## EAGLE FOOTBALL TEAM SHAPES UP AS SEASON NEARS

Sixteen players are turning out daily for practice for the 1949 football season for the Eagle team, according to M. B. England, coach. There are only four lettermen returning: Billy Chamberlain, 2<sup>nd</sup> year; Edwin Smith, 2 years; Jack Talbot, 1 year and George Fisher, 1 year. The team averages only 131 pounds.

Working out with the backfield at present are J. Olivares, under the T, the offensive formation for this year; R. Zepeda, and E. Saenz, left half; Edwin Smith, fullback and calling the plays; and Jack Talbot in the right half spot. Bob Wilkinson will be center for the Eagles and fast and tall Billy Chamberlain and R. Esqueda will be on the receiving end of many passes and defensive stoppers. Those comprising the rest of the squad who will fill the other positions in the line, and be available as substitutes, are: H. Arredondo, R. Arredondo, M. Bustos, M. Escamilla, R. Flores, J. Harrison, G. Fisher, Joe Nessmith; with J. D. Thompson as manager for the Eagle team again this year.

In an interview with Coach England this week he said that the bulk of the passing would be done by Olivares, the quarterback, with Smith supplementing with his left arm on occasions. Jack Talbot has the toe for the kicking this year and will be in a position to use it ably, according to England.

It is expected that speedy Jack Talbot will handle the ball on quite a few running plays this year, since he showed so well in his broken field running and fast moving last year. Smith will be relied upon greatly due to his seniority in the backfield and, according to the coach, Olivares has shown up well in handling the T formation, along with Saenz and Zepeda.

All of the players appear to be in good condition and though light in weight, will have plenty of speed with their lack of heaviness to show up well for the team this year. One of the most consoling facts of the team this year, says England, is that he will have more than one player sitting on the bench with him at all the games, available if the need arises.

The first game will be September 9 in Fort Hancock.

## Construction of Band Hall Planned

Advertisement for bids for the construction of a band practice building for the local schools has been made this week.

The building, which will be located on the lot across the street west from the high school, will consist of a band rehearsal room, kitchen, storage room and toilets. The outside will be finished with stucco and Celotex will be used for the inside walls and ceilings.

This building has been much needed at the schools as practice in the auditorium has caused disturbing noise in the entire high school building. Some material salvaged from the buildings bought from the government-owned surplus stock sales in Del Rio over a year ago will be used in the building.

Mrs. Garner was taken from under oxygen after the second day and has shown steady improvement. While she has no paralysis in her limbs to date, hot pack treatments are being used on one side which seems to be affected, according to reports.

After two weeks in the isolation ward of the hospital she will be taken to Gonzales Warm Springs Foundation for further treatment.

## LOCAL ALL-STARS WIN SECOND IN ALPINE TOURNEY

The local softball All-Stars sponsored by the Lions Club in the Alpine tournament, won second place in the play which was completed Saturday night. The local team played and beat Fort Stockton in their first game last week and played the Holland Hotel Drug in Alpine last Wednesday night. The game ended 1-0 in favor of the Alpine team at the end of the eighth inning. There were no errors in the ball game and only five hits.

The All-Stars went to Alpine against last Saturday night to play the Alpine Baptist Church team and won that game 10-0 in the fifth inning. Smith pitched for the locals with Leatherwood catching, Pauli, Druse, Thompson, Dishman, Harrell, Hogg and J. Harkins comprising the rest of the team.

After the defeat of the Baptists the Holland Drug and All-Stars met in the semi-final round of the double-elimination tournament. The Holland Drug team was undefeated and had the All-Stars won, it would have meant one loss for each of the two teams and a return game. The All-Stars were on the losing side of an 8-2 score with the Alpine team.

The second game team was composed of E. Harkins on the mound with Gilbreath catching, and Pauli, Druse, Thompson, Dishman, Leatherwood, Hogg, and J. Harkins, with Harrell, Adams, Smith and Sudduth as substitutes.

The Alpine Jaycees, sponsors of the tournament, presented the local club with a check for \$25 and the promise of a trophy as second-place winners.

Johnny Williams is chairman of the committee responsible for the erection of these much-needed seats.

