SECTION 1

"Nothing is so dangerous as being too modern. One is apt to grow old-fashioned quite suddenly."

... Oscar Wilde

I'd like to explain a few points in connection with the establishment of a Spanish class in Friona which I have been discussing in this space for the past three weeks.

Several people have inquired as to the cost of participating in such a program. To this end I have no answer as yet. But, it is my belief that the only expense involved should be the cost of educational materials. In fact, it seems to me that one of the local civic organizations would be more than glad to sponsor this project for the betterment of their community and nation.

I have dispatched several communications to people in other communities who are active in similar activities. As soon as replies and suggestions are received from these sources, I shall announce some of the proposals and suggest a meeting time for the seventeen persons who have shown interest in being a part of this undertaking. Of course, anyone who is willing to try and learn the language will be welcome.

If things develop as I anticipate, I should be able to report some definite developments within the next two weeks.

It is not my intention to ramrod this project as a PERSONAL undertaking. It is my hope that once it is started, either the people of the community, or some civic organization will keep the ball rolling.

--TH--

A couple of young Friona citizens will testify that the mails can be a little too efficient sometimes.

I heard a story last week which I think is not only funny (to a listener), but carries a moral. The tale (as explained to me) goes something like this: It seems that David McFarland and Danny Kendrick were sweet on a certain little girl in school. Now, this young lady was always lauding the qualities of a third gentleman by the name of Bruce Caldwell who lives in Bovina where she used to reside.

Tiring of having their advances frustrated by the outsider, David and Danny decided to take positive action.

They wrote Bruce a letter and invited him over to settle the matter in man to man combat. (To be on the cautious side, they didn't put his exact address on the letter.)

Well, through some means or other, Danny's father, Pudge Kendrick, found out what the boys had done. He, in turn, mentioned it to David's father, Granville.

That was when things began to pop.

When Granville returned home that evening, he asked David if he had written such a letter. David admitted that he had and asked what about it.

"He came into the shop this evening looking for you. He's six feet tall!"

"Are you kiddin'?" David asked.

"No. He said he was coming over at eight tonight to meet you," Granville replied.

"I had better call Danny," David exclaimed.

After several attempts at reaching Danny on the telephone were frustrated by busy signals, David studied a minute and then exclaimed:

"I know, I'll call Mitch Terry. He said he would help."

"Mitch, can you come over and help? Daddy said Bruce is coming over at eight and he is six feet tall!" David exclaimed when he made connection with Mitch.

Much to David's consternation, Mitch couldn't come over and help in the expected battle either.

After some studying, laughing, fidgeting, and worrying, David suddenly pounced the table with his fist and exclaimed:

"I'll call Hollis (Horton). He'll fight him for us."

When Hollis learned the circumstances after he arrived, he could only join Mr. and Mrs.

(Continued on page 4.)

GEE, BUT IT'S COLD . . . Tammie Kay Shelton, 3, and her brother, Rex, 5, peer out the picture window into the blinding snow Tuesday. Heavy snows have kept the children inside this week. The turbulent weather is also blamed for cancellation of many community activities, blocked roads, stuck cars, and disagreeable mothers.

Project Christmas Card Begins For Sixth Year

The sixth annual "Project Christmas Card" begins this week.

The Modern Study Club, in cooperation with other civic organizations, opened the project, whereby local residents

Mabel Reynolds Announces For Re-Election

Subject to the will of the voters of Farmer County Democratic Primary election next May, I wish to announce as a candidate for re-election to the office of County Treasurer.

I wish to express my thanks and appreciation for the support you have given me, and I shall be grateful for your influence and support in the coming election.

Very truly,
Mabel Reynolds

COACHES DISCUSS PROGRAM

PTA Taps Lions Group For Ladies Style Show

Several members of the Lions Club were tapped to wear women's clothes for a portion of the Parent - Teachers Association sponsored variety show on Nov. 20.

Mrs. Judy Cummings appeared before the club at its regular meeting Thursday to enlist the aid of a number of

Judge Brewer Seeks Re-election

I wish to take this means of announcing to the people of Farmer County that I will be a candidate for reelection to the office of County Judge and Executive County Superintendent for a second term, subject to the actions of the Democratic Primaries in 1962.

I appreciate the confidence the people of Farmer County have placed in me, and during my first term I have tried, to

participate in the building of a giant Christmas card published in the FRIONA STAR. Residents are asked to deposit or mail to the Friona State Bank under Project Christmas Card, that amount of money which they would normally spend for Christmas cards for local distribution.

Names of all participants are accumulated and printed on a giant Christmas card in this paper. This project is designed to replace the expensive, multiple mailings of local Christmas cards and provide funds for much needed hospital equipment.

Proceeds from the project last year totaled \$1,400.25. Total donations for the past five years are \$6,416.25.

A skin dermatone, a chest pump and a deep fat fryer were purchased with the 1960 funds.

"We are not sure what we will buy this year, but it will be one of the most needed things at a hospital," Mrs. Paul Spring said.

Deadline for submitting names and depositing donations at the bank has been set as December 11.

"We are not asking for any specified donation. We are only asking for a donation equal to the amount which would normally be spent for Christmas cards to send to local residents," Mrs. Spring added. When an individual leaves or mails his contribution to the bank, he should also submit his name in the exact form which he wishes it to appear in the full page salutation to be carried in the FRIONA STAR Christmas edition. The STAR is donating the page for this project.

This is not another campaign to get people to spend more money. This is merely a plan to put funds ordinarily used for local Christmas greetings to work for the hospital in this community.

Members of the Modern Study Club will erect posters and oversee other publicity details for the project.

Lions for the "style show." There was a good bit of speculation as to what the results will be when the men parade across the stage in bathing suits and night clothes.

Alton Farr, Coaches Kenneth Miller and Vernon Scott were called upon for a short demonstration of the "Boopie Daisy

Ballot" exhibition which they will present at the show. Scott explained the art of holding the hands in the correct position.

"You play like you have a butterfly between your thumb and fingers and then let it go," he said.

J. T. Gee, grade school principal, explained the manner in which the controlled reader, which will be bought from the proceeds of the PTA show, will be used in the third and fourth grades.

Coach Miller and Bill Adams explained several football plays to the Lions. With the use of a portable chalkboard, they demonstrated the method which plays are set up and taught to the team.

Loyde A. Brewer

"One of the things which hurt the team (Friona Chieftains) this year was the many boys who

emerged victorious.

At the end of the eighth week of the contest Mrs. Watkins tied with Mrs. Walt Mabry for third place; then in the ninth week she pushed her score up enough to rate second.

The following week she tied with Frankie Allen, who had been leading the overall contest since the end of the fifth week, for first place and in the final week she was able to reach the top.

In final tabulations Mrs.

(Continued on page 7.)

Political Campaigns Start

The blizzard wasn't the only thing that blew in early this fall. County politics is already a-poppin'.

Two county-wide elected officials and two county commissioners announced for reelection the first of this week. They are Loyde Brewer, county judge; Mabel Reynolds, county treasurer; and Charlie Jefferson of Bovina and E. V. Crain of Lubbudde. All seek four-year terms.

Announcements from Brew-

er, Mrs. Reynolds, and Jefferson appear in this issue. Receipt of Crain's was delayed because of the weather.

The political scene in Farmer County opens a new chapter with the announcement by Mrs. Wilfred Quickel of Farwell of her candidacy for the office of district clerk.

Until now the office of district and county clerk has been a combination job held by a single elected official. The law provides that after a county

reaches 8000 population the offices must be divided.

Farmer County's 1960 census was over 9000, and so Mrs. Quickel is the first to seek the office that has been created by the county's growth. Hugh Moseley is now holding the combination office.

After next year's election,

the county commissioners must still provide a salary for the new office.

Peace Corps Examinations Scheduled

Postmaster, Martha Clements, announced today that entrance tests for the Peace Corps will be given on November 28-29.

The examinations will be held in Amarillo at 8:30 a.m. promptly for those in this area who wish to apply. Postmaster Clements was informed today.

Peace Corps posters, giving this information, will be displayed in the local post office on the bulletin boards.

Persons interested in taking the test, should watch for detailed information at the local postoffice.

MR. SAM GREEN

Local Teacher Dies Sunday

Funeral services for Samuel Jewel Green, 34, junior high teacher and coach, were conducted at the First Baptist Church at 10 a.m. Tuesday. Rev. Bill Burton, pastor, was the officiating minister. He was assisted by Rev. Audye Wiley, pastor of the Calvary Baptist Church.

Mr. Green, who moved to Friona from the Three Way Community in Bailey County, was in his sixth year of teaching here.

He was born Sept. 11, 1927 at Mayfield, Okla. He was a graduate of Sweetwater High School at Sweetwater, Okla.

and Eastern New Mexico University at Portales. His wife, the former Juaney Green, is also a teacher in Friona schools. The couple was married Sept. 6, 1951.

Survivors, besides his wife, include his mother, Mrs. Lydia Green of Sayre, Okla.; one sister, Mrs. Bedford Andrews of Sunnyvale, Calif. and one brother, Don Green of Gruver, Texas. Pallbearers were Tom Jarboe, Baker Duggins, D. L. Carmichael, Bruce Parr, Robert Taylor, J. T. Gee and Bill Sheehan.

Burial was in Lone Oak Cemetery at Sayre, Okla. under direction of Claborn Funeral Home.

School was dismissed Tuesday for the funeral.

Jefferson Seeks Re-Election As Commissioner

Charlie Jefferson, Farmer County commissioner of Precinct 2, Bovina and Rhea, announced this week that he will seek re-election in Democratic Primary next May 5.

Jefferson will be seeking election to his fifth term in office. He has served two four-year terms and two two-year terms.

In making public his announcement as a candidate to succeed himself, Jefferson made the following statement:

"In announcing my candidacy for nomination to office of Farmer County commissioner, Precinct 2, subject to will of the voters in the Democratic Primary next May, I wish to express my sincere thanks and appreciation to the voters of the precinct for their help and confidence in the past and pledge myself to continue to serve in best interests of the people if I am re-elected.

"I will appreciate your vote and influence."

CHARLIE JEFFERSON

Dorothy Quickel Announces For District Clerk

I would like to announce as a candidate for District Clerk, subject to the Democratic primary.

I have been Deputy County and District Clerk for the past ten years and feel this experience qualifies me for this office.

I pledge my time and efforts to fulfill the duties of office to the best of my ability.

I will appreciate your support, vote and influence in my behalf.

Very sincerely,
Dorothy Quickel

LUCKY TRAVELERS. . . Mrs. Thelma Watkins receives winnings after emerging victorious in the third annual Cotton Bowl contest. She receives tickets to the New Year's Day game along with \$55 expense money. Her husband, Kenneth, and son, Butch, will accompany her on the trip to Dallas.

Mrs. Watkins Wins Cotton Bowl Contest

Mrs. Thelma Watkins should be able to give a detailed first hand account of the coming Cotton Bowl game.

She made good in a last effort and won the expense paid trip to Dallas and the New Year's Day game in the Star's third annual football contest last week.

Although it took Mrs. Watkins eight weeks to get her name in the overall top three, she gradually moved toward top spot in the contest and finally

emerged victorious.

At the end of the eighth week of the contest Mrs. Watkins tied with Mrs. Walt Mabry for third place; then in the ninth week she pushed her score up enough to rate second.

The following week she tied with Frankie Allen, who had been leading the overall contest since the end of the fifth week, for first place and in the final week she was able to reach the top.

