop is off to a good start. This does not mean that we don't have THRIP and seedling disease present, in every field. In checking young plants last week, I found a lot of THRIP in the terminal buds of the small plants. You need to take your pocket knife and open up the small terminal and check for THRIP in the young rolled up leaf.

Too many of you don't check close enough to find THRIP. Cotton that looks good at 20 miles per hour doesn't look so good when you walk out in it and start counting the true leaves (not the cotyledon leaves), and checking their condition. Most all true leaves show some THRIP damage and some have been damaged severely. These will never develop into a leaf that can manufacture much plant food for the young plant to use in making further growth.

Seedling diseases are present in all fields I have looked at, and nothing to compare with last year. We always have seedling disease in our young cotton and, of course, aeration of the soil and hot weather usually bring it right out, but a few days to a few weeks is lost depending on the severity of the disease.

Let me caution you about laying all your trouble on seedling disease, THRIP, or sand. It can be a combination of all or either one. It is just good business to get out in your field and look for THRIP and dig up a few young plants and take a look at the root system. You must remember, time lost now cuts the growing season, just the same as does the frost date.

You will be interested to know that in Texas 45,274 farmers have signed up 41.5% of their base acreage in the Feed Grains Program. This will result in a substantial feed grains reduction should most of these farmers carry out their intention to divert. The extra one and a half percent above forty comes in from the small farmers who are diverting more than forty percent of their acreage.

The paper has shown interest in running a series of informational stories on civil defense. You will be interested in these I know, so get ready, for Richard will shoot the works when he gets in full swing.

BILL FLIPPIN JR., Auctioneer

Plan Now To Attend

## Three To Attend 4-H Roundup

Three Farmer County 4-H Club members plan to leave Monday for Texas A&M College at College Station where they will attend the annual Texas 4-H Roundup.

Attending from here will be Judy Billingsley and Bruce Billingsley, from Oklahoma Lane, and Gary Foster, of Lazbuddie.

During the three day roundup, Tuesday, Wednesday, and Thursday, they will attend various programs and meetings and participate in state contests.

Both Judy and Bruce, children of Mr. and Mrs. Leon Billingsley, will compete in poultry marketing contests. Gary, the son of Mr. and Mrs. Nelson

Foster, will participate in tractor driving.

All three of Farmer County delegates are members of the Junior Leadership Club. They won the right to enter the state contests by winning county and district contests earlier in the year.

The annual 4-H Roundup is the highlight of a year's work for 4-H club members under the leadership and guidance of volunteer adult leaders and county extension agents.

State contest eliminations serve as further development of girls and boys in achieving the objectives of their particular demonstration.

## Gas Users' Ball Rolling

The newly-formed Farmer County Irrigation Gas Users Association continues to gain steam.

In a county-wide election, four directors have been named. They are Vernon Symcox, Farwell; Marion Carson, Bovina; Hap Fairchild, Friona; and Fred Burch, Lazbuddie.

These men represent the four commissioners' precincts in the county. They will serve with association officers, who are Bruce Parr, president; Gilbert Kaitwasser, vice-president; and Carl Schlenker, secretary-treasurer.

Parr reports over 700 wells now in the organization, and expressed satisfaction with the growth and progress of the group in the county. A mem-

bership drive is still underway.

The local group is affiliated with the Plains Gas Users Association, a region-wide organization of similar description. The groups are working together to obtain the "lowest price possible for fuel to power irrigation wells." This includes natural gas and all other power sources, officers report.

Parr says that for the first time irrigation farmers now have a voice that can be effective in working toward cheaper fuel to run irrigation engines.

"We have already been put on notice that another increase in the price of natural gas may be in store in about three years," he says.

