Rotary Governor To Speak Here On Wednesday Aug. 3

Dave A. Stockbridge

The Rotary Club of Sanderson will be host to Dave Stockbridge of Beeville, governor of District 184, Rotary International, at the luncheon meeting next Wednesday, August 3, President I. G. Robertson has announced.

Mr. Stockbridge is making his annual official visit to each club in the district. While here he will confer with officers of the local club on administration and Rotary service activities.

The district governor is superintendent of the mails in the Beeville post office and has been a member of the Beeville club 13 years. He has a 12-year perfect attendance record.

"In addition to the activities of the Rotary's 7000 clubs in their own communities to promote their respective objectives, during the next three years Rotary International will spend \$750,000 principally to create better understanding among the peoples of different nations," Mr. Stockbridge said.

"One of the principal ways in which this money will be spent will be on Rotary Foundation Fellowships which will enable outstanding graduate students to study abroad for one year as ambassadors of good will. This program was established in 1947 and since that time 111 fellowships have been awarded to students in 27 countries, with grants totaling more than \$250,000."

"Devoted to service, Rotary provides a common ground for 330,000 business and professional executives throughout the land, regardless of personalities or political or religious beliefs," he district governor stated.

President Robertson of the local club said he wants every member to be present to hear the message that Mr. Stockbridge will deliver.

COUNTY EXCEEDS SERIES E BOND QUOTA IN DRIVE

Terrell County exceeded its quota by 36 per cent in the Opportunity Drive for the sale of Series E savings bonds.

Total sales were \$16,368.75, as compared with the quota of \$12,000, according to Harry Owens of Dallas, state director of Savings Bonds Division of the Treasury.

Mr. Owens said that the drive was successful throughout the state and sales for Texas were \$46,835,896.75 or 126 per cent of the state quota of \$36,950,000.

The drive was conducted throughout the nation from May 16 through June 30, with bond purchases through July 18 being counted in the final totals.

Mr. Owens said that Texas sales during the drive were \$3,292,930.50 more than Series E sales during the similar periods of 1948.

Trespass Law Is Strengthened By New Amendment

Effective after October 5, 1949, the amended trespass law will have more teeth in it than heretofore.

Article 1377, Section 1, of the Penal Code now reads:

Bloys Camp Meet To Begin Aug. 16; Preachers Chosen

The Bloys camp meeting's sixtieth annual session will begin this year on August 16 and extend through Tuesday, August 23.

The four preachers who have accepted invitations to speak in the tabernacle are the Rev. L. D. Anderson of the First Christian Church, Fort Worth, who will again preside, as he has for a great many years; the Rev. G. C. Baker, Jr., of Southern Methodist University, Dallas, who is new to this area; the Rev. W. D. Stewart of the City Bible Baptist Church, Oklahoma City, another who has not been there before; Dr. Samuel L. Joekel of the Presbyterian Theological Seminary, Austin, who needs no introduction to Bloys attendants. He has been here many times and his Bible classes are always popular.

John G. Prude of Fort Davis will have charge of the music for the session. Mrs. Edgar A. Mueller of Marfa is leader for the young people, and Miss Mabel Bloys of Fort Davis is leader of the children's groups.

Softball Playoff Scheduled For Coming Week

The softball playoff for the Riggins Cup and the title of local champions will begin sometime next week with this week ending the regularly scheduled games. The exact day will be announced at the ball park as soon as it is known. Three make-up games are scheduled to be finished this week.

The American Legion shut out the Firemen 4-0 last Thursday night in a well-played ball game. Bunts drove the Legionnaires across the plate, and the Firemen were unable to get hits at a time when they were needed.

In the second game the Lions Club won over the VFW 2-4, in a round the bases race.

The first game of the Tuesday night double-header was forfeited by the VFW because of the absence of some of their players. The second game began as soon as possible between the Legion and the Lions and the Legion won 11-4. Pate was back on the mound after a long absence. He started the year with the Railroad and did not play after that club disbanded. The Lions were strengthened by the services of Pate and it is expected that the club will show up some better if they get into the playoff.