In final tabulations Mrs.

Watkins chalked up a score of 73 correct guesses to win the contest. She was followed by Jackie Clark and Frankie Allen, who tied for second place, with 72 correct guesses each. Mrs. Mildred Agee and J. S. Clark completed the contest with 71 correct and Mrs. W. R. Mabry had a final score of 70.

First place winner in the weekly contest last week was Joe Mabry with 7 correct and

Editorial Comment:

"Ten Commandments"

J. O. Musick, General Manager of The Texas Safety Association posted a list of ten "safety commandments" for motorists to observe "if they want to get through the coming winter season without a breakdown, mishap or causing a dangerous traffic blockade."

The rules, officially approved by the National Safety Council following extensive research on the subject, follows:

1. Flush the cooling system of your vehicle, have it checked for leaks and put in anti-freeze.
2. Make sure all tires have good treads.
3. Always carry a pair of reinforced tire chains. Though snow is not too prevalent in most areas of Texas, it does occur. Sleet and icing are always a possibility. In deep snow and ice, tire chains enable you to go and stop safely, thus preventing skid wrecks and traffic tieups.
4. Windshield wipers should be in good condition. Wiper blades should exert an arm pressure of one ounce per inch of blade length to sweep snow and sleet off instead of sliding over it.
5. Make certain the heater-defroster is capable of keeping windshield clear at all times. Know your heater-defroster and how to use it to prevent interior fogging.
6. Be certain both headlights work on upper and lower beams and that stop lights, tail lights and directional signals work also.
7. Have breaks adjusted, relined if necessary, and be sure brake linings are free of grease.
8. Tune-up your engine. A winter tune-up is essential to assure cold weather starting and to avoid stalling. Winter starting strains the battery, when its efficiency is already lower.
9. Inspect the muffler, and correct any defect--replacing it if necessary. A rusty, leaking muffler or exhaust pipe can be a carbon monoxide hazard particularly if you become stalled in traffic or in a blizzard.
10. Install and use seat belts--good in all types of weather but especially valuable under hazardous winter driving conditions.

Cotton Bowl--

8 points off the tie breaker. His older brother, Doyle, took second place honors with 7 correct guesses and a ten point error in tie breaker. Third place went to J. S. Clark, who also had 7 games predicted accurately.

Floyd Reeve was selected player of the week and also player of the year. The Star's

player of the year award will be an engraved plaque, which will be presented to Floyd as soon as his name is engraved on it.

Recapitulation of weekly winners is as follows: first week-Caylon Rhodes, first; Eugene Ellis, second; Mrs. Dolph Moten, third; second week-Fred Barkley Jr., first; Jimmy Norwood, second; Frankie Allen, third; third week-Eugene Ellis, first; C. H. Veazey, second;

Jackie Clark, third:

Fourth week-Jarrell Wright, first; Frankie Allen, second; Ray Dean Fleming, third; fifth week-Mrs. W. R. Mabry, first; Dale Hart, second; Mildred Agee, third; sixth week-Mary Schuman, first; Van Perdue, second; Mrs. Delph Moten, third; Seventh week-Jeffery Price, first; Elizabeth McLellan, second; Abel Covarrubias, third; eighth week-Thelma Watkins

Letters to the Editor

Dear Mr. Harrell,

Thank you so much for letting me have the pictures you took of my wee girl. It certainly was nice of you and I know a few people in England who will be glad to receive them plus the newspaper. The "Star" is becoming almost as well known in Burnley, Lancashire as it is here.

I would like to take this opportunity of telling you how much Dr. Lee and I are enjoying the newspaper under your editorship. Your "Just Castin'" column is one we read first as it is so interesting and you seem to get more news and have it written up in a more readable manner. We thought this before our daughter's picture appeared in the paper so you can imagine our copy was more interesting than ever this week.

Thank you again for the pictures and our best wishes for your continued success with the Star.

Mrs. Lee Spring

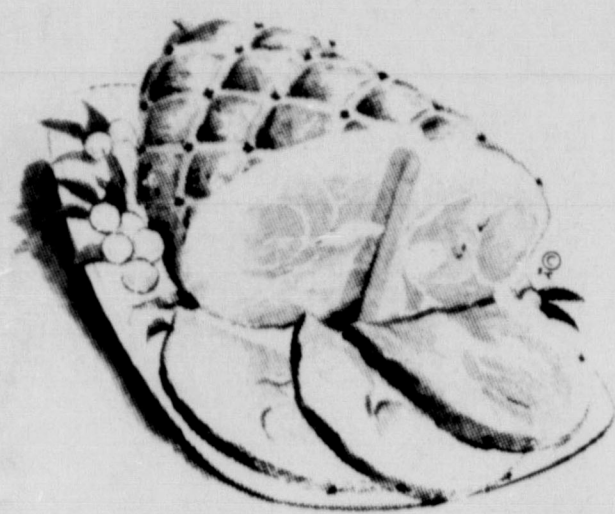

School Board Meets Briefly Monday Night

Friona's School Board enjoyed a short session Monday night.

The group wasted little time in approving the monthly bills for payment. Tax Assessor-Collector Dan Etridge reported that \$51,838.87 was collected during the past month. A balance of \$184,410.99 remains on the rolls for the 1961-'62 year, he reported.

Robert N. Ginsburg presented his audit of the school records to the board. A motion to accept the audit was made and passed before the meeting was adjourned.

and Joe Mabry, tied for first and second; J. S. Clark, third; ninth week-Jimmy Norwood and Doris White, tied for first and second; Kenneth McLellan, third; tenth week-Jackie Clark, first; Thelma Watkins, second; Mildred Agee, third. Floyd Reeve emerged as player of the year when the total votes for weekly players were compiled.

Friona Teams Enter Tourney

Sixteen boys and girls teams from area high schools will participate in the first Invitational Basketball Tournament, Nov. 30-Dec. 2 at West Texas State College. The tourney is sponsored by the P. E. Majors Club in the men's physical education department.

Slated are winners and losers brackets, and each team will play at least two games during the tournament. Admission will be \$1 for adults and 50 cents for students for each session of three games.

High Schools entering both boys and girls teams are

Adrian, Claude, Canyon, Farwell, Friona, Lazbuddie, and White Deer. Vega will enter a boys team, and Tullia has entered a girls team.

The tourney opens at 8:30 a.m. Thursday, with the Tullia and Canyon girls squads opening action. Following at 9:45 a.m. will be the White Deer and Friona boys game, and at 11 a.m., the White Deer and Lazbuddie girls game.

Winners and losers continue Friday and Saturday, with the championship games slated at 7:30 and 8:45 p.m. Saturday.

Friona's Women Basketballers

TWENTY FOUR SQUAWS-ONE CHIEF . . . Twenty-one players and three managers make up the 1961-62 Friona Squaw squad. Posing here with the Chief on the high school gym floor are: (Back row) Janet Buckley, jr; Kay Burleson, jr; Glenda McClellan, jr; Janice Wright, sr; Su-Zan Harper, sr; Jimette McLean, sr; Charlotte Nettles, soph; Sandra Hoover, jr and Marca Lynn Masste, soph. (Front Row) Myrna Bennett, soph; Carol Ray, jr; Joy Ingram,

jr; Kay Coffey, soph; Linda Castleberry, sr; Pamela Roden, sr; Carolyn Herring, soph; Pat Barker, jr and Rose Ann Greeson, soph. (Out Front) Branda Collier, sr; Anni Jensen and Cynthia Guinn, jr, managers. Members of the squad not shown are Kay Neel, soph; Wesslie Hand, soph; Lois Moyer, soph; and Cathy Bailey, soph.

Schedules Completed For Junior High Teams

Tom Jarboe, junior high principal, announced completion of schedules for the seventh and eighth grade boys and girls basketball teams early this week.

Friona Junior High Basketball Schedule (1961-62)
November 20-Muleshoe (7th & 8th Girls at Muleshoe, Boys at Friona)
November 27-Canyon (7th & 8th

Girls at Canyon, Boys at Friona)

December 7-Canyon (7th & 8th Boys at Canyon, Girls at Friona)

December 7, 8, & 9-Farwell Tournament

December 14-Muleshoe (7th & 8th Boys at Muleshoe, Girls at Friona)

December 18-Open
January 8-Bovina (8th Girls and 8th Boys at Bovina)

January 15-Open

January 18, 19 and 20th - Sudan Junior High Tournament

January 22-Lazbuddie (7th & 8th Girls, 8th Boys, at Friona)

January 25-Dimmitt (7th & 8th Girls and 7th & 8th Boys at Friona)

January 29-Open

February 5-Open

February 12-Dimmitt (7th & 8th Girls and 7th & 8th Boys at Dimmitt)

February 19-Bovina (8th Boys & 8th Girls at Friona)

February 26-Lazbuddie (7th & 8th Boys and 8th Girls at Lazbuddie)

*Games scheduled to be played at Friona will begin at 5:30 p. m.

THE PLANNERS. . . Making final arrangements for the Friona religious survey are Alvin Askins, (left), Hudson Phillips, Bill Burton and Audye Wiley.

Plans Near Completion For Religious Survey

Plans are nearing completion for the religious survey which will be conducted in the Friona area the first week in December. At the current meeting of the Friona Ministerial Alliance, reports were heard from the four advance preparation committees.

Due to the much planning and preparation required for a successful survey, the Alliance asks that each committee member and each volunteer worker fulfill his duties faithfully.

The committees and their members are: Enlistment and Materials -- Wallace Kirby, chairman, Deon Awtry, Mrs. Mae Magness, and Mrs. Ken Williams; Map and Zone--Audye M. Wiley, chairman, Frank Spring, Mrs. Bill Sheehan, and Mrs. Alvin Askins; Personnel--Bill Burton, chairman, Charles Mercer, Raymond Cook, Doug Connelly, and Alvin Askins; Publicity and Finance--Alvin Askins, chairman, Mrs. Andy Hurst, Ed Hicks, and Claude Porter.

Two other committees that will function after the survey is in progress are: Processing and Tabulation -- Bill Burton, chairman, Mrs. Dorothy Hough, Mrs. Stanley Berge, Mrs. Ira Holt, Mrs. Johnnie Wilson, Mrs. L. T. Graves, and Mrs. Wesley

Hardesty; Typing -- Hudson Phillips, and selected workers. Plans have been made for a nursery to accommodate volunteer workers who will assist in taking the survey.

Union Service Scheduled Thanksgiving

A community Thanksgiving service, sponsored by the Friona Ministerial Alliance, is scheduled Wednesday, Nov. 22, 7:30 p. m., at First Baptist Church.

The Rev. Wallace Kirby, Pastor of Friona Methodist Church, will deliver the message. Music will be under the direction of Charles Allen. A choir consisting of singers from all the participating churches will be featured.

An offering will be received for the local charity, needy transients, and ministerial alliance activities.

Mr. and Mrs. David Grimsley and boys visited in the home of Mrs. Ester Bomar of Muleshoe and Mr. and Mrs. Bud Grimsley of Olton last week.

Don Lewis Directs Playgoer Service

Playgoer Service of the First U. S. Army, directed by Don Lewis, native of Friona, will continue its activities during the next 12 months. This is a Special Service activity through which First Army military personnel and dependents purchase reserved Friday and Saturday night balcony seats at box-office prices for hit Broadway shows.

