FIREMEN COP RIGGINS CUP IN PLAY-OFF

The Firement took the city championship in softball last week with their third consecutive win over the T&NO boys in a 5-game series. They won their last game in the last half of the seventh inning by the score of 19-18. The second game played Thursday night came out decisively in favor of the Firemen by a walkaway.

D. Hogg pitched all three games for the Firemen and Pierce started each for the T&NO men and was relieved by Pate in each.

In Saturday night's game the Railroaders were awarded 2 singles, 7 doubles, eight walks, 2 strike-outs and earned 18 runs. The Firement were credited with 4 singles and 5 doubles, nine walks, three strike-outs and earned nineteen runs. The wind and dust very nearly blew out a good game Saturday night. The play was postponed several times for several minutes to wait for the "West Texas rain" to abate.

The Fire Department will be awarded the Riggins Trophy to be retained by that team until the winner is declared next year. The team winning the trophy for three years will become the permanent possessors. The trophy has been on display for several weeks at the Riggins Jewel & Gift Shop and at the Sanderson Times office.

The Lions Club, sponsors of the local softball league, wish to thank each and every player who participated in the softball play this year, and for those who helped in any way to make the league a success. It is hoped that each year the class of softball playing will be bettered and that interest will increase on both the part of the players and spectators. This club has gone to considerable expense and work to bring a clean, interesting and entertaining spectator-participant recreational program to Sanderson and the club is grateful for the appreciation which has been expressed by the attendance, donations and participation.

During the playoff games the donations were received for the glasses and eye examinations for underprivileged children of Sanderson. It was revealed to this writer the first of the week that the Lions Club received approximately \$100.00 for this cause. It is hoped that four needy children can be fitted with eye glasses from this sum.

Plans have been formulated for the annual football banquet sponsored by the Lions as well as many other of the clubs annual activities.

The attendance committee is urging that all members of the Sanderson Lions Club be on hand next Thursday at noon at the Kerr Hotel for their regular weekly meeting.

Mr. and Mrs. Woody Ivy of Pecos spent the week end with Mr. and Mrs. J. A. Gilbreath.

BRIDE-TO-BE

MISS JOAN ANDERSON

Miss Joan Anderson Honored at Tea Last Friday

Mrs. B. F. (Andy) Anderson was hostess for a party at her home Friday afternoon to announce the betrothal of her daughter, Miss Joan, to John L. Bowen of San Antonio.

Guests were presented to Miss Anderson and Mr. Bowen's mother, Mrs. W. E. Byrd, of San Antonio by the hostess. The bride-elect's sister, Miss Barbara Anderson, registered the guests in a white satin, bride's book.

During the party hours, music was provided by Mrs. May T. Wilson and Miss Doris Duke who also provided the accompaniment for Misses Cecelia Goode and Mary Agnes Frazier, who sang a group of appropriate popular songs.

Cake squares iced in white and decorated with pink rosebuds were served from the lace covered table in the dining room. Fruit frozen in heart-shaped molds floated in the punch bowl.

Hostess duties were assumed by Mesdames Chester Boyd, Harry Newton, Clarence Jessup, Miss Clara Alice Bell, Mrs. S. H. Underwood and Mrs. John Lewis Whistler.

Announcement of the nuptials were made from the silver-lettered streamers extending from a large pink satin bow arranged above the table with Joan on one and Johnnie on the other.

Pink and white asters were arranged in floor baskets in the living room and a bowl of pink bachelor buttons was on the piano.

Miss Anderson is the daughter of Mr. and Mrs. B. F. Anderson of Sanderson. She has been employed in the auditor's office at the St. Anthony Hotel in San Antonio for several months.

Mr. Bowen is a son of Mrs. W. E. Byrd of San Antonio. He is collection manager for Universal C.I.T. in that city.

The wedding will be an event of Tuesday, September 21, in the Travis Park Methodist Church in San Antonio.

Young Man Held On Burglary of Local Grocery Store

Thomas Miller, 23, of El Reno, Oklahoma, is being held in the Terrell County jail on charges of burglary after being arrested in a local store early Monday morning.

When Pablo Ochoa opened his grocery store early Monday morning he found the young man asleep inside. Sheriff Jim Nance was called and took the man in custody.

After being fingerprinted he admitted to the sheriff that he was the man wanted in the Oklahoma city for the violation of his parole.

Admittance to the store was gained by a broken window in the back. Miller had eaten heartily of food available in the store and stocked up on cigarettes before falling asleep, according to Sheriff Nance.

The local sheriff's department will turn the man over to the U. S. Marshal for return to El Reno where he will serve the remaining thirteen months of his penitentiary sentence.