The Legion is still on top of the standings list with 20 wins and only 3 losses, with the Firemen second with 19 wins and 6 losses. The Lions Club went into 3rd place with the defeat of the VFW and has 7 wins and 13 losses. The VFW has 6 wins and 18 losses.

Friday night of this week the Sheffield men and women team will come to Sanderson for a double header. The first game is slated for 7:45 and the second game immediately after.

HIGHWAY GROUP ATTENDS HEARING

A caravan of cars from points along Highway 90 from San Antonio to Van Horn drove into Austin last Thursday morning for a hearing before the State Highway Commission.

The group made the trip to put before the commission reasons for complaint on the designation of another highway on the latest maps published by the commission. The new maps show a discrimination, choice in routing traffic by a red line for the routes designated as the interstate highway.

After John Dodson of Del Rio and Dolph Briscoe of Uvalde, the spokesmen for the group, had outlined the reasons for the displeasure along Highway 90, commission members assured those representing the various towns that they would see what could be done and that the discrimination was not intentional.

Chairman Fred Wimple congratulated the group on the interest shown by the large attendance.

One member of the commission stated that he had recently travelled over the route and that the highway was the best in the state for the same number of continuous miles, and that the red marking on another was not intended to show the other highways to be a more satisfactory route for tourists.

In the daily newspapers the story was reported by a news agency representative and was incorrect in several instances in quoting the commission as saying that nothing could be done. The agency's story also had the routing listed entirely different to the one discussed.

Those attending from Sanderson were L. H. Gilbreath, director of the Border Trails Association, County Judge R. S. Wilkinson, Frank Weigand, Clyde Griffith, Monte Corder, W. G. Downie, Jack Slaughter and Jimmie Wilkinson.

President of the Border Trails, John Dodson of Del Rio, announced that the next meeting of the directors would be called in the near future and Sanderson has invited the group to meet here. At the next directors' meetings plans for an advertising campaign will be discussed and the committee on advertising will report on costs of various types of advertising.

Local contributions to the highway fund have been slow in coming in, according to W. G. Downie, local secretary-treasurer. It is hoped that all citizens interested in the welfare of the community will make some contribution to the fund to keep tourist travel coming this way where the roads are good and the scenery beautiful.

DONKEY BALL GAME HERE AUGUST 11

Announcement was made this week that Thursday, August 11, a donkey ball game will be played on the local softball field beginning at 8:15. The opposing teams will be the "Sheriff's Posse" and the "Outlaws". Sheriff J. S. Nance has expressed his desire to manage and pitch for the "Sheriff's Posse" nine.

The donkeys and equipment will be furnished by Bill Swindle of Cisco.

A donkey ball game is very similar to any other type, except the stubborn brutes will probably qualify themselves for too many positions on the local teams and replace many of our own players. They know a quality of baseball that is peculiar only to their kind.

In the donkey ball game only the pitcher and the catcher are unmounted. That is to say they are the only ones that don't have an opportunity to be unmounted. The batter must, after hitting the ball, mount his steed and beat the ball to the first base. The fielders, on the other hand, must dismount to pick up the ball, mount and attempt to throw the ball to the baseman for an out. The play progresses around the bases with hits or steals similar to the conventional ball playing. The donkeys are not forced to keep one foot on the base; in fact they don't even have to keep one foot on the ground. And if there is a law in baseball that says the donkeys must stay in the base line and go directly to the next base and stop there the donkeys are not able to read it.

Advance tickets are now on sale by the members of the local Lions Club, sponsoring organization, and plenty of fun is assured all who attend.

It has been heard around town that there will be more jackasses on the field after a very few minutes than those who walk on four legs; because if there is anything that can make a jackass out of a man, it is a jackass.

Rules of equipment for the players prohibit saddles, spurs and strangles.

Funeral services were held at Del Rio Wednesday afternoon for John M. Doak, 91, a pioneer cattleman. He died at his home in that city early Tuesday evening.

Born on a ranch west of Pleasanton in 1858, he came to Pecos County to a section that is now a part of Terrell County near Dryden in 1885. Joining up with the Pecos Land and Cattle Co., he did straight cow punching for three years, five years later buying the Swingling H brand ranch and range remnant, entering the cattle business on his own.