Playgoer Service is located at the USO-Travelers Aid Center, 132 W. 43rd St., Manhattan. It shares facilities with the Interservice Ticket Committee, an agency that receives millions of free tickets from the entertainment and sports world. Current shows available are Camelot, Carnival, Sail Away, Milk and Honey, and Kean.

Mr. Lewis, Playgoer Service

chief, is a former First Lieutenant who served in the U. S. Army from Sept. 3, 1959 to Aug. 25, 1961. He was an assistant Special Services Officer at Ft. Lee, Va., where he organized and directed the U. S. Army Quartermaster Command Chorus, a first-place winner in the 1960 All-Army Entertainment Contest.

While stationed at Hq. Second U. S. Army, Ft. Meade, Md., he was assigned as Tour Director of the world-traveling "Rolling Along Show of 1960", a Dept. of the Army activity. He later directed the Second Army Major Command Chorus from April to Aug. 1961. In addition, he participated and placed first at various levels of the All-Army Entertainment Contests.

Mr. Lewis, son of Mr. and Mrs. Henry Lewis of 709 Euclid Ave., Friona, was graduated Magna Cum Laude from Midwestern University, Wichita Falls, Tex., in June 1959 with a Bachelor of Music.

A bass-baritone, he sang with the university's semi-professional "Forum Chorale" and in productions of Oklahoma, Where's Charley, Carousel, Memory of Two Mondays, and others. He was also active in college and civic "Little Theater" groups.

Elected to Phi Beta Kappa, Mr. Lewis is also a member of Phi Mu Alpha Sinfonia. During his junior year at Midwestern he was president of the student body. He plans to study for his Master of Music at Columbia University, New York City, this January.

DON LEWIS

Ed Massie Dies In Local Hospital

Final rites for Ed Kennedy Massie, 70, who died at Farmer County Community Hospital early Tuesday morning, will be conducted from the Friona Methodist Church at 3 p.m. Thursday.

Massie, who was born Oct. 30, 1891 in Kentucky, moved to Friona from New Mexico in 1914. He was a retired farmer and rancher.

Rev. Hugh Blaylock of Dimmitt, former pastor of the Fri-

ona Methodist Church, will officiate. Pallbearers will be O. J. Beene, Dalton Caffey, Jim McLean, H. R. Cocanougher, Clyde Goodwine and Arthur Drake.

Survivors include one brother, W. H. Massie of Friona; two sisters, Mrs. D. M. Ballard of Eads, Colo. and Mrs. J. R. Pollard of Oklahoma City and nine nephews and nieces.

Burial will be in the Friona Cemetery under direction of Claborn Funeral Home.

Castin--

McFarland in side-splitting laughter.

David didn't think it was funny. At about two minutes until eight, David was "fit to be tied."

"If that doorbell rings, don't answer it. Just let it ring," David commanded to his brother, Johnny.

As it turned out, the six foot tall terror didn't show up. The real Bruce Caldwell is about David's size.

One moral to this tale is, "Be sure you know how big a man is before you challenge him to a fight." Another might be, "Don't send any challenges by mail. You might be surprised at the results."

One thing is sure. It will be a while before David and Danny send another letter challenging anyone to a duel.

Rig Operations Continue In Freezing Snow; Sleet

The man stood in the lee of a tall stack of pipe with his shoulders hunched against the cold snow and sleet.

As the giant, yellow blocks rose slowly before him he blew a last warm breath over his stiff, cold fingers and slipped his hand into a thick glove. Soon, he would have to move.

He was the derrick man on the wildcat oil test rig on the London farm five miles east of Friona. He and the rest of the crew were pulling the 7,876 feet of drill pipe out of the hole to exchange the worn out bit for a new one.

Driving snow partially blocked his view of the other four members of the crew on the floor of the rig just 86 feet below. This was a miserable Tuesday, but it wasn't any worse than untold days he had known in the past while working on oil drilling rigs.

As the huge blocks came to a stop, he moved out to the edge of the narrow steel platform and leaned out. The secure pressure of the safetybelt around his waist was all that prevented his plunging down to the floor where the other members of the crew were busy disconnecting the stand (three joints of pipe).

Quickly, he tossed the free end of a rope around the pipe before him. As the blocks began to descend, he reached for the latch on the elevators (a clamp-like device which locks around the pipe below the threaded joint and lifts the pipe).

Suddenly, the bottom of the stand touched the rack below and the shocking snap of the ton of "pig-iron" slammed into his powerful shoulders and arms. With practiced ease, he

jerked the catch on the elevators and jockeyed the stand back into its place beside the other 47 in the rack. Only 38 more remained to set back.

For a moment, he stood with his hands pressed against the pipe, absorbing the little warmth which was brought from the high pressures of the hole and was not whisked away on the journey up the derrick. Meanwhile, in a tiny trailer near the rig, a logging engineer

checked the latest sample of formation fragments taken from the hole.

"We haven't hit anything yet, but our most promising formations are just below", B. Beal told the local editor. "We are just now entering the Pennsylvania Zone. Below it just above granite lies the Mississippi." "These same formations here are the ones which are producing the oil and gas at Plains", Beal concluded.

Patrol Investigates 5 Parmer Accidents

The Highway Patrol investigated 5 accidents on rural Highways in Parmer County during the month of October, according to Sgt. Roger Sosebee, Highway Patrol Supervisor of this area.

These wrecks accounted for one person injured, and a property damage of \$1,675.00.

With the indications that fall has changed into winter, it is time for our driving habits to change with it. It is a good idea to follow the Boy Scout motto, "Be Prepared."

The veteran Highway Patrol Supervisor listed some tips to help the driver winterize his driving.

(1) Frost or ice on bridges means to slow down before you reach the bridge. It is too late to do anything once you are on the slick surface.

(2) Check your exhaust system thoroughly, don't risk carbon-monoxide poisoning.

(3) Be extra careful at railroad crossings with windows up.

In a sealed car you cannot hear the train.

(4) Check windshield wipers now. They will be carrying an increasing load from now on.

(5) Clear all fog or any form of precipitation off windows and windshields. Don't just rub a small hole to peep through. Use defrosters to help keep the windshield clear.

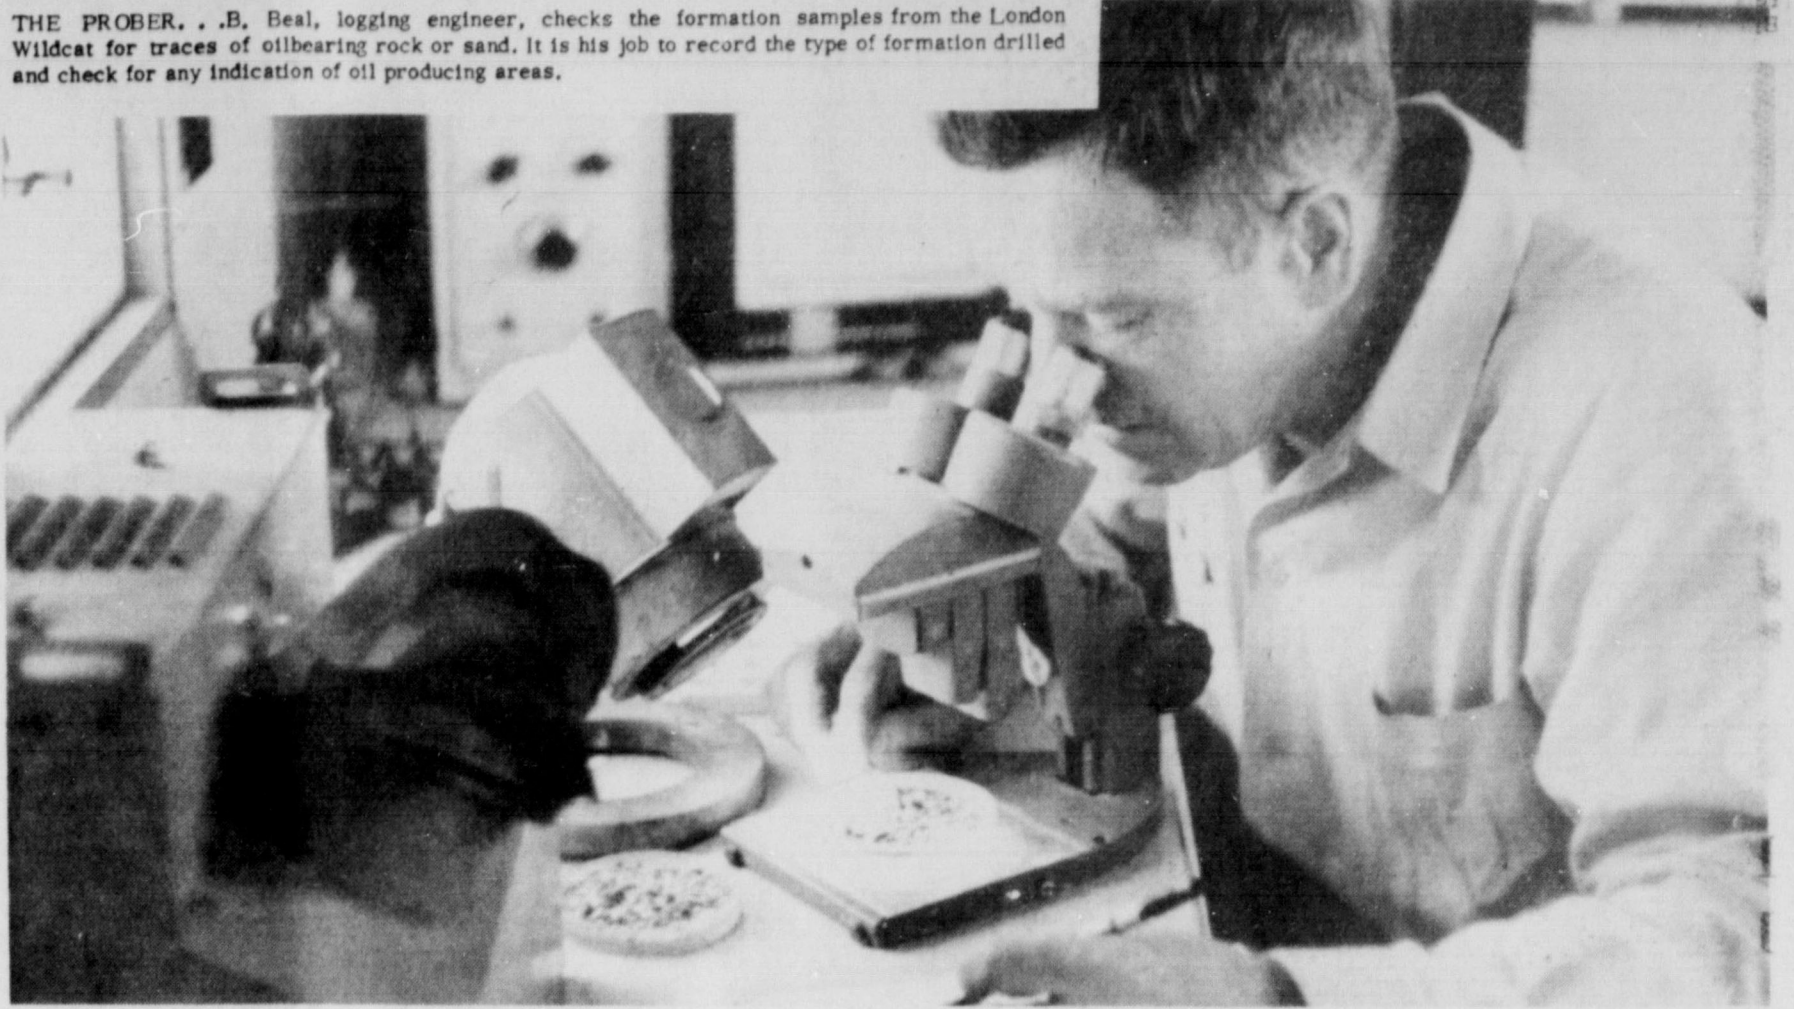

(6) Make a definite, conscious attempt to adapt your driving habits to the changing season. Your life may depend on it.