## FOOTBALL FIELD IN EXCELLENT SHAPE FOR SEASON

Work that was started early last month on the local football field is nearing completion with the installation of the lights this week. There had been much growth of weeds and stickers on the field and the watering had been sadly neglected during the entire summer months. Supt. J. G. Barry hired men to care for the upkeep of the field as soon as he saw the condition it was in.

Barry says that the field is not in as good a condition as it would have been had it had the proper care during the off-season period, but there was still a fine turf on most of the field and constant watering had put the gridiron back in fair shape.

There was need for the replacement of eleven globes on the field from breakage by vandalism and the elements.

### SCHOOL BUYS NEW DESKS FOR PRIMARY GRADES

Announcement was made this week that the local school had purchased new desks for five of the primary rooms in both the Lamar school and the elementary school. James Caroline, president of the local school board, said that the table-type desks were the latest thing in furnishings for primary grades and would afford several advantages for the youngsters. He said that the equipment that was in the rooms at present was in a very poor condition, but that the new desks had been promised by September 15, and would be installed as soon as they came in.

There will be three rooms in the elementary school building and two rooms in the Lamar school building that would be furnished with the new desks. The other rooms of the primary grades, he said, were furnished with suitable desks.

### LEGION TAKES TWO GAMES OF LOCAL PLAYOFF

The American Legion softball team took the second game of the playoff from the Firemen Tuesday night by a score of 5-1. Both teams earned a like number of hits. The Legion made 4 runs in the 3rd inning and 1 in the 5th, and the Firemen made their only score in the 5th inning.

This makes one game each for the teams in a 3 out of 5 series for the local championship.

E. Harkins pitched for the Legion and allowed 1 hit, 2 walks, and getting 6 strike-outs. Smith, for the Firemen, allowed 5 hits, walked 5 and struck out 3.

The Legion team came back Wednesday night and won their second game, making them one up on the Firemen, 7-6. The Legion scored 1 run in the 2nd, 1 in the 3rd and 5 in the 5th inning. The Firemen made 2 runs in the second, 2 in the 4th and 2 in the 6th. Harkins allowed 6 hits, walked 1 and struck out 6. Smith allowed 5 hits, walked 5 and struck out 1.

### AMONG OUR SUBSCRIBERS

Renewals have come from Anita Cardenas, O. B. Bendele, Mrs. Roy Harrell, Weldon Cox, Reynaldo Garza of Sanderson, Walter Rodgers of Elida, N. M., Mrs. Fred Garrison of Buchanan Dam, J. C. Roark, P. P. Courtney, John Scannell, Sam Bell, W. A. Davis, Lee McCue, Russell Dyer, Rev. J. W. Byrd, Greene Cooke, all of Sanderson and Wade Harrell of Dryden.

Gano Brooks, who is farming on the Charlie Chandler place, had the honor of the first and premium bale of cotton at the Bakersfield gin Saturday, August 13. Since the gin was not completed, the cotton had not been weighed nor the premium named last week. Heretofore, cotton has had to be ginned at Fort Stockton or Rowena, a distance of about 125 miles to either place.

With rocky soil, hills, and rangeland in evidence over most of Terrell County which is regarded as sheep-country, many local residents do not know of the fertile valleys in the northeast part of the county where springs, lakes and Independence Creek provide an abundance of water for irrigation. To see the varied and lush vegetation there for the first time is a revelation.

The mouth of Independence Creek where it empties into the Pecos River is near the Charlie Chandler's house and evidence remains of the swirling waters that spread over the land after recent rains when the crossing was washed away. Some flumes were also lost in the high water and feed crops damaged after irrigation was impossible.

Mr. and Mrs. Charlie Chandler and daughter, Virginia, occupy the original home place. Joe Chandler lives about 1-2 mile west and Herman Chandler lives about 2 miles south of the headquarters. Tenant farmers occupy most of the land under cultivation there.

Cane is now over fifteen feet high. Some twenty or thirty acres of cotton on Herman Chandler's place will yield two bales per acre this fall. Watermelons have provided a steady cash income for many weeks. Besides red and yellow-meated melons of several varieties, there is also a variety which is a deep orange in color when ripe with red meat.

Only a remnant remains of a large old orchard at the ranch. There were but few peaches this year but plums and peaches in abundance. Figs, grapes, Chinese dates and pecan trees were also noted. Mr. Chandler plans to set out a large orchard in another location this fall.