# When To Irrigate Cotton

The below illustration should serve as a guide to farmers in planning the irrigation of their cotton. As indicated by the chart, the period of peak water use begins with the first white bloom and continues through the bell development period. The chart shows the rate of water used from plant emergence to the opening of the first bell. According to the Texas Agricultural Extension Service, cotton should be irrigated just before the root zone of the soil no longer contains sufficient moisture to supply the needs of the plant for proper development. From a practical standpoint, the irrigator cannot wait until the soil moisture content reaches this point on the entire field. Irrigation should begin when about half the moisture in the root zone has been depleted. This will provide sufficient time to cover a large acreage before the available soil moisture on the last portion of the field has been depleted.

## Texas Ginners Oppose Farm Bill

A nine-point exception opposing the Omnibus Farm Bill was issued Monday by the Texas Cotton Ginners' Association. The state-wide organization's board of directors detailed their opposition to the Kennedy administration proposal at a meeting in Dallas. Association president R. L. Massey of Pilot Point forwarded copies of the statement to Secretary of Agriculture Orville Freeman and members of the Texas Congressional delegation. He explained that directors felt the bill as originally written was not in the best interest of cotton farmers. The 1,200 member ginners organization—highest in the nation—took these exceptions to the Omnibus Farm Bill which is currently pending before Congress:

1. The traditional method of law making must be protected through open hearings by Congress. Ginners opposed specifically the concept of the Secretary of Agriculture drawing up farm programs with "politically appointed" committees.
2. Any legislation which removes the minimum of 16,310,000 acres for cotton is unacceptable.
3. Any limitation on payments or supports is discriminatory and has no basis for fair and equitable participation by all farmers.
4. Any farm program should recognize the necessity for competitive prices and markets.
5. Farm programs should provide some protection for farmers in the form of supports.
6. Marketing orders are not workable for cotton. These federally operated orders are one of the key proposals in the Omnibus Farm Bill.
7. Cross-compliance in farm programs which would require cotton farmers to comply with regulations on all crops in order to participate in various other government programs is unfair.
8. Any program which does not take into consideration all segments of the cotton industry is unfair and unworkable.
9. Any quotas established in farm legislation should be in acres and not pounds or bales.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

Our apologies this week go to everyone who wanted to try the recipe for the Chocolate Oatmeal Cake printed in this column last week. It seems that somewhere between the typewriter and the printed page one teaspoon of soda got lost. Thanks to everyone who called for this information.

If you clipped the recipe for future use and haven't yet discovered the error, just add 1 teaspoon soda to the list of ingredients. Not too many years ago it was considered "old fashioned" for anyone to use soda in cakes. Not so any more. It seems that we've gone to the other extreme now and use soda in many cake recipes.

Another cake recipe that calls for soda is

- BANANA NUT CAKE**
- 3 cups sugar
  - 1 cup shortening
  - 2 teaspoons vanilla
  - 1 1/2 teaspoon banana flavoring
  - 4 eggs

- 3 1/2 cups flour
  - 2 teaspoons soda
  - 1/2 teaspoon salt
  - 1/2 cup buttermilk
  - 6 ripe bananas
  - 1 cup pecans
- Cream shortening, sugar, and flavorings. Add eggs, one at a time. Add sifted dry ingredients alternately with milk.

Mash bananas and add to batter. Add nuts, bake in large pan at 325 degrees for 60 minutes. Ice with 8 ounces cream cheese, 1 box powdered sugar, 1 teaspoon vanilla, 4 tablespoons milk and 1/2 cup pecans.

Another idea that is rapidly taking a back seat is that to make any kind of casserole dish you need ground beef to start with. Within the past few years we've learned to use chicken, tuna, sausage, chipped beef steak and a few other kinds of meat.

This week's casserole dish calls for frozen English peas, but if you have fresh green peas, they should fit in very nicely. Whether planning a company or family meal, try

- PEA-PORK CASSEROLE**
- 1 pound pork cutlets or tenderloin cut in 1/2 inch cubes
  - 1 tablespoon cooking oil
  - 1 teaspoon salt
  - 1/2 cup water
  - 4 ounces dry noodles

- 2 tablespoons butter
- 1 tablespoon flour
- 1/2 teaspoon salt
- 1 1/2 cups milk including meat liquid
- 1 ten ounce package frozen green peas
- 1 cup celery, sliced thin
- 1 cup buttered bread crumbs

Brown pork in oil over high heat, stirring to brown evenly. Add salt and water, cover, reduce heat and simmer ten minutes. Cook noodles according to directions on package. Make a white sauce of the butter, flour, salt and milk, cooking it only until it starts to thicken and is smooth.