The Texas legislature has adopted a measure which outlaws and makes void any provision in a union contract imposing a fee on truck lines using railroad piggyback service. The bill passed the Texas House by a vote of 132 to 2, and the Senate by 29 to 1. A similar law was enacted recently in Illinois.

RESEARCH AND DEVELOPMENT expenditures by U.S. industry have rocketed from 1.8 billion dollars in 1945 to 13.5 billions this year, and may top 25 billions by the end of this decade. . . . SMALL "BAZOOKA" charges, similar to the cone-shaped explosives used in military armor-piercing rockets, are used effectively for perforating oil well casings. They are lowered into narrow well shafts and fired sideways into rock formations to open passages for oil into the shafts. Jet velocities up to 25,000 feet per second are created, according to FGAC, Houston.

PERFECT MATCH Did you hear about the manicurist who married a pedicurist? They waited on each other hand and foot. . . . Santa Fe Magazine

THE PROBER. . . B. Beal, logging engineer, checks the formation samples from the London Wildcat for traces of oilbearing rock or sand. It is his job to record the type of formation drilled and check for any indication of oil producing areas.

WEIGHT LIFTERS. . . With snow and sleet turning to freezing slush under their feet, the day crew at the London Wildcat rig makes one of the many trips (pull out drillstem, change bits, and put pipe back). A barrel of fire (lower right) helps keep fingers and noses thawed during the freezing snow, sleet and rain.

TAX-MAN SAM SEZ:

The Certified Public Accountants in Texas are making a concerted effort in many sections of the state to get all the high school and college students trained in how to prepare their income tax returns. Internal Revenue Service prepares an excellent course called "Teaching Taxes" that can be used by from one day to three time in training students. Thousands of Texas teachers and more than 150,000 students are receiving this training each year. The certified Public Accountants, however, are asking the principals to provide the income tax training for all their students. The CPAs believe (based on their professional experience in preparing tax returns) that every high school graduate needs this fundamental training in our American way of life. The students will be paying taxes for the rest of their lives and they should know how to keep records and how to prepare their income tax return.

WE DID IT BUDDY. . . Charles Bass (left), Ranza Boggess and Max Reeve congratulate each other after winning first place in the Littlefield District FFA contest in Muleshoe Saturday. These three, members of the senior farm skill team, will pit their skills against representatives from other area schools in competition at Plainview Saturday.

FFA Team Wins First In Contest

Friona FFA farm skill teams won first places in the junior and senior divisions of the Littlefield District FFA contests at Muleshoe Saturday.

Members of the senior team were Max Reeve, Ranza Boggess and Charles Bass. Earl Crow was the alternate. Jimmy

Snead, Milton Hargus and Dennis Howell were members of the junior team and Don Collier was the alternate.

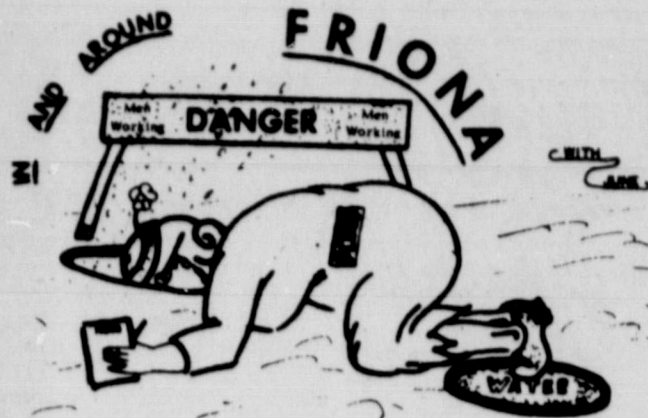

A third place was won in radio broadcast competition by a team made up of Bob Welch, Gary Renner and Micky Wilson. Alternates were Ronnie Awtrey

and Greg Jarrell.

In the FFA Quiz contest a team composed of George Rushing, Jerry Cass, Darrell Anthony and Ronnie Brookfield placed fifth.

Both farm skill teams will go to Plainview to participate in the area contest Saturday. They

will be accompanied by J. C. Lane and David McVey.

At the time this is being written just about everything in And Around Friona is covered with snow. During this, the second snow in November, there has been very little wind, so the snow has stayed on the tree leaves, tops of buildings and just about where it has fallen.

Farmers joke about having their crops on cold storage, but are really quite concerned about possible damage to maize and cotton. One farmer jokingly suggested to a neighbor that if he wanted his cotton to make a good turn out that Tuesday was a fine day for pulling it. Then added, "I've never seen it whiter."

Late Tuesday the snow is deeper in the southern part of the county. Rain, sleet and snow have fallen most of the day. Reminds me of what the late

Will Rogers used to say about Oklahoma weather. One of his best known sayings was "If you don't like our weather, just stick around half an hour or so and it will change."

Probably by the time you are reading this the snow will all be melted and the sun will be shining brightly.

Lisa Taylor, youngest daughter of the George C. Taylors, has lost her kitten and would like to get it back. Lisa, who has nice telephone manners, called me to report loss of her kitten and enlist the help of readers of this column in finding it.

According to Lisa's report, "He is a calico cat. He is black, yellow and white and not very big. We went on a trip and when we got back he was gone and hasn't come home yet."

If anyone sees a cat that fits this description, please call the Taylor residence. The telephone number is 5112.

Commission Announces Postmaster Examination

An examination for Postmaster in Friona will be open for acceptance of applications until Dec. 5, according to an announcement received from the Civil Service Commission this week.

The examination was announced under revised qualifications standards recently agreed upon between the Commission and the Post Office Department, according to the report. Written tests will be given in Clovis.

Competitors must also show that they are of good reputation and that they can deal with the public agreeably and effectively, the announcement said.

Applicants must take a written test. Those who pass will be assigned final ratings on the basis of this test and on their experience, and fitness for the position. They must have resided within the delivery of the office for one

year immediately preceding the closing date of the examination. In addition, they must have reached their 18th birthday on the closing date for acceptance of applications. Persons over 70 years of age cannot be appointed.

Complete information about the examination requirements

and instructions for filing applications may be obtained at the post office for which this examination is being announced. Application forms must be filed with the U. S. Civil Service Commission, Washington 25, D. C., and must be received or postmarked not later than the closing date.

Church Constructs New Classrooms

"Due to crowded conditions in the existing educational building, Friona Methodist Church plans to erect an addition," H. K. "Pudge" Kendrick, chairman of the building committee, said.

The proposed addition consists of 11 classrooms and two offices, covering an area of 6,200 square feet. An additional classroom has been gained by moving the church office to the new wing. The present style of architecture will be followed throughout.

"In addition to the church expansion program, the building committee has started plans

for the construction of a new parsonage, to be presented later," Kendrick added.

Other members of the building committee are Mrs. Frank Spring, Mrs. Andy Hurst, Wes Long, and Deon Awtrey. Alternates are Marion Fite and Mrs. R. N. Ginsburg.

"Our present educational building completed in July 1957 at a cost of \$80,000, has been outgrown," J. T. Gee, church school superintendent, said. "In order for our Sunday School to be better organized and to have a chance to grow as it should, it is necessary that we have additional classrooms."

WE ADD HERE . . . Dalton Caffey points out the proposed addition to the Methodist Church, as shown in the artist's drawing, to Andy Hurst Jr., left, and Rev. Wallace Kirby in front of the present building.

SALMON "remember" the taste of the water where they were born, and can distinguish it from all other water, report scientists at Cornell University. This may explain a mystery of science -- how salmon find their way back to spawning grounds.

HOPEFUL When a young woman applied to the school board for a job, she was asked how long she intended to teach. "From here to maternity," she replied.

Eagles Claw Chiefs 48-8 In Last Game

It's all over now! The Friona Chieftains found impossible to overpower their final opponent in the 1961 football season, Canyon delivered a 48 to 8 shelacking to the underdog Chiefs Friday night at Chieftain Field.

Loss of this final game brought to a close a season of defeat. The Chiefs have not emerged victorious in a single gridiron contest this year. The closest they came to winning a game was in the 20 to 0 seasonal opener with Farwell. The Canyon Eagles romped through the Chieftain line to tally two touchdowns and the additional points for a score of 14-0 at the end of the first quarter.

Badly outclassed Chiefs were unable to obtain the Canyon drive in the second quarter any better than they did in the first. The Eagles completed two touchdown drives for a total of 129 yards and an additional 13 points before the first half ended.

Canyon players wasted no time in again marching across the goal line. At the opening of the third quarter, the Eagles recovered their own opening kickoff on the Friona 46 yard line. One play later, was all it took to bring the score to 33 to 0.

Friona's Everett Gee took the next kickoff on the ten yard line and dodged back to the 16 before being brought to earth. Thirty yards in penalties and a 19 yard run by Gee highlighted a Chieftain drive which bogged down at the Canyon 10 yard

PLAYER OF THE YEAR . . . according to votes submitted by fans in the Cotton Bowl contest, Floyd Reeve is the recipient of the player of the year award, John Getz, STAR advertising manager, is showing Reeve a Mock-Up of the plaque which he will receive when it is completed.

line. An incomplete pass and a fumbled ball allowed Canyon to take possession on downs.

The struggling Chieftains tightened their lines and halted Canyon's return march on their own six yard line. Gee then grabbed the ball and scampered to the 21 yard line to give Friona a first down. But Gary

Snead was forced to punt after only additional four yards were gained in three plays.

This time, the Eagles could not be stopped. In five plays, they crossed 60 yards to bring the score to 40 to 0.

Gee again took the Canyon kickoff on his own 3 yard line and scampered 20 yards back

up the field. Tommy Baxter brought the crowd to its feet with an 80 yard to the Canyon three in the final seconds of the third quarter. Floyd Reeve then stepped back and fired the touchdown pass to Gary Snead. Reeve again connected with James Perkins to make good the two point conversion for the

Chieftains.

The struggling Chiefs held the Canyon Eagles to one additional touchdown for the fourth quarter. The final gun sounded with Canyon in possession of the ball on the 50 yard line and the scoreboard showing Friona-48; Canyon-48.

PTA-- declined to "come out" for football," Coach Miller said. Credit for this fact was attributed to many sources including lack of school spirit, coaches, parents, and past practices.

Dr. (Lion) Paul Spring cited the excellent physical condition of the present team as being the major factor in preventing a reoccurrence of last year's numerous serious injuries.

"This year, we have had zero injuries of a serious nature. I

GOOD FOR TWO POINTS--Janet Rushing, post forward for the eighth grade girl's basketball team sinks a field goal to add two more points to Friona's score in the second quarter of the game with Dimmitt last week. Other Friona forwards in the picture are Lenore Jackson and Monte Sue Welch.

think the condition of the boys is one of the major reasons for this, because the boys were smaller and met teams larger than they did last year," Dr. Spring said.