After running his stock at Dryden for several years, he moved to the ranch near Del Rio in 1898.

Doak was married to the former Miss Arrie Franks at Dryden December 19, 1889. Their daughter, Mrs. Mitchell Waldrop of Del Rio, is the only survivor besides two brothers, B. M. Doak of Sanderson and R. L. Doak of San Antonio and three nieces and nephews. Mrs. Doak died in Del Rio last September.

Economic Highlights

There won't be another Presidential election until 1952. But next year's Congressional elections will hold far more importance than they usually do, as an indication of what is to come, and as a test of power between strongly divergent philosophies of government. The main interest will center in Ohio, where Senator Taft will run again. This contest will have a truly national significance. For Taft has clearly proven himself to be the most adroit and effective opponent of Mr. Truman himself. As everyone knows, the Truman legislative program has fallen on evil days. He lost out completely on his request for repeal of the Taft-Hartley law. He will get only a small part of his all-inclusive social security program. The chance of the Columbia Valley Administration being approved by this Congress is so slim as to be almost non-existent. His ideas on tax increases have found deaf ears in Congress. His leaders have been out-maneuvered time and time again. Senator Taft has not done all this alone by any means, but he has been the leading spirit. It is not remarkable that a large of Washington correspondents,

of all political views, recently voted overwhelmingly for Taft when they were asked to name the ablest Senator. He has few equals as a parliamentarian.

Perhaps no one now in Washington has so wide a knowledge of the complex workings of the government. He is famous for tenacity, and he can be a very tough man when Republicans show signs of wavering on policy. He frankly wants to be the next President, and twice tried for the nomination.

Joseph Alsop writes, "Immense forces will be rallied for this Ohio struggle. The labor groups will put everything they have into the effort to defeat Taft. Businessmen all over the country are already laying the cash on the line to aid the Taft campaign." It is expected that the Senator will actually start campaigning very soon — more than a year before the election. Ohio is as perfect a state as exists for a great test of this kind. It has a big population, a large electoral vote, and it has always been a pivotal state. It has large labor groups and large agriculture, and business groups as well. It is normally Republican but not invariably so — last year it went for Truman, and elected a Democrat governor.

Invalid Drivers' License Can Be Renewed Sans Test

Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced this week a temporary relaxation in the policy of renewing expired drivers' licenses. Pointing out that the action is being taken because of inadequate field and office personnel to handle the procedure in the normal manner, Colonel Garrison stated that the temporary measure, which becomes effective immediately, will preclude excuses on the part of motorists for not having obtained a renewal of their licenses.

This should be good news to a half million motorists in Texas since the records indicate that there are 3 1/2 million drivers in the state and only 2 1/2 million current licenses are on file. Estimates show that of the one million drivers who do not presently hold valid drivers' license about half have had one at one time but have failed to renew them. The other half million have either moved from Texas, ceased driving or died since the records were compiled or have never possessed a license to drive.

Mr. and Mrs. O. H. McAdams and Mr. and Mrs. Frank Warren were hosts last Thursday evening when a barbecue supper honored the employees of the Del Rio & Winter Garden Telephone Company and their families.

The supper was served on the back lawn at the McAdams home where long tables were arranged. Beans, potato salad, vegetable salad, pickles, iced tea and French bread were served with barbecue and home made cake and ice cream was the dessert.

There were forty-three guests including E. S. Palmer of Del Rio, treasurer of the company, Don Hunsaker of San Angelo, president; Clarence Johnson of Del Rio, field supervisor; John Collier of Del Rio, plant superintendent, and Jack Paul of Del Rio, retired plant superintendent.

Thursday marked the completion of the work incident to the cut-over to the common-battery type telephone service here. Mr. McAdams is manager of the local telephone office.

Mrs. W. F. Spitzer left Saturday for Denton to visit with her daughter for several weeks.

**For The Ladies:
A Diet That Really Works**

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to a die is simply moderation. I wouldn't trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.