There are hogs on the ranch, fat sheep, goats, cows. With the extensive use of tractors in new farming methods, the work horses on the ranch have been idle for several years and are in prime shape. The presence of numerous varmints makes chicken-raising almost impossible but Mr. Chandler derives much pleasure from a few game chickens.

Joe Chandler is now working on the construction of a dam which will provide another large lake on his place. It will be well stocked with fish. Plenty of fishing and swimming is available at his ranch now with many huge trees providing ample shade for camping facilities. He opened his place to the public this summer after the construction of a large concrete swimming pool, and other added improvements were completed. Mr. Chandler plans to form a club for fishing, and outing membership after the new lake is completed.

Zinnias, marigolds and bachelor buttons grow rank in the yard where oleanders and a banana plant are also growing. Miriads of humming birds are seen throughout the day.

The general terrain of Terrell County is hills and valleys and many other valleys would probably be equally as fertile if water were available in such large quantities for irrigation.

From where I sit ... by Joe Marsh  
**If They're Wild, They Belong To Tik!**  
Saw Tik Anderson last week and was reminded of the first time I ever spoke to him. The missus had sent me out one Saturday afternoon to hunt for some blackberries. I took a long hike and couldn't find any. Finally, I came to Tik's house along that low stretch east of the fork on River Road. "Hi there," I says, "any blackberries around here?" Tik says, "There used to be—but I don't know much about things that grow wild." Later, I found how Tik supports his family by picking berries. Ever since, I've been like the rest of folks in town—respectful of his right not to tell where "his" berries grow. From where I sit, respecting other folks' rights comes natural in our town ... in America for that matter! Whether it's a person's right to enjoy a temperate glass of beer or ale, or whether it's Tik Anderson's right to keep secret where his berries are, it's all a big part of a real democracy!

**ADVERTISEMENT FOR BIDS**  
Sealed proposals will be received by the President, Terrell County Common School District No. 1, Mr. James Caroline, Sanderson, Texas, up to and not later than 2 P. M. September 3, 1949 at the Superintendent's office in the present High School Building.

At which time and place all of the proposals then received will be publicly opened and read aloud. Any bid received after the hour named hereinabove will be returned unopened.

The work to be done consists of General and Mechanical Construction of a Band Practice Building at Sanderson, Texas, in accordance with drawings and specifications prepared for same by Wilson and Patterson, Architects, and Yandell, Cowan and Love, Consulting Engineers, Fort Worth, Texas.

Copies of the drawings, specifications and other proposed contract documents are on file and may be seen at the offices of the Architects. One set of such document may be obtained upon deposit of Five (\$5.00) Dollars, which deposit will be refunded to each actual bidder upon return of such documents in good condition within three (3) days from bid opening. Additional copies may be obtained upon similar deposit but cost of reproduction of the set will be deducted from deposit. Similar

been gained under the profit system. The system has its faults — but socialism, as the record proves, has infinitely more and some of them are beyond correction.

So, before we are "look in" by sweet stories of our leaders that make us drool and wish for the Utopia that they picture if the government built the dams, propped corn and pork prices, loaned all the money, wrote the prescriptions, picked the professors for the school houses, said how many chickens per farmer, etc. we had better take a look at dear old England. They fell for that stuff.

This week Jimmy Caroline, the head of the local school board and manager of the Community Public Service Company, went to the local football field and turned on the lights to be sure everything was in order for the season's play.

He found eleven of the big lights had been shot and knocked out by some boys who were seeking a thrill of some kind. If the boys only knew that their sport was costly to the people of this community who are responsible for their school upkeep, we are sure they would be more considerate. Let's try to have a heart-to-heart talk with the children of the community and

try to provide amusement for them that will take their minds away from vandalism.

Those lights cost \$4.75 each and the price of eleven of them would help a great deal in providing more and better equipment for the school. Destructiveness is not proper in any field. If the boys must have something to shoot at why not organize a junior rifle club and, with proper instruction, the boys will be kept busy trying to learn to shoot and at the same time learn the care and safety elements of hunting.

This column will be glad to make a contribution to the fund required to organize such a club and we feel it would be a worthwhile contribution to the youngsters.