Over 15 serious injuries, including broken ribs, knees, ankles and arms were reported for the preceding year.

Coach Scott explained some rule changes for the coming basketball season. The marks along the outside of the free throw lane have been widened to increase the separation between players at the lane during free throws in the games. This

is designed to reduce the amount of bodily contact under the basket during the free throws.

Another change made is that coaches will be allowed to send substitutes into the game at the occurrence of a violation if the player is at the timekeeper's table and ready to enter the game.

A third change is that the players will not be required to have both feet in the small circle for a jump ball at the center line. The player will be required to have one foot touching the line of the small circle when the ball is tossed in the air.

The next meeting which was scheduled for Nov. 23, was canceled because of the conflict with the Thanksgiving holidays.

Something To Think About

16th. Street Church of Christ
Box 515 -- Friona, Texas

In one of his books Wallace Hamilton relates an experience with his son John, when the boy was only four years old. The family was vacationing. The boy's mother and grandmother had gone for a walk in the woods, and John, feeling abused that he should be left behind, sulked a bit and then deliberately set out to find them. His father, seeing him leave, decided not to stop him, but to follow him. Down the road and across the woods John went, with his father following closely, making his way through shrubs and bushes. At length John grew weary in body and confused in his directions. He began to cry. At that moment his father stepped out from behind a tree and said, "Well, John, are we going home?" John not in the least bit surprised to see his father, had only two words to say, "John's lost."

It is so easy for us to make the same mistake. We confidently think we know the way, only to discover after a while that we are lost. No doubt Cain was confident that his sacrifice would be acceptable unto God. He thought . . . and yet he knew that God had directed otherwise. Isn't it a little strange that so many people become lost while following their own directions when they have been so adequately warned? Remember this bit of Divine revelation, "It is not in man that walketh to direct his own steps." The thinking person will not make this mistake!

Come To Church Sunday

IN TIMES LIKE THESE

"In Times Like These" is a song with a great message. In times like these you need a Saviour, in times like these you need an anchor; Be very sure, Be very sure. Your anchor holds and grips the solid Rock! This Rock is Jesus. Yes, He's the One, This Rock is Jesus, The Only One!

During days of depression, days of war, days of drought; most people were mindful of their deep need of God. Churches were filled on Sundays and Wednesday prayer-meeting nights, because we felt our dependence upon a Power above that of our own. I feel we are entering upon a period in which our people need to again turn to God. Don't misunderstand me, I don't feel there is ever a time when we do not need Him. There is more unrest and real worry among our nation now than in many days. We know that instruments of war and destruction are in existence, and more deadly ones are being devised.

If man allowed himself to think and worry continually upon this subject, and if he had not faith in God; he could quite conceivably lose his balance as a result. The Bible tells of all the happenings of man for time and for eternity. There is no recording of man destroying himself and then starting all over again. There is recorded that God will bring an end to sin and destroy a wicked world. The Day of the Lord will be of such magnitude that present-day bombs will not begin to compare thereto. Therefore we ought to give ourselves to prayer and to intercession. In times like these, you do need a Saviour and an anchor.

PROMPT DELIVERY

MRS. JIMMY BAINUM

Vows Read Recently For Wilson-Bainum

Miss Jean Wilson, daughter of Mr. and Mrs. Winston Wilson, Friona, and Jimmy Bainum, son of Mr. and Mrs. Charlie Bainum, were united in marriage Saturday, October 28 at seven p.m. in the First Baptist Church at Levelland.

the Levelland Church.

Attendants for the ceremony were Mr. and Mrs. Dale Spivey, Brownfield, formerly of Friona.

Wedding vows were read by Brother Muller, minister of

Mr. and Mrs. Bainum are 1960 graduates of Friona High School and are now attending South Plains Jr. College in Levelland, where they are making their home.

Local Delegation Attends District FTA Convention

Twelve Future Teachers of America from Friona attended a District FTA convention in Canyon November 7. They were accompanied by Mrs. Ernest Osborn, sponsor, Mrs. Russell O'Brian and Mr. and Mrs. Steve Struve.

Hawkins, Donna Fields, Karen O'Brian, Kay Neel, Diana Taylor, Gayle White, and Cordelia Parr.

Funeral Services For Varner Infant

Highlight of the convention for the Friona delegation was the election of Brenda Deaton to a district office. Brenda, 16 year old daughter of Mr. and Mrs. Les Deaton of Black, was elected by a landslide vote to hold district office of financial secretary for the coming year.

Funeral services for Rhonda Sue, infant daughter of Mr. and Mrs. Wilbert Varner, will be today at 1:30 p. m. in the United Pentecostal Church with Rev. Frank Baber officiating. She was born Tuesday morning in the West Plains Hospital at Muleshoe.

Climax of the meeting was the contest for Mr. and Miss FTA. To win this honor, contestants presented a minute speech. Mikie Welch, daughter of Mr. and Mrs. Nelson Welch, was the contestant from Friona and was in the top five of seventeen schools represented.

Survivors besides the parents, include two sisters, Debra and Janet, both of the home; Mr. and Mrs. Chester Varner of Friona, paternal grandparents; Mrs. Elaine Massey, Friona and Edward Massey, Truth or Consequences, N. Mex.; maternal grandparents; great grandparents, Mr. and Mrs. Otis Massey and Mr. and Mrs. L. J. McKenzie all of Friona and one great great grandfather, G. W. Price, of Midlothian, Tex.

Friona's Ethel Benger FTA Chapter is three years old and one of the most active in the district.

Others attending the convention were Sharon Reeve, Kay Johnson, Carol Coffey, Debbie

Bridal Shower Courtesy To Celia Dee Weatherly

A miscellaneous bridal shower was a courtesy to Miss Celia Dee Weatherly, bride elect of Jerry Loflin, given November 11 in the home of Mrs. Ralph Shelton.

Co-hostesses were Mesdames James Boyle, Kenyth Cass, Curtis Murphree, Tommie Parker, Estis Bass, Guy Latta, Ralph Taylor, G. B. Buske and Joe Douglas.

A miniature china bride and groom, flower girl and ring bearer decorated the table where Mesdames Kenyth Cass, Estis Bass and Curtis Murphree registered guests.

The serving table was laid with a Belgium linen handmade cloth and centered with an arrangement of Rome Glory rose buds in a silver bowl. Mesdames Joe Douglas, James Boyle and Kenyth Cass presided at the silver service.

Attending were Mesdames C. W. Weatherly, J. A. Loflin, C. F. Loflin, Phillip Weatherly, A. W. Anthony Jr., Ray Castleberry, Sloan Osborn, Roy Clements, W. S. Ingram, Bill Nunn, Eugene Ellis, A. W. Anthony, W. M. Stewart, Gary Goetz, Tom Lewellen, Arthur Drake, Bill Baxter, Dewayne Cassels, J. E. Knight, Also Mesdames Meryle Mas-

sie, H. R. Cocanougher, Hugh Randall Jr., Eddie Meil, Don Marler, Olan Turner, Lewis Smith, Jean K. Anthony, C. H. Hammock, A. L. Glasscock, of Bovina, Sam Jones, J. L. Ray, H. L. Magness, A. L. Black, J. L. Shelton, S. T. Thornton, Herschel Johnson, and L. B. Blake.

Also Mesdames Orval Blake, Haney Tate, Juan Eskew, Dalton Caffey, H. D. Mayfield, Deon Awrey, Marion Fite, Roy Slagle, Ira Parr and Bruce Parr.

Also Misses Nelda Douglas, Bettye Bass, Pat Myers, Betty Drake, Gayle Knight, and Arvis Phillips of Amarillo.

Ronald Gibson Born Monday

Ronald Gene Gibson, son of Mr. and Mrs. Thomas G. Gibson, was born at 2:19 p. m. Monday at Parmer County Community Hospital. He weighed 8 lbs. 1 oz. and is the first child for the couple.

Grandparents are Mr. and Mrs. Tom Gibson and Mr. and Mrs. Charles Scales all of Friona.

Brenda Deaton, daughter of Mr. and Mrs. Les Deaton, Black, was elected financial secretary

for district office of the Future Teachers of America at a recent convention in Canyon.

Glenn Floyds Visit Relatives

Mr. and Mrs. Glenn Floyd, and Susan were guests in the home of Glenn's brother and family, Mr. and Mrs. Russell Floyd and Clifford, of Levelland Saturday night.

The Floyds visited in Lubbock Sunday with their daughter, Geneva, who is a student at LCC, and a son, Gerald who is senior at Texas Tech.

Frieda Floyd and Janet Rushing left Friona Friday to visit at LCC with Geneva for the weekend. They accompanied the Glenn Floyds home Sunday evening.

Jimmy C. Chesher On Pacific Tour

Jimmy C. Chesher, airman apprentice, USN son of Mr. and Mrs. Jessie O. Chesher of Friona, is serving in the Pacific, aboard the anti-submarine warfare support aircraft carrier USS Kearsarge which entered the Bremerton, Wash., Naval Shipyard, November 1, for a seven month modernization program.

The Kearsarge, which operates out of Long Beach, Calif. is receiving the modernization upon completion of a seven-month tour in the Western Pacific with the Seventh Fleet.

Wedding Ceremony Unites Donna Guinn - Jerry Smith

Miss Donna Coleen Guinn became the bride of Jerry Lee Smith in a doubling ceremony October 28 in the First Baptist Church of Muleshoe at 8 p.m. The bride is the daughter of

Mr. and Mrs. Allen Guinn and Mr. Smith is the son of the late Mr. and Mrs. Leonard Smith. He has been making his home with Mr. and Mrs. Barney Floyd of Lazbuddie and graduated from Lazbuddie High School.

Rev. Don Murray, pastor of the church, read the wedding vows before an archway of lavender gladioli and white mums and lavender and white pom-poms with lace bells flanked by candelabras.

Miss Guinn, given in marriage by her father, wore a gown of white peau de soie designed with a portrait neckline and long pointed sleeves and featuring a full skirt with an inset train accented by pearls and beads. Her veil of illusion was attached to a crown of crystals and seed pearls. She carried a white Prayer Book topped with a bouquet of red roses in a crescent design and accented with Lily-of-the-Valley and rhinestones.

Mrs. Jimmy Meyers was matron of honor. Bridesmaids

were Glenna Guinn, sister of the bride, Kay Ann Smith, sister of the groom, Linda Gillis and Janie Sanders. They were dressed in identical frocks of purple velveteen and deep purple accessories.

Freddie Savage served as best man and groomsmen were Ronnie Gaston, Norman Brantley, Dewitt Darling and H. W. Moore. Ushers were Wayne Patterson and Eddie Morris.

Flower girl was Timmy Wyer and Kenny Keith served as ring bearer.

Traditional wedding music was furnished by soloist, Carolyn Hicks, of Muleshoe. Dining hall of the church was the scene of a reception following the wedding ceremony. Jana Goodwin registered guests and Joy Autry and Magann Lamb presided at the serving table.

Mrs. Smith is a former employee of the Rushing Insurance Company of Friona.

The couple will make their home at Friona where Mr. Smith is engaged in farming.

GENEVA FLOYD

Friona Student Elected Senator

In election held at Lubbock Christian College Friday Geneva Floyd of Friona and Kenneth Jones of Junction were elected to represent the sophomore class in the Student Senate.