Butter a 2-quart casserole. In it, arrange a layer of half of the cooked noodles, peas, meat, celery and white sauce. Repeat, saving a few peas for a circle on center top. Ring with buttered bread crumbs. (Use 2 tablespoons melted butter to 1 cup soft bread crumbs.)

Bake 45 minutes at 350 degrees. Peas do not need cooking before being put into casserole. If they are frozen in a block, defrost at room temperature just enough to separate. Or put in a covered saucepan with 1/4 cup water over high heat for 2 or 3 minutes, separating them with a fork, if necessary.

Many home demonstration

club women are learning to cover shoes with fabric to match dresses. If you plan to include a checked gingham dress in your summer wardrobe, by all means use cross stitch embroidery for decoration.

Then cover a pair of shoes with the material and repeat part of your motifs decoration on the toes or sides of the shoes.

"Types of Farming in Texas" is the title of a new publication released by the Texas Agricultural Experiment Station. It is chock-full of useful information on what is happening in the 17 major type areas, agricultural wise. Copies are available from the Agricultural Information Office, College Station, Texas. Ask for B-964.

The USDA reports that food donations in the United States and overseas totaled 1.7 billion pounds for the first half of this fiscal year, July-December. This is an increase of some 20 percent over the same period a year earlier.

Applying fertilizer to farm fish ponds not only increases the amount of food in the water, it also is one of the best practices for controlling submerged mosses, says Ed Cooper, extension wildlife specialist. The first application should be made in early spring. Cooper suggests a visit with the local county agent for details on a good program.

## Basic Clothing Workshops Now Being Held In County

Having trouble with setting in sleeves, bound button holes, matching stripes, or plaids, or getting clothes to fit right? These are a few of the popular problems homemakers have in sewing clothes for themselves or others.

Three basic clothing workshops are being conducted in the county by trained leaders of the Oklahoma Lane, Lazbuddie and Hub Communities. Leaders teaching these special workshops sessions in the Oklahoma Lane Community are Mrs. Harold Travis, Mrs. Vernon Symcox, and Mrs. Edmund Kitten. Leaders in the Hub Community are Mrs. A. L. Black, Mrs. T. I. Burleson, Mrs. W. E. Stringer, Mrs. John Renner, and Mrs. Flake Thurman. Leaders of the Lazbuddie Community are Mrs. Everett McBroom, Mrs. Harvey Blackstone, and Mrs. Andrew Brown.

Other leaders attending

### Miss Billingsley Competing For Bureau Scholarship

Judy Billingsley, County 4-H Jr. Leadership Club member, placed first in the District 1 judging of her record book in the Texas Farm Bureau scholarship. Two scholarships of \$250 are presented each year by the Texas Farm Bureau Federation to one boy and one girl in the state.

Each 4-H member must submit a 4-H Record Book of his or her many club program accomplishments. Judy's record book will be judged with winners of the other eleven districts by a State Judging Committee to select the boy and girl who is to receive the scholarships.

To be eligible a 4-H club member must have completed three years of 4-H Club work including the current year. He or she must be enrolled in the Texas 4-H Junior Leadership Demonstration. Plans must be made to enter college the year of the judging or must be enrolled in college as a freshman.

Judy is the daughter of Mr and Mrs. Leon Billingsley of the Oklahoma Lane Community. She is a 1961 graduate of Farwell High School completing her studies as valedictorian.

the five day Basic Clothing Workshop under the instruction of Miss Ettie Musil, County Home Demonstration Agent, were Mrs. Ralph Shirley, Mrs. L. D. Taylor and Mrs. Lee Campbell of Friona. Leaders of Black HD Club are Mrs. Helen Fangman and Mrs. Johnny Marrs, leader of Northside is Mrs. Floyd Brookfield. Mrs. R. L. Foerster and Mrs. A. E. Redwine are leaders of Midway HD Club.