GRID OPENER BRINGS PECOS 'B' HERE SAT.

The Sanderson Eagles will meet the Pecos "B" team Saturday night in the first football match of the season on the local grid starting at 8:00 p. m. This non-conference tilt is a warmer upper for the Eagles to meet the Marfa Shortorns in their first conference game. The game with Marfa will be played there Friday night, September 17.

According to Coach M. B. England the Eagles will not be showing too much flash since they have been at practice so short a time and they did not assemble a full team until the first of the week. The T formation is a difficult method of football play to master and it cannot be expected that the boys will show too much perfection in their first game of the season.

The team is bemoaning the loss of some proven material from last year who were expected to return to the Eagle lineup this year. There is no evidence of weakness in any one position on the lineup, save the newness of a few of the players in regards to the elusive T.

Season tickets went on sale this week to the fans of the local grid. There will be six home games and tickets will afford a twenty per cent saving to those who purchase them. Prices are \$5 for adults and \$2.50 for students.

BASEBALL GAME WITH ALPINE TO BE SUNDAY P. M.

Sunday afternoon at 2:30, the local team will meet the Alpine Internationals on the local field. The Internationals are the runners-up in the Big Bend League and a good game is predicted.

The proceeds from the game Sunday will go to the fund to purchase jackets for the players of the V. F. W. team.

together, but also a desire on the part of men of all faiths to turn in these critical hours "to a living Christ." He feels that this is no time to quibble over doctrinal differences. "Today, as never before, the world needs a Savior and it is crystal clear that only Jesus Christ has the power to answer the world's need," Bishop Kern said. "To this historic position have come liberals and congregational churches in the West. The deeper our distress, the more apparent is our need of Christ who stands above all the rest in this hour of the world's confusion."

In his contacts Bishop Kern is finding many who are fearful of war and yet at the same moment admit that its advent would destroy the world. "We are or a precipice and we have the jitters," he believes. "Unless moral mutual good will can be generated among nations the outlook is dark."

The Bishop sees in the Assembly here not only the accomplishment of the purpose for which the churchmen have come

From where I sit... by Joe Marsh

One Great American Trait

I always think it does a newspaper editor good to get out from behind his desk and see how folks in other parts of America look, and think, and act.

And that's what I've been doing these past weeks, touring the country from Michigan to Texas, California to Maine. It's a mighty encouraging experience. Not only because of the different points of view you run into—but because of the tolerances which reconcile those different points of view.

I mean the tolerance of a Penn-

sylvania farmer for the habits of his city cousin; the tolerance of folks who vote one way towards those who vote another; the tolerance of those who prefer spring water towards those who enjoy a moderate beverage like beer.

From where I sit, it's that great American trait of tolerance—respect for individual tastes and liberties—that makes this country strong. Let's never lose it!

A touch and you GO—that's DYNAFLOW!

Yes, it boils down to just about that. You start your engine, set a lever — and from then on your treadle foot takes over.

You press the accelerator — and move softly and smoothly away.

You speed up, slow down, halt completely — and your right foot alone, operating gas treadle and brake, does it all.

How come? Simply because Dynaflo Drive® is the one passenger car drive in America that

gets completely away from gears which function in fixed stages.

Changes in the way oil flows, instead of changes in gears, adjust your engine power to your driving requirements.

Whether you are starting out, climbing a hill, surging past others or cruising easily, there's nothing for you to do except feed gas.

For very fast starts, extreme pulls, reserve braking power, you flick the selector lever—and your engine seems suddenly to double in size.

For parking, there is a very special setting, exclusive to Dynaflo Drive, that rigidly locks rear wheels.

Even rough and chattery roads are made smoother by power that flows along through a cushion of oil — your whole car is "sweeter" in its feel, far silkier in its actions.

Quite rightfully is Dynaflo Drive called the most important development since the self-starter.

It's a basically different way of transmitting power — and one you should know about firsthand.

See what your Buick dealer can do about arranging that for you. The merest sample of Dynaflo magic will make you want to place an order pronto, whether or not you have a car to trade!

What's different about DYNAFLOW DRIVE?

To an efficient new pump (left in picture), Buick engineers have added a true turbine assembly (in hand) which produces a torque-sustaining action in starting and accelerating. The result is the fast advance on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

Give him BETTER LIGHT for easier seeing!
NEW books, new clothes and new school supplies are important, but don't forget about BETTER LIGHT for home study!
Homework is hard work for young eyes. BETTER LIGHT is needed to make seeing easier... help prevent eyestrain, fatigue and drowsiness.
Make sure the lamp your child uses for home study contains bulbs totaling at least 100 watts, and that it is well shaded, free from glare and properly placed to provide maximum light at working level.