Miss Floyd, daughter of Mr.

and Mrs. Glenn Floyd of Friona, is a 1960 graduate of Friona High School. She served as freshman senator at LCC last year and is editor of the annual this year.

She is an elementary education major.

Club Has Regular Meetings

"Serving Others" was the theme of the October 25 program for Friona Woman's Club.

Guest speaker, Mrs. Vivian McCracken, gave a talk on the efforts and accomplishments being done at Girlstown.

Each member answered roll call by presenting a gift for a girl living at Girlstown.

Mrs. Edgar Carney and Mrs. L. R. Dilger were hostesses for the occasion.

November 8, Friona Woman's Club met in the club house for a regular meeting with Mrs. R. W. Ginsburg and Mrs. C. W. Dixon serving as hostesses. They used patriotic motif in room decorations and refreshments.

Topic for the afternoon's program was "Citizenship is Re-

sponsibility," using the quotation, "A well informed public is America's greatest security."

J. D. Sanders showed a film on "Dangers of Communism." Roll call response was given by members with "What I Owe My Country."

Mrs. Pearl Kinsley, a charter member of the club, was presented a corsage on the observance of her 80th birthday.

Also Girl Scout Troop 144, directed by Mrs. Bob Riethmayer, took a plane trip over the town and saluted Mrs. Kinsley by dipping the plane wing over the club house during the meeting.

Suzanne Taylor Member Of Choir

Suzanne Taylor, daughter of Mr. and Mrs. George C. Taylor of Friona, is a member of the North Texas State University Choir which will perform in Denton in a concert of music for organ and brass November 13.

The choir will appear on a program presented during the annual joint meeting of the Dallas and Fort Worth chapters of the American Guild of Organists. Directed by Richard Lamb they will sing "In Ecclesiis Benedicte Domino" by Giovanni Gabrieli.

Suzanne is a 1961 graduate of Friona High School.

Education Trend is Club Subject

Mrs. Howard Ford opened a regular meeting of the Modern Study Club with prayer Tuesday evening, Nov. 7, in the Club House. Topic presented to twenty-five members and guests was "New Dimensions in Education," using the quotation "Education is the chief defense of the nation."

Miss Sharen Awrey presented a piano solo, "Mysterious Forest."

A panel discussion, "What We Would Like In Current Trends in Education" was conducted by Mrs. Ross Ayers, Mrs. Deon Awrey and Mrs. Weldon Dickson with members participating. The following education levels were presented: high school, Mrs. Ayers; junior high, Mrs. Awrey and elementary, Mrs. Dickson.

Refreshments were served by hostesses Mrs. Alton Farr and Mrs. Howard Ford to members and two guests, Mrs. Robert Holder and Sharen Awrey.

Church Women Plan Bazaar

Congregational Women's Fellowship members are planning a bake sale and bazaar for Saturday, Nov. 18.

The sale will begin at 9 a.m. in the Bi-Wize Drug store and will continue all day.

Women Reach 'Way Out' For Unique Hat Styles

Seven Home Demonstration Clubs met in the Fellowship Hall of the Methodist church Thursday for a parade of unique hat styles and a covered luncheon.

Clubs represented were Rhea, Northside, Oklahoma Lane, Lazbuddie, Black, Hub and Friona.

Miss Etta Musil, Home Demonstration agent, headed the parade with an original hat made from an apple case divider topped with various colored spools of thread and tied with a yellow tape measure. Other decorations included a pin cushion, scissors, snaps, bobbins, zipper, artificial flowers and other items.

Mrs. Johnny Hand, Hub, won first place for the most ridiculous hat. Buffalo horns extending from a wrought iron fruit bowl turned upside down was the base for the unusual trimmings that decorated the hat. They included a wall broom, plastic sunflower fly swatter, small black iron pots and pans and etc. with wide orange ribbons for accent.

Second place winner, Mrs. Helen Fangman of Black, wore a hat made from an egg carton with a purple bow tied under the chin and a pot holder bow in the back. A soup ladle holding an egg also centered the back.

Mr. and Mrs. Weldon Fairchild of Canyon became parents of a baby boy at St. Anthony's Hospital in Amarillo November 8. He weighed 7 pounds and was named Mark Weldon.

Grandparents are Mr. and Mrs. Carl Fairchild and Mr. and Mrs. A. S. Grubbs. Great grandparents are Mr. and Mrs. W. F. Cogdill of Friona, Mrs. W. L. Thomas Sr. of Lockney, Mrs. R. B. Grubbs of Plainview and W. E. Fairchild of Medford, Oklahoma.

Other decorations included a pastry blender, bottle opener, cork screw, paper cup holding plastic spoons and forks, measuring cups, salt shakers, miniature coffee pot and pastry brush.

A representative from the Lazbuddie club, Mrs. Roy Miller, wore a hat that took third place as a most unusual creation. The hat was made from a lining of a bushel basket that stood one and one-half feet high covered with Easter grass. Trimmings included various colors of artificial flowers, a bluebird and an owl.

All clubs were well represented with original hat designs. Others wearing eye catching hats were Mrs. Dick Rocky with a strainer topped with a cake pan holding a chore-boy nest with an egg. A few other decorations such as sugar cubes, salt shaker, can opener, toothpicks, plastic pins, clothes pins, sponges, jar lids, pencil, aspirin box gave the headpiece an original appearance.

Mrs. Jack Shirley wore an Armadillo Shell trimmed with straw flowers. A brown paper sack covered with colored egg shells was displayed by Mrs. Chris Drager.

Mrs. W. E. Stringer had a horn-of-plenty headpiece adorned with artificial grapes, multi-colored flowers, bees, fire-place matches, musical horns and a red bird.

A wide-brimmed straw hat covered with a scarf and white ribbon was worn by Mrs. Glenn Reeve Jr. Multi-colored candy life-savers dangling from threads trimmed the edge with wrapped candies decorated the brim. A Norwegian doll holding chewing gum topped the creation.

A turkey perched on the top of a straw basket was worn by Mrs. Wesley Hardesty. Other decorations on her hat were artificial apricots, plums and persimmons. Also colored straw flowers.

Luncheon was served following the parade and judging of the most ridiculous hats.

THE HIGH PLAINS FARM AND HOME

Animal Health Group Formed

A Farmer County organization was formed at a meeting in Bovina Thursday night to support recently-formed South-west Animal Health Research

Foundation. The meeting, initiated by County Agent Deryl Coker and Vocational Agriculture Teachers Roy Crawford of Bovina, J. C. Lane of Friona, and Robert Morton of Farwell, and attended by a group of livestock producers and others concerned with animal health, saw the organization formed and decision made to support state-wide effort.

Screwworm, a pest causing an estimated annual loss of one hundred million dollars, is a primary target of Foundation. Purposes of Foundation are to sponsor research and educational programs on animal health, including diseases, insects, and parasites, to end that hazards of livestock production may be controlled.

Jack McCracken of Bovina was elected chairman of Farmer County group. Joe Jones of Farwell was named secretary - treasurer. Other members of county committee are Bob Wilson of Bovina, Carl Schlenker of Rhea, Noyle Wood of Friona, Jack Wolton of Bovina, Frank Hinson of Lazbuddie and A. L. Black of Friona. "Through county organizations such as this, every livestock producer and other interested person will have an opportunity to support the Foundation and its programs. Producers are being asked to contribute on basis of 50 cents per head for cattle and horses and 10 cents per head for sheep, goats and hogs.

Contributions may be made to any member of county committee. All money collected will be passed on to Foundation for support of existing research facilities and conduct of large scale field tests.

This first program is expected to cost millions of dollars, but if it can remove screwworm from livestock problem scene, annual savings will justify the cost, leaders of movement believe.

Rules Protect Farms

Several provisions have been written into the 1962 feed grain and wheat law, which safeguard the rights of farm operators, tenants, and sharecroppers.

One of the provisions says that if a landlord has not provided the tenant or a sharecropper the chance to participate in the program, then the County Committee may not approve participation in the program.

Another provision states that a landlord shall not be allowed to reduce the number of tenants on a farm operation, or force a tenant to leave a farm, other than for voluntary reasons, which would preclude the tenant or sharecropper from benefiting from the program.

Thirdly, the county committee cannot approve participation, which is necessary before a farm may take part in a program, if it is shown that there might exist between the landlord and tenant any lease or agreement which would force the tenant to pay over to the landlord money earned by the tenant under the program, or which might reduce the size of the tenant's acreage on a farm.

Landlord and tenant are urged, if it is at all possible, to come into the ASCS office together, so that the program provisions may be fully explained to them, says Prentice Mills, office manager.

LIFE...Parents are people who bear infants, bore teenagers, and board newlyweds.

HEC Makes Plans

Six members of the Home Economics Committee of the County Program Building Committee made plans for 1962 programs in the county to be carried out by the Extension Service Agents. Plans were made by the committee Thursday afternoon following the county-wide luncheon in the Friona Methodist Church.

Problems of the county homemakers were discussed in housing, clothing, foods and nutrition, and health. Objectives and goals were planned in an effort that the problems could be made easier.

Since many homemakers are troubled with how to determine good furniture, a county-wide tour was planned to visit a furniture store to compare construction, wood, finish, design, cost and size.

Many homemakers have difficulty in planning accessories throughout the home. Leaders of HD Clubs will be trained by the home demonstration agent so that they can present programs in their clubs.

The committee felt that many homes had problems of landscaping the home and planning for windbreaks. When and how to prune trees and shrubs has always been a problem. To meet this problem the home demonstration agent will train leaders of the HD Clubs and other interested groups how to landscape the home, where, when and how to plant the shrubs, and which shrubs and trees are suitable for this area. The agent will be responsible for programs on pruning shrubs and trees.

Many homemakers have scarred furniture or older furniture that needs refinishing that is still in good condition otherwise. The home demonstration agent will conduct county-wide refinishing furniture workshops in each of the precinct and train HD Club leaders.

Since homemakers have laundering problems with soaps, detergents, equipment, fabrics, drying, ironing, and starching a program will be held. The home demonstration agent will be responsible in conducting meetings in Farwell and Friona to educate homemakers how to launder garments properly.

The committee felt a concern that the citizens need to know more about cancer, diabetes, muscular dystrophy, heart diseases, and cystic fibrosis and symptoms and care of these diseases. To help the people have a better understanding of these meetings a series of meetings will be planned for the communities with everyone invited to attend.

Many homemakers are still using old methods of canning vegetables when newer and better methods could be used for better quality and less spoilage. The committee planned that the home demonstration agent present method demonstrations in each of the HD Clubs and in each precinct to reach all homemakers. A pressure cooker testing clinic would be conducted, too.

Homemakers need help in identifying good cuts of meat and then in proper preparation of each cut. Programs will be held in each precinct on low cost cuts of meat in pork and beef, and how to prepare poultry and fish.

Homemakers are also concerned in meat packaging standards, weights, quality and appearance. They would like to be able to examine the underside of packaged meats for better quality for the cost.

The committee felt these programs would help the needs of the people in the county for 1962.

Planning these needs were: Mrs. Dee Brown, Mrs. Ralph Price, Mrs. Dean Powell, Mrs. Lewis Gore, Mrs. J. D. Sanders, Mrs. Vernon Symcox, Mrs. Clyde Hays, and Mrs. Raymond Martensen.

