LISTEN TO LUKE

Politics are about to get to a degree that calls for comment from this columnist. Oh, how we dread to get started on such things!

HST had his feelings hurt when he wasn't invited to go to Europe with Ike. Dean Acheson, HST's Secy. of State, is doing a bit of quarterbacking from the bleachers, too. He says Ike likes to travel too much and resorts to too much "personal diplomacy".

Mr. Acheson should know. He can well remember how FDR and Harry jumped on every boat handy to have a confab with Uncle Joe.

In giving to Stalin's demands Russia was put in control of Eastern Europe and started a cold war which has cost upwards of 700 billion dollars with no end in sight.

Acheson himself drew a line in the Far East and announced that the U.S. would defend its position up to that line. The result was the Korean war's 135,000 U.S. casualties which is still referred to by that administration as a "police action".

If Ike's travels will avoid or forestall blunders like that, let him travel far and wide!

Mr. Johnson and Mr. Yarborough are both complaining that the President has not cooperated with the Congress in giving away all the money to schools. They both are unhappy because they couldn't get the jam jar down on the bottom shelf.

Of course LBJ is not running for the Democratic nomination but he has on his track shoes and has sharpened his spikes just in case the people demand he run.

It has been told he is even now working on his acceptance speech.

Price is seeking a third term as governor because there is so much left undone from his administration — and how!

This could go on and on as time goes by before the new LBJ primary date. There may be a lot of vote-changing before that day comes.

We think it is foolish for a voter to say how he will vote until all the candidates are in the running.

Who knows, there might ever be a candidate yet who is qualified for the office.

Want to hear something interesting now that Thanksgiving is over? Ask your child to tell you the story of the first Thanksgiving, why the Pilgrims came to this country, why we sought and struggled here in this land for our independence from England, why we fought any of the subsequent wars? Ask a 15-year-old who Neville Chamberlain was, Quisling, Benito Mussolini, Adolf Hitler, Yamamoto?

It is enlightening to know and realize how little "Americanism" is learned by the pupils in today's schools.

They hear more about the government's aid to education, the subsidy to farmers, the giveaway program of this bureau and that commission instead of the bravery of Paul Revere, the ingenuity of Betsy Ross, the patience of Florence Nightingale suffering at Valley Forge the anguish of Argonne forest the guts at Guadalcanal or the anxiety at Anzio.

What's the matter with waving a flag every once in a while and appreciating the privilege?

"The boys made a very good showing in every game and by doing this, they have brought great respect to your community and school."

'Mail Early' Urged By Postmaster

Postmaster Clyde Griffith this week announced his annual "Mail Early for Christmas" campaign, and outlined plans for insuring delivery of all Christmas gifts and cards by Christmas Eve. "Public cooperation," he said, "has been a key factor in moving Christmas mail on time in recent years, and I am hopeful that it will be even better this year."

The Postmaster urged patrons of the Sanderson post office to start mailing Christmas packages now. Packages to distant places especially should be mailed as early as possible.

"This is also the week to prepare and mail your out-of-town Christmas cards," he said.

Mr. Griffith gave these pointers on the proper mailing of packages, "Use sturdy corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with a strong cord. Cartons containing several gift packages should be stuffed with tissue or old newspapers to cushion the contents."

"It is also important to make sure that your package bears the correct mailing address and your return address. If you are sending your package to a large city be sure to include the addressee's zone number. Including the zone number in the address always will facilitate delivery in large cities. Zone numbers should also be used on Christmas cards and other mail to cities with postal zones."

"The address should be on the top of the package, and it should be carefully written or lettered. A piece of transparent cellophane tape placed over the address will usually prevent defacing in transit." It is also a good idea to include the address inside the package in case the outside should become defaced.