Taught in the workshops held in the Hub Community Center and American Legion Hall in Friona were several shortcuts in clothing construction. These included choosing the right pattern design for the individual, choosing the correct size pattern, fabric design to fit the pattern design, and decorations for the pattern.

Before cutting out the patterns, necessary alterations were made. Patterns were pinned on the fabric to match stripes, plaids and designs. Shortcuts were practiced in reinforced faced corners, set in sleeves, bound buttonholes, pleating and gathering skirts, two piece collars and interfacing collars and bodice facings.

Sewing in bodice and skirt stays was demonstrated, along with putting in hems, finishing seams, covering belts and buckles, and pressing the finished garment.

### Miss Musil Conducts Training

"Do you live to eat or eat to live? Do you plan for salads as just a combination of foods to serve your family when they are hungry or do you serve the salad for their bodily needs?" This was the question asked by the home demonstration agent, Miss Ettie Musil, in a leader training conducted Friday afternoon, May 26 at 2:00 in the Friona State Bank Community Room.

Salads do play a very important part in our daily food needs to keep our body factory operating smoothly. They also add interest to a meal. And what's more salads are delicious.

Thirteen volunteer leaders of the eight home demonstration clubs were trained to present the same program in their respective clubs in June. These trained leaders are Mrs. Dick

**Do Children's Feet  
Grow Faster In  
Summer Than In  
Winter?**

Yes, at Easter time it is common to find that the feet of a child have grown only a half size since September but at back-to-school time the same child may need a size or a size and a half larger shoe than was fitted five months before.

It is customary to blame the rapid growth on going barefoot but the fact is that children who go barefoot most of the time (eg Hawaii) have very short broad feet.

The important thing to remember is that, after infancy, foot growth is quite unpredictable so it is a very bad practice to buy shoes without bringing the child to the store to be fitted.

### SOIL CONSERVATION DISTRICT NEWS

As most of you in Farmer County know, we have a drainage problem. This problem is aggravated both by tall water and rainfall. We have two partial solutions to the problem which supplement each other. One is to provide ground cover to slow down the runoff water and the other is to develop a drainage system for moving the runoff water from the nearly level high plains country to the playa lakes or draws so that it does not cause erosion.

The usual procedure to move runoff water from a higher to lower elevation of farm land is through a system of diversion terraces, regular terraces and graded waterways.

After a suitable location has been established and the waterway constructed, it should then be established to a permanent vegetative cover.

Experience indicates that normally the surest procedure for establishing grass is to first plant the waterway to a drilled cover crop such as sudan or sorghum. This crop should not be allowed to produce seed. It is ideal to run a stubble mulch plow and leave the plants on the surface. The grass can then be planted or sprigged in the stubble. This stubble provides protection for the new grass.

Government cost share can be obtained on grassed waterways by contacting your local ASC or Soil Conservation Service office.

Two waterways have been constructed in Farmer County recently. One of these is on Nelson Coon's farm and the other is on Roy V. Miller's farm.

## Cattlemen Fight Subsidies, Supports And Controls

At a meeting in Graham, Texas, May 24, commemorating the founding of the Texas and Southwestern Cattle Raisers Association 84 years ago, Dolph Briscoe, Jr., president of that Association said, "We cattlemen will continue to fight any type of government subsidy, price supports or production controls of the cattle industry."

He also told his audience, composed mainly of beef cattle producers in that area, "It has been a real fight through the years to stay out of these government programs and it will be a continual fight; but I pledge to you the full resources of this Association to continue and to win this fight."

His remarks met with approval from all of those present and there was no question but what these grass root cattlemen were in perfect accord with the TSCRA.