SOIL CONSERVATION DISTRICT NEWS

The critical water squeeze in the West is growing tighter. In a historic and inevitable re-shaping of public land policy last week, Secretary of the Interior Stewart Udall announced that water conservation must now come first in the order of management priorities. Recognizing the growing demands on water in relation to the limited supply, he announced a new 5-point conservation policy to govern USDI's future management of the National Land Reserve.

Under the new policy, agricultural land entries in areas with declining water tables will not be allowed.

Instead, strong emphasis is placed on protection for present farmers and water users located on or near public lands. The USDI will actively encourage water conservation. It will discourage "mining" of underground water in areas of the West where the Department's Bureau of Land Management is responsible for approximately 168 million acres.

"The old policy clearly did not give adequate protection for farmers and other water users near Federal lands," Secretary Udall declared in his announcement. "Under the previous policy, new agricultural land entries -- even submarginal ones -- were often allowed, which jeopardized existing uses and did not treat water as a renewable resource. We are moving rapidly in States such as Arizona into a period of acute water crises if present growth rates continue, and Federal policies must recognize this paramount fact and place water conservation first in the order of priorities."

What prompted the new policy pronouncement at this time?

The issue centered around the review of appeals on some 300 applications for 160-acre farm homesteads in Arizona, which happens to be Secretary Udall's home state. One would have to say it took considerable courage on the part of the Secretary, and on the part of Assistant Secretary John A. Carver, Jr., who shared in the decision, to turn down the applications.

Back of the decision, however, were the blunt facts of the tightening supply-demand water situation -- "current water requirements of the irrigation of lands already under cultivation exceed the annual rate of recharge to the underground water supply."

NEW USDI CONSERVATION POLICY ON NATIONAL LAND RESERVE.

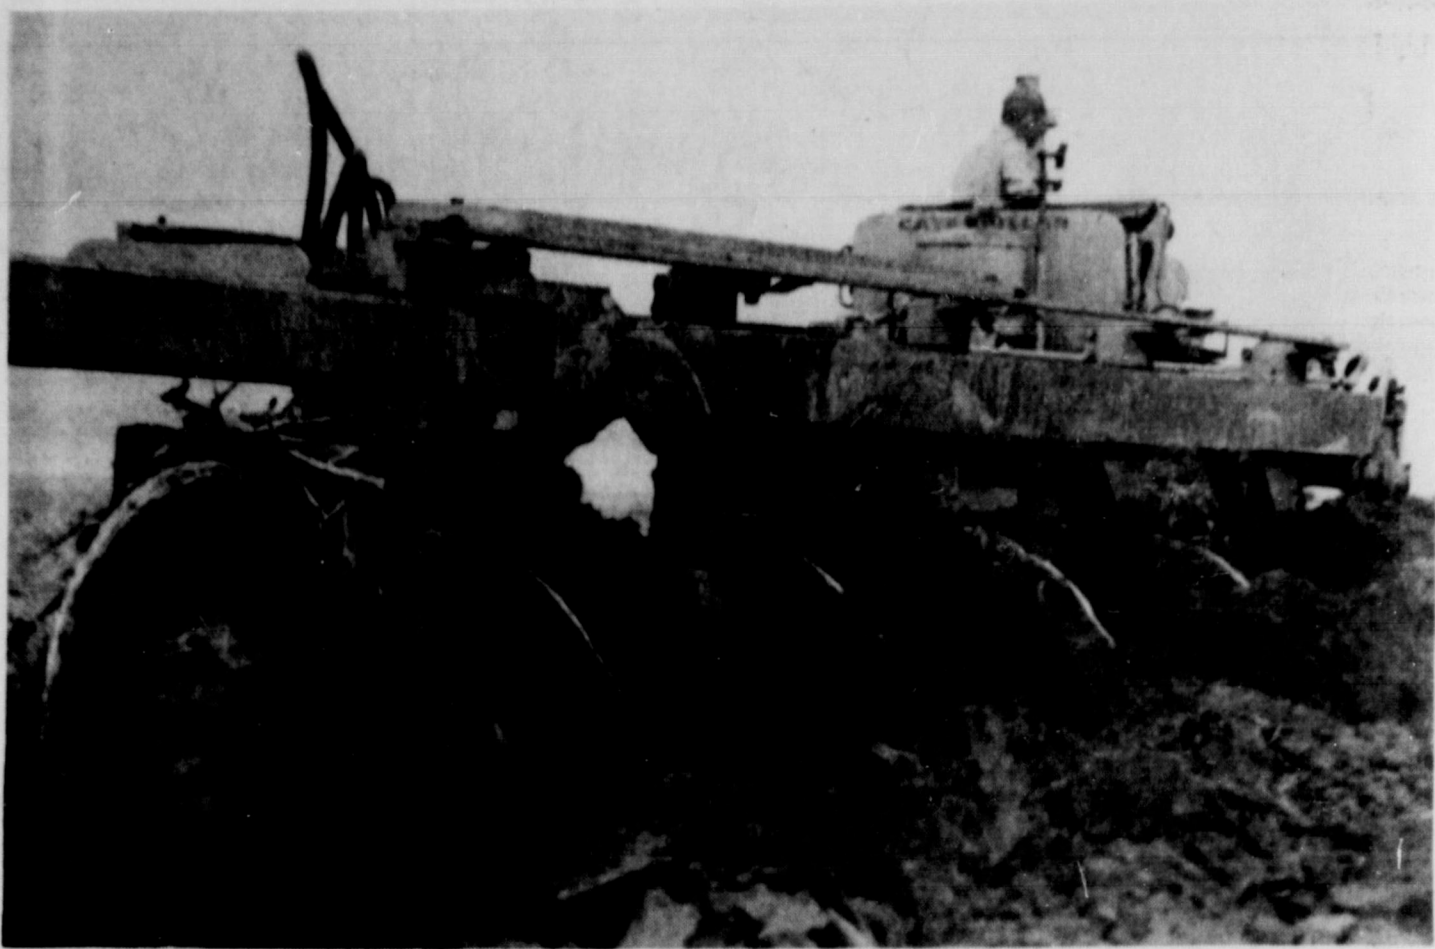

1. Wise conservation of the water resources of the arid and semi-arid lands of the United States must now be a paramount objective of resource management.

2. In many areas of the West existing water supplies are being used to capacity. In some places water is being "mined" from underground reserves far beyond annual replenishment. In the long run, disregard for the conservation of this vital national resource can only jeopardize existing water uses and limit future growth.

3. The Department of the Interior recognizes the important impact which its land management programs have on the Nation's water resources. Such recognition in no way infringes on the obligations of the respective States and of citizens themselves to manage and conserve water resources.

4. In all of its programs, the Department of the Interior will adopt policies which encourage the management of water as a renewable natural resource.

5. Henceforth, wherever

KEEN DISKS . . . bite deep in the fertile earth as deep breaking operations begin. Several Farmer County farmers are bringing in the mammoth plows and turning the earth in preparation for the winter months. The operation here is on Gordon

Massey's farm east of Friona. Barney Baten is herding the powerful Caterpillar across the field where combines completed their work a few days earlier.

Premium Schedule For Quality Hard Wheat Under 1962 Support Program

Premiums ranging from three to 24 cents per bushel for varying qualities of hard red spring, hard red winter and hard white wheat as measured by a haking quality (sedimentation) test have been announced by the U. S. Department of Agriculture.

Under the 1962 wheat price-support program, premiums will be paid on hard wheats with haking quality values of 40 or above on the quality scale. Wheats with a value of 40 or higher are preferred

for commercial bread baking. Hard wheats with no test or testing below 40 will be supported at the basic loan rate for the county under the 1962 program.

The quality premiums under the new schedule are substantially higher than those under the present price support program which is being replaced. Hard wheats with a haking quality value of 40-44 will draw a 3 cent premium; 45-49, 6 cents; 50-54, 10 cents; 55-59, 14 cents; 60-64, 19 cents and those testing 65 or more will draw the 24 cents per bushel premium.

Ben Spears, agronomist for the Texas Agricultural Extension Service, said producers have no sure way to guarantee the level of wheat quality, but that by planting adapted varieties known to have strong gluten characteristics and by following recommended cultural and fertilizer practices, they can increase the probability of harvesting wheat of better quality.

The purpose of the quality premium in the support operation is to provide more of a price incentive to encourage producers to move forward with a wheat quality improvement program, Spears added.

In commenting on the sedimentation test, Spears said it is the feeling of USDA officials that the haking quality test more nearly reflects the true value of hard wheats for making flour for commercial bread baking under modern circumstances. The test reflects both the protein content of wheat and the quality of its gluten and is an index of bread making "strength." Facilities for providing such tests are being expanded to meet expected needs, Spears said.

Watch For Prussic Acid

Johnsongrass and sorghum sometimes develop a high prussic acid content after a frost, and if grazed by livestock, can cause a lot of trouble, warns Dr. C. M. Patterson, extension veterinarian.

Certain chemical changes occur in the frost-wilted plants, and are responsible for the development of the prussic acid, Patterson explains. The poison acts quickly and can kill an animal within a very short time after the damaged plant is eaten. Whether a poisoned animal can be saved depends upon how quickly a veterinarian can get to it, Patterson says.

Frosted Johnsongrass or sorghum should not be grazed until it is completely dry, warns the veterinarian. If it is ready to cut for hay before a frost,

it may be cut the first day after frost if care is taken to see that it is completely cured before haling.

Frost-wilted plants may also be used for silage. Generally, points out Patterson, enough prussic acid is lost in gaseous form during the ensiling process and as the silage is removed and fed to make it safe for livestock. Animals should not be allowed to self-feed from a silo filled with frosted sudan or sorghum.

possible, the Department of Interior will conduct its land management activities on Federal lands in a manner to promote the conservation of water supplies. In its land disposition programs, the Department will avoid actions which would endanger the supply of adequate water for existing users or encourage the unwise dissipation of water reserves.

From the Tuesday Letter-National Association of SCD's - October 3, 1961.

WITH THE COUNTY AGENT

DERYL COKER

Walter Little ran a gran sorghum variety demonstration which has been harvested and results obtained. The plots were planted on April 27, and harvested on October 17. Each plot had 120 lbs. of nitrogen applied when sorghum was about knee high. Yields per acre were adjusted to 15% moisture for all 9 hybrids.

The results are as follows:
T.E. 77 8889
Texas 660 8685
P.A.G. 665 8628
Lindsey 788 8386
Apache 8348
DeKalb F63 7888
Steckley 106 7851
Steckley 214 7672
Frontier 400F 7392

These results are very interesting from that fact that several people had made guesses or tried to pick the top hybrid, before they were harvested. It seems that no one had picked the top 2 as the high producers. It just goes to prove that you can't always look at something and determine what it will do. The best way, of course, is by weights.

With only approximately 3% of our cotton out of the field and about 65% of the grain sorghum harvested the early winter weather is definitely not doing us any good. Cotton quality is going to be hurt and grain sorghum could start falling. The bad weather will, however, give farmers a chance to put harvesting machinery in good shape, so when we do get some pretty weather, they won't be bothered as much with machinery failures.

Even though we are going to be in a hurry to get cotton harvested, let's keep the following in mind:

1. Don't start strippers too early in the morning following heavy dews or showers. Research has shown that harvesting cotton with too high a moisture content can cost the farmers \$10 to \$15 a bale in quality. Cotton gins best at a lint moisture content of about 7 1/2%. A good rule of thumb is to squeeze a few bores and if the cotton bounces back after being squeezed in the hand, it will be too moist for good harvesting and ginning.
2. Provide ample trailer space for each bale of cotton. The USDA estimates that it takes up to 450 cubic feet of space for one bale of machine stripped cotton. To tramp and crush cotton into too small a space results in lower grade cotton. Even gins with the

most elaborate and expensive systems cannot remove all of the small "pin and pepper" trash that is ground into seed cotton when it is tramped into the trailer.

3. Keep strippers and trailers clean. Do not over lubricate. Wipe off excess grease and keep the trailer beds free of dirt.
4. Keeping the strippers centered on the row and operating at the proper speed will help eliminate barked cotton.
5. Keep a few tarpaulins on hand in case of rain or dust storms.

RUBY LESLY AND GARY FOSTER

To Honor 4-H Clubbers

Reba Lesly and Gary Foster, Farmer County 4-H Gold Star Girl and Boy of 1961 will be honored Saturday evening, November 18 at the District 4-H Gold Star Banquet to be held in Amarillo in the YWCA Building at 6:00 p.m.

This banquet is sponsored annually by the electric cooperatives of District 1. Gold Star boys and girls from 22 counties of District 1 will be honored.

The Gold Star Award is the highest county award provided by the Texas Agricultural Extension Service. The club member must be at least 13 years of age as of January 1 of the current year.

Other requirements state that the club member must be an active 4-H member during the current year. The club member also must have completed at least 3 years of club work including the current year. And a club member may receive this award only one time.

Also planning to attend the banquet are Mr. and Mrs. U.L. Lesly, Mr. and Mrs. Nelson Foster, and Extension Agents Miss Ettie Musil, and Mr. and Mrs. Deryl Coker.

HD Agent's Notes

BY MISS ETTIE MUSIL

It's time to start planning for that Thanksgiving turkey. Homemakers are forever puzzled how much turkey to buy for company guests, or even for their small family at home. For each generous serving of roasted whole turkey you may need to allow three-fourths to one pound per person.

Here are some recommended servings needed and how much ready-to-cook turkey you may need. For 4 to 10 servings you will need 4 to 8 pounds of turkey. For 10 to 20 servings, 8 to 12 pounds turkey will be needed.

If you are planning to have more friends or family members home for dinner you may need to plan for a 12 to 16 pound turkey for 20 to 30 servings. A 16 to 20 pound turkey would serve 30 to 40 servings. Don't forget to allow extra servings for evening meal turkey.

Now the question comes up "How long should I thaw my turkey?" or "Does my turkey need thawing before baking?" Unstuffed frozen turkeys, and turkey parts, except boneless

turkey steaks, should be almost completely thawed before cooking. Do not thaw commercially frozen stuffed birds before cooking.

The refrigerator is the best place to thaw. Thaw whole birds and large parts in the original wrappers. Unwrap small parts and separate them so air can reach each piece.

To shorten the time you may thaw turkeys sealed in water-tight wrappers in cold water. Do not use warm water. Since the water will become very cold you will need to change the water often. Allow from 2 to 6 hours, depending on the size of the package. Or thawing may be started in the refrigerator and finished in cold water. Frozen turkeys and turkey parts should be cooked soon after thawing.

It takes about 2 to 3 days to thaw a large whole turkey in the refrigerator. Allow about 1 to 2 days for a small whole bird to thaw in the refrigerator. If you plan for a half, quarter, or half breast parts from a large bird allow 1 to 2 days to thaw. And as I mentioned earlier, do not thaw commercially stuffed turkey. Follow baking directions on the package; they allow time for frozen turkey to thaw and bake.

To make the dressing start preparing the stuffing a day or so ahead of time if you like, but refrigerate dry ingredients and broth separately until time to use the stuffing. Cornbread or bread crumbs or pieces may be made ahead of time and crumbled or cubed.

Do not stuff the turkey until time to roast it. Stuffing a turkey and refrigerating it is not recommended. Turkey may be roasted unstuffed to shorten the cooking time, and the stuffing baked separately.

Now we have the size turkey, it has been thawed in the refrigerator, stuffing has been made except for the baking. Very young birds as fryer-roasters 4 to 8 pounds should be roasted 3 to 4 1/2 hours if they are stuffed, or 2 to 2 3/4 hours if unstuffed. Well-grown young birds to 12 pounds stuffed should be roasted 3 1/2 to 5 hours or unstuffed 2 1/2 to 3 1/2 hours. A 16 to 20 pound stuffed turkey needs to bake 6 to 7 1/2 hours, or unstuffed 4 1/2 to 6 hours.

Roast turkey at moderate oven at 325 degrees. Plan roasting time so that the turkey will be done 20 to 30 minutes before serving. This "rest period" helps make meat juicy and carving easy, and gives you time to make the gravy.

Organize Joint Boys-Girls 4-H Club

A joint boys and girls 4-H community club was organized Tuesday evening, November 7 at 7:30 in the Lazbuddie School Auditorium. Forty-four boys and girls from 9 to 17 years of age have enrolled in the Lazbuddie 4-H Club. A total of 73 boys, girls, and parents attended the meeting.

Farmer County Extension Agents, Miss Ettie Musil and Deryl L. Coker, explained to the group the set-up of the joint community club. One joint club meeting will be held each month composed of 10 minutes inspiration, 15 minutes business, 20 minutes program, and 3- to 45 minutes of recreation.

Officers were elected for 1962. They are president, Danny Miller, vice president, Katie Blackstone, secretary-treasurer, Judy Koelzer, reporter, Johnny Mabry, recreation leader, John Guiley, council delegate, Linda Gleason, and alternate delegate, Marsha Schumann.

Mrs. Harvey Blackstone and Freeman Davis volunteered as organization leaders to help the club with their monthly meetings. Subject matter leaders will be selected later to meet the needs of project interests of the members. Each leader will assist with four to six boys and or girls in subject matter interest groups. These leaders will be trained by the Extension Agents.

Following the adjourning of the club members, the officers of the club, organization leaders, and Extension Agents planned the programs for 1962. All of the club members set

DRILLING STATISTICS FOR AUG. AND SEPT.

During the month of August, 40 new wells were drilled within the bounds of the High Plains Water District; 11 replacement wells were drilled; and 2 wells were drilled that were either dry or non-productive for other reasons. The County Committees issued 72 new drilling permits.

In September, 32 new wells were drilled; 13 replacement wells were drilled; and 4 wells were drilled that were dry. The Committees issued 61 new drilling permits.

Permits issued and wells completed for August and September are listed below by counties.

	Permits Issued		New Wells Drilled		Replacement Wells		Dry Holes Drilled	
	Aug.	Sept.	Aug.	Sept.	Aug.	Sept.	Aug.	Sept.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Cool winter evenings, such as we are sure to be having in the near future, are ideal for making Christmas candy and cookies. If you have saved the unusual glass and tin containers you have bought various things in during the year, drag them out, paint the tops and use them for gift containers for the candy you make.

It is a good idea to make several recipes of different kinds of candy, then wrap various sizes and shapes in Saran wrap and place them in whatever box, jar or other container you have and you will have a gift suitable for anyone on your gift list.

The following recipes are being borrowed from "Treasured Recipes," a cookbook recently published by Lubbock Christian College Associates.

DIVINITY CANDY
2 cups sugar
3/4 cup white Karo
1/4 cup cold water
2 egg whites
Boil sugar, Karo and water until stringy (test in cold water.) Pour a little at a time into the beaten egg whites, beating in the meanwhile. Beat until cool and stiff. Add nuts to suit and pour into buttered pans.

MILLION DOLLAR FUDGE
4 1/2 cups sugar
1 1/2 oz. can evaporated milk
1/2 cup butter or oleo
1 pint marshmallow cream
3 6 oz. packages chocolate chips
1 teaspoon vanilla
Combine first 3 ingredients and bring to a boil; boil 6 minutes, stirring constantly. Remove from flame and add re-

maining ingredients. Mix until chips are melted. Pour into 2 well greased 6x8x2" pans. Cool and cut into squares. Makes 5 pounds. 1 pound of nuts may be added if desired.

DATE LOAF CANDY
3 cups sugar
1/2 cup water
1/2 cup milk
1/2 cup Karo
1 box dates
2 cups chopped pecans
Combine first 4 ingredients and bring to a boil. Add dates. Cook until mixture forms soft ball in cold water. Add nuts, remove from fire and beat until real thick and heavy. Have wet flour sack ready, pour candy onto sack and roll. Cool and slice.

BUTTERSCOTCH CARAMELS
3 cups sugar
1 cup butter
1 cup heavy cream
1 cup light cream
1 3/4 cups white Karo
1 teaspoon vanilla
2 cups pecans
Cook first five ingredients to soft ball stage (240 degrees). Pour over pecans in well greased pan after adding vanilla. When cool cut in squares and roll in wax paper.

Before roasting place turkey on a rack in shallow pan, breast side up unless it is to be turned during roasting. Small birds roast well without turning. Heavy birds roast more evenly if started breast down and turned when half done. This heavy bird would weigh about 18 pounds. Roast halves and quarters skin side up.

Brush the skin of the turkey with melted fat. Do not add water. Do not cover the pan. You may put aluminum foil tent over the turkey or a piece of thin cloth moistened with fat. Keep basting the turkey with pan drippings or melted fat several times during roasting.

Right after the meal, remove any stuffing left in the turkey. Cover stuffing and bird lightly, and refrigerate at once. Measurized portions of meat may be frozen. Cool broth and gravy quickly. Refrigerate at once.

OVERSEAS CANDY

3 cups sugar
1 cup evaporated milk plus 3 tablespoons
1 cup white Karo
1/4 pound butter
1 pound pecans
1/4 teaspoon salt
1 teaspoon vanilla

Beat all together, except vanilla until it forms soft ball when tested in cold water. Let mixture partly cool in pan, then pour into mixer. Add vanilla and beat until thick. Drop by teaspoons onto buttered wax paper. Cool.

Good Response To Institute

Prospects for a record crop and wide grower response indicate participation in the Cotton Producers Institute in the High Plains will be greater than the original estimate of one million bales the first year.

The optimistic outlook for the voluntary grower plan to achieve a 25 per cent increase in cotton markets and acreage was pointed up this week by Roy Forkner, Lubbock, Chairman of the High Plains Cotton Institute for the Institute.

A check with Plains growers shows participation in areas where meetings were first held in running as high as 85 per cent in some counties, with the average will above 50 per cent.

Organization of the Institute, controlled and financed at \$1.00 per bale by producers, is nearing completion. Committee members in the counties now are explaining the plan to neighbors and urging them to join.

"The Institute gives us two powerful tools," said Howard Alford of Lubbock, "We'll use research to cut production costs and nationwide advertising to cultivate customers for cotton products. Research also will help us improve cotton products and find new uses."

FOOTSAVING EDUCATION

by James E. Edwards

Can a toe which overlaps another be corrected?

The correction of a deformity is outside the province of shoemen. Our goal is to prevent the trouble by choosing well designed shoes, fitting them carefully and urging parents to avail themselves of frequent size checkups.

It would seem that crooked toes should be easier to straighten than irregular teeth and everyone knows what wonderful work is being done these days in orthodontia. The drawback to "ortho-toe-zia" (if there were a science of toe straightening) is that we don't have to look at crooked toes every time a child opens his mouth so there are few parents who become concerned! Another drawback would be the nuisance factor. Dental braces are installed and are left in the child's mouth whereas any device that would direct toe growth would probably be painful to walk on and so could be worn only at night.
